

ADMINISTRATIVE STUDIES

Subject abbreviation: ADST

College of Humanities, Arts, and Social Sciences

Committee in Charge

Matthew Mahutga, Chair (Sociology)
Taradas Bandyopadhyay (Economics)
Jonathan Eacott (History)
Jana Grittersova (Political Science)
Amanda Lucia (Religious Studies)
Jason Weems (Art History)
Milagros Peña, Dean, *ex officio*

Major

B.A. degrees are offered in Art History, Economics, History, Political Science, and Sociology with Administrative Studies. A B.S. degree is offered in Sociology with Administrative Studies. Specified departmental requirements are listed under respective departmental listings.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

1. All requirements of the College of Humanities, Arts, and Social Sciences
2. Specified requirements of the relevant department, to include at least 36 upper-division units in that discipline
3. **Administrative Studies requirements** (37 units)
 - a) Four lower-division courses (17 units)
 - (1) BUS 010, BUS 020
 - (2) STAT 048 or equivalent (may be used to satisfy breadth requirements)
 - (3) CS 008 (may be used to satisfy breadth requirements)
 - b) Two upper-division courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 130 or ECON 162/BUS 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151 or SOC 171
 - (4) POSC 181 or POSC 182 or POSC 183
 - (5) ANTH 127 or ANTH 131

These two courses must be outside the discipline of the relevant major and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents. c) A three-course track (12 units) in Business Administration courses, from one of the following:

- (1) Organizations (General): BUS 100, BUS 107, BUS 176/SOC 176, BUS 158/ANTH 105, SOC 150, SOC 151
- (2) Human Resources Management/Labor Relations: BUS 100, BUS 107,

BUS 152/ECON 152, BUS 153/
ECON 153, BUS 155, BUS 157,
PSYC 142

(3) Business and Society: BUS 100,
BUS 102, BUS 107, PHIL 116, POSC
182, POSC 186

(4) Marketing: BUS 103, and two from
BUS 112, BUS 113, BUS 114 or
BUS 117

(5) Managerial Accounting/Taxation:
BUS 108, and two from BUS 166,
BUS 168A, or BUS 168B

(6) Financial Accounting: BUS 108, BUS
165A, BUS 165B

(7) Finance: BUS 106/ECON 134 and
two

from BUS 134, BUS 136, BUS 137,
BUS 138, BUS 139

(8) Management Information Systems:
BUS 101, BUS 171, BUS 173

(9) Production Management: BUS 104/
STAT 104, and two from BUS 105,

BUS 122, BUS 127/STAT 127

ANTHROPOLOGY

Subject abbreviation: ANTH

**College of Humanities, Arts,
and Social Sciences**

Juliet McMullin, Ph.D. Chair
Department Office, 1317 Watkins Hall
(951) 827-6466; anthropology.ucr.edu

Professors

Sang-Hee Lee, Ph.D.
Juliet McMullin, Ph.D.
Yolanda Moses, Ph.D.
Sally Allen Ness, Ph.D.
Susan Ossman, Ph.D.
Travis Stanton, Ph.D.
Karl Taube, Ph.D., *Distinguished Professor*
João Vargas, Ph.D.

Professors Emeriti

Eugene N. Anderson, Ph.D.
Alan R. Beals, Ph.D.
Scott L. Fedick, Ph.D.
Alan G. Fix, Ph.D.
David B. Kronenfeld, Ph.D.
Martin Orans, Ph.D.
Thomas C. Patterson, Ph.D.
Anne Sutherland, Ph.D.
Carlos G. Vélez-Ibáñez, Ph.D.
Christine Ward Gailey, Ph.D.
Philip J. Wilke, Ph.D.

Associate Professors

Derick Fay, Ph.D.
Christina Schwenkel, Ph.D.
Kevin Vaughn, Ph.D.

Assistant Professors

Sara K. Becker, Ph.D.
Elizabeth Berger, Ph.D.
Anthony Jerry, Ph.D.
Hyejin Nah, Ph.D.
Nawa Sugiyama, Ph.D.
Jennifer Syvertsen, Ph.D.
Kenichiro Tsukamoto, Ph.D.

Assistant Professor of Teaching

Worku Nida, Ph.D.

Majors

Anthropologists study the way diverse groups of people understand and live in various settings ranging from urban environments to rural villages all over the world. They are interested in such questions as: What does it mean to be human? What activities define the social life of groups and how are they related? How do the members of groups communicate? What is the material evidence for their social and biological history? What are the historical, social, political, economic, and environmental forces that have helped to shape the experiences of particular groups of people, both in the past and in the contemporary world? And, how do human societies change and why? Anthropologists apply this knowledge for the benefit of the peoples whose communities they study.

Anthropology includes four broad subfields:

1. Sociocultural anthropology, the comparative study of communities in their local and global contexts
2. Archaeology, the investigation of past societies through their material and written remains
3. Biological anthropology, which focuses on the evolution of human beings as a species and the interaction of human biological variability with culture
4. Linguistic anthropology, which explores the interconnections of language, culture, thought, and social structure

Career Opportunities

Anthropology prepares students for dealing with the challenges of an increasingly international economy, transnationally connected communities, and multicultural citizenries. Besides helping students hone and refine analytical skills and critical thinking, anthropology helps them recognize the impact of cultural dynamics on interpersonal communication and on the social structures that affect everyone's daily lives. Anthropology majors interested in pursuing graduate studies are excellent candidates for programs in anthropology, business, law, journalism, medicine, social work, urban planning, and almost any other profession that calls for working with people from a variety of backgrounds and in a number of different settings.

The skills and knowledge learned as an undergraduate anthropology major help students understand the connections between people. Anthropology majors who are not planning to pursue graduate or professional studies immediately can forge careers as teachers at the primary and secondary levels; interviewers; recruiters in executive and specialized employment agencies; staff and managers in various local, state, and federal governmental agencies as well as in a variety of national and international non-governmental organizations and community development organizations; archaeological field or laboratory technicians; intercultural communications professionals in hospitals and other organizations; or union organizers.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The Department of Anthropology offers the B.A. and B.S. degrees in Anthropology and the B.A. degree in Anthropology/Law and Society. The B.S. program is intended for those planning professional careers in anthropology or in the related fields mentioned above. The B.A. programs are intended for those desiring a broad liberal arts curriculum.

Anthropology Major

The major requirements for the B.A. and B.S. degrees in Anthropology are as follows:

1. Lower-division requirements (four courses [at least 16 units])
 - a) ANTH 001, ANTH001H, or ANTH001W, ANTH 002, ANTH 005, and ANTH 007 with a grade of C- or better in each
2. Upper-division requirements
 - a) One theoretical/history course ANTH 100.
 - b) One methods course; ANTH 165E, ANTH 165F, ANTH 165G, or ANTH 165I
 - c). One regional course; ANTH 115E-Z or ANTH 140E-Z
 - d). At least one upper-division course in each of the subdisciplines of anthropology:
 - (1) Archaeology
 - (2) Biological anthropology
 - (3) Cultural and social anthropology
 - (4) Linguistic anthropology
 - e). Two courses (at least 8 units) of upper-division Anthropology for the B.A.; three courses (at least 12 units) for the B.S.

Note: Students are strongly urged to take the lower-division requirements in the first two years of university study. Students intending to major in anthropology should work closely with a faculty advisor in planning their programs.

Anthropology/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major requirements for the B.A. degree in Anthropology/Law and Society are as follows:

1. **Anthropology requirements**

All requirements for the B.A. in Anthropology. See Anthropology Major above for specific requirements.
2. **Law and Society requirements (36 units)**
 - a) PHIL 007 or PHIL 007H
 - b) LWSO 100 (with a grade of "C" or better)
 - c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
 - d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165,

POSC 167, PSYC 175, SOC 159

- e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180

- f) LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Anthropology requirements and Law and Society requirements).

Minor

The Department of Anthropology offers a minor in Anthropology which consists of 24 upper division units. Many upper division anthropology courses have lower division prerequisites. Lower division prerequisites do NOT count towards the 24 unit requirement for the minor.

The courses are to be selected as follows:

1. Two upper-division courses in cultural anthropology from ANTH 103, ANTH 114, ANTH 116, ANTH 117, ANTH 121, ANTH 122, ANTH 124, ANTH 125, ANTH 126, ANTH 127 or ANTH 127S, ANTH 131, ANTH 132, ANTH 133, ANTH 136, ANTH 137, ANTH 139, ANTH 143, ANTH 145, ANTH 147, ANTH 148, ANTH 149/WMST 149, ANTH 160, ANTH 162, ANTH 163, ANTH 168/ETST 148/LNST 168, ANTH 170, ANTH 173, ANTH 174, ANTH 175, ANTH 177, ANTH 179, ANTH 182, ANTH 187 (ANTH 001 is the normal lower-division prerequisite for these courses.)
2. Two upper-division courses (8 units) from any ONE of the following subdisciplinary areas: (Both courses MUST be taken in the same subdiscipline)
 - a) Archaeology
 - (1) Prerequisite: ANTH 005
 - (2) Courses: ANTH 110, ANTH 111, ANTH 112, ANTH 113, ANTH 118, ANTH 172, ANTH 178/WMST 178
 - b) Physical/Biological Anthropology
 - (1) Prerequisite: ANTH 002
 - (2) Courses: ANTH 104, ANTH 107, ANTH 150, ANTH 152, ANTH 153, ANTH 155, ANTH 158
 - c) Linguistic Anthropology
 - (1) Prerequisite: ANTH 003
 - (2) Courses: ANTH 120, ANTH 123, ANTH 167/LING 167
3. One upper division course (4 units) pertaining to a geographic area from ANTH 115 (E-Z), ANTH 128, ANTH 136 or ANTH 136S, ANTH 140 (E-Z), ANTH 151, ANTH 157, ANTH 161/LNST 161, ANTH 168/ETST 148/LNST 168
4. One upper division methodological course (4 units) from ANTH 165E, ANTH 165F, ANTH 165G, ANTH 184, ANTH 185

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Visit the departmental Study Abroad website at anthropology.ucr.edu/undergraduate/study-abroad.html. Consult the departmental student affairs officer for assistance.

Graduate Program

The Department of Anthropology offers the M.A., M.S., and Ph.D. degrees in Anthropology.

Doctoral Degree

The graduate program transforms scholars into professional anthropologists who will variously engage in research, teaching, policy-related and/or administrative activities that benefit the people with whom they work. The program focuses on how people living in various settings participate in and adapt to processes of change and transformation, both historically and in the contemporary world. The faculty is committed to an integrated, socially engaged concept of the discipline. The traditional subfields — sociocultural anthropology, biological anthropology, archaeology, and linguistics — are crosscut by a series of concentrations that constitute areas of strength. The most developed concentrations are (1) the applied anthropology of transnational processes (inequality, migration) and the border and binational communities associated with globalization and the internalization of capital; (2) the archaeology of Mesoamerica and Western North America; (3) cultural and political ecology. The department has close working relationships with other programs on campus.

The department is dedicated to educating the next generation of professional anthropologists. The faculty consists of active research scholars with solid records of publication, conducting original research, obtaining extramural grants, and placing graduate students in regional, national, and international labor markets. Aware of the current structures of employment, faculty prepare students to pursue both academic and nonacademic careers.

Admission

Applicants must supply GRE General Test scores, official transcripts from all institutions attended since high school, three letters of recommendation, a writing sample, and a personal statement specifying why they wish to undertake and complete graduate training at the UCR Department of Anthropology.

Course Requirements

During their first year, students complete the two quarter seminar sequence ANTH 200A and ANTH 200B (Core Theory in Anthropology). Students must acquire a basic understanding of three of the four subfields (sociocultural

anthropology, biological anthropology, archaeology, and linguistic anthropology). To fulfill the breadth requirement, students must take at least one graduate course in each of two subfields outside the student's major focus.

Language Requirement

Students must demonstrate at least a reading knowledge in one language other than English. In some cases, the student's advisor may require knowledge of a second language. The choice of language(s) and the method of demonstrating competence should be determined in consultation with the student's advisor. All students must file a Statement of Plan to Fulfill the Language Requirement by the end of the second quarter of their first year in residency. This includes students who are fully bilingual or whose primary language is not English. Competency may be demonstrated by the following:

1. Placing higher than level 3 in the Language Placement Examination,
2. Receiving a grade of at least "B" or "S" in a reading skills course or level 3 traditional language course, or
3. Alternative certification

In addition, students who plan to conduct fieldwork in a non-English setting must acquire conversational skills in the appropriate language before commencing fieldwork. Because language acquisition is a slow process, students are encouraged to begin language training early in their graduate program.

Methodological Skills Requirement

Students must demonstrate competency in a qualitative or quantitative methodological skill such as GIS, lithic analysis, statistics, or hieroglyphic analysis. The choice of methodological skill should be determined in consultation with the student's advisor. All students must file a Statement of Plan to Fulfill the Methodological Skills Requirement by the end of the second quarter of their first year in residency.

Master's Examination

Students take the master's examination during the week of winter-quarter examinations of their first year. The examination is based on the material covered in the ANTH 200A and ANTH 200B sequence and is required of all students, including those holding a master's degree from another institution. Depending on the student's performance on the test, the faculty will recommend one of the following:

1. **Pass with Distinction or High Pass**
Automatic continuation in the Ph.D. program and award of the master's degree under Graduate Division Plan II.
2. **Pass**
Awarding of the master's degree under Graduate Division Plan II, but a successful retake (Pass with Distinction or High Pass) is required to continue in the Ph.D. program.
3. **Fail**
Master's degree not awarded, but one retake within six months is allowed for potential awarding of the master's degree under Graduate Division Plan II.

The **Preliminary Research Statement** is designed to present the research orientation for

an intended dissertation topic and to explain how the student intends to develop and pursue the area of research. The statement should present a comprehensive plan of study and a timeline covering the remainder of the student's graduate career, and outline intended areas, theories, and methods. It should be considered a precursor to the materials developed later in the research proposal and the written qualifying examination. Designating a dissertation committee is part of completing the statement.

The **Written Qualifying Examination** is a research paper written during a specified two-week period. The examination question is generated by the faculty advisor in consultation with the student and the dissertation committee, and must be approved by the department before the student can begin the examination.

The **Research Proposal** prepares students to undertake dissertation research and provides, in part, the basis for the oral qualifying examination. The length and format of the proposal should be similar to that of a proposal for a major funding agency.

Students must give a **Public Oral Presentation** to the department, at the James Young Colloquium, or at a national or international meeting. This presentation is intended to provide the student with experience in presenting research papers in a public context.

The **Oral Qualifying Examination** involves a demonstration of general competence in anthropology, combined with an extended discussion of the proposed dissertation research (preparation, methodology, significance, etc.).

Once students have satisfactorily fulfilled the courses requirement (including breadth requirement), language requirement, methodological skills requirement, master's examination, preliminary research statement, written qualifying examination, research proposal, public presentation, and oral qualifying examination, they are advanced to candidacy for the Ph.D. and formally begin research for the dissertation.

Dissertation and Final Oral Examination (Dissertation Defense)

After advancement to candidacy, students complete a dissertation representing original research within their field of specialization. Dissertations generally require a year of field research followed by an additional year of data analysis and write-up. After completing the dissertation (or a substantial portion of it), students present an oral, public defense of the dissertation.

Professional Development Requirement

All students must complete professional development training by the end of their 9th quarter. This is fulfilled by taking ANTH 210B before taking their Ph.D. Oral Exam.

Master's Degree

The M.A. degree in Anthropology is normally awarded as part of the Ph.D. program, rather than as a separate degree objective.

Plan II (Comprehensive Examination)

Candidates complete 36 units, of which at least 18 must be 200-series courses and must include the ANTH 200A and ANTH 200B sequence,

and pass a written comprehensive examination prepared by a departmental committee.

M.A. in Anthropology and Education

The M.A. is offered in cooperation with the Graduate School of Education; see the listing under Education or inquire at either office for further information.

M.S. Degree

Plan I (Thesis) Candidates must complete 56 units, of which at least 24 must be 200-series courses; courses for the area of specialization as specified by the department; and an acceptable thesis.

Lower-Division Courses

ANTH 001 Cultural Anthropology 4 Lecture, 3 hours; discussion, 1 hour. Explores the basic contributions of anthropology to the understanding of human behavior and culture and the explanation of similarities and differences among human societies. Addresses the relevance of materials drawn from tribal and peasant culture to problems of the modern world. Stresses the application of anthropological methods to research problems. Credit is awarded for only one of ANTH 001 or ANTH 001H or ANTH 001W.

ANTH 001H Honors Cultural

Anthropology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ANTH 001. Explores the basic contributions of anthropology to the understanding of human behavior and culture and the explanation of similarities and differences among human societies. Addresses the relevance of materials drawn from tribal and peasant culture to problems of the modern world. Stresses the application of anthropological methods to research problems. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ANTH 001 or ANTH 001H or ANTH 001W.

ANTH 001W Cultural Anthropology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. Explores the basic contributions of anthropology to the understanding of human behavior and culture and the explanation of similarities and differences among human societies. Addresses the relevance of materials drawn from tribal and peasant culture to problems of the modern world. Stresses the application of anthropological methods to research problems. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of ANTH 001 or ANTH 001H or ANTH 001W.

ANTH 002 Biological Anthropology 5 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. A survey of past and contemporary human variation and evolution considered from the perspective of the fossil record, inferences from nonhuman primate biology and social behavior, and the forces of evolution.

ANTH 003 World Prehistory 4 Lecture, 3 hours; discussion, 1 hour. Examines the cultural history of humankind, from the beginning of tool-using behavior in the Old World to the rise of complex social and political systems (civilizations) in both the Old and New World.

ANTH 005 Introduction to

Archaeology 5 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. A general introduction to the aims and methods of archaeology, in the field and in the laboratory. Briefly surveys world prehistory as revealed by these methods.

ANTH 006 Introduction to World

Music 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A survey of people, identity, and music making. Includes listening to music from many cultural contexts. Also covers a variety of scholarly topics in world music. Cross-listed with MUS 006.

ANTH 007 Introduction to Linguistic

Anthropology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. Introduces linguistic anthropological understanding of how language not only reflects but also refracts and shapes our social, political, cultural, and moral realities, values, and interests. Examines linguistic anthropological theories, ethnographies, and methodologies to explore how, to what extent, and why language is unexpectedly cultural, social, and political. Credit is awarded for one of the following ANTH 007 or ANTH 007S.

ANTH 007S Introduction to Linguistic

Anthropology 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): none. Introduces linguistic anthropological understanding of how language not only reflects but also refracts and shapes our social, political, cultural, and moral realities, values, and interests. Examines linguistic anthropological theories, ethnographies, and methodologies to explore how, to what extent, and why language is unexpectedly cultural, social, and political. Credit is awarded for one of the following ANTH 007S or ANTH 007.

ANTH 010 Mysteries of the Ancient

Maya 4 Lecture, 3 hours; research, 3 hours. An introduction to all aspects of the ancient Maya civilization of southern Mexico and Central America. The course will explore Maya origins, political organization, agriculture, art, religion, architecture, hieroglyphic writing, and the unexplained collapse of the civilization.

ANTH 012 Great Discoveries in

Archaeology 4 Lecture, 3 hours; extra reading and written exercises, 3 hours. Introduces the methods and goals of archaeology through examples of "great discoveries" that have altered our understanding about the past. Explores discoveries from around the world, including such well-known examples as King Tut's tomb, Pompeii, and the lost cities of the ancient Maya. Also covers lesser-known recent finds and the application of modern scientific technologies in archaeology.

ANTH 020 Culture, Health, and

Healing 4 Lecture, 3 hours; consultation, 1 hour. Surveys health, disease, curing, and nutrition in a cross-cultural perspective. Covers how

different cultural groups consider disease, health maintenance, and healing; how traditional beliefs about health and nutrition arise; and what we can and cannot learn from traditional health-seeking practices.

ANTH 027 Art of Pre-Columbian

America 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. A survey course that provides a background to the ancient art of Mexico, Central America, and the Andean region of western South America. Discusses art of pre-Columbian America according to the three broad cultural regions of Mesoamerica, the lower part of central and northwestern South America, and the Andean area. Cross-listed with AHS 027 and LNST 027.

Upper-Division Courses

ANTH 100 History of Anthropological

Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or consent of instructor. A survey of the history of theory in anthropology and the development of the discipline. Focuses on useful ideas from these theories and methods anthropologists have developed to study other societies.

ANTH 101 Contemporary Anthropological

Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 100. Explores the core ideas in modern anthropology about culture and society. Covers basic issues of contemporary theory since the 1980s. Explores the new methodologies and application of theory to ethnography.

ANTH 103 Introduction to Visual

Anthropology 4 Seminar, 3 hours; individual study, 3 hours; outside research and projects, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. An introduction to the field of visual anthropology. Examines the similarities and differences between ethnographic film, critical studies, and written ethnographies. Explores the politics of representing other cultures visually. Cross-listed with MCS 103.

ANTH 104 Bioarchaeology 4 Lecture, 2

hours; practicum, 3 hours; research, 3 hours. Prerequisite(s): ANTH 002 with a grade of "C-" or better. Introduces the study of bioarchaeology in order to explore human skeletal remains from archaeological settings. Topics include the history and ethics of studying human remains, mortuary archaeology, methodological shifts in skeletal research, and interpretation of human skeletons using various methods.

ANTH 105 Organizations as Cultural

Systems 4 Lecture, 6 hours; extra reading and written exercises, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the role of culture in the formation and management of complex bureaucratic organizations. Covers types of organizations and organizational cultures, the impact of the cultural environment, and problems posed by rapid cultural change. Offered in summer only. Cross-listed with BUS 158.

ANTH 106 Gender and Genocide 4 Lecture,

3 hours; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S;

or consent of instructor. Examines gendered dimensions of contemporary and historical genocides. Analyzes the ways gender ideologies intersect racialization and ethnic marking. Explores how gender shapes selection, forced labor, torture, and murder. Considers gender ideologies in relation to collective, institutional, and individual responses to genocide and genocidal campaigns. Cross-listed with GSST 125.

ANTH 107 Evolution of the Capacity For

Culture 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or ANTH 002 or ANTH 003 or relevant preparation in psychology or biology or consent of instructor. An examination of the evolution of the biological and social capacities that have made culture the central attribute of the human species. Topics include the evolution of human diet, tool-making, the family and kinship, and language.

ANTH 108 Anthropology of Global

Media 4 Lecture, 3 hours; outside research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the global production, transmission, and consumption of mass media in diverse national and transnational contexts. Includes debates over the power of media; construction of knowledge of others; affective responses to images of violence; practices of self-representation; and the ways in which consumers accept, reject and negotiate media messages.

ANTH 109 Women, Politics, and Social

Movements: Global Perspectives 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to Third World women's politics. Covers women's politics from a global perspective emphasizing South Asia, sub-Saharan Africa, and the Caribbean. Cross-listed with GSST 109.

ANTH 110 Prehistoric Agriculture 4 Lecture,

3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A cross-cultural perspective on prehistoric agriculture as resource management, economic system, and political tool. Archaeological methods and theory of reconstructing agricultural systems and their role in prehistoric societies.

ANTH 111 Peopling of the New

World 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Consideration of the archaeological, biological, linguistic, and dating evidence documenting the nature and timing of the earliest occupation of the Western Hemisphere by human populations.

ANTH 112 Settlement Patterns and Locational

Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. An archaeological perspective on spatial behavior from architectural design to regional economic systems. Provides an introduction to a broad range of issues and analytical perspectives with an emphasis on theoretical approaches and case studies.

ANTH 113 Ancient Households and

Communities 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W; ANTH 003 or ANTH 005; or consent of instructor. Explores archaeological perspectives on households and communities. Discusses their composition, function, and meaning. Illustrates with specific cases from diverse cultural contexts. Topics include everyday life in ancient households and communities, social and economic reproduction, and long-term stability and change.

ANTH 114 Blackness and Mass

Incarceration 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent by instructor. Introduction to the data, policy, political debates, and grassroots initiatives addressing unprecedented current incarceration in the United States. Critically investigates role of race and blackness in incarceration trends, new trends in policy, and alternatives to incarceration.

ANTH 115 (E-Z) Archaeological

Interpretations 4 Prerequisite(s): ANTH 003 or ANTH 005. Study of the prehistory of different regions of the world. Emphasis is on the method and theory underlying archaeological investigations of the nature of people and culture and the course of human development.

ANTH 115E North American

Prehistory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. Interpretation of the archaeological record of North America from initial peopling of the continent to the historic period.

ANTH 115M Prehistory of California 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. A survey of prehistoric cultures of California from the earliest settlement to the historic period.

ANTH 115R Archaeology of Eastern

Mesoamerica 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. An introduction to Mayan archaeology intended to provide an overview of ancient Maya cultural history from the Formative period to the time of Spanish contact. During the course, particular Maya sites will be described in detail.

ANTH 115S Archaeology of Western

Mesoamerica 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. An introduction to the archaeology and culture history in the New World nuclear area of Western Mesoamerica from the occupation of this area before 10,000 years ago to the arrival of Spanish Europeans in A.D. 1519.

ANTH 115T Prehistory of the

Southwest 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. A survey of prehistoric cultures of the American Southwest from earliest settlement to the historic period.

ANTH 115U Andean Prehistory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005 or consent of instructor. A description of Andean culture history, emphasizing Peru, from the earliest

documentation of human occupation to the Spanish conquest of the Inca. Topics include origins of food production, early ceremonial architecture, Paracas textiles, the Nasca lines, Moche iconography and ritual, and Inca architecture. Discussion of major sites and their architecture, ceramics, sculpture, and other archaeological remains.

ANTH 115X Ancient Oaxaca 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W; ANTH 003 or ANTH 005; or consent of instructor. Explores current understanding about ancient Zapotec, Mixtec, and neighboring cultures in Oaxaca, Mexico, the location of the earliest Mesoamerican state system and one of its earliest cities.

ANTH 116 Business Cultures and

Identity 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or consent of instructor. Examines major debates, methods, and theories in studies of entrepreneurship and the commodification of (ethnic) cultures in transnational and cross-cultural contexts. Critically investigates how identity shapes and is shaped by entrepreneurial success, with special attention to the contested and shifting meanings of entrepreneurial success and identity formations.

ANTH 117 Anthropology of Cities 4 Lecture, 3 hours; field, 1 hour; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of the instructor. Examines theoretical and methodological debates in the anthropological study of cities and urban life. Uses ethnographic case studies in Asia, Africa, and Latin America to explore cultural practices and representations of urban space, and struggles over rights to the city. Topics include urban inequality, ecology, housing, planning, and redevelopment.

ANTH 118 Origins of Cities 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or ANTH 003 or ANTH 005 or consent of instructor. Explores new forms of social, economic, and political organization that developed with the advent of cities. Examines case studies of the rise of urbanism in both the Old and New Worlds to investigate how and why cities emerged and consolidated.

ANTH 119 The Anthropology of

Tourism 4 Lecture, 3 hours; extra reading, 1 hour; field, 1 hour; term paper, 1 hour. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Surveys the central problems and issues in the anthropological study of tourism. Main topics include the place of tourism in the global economy, the impact of tourism on cultural identity and culture change, environmental issues in tourism development, and tourism as a form of cross- and multicultural communication. Credit is awarded for only one of ANTH 119 or ANTH 280.

ANTH 120 Language and Culture 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W, LING 020, upper-division standing; or consent of instructor. Covers the interrelations among

language, culture, and habitual behavior; the classification of languages; and anthropological uses of linguistic evidence.

ANTH 121 Anthropological Theories of the

Arts 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Covers anthropological theories of the arts emphasizing folk and traditional forms. Features oral and written literature and discusses theories of musical, visual, and other arts.

ANTH 122 Economic Anthropology 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W; or consent of instructor. Examines the social and cultural dimensions of production, exchange, saving, borrowing, and consumption. Topics covered include rationality and economizing, reciprocity, gender and household decision-making, and neoliberalism.

ANTH 123 Linguistic Anthropology 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): LING 020, or consent of the instructor. Course will cover the application of linguistics techniques to studies of other symbolic and social fields, the analysis of semantic systems, and the use of linguistic techniques for prehistory.

ANTH 124 Ritual and Religion 4 Lecture, 3 hours. The elements and forms of religious belief and behavior; functions of ritual in society. Cross-cultural comparisons.

ANTH 125 Kinship Organization 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. An introduction to theories of social organization through consideration of relationships among kin.

ANTH 126 Southeast Asian

Performance 4 Lecture, 3 hours; screening, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the roles and genres of expressive culture in Southeast Asia, including dance, music, theater, film, and digital culture. Performance is discussed as both a time-honored and a contemporary medium for cultural production, from the courts to everyday experience. Cross-listed with AST 123, DNCE 123, MUS 123, and SEAS 123.

ANTH 127 Political Anthropology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Examines different overt and covert means by which power and social differentiation are produced, perpetuated, and challenged in societies across the world. Studies the politics of culture, ethnicity, nationalism, and gender. Credit is awarded for only one of ANTH 127 or ANTH 127S.

ANTH 127S Political Anthropology 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Examines different overt and covert means by which power and social differentiation are produced, perpetuated, and challenged in societies across the world. Studies the politics of culture, ethnicity, nationalism, and gender. Credit is awarded for only one of ANTH 127 or ANTH

127S.

ANTH 128 Performing Arts of Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in four major geocultural regions of Asia: Central, East, South, and Southeast. No Western music training is required. Course is repeatable to a maximum of 8 units. Cross-listed with AST 128, DNCE 128, and TFDP 176.

ANTH 130 Ancient Pottery Analysis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): ANTH 005 or consent of instructor. An extensive review of the techniques used by archaeologists to study ceramic artifacts, one of the most common archaeological remains found at many Holocene sites throughout the world. Critically explores the use of typology, attribute analysis, experimental archaeology, petrography, source analysis, residue analysis, and ceramic ethnoarchaeology.

ANTH 131 Applied Anthropology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Applies anthropology to current issues such as community development, education, health, public administration, and conflict.

ANTH 132 Cultural Ecology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Introduces people's relationships to their total environment. Explores strategies for managing the environment and its resources, the effects of the environment on culture and society, the impact of human management on the ecosystem, and ways in which human groups view their surroundings.

ANTH 133 Anthropology and International Development 4 Lecture, 3 hours; research, 2 hours; written work, 1 hour. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Analyzes the concept of development by examining major theories and approaches in the anthropological study of international development. Focuses on the relationship between anthropology and the development industry. Topics include ethical issues in development anthropology, causes of failure and success in development interventions, and transformations in development theory and practice.

ANTH 136 Anthropological Perspectives On Gender in Southeast Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or equivalent. Examines the intersections of gender, power, and sexuality in post-colonial Southeast Asia. Revisits early ethnographic claims of gender equality. Addresses current anthropological literature on the effects of colonialism, capitalism, and globalization on gender roles and relations within national and transnational contexts. Cross-listed with SEAS 136. Credit is awarded for only one of ANTH 136/SEAS 136 or ANTH 136S/SEAS 136S.

ANTH 136S Anthropological Perspectives On Gender in Southeast Asia 5 Lecture, 3 hours; discussion, 1 hour; field, 1 hour; extra reading, 2 hours. Prerequisite(s): ANTH 001 or ANTH

001H or ANTH 001W or equivalent. Examines the intersections of gender, power, and sexuality in post-colonial Southeast Asia. Revisits early ethnographic claims of gender equality. Addresses current anthropological literature on the effects of colonialism, capitalism, and globalization on gender roles and relations within national and transnational contexts. Cross-listed with SEAS 136S. Credit is awarded for only one of ANTH 136/SEAS 136 or ANTH 136S/SEAS 136S.

ANTH 137 Anthropology: the American Tradition 4 Lecture, 3 hours; research, 3 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces the historical development of anthropological thought in the United States as a manifestation of class and state formation. Clarifies various intellectual currents in contemporary anthropology and their relationships to intellectual and social developments in the broader society.

ANTH 139 Change and Development 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or ANTH 003 or ANTH 005; upper-division standing or consent of instructor. Examines alternative theories of society, change, and development, as well as the assumptions and premises on which they are based. Considers how they are used to explain capitalist development, imperialism, colonial encounters, nationalism, decolonization, socialist revolution, modernization, unequal exchange, uneven development, globalization, and postcolonialism.

ANTH 140 (E-Z) Ethnographic Interpretations 4 Prerequisite(s): restricted to class level standing of junior, or senior. Study of peoples and cultures in particular areas of the world. Emphasis is placed on ethnological and theoretical problems as these are revealed in the examination of the history, coherent sociocultural patterns, and ecology of specific aboriginal populations and contemporary groups.

ANTH 140E 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the many varied native cultures of the Greater Southwest. Major differences as well as similarities in the forms of language, social organization, religion, and material culture occurring in the Greater Southwest will be defined and described. The peoples of the Greater Southwest are considered, not only in terms of the ethnographic present, but also through a diachronic perspective, from the prehistoric past through the Spanish colonial era to the present.

ANTH 140G Anthropological Perspectives in Africa 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A number of African cultures are carefully examined in terms of three or four anthropological topics, such as: subsistence patterns, social organization, and religious systems. The treatment of these cultures follows a brief overview of the geography, history, and linguistic patterns of Africa.

ANTH 140I Cultures of Southeast

Asia 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or equivalent. Anthropological interpretations of culture and society in southeast Asia including Indonesia. Topics include prehistory, ethnic groups, social organization and structure, human ecology, and folk and high culture.

ANTH 140P Cultures of the Pacific 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Overview of the cultures and contemporary issues facing the people of Melanesia, Micronesia, and Polynesia. Examines the contribution of Oceanic studies to anthropological theories of kinship and exchange, gender, development studies, and indigenous knowledge systems. Emphasizes how Pacific Islanders draw on their cultural heritage in emerging from formal colonialism to establish new island nations.

ANTH 140S The Peoples of Mexico in Historical and Global Perspective 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of the cultures and societies of Mexico in historical and global perspective. Emphasis on agrarian communities and the contributions of Mesoamerican ethnography to general anthropological theory.

ANTH 143 Gender, Race, and Medicine 4 Lecture, 3 hours; written work, 1 hour; extra reading, 1 hour; individual study, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the relationship between Western medicine and women, racial minorities, and non-Western citizens. Investigates how gender ideology, racial inequity, and colonialism shape the medical representation of bodies, sexuality, and pathology. Examines how patients have renegotiated their relationships with medicine through health movements and alternative healing practices. Cross-listed with GSST 185.

ANTH 145 Sexualities and Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S; or consent of instructor. Examines the field of sexuality studies using a comparative, cross-cultural approach. Emphasizes the relation between culture, history, and political economy in the emergence of sexual practices and sexualized identities. Examines theories of sexuality and identity focusing on violence, human rights, and political agency. Cross-listed with GSST 103.

ANTH 147 Reproduction: Policies, Politics, and Practices 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines reproductive policies, politics, and practices from a cross-cultural and historical perspective. Discusses political and economic processes and sociocultural dynamics; population control; sex preference; infanticide and neonatal neglect; adoption and foster parenting; abortion; technologically assisted conception; and gestational surrogacy. Cross-listed with GSST 140.

ANTH 148 Gender and the State 4 Lecture, 3

hours; extra reading, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the various meanings of gender as it is articulated in, reproduced by, and shaped within the state. Discusses gender-state relations, the engendering of politics, state functions, policy, and politics in various historical, political, cultural, and social contexts. Cross-listed with GSST 150.

ANTH 149 Gender, Kinship, and Social Change 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S. Examines theories of gender and kinship, the formation of gender hierarchies and their uneven development, and the dynamics of family and gender in stratified social formations. Analyzes the relationship between family forms and political and economic processes. Cross-listed with GSST 149.

ANTH 150 Human Microevolution 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): ANTH 002; relevant preparation in the life sciences; or consent of instructor. Covers methods of classical and population genetics applied to the understanding of evolution and variation in contemporary human populations.

ANTH 151 The Art of the Aztec Empire 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): AHS 027/ANTH 027/ LNST 027 or upper-division standing or consent of instructor. An introduction to the art of the Aztec Empire. Studies architecture, sculpture, ceramics, painting, lapidary work, gold work, and feather work. Explores the relationship between art and ritual and art and the imperial state. Cross-listed with AHS 112 and LNST 112.

ANTH 152 Evolution of the First Hominids 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 002 or consent of instructor. Explores human evolution in the first five million years; examines the fossil record and incorporates data from archaeology and genetics. Topics include hominoid evolution in the Miocene, origin models of the human lineage, and the first ancestral humans.

ANTH 153 Evolution of the Genus Homo 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 002 or consent of instructor. Explores human evolution in the last two million years; examines the fossil record and incorporates data from archaeology and genetics. Topics include origins of genus Homo, world-wide dispersals, Neanderthals, and origins of modern humans.

ANTH 155 Human Osteology 6 Lecture, 2 hours; discussion, 1 hour; laboratory, 6 hours; research, 3 hours. Prerequisite(s): ANTH 002, upper-division standing; or consent of instructor. An in-depth study of the human skeleton, including bone biology, functional morphology, fragment identification, reconstruction, forensic methods, and curation techniques. Useful for anthropologists and those intending careers in medicine, physical therapy, and forensics.

ANTH 156 Anthropology of Human Immunodeficiency Virus (hiv) 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s):

Restricted to class level standing of junior, or senior; or consent of instructor. Cross-cultural examination of the global Human Immunodeficiency Virus (HIV) epidemic from an anthropological perspective.

ANTH 157 Visual Culture of the Incas 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the art, architecture, and urban form of the Inca civilization. Examines how these elements influenced state formation, conquest, and resistance. Includes studies of urban plans, buildings, paintings, textiles, prints, sculpture, metalwork, and ceramics. Cross-listed with AHS 117, and LNST 117.

ANTH 158 Biological Approaches to Medical Anthropology 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 002 or consent of instructor. Introduces medical anthropology from the biological perspective. Explores topics on evolution, health, and medicine; human biological variation in relation to disease; bioarchaeology; and the history of health. Takes the integrative and multidisciplinary approach.

ANTH 159 Drugs and Culture 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. A cross-cultural examination of drug use and its relation to race, class, gender, morality, laws, and health policy.

ANTH 160 Political Economy of Health 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines critical medical anthropology. Focuses on the linkages between political economy, health, and healthcare systems in modern societies. Considers the effects of poverty, occupation, and environmental transformation in particular social contexts. Looks at four case studies: the political economy of HIV/AIDS, poverty, famine, and nuclear regulation.

ANTH 161 The Body in Western Art: Antiquity to Present 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; Restricted to major(s) Anthropology, Art History, Art History/Admin Studies, Art History/Religious Studies, Gender and Sexuality Studies, History, History/Administrative Studies, History/Law and Society; or consent of instructor. Presents further questions and study of the human body and how it was depicted and interpreted in works of art from Roman Antiquity to the present. Explores a broad range of artworks in their specific historical, cultural, medical, social, religious, political, and intellectual contexts. Cross-listed with ANTH 161, GSST 130, and HISE 149. Credit is awarded for one of the following AHS 133, ANTH 161, GSST 130, HISE 149, or AHS 016.

ANTH 162 Culture and Medicine 4 Lecture, 3 hours; consultation, 1 hour. Interrelations of health, disease and culture; cross-cultural comparisons of "health," "disease" and "curing" concepts; effects of cultural behavior on health and illness. Special focus on traditional societies and their belief systems, and on the effects of cultural change (historical and modern) on illness

and curing.

ANTH 163 Transnational and Global Communities 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical survey of recent anthropological and related research and theory concerning transnational and global sociocultural processes. Special emphasis on transnational, diasporan, and other unbounded communities; borderlands; and the impact of global media and communication and transnational migration on community and identity.

ANTH 164 Forensic Anthropology 4

Lecture 2, Activity 3, Research 3, Prerequisite(s): ANTH 002 with a grade of "C-" or better; Introduces the applied study of forensic anthropology. Topics include basic training in forensic anthropology, its history and theoretical background, medico-legal aspects, case studies, and training in how to identify human skeletal remains and information that can be determined from human bone.

ANTH 165 (E-Z) Anthropological Methods 4

Lecture, 3 hours. Prerequisite(s): ANTH 005. Surveys methods and techniques utilized in archaeology, biological anthropology, cultural anthropology, and linguistic anthropology. Emphasizes field and laboratory methods.

ANTH 165E Anthropological Methods 4

Lecture, 3 hours; Research, 3 hours. Prerequisite(s): ANTH 005 with a grade of "C-" or better. Review of methods used by archaeologists in field and laboratory contexts. Critically explores the applications of different techniques to answer social questions.

ANTH 165F Methods in Biological Anthropology 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 002 or consent of instructor. Introduces research methods in biological anthropology. Topics include the history of scientific approach in American anthropology, statistics, data resampling, evolution, and variation.

ANTH 165G Anthropological Methods 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 with a grade of C- or better. Introduces research methods used by cultural anthropologists. Examines the research process from identifying research problems, to selecting research methods, developing research strategies, collecting and analyzing data, and reporting research findings. Methods and topics covered include participant observation, writing fieldnotes, interviews and surveys, qualitative and quantitative data analysis, and research ethics. Methods In Cultural Anthropology

ANTH 165I Anthropological Methods 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 007 or ANTH 007S. Examines research methods of linguistic anthropology, providing students with insights into recording and transcription, participant observation, linguistic biography, and ethnography. Includes a quarter-long ethnographic fieldwork project focused on different methods of data collection and analysis. Investigates several ethnographic accounts of linguistic anthropology including issues of evidence, analysis, and theory generation.

ANTH 166 Anthropology of Global

Health 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Examines the overlaps, debates, and potential of medical anthropology to address contemporary issues in global health. Focuses on how the historical development, theoretical frameworks, methodological approaches, and ethical debates within medical anthropology can contribute to a just and inclusive version of “global health.”

ANTH 167 Structural/Descriptive

Linguistics 4 Lecture, 3 hours; outside research, 3 hours. Prerequisite(s): LING 020 or consent of instructor. An overview, from the original sources, of the contribution of major figures and schools in linguistics from Saussure through early Chomsky. Cross-listed with LING 167.

ANTH 168 Caribbean Culture and

Society 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of the Caribbean region from a historical, cultural, and political perspective. Emphasis on contemporary issues affecting the Caribbean, and the struggle of its people to maintain their identities. Cross-listed with ETST 148, and LNST 168.

ANTH 169 From the Maghreb to the Middle

East 4 Lecture, 3 hours; written work, 1 hour; individual study, 1 hour; extra reading, 1 hour. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or GBST 001 or GBST 002 or consent of instructor. An introduction to the peoples and societies of North Africa and the Middle East. Follows the travels of Ibn Battutah, Ibn Khaldun, and Rafik al Tahtawi. Topics include religion, migration, gender, political organization, the global Middle East, Orientalism, and cultural production. Cross-listed with GBST 169.

ANTH 170 Ethnobotany 4

Lecture, 2 hours; seminar, 1 hour; discussion, 1 hour. Prerequisite(s): BIOL 104/BPSC 104, or consent of instructor. Introduces students to ethnobotanical research by reviewing selected ethnobotanical studies. Topics covered by lectures include fundamental principles of ethnobotany, the search for new medicines and other products made from plants, the role of humans in plant evolution, and the impact of plants on human cultures. Discussions focus on the past and present role of humans in plant conservation and the search for sustainable management practices in agriculture and forestry. Seminars by invited guests and enrolled students present selected topics in ethnobotany. Cross-listed with BPSC 170.

ANTH 171 Anthropology of Bodies 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Explores various anthropological discourses about the constitution of bodies with a focus on how bodies differ across cultures and historical moments.

ANTH 172 Archaeological Theory 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ANTH 003 or ANTH 005; or consent of instructor. An overview of archaeological theory and the critical evaluation of conceptual approaches to archaeological data. Topics

include both archaeological and social theories.

ANTH 173 Social Meanings of Space 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the range of meanings attached to spaces and places, from small-scale expressions such as houses to larger ones such as cities and landscapes. Explores how spaces can reflect and foster social conflict or social unity. Through a study of diverse cultural traditions, considers both the architecture and occupied but “unbuilt” spaces in ancient and current societies.

ANTH 174 Afro-American Experience in the

U.S. 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or consent of Instructor. Explores the racial politics of African American cultures and identities in juxtaposition with the making of the American nationhood and global capitalism. Critically examines the various anthropological discourses about African Americanness and portrays African Americans as nation-builders.

ANTH 175 Public Health, Media, and Risk

Management 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines media and politics in public health and risk management. Focuses on the role that effective communication, public relations, media, and crisis management can play in both informing the public and reducing and preventing serious threats to human health.

ANTH 176 Music Cultures of Southeast

Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in the Philippines, Indonesia, Malaysia, Thailand, Myanmar (Burma), Laos, Cambodia, and Vietnam. Designed for the student interested in the performing arts and cultures of mainland and insular Southeast Asia. No Western music background is required. Cross-listed with AST 127, DNCE 127, ETST 172, MUS 127, and SEAS 127.

ANTH 177 Gender, Sexuality, and Music in

Cross-Cultural Perspectives 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of gendered performance genres from a number of cultures. Explores gender-specific music and notions of gender that are often constructed, maintained, transmitted, and transformed through music and performance. Cross-listed with MUS 126, and GSST 126.

ANTH 178 Gender and Archaeology 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): one of the following courses: ANTH 001, ANTH 001H, ANTH 001W, ANTH 005, GSST 001, GSST 001H, GSST 001S; or consent of instructor. Considers gender roles in ancient and historically recent human societies, as well as how gender has shaped archaeological investigation. Cross-listed with GSST 178.

ANTH 179 Gender, War, and

Militarism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines politics of militarization in relation to gender, race, and sexuality in national and international contexts

of war. Explores ideologies and representations of masculinity and femininity in discourses of militarism. Topics include war crimes; contestations over historical memory; effects of militarization on gender roles; cults of heroism; and peace activism.

ANTH 181 Political Economy of South

Africa 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. Examines contemporary societies of southern Africa. Focuses on changes and continuities since the end of apartheid. Topics include transformations in ethnic and racial identity and classification; postapartheid class formation and neoliberalism; labor migration and immigration; HIV/AIDS; land reform, resettlement, and spatial transformation; tourism; and conservation.

ANTH 182 Anthropology of Human

Rights 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines debates in the study of human rights and social injustice. Uses case studies in Asia, Africa, and Latin America to explore legal, cultural, and political practices and representations of rights and reconciliation in postconflict settings. Includes globalization of rights; cultural relativism; indigenous rights movements; advocacy; and gender and health rights.

ANTH 184 Field Course in Anthropology 4 to

16 Field, 12 to 48 hours. Prerequisite(s): upper-division standing or consent of the instructor. Study with a qualified professional at selected research sites with on-site supervision. Normally, 16 units will be assigned only when the student is engaged in full-time research at a site distant from UC Riverside. Course may be repeated for credit for up to three quarters with consent of the instructor and approval of a research plan by the department chair.

ANTH 185 Field Course in Archaeology:

Survey and Documentation 4 Lecture, 1 hour; discussion, 1 hour; field, 6 hours. Prerequisite(s): ANTH 003 or ANTH 005; upper-division standing; consent of instructor. Trains students in field surveying and documenting historic and aboriginal archaeological sites. Covers satellite-assisted electronic location, cadastral survey location, Universal Transverse Mercator grid coordinates, field mapping, recording environmental parameters, characterizing assemblage, assessing significance, and using archaeological information centers.

ANTH 186 War and Violence in the Ancient

World 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 005. Cross-cultural study of social contexts of warfare and interpersonal violence among ancient peoples. Critically explores the definitions associated with different forms of violence and the methodological, theoretical, and interpretational implications for archaeologists studying warfare across the globe.

ANTH 187 Anthropology of Risk 4

Lecture, 3 hours; extra reading, 1 hour; research, 1 hour; term paper, 10 hours per quarter. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W; upper-division standing; or consent of instructor. Examines theoretical and ethnographic works

related to the perception of risk. Focuses on a range of arguments that view risk as an objective hazard, a symbolic construction, or as historically, politically, and socially contingent. Topics include law, health, pollution, and migration.

ANTH 188 Islam, Women, and the

State 4 Lecture, 3 hours; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the links between women, Islamic practices, and the politics of state formation and nation building. Explores ways women constitute the terrain of struggle between the traditional and modern, colonialism and nationalism, and religion and politics. Cross-listed with GSST 151.

ANTH 189 Gender and Power in Muslim

Societies 4 Lecture, 3 hours; extra reading, 1 hour; written work, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the dynamics of gender relations within the context of the Muslim world. Analyzes processes of power which influence concepts of femininity, masculinity, the body, and sexuality. Explores heterogeneity of the Muslim world as well as its unifying cultural and social history. Cross-listed with GSST 168.

ANTH 190 Special Studies 1 to 5 variable hours. Prerequisite(s): consent of instructor. Independent study and research by qualified undergraduate students under supervision of a particular faculty member. With consent of instructor, may be repeated without duplication of credit.

ANTH 191 Seminar in Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines contemporary issues and topics in anthropology that are not part of the regular curricular offerings. Content of the course varies and is announced as the course is offered. Course is repeatable to a maximum of 16 units.

ANTH 195A Senior Thesis 4 Optional for anthropology majors; open to senior students having a "B" average in their major, with consent of instructor.

ANTH 195B Senior Thesis 4 Optional for anthropology majors; open to senior students having a "B" average in their major, with consent of instructor.

ANTH 195C Senior Thesis 4 Optional for anthropology majors; open to senior students having a "B" average in their major, with consent of instructor.

ANTH 198I Internship in Anthropology 1

to 12 Field Research, 1 hour to 16 hours. Prerequisite(s): consent of instructor. Systematic participation by an individual in studies associated with future career(s) development within the context of an anthropological research project directed by a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units towards graduation.

ANTH 199H Senior Honors Research 1 to

5 Research, variable hours. Independent work under the direction of members of the staff. With consent of instructor, may be repeated without

duplication of credit.

Graduate Courses

ANTH 200A Core Theory in

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing in Anthropology or consent of instructor. Examines the foundational theories of anthropology and how these inform current discussions about human origins, the origins of human society, divergences in different national traditions, including debates and congruencies with other disciplines.

ANTH 200B Core Theory in

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing, ANTH 200A; or consent of instructor. Examines the foundational theories of anthropology and how these inform current discussions about diversity; inequality; language; power; knowledge systems; and their intersections in the four subfields.

ANTH 201 Critical Theories of Gender, race, and

Blackness 4 Lecture, 3 hours; individual study, 4 hours; written work, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces major critical theories on the intersections of gender, race, and blackness. Topics include the afterlives of slavery, black feminisms, colonialism, empire, genocide, and revolt. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor

ANTH 202 Topics in Southeast Asian

Studies 4 Seminar, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An introduction to the world of Southeast Asia and the scholarly discussions about it, with an emphasis on cultural aspects, embedded in their historical context. Materials are in English. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with CPLT 200 and SEAS 200.

ANTH 203 Southeast Asian Cultures 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor.

Surveys ethnographic literature on Southeast Asian cultures, with an emphasis on contemporary research. Covers anthropological approaches to the study of text, ritual, and performance practices; intercultural dynamics; the impact of colonialism and nationalism on traditional cultures; and globalization. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with SEAS 203.

ANTH 204 Anthropology of Identity 4 Seminar, 3 hours; research, 3 hours Prerequisite(s): graduate standing or consent of instructor.

Covers cross-cultural study of anthropological discourses about identity formations that are rooted in shifting relations of power and production. Critically examines major debates, methods, and theories in studies of identity. Focuses on the processes and mechanisms through which people craft their individual and collective identities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ANTH 205 Race and Ethnicity in

Mexico 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to history and development of race in Mexico. Examines creation and lasting effects of Casta System. Examines ideologies of Mestizaje and Indigenismo, and changing relationships between indigenous, African descendants, and mestizos in Mexico. Discusses intersections between race, class, and immigration and impacts on national conceptions of race and ethnicity.

ANTH 206 Archaeology of Violence and

Conflict 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the cross-cultural study of social contexts of violence and conflict among ancient peoples. Critically explores the definitions associated with different forms of violence and the methodological, theoretical, and interpretational implications for archaeologists studying warfare across the globe. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ANTH 207 Archaeology of Power and

Ideology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 200A, ANTH 200B; or consent of instructor. Critically evaluates social theories that underlay the concepts of power and ideology, and examines archaeological approaches to relevant questions of social change. Develop student's perspectives on the mechanism of power and ideology beyond Western philosophy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ANTH 208 Anthropology of the Black

Diaspora 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Focuses on intellectual history, analytical perspectives, and political implications of Black diaspora(s). Addresses constitution, viability, and specificities of the multitude of Black experiences through formations of modern subjectivity, society, and empire-state. Theorizes the notion of diaspora in relation to blackness and the Black experience.

ANTH 209 Field Course in Maya Archaeology 4

to 12 Lecture, 2 hours; laboratory, 3 hours to 6 hours; research, 0 to 3 hours; field, 3 to 21 hours. Prerequisite(s): graduate standing and consent of instructor. Archaeological survey and excavation, including training in: site mapping; use of satellite-based Global Positioning Systems; natural resources surveying; and field laboratory techniques. Course is repeatable to a maximum of 36 units with consent of instructor and approval of a research plan by the department chair.

ANTH 210A Description and Inference in

Anthropology 4 Seminar, 3 hours; research, 1 hour; individual study, 1 hour; extra reading, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An examination of the modes of defining concepts and relations, developing and framing theories, and relating data to theory in anthropology; analysis of representative attempts to describe and explain behavior; and practice in carrying out simple

analyses.

ANTH 210B Professionalism in

Anthropology 4 Seminar, 3 hours; research, 1 hour; extra reading, 1 hour; proposal preparation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers many aspects of professional career development in anthropology (including archaeology). Topics include the establishment of career goals, building a professional reputation, presenting papers at meetings, submitting manuscripts for publication, developing a research proposal, identifying sources of research funding, and the job search.

ANTH 218 Ancient Maya History and

Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Along with describing major historical figures and religious concepts of the ancient Maya, this course describes the analytic approaches used for the study of ancient Maya writing and art. The pioneering work of the nineteenth century as well as the most recent findings in the ongoing process of decipherment and iconographic interpretation will be discussed. Basic background needed to begin original research and interpretation will be provided.

ANTH 220 Theoretical Archaeology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the foundational theories of archaeology, the underlying networks of assumptions, and contemporary theoretical developments in the field.

ANTH 251 Theory and Method in Mexican

Ethnography 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the basic issues of theory and method in Mexican ethnography. Major streams of thought framing the substance and approaches of rural and urban ethnographies of Mexico are examined.

ANTH 252 Seminar in Archaeology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Studies in culture history and in the data and methods of archaeological research. Course is repeatable.

ANTH 253 Seminar in Physical

Anthropology 4 Seminar, 3 hours, research 3 hours. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the analysis of human variation and evolution, the structure of human populations, and the biocultural environments of humans. Course is repeatable.

ANTH 255 Feminism, Gender, and

Archaeology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers feminist perspectives on past human societies, as well as how feminism and gender have shaped archaeological research design. Examines how gender relates to careers in archaeology.

ANTH 256 Seminar in Cultural

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides focused coverage

of concepts, theory, and methods central to various subfields in cultural anthropology. Course is repeatable.

ANTH 257 Southeast Asian

Religions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses different and dynamic aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Explores contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives on this diverse region. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topic changes to a maximum of 8 units. Cross-listed with RLST 253 and SEAS 202.

ANTH 258 Space and Place in

Archaeology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines concepts of space and place in archaeology. Explores how spaces can reflect and foster social conflict or unity through studies of diverse cultural traditions. Considers both the architecture and occupied but unbuilt spaces in ancient and current societies.

ANTH 259 Seminar in Linguistic

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Studies in the concepts, methods, and data pertinent to linguistic anthropology.

ANTH 260 Ethnographic Field

Methods 4 Seminar, 3 hours; field, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces ethnographic field methodologies and research techniques through theoretical and practical application. Examines historical and contemporary models of fieldwork practices and ethics. Topics include fieldwork preparation; participant observation; ethnographic responsibilities; data collection techniques; interviews; gendered dynamics of field research; historical and visual methods; and violence in the field. Course is repeatable.

ANTH 261 Anthropology of the Body 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines cultural anthropology's treatment of the body as both a subject and object of social processes through recent and classic texts. Aims to ground theoretical inquiry in ethnographic and historical materials through the examination of bodies across time and space.

ANTH 262 Seminar in Medical

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys major topics in medical anthropology. Examines the theoretical and methodological underpinnings of medical anthropology, including the cultural construction of health and disease, the nature of the therapeutic process, and how social structures contribute to inequality and suffering.

ANTH 263 Seminar in Ecological

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or

consent of instructor. Selected topics in method and theory of ecological anthropology, including ethnobiology, food production and consumption, development issues, views of the environment, and questions about the relationship of humans to their environments.

ANTH 264 Codices of Ancient

Mexico 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The major manuscripts of the pre-Hispanic and contact periods of Mesoamerica will be reviewed. Special focus will be on the ancient codices of the Maya, Aztec, Mixtec, and the unprovenanced Borgia Group.

ANTH 265 Seminar On Anthropology of Visual

Culture 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Presents a historical and ethnographic overview of the role of visual culture in the production and transmission of scientific and cultural knowledge. Focuses on the politics of representation and the ways in which images have maintained or challenged racial, gender, and global hierarchies and inequalities.

ANTH 266 Seminar On History and

Memory 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores how societies remember, forget, and give meaning to the past through diverse forms of expression in national and transnational contexts. Examines contestations over historical representations and narrations, as well as the ways in which history and memory are shaped and contested by competing claims to power, legitimacy, and authenticity.

ANTH 267 Ethnographies of

Postsocialism 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores diverse sociocultural, economic and political experiences of socialist-capitalist transformations. Includes late and postsocialist nation states in Eastern Europe and postcolonial Asia, Latin America, and Africa. Examines the revival of socialist political and cultural projects as a response to capitalist globalization and escalating social and economic inequalities.

ANTH 277 Seminar in Political

Ecology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An advanced course focusing on the relationship between political economy and human ecology for the analysis of the interaction between people, natural resources, and the environment.

ANTH 278 Seminar in Representation and the

Ethnographic Text 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Critically reviews and analyzes ethnographic texts, both traditional and experimental. Examining ethnographies as a form of writing, the seminar explores the larger intellectual, theoretical, and political context in which production of ethnographies occurs.

ANTH 279 Seminar in Political

Anthropology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviewing different forms of stratification and power in society, this

seminar critically reviews and analyzes a broad range of materials, debates, and contemporary trends within political anthropology.

ANTH 280 Seminar in Anthropology of

Tourism 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An anthropological study of travel and tourism. Topics include cultural implications for travelers, local people, environment, and economy; historical and social construction of tourist sites; material objects; the culture and performance of tourism; the photographic eye; the tourist encounter; cultural mediation; politics of cultural representation; and commoditization of culture. Credit is awarded for only one of ANTH 119 or ANTH 280.

ANTH 281 Anthropology of

Humanitarianism 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines debates in anthropological study of humanitarianism and human rights. Uses case studies in Asia, Africa, and Latin America to explore legal, cultural, and political practices of rights and reconciliation in post-conflict settings. Topics include religious aid, philanthropy, ideas of humanity and personhood, state violence and citizenship, and peacekeeping missions.

ANTH 290 Directed Studies 1 to 6 Independent study by graduate students under supervision of a particular faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ANTH 291 Individual Studies in Coordinated

Areas 1 to 6 Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for doctoral examination. The following rules apply: 1) a student may take up to 12 units for the Basic Requirements; 2) a student may take up to 8 units for the Comprehensive Requirements. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ANTH 292 Concurrent Analytical Studies

in Anthropology 1 to 4 Each ANTH 292 course will be taken concurrently with some 100-series course, but on an individual basis. It will be devoted to completion of a graduate paper based on research or criticism related to the 100-series course. Faculty guidance and evaluation will be provided throughout the quarter. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable.

ANTH 297 Directed Research 1 to 6 Individual research by graduate students directed by a particular faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ANTH 299 Research For Thesis Or

Dissertation 1 to 12 Field training and directed research in preparation for and completion of doctoral dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

ANTH 301 Directed Studies in the Teaching of Anthropology 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Discusses bibliography and research and teaching techniques used in the instruction of anthropology. Covers how

to lead discussion sections and relate student experience to anthropological problems. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ANTH 302 Teaching Practicum 1 to

4 Prerequisite(s): limited to departmental teaching assistants; graduate standing, ANTH 301, or consent of instructor. Supervised teaching in upper- and lower- division Anthropology courses. Required of all teaching assistants. Fulfills teaching portion of Ph.D. teaching requirement. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

Major

The Department of Art offers a B.A. degree in an interdisciplinary program that emphasizes a critical approach to artistic production. Courses are offered in the following curricular areas: photography, digital art, video, two- and three-dimensional media (painting, drawing, sculpture, installation), and critical theory. The program is designed primarily for students preparing for graduate study and those who plan to continue professionally as artists. The Department of Art does not offer any course work in commercial art or in graphic design. The department does however welcome the participation of nonmajors and nondegree students.

Admission

Incoming freshmen applicants may simply declare a major in Art upon the submission of their Undergraduate Admission application. However, current UCR non-majors and new incoming transfer students must submit a portfolio electronically, consisting of ten (10) images of your original work and/or three (3) clips of moving images or sound work. Guidelines for the portfolio and a link to the site for submission can be found on the Art Department website at art.ucr.edu/. Students whose portfolios are approved will be admitted to the major. Guidelines for submission are also available from Undergraduate Admissions and from the Department of Art.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. in Art are as follows:

- 1. Lower-division requirements (33-34 units)**
 - a) ART 001 or ART 002
 - b) ART 003 or ART 010
 - c) ART 005
 - d) ART 006/MCS 006
 - e) Two of the following courses: ART 009, ART 065, ART 066, ART 067, or any of ART 001, ART 002, ART 003 and ART 010 not used to fulfill Major Requirements 1.a) or 1.b).
 - f) One course from the following courses: AHS 017C, AHS 020, or AHS 021.
 - g) ART 032
- 2. Upper-division requirements (40 units)**
 - a) ART 160
 - b) One of the following Art History courses: AHS 115, AHS 135, AHS 136/MCS 137, AHS 175, AHS 176/MCS 176, AHS 178/URST 178, AHS 179, AHS 180, AHS 181, AHS 182, ART 183, AHS 184/URST 184, AHS 185/URST 185, AHS 186/MCS 186, AHS 187, AHS 188, AHS 189E-Z or any other upper-division Art History course that covers the period 1945 to present
 - c) ART 180
 - d) ART 132 (must pass with a C or better)
 - e) A minimum of 24 additional units of upper-division Art course work

Note: A maximum of 12 upper-division transfer units of established equivalency can be accepted for credit. Equivalent transfer units in lower-division studio art course work and lower- and upper-division Art History course work is also accepted for credit toward the major in the respective lower- or upper-division category.

A minimum of 36 units of Art must be taken in residence (UCR Department of Art) to fulfill this major.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Art Department offers the Master of Fine Arts (M.F.A.) degree in Visual Art.

Master of Fine Arts in Visual Art

The program's primary goal is to provide a context for research and production of contemporary art at the highest level. The M.F.A. in Visual Art is interdisciplinary, and students can draw on the resources of other departments on campus, including the UCR/California Museum of Photography.

The program emphasizes digital imaging, photography, and video, but students are free to work in any medium. The core of the program is independent creative work done in consultation with faculty. Creative work can be digital imaging, film or video works, installations, painting, performances, photography, sculpture, or any visual medium.

Admission

Applicants must have a B.A. or B.F.A. degree. They must submit an application including all required support documents, a portfolio of their work, and three letters of recommendation. The GRE is not required. Students without any visual arts background may be required to complete courses in Studio Art and Art History subsequent to admission.

Plan I (Thesis)

The M.F.A. is a Plan I (thesis) master's degree program, requiring 72 units in graduate or approved upper-division undergraduate courses that must be completed with at least a letter grade of "B" or "Satisfactory."

Required courses include 48 units in graduate courses in theory and criticism, as well as individual projects and tutorials:

1. Three courses of ART 285, Graduate Critique
2. ART 230, Contemporary Critical Issues
3. ART 240, Critical Theory
4. ART 299, Research for Thesis
5. One of the following Art History Graduate Seminars (AHS 167, AHS 252, AHS 260, AHS 272, AHS 273, AHS 274, AHS 276, AHS 277, AHS 278, AHS 279, AHS 282, AHS 283, AHS 284, AHS 285, AHS 286 or AHS 287)
6. 20 units of Art 293, Directed Individual Studio Production

Of the remaining 24 units in elective courses, at least one additional course must be in Art History or Media and Cultural Studies, and at least two additional courses must be taken from a department other than art. These courses may be graduate or undergraduate courses.

MFA students receive a degree in Visual Art. The course of field study is not characterized by medium.

Students participate on yearly reviews during the Winter quarters of their first and second year.

The thesis requirement is met by the student's M.F.A. thesis exhibition, accompanied by a written thesis on the work exhibited. A graduate thesis committee reviews the thesis. The committee is composed of four faculty members, at least three from the Department of Art. The fourth faculty member may be from another department at any UC Campus. Persons who are not UC Senate members may be appointed only with the approval of the Graduate Dean. Nominations that require this approval should be forwarded to the Graduate Division by the end of

the student's second year.

Foreign Language Requirement None

Teaching Requirement None; however, students are given opportunities to teach and are encouraged to do so.

Normative Time to Degree Nine quarters

Lower-Division Courses

ART 001 Beginning Drawing and

Design 4 Lecture, 2 hours; studio, 4 hours. Introduction to the materials, techniques, structure and expressive properties of drawing and design. Includes lectures, studio exercises and outside assignments. All students must attend the first day of class for studio orientation and instruction to avoid being dropped from the class.

ART 002 Beginning Painting and

Design 4 Lecture, 2 hours; studio, 4 hours. Introductory course in the media, techniques, structural and expressive properties of painting and design. Includes lectures, studio exercises and outside assignments. All students must attend the first day of class for studio orientation and instruction to avoid being dropped from the class.

ART 003 Introduction to Photographic

Processes 5 Lecture, 3 hours; studio, 4 hours. Introduction to basic principles of photography as fine art. Addresses a range of technological approaches from traditional analog processes to digital image capture and printing. Explores historical and contemporary approaches to creating meaningful photographs. All students must attend the first day of class. See Schedule Notes for Attendance Policy.

ART 004 Introduction to Moving Images:

Film, Video and New Media 5 Lecture, 3 hours; studio 3; hours; screening, 3 hours. Prerequisite(s): none. Explores issues and skills of video/film/media art based in production, history, and theory of the moving image. Introduces basic production, editing concepts and techniques of live-action production, story boards, image editing, and final authoring. Examines the moving image through installation, documentary, experimental film, video art, sound art, and performance. Cross-listed with MCS 004.

ART 005 Beginning Sculpture and Three-

Dimensional Design 4 Lecture, 3 hours; studio, 3 hours. An introduction to tools and assembly techniques working with wood, plaster, metal, and found objects; an understanding of 3D qualities: volume, surface and scale; an overview of twentieth century art movements and contemporary sculpture strategies. All students must attend the first day of class. See Schedule Notes for Attendance Policy.

ART 006 Introduction to Contemporary Critical

Issues in Art 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines basic principles and methodologies of theory as applied to the interpretation and creation of works of art. Includes screenings. Cross-listed with MCS 006.

ART 008 Current Topics in Contemporary

Art 4 Lecture, 3 hours; activity, 3 hours. Examines visual arts as contemporary phenomenon. Includes study of recent exhibitions of contemporary art, the way art is culturally distributed, and the ideological and conceptual dialogue surrounding significant contemporary art. Encourages visits to nearby museums and major art galleries.

ART 009 Introductory Web-Based Art: Site

Creation and Navigation 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. An introduction to the technology and critical issues of Web-based art. Covers Web-site creation software and conceptual and creative navigation. Emphasis is on contemporary issues of non-object, byte-based art practice.

ART 010 Introduction to Video and Time-Based

Experimentation 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): none. Introduction to time-based media including: video, sound, performance, installation as studio art practice. Builds aesthetic, conceptual, and technical skills for the creation of video and time-based works. Addresses work of contemporary artists and issues. Emphasizes experimental practical techniques. Students must attend the first day. See schedule notes for attendance policy.

ART 032 Art Studio One 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): Restricted to major(s) Art (Studio). Introduces art majors to the importance of interdisciplinary work. Includes independent projects, critical analysis in a group critique situation, exhibition preparation, and considerations of presentation of their work through written and spoken language. Prepares art majors for upper division coursework.

ART 065 Introduction to Digital Painting and

Drawing: Painting Without A Trace 4 Lecture, 3 hours; laboratory, 3 hours; individual study, 2 hours. An introduction to digitally based painting and drawing. Focuses on use of digital software such as Adobe Photoshop and Illustrator to create paintings without the use of traditional paint. Explores the back and forth relationship this new medium and traditional painting, drawing, and photography in history and practice.

ART 066 Introduction to Three-Dimensional

Digital Modeling 4 Lecture, 3 hours; laboratory, 3 hours; individual study, 2 hours. Prerequisite(s): none. Covers basic skills necessary to create three-dimensional digital images and models. Emphasizes techniques for polygon and curved-surface modeling and photorealistic image creation through material shading, texturing, and lighting. Introduces basic scripting methods to create complex models and images with Autodesk Maya or equivalent. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination.

ART 067 Three-Dimensional Digital

Modeling and Animation 4 Lecture, 3 hours; laboratory, 3 hours; individual study, 2 hours. Prerequisite(s): ART 066. Builds advanced skills for three-dimensional modeling. Introduces basic computer animation techniques within framework of existing software. Techniques include rigging skeletons for character models,

keyframing, and special effects animation using Autodesk Maya software or equivalent. Teaches proficiency in analogous scripting operations. May be graded with Letter Grade or Satisfactory/No Credit (S/NC); no petition required. Course is repeatable to a maximum of 8 units.

ART 070 (E-Z) Digital Imaging Software For the Visual Arts 2 Lecture, 10 hours per quarter; laboratory, 30 hours per quarter. Trains the student in basic digital image manipulation software skills in preparation for digital image applications across varied media. E. Intro To Image Manipulation; F. Intro To Video Editing; G. Intro To Web Authoring; I. Intro-graph Design&desktop Pub; Course is repeatable to a maximum of 8 units.

ART 071 (E-Z) Photographic Materials and Processes 2 Lecture, 15 hours per quarter; laboratory, 15 hours per quarter. Prerequisite(s): ART 003. In-depth instruction of conventional (i.e., nondigital) photographic processes. Instruction is primarily technical; involves some discussion of application to contemporary art. F. View Camera Workshop; K. Tech Issues Of Blk& Wht Photog; M. Tech Issues Of Color Photgrphy; N. Intermed Tech Asp Of B&w Photg; O. Intrmd Tech Iss Of Flm Dg Phot; Course is repeatable to a maximum of units.

ART 075 (E-Z) Sculpture Materials and Processes 2 Laboratory, 3 hours; workshop, 10 hours per quarter. Each topic focuses on a single art-making process. Provides in-depth understanding for the beginning sculpture student and a project-derived technique. E. Metal; F. Mold-making; G. Plaster And Clay; J. Wood; Course is repeatable to a maximum of 8 units. Upper-Division Courses

Upper-Division Courses

ART 102 Intermediate Drawing 4 Lecture, 2, hours; studio, 4 hours. Prerequisite(s): ART 001 and ART 002 or equivalent and consent of instructor. An intermediate course of study. Subject: primarily still life, landscape and non-figurative images. Purpose: a fuller understanding of the technical and expressive aspects of drawing. Studio exercises and in-studio lectures. Course is repeatable to a maximum of 8 units with consent of instructor.

ART 103 Advanced Drawing 4 Lecture, 2, hours; studio, 4 hours. Prerequisite(s): ART 102. Intermediate Drawing, or equivalent and consent of instructor. An advanced course of study in drawing techniques and the employment of the drawing medium as a terminal means of artistic expression. Course is repeatable to a maximum of 12 units.

ART 104 Life Drawing 4 Lecture, 2, hours; studio, 4 hours. Prerequisite(s): ART 001 and ART 002 or equivalent and consent of instructor. Media to be pencil, charcoal, pen and ink. Subject: primarily the figure. Purpose: a fuller understanding of the figure and figure composition. Method combines lectures with exercises in studio and outside assignments. Course is repeatable to a maximum of 12 units.

ART 110 Intermediate Painting 4 Lecture, 2, hours; studio, 4 hours. Prerequisite(s): ART 001 and ART 002 or equivalent and consent of

instructor. Subject: primarily still-life, landscape and figure. Purpose: a fuller understanding of the technical aspects of painting. Method: studio exercises, in-studio lectures and outside assignments. Course may be repeated for credit to a total of 12 units.

ART 111 Advanced Painting 4 Lecture, 2, hours; studio, 4 hours. Prerequisite(s): ART 110 and consent of instructor. Advanced problems in figurative and nonfigurative painting. Emphasis on the development of personal direction. Investigation of the individual student's relation to contemporary ideas in painting. In-studio lectures, studio exercises, and outside assignments. May be repeated for credit to a total of 12 units.

ART 112 (E-Z) Supports, Grounds, Underpainting, and Blending 2 Studio, 2 hours; workshop, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Focuses on selected special techniques or approaches to painting. E. Suprts,grnds,undrpaintg,blendg; F. Glazing, Varnishing,& Layering; G. Big Collaborative Painting; I. All Paint; Course is repeatable to a maximum of 12 units.

ART 115 Intermediate Sculpture 4 Lecture, 3 hours; studio 3 hours. Prerequisite(s): ART 005. Develops the necessary critical and imaginative faculties for making sculpture. Through project assignments, students explore associations between materials, forms, and context to construct or deconstruct ideas. Audiovisual presentations, readings, and group critiques survey twentieth-century modern sculpture and more recent practices. Examines the artist's role in the cultural landscape of spectacle and entertainment. Course is repeatable to a maximum of 12 units.

ART 123 Chromologue 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): ART 001 or ART 002 or ART 003 or ART 005 or ART 010; restricted to class level standing of junior, or senior; restricted to major(s) Art (Studio). Introduces philosophical, theoretical, scientific histories related to the understanding and development (use) of color in aesthetic production alongside material history of chemical industry in the 19th and 20th centuries. Addresses recent discoveries of color and technology. Focuses on color as material and perception. Explores fluidity in meaning, production, and experience.

ART 125 Sculpture Hybrid: Furniture, Architecture, Decoration (fad) 4 Lecture, 3 hours; laboratory, 3 hours; consultation, .5 to 1.5 hours. Prerequisite(s): ART 005, ART 115; or consent of instructor. Introduces the sculptural object that exists as or in relationship to furniture, architecture, and interior decoration. Includes an overview of work that defies classification as art or design such as the Bauhaus movement, through utopian American mid-century design and architecture and Italian-based Memphis design, to contemporary art-making practices. Explores theoretical challenges inherent in this art-making strategy.

ART 131 Intermediate Photography and Digital Technology 4 Lecture, 3 hours; laboratory, 4 hours. Prerequisite(s): ART 003 or consent of instructor. Covers the complete cycle of

photographic production from scanning to output. Emphasizes developing skill in creating digital photographic imagery for creative and cultural expression. Software and some digital equipment are provided. A 35mm single lens reflex (SLR) or digital cameras and flash drives are required. Course is repeatable to a maximum of 8 units. Cross-listed with MCS 131.

ART 132 Art Studio Two 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): ART 006/MCS 006, ART 032, upper-division standing in Art; or consent of instructor. Prepares junior Art majors for their senior course work. Emphasizes interdisciplinary work, independent projects, critical analysis in a group critique situation, exhibition preparation, and writing a preliminary artist statement. Letter Grade only.

ART 133 Senior Art Workshop 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): upper-division standing in Art, 16 upper-division units in Art course work, or consent of instructor. Prepares senior Art majors for their thesis exhibition show. Emphasizes interdisciplinary work, independent projects, critical analysis in a group critique situation, exhibition preparation, and writing a final thesis statement.

ART 134 Mixed Media 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): ART 001 and ART 002. Exploration into experimental methods for creating an image; techniques of frottage, collage, photo transfer, modeling and mold making, assemblage.

ART 135 Intermedia: Art, Media, and Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of performance, photography, video, film, television, installation, and other related "intermedias." Focuses on intermedial artworks and how they are constructed, documented, analyzed, and viewed in the larger context of culture. Cross-listed with MCS 135.

ART 136 Installation and Site-Specific Art 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): consent of instructor. Focuses on performance, photo installation, computer art, video/film, site-specific installation, sculpture, and/or other intermedia. Concentrates on production and analysis of site-specific art. Course is repeatable to a maximum of 8 units. Cross-listed with MCS 136. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

ART 137 Advanced Sculpture 4 Lecture, 3 hours; studio 3 hours. Prerequisite(s): ART 115. Focuses on self-directed individual sculpture projects. Course is repeatable to a maximum of 12 units.

ART 139 Intermediate Web-Based Art: Animation, Audio, and Interactivity 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ART 009 or consent of instructor. Explores the conceptual and creative possibilities of Web-based animation, audio, and interactive software at the intermediate level. Addresses the complex interconnections and unique quality of Internet-based art.

ART 140 Intermediate Analog Photography 4 Lecture, 3 hours; studio 4

hours. Prerequisite(s): ART 003, ART 071K is recommended (may be taken concurrently), or consent of instructor. Focuses on developing individual creative approaches in analog photography and strengthening controls and techniques in black and white printing. Requires students to provide their own analog film cameras. Course is repeatable to a maximum of 12 units.

ART 143 Advanced Digital Imaging

Technology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ART 003, ART 131/MCS 131. Covers advanced digital imaging technologies such as large-format scanning, printing, color correction, retouching, and color management. Emphasizes the development of technical skills.

ART 145 Advanced Photography

Workshop 4 Lecture, 3 hours; studio 4 hours. Prerequisite(s): ART 131/MCS 131 or ART 140 or consent of instructor. Advanced individual photographic project based activities. Emphasis on technology, theory, history and process. Critique and lecture. Course is repeatable to a maximum of 12 units.

ART 146 (E-Z) Topics in Advanced

Photography 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): ART 131 or MCS 131; ART 140. An advanced studio course designed to focus on selected special techniques of or approaches to photography. Subject matter is determined by the instructor and may vary. K. Polaroid Photography; L. The Book And The Photograph; M. Dye Transfer; N. Current Art Practices; O. Photography And The Urban Edge; P. Fabricatd To Be Photo&dir Mode; Q. Sycamore Canyn Photgraphic Proj; Course is repeatable to a maximum of units.

ART 150 Intermediate Moving Images:

Film Video and New Media 5 Lecture, 3 hours; studio, 3 hours; screening, 3 hours. Prerequisite(s): ART 004/MCS 004. Examines the moving image through installation, documentary, experimental film, video art, sound art, and performance. Builds upon production and editing concepts introduced in ART 004/MCS 004. Explores issues and skills of video/film/media art based in production, history, and theory of the moving image. Covers editing theory, lighting, and sound editing. Course is repeatable to a maximum of 10 units. Cross-listed with MCS 150.

ART 155 Advanced Moving Images: Film, Video

and New Media 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ART 150/MCS 150. Expands on skills introduced in ART 150/MCS 150. Explores issues and skills connected with video/film/media art based on the production, history, and theory of the moving image. Covers recording, editing theory, lighting, and sound mixing. Examines time-based media through installation, documentary, experimental film, video art, sound art, and performance. Course is repeatable to a maximum of 12 units. Cross-listed with MCS 155.

ART 160 Intermediate Art Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ART 006/MCS 006. Addresses current critical and theoretical issues in modern and contemporary culture. Examines art production

in light of contemporary and modernist art practice, theory, and history in relation to the interpretation and creation of art. Focuses on issues of race, gender, politics, aesthetics, class, and sexuality.

ART 161 Special Topics in Art Criticism and

Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ART 006/MCS 006 and ART 160 with grades of "C-" or better or consent of instructor. Advanced topics in contemporary art theory and criticism. Examines the reception, analysis, and theoretical underpinning of works of art in relation to contemporary and historical issues in the visual arts. Cross-listed with MCS 163.

ART 162 Special Topics in New Genres of

Art Practice 4 Lecture, 2, hours; studio, 4 hours. Prerequisite(s): ART 006/MCS 006 and a beginning studio art course with grades of "C" or better or consent of instructor. Through group critiques, readings, and discussions, explores art making while introducing significant and recent practices in cultural production. Course is repeatable to a maximum of 12 units.

ART 165 Intermediate Digital Painting and Drawing: Intermediate Painting Without A

Trace 4 Lecture, 3 hours; laboratory, 4 hours; individual study, 2 hours. Prerequisite(s): ART 065. Continues the investigation of two-dimensional digitally based painting and drawing. Explores possibilities in combining traditional and digital painting techniques. Examines the relationship between this new medium and traditional painting, drawing, and photography. Course is repeatable to a maximum of 8 units.

ART 167 Intermediate Digital Media: Web

Authoring 4 Lecture, 3 hours; laboratory, 4 hours. Prerequisite(s): ART 009 or consent of instructor. Examines the histories, myths, and technical particularities of the Web from the artist's perspective. Includes art projects that are site-specific to the Internet. Explores issues including access, interface design, activism, multiple narratives, programming, and code. Does not cover software training or commercial graphic design.

ART 168 Intermediate Digital Media:

Interactive Technology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): digital art course or consent of instructor. Create interactive digital artworks in both time-based and environmental forms; explore issues including interactivity, interface design, activism, and multiple narratives. Does not cover software training or commercial graphic design.

ART 169 (E-Z) Image Manipulation (adobe Photoshop) 1

Lecture, 6 hours per quarter; laboratory, 12 hours per quarter. Prerequisite(s): ART 003 or MCS 004 or ART 004 or ART 009 or ART 065 or ART 066. Covers digital imaging application across varied media. Includes Web design, digital video editing, video compositing and effects, Web authoring, digital photography, and desktop publishing. Targets specific software that aid in developing digital production skills that can be applied to a wide array of intermediate course work. E. Image Manipulation; F. Video Editing; G. Web Authoring; J. Graphc Design&desktop Publishng; Course is repeatable to a maximum

of 3 units.

ART 171 Intermediate and Advanced Sculpture and Digital Technology 4

Lecture, 2 hours; laboratory, 4 hours; individual study, 2 hours. Prerequisite(s): ART 005, ART 066. Covers intermediate and advanced three-dimensional modeling and printing resulting in sculpture derived entirely from the computer. Emphasizes individual projects with the potential to create both computer-based models and material-based sculptures. Discusses new digitally based sculptural possibilities in relation to historical sculptural practice. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable to a maximum of 8 units.

ART 175 Advanced Digital Workshop 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ART 131/MCS 131 or ART 139 or ART 150/MCS 150. Designed to encourage the development of individual projects utilizing digital technology. Areas of inquiry may include, but are not limited to, digital imaging, Web-based works, forms of digital publishing, digital video, and digital multimedia installation. Involves laboratory exercises, lectures, discussion of articles and exhibitions, and self-directed assignments.

ART 180 Contemporary Issues and

Practice 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): any lower-division studio art course. A course structured around a sequence of three to six visiting artists, authors, and critics. Visitor presentations will be augmented by relevant articles and in-class presentations. Students generate written and oral responses to specific artists and topics. Artists and topics to be determined by the instructor.

ART 185 Senior Thesis Seminar 4

Seminar, 3 hours; preparatory work, 3 to 6 hours. Prerequisite(s): senior standing in Art; 32 units of upper-division studio art courses; review of preliminary portfolio two quarters before intended enrollment. Independent work and group seminars; completion of thesis statement and presentation of a finished body of work to faculty thesis committee. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ART 185 or ART 195.

ART 190 Special Studies 1 to 5

Prerequisite(s): To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Total credit may not exceed 8 units.

ART 195 Senior Thesis 4

Independent work, 12 hours. Prerequisite(s): completion of 32 units of upper-division studio art courses, review of a preliminary portfolio two quarters prior to intended enrollment; or consent of faculty advisor. The student produces and presents a finished body of work to the faculty. Credit is awarded for only one of ART 185 or ART 195.

ART 198 Individual Internship 1 to 12

Field, 2 hours per unit. Prerequisite(s): consent of instructor and upper-division standing. Work with an appropriate professional individual or organization to gain experience and skills in the student's chosen art specialty. Repeatable to a total of 16 units; maximum of 4 units count toward major in Art.

Graduate Courses

ART 230 Contemporary Critical

Issues 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Focused analysis of contemporary issues of art and media practice communications theory. Investigates painting, sculpture, photography, digital practice, film, video, fiction, feminism, multicultural studies, and gay and lesbian studies. Involves readings, screenings, visiting artists or critics, and field trips. Course is repeatable to a maximum of 12 units.

ART 240 Current Topics in Critical

Theory 4 Seminar, 3 hours, extra reading, 3 hours; research, 2 to 3 hours. Prerequisite(s): graduate standing; ART 006/MCS 006 and ART 160 or equivalents or consent of instructor. Selected theoretical systems as applied to modern, postmodern, and post-postmodern art. Course is repeatable as topics change to a maximum of 12 units.

ART 285 Peer Critique 4 Seminar, 3 hours, research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides a serious and sophisticated environment for peer critique of studio production. Involves readings, screenings, and field trips. Course is repeatable as content changes.

ART 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours; studio, 3 to 6 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Individual study of selected topics directed by a faculty member. Course is repeatable as topics change.

ART 292 Concurrent Studies in Art 1 to

4 Research, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor. Taken concurrently with a 100-series course but on an individual basis. Involves research, critique, studio production, or written work commensurate with the number of units elected. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ART 293 Directed Individual Studio

Production 1 to 4 Studio, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor; graduate advisor. Independent study with faculty member to evaluate artwork, assess progress and provide criticism. Topics may include historical precedents, theoretical readings and consultation on production or presentation of artworks. Course is repeatable as content changes.

ART 299 Research For Thesis 1 to 4 Research, 1 to 6 hours; studio, 3 to 6 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor; satisfactory completion of 28 graduate units in the Masters of Fine Arts program. Individual research with faculty advisor in preparation for comprehensive exhibition for the degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ART 302 Teaching Practicum 1 to 4 Practicum, 2 to 8 hours; consultation, 1 to 4 hours. Prerequisite(s): graduate standing. Provides supervision of teaching in undergraduate Art courses. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Johannes Endres, Dr. phil.habil.
(Art History/Comparative Literature
and Languages)
Liz Kotz, Ph.D.
Jeanette Kohl, Ph.D.
Susan Laxton, Ph.D.
Kristoffer Neville, Ph.D.
Jason Weems, Ph.D.

Assistant Professors

Aleca LeBlanc, Ph.D.
Fatima Quraishi, Ph.D. **

Major

The Art History major provides the framework for the critical study of a wide range of global art and visual culture from different periods of human history and in all media.

The department works closely at both the undergraduate and graduate levels with the UCR California Museum of Photography to give students an opportunity to work with archival and art photographs and with the Jack and Marilyn Sweeney Art Gallery to provide access to cutting-edge multimedia works of art and to give the possibility of gaining curatorial experience.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Undergraduate Studies section.

Major Requirements

Art History Major

The major requirements for the B.A. in Art History are as follows: (52 units)

1. Lower-division requirements (12 units):

one lower-division course in each of the three major areas. Note: No course that appears in more than one area can be repeated

- a) Pre-modern: AHS 015, AHS 017A, AHS 017B, AHS 027/ANTH 027/LNST 027
- b) Early Modern: AHS 015, AHS 017B, AHS 017C, AHS 023, AHS 028/LNST 028
- c) Modern/Contemporary: AHS 008, AHS 017C, AHS 020/MCS 023, AHS 021/URST 021, AHS 023, AHS 028/LNST 028

2. Upper-division requirements (40 units)

- a) AHS 192
- b) Two courses in each of the major areas (24 units). Note: No course that appears in more than one area can be repeated.
 - (1) Pre-modern: AHS 102/ANTH 102, AHS 112/ANTH 151/LNST 112, AHS 116/LNST 116, AHS 117/ANTH 157/LNST 117, AHS 138/AST 138, AHS 139/AST 139, AHS 143/AST 143, AHS 144/AST 144, AHS 147, AHS 148, AHS 155, AHS 156, AHS 157, AHS 159
 - (2) Early Modern: AHS 113, AHS 116/LNST 116, AHS 117/ANTH 157/LNST 117, AHS 134/HISE 134, AHS 138/AST 138, AHS 139/AST 139, AHS 143/AST 143, AHS 144/AST 144, AHS 146/AST 147, AHS 160, AHS 161, AHS 162, AHS 163, AHS 164, AHS 165/HISE 133/WMST 170, AHS 166/WMST 169, AHS 167, AHS 168, AHS 169, AHS 170, AHS 171, AHS 172, AHS 173, AHS 174, AHS 175, AHS 177, AHS 178/URST 178, AHS 179
 - (3) Modern/Contemporary: AHS 115/LNST 115, AHS 116/LNST 116, AHS 120/EUR 110B/CPLT 110B/MCS 178/GER 110B, AHS 134/HISE 134, AHS 135, AHS 136/MCS 137, AHS 137/MCS 138, AHS 145/AST 146, AHS 146/AST 147, AHS 174, AHS 175, AHS 176/MCS 176, AHS 177, AHS 178/URST 178, AHS 179, AHS 180, AHS 181, AHS 182, AHS 183, AHS 184/URST 184, AHS 185/URST 185, AHS 186/MCS 186, AHS 187/MCS 187, AHS 188, AHS 189(E-Z), AHS 191

3. Twelve (12) elective units of upper-division course work in Art History chosen from the three major areas:

Art History/Administrative Studies Major

The major requirements for the B.A. degree in Art History/Administrative Studies are as follows:

Art History requirements (48 units)

1. Lower-division requirements (12 units):

one lower-division course in each of the three major areas. Note: No course that appears in more than one area can be repeated

- a) Pre-modern: AHS 015, AHS 017A, AHS 017B, AHS 018/AST 018, AHS 027/ANTH 027/LNST 027
- b) Early Modern: AHS 015, AHS 017B, AHS 017C, AHS 018/AST 018, AHS 023, AHS 028/LNST 028

- c) Modern/Contemporary: AHS 008, AHS 017C, AHS 020/MCS 023, AHS 021/URST 021, AHS 023, AHS 028/LNST 028

2. Upper-division requirements (36 units)

- a) AHS 192, Junior and Senior Seminar (4 units)
- b) Two courses (24 units total) in each of the major areas (Pre-modern, Early Modern, Modern/Contemporary) Note: No course that appears in more than one area can be repeated.
- c) Eight (8) elective units of upper-division course work in Art History chosen from the three major areas.

Administrative Studies requirements (37 units)

1. Lower-division requirements (17 units)

- a) BUS 010, BUS 020
- b) STAT 048 or equivalent (may be used to satisfy breadth requirements)
- c) CS 008 (may be used to satisfy breadth requirements)

2. Upper-division requirements (20 units)

- a) Two courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 130 or ECON 162/BUS 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151
 - (4) POSC 181 or POSC 182 or POSC 183
 - (5) ANTH 127 or ANTH 131

These two courses must be outside the discipline of Art History and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents.

- b) A three-course track (12 units) in Business Administration courses from one of the following:
 - (1) **Organizations (General):** BUS 100, BUS 107, BUS 176/SOC 176, BUS 158/ANTH 105, SOC 150, SOC 151
 - (2) **Human Resources Management/Labor Relations:** BUS 100, BUS 107, BUS 152/ECON 152, BUS 153/ECON 153, BUS 155, BUS 157, PSYC 142
 - (3) **Business and Society:** BUS 100, BUS 102, BUS 107, PHIL 116, POSC 182, POSC 186
 - (4) **Marketing:** BUS 103, and two from BUS 112, BUS 113, BUS 114, BUS 117
 - (5) **Managerial Accounting/Taxation:** BUS 108, and two from BUS 166, BUS 168A, BUS 168B
 - (6) **Financial Accounting:** BUS 108, BUS 165A, BUS 165B
 - (7) **Finance:** BUS 106/ECON 134 and two from BUS 134, BUS 136, BUS 137, BUS 138, BUS 139
 - (8) **Management Information Systems:** BUS 101, BUS 171, BUS 173
 - (9) **Production Management:** BUS 104/STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the major

students may not count more than two courses toward both parts of their total requirements (Art History requirements and Administrative Studies requirements).

Art History/Religious Studies Major

The Art History/Religious Studies Major combines the disciplinary interest in the history of the visual arts with its related religious content and background.

Major Requirements

The major requirements for the B.A. degree in Art History/Religious Studies are as follows:

Asian Concentration (52 units)

1. Lower-division requirements (12 units)

AHS 015, AST 030/CHN 030, RLST 005

2. Upper-division requirements (40 units)

- a) Art History (16 units): AHS 140/AST 140, AHS 141/AST 141, AHS 143/AST 143, CPLT 141
- b) Religious Studies (24 units): choose from RLST 101, RLST 103, RLST 105, RLST 106, RLST 142/AST 142/CHN 142, RLST 144/CPLT 144

3. Optional 190-level work in either Art History or Religious Studies

Student-designed Comparative Concentration (52 units)

1. Lower-division requirements (12 units)

- a) Art History, choose at least 4 units: AHS 015, AHS 017A, AHS 017B, AHS 017C, AST 030/CHN 030

- b) Religious Studies, choose at least 4 units: RLST 005, RLST 007, RLST 010

2. Upper-division requirements (40 units)

- a) Art History, choose at least 12 units: AHS 140, AHS 141, AHS 143, AHS 155, AHS 156, AHS 157, AHS 159, AHS 161, AHS 162, AHS 164, AHS 171, AHS 172, CPLT 141
- b) Religious Studies, choose at least 12 units: RLST 100, RLST 101, RLST 103, RLST 105, RLST 106, RLST 111, RLST 121, RLST 128 (E-Z), RLST 130, RLST 131, RLST 135/HISE 130, RLST 136, RLST 142/AST 142/CHN 142, RLST 144/CPLT 144

3. Optional 190-level work in either Art History or Religious Studies

Western Concentration (At least 52 units)

1. Lower-division requirements (16 units)

- a) Art History: AHS 017A, AHS 017B, AHS 017C
- b) Religious Studies, choose at least 4 units: RLST 007, RLST 010

2. Upper-division requirements (36 units)

- a) Art History (16 units): choose from AHS 155, AHS 156, AHS 157, AHS 159, AHS 161, AHS 162, AHS 164, AHS 171, AHS 172
- b) Religious Studies (20 units): choose from RLST 100, RLST 111, RLST 121, RLST 128 (E-Z), RLST 130, RLST 131, RLST 135/HISE 130, RLST 136

3. Optional 190-level work in either Art History or Religious Studies

Minor

The minor upper-division requirements are designed to encourage study across art-historical areas, while providing the opportunity for some concentration in one specific area.

Requirements for the minor in Art History are as follows:

1. Lower-division requirements (8 units):

One lower-division course from two of the three major areas. Note: No course that appears in more than one area can be repeated.

- a) Pre-modern: AHS 015, AHS 017A, AHS 017B, AHS 018/AST 018, AHS 027/ANTH 027/LNST 027

- b) Early Modern: AHS 015, AHS 017B, AHS 017C, AHS 018/AST 018, AHS 023, AHS 028/LNST 028

- c) Modern/Contemporary: AHS 008, AHS 017C, AHS 020/MCS 023, AHS 021/URST 021, AHS 023, AHS 028/LNST 028

2. Upper-division requirements: Sixteen (16) upper-division units selected from the three areas listed under the major (No more than 8 units may be selected from any one area.)

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Department of History of Art offers the M.A and Ph.D. in Art History

For graduate study, the department offers upper-division and graduate courses in the history of European, U.S., Central and Latin American, and Asian visual culture from ancient to contemporary times (including the history of photography), emphasizing the interpretation of art and visual culture in its historical and cultural context.

Admission

All applicants to these programs must have completed a bachelor's degree or its approved equivalent from an accredited institution and have attained an undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applications are accepted in the Fall quarter only. All applicants must submit scores from the Graduate Record Exam, General Test (GRE). Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally each applicant must submit a writing sample and three letters of recommendation, at least two of which must be academic references. All other application requirements are specified in the graduate application. Applicants holding an M.A. from another institution take fewer courses and advance to candidacy more quickly, as specified below. Upon entering the program, students consult with the Graduate Adviser regularly to discuss their course of study and progress in

the program.

Master's Degree

The terminal M.A. program will allow students to explore the academic study of art history, to pursue careers requiring some graduate education (such as museum education), or to prepare for admission to a Ph.D. program.

Course Work

48 units of course work are required for the M.A. degree, which may be awarded to a student upon finishing the requirements if the student does not hold an M.A. in Art History. At least 32 of these units must be in graduate level courses. The Department requires students to take a two-quarter Proseminar (AHS 251A and AHS 251B) in the first year and a one-quarter professional development and thesis writing course (AHS 280). In addition to AHS 251A, AHS 251B and AHS 280, students must take one graduate seminar in their area of specialization, two graduate seminars outside of their chosen area, two additional graduate seminars, and four additional graduate or upper-division courses. Students may also take courses – with the approval of the graduate advisor – in visual culture offered by the department of Anthropology, Media and Cultural Studies, or other departments or programs at UCR or other UC campuses.

Students may take as many units of AHS 297 and AHS 299 (thesis research and writing) as desired, but only 12 of these units may be applied to the 32 graduate units required for the degree.

The thesis is the culminating requirement for the degree. Students must complete a successful oral discussion (the “Thesis Meeting”) prior to filing the completed thesis. The thesis should be filed within one year after completing all formal course work.

Language Requirement

Students must demonstrate proficiency in one research language (in addition to English) appropriate to their area of study. The relevant language is chosen in consultation with the graduate advisor and, if possible, the potential M.A. thesis advisor. Ideally, the student should acquire this language proficiency before entering the program. If this is not the case, the language requirement should be fulfilled before the fourth quarter in residence. This requirement is meant to provide the student with an understanding of a foreign language so that the student can perform graduate level research in this language.

To satisfy the language requirement, the student has several options, which are outlined in the department's Graduate Student Handbook. Most commonly, students, while enrolled as graduate students, complete, with a grade of “B” or better, a UC language course or courses equivalent to the following UCR classes.

CHN 006

FREN 004 or FREN 009A and FREN 009B

GER 004 or GER 001R and GER 002R

ITAL 004

JPN 006

SPN 006

Doctoral Degree

The Ph.D. will prepare students for academic

work as researchers, university instructors, and curators in their fields of expertise.

Admission

The Ph.D. program is conceived in two stages: coursework and candidacy. Students who already hold an M.A. in Art History are admitted Post-M.A., but are required to complete one year of coursework (20 units), including three graduate seminars, as well as the language requirements, and the field review as stated in the program description below. Students admitted post-M.A. usually advance to candidacy after one year of coursework.

Course Work

Candidates for the Ph.D. degree entering with a baccalaureate degree complete a minimum of 60 units of required course work, 36 of which must be at the graduate level. The Department requires students to take a two-quarter Proseminar (AHS 251A and AHS 251B) in the fall of the first year and a one-quarter professional development and thesis writing course (AHS 280). In addition to AHS 251A, AHS 251B and AHS 280, students must take two graduate seminars in their area of specialization, two graduate seminars outside of their chosen area, two additional graduate level courses and six additional graduate or upper-division courses.

Students who enter with an M.A. degree complete a minimum of 20 units, 12 of which must be at the graduate level. These courses include AHS 251A, AHS 251B, AHS 280, one graduate seminar in their area of specialization, and two graduate or upper-division courses. Students may also take courses – with the approval of the graduate advisor – in visual culture offered by the department of Anthropology, Media and Cultural Studies, or other departments or programs at UCR or other UC campuses.

Sixth-Quarter Review

All Ph.D. students undergo a comprehensive review no later than the sixth quarter of enrollment in the program, based on a portfolio selected by the student and advisor. The graduate studies committee reviews the student's record and makes one of the following recommendations: proceed, hold, or terminate. Students receiving a hold may reapply once, within three quarters. Students receiving a terminate may continue enrolling for no more than three quarters to complete M.A. requirements.

Only under extraordinary circumstances may a student continue enrolling for more than 9 quarters (including enrollment while an M.A. student at UCR) without permission to proceed to examinations.

Language Requirement

Ph.D. students are required to demonstrate competence in two foreign languages before advancement to candidacy. For some fields, additional languages may be required for mastery of the primary and secondary literature. The appropriate languages will be determined in consultation with the student's academic advisor and approved by the graduate advisor.

To satisfy the language requirements, the student has several options, which are outlined in the department's Graduate Student Handbook. Most commonly, students, while enrolled as graduate students, complete, with a grade of

“B” or better a UC language course or courses equivalent to the following UCR classes.

CHN 006

FREN 004 or FREN 009A and FREN 009B

GER 004 or GER 001R and GER 002R

ITAL 004

JPN 006

SPN 006

Written and Oral Qualifying Examination

The qualifying examination will take the form of written literature reviews, subsequently defended orally. In the second year of the doctoral program, each student will write a substantial literature review of the major field, with the expectation that the review of the major field will demonstrate a broad knowledge of the field in which the dissertation will make a contribution. The field review will then be examined by the faculty and approved by the graduate committee no later than the end of the winter quarter in the third year.

Advancement to Candidacy

Advancement to candidacy is predicated on successful passage of the required coursework, language exams, and field reviews/oral exams. To advance to candidacy, a student must write a dissertation prospectus and pass a qualifying oral examination. The prospectus consists of a concise explanation of the rationale, scope, and method of the proposed dissertation, and should be prepared in consultation with the dissertation advisor, who must approve it before the oral qualifying exam can be scheduled. The oral examination, which is supervised by a faculty committee as stipulated in the regulations of the Graduate Division, concentrates on the students' preparation of writing a dissertation as indicated by the dissertation prospectus.

Dissertation and Final Oral Examination

A dissertation to be presented as prescribed by the Graduate Council is prepared under the direction of the candidate's dissertation committee. The dissertation itself must make a significant and original contribution to the field of art history, as demonstrated in a final oral examination or defense.

Normative Time to Degree including UCR M.A.

is 18 quarters counting time spent as UCR M.A. student or 15 quarters for those entering with an M.A. from another institution.

Lower-Division Courses

AHS 007 World Art: Images, Issues, and

Ideas 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): none. An introduction to artistic achievements of the world's cultures and ways in which they can be viewed. Considers such issues as the use of artworks as historical documents; connections between “high art” and popular culture; and the relationship between artist, viewer, artistic tradition, and society.

AHS 008 Modern Western Visual

Culture 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): none. Focuses on broadly defined cultural practices in relation to painting, photography, video, architecture, and film. Introduces historical,

aesthetic, and theoretical issues in twentieth-century visual culture, emphasizing political and social themes relevant to contemporary life.

AHS 010 Topics in Art and Architectural

History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Explores significant themes and topics from the history of art and architecture around the world. Concentrates on particular subtopics to be announced in the Schedule of Classes. Course is repeatable as topics change to a maximum of 24 units. Credit is awarded for only one of AHS 010 or AHS 010S as topics change.

AHS 010S Topics in Art and Architectural

History 5 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): none. Explores significant themes and topics from the history of art and architecture around the world. Concentrates on particular subtopics to be announced in the Schedule of Classes. Course is repeatable as topics change to a maximum of 24 units. Credit is awarded for only one of AHS 010 or AHS 010S as topics change.

AHS 013 Arts and Architecture of the Islamic

World 4 Lecture, 3 hours; discussion, 1 hour; outside research, 2 hours. Prerequisite(s): none. A survey of the major monuments and themes of the visual arts in the Middle East, North Africa, South Asia, and Spain, from the rise of Islam to present day.

AHS 015 Arts of Asia 4 Lecture, 3 hours; discussion, 1 hour; outside research, 2 hours. Prerequisite(s): none. A survey of the major monuments and themes of the visual arts of India, China, and Japan. Topics include recent archaeological discoveries, Buddhist art, Hindu sculpture and architecture, Zen in art, and the development of Asian pictorial art.

AHS 016 Introduction to the Body in Western

Art 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): none. Introduces questions of the human body and how it was depicted and interpreted in works of art from Roman Antiquity to the present, familiarizing them with a broad range of artworks in their specific historical, cultural, medical, social, religious, political and intellectual contexts. Credit is awarded for only one of AHS 016 or AHS 133/ANTH 161/ DNCE 129/GSST 130/HISE 149.

AHS 017A History of Western Art: Prehistoric

to Byzantine 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): none. A survey of the visual arts of the ancient Near East and Egypt, the Greek world, and the Roman and Byzantine empires. Topics include the growth of urbanism, art as an expression of religious and political beliefs, and cultural contact as a source of artistic change. Credit is awarded for only one of AHS 017A or AHS 17HA.

AHS 017B History of Western Art: Medieval to

Renaissance 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): none. Surveys the visual arts of Europe in the Middle Ages and Renaissance. Includes the religious and political functions of art in the reestablishment of high civilization and the increased status of the individual artist. Credit is awarded for only one of AHS 017B or AHS

17HB.

AHS 017C History of Western Art: Baroque to

Modern 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): none. Surveys the visual arts of Europe and America from 1600 through the present. Includes the religious and political roles of art, the rise of secular imagery, the increased role of women in the arts, the impact of popular culture and photography, and other new media in the visual arts. Credit is awarded for only one of AHS 017C or AHS 17HC.

AHS 17HA Honors History of Western Art:

Prehistoric to Byzantine 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to AHS 017A. A survey of the visual arts of the ancient Near East and Egypt, the Greek world, and the Roman and Byzantine empires. Topics include the growth of urbanism, art as an expression of religious and political beliefs, and cultural contact as a source of artistic change. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of AHS 017A or AHS 17HA.

AHS 17HB Honors History of Western Art:

Medieval to Renaissance 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to AHS 017B. Surveys of the visual arts of Europe in the Middle Ages and Renaissance. Includes the religious and political functions of art in the reestablishment of high civilization and the increased status of the individual artist. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of AHS 017B or AHS 17HB.

AHS 17HC Honors History of Western Art:

Baroque to Modern 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to AHS 017C. Surveys of the visual arts of Europe and America from 1600 through the present. Includes the religious and political roles of art, the rise of secular imagery, the increased role of women in the arts, the impact of popular culture and photography, and the other new media in the visual arts. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of AHS 017C or AHS 17HC.

AHS 020 Introduction to Media Art 4 Lecture,

3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the impact of media technology on the visual arts, from photography to the Internet. Addresses mechanical reproduction, perception, gender, sexuality, identity, interactivity, cybernetics, and popular culture. Cross-listed with MCS 023.

AHS 021 Introduction to Architecture and

Urbanism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the built environment including buildings, gardens, and cities, examined in terms of historical, cultural, social, technological, and political factors. Emphasis is on examples from Southern California. Cross-listed with URST 021.

AHS 023 Introduction to American

Art 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours. Surveys the art and visual culture of North America (primarily in the United States) from the first European contact to the present. Emphasizes visual representation as means for cultural encounter; the construction of race, class and gender; and the relationship between art, nation, and identity.

AHS 027 Art of Pre-Columbian

America 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. A survey course that provides a background to the ancient art of Mexico, Central America, and the Andean region of western South America. Discusses art of pre-Columbian America according to the three broad cultural regions of Mesoamerica, the lower part of central and northwestern South America, and the Andean area. Cross-listed with ANTH 027 and LNST 027.

AHS 028 Art and Architecture of Latin

America 4 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours. Introduces Latin American art and architecture from the European conquest to the present. Topics include religious and secular art and architecture; hybridization of indigenous and imported styles; national styles after independence; Mexican murals; women artists; Latin American modernismo; and Chicano and Border art. Cross-listed with LNS T028.

AHS 030 Rome: the Ancient City 4 Lecture, 3

hours; extra reading, 3 hours. Prerequisite(s): none. Traces the development of the city of ancient Rome. By studying the literary and historical evidence alongside the physical remains of the city--its monuments, art, and historical and archaeological remains--this course seeks to introduce students to the Romans and to their importance for later ages. Cross-listed with CLA 017 and HIST 027.

Upper-Division Courses

AHS 107 Photography Since 1960 4 Lecture, 3

hours; individual study, 3 hours. Prerequisite(s): sophomore, junior or senior standing; or consent of instructor. A critical overview of major historical, social, and political issues in art photography since 1960. Topics include New Documentary, conceptual photography, the Pictures generation, institutional critique, identity politics, the emergence of digital photography, and the cross-categorical expansion of the medium.

AHS 112 The Art of the Aztec Empire 4 Lecture,

3 hours; extra reading, 3 hours. Prerequisite(s): AHS 027/ANTH 027/LNST 027 or upper-division standing or consent of instructor. An introduction to the art of the Aztec Empire. Studies architecture, sculpture, ceramics, painting, lapidary work, gold work, and feather work. Explores the relationship between art and ritual and art and the imperial state. Cross-listed with ANTH 151 and LNST 112.

AHS 113 Sixteenth-Century Mexico: An Art of

Two Worlds 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Explores the art of the first colonial century in Mexico. Investigates the translation of

European art forms to the New World, the fate of indigenous traditions, and artistic change in the context of colonialism and evangelization.

AHS 114 History of Brazilian Art &

Architecture 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. The history of Brazilian art and architecture from the nineteenth century to present. Explores visual culture including painting, sculpture, prints, murals, architecture, urbanism, landscape design, and installation art. Studies artworks and buildings through a social historical framework, taking into consideration topics like colonialism, modernization, underdevelopment, race, nationalism, internationalism, and globalism. Cross-listed with LNST 114.

AHS 115 Modern and Contemporary Art of

Latin America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. A study of Latin American art from circa 1900 to the present. Considers national and regional histories and artistic trajectories beginning with the advent of an artistic avant-garde. Investigates the relationships between European and Latin American developments. Cross-listed with LNST 115.

AHS 116 Architecture and Arts of the

Andes 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. An introduction to architecture, urbanism, and related material culture of the Andes from ancient times to the present. Focuses on the diverse and rich architectural heritage of an important building center in the Americas. Addresses architecture's relationship to artistic and material production such as painting, pottery, sculpture, city planning, and textiles. Cross-listed with LNST 116.

AHS 117 Visual Culture of the Incas 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the art, architecture, and urban form of the Inca civilization. Examines how these elements influenced state formation, conquest, and resistance. Includes studies of urban plans, buildings, paintings, textiles, prints, sculpture, metalwork, and ceramics. Cross-listed with ANTH 157 and LNST 117.

AHS 120 Berlin Metropolis in Literature, Film, Music, and Art 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An introduction to the metropolis Berlin as a gateway between the East and West. Explores topography of the city through film, art, music, and literary texts. Considers Berlin's dramatic transformations as a microcosm of Germany and Europe's troubled history in the twentieth century. Course conducted in English. Cross-listed with CPLT 111, EUR 120, GER 111, and MCS 178.

AHS 124 Conceptual Art in Latin

America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Considers conceptual art made across Latin

America, from 1960s to present. Focuses on subversive strategies artists developed to critique military dictatorships then in power, while circumventing legalized censorship. Considers localized versions of conceptual art in Santiago, Buenos Aires, Rio de Janeiro, Havana, Mexico City, and situate them within international movement. Cross-listed with LNST 124.

AHS 133 The Body in Western Art: Antiquity

to Present 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; Restricted to major(s) Anthropology, Art History, Art History/Admin Studies, Art History/Religious Studies, Gender and Sexuality Studies, History, History/Administrative Studies, History/Law and Society; or consent of instructor. Presents further questions and study of the human body and how it was depicted and interpreted in works of art from Roman Antiquity to the present. Explores a broad range of artworks in their specific historical, cultural, medical, social, religious, political, and intellectual contexts. Cross-listed with ANTH 161, GSST 130, and HISE 149. Credit is awarded for one of the following AHS 133, ANTH 161, GSST 130, HISE 149, or AHS 016.

AHS 135 Postmedia Art 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers heterogeneous movements, theories, and practices from the 1960s to the present that have collectively challenged the doctrine of medium specificity. Topics may include dematerialization, conceptual and postconceptual art, performance and body art, earthworks, process art, and experimental sound and radio.

AHS 136 History of Video Art 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Traces the evolution of video art from the invention of the Portapak and early video collectives to the current ubiquity of video installation, single-channel, and multimedia art. Emphasizes video art in the United States. Cross-listed with MCS 137.

AHS 137 History of Experimental

Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. A survey of cinema outside of the economic, institutional, and aesthetic imperatives of mainstream film production. Covers an array of alternative film movements including surrealism and dada, Soviet avant-garde, the Cine 16 Group, French new wave, North American avant-garde, and the artist's film. Cross-listed with MCS 138.

AHS 138 Arts of China 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. A survey of Chinese art and culture from the prehistoric to the contemporary. Cross-listed with AST 138.

AHS 139 The Arts of Buddhism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Explores the history, concepts, and arts of

Buddhism. Emphasizes the transmission and cultural translation of pictorial arts within Asia and to Western worlds. Cross-listed with AST 139.

AHS 143 Text and Image in Chinese

Painting 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Examines the art of writing and painting in China, focusing on the close relationship between written language and pictorial image. Reading knowledge of the Chinese language is not necessary. Cross-listed with AST 143.

AHS 144 Arts of Japan 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Major developments in the arts of Japan from the prehistoric to the contemporary period. Emphasizes the social and cultural contexts of religious art, architecture, and master artists through history, with a brief introduction to contemporary art and pop culture. Cross-listed with AST 144.

AHS 145 Contemporary Asian Art 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Explores the wide spectrum of contemporary arts from China, Korea, and Japan in terms of modernism, orientalism/occidentalism, identity politics, and globalization. Cross-listed with AST 146.

AHS 146 The Japanese House 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. History of the traditional Japanese house from prehistoric times to the nineteenth century. Examples used to place the Japanese house within the general history of Japanese architecture and within its social and cultural context. Cross-listed with AST 147.

AHS 147 The Art of Greece 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Explores the architecture, sculpture, painting, and minor arts of ancient Greece from the earliest Archaic Period through the Hellenistic Age.

AHS 155 Cultures in Conflict: Art at the Fall of the Roman Empire 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers architecture, mosaic, wall painting, manuscript illumination, and sculpture from the origins of Christianity to the final dissolution of the Roman Empire. Stresses the role of art in the co-optation of the Church by the Empire and then in the aftermath of its fall.

AHS 156 Memory of Empire: the Art of Early Medieval Europe 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers manuscript illumination, barbarian jewelry, architecture, and sculpture from the fall of the Roman Empire and through the Carolingian Empire up to the tenth century. Stresses the interplay between indigenous Germanic and foreign classical traditions.

AHS 157 The Medieval Pilgrimage and the

Art of Romanesque France 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers architecture, sculpture, and illuminated manuscripts of the eleventh and twelfth centuries. Stresses the role of the pilgrimage and of politics during the period of the revival of monumental architecture and of public sculpture of the Middle Ages.

AHS 158 Self-Portraits: Renaissance to Contemporary Art 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior or senior standing; or consent of instructor. Introduces the history, theory, and practice of self-portraiture in Western art, from its beginnings in Antiquity to contemporary works. Discusses concepts of identity, 'self-fashioning', and artistic thinking chronologically. Introduces major works of art and important interpretations/methods of art history.

AHS 159 The Gothic Cathedral in its Urban Context 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers architecture, sculpture, and stained glass in the twelfth and thirteenth centuries. Stresses the political origins and social setting of public art during this period of the reestablishment of urban culture with its resultant social tensions.

AHS 160 Renaissance Architecture 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An introduction to architecture in the period 1400-1600. Explores the major ideas and trends in architecture that took form in this period, including the architects and the ideas that motivated them in their historical context.

AHS 161 Italian Renaissance: Fifteenth- and Sixteenth-Century Florence 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Surveys the painting, sculpture, architecture, and gardens of this period within their historical and cultural context.

AHS 162 Italian Renaissance: Fifteenth- and Sixteenth-Century Rome 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Surveys the painting, sculpture, architecture, and gardens of this period within their historical and cultural context.

AHS 163 Renaissance in Venice: West Meets East 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. An introduction to the art and culture of Venice circa 1420-1600. Addresses central issues of artistic, cultural, and intellectual exchange among Venice, the Eastern Mediterranean, and the North. Discusses major artworks in the fields of painting, sculpture, and architecture.

AHS 165 Women Artists in Renaissance Europe, 1400-1600 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Surveys the lives and work of women artists in Renaissance Europe. Considers circumstances under which it was

possible for women to become artists; how they evolved from practicing in the cloistered convent to participating in the competitive public market place; what they painted; and who their patrons were. Cross-listed with HISE 133, and GSST 170.

AHS 167 Europe in the Early Modern World: Global Artistic Contact and Exchange, 1492-1750 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Explores trade, religious conversion, intersecting traditions, and the creation of new traditions. Examines the mechanisms and cultural consequences of change through time.

AHS 168 Politeness and Commerce: British Art and Design, 1660-1820 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. An introduction to the production and use of images and material culture in Britain between 1660 and 1820. Examines the role of art and design within British culture and public life.

AHS 169 Sculpture and its Roles in Eighteenth-Century France and Britain 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Examines the production and uses of sculpture within eighteenth-century British and French culture.

AHS 170 Baroque Architecture 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): Art History course or consent of instructor. Examines the development of architecture in Europe and the Americas from 1580 to 1750. Explores the concept of buildings and the city as a form of communication; the spread and reformulation of architectural ideas in new contexts; and the rise of the architectural profession.

AHS 171 The Church, the Court, and the People: Art in Seventeenth-Century Europe 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. A study of the dominant trends and figures of Italian, French, Spanish, Flemish, and Dutch Baroque art. Includes the works of Caravaggio, Bernini, Velazquez, and Rembrandt. Emphasizes the development of illusionistic ceiling decoration, the theoretical basis of Baroque art, and the sacred and political uses of art.

AHS 172 Baroque Rome 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. An in-depth examination of Roman art in the seventeenth century. Studies painting, sculpture, architecture, and urban planning in their political and religious contexts. Emphasizes the ecclesiastical and private patrons who transformed Rome into one of the world's most important cities.

AHS 173 Rococo to Revolution: Art in Eighteenth-Century Europe 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Examines major

developments in eighteenth-century painting, sculpture, and interior decoration from the emergence of the Rococo to the dawn of Neoclassicism. Explores the response of art to new forms of patronage, the erotics of eighteenth-century art, and how art functioned as social and political commentary.

AHS 175 Industry and Alienation: Late Nineteenth-Century American Art 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. A study of American art from 1848 to 1900. Focuses on social, political, and artistic issues related to industrialization. Explores themes in visual culture; the construction of an American identity; the role of fine arts in American society; and the tensions of class, gender, race, and ethnicity in American art.

AHS 176 Twentieth-Century Photography 1900-1960 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior or senior standing; or consent of instructor. A critical overview of photographic practices in Europe and the United States in the first half of the twentieth century. Topics include pictorialism, the interwar avant-gardes, the rise of documentary, photojournalism, and street photography. Examines technological, conceptual, aesthetic, economic, and social issues.

AHS 177 American Art: Colonial Period to 1900 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Explores painting and architecture in the United States from the colonial period to 1900.

AHS 178 The Modern City 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Examines the modern metropolis from the Industrial Revolution to the present. Explores the history and theory of modern urbanism through case studies of metropolitan areas with a rich urban culture, architecture, and morphologic features. Investigates approaches to the problems of the large urban agglomeration in the context of social Cross-listed with URST 178.

AHS 179 Revolution, Reaction, and Revision: American Art Between the World Wars 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An in-depth study of American art and visual culture during the early twentieth century, focusing on the period between the two world wars. Traces artistic developments in painting, photography, cinema, and material culture. Explores the issues of race, class, gender, and regional identity as addressed in these media.

AHS 180 Modern European Art I: Nineteenth Century 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Surveys painting and sculpture in Europe from the French Revolution to the Franco-Prussian War. Introduces the ideas and concepts of modern European art. Traces artistic developments

from Neoclassicism to the emergence of Impressionism in a broad cultural, social, and political context.

AHS 181 Modern Art II: Art in Europe, 1870-1945 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Traces the history of the modern movement from Impressionism to the end of World War II. Focuses on the arts in their interrelationships to the political events and social conditions of the period. Emphasizes the persecution of modernism in Europe under fascism and communism.

AHS 182 Visual Art and Visual Theory After 1945 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Examines visual art since 1945 primarily from Europe and the United States. Traces developments in all media within a historical and theoretical context. Focuses on the rise of postmodernism, analyzing work in relation to theories of representation and cultural identity.

AHS 183 Photography On Display 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Covers various topics related to current exhibitions at the California Museum of Photography. Provides the necessary historical and theoretical background of the specific photographs on display. Addresses the wider museum context of the difference between working photographs, art photographs, and the politics of that designation. Course is repeatable as content or topic changes to a maximum of 12 units.

AHS 184 Modern Architecture 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Explores modern architecture and its sources from 1800 to the present. Cross-listed with URST 184.

AHS 185 Architectural Theory From Vitruvius to Venturi 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. History of architectural thought from Vitruvius to the present, emphasizing the modern period. Surveys the major themes of architectural theory and investigates the relationships between ideas about architecture and architectural production. Cross-listed with URST 185.

AHS 186 Media and Movements: Film, Video, Photography, and the Visual Arts 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on key cultural movements or developments in global arts over the past century. Provides a thematic history of the avant-garde and experimental arts including painting, sculpture, photography, video, film, performance, installation, and new media art. Cross-listed with MCS 186. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

AHS 188 Nineteenth-Century Photography 4

Lecture, 3 hours; individual

study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Examines the development of photography in the nineteenth century. Addresses the technologies, artistic practices, and social uses of this medium. Focuses on European and American materials, as well as traces the histories of portrait, landscape, scientific, and documentary photography.

AHS 189 (E-Z) Topics in Contemporary

Art 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of sophomore, junior, or senior. Addresses selected issues, movements, and artists of importance to international art history since the 1960s. E. Art Since Conceptual Art; Course is repeatable as content or topic changes to a maximum of 12 units.

AHS 190 Special Studies 1 to 5

variable hours. Prerequisite(s): To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable to a maximum of 12 units.

AHS 191 California Modern Art 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): an Art History course or upper division standing or consent of instructor. Explores California visual expression from 1900 to 1980. Provides critical attention to the development of a purportedly unique California art and culture. Focuses on Southern California topics in order to take advantage of local and regional museums, collections, lectures, and events.

AHS 192 Junior and Senior Seminar in Art History 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing in Art History or Art History Administrative Studies. Critical study of selected topics in the history of art and its methods. Topics vary. Course is repeatable to a maximum of 12 units.

AHS 195H Senior Honors Thesis 1 to 4 Thesis, 3 hours to 12 hours. Prerequisite(s): admission to the University Honors Program or consent of the Art History Department. Independent research and preparation of a senior honors thesis completed under the supervision of a faculty member. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 8 units.

AHS 198I Individual Internship 1 to 12

Research, variable hours. Prerequisite(s): consent of instructor and upper-division standing. Individual study or apprenticeship in a museum, art library, or slide and photo archive in order to gain practical experience and skills for future professional work. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

Graduate Courses

AHS 251A Proseminar in

Historiography 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the history of the discipline of art history. Covers historiographic traditions from antiquity to the present. Includes instruction in preparing a conference paper as an element of professional training.

AHS 251B Proseminar in

Methodology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to current methodologies of art history. Covers the models and approaches in art history and cognate disciplines. Includes instruction in writing the methodological component of a grant application as an element of professional training.

AHS 252 History and Ideology of the

Museum 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the history of collecting and the evolution of the museum as a cultural institution in the western world. Includes an investigation of sources, documents, and historiography complemented by a study of museums and collections in the Los Angeles area.

AHS 260 Seminar in Latin American

Art 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of Latin American art from the European conquest to the present. Course is repeatable as topics change.

AHS 263 Seminar in Islamic Art and

Culture 4 Seminar, 3 hours; research, 3 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of Islamic art from the seventh century to the present. Course is repeatable as topics change to a maximum of 24 units.

AHS 267 Seminar in Asian Art 4

Seminar, 3 hours; research, 3 hours; research paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers special topics in Asian art. Course is repeatable as topics change.

AHS 272 Seminar in Medieval Art 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Selected issues of the function of art within medieval social, political, theological, and intellectual culture. Course is repeatable as topics change.

AHS 273 Seminar in Renaissance

Art 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Special topics in Italian and/or Northern Renaissance art. Course is repeatable as topics change.

AHS 274 Seminar in Seventeenth- and

Eighteenth-Century Art 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Special topics in seventeenth- and eighteenth-century art. Course is repeatable as topics change.

AHS 276 Seminar in Nineteenth-Century

Art 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of nineteenth-century European and/or American art. Course is repeatable as topics change.

AHS 277 Seminar in Twentieth-Century

Art 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of twentieth-century European and/or American art. Course is repeatable as topics change.

AHS 278 Seminar in Modern

Architecture 4 Seminar, 3 hours; research, 3 hours; research paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of nineteenth- and twentieth-century architecture and urbanism. Course is repeatable as topics change.

AHS 279 Seminar in American Art 4 Seminar, 3 hours; research, 3 hours; research paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of American art, photography, and visual/material culture from the colonial period to the present. Course is repeatable as topics change.

AHS 280 Seminar in Research, Critical

Analysis, and Thesis Writing 4 Seminar, 3 hours; research 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers advanced research that helps in conceptualizing a thesis topic, organizing and structuring material, and in writing one chapter of the thesis. Examines research in different fields of the history of art. Explores scholarly issues from a diversity of specializations. Course is repeatable as topics change.

AHS 282 Seminar in New Media 4 Seminar, 3 hours; research, 3 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history and theory of photography, film, video, and digital media. Course is repeatable as topics change.

AHS 283 Seminar in History of

Photography 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the history of photography, with an emphasis on new theories and histories of photographic practice. Students encouraged to do research projects drawing on the collections of the UCR/California Museum of Photography. Course is repeatable as topics change.

AHS 284 Seminar in Contemporary Art and

Theory 4 Seminar, 3 hours; individual study, 3 hours; research paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Studies of selected topics in contemporary art, photography, and related media, with an emphasis on critical theories of representation and issues of practice. Course is repeatable as topics change.

AHS 285 Getty Consortium Seminar 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An intramural seminar at the Getty Research Institute. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topics change.

AHS 286 Curatorial Seminar 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor.

Initiates the process of bringing the work of the seminar into the public sphere. Students critique contemporary exhibition practice and develop an exhibition concept that successfully communicates the research and debates of the specific topic of study. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

AHS 287 Curating as Critical

Practice 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): AHS 286. Brings the work of the Curatorial Seminar into the public sphere through a critical examination of the curatorial process and the mounting of a museum exhibition, catalog production, and linked programming. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

AHS 290 Directed Studies 1 to 6

Research, variable hours. Prerequisite(s): consent of instructor. Independent work under a staff member's supervision in a particular field. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

AHS 292 Concurrent Analytical Studies 1 to

4 Research, 3 hours to 12 hours. Prerequisite(s): graduate standing and consent of instructor. To be taken concurrently with a 100-series course, but on an individual basis. It will be devoted to research, criticism, and written work of graduate order commensurate with the number of units elected. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

AHS 297 Directed Research 1 to 6

Research, variable hours. Prerequisite(s): consent of instructor, completion of language requirement, and one seminar. Research study or exploratory work toward the development of the thesis. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

AHS 298I Individual Internship 1 to

4 Research, variable hours. Prerequisite(s): graduate standing. Individual study or apprenticeship in a museum, art library, or slide and photo archive in order to gain practical experience and skills for future professional work. Graded Satisfactory (S) or No Credit (NC). Repeatable to a total of 12 units. Not more than 8 units count toward the 40 units required for the M.A.

AHS 299 Research For Thesis Or Dissertation 1 to 12

Thesis, 3 to 36 hours, variable hours. Prerequisite(s): consent of instructor, completion of language requirement, and one seminar. Thesis or Dissertation research and writing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

AHS 301 Directed Studies in the Teaching

of the History of Art 3 Seminar, 2 hours; consultation, 1 hour. Prerequisite(s): graduate standing. A program of weekly meetings and individual formative evaluation required of new Art History Teaching Assistants. Covers instructional methods and classroom/section activities. Conducted by the Teaching Assistant Development Program and department faculty. Credit is not applicable toward degree unit

requirements. Graded Satisfactory (S) or No Credit (NC).

AHS 302 Teaching Practicum 1 to 4

Lecture, 1 to 4 hours; clinic, 1 hour. Prerequisite(s): limited to departmental teaching assistants; graduate standing. Supervised teaching in upper- and lower-division Art History courses. Required of all Art History teaching assistants. Credit not applicable toward degree unit requirements. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

Major

The Asian Studies major affords students the opportunity to study Asia from an interdisciplinary perspective, drawing on courses and faculty from various departments of the College of Humanities, Arts, and Social Sciences. Students are strongly encouraged to consider participating in Education Abroad offered in various Asian locales, including China, Taiwan, Hong Kong, Japan, Vietnam, Singapore, the Philippines, India, and Korea. Students may also participate in the undergraduate intercampus exchange program, which allows any UC student to apply for study for one term at other UC campuses. Both options provide rich opportunities to participate in additional course work on Asia that may be counted toward the major.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The requirements for the B.A. degree in Asian Studies are as follows:

Students can focus on any aspect of Asia and/or Asian America, and are strongly encouraged to select a disciplinary focus in Anthropology, Art History, History, Comparative Literature and Foreign Languages, Ethnic Studies, Music and Culture, Media and Cultural Studies, or Religious Studies. Students may choose to focus on the historical interactions and cultural similarities and differences among East, Northeast, South, Southeast, West, and Central Asia peoples, including those constituting transnational and/or diaspora communities throughout the world. Students interested in Asian diaspora communities are also encouraged to consider a secondary disciplinary focus in Ethnic Studies, leading to a minor in Asian American Studies.

All students are required to enroll in at least 4 units of AST 195 and write a senior thesis during the first or second quarter of their senior year. (This is a substantial paper based on original research under the supervision of one faculty member of the Asian Studies program.)

1. Lower-division requirements (12 units plus language requirement)

- Two years of basic language instruction in any Asian language (This requirement may be filled by language courses currently offered at UCR or through approved summer language programs. In some cases, the second year requirement may be waived with the approval of the Asian Studies Committee in Charge)

b) At least 12 units from the following:

AHS 015, AST 022/ MCS 022/JPN 022, AST 023/CPLT 023/JPN 023, AST 030/ CHN 030, AST 034/JPN 034, AST 040/ CHN 040, AST 045 (E-Z)/HIST 045 (E-Z), AST 046/CHN 046, AST 046W/CHN 046W, AST 047/KOR 047/MCS 047, AST 056/CPLT 056/JPN 056, AST 062/ CPLT 062/SEAS 062, AST 063/CPLT 063/SEAS 063, AST 064/MCS 049/ SEAS 064/VNM 064, AST 065/SEAS

065, AST 090, CPLT 029, ETST 005, ETST 005H, HIST 030, HIST 044/RLST 044, HIST 044W/RLST 044W, JPN 035, KOR 042, RLST 005, RLST 005H

2. Upper-division requirements (40 units)

Students are required to enroll in a minimum of one course each from three of the following areas of emphasis.

- Asian America: AST 124/MUS 124, ENGL 139, ENGL 139T, ETST 106, ETST 110 (E-Z), ETST 133, ETST 136, ETST 137/SEAS 137, ETST 138, ETST 139, ETST 140, ETST 143A/SEAS 143A, ETST 143B/SEAS 143B, ETST 144, ETST 150, SOC 136
- China: AHS 143/AST 143, AST 107/ CHN 107/RLST 107, AST 135/CHN 135, AST 136/CHN 136, AST 142/CHN 142/RLST 142, AST 148/CHN 148, AST 185/CHN 185/MCS 169, CHN 105, CHN 108, CHN 110 (E-Z), CHN 115 (E-Z), CHN 190, HIST 180, HIST 181, HIST 182, HIST 191W, MCS 156 (E-Z), MCS 172, RLST 103
- Japan/Korea: AHS 144/AST 144, AHS 146/AST 147, AST 112/KOR 112, AST 150/JPN 150, AST 152 (E-Z)/JPN 152 (E-Z), AST 153 (E-Z)/JPN 153 (E-Z), AST 154 (E-Z)/JPN 154 (E-Z), AST 169/MUS 169 (4 units maximum), AST 184/JPN 184/MCS 184, CPLT 142 (E-Z)/GSST 142 (E-Z), CPLT 145/JPN 145, ETST 136, JPN 190, KOR 110 (E-Z), RLST 105
- Southeast Asia: ANTH 126/AST 123/ DNCE 123/MUS 123, ANTH 140-I, ANTH 176/AST 127/DNCE 127/ETST 172/MUS 127, AST 119/MUS 119, AST 162/HIST 187/SEAS 162/VNM 162, AST 163/CPLT 163/SEAS 163, AST 165 (E-Z)/GSST 165 (E-Z)/SEAS 165 (E-Z)/VNM 165 (E-Z), AST 168/MUS 168 (4 units maximum), AST 170/MUS 170 (4 units maximum), RLST 149/SEAS 149, RLST 150/SEAS 150
- Other East, Northeast, South, Southeast, West, or Central Asia: ANTH 128/AST 128/DNCE 128/MUS 128/THEA 176, AST 133/CPLT 144/RLST 144, AST 145/ CHN 141/ CLA 141/CPAC 141/POSC 140, PHIL 110, POSC 130, RLST 101, RLST 103, RLST 104, RLST 105, RLST 106, RLST 108, RLST 145/SEAS 145
- Senior thesis requirement: 4 units of AST 195

Minor

The Asian Studies minor allows students from any discipline to enhance their studies with a focus on Asian peoples and cultures. The minor consists of 28 units.

- Lower-division requirements: 8 units from the following:** AHS 015, AST 022/ JPN 022/MCS 022, AST 030/CHN 030, AST 034/JPN 034, AST 040/CHN 040, AST 045 (E-Z)/HIST 045 (E-Z), HIST 044/ RLST 044, JPN 035, RLST 005, RLST 005H
- Upper-division requirements: 20 units from the following:**
AHS 140/AST 140, AHS 141/AST 141, AHS 143/AST 143, AHS 144/AST 144,

AHS 146/AST 147, ANTH 140I, ANTH 176/ AST 127/DNCE 127/ETST 172/MUS 127, ANTH 128/AST 128/DNCE 128/MUS 128/ THEA 176, AST 107/CHN 107/RLST 107, AST 124/ MUS 124, AST 135/CHN 135, AST 133/CPLT 144/RLST 144, AST 136/ CHN 136, AST 142/CHN 142/RLST 142, AST 148/CHN 148, AST 150/JPN 150, AST 152 (E-Z)/JPN 152 (E-Z), AST 153 (E-Z)/JPN 153 (E-Z), AST 154 (E-Z)/JPN 154 (E-Z), AST 162/HIST 187/SEAS 162/ VNM 162, AST 163/CPLT 163, SEAS 163, AST 165 (E-Z)/GSST 165 (E-Z)/SEAS 165 (E-Z)/VNM 165 (E-Z), AST 168/MUS 168 (no more than 2 units may be applied to the minor), AST 169/MUS 169 (no more than 2 units may be applied to the minor), AST 170/MUS 170 (no more than 2 units may be applied to the minor), AST 184/JPN 184/MCS 184, AST 185/CHN 185/MCS 169, AST 190 (no more than 4 units may be applied to the minor), CHN 101A, CHN 101B, CHN 101C, CHN 104, CHN 105, CHN 108, CHN 110 (E-Z), CHN 115 (E-Z), CHN 190, CPLT 143/FREN 143, CPLT 142 (E-Z)/GSST 142 (E-Z), ENGL 139, ENGL 139T, ETST 133, ETST 137/SEAS 137, ETST 138, ETST 140, ETST 143A/SEAS 143A, ETST 144, ETST 150, HIST 180, HIST 181, HIST 182, HIST 191W, JPN 101A, JPN 101B, JPN 101C, JPN 150, JPN 190, PHIL 110, POSC 130, RLST 101, RLST 103, RLST 105, RLST 106, RLST 108

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Lower-Division Courses

Study and performance of the Central Javanese gamelan, consisting mainly of gongs and gong-chime instruments. Readings and discussions focus on Javanese culture. Course is repeatable. Cross-listed with MUS 168 and SEAS 168.

AST 169 Taiko Ensemble 1 Studio, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of Japanese drumming. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable. Cross-listed with MUS 169.

AST 170 Rondalla Ensemble 1 to 2 Studio, 2 to 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of the Filipino rondalla, an ensemble consisting of various sizes of lute-like and guitar-like instruments. Discussions focus on Filipino culture. Cross-listed with MUS 170 and SEAS 170. Course is repeatable.

AST 180 Japanese Documentary 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Studies the history of Japanese documentary cinema. Teaches strategies for reading nonfiction visual narrative. Explores other forms of documentation controversial in modern Japanese history including oral testimony, photography, and internet activism. Topics may include war, war protest, peace activism, environmental activism, nuclear politics, and green energy. Course is repeatable as topics and instructor change to a maximum of 8 units. Cross-listed with JPN 180, and MCS 180.

AST 184 Japanese Media and Cultural

Studies 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigates Japanese media and culture including film, television, video games, manga (comics), anime, music, and print and digital media. Analyzes the function of media relating to issues of national identity, imperial culture, collective memory, and censorship. Includes transnational circulation of Japanese cultural forms, alternative media, and historical changes in technologies. Cross-listed with MCS 184, and JPN 184.

AST 185 New Chinese Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020, upper-division standing or consent of instructor. A study of representative films from the People's Republic of China, with a focus on those made during the last decade. Conducted in English; most films have English subtitles. Cross-listed with CHN 185, and MCS 169.

AST 186 Hong Kong Cinema: Gender, Genre, and the "New Wave" 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Examines contemporary Hong Kong films, specifically the "New Wave" genre. Particular focus is on the sociopolitical conditions of Hong Kong and its relations with Great Britain and China, the linkages of which set the stage for the films and thematic concerns. Cross-listed with MCS 168.

AST 187 Transnational Vietnamese Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores how Vietnamese people and the Vietnamese diaspora seek to imagine a sense of community in the postwar era through contemporary film and video. Examines the thematics of return, longing, and exile. Reviews some of the texts' bold expressions of gender, sexuality, and identity. Cross-listed with MCS 167, and SEAS 177.

AST 188 (E-Z) Topics in Chinese History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): HIST 180 or HIST 181 or HIST 182; restricted to class level standing of junior, or senior. An in-depth look at important topics in Chinese history. E. Chinese Food Culture; F. Four Grit Invenrtns Imperl China; G. Environmental History Of China; Cross-listed with HIST 188 (E-Z).

AST 189 Encountering Vietnam 5 Lecture, 6 hours; tutorial, 6 hours; project, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on literary and historical accounts of Vietnam. Utilizes translated travel writings from different genres and eras. Proficiency in Vietnamese not required. Taught in Vietnam and offered only in summer. Cross-listed with HIST 189, SEAS 189, and VNM 189.

AST 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing or consent of instructor. To be taken with the consent of the Chair of the Program as a means of meeting special curricular problems. Course is repeatable.

AST 195 Capstone Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing.

Thesis composition under the guidance of Asian Studies faculty. Required for all Asian Studies majors. Course is repeatable to a maximum of 8 units.

BIOCHEMISTRY

Subject abbreviation: BCH

Sika Zheng, Ph.D. (Biomedical Sciences)
Raphael Zidovetzki, Ph.D. (Molecular, Cell, and Systems Biology)
Nicole Zur Nieden, Ph.D. (Molecular, Cell, and Systems Biology)

Major

The three emphases areas within the Biochemistry major are Chemistry, Biology, and Medical Sciences. The Biology and Chemistry emphases are for students interested in postgraduate education or employment in the basic areas of the discipline of Biochemistry. The goal of the Medical Sciences emphasis is to prepare students for admission to postbaccalaureate education in the health professions. The Biology, Chemistry, and Medical Sciences emphases focus on the development of laboratory and critical thinking skills, and hands-on laboratory experience. In addition, participation in an independent research project (BCH 197) or research tutorial (BCH 190), carried out under the supervision of a faculty member, is encouraged. Internships in industry (BCH 198-I) are also available, and often lead to valuable job experience and employment opportunities.

The department offers both B.A. and B.S. degrees. The major and emphasis requirements are the same for both, and most students choose the B.S. degree. The B.A. degree requires 12 additional units of Humanities and Social Sciences courses, and 16 units or a course 4 equivalency level of a foreign language (see College Breadth Requirements).

Note: A maximum of 12 units of 190-199 courses may be counted toward the 180 unit graduation requirement. All courses used towards the Biochemistry major requirements must be taken for letter grades.

Transfer Students

Transfer students majoring in Biochemistry must complete at least three of the following full-year sequences, which must include first-year calculus and general chemistry:

1. First-year calculus, equivalent to MATH 009A, MATH 009B, MATH 0046
2. General chemistry, equivalent to CHEM 001A, CHEM 001B, CHEM 001C, CHEM 011A, CHEM 011B, CHEM 011C
3. Organic chemistry (must be completed with

a minimum grade of "B" in each term)

4. General biology, equivalent to BIOL 005A, BIOL 05LA, and BIOL 005B (and BIOL 005C, if available)
5. General physics (calculus-based) equivalent to PHYS 002A, PHYS 002B, PHYS 002C or PHYS 040A, PHYS 040B, PHYS 040C

Students must have a minimum grade point average of 2.70 in transferable college courses.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The major requirements and the emphasis requirements are the same for the B.A. and the B.S. degree in Biochemistry. Choose one emphasis. All upper-division courses presume completion of the life sciences core curriculum.

Continuation in the major requires that the student maintains cumulative and upper division/science GPAs of 2.00 or higher, a GPA of 2.00 or higher in each academic quarter, and makes adequate progress in the major with no more than 16 units of repeated courses. Adequate progress in the major is defined as (a) earning no grade lower than a "C-" in any required lower division mathematics or science course, STAT 100A, CHEM 12A, CHEM 12B, CHEM 12C, or any upper division BCH course, and (b) completing MATH 9B and CHEM 1A by the end of the Fall Quarter of the second year of residence and BCH 110A, BCH 110B, and BCH 110C by the end of the third year of residence. Freshmen must also complete BCH 95 with a grade of "S" during their first year of residence. Freshmen in the Medical Science Emphasis must also complete BCH 96 with a grade of "S" during their first year of residence. A student who does not meet these adequate progress standards will be discontinued from the major. In addition, a student who receives a grade of "D+" or lower in any two of the courses in (A) on the first attempt, or in any one of these courses in each of two attempts, will be discontinued from the major. Students who receive a grade lower than "B-" in BIOL 5A or CHEM 12A are strongly encouraged to complete BCH 100 during their second year of residence to better prepare themselves for BCH 110A, BCH 110B, and BCH 110C.

Biology Emphasis

1. Lower-division requirements (71 units)

- a) BCH 095 or equivalent, BCH 015
- b) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
- c) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 011A, CHEM 011B, CHEM 011C, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 8HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM

- 08HC and CHEM 8HLC or CHEM 12C
d) MATH 007A or MATH 009A, MATH 007B or MATH 009B, MATH 046

- e) PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC

2. Upper-division requirements (45-46 units)

- a) BCH 110A, BCH 110B, BCH 110C, BCH 162, BCH 184
b) At least 3 units from BCH 111, BCH 120, BCH 153/BIOL 153/BPSC 153, BCH 180 (E-Z), BCH 183/BPSC 183, BCH 186, BCH 187, BCH 210, BCH 211, BCH 212
c) BIOL 102
d) CHEM 109 or CHEM 110A
e) STAT 100A
f) Choose two biological science courses from the following:
(1) BCH 111, BCH 120, BCH 153/BIOL 153/BPSC 153, BCH 180 (E-Z), BCH 183/BPSC 183, BCH 186, BCH 187, BCH 210, BCH 211, BCH 212
(2) BIOL 105, BIOL 108, BIOL 114, BIOL 117, BIOL 119, BIOL 121/MCBL 121, BIOL 121L/MCBL 121L, BIOL 123/MCBL 123/PLPA 123, BIOL 124/MCBL 124, BIOL 128/CBNS 128, BIOL 151, BIOL 155/BPSC 155, BIOL 157, BIOL 159/NEM 159, BIOL 160, BIOL 161A, BIOL 161B, BIOL 171, BIOL 171L, BIOL 173/ENTM 173, BIOL 175
(3) BIOL 104/BPSC 104, BIOL 132/BPSC 132, BIOL 143/BPSC 143, BIOL 148/BPSC 148, BIOL 155/BPSC 155, BPSC 135
(4) BIOL 100/ENTM 100, BIOL 173/ENTM 173, ENTM 128
(5) CBNS 101, CBNS 106, CBNS 116, CBNS 120/PSYC 120, CBNS 120L/PSYC 120L, CBNS 124/PSYC 124, CBNS 125/PSYC 125, CBNS 150/ENTX 150, CBNS 169
(6) ENSC 100
(7) ENTX 101, CBNS 150/ENTX 150

3. **BCH 190 or BCH 197 are available as elective courses.** Enrollment requires upper division standing and written permission of the supervising faculty member. No more than 9 units of courses numbered 190-199 may be counted towards the major.

Chemistry Emphasis

1. Lower-division requirements (76 units)

- a) BCH 095 or equivalent, BCH 015
b) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
c) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 005, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 8HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC or CHEM 12C
d) MATH 007A or MATH 009A, MATH 007B or MATH 009B, MATH 046

- e) PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC

2. Upper-division requirements (45-46 units)

- a) BCH 110A, BCH 110B, BCH 110C, BCH 162, BCH 184
b) At least 3 units from BCH 111, BCH 120, BCH 153/BIOL 153/BPSC 153, BCH 180 (E-Z), BCH 183/BPSC 183, BCH 186, BCH 187, BCH 210, BCH 211, BCH 212, BIOL 119
c) BIOL 102
d) CHEM 109 or CHEM 110A
e) STAT 100A
f) Two courses from CHEM 110B, CHEM 113, CHEM 125, CHEM 150A, CHEM 150B, CHEM 166 (Other graduate courses may be substituted by students with a GPA of 3.00 or better with permission of the instructor and the faculty advisor.)

3. **BCH 190 or BCH 197 are available as elective courses.** Enrollment requires written permission of the supervising faculty member. No more than 9 units of courses numbered 190-199 may be counted towards the major.

Medical Sciences Emphasis

1. Lower-division requirements (69 units)

- a) BCH 095 or equivalent, BCH 015
b) BCH 096, BCH 098I
c) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
d) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 8HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC or CHEM 12C
e) MATH 007A or MATH 009A, MATH 007B or MATH 009B
f) PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC

2. Upper-division requirements (45-46 units)

- a) BCH 110A, BCH 110B, BCH 110C, BCH 120, BCH 162, BCH 184
b) BIOL 102
c) CHEM 109 or CHEM 110A
d) CBNS 101
e) STAT 100A
f) At least 3 units from BCH 183/BPSC 183, BIOL 119, BIOL 121, BIOL 161A, BIOL 161B, BIOL 171, CBNS 106, CBNS 150/ENTX 150.

Graduate and upper-division courses can be substituted with permission of the instructor and the faculty advisor. Graduate courses require a GPA of 3.0 or greater in the sciences.

Students should be aware that CHEM 005 is often a requirement for admission to professional schools.

Graduate Program

The Department of Biochemistry offers a

graduate program leading to the M.S. or Ph.D. degree in Biochemistry and Molecular Biology. This program emphasizes basic biochemistry with research specializations in the areas of molecular biology, physical biochemistry, molecular endocrinology, plant biochemistry and molecular biology, signal transduction, and biomedical research. It is designed for students who are planning a career of research and teaching in biochemistry at colleges and universities or who wish to engage in biochemical investigations of fundamental or applied nature in private, governmental or commercial laboratories.

Admission

Students who have completed a bachelor's degree in physical, biological, chemical, or agricultural sciences are invited to apply to the program. Regardless of the area of their major for the baccalaureate degree, students should have taken the following courses prior to beginning graduate study in biochemistry or plan to make up deficiencies soon after entering graduate school:

1. One year of calculus
2. One year of general physics
3. One year of organic chemistry
4. An introductory course in physical chemistry
5. At least two courses in biology at the upper-division level, including genetics

Students should arrange to take the GRE General Test in time for their scores to be submitted with their application.

Doctoral Degree

The Department of Biochemistry offers the Ph.D. degree in Biochemistry and Molecular Biology.

Course Work

The following courses are required. Credit for upper division courses listed below will be given at the discretion of the graduate advisor if equivalent coursework has been taken previously. Students' course requirements are determined in consultation with the graduate advisor for them upon their arrival. The graduate advisor suggests an individualized course program involving classes in biochemistry and subsidiary fields of study, chosen from any of the physical, biological, or agricultural sciences. Although an adequate course preparation is a requisite part of the training program, the department encourages early involvement of the students in research directed toward their dissertations.

- BCH 110A-110HA-110C: General Biochemistry
BCH 162; or equivalent research experience
BCH 184: Topics in Physical Biochemistry
BCH 210; Biochemistry of Macromolecules
BCH 211; Molecular Biology
BCH 212; Signal Transduction.
BCH 230 series: at least one course
BCH 240 Special topics in Biochemistry; required each quarter in residence except the first quarter. The course consists of the laboratory group meeting of the student's Major Professor
BCH 250 Oral Presentation in Biochemistry; this course must be taken prior to Advancement to Candidacy.

BCH 251 Graduate Seminar in Biochemistry; one formal oral presentation is required in the student's first four years in the program.

BCH 252 General Seminar in Biochemistry; must be taken every quarter, when offered. Exceptions to this rule may be made by petition to the Graduate Advisor in cases where the General Seminar in Biochemistry conflicts with the student's Teaching Assistant responsibilities.

GDIV 403 Interdisciplinary Seminar: Research and Scholarship Ethics; must be taken once within one year of advancement to candidacy.

Elective Course Requirement: The elective courses consist of at least 9 units of graduate or upper division undergraduate course work in the sciences. Courses taken to satisfy deficiencies at the time of admission cannot be counted toward the elective course requirements.

At the end of the second quarter, students select major professors and are ready to initiate a research project. At the end of the first year, students submit a written report describing their research efforts and relating them to current biochemical work in related areas.

Written and Oral Qualifying Examinations

At the end of the first year, and no later than the end of the second year, students take a comprehensive written qualifying examination consisting of material from BCH 210, BCH 211, and BCH 212.

Upon successful completion of this exam, the student will then submit and orally defend a research report in which they describe the research they have performed thus far and develop a plan for their complete dissertation research project. This fulfills the requirement for an oral qualifying examination. Students completing all necessary requirements are advanced to candidacy for the Ph.D. degree.

Students must sit the comprehensive written exam within the first two years in the program. Unless excused by either the graduate advisor or department chair, failure to sit the examination will be regarded as a failed exam. Students must sit every sequential offering of the exam and no student will be given more than two attempts to achieve a satisfactory grade on the comprehensive written exam.

Dissertation and Final Oral Examination

Following completion of their research, students submit a written dissertation and conclude their studies with an oral defense of the dissertation.

Teaching Requirement

As part of the program, each student is required to serve at least two quarters as a teaching assistant.

Professional Development Training

Ph.D. graduate students fulfill their professional training requirement through enrollment in BCH250, BCH 252 and GDIV 403.

Normative Time to Degree 15 quarters. In the case that a student changes the degree aim from M.S. to Ph.D., normative time will be reset.

Master's Degree

In addition to the Ph.D. program, the department offers two plans for the master's degree (Plan I, Thesis; Plan II, Comprehensive Examination).

Both plans require completion of at least 36 course units; for Plan I, a maximum of 12 units may be for thesis research.

Course Work

The following courses offered by the Biochemistry Department, or acceptable substitutes (determined by the Graduate Advisor when the student joins the program), are required:

BCH 110A-110HA-110C: General Biochemistry
BCH 162; or equivalent research experience
BCH 184: Topics in Physical Biochemistry
BCH 210; Biochemistry of Macromolecules
BCH 211; Molecular Biology
BCH 212; Signal Transduction.
BCH 230 series: at least one course
BCH 252 General Seminar in Biochemistry; must be taken every quarter, when offered.

No more than 6 units of Biochemistry courses 240, 252, or 261 may be offered in fulfillment of the unit requirement at the 200 level.

In special cases, where it is otherwise impossible to obtain the required number of 200-level graded courses, up to 4 units of Biochemistry 290 may be taken for graded credit. Approval of the Graduate Advisor prior to enrollment is required. Also, a petition must be approved by the Graduate Dean.

Students pursuing Plan II must sit the first comprehensive written exam scheduled following the completion of the coursework. The exam will consist of material from BCH 210, BCH 211 and BCH 212. Unless excused by either the graduate advisor or department chair, failure to sit the examination will be regarded as a failed exam. Students must sit every sequential offering of the exam and no student will be given more than two attempts within one year following completion of the coursework to achieve a satisfactory grade on the comprehensive written exam.

Lower-Division Courses

BCH 010 Introduction to Nutrition 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the biological basis of human nutrition in the context of plant-animal-microorganism cycles and the characteristics of different food classes. The effects of nutritional needs, food availability, and the expanding human population are discussed. Students record and evaluate their own diet.

BCH 015 Introduction Biochemistry

Laboratory 3 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA with grade of "C-" or better (CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA may be taken concurrently); or consent of instructor. Introduces basic biochemistry wet laboratory techniques for biological samples. Includes micropipetting, volumetric relationships, dilutions, pH measurement, buffer preparation, spectrophotometry, gel permeation chromatography, and ion-exchange chromatography. Explores the use of molecular graphics for investigation of macromolecular structure-function relationships.

BCH 095 Topics in Biochemistry For Career

Planning 1 Seminar, 1 hour. Prerequisite(s): lower-division standing in Biochemistry. Topics include analysis of academic aspects of career goals and options; curriculum planning; undergraduate research opportunities; preparation for postgraduate education; laboratory experiences and evaluation of data; ethics in education and research; research problems in contemporary biochemistry; and modern experimental approaches in biochemistry. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of BCH 095, NASC 091, or NASC 093.

BCH 096 Introduction to Humanitarian and Healthcare Service 1

Lecture, 8 hours per quarter; consultation, 2 hours per quarter. Prerequisite(s): a major in Biochemistry with an emphasis in Medical Sciences. Acquaints students with opportunities for volunteer activities in the humanitarian and healthcare arenas in southern California. Provides students with the opportunity to validate their commitment to a career in the healthcare arena. Requires a term paper. Graded Satisfactory (S) or No Credit (NC).

BCH 097 Research Tutorial in

Biochemistry 1 Laboratory, 3 hours. Prerequisite(s): lower-division standing, minimum grade point average of 3.5, approval of undergraduate advisor and consent of instructor. Laboratory tutorial in Biochemistry. To provide biochemistry laboratory experience for exceptional lower-division students. A written report is required at the end of each quarter. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

BCH 098 Individual Internship in A Humanitarian Or Healthcare Arena 1

Internship, 3 hours, term paper, 10 hours per quarter. Prerequisite(s): a major in Biochemistry with an emphasis in Medical Sciences; BCH 096. Gives Biochemistry majors with a Medical Sciences emphasis real-world experience providing community service in a humanitarian or healthcare arena. Requires a written report. Graded Satisfactory (S) or No Credit (NC). course is repeatable to a maximum of 2 units.

Upper-Division Courses

BCH 100 Elementary Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, with grade of "C-" or better, CHEM 12C with grade of "C-" or better (CHEM 12C may be taken concurrently) Introduction to chemistry and molecular biology of living organisms based on a study of the structure, function, and metabolism of small molecules and macromolecules of biological significance. Examines selected animals, plants, and microorganisms to develop a general understanding of structure-function relationships, enzyme action, regulation, bioenergetics, intermediary metabolism, and molecular biology. Credit is not awarded for BCH 100 if a grade of "C-" or higher has been awarded previously in BCH 110A or BCH 110HA or BCH 110B or BCH 110HB.

BCH 110A General Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A with a grade of "C-" or better; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC with grades of "C-" or

better. Considers the structure and function of biological molecules including proteins, carbohydrates, lipids, and nucleic acids. Credit is awarded for only one of BCH 110A or BCH 110HA.

BCH 110B General Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA with a grade of "C-" or better or consent of instructor. Consideration of metabolic pathways including mechanisms and regulation of catabolism, anabolism, and bioenergetics in living organisms. Credit is awarded for only one of BCH 110B or BCH 110HB.

BCH 110C General Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA with a grade of "C-" or better, BIOL 102 or consent of instructor. BCH 110B or BCH 110HB is highly recommended. Considers regulation of gene expression, protein synthesis, chromatin structure, genome replication, recombination, and repair. Examines both prokaryotic and eukaryotic systems, including recombinant DNA technology, protein engineering, and applications to molecular medicine. Credit is not awarded for BCH 110C if it has already been awarded for BCH 110HC or BIOL 107A.

BCH 110HA Honors General

Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s) BIOL 005A with a grade of "C-" or better; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC with grades of "C-" or better. Honors course corresponding to BCH 110A. Consideration of the structure and function of biological molecules including proteins, carbohydrates, lipids, and nucleic acids. Satisfactory (S) or No Credit grading is not available. Credit is awarded for only one of BCH 110A or BCH 110HA.

BCH 110HB Honors General

Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA with a grade of "C-" or better. Honors course corresponding to BCH 110B. Consideration of metabolic pathways including mechanisms and regulation of catabolism, anabolism, and bioenergetics in living organisms. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of BCH 110B or BCH 110HB.

BCH 110HC Honors General

Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA with a grade of "C-" or better. BCH 110B or BCH 110HB is highly recommended. Honors course corresponding to BCH 110C. Considers regulation of gene expression, protein synthesis, chromatin structure, genome replication, recombination, and repair. Examines both prokaryotic and eukaryotic systems, including recombinant DNA technology, protein engineering, and applications to molecular medicine. Credit is not awarded for BCH 110HC if it has already been awarded for BCH 110HC or BIOL 107A.

BCH 120 Topics in Human

Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 100 with a grade of "C+" or better or BCH 110B or BCH 110HB with

a grade of "C-" or better or consent of instructor. Lectures on biochemical and molecular aspects of modern endocrinology, nutrition, metabolic diseases, and blood chemistry. Emphasis is on relation of the above topics to medicine. The discussion sections are used for presentations on topical medical problems.

BCH 162 Advanced Biochemistry

Laboratory 5 Lecture, 2 hours; laboratory, 9 hours. Prerequisite(s): BCH 015; BCH 110B or BCH 110HB; BCH 110C or BCH 110HC all with grades of "C-" or better, or consent of instructor. Advanced biochemistry laboratory techniques including modern methods of protein engineering, purification, and characterization, enzyme assays, principles of various types of column chromatography, SDS gel and other methods of electrophoresis, centrifugation, and crystallization. Most experiments include quantitative reasoning through data manipulation, numerical simulations, parametric evaluation, and detailed laboratory reports. Satisfactory (S) or No Credit (NC) grading is not available.

BCH 180 (E-Z) Advncd Methods in

Biochemistry 2 Lecture, 1 hour; seminar, 1 hour; extra reading, 2 hours; term paper, 0.5 hour. Prerequisite(s): BCH 197, may be taken concurrently or BCH 110C with a grade of C- or better or BIOL 107A with a grade of C- or better; restricted to class level standing of junior, or senior. An introduction and discussion of the experimental approaches and modern techniques in the study of cell growth regulation, signal transduction, and cell death in cancer. E. Gene Regulation; F. Chromatin Research; G. Cell Signaling; I. Structural Biology; J. Biophysical Chemistry; K. Cryoelectron Microscopy; M. Biological Structure/function; N. Genome Stability; O. Genomics & Proteomics; P. Regulation Of Protein Synthesis; Q. Stem Cell Biology; R. Epigenetics; S. Molecrl Biol Of Genetic Diseas; T. Bch Of Development & Aging; U. Bch Of Stress Responses; Course is repeatable to a maximum of units.

BCH 183 Plant Biochemistry and

Pharmacology of Plant Metabolites 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA; BCH 110B or BCH 110HB; or BCH 100; or consent of instructor. Explores plant biochemistry and the significance of plant metabolites in medicine and pharmacology. Focuses on biotechnology, medicinal plants, and plant-derived drugs as well as the biochemical and pharmacological mode-of-action of secondary plant metabolites. Also addresses plant-specific biochemical processes such as photosynthesis. Cross-listed with BPSC 183.

BCH 184 Topics in Physical

Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 100 with a grade of "C-" or better or BCH 110A or BCH 110HA with a grade of "C-" or better; BIOL 135 with grade of "C-" or better, or CHEM 109 with grade of "C-" or better or CHEM 110A with grade of "C-" or better; or consent of instructor. Explores modern biophysical methods determining the structures of biological macromolecules and relating structure to function. Covers x-ray crystallography, NMR, and cryoelectron microscopy. Addresses imaging and mass

spectrometry for determining structure and ultraviolet, visible, infrared, RAMAN, fluorescence, NMR, EPR, and other forms of spectroscopy for relating macromolecular structure to function.

BCH 186 Molecular Bioenergetics 3 Lecture, 3 hours. Prerequisite(s): BCH 100 with a grade of C- or better or BCH 110B with a grade of C- or better or BCH 110HB with a grade of C- or better; BCH 184 with a grade of C- or better; or consent of instructor. Introduction to biological energy transduction. Describes the coupling of oxidative phosphorylation and photosynthesis to adenosine triphosphate (ATP) synthesis and the coupling of ATP hydrolysis to ion transport, chemotaxis, molecular motors, biomimetics, and other biological processes on the basis of recent structural and mechanistic studies of the protein complexes involved.

BCH 187 Fundamentals of

Enzymology 3 Lecture, 3 hours. Prerequisite(s): BCH 100 or BCH 110A or BCH 110HA with a grade of C- or better. An introduction to the fundamental principles of enzymology. Specific topics include, acid-base catalysis, strain effects, transition state theory, enzyme kinetics (including isotope effects), enzyme dynamics and enzyme regulation. Considers in detail the reactions of several representative enzymes.

BCH 189 Advanced Analysis of Biochemical

Methods 2 Lecture, 1 hour; discussion, 1 hour. Prerequisite(s): senior standing in a Biochemistry major, concurrent enrollment in BCH 162, and consent of instructor. Working with a faculty mentor, students investigate the use of a set of biochemical methods through research of the original literature. Includes a term paper that summarizes the current state of the technology/methodology of interest. Satisfactory (S) or No Credit (NC) grading is not available.

BCH 190 Special Studies 2 to 4

Individual Study, 6 to 16 hours. Prerequisite(s): upper-division standing and consent of instructor. Literature review and tutorial in select modern biochemical topics. Course is repeatable.

BCH 197 Research For Undergraduate

Students 1 to 4 Prerequisite(s): junior status and consent of the instructor. Directed research and preparation of written report. Course is repeatable.

BCH 198I Internship in Biochemistry 1 to

12 Internship, 3 to 36 hours. Prerequisite(s): BCH 015, consent of instructor, upper-division standing. An internship to provide on-the-job biochemical experience in government, industrial, or clinical laboratories. Each individual project must be approved by the Biochemistry Department and the laboratory director where the internship is to be carried out. A written report is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

Graduate Courses

BCH 204 Genome Maintenance and

Stability 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; BIOL 113 or BIOL 114 or CBNS 101; BIOL 102 is strongly recommended. Emphasizes chromosome-based processes that

maintain genome integrity and ensure accurate genome transmission during cell division. Topics are drawn from the primary literature and include chromatin structure and composition, DNA repair and recombination, telomere function and chromosome maintenance, mitotic chromosome segregation, and checkpoint surveillance mechanisms. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CMDB 204, and ENTX 204.

BCH 205 Signal Transduction Pathways

in Microbes and Plants 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in the biological sciences, BIOL 107A or BIOL 113 or BIOL 114 or CBNS 101; or consent of instructor. Advanced topics in signal transduction pathways that regulate growth and development in plants and prokaryotic and eukaryotic microbes. Areas covered include two-component regulatory systems; quorum sensing; signaling via small and heterotrimeric G proteins; mitogen-activated protein kinase cascades; cAMP signaling; photoreceptors; plant hormone signaling; responses to low-oxygen stress; calcium signaling; and plant pathogenesis. Cross-listed with CMDB 205, GEN 205, BPSC 205, MCBL 205, and PLPA 205.

BCH 209 Ribonucleic Acid (rna)

Biology 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 107A or CBNS 101 or equivalent; or consent of instructor. A comprehensive overview of the multiple functions of ribonucleic acid (RNA) in the cell. Topics include mRNA, rRNA, and tRNA function and metabolism; RNA catalysis and the "RNA world"; eukaryotic and bacterial non-coding RNAs; and bacterial riboswitches. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CMDB 209, and GEN 209.

BCH 210 Biochemistry of

Macromolecules 4 Lecture, 4 hours. Prerequisite(s): BCH 110A, BCH 110B, BCH 110C or equivalents; BCH 184 (may be taken concurrently); CHEM 109; graduate standing or consent of instructor. Discussion of recent advances in the knowledge of the molecular architecture of proteins and nucleic acids, especially with respect to new experimental approaches for analyzing their structure and function. Chemistry of the active site of enzymes.

BCH 211 Molecular Biology 3 Lecture, 3 hours. Prerequisite(s): BCH 110A, BCH 110B, BCH 110C or equivalents; graduate standing or consent of instructor. Advanced topics in molecular biology of the biosynthesis and regulation of DNA, RNA, and proteins. Some topics covered include the following: molecular anatomy of genes and chromosomes; DNA repair and recombination; regulation of genes in the cell cycle; telomerase; RNA processing and splicing; RNA editing; regulation of normal genes and oncogenes; chaperones and protein targeting.

BCH 212 Signal Transduction and

Biochemical Regulation 3 Lecture, 3 hours. Prerequisite(s): BCH 110A, BCH 110B, BCH 110C or equivalents; graduate standing or consent of instructor. Advanced topics in

signal transduction and biochemical regulation. Topics include protein kinases and protein phosphorylation; phosphatases and their role in regulation; function of phosphorylation events in regulation of metabolism and growth; calcium and other ion channels as signal transduction mechanisms; steroid hormones receptor super family; immune system signal transduction events.

BCH 230 (E-Z) Advanced Topics in

Biochemistry 2 Lecture, 1 hour; discussion, 1 hour. Prerequisite(s): BCH 100 or BCH 110A, BCH 110B or BCH 110HA, BCH 110HB; graduate standing. Addresses advances in a particular field of biochemistry by analysis of the recent literature. E. Structure Of Biological Molecules; F. Enzyme Catalysis; G. Glycobiology; H. Membrane Biochemistry; I. Cytoskeleton And Extracellular Matrix; J. Metabolism; K. Regulation Of Chromatin Structure And Transcription; M. Genome Stability; N. Regulation Of Protein Synthesis; O. Signal Transduction; P. Emerging Topics In Biochemistry And Molecular Biology; Q. Cell Cycle Regulation; R. Biochemistry Of Stress Responses; S. Biochemistry Of Development And Aging; T. Molecular Basis Of Genetic Diseases; U. Genomics And Proteomics; W. Stem Cell Biology; Course is repeatable.

BCH 231 The Plant Genome 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 107A; or BCH 110A or BCH 110HA, BCH 110B or BCH 110HB, BCH 110C or BCH 110HC; or consent of instructor. Gives students an appreciation for the structure of the plant nuclear, chloroplast, and mitochondrial genomes. Gene structure, regulation of gene expression, transposons, and methods of gene introduction are also emphasized. Cross-listed with BPSC 231.

BCH 240 Special Topics in

Biochemistry 2 Lecture, 2 hours. Prerequisite(s): graduate standing in Biochemistry or consent of instructor. Oral presentations and intensive small-group discussion of selected topics in the area of specialization of each faculty member. Course content emphasizes recent advances in the special topic area and varies accordingly. Transposable Elements and Insect Molecular Biology. Atkinson. Chromosome Segregation and Stability. Bachant. Mechanisms of Translational Control. Bailey-Serres. Signal Transduction in Fungi. Borkovich. Photosynthesis: Electron Transfer and O₂ Evolution. Debus. Specificity in Mitogen-Activated Kinase Cascades. DeFea. Molecular Basis of Learning and Memory. Ethell. Plant Gene Expression. Gallie. Mechanisms of Signal Transduction in Plants. Larsen. Tumor Suppressor and Cell Cycle Regulation. Liu. Regulation of Eukaryotic Gene Transcription. Martinez. Chemokines in Healing and Disease. Martins-Green. Mechanisms of Steroid Hormones. Norman. Insect Innate Immunity. Raikhel, A. Nutrient-Activated Gene Expression. Raikhel, A. Stem Cell Biology. Sato. Chromatin. Sauer. Regulation of Tissue-Specific Gene Expression. Sladek. Regulation of Gene Expression. Spindler. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 56 units.

BCH 250 Oral Presentations in

Biochemistry 2 Seminar, 1 hour, discussion, 1 hour. Prerequisite(s): graduate standing. Training and practice in the presentation of biochemical concepts in both short and long seminar formats, using blackboard, overhead projector, and slides. Presentations are immediately and critically evaluated by both faculty and staff. Limited to 10 students.

BCH 251 Graduate Seminar in

Biochemistry 2 Seminar, 1 hour, Discussion, 1 hour. Prerequisite(s): BCH 250. Oral reports by graduate students on current research topics in biochemistry.

BCH 252 General Seminar in

Biochemistry 1 Seminar, 1 hour. Prerequisite(s): graduate standing. Oral reports by faculty, graduate students, and visiting scholars on current research topics in biochemistry. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BCH 261 Seminar in Genetics, Genomics, and Bioinformatics 1

Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BIOL 261, BPSC 261, ENTM 261, PLPA 261, and GEN 261.

BCH 289 Special Topics in

Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with BIOL 289, CHEM 289, ENTM 289, NRSC 289, and PSYC 289.

BCH 290 Directed Studies 1 to 4 Research, 3 to 12 units. Prerequisite(s): graduate standing in Biochemistry; consent of instructor and graduate advisor. Experimental or literature studies on specifically selected topics undertaken under the direction of a staff member. Course is repeatable.

BCH 291 Individual Study in Biochemistry 1

to 6 Prerequisite(s): graduate standing in Biochemistry or consent of instructor. A program of studies designed to advise and assist candidates who are preparing for examinations. Open to M.S. and Ph.D. candidates; does not count toward the unit requirement for the M.S. degree. Graded Satisfactory (S) or No Credit (NC). Repeatable up to 6 units for pre-Master's students and up to 12 units for Ph.D. students prior to successful completion of the qualifying examination.

BCH 297 Directed Research 1 to 6 Research, 3 to 36 hours. Prerequisite(s): graduate status in Biochemistry or consent of instructor. Directed research in preparation for dissertation projects performed prior to advancement to candidacy. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BCH 299 Research For Thesis Or

Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate status in Biochemistry or consent of instructor. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

BCH 301 Teaching of Biochemistry at the

College Level 1 Seminar, 1 hour. Prerequisite(s): graduate standing and consent of instructor. A program of weekly meetings and individual formative evaluations required of new biochemistry teaching assistants. Covers instructional methods and classroom/section activities most suitable for teaching Biochemistry. Conducted by the TA Development Program. Credit not applicable to graduate unit requirements. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BCH 302 Apprentice Teaching 1 to 4 variable hours. Prerequisite(s): graduate standing; limited to departmental teaching assistants. Supervised teaching in lower- and upper-division Biochemistry courses. Required for all Biochemistry teaching assistants. Fulfills portion of the teaching requirements for Ph.D. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

BIOENGINEERING

Subject abbreviation: BIEN

Professors

Bahman Anvari, Ph.D.
Xiaoping Hu, Ph.D. *Chair and Provost Fellow*
Dimitrios Morikis, Ph.D.
Victor G. J. Rodgers, D.Sc.
Valentine Vullev, Ph.D.

Professor Emeritus

Jerome S. Schultz, Ph.D. *Distinguished Professor*

Associate Professors

Huinan Liu, Ph.D.
Jiayu Liao, Ph.D.
B. Hyle Park, Ph.D.
Kaustabh Ghosh, Ph.D.
Jin Nam, Ph.D.

Assistant Professors

Justin Chartron, Ph.D.
Kevin Freedman, Ph.D.
William H. Grover, Ph.D.
Jia Guo, Ph.D.
Joshua Morgan, Ph.D.
Megan Peters, Ph.D.
Giulia Palermo, Ph.D.

Assistant Research Engineer

Elena Kokkoni, Ph.D.

Cooperating Faculty

Mark Alber, Ph.D. (Distinguished Professor Mathematics)
Bir Bhanu, Ph.D. (Chair and Distinguished

Professor Electrical and Computer Engineering)

Devin Binder, Ph.D. (School of Medicine)
Byron Ford, Ph.D. (School of Medicine)
David Lo, Ph.D. (Distinguished Professor School of Medicine)
Aaron Seitz, Ph.D. (Psychology)
Hongdian Yang, Ph.D. (Cell Biology and Neuroscience)

Major

The major in Bioengineering allows students to complete a B.S. degree that provides a basic education to enter the fields of bioengineering and biotechnology.

Bioengineering is rooted in physics, mathematics, chemistry, biology, and the life sciences. It is the application of a systematic, quantitative, and integrative way of thinking about and approaching the solutions of problems important to biology, health, and clinical practice.

Bioengineers develop processes and products that are important for health and treatment of diseases, new materials, protecting environments, and food production. They are employed by the pharmaceutical, biotechnology, medical device, and environmental and food industries. For students interested in medicine, the bioengineering program provides the basic courses to prepare for application to medical schools.

The objective of the bioengineering program is to produce graduates who:

- have a strong foundation to apply science, engineering, and biological principles to meet the challenges at the interface of engineering, life sciences, and medicine
- have the capability to pursue graduate studies, careers in the medical device or biotechnology industries, or entry into medical or other health related professional schools
- are effective as professionals working individually and in teams and can communicate effectively to integrate contributions from multiple disciplines to address biological and medical problems.
- have an appreciation of and sensitivity to a broad range of ethical and social concerns related to bioengineering

The Bioengineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org.

All undergraduates in the College of Engineering must see an advisor at least annually. Visit student.engr.ucr.edu for details.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The Bioengineering major uses the following major requirements to satisfy the college's Natural Sciences and Mathematics breadth requirement.

1. BIOL 005A, BIOL 05LA
2. CHEM 001A, CHEM 001B, CHEM 001C
3. MATH 008B or MATH 009A

Major Requirements

1. Lower-division requirements (84 units)

- a) BIEN 001, BIEN 010
- b) BIOL 005A, BIOL 05LA, BIOL 005B
- c) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA, CHEM 01HB, CHEM 01HC, CHEM 1HLA, CHEM 1HLB, CHEM 1HLC), CHEM 008A, CHEM 008B, CHEM 08LA, CHEM 08LB, (or CHEM 08HA, CHEM 08HB, CHEM 08HLA, CHEM 08HLB)
- d) CS 010
- e) EE 001A, EE 01LA
- f) MATH 009A, MATH 009B, MATH 009C, (or MATH 09HA, MATH 09HB, MATH 09HC) MATH 010A, MATH 010B, MATH 046
- g) PHYS 040A, PHYS 040B, PHYS 040C

2. Upper-division requirements (70 units)

- a) BIEN 101
- b) BIEN 105, BIEN 110, BIEN 120, BIEN 125, BIEN 130, BIEN 130L, BIEN 135, BIEN 140A/CEE 140A, BIEN 155, BIEN 175A, BIEN 175B, BIEN 175C
- c) BIEN 115
- d) STAT 155
- e) Technical electives (16 units): BIEN 136/ MSE 136, BIEN 137, BIEN 138, BIEN 140B/CEE 140B, BIEN 142, BIEN 159/ CEE 159, BIEN 160, BIEN 165, BIEN 166, BIEN 167

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Lower-Division Courses

BIEN 001 Introductory Colloquium in

Bioengineering 1 Colloquium, 1 hour. Colloquia on current topics in bioengineering and other related fields delivered at an introductory level. Presented by faculty members, visiting scientists, or individuals with industrial bioengineering experience. Graded Satisfactory (S) or No Credit (NC).

BIEN 010 Overview of

Bioengineering 4 Lecture, 3 hours; discussion, 1 hour; practicum, 3 hours. Provides an overview of the various aspects of bioengineering and introduces bioengineering design. Illustrates the application of engineering principles for the design of various products to health science industries. Covers diagnostic instruments, artificial organs, biotechnology, and cell and tissue engineering. Covers engineering ethics.

Upper-Division Courses

BIEN 101 Quantitative Biochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; MATH 046. Provides Bioengineering students with an in-depth experience in applying mathematical modeling and simulation methods to understand the dynamics of biochemical systems. Prepares for designing new applications of genetic engineering.

BIEN 105 Circulation Physiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 110. Introduces tensor and vector mathematics that describe the conservation of momentum and mass transport in biological sciences, the cardiovascular system, and pulmonary system. Includes constitutive equations, significance of fluid stress in biological vessels, and the physiological relevance of fundamental parameters. Emphasizes the relation between function and system behavior.

BIEN 110 Biomechanics of the Human Body 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C or CHEM 01HC; CS 010; MATH 010A; PHYS 040B or PHYS 040HB. Introduces the motion, structure, and function of the musculoskeletal system, the cardiovascular system, and the pulmonary system. Topics include applied statics, kinematics, and dynamics of these systems and the mechanics of various tissues (ligament, bone, heart, blood vessels, lung). Emphasizes the relation between function and material properties of these tissues.

BIEN 115 Quantitative Physiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 110; consent of instructor is required for non-majors. Analyzes engineering aspects of physiological systems. Covers the nervous system, muscular system, respiratory system, renal system, and endocrine system based on fundamental principles of material transport across biological membrane.

BIEN 120 Biosystems and Signal Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 105. Provides basic knowledge for the quantitative analysis of the dynamic behavior of biological systems. Particular applications include neural systems, control of metabolic and hormonal systems, and design of instruments for monitoring and controlling biological systems. Topics include system theory, signal properties, control theory, and transfer functions.

BIEN 125 Biotechnology and Molecular Bioengineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 101. Provides an overview of biochemical processes in cells and their use in developing new products and processes. Presents cellular processes such as metabolism, protein synthesis, enzyme behavior, and cell signaling and control from an engineering viewpoint of modeling and control.

BIEN 130 Bioinstrumentation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in BIEN 130L or a grade of "C-" or better in BIEN 130L; EE 001A and EE 01LA with grades of "C-" or better. Introduces basic components of instruments for biological applications. Explores sources of signals and physical principles governing the design and operation of instrumentation systems used in medicine and physiological research. Topics include data acquisition and characterization; signal-to-noise concepts and safety analysis; and interaction of instrument and environment.

BIEN 130L Bioinstrumentation Laboratory 2 Laboratory, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in BIEN 130 or a grade of "C-" or better in BIEN 130; EE 001A and EE 01LA with grades

of "C-" or better. Laboratory experience with instrumental methods of measuring biological systems. Introduces various sensors and transducers to measure physical, chemical, and biological properties. Covers reliability, dynamic behavior, and data analysis.

BIEN 135 Biophysics and Biothermodynamics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 101, MATH 10B, MATH 046, PHYS 040C or PHYS 040HC. An introduction to the application of thermodynamic principles to understanding the behavior of biological systems. Discusses biophysical properties of biomacromolecules such as proteins, polynucleotides, carbohydrates, and lipids, as well as the methods of characterizing their properties and interactions.

BIEN 136 Tissue Engineering 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): BIOL 005A and BIOL 005B, CHEM 001C or CHEM 01HC or equivalents; junior or senior standing or consent of instructor. Covers progress in cellular and molecular biology and engineering. Provides the basis for advancing tissue repair and regeneration with the goal of restoring compromised tissue functions. Presents methods for cell culture, tissue design and development, manipulation of the cell/tissue microenvironment, and current strategies for functional reconstruction of injured tissues. Cross-listed with MSE 136.

BIEN 137 Advanced Biomechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 110, BIOL 005B, MATH 046, PHYS 040A or equivalents; or consent of instructor. Focuses on mechanical characterization of biological tissues at the cellular, organ, and system level. Explores biomechanical factors of physiological and pathological conditions.

BIEN 138 Fundamental Principles of Wound Repair 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 105, BIOL 002 or BIOL 005A, or equivalents; or consent of instructor. Provides fundamental understanding of the molecular and cellular biology of wound repair and regeneration. Focuses on the spatiotemporal roles of inflammatory cytokines; growth factors; extracellular matrix; mechanical forces; tissue cells and adult stem/progenitor cells in soft tissue repair. Topics include embryonic wound regeneration and adult skin and cardiovascular repair.

BIEN 140A Biomaterials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 101 or BCH 100, MATH 010B, PHYS 040B or PHYS 040HB; or consent of instructor. Covers the principles of materials science and engineering with attention given to topics in bioengineering. Explores atomic structures, hard treatment, fundamentals of corrosion, manufacturing processes, and characterization of materials. Cross-listed with CEE 140A.

BIEN 140B Biomaterials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 040B or PHYS 040HB. Covers the structure-property relations of metals, ceramics, polymers, and composites, as well as hard and soft tissues such as bone, teeth, cartilage, ligament, skin, muscle, and vasculature. Focuses on behavior

of materials in the physiological environment. Cross-listed with CEE 140B.

BIEN 142 Introductory Biomedical Optical Imaging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 040C or PHYS 040HC; and MATH 010B; or consent of instructor. Examines fundamental theory and basic design of biomedical optical imaging systems. Topics include a basic understanding of the working principles of optical components, diagnostic light-tissue interaction, and design of imaging systems to exploit the interaction of light with biological phenomena.

BIEN 155 Biotechnology Laboratory 2 Laboratory, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in BIEN 175A or a grade of "C-" or better in BIEN 175A; BIEN 101, BIEN 125. Laboratory experience in cell culture, bioreactors, optical techniques, array techniques, and separation and purification methods.

BIEN 159 Dynamics of Biological Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005B, MATH 046; or consent of instructor. Covers engineering principles for the analysis and modeling of biological phenomena. Topics include molecular diffusion and transport, membranes, ligand-bioreceptor interactions, enzyme kinetics, and dynamics of metabolic pathways. Examines the application of these principles to the design of bioreactors, bioassays, drug delivery systems, and artificial organs. Cross-listed with CEE 159.

BIEN 160 Biomedical Imaging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 120. An introduction to the fundamental physics and engineering principles for medical imaging systems. Covers X-ray, ultrasound, radionuclide, magnetic resonance imaging, positron emission tomography, optical coherent tomography, and other optical methods. Includes image formation and reconstruction, image characteristics, and quality and image processing.

BIEN 165 Biomolecular Engineering 4 Lecture, 1 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): BIEN 135, or consent of instructor. Emphasizes engineering, biochemical, and biophysical concepts and technologies intrinsic to specific topics of biomolecular engineering. Introduces the history of genetic and protein engineering. Topics include biological thermodynamics, molecular kinetics, biochemical and biophysical approaches, protein engineering, high-throughput screening technologies, and protein engineering with unnatural amino acids.

BIEN 166 Bioinspired Engineering For Sustainable Energy 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 10. Prerequisite(s): BIEN 140A/CEE 140A. Introduces the use of concepts from basic biological sciences (including biochemistry and biophysics) for applied energy engineering. Covers biological energy conversion (including photosynthesis) and its implication for sustainable energy technologies. Discusses recent advances in biomimetic and bioinspired energy conversion.

BIEN 167 Medical Diagnostics 4 Lecture,

3 hours; discussion, 1 hour. Prerequisite(s): BIEN 130 or consent of instructor. Provides an overview of medical diagnostics. Topics include methods of biochemical detection, genotyping, DNA sequencing, medical imaging, hematology, microfluidics, epidemiology, diagnostics for point-of-care and resource-limited settings, and case studies of commercially successful diagnostic products.

BIEN 175A Senior Design 2 Lecture, 1 hour; practicum, 3 hours. Prerequisite(s): concurrent enrollment in BIEN 155 or a grade of "C-" or better in BIEN 155; BIEN 010 and BIEN 130L with grades of "C-" or better. Covers the entire design process for bioengineering. Explores intellectual property, quality control, and regulatory and ethical considerations. Requires working in small teams effectively to prepare formal engineering reports, web pages notebooks, oral presentations, a project demonstration, and a business plan. Graded In Progress (IP) until BIEN 175A, BIEN 175B, and BIEN 175C are completed, at which time a final letter grade is assigned.

BIEN 175B Senior Design 4 Lecture, 2 hours; discussion, 1 hour; practicum, 3 hours. Prerequisite(s): BIEN 175A; senior standing in Bioengineering. Covers the entire design process for bioengineering. Explores intellectual property, quality control, and regulatory and ethical considerations. Requires working in small teams effectively to prepare formal engineering reports, web pages, notebooks, oral presentation, a project demonstration, and a business plan. Graded In Progress (IP) until BIEN 175A, BIEN 175B, and BIEN 175C are completed, at which time a final, letter grade is assigned.

BIEN 175C Senior Design 4 Lecture, 2 hours; discussion, 1 hour; practicum, 3 hours. Prerequisite(s): BIEN 175B. Covers the entire design process for bioengineering. Explores intellectual property, quality control, and regulatory and ethical considerations. Requires working in small teams effectively to prepare formal engineering reports, web pages, notebooks, oral presentations, a project demonstration, and a business plan.

BIEN 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours Prerequisite(s): upper-division standing; consent of instructor and department chair. Provides individual study to meet special curricular needs. Course is repeatable to a maximum of 9 units.

BIEN 197 Research For Undergraduates 1 to 4 Laboratory, 3 to 12 hours. Prerequisite(s): consent of instructor and Bioengineering undergraduate program advisor. Directed research on a topic relevant to bioengineering. Requires a final written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BIEN 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original

course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

Graduate Courses

BIEN 201 Mathematical Methods For Bioengineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 146A or equivalent; first-year standing in the graduate program in Bioengineering. Provides a fundamental grounding in applied mathematics. Enables the provision of problems in biotransport and bioreaction kinetics. Topics include linear differential equations solutions; analytical methods for partial differential equations including separations of variables, similarity transforms, and perturbation methods; and numerical methods for bioengineering, regression techniques, and error analysis.

BIEN 223 Engineering Analysis of Physiological Systems 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): course work in basic biology, calculus, chemistry, and physics; graduate standing or consent of instructor. BIEN 223 online section: enrollment in the Online Master-in-Science in Engineering program. Provides a bioengineering approach to the physiological properties and interactions of various mammalian organ systems. Covers the nervous, muscular, cardiovascular, respiratory, and renal systems. Emphasizes the physical and engineering principles governing these systems by applying quantitative and analytical approaches. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 224 Cellular and Molecular Engineering 4 Lecture, 2 hours; discussion, 1 hour; practicum, 3 hours. Prerequisite(s): graduate standing or consent of instructor. BIEN 224 online section; enrollment in the Online Master-in-Science in Engineering program. Emphasizes biophysical and engineering concepts intrinsic to specific topics at the cellular and molecular level. Includes receptor-ligand dynamics in cell signaling and function; DNA replication and RNA processing; cellular and protein sorting; control of gene expression; membrane structure, transport and traffic; biological signal transduction; and mechanics of cell division. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 246.

BIEN 227 Biophotonics: Laser-Tissue Interactions and Therapeutic Applications 3 Lecture, 2 hour; research, .5 hours; extra reading, 1 hour; written work, 1.5 hours. Prerequisite(s): BIOL 005C, CHEM 001C, CS 005, MATH 046, PHYS 002C, or equivalents. Provides an overview of various types of interactions between lasers and biological tissues. Addresses methods of optical properties measurements, mathematical modeling of light propagation, and selected therapeutic applications of lasers. Includes one or two field trips to medical laser centers to observe laser treatment procedures.

BIEN 228 Biophotonics: Optical Diagnosis and Measurements 3 Lecture, 2 hour; research, .5 hours; extra reading, 1 hour; written work, 1.5 hours. Prerequisite(s): BIEN 227. Covers the fundamentals underlying optical diagnostic procedures, including absorption and scattering-based techniques. Also addresses physics of optical tweezers and their applications in biological sciences.

BIEN 233 Computational Modeling of Biomolecules 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): BIOL 005B; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; MATH 009C or MATH 09HC; PHYS 040B or PHYS 040HB; basic computer programming experience. Introduces computational methods for the quantitative analysis of biomolecular structures at atomic resolution. Aids in understanding the physicochemical properties of biomolecular function, the prediction of biological properties, and the design of new experiments. Forms the basis for structure-based design of proteins with tailored properties and inhibitors of protein function. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 234 Orthopaedic Regenerative Engineering and Mechanobiology 4 Lecture, 4 hours. Prerequisite(s): BIEN 110, BIEN 140A, BIOL 005A, and BIOL 005B, or equivalents; graduate standing or consent of instructor. Introduces advanced biomechanics and mechanobiology of skeletal tissues including bone and cartilage. Provides an understanding of structure-function relationship in biological tissues. Focuses on bone and cartilage regenerative engineering approaches based on scaffolds, stem cells, and mechanotransduction.

BIEN 235 Vascular Biomechanics and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 002, BIOL 005A, BIEN 105, or equivalent; graduate standing or consent of instructor. Provides detailed understanding of the crucial role of mechanical forces in guiding blood vessel formation and function in human health and disease. Topics include embryogenesis, wound repair, atherosclerosis, and cancer. Addresses the principles of biomaterials science and regenerative medicine for promoting therapeutic neovascularization.

BIEN 236 Nanomaterials For Regenerative Medicine 4 Lecture, 4 hours. Prerequisite(s): BIOL 005C, CHEM 001C (or CHEM 01HC), MSE 001, or equivalents; graduate standing or consent of instructor. Covers recent advances in nanomaterial synthesis, fabrication, and characterization. Focuses on the medical applications of nanomaterials and nanotechnologies. Addresses methods of synthesis of nanomaterials such as nanoparticles, nanotubes, and nanofibers. Includes critical design criteria and assessment methods for properties of nanomaterials to meet medical requirements. Cross-listed with MSE 236.

BIEN 237 Medical Diagnostics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides an in-depth analysis of current topics

in medical diagnostics. Focuses on critical reviews of recent journal articles on diagnostics and case studies of recent commercial diagnostic products. Topics include methods of biochemical detection, genotyping, DNA sequencing, medical imaging, hematology, microfluidics, epidemiology, and diagnostics for point-of-care and resource-limited settings. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 242 Advanced Biomedical Optical Imaging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 142 or equivalent; graduate standing or consent of instructor. Examines advanced theory and optimized design of biomedical optical imaging systems. Topics include a full understanding of the working principles of optical components, diagnostic light-tissue interaction, and design of imaging systems to exploit the interaction of light with biological phenomena. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 245 Optical Methods in Biology, Chemistry, and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 109 or equivalent; graduate standing; consent of instructor. Covers the origin of fluorescence and other emission processes that modulate the characteristics of molecular emissions. Presents emission-based analytical and bioanalytical methods and techniques. Reviews state-of-the-art instrumentation, including their applicability, limitations, and source. Also provides interpretation and meaning of the measured signals as applied to biological systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes. Cross-listed with MSE 226.

BIEN 249 Integration of Computational and Experimental Biology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005B; MATH 010B, MATH 046, PHYS 040C or PHYS 040HC; graduate standing. BIEN 249 online section: enrollment in the Online Master-in-Science in Engineering program. A multidisciplinary introduction to computational methods used to analyze experimental biological data. Introduction to mathematical concepts needed to understand protein structure and dynamics, protein-protein interactions (structures and networks), gene regulatory networks, signal transduction networks, metabolic networks, and kinetic modeling of cellular processes. Also covers techniques used to derive experimental data. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CEE 249.

BIEN 251 Biophotonics: Optical Microscopy and its Biological Applications 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the fundamentals of optical system design and system integration in light microscopy. Covers design components, including light sources, lenses, mirrors, dispersion elements, optical fibers, and detectors. Also covers optical system analysis, transfer functions, magnification, resolution, contrast, and molecular, cellular, organ, and organism applications.

BIEN 260 Special Topics in Bioinstrumentation 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced technologies in bioengineering studies, such as spectroscopy, microscopy, magnetic resonance imaging, computed tomography, ultrasonography, and biosensors. Students who submit a term paper receive credit for 2 units; other students receive credit for 1 unit. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 261 Special Topics in Biotransport 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced methods of analysis of biological transport phenomena such as drug distribution, microcirculation, membrane transport, and transport in organs and tissues. Students who submit a term paper receive credit for 2 units; other students receive credit for 1 unit. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 262 Special Topics in Biosignaling 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on current research in cell signaling and control, including G protein-coupled receptors, signal transduction and cytoskeletal dynamics, and cell adhesion and cell metabolism. Students who submit a term paper receive credit for 2 units; other students receive credit for 1 unit. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 263 Special Topics in Biocomputation 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing; consent of instructor. Focuses on various advanced methods for computational studies of biomolecules and simulations. Includes Brownian dynamics simulations; Monte Carlo methods; normal mode analysis; electrostatic calculations; and free energy calculations. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 264 Biotransport Phenomena 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 105 or equivalent; graduate standing or consent of instructor. BIEN 264 online section: enrollment in the Online Master-in-Science in Engineering program. Covers the mathematical expression and modeling of principles underlying the transport processes of biological systems and biomedical engineering processes. Emphasizes momentum, mass transport, and interpretation of these processes. Topics include advanced development of governing conservation equations and the appropriate constitutive equations for transport in circulation and tissue. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 265 Special Topics in Biomedical

Optical Imaging 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced theory, technology, and applications of biomedical optical imaging. Addresses novel sources of optical contrast, current developments in optical imaging instrumentation, and recent advances in their application to bioengineering. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 266 Special Topics in Biological Nuclear Magnetic Resonance (nmr) Spectroscopy 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing; consent of instructor. Focuses on various advanced methods for the determination of structure, dynamics, and interactions of biomolecules. Utilizes multidimensional and multinuclear NMR spectroscopy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 267 Special Topics in Biophotonics 1 or 2 Seminar, 1 hour; term paper, 0 or 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced science and technology methods that use electromagnetic radiation for medical and biological applications. Covers photonic devices, detection, microscopy and spectroscopy techniques, and diagnostics and mechanistic ideas on photodynamic therapy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BIEN 268 Bioengineering Experimentation and Analysis 2 Laboratory, 3 hours; discussion, 1 hour; written work, 2 hours. Prerequisite(s): BIOL 005C, CHEM 001C, CS 005, MATH 046, PHYS 002C or equivalents or consent of instructor. Introduces measurement principles and data acquisition methods related to biomechanics and biochemical and bioelectrical signals from living systems. Addresses the fundamental mechanisms underlying the operation of various sensor types and the modern instruments illustrating noise analysis, filtering, signal processing, and conditioning. Includes experiments aimed at investigating physical responses of cells and tissues to a variety of stimuli.

BIEN 269 Special Topics in Optical Measurements and Photomedicine .2 Discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the applications of optical trapping methods to characterize the mechanical and electromechanical properties of biological cells and membranes, as well as to quantify molecular interactions. Also covers the use of optical probes for cellular and tissue imaging, as well as optical therapy. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes.

BIEN 270 Transport With Reactions in Biological Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 264

or equivalent; graduate standing or consent of instructor. For BIEN 270 online section; enrollment in the Online Master-in-Science in Engineering program. Covers the mathematical expression and modeling of principles underlying the transport processes of biological systems reactions and biomedical engineering processes involving reactions. Topics include advanced development of chemical kinetics and reaction mechanisms of biological systems; enzymatic reactions; Michaelis-Menton kinetics; and cell-surface ligand-receptor kinetics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 271 Video Bioinformatics: Multi-Scale Analysis of Biological Systems 2 Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the significant range for both the time and spatial scales of biological systems. Includes video imaging techniques, as well as how these spatial and time scales are analyzed for a better understanding of biological function. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 271, and GEN 271.

BIEN 272 Special Topics in Biomaterials and Tissue Engineering 1 to 2 Seminar, 1 to 2 hours; term paper, 0 to 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced biomaterials and tissue engineering for medical applications. Explores the design, processing, characterization, and evaluation of biomaterials. Examines current development in novel materials and recent advances in their applications in tissue engineering, drug delivery, gene therapy, cell therapy, medical devices, and implants. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as content changes to a maximum of 30 units. Cross-listed with MSE 280.

BIEN 273 Special Topics in Regenerative Engineering and Biomechanics 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced regenerative engineering and biomechanics in the skeletal system. Examines biomechanics of skeletal system at the tissue and cell levels utilizing molecular biology approaches. Develops and implements regenerative methodologies for repairing damaged skeletal tissues by a thorough understanding in mechanobiology. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 30 units.

BIEN 274 Special Topics in Endothelial Biomedicine 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Presents an integrated view of the fundamental role of endothelial cells in regulating vascular tone, inflammation, and repair in both health and disease. Encompasses the principles related to developmental biology, molecular and cellular biology, biomechanics, bioengineering, and translational medicine. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC)

grade. Course is repeatable to a maximum of 30 units.

BIEN 275 Magnetic Resonance Imaging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 111 with a grade of C- or better; or equivalent; graduate standing; or consent of instructor. Covers physics principles and engineering fundamentals, advanced techniques, and major biomedical approaches of magnetic resonance imaging (MRI). Focuses on fundamentals and general methodology of MRI. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BIEN 286 Colloquium in Bioengineering 1 Colloquium, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Colloquia on current research topics in bioengineering and other related fields. Presented by faculty members and visiting scientists. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BIEN 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Faculty-directed individual study of selected topics in Bioengineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units.

BIEN 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Provides research opportunities for selected problems in bioengineering. Conducted under faculty supervision. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BIEN 298I Individual Internship 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): graduate standing; consent of instructor. An individual apprenticeship in bioengineering with an approved professional individual or organization and academic work under the direction of a faculty member. Requires a written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

BIEN 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Designated for research in bioengineering for the M.S. thesis or Ph.D. dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

BIEN 302 Teaching Practicum 1 to 4 Practicum 3 To 12, Prerequisite(s): graduate standing; appointment as a teaching assistant or associate in Bioengineering. Provides supervised teaching in undergraduate courses. Graded Satisfactory (S) or No Credit (NC).

BIEN 401 Fundamentals of Proposal Preparation and Ethical Standards in Bioengineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. An introduction to effective proposal preparation and writing for bioengineering-related research. Also covers ethical standards of scientific research related to bioengineering. May be taken Satisfactory (S) or No Credit (NC) with consent of

instructor and graduate advisor.

BIEN 402 Effective Writing For Bioengineering Research Publications 4 Lecture, 4 hours. Prerequisite(s): BIEN 401. An introduction to effective manuscript writing for bioengineering-related research publications.

BIOENGINEERING INTERDEPARTMENTAL GRADUATE PROGRAM

Xiaoping Hu, Ph.D., Chair
Department Office, 203 MSE
(951) 827-2925; xiaoping.hu@ucr.edu
bioeng.ucr.edu

Distinguished Professors

Mark Alber, Ph.D. (Mathematics)
Bir Bhanu, Ph.D. (Electrical and Computer Engineering)
Sarjeet Gill, Ph.D. (Cell Biology & Neuroscience/Entomology)
David Lo, Ph.D. (Biomedical Sciences)
Ashok Mulchandani, Ph.D. (Chemical & Environmental Engineering)
Michael Pirrung, Ph.D. (Chemistry)
Kambiz Vafai, Ph.D. (Mechanical Engineering)
Charles Wyman, Ph.D. (Chemical & Environmental Engineering)

Professors

Michael E. Adams, Ph.D. (Cell Biology & Neuroscience/Entomology)
Guillermo Aguilar, Ph.D. (Mechanical Engineering)
G. John Andersen, Ph.D. (Psychology)
Christopher J. Bardeen, Ph.D. (Chemistry)
David Bocian, Ph.D. (Chemistry)
Richard Cardullo, Ph.D. (Cell Biology & Neuroscience/Entomology)
Quan Cheng, Ph.D. (Chemistry)
Sean Cutler, Ph.D. (Botany & Plant Sciences)
Iryna Ethell, Ph.D. (Biomedical Sciences)
Byron Ford, Ph.D. (Biomedical Sciences)
Thomas Girke, Ph.D. (Bioinformatics)
Tao Jiang, Ph.D. (Computer Science)
Cynthia K. Larive, Ph.D. (Chemistry)
Stefano Lonardi, Ph.D. (Computer Science)
Manuela Martins-Green, Ph.D. (Cell Biology & Neuroscience)
Umar Mohideen, Ph.D. (Physics & Astronomy)
Thomas H. Morton, Ph.D. (Chemistry)
Nosang Myung, Ph.D. (Chemical & Environmental Engineering)
Eugene Nothnagel, Ph.D. (Botany & Plant Sciences)
Cengiz S. Ozkan, Ph.D. (Mechanical Engineering)
Mihri Ozkan, Ph.D. (Electrical and Computer Engineering)
Maurizio Pellecchia, Ph.D. (Biomedical Sciences)
Aaron Seitz, Ph.D. (Psychology)
Thomas F. Stahovich, Ph.D. (Mechanical Engineering)
Prudence Talbot, Ph.D. (Cell Biology and Neuroscience)
Harry W. K. Tom, Ph.D. (Physics & Astronomy)
Jianzhong Wu, Ph.D. (Chemical & Environmental Engineering)

Associate Professors

Devin K. Binder, Ph.D. (Biomedical Sciences)
Anupama Dahanukar, Ph.D. (Entomology)

Martín I. García-Castro, Ph.D. (Biomedical Sciences)
 Elaine Haberer, Ph.D. (Electrical and Computer Engineering)
 Michael Marsella, Ph.D. (Chemistry)
 Masaru P. Rao, Ph.D. (Mechanical Engineering)
 Khaleel A. Razak, Ph.D. (Psychology)
 Seema Tiwari-Woodruff, Ph.D. (Biomedical Sciences)
 Nicole I. zur Nieden, Ph.D. (Molecular, Cell and Systems Biology)

Assistant Professors

Nicholas DiPatrizio, Ph.D. (Biomedical Sciences)
 Elisa Franco, Ph.D. (Mechanical Engineering)
 Xin Ge, Ph.D. (Chemical & Environmental Engineering)
 Hideaki Tsutsui, Ph.D. (Mechanical Engineering)

Program Overview

The Bioengineering Interdepartmental Graduate program (BIG) is the umbrella for graduate level research effort associated with the faculty in the Department of Bioengineering as well as other faculty at UCR who have an interest in training graduate students in bioengineering. The program offers graduate instruction leading to M.S. and Ph.D. degrees in Bioengineering.

Our interdisciplinary program combines a solid fundamental foundation in biological science and engineering, and aims to equip the students with diverse communication skills and training in the most advanced quantitative bioengineering research so that they can become leaders in their respective fields.

The result is a rigorous, but exceptionally interactive and welcoming educational training for Bioengineering graduate students.

The interdepartmental aspect of the program allows students to develop skills related to bioengineering with faculty in a broad range of disciplines. The research vision is to build strength from experts in biochemistry, biophysics, biology and engineering to focus on critical themes that impact bioengineering.

Contributing departments include: Bioengineering, Biochemistry, Biomedical Sciences, Botany & Plant Sciences, Cell Biology & Neuroscience, Chemistry, Chemical & Environmental Engineering, Computer Science, Electrical and Computer Engineering, Entomology, Mechanical Engineering, Physics & Astronomy, and Psychology.

The dominant research themes of BIG are advanced techniques development, bioimaging, biophysics of cellular systems, biomaterials, drug design and delivery, tissue engineering, cellular control and regulation, and computational modeling of biological systems.

Other research areas include: high-throughput screening systems, structural bioinformatics, microfluidics, charge transfer in biological and biomimetic systems, immunophysics, auditory bioengineering, molecular mechanisms of platelets activation, fatty acid contributions to obesity and diabetes, brain imaging, and bioseparations.

Please visit the UCR website to determine the research emphasis of the various participating faculty. The research efforts of faculty in the Department of Bioengineering can be found at bioeng.ucr.edu.

Combined B.S. + M.S. Five-Year Program

The college offers a combined B.S. + M.S. program in Bioengineering designed to lead to a Bachelor of Science degree as well as a Master of Science degree in five years. Applicants for this program must have a high school GPA above 3.6, a combined SAT Reasoning score above 1950 (or ACT plus Writing equivalent), complete the Entry Level Writing Requirement before matriculation, and have sufficient mathematics preparation to enroll in calculus in their first quarter as freshmen.

Interested students who are entering their junior year should check with their academic advisor for information on eligibility and other details.

Students in the B.S. + M.S. program may use units from their last two technical electives from their undergraduate course work towards their M.S. degree in addition to their B.S. degree. Students may not choose which technical elective units they will use. Only the last two courses will count. To transfer the units to the M.S. degree, students must see the department to submit the proper paperwork.

Admission

In addition to the following requirements, all applicants must meet the general requirements as set forth in this catalog under the Graduate Studies section.

Application to the BIG program is limited to the fall quarter.

Applicants will need to have completed coursework in chemistry, physics, math, biochemistry and biology, and engineering. Students without an undergraduate engineering degree should have excellent training in mathematics and the physical sciences.

Specific recommendations for students without an undergraduate engineering degree are:

- Two years of mathematics (equivalent UCR course = MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B).
- One year of physics (equivalent UCR course = PHYS 002A, PHYS 002B, PHYS 002C with lab).
- One year of inorganic chemistry including lab (equivalent UCR course = CHEM 001A, CHEM 001B, CHEM 001C).
- One year of organic chemistry including lab (equivalent UCR course = CHEM 112A, CHEM 112B, CHEM 112C).
- One course in biochemistry (equivalent UCR course = BCH 100 or BCH 110A or BCH 110B or BCH 110C).
- One course in molecular biology (equivalent UCR course = BCH 110C or BIOL 107).

Students with strong academic records may be admitted with limited coursework deficiencies, provided that these are satisfied by appropriate coursework taken during the first two years of graduate study.

Language Requirement

All International students whose first language is not English must satisfactorily complete the SPEAK test.

Students may be admitted to either the Master's or the Ph.D. program. Students in the Master's program may petition for admission into the

Ph.D. program.

Master's Program

The M.S. program is ideal for professionals seeking greater depth in several areas of bioengineering. The degree requires a minimum of 36 quarter credits and may be completed in three to four academic quarters of full-time study. Both thesis and non-thesis options are offered for the degree program (Plan I, Thesis and Plan II, Comprehensive Examination).

Student must request permission to pursue an M.S. in Bioengineering while simultaneously pursuing a Ph.D. in a program other than Bioengineering.

Normative Time to Degree Two years.

Plan I (Thesis)

In addition to the following requirements, all applicants must meet the requirements for Plan I as set forth in this catalog under the Graduate Studies section Master's Degree Plan I (Thesis).

Course Requirements

Students must satisfy the core course requirements (see Core Courses). Students must enroll in BIEN 286, Colloquium in Bioengineering, each quarter it is offered.

Plan II (Comprehensive Examination)

This plan is designed primarily for students who do not intend to pursue a Ph.D. in Bioengineering.

In addition to the following requirements, all applicants must meet the requirements for Plan I as set forth in this catalog under the Graduate Studies section Master's Degree Plan II (Comprehensive Examination).

Course Requirements

Students must satisfy the core course requirements (see Core Courses). Students must enroll in BIEN 286, Colloquium in Bioengineering, each quarter it is offered.

The comprehensive examination is prepared and administered by the Graduate Examination Committee. The student is allowed to choose between an oral and a written examination. The examination covers a broad range of topics chosen from upper division undergraduate courses and graduate courses taken by M.S. students.

Subsequent to the examination, the Graduate Examination Committee issues a passing or failing grade. Students who fail in the first attempt may retake the examination at the next scheduled comprehensive examination period. No more than two attempts to pass the exam are allowed.

The M.S. Comprehensive Examination may be held at the end of any quarters throughout the year. The committee to administer the M.S. Comprehensive Examination is selected by the Graduate Advisor and approved by the Graduate Program Committee.

Doctoral Program

The Ph.D. program is heavily integrated with research activities and is intended for well-qualified individuals who wish to pursue leadership careers in academic or industrial research. The Ph.D. program requires approximately three years of full-time study beyond the master's degree. In consultation with a faculty advisor, Ph.D. students plan their program of study.

The doctoral dissertation is based on original research in the field of specialization. An M.S. degree is not a prerequisite for entering the Ph.D. program.

The doctoral program includes a teaching requirement, an oral and written qualifying examination, and a dissertation.

Normative Time to Degree Five years.

Course Requirements

Students must satisfy the core course requirements (see Core Courses). Students must enroll in BIEN 286, Colloquium in Bioengineering, each quarter it is offered.

Written Qualifying Examination

Students in the Ph.D. program must pass a written qualifying examination that covers the fields of engineering and biology that relate to the student's dissertation project.

Oral Qualifying Examination

Following successful completion of the written examination, candidates for the doctoral degree must pass an oral examination, normally within three quarters of the date of their written exam. The oral examination is scheduled only after the candidate has written a proposal detailing the rationale, specific aims and approaches to be undertaken for her/his dissertation research.

Dissertation

A written dissertation is completed by each student.

Candidates for the degree of Ph.D. may be required to defend the dissertation in a public, oral presentation at a time announced to members of the University community.

Core Courses

All BIG graduate students are required to take at least three courses from the following six Bioengineering courses. Other courses may be substituted but must be approved by the bioengineering graduate advisor. Students from non-engineering backgrounds are also required to take BIEN 264 as one of their core course requirements.

Bioengineering Core

1. BIEN 223 - Engineering Analysis of Physiological Systems
2. BIEN 224 - Cellular and Molecular Engineering
3. BIEN 245 - Optical Methods in Biology, Chemistry, and Engineering
4. BIEN 249 - Integration of Computational and Experimental Biology
5. BIEN 264 - Biotransport Phenomena
6. BIEN 270 - Transport with Reactions in Biological Systems

Other required courses:

1. One bioscience class chosen from:
BCH 210, BCH 211, BCH 212, BIOL/CMDB 200, BIOL/CMDB 201, BIOL 203, BIOL 221/MCBL 221/PLPA 226, or, with consent of instructor, BMSC 229, BMSC 230, BMSC 231, BMSC 232, BMSC 234, and BMSC 235 or NRSC 200A and 200B.
2. Other courses may be substituted but must be approved by the Bioengineering Graduate Advisor.

3. BIEN 286 - Colloquium in Bioengineering

This course is required every quarter in which it is offered.

Additional courses may be required by the Advisory Committee depending on the student's background and fields of interest.

M.S. and Ph.D. students are expected to complete the course requirements for the programs within their first year of residence.

Course Descriptions All Bioengineering courses are listed and described under Bioengineering.

BIOLOGICAL SCIENCES

Subject abbreviation: BLSC

College of Natural and Agricultural Sciences

Raphael Zidovetzki, Ph.D., Lead Advisor
Program Office, 1223 Pierce Hall
(951) 827-3579

The Biological Sciences interdepartmental major is not currently accepting new students. For more information, contact CNAS Undergraduate Academic Advising Center, 1223 Pierce Hall, (951) 827-7294.

Upper-Division Courses

BLSC 192H Junior Honors Seminar 2 Seminar, 2 hours. Prerequisite(s): junior standing in the Biological Sciences major; admission to the upper-division University Honors Program or consent of instructor. Involves presentations of research programs by individual faculty members; discussions of readings provided by faculty members; research conceptualization and design, and written and oral scientific communication methods; and peer exchanges and peer mentoring. Satisfactory (S) or No Credit (NC) grading is not available.

BLSC 193H Senior Honors Seminar 2 Seminar, 2 hours. Prerequisite(s): senior standing in the Biological Sciences major; admission to the upper-division University Honors Program or consent of instructor. Discussion of senior thesis writing procedures, including data analysis and presentation, and written and oral scientific communication methods by faculty who are sponsoring honors thesis research. Satisfactory (S) or No Credit (NC) grading is not available.

BLSC 195H Senior Honors Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): BLSC 198H; senior standing in the Biological Sciences major; admission to the upper-division University Honors Program or consent of instructor. Students complete research in the biological sciences and write a senior honors thesis under the guidance of a faculty member of the Biological Sciences interdepartmental major. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 9 units.

BLSC 198H Junior Honors Research 1 to

4 Laboratory, 3 to 12 hours. Prerequisite(s): junior standing in the Biological Sciences major; admission to the upper-division University Honors Program or consent of instructor.

Students investigate special problems and conduct research in the biological sciences under the guidance of a faculty member of the Biological Sciences interdepartmental major. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 9 units.

BIOLOGY

Subject abbreviation: BIOL

College of Natural and Agricultural Sciences

Adjunct Faculty

John Gatesy, Ph.D.
Cheryl Y. Hayashi, Ph.D.
Marlene Zuk, Ph.D.

Lecturer

Ryan Joseph, Ph.D.
Tracy L. Kahn, Ph.D.

Cooperating Faculty

Edith B. Allen, Ph.D. (Botany and Plant Sciences)
Emma Aronson, Ph.D. (Microbiology & Plant Pathology)
Matthew Daugherty, Ph.D. (Entomology)
Jeff Diez, Ph.D. (Botany and Plant Sciences)

Mary L. Droser, Ph.D. (Earth Sciences)
 Norman C. Ellstrand, Ph.D. (Botany and Plant Sciences)
 Marilyn Fogel, Ph.D. (Earth Sciences)
 Janet Franklin, Ph.D. (Botany and Plant Sciences)
 Sydney Glassman, Ph.D. (Microbiology & Plant Pathology)
 John M. Heraty, Ph.D. (Entomology)
 Nigel C. Hughes, Ph.D. (Earth Sciences)
 Darrel Jenerette, Ph.D. (Botany and Plant Sciences)
 Lorelee Larios, Ph.D. (Botany and Plant Sciences)
 Amy Litt, Ph.D. (Botany and Plant Sciences)
 Paul Nability, Ph.D. (Botany and Plant Sciences)
 Timothy D. Paine, Ph.D. (Entomology)
 Lauren Ponisio, Ph.D. (Entomology)
 Jessica Purcell, Ph.D. (Entomology)
 Erin Rankin, Ph.D. (Entomology)
 Khaleel A. Razak, Ph.D. (Psychology)
 Richard A. Redak, Ph.D. (Entomology)
 Louis Santiago, Ph.D. (Botany and Plant Sciences)
 Jason Stajich, Ph.D. (Microbiology & Plant Pathology)
 William E. Walton, Ph.D. (Entomology)
 Hollis Woodard, Ph.D. (Entomology)

Major

The Department of Evolution, Ecology, and Organismal Biology offers B.A. and B.S. degrees in Biology. Both programs are based on the conviction that broad undergraduate training in biology, mathematics and the physical sciences, together with study in the humanities and social sciences, are fundamental to the education of a biologist. In addition to English composition, humanities, social sciences and the Life Sciences core curriculum (see below, Major Requirements), both degrees require 36 units of upper-division (numbered 100-199) biology courses. The degrees differ in the humanities and social sciences requirements; also 16 units of a foreign language are required for the B.A., whereas the B.S. requires 16 additional units in substantive courses in biology or related fields.

The research and teaching of the Department of Evolution, Ecology, and Organismal Biology includes different levels (e.g., molecules, cells, organisms, populations, communities) and processes (e.g., development, evolution) of biological organization. An overview is presented in the introductory courses (BIOL 005A, BIOL 05LA, BIOL 005B, and BIOL 005C), and emphasis is placed on the unifying principles of the discipline.

Because of the diversity within biology and the wide range of career options, much latitude is allowed in selecting upper-division biology courses for the 36 units required for the major. Each student can select courses and plan a program of study to meet her/his specific interests and career goals. For assistance with this, faculty advisors are available in The Department of Evolution, Ecology, and Organismal Biology. The section below, Programs of Specialization, is provided as a guide for course selection for graduate schools, medical and health science professional schools and the broad range of careers that are possible with the Biology major.

The 36 upper-division units are selected from a list which includes courses offered by the De-

partment of Evolution, Ecology, and Organismal Biology (BIOL 100-199) and a limited number of courses in Biochemistry (BCH), and Cell Biology and Neuroscience (CBNS). Qualified undergraduates (GPA 3.0 or above) may participate in graduate-level biology seminar courses with consent of the instructor, and up to 4 units (with letter grade) may be included in the major.

Those who choose to obtain a B.S. degree have as a college requirement an additional 16 units in upper-division biology courses and/or substantive courses in a field or fields related to the major. The purpose of this related area is to add strength and breadth to the major and to meet specific requirements for postgraduate study or a chosen career. The substantive courses in fields related to the major may be lower or upper division, but they usually have science or mathematics prerequisites (e.g., CBNS 120/ PSYC 120, CHEM 005, STAT 100A, STAT 100B, MATH 009C).

The Thomas Haider Program at the UCR School of Medicine

Students in the Biology major and all others at UCR are eligible to complete admission requirements and apply for up to 24 positions reserved for UCR students in the UCR School of Medicine. Students eligible to apply to this unique pathway into the UCR medical school, called the Thomas Haider Program at the UCR School of Medicine, are those who attend UCR for at least six consecutive quarters and complete their bachelor's degree at UCR. Information on this program and general admission to the UCR medical school is provided at medschool.ucr.edu, in the school's section of this catalog, in the medical school Student Affairs Office (1682A School of Medicine Education Building, (951) 827-4334), and at orientation meetings held at UCR.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Major Requirements

Some of the following requirements for the major in Biology may also fulfill the College's breadth requirements. Consult with an academic advisor for course planning.

1. Life Sciences core curriculum (68-72 units)

- BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
- CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC
- CHEM 008A and 08LA or CHEM 08HA and CHEM 8HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC
- MATH 007A or MATH 009A, MATH 007B or MATH 009B
- PHYS 002A or PHYS 002HA, PHYS 002B or PHYS 002HB, PHYS 002C or PHYS 002HC, PHYS 02LA or PHYS 02HLA, PHYS 02LB or PHYS 02HLB, PHYS 02LC or PHYS 02HLC

f) STAT 100A

g) BCH 100 or BCH 110A or BCH 110HA

The core curriculum must be completed with a grade point average of 2.0 or better and no grade lower than "C-." If a grade of D or F is received in two core curriculum courses, either in separate courses or repetitions of the same course, the student will not be permitted to continue in the major.

2. Upper-division requirements (36 units)

- BIOL 102
- Thirty-two (32) additional Biology units to be taken in consultation with a faculty advisor

3. Other requirements

For the Bachelor of Arts only (0-16 units):

The foreign language requirement may be fulfilled by completing level four or the demonstration of equivalent proficiency in one foreign language.

For the Bachelor of Science only (16 units):

An additional 16 units in upper-division biology courses and/or substantive courses in a field or fields related to the major. A list of acceptable courses is available in the CNAS Academic Advising Center.

Programs of Specialization

The Life Sciences core curriculum (item 1 above) fulfills many of the requirements for admission to graduate schools in biology or professional schools in the medical and health science fields. In addition to Introductory Genetics (BIOL 102, 4 units), a wide choice is available for the remaining 32 upper-division units required for the Biology major (item 2.b above) and the 16 additional units related to the field of the major (B.S. degree, item 3 above). Each student selects upper-division and related courses depending on the type of school and career chosen (e.g., education, medicine, pharmacy, dentistry, optometry, veterinary medicine, nursing, physical therapy, public health, graduate school in one of the fields below).

In planning an academic program to prepare for teaching or one of the medical fields, present and prospective Biology majors are referred to relevant topics in the Biological Sciences section of this catalog. That section has information for those planning to attend graduate school in education to obtain a teaching credential (subsection, Teaching Credential) and/or a master's or Ph.D. degree in education (subsection, Preparation for Graduate School). Also included are guidelines to help students select courses to prepare for admission to professional schools in the medical field (subsections, Medical Biology, Suggestions for Elective Units for Medical/Health Professions, Admission Requirements for Medical and Health Professional Schools). Additional information about required course work and admission tests (MCAT, OAT, VCAT, PCAT, GRE) can be obtained from (Veitch Student Center) and the Health Professions Advising Center (visit 1114 Pierce Hall or hpac.ucr.edu).

Suggested courses of study are provided below for those interested in various biological fields. These programs meet most of the requirements for admission to corresponding graduate schools for those students who wish to pursue a master's and/or Ph.D. degree. The faculty

advisor assists in selecting combinations of courses appropriate for advanced study in the fields below and others. Students considering graduate study are encouraged to do undergraduate research and take courses in computer science and statistics.

In some cases, a course of study differing substantially from the examples given below will best meet the needs of the student. In consultation with a faculty advisor, a student may prepare a program in some other biological specialization such as animal behavior, evolution/development or developmental biology.

Cell and Molecular Biology

BIOL 102, BIOL 105, BIOL 107A, BIOL 107B, BIOL 109 or BIOL 153/BCH 153/BPSC 153, CBNS 101 or BIOL 113 and BIOL 114, BIOL 119, BIOL 121/MCBL 121, BIOL 121L/MCBL 121L, BIOL 122/MCBL 122, BIOL 123/MCBL 123/PLPA 123, BIOL 124/MCBL 124, BIOL 128/CBNS 128, BIOL 155/BPSC 155, BIOL 168, BCH 100 or the BCH 110A/BCH 110HA, BCH 110B/BCH 110HB, and BCH 110C/BCH 110HC sequence, BCH 102, CBNS 108, CBNS 150/ENTX 150, CHEM 005, CHEM 109, STAT 100A and STAT 100

Ecology and Population Biology

BIOL 102, BIOL 104/BPSC 104, BIOL 105, BIOL 108, BIOL 116, BIOL 116L, BIOL 117, BIOL 160, BIOL 160L, BIOL 174, either BIOL 175 or BIOL 143/BPSC 143, the MATH 007A or MATH 009A, MATH 007B or MATH 009B, and MATH 009C sequence, STAT 100A and STAT 100B.

Also recommended: BIOL 151, BIOL 161A, BIOL 163, BPSC 146, MATH 046, BIOL 165/BPSC 165, BIOL 166

Molecular Genetics

BIOL 102, BIOL 105, BIOL 107A, BIOL 107B, BIOL 108, BIOL 109 or BIOL 153/BCH 153/BPSC 153, BIOL 115, BIOL 121/MCBL 121, BIOL 121L/MCBL 121L, BIOL 122/MCBL 122, BIOL 123/MCBL 123/PLPA 123, BIOL 128/CBNS 128, BIOL 155/BPSC 155, BIOL 168, CBNS 108, CBNS 150/ENTX 150, CBNS 169

Zoology and Physiology

BIOL 100/ENTM 100, BIOL 102, BIOL 105, CBNS 101 or BIOL 113 and BIOL 114, BIOL 151, BIOL 152/GEO 152, BIOL 157, BIOL 159, BIOL 160, BIOL 160L, BIOL 161A, BIOL 161B, BIOL 162/ENTM 162, BIOL 168, BIOL 171, BIOL 171L, BIOL 173/ENTM 173, BIOL 174, BIOL 175, BIOL 178, BCH 100, CBNS 106, CBNS 108, CBNS 116, CBNS 169. Students are also encouraged to take laboratory courses (e.g., BCH 102). Also recommended: a course in ecology (e.g., BIOL 116, BIOL 116L), STAT 100A and STAT 100B

California Teach-Science/Mathematics Initiative (CaTEACH-SMI)

California Teach-Science Mathematics Initiative (CaTEACH-SMI) has a goal of addressing the critical need of highly qualified K-12 science and mathematics teachers in California. With an economy increasingly reliant on science, technology, engineering, and mathematics (STEM) and the anticipated large scale retirement of qualified teachers, this is an essential time to explore and prepare for a career in teaching science or mathematics.

CaTEACH-SMI at UCR offers undergraduate students paid/unpaid opportunities, such as the SMI & Alpha Center Apprentice Programs, to explore STEM teaching as a career option. Through CaTEACH-SMI, students receive advising and mentoring to prepare for entrance into an intern teaching credential program while diligently coordinating with academic advisors to ensure completion of STEM degree requirements. The CaTEACH-SMI Resource Center provides future STEM teachers with material and financial resources which includes the National Science Foundation (NSF) Noyce Scholarship Program to promote planning and professional development towards a science/mathematics education career.

For more information about the CaTEACH-SMI program, please visit smi.ucr.edu, the Resource Center at 1315 Pierce Hall, or on Facebook at facebook.com/ScienceMathInitiativeAtUcr.

Additional Curricular and Advising Information

This catalog has sections applicable for all students at UCR (Finances and Registration, Academic Regulations), and a specific section for students in this college (College of Natural and Agricultural Sciences). Present and prospective students are referred to those sections for enrollment policies and procedures and curricular and advising information for the campus and college.

For Biology majors, information regarding the following topics can be obtained from the CNAS Undergraduate Academic Advising Center in 1223 Pierce Hall:

- Student Academic Advising
- Grading Basis: Letter Grade or S/NC
- Full or Part-time Study
- Transfer Students
- Minor
- Double Major
- Internships
- Preparation for Graduate School
- Education and Research Centers, Institutes and Resources

Independent Study and Research

The Department of Evolution, Ecology, and Organismal Biology offers courses in which students can enroll to do independent laboratory research or an in-depth library study of a topic of special interest.

Students desiring to do Independent Reading (BIOL 194), Introduction to Research (BIOL 197) or Junior/Senior Research (BIOL 199) should consult with a professor who is willing to supervise the project. The student may suggest a specific question or formulate a project after consultation with the instructor. Information about the research fields of the professors is available on the Department of Evolution, Ecology, and Organismal Biology website.

To enroll in these Independent Study and Research courses, students must first contact the associated instructor for approval and proceed with enrolling through the CNAS Enrollment Management Center (1140F

Batchelor Hall/ cnasemc.ucr.edu); preferably before the first day of instruction but no later than the end of the second week of the quarter.

Applicants for BIOL 194 and BIOL 199 should ordinarily be juniors or seniors with a GPA of 3.00 or higher. Sophomore students with a GPA of 3.00 or higher may apply to enroll in BIOL 197 (Introduction to Research), since the purpose of this course is to enable the student to do preliminary reading and laboratory research to explore with the professor the feasibility of undertaking a project for later enrollment in BIOL 199. Enrollment in BIOL 197 is not required before enrollment in BIOL 199, but the former course is available for those situations where preliminary work will be helpful.

For BIOL 194 and BIOL 199, the student writes a report of the library study or laboratory results for the quarter, which is reviewed and submitted to the sponsoring professor and submitted to the CNAS Academic Advising Center by the last day of instruction of the quarter.

Students may also receive credit toward the major for independent study or research performed in other departments, with the approval of the Lead Faculty Advisor.

BIOL 194, BIOL 197, and BIOL 199 are graded "S/NC", and up to 9 units of credit may be counted as part of the 16 substantive units related to the major for the B.S. degree.

Natural Reserve System

This system was formed by the UC in 1965 to preserve for study a series of undisturbed natural areas representing the state's vast ecological diversity. Since then the system has grown to include thirty-seven reserves, eight of them administered by the UCR campus. See Research Opportunities in this catalog.

Most of the reserves are undeveloped except for fencing, roads and trails, but laboratory facilities, housing and campgrounds for class use are available at some sites. The reserves are used as outdoor classrooms and laboratories by students, teachers and researchers from educational institutions, public and private, throughout the state, across the nation and around the world. Some of the courses offered by the UCR Department of Evolution, Ecology, and Organismal Biology include field trips and overnight camping trips to the reserves. In the field, students are introduced to the great diversity of plant and animal organisms in Southern California, and to the effect of environmental factors on this diversity.

Undergraduate and graduate students who wish to use the reserves in their individual research projects should contact Dr. Kim Hammond, Department of Evolution, Ecology, and Organismal Biology, 3318 Spieth Hall, (951) 827-4767, to obtain an application, map and list of rules and regulations.

Graduate Program

The Department of Evolution, Ecology, and Organismal Biology administers programs leading to the M.S. and Ph.D. degrees in Evolution, Ecology, and Organismal Biology.

Admission

Applicants are strongly advised to contact potential faculty advisors prior to applying to the

program. Applicants must submit GRE scores for the General Test (verbal, quantitative, and analytical). In addition, submission of the Subject Test score may improve chances of admission and is recommended.

All graduate students entering the department meet with a guidance committee during the first quarter of enrollment so that their educational background can be addressed. Considering the requirements of the student's specialization, the committee recommends a program of study to be followed in pursuit of graduate work. Because of the diversity among the specializations, course requirements for advanced degrees are specified by the student's guidance committee.

Doctoral Degree

The Department of Evolution, Ecology, and Organismal Biology offers the Ph.D. degree in Evolution, Ecology, and Organismal Biology. In addition to the general requirements of the Graduate Division, students intending to become candidates for the Ph.D. degree in Evolution, Ecology, and Organismal Biology must complete the following:

Course Work

Course requirements are determined in consideration of the requirements of the student's area of specialization. Selection of specific courses is done by the guidance committee in consultation with the student.

All students are required to take EEOB 400, at least one of EEOB 210, EEOB 211, or EEOB 216 and at least one other four-unit graduate level course from an approved list. Students are also required to take two current research topics courses (BIOL 252 or another disciplinary colloquium and EEOB 265) for a minimum of 5 quarters prior to advancement to candidacy and 12 quarters prior to completion of the doctoral degree.

Professional Development

One unit of coursework in professional development, which is satisfied by EEOB 400.

Written and Oral Qualifying Examinations

Students must pass a written examination in their specialized field of interest no later than the end of the second year of residence. Written Qualifying Examinations must be completed by the eighth week of the sixth quarter in residence. Upon successful completion of the Written Qualifying Examination, an Oral Qualifying Examination is administered wherein students defend a proposal detailing the rationale, specific aims, and approaches to be undertaken for their proposed dissertation research.

Dissertation Candidates may be required to successfully defend their dissertation research in a public oral presentation.

Teaching Requirements All students are required to serve as a Teaching Assistant for at least three quarters.

Normative Time to Degree 18 quarters

Master's Degree

The Department offers the M.S. degree in Evolution, Ecology, and Organismal Biology. To qualify for the M.S. degree, candidates must

meet the following requirements:

Plan I (Thesis)

Thirty-six (36) quarter units of approved courses in the 100 or 200 series, of which at least 24 units must be in the 200 series courses in the biological sciences. Not more than 12 units of EEOB 299 may be applied to the degree. A minimum of 12 units of course work other than courses in the 290 series must be completed in fulfillment of the requirement for 24 units of graduate courses. Students must present an acceptable thesis and undergo a final oral examination in defense of the thesis.

Joint Doctoral Program with SDSU

The Department of Evolution, Ecology, and Organismal Biology at UCR along with the Department of Evolutionary Biology at San Diego State University (SDSU) administers a program leading to the Ph.D. degree in Evolutionary Biology, referred to as the Joint Doctoral Program in Evolutionary Biology (JDEB).

Admission Applicants for admission to the JDEB will apply to the SDSU-UCR Evolutionary Biology JDP which will be coordinated by SDSU. Potential applicants should have a bachelor's degree in one of the life sciences or physical sciences. Promising students with other academic backgrounds are also encouraged to apply if they have strong undergraduate coursework in biology. Applicants must have a bachelor's and/or master's degree from an accredited institution.

At the start of the student's first year in the program, the student will form a Guidance Committee. This committee will consist of four faculty members, two chosen from each institution. From SDSU, the committee must include the student's prospective dissertation advisor and an additional, programmatically appropriate, member. From UCR, the committee members will be drawn from faculty within the EEOB graduate program. In consultation with the student, the Guidance Committee plans the student's program through Advancement to Candidacy.

Doctoral Degree

The Department of Evolution, Ecology, and Organismal Biology at UCR along with the Department of Evolutionary Biology at San Diego State University (SDSU) offers the Ph.D. degree in Evolutionary Biology after completion of the following degree requirements:

Specific fields of emphasis This program emphasizes evolutionary biology; there are no specific emphases within the program, although research specialties may be quite diverse.

Course requirements The Guidance Committee works with the student to develop an individualized course of study and identify potential deficiencies. Students in the joint doctoral program will have similar requirements as students in UCR's EEOB graduate program. Year 1 is spent at SDSU, year 2 is spent at UCR. Specifically, the joint doctoral students will take the Theory of Evolution (UCR EEOB 216) and at least two courses from the approved list below. One of these courses must be taken at UCR.

SDSU: BIOL 740 or BIOL 624

UCR: EEOB 210, EEOB 211, EEOB 212, EEOB 213, EEOB 214, EEOB 217, EEOB 219 or EEOB 220

In addition, the students will enroll in a current research topics seminar course during each UCR quarter (BIOL 252 or another disciplinary colloquium and EEOB 265) or SDSU semester (BIOL 795) of residence. The majority of required course work should be completed prior to the Written Qualifying Exam, which is taken at the end of the second year. All required disciplinary courses must be completed before taking the Oral Qualifying Exam.

Professional Development One unit of coursework in professional development, which is satisfied by EEOB 400.

Written Qualifying Exam By the end of the second year, students are expected to have taken a written qualifying examination. The Written Exam consists of a review paper in the intended topic of the dissertation; details of the structure of the exam are provided during the Fall quarter of the year in which the exam is to be taken. The written exam is evaluated by an ad hoc committee of faculty participating in the JDPEB program. The committee will have a minimum of 4 faculty, at least 2 from UCR EEOB and 2 from SDSU EB.

Oral Qualifying Exam Upon passing the written exam, the student (in consultation with their SDSU and UCR co-advisors) selects an Oral Qualifying Exam Committee. This committee normally consists of five faculty members: a minimum of 2 UCR EEOB faculty, a UCR outside committee member, and a minimum of 2 SDSU EB faculty. The SDSU major advisor cannot be a member of the Oral Qualifying Exam Committee. The student then writes a detailed research proposal, which is a different document from the review paper prepared for the Written Qualifying Exam and schedules an oral examination. During the exam, the candidate must defend the research proposal and may be questioned on other topics by the Oral Qualifying Exam Committee. Normally the Oral Qualifying Exam occurs in the Fall term of the student's third year.

Dissertation Upon completion of the dissertation, the student will present a research seminar at SDSU. The research seminar will be followed by a final oral defense to be administered by the Dissertation Committee. The completed dissertation must be formatted in accordance with the requirements currently in force at UCR. The dissertation is then filed at both UCR and SDSU.

Teaching Requirement All JDPEB students are required to serve as a Graduate Teaching Assistant for at least two semesters at SDSU.

Normative Time to Degree 18 Quarters/12 Semesters (6 years)

Lower-Division Courses

BIOL 002 Cellular Basis of Life 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. An introduction to the fundamentals of life processes at the cellular level. Topics include cell structure, chemical composition, metabolism, reproduction, genetics, and development with

emphasis on humans. Not recommended for natural science majors. Either BIOL 002 or BIOL 003 may be taken as a breadth requirement in biology; together they provide a general introduction to the field of biology. Credit is not awarded for BIOL 002 if it has already been awarded for BIOL 005A, BIOL 05LA or BIOL 020.

BIOL 003 Organisms in Their

Environment 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. An introduction to the physiology, ecology, and evolution of living organisms with emphasis on humans. Not recommended for natural science majors. Either BIOL 002 or BIOL 003 may be taken as a breadth requirement in biology; together they provide a general introduction to the field of biology. Credit is not allowed for both BIOL 003 and BIOL 005B.

BIOL 005A Introduction to Cell and Molecular

Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 05LA (may be taken concurrently) or BIOL 020 (may be taken concurrently) with grades of "C-" or better; CHEM 001A and CHEM 01LA with grades of "C-" or better or CHEM 01HA and CHEM 1HLA with grades of "C-" or better; consent of instructor is required for students repeating the course. An intensive course designed to prepare for upper-division courses in cell and molecular biology. Covers biochemical, structural, metabolic, and genetic aspects of cells. Required for Biology majors; recommended for science majors desiring an introduction to biology.

BIOL 005B Introduction to Organismal

Biology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A and BIOL 05LA or BIOL 020 with grades of "C-" or better; CHEM 001A or CHEM 01HA; CHEM 001B or CHEM 01HB; consent of instructor is required for students repeating the course. An intensive course designed to prepare for upper-division courses in organismal biology. Covers developmental biology, physiology, and regulation at the level of the organism. Required for Biology majors; recommended for science majors desiring an introduction to biology.

BIOL 005C Introductory Evolution and

Ecology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A with a grade of C- or better; BIOL 020 with a grade of C- or better or BIOL 05LA with a grade of C- or better; BIOL 005B with a grade of C- or better; MATH 009A with a grade of C- or better or MATH 09HA with a grade of C- or better or MATH 007A with a grade of C- or better. An intensive introduction to the subjects of evolution and ecology. Covers population dynamics, community ecology, population genetics, and evolutionary theory. Recommended for science majors desiring an introduction to biology. Students who take equivalent first-year biology at another institution may enter directly into BIOL 005C without critical handicap.

BIOL 05LA Introduction to Cell and Molecular Biology Laboratory 1

Laboratory, 3 hours. Prerequisite(s): BIOL 005A (may be taken concurrently); consent of instructor is required for students repeating the course. An introduction to laboratory exercises on fundamental principles

of and techniques in cell and molecular biology. Illustrates the experimental foundations of the topics covered in BIOL 005A. Credit is not awarded for BIOL 05LA if it has already been awarded for BIOL 020.

BIOL 010 Headlines in the History of

Life 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. Evolution of life beginning with precellular life. Topics include the origin of sex; multicellularity; vertebrate classes; morphological specializations; adaptive radiations; extinction dynamics; and the biology of dinosaurs. Cross-listed with GEO 003.

BIOL 020 Dynamic Genome 2 Laboratory, 6 hours. Prerequisite(s): CHEM 001A or CHEM 01HA, MATH 008B or MATH 009A (MATH 009A may be taken concurrently); freshman standing. Introduces computational and experimental approaches in investigating the genomes of plants and animals. Explores scientific discovery using the tools of bioinformatics and genomics. Includes participation in research projects being conducted on campus. Credit is not awarded for BIOL 020 if it has already been awarded for BIOL 002 or BIOL 05LA.

BIOL 030 Human Reproduction and Sexual

Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A consideration of human anatomy, physiology and behavior as related to sexual reproduction, including discussion of fertility, pregnancy, childbirth and birth control. Consideration will also be given to homosexuality, venereal diseases, sex education, sexual intercourse and response.

BIOL 034 Human Heredity and

Evolution 4 Lecture, 3 hours; discussion and problem solving, 1 hour; audio-visual aids plus discussion, 1 hour. Basic human genetics and evolution, emphasizing their relationship to physical and emotional health. Political, philosophical and ethical implications of human heredity and evolution.

BIOL 040 Disease and History: From the

Bubonic Plague to Aids 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. This lecture course for non-science majors will deal with the natural history of infectious diseases and how plagues have influenced the course of human history. It will cover the biology, pathology, epidemiology, and immunology of viruses, bacteria, and protozoan parasites causing smallpox, yellow fever, influenza, AIDS, syphilis, bubonic plague, tuberculosis, leprosy, malaria, and African sleeping sickness. The role of scientific inquiry in the conquest of human disease will be emphasized.

Upper-Division Courses

BIOL 100 General Entomology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005B, BIOL 005C, or equivalents; or consent of instructor. Introductory study of insects, Earth's most diverse group of animals (75 percent of animal species are insects). Lecture covers the anatomy, physiology, ecology, behavior, and diversity of insects. Laboratory focuses on insect identification. Cross-listed with ENTM 100.

BIOL 102 Introductory Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 020 or BIOL 05LA, and BIOL 005B

with grades of "C-" or better. An introductory course that includes classical Mendelian genetics, linkage and recombination, sex-linked traits, cytogenetics, developmental genetics, and molecular genetics. Also includes some probability theory and statistics.

BIOL 104 Foundations of Plant

Biology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005C. A study of the plant world from cells to ecosystems. Examines the structure and function of organisms from the major plant groups and their role in the biosphere. The laboratory explores the unique properties of plants. Cross-listed with BPSC 104.

BIOL 105 Evolution 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C with a grade of "C-" or better, BIOL 102, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Covers the causal interpretation of organic diversity and adaptation. Topics include inference of evolutionary change from the fossil record and from genomic and molecular patterns; microevolution and macroevolution; systematics and the species problem; and natural selection, drift, and other forces of evolution.

BIOL 106 Biology of Human

Variation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102; BIOL 105 or BIOL 108; STAT 100B (STAT 100B may be taken concurrently); or consent of instructor. A survey of variation within and among contemporary human populations arising from genetic and environmental factors. Covers single-locus and polygenic inheritance, developmental plasticity, and physiological acclimatization. Includes biogeographic and demographic influences; variation in pigmentation, stature, physiology, disease susceptibility, behavior, and IQ; and critical evaluation of racial and ethnic classifications.

BIOL 107A Molecular Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 8HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BHC 110HA. The study of the structure and function of the genetic material, including DNA structure, DNA replication and recombination, regulation of gene expression, and protein synthesis. Examines both prokaryotic and eukaryotic systems including contemporary recombinant DNA technology and applications of molecular cloning procedures. Credit is not awarded for BIOL 107A if it has already been awarded for BCH 110C.

BIOL 107B Advanced Molecular

Biology 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 107A or BCH 110C or BCH110HC or equivalents. An advanced treatment of the functional architecture of genetic material. Topics include genome structure and chromosome organization, DNA replication and

gene expression, cloning organisms, molecular medicine, protein engineering, and application of modern molecular biology to agricultural problems. Coverage of each topic includes discussion of the impact of the emergent molecular technology on society.

BIOL 108 Population Genetics and

Genomics 4 Lecture, 3 hour; discussion and demonstration, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, one course in statistics. A study of factors influencing genomic variation in biological populations. Topics include the effects of natural selection and genetic drift on genetic variation, detecting adaptive change from genomic data, why genetic diseases and cancers persist, the evolution of co-operation, adaptation to pathogens and to a changing environment, and the genetic challenges faced by small conserved populations.

BIOL 110 Biology of Human

Problems 4 Seminar, 4 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; one course in statistics. Devoted to selected human problems that have a large biological component and relate to medicine, ethics, and human existence. Topics covered vary and include issues of major bioethical importance such as euthanasia, national health care, effects of industrial pollution on individuals and communities, population problems, abortion, and genetic engineering.

BIOL 111 Infectious Disease

Epidemiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, and BIOL 005C with a grade of "C-" or better, BIOL 102 with a grade of "C-" or better, STAT 100A or equivalent (or consent of instructor) with a grade of "C-" or better. Introduces epidemiological methods used to investigate infectious diseases. Includes examples and case studies presented for a variety of human infectious diseases.

BIOL 112 Systematics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C or equivalent. Principles and philosophy of classification: phylogenetic and phenetic methods, species concepts, taxonomic characters, evolution, hierarchy of categories, and nomenclature. Cross-listed with BPSC 112, and ENTM 112.

BIOL 113 Advanced Cell Biology: Membranes, Organelles, and the Cytoskeleton 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, BIOL 102, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An examination of the organization, function, and

behavior of eukaryotic cells. Topics include membrane systems, protein targeting, the cytoskeleton, motility, and cell division. Emphasis is on the experiments that form the basis of the current understanding of the cell. The discussion section focuses on reading and analyzing original journal articles.

BIOL 114 Advanced Cell Biology: Cellular Reproduction and Signaling 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, BIOL 102, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An examination of the organization, function, and behavior of eukaryotic cells. Explores the molecular mechanisms used by cells to control reproduction, growth, and responses to extracellular signals. Emphasis is on experiments that form the basis of the current understanding of the cell. The discussion section focuses on reading and analyzing original journal articles.

BIOL 115 Human Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102; BCH 100 or BCH 110A or BCH 110HA. An introduction to human genetics. Topics include human gene organization, chromosome structure, chromosomal aberrations, patterns of single-gene inheritance, multifactorial disorders, developmental biology in medicine, cancer genetics, prenatal diagnosis, personalized health care, gene therapy, and ethical issues in medical genetics.

BIOL 116 Ecology and Conservation

Biology 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): BIOL 005C with a grade of "C-" or better, CHEM 001C (or CHEM 01HC), MATH 007B or MATH 009B or MATH 09HB; or consent of instructor. Introduces principles of ecology with emphasis on implications for the conservation of biodiversity. Topics include physiological ecology, organismal adaptations to the environment, life histories, the niche concept, population growth, interspecific interactions, and the structure and functioning of communities and ecosystems. Also covers topics in applied ecology and conservation biology.

BIOL 118 Laboratory in Molecular

Phylogenetics and Evolution 4 Lecture, 2 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): BCH 100 or BCH 110A or BCH 110HA, BIOL 005C with a grade of "C-" or better, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, STAT 100A; or consent of instructor. Covers theory, techniques, and analytical methods for interpreting patterns of molecular evolution and phylogeny. Explores the comparative analysis of DNA and tests of evolutionary hypotheses using modern computational methods. Includes polymerase chain reaction (PCR), cloning, gel electrophoresis, and restriction site analysis.

BIOL 119 Introduction to Genomics and Bioinformatics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C with a grade of

"C-" or better, BIOL 102, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An introduction to the science of genomics and bioinformatics. Includes genome sequencing; database techniques; structural, comparative, and evolutionary genomics; and microarray analysis.

BIOL 120 Introduction to Plant

Pathology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. An introduction to the study of plant diseases. Topics include diseases and disease-causing agents, host-pathogen interaction during disease development, and strategies for disease management. An optional, separate laboratory is offered. Cross-listed with MCBL 120 and PLPA 120. Credit is not awarded for PLPA 210 if it has already been awarded for BIOL 120/MCBL 120/PLPA 120 and/or BIOL 120L/ MCBL 120L/PLPA 120L.

BIOL 120L Introduction to Plant Pathology

Laboratory 1 Laboratory, 4 hours. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; MCBL 120, may be taken concurrently or BIOL 120, may be taken concurrently or PLPA 120, may be taken concurrently; STAT 100A, may be taken concurrently; BIOL 121/MCBL 121 and BIOL 124/MCBL 124 recommended; or consent of instructor. Covers fundamentals in the use of laboratory instruments and techniques for the detection, isolation, and identification of representative infectious agents that cause disease in plants. Cross-listed with MCBL 120L, and PLPA 120L. Credit is awarded for one of the following MCBL 120L, BIOL 120L, PLPA 120L, or PLPA 210.

BIOL 121 Introductory Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently); or consent of instructor. An intensive introduction to the fundamental physiology and molecular biology of bacteria and viruses. Covers evolutionary origins of metabolic diversity, bacterial and viral molecular genetics, and an introduction to microbial pathogenesis. Cross-listed with MCBL 121.

BIOL 121L Microbiology Laboratory 3 Lecture,

1 hour; laboratory, 6 hours. Prerequisite(s): BIOL 121/MCBL 121 with a grade of "C-" or better. Laboratory exercises in diagnostic bacteriology, basic virology, and epidemiology. Includes fundamental quantitative and diagnostic microbiological procedures, basic mechanisms of microbial genetic exchange, and a project examining bacterial epidemiology. Cross-listed with MCBL 121L.

BIOL 122 Food Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. Covers spoilage and preservation of food; food quality and indicator organisms; the role of microorganisms in the production of dairy goods and fermented beverages; food-borne pathogens and microbiological production of toxins; and classical and modern molecular methods for detection of food microorganisms. Cross-listed with MCBL 122.

BIOL 123 Introduction to Comparative Virology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Considers viruses as infectious agents of bacteria, plants, and animals (vertebrates and invertebrates). Compares the major groups of viruses to each other with respect to their biological and biochemical properties, molecular and genetic characteristics, and modes of replication. Cross-listed with MCBL 123, and PLPA 123.

BIOL 124 Medical Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. An intensive introduction to the fundamental physiology and molecular biology of bacteria and viruses. Covers research strategies for examining microbial pathogenic mechanisms. Cross-listed with MCBL 124.

BIOL 127 Insect Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C or CHEM 08HC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Introduces principles of insect ecology with examples emphasizing the Arthropoda. Topics include

factors governing population growth; ecological and evolutionary interactions with hosts, competitors, and natural enemies; structure of ecological communities; and adaptations to different environments. Cross-listed with ENTM 127.

BIOL 128 Immunology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005C; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA. A study of humoral and cellular immunology. Topics include lymphoid systems, cells, antigens, antibodies, antibody formation, cellular immunity, and tumor and transplantation immunology. Diseases and altered immune states associated with each topic are discussed in detail. Cross-listed with CBNS 128.

BIOL 132 Plant Anatomy 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A and BIOL 005B; BPSC 104 or BIOL 104; or consent of instructor. Functional and developmental aspects of plant cell, tissue, and organ structure. Covers all aspects of the flowering plant life cycle from germination to pollination and fruit and seed development. Cross-listed with BPSC 132.

BIOL 134 Introduction to Mycology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Introduction to the morphology, taxonomy, genetics, physiology, ecology, and economic importance of the major groups of the fungi. Cross-listed with PLPA 134.

BIOL 134L Introduction to Mycology Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, or equivalents; concurrent enrollment in BIOL 134/PLPA 134; or consent of instructor. Introduces fundamentals in the use of laboratory instruments and techniques for the isolation, cultivation, and identification of representatives of the major taxa of fungi. Cross-listed with PLPA 134L.

BIOL 138 Plant Developmental

Morphology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently), BIOL 005B, BIOL 005C, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC; or consent of instructor. Introduces the key areas of research in plant morphology and developmental biology. Emphasizes flowering plants (angiosperms). Cross-listed with BPSC 138.

BIOL 139 The Evolution of Conflict and

Cooperation: Cheaters and Altruists 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; or consent of instructor. Explores the evolution of selfish and selfless behavior. An analysis of the evolutionary forces that create either conflict or cooperation among genes, microorganisms and their hosts, and kin. Cross-listed with ENTM 139 and MCBL 139.

BIOL 143 Plant Physiology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently), BIOL 104/BPSC 104; or consent of instructor. A survey of the fundamental principles of plant physiology including photosynthesis, respiration, water relations, mineral nutrition, growth, morphogenesis, plant hormones, dormancy, and senescence. Cross-listed with BPSC 143.

BIOL 148 Quantitative Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA, BIOL 005B, BIOL 005C, BIOL 102, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, STAT 100B; or consent of instructor. Examines approaches to studying the genetic basis of polygenic, metric traits. Includes types of gene action, partitioning of variance, response to selection, and inferring the number and location of quantitative trait loci. Cross-listed with BPSC 148.

BIOL 151 Invertebrate Zoology 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, PHYS 002A or PHYS 02HA with grades of "C-" or better. Structure, classification, and biology of the invertebrates.

BIOL 152 Principles of Invertebrate

Paleobiology and Paleoecology 4 Lecture, 2 hours; laboratory, 3 hours; three 1-day field trips. Prerequisite(s): BIOL 005C with a grade of "C-" or better or BIOL 010/GEO 003 with a grade of "C-" or better. Topics include evolution and the fossil record, paleoecology, classification theory; the nature of adaptive radiations, and extinctions. Cross-listed with GEO 152.

BIOL 154 Forensic Entomology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005C with a grade of C- or better. Introduces the application of entomological principles and collection of entomological data to be used as evidence in courts of law. Explores the basis of using insects to determine time and place of death in criminal cases, including the collection, handling, and identification of insects of forensic importance. Cross-listed with ENTM 154.

BIOL 155 Chromosomes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently); or consent of instructor. An examination of the structure, function, and behavior of eukaryotic chromosomes. Cross-listed with BPSC 155.

BIOL 157 Parasitology 4 Lecture, 3 hours;

discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC, MATH 007B or MATH 009B or MATH 09HB, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. Surveys the biology of protozoan and helminth interactions with their human hosts.

BIOL 158 Medical Molecular

Parasitology 4 Lecture, 3 hours; seminar, 1.5 hours. Prerequisite(s): BCH 110C or BCH 100HC or BIOL 107A An overview of genome organization and gene expression, with aspects of biochemistry, evolution, natural history, and clinical manifestations of human parasites Trypanosoma, Leishmania, Plasmodium, and others. Emphasizes the molecular and biochemical adaptations to parasitism. Prior knowledge of classical parasitology is not assumed. Students present original research papers during the seminar.

BIOL 159 Biology of Nematodes 3 Lecture, 2 hours; discussion and demonstration, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An introduction to the biology of nematodes. Topics include the morphology, physiology, development, genetics, behavior, and ecology of nematodes from parasitic and free-living habitats. In the discussion and demonstration section, students observe the comparative morphology and biology of nematodes and give oral presentations on selected nematode life histories. Cross-listed with NEM 159.

BIOL 160 Animal Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, and BIOL 102 with grades of "C-" or better, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An examination of behavior from an evolutionary and ecological perspective. Topics include the inheritance of behavior, evolution of communication and displays, migration and habitat selection, foraging ecology, mating systems, and the evolution of social behavior.

BIOL 160L Laboratory in Animal

Behavior 1 Laboratory, 4 hours. Prerequisite(s): BIOL 160 (may be taken concurrently). Laboratory and field exercises in animal behavior. Covers topics such as foraging behavior, aggression, and territoriality.

BIOL 161A Functional Anatomy of the

Vertebrates 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, MATH 007B or MATH 009B or MATH 09HB, PHYS 002A or PHYS 02HA, and one course in statistics with grades of "C-" or better. A study of the functional anatomy of vertebrates including

humans. Examines each organ system from a developmental and evolutionary perspective. Topics include phylogeny, the skeleton, muscles, and the nervous system. BIOL 161A, BIOL 161B, BIOL 171, and BIOL 171L provide a one-year sequence in vertebrate and human anatomy and physiology. Recommended for sophomores and juniors.

BIOL 161B Functional Anatomy of the

Vertebrates 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): BIOL 161A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, and PHYS 002B with grades of "C-" or better. A study of the functional anatomy of vertebrates, including humans. Examines each organ system from a developmental and evolutionary perspective. Topics include circulation, sense organs, the integument, and the respiratory, digestive, and urogenital systems. BIOL 161A, BIOL 161B, BIOL 171, and BIOL 171L provide a one-year sequence in vertebrate and human anatomy and physiology. Recommended for sophomores and juniors.

BIOL 162 Insect Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C; or BIOL 100 /ENTM 100; or consent of instructor. An analysis of the mechanisms that cause and control behavioral reactions of insects. Emphasizes ethological and physiological knowledge concerning orientation mechanisms, communication systems, learning, and the role of the nervous system in integrating behavior in insects. Cross-listed with ENTM 162.

BIOL 163 Evolutionary Ecology of Terrestrial

Vertebrates 5 Lecture, 3 hours; laboratory, 6 hours. Prerequisite(s): BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, MATH 007B or MATH 009B or MATH 09HB. Topics include ecology, evolution, and behavior of birds, mammals, reptiles, and amphibians. Laboratory covers systematics, morphology, and identification and includes indoor labs and field trips to local habitats.

BIOL 165 Restoration Ecology 4 Lecture, 3 hours; two 1-day field trips; three half-day field trips. Prerequisite(s): BIOL 104/BPSC 104 or BIOL 116 or ENSC 100; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; STAT 100A (STAT 100A may be taken concurrently); or consent of instructor. BIOL 102 and CHEM 008C are recommended. An examination of the basic ecological principles related to land restoration. Topics include enhanced succession, plant establishment, plant adaptations, ecotypes, weed colonization and competition, nutrient cycling, functions and reintroduction of soil microorganisms, restoration for wildlife, and the determination of successful restoration. Includes field trips to restored sites. Cross-listed with BPSC 165.

BIOL 166 Global Change Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 116 with a grade of C- or better; CHEM 008C, CHEM 08LC or CHEM 08HC, CHEM 08HLC; PHYS 002C, PHYS 02LC or PHYS 02HC, PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A; or consent of instructor. Explores how global environmental change affects the ecology, physiology, behavior, and evolution of

organisms. Topics include global change and its drivers including rising CO₂, nitrogen deposition, temperature, and habitat alteration. Case studies will illustrate how organismal responses scale up to influence species interactions, ecological communities, and ecosystem processes.

BIOL 168 Developmental Biology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; a course in cell biology is recommended. An advanced description of the embryonic development of animals. Covers the basic concepts of fertilization, gastrulation, and neurulation. Analyzes topics in current developmental research, with an emphasis on the molecular mechanisms of pattern formation and differentiation.

BIOL 169 Ornithology 4

Lecture, 2 hours; laboratory, 3 hours; field, 30 hours. Prerequisite(s): BIOL 005C; CHEM 001C or CHEM 01HC; MATH 007B or MATH 009B or MATH 09HB. Topics include diversity, evolution, physiology, ecology, behavior, field identification, and conservation of species that live in Southern California. Labs and field trips include identification, anatomy, and ornithological techniques such as mist-netting. Includes overnight field trips to University of California field stations.

BIOL 170 Herpetology 5

Lecture, 3 hours; laboratory, 3 hours; field, 30 hours per quarter. Prerequisite(s): BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, MATH 007B or MATH 009B or MATH 09HB. An introduction to the study of amphibians, snakes, lizards, and turtles with emphasis on the Southwest U.S. Topics include diversity, ecology, physiology, functional morphology, biomechanics, and conservation. Field trips will involve identification and techniques for studying behavior and ecology. Lab exercises will involve functional morphology, internal anatomy, and identification.

BIOL 171 Human Anatomy and

Physiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 161A; CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; one course in statistics; concurrent enrollment in BIOL 171L is recommended. An analysis of cell, tissue, and organ structure and function in normal and diseased conditions. Topics include the musculoskeletal, circulatory, and autonomic nervous systems; glands and hormones; body fluids and the kidney; digestion and absorption; and pharmacology and hematology. BIOL 161A, BIOL 161B, BIOL 171, and BIOL 171L provide a one-year sequence in vertebrate and human anatomy and physiology.

BIOL 171L Human Anatomy and Physiology

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): BIOL 161A (may be taken concurrently), CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; BIOL 161B is recommended; concurrent enrollment in

BIOL 171. Involves laboratory experiments in physiology and study of human anatomy and histology (normal and diseased). Covers experimentation, data collection, and analysis that incorporates hematology, blood proteins, urinalysis, neuromuscular control, cardiac excitation and pharmacology, blood pressure, electrocardiography, and electroencephalography. BIOL 161A, BIOL 161B, BIOL 171, and BIOL 171L provide a one-year sequence in vertebrate and human anatomy and physiology.

BIOL 172 Biology of Fishes 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; MATH 007B or MATH 009B or MATH 09HB. Introduction to the study of freshwater and marine fishes. Topics include diversity, ecology, physiology, functional morphology, biomechanics, and conservation. Laboratory exercises will include species identification, functional anatomy, biomechanics, and physiology. A final paper and oral presentation are required.

BIOL 173 Insect Physiology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A and BIOL 005B or equivalents; CHEM 008A and 08LA or CHEM 08HA and 08HLA; CHEM 008B and 08LB or CHEM 08HB and 08HLB; CHEM 008C and 08LC or CHEM 08HC and CHEM 08HLC; or equivalents; or consent of instructor. Introduction to principles of insect physiology. Subjects include growth, development and hormones, cuticle, nervous system, circulation, respiration, digestion, nutrition, excretion, reproduction, water balance, and temperature relations. Prior knowledge of insects is not assumed. Cross-listed with ENTM 173.

BIOL 174 Ecological and Evolutionary Physiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. Examines the interactions between organisms and their environments, emphasizing coadaptation of physiological, morphological, and behavioral phenotypes. Includes allometry and scaling, metabolism and locomotion, heat and water exchange, evolution of endothermy, artificial selection experiments, and phylogenetically based statistical methods.

BIOL 175 Comparative Animal Physiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, BIOL 161A, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, STAT 100A; recommended: BIOL 151 and BIOL 161B. Topics include nutrition and energy metabolism, gas exchange, circulation, and regulation of body fluid composition.

BIOL 176 Comparative Biomechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; PHYS 002C

or PHYS 02HC or PHYS 040C or PHYS 040HC; BCH 100 or BCH 110A or BCH 110HA. Applies principles from physics and engineering to the study of the relationship between organismal form and function. Covers examples from diverse plant and animal systems. Includes fundamental properties of solids and fluids, viscoelasticity, drag, biological pumps, locomotion, and muscle mechanics.

BIOL 178 Hormones and Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An examination of the interactions between hormones and behavior in animals, including humans. Provides an overview of endocrine physiology, and examines the roles of hormones in sexual differentiation, sex differences in behavior, sexual behavior, parental behavior, affiliation, aggression, stress, and mood.

BIOL 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor and departmental chairperson. To be taken as a means of meeting special curricular needs. Grading basis to be selected in consultation with the instructor and departmental chairperson. Course is repeatable.

BIOL 191 Seminar in Biology 2 to 4 Seminar, 2 to 4 hours. Prerequisite(s): upper-division standing; consent of instructor. A critical study of selected topics in biology. Course is repeatable.

BIOL 194 Independent Reading 1 to 4 Consultation, 1 to 4 hours. Prerequisite(s): junior or senior standing and consent of instructor and departmental chairperson. Independent study under faculty supervision. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

BIOL 197 Introduction to Research 1 to 2 Consultation, 1 to 2 hours. Prerequisite(s): sophomore, junior or senior standing and consent of instructor and departmental chairperson. Reading, planning and preliminary laboratory work to develop a research project suitable for BIOL 199, Junior/Senior Research. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BIOL 199 Junior/Senior Research 1 to 4 Laboratory, 1 to 4 hours. Prerequisite(s): junior or senior standing, a minimum GPA of 3.0 and consent of instructor and departmental chairperson. Special problems and research in biology performed under the supervision of members of the faculty of the Department of Biology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Graduate Courses

BIOL 200 Cell Biology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): BCH 110A or BCH 110B or equivalent (may be taken concurrently); BIOL 102 or equivalent; BIOL 113 or BIOL 114 or CBNS 101 or equivalent. An examination of the structure and function of eukaryotic cells and their components with

emphasis on the key experiments that provide the foundation for our current knowledge. Covers topics such as cell membranes, intracellular trafficking, cell-to-cell interactions, motility, and the cytoskeleton. Cross-listed with CMDB 200.

BIOL 201 Molecular Biology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): BCH 110A or BCH 110B or equivalent (may be taken concurrently); BIOL 102 or equivalent; BIOL 107A or equivalent. Covers the structure and inheritance of genetic material, the regulation of gene expression at the cellular and molecular level including molecular mechanisms for regulation of gene transcription, posttranscriptional regulation at the level of messenger RNA stability, processing, editing and translation, methods for gene mapping, and positional cloning. Cross-listed with CMDB 201.

BIOL 203 Cellular Biophysics 3 Lecture, 3 hours. Prerequisite(s): BIOL 200/CMDB 200; BIOL 201/CMDB 201; CHEM 109 or equivalent; or consent of instructor. Biophysical principles that determine cellular structure and function including diffusion, electrochemical gradients, transport, macromolecular interactions, and genetic recombination. Illustrative examples are used to highlight the importance of these principles in modern cell biology and physiology.

BIOL 221 Microbial Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BIOL 107A; BIOL 102. In-depth coverage of the genetics of microbes. Emphasizes the primary data and the foundation of modern techniques using viruses, archae, prokaryotes, and eukaryotes. Includes genome sequences and organization, plasmids and other vectors, and mutation and genetic screens. Also covers transposable elements, recombination, and regulation of gene expression, development, and pathogenesis. Cross-listed with MCBL 221, and PLPA 226.

BIOL 250 Special Topics in Biology 1 to 2 Seminar, 1 to 2 hours. Prerequisite(s): graduate standing and consent of instructor. Oral presentations and intensive small-group discussion of selected topics in the area of special competence of each staff member. Course content will emphasize recent advances in the special topic area and will vary accordingly. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

BIOL 252 General Colloquium in Biology 1 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing. Oral reports by visiting scholars on current biological research. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

BIOL 261 Seminar in Genetics, Genomics, and Bioinformatics 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BCH 261, BPSC 261, ENTM 261, PLPA 261, and GEN 261.

BIOL 281 (E-Z) Seminar in Cell Development,

Structure, and Function 2 Seminar, 2 hours. Prerequisite(s): graduate standing. Lectures, discussions, and demonstrations by students, faculty, and invited scholars on selected subjects concerned with the principles of cell development, structure, and function. E. How Cells Know Where They Are; F. Inflammation in Cancer & Chronic Disease; G. Techniques in Genetic Analysis; Course is repeatable to a maximum of units. Cross-listed with CMDB 281 (E-Z).

BIOL 284 Seminar in Biology 2 to 4 Seminar, 2 to 4 hours. Prerequisite(s): graduate standing; consent of instructor. Consists of lectures, discussions, and demonstrations by students, faculty, and invited scholars on selected topics concerned with the principles of biology. Course is repeatable.

BIOL 289 Special Topics in

Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with BCH 289, CHEM 289, ENTM 289, NRSC 289, and PSYC 289.

EEOB 210 Organismal Biology 4 Lecture, 4 hours. Prerequisite(s): at least one upper division undergraduate course that covers the principles of physiology (such as animal physiology, plant physiology, human physiology, or comparative anatomy and physiology), or a similar course, AND an upper division undergraduate course that covers the principles of evolution, or a similar course, OR consent of instructor. Explores the historical development of modern ideas in organismal biology. Topics include homeostasis, scaling, energetics, structure-function relationships, control systems, and response systems. Examines recent research in the context of the classic studies.

EEOB 211 Foundations of Ecology 4 Lecture, 4 hours. Prerequisite(s): BIOL 116 or consent of instructor. Examination of the history, theory, and interrelationships of fundamental ecological principles through readings and discussions of classic and recent literature. Topics include quantitative, population, community, ecosystem, evolutionary, and conservation ecology.

EEOB 212 Ecological Systems in Space and Time 4 Lecture, 3 hours; field, 30 hours per quarter. Prerequisite(s): one upper-division undergraduate course in population or community ecology or paleoecology; or consent of instructor. Focuses on how ecological systems are interpreted and reconciled at the community, landscape, and paleontological scales. Addresses the role of extrinsic factors operating at each of these scales. Also examines the historical development of our understanding of ecological systems at various scales. Cross-listed with ENTM 212, and GEO 212.

EEOB 213 Behavioral Ecology 4 Lecture, 4 hours. Prerequisite(s): BIOL 160 or consent of instructor. Examines animal behavior in an evolutionary context. Traces the historical development of the study of behavior, drawing

from ethology, comparative psychology, and sociobiology. Topics include evolution of sociality, sexual selection, predator-prey behavior, and parental care.

EEOB 214 Evolutionary Genetics 4 Lecture, 4 hours. Prerequisite(s): BIOL 108 or consent of instructor. Traces the historical development of modern ideas in evolutionary genetics. Focuses on the influence of Fisher, Haldane, and Wright on current views of genetic variation in natural populations, by examining recent research in the context of their classic works.

EEOB 215 Advanced Methods of Data Analysis in Evolution, Ecology, and Behavior 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 212 or STAT 100B or equivalent. Introduces students to new methods of data analysis in the fields of evolution, ecology, and behavior. Covers theory and practical application using relevant examples. Topics include maximum likelihood, randomization, the jackknife, bootstrapping, Monte Carlo approaches, and meta-analysis.

EEOB 216 The Theory of Evolution 4 Lecture, 4 hours. Prerequisite(s): BIOL 105 or consent of instructor. Traces the historical development of modern ideas in evolutionary theory. Focuses on the influence of Darwin and of the various authors of the modern synthesis on current views of macroevolution by examining recent research in the context of their classic works.

EEOB 217 Advanced Population and Community Ecology 4 Lecture, 4 hours. Prerequisite(s): one upper-division undergraduate class in population or community ecology; or consent of instructor. Traces the development of the major concepts in ecology. Focuses on the influence of pioneers in the field, historical roots of key concepts, and key controversies. Evaluates current research with reference to these historical origins.

EEOB 219 Theory of Systematics 4 Lecture, 4 hours. Prerequisite(s): BIOL 112/BPSC 112/ENTM 112 or equivalent or consent of instructor. Examines topics developed around a series of classical and recent papers on the principles, philosophy, and methodology of modern systematics and phylogenetic methods. Cross-listed with ENTM 219, and GEO 219.

EEOB 220 Evolutionary Physiology 4 Lecture, 4 hours. Prerequisite(s): an upper-division course in evolution and animal physiology or behavior; an upper-division course in statistics that covers analysis of covariance; or consent of instructor. Covers evolutionary approaches to the study of animal physiology. Includes organismal and organ-system physiology; biomechanics and locomotor mechanisms; cell physiology; the development of physiological systems; and behavioral neuroscience.

EEOB 230 Analysis of Ecological Communities 5 Lecture, 3 hours; discussion, 2 hours. Prerequisite(s): PSYC 212 or STAT 231B or equivalent; consent of instructor. Covers principles of multivariate analysis and its application to the interpretation of ecological community data. Topics include multiple and partial correlation and regression, canonical correlation, detrended and canonical correspondence analysis, multidimensional

scaling, similarity indices and cluster analysis, and discriminant analysis.

EEOB 265 Advances in Population and Evolutionary Biology 1 or 2 Seminar, 1 hour; research, 0 or 3 hours. Prerequisite(s): graduate standing or consent of instructor. Presentations by visiting scholars, faculty, and students on current research topics in population and evolutionary biology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EEOB 282 Seminar in Genetics and Evolution 2 to 4 Seminar, 2 to 4 hours. Prerequisite(s): graduate standing; consent of instructor. Presentations by students, faculty, and invited scholars on selected topics concerned with the principles of genetics and evolution. Course is repeatable.

EEOB 283 Seminar in Organismal Biology 1 to 4 Seminar, 1 to 4 hours. Prerequisite(s): graduate standing; consent of instructor. Presentations by students, faculty, and invited scholars on selected topics concerned with the principles of organismal biology, including physiology, behavior, morphology, biomechanics, and related topics. Course is repeatable to a maximum of 18 units.

EEOB 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Individual studies on specially selected topics in evolution, ecology, and organismal biology under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EEOB 291 Individual Study in Coordinated Areas 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing. Provides a program of study designed to advise and assist candidates who are preparing for examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EEOB 292 Concurrent Analytical Studies in Evolution, Ecology, and Organismal Biology 2 to 4 Research, 6 to 12 hours. Prerequisite(s): consent of instructor. Elected concurrently with an appropriate undergraduate course but on an individual basis. Devoted to one or more graduate papers based on research or criticism related to the course. Faculty guidance and evaluation provided throughout the quarter. Course is repeatable.

EEOB 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing. Directed research in evolution, ecology, and organismal biology. Experimental studies on specially selected topics under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EEOB 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

BIOL 301 Teaching of Biology at the College Level 1 Seminar, 1 hour. Prerequisite(s):

graduate standing. A program of weekly meetings and individual formative evaluations required of new Biology Teaching Assistants. Covers instructional methods and classroom/section activities most suitable for teaching Biology. Conducted by the TA Development Program. Graded Satisfactory (S) or No Credit (NC).

BIOL 303 Philosophy and Pedagogy of Teaching Undergraduate Life Sciences 3

Lecture, 1 hour; laboratory, 3 hours; workshop, 1 hours. Prerequisite(s): graduate standing in life sciences. Explores the opportunities and challenges associated with developing an undergraduate course in the life sciences. Emphasizes determining how students learn, as well as exploring contemporary instruction methods that foster student engagement in the classroom. Graded Satisfactory (S) or No Credit (NC). Cross-listed with ENTM 303.

EEOB 400 Introduction to Graduate Study in Biology 2

Lecture, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Introduces opportunities and requirements for successful graduate study. Emphasis is placed on effective strategies for developing and implementing a program of professional development and graduate research. Graded Satisfactory (S) or No Credit (NC).

BIOMEDICAL SCIENCES

Subject abbreviation: BMSC Division of Biomedical Sciences

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

B.S. Degree Requirements

The following major requirements apply only to students who, in truly exceptional cases, matriculate into the Thomas Haider Program at the UCR School of Medicine without a UCR baccalaureate degree. These students are eligible to receive a B.S. degree in Biomedical Sciences upon satisfactory completion of the first year of the curriculum leading to the M.D. degree.

Major Requirements

1. Biological Sciences Core Curriculum (65-68 units)

- a) BIOL 005A, BIOL 05LA, BIOL 005B, BIOL 005C or equivalent
- b) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 112A, CHEM 112B, CHEM 112C or equivalent
- c) PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC or equivalent
- d) MATH 008B or MATH 009A, MATH 009B or equivalent
- e) STAT 100A or equivalent
- f) BCH 100 or BCH 110A or equivalent

2. Courses taken during the first year of medical school (59 units)

BMSC 231, BMSC 231M, BMSC 232, BMSC 232M, BMSC 233, BMSC 233M, BMSC 234, BMSC 234M, BMSC 235, BMSC 235M

Lower-Division Courses

BMSC 091 Freshman Advising Seminar For Medical Scholars Program Students 1 Seminar, 1 hour. Prerequisite(s): freshman standing in the Medical Scholars Program. Introduction to UCR for students in the Medical Scholars Program. Focuses on learning the necessary survival skills to succeed in college and prepare for a career in the allied health sciences. Graded Satisfactory (S) or No Credit (NC).

BMSC 092 First-Year Seminar For Medical Scholars Program Students: Topics in Health Careers 1 Seminar, 1 hour. Prerequisite(s): freshman standing in the Medical Scholars Program or consent of instructor. A discussion of health careers in biomedical sciences and allied health sciences for students in the Medical Scholars Program. Graded Satisfactory (S) or No Credit (NC).

BMSC 093 Seminar For Medical Scholars Program Students 1

Seminar, 1 hour. Prerequisite(s): lower-division standing in the Medical Scholars Program or consent of instructor. A discussion of special topics in biomedical sciences and allied health sciences

as they pertain to students in the Medical Scholars Program. Graded Satisfactory (S) or No Credit (NC).

BMSC 094 Independent Reading 1 to

2 Consultation, 1 to 2 hours. Prerequisite(s): consent of instructor. Independent study under faculty supervision. Possible topics include modern approaches to the pathophysiology of disease, delivery of medical care to the community, or current medical education. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

BMSC 097 Research Tutorial in Biomedical Sciences 1 to 2

Laboratory, 3 to 6 hours. Prerequisite(s): grade point of 3.0 and consent of instructor. Laboratory tutorial in research related to biomedical sciences. To provide laboratory experience in the areas of physiology, microbiology, molecular biology, pharmacology, cell biology, immunology, biochemistry for exceptional lower-division students. A written report is required at the end of each quarter. Graded Satisfactory (S) or No Credit (NC). May be repeated for up to 6 units.

Upper-Division Courses

BMSC 191 Seminar in Biomedical

Sciences 2 Seminar, 20 hours per quarter. Prerequisite(s): upper-division standing in the Medical Scholars Program or consent of instructor. Special topics in biomedical sciences, healthcare delivery, cultural competency, biomedical research, and related areas. Course is repeatable to a maximum of 6 units.

BMSC 194 Independent Reading 1 to

2 Discussion, 1 hour; research, 2 to 3 hours. Prerequisite(s): upper-division standing and consent of instructor and Divisional Dean. Independent study involving library projects on topics related to Biomedical Sciences. Independent study will be conducted under faculty supervision. A written report to be graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

BMSC 197L Research For Undergraduates 1

to 3 Laboratory, 3 to 9, hours. Prerequisite(s): upper-division standing (completion of 90 quarter units) and consent of instructor. An introduction to the methods of research in biomedical sciences. The student will conduct investigation in an area of biomedical sciences under the supervision of a Division of Biomedical Sciences faculty member and submit a written report on his/her work. Course is repeatable.

Graduate Courses

BMSC 202 Molecular Basis of

Disease 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Discussion of the molecular basis of disease with special emphasis on new developments and the broad application of approaches and techniques. Course is repeatable with consent of the student's advisory committee; may be applied only once toward core requirements.

BMSC 222 (E-Z) Special Topics:biomed

Sciences 2 Lecture, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing. Oral presentations and intensive small-group

discussion of selected topics in the area of special competence of each faculty member. Course emphasizes recent advances in the special topic area and varies accordingly. E. Membranes & Ion Trans Pheno; G. Mechanisms For Cntrl Cell P; J. Host Defense Mechanisms; L. Hormone Secretion; M. Hormone Action; N. Mechanisms Of Steroid Hormones; O. Steroid Metabolism; P. Drug & Hormone-receptor Int; Q. Mechanisms Of Carcinogenesis; U. The Mechanisms Of Locomotio; W. Advanced Immunology; X. Mutagenesis&genetic Instability; Y. Cancer Genetics; Course is repeatable to a maximum of units.

BMSC 223 (E-Z) Themes in Human Biology

and Disease 2 to 4 Prerequisite(s): graduate standing. For hours and prerequisites, see segment descriptions. Graduate students write a paper on current basic research relevant to the course theme. Credit is awarded for one of the following BMSC 223 (E-Z), BMSC 229, BMSC 231, or MDCL 231.

BMSC 223E Inflammation, Autoimmunity,

and Pathogen Defense 3 Lecture, 23 hours per quarter; discussion, 8 hours per quarter; laboratory, 8 hours per quarter. Prerequisite(s): consent of course coordinator. Integrative view of the human immune system and inflammation in health and disease. Credit is awarded for only one of BMSC 223E or BMSC 229 or BMSC 231 or MDCL 231.

BMSC 223F Cardiovascular

Physiology 4 Lecture, 30.5 hours per quarter; discussion, 11.5 hours per quarter; laboratory, 5 hours per quarter. Prerequisite(s): consent of course coordinator. Integrative view of the human cardiovascular system in health and disease. Credit is awarded for only one of BMSC 223F or BMSC 232 or MDCL 232.

BMSC 223G Renal Physiology 3 Lecture, 22 hours per quarter; discussion, 8 hours per quarter; laboratory, 2 hours per quarter. Prerequisite(s): consent of course coordinator. Integrative view of human kidney function and dysfunction. Credit is awarded for only one of BMSC 223G or BMSC 232 or MDCL 232.

BMSC 223I Themes in Human Biology and

Disease 3 Lecture, 25 hours per quarter; discussion, 8 hours per quarter; laboratory, 6.5 hours per quarter. Prerequisite(s): consent of course coordinator. Integrative view of the human respiratory system in health and disease. Credit is awarded for only one of BMSC 223I or BMSC 232 or MDCL 232.

BMSC 223J Themes in Human Biology and

Disease 3 Lecture, 33 hours per quarter; laboratory, 6 hours per quarter. Prerequisite(s): consent of course coordinator. Integrative view of the human gastrointestinal system in health and disease. Credit is awarded for only one of BMSC 223J or BMSC 233.

BMSC 229 Foundations in Translational

Research 8 Lecture, 67 hours per quarter; discussion, 7 hours per quarter; laboratory, 18 hours per quarter. Prerequisite(s): first-year standing in the Biomedical Sciences graduate program or consent of graduate advisor. Covers basic principles of disease processes, genetics,

and molecular, cellular, and developmental biology. Case-driven instruction accomplished through lectures and discovery in small group discussions and laboratories. Offered in summer only. Credit is awarded for only one of BMSC 223E or BMSC 229 or BMSC 231 or MDCL 231.

BMSC 231 Foundations of Medicine

17.5 Lecture, 65.5 per quarter; discussion, 6 per quarter; laboratory, 20.5 per quarter. Prerequisite(s): first-year standing in medical school or consent of instructor. Covers basic principles of disease processes, genetics, and molecular, cellular, and developmental biology. Instruction is driven by cases and accomplished through lectures and discovery in small group discussions, laboratories, and conferences. Students using this course to fulfill requirements for the B.S. degree in Biomedical Sciences receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of BMSC 223E or BMSC 229 or BMSC 231 or MDCL 231.

BMSC 232 Cardiovascular, Renal, and

Respiratory Sciences I 12 Lecture, 107 hours per quarter; discussion 9 per quarter; laboratory 19 per quarter. Prerequisite(s): first-year standing in medical school or the graduate program in Biomedical Sciences or consent of instructor; BMSC 229 or BMSC 231. Covers physiology, pathophysiology, physical diagnosis, and imaging in the cardiovascular, renal, and respiratory sciences. Instruction is driven by cases and accomplished through lectures and discovery in small group discussions, laboratories, and conferences. Students using this course to fulfill requirements for the B.S. or Ph.D. degree in Biomedical Sciences receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of BMSC 223F or BMSC 232 or MDCL 232 and for only one of BMSC 223G or BMSC 232 or MDCL 232 and for only one of BMSC 223I or BMSC 232 or MDCL 232 .

BMSC 233 Gastrointestinal, Endocrine,

and Reproductive Health I 10 Lecture, 85 hours per quarter; discussion, 8 hours per quarter; laboratory, 21 hours per quarter. Prerequisite(s): first-year standing in medical school or the graduate program in Biomedical Sciences or consent of instructor; BMSC 232. Covers biochemistry, pathophysiology, physical diagnosis, and imaging associated with gastrointestinal, endocrine, and reproductive health. Instruction is driven by cases and accomplished through lectures and discovery in small group discussions, laboratories, and conferences. Credit is awarded for only one of BMSC 223J or BMSC 233 or MDCL 233.

BMSC 234 Musculoskeletal

Medicine 4 Lecture, 36 hours per quarter; discussion, 2 hours per quarter; Laboratory, 7 hours per quarter. Prerequisite(s): first-year standing in medical school or the graduate program in Biomedical Sciences or consent of instructor; BMSC 233. Covers the musculoskeletal system, biology and pathology of the peripheral nervous system, and physical diagnosis. Utilizes lectures and case studies to accomplish course objectives. Promotes discovery of learning by small group discussions, laboratories, and conferences. Credit is awarded

for only one of BMSC 234 or MDCL 234.

BMSC 235 Clinical Neurosciences I 5 Lecture, 42 hours per quarter; discussion, 8 hours per quarter; laboratory, 6 hours per quarter
Prerequisite(s): BMSC 234. Covers neurobiology and provides an introduction to neurology and psychiatry, as well as physical diagnosis and imaging of the nervous system. Utilizes lectures and case studies to accomplish course objectives. Promotes discovery of learning by small group discussions, laboratories, and conferences. Credit is awarded for only one of BMSC 235 or MDCL 235.

BMSC 236 Foundations of Medicine

II 10 Lecture, 93 hours per quarter; discussion, 8 hours per quarter; laboratory, 10 hours per quarter. Prerequisite(s): second-year standing in medical school or the graduate program in Biomedical Sciences or consent of instructor; BMSC 235. Covers the pathophysiology, pharmacology, physical diagnosis and treatment of infectious diseases, clinical hematology and oncology, and epidemiology and clinical reasoning skills. Instruction involves weekly cases and is presented through lectures and discovery in small group discussions, laboratories, and conferences. Students using this course to fulfill requirements for the Ph.D. degree in Biomedical Sciences receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade.

BMSC 251 Colloquium in Biomedical

Sciences 1 Colloquium, 1 hour. Prerequisite(s): graduate standing in Biomedical Sciences or consent of instructor. Specialized discussions by staff and students of current research topics in biomedical sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BMSC 252 General Seminar in Biomedical

Sciences 1 Seminar, 1 hours. Prerequisite(s): graduate standing. Oral presentations by staff and visiting scholars on current research topics in the field of biomedical sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BMSC 254 Graduate Seminar in Biomedical

Sciences 1 Seminar, 1 hour. Prerequisite(s): graduate standing. Oral reports by graduate students on current research topics in biomedical sciences. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BMSC 260A Topics in Translational Biomedical

Research 2 Lecture, 2 hours per quarter; discussion, 18 hours, per quarter. Prerequisite(s): consent of instructor or graduate advisor; concurrent enrollment in BMSC 232. A survey of the mechanisms of common human diseases at the molecular, cellular and organ system levels and the multidisciplinary approaches used for their investigation. Instructional components include lectures, discovery in problem-based learning sessions, and independent study. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BMSC 260B Topics in Translational Biomedical

Research 2 Lecture, 2 hours; discussion, 18 hours per quarter. Prerequisite(s): consent

of instructor or graduate advisor; concurrent enrollment in BMSC 233. A survey of the mechanisms of common human diseases at the molecular, cellular and organ system levels and the multidisciplinary approaches used for their investigation. Instructional components include lectures, discovery in problem-based learning sessions, and independent study. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BMSC 260C Topics in Translational Biomedical

Research 2 Lecture, 2 hours; discussion, 18 hours per quarter. Prerequisite(s): consent of instructor or graduate advisor; concurrent enrollment in BMSC 234 and BMSC 235.

A survey of the mechanisms of common human diseases at the molecular, cellular and organ system levels and the multidisciplinary approaches used for their investigation. Instructional components include lectures, discovery in problem-based learning sessions, and independent study. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

BMSC 261 Methods in Biomedical

Research 1 Tutorial, 3 hours. Prerequisite(s): graduate standing in Biomedical Sciences or consent of instructor. Experimental studies on a specific laboratory technique involved in the study of human disease. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

BMSC 290 Directed Studies 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing in Biomedical Sciences or consent of instructor. Experimental or literature studies on specifically selected topics under direction of a staff member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BMSC 297 Directed Research 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing in Biomedical Sciences or consent of instructor. Directed research in biomedical sciences performed prior to advancement to candidacy in preparation for dissertation projects. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BMSC 299 Research For Dissertation 1 to

12 Research, 3 to 36 hours. Prerequisite(s): graduate standing in Biomedical Sciences or consent of instructor. Original research in the area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

BMSC 302 Directed Teaching 2

Practicum, 6 hours. Prerequisite(s): graduate standing in Biomedical Sciences. Supervised teaching in medical school courses. Required for all Biomedical Sciences graduate students. Fulfills the teaching portion of the teaching requirement for the Ph.D.; four units are required for the Ph.D. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

BIOMEDICAL SCIENCES GRADUATE PROGRAM

Subject abbreviation: BMSC Division of Biomedical Sciences

Byron Ford, Ph.D., Program Director

Graduate Program

The multidisciplinary interdepartmental graduate program in Biomedical Sciences offers graduate instruction leading to a M.S. degree, a Ph.D. degree or a combined M.D.-Ph.D. degree.

The aim of the graduate program is to provide students with training that crosses traditional boundaries between scientific disciplines and allows them to address modern biomedical research questions. The objective is to train scientists who have a broad knowledge of basic medical sciences, a high degree of expertise in an area of specialization, and effective teaching skills for a medical school or university environment.

The need for scientists who understand the interrelationships of various areas of medical science is readily apparent. For example, it is clearly advantageous for a scientist studying diabetes to understand the disease in depth. This requires a fundamental understanding of endocrinology (hormone secretion and action), cell biology (cell types that produce insulin and upon which insulin acts), biochemistry (insulin-receptor interactions, biochemical pathways regulated by insulin), genetics (hereditary factors in the development of diabetes), immunology (autoimmune mechanisms in diabetes), and anatomy (microvascular pathology). There is a growing need for scientists who can communicate among disciplines so that very effective research collaborations can be developed.

Cell Biology/Physiology research areas include function of transcription factors in development, disease, and in the promotion of regeneration; fluid and electrolyte pathophysiology in cystic fibrosis; molecular genetics of human cell response to environmental carcinogens; tumor suppressor genes in malignant melanoma; factors controlling lymphocyte differentiation; mechanisms of action of cytotoxic lymphokines; physiological aspects of host-parasite interaction; host defense mechanisms in infectious disease; and mucosal immunity and molecular approaches to vaccine development.

Endocrinology/Pharmacology research areas include regulation and actions of the vitamin D

endocrine system; mechanism of action of insulin and insulin-like growth factors; prolactin as a growth factor in health and disease; hormonal and electric field regulation of bone development and growth; and molecular mechanisms for carcinogenesis (glioblastoma, breast and prostate cancer).

Neurosciences research areas include studies of the hypothalamic control of homeostatic and sexual function; molecular mechanisms of neurodevelopment, neuronal death and neurodegeneration with emphasis on the following diseases: Alzheimer's disease, Parkinson's disease, Autism, Fragile X/intellectual disability, multiple sclerosis, Huntington's disease, epilepsy, traumatic brain injury, stroke and pathogen-induced encephalitis.

Admission

Applicants should have completed an undergraduate degree in one of the physical or biological sciences and must submit scores from the GRE General Test (verbal and quantitative). (GRE requirement not applicable to UCR Biomedical Sciences students applying for the M.D.-Ph.D.) Courses required for admission include one year each of general chemistry, organic chemistry, physics, and calculus and at least two years of biological sciences. Preferred upper-division courses in biology include vertebrate or human anatomy and physiology, embryology, genetics, cell biology, microbiology, immunology, and neurosciences.

Doctoral Degree

The aim of the graduate program in Biomedical Sciences is to train Ph.D. scientists in a specific area of research specialization who also have enough general knowledge in the basic medical sciences to apply their research expertise to unraveling the basis of disease. This approach includes understanding not only pathogenic manifestations of disease but also the normal physiologic state. To accomplish this, the student completes a core and elective curriculum, the latter tailored to the student's research interests.

Core requirements include:

1. BMSC 229: Foundations of Translational Research
2. BMSC 232, 233, 234 and 235: Foundations of Medicine Series
3. BMSC 260A, BMSC 260B, BMSC 260C: Topics in Biomedical Research. The entire 3 quarter series is required in the second year of graduate education.
4. BMSC 261: Methods in Biomedical Research. Enrollment required all 3 quarters of the first year of graduate education.
5. BMSC 252: General seminar in Biomedical Sciences (enrollment required each quarter)
6. BMSC 254: Graduate seminar in Biomedical Sciences (enrollment required each quarter)
7. BMSC 302: (one-quarter requirement, not required of M.D.-Ph.D. students)

Under normal circumstances, each student should complete core course work requirements 1-4 during the first year of studies.

At the end of the student's first full year of residence, the advisory committee for each student

evaluates the progress of the student and recommends to the faculty whether the student should continue in the program.

In addition, prior to advancement to candidacy and at the beginning of each academic year, the student presents a written summary of the research progress and plans to the advisory committee. Continuation in the program depends on the advisory committee's positive evaluation of the student's research progress.

Written and Oral Qualifying Examinations

Prior to advancement to candidacy, students must complete both parts of a qualifying examination. Part I consists of the preparation of a research proposal, to be written in the form of a grant proposal, including literature review, description of methods and experimental plans for the dissertation. This proposal should outline the research progress of the student to date and delineate the planned dissertation research aims and objectives. Part I is usually completed in the spring quarter of year 2 and no later than the fall quarter of year 3 of a student's graduate training. Part II consists of an oral comprehensive examination administered by a committee of five faculty members, at least one of whom is from outside the program. The student's research advisor does not serve on the oral qualifying committee. The oral comprehensive examination includes examination of the student's knowledge and understanding of material covered in the core courses and in the student's area of specialization. Part II must be completed no later than the end of year 3 of the student's graduate training.

Research Project, Dissertation and Final Oral Examination

After successful completion of the qualifying exam and advancement to candidacy, the student completes the research project, submits a written dissertation, and defends the dissertation in a final oral examination.

Normative Time to Degree 15 quarters

M.D.-Ph.D. Combined Degree Admission

The combined degree is offered to students admitted to the medical school and to exceptional students from other four-year LCME-accredited medical schools. Normally, a student completes the first two years of medical school, and then spends approximately three years in the Ph.D. part of the program before completing the M.D. degree. However, the track is also offered to students who have completed the M.D. degree. UCR Biomedical Sciences students may apply for admission concurrently with their applications to the medical school or any time after acceptance to the medical school. For these students only, the MCAT is accepted in lieu of the GRE.

Students from other medical schools should apply in the fall of their sophomore or senior year. Applications from sophomores must be accompanied by official permission for an appropriate leave of absence. The GRE requirement is the same as for regular Ph.D. students.

Master's Degree

The Biomedical Sciences Graduate Group offers an M.S. degree. Students may directly apply to the M.S. degree program with a rolling admissions deadline. Students in the Ph.D. degree

program may also complete the M.S. program if the student's advisory committee decides the master's degree is an appropriate alternative to the Ph.D. degree anytime after the first year of graduate education. In both situations a Plan I (Thesis) or Plan II (Comprehensive Examination) M.S. degree is available. The decision of completing a Plan I or II M.S. degree is to be decided in consultation with the student and the student's Guidance Committee. The Guidance Committee and Individual Development Plan (IDP) will be formed at the time of enrollment.

Professional Development

Two quarters of BMSC 254 are required. Additional specific professional development courses will be determined in consultation with the student's Guidance Committee.

Course Work Core requirements:

1. **Two quarters of BMSC 252**
2. **Two quarters of BMSC 254**
3. **BMSC 299 (minimum of 8 Units Directed Research)**
4. **Two quarters selected from any category in the following list:**
 - i) BMSC 222 - Special Topics
 - ii) BMSC 223
 - iii) MDCL 231, 232, 233, 234, 235
 - iv) BMSC 260A, B, C
 - v) Designated Emphasis - Cell Molecular and Behavioral Neuroscience Courses (CBNS 106, CBNS 116, CBNS 120, CBNS 125, CBNS 126, CBNS 127, CBNS 129, PSYC 112, PSYC 117, PSYC 203B, PSYC 207C, PSYC 208)
 - vi) Designated Emphasis - Inflammation and Infectious Disease Courses BMSC 223E, BMSC 236, MCBL 124, MCBL 202, MCBL 221)
 - vii) Designated Emphasis - Mechanisms of Gene Expression and Regulation Studies Courses (BPSC 148, BPSC 234, CMDB 201, CMDB 203, CS 234, CS 238, EEOB 214, EEOB 216, ENTX 204, GEN 203, GEN 241, BEN 242, GEN 206, GEN 220, MCBL 221, STAT 100A).

A total of 36 units are required with normative time to degree 6 quarters. Teaching experience may be required based on consultation with the student's guidance committee.

Course Descriptions

All Biomedical Sciences courses are listed and described under Biomedical Sciences.

Further information regarding graduate studies in Biomedical Sciences may be obtained from medschool.ucr.edu/graduate.

Graduate Program

The program offers the M.S. and Ph.D. degree in Biophysics.

The interdepartmental graduate program in Biophysics has participating faculty from the departments of Biochemistry; Bioengineering; Biomedical Sciences; Botany and Plant Sciences; Chemistry; Evolution, Ecology and Organismal Biology; Mathematics; and Physics and Astronomy.

The goal of the program is to promote teaching, training and research in the field of Biophysics. Areas of specialization include biological electron transfer, computational/mathematical modeling of biological systems, structural biology, neurobiophysics, imaging and protein engineering. Biophysicists are needed by institutions of

higher learning, and by federal, state and private research organizations.

Admission

Students must have a B.A. or B.S. degree in Biology, Biochemistry, Biophysics, Chemistry, Physics or in a related field from an accredited institution and an academic record that satisfies the minimum admission standards established by the UCR Graduate Division. In addition, students are required to take the GRE General Test as well as the Subject Examination in Biochemistry, Biology, Chemistry or Physics, which must be submitted at the time of application. Students admitted to regular standing will have satisfied all prerequisite course work. Under special circumstances, students who have not completed all undergraduate requirements may be admitted provided that the deficiencies are corrected early in their graduate studies. Undergraduate or other previous training must include the following coursework:

- One year of introductory biochemistry, including laboratory
- One year of introductory biology, including laboratory
- One year of introductory chemistry, including laboratory
- One year of organic chemistry, including laboratory
- One year of introductory physics, including laboratory
- One year of calculus, plus one upper division mathematics course

Students with strong academic records may be admitted with coursework deficiencies, provided they are remediated during the first two years of graduate study.

Doctoral Degree

The program offers the Ph.D. degree in Biophysics.

Course Work

Thirty-six (36) units of 100 or 200 series courses, of which at least twenty-four (24) units must be in the graduate 200 series; includes the program's graduate core curriculum and courses from a list of approved electives. A minimum of sixteen (16) units of coursework other than courses in the 290 series must be completed in fulfillment of the twenty-four (24) unit program requirement for graduate coursework.

All students are required to take a sequence of core courses (BCH 184, BCH 210, BIOL 203, and PHYS 246) in their first year, and complete a series of research rotations in laboratories of participating faculty under BPHY 297 as part of the thesis advisor selection process. Participation in the Biophysics Graduate Seminar (BPHY 252) is also required for each quarter the student is enrolled; each student is expected to present a formal research seminar in this course prior to graduation. Students who present will receive a letter grade.

Approved Elective Courses include:

BCH 186, BCH 187, BCH 230F, BIEN 135, BIEN 142, BIEN 160, BIEN 165, BIEN 242, BIEN 245, BIEN 249, BIEN 251, CHEM 201A, CHEM 201B, CHEM 201C, CHEM 201D, CHEM 201E, CHEM 206A, CHEM 206B, CHEM 209M, CHEM

211D, CHEM 229Q, PHYS 145A, PHYS 145B, PHYS 145C, PHYS 212A, PHYS 212B

Comprehensive Examination

At the end of the first year, and no later than the end of the second year, students must pass a written comprehensive examination consisting of questions provided by the participating faculty, with topics taken from the core curriculum.

Qualifying Examination and Advancement to Candidacy

Doctoral students must pass a written qualifying examination that will consist of the preparation of a research proposal based on their dissertation work and taking the form of a grant application to the National Science Foundation or National Institutes of Health. Once the proposal is deemed satisfactory, the student must pass an oral examination that will consist of a defense of the written research proposal before the student's qualifying exam committee. Upon successful completion of all coursework and passing of the Qualifying Examination, the student will advance to candidacy.

Dissertation

Students are expected to complete laboratory rotations and select a dissertation advisor by the end of their first academic year. The dissertation advisor will chair a Ph.D. Dissertation Committee that will meet annually to assess progress and provide input to the research project. A written dissertation will be completed by each student in the program.

Final Defense

Doctoral candidates will defend their dissertations in a public oral presentation at a time announced to members of the University community. The Dissertation Committee will then make a recommendation to the Graduate Division as to whether the degree of Ph.D. be conferred.

Professional Development

Biophysics students must complete an annual research evaluation, complete a minimum of 2 quarters as a teaching assistant, and complete GDIV 403.

Normative Time to Degree

15 quarters

Master's Degree

The program offers the M.S. degree in Biophysics.

Students will normally be admitted to the Ph.D. program. Upon advancement to candidacy for the Ph.D. degree the student may petition the Graduate Division for conferral of the M.S. degree.

Students enrolling in the master's degree in Biophysics must meet the requirements for the Plan II of the UCR Graduate Council, take core courses as described above and pass a Comprehensive Examination.

Plan II (Comprehensive Exam)

Thirty-six (36) units of 100 or 200 series courses, of which at least eighteen (18) units must be in the graduate 200 series; includes the program's graduate core curriculum and courses from a list of approved electives. Students must enroll in BPHY 252 each quarter offered. Students must pass a three-hour Comprehensive Examination

consisting of questions provided by the participating faculty, with topics taken from the core-curriculum.

Professional Development

Biophysics students must complete GDIV 403.

Normative Time to Degree

6 quarters

Designated Emphasis Requirements

The Designated Emphasis is a 14-unit interdisciplinary graduate course of study, requiring coursework across at least two departments. Two of the three required courses, if otherwise eligible, may count towards the student's Ph.D. requirements.

- 1. Three (3) courses (12 units) selected from**
AHS 274, CRWT 186A, CRWT 186B, ENGL 246, ENGL 273, ENGL 282, HIST 240 (E-Z), HIST 262, HIST 263, HISE 113, HISE 114. Students may ask to count another course with relevant content as approved by the Designated Emphasis Directors. Students must select courses from at least two different departments or programs, one of which may be their home department. Undergraduate courses taken to fulfill these requirements must be accompanied by a 292 course taken in the student's department with extra work mutually agreed upon by professor and student.
- 2. MCS280 (2 units): Colloquium on Book, Archive, and Manuscript Studies.** Addresses current research topics pertaining to the program. Includes events conducted both on and off campus. Graded Satisfactory (S) or No Credit (NC).
- 3. Significant Research Product: The Designated Emphasis requires that 4 credits reflect a "significant research product."** It is the committee's expectation

that students will fulfill this component in at least one of the required courses, typically by writing a research paper appropriate to that discipline's journal publication or conference presentation conventions. In rare cases in which the research component has not otherwise been met, a student may undertake MCS 280 for 4 units in order to produce a research paper of approximately 25 pages.

All requirements for the Designated Emphasis must be satisfied before a student advances to candidacy in their Ph.D. field; a minimum GPA of 3.0 is required for the award of the Designated Emphasis.

Major

The mission of the interdepartmental Undergraduate Program in Plant Biology is to provide students with a solid background in modern principles and research practices of basic Plant Biology and in their area of specialization.

Courses prerequisite to the major, courses used to satisfy major requirements, and the 11 units (for B.S. degree) related to the major must be taken for letter grades. Students may elect to take other courses on a Satisfactory (S)/No Credit (NC) basis. Refer to the Academic Regulations section of this catalog for additional information on "S/NC" grading.

Information about this program is available on the CNAS UAAC website at cnasstudent.ucr.edu.

Transfer Students

Students planning to transfer to UCR with a major in Plant Biology must have a minimum GPA of 2.7 in transferable college courses and "C" or higher grades in a year sequence of general chemistry and in courses equivalent to our BIOL 005A, BIOL 005B. We also recommend that transfer students complete a year of college calculus before admission. Exceptions may be granted by the faculty advisor.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The major requirements for the B.S. and B.A. degrees in Plant Biology are as follows:

1. Life Sciences core requirements (69-73 units)

Students must complete all required courses with a grade of "C-" or better and with a cumulative GPA in the core courses of at least 2.0. Grades of "D" or "F" in two core courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.

- BIOL 005A, BIOL 005A or BIOL 020, BIOL 005B, BIOL 005C
- CHEM 001A, CHEM 011A, CHEM 001B, CHEM 011B, CHEM 001C, CHEM 011C
- CHEM 008A and CHEM 08LA or CHEM 008HA and CHEM 008HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 008HB and CHEM 008HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM 008HC and CHEM 08HLC or CHEM 12C
- MATH 007A or MATH 009A, MATH 007B or MATH 009B (MATH 009C recommended)
- PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, PHYS 02LC
- STAT 100A
- BCH 100 or BCH 110A (BCH 110A is strongly recommended)

2. Upper-division requirements (36 units for the B.S., 31 units for the B.A.)

A GPA of at least 2.0 in upper-division courses taken in the field of the major is a graduation requirement. A student is subject to discontinuation from the major whenever the GPA in upper-division course work is below 2.0. Students finding themselves in this circumstance must meet with an advisor.

- BIOL 102
- BPSC 104/BIOL 104
- BIOL 132/BPSC 132, BIOL 143/BPSC 143, BPSC 133
- For the B.S. only: Two (2) units of BPSC 195H, BPSC 197, BPSC 198I, or BPSC 199

e) BPSC 193 with a grade of C- or better

f) **For the B.S.** At least 11 additional units from one of the four areas of specialization (consult with a faculty advisor). Students may apply a maximum of 6 units of BPSC 190 and/or BPSC 195H and/or BPSC 197 and/or BPSC 198I and/or BPSC 199.

For the B.A. At least 8 additional units from one of the four areas of specialization (consult with a faculty advisor).

Note: Students planning a B.A. degree should schedule the required language courses in place of a series of electives.

Areas of Specialization

Individual student career goals may be achieved by selecting an area of specialization within the diverse disciplines of botany and plant sciences. Adjustments within these programs can be made to accommodate students' interests. Students must consult with a faculty advisor to clarify educational goals and to plan a program of study.

1. Plant Cellular, Molecular, and Developmental Biology

- BPSC 135
- Additional units from the following to meet either the B.S. or B.A. requirement: BCH 102, BCH 110B, BCH 110C or BIOL 107A, BCH 153/BIOL 153/BPSC 153, BCH 162, BCH 183/BPSC 183, BIOL 107B, BIOL 113, BIOL 114, BIOL 121/MCBL 121, BIOL 121L/MCBL 121L, BIOL 123/MCBL 123/PLPA 123, BIOL 155/BPSC 155, BIOL 168, BPSC 138/BIOL 138, BPSC 185, CBNS 101, CBNS 108

2. Plant Genetics, Breeding, and Biotechnology

- BPSC 150
- Additional units from the following to meet either the B.S. or B.A. requirement: BCH 153/BIOL 153/BPSC 153, BIOL 105, BIOL 107A, BIOL 107B, BIOL 108, BIOL 119, BIOL 148/BPSC 148, BIOL 155/BPSC 155, BPSC 135, BPSC 158, BPSC 185, CBNS 108, STAT 100B

3. Ecology, Evolution, and Systematics

- BPSC 146
- Additional units from the following to meet either the B.S. or B.A. requirement: ANTH 170/BPSC 170, BIOL 105, BIOL 108, BIOL 112/BPSC 112/ENTM 112, BIOL 116, BIOL 116L, BIOL 138/BPSC 138, BIOL 165/BPSC 165, BPSC 134/ENSC 134, BPSC 158, BPSC 166, BPSC 185, ENSC 100, GEO 151, GEO 153, GEO 169

4. Plant Pathology, Nematology, and Pest Management

- BIOL 120/MCBL 120/PLPA 120
- Additional units from the following to meet either the B.S. or B.A. requirement: BCH 183/BPSC 183, BIOL 121/MCBL 121, BIOL 121L/MCBL 121L, BIOL 124/MCBL 124, BPSC 146, BPSC 150, BPSC 158, BPSC 166, ENSC 134/BPSC 134, ENTM 100/BIOL 100, ENTM

109, ENTM 124, ENTM 127/BIOL 127, ENTM 129, ENTM 129L, ENSC 100, ENSC 120/NEM 120, NEM 159/BIOL 159, PLPA 120L/BIOL 120L/MCBL 120L, PLPA 123/BIOL 123/MCBL 123, PLPA 134/BIOL 134, PLPA 134L/BIOL 134L, ENSC 104

5. Individualized specialization

For students who wish to pursue cross-disciplinary education in plant biology. Course selection can be individualized, but needs to be approved by faculty advisor.

Minor

The minor in Plant Biology allows students majoring in other departments to obtain in-depth training in Plant Biology.

Requirements for the minor in Plant Biology are as follows:

1. **BIOL 104/BPSC 104 (4 units)**
2. **One course (4–5 units) from the following:**
BIOL 132/BPSC 132, BIOL 138/BPSC 138, BIOL 143/BPSC 143, BPSC 133
3. **12 to 20 units from the following:**
ANTH 170/BPSC 170, BCH 153/BIOL 153/BPSC 153, BCH 183/BPSC 183, BIOL 132/BPSC 132, BIOL 138/BPSC 138, BIOL 143/BPSC 143, BIOL 148/BPSC 148, BIOL 155/BPSC 155, BIOL 165/BPSC 165, BPSC 133, BPSC 134/ENSC 134, BPSC 135, BPSC 146, BPSC 150, BPSC 158, BPSC 166, BPSC 190, BPSC 195H, BPSC 197, BPSC 198-I, BPSC 199, PLPA 120/BIOL 120/MCBL 120

Note: No more than 4 units of BPSC 190–199 may be used to fulfill this requirement. The course used to fulfill the requirement in 2 cannot also be used to fulfill the requirement in 3.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Department of Botany and Plant Sciences offers programs leading to the M.S. and Ph.D. degrees in Plant Biology. Research in these programs can focus on basic and/or applied questions.

Admission

Applicants who have a baccalaureate degree and who satisfy the general requirements of the university listed in the Graduate Studies section of this catalog are considered for admission to graduate status. Students applying to the M.S. and Ph.D. program must submit GRE General Test scores (verbal, quantitative, and analytical).

Regardless of the area of their major for the baccalaureate degree, students must have had, or complete soon after entering graduate school the following:

1. A year of course work in general biology
2. A year of course work in general chemistry
3. A course in genetics
4. A course in biochemistry or ecology
5. A course in calculus
6. Two courses in physics and/or statistics

Credit from these courses does not count toward the graduate degree.

Immediately after being admitted, each student should identify a faculty advisor and consult with that advisor or the graduate advisor regarding educational goals; scheduling initial course work and possible lab rotations; and forming a guidance committee. Further guidance on these matters is provided in the Botany and Plant Sciences Graduate Student Handbook.

Master's Degree

The Department of Botany and Plant Sciences offers programs leading to the M.S. degree in Plant Biology.

The master's degree may be earned under Plan I (Thesis) or Plan II (Comprehensive Examination). Students must meet all general requirements of the Graduate Division. The detailed course program is determined by the guidance committee after considering the specific interests of the student. Department requirements are as follows:

Plan I (Thesis)

1. **Three courses from Section I are required.**
Students who have taken courses comparable to those in Section I during their baccalaureate training may have a portion or all of this section waived. Recommendations for waivers should specify alternative courses and should be sent to the department educational advisory committee for approval. In such instances, however, it is expected that their programs include increased units in courses from Sections II, III, and/or IV.
2. **Two courses (6 units) from Section II are required.** In fulfilling the Section II requirement, students may use no more than one course cross-listed by Botany and Plant Sciences and another program. If such a cross-listed course is used toward fulfilling the Section II requirement, the same course may not be used toward fulfilling the Section I or III requirements. No more than four units may be in professional development courses.
3. **At least 6 units from Section III must be taken.**
4. **Preparation of a thesis: Not more than 12 units from Section V (299 units) may apply toward the degree.** If the student takes research courses (290/297) from Section IV, not more than 6 units may be applied toward the degree. A total of 12 units of 297/299 may be used towards the degree.

Seminar Requirement

All full-time students must enroll in the BPSC 250 seminar during each quarter in which it is offered. Part-time students must take one BPSC 250 seminar for every 12 units of courses. All students must present at least one BPSC 250 seminar and complete at least one quarter of BPSC 240 (or approved similar equivalent that involves substantial student presentations). Students are encouraged to take BPSC 200A and BPSC 200B to substitute for one BPSC 240.

Plan II (Comprehensive Examination)

1. **Three courses from Section I are**

required. Students who have taken courses comparable to those in Section I during their baccalaureate training may have a portion or all of this section waived. In such instances, however, it is expected that their programs include increased units in courses from Section II and/or III. Recommendations for waivers should specify alternative courses and should be sent to the educational advisory committee for approval.

2. **Two courses (6 units) from Section II are required.** In fulfilling the Section II requirement, students may use no more than one course cross-listed by Botany and Plant Sciences and another program. If such a cross-listed course is used toward fulfilling the Section II requirement, the same course may not be used toward fulfilling the Section I or III requirements. No more than 4 units may be in professional development courses.
3. **At least 3 courses (11–12 units) from Section III are required.**
4. **Students must complete at least 6 units from Section IV for a research project (297) or literature review (290),** which should be described in a report to be submitted for evaluation by the comprehensive examination committee.
5. **Comprehensive written and oral examinations**

Seminar Requirement

All full-time students must enroll in the BPSC 250 seminar during each quarter in which it is offered. Part-time students must take one BPSC 250 seminar for every 12 units of courses. All students must present at least one BPSC 250 seminar and complete at least one quarter of BPSC 240 (or approved similar equivalent that involves substantial student presentations). Students are encouraged to take BPSC 200A and BPSC 200B.

Courses available for fulfilling the requirement for the M.S. degree in Plant Biology:

Section I — Upper-division undergraduate courses: ANTH 170/BPSC 170, BCH 153/BIOL 153/BPSC 153, BCH 183/BPSC 183, BIOL 104/BPSC 104, BIOL 112/BPSC 112/ENTM 112, BIOL 120/MCBL 120/PLPA 120, BIOL 132/BPSC 132, BIOL 134/PLPA 134, BIOL 138/BPSC 138, BIOL 143/BPSC 143, BIOL 148/BPSC 148, BIOL 155/BPSC 155, BIOL 165/BPSC 165, BPSC 133, BPSC 134/ENSC 134/, BPSC 135, BPSC 146, BPSC 148, BPSC 150, BPSC 158, BPSC 166

Section II — Graduate and upper-division undergraduate courses in related departments or programs and professional development courses (i.e., BPSC 200A - BPSC 200B). Applicable courses are approved by the Graduate Educational Advisory Committee. A minimum of 6 units of course work is required. No more than 4 units may be from professional development classes.

Section III — BCH 205/BPSC 205/CMDB 205/GEN 205/MCBL 205/PLPA 205, BCH 231/BPSC 231, BPSC 201 (E-Z) (for a maximum of 2 units), BPSC 210, BPSC 221, BPSC 222,

BPSC 225 (E-Z), BPSC 230, BPSC 231, BPSC 232, BPSC 234, BPSC 237, BPSC 239, BPSC 240 (only if taken in addition to the required seminar units; see seminar requirement), BPSC 243, BPSC 245, BPSC 246, and BPSC 247

Section IV — Research courses: BPSC 290 and BPSC 297

Section V — Thesis research: BPSC 299, Thesis for Plan I

Normative Time to Degree 7 quarters

Doctoral Degree

The Department of Botany and Plant Sciences offers programs leading to the Ph.D. degree in Plant Biology.

The student must meet the general requirements of the Graduate Division.

Admission

Either prior to entering the graduate program or before advancement to candidacy, students must have completed the equivalent of BPSC 104 and one other course from the core plant biology courses (BIOL 107A, BPSC 132, BPSC 135, BPSC 138, BPSC 143, BPSC 146). Course requirements for each student are determined by individual guidance committees and by the educational advisory committee. No later than the second quarter in residence, students meet with a guidance committee to (1) determine a course program to be submitted to the educational advisory committee, and (2) choose a major area of specialization and two minor areas.

Course Work

Guidance committees and students should design individual course programs that meet the specific needs of the student and the requirements of the Ph.D. program. Course programs should prepare students for the qualifying examination and dissertation research. All first-year students must enroll in BPSC 200A and 200B during their first Fall and Spring quarters. Students must take a minimum of 3 graduate-level courses (11-12 units) relevant to the specialization. Graduate courses taken previously may be considered towards fulfilling this requirement. Students' course programs must be approved by the educational advisory committee. At the time of submission of course programs to the educational advisory committee, the area of specialization and two minor areas to be covered on the qualifying examination should be specified. Students may petition to change the course program, area of specialization, or minor areas at any time.

Students entering the Plant Biology Ph.D. program have four choices, as listed below. Students with a general interest in plant biology and/or evolution are encouraged to choose the first.

Ph.D. in Plant Biology

Students who choose to obtain a Ph.D. in Plant Biology without one of the following concentrations are encouraged to – with the advice and consent of their Major Professor and Guidance Committee – select a set of graduate-level courses (11-12 U) that is specifically tailored to their individual research interests and career objectives.

Students can also choose from one of three concentrations:

Ph.D. in Plant Biology (Concentration in Plant Cell, Molecular, and Developmental Biology)

To earn the concentration in Plant Cell, Molecular, and Developmental Biology (appears on the transcript only), students must complete BPSC 231, BPSC 232, and BPSC 237. In addition, the required BPSC 240 course must be on a topic related to the concentration.

Ph.D. in Plant Biology (Concentration in Plant Ecology)

To earn the concentration in Plant Ecology (appears on the transcript only), students must complete BPSC 245, and two additional courses (7-8 units) from the following list: EEOB 211, EEOB 212, EEOB 217, EEOB 230, BPSC 225J, BPSC 243, BPSC 246, BPSC 247, ENTM 241, ENSC 218, ENSC 232, GEO 260, GEO 268 and BPSC 246. In addition, the required BPSC 240 course must be on a topic related to the concentration.

Ph.D. in Plant Biology (Concentration in Plant Genetics)

To earn the concentration in Plant Genetics (appears on the transcript only), students must complete three graduate-level courses (11-12 units) relating to Genetics. Required courses must include two courses from the following list: BPSC 221, BPSC 222, BPSC 225K, BPSC 231, BPSC 234, EEOB 214, BIOL 221/MCBL 221/PLPA 226, GEN 240A. The additional units can be chosen in an area that supports the concentration. In addition, the required BPSC 240 course must be on a topic related to the concentration.

Written and Oral Qualifying Examinations

Advancement to candidacy depends on the student passing written and oral qualifying examinations. The qualifying examination covers the student's area of specialization and two minor areas. Granting of the degree is contingent upon acceptance of the dissertation by the candidate's dissertation committee and satisfactory oral defense of the dissertation.

Seminar Requirement

All candidates must enroll in the BPSC 250 seminar during each quarter in which it is offered until advancement to candidacy. After this time, PhD candidates must enroll in BPSC 250 seminar two quarters per year until conferral of the degree. The dissertation defense is normally presented in the BPSC 250 seminar series; however, if necessary, a special seminar may be scheduled for the defense. Also, students must present at least one BPSC 250 seminar in addition to the defense of the dissertation. All students must complete at least one quarter of BPSC 240 (or approved equivalent that involves substantial student presentations) during the Ph.D. program.

Professional Development Training

Ph.D. graduate students must enroll in BPSC 200A and BPSC 200B to fulfill their professional development training requirement.

Foreign Language Requirement

 None

Teaching Requirement

Students must obtain at least one quarter of teaching experience.

Normative Time to Degree 15 quarters

Normative Time to Candidacy 2 years

Lower-Division Courses

BPSC 011 Plants and Human Affairs 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction for non-science and non-Botany majors to the importance of plants and plant products in the shaping of human affairs and civilization. Covers the origin and practice of agriculture; the utilization of plant products; the latest agricultural advances, including genetic engineering; and the current agricultural and social issues. Plants and plant products are examined during class demonstrations and exercises.

BPSC 021 California's Cornucopia: Food From the Field to Your Table 5 Lecture, 3 hours; discussion, 1 hour; outside activities, 30 hours per quarter. Prerequisite(s): none Examines California's diverse agricultural products. Addresses related contemporary issues such as crop improvement by biotechnology, climate change, pollution, resource use, and nutrition. Also examines how the interplay of geography, history, and culture shapes the cuisine of a region.

BPSC 031 Spring Wildflowers 4 Lecture, 3 hours; laboratory, 3 hours; one Saturday field trip. Prerequisite(s): none General approach to the study of vegetative and floral features of plants as a means of identification and botanical classification of major plant families in Southern California. Secondary emphasis on the field biology of flowering plants.

BPSC 050 The Evidence For

Evolution 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Introduces and explores the extensive evidence supporting evolution as the driver of biological diversity. Designed for non-science majors and/or those with limited prior knowledge about biology. Includes the scientific method, paleontology, natural selection, genetics, speciation, and the importance of sex. Addresses the broader need for scientific literacy in society. Cross-listed with ENTM 050.

BPSC 097 Lower-Division Research 1 to

4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor. Involves special research projects in plant biology performed under faculty supervision. Requires a final written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

Upper-Division Courses

BPSC 104 Foundations of Plant

Biology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005C. A study of the plant world from cells to ecosystems. Examines the structure and function of organisms from the major plant groups and their role in the biosphere. The laboratory explores the unique properties of plants. Cross-listed with BIOL 104.

BPSC 109 Epigenetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102. Introduction to mechanisms that cause a heritable change in phenotype without a change in the genetic code. Covers DNA modifications, histone modifications, and noncoding RNAs that influence the expression, maintenance,

and inheritance of traits. Discusses impacts of epigenetics on multicellular life, such as learning, memory, disease, and crosstalk with environments.

BPSC 112 Systematics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C or equivalent. Principles and philosophy of classification. Topics include phylogenetic and phenetic methods, species concepts, taxonomic characters, evolution, hierarchy of categories, and nomenclature. Cross-listed with BIOL 112, and ENTM 112.

BPSC 132 Plant Anatomy 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A and BIOL 005B; BPSC 104 or BIOL 104; or consent of instructor. Functional and developmental aspects of plant cell, tissue, and organ structure. Covers all aspects of the flowering plant life cycle from germination to pollination and fruit and seed development. Cross-listed with BIOL 132.

BPSC 133 Taxonomy of Flowering

Plants 5 Lecture, 3 hours; laboratory, 3 hours; three 1-day Saturday field trips. Prerequisite(s): BIOL 005C. Introduces the principles and methods of identifying, naming, and classifying flowering plants. Surveys selected flowering plant families in California and shows their interrelationships.

BPSC 134 Soil Conditions and Plant

Growth 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 104/BPSC 104 or ENSC 100; or consent of instructor. A study of the chemical, physical, and biological properties of soils and their influence on plant growth and development. Topics include soil-plant water relations; fundamentals of plant mineral nutrition; soil nutrient pools and cycles; soil acidity, alkalinity, salinity, and sodicity; root symbioses; and rhizosphere processes. Cross-listed with ENSC 134.

BPSC 135 Plant Cell Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; BCH 100 or BCH 110A; or consent of instructor. Explores concepts of dynamic plant cell structures and functions as revealed by modern technologies such as genetic manipulation and live-imaging of cellular structures and molecules.

BPSC 138 Plant Developmental

Morphology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently), BIOL 005B, BIOL 005C, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC; or consent of instructor. Introduces the key areas of research in plant morphology and developmental biology. Emphasizes flowering plants (angiosperms). Cross-listed with BIOL 138.

BPSC 143 Plant Physiology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently), BIOL 104/BPSC 104; or consent

of instructor. A survey of the fundamental principles of plant physiology including photosynthesis, respiration, water relations, mineral nutrition, growth, morphogenesis, plant hormones, dormancy, and senescence. Cross-listed with BIOL 143.

BPSC 146 Plant Ecology 4 Lecture, 3 hours; laboratory, 18 hours per quarter; field trip, 12 hours per quarter. Prerequisite(s): BIOL 104/BPSC 104 or BIOL 116; STAT 100A; or consent of instructor. A study of the fundamentals of plant ecology. Emphasizes community ecology, environment, life histories, population dynamics, species interactions, succession, ecosystem and landscape ecology, and plant conservation ecology.

BPSC 148 Quantitative Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA, BIOL 005B, BIOL 005C, BIOL 102, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, STAT 100B; or consent of instructor. Examines approaches to studying the genetic basis of polygenic, metric traits. Includes types of gene action, partitioning of variance, response to selection, and inferring the number and location of quantitative trait loci. Cross-listed with BIOL 148.

BPSC 150 Genes, Selection, and

Populations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102 with a grade of "C-" or better, upper-division standing; or consent of instructor. Considers the conscious manipulation of allelic frequencies in populations as the basis for domestication of crop and animal species. Examines the genetic basis and standard strategies for the improvement of targeted characteristics in populations of plants and animals through selection and introgression of specific genes and gene constructs.

BPSC 155 Chromosomes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently); or consent of instructor. An examination of the structure, function, and behavior of eukaryotic chromosomes. Cross-listed with BIOL 155.

BPSC 158 Subtropical and Tropical

Horticulture 4 Lecture, 4 hours; occasional field trips. Prerequisite(s): BIOL 005C or BIOL 104/BPSC 104 or consent of instructor. Studies the important subtropical and tropical crops of the world, emphasizing fruits, including citrus and avocado, with special reference to their botany, germplasm resources, climatic adaptation, and culture.

BPSC 165 Restoration Ecology 4 Lecture, 3 hours; two 1-day field trips; three half-day field trips. Prerequisite(s): BIOL 104/BPSC 104 or BIOL 116 or ENSC 100; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB

and CHEM 08HLB; STAT 100A (STAT 100A may be taken concurrently); or consent of instructor. BIOL 102 and CHEM 008C are recommended. An examination of the basic ecological principles related to land restoration. Topics include enhanced succession, plant establishment, plant adaptations, ecotypes, weed colonization and competition, nutrient cycling, functions and reintroduction of soil microorganisms, restoration for wildlife, and the determination of successful restoration. Includes field trips to restored sites. Cross-listed with BIOL 165.

BPSC 166 Plant Physiological

Ecology 4 Lecture, 3 hours; workshop, 1 hour. Prerequisite(s): BIOL 005C or consent of instructor; university-level courses in mathematics, physics, and chemistry are recommended. Topics include plant responses to light, temperature, evaporative demand, and limiting soil conditions. Explores photosynthesis, plant-water relations, and plant-temperature relations. Gives attention to plant adaptation to climates with varying aridity and temperature extremes.

BPSC 170 Ethnobotany 4 Lecture, 2 hours; seminar, 1 hour; discussion, 1 hour. Prerequisite(s): BIOL 104/BPSC 104 or consent of instructor. Introduces students to ethnobotanical research by reviewing selected ethnobotanical studies. Topics covered by lectures include fundamental principles of ethnobotany, the search for new medicines and other products made from plants, the role of humans in plant evolution, and the impact of plants on human cultures. Discussions focus on the past and present role of humans in plant conservation and the search for sustainable management practices in agriculture and forestry. Seminars by invited guests and enrolled students present selected topics in ethnobotany. Cross-listed with ANTH 170.

BPSC 183 Plant Biochemistry and

Pharmacology of Plant Metabolites 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA, BCH 110B or BCH 110HB; or BCH 100; or consent of instructor. Explores plant biochemistry and the significance of plant metabolites in medicine and pharmacology. Focuses on biotechnology, medicinal plants, and plant-derived drugs as well as the biochemical and pharmacological mode-of-action of secondary plant metabolites. Also addresses plant-specific biochemical processes such as photosynthesis. Cross-listed with BCH 183.

BPSC 185 Molecular Evolution 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 105 or BIOL 107A or consent of instructor; BIOL 108 is recommended. Explores the evolution of genes, proteins, and genomes at the molecular level. Focuses on the processes that drive molecular evolutionary change. Covers basic methodological tools for comparative and phylogenetic analyses of molecular data from an evolutionary perspective.

BPSC 190 Special Studies 1 to 5 variable hours. Library, laboratory or field work designed to meet special curricular needs. A written proposal signed by the supervising faculty member must be approved by the major advisor and the Department Vice Chair. A written report

must be filed. Course is repeatable, but total credit toward graduation may not exceed 6 units.

BPSC 191 Seminar in Agricultural Careers in the 21st Century 1

Seminar, 1 hour.
Prerequisite(s): sophomore or junior standing; or consent of instructor. Introduces students to diverse career options in agriculture and biotechnology through seminars and interviews with industry, government, and academic professionals. Develops skillsets for finding and acquiring jobs in agricultural and biotechnology. Graded Satisfactory (S) or No Credit (NC)

BPSC 193 Senior Seminar 2 Seminar, 1 hour; lecture, 1 hour. Prerequisite(s): senior standing in Plant Biology. Emphasizes thinking across hierarchical levels and understanding structure-function relationships in plant biology. Includes lectures by instructors and presentation of classical or landmark papers by students. Satisfactory (S) or No Credit (NC) grading is not available.

BPSC 195H Senior Honors Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): upper division standing; admission to the University Honors Program or consent of instructor. Directed research and completion of a senior Honors thesis under the supervision of a faculty member. Course is repeatable to a maximum of 12 units.

BPSC 197 Research For Undergraduates 1 to 4 Research, 3 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor. Individual research conducted under the direction of a Botany and Plant Sciences faculty member. A written proposal must be approved by the supervising faculty member and undergraduate advisor. A written report must be filed with the supervising faculty member at the end of the quarter. Course is repeatable.

BPSC 198I Individual Internship in Botany and Plant Sciences 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor. An off-campus internship related to plant biology. The student conducts the internship in the public or private sector but is jointly supervised by an off-campus sponsor and a faculty member in Botany and Plant Sciences. Requires an initial written proposal and a final written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

BPSC 199 Senior Research 2 to 4 Laboratory, 6 to 12 hours. Prerequisite(s): senior status; a GPA of 3.2 or better in upper-division courses in Botany/Plant Science and Biology; or consent of instructor. Individual research on a problem relating to Botany/Plant Science. A written proposal signed by the supervising faculty member must be approved by the major advisor and the Department Vice Chair. A written report must be filed with the supervising faculty member. Course is repeatable, but total credit toward graduation may not exceed 9 units.

Graduate Courses

BPSC 200A Plant Biology Core 2 Lecture, 1 hour; practicum, 3 hours. Prerequisite(s): graduate standing in Plant Biology or consent of instructor. Explores plant biology research

approaches. Emphasizes critical thinking and advanced planning of hypothesis testing, as well as experimental/descriptive/theoretical caveats, trade-offs, and options. Presents topics in a case-study approach. Also addresses professional development.

BPSC 200B Plant Biology Core 2 Lecture, 1 hour; practicum, 3 hours. Prerequisite(s): BPSC 200A. Builds on material covered in BPSC 200A. Focuses on creating complete grant proposals based upon the guidelines of an actual funding source. Presents topics in a case-study approach. Includes peer review of completed proposals.

BPSC 201 (E-Z) Plant Molecular Biology 1 to 2 Laboratory, 3 hours. Prerequisite(s): graduate standing. Explores the theory and principles of instruments and laboratory techniques applicable to research in the plant sciences. Experiments provide experience in the use of laboratory instruments and techniques including applications and limitations. E. Plant Molecular Biology; F. Applied Ecological Modelg Lab; G. Plant Systematics; I. Plant Microscopy; J. Plant Physiology; K. Plant Genetics; M. Plant Cell Biology; N. Plant Cytogenetics; Course is repeatable to a maximum of units.

BPSC 205 Signal Transduction Pathways in Microbes and Plants 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in the biological sciences, BIOL 107A or BIOL 113 or BIOL 114 or CBNS 101; or consent of instructor. Advanced topics in signal transduction pathways that regulate growth and development in plants and prokaryotic and eukaryotic microbes. Areas covered include two-component regulatory systems; quorum sensing; signaling via small and heterotrimeric G proteins; mitogen-activated protein kinase cascades; cAMP signaling; photoreceptors; plant hormone signaling; responses to low-oxygen stress; calcium signaling; and plant pathogenesis. Cross-listed with CMDB 205, BCH 205, GEN 205, MCBL 205, and PLPA 205.

BPSC 210 Methods in Arabidopsis Research 4 Lecture, 1 hour; discussion, 1 hour; laboratory, 6 hours. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; BIOL 102; consent of instructor. A study of modern techniques used in Arabidopsis research. Topics include plant growth conditions, pest control, genetic crosses, chemical and insertional mutagenesis, genetic mapping techniques, nucleic acid isolation and manipulation, transformation, and internet resources.

BPSC 221 Advanced Plant Breeding 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 148/BPSC 148 or consent of instructor; BPSC 150. Advanced treatment of plant breeding theory and practice including development and use of information on inheritance of traits; choice of breeding plans; breeding for yield, quality, and disease and stress resistance; and use of biotechnology.

BPSC 222 Origins of Agriculture and Crop Evolution 3 Lecture, 3 hours. Prerequisite(s): BIOL 102, BIOL 104/BPSC 104; or consent of instructor. Analysis of origins of agriculture in the Near East, China, the New World, and Africa. Survey of domestication and evolution of major crop plants and animals.

BPSC 225 (E-Z) Advanced Topics in Plant

Biology 2 Lecture, 2 hours. Prerequisite(s): graduate standing. An in-depth examination of selected topics in plant biology. E. Agricultural Plant Biology; F. Applied Ecological Modeling; G. Plant Development; I. Plant Evolution & Systematics; J. Ecological Statistics; K. Molec Basis Crop Domestication; M. Plant Molecular Biology; N. Plant Biochemistry & Physiology; Course is repeatable to a maximum of units.

BPSC 230 Molecular Plant-Microbial

Interactions 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 120/ MCBL 120/PLPA 120, or equivalents. A study of the physiology of host-pathogen interactions with emphasis on the metabolism of diseased plants, nature of pathogenicity, and defense mechanisms in plants. Cross-listed with PLPA 230, CMDB 230, and GEN 230.

BPSC 231 The Plant Genome 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 107A; or BCH 110A or BCH 110HA, BCH 110B or BCH 110HB, BCH 110C or BCH 110HC; or consent of instructor. Gives students an appreciation for the structure of the plant nuclear, chloroplast, and mitochondrial genomes. Gene structure, regulation of gene expression, transposons, and methods of gene introduction are also emphasized. Cross-listed with BCH 231.

BPSC 232 Plant Development 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; BIOL 102; BIOL 104/BPSC 104; or consent of instructor. An examination of plant development, with emphasis on the genetic mechanisms used in patterning plant forms. Topics are taken from current literature and focus on molecular and cellular mechanisms.

BPSC 234 Statistical Genomics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102, STAT 231B; or consent of instructor. Examines statistical methods of genome analysis. Topics include screening for genetic markers, linkage analysis, linkage disequilibrium, and mapping genes for complex diseases and quantitative traits. Covers statistical techniques including analysis of least squares and maximum likelihood, Bayesian analysis, and Markov chain Monte Carlo algorithm. Cross-listed with GEN 234.

BPSC 237 Plant Cell Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 107A or BIOL 143/BPSC 143 or BCH 100 or CBNS 101 or their equivalents, or consent of instructor. Studies the structure, function, and dynamics of plant cell division, expansion, and specialization. Emphasis on aspects unique to plants including cytoskeletal and cell plate dynamics during cytokinesis; intracellular trafficking and wall-dynamics during expansion; and targeting to chloroplasts and vacuoles during specialization.

BPSC 239 Advanced Plant

Physiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 143/BPSC 143 or consent of instructor. Examines advances in plant physiology, with emphasis on carbon and nitrogen metabolism, mineral nutrition, solute transport and phloem translocation, plant growth regulators, and secondary compounds in relation

to growth and development.

BPSC 240 Special Topics in Plant

Biology 2 Seminar, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Discussion of current literature within special areas of plant science. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes.

BPSC 243 Plant Physiological

Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 143/BPSC 143; BPSC 146 or equivalent; or consent of instructor. Analyzes adaptations and responses of plants to their environment, with emphasis on the physical environment, photosynthesis, temperature and water relations, growth and allocation, and plant interactions.

BPSC 245 Advanced Plant Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C or MATH 09HC; STAT 110 or STAT 231A or equivalent; an undergraduate course in ecology; or consent of instructor. Explores the fundamental ecological concepts, theoretical developments, quantitative methods, and experimental results involved in multiscale plant ecological studies. Emphasizes plant strategies, vegetation processes, ecosystem properties, and terrestrial landscapes and their interaction with environmental change and human land use.

BPSC 246 Landscape Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 116 or BPSC 146; STAT 231A; or consent of instructor. Introduces landscape ecology both as a sub-discipline of ecology and an interdisciplinary approach for environmental research. Includes identification of spatial patterns, pattern-process relationships, and scaling. Analyzes population, community, and ecosystem dynamics in connection with landscape functioning. Evaluates landscape theory and methods for applications in species conservation, pollution, and climate changes.

BPSC 247 Ecological Theory and

Modeling 4 Lecture, 2 hours; discussion, 2 hours. Prerequisite(s): MATH 009C or MATH 09HC; STAT 110 or STAT 231B or equivalent; an undergraduate course in ecology; or consent of instructor. Explores the fundamental ecological theory and modeling methodology with emphasis on the ecosystem and landscape levels. Synthesizes current research developments in the context of their classic works.

BPSC 250 Seminar in Plant Biology 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Intensive study of selected topics in plant biology. Includes lectures by students, faculty, and invited scholars on subjects related to the principles of plant biology. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

BPSC 252 Special Topics in Botany/Plant

Science 1 Seminar, 1 hour. Prerequisite(s): graduate standing and consent of instructor. Oral presentations and intensive small-group discussion of selected topics in the area of special competence of each staff member. Course content will emphasize recent

advances in the special topic area and will vary accordingly. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BPSC 261 Seminar in Genetics, Genomics, and Bioinformatics 1

Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BCH 261, BIOL 261, ENTM 261, PLPA 261, and GEN 261.

BPSC 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): consent of instructor. Library, laboratory, or field studies conducted under the direction of a faculty member. Designed to meet specific curricular needs in areas of plant biology not covered by formal course work and outside of required directed dissertation or thesis research. Not intended to replace BPSC 297 or BPSC 299.

BPSC 291 Individual Study in Coordinated

Areas 1 to 6 Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for examinations. Up to 6 units may be taken prior to the master's degree. Up to 12 units may be taken prior to advancement to candidacy for the Ph.D. Graded Satisfactory (S) or No Credit (NC). Course is repeatable upon recommendation of the instructor.

BPSC 292 Concurrent and Advanced Studies in Botany and Plant Sciences 1 to

4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor. Elected concurrently with an appropriate undergraduate course, but on an individual basis. Devoted to one or more graduate projects based on research and criticism related to the course. Faculty guidance and evaluation is provided throughout the quarter.

BPSC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing or consent of instructor. Individual research conducted under the direction of a Botany and Plant Sciences faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

BPSC 299 Research For Thesis Or

Dissertation 1 to 12 Thesis, 3 to 36 hours. Prerequisite(s): graduate standing. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Albert O. Steffey Chair (Marketing)
Y. Peter Chung, Ph.D. (Finance)
Mohsen El-Hafsi, Ph.D. (Operations and Supply Chain Management)
Jerayr 'John' Haleblan, Ph.D. *Associate Dean and Department Chair* (Management)
Jean Helwege, Ph.D. (Finance)
Thomas Kramer, Ph.D. *Associate Dean for the Academic Undergraduate Programs* (Marketing)
Woody M. Liao, Ph.D. (Accounting)
Birendra Mishra, Ph.D. *Associate Dean for the Academic Graduate Programs* (Accounting)
Theodore Mock, Ph.D. *Distinguished Professor* (Accounting)
Ashutosh Prasad, Ph.D. (Marketing)
Jorge Silva-Risso, Ph.D. (Marketing)
Richard Smith, Ph.D. *Philip L. Boyd Chair* (Finance)
Yunzeng Wang, Ph.D. *Dean's Distinguished Scholar* (Operations and Supply Chain Management)
Rami Zwick, Ph.D. (Marketing)

Professors Emeriti

Bajis M. Dodin, Ph.D. (Operations and Supply Chain Management)
David Mayers, Ph.D. (Finance)
Kathleen Montgomery, Ph.D. *Distinguished Professor* (Management)
Michael Moore, Ph.D. (Accounting)
Amnon Rapoport, Ph.D. *Distinguished Professor* (Management)
Waymond Rodgers, Ph.D. (Accounting and Information Systems)
David Stewart, Ph.D. *Distinguished Professor* (Marketing)

Associate Professors

Hai Che, Ph.D. (Marketing)
Long Gao, Ph.D. (Operations and Supply Chain Management)
Elodie Goodman, Ph.D. (Operations and Supply Chain Management)
Michael Haselhuhn, Ph.D. (Management)
Hyun 'Shana' Hong, Ph.D. (Accounting)
Yawen Jiao, Ph.D. (Finance)
Boris Maciejovsky, Ph.D. (Management)
Asish Sood, Ph.D. (Marketing)
Danko Turcic, Ph.D. (Operations and Supply Chain Management)
Elaine Wong, Ph.D. (Management)
Ivy Zhang, Ph.D. (Accounting and Information System)

Associate Professor Emeritus

Lawrence Zahn, Ph.D. (Management and Marketing)

Assistant Professors

Alexander Barinov, Ph.D. (Finance)
 Mengmeng Dong, Ph.D. (Finance)
 Mingyu (Max) Joo, Ph.D. (Marketing)
 Ivalina Kalcheva, Ph.D. (Finance)
 Kevin Li, Ph.D. (Accounting and Information Systems)
 Ye Li, Ph.D. (Management)
 Haibo Liu, Ph.D. (Management)
 Adem Orsdemir, Ph.D. (Operations and Supply Chain Management)
 Marlo Raveendran, Ph.D. (Management)
 Y. Charles Zhang, Ph.D. (Marketing)

**

Adjunct Professor

Richard Savich, Ph.D. (Accounting and Information Systems)

Assistant Professor of Teaching

Mohsen Farhadloo (Information System)
 Kyle Ingram (Management)
 Jonathan Lim (Marketing)
 Greg Richey (Finance)
 Rich Yueh (Information System)

Lecturers

Sean Jasso (Management and Marketing)
 Bruce Samuelson (Accounting and Information Systems)
 Raj Singh (Management and Marketing)
 Craig Weaver (Accounting and Information Systems)

Majors

The B.S. in Business Administration is a two-year upper-division major offered by the School of Business. Students can enroll in a Pre-Business status and are advised in CHASS during their freshman and sophomore years. The Pre-Business curriculum includes the prerequisites to the major and the college breadth requirements. After admission to the major, students are advised by the School of Business through its Undergraduate Business Programs Office located at 2340 Olmsted Hall. The B.S. degree in Business Administration is conferred by the School of Business.

The program is accredited by the AACSB International - The Association to Advance Collegiate Schools of Business.

Admission

A limited number of students are accepted into the Business Administration major, chosen according to overall GPA. Students must apply for the major when they have completed not fewer than 75 and not more than 100 quarter units of college work. Final acceptance into the major is based on completion of all prerequisites and breadth requirements within a 100-quarter-unit limit, a GPA above 2.50 in major prerequisites, and cumulative GPA of at least 2.70. (Exceptions: 1. Students who have not completed the foreign language breadth requirement may be accepted into the program, but they must complete the requirement before graduation. 2. Students should complete either ECON 102 or ECON 103 after acceptance into the program). Exceptions to the 100-quarter-unit maximum must be requested by petition.

UCR Students (excluding Pre-Business students) interested in changing major to Business Administration will be admissible to the Business Preparatory (BSPR), (which is not a major in UCR, but a holding group of transfer students

who appear to be qualified for admission into business administration, but have some deficiencies which need to be completed before admission into business administration) status only if they can complete their deficiencies in breadth and/or major prerequisites within one quarter (the first quarter after admission into Bus-Preparatory).

The same rule will apply to students transferring in from a community college or a four-year school. In the event these students fail to meet this one quarter requirement, they will not be admitted into the BSPR category, and will be advised to find another major at UCR.

Students are encouraged to participate in at least one internship during their junior or senior year. Students interested in international business are encouraged to participate in Education Abroad, which has programs affiliated with more than 150 institutions in 35 countries worldwide. For details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

Outstanding academic achievement is recognized by the awarding of the Delta Sigma Pi Scholarship Key to a graduating senior. Other awards, presented on an annual basis, include the Bank of America Business Leaders Scholarship, Deloitte and Touche Scholarship, Gordon Blunden/Provident Savings Bank Business Scholarship, and the Ernst & Young Scholarship.

Graduating seniors are also eligible for the School of Business Award for Academic and Service Excellence, and also the School of Business Concentration Area Awards, which recognizes the student with the best overall performance in each concentration area.

Each Spring, the top 10% of juniors and seniors in the Business Administration program are invited to join Beta Gamma Sigma, the only international honors society recognized by AACSB International. Membership in Beta Gamma Sigma is the highest recognition a business student anywhere in the world can receive in a business program accredited by AACSB International. New Members are recognized by an official induction ceremony led by the Dean of the School of Business in the Spring quarter.

University Requirements

See Undergraduate Studies section.

College Requirements

Students must fulfill all breadth requirements of the College of Humanities, Arts, and Social Sciences or the Intersegmental General Education Transfer Curriculum prior to transferring to the UC.

Major Requirements

The following are requirements leading to the B.S. degree in Business Administration. At least 50 percent of business course requirements must be completed at UCR.

Business Administration Major

1. Preparation for Business Administration major (8 courses [at least 32 units])

Major prerequisites (non-BUS courses may be used to satisfy breadth requirements for the School of Business):

(1)BUS 010

(2)BUS 020
 (3)ECON 002
 (4)ECON 003
 (5)CS 008
 (6)STAT 048
 (7)MATH 022
 (8)ECON 102 or ECON 103**

**should be completed once accepted into the program.

The major requirements for the B.S. in Business Administration are as follows:

2. Upper-division major requirements (18 courses [at least 72 units])

Core courses (at least 10 courses [at least 40 units]):

BUS 100W, BUS 101, BUS 102, BUS 103, BUS 104/STAT 104, BUS 105, BUS 106/ECON 134, BUS 107, BUS 108, BUS 109

Concentration (At least 20 units): Students in the Business Administration major (BSAD) will be required to declare a concentration at least three quarters prior to graduation, provided they be allowed to change their concentration, if justified. The Office of Undergraduate Business Programs will manage the process. Students can declare one concentration.

Choose five courses from one of the concentrations listed below. Courses completed to meet core requirements may not be used to meet concentration requirements.

Accounting and Auditing: BUS 154, BUS 160/ECON 160, BUS 161, BUS 162/ECON 162, BUS 165A, BUS 165B, BUS 165C, BUS 166, BUS 167, BUS 168A, BUS 168B, BUS 169A, BUS 169B, BUS 170

Business Analytics: BUS 123, BUS 124, BUS 125, BUS 130, and at least one of the following: BUS 119, BUS 129, BUS 136, BUS 161.

Finance: BUS 132 and at least four of the following: BUS 131, BUS 134, BUS 135, BUS 136, BUS 137, BUS 138, BUS 139, BUS 140E, BUS 141, BUS 147.

Information Systems: BUS 110, BUS 125, BUS 128, BUS 171, BUS 172, BUS 173, BUS 174, BUS 175, BUS 179.

Management: BUS 121, BUS 143, BUS 144, BUS 145, BUS 146, BUS 147, BUS 148, BUS 149, BUS 150, BUS 154, BUS 155, BUS 156, BUS 157, ANTH 105/BUS 158, BUS 163, BUS 173

Marketing: BUS 111, BUS 112, BUS 113, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119, BUS 151, BUS 152, BUS 159, BUS 164

Operations and Supply Chain Management: BUS 122, BUS 123, BUS 124, BUS 125, BUS 126, BUS 127/STAT 127, BUS 128, BUS 129, BUS 130, BUS 173

An additional 3 courses (at least 12 units) of Business Administration elective courses from BUS 110-BUS 199H, excluding BUS 190.

Courses completed to satisfy the five-course concentration requirement may not be used to meet this requirement. Related courses outside of Business Administration may be approved to

satisfy their requirement with the approval of the Associate Dean or Director of Undergraduate Student Affairs of School of Business.

Minor

Students declaring a minor in Business Administration will petition the Undergraduate Business Programs Office at least three quarters prior to graduation. That office will publicize the deadlines each quarter to all colleges and major departments.

Prerequisites for the minor in Business Administration are as follows:

Three lower-division courses (14 units) (must be completed with no grade lower than "C-"): BUS 020, ECON 003, STAT 048

Additionally, students need to complete four upper-division courses as follows, depending on the minor of their choice, the general business minor or any of the eight functional business minors (16 units):

General Business:

Four core from the following list: BUS 103, BUS 104/STAT104, BUS106/ECON134, BUS 107, BUS 108

Accounting:

- a) Required: BUS 108, BUS 165A
- b) Two additional upper-division Business Administration accounting courses selected from the following: BUS 161, BUS 165B, BUS 165C, BUS 168A, BUS 168B, BUS 169A, BUS 169B, BUS 170

Business Analytics:

- a) Required: BUS 123, BUS 124, BUS 125
One additional upper- division business analytics course selected from the following: BUS 115, BUS 119, BUS127, BUS 129, BUS 130, BUS 136, BUS 137, BUS 173

Finance:

- a) Required: BUS 106, BUS 132
- b) Two additional upper-division Business Administration finance courses selected from the following: BUS 131, BUS 134 (highly recommended), BUS 135, BUS 136 (highly recommended), BUS 137, BUS 138, BUS 139, BUS 140E, BUS 141, BUS 147.

Information Systems:

- a) Required: BUS 101
- b) Three additional upper-division Business Administration information systems courses selected from the following: BUS 110, BUS 125, BUS 128, BUS 166, BUS 171, BUS 172, BUS 173, BUS 174, BUS 175, BUS179

Management: Organizational Behavior/Human Resources:

- a) Required: BUS 107, BUS 155
- b) Two additional upper-division Business Administration organizational behavior or human resources courses selected from the following: BUS 121, BUS 143, BUS 144, BUS 145, BUS 149, BUS 156, BUS 157

Management: Strategy and Entrepreneurship:

- a) Required: BUS 109, BUS 146

- b) Two additional upper-division Business Administration courses selected from the following: BUS 121, BUS 143, BUS 144, BUS 145, BUS 147, BUS 148, BUS 149, BUS 150, BUS 154, BUS 155, BUS 156, BUS 157, BUS 159, BUS 163, BUS 173

Marketing:

- a) Required: BUS 103
- b) Three additional upper-division Business Administration marketing courses selected from the following: BUS 111, BUS 112, BUS 113, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119, BUS 151, BUS 152, BUS 159, BUS 164

Operations and Supply Chain Management:

- a) Required: BUS 104, BUS 105
- b) Two additional upper-division Business Administration operations and supply chain management courses selected from the following: BUS 122, BUS 123, BUS 124 (highly recommended), BUS 125, BUS 126, BUS 127/STAT 127, BUS 128, BUS 129 (highly recommended), BUS 130, BUS 173

Lower-Division Courses

BUS 001 Personal Finance 4 Lecture, 3 hours; workshop, 1 hour. Prerequisite(s): none. Provides students with tools necessary to analyze the decision to finance their UCR education with student loans. Topics include personal budgets, student loans, interest rates, career planning, auto and health insurance, and other issues related to financing higher education. Credit is awarded for only one of BUS 001 or BUS 001H.

BUS 001H Personal Finance 4 Lecture, 3 hours; workshop, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to BUS 001. Provides students with tools necessary to analyze the decision to finance their UCR education with student loans. Topics include personal budgets, student loans, interest rates, career planning, auto and health insurance, and other issues related to financing higher education. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of BUS 001 or BUS 001H.

BUS 010 Introduction to Business 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Provides an overview of the field of business administration. Explores business goals and strategies, functional areas of business and their integration in policy and decision making, social responsibility, computers in business, and business trends and challenges including the international dimension.

BUS 020 Financial Accounting and Reporting 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. A study of the concepts and techniques for measurement and communication of financial information. Includes interpretation of financial statements.

BUS 021 Generation of Financial Accounting Information 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020 with a grade of "C-" or better. A detailed study of the process of measuring, recording, and communicating financial accounting information.

Upper-Division Courses

BUS 100W Management Writing and Communication 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL 001B with a grade of C or better; BUS 020; ECON 003; STAT 048; or equivalent; or consent of instructor. Focuses on writing and communication methods in business environment. Topics include written and oral presentations, interpersonal skills, teamwork in multicultural setting, and effective use of communication technologies. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C.

BUS 101 Information Technology Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 008; BUS 020; ECON 003; STAT 048; or equivalent; or consent of instructor. Topics include computer hardware and software, business data processing, databases, telecommunications, systems analysis and design, cost-benefit analysis, and systems applications in business. Includes database and spreadsheet projects.

BUS 102 Ethics and Law in Business and Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020; ECON 003; STAT 048; or equivalent; or consent of instructor. Analyzes the legal, ethical, political, and social aspects of the business environment. Topics include ethics and social responsibility, government regulation, corporate governance, and global management issues.

BUS 103 Marketing and Distribution Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020; ECON 003; STAT 048; or equivalent; or consent of instructor. An introduction to the role of marketing in society with emphasizing on concepts, marketing methods, and institutions.

BUS 104 Decision Analysis and Management Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 008; STAT 048 or STAT 100A; or equivalents; or consent of instructor. A survey of deterministic and probabilistic models for decision making. Topics include linear programming and extensions, networks, dynamic programming, decision trees, queuing models, and simulation. Explores the application of these models in decision making. Cross-listed with STAT 104

BUS 105 Production and Operations Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 104/STAT 104 or equivalent. Deals with the issues of design and control of production systems in manufacturing and service organizations. Covers product and process selection, capacity planning, location and layout design, project and job scheduling, inventory control, material planning, and quality control.

BUS 106 Introduction to Financial Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020; ECON 003 or ECON 003H; STAT 048 or ECON 101; or equivalent; or consent of instructor. An introduction to financial management and

financial institutions. Includes time value of money, stock and bond valuation, risk and return, portfolio theory, capital budgeting, capital structure, dividend policy, and financial databases. Cross-listed with ECON 134.

BUS 107 Organizational Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020; ECON 003; STAT 048; or equivalent; or consent of instructor. Studies organizations from the behavioral science perspective. Topics include motivation, leadership, communication, groups, organization structure and culture, and control in complex organizations.

BUS 108 Financial Evaluation and Managerial Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020; ECON 003; STAT 048; or equivalent; or consent of instructor. A study of accounting data used for managerial planning and controlling of business operations. Provides an introduction to manufacturing operations and cost accounting systems, cost-volume-profit analysis, relevant costing, standard costing and variance analysis, and budgeting.

BUS 109 Competitive and Strategic Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 100W; BUS 103; BUS 106; BUS 108; Restricted to major(s) Business Administration. Provides an understanding of strategic decision-making processes in organizations, the interrelationships among functional areas, and how decision making is affected by internal and external environments.

BUS 110 Introduction to Data Mining and Visual Analytics 2 Lecture, 2 hours; laboratory, 1 hour; extra reading, 2 hours; written work, 3 hours. Prerequisite(s): BUS 101. Covers the processes, methodologies and practices used to transform data into useful information to support business decision-making. Offers an opportunity to gain insights and hands-on-experience with basic functionality of industry standard data mining and visualization software tools such as Tableau, JMP and IBM's Watson Analytic.

BUS 111 Services Marketing 4 Lecture, 3 hours; outside project, 3 hours. Prerequisite(s): BUS 103. Covers the marketing of services and ideas. Focuses on marketing for service organizations such as hotels, hospitals, and banks. Provides understanding of the broader role of service provision for both service firms and goods firms.

BUS 112 Consumer Behavior 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 103. Provides a basic understanding of the general models of choice behavior as it relates to marketing decision making. Emphasis is on motivation, perceptions, learning, and social forces as they impact on the choice process.

BUS 113 Marketing Institutions 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 103. Covers the concepts and strategies relating to the delivery of consumer goods and services, the main topic being the management of marketing activities within the channels of distribution, especially in retail and wholesale institutions.

BUS 114 Marketing in A Global Environment 4 Lecture, 3 hours; research,

2 hours; term paper, 1 hour. Prerequisite(s): BUS 103. Covers the theory and practice of marketing across national borders. Provides an understanding of global marketing environments and examines the development of marketing strategies to maximize growth of global companies.

BUS 115 Marketing Research 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): BUS 103. Covers types and sources of marketing information, the marketing research process, and techniques of data collection and analysis, including consumer and customer surveys and test marketing. Examines both quantitative and qualitative research with analysis of the values and limitations of data. Emphasis is placed on evaluation and interpretation of results.

BUS 116 Pricing Strategy and Management 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): BUS 103 or consent of instructor. Integrates theory and practice into a framework for making pricing decisions. Prepares for addressing strategic and tactical pricing issues. Topics include customer demand and price sensitivity, psychological reaction to price, segmented pricing, price promotions, bundling, online pricing, dynamic pricing, competitive reaction, profitability analysis, and pricing strategy development.

BUS 117 Advertising and Integrated Marketing Communications 4 Lecture, 3 hours; extra reading, 2 hours; activity, 1 hour. Prerequisite(s): BUS 103. Covers the basic concepts and functions of advertising, sales promotion, and other communication tools in an integrated marketing communications framework.

BUS 118 Digital Marketing 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): BUS 103. An introduction to the role of digital marketing in business-to-consumer and business-to-business marketing. Covers the application of traditional marketing principles to an electronic commerce environment and new digital marketing techniques made possible by this environment.

BUS 119 Data-Driven Marketing 4 Lecture, 3 hours; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): BUS 103; or consent of instructor. Examines marketing cases and develops data analytical skills for managerial decision making. Utilizes statistical software to manage, display, and analyze marketing information including consumer survey, relationship management, scanner, and socioeconomic data. Topics include attitude measurement, market segmentation and targeting, competition analysis, market performance analysis, and store location choice.

BUS 120 Global Strategy 4 Lecture, 3 hours; extra reading, 1 hour; term paper, 2 hours. Prerequisite(s): BUS 109 or equivalents. Introduces global strategic management and how to win the global marketplace. Covers topics including the challenges of creating the right kind of organization, motivating a global workforce, entering new markets, creating global competitive advantage, and building a global mindset.

BUS 121 Employee Benefits 4 Lecture, 3 hours; individual study, 1 hour; research, 1 hour; written

work, 1 hour. Prerequisite(s): BUS 107. Provides a foundation of knowledge regarding employee benefits and the design and management of employee benefit plans. Discusses current issues and recent developments in the ever-changing field regarding employee benefits-related topics.

BUS 123 Spreadsheet Modeling For Decision-Making 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): BUS 104 or STAT 104. Introduces the fundamental techniques of using data to make informed management decisions in the presence of uncertainty. Utilizes advanced Microsoft Excel functionality.

BUS 124 Business Analytics 4 Lecture, 3 hours; term paper, 2 hours; written work, 1 hours. Prerequisite(s): STAT 048 or consent of instructor. Provides fundamental concepts and tools needed to understand the emerging role of business analytics in organizations. Applies basic business analytics tools in a spreadsheet environment. Introduces market-leading techniques that help identify and manage key data from business processes. Provides the essential tools required for data mining and business process re-engineering.

BUS 125 Simulation For Business 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): BUS 104/ STAT 104, STAT 048, or equivalents. Introduces simulation as a tool for analyzing complex systems. Analyzes and discusses the theory and practice of modeling through simulation. Topics include modeling uncertainty and collecting input data, Monte Carlo simulation techniques, model verification and validation, and sensitivity analysis. Examines applications in finance, marketing, operations, and supply chain management.

BUS 126 Practical Business Forecasting 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): BUS 105; or consent of instructor. Teaches how forecasts are developed and utilized. Emphasizes common forecasting methods used in business and uses specific cases to illustrate these methods. Applications to business include forecasting sales, production, inventory, macroeconomic factors such as interest and exchange rates, and other aspects of both short- and long-term business planning.

BUS 127 Introduction to Quality Improvements 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 048 or STAT 100A or consent of instructor. Explores Deming's 14 points for management, graphical methods, fishbone diagram, Pareto analysis, control charts for attributes and variables, cusum and moving average charts, process-capability, economic design, acceptance sampling, Taguchi method, parameter design, tolerance design, reliability, hazard rate, censoring, and accelerated life testing. Cross-listed with STAT 127.

BUS 128 Project Planning and Control 4 Lecture, 3 hours; assigned problems and field project, 3 hours. Prerequisite(s): BUS 104/STAT 104 or consent of instructor. Covers issues related to planning and control. Explores the differences between projects and production systems; breakdown structures

of project organization and work; sequencing and budgeting; resource management; project evaluation and control; and use of current project management software. Includes application of methodology to a real-world project.

BUS 129 Supply Chain Management 4 Lecture, 3 hours; assigned problems, 3 hours. Prerequisite(s): BUS 105. Focuses on management of the distribution of goods and services from plants, ports, and vendors to customers. Key topics include transportation, inventories, warehousing, materials handling, order processing, packaging, pricing, customer service standards, and warehouse and retail location.

BUS 130 Supply Chain Modeling 4 Lecture, 3 hours; homework problems and preparation for presentations, 3 hours. Prerequisite(s): BUS 104/STAT 104 or BUS 105. Covers the modeling and analysis of decision problems in supply chain management. Includes logistics network design, integration of supply chain operations, and supply and sourcing decisions. Utilizes the electronic spreadsheet as the principal device for building models, as well as addresses the concepts of effective spreadsheet design and use.

BUS 131 Fixed-Income Securities 4 Lecture, 3 hours; research, 1 hour; extra reading, 2 hours. Prerequisite(s): BUS 106/ECON 134 and BUS 132 with grades of "C-" or better. Covers fixed-income securities and basic analytical tools in fixed-income markets. Topics include relative pricing of fixed-income securities, yield-curve estimation, securities with embedded options, and trading strategies. Utilizes instruments such as interest rate swaps, mortgage-backed securities, and credit derivatives.

BUS 132 Foundations of Finance 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): BUS 020; ECON 101 or STAT 048; one of the following: ECON 102, ECON 103, ECON 104A or ECON 105A; upper-division standing. Covers the mathematical and economic foundations of finance. Topics include intertemporal production and consumption, Fisher separation, risk and return, two-fund separation, standard asset-pricing models, arbitrage, derivatives concepts and parity relationships, and international finance parity relationships.

BUS 134 Corporate Finance 4 Lecture, 3 hours; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): BUS 106/ECON 134 and BUS 132 with grades of "C-" or better. Explores capital budgeting under uncertainty, cost of capital, capital structure, and basics of corporate governance. May cover other related topics. Provides an understanding of the theoretical issues related to these topics. Emphasizes formulating optimal financial decisions. May include case-method teaching and data analysis.

BUS 135 Corporate Financial Policy 4 Lecture, 3 hours; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): BUS 106/ECON 134 and BUS 132 with grades of "C-" or better. Covers application of option pricing in corporate finance, financial planning, working capital management, mergers and acquisitions, and risk management. May cover other related topics. Emphasizes formulating optimal financial decisions. May include case-method teaching and data analysis.

BUS 136 Investments: Security Analysis and Portfolio Management 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 106/ECON 134 and BUS 132 with grades of "C-" or better. Provides a thorough study of the investment process. Topics include portfolio selection, asset-pricing models, term structure, and portfolio performance valuation. Discusses empirical uses of securities data and empirical issues in testing asset pricing models.

BUS 137 Investments: Derivatives Markets 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 106/ECON 134 and BUS 132 with grades of "C-" or better. Covers option market characteristics, option pricing theories, and speculative strategies used in local, national, and international markets. Analyzes other derivatives instruments including futures, forwards, and swaps. Discusses empirical uses of securities data related to derivatives markets.

BUS 138 International Finance 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 106/ECON 134 with grade of "C-" or better or equivalent; upper-division standing. A survey of international financial institutions and the financial factors that affect the modern multinational corporation. Covers trade and international investment theories and empirical analysis. Topics include the international financial systems, balance of payments, foreign exchange markets, measurement of foreign exchange risk, hedging, international asset pricing, and trade financing.

BUS 139 Real Estate Investments 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 106/ECON 134 with grade of "C-" or better. Analysis of real estate development including consideration of site selection, market analysis, financing, design and construction, loan contracts, mortgage risks, and investment analysis.

BUS 140 (E-Z) Current Topics in Finance 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): BUS 106 or ECON 134. Addresses contemporary issues in finance. Includes financial markets, private equity, asset pricing, performance evaluation, derivative securities, market micro structure, corporate finance, corporate control and governance, and the global economy. Explores recent developments in theoretical, empirical, and applied finance. Also addresses the regulatory and ethical environment of finance. Course is repeatable as content or topic changes to a maximum of 8 units.

BUS 140E The Financial Crisis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): BUS 106/ECON 134 with grade of "C-" or better. Focuses on the current financial crisis. Includes bank, investment bank, insurance company, and other financial institution failures and the government and market responses to them. Course is repeatable as topics change to a maximum of 8 units.

BUS 141 Trading Strategies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 106; BUS 132; BUS 136; STAT 048 or equivalent; or consent of instructor. Introduces stock market anomalies. Includes ways to predict market strength, to profit, and to

understanding the risk and trading costs of performing such trading strategies. Considers the most well-known empirical deviations from the capital asset pricing model (CAPM) and trading strategies.

BUS 143 Judgment and Decision Making 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior; or senior; or consent of instructor. Covers decision making, including thinking and judgments; information selection and evaluation; learning and memory; the social side of judgment and decision making; fairness, moral obligations, and social dilemmas; and decision making in organizations.

BUS 144 Negotiation Fundamentals 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): BUS 107. Develops an understanding of the theory and processes underlying a broad spectrum of negotiation problems. Attains competency in negotiations by applying analytic and interpersonal skills covered in readings and lecture to regular exercises and debriefings.

BUS 145 Conflict and Cooperation in Groups 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): BUS 107; or consent of instructor. A general survey of the major concepts and techniques of game theory. Illustrates the basic concepts of games in extensive and strategic form. Also addresses the solution concept of the Nash equilibrium for non-cooperative games with major findings of experimental research. Reviews selected applications in business and economics.

BUS 146 Introduction to Entrepreneurship 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): BUS 109, may be taken concurrently; or consent of instructor. Discusses the nature of entrepreneurship and its role in the economy. Topics include identifying and evaluating business opportunities, creating a team, and acquiring financial and other necessary resources.

BUS 147 Entrepreneurial Finance 4 Lecture, 30 hours per quarter; research, 30 hours per quarter. Prerequisite(s): BUS 106/ECON 134 and BUS 132 with grades of "C-" or better. Focuses on the financing of entrepreneurial ventures. Provides an understanding of opportunity recognition skills, funding techniques, and institutions involved in the financing of new ventures. Includes financial modeling, cash needs assessment, valuation, deal structure, financing alternatives, simulation, and harvesting.

BUS 148 Business Plan Development 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): BUS 107; or consent of instructor. Provides the skills necessary to assess new venture opportunities and convert them into businesses.

BUS 149 Advanced Topics in Management and Decision-Making 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): BUS 107; or consent of instructor. Covers advanced topics in management and decision-making. Includes incentives and motivation, social labor, the psychology of money, competition and markets, grey marketing and revenge, dishonesty and cheating, decision-making in groups, other-regarding preferences, and welfare inferences

and well-being.

BUS 150 Corporate Strategic Analysis in Multi-Business Firms 4

Lecture, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): BUS 109, may be taken concurrently; or consent of instructor. Explores the distinct challenges multi-business organizations face when creating and reviewing their corporate-level strategies. Topics include mergers and acquisitions, alliances, outsourcing, reorganizations, diversification, and change implementation. Emphasizes how top management can identify opportunities, define the corporate headquarter's role, and create value for the businesses it holds.

BUS 151 Brand Management 4

Lecture, 3 hours; research, 1 hour; written work, 2 hours. Prerequisite(s): BUS 103 or consent of instructor. Provides an understanding of how to manage a brand or a branded product. Topics include brand development and equity, brand architecture and brand leveraging, and managing a brand over the product life cycle.

BUS 152 Sales Management 4

Lecture, 3 hours; research, 1 hour; written work, 2 hours. Prerequisite(s): BUS 103. Discusses strategic and tactical aspects of sales force management including sales force planning, deployment, compensation, and control. Also covers selling strategies and managing of customer relationships.

BUS 153 Labor Economics 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. An analysis of labor demand, labor supply, and the structure of wages. Emphasizes neoclassical, institutional, and radical perspectives. Cross-listed with ECON 153.

BUS 154 Business Law 4

Lecture, 3 hours; extra reading, 1.5 hours; term paper, 1.5 hours. Prerequisite(s): upper-division standing. Studies law as an integral part of the business environment, a process derived from and changing with the larger society. Areas covered include contracts, torts, agency, partnerships, corporations, and bankruptcy.

BUS 155 Managing Human Resources 4

Lecture, 3 hours; activity, 3 hours. Prerequisite(s): BUS 107; or consent of instructor. Applies a strategic planning approach to managing relations between an organization and its human resources. Topics include processes of forecasting and job analysis, environmental scanning, recruitment and selection, evaluation and compensation, and dispute resolution.

BUS 156 Leadership Development 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): BUS 107; or consent of instructor. Analyzes leadership theory and practice. Surveys areas pertaining to leadership, such as leadership theory, leadership style, oral and written communication, ethical leadership, interpersonal conflict management, and the dynamics of culture and gender in organization leadership.

BUS 157 Managing Work Force Diversity 4

Lecture, 3 hours; activity, 3 hours. Prerequisite(s): BUS 107; or consent of instructor. Covers management issues triggered by the increasing participation of women and

minorities in the work force. Topics include work role stereotyping, workplace representation and segregation, culturally based leadership and communication styles, work-family conflicts, and related legislative initiatives.

BUS 158 Organizations as Cultural Systems 4

Lecture, 6 hours; extra reading and written exercises, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the role of culture in the formation and management of complex bureaucratic organizations. Covers types of organizations and organizational cultures, the impact of the cultural environment, and problems posed by rapid cultural change. Offered in summer only. Cross-listed with ANTH 105.

BUS 159 New Product Development 4

Lecture, 3 hours; research, 1 hour; written work, 2 hours. Prerequisite(s): BUS 103 or consent of instructor. Examines the strategies that lead to successful development of new products. Discusses the tools and techniques used in different stages of a successful new product development process from opportunity identification to market testing and commercialization of the new product.

BUS 160 Industrial Organization 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104B. A study of the organization and structure of the American industrial system. Emphasizes production and pricing behavior and policies. Also addresses market structure and public policies regulating or influencing market behavior. Cross-listed with ECON 160.

BUS 161 Forensic and Fraud Auditing 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 165B. An introduction to forensic accounting and fraud examination and how they pertain to both civil and criminal matters. Covers the characteristics of fraud, fraud prevention and detection, investigative techniques, asset recovery, and the use of information technology.

BUS 162 Managerial Economics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 102 or ECON 104A. Examines applications of economic analysis to problems of management, especially of capital. Emphasis is on production economics and cost analysis. Cross-listed with ECON 162.

BUS 163 Technology Entrepreneurship 4

Lecture, 3 hours; extra reading, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): BUS 101. Provides a process of starting a new technology-based venture from the original idea to commercialization. Introduces a set of cross-functional concepts in technology management, intellectual property laws, marketing, operations and strategy. Concepts apply to a class project focused on the development of a business plan for a technology-based startup.

BUS 164 Marketing Strategy 4

Lecture, 3 hours; research, 1 hour; written work, 2 hours. Prerequisite(s): BUS 103 or consent of instructor. Focuses on planning and development of marketing and product portfolio strategies for long-term success. Emphasizes marketing analysis and decision-making through the use of case studies and/or a computer-based marketing simulation.

BUS 165A Intermediate Financial Accounting 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 021 or equivalent. In-depth study of financial accounting theory and practice. Develops an understanding of accounting concepts and generally accepted accounting principles and the ability to apply this technical knowledge to solve accounting problems. Topics include principal financial statements and accounting and valuation of various assets.

BUS 165B Intermediate Financial Accounting 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 165A or equivalent. Continuation of study of financial accounting theory and practice. Topics include current liabilities and contingencies, long-term liabilities, contributed capital, retained earnings, and temporary and long-term investments.

BUS 165C Intermediate Financial Accounting 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 165B or equivalent. Continuation of study of financial accounting theory and practice. Covers the conceptual discussion and procedural presentation of financial accounting topics as well as recent developments in accounting valuation and reporting practices promulgated by practitioners in industry and public accountants.

BUS 166 Accounting Information Systems 4

Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 101, BUS 108, or equivalents. Study of the concepts and techniques in the design and implementation of accounting information systems within companies' operating environments. Emphasis is on the effects of the computer on these systems.

BUS 167 Advanced Financial Accounting 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 165C (may be taken concurrently). Covers advanced accounting topics such as consolidated financial statements, accounting for multinational corporations, partnership accounting, and accounting for nonprofit organizations.

BUS 168A Individual Taxation 4

Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 108 or equivalent. Concentrates primarily on the basic provisions of the federal income taxes imposed on individuals and the accounting for those taxes. While the major emphasis is on current tax provisions and tax planning, consideration is also given to the legislative and judicial development of these provisions.

BUS 168B Federal Taxation For Corporations, Partnerships, Estates, and Trusts 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 168A. Covers tax research, corporate taxation, partnership taxation, the wealth transfer taxes, income taxation of estates and trusts, international taxation, and tax administration.

BUS 169A Auditing 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): BUS 165B, may be taken concurrently; or consent of instructor. Covers the auditing environment, the auditor's legal liability, audit responsibilities and objectives, audit evidence, audit planning and documentation, the auditor's report, and

management letters.

BUS 169B Quality Assurance in

Auditing 4 Lecture, 3 hours; case analyses, 3 hours. Prerequisite(s): BUS 169A. Covers the audit process (internal control, compliance tests, sampling, substantive evidence gathering, electronic data processing auditing) and the audit procedures for various types of accounts such as sales, cash, accounts receivable, payroll, inventory, and capital acquisitions.

BUS 170 Financial Statement

Valuation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): BUS 165B, may be taken concurrently; or consent of instructor. Explains weighted average cost of capital as used in operating income based, revenue based, and market based valuation methods. Requires research to determine valuation of an existing publicly held company under all three methods. Also considers off balance sheet financing, credit risk analysis, and minority interests.

BUS 171 Systems Analysis and

Design 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 101 or equivalent. Involves detailed analysis, specification, design, and implementation of computer-based information systems. Includes economic analyses, evaluation of alternatives, analysis or design tools, and systems project management and planning. Case studies are used.

BUS 172 Information Economics 4 Lecture, 3 hours; assigned cases and project, 3 hours. Prerequisite(s): BUS 103; ECON 003 or ECON 003H. Discusses economic concepts and strategies related to the network economy. Topics include economic issues surrounding information goods, competition in electronic business, pricing strategies, and intellectual property protections. Examines business strategies for the information (software) and infrastructure (hardware) elements of electronic business.

BUS 173 Introduction to Databases For

Management 4 Lecture, 3 hours; extra reading, 2 hours; projects, 1 hour. Prerequisite(s): BUS 101 or equivalent. Covers physical and conceptual aspects of database management systems, including familiarity with the variety of database systems based on different data models. Examines the role of database systems in management information systems (MIS) and issues in database design for effective support of MIS. Requires the use of a database package.

BUS 174 Electronic Commerce 4 Lecture, 3 hours; extra reading, 2 hours; project, 1 hour. Prerequisite(s): BUS 101. Reviews the technological evolution of electronic commerce (EC). Investigates how EC can be used to interact with customers, other organizations, and those within the organization. Studies technical innovations, provides a critical evaluation of strategies, and examines current applications and their impact on the business environment.

BUS 175 Business Data

Communications 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): BUS 101. Surveys components of telecommunication systems; examines major design and analysis

issues in the development and implementation of computer communication systems. Studies both voice and data communication systems including local area networks, wireless systems, satellite systems, and distributed computer and database systems. Emphasizes evaluation of these systems for business purposes.

BUS 176 The Sociology of Work in

Organizations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. Emphasizes the roles of individuals in organizations. Topics include the effects of jobs on workers, long-term trends in the nature of work, and differences in work among major segments of the labor force. Cross-listed with SOC 176.

BUS 178 International Trade 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. A study of the pure theory of trade, trade policy, and international factor movements. Includes illustrative applications to current issues and problems. Cross-listed with ECON 178.

BUS 179 Business Application of Geographic Information Systems (gis) 4

Lecture, 2 hours; laboratory, 1 hour; extra reading, 2 hours; written work, 3 hours. Prerequisite(s): BUS 101. Topics include introduction and use of geographic information system (GIS) for business applications. Provides basic understanding on how location information is used in business processes for decisions. Offers an opportunity to gain hands-on experience with basic functionality of industry standard business mapping software tools including ArcGIS and Business Analyst Online.

BUS 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and program chair. A project to be undertaken under faculty supervision. Course is repeatable to a maximum of 12 units.

BUS 198I Individual Internship in Business

Administration 1 to 12 Seminar, 1 hour; internship, 3 to 36 hours; term paper, 1 to 11 hours. Prerequisite(s): upper-division standing in Business Administration; consent of instructor. Active participation in the work of a business concern or a public or quasi-public agency combining academic instruction and supervised field experience. A maximum of 4 quarter units may be counted toward the degree requirements for Business Administration. Course is repeatable to a maximum of 16 units.

BUS 199H Senior Honors Research 1 to

5 Seminar, 1 hour; extra reading, 2 to 12 hours; term paper, 2 to 12 hours. Prerequisite(s): senior standing with a major in Business Administration; admission to the University Honors Program or consent of instructor. Involves research in business administration under faculty supervision. Students submit a written report. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is awarded. Course is repeatable to a maximum of 12 units.

CELL BIOLOGY AND NEUROSCIENCE

Subject abbreviation: CBNS

College of Natural and Agricultural Sciences

Manuela Martins-Green, Ph.D., Chair
Dmitri Maslov, Ph.D., Vice Chair
Department Office, 2710 Life Sciences,
Psychology Bldg.
(951) 827-5903; mcsb.ucr.edu

Professors

Michael E. Adams, Ph.D. (Molecular, Cell, Systems Biology and Neuroscience/Entomology)
David A. Eastmond, Ph.D.
Sarjeet S. Gill, Ph.D.
Karine G. Le Roch, Ph.D.
Morris Maduro, Ph.D.
Manuela Martins-Green, Ph.D.
Dmitri Maslov, Ph.D.
Anandasankar Ray, Ph.D.
Frances M. Sladek, Ph.D.
B. Glenn Stanley, Ph.D. (Molecular, Cell, Systems Biology and Neuroscience/Psychology)
Prudence Talbot, Ph.D.
Raphael Zidovetzki, Ph.D.

Associate Professors

Jeffrey B. Bachant, Ph.D.
Margarita C. Currás-Collazo, Ph.D.
Scott N. Currie, Ph.D.
Anupama Dahanukar, Ph.D.
Todd Fiocco, Ph.D.
Constance I. Nugent, Ph.D.
Viji Santhakumar, Ph.D.
Nicole zur Nieden, Ph.D.

Assistant Professors

Garret R. Anderson, Ph.D.
Jun-Hyeong Cho, M.D., Ph.D.
Weifeng Gu, Ph.D.
Sachiko Haga-Yamanaka, Ph.D.
Fedor V. Karginov, Ph.D.
Martin Riccomagno, Ph.D.
Hongdin Yang, Ph.D.

Research in the Department of Molecular, Cell and Systems Biology uses multidisciplinary approaches to understanding basic cellular processes in various tissues, including the nervous system, as well as more integrative levels of analysis, including behavior. Areas of research represented in the department include the following:

- Biophysical properties of excitable membranes
- DNA repair
- Transcriptional regulation
- Mechanisms of toxicity
- Insect development
- Membrane transport
- Mechanisms of mitotic chromosome transmission
- Telomere maintenance
- Synaptic structure and function
- Changes in nervous system with experience
- Interactions of nervous and endocrine systems

- Reproductive biology and fertilization
- Cell and molecular mechanisms of response to injury
- Glia-neuron signaling and sensory and motor integrative processes
- RNA Biology

Undergraduate Curriculum

Students interested in Cell Biology and Neuroscience with Molecular, Cell, and Systems Biology can obtain training through the interdepartmental major in Cell, Molecular, and Developmental Biology leading to the B.S. degree. Students interested in neuroscience can obtain training in behavioral neuroscience, neurobiology, and neurochemistry through the Neuroscience major leading to the B.A. or B.S. degree. The Neuroscience major is an intercollege major offered by the College of Humanities, Arts, and Social Sciences and the College of Natural and Agricultural Sciences. See Cell, Molecular, and Developmental Biology section and Neuroscience Undergraduate Major section, respectively.

Graduate Curriculum

Courses and research opportunities are offered by the interdepartmental graduate programs in Cell, Molecular, and Developmental Biology; Environmental Toxicology; and Neuroscience. See the respective graduate program section.

Lower-Division Courses

CBNS 004 Concepts in Medical Cell

Biology 3 Lecture, 1 hour. workshop, 4 hours. Prerequisite(s): CHEM 001A or CHEM 01HA (may be taken concurrently). Introduces fundamental concepts in molecular cell biology, with emphasis on human health and disease. Modules involve lectures and interactive, problem-oriented discussions with faculty. Through classical and contemporary examples, modules acquaint students with the scientific process and how it leads to insights into human biology. Credit is not awarded for CBNS 004 if it has already been awarded for BIOL 005A.

Upper-Division Courses

CBNS 101 Fundamentals of Cell

Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC and BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently). Introduces the principles of eukaryotic cell biology. Includes an examination of the molecules and systems that mediate cell function and an overview of membrane architecture and function, cell signaling and signal transduction, the cytoskeleton, organelles, protein targeting and secretion, and the nucleus and nuclear transport. Credit is not awarded for CBNS 101 if it has already been awarded for BIOL 113 or BIOL 114.

CBNS 106 Introduction to

Neuroscience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A and BIOL 005B with grades of "C-" or better, CHEM 001A, CHEM 001B, CHEM 001C; or consent of instructor. An introduction to cellular, organismal, and behavioral neuroscience for science majors. Topics include structure and functions

of the brain, neurons, and synapses; sensory systems and perception; control of movement; neurobiology of hormones and sexual behavior; biorhythms; learning; memory; and psychoses.

CBNS 108 Introduction to Developmental

Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC; or consent of instructor. Emphasizes common principles and key concepts that govern development of multiple eukaryotic systems, and how genes control cell behavior during development.

CBNS 116 Human Neuroanatomy: Structure-

Function Relationships 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or consent of instructor. Provides in-depth study of human functional neuroanatomy including gross anatomy of the brain and spinal cord, microscopic anatomy (histology) of cellular components, and fine structure of the nervous system at the electron microscope (EM) level. Emphasizes understanding the neuroanatomy of key structures (e.g., hypothalamus, brainstem, hippocampus).

CBNS 120 Cellular Neuroscience: Membrane

and Synaptic Phenomena 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or consent of instructor. An examination of cellular and molecular mechanisms of nervous system function using concepts drawn from the study of vertebrates and invertebrates with emphasis on mammalian systems. Cross-listed with PSYC 120.

CBNS 120L Neuroscience

Laboratory 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): CBNS 120/PSYC 120 or concurrent enrollment. Laboratory experiments using electrophysiological, chemical, and anatomical research methods fundamental to understanding neurons and neural systems. Cross-listed with PSYC 120L.

CBNS 121 Developmental

Neuroscience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or consent of instructor. A study of the development of nervous systems. Examines the cellular and molecular mechanisms of neural development and the determinants of cell birth and death, axonal pathfinding, neuronal connections, and development of neural systems underlying behavior. Cross-listed with PSYC 121.

CBNS 124 Systems Neuroscience 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or consent of instructor. A study of the structure and function of motor and sensory systems in vertebrate and invertebrate nervous systems. Cross-listed with PSYC 124.

CBNS 125 Neuropharmacology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 120/PSYC 120. Examines synaptic neurotransmitter systems, mechanisms, and pharmacological agents and effects, which are fundamental to neural information processing. Cross-listed with PSYC 125.

CBNS 126 Neuroscience of Learning and

Memory 4 Lecture, 3 hours; discussion, 1 hour.

Prerequisite(s): CBNS 106 or PSYC 110 or consent of instructor. Covers mechanisms of learning and memory across levels of analysis, including genetic, neuronal, systems and theory. Topics include the multiple memory systems, memory consolidation, working memory, emotional memory, recognition memory, spatial memory, and human amnesia. Cross-listed with PSYC 126.

CBNS 127 Behavioral Control

Systems 4 Lecture, 3 hours; discussion 1 hour. Prerequisite(s): CBNS 120/PSYC 120; CBNS 124/PSYC 124 strongly recommended. An analysis of neural mechanisms that underlie behavior, concentrating on motor control. Topics range from command systems, to central pattern generators, to cortical control of voluntary movement and brain-machine interfaces (neuroprosthetics).

CBNS 128 Immunology 3

Lecture, 3 hours. Prerequisite(s): BIOL 005C; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA. A study of humoral and cellular immunology. Topics include lymphoid systems, cells, antigens, antibodies, antibody formation, cellular immunity, and tumor and transplantation immunology. Diseases and altered immune states associated with each topic are discussed in detail. Cross-listed with BIOL 128.

CBNS 129 Brain Control of Bodily

Functions 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 124/PSYC 124 with a grade of "C-" or better or consent of instructor. Emphasizes principles of organization and function related to endocrine and other physiological systems. Selected topics include control of breathing, body water, temperature, cardiovascular function, and the stress response.

CBNS 130L Computational Neuroscience

Laboratory: Introduction to Brain Modeling Techniques 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): CBNS 120 or PSYC 120; or consent of instructor. Introduces computer modeling techniques used to study neurons and neural systems. Selected topics include biophysical models of single neurons, small neural circuits, synaptic interactions, and larger scale network models. Cross-listed with PSYC 123L.

CBNS 133 Scientific Writing For Cell, Molecular and Developmental

Biologists 4 Lecture, 3 hours; written work, 6 hours. Prerequisite(s): BIOL 102, BIOL 107A, CBNS 101, CBNS 108; a major in Cell, Molecular, and Developmental Biology; or consent of instructor. An introductory course in scientific writings. Includes preparing scientific manuscripts, research proposals, and other types of technical presentations. Satisfactory (S) or No Credit (NC) grading is not available.

CBNS 135 Educational Outreach Training in Neuroscience 4

Lecture, 10 hours per quarter; discussion, 10 hours per quarter; practicum, 20 hours per quarter; activity, 20 hours per quarter; written work, 20 hours. Prerequisite(s): CBNS 120/PSYC 120 and CBNS 124/PSYC 124 with grades of "C" or better and upper division standing in Neuroscience. Introduction

to multiple approaches and activities that can be used when teaching neuroscience concepts. Builds proficiency in organizational and presentation skills, as well as provides opportunities for educational outreach. Topics include components of oral presentation, models of teaching and learning styles, and published successes in neuroscience outreach. Satisfactory (S) or No Credit (NC) grading is not available.

CBNS 150 Cancer Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A or CBNS 101 (may be taken concurrently with consent of instructor). Explores the origin, development, and treatment of cancer with emphasis on molecular mechanisms. Covers topics such as oncogenes, tumor suppressors, cell cycle and differentiation, AIDS, and hereditary and environmental factors in the development of cancer. Cross-listed with ENTX 150.

CBNS 165 Stem Cell Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 101 or consent of instructor. An introduction to various stem cells, their characteristics, and their niches. Explores the molecular concepts of stem cell self-renewal and tissue and organ development. Illustrates their application in therapies and explains routine methods used in stem cell biology. Reviews current governmental regulations and ethics.

CBNS 169 Human Embryology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C or consent of instructor. An in-depth study of normal human development from conception through the early postnatal period. Demonstrations use microscopic and other materials specifically adapted for the course. Some consideration is given to abnormal development.

CBNS 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor and department chair. Individual study to meet special curricular needs. Grading basis to be determined in consultation with the instructor and department chair. Course is repeatable to a maximum of 12 units.

CBNS 194 Independent Reading 1 to 2

2 Individual Study, 3 to 6 hours. Prerequisite(s): consent of instructor. Individual reading under faculty direction. Course is repeatable to a maximum of 4 units.

CBNS 197 Research For Undergraduates 1 to 4

Research, 3 to 12 hours. Prerequisite(s): either sophomore standing and one course in Cell Biology and Neuroscience or upper-division standing; consent of instructor. An introduction to laboratory research conducted under faculty supervision. Students who submit a written report or give an oral presentation receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CBNS 198I Individual Internship 1 to 12

Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): consent of instructor. Explores career development within the context of cell, molecular, and developmental biology or health sciences. Includes supervision by an off-campus sponsor and an on-campus faculty member. Graded Satisfactory (S) or No Credit

(NC). Course is repeatable to a maximum of 12 units.

CBNS 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor. Original research undertaken under the direction of a faculty member. Students who submit a written report or give an oral presentation receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

Margarita Curras-Collazo (Cell Biology and Neuroscience)
Scott Currie (Cell Biology and Neuroscience)
Todd Fiacco (Cell Biology and Neuroscience)
Anupama Dahanukar (Entomology)
Anandasankar Ray (Entomology)

Designated Emphasis Requirements

The Designated Emphasis is an interdisciplinary graduate program of study to enhance student training in the field through a focused course-work across at least two departments. The program is optional and the courses used for the DE may not be counted toward MS or PhD requirements.

1. Three (3) courses (12 units) with a focus in basic principles of cell, molecular and behavioral neuroscience will be selected from:

NRSC 200A Fundamentals in Neuroscience, Molecular and Cellular Mechanisms
NRSC 200B Fundamentals in Neuroscience,

Neural and Hormonal Systems,
NRSC 200C Fundamentals in Neuroscience, Neural Control of Behavior
NRSC 201 Graduate Neuroscience Lab
PSYC 203A Overview of Cognitive Science and Perception
PSYC 203B Attention and Memory
PSYC 207C Processes of Cognitive Development
PSYC 208 Research Methods in Development
PSYC 233 Research Methods in Cognitive Science
CBMS 106 Introduction to Neuroscience
CBNS 108 Introduction to Developmental Biology
CBNS 116 Cellular Neuroscience: Structure-Function Relationship
CBNS 120 Cellular Neuroscience: Membrane and synaptic Phenomena
CBNS 121 Developmental Neuroscience
CBNS 124 Systems Neuroscience
CBNS 125 Neuropharmacology
CBNS 126 Neuroscience of Learning and Memory
CBNS 127 Behavioral Control Systems
CBNS 129 Human Neuropsychology
PSYC 112 Neural Mechanisms of Animal Behavior
PSYC 117 Cognitive Neuroscience of Memory and Consciousness

Students must select courses with relevant content in consultation with the Designated Emphasis Advisory Committee comprising of three participating faculty including student's major professor. Students must select courses from at least two different departments. Undergraduate course taken to fulfill the requirement must be accompanied by a 292 course taken in the same quarter with extra work agreed upon by professor and student.

2. **BMSC 222 (2 units): Special Topics in Biomedical Sciences with emphasis in neurologic diseases.** The course will address the research pertaining to the student's interest and prepare trainees in applying the knowledge of basic principles in neuroscience to the pathophysiology of neurologic disease. Graded Satisfactory (S) or No Credit (NC)
3. **Research Project: students will write a review article on a selected neuroscience topic.** The review will be evaluated by the Designated Emphasis Advisory Committee. It is the committee's expectation that student will fulfill this component by submitting the review article for the journal publication. Successful completion of this review is required for the Designated Emphasis completion.

All requirements for the Designated Emphasis must be satisfied no later than one calendar year from the quarter in which candidate advances to candidacy in their PhD field; a minimum GPA of 3.0 is required for the Designated Emphasis completion.

Major

The Cell, Molecular and Developmental Biology major is designed to prepare students for diverse and exciting careers that include research, professional programs in the health sciences, and biotechnology. Course work is structured so that students first receive a solid grounding in the basic genetic and biological principles. Subsequent course requirements expand upon these themes and include courses in cell biology, molecular biology, developmental biology and genetics. Problem-based learning is employed throughout the curriculum to produce graduates with the analytical and critical thinking skills necessary to become successful researchers and professionals. After completing required core courses, students take intermediate level courses that lay the foundation for more advanced undergraduate courses. Several mechanisms exist to tailor the curriculum to the needs of the individual student, including by choosing either Disciplinary or Health Science track options.

Both the Disciplinary and Health Science tracks can lead to B.A. or B.S. degrees. They have similar major requirements, but the B.A. degree requires 12 additional units of Humanities and Social Sciences courses and 16 units in a foreign language (see College Breadth Requirements).

University Requirements

See the Undergraduate Studies section for requirements that all students must satisfy.

College Requirements

See Degree Requirements, College of Natural and Agricultural Sciences, in the Undergraduate Studies Section, for requirements that students must satisfy.

Major Requirements

Some of the following requirements for the Cell, Molecular and Developmental Biology major may also fulfill the College's breadth requirements. Consult with an advisor for course planning.

1. Life Sciences core curriculum (72-76 units)

- BIOL 005A, BIOL 05LA or BIOL 020,
BIOL 005B, BIOL 005C
- CHEM 001A, CHEM 001B, CHEM 001C,
CHEM 01LA, CHEM 01LB, CHEM 01LC
- CHEM 008A, CHEM 008B, CHEM 008C,
CHEM 008LA, CHEM 008LB, CHEM
008LC, or CHEM 08HA, CHEM 08HB,
CHEM 08HC, CHEM 08HLA, CHEM
08HLB, CHEM 08HLC
- PHYS 002A, PHYS 002B, PHYS 02LA,
PHYS 02LB, PHYS 002C, PHYS 02LC
- MATH 007A or MATH 009A, MATH 007B
or MATH 009B
- STAT 100A
- BCH 100, or BCH 110A and BCH 110B
Students must complete all required
Core Curriculum courses with a grade of
C- or better and with a cumulative GPA
in the courses of at least 2.0. Grades of
D or F in two required courses, either
separate courses or repetitions of the
same course, are grounds for discontinu-
ation from the major.

2. Upper-division requirements (40 units)

- Major core (16 units) BIOL 102, BIOL
107A, CBNS 101, CBNS 108.
- Major electives (24 units from the following):

Cellular emphasis. At least one of the
following is required: BIOL 113; BIOL
114; BIOL 121/MCBL 121, BIOL 128/
CBNS 128; BPSC 135; CBNS 116;
CBNS 120/PSYC 120; CBNS 165.

Molecular emphasis. At least one of
the following is required: BCH 180A;
BCH 180B; BIOL 107B; BIOL 119; BIOL
124/MCBL 124; BIOL 155/BPSC 155;
CBNS 150/ENTX 150.

Developmental emphasis. At least
one of the following is required: BCH
183; BIOL 123/MCBL 123; BIOL 132/
BPSC 132; BIOL 138/BPSC 138; BIOL
168; CBNS 121/PSYC 121; CBNS 169

Laboratory course: Two courses in a biological science are required. Courses including at least 3 hours of lab per week are eligible, including combined lecture and lab classes. Eligible classes include BCH 153/BIOL 153/BPSC 153; BIEN 155; BIOL 118; BIOL 121L/MCBL 121L; BIOL 104/BPSC 104; BIOL 132/BPSC 132; BIOL 138/BPSC 138; BIOL 143/BPSC 143; BIOL 161A; CBNS 120L/PSYC 120L; MCBL 125; and others. Students in the Health Science Track may substitute one laboratory course with a course in ethics.

Note: A maximum of 8 units of 190-199 courses, including no more than 4 units of 198 courses, may be counted towards the major elective requirement. Three units of BCH 197, BIOL 197, BPSC 197, CBNS 197, ENTM 197, PLPA 197, MCBL 197, NEM 197, BCH 199, BIOL 199, BPSC 199, CBNS 199, ENTM 199, PLPA 199, MCBL 199, or NEM 199 may substitute for one of the required laboratory courses.

3. **Depth requirement (16 units).** For B.A. students, this requirement can be fulfilled with additional courses in Humanities and Social Sciences, and Foreign Languages. For the B.S. degree, students are required to take an additional 16 units of course work in natural sciences (including a biological or chemical science) or mathematics. Additional major elective units beyond the 32 required in 2b may be applied to this requirement.

4. **Health Science track.** Students wishing to apply to medical, dental or veterinary professional schools must follow the requirements listed above, but are encouraged to select from the following courses. For B.A. students, some of these will fulfill their Humanities and Social Sciences and Foreign Languages requirements. Please consult the faculty adviser.

- Foreign language: three courses are recommended.
- Community service: a maximum of 4 units may be counted towards the 180 unit graduation requirement, using CBNS 198-I or equivalent.
- Ethics: A course is strongly recommended, such as PHIL 009 or PHIL 167.
- Two upper-division classes in Psychology are recommended, such as CBNS 126/PSYC 126; CBNS 127/PSYC 127; PSYC 129; PSYC 178; or PSYC 179.
- When selecting electives in the natural sciences, students are recommended to include classes in an area of microbiology (e.g. BIOL 157, BIOL 171, ENSC 133/MCBL 133/SWSC 133, ENSC 141/MCBL 141/SWSC 141, BIOL 121/MCBL 121, BIOL 123/MCBL 123/PLPA 123, BIOL 124/MCBL 124, BIOL 134/PLPA 134), and in anatomy, zoology, or physiology (BIOL 151, BIOL 161A, BIOL 175, BIOL 176).

Sample Program Outlines

1. Bachelor of Science Degree (Disciplinary track)

The sample program for B.S. students provides a solid science background for students interested in research or teaching careers in biomedical science. Undergraduate laboratory research is strongly recommended as an important element in the program.

2. Bachelor of Science Degree (Health Science track)

The sample program for B.S. students with a professional emphasis provides a very strong science background, with recommended elective course choices emphasizing biomedical pertinence. Additionally, a foreign language is recommended, as well as Community Service (for course credit). Further breadth may be developed by electing Humanities and Social Science course options within the major depth requirement.

Program Overview

The Cell, Molecular, and Developmental Biology Graduate Program is an interdepartmental program offering M.S. and Ph.D. degrees to students seeking advanced training in these disciplines. The program focuses on the bridge between basic and applied research and on the interface between cell, molecular, and developmental biology. Participating faculty are drawn from numerous biological sciences departments whose research interests in cell, molecular, and developmental biology span biomedical to agricultural problems, and students in the program benefit from unique training opportunities.

Students seeking admission into the program should meet all general requirements of the Graduate Division as printed in the Graduate Studies section of this catalog.

The Cell, Molecular, and Developmental Biology program offers the M.S. and Ph.D. degrees in Cell, Molecular, and Developmental Biology.

Admission

Applicants should have adequate undergraduate course work in chemistry (two years), physics (one year), calculus (one year), statistics (one course), biochemistry (one course), and biology (two years, including a course in genetics and two courses among cell, molecular, or developmental biology). Applicants with strong academic records but with deficiencies in preparation for graduate training may be admitted and must rectify undergraduate deficiencies early in the first two years of residence. Applicants must submit GRE General Test scores (verbal, quantitative and analytical).

Course Work

All students must complete the following core of course work:

1. CMDB 203
2. One graduate-level course in cell biology (BIOL 200/CMDB 200, BPSC 237, or NRSC 200A/PSYC 200A)
3. One graduate-level course in molecular biology (BIOL 201/CMDB 201, BCH 211, BPSC 231/BCH 231, BMSC 202, or NRSC 200B/PSYC 200B)
4. One graduate-level course in developmental biology (BPSC 232, CMDB 202)
5. GDIV 403 Research and Scholarship Ethics (1 unit; may be taken any time prior to graduation)

Each student must enroll in the program seminars (CMDB 257, CMDB 258) each time they are offered. Upon entry into the program, each student meets with a guidance committee, which recommends a course of study commensurate with the student's interests and background.

Master's Degree

The Cell, Molecular, and Developmental Biology program offers an M.S. degree.

Plan I (Thesis)

Students complete the course work above,

enroll in one graduate seminar course in cell, molecular, or developmental biology (BCH 230(E-Z), BIOL 281(E-Z)/CMDB 281(E-Z), BPSC 240, BCH 289/BIOL 289/NRSC 289/PSYC 289), and undertake a research project leading to a thesis.

Each student must complete 36 units of course work, of which at least 24 units must be in the graduate series (200 level) in the biological sciences. No more than 12 units in courses numbered 290-299 may be taken to fulfill the 24-unit requirement. Candidates for the M.S. degree must defend their thesis at a public oral presentation.

Normative Time to Degree Two years

Doctoral Degree

The Cell, Molecular, and Developmental Biology program offers a Ph.D. degree.

Degree Requirements

1. Completion of the course work listed above
2. One additional graduate course in cell, molecular, and developmental biology
3. One graduate seminar course in cell, molecular, or developmental biology (BCH 230 (E-Z), BIOL 281 (E-Z)/CMDB 281 (E-Z), BPSC 240, BCH 289/BIOL 289/CHEM 289/ENTM 289/NRSC 289/PSYC 289)
4. A research project leading to a dissertation
5. Oral public defense of dissertation

Written and Oral Qualifying Examinations

Doctoral students are advanced to candidacy following successful completion of written and oral qualifying examinations. Students write a proposal detailing the rationale, specific aims, and approaches to be undertaken for their proposed dissertation research prior to taking the oral qualifying examination.

Professional Development Training

Ph.D. graduate students fulfill their professional development training requirement through the following activities:

- 1) **Responsible conduction of research:** One-time mandatory enrollment in GDIV 403 *Research and Scholarship Ethics* (1 unit; may be taken any time prior to graduation).
- 2) **Teaching:** One-time mandatory orientation in the Teaching Assistant Development Program administered through Graduate Division (must be fulfilled prior to classroom instruction). CMDB requires two quarters of TA teaching.
- 3) **Safety training:** Mandatory laboratory safety training administered through Environmental Health and Safety. Additional training may be mandated for some research activities.
- 4) **Presentations, scientific interactions and intellectual development:** Enrollment each quarter in CMDB 257 Seminar in Cell, Molecular and Developmental Biology. Part of the professional development in this course involves luncheon meetings between the speakers and students following the seminar. CMDB also offers opportunities for participation and presentation in intra-mural research seminars.

5) **Research Training:** Individual research training in major professor laboratories is associated with enrollment in CMDB 250, which encompasses laboratory journal clubs and lab meetings, as well as CMDB 297 and CMDB 299 research units. Students are also required to schedule an Annual Research Progress Evaluation (ARPE) with their guidance or dissertation committee to monitor ongoing professional development.

Dissertation

Candidates must successfully defend their dissertation research in a public oral presentation.

Teaching Requirement

Students must fulfill a two-quarter teaching requirement.

Career Opportunities

There is a high demand in industry and academia for scientists with training in cell, molecular, and developmental biology. Students matriculating from the program are well trained in this field and successfully obtain positions in biotechnology, including biomedical and agricultural industries, and at colleges and universities nationwide.

Normative Time to Degree Five years

Graduate Courses

CMDB 200 Cell Biology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): BCH 110A or BCH 110B or equivalent (may be taken concurrently); BIOL 102 or equivalent; BIOL 113 or BIOL 114 or CBNS 101 or equivalent. An examination of the structure and function of eukaryotic cells and their components with emphasis on the key experiments that provide the foundation for our current knowledge. Covers topics such as cell membranes, intracellular trafficking, cell-to-cell interactions, motility, and the cytoskeleton. Cross-listed with BIOL 200.

CMDB 201 Molecular Biology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): BCH 110A or BCH 110B or equivalent (may be taken concurrently); BIOL 102 or equivalent; BIOL 107A or equivalent. Covers the structure and inheritance of genetic material, the regulation of gene expression at the cellular and molecular level including molecular mechanisms for regulation of gene transcription, posttranscriptional regulation at the level of messenger RNA stability, processing, editing and translation, methods for gene mapping, and positional cloning. Cross-listed with BIOL 201.

CMDB 202 Developmental Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 101 or equivalent. An examination of development, beginning with the principles that underlie developmental studies of all multicellular organisms. Focuses on plants, insects, and fungi but introduces other model systems. Topics are taken from the current literature.

CMDB 203 Advanced Genetic Analysis

In Model Organisms 4 Lecture, 2 hours; discussion, 2 hours. Prerequisite(s): BIOL 102 or equivalent; graduate standing or consent of instructor. Examines essential concepts in modern genetics. Focuses on universal principles of genetic analysis in prokaryotic

and eukaryotic model organisms, emphasizing underlying concepts and logic. Develops skills reading primary scientific literature and critical thinking through analysis of landmark papers. Cross-listed with GEN 203.

CMDB 204 Genome Maintenance and Stability 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; BIOL 113 or BIOL 114 or CBNS 101; BIOL 102 is strongly recommended. Emphasizes chromosome-based processes that maintain genome integrity and ensure accurate genome transmission during cell division. Topics are drawn from the primary literature and include chromatin structure and composition, DNA repair and recombination, telomere function and chromosome maintenance, mitotic chromosome segregation, and checkpoint surveillance mechanisms. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with BCH 204, and ENTX 104.

CMDB 205 Signal Transduction Pathways in Microbes and Plants 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in the biological sciences, BIOL 107A or BIOL 113 or BIOL 114 or CBNS 101; or consent of instructor. Advanced topics in signal transduction pathways that regulate growth and development in plants and prokaryotic and eukaryotic microbes. Areas covered include two-component regulatory systems; quorum sensing; signaling via small and heterotrimeric G proteins; mitogen-activated protein kinase cascades; cAMP signaling; photoreceptors; plant hormone signaling; responses to low-oxygen stress; calcium signaling; and plant pathogenesis. Cross-listed with BCH 205, GEN 205, BPSC 205, MCBL 205, and PLPA 205.

CMDB 206 Gene Silencing 3 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing, BIOL 107A or CBNS 101; or consent of instructor. An in-depth coverage of mechanisms, functions, and applications of RNAi and related gene regulatory pathways guided by small RNAs such as siRNAs and miRNAs in plants and animals. Cross-listed with GEN 206, and MCBL 206.

CMDB 207 Stem Cell Biology and Disease 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduces animal and human stem cell biology and the application of stem cell biology to medicine.

CMDB 209 Ribonucleic Acid (rna) Biology 3

Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 107A or CBNS 101 or equivalent; or consent of instructor. A comprehensive overview of the multiple functions of ribonucleic acid (RNA) in the cell. Topics include mRNA, rRNA, and tRNA function and metabolism; RNA catalysis and the "RNA world"; eukaryotic and bacterial non-coding RNAs; and bacterial riboswitches. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with BCH 209, and GEN 209.

CMDB 210 Molecular Biology of Human Disease Vectors 3

Lecture, 2 hours; seminar, 1 hour. Prerequisite(s): consent of instructor. Covers the molecular aspects of vectors

transmitting most dangerous human diseases. Involves lectures and student presentations about current issues in molecular biology and genomics of vector insects and pathogens they transmit. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ENTM 210, and MCBL 210.

CMDB 211 Laboratory in Human Embryonic Stem Cell Culture 2

Lecture, 5 hours per quarter, laboratory, 40 hours per quarter, workshop, 5 hours per quarter. Prerequisite(s): consent of instructor. Introduces the methods used to culture human embryonic stem cells (hESC) in vitro. Provides hands-on experience in plating, passaging, culturing, differentiating, and freezing of hESC. Additional topics include staining colonies of hESC for pluripotency markers (including alkaline phosphatase); labeling colonies using immunohistochemistry; and performing chromosome squashes for evaluation of aneuploidy. Graded Satisfactory (S) or No Credit (NC).

CMDB 230 Molecular Plant-Microbial Interactions 3

Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 120/ MCBL 120/PLPA 120, or equivalents. A study of the physiology of host-pathogen interactions with emphasis on the metabolism of diseased plants, nature of pathogenicity, and defense mechanisms in plants. Cross-listed with PLPA 230, BPSC 230, and GEN 230.

CMDB 250 Special Topics in Cell, Molecular, and Developmental Biology 1 to 2

Seminar, 1 to 2 hours. Prerequisite(s): graduate standing. Oral presentations and intensive small-group discussion of selected topics in the area of special competence of each participant. Content emphasizes recent advances in the topic area and varies accordingly. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CMDB 255 Stem Cell Biology 1 Discussion, 10 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. Presents research data to an interdisciplinary group of stem cell biologists. Covers presentation skills and answering questions about research data. Fosters discussion of stem cell biology. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CMDB 256 Seminar in Stem Cell Biology 1

Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides opportunities to meet stem cell researchers from other campuses and learn about the latest developments in animal and human stem cell research. Includes investigators who focus on the potential application of stem cells to medicine. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CMDB 257 Seminar in Cell, Molecular, and Developmental Biology 1

Seminar, 1 hour. Prerequisite(s): graduate standing. Presentations by visiting scholars, CMDB faculty, and CMDB students on current research in cell, molecular, and developmental biology. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 30 units.

CMDB 258 Graduate Student Seminar in Cell, Molecular, and Developmental Biology 1

Seminar, 10 hours per quarter; one 1-day seminar. Prerequisite(s): graduate standing in Cell, Molecular, and Developmental Biology. An interdisciplinary seminar consisting of student presentations of original research and discussion of current research topics in cell, molecular, and developmental biology. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 30 units.

CMDB 281 (E-Z) Seminar in Cell Development, Structure, and Function 2

Seminar, 2 hours. Prerequisite(s): graduate standing. Lectures, discussions, and demonstrations by students, faculty, and invited scholars on selected subjects concerned with the principles of cell development, structure, and function. E. How Cells Know Where They Are; F. Inflammation in Cancer & Chronic Disease; G. Techniques in Genetic Analysis; Course is repeatable to a maximum of units. Cross-listed with BIOL 281 (E-Z).

CMDB 290 Directed Studies 1 to 6

Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Individual study, directed by a faculty member, of specially selected topics in cell, molecular, and developmental biology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CMDB 292 Concurrent Analytical Studies in Cell, Molecular, and Developmental Biology 2 to 4

Research, 6 to 12 hours. Prerequisite(s): graduate standing. Elected concurrently with an appropriate undergraduate course, but on an individual basis. Students are required to submit one or more graduate papers based on research or criticism related to the course. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CMDB 297 Directed Research 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing. Research and experimental studies conducted under the supervision of a faculty member on specially selected topics in cell, molecular, and developmental biology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CMDB 299 Research For the Thesis Or Dissertation 1 to 12

Research, 3 to 36 hours. Prerequisite(s): graduate standing. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

CMDB 301 Teaching of Cell, Molecular, and Developmental Biology at the College Level 1

Seminar, 1 hour. Prerequisite(s): graduate standing. A program of weekly meetings and individual formative evaluations required of new teaching assistants. Covers instructional methods and classroom/section activities most suitable for teaching Biology. Conducted by the Teaching Assistant Development Program. Graded Satisfactory (S) or No Credit (NC).

CHASS F1RST

Subject abbreviation: CHFY

College of Humanities, Arts, and Social Sciences

Dr. Christina Acoff, CHASS F1RST Director

1609 Humanities and Social Sciences

(951) 827-7831; Chassf1rst.ucr.edu

Committee in Charge

Steven Brint, Ph.D. (Sociology)

Peter Graham, Ph.D. (Philosophy)

Michael Jayme, M.F.A. (Creative Writing)

Vorris Nunly, Ph.D. (English)

Georgia Warnke, Ph.D. (Political Science)

CHASS F1RST provides first-year students with courses designed to help with the transition to UCR, a major research university setting, which involves high academic standards and rigorous course work. The courses offer students the resources and tools necessary to excel in the first year and beyond. They take place within a "learning-communities" framework so that students can successfully integrate into campus life.

Lower-Division Courses

CHFY 001 (E-Z) Chass F1rst Humanities

Course 4 Lecture, 3 hours. Prerequisite(s): restricted to class level standing of freshman, or sophomore. A College of Humanities, Arts, and Social Sciences course designed to introduce students to the humanities and to academic life. Segments of CHFY 001 (E-Z), CHFY 002 (E-Z), and/or CHFY 003 (E-Z) may be thematically and pedagogically linked.

CHFY 001E Chass F1rst Humanities Course:

Literature 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A literature course thematically and pedagogically linked to another CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 001F Chass F1rst Humanities Course:

Religious Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A religious studies course thematically and pedagogically linked to another CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 001I Chass F1rst Humanities Course:

History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A history course thematically and pedagogically linked to another CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 001J Chass F1rst Humanities Course:

Comparative Literature 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A comparative literature course thematically and pedagogically linked to another CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or a

CHFY 003 (E-Z) segment. Topics vary.

CHFY 001K Chass F1rst Humanities Course:

Hispanic Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A hispanic studies course thematically and pedagogically linked to another CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 001M Chass F1rst Humanities Course:

Philosophy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A philosophy course thematically and pedagogically linked to another CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 002 (E-Z) Chass F1rst Fine Arts

Course 4 Lecture, 3 hours. Prerequisite(s): restricted to class level standing of freshman, or sophomore. A College of Humanities, Arts, and Social Sciences course designed to introduce students to the fine arts and to academic life. Segments of CHFY 001 (E-Z), CHFY 002 (E-Z), and/or CHFY 003 (E-Z) may be thematically and pedagogically linked.

CHFY 002E Chass F1rst Fine Arts

Course: Theatre, Film, and Digital Production 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A theatre course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, another CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 002F Chass F1rst Fine Arts Course:

Music 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A music course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, another CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 002G Chass F1rst Fine Arts Course:

Media and Cultural Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A film and visual culture course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, another CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 002I Chass F1rst Fine Arts Course:

Dance 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A dance course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, another CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 002J Chass F1rst Fine Arts Course: Art

History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. An art history course thematically and pedagogically linked to a CHFY 001 (E-Z)

segment, another CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 002K Chass F1rst Fine Arts Course:

Creative Writing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A creative writing course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, another CHFY 002 (E-Z) segment, and/or a CHFY 003 (E-Z) segment. Topics vary.

CHFY 003 (E-Z) Chass F1rst Social Science

Course 4 Lecture, 3 hours. Prerequisite(s): restricted to class level standing of freshman, or sophomore. A College of Humanities, Arts, and Social Sciences course designed to introduce students to the social sciences and to academic life. Segments of CHFY 001 (E-Z), CHFY 002 (E-Z), and/or CHFY 003 (E-Z) may be thematically and pedagogically linked.

CHFY 003E Chass F1rst Social Science Course:

Anthropology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. An anthropology course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 003F Chass F1rst Social Science Course:

Economics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. An economics course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 003G Chass F1rst Social Science

Course: Political Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A political science course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 003I Chass F1rst Social Science Course:

Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A sociology course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 003J Chass F1rst Social Science Course:

Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A psychology course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 003K Chass F1rst Social

Science Course: Gender and Sexuality Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore

standing in the College of Humanities, Arts, and Social Sciences. A women's studies course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 003M Chass F1rst Social Science

Course: Ethnic Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. An ethnic studies course thematically and pedagogically linked to a CHFY 001 (E-Z) segment, a CHFY 002 (E-Z) segment, and/or another CHFY 003 (E-Z) segment. Topics vary.

CHFY 007 Chass F1rst Learning Community

Workshop 2 Workshop, 1 hour; activity, 3 hours. Prerequisite(s): freshman or sophomore standing in the College of Humanities, Arts, and Social Sciences. A workshop linked to a CHASS F1RST Learning Community lecture course. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

CHFY 010 Chass Gateway Lecture

Course 5 Lecture, 3 hours; discussion, 1 hour, workshop, 1 hour. Prerequisite(s): first-year freshman standing in the College of Humanities, Arts, and Social Sciences. A College of Humanities, Arts, and Social Sciences course designed to introduce freshmen to the College's annual theme.

CHFY 020 Theory and Practice of Peer

Instruction 4 Seminar, 4 hours. Prerequisite(s): consent of the CHASS F1RST Academic Advisor. An intensive examination of study development theory, retention models, and pedagogy related to peer-to-peer instruction.

Upper-Division Courses

CHFY 1981 Chass F1rst Individual Internship 1

to 4 Consultation, .5 to 2 hours; internship, 3 to 12 hours; written work, 1 to 4 hours. Prerequisite(s): approval of the CHASS F1RST Academic Coordinator Provides on-campus opportunities in the CHASS F1RST office to acquire skills and experience for future endeavors. Course is repeatable to a maximum of 8 units.

CHEMICAL AND ENVIRONMENTAL ENGINEERING

Francisco Zaera, Ph.D. (Chemistry)

Majors

The Department of Chemical and Environmental Engineering offers B.S. degrees in Chemical Engineering and in Environmental Engineering, and M.S. and Ph.D. degrees in Chemical and Environmental Engineering. For more details, see cee.ucr.edu.

Chemical Engineering focuses on transform-

ing raw materials into useful everyday products. Chemical engineers turn the discoveries of chemists and physicists into commercial realities. They find work in a variety of fields including pharmaceuticals, materials, chemical, fuels, pollution control, medicine, and nuclear and electronic industries. At UCR, the B.S. degree in Chemical Engineering offers students three options: Biochemical Engineering, focusing on biochemical processes; Nanotechnology, focusing on nanoscale processes; or Chemical Engineering, emphasizing traditional chemical engineering issues.

The program's educational objectives are to produce graduates who attain high levels of technical expertise to enable their achievement in diverse chemical engineering practice and research, or in allied careers, prepare them for graduate level education, and enable them to be successful members of the professional community, for the benefit of our constituents.

The Chemical Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org.

Environmental Engineering deals with design and construction of processes and equipment intended to lessen the impact of man's activities on the environment. With the growing importance of environmental quality, the environmental engineer plays a pivotal role in modern industrial activity. Environmental engineers are involved in a wide range of activities including the design of alternative fueled vehicles, the development of renewable energy sources, the design of equipment for solid waste collection and disposal, municipal and industrial wastewater treatment, air pollution control systems, and hazardous waste management. At UCR, the B.S. degree in Environmental Engineering allows students to concentrate on air and/or water quality.

The program's educational objectives are to produce graduates who attain high levels of technical expertise to enable their achievement in diverse environmental engineering practice and research, or in allied careers, prepare them for graduate level education, and enable them to be successful members of the professional community, for the benefit of our constituents.

The Environmental Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org.

All undergraduates in the College of Engineering must see an advisor at least annually. Visit student.engr.ucr.edu for details.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The Chemical Engineering major and the Environmental Engineering major use the following major requirements to satisfy the college's Natural Sciences and Mathematics breadth requirement.

1. BIOL 005A, BIOL 05LA
2. CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC

Major Requirements

Chemical Engineering

Students must choose either a Biochemical Engineering, Chemical Engineering or Nanotechnology option.

1. Lower-division requirements (76 units)

- a) BIOL 005A, BIOL 05LA
- b) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 008A, CHEM 008B, CHEM 008C, CHEM 08LA, CHEM 08LB, CHEM 08LC
- c) CS 010
- d) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B, MATH 046
- e) PHYS 040A, PHYS 040B, PHYS 040C
- f) CEE 010

2. Upper-division requirements (63 units)

- a) CEE 158
- b) CHE 100, CHE 110A, CHE 110B, CHE 114, CHE 116, CHE 117, CHE 118, CHE 120, CHE 122, CHE 160B, CHE 160C, CHE 175A, CHE 175B
- c) CHE 130/ENVE 130, CHE 160A/ENVE 160A
- d) ENGR 118

3. Option requirements: choose one option

- a) **Biochemical Engineering option (18 units)**
 - (1) BCH110A/BCH 100
 - (2) CHE 124, CHE 124L, CHE140
 - (3) Four (4) units of technical electives chosen from BIEN 125, BIEN 140A/CEE 140A, BIEN 159/CEE 159, BIOL 121/MCBL 121, CEE 125, CEE 132, CEE 135, CHE 102, CHE 150
- b) **Chemical Engineering option (16 units)**
 - (1) Sixteen (16) units of technical electives chosen from CEE 125 or CEE 135, CEE 132, CHE 102, CHE 131, CHE 136, CHE 171, ENVE 120, ENVE 133, ENVE 134, ENVE 138
- c) **Nanotechnology option (19 units)**
 - (1) CHE 105
 - (2) CHE 161
 - (3) CEE 135
 - (4) Eight (8) units of technical electives chosen from CHE 102, CHE 131, ENVE 133, ME 114, MSE 160, MSE 161

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Environmental Engineering

Students must choose either an Air Pollution Control Technology or a Water Pollution Control Technology option.

1. Lower-division requirements (76 units)

- a) BIOL 005A, BIOL 05LA
- b) CEE 010

- c) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 008A, CHEM 008B, CHEM 08LA, CHEM 08LB
- d) CS 010
- e) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B, MATH 046
- f) ME 010
- g) PHYS 040A, PHYS 040B, PHYS 040C

2. Upper-division requirements (69 units)

- a) CEE 158
- b) CHE 100, CHE 114, CHE 120
- c) ENGR 118
- d) ENSC 100/SWSC 100
- e) ENVE 120, ENVE 133, ENVE 135, ENVE 142, ENVE 146, ENVE 160B, ENVE 160C, ENVE 171, ENVE 175A, ENVE 175B
- f) ENVE 130/CHE 130, ENVE 160A/CHE 160A

3. Option requirements: choose one option (12 units)

- a) **Air Pollution Control Technology option**
 - (1) CHE 116
 - (2) ENVE 134
 - (3) Choose one from CEE 125, CEE 132, CHE 102, ENSC 135/CHEM 135/ENTX 135, ENVE 144/ENSC 144, ENVE 138, ENVE 145
- b) **Water Pollution Control Technology option**
 - (1) CHE 124 or ENVE 121
 - (2) Choose one from CEE 125, CHE 116, ENSC 136, ENSC 163
 - (3) Choose one from CEE 132, ENSC 155, ENVE 144/ENSC 144, ENVE 145

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Graduate Program

The Graduate Program in Chemical and Environmental Engineering offers training leading to the degrees of M.S. and Ph.D. in Chemical and Environmental Engineering. Fields of specialization include biochemical engineering and bioengineering, environmental biotechnology, air quality systems engineering, water quality systems engineering, thermodynamics, advanced materials, and nanotechnology.

Combined B.S. + M.S. Five-Year Program

The college offers combined B.S.+ M.S. programs in both Chemical Engineering and Environmental Engineering designed to lead to a Bachelor of Science degree as well as a Master of Science degree in five years. Applicants for this program must have a high school GPA above 3.6, a combined SAT Reasoning score above 1950 (or ACT plus Writing equivalent), complete the Entry Level Writing Requirement before matriculation, and have sufficient mathematics preparation to enroll in calculus in their first quarter as freshmen.

Interested students who are entering their junior year should check with their academic advisor

for information on eligibility and other details.

Admission

Applicants should have a degree in chemical and environmental engineering or closely related fields, have a satisfactory overall GPA from their undergraduate studies, good letters of recommendation, and high scores on the GRE General Test. Normally, students admitted to regular standing have satisfied all prerequisite course work. Under special circumstances, students who have not completed all undergraduate requirements may be admitted provided that the deficiencies are corrected to the satisfaction of the student's advisory committee within the first year of graduate study. Courses taken for this purpose do not count towards an advanced degree. International students, permanent residents, and even U.S. citizens whose native language is not English and who do not have a bachelor's or postgraduate degree from an institution where English is the exclusive language of instruction must complete the Test of English as a Foreign Language (TOEFL) with a minimum score of 550 (paper-based test), 213 (computer-based), or 80 (internet-based).

Language Requirement

All students whose native language is not English must achieve a "clear pass" on the TAST or SPEAK test before the completion of their first year or they will be asked to leave the program. However, for those who receive a "conditional pass," a departmental committee will evaluate their English proficiency before a final decision is made.

Course Work

To ensure that advanced degree recipients in the graduate program have advanced knowledge in mathematics and chemical engineering principles that form the foundation for chemical and environmental engineering, a core course program has been implemented. All M.S. and Ph.D. students must participate in the core course program. Students who have completed these (or equivalent) courses elsewhere may petition to have the core course requirement waived or some of their units transferred (see the Graduate Division policy for transferring course units). Competency in these areas will be tested as part of the comprehensive exam for M.S. students and in the written preliminary examination for Ph.D. students. The current core courses are as follows:

- CEE 200 (Advanced Engineering Computations)
- CEE 202 (Transport Phenomena)
- CEE 204 (Advanced Kinetics and Reaction Engineering)
- CEE 206 (Advanced Chemical Engineering Thermodynamics)

Academic Appeals Process

Policies and procedures relating to Academic Appeals can be found through the UCR Graduate Division link, graduate.ucr.edu/academic_affairs.html.

Incoming students without a B.S. degree in chemical or environmental engineering must demonstrate competency in these areas either by taking the appropriate undergraduate courses and/or by passing the written preliminary exam. At UCR, the required courses are CHE 100, CHE 110A, CHE 110B, ENVE 171, CHE 114, CHE 116, CHE 120, CHE 130, and ENGR 118.

Students may also be required to take some of the above courses to satisfy the prerequisites of the core graduate courses.

Each quarter, all M.S. and Ph.D. students in residence must enroll in CEE 286 (Colloquium in Chemical and Environmental Engineering). In addition, all M.S. and Ph.D. students must participate each year in the CEE Graduate Student Symposium, usually held just before the beginning of the fall quarter.

Professional Development Training

1. Two sessions of CEE 286 each quarter will be dedicated to professional development. The subjects will include but are not limited to: research ethics, scientific and technical writing, academic careers, employment opportunities beyond academia, and professional networking.
2. A weekly one hour networking meeting with a visiting colloquia speaker.
3. Fall quarter fellowship/grant writing workshops. Focus will be on incoming domestic students applying for NSF graduate fellowships.

Master's Degree

The Department of Chemical and Environmental Engineering offers the M.S. degree in Chemical and Environmental Engineering.

Plan I (Thesis) requires completion of a minimum of 36 units of approved course work including the core courses and submission of an acceptable M.S. thesis. At least 24 of these units must be in regular lecture graduate courses (200 series courses). No more than 4 units of CEE 290 or CEE 297 combined and 6 units of CEE 286 or special topics courses (CEE 250 or CEE 260 series) may apply towards the 36 units.

Plan II (Comprehensive Examination)

requires completion of a minimum of 36 units of approved course work including the core courses and successful passage of a comprehensive examination. At least 28 of these units must be in regular lecture graduate courses (200-series courses), and none may be in courses numbered CEE 286, CEE 290, CEE 297, CEE 299, or CEE 302.

Examination – The exam consists of three written tests in three different areas emphasizing graduate level fundamental knowledge and breadth of the study area rather than specifics covered in individual courses. Exams areas can include, but are not limited to:

1. Advanced Air Pollution Control and Engineering
2. Advanced Chemical Engineering Thermodynamics
3. Advanced Kinetics and Reaction Engineering
4. Physical and Chemical Separation Processes
5. Transport Phenomena

An oral follow-up session may be requested by the examination committee following its evaluation of the written exam. No more than two attempts to pass the exam are allowed. Students who fail the exam once and then want to switch to the thesis plan should contact the graduate advisor. Students who fail the exam twice may not switch to the thesis plan.

The Comprehensive Exam is only offered once an academic year during the Spring quarter. Students should state intent to take the exam by week 10 of Winter quarter.

Plan II (Comprehensive Examination, Industrial Biotechnology concentration)

requires completion of a minimum of 36 units of approved course work including the industrial biotechnology related courses CHE 124, CHE 124L, CEE 210, CEE 211, CEE 212, CEE 236, CEE 238A, CEE 238B, CEE 238C, CEE 248, and CEE 298-I. A minimum of 2 units of CEE 298-I is required. Students who elect the Industrial Biotechnology track must complete an industry-based research project with accompanying written report. This project serves in lieu of a comprehensive final examination. Students whose project and report are deemed "not acceptable" are given one additional quarter to revise them to an "acceptable" level.

For the M.S. degree, students must complete a minimum of three quarters in residence in the UC with a GPA of 3.00 or better in all 100- and 200-level course work related to the degree.

Thesis Committee

The committee consists of three members. The student and advisor nominate the committee before the end of the first year with the concurrence of the graduate committee. After review of the nominations, the dean of the Graduate Division appoints the committee on behalf of the Graduate Council. The committee, once approved by the graduate dean, rather than the department, becomes responsible for the student's academic guidance and evaluation. The chairman of the committee is the director of the candidate's research and is normally a faculty member of the CEE department or a cooperating faculty member. A member may be appointed who is a researcher on campus, from off-campus, or a visiting lecturer within the department; however, a memo indicating the academic degree and affiliation of the nominated member, as well as a curriculum vitae, must accompany such a request. (Memos need not accompany the nomination of an adjunct faculty member.) After the committee is formed, the committee must approve the subject of the thesis. A joint meeting of the committee members and the student should be held before work on the thesis is begun to ensure the topic is clear and acceptable to all. Once the thesis is completed, all three members of the committee must approve the thesis and sign the title page. Students must give a departmental seminar presentation of their thesis work to the department and members of the academic community before completing the thesis.

Normative Time to Degree 6 quarters

Doctoral Degree

The Department of Chemical and Environmental Engineering offers the Ph.D. degree in Chemical and Environmental Engineering. Satisfying the requirements for the degree consists of four parts:

1. Successful completion of an approved program of course work
2. Passing a written preliminary examination
3. Approval of a dissertation proposal
4. Defense and approval of the dissertation

Course Work

Upon choosing a faculty advisor, each Ph.D. student is appointed a Ph.D. advisory committee consisting of two CEE faculty members and the faculty advisor. This advisory committee is responsible for guiding the students in formulating their research activities and preparing for the preliminary and qualifying exams.

The program of course work is formulated by each student and a faculty advisor in the first or second quarter after admission to the program and must be approved by the student's advisor and advisory committee. Every student must complete a program of study that includes:

1. A major area of study intended to increase the student's depth of knowledge in an engineering research specialty and
2. A minor area of study intended to support and increase the student's breadth of knowledge in the major area

The CEE graduate program requires a coherent program of:

1. Sixteen (16) units of core courses and
2. Eight (8) units of graduate and/or upper-division work approved by the advisory committee

None of these credits may be in courses numbered between CEE 250 and CEE 270, CEE 286, CEE 290, CEE 297, CEE 299, or CEE 302.

Preliminary Examination

The preliminary examination tests students' understanding of the fundamental principles of chemical and environmental engineering at the undergraduate level. This comprehensive examination consists of three written tests in three different areas selected from the following five subjects:

1. Thermodynamics
2. Kinetics
3. Transport (heat and mass transfer, fluid dynamics)
4. Air pollution control and engineering
5. Water quality engineering

The three subjects selected should be closely connected to the student's undergraduate training and approved by the student's advisory committee. Students who fail all three subjects on the preliminary exam must leave the Ph.D. program.

Preliminary Examination Retest – Students who fail one or two subjects of the exam are granted a final attempt to pass a makeup written examination that includes an oral defense of their answers in front of a faculty committee.

Students who fail one or two subjects after the retest must enroll in remedial undergraduate courses and pass with a grade of "B+" or better. Credits from these remedial courses do not count toward the Ph.D. course work requirement. Students who fail all three subjects after the retest must leave the Ph.D. program.

Teaching Requirement

All students must be employed as teaching assistants for at least one quarter. All TAs must take CEE 302 (Teaching Practicum) to help them learn effective teaching methods such as handling discussion sections; preparing and han-

dling laboratory sections; preparing and grading homework, examinations, and lab reports; and student relations.

Oral Qualifying Examination

Selection of the Qualifying Committee is as follows: 2 members are selected by the Graduate Committee, 2 members are selected by the student, and the student's advisor will chair the committee. All members of the qualifying committee are expected to have the appropriate expertise to guide and evaluate a candidate's research. No more than 1 member can be a non-academic senate member. After review of the nominations, the dean of the Graduate Division appoints the committee on behalf of the Graduate Council. This committee becomes responsible for the student's academic guidance and evaluation until advancement to candidacy and administers the qualifying examination.

Dissertation Proposal

After successful completion of the written preliminary examination, each student, with advisement from an advisor, prepares a dissertation proposal. Typically, students submit a dissertation proposal to their qualifying committee within one year after successfully completing the written preliminary examination. The proposal should clearly demonstrate the student's adequate preparation for the completion of the thesis research, which includes but is not limited to a thorough review of the pertinent literature, a presentation and discussion of the candidate's own research, and a detailed research plan with sufficient breadth and depth for the completion of the thesis. The qualifying committee chair schedules an oral defense normally within one month of the written proposal submission. The presentation is given only to the dissertation committee members.

The oral presentation/defense of the proposal focuses on the dissertation problem. Students should demonstrate considerable depth of knowledge in the student's area of specialization and a clear understanding of the research methods that are needed for successful completion of the dissertation research. The oral presentation/defense begins with a presentation by students on their dissertation topic and is followed by questions and suggestions from the qualifying committee.

On the basis of the written proposal and oral defense, the qualifying committee decides whether the student should be advanced to candidacy, asked to modify and enhance the proposal, or requested to withdraw from the program.

Dissertation and Final Oral Examination

Following advancement to candidacy, students formally focus on their dissertation research. The progress of the dissertation is monitored by the student's dissertation committee. Candidates should interact frequently with members of their dissertation committee to insure that dissertation progress is acceptable.

The graduate committee nominates and approves the dissertation committee after consideration of the suggestions made by the student and thesis advisor. The dissertation committee consists of a minimum of three UCR Academic Senate members. The chair and majority of members must be from Chemical and Environmental Engineering. All committee members

should be in a position to offer guidance and be able to judge the scholarship of the dissertation work. Upon recommendation of the graduate advisor, doctoral dissertation committees are appointed by the dean of the Graduate Division.

After completing the dissertation research, students must submit a written copy of the dissertation for approval for defense by the student's dissertation committee. Once a draft has been approved, an oral defense of the dissertation is scheduled. This defense consists of a seminar open to the entire academic community, followed by a question-and-answer period conducted by the dissertation committee.

Students must complete at least six quarters in residence in the UC with a GPA of 3.00 or better in all 100- and 200-level course work related to the degree.

Normative Time to Degree

Three years for students with a UCR M.S. degree in Chemical and Environmental Engineering (five years for those without an M.S. degree in Chemical and Environmental Engineering)

Lower-Division Courses

CEE 010 Introduction to Chemical and

Environmental Engineering 1 Lecture, 1 hour. Prerequisite(s): none. An introduction to chemical and environmental engineering for engineering and nonengineering majors. Aims to enrich an appreciation of chemical, biochemical, and environmental engineering. Discusses typical careers, key applications, latest developments and the need to engage in lifelong learning in the field. Graded Satisfactory (S) or No Credit (NC).

CEE 011 Introduction to

Bioengineering 2 Lecture, 1 hour; laboratory, 3 hours. An introduction to bioengineering for engineering and nonengineering majors. Discusses the application of concepts and methods of the physical sciences and mathematics to problems in the life sciences. Covers typical careers, key applications, latest developments in the field, and the need to engage in lifelong learning. Provides hands-on experiences and includes a field trip. Graded Satisfactory (S) or No Credit (NC).

Upper-Division Courses

CEE 125 Analytical Methods For Chemical and Environmental Engineers 4

Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): CEE 010 (CEE 010 may be taken concurrently); CHEM 001C and CHEM 01LC; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; PHYS 040C or PHYS 040HC. Examines chromatographic separations, mass spectrometry, atomic absorption, and electrophoresis. Presents total carbon analysis as an introduction to analytical methods and their use in the chemical and environmental engineering fields.

CEE 132 Green Engineering 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 110A or ENVE 171, senior standing or consent of instructor. An introduction to the design, commercialization, and use of feasible and economical processes and products that minimize risks to human health and the environment. Topics covered include

environmental risk assessment; regulations; chemical process flow-sheet analysis for pollution prevention; product life-cycle assessment; and industrial ecology. Credit is awarded for only one of CEE 132 or CEE 232.

CEE 135 Chemistry of Materials 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; PHYS 040C or PHYS 040HC. An introduction to the synthesis, structure, properties, and performance of modern materials. Topics include the science of materials, bonding and structure, the strength of materials, electrons in materials, semiconductors, superconductors, and optical properties of materials.

CEE 136 Aerosol Technology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in CHE 120. Explores the physical and chemical properties of aerosol and its relationship to ambient air quality, control technology, health impacts, and global climate change. Introduces the principles of aerosol measurement and aerosol measurement technology.

CEE 140A Biomaterials 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIEN 101 or BCH 100, MATH 010B, PHYS 040B or PHYS 040HB; or consent of instructor. Covers the principles of materials science and engineering, with attention to topics in bioengineering. Explores atomic structures, hard treatment, fundamentals of corrosion, manufacturing processes, and characterization of materials. Cross-listed with BIEN140A.

CEE 140B Biomaterials 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 040B or PHYS 040HB; Covers the structure-property relations of metals, ceramics, polymers, and composites, as well as hard and soft tissues such as bone, teeth, cartilage, ligament, skin, muscle, and vasculature. Focuses on behavior of materials in the physiological environment. Cross-listed with BIEN140B.

CEE 158 Professional Development For

Engineers 3 Lecture, 3 hours. Prerequisite(s): upper-division standing. A review of various topics relevant to the professional development of chemical engineers. Includes career paths; interview strategies; professional registration and preparation for certification examinations; ethics; risk management and environmental health and safety; regulatory issues; and lifelong learning.

CEE 159 Dynamics of Biological

Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005B, MATH 046; or consent of instructor. Covers engineering principles for the analysis and modeling of biological phenomena. Topics include molecular diffusion and transport, membranes, ligand-bioreceptor interactions, enzyme kinetics, and dynamics of metabolic pathways. Examines the application of these principles to the design of bioreactors, bioassays, drug delivery systems, and artificial organs. Cross-listed with BIEN 159.

CEE 197 Research For Undergraduates 1

to 4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor and Chemical and Environmental Engineering undergraduate program advisor. Directed research on a

topic relevant to chemical and environmental engineering. Requires a final written report. Course is repeatable to a maximum of 8 units.

CHEMICAL ENGINEERING

Upper-Division Courses

CHE 100 Engineering

Thermodynamics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C, MATH 046 (or concurrent enrollment), PHYS 040B or PHYS 040HB; or consent of instructor. An introduction to engineering thermodynamics with emphasis on chemical and environmental engineering systems. Topics include concepts of equilibrium, temperature, and reversibility; the first law and concept of energy; and the second law and concept of entropy. Also examines equations of state, thermodynamic properties, and engineering applications used in the analysis and design of closed and open systems. Credit is awarded for only one of CHE 100 or ME 100A.

CHE 102 Catalytic Reaction

Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 122 or consent of instructor. Principles of surface reactions and heterogeneous catalysis. Catalyzed reaction kinetics, heterogeneous reactions, diffusion and heterogeneous catalysis, analysis and design of heterogeneous reactors.

CHE 105 Introduction to Nanoscale

Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CEE 135, MATH 010A, PHYS 040C or PHYS 040HC; or consent of instructor. An introduction to nanotechnology engineering and its various applications. Includes electromagnetic waves and quantum mechanics; synthesis of nanostructures; assembly of nanostructures; and traditional and nontraditional methods of nanolithography and interactions between electronic and optical properties. Also covers organic heterostructures, nanotubes, and quantum computing.

CHE 110A Chemical Process

Analysis 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C, MATH 009C, PHYS 040B or PHYS 040HB; or consent of instructor. Introduces the principles of conservation of mass in chemical process systems. Topics include the development of steady-state mass balances, and application of mass balances to existing industrial processes.

CHE 110B Chemical Process

Analysis 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): CHE 110A with a grade of "C-" or better; or consent of instructor. Applies principles of conservation of energy to chemical process systems. Topics include the development of steady-state and unsteady-state energy balances as well as combined mass and energy balances in industrial processes.

CHE 114 Applied Fluid Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 110A or ENVE 171, MATH 010A, MATH 046, PHYS 040B or PHYS 040HB; or consent of instructor. An introduction to fluid statics, fluid flow, and flow of compressible and

incompressible fluids in conduits and open-channel flow. Also covers flow past immersed bodies, transportation and metering of fluids, and agitation and mixing of liquids. Credit is awarded for only one of CHE 114 or ME 113.

CHE 116 Heat Transfer 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100, CHE 114 with a grade of "C-" or better; or consent of instructor. An analysis of heat transfer for Chemical Engineering and Environmental Engineering majors. Topics include steady- and unsteady-state heat conduction, forced convection, basic radiation heat transfer, and design of heat exchangers. Credit is awarded for only one of CHE 116 or ME 116A.

CHE 117 Separation Processes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 116, CHE 120; or consent of instructor. Covers fundamental concepts and practical techniques for designing equipment based on equilibrium stage processes. Explores gas-liquid absorption, distillation, liquid-liquid extraction, solid-liquid extraction, humidification, drying, and membrane processes.

CHE 118 Process Dynamics and

Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 117, CHE 122, ENGR 118; or consent of instructor. Fundamentals of process control. Feedback and feedforward control of dynamic processes. Frequency response analysis. Introduction to multivariable control.

CHE 120 Mass Transfer 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 114 with a grade of "C-" or better, MATH 046; or consent of instructor. Introduction to analysis of mass transfer in systems of interest to chemical and environmental engineering practice. Explores transport of matter by diffusion, free, and forced convection.

CHE 122 Chemical Engineering

Kinetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100, CHE 110B, CHE 120 (may be taken concurrently), ENGR 118; or consent of instructor. Introduction to homogeneous and heterogeneous kinetics and reactor design for chemical and biochemical processes.

CHE 124 Biochemical Engineering

Principles 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110HA or BCH 110A; CHE 120, CHE 122. Examines the principles of biochemical engineering. Topics include kinetics of enzymatic reactions and microbial growth, batch and continuous culture reactors, product formulation, and nutrient utilization. Also studies oxygen transfer, bioreactor scale-up, air and media sterilization, fundamentals of bioreactor design, and bioseparations.

CHE 124L Biochemical Engineering

Laboratory 2 Laboratory, 6 hours. Prerequisite(s): CHE 124 or consent of instructor. Laboratory practices in biochemical engineering. Determination of microbial kinetics and biologically mediated reactions, oxygen transfer coefficients. Batch and continuous culturing, air and media sterilization, bioseparations.

CHE 130 Advanced Engineering

Thermodynamics 4 Lecture, 3 hours;

discussion, 1 hour. Prerequisite(s): CHE 100 or consent of instructor. Advanced study of chemical thermodynamics and their applications to chemical and environmental engineering processes. Applies principles for the thermodynamic behavior of pure solutions and mixtures, phases, and chemical equilibria for homogeneous and heterogeneous systems to a variety of processes common to chemical and environmental engineering. Cross-listed with ENVE 130.

CHE 131 Electrochemical

Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100, CHE 120, CHE 122; or consent of instructor. Explores role of thermodynamics, charge transfer kinetics, and mass transfer on behavior of electrochemical systems. Includes cell thermodynamics, faradaic and non-faradaic rate processes, ionic transport, nucleation and growth theories. Shows applications to chemical sensors, batteries, corrosion, and thin film deposition. Provides in-class demonstrations to illustrate concepts.

CHE 136 Advanced Topics in Heat

Transfer 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 116, CHE 120. Advanced study of the computational and theoretical methods associated with heat transfer, fluid flow, and other related processes. Topics include phenomena of heat conduction, convection, and the calculation of flow fields.

CHE 140 Cell Engineering 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHE 124 or consent of instructor. Introduction to genetic and environmental manipulation of cells for production of proteins and for enhanced biocatalytic and synthetic activities. Cloning and gene expression in different host systems, posttranslational processing, metabolic controls and kinetics, in vivo NMR spectroscopy, cell modeling, and sensitivity analysis. Credit is awarded for only one of CEE 210 or CHE 140.

CHE 150 Biosensors 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): BCH 184 or CHE 124 or consent of instructor. Introduces the fundamentals and applications of biosensors. Topics on enzyme-, whole cell-, tissue-, and antibody/antigen-based electrochemical, optical, and piezoelectric biosensors for applications in bioprocess monitoring and control, environmental monitoring, and health care are covered.

CHE 160A Chemical and Environmental

Engineering Laboratory 3 laboratory, 6 hours; written work, 3 hours. Prerequisite(s): CHE 114, CHE 120. Involves laboratory exercises in chemical and environmental engineering. Experiments cover physical measurements, fluid mechanics, and mass transfer. Emphasizes experimental design, analysis of results, and preparation of engineering reports. Cross-listed with ENVE 160A.

CHE 160B Chemical Engineering

Laboratory 3 Laboratory, 6 hours; written work, 3 hours. Prerequisite(s): CHE 116, CHE 122. Consists of laboratory exercises in chemical engineering. Includes experiments in physical measurements, heat transfer, reactor analysis, and chemical kinetics. Emphasis is on

experimental design, analysis of results, and preparation of engineering reports.

CHE 160C Chemical Engineering

Laboratory 3 Laboratory, 6 hours; written work, 3 hours. Prerequisite(s): CHE 117, CHE 118 (CHE 117 and CHE 118 may be taken concurrently), CHE 122. Consists of laboratory exercises in chemical engineering. Includes experiments and simulations in separation processes and in process control. Emphasis is on experimental design, analysis of results, and preparation of engineering reports.

CHE 161 Nanotechnology Processing

Laboratory 3 Laboratory, 6 hours; written work, 3 hours. Prerequisite(s): CHE 100 or consent of instructor. An introduction to growth and characterization techniques that involve nanomaterials and devices. Includes preparing thin films; synthesizing Au and CdS nanoparticles; synthesizing carbon nanotubes; synthesizing alumina nanotemplate; synthesizing gold and nickel nanowires; and assembling of nanowires. Also includes imaging samples with optical, scanning electron microscope, scanning tunneling microscope, and atomic force microscope.

CHE 171 Pollution Control For Chemical Engineers 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHE 117 or consent of instructor. Principles of industrial pollution control in chemical engineering plants. Regulations, criteria, measurements, and pollution control systems associated with air, wastewater, and solid waste management.

CHE 175A Chemical Process Design 4 Lecture, 1 hour; laboratory, 6 hours; consultation, 1 hour. Prerequisite(s): CHE 117, CHE 122, MATH 010B, senior standing in Chemical Engineering; CHE 118 (may be taken concurrently).

Introduction to chemical process plant design procedures through economic analysis and actual design of chemical processes. Addresses practical applications to current chemical and biochemical processes and economic constraints. Concentrates on general design considerations and economic principles. Graded In Progress (IP) until CHE 175A and CHE 175B are completed, at which time a final, letter grade is assigned.

CHE 175B Chemical Process Design 4 Lecture, 1 hour; laboratory, 6 hours; consultation, 1 hour. Prerequisite(s): CHE 175A; senior standing in Chemical Engineering. Introduction to chemical process plant design procedures through economic analysis and actual design of chemical processes. Topics address practical applications to current chemical and biochemical processes and economic constraints. Students complete a detailed analysis and process design of the projects begun in CHE 175A. A final report and oral presentation are required. Satisfactory (S) or No Credit (NC) grading is not available.

CHE 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum of 9 units.

ENVIRONMENTAL ENGINEERING

Upper-Division Courses

ENVE 120 Unit Operations and Processes in Environmental Engineering 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 120, ENVE 142; or consent of instructor. Introduction to physical and chemical processes used for drinking water and wastewater treatment. Topics include coagulation and flocculation, sedimentation, granular-medium filtration, membrane disinfection, and softening. Credit is awarded for only one of CEE 225 or ENVE 120.

ENVE 121 Biological Unit Processes 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENVE 120, ENVE 142. An introduction to the theory and design of biological unit processes used in environmental engineering. Covers suspended growth processes, attached growth processes, digestion processes, and nutrient removal systems. Credit is awarded for only one of CEE 226 or ENVE 121.

ENVE 130 Advanced Engineering

Thermodynamics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100 or consent of instructor. Advanced study of chemical thermodynamics and their applications to chemical and environmental engineering processes. Applies principles for the thermodynamic behavior of pure solutions and mixtures, phases, and chemical equilibria for homogeneous and heterogeneous systems to a variety of processes common to chemical and environmental engineering. Cross-listed with CHE 130.

ENVE 133 Fundamentals of Air Pollution

Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 110A or ENVE 171; CHE 114; CHEM 008B and CHEM 08LB or CHEM 08HC and CHEM 08HLC; MATH 046; PHYS 040B or PHYS 040HB; or consent of instructor. Covers principles, modeling, and design of systems for atmospheric emission control of pollutants such as photochemical smog and by-products of combustion. Explores the effects of air pollution on health. Credit is awarded for only one of ENVE 133 or CEE 243.

ENVE 134 Technology of Air Pollution

Control 4 Lecture, 4 hours. Prerequisite(s): ENVE 133. Processes and design of control technologies for gaseous and particulate pollutants. Methods and design of ambient air quality measurements and air pollution source sampling for both gaseous and particulate pollutants.

ENVE 135 Fate and Transport of Environmental

Contaminants 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 120; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; ENGR 118; ENVE 133; ENVE 142; or consent of instructor. Covers fate and transport of contaminants in the air, water, and soil environments. Addresses description and modeling of advection, dispersion, phase transfer, and chemical transformation mechanisms.

ENVE 138 Combustion Engineering 4 Lecture, 4 hours. Prerequisite(s): CHE 114, ENVE 133. Covers the fundamental development of the engineering and design principles underlying combustion engines and turbines and the associated emission control technology. Includes aspects of fuels, lubricants, instrumentation, chemistry of combustion, and kinetics related to the understanding of engineering processes, engine design, and emission control.

ENVE 140 Aquatic Chemistry 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100, ENVE 142; or consent of instructor. An introduction to the chemical principles and equilibrium models used to describe the behavior of natural water systems, water and wastewater treatment processes, and pollutant transformations in the aqueous environment. Topics include acid-base chemistry, precipitation, complexation, and redox reactions. Credit is awarded for only one of CEE 241 or ENVE 140.

ENVE 142 Water Quality Engineering 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 114 or ENVE 171; or consent of instructor. An introduction to the engineering aspects of water quality management. Addresses water quality characterization and modeling techniques for natural and engineered systems. Discusses application of chemical equilibrium and kinetic models to water quality.

ENVE 144 Solid Waste Management 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 002 or BIOL 005A, BIOL 05LA; CHEM 001C, CHEM 01LC or CHEM 01HC, CHEM 01HLC; ENSC 001 or ENSC 001H, ENSC 002 or ENSC 002H or ENVE 171; MATH 007B or MATH 009B or MATH 09HB; or consent of instructor. A study of the characterization, collection, transportation, processing, disposal, recycling, and composting of municipal solid waste. Emphasizes accepted management strategies and design procedures for recovering or disposing solid wastes while protecting public and environmental well-being. Cross-listed with ENSC 144.

ENVE 145 Hazardous Waste

Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENVE 120 and ENVE 142. Advanced course in the study of physico-chemical, thermal, and biological treatment of hazardous waste. Emphasis is placed on the technical understanding and design of physical, biological, and thermal treatment methods; transportation of hazardous waste; and hazardous waste characterization and site assessment.

ENVE 146 Water Quality Systems

Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 114 or consent of instructor. Analysis and design of water conveyance systems including water distribution networks, wastewater and storm water collection systems, structures for flow measurement and control, and pumps and pump stations. Includes projects to develop design process skills including problem specification, modeling, and analysis.

ENVE 160A Chemical and Environmental

Engineering Laboratory 3 laboratory, 6 hours; written work, 3 hours. Prerequisite(s): CHE

114, CHE 120. Involves laboratory exercises in chemical and environmental engineering. Experiments cover physical measurements, fluid mechanics, and mass transfer. Emphasizes experimental design, analysis of results, and preparation of engineering reports. Cross-listed with CHE 160A.

ENVE 160B Environmental Engineering

Laboratory 3 laboratory, 6 hours; written work, 3 hours. Prerequisite(s): ENVE 133. Consists of laboratory exercises in environmental engineering. Includes experiments in physical measurements, reaction kinetics, reactor analysis, and air pollution engineering. Emphasis is on experimental design, analysis of results, and preparation of engineering reports.

ENVE 160C Environmental Engineering

Laboratory 3 Laboratory, 6 hours; written work, 3 hours. Prerequisite(s): ENVE 120, ENVE 142. Consists of laboratory exercises in environmental engineering. Includes experiments in physical measurements, water quality, and unit operations and processes. Emphasis is on experimental design, analysis of results, and preparation of engineering reports.

ENVE 171 Fundamentals of Environmental Engineering 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C, MATH 009C, PHYS 040B or PHYS 040HB; or consent of instructor. An introduction to mass and energy balances. Includes an overview of contaminants and their effects on human health and the environment. Provides a basic understanding of contaminants, their sources, and their movement and fate in the environment.

ENVE 175A Senior Design Project 4

Lecture, 1 hour; laboratory, 6 hours; consultation, 1 hour. Prerequisite(s): ENVE 120; Restricted to class level standing of senior; Restricted to major(s) Environmental Engineering, Environmental Engr BS + MS. Under the direction of a faculty member, students (individually or in small teams with shared responsibilities) propose, design, build, and test environmental engineering devices or systems. Requires a written report giving details of the project and test results and an oral presentation of the design aspects. Graded in-progress until ENVE 175A and ENVE 175B are completed at which time a final letter grade is assigned.

ENVE 175B Senior Design Project 4

Lecture, 1 hour; laboratory, 6 hours; consultation, 1 hour. Prerequisite(s): senior standing in Environmental Engineering; ENVE 175A. Under the direction of a faculty member, students (individually or in small teams with shared responsibilities) propose, design, build, and test environmental engineering devices or systems. A written report, giving details of the project and test results, and an oral presentation of the design aspects are required. Satisfactory (S) or No Credit (NC) grading is not available.

ENVE 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum of 9 units.

Graduate Courses

CEE 200 Advanced Engineering

Computation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGR 118 or consent of instructor. For CEE 200 online section: enrollment in the Online Master-of-Science in Engineering program. Problem-solving techniques for basic engineering systems including heat and mass transfer, coupled reactions, fluid flow potential, and control.

CEE 202 Transport Phenomena 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 114, CHE 116, CHE 120, ENGR 118; or consent of instructor. For CEE 202 online section: enrollment in the Online Master-in-Science in Engineering program. Topics include transport phenomena, potential flow, and boundary layer theories with applications to simultaneous heat, momentum, and mass transfer. Introduces numerical techniques used to solve advanced transport phenomena problems.

CEE 203 Biomass Conversion to Fuels,

Chemicals, Materials, and Power 4

Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of the instructor. Provides current and future sustainable technologies for energy production. Includes key physical and chemical principles governing performance. Considers economics and life cycle implications of energy options. Examines current and projected energy use patterns and impacts on the environment. Considers energy policies that can facilitate introduction of sustainable energy production systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CEE 204 Advanced Kinetics and Reaction

Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of the instructor. For CEE 204 online section: enrollment in the Online Master-of-Science in Engineering program. Emphasizes kinetics and mechanisms of heterogeneous reactions in different types of reactors. Specific topics include gas-solid noncatalytic reactions; catalytic surfaces and catalyst characterization; and adsorption, diffusion, reaction, and heat transfer in porous catalysts.

CEE 206 Advanced Chemical Engineering

Thermodynamics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 130/ENVE 130 or consent of instructor. For CEE 206 online section: enrollment in the online Master-in-Science in Engineering program. Application of the laws of thermodynamics to phase and chemical reaction equilibrium. Introduction to statistical thermodynamics, molecular simulations, and the evaluation of thermodynamic properties from molecular simulations.

CEE 210 Cell Engineering 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHE 124 or consent of instructor. Introduction to genetic and environmental manipulation of cells for production of proteins and for enhanced biocatalytic and synthetic activities. Topics include cloning and gene expression in different host systems, posttranslational processing, metabolic controls and kinetics, in vivo nuclear magnetic resonance spectroscopy, cell modeling, and sensitivity analysis. Credit is awarded for only one of CEE 210 or CHE 140.

CEE 211 Upstream Processes in

Biotechnology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 124, CEE 236, graduate standing; or consent of instructor. Introduces the techniques and laboratory practices of upstream processes including mammalian, animal, and plant cell culture, protein engineering, and bioproduct design. Topics covered include antibody, protein, and biomolecule design, production of proteins and biomolecules by cell culture, and media formulation, sterilization, and quality control of upstream processes.

CEE 212 Bioseparations and Bioprocess

Engineering 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 124 or consent of instructor. Examines fundamentals of separation processes used to isolate and purify biochemical products such as whole cells, enzymes, food additives, and pharmaceuticals. Covers selected aspects of biochemical engineering such as microbial interactions, economics, and mathematical modeling of bioprocesses.

CEE 220 Modeling Chemical, Biochemical, and

Environmental Processes 4

Lecture, 2 hours; discussion, 2 hours. Prerequisite(s): graduate standing in Chemical and Environmental Engineering or consent of instructor. Introduces simulation softwares and the use of numerical simulation to solve dynamic chemical, biochemical, and environmental problems. Topics include model formulation and development, model sensitivity studies, and application of simulations to chemical, biochemical, and environmental processes.

CEE 221 Introduction to

Microfluidics 4

Lecture, 4 hours. Prerequisite(s): CHE 160A/ENVE 160A or consent of instructor. Provides a theoretical and practical introduction to microfluidic devices. Covers traditional and new methods for making microfluidic devices and assembly of components into systems. Emphasizes the considerations underlying the design or operation of devices based on pressure-driven or electrokinetic flow. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CEE 225 Physical-Chemical Separation

Processes 4

Lecture, 4 hours. Prerequisite(s): graduate standing in Chemical and Environmental Engineering or consent of instructor. CEE 225 online section: enrollment in the Online Master-in-Science in Engineering program. Covers concepts of physical and chemical processes relevant to engineered and natural environmental systems. Topics include basic colloid chemistry, DLVO theory, coagulation and flocculation, mechanisms of particle removal in filters and transport in porous media, absorption, disinfection, control of disinfection by-products, and advanced treatment processes such as membranes. Credit is awarded for only one of CEE 225 or ENVE 120.

CEE 226 Biological Unit Processes 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 120, ENVE 142; or consent of instructor. CEE 226 online section: enrollment in the Online Master-in-Science in Engineering program. Theory and design of biological unit processes used in environmental engineering. Suspended

growth processes, attached growth processes, digestion processes, and nutrient removal systems are covered. Credit is not awarded for CEE 226 if already awarded for ENVE 121.

CEE 230 Biosensors 4 Lecture 2, Laboratory 6, Prerequisite(s): BCH 110A or BCH 110HA, BCH 110B or BCH 110HB, BIOL 121/MCBL 121, CHE 124; or consent of instructor. Introduces the fundamentals and applications of biosensors. Covers enzyme-, whole cell-, tissue-, and antibody- or antigen-based electrochemical, optical, and piezoelectric biosensors. Applies such knowledge to bioprocess monitoring and control, environmental monitoring, and health care.

CEE 231 Scattering and Reflectometry For Environmental, Material, and Biological Applications 4 Lecture, 3 hours discussion, 5 hours per quarter; laboratory 15 hours per quarter. Prerequisite(s): CEE 206 or equivalent. Covers experimental and theoretical aspects of conventional static and dynamic light scattering, small-angle X-ray scattering, small-angle neutron scattering, X-ray and neutron reflectivity for colloids and biological solutions, surfaces, and interfaces. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CEE 232 Green Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 120 or consent of instructor. A study of the design, commercialization, and use of feasible and economical processes and products that minimize risks to human health and the environment. Topics include environmental issues, risk assessment, and regulations; flow of chemical and manufacturing unit processes and flow-sheet analysis for pollution prevention; product life-cycle assessment; and industrial ecology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Credit is awarded for only one of CEE 132 or CEE 232.

CEE 233 Advanced Air Pollution Control and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CEE 202, CEE 206, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLC, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, ENVE 133, ENVE 134; or consent of instructor. Covers principles necessary to understand the atmospheric behavior of air pollutants. Topics include gas- and aerosol-phase chemistry, atmospheric diffusion, removal processes and residence times, and the formation and fate of gas and aerosol pollutants.

CEE 234 Vehicle Emissions Control Technology, Measurement Procedures, and Alternative Fuels 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers the nature of gaseous and particulate emissions and the technical aspects of energy efficiency from mobile sources. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CEE 236 Energy: Production, Use, Economics, and Sustainability 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides

insights into current and future sustainable energy production technologies including key governing physical and chemical principles. Considers economics and life cycle implications of energy options. Also examines current and projected energy use patterns and environmental impacts. Considers energy policies that can facilitate introduction of sustainable energy production systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor

CEE 238A Bioprocess Design Laboratory I 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): CHE 124 (CHE 124 may be taken concurrently); graduate standing; or consent of instructor. A detailed introduction to bioprocess design. Covers plant design and heat, mass, and fluid transport, with a focus on upstream processes including bioreactors and feedstocks. Students (individually or in small teams) propose and design a bioprocess. A written report and an oral presentation of the bioprocess design are required.

CEE 238B Bioprocess Design Laboratory II 3 Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): CEE 238A, graduate standing; or consent of instructor. Covers plant design, heat, mass, and fluid transport, with a focus on downstream separation processes and technoeconomic analysis. Students (individually or in small teams) propose and design a bioprocess. A written report and presentation are required.

CEE 238C Bioprocess Design Laboratory III 3 Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): CEE 238B, graduate standing; or consent of instructor. Explores the fundamentals and application of bioprocess design. Covers plant design, process technoeconomic analysis and cost sensitivity, and good manufacturing practices. Students (individually or in small teams) propose and design a bioprocess. A written report and presentation are required.

CEE 240 Advanced Computation For Materials Design 4 Lecture, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers both desktop computing and high-performance computing (i.e., supercomputing resources) in the engineering sciences to understand and design materials using computational methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 229.

CEE 241 Aquatic Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100, ENVE 142; or consent of instructor. CEE 241 online section: enrollment in the Online Master-in-Science in Engineering program. Chemical principles and equilibrium models used to describe the behavior of natural water systems, water and wastewater treatment processes, and pollutant transformations in the aqueous environment. Topics include acid-base chemistry, precipitation, complexation, and redox reactions. Credit is not awarded to CEE 241 if already awarded to ENVE 140.

CEE 242 Pilot Plant Laboratory 4 Lecture, 1 hour; laboratory, 9 hours. Prerequisite(s): ENVE 120, ENVE 121; or consent of instructor.

Laboratory investigations of physical, chemical, and biological processes for water treatment, wastewater treatment, and soil remediation.

CEE 243 Advanced Water Treatment Technologies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. CEE 243 online section: enrollment in the Online Master-in-Science in Engineering program. Fundamentals of advanced water treatment processes emphasizing membrane separation, advanced oxidation processes, and the application of nanomaterials in environmental engineering applications. Credit is only awarded for one of ENVE 133 or CEE 243.

CEE 245 Advanced Hydraulic Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 114, ENVE 142 (ENVE 142 may be taken concurrently); or consent of instructor. An introduction to the basic methods of hydraulic engineering for water quality control. Topics include design and analysis of basic flow and water containment structures, sanitary and storm sewers, pumps and valves, and pipe networks. Emphasis is given to design projects aimed at developing skills in problem specification, modeling, and analysis. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CEE 246 Surface and Interface Phenomena 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHE 100 or ME 100A or consent of instructor. An introduction to colloid systems, capillarity, surface tension and contact angle, and micelles and microemulsions. Also covers adsorption and desorption at the solid-liquid interface, electrostatic forces, and colloid stability.

CEE 247 Molecular Thermodynamics of Complex Fluids 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CEE 200 or equivalent, CEE 206, MSE 204/PHYS 212A; or consent of instructor. Introduces recent developments in applied thermodynamics and molecular simulations. Emphasizes current concerns in chemical and environmental engineering such as colloids, polymers, biomacromolecules, and fluids under inhomogeneous conditions.

CEE 248 Quantitative Analysis of Upstream Processes in Biotechnology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CEE 211, graduate standing; or consent of instructor. Examines fundamentals of biomolecular ligand binding, enzyme kinetics, enzyme reaction mechanisms, and whole-cell biocatalysis. Topics include the quantitative description of steady state and pre-steady state enzyme kinetics, the effects of mass transfer on enzyme and whole-cell biocatalysis, and analytical methods to study enzyme kinetics and protein-ligand binding interactions.

CEE 249 Integration of Computational and Experimental Biology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005B; MATH 010B, MATH 046, PHYS 040C or PHYS 040HC; graduate standing. BIEN 249 online section: enrollment in the Online Master-in-Science in Engineering program. A multidisciplinary introduction to computational methods used to analyze experimental biological

data. Introduction to mathematical concepts needed to understand protein structure and dynamics, protein-protein interactions (structures and networks), gene regulatory networks, signal transduction networks, metabolic networks, and kinetic modeling of cellular processes. Also covers techniques used to derive experimental data. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with BIEN 249.

CEE 250 Special Topics in Chemical and Environmental Engineering 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Seminar in selected topics in chemical and environmental engineering presented by graduate students, staff, faculty, and invited speakers. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 251 Microbial Engineering and Environmental Biotechnology 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Discusses the recent development of novel biocatalysts and biological materials for degrading toxic pollutants or synthesizing environmentally friendly chemicals. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 253 Biodegradation and Bioremediation 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Reviews current research. Special emphasis is placed on biological techniques for air pollution control, bioremediation of methyl tert-butyl ether, and molecular techniques for microorganism monitoring. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

CEE 254 Organic Electronic Materials 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. A study of design, synthesis, purification, manufacture, and application of carbon-based electronic materials. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with CHEM 267.

CEE 255 Special Topics in Water Quality Engineering 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Involves reports and discussion by students, faculty, and visiting scholars on current research topics in water quality engineering. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 256 Special Topics in Particulate Measurement and Air Quality 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Topics include atmospheric chemistry, aerosol chemistry and physics, and measurement techniques used for source and ambient sampling of gases and aerosols. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter

grade on the basis of assigned extra work or examination. Course is repeatable.

CEE 257 Special Topics of Bio-Nanotechnology 1 to 2 Seminar, 1 hour; consultation, 0 to 1 hour. Prerequisite(s): graduate standing or consent of instructor. Focuses on the application of nanotechnology for further developments in bioengineering and medicine. Students complete presentations on the latest developments in nanotechnology. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 258 Biosensing and Biodegradation 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Involves oral presentations and intensive small-group discussions of current literature on biological detoxification of hazardous chemicals and biological-based sensors for environmental, clinical, food quality, and process monitoring. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CEE 259 Special Topics in Materials Electrochemistry 1 Seminar, 1 hour. Prerequisite(s): graduate standing. Topics include nanoelectrochemical systems, electrochemistry, bioelectrochemistry, magnetic materials, spintronics, microelectromechanical systems/nanoelectromechanical systems (MEMS/NEMS), nanosensor arrays, nanoelectronics, corrosion, fuel cells, batteries, thermoelectric materials, electroenzymology, electrodeposition, electrodeless deposition, and synthesis of nanowires and nanotubes. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

CEE 260 Structural Ordering in Colloidal Dispersions 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Introduces recent advances in understanding intercolloid forces and self-assembly of colloidal particles for the fabrication of new materials. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 261 Special Topics in Zeolites, Fuel Cells, and Nanostructured Materials 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Covers design, synthesis, and engineering of zeolite thin films for applications in semiconductors and in aerospace; development of fuel cell membranes and electrode catalysts and production of hydrogen; and synthesis and manipulation of nanomaterials. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 262 Special Topics in Systems Biology 1 or 2 Seminar, 1 or 2 hours. Prerequisite(s): graduate standing. Consists of oral presentations and intense small-group discussions of the current literature and research on computational and experimental aspects of systems biology. Explores high-throughput experiments, experimental design, numerical methods, model development, written and oral presentation skills, ethics, and laboratory

techniques. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CEE 263 Membrane Separations 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemical and Environmental Engineering or consent of instructor. Covers theoretical and applied concepts of membrane separation processes. Topics may include basic membrane transport theory, membrane materials and formation processes, advanced colloid and surface chemistry, Derjaguin-Landau-Verwey-Overbeek (DLVO) theory on colloid stability, colloidal hydrodynamics, and transport in porous media. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CEE 265 Special Topics in Microbial Fate and Transport in Aquatic Environments 1 or 2 Seminar, 1 hour; individual study, 0 to 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the theoretical and applied research currently being conducted in the area of microbial pathogen transport in natural and engineered aquatic systems. Topics include the theory of colloid transport and filtration, quantification and analysis of microbial adhesion or deposition kinetics, and whole-cell and molecular-scale microbial analysis techniques. Students who give class presentations receive credit for 2 units; other students receive credit for 1 unit. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CEE 266 Special Topics in Biological Conversion of Biomass 1 or 2 Seminar, 1 hour; individual study, 0 to 3 hours. Prerequisite(s): graduate standing. Consists of oral presentations and small group discussions of current and historic literature on biological conversion of biomass to fuels and chemicals. Students who make presentations receive credit for 2 units; other students receive credit for 1 unit. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CEE 267 Special Topics in Bionanotechnology 2 Seminar, 2 hours. Prerequisite(s): graduate standing. Introduces recent advances in biomimetics, biomineralization, and bio-inspired materials for nanostructures, as well as for energy storage and conversion applications. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 18 units.

CEE 268 Special Topics in Environmental Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing. Addresses the key role that environmental chemical processes play in water quality, pollutant fate, and the development of strategies for the treatment and reuse of contaminated natural resources. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 18 units.

CEE 269 Special Topics in Aerosols and Climate 2 Seminar, 2 hours. Prerequisite(s): graduate standing. Introduces research at the interface of particle air quality and climate.

Focuses on the effects of particle formation and composition on climate. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

CEE 286 Colloquium in Chemical and Environmental Engineering 1 Colloquium, 1 hour. Prerequisite(s): graduate standing. Lectures on a current research topic in chemical engineering, environmental engineering, and other related fields presented by faculty members and visiting scientists. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CEE 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Individual study, directed by a faculty member, of selected topics in chemical and environmental engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units.

CEE 292 Concurrent Studies in Chemical and Environmental Engineering 1 to 4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor. To be taken concurrently with a 100-series course but on an individual basis. Devoted to specific additional projects related to the 100-series course. Faculty provide guidance and evaluation throughout the quarter. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

CEE 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Research conducted under the supervision of a faculty member on selected problems in chemical and environmental engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CEE 298I Individual Internship 1 to 12 Written Work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): graduate standing; consent of instructor. Individual apprenticeship in chemical and environmental engineering with an approved professional individual or organization, and a faculty member. A written report is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

CEE 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Research in chemical and environmental engineering for the M.S. thesis or Ph.D. dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

CEE 302 Teaching Practicum 1 to 4 Seminar, 3 to 12 hours. Prerequisite(s): appointment as a teaching assistant or associate in Chemical and Environmental Engineering. Topics include effective teaching methods such as those involved in leading discussion sections, preparing and grading examinations, and student-instructor relations in lower- and upper-division Chemical Engineering and Environmental Engineering courses. Required each quarter of teaching assistants and associates in Chemical and Environmental Engineering. Graded

Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

CHEMISTRY

Subject abbreviation: CHEM
College of Natural and Agricultural Sciences

Leonard J. Mueller, Ph.D., Chair
Chia-En A. Chang, Ph.D., Vice Chair
Department Office, 248 Chemical Sciences
(951) 827-3789; chem.ucr.edu

Distinguished Professors

Michael Pirrung, Ph.D.
Richard Schrock, Ph.D.
Francisco Zaera, Ph.D.

Professors

Christopher J. Bardeen, Ph.D.
Ludwig Bartels, Ph.D.
Gregory J.O. Beran, Ph.D.
Chia-En A. Chang, Ph.D.
Quan "Jason" Cheng, Ph.D.
Pingyun Feng, Ph.D.
Richard Hooley, Ph.D.
Ryan Julian, Ph.D.
Cynthia K. Larive, Ph.D.

Lecturer with Security of Employment

Jack Eichler, Ph.D.

Lecturer with Potential for Security of Employment

Matthew Casselman, Ph.D.

Cooperating Faculty

Roya Bahreini, Ph.D. (Atmospheric Science)
Richard J. Debus, Ph.D. (Biochemistry)
Jocelyn G. Millar, Ph.D. (Entomology)
Mihri Ozkan, Ph.D. (Electrical and Computer Engineering)
Giulia Palermo, Ph.D.
Maurizio Pelleccia, Ph.D.
Valentine Vullev, Ph.D. (Bioengineering)

Major

The Department of Chemistry offers a B.S. and B.A. degree in Chemistry and a B.S. in Chemistry with a Chemical Physics option or an Environmental Chemistry option.

The B.S. program is approved by the American Chemical Society and is designed for students interested in a professionally oriented major leading most often to a career or advanced study in chemistry.

The B.A. program is designed for students who wish to obtain a broad educational background with less intensive emphasis on chemistry. In this program, students have increased ease in meeting requirements for such areas as premedical, pre dental, or prepharmaceutical science; education; and administration. Check careers.ucr.edu.

A **Chemical Physics option** is available for students who wish to prepare for admission to a graduate program in chemical physics.

The **Environmental Chemistry option** is available for students who wish to become familiar with environmental processes and problems related to air, water, and soil, and to apply their chemical knowledge working in environmental-related areas. This option also prepares students for admission to a graduate program emphasizing environmental chemistry.

Pre-Health Science Chemistry majors in either the B.S. or B.A. programs can prepare for admission to medical, pharmacy, or dental schools by carefully planning their programs of study. Students planning to apply for post-graduate studies in the health sciences should make it a special point to consult with their Chemistry advisor early in their studies at UCR. Check hpac.ucr.edu.

Teaching Credential

Teachers in the public schools in California must have a credential approved by the State Commission on Teacher Credentialing. The credential requires an undergraduate major, baccalaureate degree, and completion of a graduate credential program such as that offered by the Graduate School of Education at UCR (see Education in this catalog and education.ucr.edu).

UCR has an approved undergraduate program for Chemistry majors who plan to get a Multiple Subjects Credential and teach in the elementary (K-6) grades. A breadth of course work is necessary, in addition to the specified requirements for the major. Students are urged to start early, preferably as freshmen, selecting courses most

helpful for this career. Details and counseling on the Bridge to Teaching Program, a preparation program for the multiple subjects credential, are available in the Office of Interdisciplinary Programs, 3111 Interdisciplinary Building South (INTS), (951) 827-1584; lsnid@ucr.edu. Details and counseling on other programs are available in the Graduate School of Education and education.ucr.edu/programs.html.

UCR does not yet have a state-approved undergraduate program for chemistry majors who wish to teach at the secondary level. The Teaching Credential in Science, chemistry emphasis, is required for chemistry teachers, grades 7-12. Students who plan to get this credential must take the commission's subject-matter assessment examination and should make certain their academic program includes preparatory course work. The examination includes chemistry in depth and general science with introductory, college-level biology, chemistry, physics, and geoscience (geology, meteorology, oceanography, astronomy).

Further information about courses, requirements, and examinations can be obtained in orientation meetings and the Graduate School of Education (1124 Sproul Hall).

California Teach-Science/Mathematics Initiative (CaTEACH-SMI)

California Teach-Science Mathematics Initiative (CaTEACH-SMI) has a goal of addressing the critical need of highly qualified K-12 science and mathematics teachers in California. With an economy increasingly reliant on science, technology, engineering, and mathematics (STEM) and the anticipated large scale retirement of qualified teachers, this is an essential time to explore and prepare for a career in teaching science or mathematics.

CaTEACH-SMI at UCR offers undergraduate students paid/unpaid opportunities, such as the SMI & Alpha Center Apprentice Programs, to explore STEM teaching as a career option. Through CaTEACH-SMI, students receive advising and mentoring to prepare for entrance into an intern teaching credential program while diligently coordinating with academic advisors to ensure completion of STEM degree requirements. The CaTEACH-SMI Resource Center provides future STEM teachers with material and financial resources which includes the National Science Foundation (NSF) Noyce Scholarship Program to promote planning and professional development towards a science/mathematics education career.

For more information about the CaTEACH-SMI program, please visit smi.ucr.edu, the Resource Center at 1315 Pierce Hall, or on Facebook at [facebook.com/ScienceMathInitiativeAtUcr](https://www.facebook.com/ScienceMathInitiativeAtUcr).

Transfer Students

Students transferring to the Chemistry major must complete courses comparable to the following one-year sequences before they transfer:

1. General chemistry, equivalent to CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, each course completed with a grade of "C" or better
2. First-year calculus, equivalent to MATH 009A, MATH 009B, MATH 009C, each

course completed with a grade of "C" or better

At least one of the following one-year sequences:

1. General physics (calculus-based) equivalent to PHYS 040A, PHYS 040B, PHYS 040C, each course completed with a grade of "C" or better (strongly recommended)
2. Second-year calculus, equivalent to MATH 010A, MATH 010B, MATH 046, each course completed with a grade of "C" or better
3. Organic chemistry (one-year lower-division), each course completed with a grade of "B" or better

Students must have a minimum grade point average of 2.70 in transferable college courses. UCR has articulation agreements with most of the California community colleges. These agreements list specific community college courses that have been designated as comparable to UCR courses (see the statewide articulation web site at assist.org). Transfer students will usually find it advantageous to complete most or all sequences before starting at UCR. All prospective transfers should try to complete the sequences they begin rather than divide a sequence between two campuses.

Change of Major Criteria

General requirement:

1. Students must be in good academic standing with 2.0 cumulative GPA and 2.0 upper-division chemistry major GPA.
2. Grades for all chemistry core and required lower-division math and physics courses must be "C-" or better.
3. A grade of "C-" or better in each of the courses used to satisfy the 20-unit CNAS Natural Science and Mathematics breadth requirement.
4. AP credit is not accepted for lower-division chemistry courses.

Specific requirement:

If student has completed less than 45 units (first year students), then

- Completion of CHEM 001A or CHEM 01HA, CHEM 01LA or CHEM 01HLA, MATH 009A

If student has completed between 45 and 90 units (second year students), then

- Completion of MATH 009A, MATH 009B, MATH 009C.
- Completion of CHEM 001A or CHEM 01HA, CHEM 001B or CHEM 01HB, CHEM 001C or CHEM 01HC, CHEM 01LA or CHEM 01HLA, CHEM 01LB or CHEM 01HLB, CHEM 01LC or CHEM 01HLC and PHYS 040A or PHYS 002A and PHYS 02LA (PHYS 002A & PHYS 02LA can be used for B.A. program only)

If student has completed between 90 and 135 units (third year students), then

- Completion of all lower-division math requirements (MATH 009A, MATH 009B, MATH 009C, MATH 010A for B.A. program; and MATH 009A, MATH 009B, MATH 009C,

MATH 010A, and two out of the following: MATH 010B, MATH 031, MATH 046 for B.S. program).

- Completion of the following chemistry courses (CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 005, CHEM 008A and CHEM 08LA, CHEM 008B and CHEM 08LB, CHEM 008C and CHEM 08LC (or CHEM 08HA and CHEM 08HLA, CHEM 08HB and CHEM 08HLB, CHEM 08HC and CHEM 08HLC).
- Completion of all lower-division physics requirements (PHYS 040A, PHYS 040B, PHYS 040C or PHYS 002A, PHYS 002B, PHYS 002C and PHYS 02LA, PHYS 02LB, PHYS 02LC) (PHYS 002A, PHYS 002B, PHYS 002C and PHYS 02LA, PHYS 02LB, PHYS 02LC can be used for B.A. program only)

If student has completed more than 135 units (fourth year students), then

- Completion of all lower-division math requirements (MATH 009A, MATH 009B, MATH 009C, MATH 010A for B.A. program; and MATH 009A, MATH 009B, MATH 009C, MATH 010A, and two out of the following: MATH 010B, MATH 031, MATH 046 for B.S. program).
- Completion of all lower-division chemistry courses (CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 005, CHEM 008A and CHEM 08LA, CHEM 008B and CHEM 08LB, CHEM 008C and CHEM 08LC (or CHEM 08HA and CHEM 08HLA, CHEM 08HB and CHEM 08HLB, CHEM 08HC and CHEM 08HLC).
- Completion of all lower-division physics requirements (PHYS 040A, PHYS 040B, PHYS 040C or PHYS 002A, PHYS 002B, PHYS 002C and PHYS 02LA, PHYS 02LB, PHYS 02LC) (PHYS 002A, PHYS 002B, PHYS 002C and PHYS 02LA, PHYS 02LB, PHYS 02LC can be used for B.A. program only)
- Completion of upper-division chemistry courses (CHEM 125W and CHEM 150A)

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a professional academic advisor at the CNAS Advising Center, 1223 Pierce Hall.

Major Requirements

The major requirements for the B.A. and the B.S. degree in Chemistry are as follows:

Bachelor of Arts

1. Lower-division requirements (63 units)

- a) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA and CHEM 01HLA, CHEM 01HB and CHEM 01HLB, CHEM 01HC and CHEM 01HLC), CHEM 005,

CHEM 008A and CHEM 08LA, CHEM 008B and CHEM, CHEM 008C and CHEM 08LC (or CHEM 08HA and CHEM 08HLA, CHEM 08HB and CHEM 08HLB, CHEM 08HC and CHEM 08HLC)

b) MATH 009A, MATH 009B, MATH 009C, MATH 010A

c) PHYS 040A, PHYS 040B, PHYS 040C (or PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC)

2. Upper-division requirements (36 units)

A minimum grade of "C-" for any upper-division course used to fulfill the requirements for the B.A. degree.

a) CHEM 110A, CHEM 110B, CHEM 113, CHEM 125W, CHEM 150A, CHEM 191, and either CHEM 111 or CHEM 140 or CHEM 166

b) Ten (10) additional upper-division units

Bachelor of Science

1. Lower-division requirements (71-72 units)

a) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA and CHEM 1HLA, CHEM 01HB and CHEM 1HLB, CHEM 01HC and CHEM 1HLC), CHEM 005, CHEM 008A and CHEM 08LA or, CHEM 008B and CHEM 08LB, CHEM 008C and CHEM (or CHEM 08HA and CHEM 08HLA, CHEM 08HB and CHEM 08HLB, CHEM 08HC and CHEM 08HLC)

b) MATH 009A, MATH 009B, MATH 009C, MATH 010A, and two out of the following: MATH 010B, MATH 031, MATH 046

c) PHYS 040A, PHYS 040B, PHYS 040C

2. Upper-division requirements (41-43 units)

A minimum grade of "C-" for any upper-division course used to fulfill the requirements for the B.S. degree.

a) CHEM 110A, CHEM 110B, CHEM 111, CHEM 113, CHEM 125W, CHEM 150A, CHEM 191

b) Two laboratory courses from CHEM 114 or CHEM 140, CHEM 166, BCH 162

c) One course from BCH 100, BCH 110A, CHEM 143

d) One 4-unit course from CHEM 135/ ENSC 135/ENTX 135, CHEM 136/ENSC 136/ENTX 136/SWSC 136, CHEM 150B, CHEM 197, CHEM 199. CHEM 197 and CHEM 199 must be taken for a grade and a written report submitted.

Chemical Physics Option

Students must consult with their Chemistry advisor before electing this option.

1. Lower-division requirements (79-80 units)

a) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA and CHEM 1HLA, CHEM 01HB and CHEM 01HLB, CHEM 01HC and CHEM 1HLC), CHEM 005, CHEM 008A and CHEM 08LA, CHEM 008B and CHEM 08LB, CHEM 008C and CHEM 08LC (or CHEM 08HA and CHEM 08HLA, CHEM 08HB and CHEM 08HLB, CHEM 08HC and CHEM 08HLC)

b) MATH 009A, MATH 009B, MATH 009C,

MATH 010A, MATH 010B, MATH 046

c) PHYS 041A, PHYS 041B, PHYS 41C or PHYS 040A, PHYS 040B, PHYS 040C, and PHYS 041C

2. Upper-division requirements (59 units)

A minimum grade of "C-" for any upper-division course used to fulfill the requirements for the Chemical Physics option.

a) CHEM 110A, CHEM 110B, CHEM 111, CHEM 113, CHEM 114, CHEM 150A, CHEM 150B, CHEM 191

b) Twenty-one (21) units of upper-division course work in Mathematics or Physics (110 or above excluding 190 series)

c) Nine (9) additional units in physical chemistry

Environmental Chemistry Option

Students must consult with their Chemistry advisor before electing this option.

1. Lower-division requirements (84 units)

a) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA and CHEM 1HLA, CHEM 01HB and CHEM 1HLB, CHEM 01HC and CHEM 1HLC), CHEM 005, CHEM 008A and CHEM 08LA, CHEM 008B and CHEM 08LB, CHEM 008C and CHEM 08LC (or CHEM 08HA and CHEM, CHEM 08HB and CHEM 08HLB, CHEM 08HC and CHEM 08HLC)

b) MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B, MATH 046

c) PHYS 040A, PHYS 040B, PHYS 040C

d) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C.

2. Upper-division requirements (57-58 units)

A minimum grade of "C-" for any upper-division course used to fulfill the requirements for the Environmental Chemistry option.

a) CHEM 110A, CHEM 110B, CHEM 111, CHEM 113, CHEM 125W, CHEM 135/ ENSC 135/ENTX 135, CHEM 136/ENSC 136/ENTX 136/SWSC 136, CHEM 114 or CHEM 140, CHEM 150A, CHEM 166, CHEM 191

b) One course from ENSC 104/SWSC 104 or GEO 137

c) One course from BCH 100, BCH 110A or CHEM 143

d) Two additional courses from CHEM 150B, CHEM 197, CHEM 199, ENSC 100, ENSC 101, ENSC 102, ENSC 140/SWSC 140, ENSC 163, ENTX 101, GEO 132, GEO 157 (4 units total from CHEM 197 and/or CHEM 199)

Undergraduate Research is strongly encouraged for students with the requisite ability. Students wishing to participate in this activity should consult Chemistry faculty, their Chemistry advisor, or check: ugr.ucr.edu.

Sample Program

Student programs are planned on an individual basis with their advisors, and there is considerable flexibility in the sequence in which courses required for the major are taken. For example, PHYS 040A, PHYS 040B, PHYS 040C can be

started equally well during either the freshman or sophomore year. The sample program is typical for a well-prepared entering freshman who seeks the B.S. degree.

Freshman Year	Fall	Winter	Spring
CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA and CHEM 1HLA, CHEM 01HB and CHEM 1HLB, CHEM 01HC and CHEM 1HLC)	4,1	4,1	4,1
PHYS 040A, PHYS 040B		5	5
MATH 009A, MATH 009B, MATH 009C	4	4	4
ENGL 001A, ENGL 001B, ENGL 001C	4	4	4
Elective (optional)	4		
Total Units	17	18	18
Sophomore Year	Fall	Winter	Spring
CHEM 008A, CHEM 008B, CHEM 008C, CHEM 008LA, CHEM 008LB, CHEM 008LC	4	4	4
PHYS 040C	5		
MATH 010A, MATH 010B, MATH 031, MATH 046	4	4	4
CHEM 005		5	
Electives		4	8
Total Units	13	17	16
Junior Year	Fall	Winter	Spring
CHEM 110A, CHEM 110B, CHEM 113	4	4	4
Biological Science w/Lab			4
CHEM 150A, CHEM 150B		4	4
CHEM 125W	5		
CHEM 143		3	
CHEM 191			1
Electives	4	4	8
Total Units	13	15	17
Senior Year	Fall	Winter	Spring
CHEM 111, CHEM 140		4	4
CHEM 166			4
Electives	12	8	4
Total Units	12	12	12

Minor

The minor in Chemistry consists of 28 upper-division units in chemistry.

- Of the specified upper-division units, a minimum of 16 units must be unique to the minor and may not be used to satisfy major requirements.
- At least one of the courses used to satisfy the 28 units must be in CHEM 125W,

CHEM 111, CHEM 140 or CHEM 166 (courses which include laboratory work).

3. No more than 4 units of 190-199 courses may be used in fulfilling the upper-division units for a minor.

All of the upper-division courses in chemistry have a prerequisite of CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, or CHEM 01HA and CHEM 1HLA, CHEM 01HB and CHEM 1HLB, CHEM 01HC and CHEM 1HLC and most have CHEM 005 as a prerequisite.

Students with a minor in Chemistry should consult with their Chemistry advisor to construct a specific program consistent with their career goals.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Chemistry Department offers the M.S. and Ph.D. degrees in Chemistry.

Fields of specialization (subdisciplines) are analytical chemistry, inorganic chemistry, organic chemistry, and physical chemistry. Research is also carried out in bioanalytical, bioinorganic, bioorganic, and biophysical chemistry and in chemical physics, environmental/atmospheric, organometallic chemistry, and neuroscience. For additional information on the latter, please see Neuroscience Graduate Program in the Programs and Courses section of this catalog.

Admission

All applicants must submit scores from the GRE General Test. A score from the Advanced Chemistry GRE is not required for admission. It is strongly recommended, however, that applicants submit this score in order to receive maximum consideration for fellowships. The department normally considers applications for teaching and research assistantships at the same time as fellowships; therefore, students are strongly encouraged to complete their applications for admission and support as early as possible. Normally applications for fellowships are awarded by February for students entering in the following fall quarter. Although most students begin in the fall quarter, students may begin their studies in the winter or spring quarter.

Orientation Examinations

Admitted students must, at the beginning of their first quarter in residence, take orientation examinations. The examinations are normally given during two consecutive days starting up to one week prior to the first day of instruction. Although a notice of the times and places of these examinations is sent to each student admitted to regular graduate status in chemistry, it is the student's responsibility to be on the campus early enough to check the bulletin boards in Chemical Sciences for this information. Students take these examinations in the four subdisciplines: analytical, inorganic, organic, and physical chemistry. The purpose of these examinations is to assess the student's undergraduate preparation. The results permit the faculty to determine the course program that will most effectively aid the students' development in their chosen subdisciplines.

Master's Degree

The Department of Chemistry offers the M.S. degree in Chemistry.

Requirements are:

1. Satisfactory performance in orientation examinations in analytical, inorganic, organic, and physical chemistry
2. General university requirements and departmental requirements for either Plan I or Plan II.

Plan I (Thesis)

Students must take at least 36 units of approved courses and graduate research of which five regular lecture courses in the CHEM 200-249 series (CHEM 110A or CHEM 110B, CHEM 113, CHEM 125, and CHEM 150A or CHEM 150B may apply under certain circumstances). A maximum of 12 units of seminar courses (CHEM 250-259) and a maximum of 12 units of graduate research; (but not those numbered CHEM 260-289) may apply towards the 36 units. Students must complete a thesis, and a final oral examination on the thesis may be required.

Plan II (Comprehensive Examination)

Students must complete at least 36 units of approved courses of which at least 18 must be in regular lecture courses numbered CHEM 200-249 (CHEM 110A or CHEM 110B, CHEM 113, CHEM 125, and CHEM 150A or CHEM 150B may apply under certain circumstances) and up to 12 units of graduate seminar courses numbered CHEM 250-259. Those numbered CHEM 260-289 are specifically excluded.

Doctoral Degree

The Department of Chemistry offers the Ph.D. degree in Chemistry.

The requirements are orientation examinations in analytical, inorganic, organic, and physical chemistry; general university requirements; and departmental requirements.

Program of Study

The departmental committee on graduate study determines a program of study on the basis of the students' performance on the orientation examinations and a consideration of their subdisciplines. For students with a normal B.S. level preparation, the typical course pattern for each subdiscipline is as follows:

1. **Analytical** (a minimum of three courses selected from CHEM 221A, CHEM 221B, CHEM 221C, CHEM 221D, CHEM 221E plus two other courses)
2. **Inorganic** (CHEM 231A, CHEM 231B, CHEM 231C plus two other courses)
3. **Organic** (CHEM 211A, CHEM 211B, CHEM 211C plus two other courses)
4. **Physical** (a minimum of three courses selected from CHEM 201A, CHEM 201B, CHEM 201C, CHEM 201D, CHEM 201E plus two other courses)

Second Year Research Evaluation

Students seeking advancement to candidacy for the Ph.D. degree must undergo a Second-Year Research Evaluation (SYRE). The SYRE must take place by the end of the student's fourth academic quarter of residency and is administered by a four-member committee of the Chemistry

faculty, one of whom is the student's dissertation advisor. The Chair of the SYRE Committee will be someone other than the dissertation advisor. Typically, these same four faculty members would also serve on the oral qualifying examination committee, with the Chair of the SYRE Committee continuing on as Chair of the oral qualifying examination committee.

The SYRE consists of both a written and oral component and the student is assessed on both components. The written SYRE document should provide an introduction to the dissertation research, an outline of the goals and objectives, a description of the progress to date, and a delineation of the path forward. The SYRE document is limited to five single-spaced pages (12-point type), including references. The oral component of the SYRE will be a presentation of the written document. After presentation of the SYRE document, the student will be queried by committee to assess the student's general knowledge of the material. A student will receive a single grade of Pass, Qualified Pass, or Fail. A Pass signifies that the student has made satisfactory progress in research and is on track to pass the oral qualifying examination. A Qualified Pass signifies that a student's progress in research is reasonable, but that improvement is needed, and should be demonstrated at the time of the oral qualifying examination. A Fail signifies that a student has to date, not made satisfactory progress in research. A student who fails the SYRE would not be required to undergo a second evaluation; however, such students would be placed on notice that they are not on track to pass the oral qualifying examination unless major steps are taken to correct serious deficiencies in research performance.

Foreign Language Requirement

A reading knowledge of German, French, or Russian is recommended but not required.

Oral Qualifying Examination

This examination consists in part of defending an original proposition and is designed to test the extent of the candidates' development and their breadth of knowledge in chemistry and related fields.

Teaching Requirement

Normally requires three quarters of service as a teaching assistant, or equivalent.

Normative Time to Degree 15 quarters

Lower-Division Courses

CHEM 001 Preparation For General

Chemistry 2 Lecture, 2 hours. Prerequisite(s): none. Problem solving methods to succeed in general chemistry; this is an online virtual learning course. Students with credit for CHEM 001A or CHEM 01HA not eligible. Concurrent enrollment in CHEM 001A or CHEM 01HA is not allowed. Counts toward the 180-unit graduation requirement but does not satisfy major or college requirements. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of CHEM 001 or CHEM 001W.

CHEM 001A General Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a score of 3, 4, or 5 on the College Board Advanced Placement Chemistry Examination or Advanced Placement Calculus Examination or a passing score on the California Chemistry Diagnostic

Test or a score on the Mathematics Advisory Exam sufficient for placement in MATH 007A or MATH 009A or a grade of "C-" or better in MATH 005 or a grade of "C-" or better in MATH 006A or a grade of "S" in CHEM 001W or a grade of "C-" or better in an equivalent college-level mathematics or chemistry course; concurrent enrollment in CHEM 01LA or a grade of "C-" or better in CHEM 01LA. An introduction to the basic principles of chemistry. Credit is awarded for only one of CHEM 001A or CHEM 01HA.

CHEM 001B General Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): grades of "C-" or better in CHEM 001A and CHEM 01LA or grades of "C-" or better in CHEM 01HA and CHEM 1HLA; concurrent enrollment in CHEM 01LB or a grade of "C-" or better in CHEM 01LB. An introduction to the basic principles of chemistry. Credit is awarded for only one of CHEM 001B or CHEM 01HB..

CHEM 001C General Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): grades of "C-" or better in CHEM 001B and CHEM 01LB or grades of "C-" or better in CHEM 01HB and CHEM 1HLB; concurrent enrollment in CHEM 01LC or a grade of "C-" or better in CHEM 01LC. An introduction to the basic principles of chemistry. Credit is awarded for only one of CHEM 001C or CHEM 01HC..

CHEM 01HA Honors General

Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): concurrent enrollment in CHEM 1HLA; MATH 007A, may be taken concurrently or MATH 009A, may be taken concurrently; or equivalent or a score of 4 or 5 on the College Board Advance Placement Chemistry Examination; a score of 600 or higher on the Mathematics portion of the SAT Reasoning Test or a score of 25 or higher on the ACT Mathematics Test; high school chemistry; or consent of instructor. Honors course corresponding to CHEM 001A. A limited enrollment course. Covers the principles of chemistry in greater depth than in CHEM 001A. Credit is awarded for one of the following CHEM 01HA or CHEM 001A.

CHEM 01HB Honors General

Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): grades of "B" or better in CHEM 001A and CHEM 01LA or grades of "B" or better in CHEM 01HA and CHEM 1HLA or consent of instructor; concurrent enrollment in CHEM 1HLB or a grade of "B" or better in CHEM 1HLB. Honors course corresponding to CHEM 001B. A limited enrollment course in which the principles of chemistry are covered in more depth than in CHEM 001B. Credit is awarded for only one of CHEM 001B or CHEM 01HB.

CHEM 01HC Honors General

Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): grades of "B" or better in CHEM 001B and CHEM 01LB or grades of "B" or better in CHEM 01HB and CHEM 1HLB or consent of instructor; concurrent enrollment in CHEM 1HLC or a grade of "B" or better in CHEM 1HLC. Honors course corresponding to CHEM 001C. A limited enrollment course in which the principles of chemistry are covered in more depth than in CHEM 001C. Credit is

awarded for only one of CHEM 001C or CHEM 01HC.

CHEM 1HLA Honors General Chemistry

Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): concurrent enrollment in CHEM 01HA or a grade of "B" or better in CHEM 01HA. Honors course corresponding to CHEM 01LA. An introduction to laboratory principles and techniques related to lecture topics in CHEM 01HA. Credit is awarded for only one of CHEM 01LA or CHEM 1HLA.

CHEM 1HLB Honors General Chemistry

Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): grades of "B" or better in CHEM 001A and CHEM 01LA or grades of "B" or better in CHEM 01HA and CHEM 1HLA; concurrent enrollment in CHEM 01HB or a grade of "B" or better in CHEM 01HB. Honors course corresponding to CHEM 01LB. An introduction to laboratory principles and techniques related to lecture topics in CHEM 01HB. Credit is awarded for only one of CHEM 01LB or CHEM 1HLB.

CHEM 1HLC Honors General Chemistry

Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): grades of "B" or better in CHEM 001B and CHEM 01LB or grades of "B" or better in CHEM 01HB and CHEM 1HLB; concurrent enrollment in CHEM 01HC or a grade of "B" or better in CHEM 01HC. Honors course corresponding to CHEM 01LC. An introduction to laboratory principles and techniques related to lecture topics in CHEM 01HC. Credit is awarded for only one of CHEM 01LC or CHEM 1HLC.

CHEM 01LA General Chemistry

Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): concurrent enrollment in CHEM 001A or a grade of "C-" or better in CHEM 001A. An introduction to laboratory principles and techniques related to lecture topics in CHEM 001A. Credit is awarded for only one of CHEM 01LA or CHEM 1HLA.

CHEM 01LB General Chemistry

Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): grades of "C-" or better in CHEM 001A and CHEM 01LA or grades of "C-" or better in CHEM 01HA and CHEM 1HLA; concurrent enrollment in CHEM 001B or a grade of "C-" or better in CHEM 001B. An introduction to laboratory principles and techniques related to lecture topics in CHEM 001B. Credit is awarded for only one of CHEM 01LB or CHEM 1HLB.

CHEM 01LC General Chemistry

Laboratory 1 Laboratory, 3 hours.

Prerequisite(s): grades of "C-" or better in CHEM 001B and CHEM 01LB or grades of "C-" or better in CHEM 01HB and CHEM 1HLB; concurrent enrollment in CHEM 001C or a grade of "C-" or better in CHEM 001C. An introduction to laboratory principles and techniques related to lecture topics in CHEM 001C. Credit is awarded for only one of CHEM 01LC or CHEM 1HLC.

CHEM 001W Preparation For General

Chemistry 3 Lecture, 2 hours; workshop, 3 hours. Prerequisite(s): completion of or concurrent enrollment in MATH 005 or MATH

006A. Problem solving methods to succeed in general chemistry. Students with credit for CHEM 001A or CHEM 01HA not eligible. Concurrent enrollment in CHEM 001A or CHEM 01HA is not allowed. Counts toward the 180-unit graduation requirement but does not satisfy major or college requirements. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of CHEM 001W or CHEM 001.

CHEM 003 Concepts of Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A survey of basic concepts of Chemistry. Designed for non-science majors and not as preparation for CHEM 001A or CHEM 01HA. Not open to students with credit for CHEM 001A or CHEM 01HA, but students who have completed CHEM 003 may take CHEM 001A or CHEM 01HA for full credit.

CHEM 005 Quantitative Analysis 5 Lecture, 3 hours; laboratory, 8 hours. Prerequisite(s): CHEM 001C and CHEM 01LC with grades of "C-" or better or CHEM 01HC and CHEM 1HLC with grades of "C-" or better. Stoichiometric calculations and applications of principles of chemical equilibrium to analytical problems. Includes titrimetric and gravimetric laboratory procedures.

CHEM 008A Organic Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 001C and CHEM 01LC or CHEM 01HC and CHEM 1HLC with grades of "C-" or better; concurrent enrollment in CHEM 08LA or a grade of "C-" or better in CHEM 08LA. Covers modern organic chemistry including structure, nomenclature, reactivity, synthesis, and reaction mechanisms and the chemistry of carbohydrates, lipids, nucleic acids, amino acids, and proteins. Credit is awarded for only one of CHEM 008A or CHEM 08HA.

CHEM 008B Organic Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA with grades of "C-" or better; concurrent enrollment in CHEM 08LB or a grade of "C-" or better in CHEM 08LB. Covers modern organic chemistry including structure, nomenclature, reactivity, synthesis, and reaction mechanisms and the chemistry of carbohydrates, lipids, nucleic acids, amino acids, and proteins. Credit is awarded for only one of CHEM 008B or CHEM 08HB.

CHEM 008C Organic Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB with grades of "C-" or better; concurrent enrollment in CHEM 08LC or a grade of "C-" or better in CHEM 08LC. Covers modern organic chemistry including structure, nomenclature, reactivity, synthesis, and reaction mechanisms and the chemistry of carbohydrates, lipids, nucleic acids, amino acids, and proteins. Credit is awarded for only one of CHEM 008C or CHEM 08HC.

CHEM 08HA Honors Organic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 001C and CHEM 01LC or CHEM 01HC and CHEM 1HLC with grades of "C-" or better; concurrent enrollment in CHEM 08LA or a grade of "C-" or better in CHEM 08LA. Honors course corresponding to CHEM 008A in depth. Covers modern organic chemistry including structure, nomenclature, reactivity, synthesis,

and reaction mechanisms and the chemistry of carbohydrates, lipids, nucleic acids, amino acids, and proteins. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of CHEM 008A or CHEM 08HA.

CHEM 08HB Honors Organic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA with a grade of "B" or better or consent of instructor; concurrent enrollment in CHEM 08HLB or a grade of "B" or better in CHEM 08HLB. Honors course corresponding to CHEM 008B in depth. Covers modern organic chemistry including structure, nomenclature, reactivity, synthesis, and reaction mechanisms and the chemistry of carbohydrates, lipids, nucleic acids, amino acids, and proteins. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of CHEM 008B or CHEM 08HB.

CHEM 08HC Honors Organic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB with a grade of "B" or better or consent of instructor; concurrent enrollment in CHEM 08HLC or a grade of "B" or better in CHEM 08HLC. Honors course corresponding to CHEM 008C in depth. Covers modern organic chemistry including structure, nomenclature, reactivity, synthesis, and reaction mechanisms and the chemistry of carbohydrates, lipids, nucleic acids, amino acids, and proteins. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of CHEM 008C or CHEM 08HC.

CHEM 08HLA Honors Organic Chemistry

Lab 1 Laboratory, 4 hours. Prerequisite(s): CHEM 001C and CHEM 01LC or CHEM 01HC and CHEM 1HLC with grades of "C-" or better; concurrent enrollment in CHEM 008A or a grade of "C-" or better in CHEM 008A. Honors course corresponding to CHEM 08LA in depth. An introduction to laboratory techniques of purification, isolation, synthesis, reactions, and spectroscopic analysis. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of CHEM 08LA or CHEM 08HLA.

CHEM 08HLB Honors Organic Chemistry

Laboratory 1 Laboratory, 4 hours. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA with a grade of "B" or better or consent of instructor; concurrent enrollment in CHEM 08HB or a grade of "B" or better in CHEM 08HB. Honors course corresponding to CHEM 08LB in depth. An introduction to laboratory techniques of purification, isolation, synthesis, reactions, and spectroscopic analysis. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of CHEM 08LB or CHEM 08HLB.

CHEM 08HLC Honors Organic Chemistry

Laboratory 1 Laboratory, 4 hours. Prerequisite(s): CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB with a grade of "B" or better or consent of instructor; concurrent enrollment in CHEM 08HC or a grade of "B" or better in CHEM 08HC. Honors course corresponding to CHEM 08LC in depth. An introduction to laboratory techniques of

purification, isolation, synthesis, reactions, and spectroscopic analysis. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of CHEM 08LC or CHEM 08HLC.

CHEM 08LA Organic Chemistry

Laboratory 1 Laboratory, 4 hours. Prerequisite(s): CHEM 001C and CHEM 01LC or CHEM 01HC and CHEM 1HLC with grades of "C-" or better; concurrent enrollment in CHEM 008A or a grade of "C-" or better in CHEM 008A. An introduction to laboratory techniques of purification, isolation, synthesis, reactions, and spectroscopic analysis. Credit is awarded for only one of CHEM 08LA or CHEM 08HLA.

CHEM 08LB Organic Chemistry

Laboratory 1 Laboratory, 4 hours. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA with grades of "C-" or better; concurrent enrollment in CHEM 008B or a grade of "C-" or better in CHEM 008B. An introduction to laboratory techniques of purification, isolation, synthesis, reactions, and spectroscopic analysis. Credit is awarded for only one of CHEM 08LB or CHEM 08HLB.

CHEM 08LC Organic Chemistry

Laboratory 1 Laboratory, 4 hours. Prerequisite(s): CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB with grades of "C-" or better; concurrent enrollment in CHEM 008C or a grade of "C-" or better in CHEM 008C. An introduction to laboratory techniques of purification, isolation, synthesis, reactions, and spectroscopic analysis. Credit is awarded for only one of CHEM 08LC or CHEM 08HLC.

CHEM 13HA Honors Discussion For Organic

Chemistry 1 Discussion, 1 hour. Prerequisite(s): CHEM 001C and CHEM 01LC with grades of "B" or better or CHEM 01HC and CHEM 1HLC with grades of "B" or better; concurrent enrollment in CHEM 08HA; admission to the University Honors Program or consent of instructor. Involves advanced, in-depth discussions of current literature relevant to the content of CHEM 08HA. Students work in small teams to solve advanced problem sets. Satisfactory (S) or No Credit (NC) grading is not available.

CHEM 13HB Honors Discussion For Organic

Chemistry 1 Discussion, 1 hour. Prerequisite(s): CHEM 008A or CHEM 08HA with a grade of "B" or better; concurrent enrollment in CHEM 08HB; admission to the University Honors Program or consent of instructor. Involves advanced, in-depth discussions of current literature relevant to the content of CHEM 08HB. Students work in small teams to solve advanced problem sets. Satisfactory (S) or No Credit (NC) grading is not available.

CHEM 13HC Honors Discussion For Organic

Chemistry 1 Discussion, 1 hour. Prerequisite(s): CHEM 008B or CHEM 08HB with a grade of "B" or better; concurrent enrollment in CHEM 08HC; admission to the University Honors Program or consent of instructor. Involves advanced, in-depth discussions of current literature relevant to the content of CHEM 08HC. Students work in small teams to solve advanced problem sets. Satisfactory (S) or No Credit (NC) grading is not available.

CHEM 091 Freshman Seminar: What Chemists

Do 1 Seminar, 1 hour. Explores the frontiers of chemistry (analytical, inorganic, organic, and physical) as well as the role of chemistry in allied areas such as agriculture, biology, environmental science, forensics, materials, medicine, and neuroscience. Graded Satisfactory (S) or No Credit (NC).

CHEM 092 Introduction to Undergraduate Research in Chemistry 1

Seminar, 1 hour. Prerequisite(s): CHEM 001C or CHEM 01HC (may be taken concurrently); lower-division standing. Introduction to the elements of chemistry research (e.g., laboratory safety, literature searches, scientific writing, research ethics, oral or poster presentation preparation). Explores specific research opportunities within the Chemistry Department. Intended to assist Chemistry majors interested in pursuing undergraduate research opportunities in Chemistry. Graded Satisfactory (S) or No Credit (NC).

CHEM 095 Explorations in Molecular

Science 1 Laboratory, 3 hours. Prerequisite(s): freshman standing; CHEM 001A or CHEM 01HA with a grade of "C-" or better; concurrent enrollment in or completion of CHEM 001B or CHEM 01HB; NASC 093; or consent of instructor. Laboratory experiments and computer modeling in areas of chemistry (analytical, inorganic, organic, and physical) relevant to allied fields such as environmental science, astrophysics, chemical biology, or materials sciences. Course is repeatable as topics change to a maximum of 2 units.

CHEM 097H Freshman Honors Project:

Introduction to Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): admission to the University Honors Program. Prior arrangement with a chemistry faculty member is required. An introduction to the methods of research in chemical sciences. The student conducts an investigation under the supervision of a faculty member. A written report is required at the end of the quarter. To satisfy the requirement for the University Honors Program Freshman Project, the student must earn a minimum of 4 units during the first year. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable.

Upper-Division Courses

CHEM 109 Survey of Physical

Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C and CHEM 01LC with grades of "C-" or better or CHEM 01HC and CHEM 1HLC with grades of "C-" or better; MATH 009B with a grade of "C-" or better or MATH 09HB with a grade of "C-" or better. Introduces thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular structure, and spectroscopy. Primarily for students with major interests in life and agricultural sciences; not recommended for Chemistry majors. Credit is not awarded for CHEM 109 if it has already been awarded for CHEM 110A or CHEM 110B.

CHEM 110A Physical Chemistry: Chemical

Thermodynamics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C and CHEM 01LC with grades of "C-" or better or

CHEM 01HC and CHEM 1HLC with grades of "C-" or better; MATH 010A with a grade of "C-" or better (or if MATH 010A is taken concurrently, MATH 009C with a grade of "C-" or better or MATH 09HC with a grade of "C-" or better); PHYS 002C or PHYS 02HC with a grade of "C-" or better or PHYS 040C or PHYS 040HC with a grade of "C-" or better (PHYS 040C or PHYS 040HC may be taken concurrently); or consent of instructor. An introduction to thermodynamics, with applications to chemical systems.

CHEM 110B Physical Chemistry: Introduction to Statistical Mechanics and Kinetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 110A with a grade of "C-" or better or consent of instructor; prior or concurrent enrollment in MATH 010B is recommended. Statistical mechanics, kinetic molecular theory, and chemical kinetics with applications to chemical systems.

CHEM 111 Physical Chemistry Laboratory 4 Lecture, 2 hours; laboratory, 8 hours. Prerequisite(s): CHEM 110A and CHEM 110B with grades of "C-" or better (CHEM 110B may be taken concurrently), or consent of instructor. CHEM 113 recommended. Physical chemical measurements and laboratory experiments illustrating fundamental principles of physical chemistry. Modern electronic and optical measurement techniques.

CHEM 113 Physical Chemistry: Introduction to Quantum Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C with a grade of C- or better or CHEM 01HC with a grade of C- or better; CHEM 01LC with a grade of C- or better or CHEM 01HLC with a grade of C- or better; MATH 009C with a grade of C- or better or MATH 09HC with a grade of C- or better; MATH 010A with a grade of C- or better, may be taken concurrently; PHYS 002C with a grade of C- or better, may be taken concurrently or PHYS 040C with a grade of C- or better, may be taken concurrently; or consent of instructor. Introduction to quantum mechanics with application to atomic and molecular structure and spectra.

CHEM 114 Advanced Physical Chemistry Laboratory 4 Lecture, 2 hours; laboratory, 8 hours. Prerequisite(s): CHEM 111 with a grade of "C-" or better or consent of instructor; completion of or concurrent enrollment in CHEM 113. Involves measurements and laboratory experiments illustrating applications of physical chemistry methods to problems in environmental, materials, and biological chemistry. Covers modern data acquisition, analysis, and computational techniques.

CHEM 125W Instrumental Methods 3 or 5 Lecture, 3 hours; laboratory, 8 hours; workshop, 0.8 hours. Prerequisite(s): CHEM 005 with a grade of "C-" or better; ENGL 001B with a grade of "C" or better; PHYS 002C or PHYS 02HC or PHYS 040C or PHYS 040HC (PHYS 002C or PHYS 02HC or PHYS 040C or PHYS 040HC may be taken concurrently); or equivalents; or consent of instructor. A capstone course consisting of lectures and experiments presenting contemporary instrumental methods and their use in chemistry. Reports writing is mandatory with lab credits. Fulfills the third-quarter writing requirement for students who

earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C. Graduate students may register for lecture only (3 units). Credit will not be awarded as an alternative for ENGL 001C, if the lecture, laboratory, and workshop activities are not taken concurrently for 5 units.

CHEM 135 Atmospheric Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, or consent of instructor; ENSC 102 recommended. Structure of the troposphere and stratosphere; formation of atmospheric ozone; tropospheric NO_x chemistry; methane oxidation cycle; phase distributions of chemicals; wet and dry deposition; chemistry of volatile organic compounds; formation of photochemical air pollution; modeling of air pollution and control strategies; stratospheric ozone depletion and global warming. Cross-listed with ENSC 135, and ENTX 135.

CHEM 136 Chemistry of Natural Waters 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 005 with a grade of "C-" or better or ENSC 101 with a grade of "C-" or better or consent of instructor. Introduction to processes controlling the chemical composition of natural waters. Topics include chemical equilibria, acid-base and coordination chemistry, oxidation-reduction reactions, precipitation-dissolution, air-water exchange, and use of equilibrium and kinetic models for describing marine nutrient, trace metal, and sediment chemistry. Cross-listed with ENSC 136.

CHEM 140 Environmental Chemistry Laboratory 4 Lecture, 2 hours; laboratory, 8 hours. Prerequisite(s): CHEM 125W with a grade of "C-" or better, CHEM 110A (or CHEM 109) with a grade of "C-" or better; or consent of instructor. Theory and application of chemical techniques for the analysis of environmentally relevant chemical processes. Discusses gas phase, condensed phase, surface, and particulate chemistry. Topics include "acid rain," photochemical smog, ozone depletion, and chemical analysis monitoring.

CHEM 143 Chemical Biology 3 Lecture, 3 hours. Prerequisite(s): CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC. Discusses biochemical reactions from a chemical standpoint and presents how the principles of chemistry have been applied to address fundamental questions in life sciences.

CHEM 150A Inorganic Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC with grades of "C-" or better; CHEM 110A (or CHEM 109) with a grade of "C-" or better. A systematic introduction to the synthesis, reactions, structure, and bonding of important classes of inorganic compounds. Emphasis on non-transition metal chemistry.

CHEM 150B Inorganic Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM

150A with a grade of "C-" or better. A systematic introduction to synthesis, reactions, structure, and bonding of important classes of inorganic compounds. Emphasis on transition metal chemistry.

CHEM 166 Advanced Structural and Synthetic Methods 2 or 4 Lecture, 2 hours; laboratory, 8 hours. Prerequisite(s): CHEM 005 with a grade of "C-" or better or BCH 162 with a grade of "C-" or better; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC with a grade of "C-" or better; consent of instructor is required for students enrolling only in the lecture (2 units); CHEM 125W and CHEM 150A are recommended. Covers methods for the characterization of organic and inorganic compounds and advanced methods of synthesis of organic and inorganic compounds such as vacuum, inert atmosphere, high-pressure, and photochemical techniques. Involves hands-on use of spectroscopic (nuclear magnetic resonance and optical spectroscopy and mass spectrometry) and computer-based methods for structural characterization. Non-Chemistry majors and graduate students may enroll for the lecture (2 units) or for the lecture and laboratory (4 units).

CHEM 190 Special Studies 1 to 5 To be taken with the consent of the chair of the department as a means of meeting special curricular problems.

CHEM 191 Seminar in Chemistry Careers 1 Seminar, 1 hour. Prerequisite(s): upper-division standing. Oral reports and discussions by students, faculty, and visiting speakers. Required of chemistry majors; normally taken in the spring of the junior year. Graded Satisfactory (S) or No Credit (NC).

CHEM 197 Research For Undergraduates 1 to 4 Research, 1 to 4 hours. Prerequisite(s): sophomore or junior standing; consent of instructor. An introduction to the methods of research in chemistry. Includes a research project completed under the supervision of a Chemistry faculty member. Students who submit a written research report receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 6 units.

CHEM 198I Individual Internship 1 to 12 Internship, 2 to 24 hours; term paper or preparation for presentation, 1 to 12 hours. Prerequisite(s): upper-division standing in chemistry; consent of instructor. Industrial work experience coordinated and supervised by a chemistry faculty member and an off-campus sponsor. Requires a term paper or presentation. Course is repeatable to a maximum of 12 units.

CHEM 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor. Research project completed under the supervision of a Chemistry faculty member. Students who submit a written research report receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Total credit for CHEM 199 and/or CHEM 199H may not exceed 9 units.

CHEM 199H Senior Honors Research 1 to 5 Research, 3 to 15 hours. Prerequisite(s):

senior standing; consent of instructor; a minimum GPA of 3.00 in chemistry courses and in all university course work. Research in chemistry conducted under the supervision of a Chemistry faculty member. Students who submit a written research report receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Total credit for CHEM 199 and/or CHEM 199H may not exceed 9 units.

Graduate Courses

CHEM 201A Advanced Physical Chemistry: Quantum Mechanics 3 Lecture, 3 hours.

Prerequisite(s): CHEM 113 with a grade of "C" or better. Covers concepts in quantum mechanics including wavepackets, uncertainty, single particles in multiple dimensions, and approximate methods for solving the Schrodinger equation.

CHEM 201B Advanced Physical Chemistry: Quantum Mechanics and Spectroscopy 3 Lecture, 3 hours.

Prerequisite(s): CHEM 113 with a grade of "C" or better. Covers concepts in quantum mechanics with particular applications to spectroscopy.

CHEM 201C Advanced Physical Chemistry: Elementary Statistical Mechanics 3 Lecture, 3 hours.

Prerequisite(s): CHEM 110A and CHEM 110B with grades of "C" or better. Covers concepts in elementary statistical mechanics including ensembles, interpretations of thermodynamic functions, and quantum statistics.

CHEM 201D Advanced Physical Chemistry: Thermodynamics 3 Lecture, 3 hours.

Prerequisite(s): CHEM 110A and CHEM 110B with grades of "C" or better. Covers concepts in thermodynamics including fundamental equations, potentials, Maxwell relations, and stability criteria. Cross-listed with MSE 205.

CHEM 201E Advanced Physical Chemistry: Kinetics 3 Lecture, 3 hours.

Prerequisite(s): CHEM 110A and CHEM 110B with grades of "C" or better. Covers concepts in kinetics including reaction mechanisms and the molecular interpretation of reaction dynamics.

CHEM 202 Advanced Instrument

Design 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor; consent of instructor of CHEM 202 or both concurrent enrollment in and consent of instructor of CHEM 297 or both concurrent enrollment in and consent of instructor of CHEM 299. Focuses on the technical aspects of design and manufacture of instrumentation for physical chemistry and related fields. Introduces design and simulation software and provides hands-on experience in the realization of advanced instrumentation development projects.

CHEM 203 Nanoscience and Nanotechnology 3 Lecture, 3 hours.

Prerequisite(s): graduate standing in Chemistry, Physics, Engineering, or a related subject or consent of instructor. Provides a condensed, interdisciplinary overview of selected fields of nanoscience and emerging nanotechnological applications. Focuses on applications relevant for the campus research community that are

not based on electronic applications of silicon. Cross-listed with MSE 245C.

CHEM 206A Introduction to Computational Quantum Chemistry 3 Lecture, 3 hours.

Prerequisite(s): CHEM 113 or equivalent, graduate standing; or consent of instructor. Introduces computational techniques in quantum chemistry. Includes Hartree-Fock theory, Density Functional Theory, and electron correlation methods. Emphasizes practical applications in a research setting. Cross-listed with MSE 225C.

CHEM 206B Modeling Chemical and

Biochemical Molecules 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry or a related field or consent of instructor. Introduces students to the principles, concepts, and techniques for modeling chemical and biological systems. Covers the various methods and techniques for molecular simulations, energy calculations, obtaining initial data, accessing data reliably, visualization and analysis of molecules, and screening and designing chemicals for proteins.

CHEM 207 Chemical Group Theory 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. The principles of group theory and molecular symmetry. Applications in several areas of chemistry.

CHEM 208 Interdisciplinary Overview of Current Issues in Semiconductor

Processing 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry, Physics, Engineering, or a related subject or consent of instructor. An interdisciplinary overview of present-day semiconductor processing. Introduces topics such as properties of semiconductors, cleanroom environment, epitaxy, ion implantation, etching, lithography, device architecture, testing, and fault detection. May offer field trips. Cross-listed with PHYS 202, and MSE 245D.

CHEM 209 (E-Z) Advanced Topics in Physical Chemistry 2 to 3

Prerequisite(s): graduate standing. Selected advanced topics from modern physical chemistry.

CHEM 209M Magnetic Resonance 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. Presents the quantum-mechanical theory and experiments of magnetic resonance. Topics include the spin-density operator formalism, multidimensional NMR, and solid-state NMR with examples chosen from chemistry, physics, biology, and medicine.

CHEM 209S Potential Surfaces 3 Lecture, 3 hours.

Prerequisite(s): CHEM 201B or consent of instructor. This course concentrates on the spectroscopic methods for determining potential energy surfaces of molecules. Also discussed are the theoretical models that are used to interpret the experiments. The wave packet dynamics formalism will receive special attention.

CHEM 209W Laser Chemistry and Spectroscopy 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. An introduction to laser spectroscopy and chemistry including the principles of laser operation and the use of lasers as spectroscopic tools. Topics will include absorption and emission of light, spectral lineshapes, coherent light sources,

Doppler-limited and sub-Doppler high-resolution laser spectroscopy, time-resolved laser spectroscopy, Raman spectroscopy, chemical lasers and laser chemistry.

CHEM 209Y Nonlinear Coherent Spectroscopy 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. Study of molecular spectroscopy and dynamics by the use of high intensity light. Also to be covered is the development of lasers as a means for generating intense coherent light.

CHEM 209Z Surface Chemistry 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. This course will cover a description of the main modern surface analytical techniques and their applications to practical problems, specially to catalysis.

CHEM 211A Structure and Mechanism in Organic Chemistry 3 Lecture, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. Covers structure and bonding in organic compounds emphasizing more advanced aspects of the field.

CHEM 211B Advanced Organic Chemistry: Reactions and Mechanism 3 Lecture, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. Explores organic and organometallic reaction mechanisms and their application to modern synthesis.

CHEM 211C Advanced Synthetic

Analysis 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers synthetic organic chemistry emphasizing strategy, reactions, and techniques.

CHEM 211D Spectrometry in Organic Structure

Analysis 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Utilizes modern spectroscopic techniques such as IR, mass spectrometry, and ¹H and ¹³C NMR to determine the structure of complex organic molecules. Topics include advanced NMR techniques such as 2D NMR, NMR pulse sequences, diffusion NMR, and MRI. Cross-listed with MSE 225A.

CHEM 211E Advanced Organic

Reactions 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers modern organic reactions and reagents and their mechanistic pathways with emphasis on recent developments and practical organic chemistry. Cross-listed with MSE 245A.

CHEM 216 Physical Organic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An advanced treatment of physical organic chemistry.

CHEM 217 Polymers: Synthesis and Characterization 3 Lecture, 3 hours; extra

reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces fundamentals of polymer synthesis, types of polymers, stereo architectures, and applications. Explores modern methods of synthesis, emphasizing catalytic methods. Describes industrial synthetic methods. Examines polymer physics and characterization, emphasizing physical methods.

CHEM 221A Advanced Analytical Chemistry: Separation Science 3 Lecture, 3 hours.

Prerequisite(s): CHEM 125W. Provides an overview of modern analytical separations including theory, instrumentation, and applications.

CHEM 221B Advanced Analytical Chemistry: Optical Spectroscopy 3 Lecture, 3 hours.

Prerequisite(s): CHEM 125W. Provides an overview of modern analytical optical spectroscopic techniques including theory, instrumentation, and applications. Cross-listed with MSE 225B.

CHEM 221C Advanced Analytical Chemistry: Electrochemistry 3 Lecture, 3 hours.

Prerequisite(s): CHEM 125W. Provides an overview of modern electrochemistry including basic theory, applications, and instrumentation of potentiometry and amperometry.

CHEM 221D Advanced Analytical Chemistry: Mass Spectroscopy 3 Lecture, 3 hours.

Prerequisite(s): CHEM 125W. Provides an overview of modern mass spectroscopy including basic theory, instrumentation, and applications. Focus is on biological applications.

CHEM 221E Advanced Analytical Chemistry: Introduction to Bioanalytical Chemistry 3 Lecture, 3 hours.

Prerequisite(s): CHEM 125W. Covers important aspects of modern chemical measurements, with particular emphasis on bioanalysis. Discusses analytical challenges associated with drug discovery and development, including analysis of combinatorial libraries, high-throughput screening, metabonomics, genomics, and proteomics, as well as new developments in analytical methods and instrumentation.

CHEM 221F Advanced Analytical Chemistry: Advanced Chemical Biology 3 Lecture, 3 hours.

Prerequisite(s): graduate standing in Chemistry or a related field or consent of the instructor. Introduces synthetic and analytical methods that enable molecular control over and interrogation of proteins and nucleic acids in vitro, in cellulo, and in vivo. Includes emerging technologies for biomolecular labeling and regulation.

CHEM 223 Nature of the Chemical

Bond 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry or a related field or consent of instructor. Explores all aspects of chemical bonding including molecular orbital theory, valence bond theory, and noncovalent bonding, with coverage of key concepts from all subdivisions of chemistry.

CHEM 229 (E-Z) Advanced Topics in Analytical Chemistry 2 Lecture, 2 hours.

Prerequisite(s): graduate standing. Selected advanced topics from modern analytical chemistry. Course content will vary.

CHEM 229M Analysis of Atmospheric

Chemicals 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the fundamental chemistry of trace-level chemical pollutants' formation in the atmosphere and advanced methods and applications in analyzing these chemicals. We will comprehensively discuss techniques in air sample analysis for students to achieve a

systematic and in-depth understanding of the principles and applications of these analytical techniques.

CHEM 229N Nanoscale Analyses 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. Covers novel analytical instrumentation used to analyze ultrasmall (10-9 to 10-18 L) samples--for example, single molecules, individual cells and subcellular organelles, and dilute concentrations of biologically important molecules. Addresses applications, biological relevance, and instrumentation.

CHEM 229P Fourier Transform in Chemical

Analysis 2 Lecture, 2 hours. Prerequisite(s): consent of instructor. Fundamentals of the discrete fast Fourier transform will be introduced. Applications of the technique to laboratory data processing including smoothing and deconvolution will be considered. Instrumentation, theory, and applications of Fourier transform infrared, nuclear magnetic resonance, and mass spectrometry are to be reviewed.

CHEM 229Q Nuclear Magnetic Resonance Spectrometry 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. State-of-the-art nuclear magnetic resonance spectrometry will be covered, including a discussion of the principles of NMR and the techniques used to measure NMR spectra. The emphasis will be on Fourier transform NMR.

CHEM 229R Ft-Ir Spectrometry 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. This course covers the theory of instrumentation of Fourier transform infrared (FT-IR) spectrometry, and its applications to such areas as kinetics, surface chemistry, quantitative and qualitative analysis of mixtures and biochemical systems.

CHEM 229S Mass Spectrometry 3 Lecture, 3 hours.

Prerequisite(s): consent of instructor. This course will cover the theory of mass spectrometry, including instrumentation, interpretation, and applications.

CHEM 229T Luminescence

Spectroscopy 3 Lecture, 3 hours. Prerequisite(s): CHEM 221B/MSE 225B; consent of instructor. Surveys static and dynamic luminescence measurements, measurements of polarized luminescence, the associated instrumentation, and several principal applications of luminescence spectroscopy.

CHEM 229U Chemometrics 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. The development of mathematical statistical analysis and its application to univariate and higher-order chromatographic, spectroscopic, and electrochemical measurements.

CHEM 229W Environmental Analytical

Chemistry 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. Current techniques for the analysis of gas and particulate atmospheric samples. Applications to current environmental issues.

CHEM 229X Electrochemistry at

Ultramicroelectrodes 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. Analytical properties of electrodes of micrometer dimensions discussed. Special properties

including mass transport, the effect of geometry, and current density at the electrode surface emphasized. Applications of these electrodes in resistive media, kinetic characterization of fast electron transfer reactions, and the effects of surface modification on electrode response highlighted.

CHEM 229Z Separation Science 3 Lecture, 3 hours. Prerequisite(s): CHEM 221A; consent of instructor. An in-depth treatment of the physical principles and practice of modern analytical separations. Emphasizes microscale separation techniques including capillary electrophoresis, capillary liquid chromatography, and micellar electrokinetic chromatography.

CHEM 231A Structure and Bonding in

Inorganic Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 150A, CHEM 150B. Covers advanced synthesis, structure, and bonding in inorganic, coordination, and organometallic chemistry. Cross-listed with MSE 245B.

CHEM 231B Reactivity and Mechanism in Inorganic and Organometallic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 231A/MSE 245B. Covers advanced synthesis, reactivity, and mechanism in inorganic, coordination, and organometallic chemistry.

CHEM 231C Solid State and Materials in Inorganic Chemistry 3 Lecture, 3 hours.

Prerequisite(s): CHEM 231A/MSE 245B; or consent of instructor. Covers the advanced synthesis, structure, bonding, and properties of inorganic materials. Cross-listed with MSE 235

CHEM 231D Experimental and Computational Solid State and Materials Chemistry 3 Lecture, 3 hours.

Prerequisite(s): graduate standing in Chemistry or consent of instructor. Covers various topics in the field of solid state and materials chemistry with a special emphasis on crystal structure determination, electronic properties, mechanical hardness and magnetism. Some exposure to basic inorganic and physical chemistry is required.

CHEM 239 (E-Z) Adv Topics: Inorganic Chemistry 2 to 3

Prerequisite(s): graduate standing. Covers selected advanced topics in modern inorganic chemistry. The contents of the segments vary.

CHEM 2390 Molecular Structure By Diffraction Methods 3 Lecture, 3 hours.

Prerequisite(s): graduate standing; CHEM 211A or CHEM 231A/MSE 245B. Includes theory, practice, and hands-on determination of molecular structure via single-crystal X-ray structure and related methods.

CHEM 239S Theory and Molecular

Modeling 3 Lecture, 3 hours. Prerequisite(s): graduate standing; CHEM 211A or CHEM 231A/MSE 245B. Covers applications of ab initio, density functional, and molecular modeling methods to chemistry.

CHEM 239T Fullerenes, Nanotubes, and Carbon-Based Materials 3 Lecture, 3 hours.

Prerequisite(s): graduate standing; CHEM 211A or CHEM 231A/MSE 245B. Covers the chemistry, physics, and materials science of

carbon-based molecules.

CHEM 239X Modern Applications of Transition Metals in Organic Synthesis 3 Lecture, 3 hours. Prerequisite(s): graduate standing; CHEM 211A or CHEM 231A/MSE 245B. Covers carbene complexes and their use in alkene metathesis, pi-arene complexes, palladium, samarium, and rare earths in organic synthesis and zirconium- and titanium-based reagents. Also discusses theoretical aspects of complexation.

CHEM 242 Combinatorial Chemistry and Chemical Genomics 3 Lecture, 3 hours. Prerequisite(s): BIOL 102, CHEM 008C, or equivalents; a passing grade on the Chemistry Department organic orientation examination. Explores topics in chemical genomics. Part I involves combinatorial principles, library methods, solid-phase and split-pool synthesis, deconvolution, library design and informatics, and parallel synthesis. Part II involves screening and selection systems, forward and reverse chemical genetic approaches, phenocopies and epistasis, preparation and use of molecular arrays, and target identification. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CHEM 245 Chemistry and Physics of Aerosols 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 109, CHEM 110B; or consent of instructor. Fundamentals of chemical and physical processes controlling behavior and properties of airborne particles. Topics include particle mechanics; electrical, optical, and thermodynamic properties; nucleation; surface and aqueous-phase chemistry; gas-particle partitioning; sampling; size and chemical analysis; atmospheric aerosols; and environmental effects. Cross-listed with ENTX 245, and ENSC 245.

CHEM 246 Fate and Transport of Chemicals in the Environment 4 Lecture, 4 hours. Prerequisite(s): CHEM 109 or CHEM 110B; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08LHC; or consent of instructor. Covers identification of toxicants and their sources in the environment; equilibrium partitioning of chemicals between air, water, soil, sediment, and biota using physico-chemical properties; and the transport and transformations of chemicals in air, water, and soil media. Includes case studies of fate and transport of selected toxic chemicals. Cross-listed with ENSC 200, and ENTX 200.

CHEM 250 Graduate Seminar in Chemistry 1 Seminar, 1.5 hour. Prerequisite(s): graduate standing. Oral reports by graduate students, faculty, and visiting scholars on current research topics in chemistry. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CHEM 251 Graduate Seminar in Analytical Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Includes oral reports and discussion by students, faculty, and visiting scholars from academia and industry on current research topics in analytical chemistry. Offered each quarter. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit

(NC) grade. Course is repeatable.

CHEM 252 Graduate Seminar in Inorganic Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Includes oral reports and discussion by students, faculty, and visiting scholars from academia and industry on current research topics in inorganic chemistry. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 253 Graduate Seminar in Organic Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Includes oral reports and discussion by students, faculty, and visiting scholars from academia and industry on current research topics in organic chemistry. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 254 Graduate Seminar in Physical Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Includes oral reports and discussion by students, faculty, and visiting scholars from academia and industry on current research topics in physical chemistry. Offered each quarter. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 256 Chemistry of Nanostructured Materials 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Explores the chemistry of nanostructured materials. Introduces nanotechnology, solid state chemistry and physics of nanomaterials, nanoscale characterization tools, lithography, micro- and nanofabrication, physical and chemical methods to nanomaterials, surface modification, sol-gel chemistry, self assembly at various length scales, and bio-inspired materials. Emphasis is on development of novel functional nanostructured materials through chemical synthesis, surface modification, and self-assembly. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 258 Seminar in Surface Science 1 Seminar, 1 hour. Prerequisite(s): graduate standing in Physics or Chemistry or consent of instructor. Oral presentations by participating visiting scholars, postdoctoral researchers, students, and UCR faculty on current research topics in surface science. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Cross-listed with PHYS 258.

CHEM 259 Bioanalytical Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Explores bioanalytical separation and detection techniques. Topics include liquid chromatography, capillary electrophoresis, field flow fractionation, flow cytometry, multidimensional or multiplexed chromatography, microfluidics, mass spectrometry, biological sample preparation, and biosensors. Emphasis

is on development of new bioanalytical techniques for detection of pathogens and study of pathogen-host interactions. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 260 Organic and Organometallic Methodology and Synthesis 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Introduces key areas of synthetic organic and organometallic chemistry in a mechanism-based approach. Explores current literature with an emphasis on catalytic asymmetric reactions and their application to the synthesis of biologically active compounds. Surveys the background and history of discoveries leading to the development of new catalytic methodology. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 36 units.

CHEM 261 Scanning Probe Microscopy in Surface Science 2 Seminar, 2 hours. Prerequisite(s): graduate standing; consent of instructor. Focuses on theory and applications of scanning probe microscopy in surface science, including the use of scanning tunneling microscopy to image surfaces on the atomic and molecular length scale, and scanning probe techniques to investigate and control elementary steps of surface reactions. Reviews surface crystallography, electronic, and phononic band structure. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 262 Ultrafast Dynamics in Condensed Matter 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. The extremely fast relaxation and dephasing of nuclear (vibrational) and electronic excitations in condensed matter are probed by the use of coherent spectroscopy using (sub-picosecond) light pulses. Decay mechanisms are studied by making spectroscopic measurements at cryogenic temperatures (approximately 1K) and at various high pressures (greater than 100 Kbar). Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. May be repeated for credit.

CHEM 263 Analysis and Synthesis at the Chemistry-Biology Interface 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Introduces key areas of bioanalytical chemistry and chemical biology. Explores current literature with an emphasis on protein engineering, fluorescence imaging, and synthesis of light-active compounds and their applications to the modulation of biological pathways. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 36 units.

CHEM 264 Novel Synthesis in Inorganic Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses strategies for the synthesis of novel structures in bioinorganic coordination,

organometallic, and materials chemistry. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade based on seminar participation. Course is repeatable.

CHEM 265 Raman Spectroscopy of Biological Systems 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Applications of Raman spectroscopy to the characterization of the structure and function of biological membranes and membrane proteins. Emphasis will be placed on resonance enhanced Raman scattering, including the theoretical origins of resonance enhancement. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 266 Molecular Recognition and Catalysis 2 Seminar, 2 hours., Prerequisite(s): graduate standing in Chemistry or consent of instructor. Explores topics in biological and organic chemistry relevant to the study of molecular recognition. Emphasizes the study of non-covalent forces in self-association and the properties of macromolecular constructs. Also involves the study of the synthetic organic and inorganic chemistry used to create these constructs. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. course is repeatable.

CHEM 267 Organic Electronic Materials 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. A study of design, synthesis, purification, manufacture, and application of carbon-based electronic materials. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with CEE 254.

CHEM 269 New Trends in Main Group Chemistry 2 Seminar, 2 hours. Prerequisite(s): senior or graduate standing in Chemistry or consent of instructor. Training in modern main group chemistry, covering boron, silicon, phosphorous, and related elements. Organic and inorganic chemists benefit from this course. Introduces students to the peculiar properties of these elements, thus enabling them to use this knowledge in their own field of expertise. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 270 Theoretical Quantum Chemistry: Methods and Applications 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Explores topics in computational quantum chemistry relevant to both wave function and density functional theories. Emphasizes new computational algorithms and physical approximations that can be used to accelerate calculations and the applications of these methods to solve chemical problems. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 271 Design, Synthesis, and Applications of Highly Conjugated Organic Systems 2 Seminar, 2 hours., Prerequisite(s): graduate standing or consent of instructor. Focuses on the design and synthesis of highly conjugated organic molecules and polymers for application in molecule-based devices such as sensors, light emitting diodes, and conductors. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 272 Gaseous Ion Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Surveys all aspects of ion chemistry in the gas phase. Topics include mass spectrometry, ion mobility, electrospray ionization, matrix-assisted laser desorption ionization, ion-molecule reactions, ion-ion reactions, quantum calculations, instrumentation, and photodissociation spectroscopy. Emphasis is on bioanalytical applications for the study of protein structure, folding, and assembly. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 273 Bioanalytical Nuclear Magnetic Resonance Spectroscopy 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Development of Pulse Fourier transform NMR techniques and their application to the characterization of peptides, proteins and intact cells. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. May be repeated for credit.

CHEM 274 Chemical Biology 2 Seminar, 2 hours. Prerequisite(s): senior or graduate standing in Chemistry or consent of instructor. Involves formal presentations by graduate students on topics in the current literature and their research. Presentation responsibilities rotate among enrolled students and postdoctoral fellows. Also entails team work on problem sets and oral presentation of solutions. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 275 Bioorganic Chemistry of Nucleic Acids 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. The design, synthesis, and evaluation of nucleotides with novel hydrogen-bonding capabilities as well as oligonucleotides capable of regulating gene expression. Discussion of ribonucleic acid catalysis, including possible catalytic functions that have not yet been determined. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 276 The Nanocrystal-Ligand Interface 2 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores the nanocrystal-ligand interface. Topics include a quantitative understanding of the nanocrystal-ligand interface, single molecule spectroscopic methods; the self-assembly of nanoparticles; supramolecular chemistry; synthesis and

characterization of organic-inorganic hybrid nanostructures; and nanostructures with novel catalytic and optoelectronic properties. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 36 units.

CHEM 277 Surface Chemistry 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussions for new advances in surface science, concentrating mainly on the use of molecular level. Letter grades will be assigned to students who present a paper; others will be graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

CHEM 278 Nuclear Magnetic Resonance: Theory, Techniques, and Applications 2 Seminar, 2 hours., Prerequisite(s): graduate standing or consent of instructor. Focuses on the development of solid-state and liquid-state nuclear magnetic resonance (NMR) as a probe of molecular structure, function, and dynamics with applications that range from chemistry to physics and biology. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade based on seminar participation. Course is repeatable.

CHEM 279 Molecular Spectroscopy 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Properties of excited states of molecules. Molecular photophysics and photochemistry. Theory of radiationless transitions. Kinetics and mechanism of excited state decay. Laser spectroscopy. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. May be repeated for credit.

CHEM 280 Chemistry and Biochemistry of Gaseous Molecules 2 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): consent of instructor. Reactions and properties of organic compounds and ions in the absence of bulk media. Preparative mass spectrometry and ion-molecule reactions. Molecular mechanisms in the sense of smell. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. May be repeated for credit.

CHEM 281 Interface Between Heteroatom and Transition Metal Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Discusses heteroatom chemistry as a source of new ligands for transition metal chemistry and applications in catalysis and material science. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 282 Elementary Processes in Atmospheric Chemistry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Applies state-of-the-art laser techniques to investigate elementary processes in atmospheric chemistry. Emphasis is quantitative understandings of atmospheric free-radical intermediates, their photochemistry,

and their reaction mechanisms. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 283 Development of Inorganic

Solid State Materials 2 Seminar, 2 hours. Prerequisite(s): graduate standing; consent of instructor. Focuses on the development of advanced materials such as optical, electronic, and porous materials. Topics include synthetic methods, characterization techniques, property measurements, and device applications. Special emphasis is placed on the design of synthetic strategies for the discovery of new functional materials with novel properties. Course is repeatable.

CHEM 284 Biological Mass

Spectrometry 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. A study of the synthesis, purification, and mass spectrometric characterization of biomolecules, nucleic acids in particular. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 285 Bio-Inspired Materials and

Chemical Sensors 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. A study of biomaterials and their application in analytical chemistry. Focus is on the design and synthesis of new materials, electrochemical detection, and the Surface Plasmon Resonance (SPR) technique. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 286 Time-Resolved Spectroscopy and Microscopy and Dynamics in Complex Systems 2

Seminar, 2 hours. Prerequisite(s): senior or graduate standing in Chemistry or consent of instructor. A comprehensive survey of modern time-resolved spectroscopy and microscopy techniques. Emphasizes applications to outstanding problems in materials science and biology. Specific problems include the measurement of energy transport in organic semiconductors and DNA dynamics in biological media. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 287 Modeling Molecular

Recognition 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry or consent of instructor. Focuses on molecular recognition and systems-level simulations, addressing theory and applications. Includes statistical mechanics (as applied to the prediction of equilibrium and nonequilibrium properties of chemical and biological systems), drug design and discovery, and cheminformatics. Utilizes numerical analysis, molecular dynamics and Brownian dynamics simulations, docking and scoring programs, and chemical database tools. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 288 Bioanalytical Applications of Nuclear Magnetic Resonance (nmr) and Mass Spectrometry (ms) 2

Seminar, 2 hours. Prerequisite(s): consent of instructor. Focuses on the study of ligand-protein interactions, metabolomics, with special emphasis on the application of hyphenated NMR and MS experiments. Also discusses new NMR pulse sequences and microcoil probes. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 289 Special Topics in

Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with BCH 289, BIOL 289, ENTM 289, NRSC 289, and PSYC 289.

CHEM 296 Special Topics Seminar 2

Seminar, 2 hours. Prerequisite(s): graduate standing in Chemistry; or consent of instructor. Includes oral presentations and intensive small-group discussion of selected topics in the area of specialization of each faculty member. Emphasizes recent advances in the special topic area; course content varies accordingly. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

CHEM 297 Directed Research 1 to

6 Prerequisite(s): consent of a staff member. Research in analytical, inorganic, organic, or physical chemistry under the direction of a member of the staff. A written report is required of the research study. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CHEM 299 Research For Thesis Or

Dissertation 1 to 12 Prerequisite(s): consent of a staff member. Research in analytical, inorganic, organic, or physical chemistry under the direction of a member of the staff. This research is to be included as part of the dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

CHEM 301 Oral Presentations in

Chemistry 1 Lecture, 1 hour. The technique of oral presentation, emphasizing the problems that arise in chemistry laboratory and classroom situations. Designed primarily for new graduate students in the Chemistry Department. Graded Satisfactory (S) or No Credit (NC).

CHEM 302 Teaching Practicum 1 to 2 Lecture/laboratory, 4 to 8 hours. Prerequisite(s): Limited to Chemistry Department teaching assistants and Associates-In Chemistry. Supervised teaching in undergraduate courses in Chemistry. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit. Units are not applicable to degree unit requirements.

CHEM 401 Professional Development in

Chemistry 1 Lecture, 1 hour. Prerequisite(s): graduate standing in Chemistry. Provides skill development and theory in writing, public speaking, and pedagogy related to chemical science. Designed primarily for new graduate students in the Chemistry Department. Graded Satisfactory (S) or No Credit (NC).

CHEM 402 Chemical Laboratory

Safety 1 Seminar, 1 hour. Prerequisite(s): graduate standing. Covers safety issues surrounding research and teaching in chemical laboratories. Topics include safe handling of chemicals, radioactive materials, and biological samples; laboratory equipment hazards; proper use of personal protective equipment; and emergency response procedures. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

THE CHICANO BILINGUAL- BICULTURAL STUDIES MINOR

College of Humanities, Arts, and Social Sciences

Adalberto Aguirre, Jr., Ph.D., Chair
Office, 1140 Watkins Hall
(951) 827-5507

Committee in Charge

Adalberto Aguirre, Chair (Sociology)
Alfredo Mirandé (Ethnic Studies)
Yolanda Venegas, non-voting
Milagros Peña, Dean, *ex officio*

Professor Emeritus

Philip Gericke (Spanish & Portuguese)

The Chicano Bilingual-Bicultural Studies minor provides the student with a basic understanding of the Spanish language and of the Mexican American bicultural contexts in which that language is used in the southwestern United States.

1. Lower-division requirements (8 units)

- a) Four (4) units from ETST 002, ETST 004/ HIST 004
- b) Four (4) units from one of the following:
 - (1) SPN 006
 - (2) Any upper-division course taught in Spanish language

2. Upper-division requirements (16 units)

- a) One course in the general area of Education and Bilingualism from ETST 146/ EDUC 146, ETST 163/SOC 163, ETST 165/SOC 165, ETST 166
- b) One course from the general area of Societal Perspectives on the Chicano Experience ETST 142
- c) One course from ETST 123, ETST 124, ETST 126, ETST 128/SOC 128
- d) One course in Chicano Art or Literature from ETST 108P, ETST 114, ETST 153/ LNST 153, ETST 191N

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Majors

The Department of Comparative Literature and Languages offers courses and degree programs in Western and non-Western national literatures, languages, and civilizations. It also has programs in Comparative Literature, Comparative Ancient Civilizations, and Linguistics. The department believes in the importance of offering fundamental training in the humanities in their own literary and linguistic contexts as well as in their cultural and interdisciplinary dimensions. Accordingly, students may obtain degrees or take courses in a specialized field, while at the same time enhancing the breadth of their education within and outside of the department.

The department offers the following majors leading to the B.A. degree.

Chinese and Japanese

The B.A. degrees in Languages and Literatures/ Chinese and Languages and Literatures/Japanese offer a diverse, flexible program for students interested in the study of Asian languages, cultures, and literatures.

Classical Studies

The B.A. in Languages and Literatures/Classical Studies combines the study of Greek and/or Latin language and literature with courses which explore the historical, philosophical, political, and cultural developments of Greece and Rome and their impact on Western civilization. The department is a joint member of the UC Tri-Campus Graduate Program in Classics (UCI, UCR, UCSD), which offers M.A. and Ph.D. degrees in Classics.

Comparative Ancient Civilizations

For the B.A. in Languages and Literatures/Comparative Ancient Civilizations, students employ the methods of humanities and social sciences in the comparison study of several major cultures of the past. They acquire skills of historical and social analysis, multicultural awareness,

and insight into constructions of civilizations in general.

Comparative Literature

The department offers the B.A. degree in Languages and Literatures/Comparative Literature and the M.A. and Ph.D. graduate degrees in Comparative Literature.

While students majoring in Languages and Literatures/Comparative Literature must have a knowledge of the languages involved in the literatures of their choice, Comparative Literature courses themselves are open to all students. All work is done in translation and the courses are given in English.

French, Germanic Studies, and Russian Studies

The B.A. degree is offered in Languages and Literatures/French, Languages and Literatures/Germanic Studies, and Languages and Literatures/Russian Studies. Requirements for degrees include proficiency in the language of the literature.

Languages

The Languages and Literatures/Languages major allows a student to specialize in two foreign languages through a knowledge not only of the languages themselves but also of the bases of language (linguistics), examples of their creative use (literature), and the cultures which they reflect (civilization).

Linguistics

A B.A. in Linguistics is available through a program administered by an interdepartmental committee. Some foreign language study is essential for specialization in this discipline, as well as the pursuit of research projects and other kinds of practical work in linguistic-related areas.

Graduate Degrees

Comparative Literature (interliterary) M.A.

Comparative Literature (interliterary or interdisciplinary) Ph.D.

UC Tri-Campus Graduate Program in Classics M.A. and Ph.D.

Teaching Assistantships and Fellowships

Teaching assistantships and fellowships are available. Teaching assistants are normally held for CPLT 301 (Teaching of Foreign Language at the College Level). Course work and/or teaching experience at another college-level institution may be accepted in fulfillment of this requirement.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this

catalog.

ARABIC MINOR

This minor introduces the field of Arabic studies, and offers training in the Arabic language and in the close reading of texts—including poetry, literature, philosophy, theoretical writings, essays, and film—with attention to problems of translation, the history of disciplines, and the formation of institutions. It teaches students to read cultural objects, practices, texts, and institutions as active sites of translation, negotiation, contestation, and invention.

Minor Requirements

1. Lower Division Requirements (language profi-

ciency)

a) ARBC 001, 002, 003, and 004

2. Upper Division Requirements (16 units)

a) Twelve upper-division units in Arabic Literature and Culture from ARLC 120, ARLC 151/CPLT 151/MEIS 151, ARLC 152/CPLT 152, ARLC 154/CPLT 154/PHIL 128, ARLC 155/CPLT 155/MEIS 155/RLST 157, ARLC 156/CPLT 156/MEIS 156/RLST 156, ARLC 158/CPLT 158/MEIS 158/RLST 158, and any other related courses chosen in consultation with the student's faculty advisor.

b) Four upper-division units from CPLT 110 or a related upper-division course

ARABIC LANGUAGE

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course cannot take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

ARBC 001 Elementary Arabic 4 Lecture, 4 hours. Prerequisite(s): Student must take the Arabic placement examination. An introduction to modern standard Arabic. Focuses on the development of the four language skills: listening, speaking, reading, and writing. Also explores aspects of Arabic cultures. Classes conducted primarily in Arabic.

ARBC 002 Elementary Arabic 4 Lecture, 4 hours. Prerequisite(s): ARBC 001 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Arabic placement examination as determined by the department faculty. An introduction to modern standard Arabic. Focuses on the development of the four language skills: listening, speaking, reading, and writing. Also explores aspects of Arabic cultures. Classes conducted primarily in Arabic.

ARBC 003 Elementary Arabic 4 Lecture, 4 hours. Prerequisite(s): ARBC 002 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Arabic placement examination as determined by the department faculty. An introduction to modern standard Arabic. Focuses on the development of the four language skills: listening, speaking, reading, and writing. Also explores aspects of Arabic cultures. Classes conducted primarily in Arabic.

ARBC 004 Intermediate Arabic 4 Lecture, 4 hours. Prerequisite(s): ARBC 003 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Arabic placement examination as determined by the department faculty. An introduction to intermediate modern standard Arabic. Builds upon current knowledge levels of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking,

reading, and writing. Classes conducted in Arabic.

ARBC 005 Intermediate Arabic 4 Lecture, 4 hours. Prerequisite(s): ARBC 004 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Arabic placement examination as determined by the department faculty. An introduction to intermediate modern standard Arabic. Builds upon current knowledge levels of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Classes conducted in Arabic.

ARBC 006 Intermediate Arabic 4 Lecture, 4 hours. Prerequisite(s): ARBC 005 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Arabic placement examination as determined by the department faculty. An introduction to intermediate modern standard Arabic. Builds upon current knowledge levels of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Classes conducted in Arabic.

Upper-Division Courses

ARBC 101A Advanced Arabic 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ARBC 006 or equivalent. An introduction to advanced modern standard Arabic. Builds upon knowledge of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Class conducted in Arabic.

ARBC 101B Advanced Arabic 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ARBC 101A or equivalent. An introduction to advanced modern standard Arabic. Builds upon knowledge of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Class conducted in Arabic.

ARBC 101C Advanced Arabic 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ARBC 101B or equivalent. An introduction to advanced modern standard Arabic. Builds upon knowledge of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Class conducted in Arabic.

ARBC 105 Media Arabic 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ARBC 006 or consent of instructor. Develops listening, speaking, reading, and writing skills through a focus on the language in newspapers, the news, and other forms of media in the Arabic language.

ARBC 110 Advanced Readings in Arabic 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ARBC 006 or consent of instructor. Advanced seminar in the reading of Arabic texts. Focuses on improving students' reading skills while reviewing and deepening knowledge of Arabic grammar and vocabulary. Course is repeatable as content changes up to a maximum of 12 units.

ARLC 120 Classical Arabic Literary

Prose 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores aspects of classical Arabic literary prose. Includes the modes of quotation, citation, falsification,

fabrication, and forgery. Focuses upon selected writings of al-Hamadhai, al-Jahiz, al-Ma'arri, Ibn Tufayl, and Ibn Hazim.

ARLC 151 Palestine/Algeria 4 Lecture, 3 hours; screening 6 hours per quarter; extra reading, 24 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Considers two distinct and related literary and historical moments: Palestine and Algeria. Topics include the relations between language and context; literature and literary historiography; genre and idiom; violence and the body; and the state and institutional practices of reading. Cross-listed with CPLT 151, and MEIS 151.

ARLC 152 Modern Arabic Poetry in A Multilingual Frame 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers selected writings of Adunis ('Ali Ahmed Sa'id), Mahmoud Darwish, Abdelatif La'abi, and Etel Adnan, published originally in Arabic, French, and English. Topics include language (idiom, statement, utterance, translation, repetition, rhythm) and history (loss, violence, mourning, inheritance, future, legacy). Course is taught in English. Cross-listed with CPLT 152.

ARLC 154 Introduction to Arabic Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic philosophical texts. Provides close and literary reading of texts in philosophy, as well as considers the impact these texts have had or can have on Western cultural formation. Cross-listed with CPLT 154, and PHIL 128.

ARLC 155 Introduction to Arabic Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic literature that focuses on language and rhetoric. Considers major issues such as colonialism, secularism, modernity, language, and the state. Utilizes texts from literature, the law, and philosophy. Cross-listed with CPLT 155, MEIS 155, and RLST 157.

ARLC 156 Jews and Arabs 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Traces the formation of the shared and divided history of the Jewish and Arab peoples. Focuses on the literary and institutional dimensions of this history, as well as the formation of related areas of study, such as religion, philosophy, literature, and psychoanalysis. Cross-listed with CPLT 156, MEIS 156, and RLST 156.

ARLC 158 Islam and Psychoanalysis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores contemporary psychoanalytic readings of Islam to consider the relationship between Islam and Orientalism, Orientalism and psychoanalysis, and psychoanalysis and Islam. Cross-listed with CPLT 158, MEIS 158, and RLST 158.

ARABIC LITERATURES AND CULTURES

Upper-Division Courses

ARBC 101A Advanced Arabic 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ARBC 006 or equivalent. An introduction to advanced modern standard Arabic. Builds upon knowledge of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Class conducted in Arabic.

ARBC 101B Advanced Arabic 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ARBC 101A or equivalent. An introduction to advanced modern standard Arabic. Builds upon knowledge of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Class conducted in Arabic.

ARBC 101C Advanced Arabic 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ARBC 101B or equivalent. An introduction to advanced modern standard Arabic. Builds upon knowledge of grammar and vocabulary to gain greater fluency and accuracy in listening, speaking, reading, and writing. Class conducted in Arabic.

ARBC 105 Media Arabic 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ARBC 006 or consent of instructor. Develops listening, speaking, reading, and writing skills through a focus on the language in newspapers, the news, and other forms of media in the Arabic language.

ARBC 110 Advanced Readings in

Arabic 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ARBC 006 or consent of instructor. Advanced seminar in the reading of Arabic texts. Focuses on improving students' reading skills while reviewing and deepening knowledge of Arabic grammar and vocabulary. Course is repeatable as content changes up to a maximum of 12 units.

ARLC 120 Classical Arabic Literary

Prose 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores aspects of classical Arabic literary prose. Includes the modes of quotation, citation, falsification, fabrication, and forgery. Focuses upon selected writings of al-Hamadhai, al-Jahiz, al-Ma'arri, Ibn Tufayl, and Ibn Hazim.

ARLC 151 Palestine/Algeria 4 Lecture, 3 hours; screening 6 hours per quarter; extra reading, 24 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Considers two distinct and related literary and historical moments: Palestine and Algeria. Topics include the relations between language and context; literature and literary historiography; genre and idiom; violence and the body; and the state and institutional practices of reading. Cross-listed with CPLT 151, and MEIS 151.

ARLC 152 Modern Arabic Poetry in A Multilingual Frame 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers

selected writings of Adunis ('Ali Ahmed Sa'id), Mahmoud Darwish, Abdelatif La'abi, and Etel Adnan, published originally in Arabic, French, and English. Topics include language (idiom, statement, utterance, translation, repetition, rhythm) and history (loss, violence, mourning, inheritance, future, legacy). Course is taught in English. Cross-listed with CPLT 152.

ARLC 154 Introduction to Arabic

Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic philosophical texts. Provides close and literary reading of texts in philosophy, as well as considers the impact these texts have had or can have on Western cultural formation. Cross-listed with CPLT 154, and PHIL 128.

ARLC 155 Introduction to Arabic

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic literature that focuses on language and rhetoric. Considers major issues such as colonialism, secularism, modernity, language, and the state. Utilizes texts from literature, the law, and philosophy. Cross-listed with CPLT 155, MEIS 155, and RLST 157.

ARLC 156 Jews and Arabs 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Traces the formation of the shared and divided history of the Jewish and Arab peoples. Focuses on the literary and institutional dimensions of this history, as well as the formation of related areas of study, such as religion, philosophy, literature, and psychoanalysis. Cross-listed with CPLT 156, MEIS 156, and RLST 156.

ARLC 158 Islam and Psychoanalysis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores contemporary psychoanalytic readings of Islam to consider the relationship between Islam and Orientalism, Orientalism and psychoanalysis, and psychoanalysis and Islam. Cross-listed with CPLT 158, MEIS 158, and RLST 158.

CAHUILLA

Subject Abbreviation: CAH

Lower-Division Courses

CAH 001 Introductory Cahuilla 4 Lecture, 4 hours. Prerequisite(s): none. An introduction to the Cahuilla language. Focuses on the development of listening, speaking, and writing skills. Also explores Cahuilla culture and the sociopolitical aspects of learning and speaking a Native American language.

CAH 002 Introductory Cahuilla 4 Lecture, 4 hours. Prerequisite(s): CAH 001 with a grade of C- or better. An introduction to the Cahuilla language. Focuses on further development of listening, speaking, and writing. Also explores Cahuilla culture and the sociopolitical aspects of learning and speaking a Native American language.

CAH 003 Introductory Cahuilla 4 Lecture, 4 hours. Prerequisite(s): CAH 002 with a grade

of C- or better. An introduction to the Cahuilla language. Focuses on further development of listening, speaking, and writing. Also explores Cahuilla culture and the sociopolitical aspects of learning and speaking a Native American language.

Major

The Chinese Major enables a student to acquire proficiency in the Chinese language and to study Chinese literature, culture, and society using interdisciplinary methods.

1. Lower-division requirements (12 units plus language proficiency)

- Proficiency in Chinese through the intermediate level (CHN 006 or its equivalent)
- Four (4) units from lower-division lecture courses on Chinese literature, culture, and film: AST 030/CHN 030, AST 040/CHN 040, AST 046/CHN 046, AST 048/CHN 048, and any other lower-division lecture courses on Chinese literature, culture, and film chosen in consultation with the student's advisor.
- Eight (8) units: CPLT 001 or CPLT 001W, CPLT 002

2. Upper-division requirements (36 units)

- Twelve (12) units in Chinese language from CHN 101A, CHN 101B, CHN 101C, CHN 105, CHN 108, CHN 110 (E-Z), CHN 115 (E-Z)
- Twelve (12) units in Chinese literature, culture, and film from AST 107/CHN 107/RLST 107, AST 135/CHN 135, AST 136/CHN 136, AST 142/CHN 142, AST 145/CHN 141/CLA 141/CPAC 141/POSC 140, AST 148/CHN 148, AST 185/CHN 185/MCS 169, CHN 104, CHN 105, CHN 106, CHN 108, CHN 110 (E-Z), CHN 115 (E-Z), CHN 134, CHN 137, CHN 190, CPLT 142E/WMST 142E, and any other upper-division lecture courses on Chinese literature, culture, and film chosen in consultation with the student's advisor.
- Eight (8) units in China-related upper-division courses from other departments (with adviser's consent), can include the courses listed under (b).
- CPLT 193 (4) units. (CPLT 196 strongly recommended but not required)

Chinese Minor

1. Lower-division requirements (4 units plus language proficiency)

- Proficiency in Chinese through the intermediate level (second year)
- Four (4) units from lower-division lecture courses on Chinese literature and culture: CHN 030/AST 030, CHN 040/AST 040, CHN 046/AST 046 or CHN 046W/AST 046W, CHN 048/AST 048

2. Upper-division requirements (20 units)

- Twelve (12) upper-division units in Chinese language from CHN 101A, CHN 101B, CHN 101C, CHN 105, CHN 108, CHN 110 (E-Z), CHN 115 (E-Z)
- Eight (8) units in Chinese literature and culture from CHN 104, CHN 105, CHN 106/PHIL 123, CHN 107/AST 107/RLST 107, CHN 108, CHN 110 (E-Z), CHN 115 (E-Z), CHN 118 (E-Z)/AST 118 (E-Z), CHN 132/AST 132/CLA 132/CPAC 132, CHN 134, CHN 135/AST 135, CHN 136/AST 136, CHN 137, CHN 141/AST 145/CLA 141/CPAC 141/POSC 140, CHN 142/AST 142, CHN 148/AST 148, CHN 185/AST 185/MCS 169, CHN 190 CPLT 142E/WMST 142E, and any other upper-division lecture courses on Chinese literature, culture, and film chosen in consultation with the student's advisor.

CHINESE COURSES

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

CHN 001 First-Year Chinese 4 Lecture, 4 hours. Prerequisite(s): Student must take the Chinese placement examination. An introduction to the sound system and grammar of Chinese. Focuses on the development of the four skills: understanding, speaking, reading, and writing. Classes are conducted in Chinese as much as possible. Audio-lingual learning materials are available in the language laboratory. Credit is awarded for only one of the following sequences: CHN 001, CHN 002, CHN 003, and CHN 004; CHN 001, CHN 002, and CHN 020B; CHN 020A and CHN 020B.

CHN 002 First-Year Chinese 4 Lecture, 4 hours. Prerequisite(s): CHN 001 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. An introduction to the sound system and grammar of Chinese. Focuses on the development of the four skills: understanding, speaking, reading, and writing. Classes are conducted in Chinese as much as possible. Audio-lingual learning materials are available in the language laboratory. Credit is awarded for only one of the following sequences: CHN 001, CHN 002, CHN 003, and

CHN 004; CHN 001, CHN 002, and CHN 020B; CHN 020A and CHN 020B.

CHN 003 First-Year Chinese 4 Lecture, 4 hours. Prerequisite(s): CHN 002 with a grade of “C-” or better or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. An introduction to the sound system and grammar of Chinese. Focuses on the development of the four skills: understanding, speaking, reading, and writing. Classes are conducted in Chinese as much as possible. Audio-lingual learning materials are available in the language laboratory. Credit is awarded for only one of the following sequences: CHN 001, CHN 002, CHN 003, and CHN 004; CHN 001, CHN 002, and CHN 020B; CHN 020A and CHN 020B.

CHN 004 Second-Year Chinese 4 Lecture, 4 hours. Prerequisite(s): CHN 003 with a grade of “C-” or better or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. Provides continuing development of the four skills: understanding, speaking, reading, and writing. Lectures are conducted primarily in Mandarin. Credit is awarded for only one of the following sequences: CHN 001, CHN 002, CHN 003, and CHN 004; CHN 001, CHN 002, and CHN 020B; CHN 020A and CHN 020B.

CHN 005 Second-Year Chinese 4 Lecture, 4 hours. Prerequisite(s): CHN 004 or CHN 020B or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. Continued development of the four skills: understanding, speaking, reading, and writing. Lectures are conducted primarily in Mandarin. Credit is awarded for only one of CHN 025 or the CHN 005 and CHN 006 sequence.

CHN 006 Second-Year Chinese 4 Lecture 4, Prerequisite(s): CHN 005 or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. Continued development of the four skills: understanding, speaking, reading, and writing. Lectures are conducted primarily in Mandarin. Credit is awarded for only one of CHN 025 or the CHN 005 and CHN 006 sequence.

CHN 020A First-Year Chinese For Heritage Learners 4 Lecture, 4 hours. Prerequisite(s): Student must take the Chinese placement examination. A first-year Mandarin Chinese course designed for heritage learners who have some proficiency in listening comprehension and speaking but are unable to read and write in Mandarin. Credit is awarded for only one of the following sequences: CHN 001, CHN 002, CHN 003, and CHN 004; CHN 001, CHN 002, and CHN 020B; CHN 020A and CHN 020B.

CHN 020B First-Year Chinese For Heritage Learners 4 Lecture, 4 hours. Prerequisite(s): CHN 002 with a grade of “C-” or better or CHN 020A with a grade of “C-” or better or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. A first-year Mandarin Chinese course designed for heritage learners who have some proficiency in listening comprehension and speaking but are unable to read and write in Mandarin. Credit is awarded for

only one of the following sequences: CHN 001, CHN 002, CHN 003, and CHN 004; CHN 001, CHN 002, and CHN 020B; CHN 020A and CHN 020B.

CHN 025 Accelerated Second-Year Chinese 4 Lecture, 4 hours. Prerequisite(s): CHN 004 or CHN 020B or equivalent or a sufficiently high test score on the Chinese placement examination as determined by the department faculty. Designed for students with advanced comprehension and speaking skills. Focuses on improving reading and writing skills. Credit is awarded for only one of CHN 025 or the CHN 005 and CHN 006 sequence.

CHN 030 Introduction to Chinese Civilization 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introduction to Chinese civilization through an interplay of philosophical, historical, religious, and literary readings from the ancient times through the modern age. Uses audiovisual media. All work is in English. Cross-listed with AST 030.

CHN 040 Masterworks of Chinese Literature 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. Reading and discussion of selected great works of Chinese literature (in English translation) with attention to cultural contexts. Various critical methods and approaches are used.

CHN 046 Responses to Political Repression in Modern Chinese Literature and Film 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An examination of the various responses to political repression in China during the second half of the twentieth century through selected literary and artistic representations. Cross-listed with AST 046. Credit is awarded for only one of CHN 046/AST 046 or CHN 046W/AST 046W.

CHN 046W Responses to Political Repression in Modern Chinese Literature and Film 4 Lecture, 2 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ENGL 001B with a grade of “C” or better or consent of instructor. An examination of the various responses to political repression in China during the second half of the twentieth century through selected literary and artistic representations. Fulfills the third-quarter writing requirement for students who earn a grade of “C” or better for courses that the Academic Senate designates, and that the student’s college permits as alternatives to English 001C. Cross-listed with AST 046W. Credit is awarded for only one of CHN 046/AST 046 or CHN 046W/AST 046W.

CHN 048 Chinese Cinema 4 Lecture, 2 hours; discussion, 1 hour; screening, 2 hours; research, 1 hour. Study of selected films from China and Taiwan with attention to cultural context. Questions addressed may include the following: What do we look for in a film? What are the film’s interrelations with theater, photography, and literature? How do we understand the film as an art form?

CHN 090 Special Studies 1 to 5 Individual Study, 3 to 15 hours. To be taken with the consent of the Chair of the Department as means of meeting special curricular problems in either language or literature. Course is

repeatable.

Upper-Division Courses

CHN 101A Third-Year Chinese 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CHN 006 or CHN 025 or equivalent. Further development of the four skills: understanding, speaking, reading, and writing; with an emphasis on reading and writing. Classes conducted in Mandarin.

CHN 101B Third-Year Chinese 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CHN 101A or equivalent or consent of instructor. Further development of the four skills: understanding, speaking, reading, and writing; with an emphasis on reading and writing. Classes conducted in Mandarin.

CHN 101C Third-Year Chinese 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CHN 101B or equivalent or consent of instructor. Further development of the four skills: understanding, speaking, reading, and writing; with an emphasis on reading and writing. Classes conducted in Mandarin.

CHN 104 Introduction to Classical Chinese Texts 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): CHN 003 or equivalent or consent of instructor. Introduction to classical Chinese philosophical and historical texts. Readings of primary source materials and analysis of grammar and usage. Class is conducted in English.

CHN 105 Classical Chinese Prose 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): CHN 101C. Close reading of selected texts from the Han and pre-Han period, chosen to illustrate the main features of the Chinese Ku-wen (classical prose).

CHN 106 Readings in Classical Chinese Philosophy 4 Lecture, 3 hours; written work, 2 hours. Prerequisite(s): CHN 104 or consent of instructor. Introduces selections from key philosophical texts in classical Chinese. Focuses on a combination of Chinese reading and philosophical understanding. Cross-listed with PHIL 123.

CHN 107 Taoist Traditions 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): AST 030/CHN 030 or upper-division standing or consent of instructor. A survey of the ancient mystical and philosophical aspects of Taoism as well as the living religious tradition, their relationships to each other, and their expression in Chinese culture and civilization. Topics include the Tao Te Ching, the Chuang-tzu, the Taoist canon, meditation, immortality, alchemy, and ritual. Cross-listed with AST 107, and RLST 107.

Languages 1 Workshop, 1 hour. Prerequisite(s): concurrent enrollment in an upper-division course in European literature or culture that is taught in English. Taken in conjunction with an upper-division course in European literature or culture, provides discussion and alternative assignments in the language of the student's emphasis. Course is repeatable to a maximum of 6 units.

CLASSICAL STUDIES

College of Humanities, Arts, and Social Sciences

Committee in Charge

Lisa Raphals, Chair (Comp Lit & Lang)
Denver Graninger (History)
Kyle Khellaf (Comp Lit & Lang)
Jozef Muller (Philosophy)
Benjamin King (Comp Lit & Lang)
Christopher Simon, (Comp Lit & Lang)
Milagros Peña, Dean, *ex officio*

The objective of the B.A. in Classical Studies is the furthering of knowledge of classical civilization through two emphases: the study of Greek and/or Latin language(s) and literature(s) and the study of courses in English translation on topics including classical literature, history, politics, religion, mythology, and art in order to aid students' appreciation of the Greek and Roman contributions to later Western civilization.

The student who majors in Classical Studies acquires a balanced yet focused view of the language, literature, thought, and civilization of Greece and Rome. The student also obtains the valuable skills of a better vocabulary, a sharper critical sense, logical analysis of texts, coherent argumentation, and a valuable perspective on our own society. Classical Studies majors receive

a liberal arts education of traditional excellence and one widely esteemed by business and professional schools. A student may also pursue graduate training in Classics, Art History, History, Philosophy, or other related disciplines.

Major

Language Proficiency

All students in Classical Studies must complete either LATN 001, LATN 002, LATN 003, and LATN 004 (or equivalents) or GRK 001, GRK 002, and GRK 003 (or equivalents). They must also complete 12 upper-division units (or the equivalent) of course work in Latin or Greek.

1. Language proficiency requirement:

- either LATN 001, LATN 002, LATN 003, and LATN 004 (or equivalents) or GRK 001, GRK 002, and GRK 003 (or equivalents)

and

- Twelve (12) upper-division units or the equivalent of course work in Latin or Greek

2. Civilization requirement

Two courses from CLA 010A, CLA 010B, or CLA 010C

3. a) CPLT 001 or CPLT 001W and CPLT 002 (8 units)

- CPLT 193 (4 units). (CPLT 196 strongly recommended but not required).

4. Twenty-four (24) units from the following:

- Upper-division Latin or Greek literature courses beyond the language proficiency requirement
- AHS 147, AHS 148, CLA 100/HISE 110, CLA 102/CPAC 102, CLA 112/CPLT 112/RLST 117, CLA 113/CPAC 112/HISE 113, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 121/CPAC 121/POSC 121, CLA 132/AST 132/CHN 132/CPAC 132, CLA 141/CHN 141/CPAC 141, CLA 165, CLA 190, GRK 190, HISE 112, HISE 114/CPAC 133, HISE 115, HISE 116, HISE 117, HISE 118, HIST 103, HIST 110/CPAC 134, LATN 190, PHIL 120(E-Z), PHIL 121Q, POSC 110, RLST 136, THEA 125E
- Other courses outside the Classics program related to the major with approval of the student's advisor.

Highly recommended lower-division courses are CLA 040 (Classical Mythology) and CLA 045 (The Ancient World in Film and Television). In their course selection, students should seek exposure to both the Greek and Roman components of the major.

Minor

The Classical Studies minor offers students a fundamental understanding of classical language and culture which form the basis of much of western civilization. The minor naturally complements liberal arts degrees in many areas, including History, Art History, Philosophy, English, and Religious Studies. Students profit from the skills associated with a degree in the classics, such as enhancement of analytical and critical abilities, communication skills, and verbal proficiency.

1. One course from CLA 010A, CLA 010B,

or CLA 010C

- Either LATN 001, LATN 002, LATN 003, and LATN 004 (or equivalents) or GRK 001, GRK 002, and GRK 003 (or equivalents)
- One upper-division course (4 units) in either Latin or Greek

4. Three courses from among the following (12 units)

- Greek at or above the 100 level
- Latin at or above the 100 level
- AHS 147, AHS 148, CLA 100/HISE 110, CLA 102/CPAC 102, CLA 112/CPLT 112/RLST 117, CLA 113/CPAC 112/HISE 113, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 121/CPAC 121/POSC 121, CLA 132/AST 132/CHN 132/CPAC 132, CLA 141/AST 145/CHN 141/CPAC 141/POSC 140, CLA 165, CLA 190, GRK 190, HISE 111, HISE 112, HISE 114/CPAC 133, HISE 115, HISE 116, HISE 117, HISE 118, HIST 110/CPAC 134, LATN 190, PHIL 120 (E-Z), LATN 190, PHIL 121Q, POSC 110, RLST 136, THEA 125E

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

CLASSICS

Subject abbreviation: CLA

Lower-Division Courses

CLA 010A Ancient Civilization: Early Greece

and the Mediterranean 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): none. A broad treatment of history, art and archaeology, and literature, read in translation, comprising a cultural survey of the origins and the first formation of Western civilization.

CLA 010B Ancient Civilization: Classical

Greece 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A broad treatment of history, art and archaeology, and literature, read in translation, comprising a cultural survey of the origins and the first formation of Western civilization.

CLA 010C Ancient Civilization: Rome 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A broad treatment of history, art and archaeology, and literature, read in translation, comprising a cultural survey of the origins and the first formation of Western civilization.

CLA 017 Rome: the Ancient City 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Traces the development of the city of ancient Rome. By studying the literary and historical evidence alongside the physical remains of the city--its monuments, art, and historical and archaeological remains--this course seeks to introduce students to the Romans and to their importance for later ages. Cross-listed with AHS 030, and HIST 027.

CLA 020 Word Power From Greek and Latin

Roots 4 Lecture, 3 hours; consultation, 1 hour. An intensive study of Greek and Latin elements in English etymology and word derivation. No

knowledge of Greek or Latin is necessary.

CLA 030 Scientific Word Power From Latin and

Greek Roots 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. A systematic analysis of the scientific terminology in English derived from Greek and Latin stems, including those in the biological and natural sciences. Aims are to teach word-analysis, to increase technical and taxonomic vocabulary, and to study our linguistic and cultural debt to Greek and Roman scientific language.

CLA 040 Classical Mythology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introductory survey of the mythology of Greece and Rome, including the divine myths, heroic legends, and the implications of these polytheistic systems for ancient culture.

CLA 045 The Ancient World in Film and

Television 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. A study of representations of Greece and Rome in film, television, and other modern media. Introduces these 'visual texts' both as popular art forms on their own and in relation to their ancient and modern literary sources. Cross-listed with MCS 038.

CLA 050 Folktales, Monsters, and Magic in

Ancient Greece and Rome 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Examines beliefs of the supernatural as part of life in the ancient world. Topics include magic and witchcraft, the fear of demons and ghosts, and the wish to manipulate invisible powers. Utilizes a variety of media and sources both ancient and modern.

Upper-Division Courses

CLA 100 Ancient Historians 4 Lecture, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. The historical development of historiography as evidenced in ancient historical writings from Near Eastern king lists and biblical histories to the narrative histories of Greece and Rome. Focuses on the ideas of history in the various cultures of the ancient Near East and Mediterranean and their relation to modern historical thought. Cross-listed with HISE 110.

CLA 102 Ancient Civilizations and Later

Identities 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topical survey of aspects of ancient civilizations appropriated and re-applied to modern cultures. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with CPAC 102.

CLA 112 Mythology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative study of mythic traditions from several world cultures and religions viewed from a variety of theoretical perspectives. Includes material drawn from epics, religious texts, divine hymns, creation myths, heroic legends, and concepts of the afterlife as reflected in literary and nonliterary sources. Cross-listed with RLST 117, and CPLT 112.

CLA 113 Comparative Ancient Historical

Writing 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the literary aspects of historical writing in ancient cultures, with some comparison of the ancient contribution to later authors of the genre. Cross-listed with CPAC112, and HISE113.

CLA 114 The Classical Tradition 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the legacy of Greece and Rome in Western culture, from the Renaissance to the present. Topics include literature, art, architecture, and politics. Cross-listed with CPLT 114.

CLA 120 (E-Z) Themes&Issues of Classcl World 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Focuses on an aspect of antiquity of critical importance to modern culture, and examines the relevant literary texts, artistic monuments, and cultural data. Students explore and interpret ancient sources to gain an appreciation of the differences and similarities between the classical world and the world today. All readings are in English; no knowledge of foreign languages is required. E. Anc Sexlty&gndr:myths&realities; F. Greco-roman Popular Culture; G. Reading Greek And Roman Sports; J. Guide To Living: Ancient Wrld;

CLA 121 Monarchy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with CPAC121, and POSC121. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

CLA 121S Monarchy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with POSC 121S, and CPAC 121S. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

CLA 132 Medical Traditions in China and Greece 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): one of the following courses: AST 030/CHN 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 102/CPAC 102, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CPAC 112/CLA 113/HISE 113, CLA 120 (E-Z), CLA 121/CPAC 121/POSC 121, CLA 165, CPAC 133/HISE 114, CPAC 134/HIST 110, CPAC 141/AST 145/CHN 141/CLA 141/POSC 140; CPAC 143/CHN 143/RLST 143; or consent of instructor. Comparative examination of the early development of Western medical traditions in classical Greece and the origins and development of the Chinese medical systems now referred to as traditional Chinese medicine.

Focuses on their cultural and social contexts. Cross-listed with CPAC 132, AST 132, and CHN 132.

CLA 141 Militarism and Hegemony in the Ancient World 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): One of the following courses: CHN 030/AST 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 165, CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CLA 143/CPAC 143/CHN 143/RLST 143; or consent of instructor. Comparative study of ancient warfare and hegemony in two or more civilizations of the ancient world. Perspectives may include social and political contexts, gender and war, acquisition of empire, religious wars, and weapons, strategies and tactics in theory and practice. Study of primary source material in texts and visual arts. Cross-listed with CPAC 141, AST 145, CHN 141, and POSC 140.

CLA 143 Divination and Prediction in China and Greece 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): One of the following courses: CHN 030/AST 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 165, CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CPAC 141/AST 145/CHN 141/CLA 141/POSC 140; or consent of instructor. Comparative study of early divination and prediction in early China, ancient Greece, or two other areas of the ancient world. Perspectives include social and intellectual contexts and institutions, as well as gender and boundaries between science, philosophy, and religion. Utilizes primary source material in texts and visual arts. Cross-listed with CPAC 143, CHN 143, and RLST 143.

CLA 165 Greco-Roman Cults and Credence 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of the rich diversity of religious belief and systems of worship in the Greco-Roman world, from Bronze Age and Classical Greeks, to the Romans of the late Empire. Texts, documents, and archaeological evidence are examined to explore these unique constructions of ritual and creed.

CLA 190 Special Studies 1 to 5 Prerequisite(s): To be taken with the consent of the chairman of the department as a means of meeting special curricular problems or deficiencies. Course is repeatable.

Graduate Courses

See also *UC Tri-Campus Graduate Program in Classics*.

CLA 200A Contemporary Literary Theory and the Classics 4 Lecture, 3 hours; individual

study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. An introduction to contemporary literary theory focusing on important critical approaches. Topics vary from year to year. Requires written work that explores theoretical issues and involves engagement with a Greek or Latin text. This work may, for example, illuminate some aspect of a theorist's work, put two theorists into dialogue, or explore the usefulness of a particular approach to texts, authors, or genres. Taught at UC Irvine. Same as UC Irvine CLASSIC 200A. Course is repeatable.

CLA 200B Diachronic Perspectives On Classical Antiquity 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Examines ways in which classical texts and ideas have been received and appropriated for the diverse purposes of ancient and subsequent cultures. Taught at UC Irvine. Same as UC Irvine CLASSIC 200B. Course is repeatable.

CLA 200C Greece and Rome in Their Contemporary Cultural Contexts 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. An introduction to the methods and perspectives of social scientific theory used to study the material and social dimensions of the ancient cultures of Greece and Rome. Taught at UC Irvine. Same as UC Irvine CLASSIC 200C. Course is repeatable.

CLA 201 Research Methods in Classical Studies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Covers various technical skills essential for successful research and pedagogy in Classics. Includes use of digital resources (e.g., bibliographical databases). Introduces important disciplinary subfields, such as textual criticism and epigraphy. Selection of topics is at the instructor's discretion. Taught at UC Irvine. Same as UC Irvine CLASSICS 201. Course is repeatable.

CLA 250 Seminar in Classics 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Focuses mainly, but not exclusively, on major literary topics. Subject matter varies. Taught at UC Irvine. Same as UC Irvine CLASSIC 220. Course is repeatable.

CLA 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor; normally open only to students in the UC Tri-Campus Graduate Program in Classics. Supervised independent research. Same as UC Irvine CLASSIC 280. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CLA 292 Concurrent Studies in Classics 2 Individual Study, 6 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Concurrent enrollment in an advanced undergraduate Greek or Latin course, with credit awarded for additional reading and separate examinations. Same as UC Irvine CLASSIC 205.

Course is repeatable.

CLA 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Research in preparation for the Candidacy Examination. Same as UC Irvine CLASSIC 290. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CLA 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Directed research for the M.A. thesis or Ph.D. dissertation. Same as UC Irvine CLASSIC 299. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

CLA 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in. Supervised teaching in lower-division courses. Required of all teaching assistants in Classics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GREEK COURSES

Subject abbreviation: GRK

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

GRK 001 Introduction to Classical

Greek 4 Lecture, 4 hours. Prerequisite(s): none. Intensive study of the fundamentals of Attic Greek with practice in reading and writing.

GRK 002 Introduction to Classical

Greek 4 Lecture 4, Prerequisite(s): GRK 001 with a grade of "C-" or better or equivalent Intensive study of the fundamentals of Attic Greek with practice in reading and writing.

GRK 003 Introduction to Classical

Greek 4 Lecture 4, Prerequisite(s): GRK 002 with a grade of "C-" or better or equivalent Intensive study of the fundamentals of Attic Greek with practice in reading and writing.

Upper-Division Courses

GRK 101 (E-Z) Adv Greek Reading &

Grammar 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GRK 003 with a grade of C- or better. One or two of the following will be offered every year, according to need. E. Homer (Iliad); F. Homer (Odyssey); G. Lyric Poets; H. Aeschylus; I. Sophocles; J. Euripides; K. Aristophanes; L. Herodotus; M. Thucydides; N.

Xenophon; O. The Attic Orators; Q. Aristotle; R. New Testament; T. Hellenistic And Later Greek;

GRK 107 Plato 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GRK 003 with a grade of "C-" or better or equivalent. An introduction to the language and philosophical thought of Plato. Close reading of selections from one or more Platonic dialogues.

GRK 141 The Pre-Socratics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GRK 003 with a grade of C- or better or equivalent. An introduction to the Pre-Socratic philosophers through close reading of selected passages from a variety of authors, in both prose and verse.

GRK 190 Special Studies 1 to 5 Prerequisite(s): To be taken with the consent of the instructor as a means of meeting special curricular problems. Course is repeatable.

Graduate Courses

See also UC Tri-Campus Graduate Program in Classics.

CPLT 290 Directed Studies 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GRK 292 Concurrent Analytical

Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in GRK 100-series course. To be taken on an individual basis. Each student completes a graduate paper based on research related to the GRK 100-series course.

Professional Course

CPLT 301 Teaching of Foreign Language at the

College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing, or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

LATIN COURSES

Subject abbreviation: LATN

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

LATN 001 Introduction to Latin 4 Lecture, 4 hours. Prerequisite(s): none. Intensive study of the fundamentals of the Latin language with

practice in reading and writing.

LATN 002 Introduction to Latin 4 Lecture, 4 hours. Prerequisite(s): LATN 001 with a grade of "C-" or better or equivalent. Intensive study of the fundamentals of the Latin language with practice in reading and writing.

LATN 003 Introduction to Latin 4 Lecture, 4 hours. Prerequisite(s): LATN 002 with a grade of "C-" or better or equivalent. Intensive study of the fundamentals of the Latin language with practice in reading and writing.

LATN 004 Intermediate Latin 4 Lecture, 3 hours; grammar study projects, 3 hours. Prerequisite(s): LATN 003 with a grade of "C-" or better or equivalent. Involves readings from Latin prose and poetry, accompanied by selective review of grammar and presentation of more advanced grammatical issues. Designed to complete the introductory sequence and to ease the transition to upper-division literature courses.

Upper-Division Courses

LATN 101 (E-Z) Advncd Latin Reading &

Grammar 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): LATN 004. One or two of the following are offered every year according to need. E. Plautus; F. Terence; G. Virgil; H. Catullus; I. Horace; J. Ovid; K. Propertius; L. Tibullus; N. Cicero; O. Livy; P. Tacitus; Q. Juvenal; R. Lucretius; S. Seneca; T. Pliny; U. Medieval Latin;

LATN 107 Sallust 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): LATN 003 with a grade of "C-" or better or equivalent. Close reading of selections from Sallust. Primary focus on building a proficiency in reading Latin prose.

LATN 135 The Roman Novel 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): LATN 004 or equivalent. Reading and discussion of Latin prose fiction as represented by Petronius' Satyricon and/or Apuleius' Metamorphoses. Emphasis given to the development of the romantic novel in Latin.

LATN 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): LATN 004 or equivalent or consent of instructor. To be taken as a means of meeting special curricular problems. Course is repeatable.

Graduate Courses

See also UC Tri-Campus Graduate Program in Classics.

CPLT 290 Directed Studies 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

LATN 292 Concurrent Analytical

Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in LATN 100-series course To be taken on an individual basis. Student will complete a graduate paper based on research related to the LATN 100-series course. Course is repeatable with different topic.

Professional Course

CPLT 301 Teaching of Foreign Language at the College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing,

or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

THE UC TRI-CAMPUS GRADUATE PROGRAM IN CLASSICS

web2.hnet.uci.edu/classics/Tricampus

(UC Irvine, UC Riverside, UC San Diego)

The UC Tri-Campus Graduate Program in Classics is a joint venture that combines faculty in Classics and related disciplines from the three southernmost UC campuses.

Students accepted into the program may enroll at any of the three campuses, but they normally apply for admission to the Tri-Campus program through UC Irvine, which is the main location for instruction and administration. Applications to the Tri-Campus program are reviewed by an admissions committee composed of faculty members from all three campuses.

The goal of the program is to provide a graduate education that unites the main currents of modern literary, cultural, and social-scientific theory with the traditional skills and methodologies of classical philology. Candidates for degrees must exhibit facility in Greek and Latin, competence in research, including theoretical approaches to texts and objects, technical mastery of computing for research and teaching, and experience in teaching.

These goals are realized through the four core courses (CLA 200A, CLA 200B, CLA 200C, and CLA 201), seminars (UC Riverside CLA 250/UC Irvine CLASSICS 220) and reading courses (UC Riverside CLA 292/UC Irvine CLASSICS 205).

All students are admitted into the Ph.D. program. With the exception of those granted advanced standing because they hold the M.A. degree in Classics from another institution, entering students are concurrently enrolled in the M.A. program.

Master's Degree

Students are admitted into the Ph.D. program only. Entering students who do not already hold a master's degree in Classics from another institution will be required to complete M.A. requirements while pursuing the Ph.D.

The requirements for the M.A. degree in Classics are two years (six quarters) of course work, passage of a special set of examinations, and completion of a master's paper. The normal course load is three 200-level courses each quarter. Minimum course requirements are four quarters of CLA 200A, CLA 200B, CLA 200C, and CLA 201; four quarters of UC Riverside CLA 292/UC Irvine CLASSICS 205; and four quarters of UC Riverside CLA 250/UC Irvine CLASSICS 220. (UC Riverside CLA 290/UC Irvine CLASSICS

280 may be substituted for these courses at the discretion of the faculty.) Requires a reading knowledge of either Germanic Studies, French, Italian, or equivalent language, demonstrated by examination or other means.

Normative Time to Degree Two years

Doctoral Degree

The requirements for the Ph.D. degree in Classics are three years (nine quarters) of course work. Minimum course requirements are four quarters of CLA 200A, CLA 200B, CLA 200C, and CLA 201; five quarters of UC Riverside CLA 292/UC Irvine CLASSICS 205; and six quarters of UC Riverside CLA 250/UC Irvine CLASSICS 220 or an equivalent course. (UC Riverside CLA 290/UC Irvine CLASSICS 280 may be substituted for these courses at the discretion of the Program faculty.) Students are encouraged to take courses and seminars in relevant areas outside the program at any of the three campuses.

Students must demonstrate reading proficiency in a second modern language by the end of the third year. By the end of the third year and during the fourth year of study, students must have read extensively in the primary texts and in literary history and theory and in ancient history. To qualify as a candidate and enter the dissertation stage, a student must pass an individually designed set of qualifying examinations, including translation examinations in Greek and Latin, written examinations or lengthy papers in special authors and field, and an oral examination.

The facilities, course offerings, programs, and individual faculty mentorship of all three campuses are available to students in the Tri-Campus degree program. The resources of the program are enhanced through a cooperative teaching arrangement among the Tri-Campus program and the Classics graduate programs of UC Los Angeles and the University of Southern California.

Foreign Language Requirement Students must demonstrate reading proficiency in a second modern language by the end of the third year.

Teaching Requirement Experience in supervised teaching and/or research activity is normally required.

Normative Time to Degree Six years

Faculty

Michele Salzman, Ph.D. Director
Professor of History, UCR; Late Antiquity;
Roman History and Literature, Religion,
Gender and Sexuality Studies

Georgios Anagnostopoulos, Ph.D.
Professor of Philosophy, UCSD; Ancient
Greek Philosophy, Ethics, Metaphysics

Cynthia L. Claxton, Ph.D.
Lecturer in Classics, and graduate teaching
supervisor, UCI; Greek prose, Historiography

Page duBois, Ph.D.
Professor of Classics and Comparative Lit-
erature, UCSD; Greek Literature, Rhetoric,
Critical Theory, Cultural Studies

Zina Giannopoulou, Ph.D.
Associate Professor of Classics, UCI;
literary theory and Platonic hermeneutics,
classical and Hellenistic philosophy, Greek

tragedy and epic.

David Glidden, Ph.D.
Professor Emeritus of Philosophy, UCR;
Greek and Roman Philosophy

Anna Gonosová, Ph.D.
Associate Professor of Art History, UCI;
Byzantine and Medieval Art

Denver Graninger, Ph.D.
Associate Professor of History, UCR; Greek
and Roman History, Greek Epigraphy and
Archaeology

Monte Johnson, Ph.D.
Associate Professor of Philosophy, UCSD;
Classical and Hellenistic Philosophy; Aris-
totle, Democritus and their later reception
in philosophy and science

Dayna Kalleres, Ph.D.
Associate Professor of History and
Religious Studies, UCSD; Late Antiquity,
Religious Studies, and Critical Theories of
Religion

Andromache Karanika, Ph.D.
Associate Professor of Classics, UCI;
Greek Epic Poetry, Greek Lyric, Folklore

Benjamin King, Ph.D.
Lecturer in Classics, UCR; Greek Literature
and Philosophy

Margaret M. Miles, Ph.D.
Associate Professor of Art History, UCI;
Greek and Roman Art and Archaeology,
Ancient Sicily, Greek Religion

Jozef Muller, Ph.D.
Assistant Professor of Philosophy, UCR;
Ancient Philosophy, especially Aristotle,
Plato, and the Stoics

Maria C. Pantelia, Ph.D.
Associate Professor of Classics, and
Director, Thesaurus Linguae Graecae,
UCI; Greek Epic Poetry, Hellenistic Poetry,
Computer Applications to Classics

Lisa Raphals, Ph.D.
Professor of Chinese/Comparative Litera-
ture, UCR

Edward Watts, Ph.D.
Professor of History, UCI (Vassiliadis
Endowed Chair in Byzantine Studies); In-
tellectual and Religious History of the Early
Byzantine Empire; Late Antiquity

Andrew Zissos, Ph.D.
Associate Professor of Classics; graduate
advisor, UCI; Latin Epic; Medieval Latin;
Roman Culture

Graduate Courses

Most of the following courses are taught at the UC Irvine campus.

See also CLA 302 under the Classics section.

CLA 200A Contemporary Literary Theory and the Classics 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. An introduction to contemporary literary theory focusing on important critical approaches. Topics vary from year to year. Requires written work that explores theoretical issues and involves engagement with a Greek or Latin text. This work may, for example, illuminate some aspect of a theorist's work, put two theorists into dialogue, or explore

the usefulness of a particular approach to texts, authors, or genres. Taught at UC Irvine. Same as UC Irvine CLASSIC 200A. Course is repeatable.

CLA 200B Diachronic Perspectives On

Classical Antiquity 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Examines ways in which classical texts and ideas have been received and appropriated for the diverse purposes of ancient and subsequent cultures. Taught at UC Irvine. Same as UC Irvine CLASSIC 200B. Course is repeatable.

CLA 200C Greece and Rome in Their Contemporary Cultural Contexts 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. An introduction to the methods and perspectives of social scientific theory used to study the material and social dimensions of the ancient cultures of Greece and Rome. Taught at UC Irvine. Same as UC Irvine CLASSIC 200C. Course is repeatable.

CLA 201 Research Methods in Classical

Studies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Covers various technical skills essential for successful research and pedagogy in Classics. Includes use of digital resources (e.g., bibliographical databases). Introduces important disciplinary subfields, such as textual criticism and epigraphy. Selection of topics is at the instructor's discretion. Taught at UC Irvine. Same as UC Irvine CLASSICS 201. Course is repeatable.

CLA 250 Seminar in Classics 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Focuses mainly, but not exclusively, on major literary topics. Subject matter varies. Taught at UC Irvine. Same as UC Irvine CLASSIC 220. Course is repeatable.

CLA 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor; normally open only to students in the UC Tri-Campus Graduate Program in Classics. Supervised independent research. Same as UC Irvine CLASSIC 280. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CLA 292 Concurrent Studies in

Classics 2 Individual Study, 6 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Concurrent enrollment in an advanced undergraduate Greek or Latin course, with credit awarded for additional reading and separate examinations. Same as UC Irvine CLASSIC 205. Course is repeatable.

CLA 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Research in preparation for the Candidacy Examination. Same as UC Irvine CLASSIC 290. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CLA 299 Research For the Thesis Or

Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): admission to the UC Tri-Campus Graduate Program in Classics or consent of instructor. Directed research for the M.A. thesis or Ph.D. dissertation. Same as UC Irvine CLASSIC 299. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

COMPARATIVE ANCIENT CIVILIZATIONS

**Subject abbreviation: CPAC
College of Humanities, Arts,
and Social Sciences**

Committee in Charge

Lisa Raphals, Ph.D., Chair (Comp Lit & Lang)
Christopher Chase-Dunn (Sociology)
Lucile Chia (History)
Denver Graninger (History)
Matthew King (Religion)
John Laursen (Political Science)
Hendrick Maier (Comp Lit & Lang,
Emeritus)
Jozef Muller (Philosophy)
Michele Salzman (History)
Karl Taube (Anthropology)
Sabine Thuerwaechter (Comp Lit & Lang)
Kenichiro Tsukamoto (Anthropology)
Milagros Peña, Dean, *ex officio*

The Comparative Ancient Civilizations B.A. combines the breadth of an interdisciplinary major with the focus of more traditional majors like History or Classical Civilization. By undertaking a comparison of several major cultures of the past that have continued importance in the construction of our present world, the program affords a truly liberal education. Students have a unique opportunity to employ the methods of humanities and social sciences in their major study. They acquire skills of historical and social analysis, multicultural awareness, insight into constructions of gender and sexuality, and mental flexibility.

The major is an excellent choice as a double major taken along with any of the traditional disciplines to add distinction and intellectual breadth to one's background.

Major

1. Lower-division requirements (20 units): CPLT 001 or CPLT 001W, CPLT 002 and any three from ANTH 003, ANTH 004, AST 030/CHN 030, CLA 010A, CLA 010B, CLA 010C, CPLT 017A

2. Upper-division requirements (44 units)

a) At least 16 units from CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CPAC 141/AST 141/CHN 141/CLA 141/AST 145/POSC 140

b) CPLT 193 (4 units). (CPLT 196 strongly recommended but not required)

c) The balance (24 units) from any of the following upper-division courses in related disciplines; students are recommended, in consultation with their advisor, to focus on one or two ancient

civilizations in related courses to obtain special depth in those areas. Since related course offerings in these areas are often added, some of the most recent courses acceptable to fulfill this requirement may not be listed and students are advised to consult with the major advisor.

Upper-Division Courses

CPAC 102 Ancient Civilizations and Later Identities 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topical survey of aspects of ancient civilizations appropriated and re-applied to modern cultures. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with CLA 102.

CPAC 112 Comparative Ancient Historical Writing 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the literary aspects of historical writing in ancient cultures, with some comparison of the ancient contribution to later authors of the genre. Cross-listed with CLA 113, and HISE 113.

CPAC 121 Monarchy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with CLA 121, and POSC 121. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

CPAC 121S Monarchy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with POSC 121S, and CLA 121S. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

CPAC 132 Medical Traditions in China and Greece 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): one of the following courses: AST 030/CHN 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 102/CPAC 102, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CPAC 112/CLA 113/HISE 113, CLA 120 (E-Z), CLA 121/CPAC 121/POSC 121, CLA 165, CPAC 133/HISE 114, CPAC 134/HIST 110, CPAC 141/AST 145/CHN 141/CLA 141/POSC 140; CPAC 143/CHN 143/RLST 143; or consent of instructor. Comparative examination of the early development of Western medical traditions in classical Greece and the origins and development of the Chinese medical systems now referred to as traditional Chinese medicine.

Focuses on their cultural and social contexts. Cross-listed with CHN 132, AST 132, and CLA 132.

CPAC 133 Ancient Writing and Literacy 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Uses cross-cultural comparison to survey writing and literacy in ancient civilizations and how they are related in the origin and development of selected ancient cultures. Cross-listed with HISE 114.

CPAC 134 History of Ancient Astronomy 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the origins and history of ancient astronomy from Mesopotamia to the Greco-Roman world. Topics include the problems of the calendar and planetary motion, and the relation between astronomy and astrology in the ancient world. Focuses on readings from primary texts. Cross-listed with HIST 110.

CPAC 141 Militarism and Hegemony in the Ancient World 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): one of the following courses: CHN 030/AST 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 165, CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CLA 143/CPAC 143/CHN 143/RLST 143; or consent of instructor. Comparative study of ancient warfare and hegemony in two or more civilizations of the ancient world. Perspectives may include social and political contexts, gender and war, acquisition of empire, religious wars, and weapons, strategies and tactics in theory and practice. Study of primary source material in texts and visual arts. Cross-listed with CLA 141, AST 145, CHN 141, and POSC 140.

CPAC 143 Divination and Prediction in China and Greece 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): One of the following courses: CHN 030/AST 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 165, CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CPAC 141/AST 145/CHN 141/CLA 141/POSC 140; or consent of instructor. Comparative study of early divination and prediction in early China, ancient Greece, or two other areas of the ancient world. Perspectives include social and intellectual contexts and institutions, as well as gender and boundaries between science, philosophy, and religion. Utilizes primary source material in texts and visual arts. Cross-listed with CHN 143, CLA 143, and RLST 143.

Milagros Peña Ph.D. Dean, *College of Humanities, Arts, and Social Sciences, ex officio*

The department offers the B.A. in Comparative Literature. Comparative Literature is an interdisciplinary field which is studied internationally. At UCR, the Comparative Literature curriculum is organized around a core staff of comparatists assisted by qualified faculty from other departments and programs. The discipline of Comparative Literature encourages study of interliterary relationships among various cultural traditions; on the graduate level, it seeks to promote the study of interdisciplinary relationships. Comparative Literature courses, undergraduate or graduate, require that the majors read whenever possible in the languages (two for undergraduates, one of which may be English, and three for graduates) they present. Non majors may do all the readings in English translations. Comparative Literature majors may also work with translations.

Comparative Literature and World Literature courses are open to all students.

Comparative Literature

1. Lower-division requirements (20 units plus proficiency)

- Proficiency in at least one language (besides English), ancient or modern, through the intermediate level (second year)
- CPLT 001 or CPLT 001W, CPLT 002
- CPLT 017A, CPLT 017B, CPLT 017C

2. Upper-division requirements (48 units)

- a) Sixteen (16) units in one literature, distributed as much as possible among courses representing the various literary periods
- b) Twelve (12) units in a second literature
- c) CPLT 110, CPLT 193, (CPLT 196 strongly recommended but not required)
- d) Twelve (12) elective units in Comparative Literature

Students contemplating graduate study in Comparative Literature are urged to complete two years in a second (non-English) language before graduation.

Graduate Programs

The Department of Comparative Literature and Languages grants graduate degrees based on the comparative studies of world literatures and cultures. The Ph.D. degree has three tracks: Interliterary Studies, Interdisciplinary Studies, and Science Fiction, Science, and Literature described below. The department faculty, well balanced between Asianists and Europeanists, share a strong commitment to the study of literature through comparative and interdisciplinary approaches. We have particular strengths in comparative Asian and European studies; comparative ancient studies; gender and feminist studies; global cultures and post-colonialism; film and visual culture studies; narrative and cultural translation; and science and science fiction.

Students are admitted into the Ph.D. program only. Entering students who do not already hold a master's degree in Comparative Literature, in literature, or in comparable fields from another institution must complete M.A. requirements while pursuing the Ph.D.

Admission

All applicants must supply GRE General Test (verbal, quantitative, analytical) scores.

S/NC Courses

No S/NC-graded courses may be applied toward the minimum unit requirement for the graduate degree(s).

Note: Courses in the student's special literature areas used to fulfill either the M.A. or Ph.D. literature requirements may be either graduate courses, or undergraduate courses together with a concurrent 292 course.

Language Requirement

Students must have attained at least advanced language competency in their non-English areas of literary specialization. Competency is demonstrated by one of the following for each language required for a student's particular literary specializations:

1. Course Work A translation seminar with additional work in a specific national language/literature as required by the instructor.
2. Translation Examination A translation exercise from the foreign language into English with use of only a dictionary administered on campus and about two hours long. Period and genre should be discussed in advance with the examiner. The choice of examiner is approved by the graduate advisor.

Master's Degree

The Department of Comparative Literature and Languages requires the following for the M.A. degree in Comparative Literature.

All students must complete a minimum of 36 units of course work. Candidates must work in three of the following literatures, or two literatures for students in the interdisciplinary track: Chinese, English (either British or American), French, German, Classical Greek, Italian, Indonesian, Japanese, Latin, Philippino, Portuguese, Russian, Spanish, and Vietnamese.

Requirements are as follows:

1. Two courses in canonical literature (CPLT 210)
2. Two courses in methods and theory (CPLT 214 and CPLT 215A)
3. One course from CPLT 212, CPLT 222, or CPLT 301
4. Two graduate courses in each of three literatures or in each of two literatures and one interdisciplinary area
5. Three elective courses in Comparative Literature

Note: Students must take at least one graduate course in each of the following four areas: European, Asian, Ancient, and Modern Literature.

After completing the course requirements, the student has two options:

- a) Submit a portfolio of three essays, each one representing one of their three literary or interdisciplinary areas, and write a 750-1000 word commentary explaining the aims and achievements of the essays in relation to one another.
- b) Write a comprehensive research paper (40-50 pages) that incorporates their three interliterary or interdisciplinary areas; this paper may develop topics of previous papers, or explore a new topic area.

The student then undergoes oral examination on the portfolio or the research paper. Following the examination, the graduate committee, after evaluation of the student's entire graduate record, determines the candidate's suitability for continuing in the Ph.D. program.

Doctoral Degree

The Department of Comparative Literature and Languages offers the Ph.D. degree in Comparative Literature with three tracks: Interliterary Studies, Interdisciplinary Studies, and Science Fiction, Science, and Literature. Areas of particular strength in the Interdisciplinary Studies are comparative Asian and European studies; comparative ancient civilizations; gender and feminist studies; global cultures and post-colonialism; film and visual culture studies; narrative and cultural translation; and science and science fiction.

Interliterary Studies

This program is designed for students wishing to concentrate in Comparative Literature as an interliterary discipline. Students examine the relation among various national literatures. They are expected to work in three of the following literatures: Chinese, English (either British or

American), French, German, Classical Greek, Italian, Indonesian, Japanese, Latin, Portuguese, Russian, Spanish, and Vietnamese. Permission is granted in exceptional cases to work in other literatures related to the Germanic, Romance, or Slavic families, in Hebrew or Arabic literature, in other Asian Literatures, and the literatures of Africa.

Students must obtain comprehensive knowledge of their first literature (the major specialty), in its language, literary history, and critical scholarship. In their two other literatures, they specialize in a genre, a period, critical school or theoretical approach, always in combination with their main literature. Work in the three literatures must be done in the languages of these literatures.

Students entering the interliterary Ph.D. program with an M.A. in literature must take two courses from the canons (CPLT 210), CPLT 214, and CPLT 215A (or demonstrate having taken similar courses). Course requirements are two graduate courses in a first literature, two graduate courses in a second literature, two graduate courses in a third literature, and three additional elective graduate courses in Comparative Literature.

Note: Students must take at least one graduate course in each of the following four areas: European, Asian, Ancient, and Modern Literature.

Students entering the interliterary Ph.D. program with an M.A. in another discipline must do course work equivalent to the M.A. degree in Comparative Literature while proceeding with course work for the Ph.D. program.

Interdisciplinary Studies

This program is designed for students with interests in interdisciplinary studies. Students examine relationships between literary studies and other disciplines (such as art, ethnic studies, film, history, law, music, philosophy, political science, psychology, religious studies, science, sociology, theater). Students complete the literary requirements of the program but substitute an appropriate discipline for one of the second or third literatures. This option is recommended to students who enter Comparative Literature with an M.A. in a non-literary discipline.

Students entering the interdisciplinary studies Ph.D. program with an M.A. in any discipline must take two courses from the canons (CPLT 210), as well as CPLT 214 and CPLT 215A (or demonstrate having taken similar courses). In addition, course requirements are two graduate courses in each of two literatures; two courses in another discipline; and three elective graduate courses in Comparative Literature. The graduate advisor may require appropriate courses on an individual basis.

Note: Students must take at least one graduate course in each of the following four areas: European, Asian, Ancient, and Modern Literature.

Science Fiction, Science, and Literature

This option is designed for students with interests in science fiction studies and the relations of science to world literature. It builds upon the current widespread interest in Science Fiction and draws on the Eaton Collection. The program is intended for students who have already completed an undergraduate degree in Comparative Literature, English or kindred studies. It draws

on the speculative richness of science fiction literature in a wide variety of social contexts, including the role of science in society (genetic engineering, artificial environments, nanotechnology, etc.), race and ethnicity, and social ethics. This track interacts with existing programs in the humanities, arts, social sciences and sciences. It is inherently cross-disciplinary both within the humanities, and between the humanities and sciences.

Students entering the Science Fiction, Science, and Literature Ph.D. program with an M.A. in any discipline must take courses from the following areas:

1. Three theory courses from among CPLT 214, CPLT 215A, and CPLT 210 (repeatable).
2. Three science, science fiction theory, literature and methods courses, including CPLT 272, CPLT 273, CPLT 274, CPLT 275.
3. One history of science course, (PHIL 237, PHIL 239, CHN/CLA 231, CHN/CLA 232, CPAC 134)
4. One course in Film and Media Studies (SOC 211, CPLT 174, CPLT 173, MCS 175, MCS 139, MCS 146)
5. One course in Philosophy or Religion from among either PHIL 234, PHIL 237, PHIL 238 and PHIL 239 -- or RLST 200A, RLST 200C, and RLST 224)
6. One course in Social Sciences (ANTH 261, ANTH 277, ANTH 279, CHN/CLA 141, SOC 247, SOC 261, SOC 281)
7. Three elective courses from any of the groups listed above.

Among all the various courses selected there must be at least one course on non-Western materials and two graduate literature courses with readings in the original language in each of the student's two language areas. Language areas include: Arabic, Chinese, English, French, German, Classical Greek, Italian, Indonesian, Japanese, Latin, Philippino, Portuguese, Russian, Spanish, and Vietnamese. The graduate advisor may require appropriate courses on an individual basis. When taking any upper-division undergraduate course listed here, the student must enroll in a 292 course.

Teaching Requirement Normally some teaching experience is required; such experience is obtained through a teaching assistantship whereby a student is assigned either to Comparative Literature or to another program. Students are strongly recommended to take one of the pedagogy courses in the department (CPLT 222 or CPLT 301) which may be used as one of their required elective courses.

Written and Oral Qualifying Examinations

The written qualifying examination consists of the following:

1. For a student in the track of Interliterary Studies, the examination consists of four parts, which include the three national literatures that the student specializes in, with a comparative perspective, and on critical theory.
2. For a student in the track of Interdisciplinary Studies, the examination consists of four parts, which include two national literatures

and one non-literary discipline that the student specializes in, with a comparative perspective, and on critical theory.

Prior to the examination for either track, students in consultation with the designated members of their committee, formulate a Special Reading List based on available departmental reading lists for each of the four parts that reflects the student's chosen fields of study and research and provides a basis for the examination.

Each of the four parts of the written examination for either the Interliterary or the Interdisciplinary Track is a three-hour exam.

The written examinations are followed by an oral qualifying examination.

Dissertation and Final Oral Examination

Candidates must write a dissertation on a topic approved by the dissertation committee and may be required to successfully undergo an oral examination on the dissertation.

Normative Time to Degree 18 quarters

Lower-Division Courses

CPLT 001 Introduction to Close

Reading 4 Lecture, 3 hours; discussion, 1 hour. Teaches focused reading of works of literature and construction of compelling written arguments about texts. Explores methods of analyzing literature, framing relevant questions, and writing clear essays. Compares fiction and non-fiction, poetry and prose, narrator and author, and ancient and modern. Also covers basic critical concepts. Emphasizes non-English language traditions. Credit is awarded for only one of CPLT 001 or CPLT 001W.

CPLT 001W Introduction to Close

Reading 5 Lecture, 3 hours; discussion, 1 hour; written work 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. Teaches focused reading of literature and construction of compelling written arguments. Compares fiction and non-fiction, poetry and prose, and narrator and author. Also covers basic critical concepts. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of CPLT 001 or CPLT 001W.

CPLT 002 Reading World Literature 4 Lecture, 3 hours; discussion, 1 hour. Teaches concepts of cross-cultural literacy. Explores how writers in different cultures use literature to define the human, process the foreign, and perceive the world. Discusses what world literature has been and what it could be. Considers reading as a tool for approaching cultural difference. Emphasizes non-English language traditions.

CPLT 012 The Writer in Writing 4 Lecture, 3 hours; written work, 2 hours; research, 1 hour. Prerequisite(s): none Targeted at the fledgling creative writer and apprentice literary critic, surveys the complex legacy surrounding the figure of the writer in world literature. Discussion and weekly writing exercises demonstrate the use of brainstorming in creating and critiquing literature. Cross-listed with CRWT 012.

CPLT 015 Language, Literature, and

Culture 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): none. Introduces students to the connections between language, literature, and culture over the centuries and across national traditions through study of an array of literary forms and genres. Close reading of masterworks, selected to provide an overview of the fields of literary, linguistic, and cultural analysis.

CPLT 017A Masterworks of World

Literature 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Explores selected great works of literature from around the world in historical and cultural contexts. Covers antiquity to the early Renaissance, emphasizing textual analysis.

CPLT 017B Masterworks of World

Literature 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Explores selected great works of literature from around the world in historical and cultural contexts. Covers the early Renaissance to the Enlightenment, emphasizing textual analysis.

CPLT 017C Masterworks of World

Literature 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Explores selected great works of literature from around the world in historical and cultural contexts. Covers the modern period, emphasizing critical methods and approaches to comparative literature.

CPLT 018 The Nature of Narrative 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): none. Examines the basic features of narrative (including plot, character, point of view, and time and space relations) within various literary forms, such as the anecdote, story, tale, novella, and novel.

CPLT 021 Introduction to Film, Literature,

and Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Surveys critical approaches to the cinema such as auteur and genre theory. Studies literature and film, national cinemas, and film movements. Cross-listed with MCS 021.

CPLT 022A Introduction to World Literature

By Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to world literature by women across many centuries. Covers the creative work of women from ancient to early modern periods, examining both texts and the historical circumstances of the earliest women writers. Emphasizes texts originally written in languages other than English from around the globe. Cross-listed with GSST 022A.

CPLT 022B Introduction to World Literature

By Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the increasingly powerful voices of women writers in modernity and postmodernity. Emphasizes texts originally written in languages other than English from around the globe. Topics include the question of feminine writing and feminist theories about literature by women. Cross-listed with GSST 022B.

CPLT 023 Modern Japan and Personal

Narrative 4 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Introduces

major debates in history, politics, and culture through the genres of biography, autobiography, diary, and confession. Explores the parallel construction of the modern nation, the modern language, and the modern self. Traces the development of Japan's "I-novel." Builds skills in close reading by studying the rhetoric of self-narrative. Cross-listed with JPN 023, and AST 023.

CPLT 024 World Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Introduction to world cinema as a fusion of national and international, culturally specific, and globally universal characteristics. Topics include realism, the role of world wars, Hollywood's global reach, alternative aesthetics of third-world cinemas, cross-fertilization between Europe and Asia, and the function of international film festivals and the international film market. Cross-listed with MCS 024.

CPLT 025 Introduction to Science

Fiction 4 Lecture, 3 hours; research, 3 hours. Considers science fiction as an interface between today's scientific and humanistic disciplines. Utilizes books, films, and works of art to examine the interplay of these disciplines. Explores the perspective of science fiction on such themes as time, space, God, nature, mind, and the future.

CPLT 027 Food in Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Explores the representation of food, cooking, and restaurants in films from different national traditions. Includes gender roles; sensuality and sexuality; social class and the economics of food; excess and lack. Cross-listed with MCS 036.

CPLT 028 Justice, Law, Violence 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the concepts of justice, law, and violence through literary and philosophical texts. Raises fundamental questions of individual human existence within the social collective. Topics include natural right, freedom of will, sacrifice, revolution, gender, and power.

CPLT 029 The Arts: Approach, Comparison, and Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introductory course on the arts, their meaning and interrelationship as well as their cultural contexts East and West. Stresses such approaches as: How do you understand a poem? What do you look for in a painting? What do you listen for in music? How do different cultural backgrounds help in appreciating a work of art?

CPLT 037 Otaku Worldwide: the Globalization of Japanese Media and its Subcultures 4

Lecture, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): none. Explores the historical contingency of subcultures, key moments in the evolving discourse on 'otaku' both within and outside Japan, and considers how the term is used to identify consumers and fan cultures. Explores how manga and anime reflect class, gendered, and erotic resistance to dominant political structures. Cross-listed with JPN 037.

CPLT 040 Literary Response to Disaster and Repression 5 Lecture, 3 hours; discussion, 1

hour; extra reading, 3 hours. Prerequisite(s): none. An examination of how literature (e.g., memoir, fiction, and poetry) can be utilized in the recovery from disaster or repression. Analyzes examples from Asia, Africa, and Europe to address the issues of looking squarely, coming to terms, commemoration, and apology. Cross-listed with HIST040. Credit is awarded for only one of CPLT 040/HIST 040 or CPLT 040W/HIST 040W.

CPLT 040W Literary Response to Disaster and Repression 5

Lecture, 3 hours; discussion, 1 hour; written work 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. Examines how literature is utilized in the recovery from major disaster or repression. Analyzes examples from Asia, Africa, and Europe that address the issues of looking squarely, coming to terms, commemoration, and apology. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Cross-listed with HIST040W. Credit is awarded for only one of CPLT 040/HIST 040 or CPLT 040W/HIST 040W.

CPLT 046 Representing the Holocaust in Words and Images 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Introduces representations of the Holocaust in documentary and narrative film, literature, and painting. Explores notions such as memory, mourning, trauma, spectatorship, and atrocity to come to terms with different responses to the Holocaust. Topics include memorialization, stigmatization, the ethics of historical representation, and black humor. Cross-listed with GER 046.

CPLT 056 Cultures of the Japanese

Empire 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers the social histories and literatures of the Japanese Empire from the foundation of the Meiji state to the present. Includes the Ainu, Okinawan, Taiwanese, and Korean cultures. Explores the concepts of assimilation, citizenship, national language, nation-state, sovereignty, total war, and translation. Utilizes readings in English. Cross-listed with JPN 056, and AST 056.

CPLT 062 Introduction to Southeast Asian

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introduction to modern and contemporary Southeast Asian literature and culture with a focus on individual national histories. Explores the relationship between aesthetics, politics, and academic scholarship. Readings are in translation; classes conducted in English. Cross-listed with AST 062, and SEAS 062.

CPLT 063 Reading Southeast Asian

Stories 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introduction to the modern short story in Southeast Asia with a focus on literariness and the act of reading. Readings are in translation; classes conducted in English. Course is repeatable as content changes to a maximum of 8 units. Cross-listed with AST 063, and SEAS 063.

CPLT 070 Introduction to African

Literature 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): none. An introduction to African literature in English. Traces the history of African literary traditions from its oral beginnings to the early 2000s. Themes include colonialism across the continent, apartheid in South Africa, politics of post-independence, gender, African aesthetics, and diverse cultures on the continent.

Upper-Division Courses

CPLT 110 Literary Analysis and

Criticism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of different critical approaches to literature, through reading and discussion of literary texts and critical essays on those texts. Reading and discussions cover different genres and traditions as well as different critical approaches.

CPLT 111 Berlin Metropolis in Literature, Film,

Music, and Art 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An introduction to the metropolis Berlin as a gateway between the East and West. Explores topography of the city through film, art, music, and literary texts. Considers Berlin's dramatic transformations as a microcosm of Germany and Europe's troubled history in the twentieth century. Course conducted in English. Cross-listed with AHS 120, EUR 120, GER 111, and MCS 178.

CPLT 112 Mythology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative study of mythic traditions from several world cultures and religions viewed from a variety of theoretical perspectives. Includes material drawn from epics, religious texts, divine hymns, creation myths, heroic legends, and concepts of the afterlife as reflected in literary and nonliterary sources. Cross-listed with CLA 112, and RLST 117.

CPLT 114 The Classical Tradition 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the legacy of Greece and Rome in Western culture, from the Renaissance to the present. Topics include literature, art, architecture, and politics. Cross-listed with CLA 114.

CPLT 115 Modern German History Through

Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores twentieth-century German history through film. Includes World Wars I and II, inflation and polarization of classes, Nazi Germany, representations of the Holocaust, and a divided and reunited Germany. Cross-listed with GER 163, MCS 115, and HISE 163.

CPLT 116 Japan and its Others 4 Lecture, 3 hours; extra reading, 1 hour; outside research, 1 hour; written work, 1. Prerequisite(s): upper-division standing or consent of the instructor. Studies gender/race/ethnic/sexual politics and minority cultural productions in modern Japan. Explores the historical backgrounds/epistemology of minority politics in Japan.

Introduces the vibrant yet underprivileged voices of minority subjects. Includes LGBTQ issues, Zainichi Koreans, Ainu, Okinawa, Abelism, and the Buraku caste system. Cross-listed with JPN 116.

CPLT 117 Japanese Subculture: Theater and Music 4

Lecture, 3 hours; screening, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of the instructor. Studies the Japanese minor theater and music in the area of subculture. Teaches strategies for analyzing performance and music productions. Explores the historical background of subculture in modern Japan, and introduces the theatrical and musical productions that emerged out of Japanese postwar subculture. Cross-listed with JPN 117.

CPLT 118 The Alien as Other 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers the alien in science fiction studies as an image of both alterity (Otherness) and a reflection on what it means to be human. Topics include alien contact, societies and languages, and the deliberate modifications of both humans and aliens. Utilizes short stories, novels, and film.

CPLT 120 Autobiography 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the genre of literary autobiography and its visual equivalents (self-portraits and autobiographical film). An examination of narrative structure and point of view; the boundaries between fiction and nonfiction; and concepts such as masks, sexuality, memory, and biculturalism. Focus may change from year to year. Course is repeatable as topics change.

CPLT 121 Crossing Borders: Immigration, Migration, and Exile in Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Proposes an international look at the phenomenon of migration through film. Film can be considered the foremost medium to do justice to this issue.

CPLT 123 Transnational Feminist Film and Media 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers contemporary women's and feminist film and media productions. Connects the forces of globalization and militarization with gender-related experiences of displacement, migration, immigration, diaspora, trafficking, and refugee status. Focuses on innovative uses of visual language signaling changes in notions of nation, identity, class, race, ethnicity, gender, and sexuality. Cross-listed with GSST 123.

CPLT 126 From Novel to Screen: Film Adaptations of German Literature 4

Lecture, 3 hours; screening, 2 hours; individual study, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to classic works of German literature and their film adaptations. Explores adaptations by film directors such as Welles, Kubrick, Visconti, and Fassbinder. Studies the nexus between literature, film, and theatre. Course conducted in English. Cross-listed with MCS 126, and GER

126.

CPLT 131 Marx, Nietzsche, Freud 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Critical introduction to three central thinkers of modernity. Topics include alienation, free will, revolution, the unconscious, sexual difference, political power, and the modern conception of truth. Readings and discussions are in English. Selected readings are in German for German majors and minors. Cross-listed with GER 131.

CPLT 132 Rousseau and Revolution 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introductory study of the French philosopher and novelist Jean-Jacques Rousseau and the age of revolution in France, Germany, and England. Topics include social inequality, slavery, gender, subjectivity, violence, and political rights. All readings are in English. Cross-listed with FREN 132, and GER 132.

CPLT 134 Cinematic War Memory 4 Lecture, 3 hours; screening, 2 hours; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines cinematic confrontations involving World War II in Germany and Japan. Topics include desire between victims and perpetrators, representation of trauma, and ethical responsibility. All screenings have English subtitles. Cross-listed with MCS 114, GER 134, and JPN 134.

CPLT 136 The Enlightenment and its Consequences: Modern Europe in the Arts 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the basic ideas of modernity in Europe that are central to the history of western cultures and civilization. Focuses on the function of the arts and sciences in relation to the philosophy and concepts of the Enlightenment. Addresses humankind's changing relationship to religion, state, society, and history, as well as new strategies of self-reflection. Cross-listed with GER 136.

CPLT 137 Passions, Apparitions, and Automata 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introductory study of German Romanticism from its origins in Goethe to its development in Hoffmann. Topics include madness, sexual desire, doppelgänger, homicide, and automata. All readings are in English; selected readings are in German for German majors and minors. Cross-listed with GER 137, and EUR 137.

CPLT 139 The Divine Comedy 4 Lecture, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or the consent of instructor. A close reading of Dante's "Divine Comedy" using a bilingual edition. Focuses on conceptual and aesthetic questions. Although the work is read in English, students without previous knowledge of Italian are given some instruction in it to enable them to understand parts of the original work. Cross-listed with EUR 139 and ITAL 139.

CPLT 142 (E-Z) Women's Writing in Modern Asia and Asian America: Chinese and Chinese

American Writing 4 Seminar, 3 hours; extra reading, 3 hours. Covers comparative histories of feminist literary movements, gender and immigration, autobiography, translation, and subjectivity. Asian literature will be circulated in the original language to students with reading ability (not required). E. Chinese&chinese American Writng; J. Japanese&japanese Amercn Writng; K. Korean&korean American Writing; U. Vietnamese&vietnamese Amer Wrt; Cross-listed with GSST 142 (E-Z).

CPLT 143 France and Asia in Literature and the Arts 4

Lecture, 3 hours; screening, 20 hours per quarter; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores French portrayals of Asia in literature, cinema, the other arts, and popular culture. Topics include colonialism, orientalism, gender, race, and language. Cross-listed with FREN 143.

CPLT 144 Buddhist Literature 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Readings in canonical and non-canonical Buddhist texts. Includes Buddhist-influenced literature written by Asian, European, and American authors. Examines themes of emptiness, impermanence, and no-self. Cross-listed with RLST 144, and AST 133.

CPLT 145 Modern Japanese Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of modern Japanese thought from a theoretical and intellectual historical perspective. Topics include philosophical discussions of modernization, "Westernization," nationalism, colonialism and imperialism, "comfort women," Japanese war crimes in continental Asia, the American bombing of Hiroshima and Nagasaki, post-World War II remembrance and denial. All readings are in English. Cross-listed with JPN145.

CPLT 146 Comedy and Satire 4 Lecture, 3 hours; outside reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigates the origins and historical development of contemporary Western culture's two most popular genres. Although the focus is on literary texts ranging from Aristophanes to the present, the course also considers the many other cultural media through which the comic and the satiric find expression--among them, caricature drawing, photography, comic books, film, and television. Attention is given to debates about the related functions of irony, laughter, violence, and sexuality.

CPLT 147 (E-Z) The Novel 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Investigation of the novel as a preeminent register of cultural values and common literary themes derived from the various national literatures and literary epochs. Examines the novel form in terms of selected, related works by some of its greatest practitioners. E. The Existential Novel; F. The Carnavalesque;

CPLT 148 Short Narrative 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis and interpretation of short narrative texts from the linked perspectives of universal

themes and shared literary concerns. The finest short prose, including the anecdote, short story, tale, and novella, by some of the world's greatest writers is explored in depth.

CPLT 149 The Development of Classical

Modern Drama 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Consisting of readings, discussions, and lectures, treats plays and theories from the German, Scandinavian, Russian, and French repertoire among others. Covers Naturalism to Expressionism (1880-1918).

CPLT 151 Palestine/Algeria 4 Lecture, 3 hours; screening 6 hours per quarter; extra reading, 24 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Considers two distinct and related literary and historical moments: Palestine and Algeria. Topics include the relations between language and context; literature and literary historiography; genre and idiom; violence and the body; and the state and institutional practices of reading. Cross-listed with ARLC 151, and MEIS 151.

CPLT 152 Modern Arabic Poetry in A

Multilingual Frame 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers selected writings of Adunis ('Ali Ahmed Sa'id), Mahmoud Darwish, Abdelatif La'abi, and Etel Adnan, published originally in Arabic, French, and English. Topics include language (idiom, statement, utterance, translation, repetition, rhythm) and history (loss, violence, mourning, inheritance, future, legacy). Course is taught in English. Cross-listed with ARLC 152.

CPLT 154 Introduction to Arabic

Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic philosophical texts. Provides close and literary reading of texts in philosophy, as well as considers the impact these texts have had or can have on Western cultural formation. Cross-listed with ARLC 154, and PHIL 128.

CPLT 155 Introduction to Arabic

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic literature that focuses on language and rhetoric. Considers major issues such as colonialism, secularism, modernity, language, and the state. Utilizes texts from literature, the law, and philosophy. Cross-listed with ARLC 155, MEIS 155, and RLST 157.

CPLT 156 Jews and Arabs 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Traces the formation of the shared and divided history of the Jewish and Arab peoples. Focuses on the literary and institutional dimensions of this history, as well as the formation of related areas of study, such as religion, philosophy, literature, and psychoanalysis. Cross-listed with ARLC 156, MEIS 156, and RLST 156.

CPLT 158 Islam and Psychoanalysis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores contemporary psychoanalytic readings of Islam to consider the relationship

between Islam and Orientalism, Orientalism and psychoanalysis, and psychoanalysis and Islam. Cross-listed with ARLC 158, MEIS 158, and RLST 158.

CPLT 160 (E-Z) Cmp Ctr Stds:mid Ages-

Postmod 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Each segment deals with a significant cultural "event" whose implications (historical, political, literary) cross national and cultural boundaries. In order to present a diversity of national and linguistic views, segments are where feasible team taught. F. The French Revolution & NapoIn; G. The Holocaust; M. Millennium And Apocalypse;

CPLT 163 Nationalism and the Novel 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the novel and its role within nationalism as a representative summary or mirror of the nation. Cross-listed with AST 163, and SEAS 163.

CPLT 166 Vietnam and the

Philippines 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the comparative national histories of Vietnam and the Philippines by way of great literary works in various genres including poetry, short fiction, and novels. All materials are read in English. Cross-listed with AST 166, VNM 166, and SEAS 166.

CPLT 167 Postcolonial Literature and Criticism

in Southeast Asia and South Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how the theoretical concepts of postcolonial criticism inform and challenge the literature of Southeast Asia and South Asia, as the literature itself pushes the limits of the criticism. Addresses themes of nation, identity, space, gender, home, diaspora, alterity, history, sexuality, transnationalism, neocolonialism, tourism, and education. Cross-listed with AST 167, and SEAS 167.

CPLT 173 (E-Z) International

Cinemas 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Considers non-Hollywood cinemas in the national, historical, political, and cultural contexts which produced them. E. Experimental & Avant-garde Film; F. French New Wave; G. New German Cinema; I. Italian Neorealism; T. Third World Cinema; U. Global Perspectives Vietnam War; Cross-listed with MCS 173 (E-Z).

CPLT 174 (E-Z) Comparative Studies in

Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Considers film in the context of the other arts. Compares the treatment of various themes or problems in film and other media. E. Film & Lit In The Avant-garde; Cross-listed with MCS 174 (E-Z).

CPLT 175 Women in African

Literature 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines portrayals and discussions of women in African literature from pre-colonial to contemporary times. Focus on selected African writers' presentations of women

from pre-colonial to post-independence periods. Considers various perceptions of women in African life and experience.

CPLT 178 Religious Biography 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the construction and continuing appropriation of biographical images (textual and visual narratives) in selected religious traditions. Special attention is given to problems of intertextuality and the medium of presentation in the communication of "religious" meaning. Cross-listed with RLST 178.

CPLT 180 (E-Z) Literature and Related

Fields 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A critical survey of the theories and methodologies involved in the comparative study of literature and nonliterary fields. E. Literature And History; I. Literature And Institutions; L. Prelaw Readings In Literature; M. Literature And Music; P. Literature And Psychopathology; S. Literature And Science; U. Literature And Visual Arts; X. Literature And Marxism; Z. Literature And Fiction/fantasy;

CPLT 181 Existentialism in Literature, Film,

and Culture 4 Lecture, 3 hours; screening, 2 hours; outside research, .5 hours; term paper, .5 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the Existentialist movement in literature, film, and culture. Texts range from essays, plays, and novels to documentary and fiction film. Topics include choice, subjectivity, and alienation. Cross-listed with FREN 181, and MCS 181.

CPLT 187 Metafiction 4

Lecture, 3 hours; creative writing, take-home midterm, or term paper, 30 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Covers postmodernism, metafiction, and the new novel in Europe and America. Creative writers submit fiction in lieu of a term paper or midterm. Cross-listed with CRWT 187.

CPLT 190 Special Studies 1 to 5

Prerequisite(s): to be taken with the consent of the chair of the Department as a means of meeting special curricular requirements. Course is repeatable .

CPLT 193 Capstone Research

Seminar 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): Junior standing in Asian Literatures and Cultures, Classical Studies, Comparative Ancient Civilizations, Comparative Literature, French Studies, Germanic Studies, Languages, or Russian Studies; not open to students who are in their final quarter of study. Develops skills in the formulation and selection of research questions in Comparative Literature. Includes the identification of research questions and the use of primary texts, secondary texts, and theory to seek answers. Addresses techniques in the organization and presentation of writing.

CPLT 195H Senior Thesis 1 to 2

Prerequisite(s): Open by invitation to students in the Honors Program in Comparative Literature. To be taken for two or three consecutive quarters; total credit may not exceed 6 units.

CPLT 196 Senior Research

Paper 2 Consultation, 3 hours; term paper, 3 hours. Prerequisite(s): CPLT 193. A continuation of the research project begun in CPLT 193. Conducted under supervision of a faculty advisor in the applicable field of study. Satisfactory (S) or No Credit (NC) grading is not available.

Graduate Courses

CPLT 200 Topics in Southeast Asian

Studies 4 Seminar, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An introduction to the world of Southeast Asia and the scholarly discussions about it, with an emphasis on cultural aspects, embedded in their historical context. Materials are in English. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with ANTH 202 and SEAS 200.

CPLT 205 Literature of Southeast

Asia 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores themes and theories related to understanding literature and literary culture in Southeast Asia, insisting that the space of literature reaches beyond the text to include all disciplines. Students critically read, engage in, and question discourses of nationhood, identity, loss, mourning, history, and memoir. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with SEAS 205.

CPLT 210 Canons in Comparative

Literature 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Studies the concept of the canon and literary texts included in it and excluded from it. Considers the distinction between "mainstream" and "marginal" works. Examines how the canon of texts changes over time.

CPLT 212 Introduction to Graduate Studies in Comparative Literature 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Surveys the history of comparative literature and introduces the beginning graduate student to the various methodologies, aesthetic theories, and critical approaches which have come to dominate its field of inquiry. In addition to class discussion, examinations, and a term paper, students are also involved in a number of practical activities designed to sharpen their critical acumen, enlarge academic vocabulary, and encourage mastery of scholarship procedures.

CPLT 213 Rhetoric and Argument in Ancient

China and Greece 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A study of theories and practices of rhetoric, argument, persuasion, and, in some cases, poetics in ancient China and Greece (texts dating from the fifth to the third centuries B.C.), as well as some of their implications for contemporary theory and practice. Students who submit a seminar paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. This course may also be taken on a Satisfactory (S) or No Credit (NC) basis by students advanced to candidacy for the Ph.D. Cross-listed with POSC 213.

CPLT 214 History of Criticism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; seniors may be admitted by consent of instructor. A survey of critical theories from Plato to modern time through reading and group discussion. Emphasis is on fundamental theoretical issues that recur in the history of literary criticism and are relevant to modern concerns.

CPLT 215A Contemporary Critical

Theory 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Considers representative critical works and movements in contemporary theory. Includes the study of formalism, structuralism, semiotics, psychoanalytic and feminist theory, and deconstruction.

CPLT 215B Issues in Contemporary

Theory 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Focuses on a specific problem or movement in contemporary theory. Course is repeatable as content changes.

CPLT 219 Dante and Italian Cinema 4 Seminar, 3 hours; screening, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Compares the poetic goals and strategies of each of the three sections of Dante's *Commedia*—*Inferno*, *Purgatorio*, and *Paradiso*—with the innovative cinematic languages of leading post-World War II Italian filmmakers, including Rossellini, Pasolini, Fellini, Antonioni, Cavani, Wertmüller, Nichetti, and Moretti. Integrates theoretical discussions of representation, desire, knowledge, gender, sexuality, and subjectivity with close textual analysis of poetry and film.

CPLT 220 (E-Z) German Aesthetic

Theory 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. An introduction to individual figures in the history of German aesthetic theory and their legacy in critical discourse. Topics include philhellenism, the beautiful, the sublime, the ugly, fascist chic, mimesis, ornament, the "thing," mechanical reproduction, suddenness, synaesthesia, and technomedia. All readings are in English. E. Kant; F. Benjamin; Course is repeatable as content or topic changes to a maximum of units.

CPLT 221 Film and Literature 4 Seminar, 3 hours; extra Reading, 4 hours; research, 2 hours; screening, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores relationships between film and literature, including adaptation, remakes, translation, novelizations; and literary films as well as cinematic literature. Studies world film and the concepts of national and transnational cinema. Readings include fiction, emphasizing concepts such as narrative framing, intertextuality and genre, and complementary critical and theoretical works.

CPLT 222 Problems in the Pedagogy of

Comparative Literature 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Addresses the theories of literary pedagogy and emerging discussions about the teaching of comparative literature.

CPLT 223 Topics in East Asian Literature and

Film 4 Seminar, 3 hours; extra reading, 2 hours;

research, 1 hours. Prerequisite(s): graduate standing or consent of instructor. Explores East Asian literatures and cinema through critical theory and film studies. Key concepts include colonialism, postcoloniality, Cold War, gender ideology, cultural imperialism, interiority and surface. Focuses on texts that specifically discuss East Asian context and material. Film viewing is required. Taught in English. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topics change to a maximum of 12 units.

CPLT 224 Film Theory 4 Seminar, 3 hours; screening, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Advanced introduction to classic texts of early and contemporary film theory. Discusses theoretical claims of relevant films. Major concepts include realist film theory, cinema of attractions, apparatus theory, theory of film practice, feminist film theory, and notions of gender, race, and class. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CPLT 243 France and Asia: Orientalism and

Beyond 4 Seminar, 3 hours; screening, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the phenomenon and concept of Orientalism as well as alternative paradigms for East-West aesthetic and cultural relations through theory, literature, and film. Geographical areas and periods of focus may vary. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CPLT 252 Topics in Tourism, Cultural Authenticity, and the Question of

Nostalgia 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces theoretical literature concerning the intertwined notions of tourism, cultural authenticity, and nostalgia. Encourages students to approach written texts and other media from a critical perspective, considering the context of both cultural production and consumption. Valuable to students working on issues such as orientalism, modernity studies, diasporic literature, and postcolonial literature. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes.

CPLT 261 European Modernities 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing. Examines theoretical issues of late nineteenth-century European modernities. Utilizes literature, art, and popular images from France, England, Austria, and Russia. Addresses aesthetics, consumption, mass culture, fashion, melodrama, technology, psychology, and nihilism. Includes works by Baudelaire, Zola, Braddon, Boucicault, Turgenev, Manet, Degas, Daumier, and Klimt. Course is repeatable as content changes to a maximum of 12 units.

CPLT 267 Colonialisms and Postcolonial

Criticism 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the historical development of postcolonial criticism and how its theoretical concepts inform and challenge

the study of literature and culture. Addresses themes of nation, identity, space, gender, home, diaspora, alterity, history, sexuality, transnationalism, neocolonialism, domestic colonialism, tourism, and education. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CPLT 270 Modern African Literature 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines literary portrayals of colonialism, post-colonialism and independence and their impact on understandings about space, women, gender, individual and communal consciousness, development and national identities in African experience. Includes post-colonial and African feminist thought.

CPLT 272 The Origins and Promise of Science Fiction 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Studies the literary, scientific, and social origins of the science fiction genre and how it generates new themes, narrative structures, and perspectives on the human condition.

CPLT 273 Genre and Method in Science Fiction Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the critical debate within the field of science fiction and to some of the early and fundamental concepts of what science fiction is and what it does. Examines the development of science fiction from its origins through its influence on critical theory in twentieth- and twenty-first century texts.

CPLT 275 Science Fiction Authors 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the work of one of the core authors of science fiction and the reception of that work in either the initial formation or later development of the genre. Course is repeatable as content changes to a maximum of 12 units.

CPLT 276 Science Meets the Fiction 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines how changing scientific views of the world impact the science fiction genre. Studies the evolution of travel narratives and the historical novel into new adaptations of scientific visions of space and time. More broadly, examines how the genre reflects changing social and scientific contexts.

CPLT 277 Seminar in Comparative Literature 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Special topics in comparative literature. Subject may vary from quarter to quarter depending on instructor. Course may be given by visiting faculty. May be repeated.

CPLT 284 Literature, Colonialism, and Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to debates on secularism and religion in Europe. Examines how these debates may illumine perspectives on literary studies and colonialism.

CPLT 290 Directed Studies 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is

repeatable.

CPLT 291 Individual Studies in Coordinated Areas 1 to 6 A directed program of study designed to advise and assist candidates who are preparing for examinations. Open to M.A. and Ph.D. candidates. Does not count toward the unit requirement for the M.A. Graded Satisfactory (S) or No Credit (NC). May be repeated quarterly until the qualifying examinations are completed.

CPLT 292 Concurrent Analytical Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in CPLT 100-series course. To be taken on an individual basis. Student will complete a graduate paper based on research related to the CPLT 100-series course. May be repeated with different topic.

CPLT 293 (E-Z) Research Topics in Comparative Literature & Foreign Languages; English 1 to 6 Research, 3 hours. Prerequisite(s): graduate standing. Provides a means of meeting special curricular needs in literature. Topics include E. English; F. French; G. German; H. Greek; I. Italian; J. Japanese; K. Korean; L. Latin; M. Malay; N. Chinese; O. Vietnamese; P. Filipino; Q. Indonesian; R. Russian; S. Spanish; T. Arabic; U. Comparative Literature; Course is repeatable.

CPLT 299 Research For Thesis Or Dissertation 1 to 12 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

CPLT 301 Teaching of Foreign Language at the College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing, or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

CPLT 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in. Supervised teaching in lower-division courses. Required of all teaching assistants in Comparative Literature. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

FILIPINO COURSES

Subject abbreviation: FIL

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors.

No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

FIL 001 First-Year Filipino 4 Lecture, 4 hours.

Prerequisite(s): Student must take the Filipino placement examination. An introduction to the sound system and grammar of Filipino. Emphasizes reading, writing, understanding, and speaking. Conducted in Filipino whenever possible.

FIL 002 First-Year Filipino 4 Lecture, 4 hours.

Prerequisite(s): FIL 001 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Filipino placement examination as determined by the department faculty. An introduction to the sound system and grammar of Filipino. Emphasizes reading, writing, understanding, and speaking. Conducted in Filipino whenever possible.

FIL 003 First-Year Filipino 4 Lecture, 4 hours.

Prerequisite(s): FIL 002 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Filipino placement examination as determined by the department faculty. An introduction to the sound system and grammar of Filipino. Emphasizes reading, writing, understanding, and speaking. Conducted in Filipino whenever possible.

FIL 004 Second-Year Filipino 4 Lecture, 4

hours. Prerequisite(s): FIL 003 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Filipino placement examination as determined by department faculty. Emphasizes further development of the four language skills: reading, writing, understanding, and speaking. Conducted primarily in Filipino. French

FRENCH

Subject abbreviation: FREN

Committee in Charge

Michelle E. Bloom, Ph.D., Chair, *Comparative Literature/ French*
Heidi Brevik-Zender, Ph.D., *French/ Comparative Literature*
Christine Duvergé, Ph.D. *French*
Jennifer Ramos, M.A. *French*
Kelle Truby, Ph.D. *French*
Milagros Peña Ph.D. *Dean, College of Humanities, Arts, and Social Sciences, ex officio*

The department offers the B.A. program in French. The core of the major is the study of

French and Francophone literatures and cultures through innovative textual, visual and interdisciplinary approaches.

Students are encouraged to participate in Education Abroad. This is an excellent opportunity to become deeply familiar with another country and its culture while earning academic units toward graduation. Students should plan well in advance to ensure that the courses taken outside of the U.S. fit in their overall program at UCR. Consult the departmental student affairs officer for assistance. For details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Major

1. **CPLT 001 or CPLT 001W, CPLT 002**
2. **Language proficiency (16 units) - FREN 075, FREN 101A, FREN 101B, FREN 101C**
3. **Eight courses (32 units) of upper-division electives in the French Program.** Of these the student must choose a minimum of five courses (20 units) offered entirely in French. Students may petition to take one course (4 units) outside of the French Program on a related topic. It is strongly encouraged that students take at least one class focusing on a time period earlier than 1800. It is highly recommended that students complete FREN 101B and FREN 101C before enrolling in upper-division electives.
4. **CPLT 193 (4 units). (CPLT 196 strongly recommended but not required)**

Minor

1. **Language proficiency (16 units) - FREN 075, FREN 101A, FREN 101B, FREN 101C**
2. **Two courses (8 units) chosen from among upper-division courses offered entirely in French.**

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Honors Program

Students who wish to undertake a special program of honors study in upper-division courses should apply to the department.

Graduate Programs

Master's Degree

The master's program in French is not currently

accepting new students.

Doctoral Degree

Ph.D. studies in French are available through the Ph.D. program in Comparative Literature.

Lower-Division Courses

FREN 001 Introduction to French 4 Lecture, 4 hours. Prerequisite(s): Student must take the French placement examination. An introduction to the sound system and grammar of French. Focuses on the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in French.

FREN 002 Introduction to French 4 Lecture, 4 hours. Prerequisite(s): FREN 001 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of French. Focuses on the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in French.

FREN 003 Introduction to French 4 Lecture, 4 hours. Prerequisite(s): FREN 002 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of French. Focuses on the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in French.

FREN 004 Intermediate French 4 Lecture, 4 hours. Prerequisite(s): FREN 003 with a grade of "C-" or better or equivalent. Continued study of the grammatical structures of French; vocabulary building; and development of reading and compositional skills. Classes conducted in French.

FREN 009A French For Reading

Knowledge 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): consent of instructor. A specialized course developing the skill to translate from French into English. No previous knowledge of French is required.

FREN 009B French For Reading

Knowledge 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): FREN 009A or consent of instructor. A specialized course developing the skill to translate from French into English. No previous knowledge of French is required.

FREN 015A Introduction to Literature and Culture 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): FREN 004 with a grade of "C" or better or consent of instructor. Continued progress towards mastery of the French language. Classes conducted entirely in French.

FREN 015B Introduction to Literature and Culture 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): FREN 015A with a grade of "C" or better or consent of instructor. Continued progress towards mastery of the French language. Classes conducted entirely in French.

FREN 045 French Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Covers masterpieces of French cinema. Examines the historical evolution of French cinema as an art form, with emphasis on major themes and directors. Cross-listed with MCS 045.

FREN 075 Oral Proficiency in French 4 Lecture,

3 hours; individual study, 3 hours. Prerequisite(s): FREN 004. Provides practice in the development of oral proficiency, fluency of expression, and listening comprehension. Only 4 units may be applied toward the major.

FREN 090 Special Studies 1 to 3 To be taken with the consent of the Chair of the Department as a means of meeting special curricular problems. Course is repeatable.

Upper-Division Courses

FREN 100 Advanced Conversation 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): FREN 015B with a grade of "C" or better or equivalent. Provides practice in the development of oral proficiency, fluency of expression, and listening comprehension. Only 4 units may be applied toward the major. Course is repeatable to a maximum of 8 units.

FREN 101A Advanced French

Studies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): FREN 015B with a grade of "C" or better or equivalent. Advanced analysis of topics in literature, film, visual arts, or culture. Focuses on the development of written expression in French.

FREN 101B Advanced French

Studies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. Advanced analysis of topics in literature, film, visual arts, or culture. Focuses on the development of written expression in French.

FREN 101C Advanced French

Studies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): FREN 101A or FREN 101B with a grade of "C" or better or consent of instructor. Advanced analysis of topics in literature, film, visual arts, or culture. Focuses on the development of written expression in French.

FREN 109A Main Currents in French Literature:

Middle Ages and Renaissance 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. A study of the principal movements in French literature based on the reading of representative works in their entirety.

FREN 109B Main Currents in French Literature: Seventeenth and Eighteenth Centuries 4

Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. A study of the principal movements in French literature based on the reading of representative works in their entirety.

FREN 109C Main Currents in French Literature: Nineteenth Century 4

Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. A study of the principal movements in French literature based on the reading of representative works in their entirety.

FREN 109D Main Currents in French Literature: Twentieth Century 4

Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. A study of the principal movements in French literature based on the

reading of representative works in their entirety.

FREN 112 Mythology in French Literature, Film, and the Visual Arts 4 Lecture, 3 hours; field, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. Studies myths and mythological figures in seventeenth-through twentieth-century French texts. Focuses on literature (theatre, short stories, and novels), film, painting, and popular culture. Myths include Pygmalion, Venus, Orpheus, Narcissus and Echo, and Icarus. Course conducted in French.

FREN 124 (E-Z) Gender in French Studies 4 Lecture, 3 hours; extra reading, 2 hours; screening, 1 hour. Prerequisite(s): FREN 101A with a grade of C or better. Examines gender issues in French studies including literature, culture, and visual arts. Topics include depictions of women, writing by male and/or female authors, and women in relation to power. Instruction is in French. G. Gender, race, & Identity Politics; P. Portrayals Of Women In Lit & Film;

FREN 130 Sports in French Literature and Cinema 4 Lecture, 3 hours; screening, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): FREN 101A or FREN 101B or FREN 101C or consent of instructor. Explores the role of sports in works of fiction from the French speaking world. Utilizes a variety of genres. Topics include the origin of Western sports, fraternity, hygiene, hubris, competition, the making and the fall of heroes, patriotism, doping, capitalism, and propaganda. Taught entirely in French.

FREN 132 Rousseau and Revolution 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introductory study of the French philosopher and novelist Jean-Jacques Rousseau and the age of revolution in France, Germany, and England. Topics include social inequality, slavery, gender, subjectivity, violence, and political rights. All readings are in English. Cross-listed with CPLT 132, and GER 132.

FREN 143 France and Asia in Literature and the Arts 4 Lecture, 3 hours; screening, 20 hours per quarter; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores French portrayals of Asia in literature, cinema, the other arts, and popular culture. Topics include colonialism, orientalism, gender, race, and language. Cross-listed with CPLT 143.

FREN 148 (E-Z) French Literature of the City 4 Lecture, 3 hours; extra reading, 2 hours; screening, 1 hour. Prerequisite(s): FREN 101A with a grade of C or better. Explores aspects of French literature dealing with city life. Examines visual and cultural material in conjunction with literary works read and discussed. Instruction and reading is in French. S. The Culture of The Paris Suburbs;

FREN 150 (E-Z) Francophone Studies - Autobiographies By West African Women 4 Lecture, 3 hours; research, 1 hour; screening, 1 hour; term paper, 1 hour. Prerequisite(s): FREN 101A with a grade of C or better. Explores the literature, film, and culture of French-speaking countries and regions outside

of metropolitan France. Courses taught in French. E. Autobiographies W. African Women; F. Island Literature; W. Writing By And About Women;

FREN 152 Food and French Literature 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. Explores the role of food in French literature. Discusses descriptions of food and concepts such as reading as consuming; food, desire, and sex; gendering of food; cooking, food preparation, recipes, and menus; and food and social class (poverty and wealth). Taught in French.

FREN 153 Children in French Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. Explores the representation of children in French cinema from its inception to the present. Topics include children in the classroom (teachers' pets and troublemakers); outside of school (juvenile delinquents); social class (the underprivileged and well-off); gender; coming of age; and parental roles (child neglect, the maternal/paternal). Conducted in French.

FREN 155 The Bande Dessinée: From Comics to Graphic Novels in French 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. Explores the medium of the Bande Dessinée in its various forms (precursors, comic strips, graphic novels, films). Examines form, content, and their interactions. Focus varies depending on instructor and year. Taught entirely in French.

FREN 160 The Fashion of Modernity 4 Lecture, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): FREN 101A with a grade of "C" or better or consent of instructor. Examines nineteenth-century French modernity as expressed through fashion. Utilizes critical and literary texts, fashion magazines, and films. Topics include the department store, cross-dressing, ready-to-wear, and the rise of the designer. Incorporates work by Baudelaire, Zola, Rachilde, Feydeau, and Maupassant. Course taught in French.

FREN 181 Existentialism in Literature, Film, and Culture 4 Lecture, 3 hours; screening, 2 hours; outside research, .5 hours; term paper, .5 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the Existentialist movement in literature, film, and culture. Texts range from essays, plays, and novels to documentary and fiction film. Topics include choice, subjectivity, and alienation. Cross-listed with MCS 181, and CPLT 181.

FREN 190 Special Studies 1 to 5 To be taken with the consent of the department chair as a means of meeting special curricular problems. Course is repeatable.

FREN 195H Senior Honor Thesis 1 to 4 Consultation, 1 hour; individual study, 3 to 9 hours. Prerequisite(s): invitation by faculty to pursue honors work in French Senior standing. Intensive study and research in consultation with a faculty member, leading to a senior thesis. Grades will be deferred until presentation of the

thesis during the final quarter. Satisfactory (S) or No Credit (NC) grading is not available. To be taken during two or three consecutive quarters; repeatable to a maximum of 8 units.

Graduate Courses

FREN 290 Directed Studies 1 to 6 Research, 3- 18 hours. Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

FREN 291 Individual Studies in Coordinated Areas 1 to 6 Tutorial, 3 to 18 hours. Prerequisite(s): graduate standing. A program of studies designed to advise and assist candidates who are preparing for examinations. Open to M.A. candidates. Does not count toward the unit requirement for the M.A. May be repeated quarterly until the qualifying examinations are completed. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

FREN 292 Concurrent Analytical Studies in French 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in a French 100-series course. To be taken on an individual basis. Student completes a graduate paper based on research related to the French 100-series course. Course is repeatable as topics change. FREN 100 and the FREN 101A, FREN 101B, and FREN 101C sequence may not be used for FREN 292.

FREN 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing. Research for thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

FREN 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in. Supervised teaching in lower-division courses. Required of all teaching assistants in French. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GERMANIC STUDIES

Subject abbreviation: GER

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Major

1. Lower-division requirements (24 units)

- a) Sixteen (16) units: GER 001, GER 002, GER 003, GER 004, or equivalents
- b) Eight (8) units: CPLT 001 or CPLT 001W, CPLT 002

2. Upper-division requirements (36 units)

- a) Sixteen (16) units from the following: GER 100, GER 101, GER 102, GER 103A, GER 103B, GER 104, GER 108, GER 172/PHIL 172
- b) Twenty (20) units as follows:
 - (1) Sixteen (16) upper-division units in German literature and film beyond the language proficiency requirement, chosen in consultation with student's advisor.
 - (2) CPLT 193 (CPLT 196 strongly recommended but not required)

Minor

1. Lower-division requirements (16 units) GER 001, GER 002, GER 003, GER 004, or equivalents

2. Upper-division requirements (28 units)

- a) Sixteen (16) units from the following: GER 100, GER 101, GER 102, GER 103A, GER 103B, GER 104, GER 108, GER 172/PHIL 172
- b) Twelve (12) upper-division elective units in German literature, film, or courses related to Germanic Studies, with approval of the student's advisor.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Honors Program

Students who wish to undertake a special program of honors study in the upper division should apply at the beginning of the junior year. Acceptance for honors study is based on students'

previous grade records and the recommendations of their instructors. Candidates for honors must demonstrate superior capacity for independent study and during the senior year are required write an individually directed senior thesis.

Graduate Programs

Master's Degree

The master's program in Germanic Studies is not currently accepting new students.

Doctoral Degree

Ph.D. studies in Germanic Studies are available through the Ph.D. program in Comparative Literature.

Lower-Division Courses

GER 001 Elementary German 4 Lecture, 4 hours. Prerequisite(s): none. An introduction to the sound system and grammar of German. Focuses on the development of the four skills: listening, speaking, reading, and writing. Classes conducted in German as much as possible. Credit is awarded for only one of the following sequences: GER 001, GER 002, and GER 003; GER 010A and GER 010B.

GER 001R German For Reading

Knowledge 4 Lecture, 4 hours. Prerequisite(s): none. First of an intensive two-quarter sequence providing a comprehensive coverage of basic German grammar. Differs from GER 001 by placing exclusive emphasis on developing the skills of reading and translating German. No previous knowledge of German is required.

GER 002 Elementary German 4 Lecture, 4 hours. Prerequisite(s): GER 001 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of German. Focuses on the development of the four skills: listening, speaking, reading, and writing. Classes conducted in German as much as possible. Credit is awarded for only one of the following sequences: GER 001, GER 002, and GER 003; GER 010A and GER 010B.

GER 002R German For Reading

Knowledge 4 Lecture, 4 hours. Prerequisite(s): GER 001R or equivalent. Provides the second of a two-quarter sequence of a comprehensive coverage of basic German grammar. Emphasizes developing the skills of reading and translating German. No previous knowledge of German required.

GER 003 Elementary German 4 Lecture, 4 hours. Prerequisite(s): GER 002 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of German. Focuses on the development of the four skills: listening, speaking, reading, and writing. Classes conducted in German as much as possible. Credit is awarded for only one of the following sequences: GER 001, GER 002, and GER 003; GER 010A and GER 010B.

GER 004 Intermediate German 4 Seminar, 4 hours. Prerequisite(s): GER 003 with a grade of C- or better or GER 010B with a grade of C- or better or equivalent. Involves a grammar review combined with introductory readings of contemporary authors. Develops active language skills through readings, audiovisual

media, and field trips.

GER 010A Accelerated German 6 Lecture, 4 hours; discussion, 2 hours. Prerequisite(s): none. Accelerated study of German. The GER 010A and GER 010B sequence is equivalent to the GER 001, GER 002, and GER 003 sequence including the four basic skills of listening, speaking, reading, and writing. Credit is awarded for only one of the GER 001, GER 002, and GER 003 or GER 010A and GER 010B sequences.

GER 010B Accelerated German 6 Lecture, 4 hours; discussion, 2 hours. Prerequisite(s): GER 010A with a grade of "C-" or better or equivalent. An accelerated study of German that covers the four basic skills of listening, speaking, reading, and writing. Credit is awarded for only one of the following sequences: GER 001, GER 002, and GER 003; GER 010A and GER 010B.

GER 045 Introduction to German

Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Introduction to the history of German cinema from the advent of the studio system to the present. Covers film in Germany, Switzerland, and Austria. Attention is paid to the work of German-speaking filmmakers living in other parts of the world. Instruction is in English; all films have subtitles. Cross-listed with MCS 042.

GER 046 Representing the Holocaust in Words and Images 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Introduces representations of the Holocaust in documentary and narrative film, literature, and painting. Explores notions such as memory, mourning, trauma, spectatorship, and atrocity to come to terms with different responses to the Holocaust. Topics include memorialization, stigmatization, the ethics of historical representation, and black humor. Cross-listed with CPLT 046.

GER 090 Special Studies 1 to 3 To be taken with the consent of the department chair as a means of meeting special curricular problems. Course is repeatable.

Upper-Division Courses

GER 100 Introduction to German

Literature 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): GER 004; consent of instructor. Involves reading and analysis of literary texts within a literary-historical framework. Seeks to familiarize the beginning student of literature with the main currents, representatives, and genres of modern German literature. Language of instruction is German.

GER 101 German Conversation 4 Lecture, 4 hours. Prerequisite(s): GER 004 or equivalent. Involves development of active control of the language with discussion and oral presentation of assigned topics. Supervised work in German phonetics.

GER 102 Contemporary German Cinema For Conversation 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): GER 004 or consent of instructor. Utilizes a series of German language films to connect cultural background and historical contexts with linguistic aspects. Topics include The Wall, reunification, Turkish-German relationships, and heritage films. Class conducted in German.

GER 103A Advanced Composition and

Conversation 4 Lecture, 4 hours. Prerequisite(s): GER 004 or consent of instructor. Emphasis is on the mastery of the subtleties of the German language, including conversation, reading, listening, and writing. Reinforces oral and written skills through exposure to and analysis of a broad range of texts, essay writing, and oral presentations.

GER 103B Advanced Composition and

Conversation 4 Lecture, 4 hours. Prerequisite(s): GER 004 or consent of instructor. Improves oral and written proficiency of the German language. Emphasis is on reading increasingly difficult material, conversational use of German, vocabulary building, and study of idioms. Materials include newspaper articles and television programs that explain the German educational system, the arts, history, and politics.

GER 104 Intro to German Cultural History For

Conversation 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): GER 004 or equivalent. Introduces German cultural history through conversation and composition in German. Organized thematically around politics, philosophy, music, art, and architecture. Class conducted in German.

GER 107 German Drama in Translation:

Theater of Revolution / Theater as

Revolution 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the influence of drama and stage on society and their role in disseminating philosophical ideas and aiding social change. Topics include the medieval Carnival play, theater of the Enlightenment and the Sturm und Drang, 19th century Realism and social drama, and Epic Theater.

GER 108 The Art of Translation 4 Lecture, 1 hour; discussion, 3 hours. Prerequisite(s): GER 101 or GER 103A or GER 103B or consent of instructor. Examines theories of translation, including recognized examples of good and bad translations. Provides an opportunity to put theory into practice.

GER 109 Masterworks of German Literature in Translation: Plays, Nineteenth-Century

Realism to the 1960s 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing Provides an introduction to the great contribution of German letters to world literature.

GER 111 Berlin Metropolis in Literature, Film,

Music, and Art 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An introduction to the metropolis Berlin as a gateway between the East and West. Explores topography of the city through film, art, music, and literary texts. Considers Berlin's dramatic transformations as a microcosm of Germany and Europe's troubled history in the twentieth century. Course conducted in English. Cross-listed with AHS 120, CPLT 111, EUR 120, and MCS 178.

GER 118 (E-Z) Topics in German

Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing

of junior, or senior. Study of selected films, directors, and movements in German film. Films are in German with English subtitles. No knowledge of German is required. Cross-listed with MCS 118 (E-Z).

GER 118E Weimar Cinema and After 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An investigation of the silent and sound films of the Weimar era, focusing on the works of Fritz Lang, G. W. Pabst, and F. W. Murnau and their impact on film directors such as Werner Herzog and Rainer W. Fassbinder. Includes readings in film theory and in the literature and cultural history of the period. Cross-listed with MCS 118E.

GER 118F The Cinema of Fritz Lang 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. In-depth study of the films of the Austrian-born director Fritz Lang (1890-1976), whose work spans the silent era, the Golden Age of Hollywood, and postwar Germany. Explores the evolution of film technique, changes in cinematic paradigms, and Lang's engagement with ideology. Cross-listed with MCS 118F.

GER 118G Film and the Holocaust 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the moral, philosophical, and cultural legacy of the Holocaust in documentary and narrative films. Films and selected theoretical and literary texts involve key issues such as truthfulness, politicization, marginalization, universalization, trivialization, abstraction, representation of trauma, abstraction, aestheticization, and testimonies. Cross-listed with MCS 118G.

GER 119 Vienna in Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): Restricted to class level standing of Junior, or Senior; Or the consent of instructor; Explores employment of cityscape as a narrative device while introducing some of the politics, culture, and technology that influenced late 19th and early 20th century Viennese society. Considers the filmmaker's usage of landscape, architecture, culture, art, history, politics and population. Taught in English with either English language or German/subtitled film.

GER 124 Nordic Mythology, Folklore, and

Fairytales 4 Seminar, 3 hours; extra reading, 1 hour; written work, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the representation of animals, plants, and other appearances of the natural world such as sunrise and sunset in European creation and destruction mythology, fairytales, and folklore. Cross-listed with EUR 124.

GER 126 From Novel to Screen: Film

Adaptations of German Literature 4 Lecture, 3 hours; screening, 2 hours; individual study, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to classic works of German literature and their film adaptations. Explores adaptations by film directors such as Welles, Kubrick, Visconti, and Fassbinder. Studies the nexus between literature, film, and theatre. Course conducted in English. Cross-listed with CPLT 126, and MCS

126.

GER 131 Marx, Nietzsche, Freud 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Critical introduction to three central thinkers of modernity. Topics include alienation, free will, revolution, the unconscious, sexual difference, political power, and the modern conception of truth. Readings and discussions are in English. Selected readings are in German for German majors and minors. Cross-listed with CPLT 131.

GER 132 Rousseau and Revolution 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introductory study of the French philosopher and novelist Jean-Jacques Rousseau and the age of revolution in France, Germany, and England. Topics include social inequality, slavery, gender, subjectivity, violence, and political rights. All readings are in English. Cross-listed with CPLT 132, and FREN 132.

GER 134 Cinematic War Memory 4 Lecture, 3 hours; screening, 2 hours; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines cinematic confrontations involving World War II in Germany and Japan. Topics include desire between victims and perpetrators, representation of trauma, and ethical responsibility. All screenings have English subtitles. Cross-listed with CPLT 134, MCS 114, and JPN 134.

GER 136 The Enlightenment and its Consequences: Modern Europe in the

Arts 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the basic ideas of modernity in Europe that are central to the history of western cultures and civilization. Focuses on the function of the arts and sciences in relation to the philosophy and concepts of the Enlightenment. Addresses humankind's changing relationship to religion, state, society, and history, as well as new strategies of self-reflection. Cross-listed with CPLT 136.

GER 137 Passions, Apparitions, and

Automata 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introductory study of German Romanticism from its origins in Goethe to its development in Hoffmann. Topics include madness, sexual desire, doppelganger, homicide, and automata. All readings are in English; selected readings are in German for German majors and minors. Cross-listed with CPLT 137, and EUR 137.

GER 163 Modern German History Through

Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores twentieth-century German history through film. Includes World Wars I and II, inflation and polarization of classes, Nazi Germany, representations of the Holocaust, and a divided and reunited Germany. Cross-listed with MCS 115, HISE 163, and CPLT 115.

GER 172 Reading Philosophical

German 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): GER 002R or GER 004 or consent of instructor. Develops reading

strategies and translation skills for German philosophical texts through a review of grammar and readings in the original language. Prepares for a graduate-level translation exam and independent research in German. Intermediate to advanced German reading proficiency required; familiarity with German philosophical works is recommended but not required. Cross-listed with PHIL 172.

GER 173 The Age of Goethe 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the mature work of Goethe against the dual backdrops of Klassik and Romantik. Considers works by Schiller, Kleist, Holderlin, the Schlegels, and E.T.A. Hoffmann in analysis of early nineteenth-century literary currents in Germany.

GER 185 Currents in Modern German Literature 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Analysis and interpretation of such major modern writers as Brecht, Mann, and Kafka.

GER 190 Special Studies 1 to 5 Tutorial, 1 to 4 hours. Prerequisite(s): graduate standing. To be taken with the consent of the department chair as a means of meeting special curricular problems. Course is repeatable.

Graduate Courses

GER 290 Directed Studies 1 to 6 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GER 291 Individual Studies in Coordinated Areas 1 to 6 Prerequisite(s): graduating standing. A program of studies designed to advise and assist candidates who are preparing for examinations. Open to M.A. and Ph.D. candidates. Does not count toward the unit requirement for the M.A. Graded Satisfactory (S) or No Credit (NC). May be repeated quarterly until the qualifying examinations are completed.

GER 292 Concurrent Analytical Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in German 100-series course. To be taken on an individual basis. Student will complete a graduate paper based on research related to the German 100-series course. Course is repeatable with different topic.

GER 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

CPLT 301 Teaching of Foreign Language at the College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing, or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

GER 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 units. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in. Supervised teaching in lower-division courses. Required of all teaching assistants in German. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ITALIAN STUDIES MINOR

Subject abbreviation: ITAL
College of Humanities, Arts, and Social Sciences

Committee in Charge

Jeffrey Sacks, Ph.D., Chair
Erith Jaffe-Berg (Theater)
Jeanette Kohl (Art History)
Marina Pianca (Hispanic Studies, Emeritus)
Nicoletta Tinozzi-Mehrmand, non-voting
Milagros Peña, Dean, *ex officio*

Students are encouraged to participate in Education Abroad. This is an excellent opportunity to become deeply familiar with another country and its culture while earning academic units toward graduation. Students should plan well in advance to ensure that the courses taken outside of the U.S. fit in their overall program at UCR. Consult the departmental student affairs officer for assistance. For details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Minor

The Italian Studies minor offers students the opportunity to attain an advanced level of proficiency in Italian language while taking a number of discipline-based courses that concentrate on Italian themes. The minor complements liberal arts degrees in many aspects of Western or European studies, including art history, history, philosophy, political science, and religious studies.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog.

Requirements for the minor consist of 24 units, distributed as follows:

1. Twelve (12) units of ITAL 101A and ITAL 101B and ITAL 101C
2. Eight (8) units of upper-division courses in Italian literature, film and/or culture offered by the Department of Comparative Literature and Languages.
3. Four (4) units of upper-division courses in Italian art history, history, film, theatre, or another related discipline offered by other departments and approved by the student's advisor.

Foreign Language Placement Examination
A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the

foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

ITAL 001 Elementary Italian 4 Lecture, 4 hours. Prerequisite(s): none. An introduction to the sound system and grammar of Italian focusing on the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in Italian insofar as possible. Audio-lingual and media-based learning materials available in the Media Library. Credit is awarded for only one of the following sequences: ITAL 001, ITAL 002, and ITAL 003; ITAL 020A and ITAL 020B.

ITAL 002 Elementary Italian 4 Lecture, 4 hours. Prerequisite(s): ITAL 001 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of Italian focusing on the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in Italian insofar as possible. Audio-lingual and media-based learning materials available in the Media Library. Credit is awarded for only one of the following sequences: ITAL 001, ITAL 002, ITAL 003; ITAL 020A and ITAL 020B.

ITAL 003 Elementary Italian 4 Lecture, 4 hours. Prerequisite(s): ITAL 002 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of Italian focusing on the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in Italian insofar as possible. Audio-lingual and media-based learning materials available in the Media Library. Credit is awarded for only one of the following sequences: ITAL 001, ITAL 002, ITAL 003; ITAL 020A and ITAL 020B.

ITAL 004 Intermediate Italian 4 Lecture, 4 hours. Prerequisite(s): ITAL 003 or ITAL 020B with a grade of "C-" or better or equivalent. Continued study of the basic grammatical structures of Italian emphasizing competency in reading, writing, and speaking. Involves reading varied materials (literary and journalistic) dealing with contemporary Italy.

ITAL 020A Italian For Spanish

Speakers 4 Lecture 4, Prerequisite(s): Appropriate native, heritage or acquired proficiency in Spanish. Introduction to the fundamental skills of listening, speaking, reading, and writing Italian for students with proficiency in Spanish. Emphasizes comparison of Italian and Spanish grammatical constructions. Admission by placement examination only. Credit is awarded for only one of the following sequences: ITAL 001, ITAL 002, and ITAL 003; ITAL 020A and ITAL 020B.

ITAL 020B Italian For Spanish

Speakers 4 Lecture 4, Prerequisite(s): ITAL 020A with a grade of C- or better, or equivalent. Introduction to the fundamental skills of listening, speaking, reading, and writing Italian for students

with proficiency in Spanish. Emphasizes comparison of Italian and Spanish grammatical constructions. Credit is awarded for only one of the following sequences: ITAL 001, ITAL 002, and ITAL 003; ITAL 020A and ITAL 020B.

ITAL 042 Italian Americans: Voices and Visions 4 Lecture, 3 hours; screening, 2 hours; written work, 1 hour. Prerequisite(s): none. A study of the Italian American experience as seen through major works of Italian and Italian American writers and filmmakers. Covers the 1950s to the present. No knowledge of Italian required. Cross-listed with EUR 042

ITAL 043 Italian Cuisine and Literature Through the Centuries 4 Lecture, 3 hours; screening, 2 hours; written work, 1 hour. Prerequisite(s): none. Analyzes the relationship between food and literature in Italian culture through the study of gastronomic and literary texts from the Roman to present times. Cross-listed with EUR 043

ITAL 044 Mafia and Malavita in Italian Literature and Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. A study of the history of malavita in the Italian peninsula. Explores topics from mischievous transgression to organized crime and Mafia as presented through the works of renowned Italian writers and directors. No knowledge of Italian required. Cross-listed with EUR 044.

ITAL 045 Italian Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Covers major works of the Italian cinema from Neo-Realism to the present. Emphasizes the historical evolution and representation of major elements of Italian culture. Knowledge of Italian not required. Cross-listed with MCS 044.

ITAL 048 Italian Culture and Civilization 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. An introduction to the concept of Italy and its geographical, historical, and cultural changes from the Middle Ages to the present as seen through the works of renowned writers, artists, and film directors. No knowledge of Italian required. Cross-listed with EUR 048.

ITAL 090 Special Studies 1 to 3 To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable.

Upper-Division Courses

ITAL 101A Advanced Italian 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ITAL 004 with a grade of "C" or better or equivalent. Advanced Italian grammar and conversation. Emphasizes mastery of the subtleties of the language in conversation, reading, and writing.

ITAL 101B Advanced Italian 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ITAL 101A. Advanced Italian grammar and conversation. Emphasizes mastery of the subtleties of the language in conversation, reading, and writing.

ITAL 101C Advanced Italian 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ITAL 101B or equivalent. Advanced Italian grammar and conversation. Emphasizes mastery of

the subtleties of the language in conversation, reading, and writing.

ITAL 125 (E-Z) Studies in Italian

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Selected topics in Italian literature. Provides detailed study of subjects and periods relevant to Italian culture. Must have good reading and aural comprehension ability in Italian. G. Difficulties Of Love In Ital Lit; S. Italian Literature Of Holocaust; T. Italian Theatre;

ITAL 139 The Divine Comedy 4 Lecture, 3 hours; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior; or consent of instructor. A close reading of Dante's "Divine Comedy" using a bilingual edition. Focuses on conceptual and aesthetic questions. Although the work is read in English, students without previous knowledge of Italian are given some instruction in it to enable them to understand parts of the original work. Cross-listed with CPLT 139 and EUR 139.

ITAL 150 Italian Theatre 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior. A study of the development of Italian theatre from the commedia dell'arte to the present. Discusses works by Ruzzante, Machiavelli, Metastasio, Goldoni, Alfieri, Verga, Pirandello, Fo, and Rame. Includes videos of plays, melodramas, and operas. No knowledge of Italian required. Cross-listed with EUR 150. Credit is awarded for one of the following ITAL 150, EUR 150, ITAL 125T.

ITAL 158 Italian Literature in the Period of Unification 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior. A study of nineteenth-century Italian literature. Emphasizes the pre-Unification "Risorgimento" period through the works of Foscolo, Leopardi, Pellico, and Manzoni. No knowledge of Italian required. Cross-listed with EUR 158

ITAL 162 Contemporary Italian Women Writers in Translation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on works by Italian women writers addressing issues of gender and sexuality in Italian historical and cultural contexts such as Fascism, the cultures of Sicily and Sardinia, and the North/South divide. Explores intersectionalities of region, class, and gender with emphasis on the undoing of fascist and patriarchal aesthetics. Cross-listed with GSST 172.

ITAL 185 Modern and Contemporary Italian Literature in Translation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; Considers selected works by authors who exemplify major cultural and literary trends in Italy from the period of unification (1860s) to the present. Readings are supplemented by viewing of films. No knowledge of Italian is required. Cross-listed with EUR 185.

ITAL 190 Special Studies 1 to 5 Prerequisite(s): To be taken with the consent of the chair of the department as a means of meeting special curricular problems.

Graduate Courses

CPLT 290 Directed Studies 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ITAL 292 Concurrent Analytical Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in Italian 100-series course. To be taken on an individual basis. Student will complete a graduate paper based on research related to the Italian 100-series course. May be repeated with different topic.

Professional Courses

CPLT 301 Teaching of Foreign Language at the College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing, or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

ITAL 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 units. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in. Supervised teaching in lower-division courses. Required of all teaching assistants in Italian. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

JAPANESE

Subject abbreviations: JPN

Committee in Charge

Anne McKnight, Chair, Ph.D.,
Japanese/Comparative Literature
John N. Kim, Ph.D., *German/Japanese/Comparative Literature*
Traise Yamamoto, Ph.D., *English/Asian American Literary and Cultural Studies*
Milagros Peña Ph.D. *Dean, College of Humanities, Arts, and Social Sciences, ex officio*
Setsu Shigematsu, Ph.D., *Media and Cultural Studies*

Major

The Japanese Major enables students to acquire advanced proficiency in the Japanese language and to develop critical thinking skills in their analysis of Japanese literary, filmic, and social texts. Students are encouraged to study in Japan through the University of California's numerous Education Abroad Programs.

1. Lower-division requirements (16 units plus language proficiency)

- Proficiency in Japanese through the intermediate level (JPN 006 or its equivalent)
- Eight (8) units from lower-division lecture courses on Japanese literature and culture: AST 022/JPN 022/MCS 022, AST 023/CPLT 023/JPN 023, AST 032/

JPN 032, AST 034/JPN 034, AST 056/CPLT 056/JPN 056, JPN 035. and any other lower-division lecture courses on Japanese literature, culture, and film chosen in consultation with the student's advisor.

- c) Eight (8) units from CPLT 001 or CPLT 001W, CPLT 002.

2. Upper-division requirements (36 units)

- a) Twelve (12) upper-division units in Japanese language from JPN 101A, JPN 101B, JPN 101C, JPN 110. Students whose proficiency exceeds the 101 series should take the 12 required units by taking 110 more than once, by using EAP language courses, or, under the JPN 190 rubric, by converting an existing "content" course into a language course with the instructor's help.
- b) Twenty (20) units in upper-division Japanese literature and culture from AST 150/JPN 150, AST 151/JPN 151, AST 152 (E-Z)/JPN 152 (E-Z), AST 153 (E-Z)/JPN 153 (E-Z), AST 184/JPN 184, AST 190, CPLT 134/GER 134/JPN 134/MCS 134, CPLT 142J/WGST 142J, CPLT 145/JPN 145, JPN 110, JPN 190, KOR 112, and any other upper-division lecture courses on Japanese literature, culture, and film chosen in consultation with the student's advisor.
- c) Four (4) units in CPLT 193. (CPLT 196 strongly recommended but not required)

Japanese Minor

The Japanese Minor enables students to acquire intermediate proficiency in the Japanese language and to develop critical thinking skills in their analysis of these literary, filmic, and social texts. Students are encouraged to study in Japan through the University of California's numerous Education Abroad Programs.

1. Lower-division requirements (4 units plus language proficiency)

- a) Proficiency in Japanese through the intermediate level (JPN 006 or its equivalent)
- b) Four (4) units from lower-division lecture courses on Japanese literature and culture: JPN 022/AST 022/MCS 022, JPN 023/AST 023/CPLT 023, JPN 034/AST 034, JPN 035, JPN 056/AST 056/CPLT 056, and any other lower-division lecture courses on Japanese literature, culture, and film chosen in consultation with the student's advisor.

2. Upper-division requirements (20 units)

- a) Eight (8) upper-division units in Japanese language from: JPN 101A, JPN 101B, JPN 101C, JPN 110. Students whose proficiency exceeds the 101 series should take the 8 required units by taking JPN 110 more than once, by using EAP language courses, or, under the JPN 190 rubric, by converting an existing "content" course into a language course with the instructor's help.
- b) Twelve (12) units in Japanese literature and culture from: AST 190, CPLT 142J/WGST 142J, JPN 110, JPN 134/CPLT 134/GER 134/MCS 114, JPN 145/CPLT 145, JPN 150/AST 150, JPN 152 (E-Z)/

AST 152 (E-Z), JPN 153 (E-Z)/AST 153 (E-Z), JPN 154 (E-Z)/AST 154 (E-Z), JPN 184/AST 184/MCS 184, JPN 190, and any other upper-division lecture courses on Japanese literature, culture, and film chosen in consultation with the student's advisor.

Japanese Courses

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

JPN 001 First-Year Japanese 4 Lecture 4, Prerequisite(s): Student must take the Japanese placement examination An introduction to the sound system and grammar of Japanese. Emphasizes speaking, reading, writing, and comprehension skills. Classes are conducted in Japanese whenever possible. Credit is awarded for only one of the following sequences: JPN 001, JPN 002, and JPN 003; JPN 010A and JPN 010B.

JPN 002 First-Year Japanese 4 Lecture 4, Prerequisite(s): JPN 001 with a grade of "C-" or better or equivalent An introduction to the sound system and grammar of Japanese with emphasis on speaking, reading, writing, and understanding. Classes are conducted in Japanese insofar as possible. Credit is awarded for only one of the JPN 001, JPN 002, and JPN 003 or JPN 010A and JPN 010B sequences.

JPN 003 First-Year Japanese 4 Lecture 4, Prerequisite(s): JPN 002 with a grade of "C-" or better or equivalent An introduction to the sound system and grammar of Japanese with emphasis on speaking, reading, writing, and understanding. Classes are conducted in Japanese insofar as possible. Credit is awarded for only one of the JPN 001, JPN 002, and JPN 003 or JPN 010A and JPN 010B sequences.

JPN 004 Second-Year Japanese 4 Lecture 4, Prerequisite(s): JPN 003 with a grade of "C-" or better or JPN 010B with a grade of "C-" or better or equivalent Introduces levels of speech and emphasizes reading and writing of advanced prose.

JPN 005 Second-Year Japanese 4 Lecture, 4 hours. Prerequisite(s): JPN 004 or equivalent. Concentrates on advanced speech levels and their cultural underpinnings.

JPN 006 Second-Year Japanese 4 Lecture, 4 hours. Prerequisite(s): JPN 005 or equivalent. Emphasizes the academic style of written and spoken Japanese and academic comprehension of the cultural background.

JPN 010A Intensive First-Year

Japanese 6 Lecture, 4 hours; discussion, 2 hours. Prerequisite(s): Student must take the

Japanese placement examination. An intensive introduction to Japanese. Addresses speaking, reading, writing, and comprehension skills. The JPN 010A and JPN 010B sequence covers the same material as the JPN 001, 002, and 003 sequence. Credit is awarded for only one of the following sequences: JPN 001, JPN 002, and JPN 003; JPN 010A and JPN 010B.

JPN 010B Intensive First-Year

Japanese 6 Lecture, 4 hours; discussion, 2 hours. Prerequisite(s): JPN 010A with a grade of "C-" or better or equivalent. Conclusion of intensive first-year Japanese, with emphasis among speaking, reading, writing, and understanding. The intensive JPN 010A and JPN 010B sequence covers the same material as the JPN 001, JPN 002, and JPN 003 sequence. Credit is awarded for only one of the JPN 001, JPN 002, and JPN 003 or JPN 010A and JPN 010B sequences.

JPN 022 Introduction to Japanese

Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. An introduction to Japan's major directors and to watching and writing about Japanese film. Works studied range from the samurai epics of Kurosawa to recent anime. All films have subtitles. No previous knowledge of Japanese language or culture is required. Cross-listed with AST 022, and MCS 022.

JPN 023 Modern Japan and Personal

Narrative 4 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Introduces major debates in history, politics, and culture through the genres of biography, autobiography, diary, and confession. Explores the parallel construction of the modern nation, the modern language, and the modern self. Traces the development of Japan's "I-novel." Builds skills in close reading by studying the rhetoric of self-narrative. Cross-listed with CPLT 023, and AST 023.

JPN 034 Introduction to Classical Japanese

Literature 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): none. A survey of some of the more famous works of pre-modern Japanese literature from 10th century poetry collections to 18th century puppet plays. Focuses on the relationship among aesthetics, politics, language, and gender. Assignments include manga translations, creative writing, and intensive Web research. Cross-listed with AST 034.

JPN 035 Modern Japanese Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to Japanese culture and society with emphasis on the day-to-day lives of the modern Japanese people at home, work, and play.

JPN 037 Otaku Worldwide: the Globalization of Japanese Media and its Subcultures 4

Lecture, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): none. Explores the historical contingency of subcultures, key moments in the evolving discourse on 'otaku' both within and outside Japan, and considers how the term is used to identify consumers and fan cultures. Explores how manga and anime reflect class, gendered, and erotic resistance to dominant political structures. Cross-listed with CPLT 037.

JPN 056 Cultures of the Japanese

Empire 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers the social histories and literatures of the Japanese Empire from the foundation of the Meiji state to the present. Includes the Ainu, Okinawan, Taiwanese, and Korean cultures. Explores the concepts of assimilation, citizenship, national language, nation-state, sovereignty, total war, and translation. Utilizes readings in English. Cross-listed with AST 056, and CPLT 056.

JPN 090 Special Studies 1 to 5 Individual Study, 3 to 15 hours. To be taken with the consent of the Chair of the Department as a means of meeting special curricular problems in either language or literature.

Upper-Division Courses

JPN 101A Third-Year Japanese 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): JPN 006. Designed to develop students' reading, writing, and speaking abilities in Japanese. The course is conducted in Japanese.

JPN 101B Third-Year Japanese 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): JPN 101A. Designed to develop students' reading, writing, and speaking abilities in Japanese. The course is conducted in Japanese.

JPN 101C Third-Year Japanese 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): JPN 101B. Designed to develop students' reading, writing, and speaking abilities in Japanese. The course is conducted in Japanese.

JPN 110 Advanced Reading in

Japanese 4 Lecture, 3 hours; extra reading, 1 hour; written work, 2 hours. Prerequisite(s): previous or concurrent enrollment in JPN 101C or equivalent Reading of extended authentic texts in Japanese. Texts may include newspaper or magazine articles, literature, or nonfiction. Emphasis may extend to translation, textual analysis, basic research using primary sources, or discussion of texts in Japanese.

JPN 116 Japan and its Others 4 Lecture, 3 hours; extra reading, 1 hour; outside research, 1 hour; written work, 1. Prerequisite(s): upper-division standing or consent of the instructor. Studies gender/race/ethnic/sexual politics and minority cultural productions in modern Japan. Explores the historical backgrounds/epistemology of minority politics in Japan. Introduces the vibrant yet underprivileged voices of minority subjects. Includes LGBTQ issues, Zainichi Koreans, Ainu, Okinawa, Abelism, and the Buraku caste system. Cross-listed with CPLT 116.

JPN 117 Japanese Subculture: Theater

and Music 4 Lecture, 3 hours; screening, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of the instructor. Studies the Japanese minor theater and music in the area of subculture. Teaches strategies for analyzing performance and music productions. Explores the historical background of subculture in modern Japan, and introduces the theatrical and musical productions that emerged out of Japanese postwar subculture. Cross-listed with CPLT 117.

JPN 134 Cinematic War Memory 4 Lecture, 3 hours; screening, 2 hours; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines cinematic confrontations involving World War II in Germany and Japan. Topics include desire between victims and perpetrators, representation of trauma, and ethical responsibility. All screenings have English subtitles. Cross-listed with CPLT 134, MCS 114, and GER 134.

JPN 145 Modern Japanese Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of modern Japanese thought from a theoretical and intellectual historical perspective. Topics include philosophical discussions of modernization, "Westernization," nationalism, colonialism and imperialism, "comfort women," Japanese war crimes in continental Asia, the American bombing of Hiroshima and Nagasaki, post-World War II remembrance and denial. All readings are in English. Cross-listed with CPLT 145.

JPN 150 In Women's Hands: Reading

Japanese Women Writers 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines major works of Japanese women writers from Heian (ninth century) to contemporary, focusing on themes, genres, representations of gender, ideas of love and romance, and feminine aesthetics. Readings include fiction, poetry, essays, and drama, with the main emphasis on fictional writing. Classes are conducted in English. Cross-listed with AST 150.

JPN 152 (E-Z) Themes in Modern Japanese

Lit 4 Lecture, 2 hours; discussion, 1 hour; term paper, 3 hours. An introduction to modern Japanese literature in translation, as seen through the lens of a particular theme or issue. All materials read or viewed in English. E. The End Of Th Wrld In Jpn Lit; F. The Mask In Japanese Fiction; G. Love And Death; J. Classics And Canon; K. Dreams And Other Virtual Wrlds; Cross-listed with AST 152 (E-Z).

JPN 153 (E-Z) Themes in Early Japanese

Lit 4 Lecture, 2 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An introduction to early Japanese literature, as seen through the lens of a particular theme or issue. All works are read in English translation. E. Supernatural Japan; F. Warrior Japan; G. Floating World:tokugawa Cultur; Cross-listed with AST 153 (E-Z).

JPN 154 (E-Z) Themes-Folklore& Pop Ctr

Jpn 4 Lecture, 2 hours; discussion, 1 hour; extra reading, 1 hour; written work, 2 hours. Topics include myth, legend, folklore, folk performance, festival, ritual, and the development of popular or commercial culture. Considers literary versus oral tradition, ethnic identity, authenticity, nationalism, modernity, commodification, and the invention of tradition. E. Japanese Folk Narrative; F. Hist Of Japanese Popular Culture; Cross-listed with AST 154 (E-Z).

JPN 180 Japanese Documentary 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor.

Studies the history of Japanese documentary cinema. Teaches strategies for reading nonfiction visual narrative. Explores other forms of documentation controversial in modern Japanese history including oral testimony, photography, and internet activism. Topics may include war, war protest, peace activism, environmental activism, nuclear politics, and green energy. Course is repeatable as topics and instructor change to a maximum of 8 units. Cross-listed with AST 180, and MCS 180.

JPN 184 Japanese Media and Cultural

Studies 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigates Japanese media and culture including film, television, video games, manga (comics), anime, music, and print and digital media. Analyzes the function of media relating to issues of national identity, imperial culture, collective memory, and censorship. Includes transnational circulation of Japanese cultural forms, alternative media, and historical changes in technologies. Cross-listed with AST 184, and MCS 184.

JPN 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing or consent of instructor. To be taken with the consent of the Chair of the Department as a means of meeting special curricular problems in either language or literature. Course is repeatable.

KOREAN MINOR

The Korean minor provides students with the knowledge of Korean language, literature, culture, and society.

- 1. Lower-division requirements (8 units plus language proficiency)**
 - a) Proficiency in Korean through the intermediate level, KOR 005 (second year)
 - b) Eight (8) units from lower-division lecture courses on Korean literature and culture: KOR 042, KOR 047/AST 047/MCS 047
- 2. Upper-division requirements (16 units)**
 - a) Four (4) upper-division units in Korean language from KOR 101
 - b) Eight (8) units in Korean literature and culture from KOR 110 (E-Z), KOR 112/AST 112, Four (4) units in Asian literatures and cultures: can be chosen from all the upper-division lecture courses on Asian literature and culture from the department as well as Korea-related upper-division courses from other departments (with adviser's consent), including the courses listed under (2)

Korean Courses

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be dupli-

cated. See college placement examination policy.

Lower-Division Courses

KOR 001 First-Year Korean 4 Lecture 4, Prerequisite(s): Student must take the Korean placement examination An introduction to the sound system and grammar of Korean. Emphasizes reading, writing, understanding, and speaking. Credit is awarded for only one of the following sequences: KOR 001, KOR 002, KOR 003, and KOR 004; KOR 001, KOR 002, and KOR 020B; KOR 020A and KOR 020B.

KOR 002 First-Year Korean 4 Lecture, 4 hours. Prerequisite(s): KOR 001 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of Korean with emphasis on reading, writing, understanding, and speaking. Credit is awarded for only one of the following sequences: KOR 001, KOR 002, KOR 003, and KOR 004; KOR 001, KOR 002, and KOR 020B; KOR 020A and KOR 020B.

KOR 003 First-Year Korean 4 Lecture, 4 hours. Prerequisite(s): KOR 002 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of Korean with emphasis on reading, writing, understanding, and speaking. Credit is awarded for only one of the following sequences: KOR 001, KOR 002, KOR 003, and KOR 004; KOR 001, KOR 002, and KOR 020B; KOR 020A and KOR 020B.

KOR 004 Second-Year Korean 4 Lecture 4, Prerequisite(s): KOR 003 with a grade of "C-" or better or equivalent. A continuation of Korean language study. Emphasizes reading, writing, grammar, and conversation. Credit is awarded for only one of the following sequences: KOR 001, KOR 002, KOR 003, and KOR 004; KOR 001, KOR 002, and KOR 020B; KOR 020A and KOR 020B.

KOR 005 Second-Year Korean 4 Lecture, 4 hours. Prerequisite(s): KOR 004 or KOR 020B. A continuation of Korean language study. Emphasizes reading, writing, grammar, and conversation. Conducted primarily in Korean.

KOR 020A First-Year Korean For Heritage Learners 4 Lecture, 4 hours. Prerequisite(s): Student must take the Korean placement examination. A first-year Korean course designed for heritage learners who have some proficiency in listening comprehension and speaking but are unable to read and write in Korean. Credit is awarded for only one of the following sequences: KOR 001, KOR 002, KOR 003, and KOR 004; KOR 001, KOR 002, and KOR 020B; KOR 020A and KOR 020B.

KOR 020B First-Year Korean For Heritage Learners 4 Lecture, 4 hours. Prerequisite(s): KOR 002 with a grade of "C-" or better or KOR 020A with a grade of "C-" or better or equivalent or a sufficiently high test score on the Korean placement examination as determined by the department faculty. A first-year Korean course designed for heritage learners who have some proficiency in listening comprehension and speaking but are unable to read and write in Korean. Credit is awarded for only one of the following sequences: KOR 001, KOR 002, KOR 003, and KOR 004; KOR 001, KOR 002, and KOR 020B; KOR 020A and KOR 020B.

KOR 042 Korean Culture and Society 4 Lecture, 3 hours; screening, 15 hours per quarter; extra reading, 1.5 hours. Prerequisite(s): none. An introduction to major themes, events, and trends in Korean culture and society. Covers the end of the nineteenth century to the present. All readings are in English, and all films have subtitles.

KOR 047 Introduction to Korean Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. An introduction to the major directors and films of Korea. Covers the genres and periods of works produced from the 1960s to the present. All films have English subtitles. No previous knowledge of Korean language or culture required. Cross-listed with MCS 047, and AST 047.

Upper-Division Courses

KOR 101 Advanced Korean 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): KOR 005 or consent of instructor. Designed to develop students' fluency in Korean to the level of intellectual conversation. Students review Korean web sites, view Korean films, read Korean short stories and journal articles, and discuss current issues of Korean society.

KOR 110 (E-Z) Themes Modern & Contemporary Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Explores themes of modern and contemporary Korean literature and culture. M. History, Memory, and Nostalgia; T. Tradition Of Social Criticism;

KOR 112 Modern Korean Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of modern Korean literature from the colonial era to the present. Topics include colonialism; cultural influence and exchange; gender, family and sexuality; nation and nationalism; Confucian tradition and patriarchal culture; and modernization and capitalism. Cross-listed with AST 112.

KOR 120 Narrating the Korean War 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the Korean War from various perspectives and through diverse reading and visual material (including film). Topics and themes may include narrative techniques, colonialism, imperialism, militarism, humanism, nationalism, the East/West relationship, and gender ideologies.

LANGUAGES

Committee in Charge

Heidi Brevik-Zender, Ph.D., Chair
French/Comparative Literature
Heidi Waltz, Ph.D. *Linguistics/Germanic Studies*
Yenna Wu, Ph.D. *Chinese/Civilizations/Comparative Literature*
Milagros Peña Ph.D. *Dean, College of Humanities, Arts, and Social Sciences, ex officio*

Major

The B.A. in Languages enables a student to

specialize in two foreign languages through the acquisition of language competencies, as well as exposure to the theoretical basis and structure of language itself (linguistics), and the study of the cultural and literary practices, which the target languages reflect and enact. Students interested in a single language concentration should see individual language program listings in this catalog.

1. **CPLT 001 or CPLT 001W, CPLT 002, and LING 020**
2. **Elementary and intermediate courses in languages one and two as required**
3. **Sixty (60) upper-division units distributed as follows:**
 - a) Language one — 28 units which must include the following minimums:
 - (1) Sixteen (16) units in language
 - (2) Twelve (12) units in literature and culture
 - b) Language two — 20 units which must include the following minimums:
 - (1) Twelve (12) units in language
 - (2) Eight (8) units in literature and culture
 - c) LING 111 — 4 units
 - d) One other course in Linguistics — 4 units
 - e) CPLT 193 (4 units). (CPLT 196 strongly recommended but not required.)

Subject abbreviation: LTLG

Graduate Course

LTLG 250 Colloquium in Literatures and Languages 1 to 2 Seminar, 1 hour. Prerequisite(s): graduate standing. Lectures and discussions by staff, visiting scholars and students on current research topic. Students delivering lectures may take the course for 2 units, students attending lecture and discussions may take the course for 1 unit. May not count towards minimum unit requirement for the degree. Graded Satisfactory (S) or No Credit (NC).

Professional Course

CPLT 301 Teaching of Foreign Language at the College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing, or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

LINGUISTICS

Subject abbreviation: LING
College of Humanities, Arts,
and Social Sciences

Committee in Charge

Curt Burgess (Psychology)

Christine Chiarello (Psychology)
 Peter Graham (Philosophy)
 Judith Kroll (Psychology)
 Gerald Maguire (Medical School)
 Jessica Montag (Psychology)
 Hyejin Nah (Anthropology)
 Michael Nelson (Philosophy)
 Covadonga Lamar Prieto (Hispanic Studies)
 Wesley Leonard (Ethnic Studies)
 Christian Shelton (Computer Science)
 Heidi Waltz (Comp Lit & Languages)
 Jon Willits (Psychology)
 Milagros Peña, Dean, *ex officio*

Linguistics is the science of language. It seeks to discover the psychological and motor mechanisms of human speech, the similarities and differences among languages, how languages change, and the way in which language is acquired. Because linguistics is largely independent of fields with which the student is likely to be familiar, no special background is required for students entering the major.

Linguistics interacts with a wide variety of fields, such as articulatory phonetics (biology), acoustic phonetics (physics), field methods (anthropology), language and culture (anthropology), sociolinguistics, psycholinguistics, neurolinguistics, logic, the philosophy of language, and the study of particular languages (including their history). This interaction provides opportunities for students with varied interests and can give new perspectives to those in related disciplines.

Major

Upon electing the linguistics major, and certainly no later than the middle of the sophomore year, a student should see the Director of the Linguistics Committee for advising.

The director can help students find a suitable advisor to file the necessary forms. In consultation with an advisor, a student plans a coherent program of specific courses to meet the requirements below. The student and the advisor must then submit a copy of the program to the full Committee on Linguistics for approval.

Students interested in the linguistics major should request from the committee director information concerning the many possible course programs. Many of them permit double majors, thus providing strong preparation for further study in two fields.

Students may add variety and depth to their UCR linguistics major by attending a Summer Program in Linguistics (held in various places) or by participating in Education Abroad. This is an excellent opportunity to become deeply familiar with another country and its culture while earning academic units toward graduation. Students should plan well in advance to ensure that the courses taken outside of the U.S. fit in their overall program at UCR. Consult the departmental student affairs officer for assistance. For details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Requirements for the major are as follows:

1. LING 020

2. Twenty-four (24) upper-division units distributed as follows:
 - a) LING 111, LING 121, LING 131, LING 141
 - b) ANTH 123
 - c) PHIL 132 or PSYC 135
3. At least 12 additional upper-division units of linguistic electives, to be chosen in consultation with the advisor and with the approval of the Linguistics Program director. (The additional courses may be in linguistics or in related fields. They may relate either to a particular field or specialization or to general linguistics.)
4. Foreign language proficiency equivalent to six quarters (24 units) of study, including at least fourth-quarter proficiency in one language. (Students may arrange with the director to satisfy this requirement by examination.)

Honors Program in Linguistics

1. **Linguistics requirement:** LING 020, LING 111, LING 121, LING 141, LING 190, LING 191
2. **Related courses requirement:**
 - a) ANTH 120, ANTH 123
 - b) ENGL 112
 - c) CS 008, CS 010, CS 012
 - d) MATH 144
 - e) PHIL 008 or PHIL 008H
 - f) Additional courses as may be required by the Linguistics Committee
3. **Language Requirement — study in at least two language areas:**
 - a) Primary language: 24 units of foreign language instruction in a single language (this may include any courses taught in that language) plus courses in the structure, phonetics and history of the primary language, if available
 - b) Secondary language: 16 units of a single language or at least 8 units in each of two languages (none of which may be members of the same subfamily of Indo-European as the primary language) plus at least 8 units in the structure, phonetics, or history of the language(s) chosen for the secondary area

In fulfilling the language requirement, students interested in earning a degree beyond the B.A. should take into account the foreign language requirements of the graduate schools to which they may apply. Students must have at least a 3.00 GPA in courses required for the Honors Program.

Lower-Division Courses

LING 020 Language and Linguistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to modern linguistics. Covers the nature of language; language structure; grammars; the languages of the world; historical and comparative linguistics; and interdisciplinary approaches including anthropological and psycholinguistics.

LING 021 Grammar 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none.

Fundamental concepts of grammatical structure. Includes parts of speech, paradigms, word families, agreement and government, the grammar of sentences and longer units of discourse, and style.

Upper-Division Courses

LING 111 Phonetics 4 Lecture, 3 hours; laboratory, 1 hour; outside research, 1 hour; extra reading, 1 hour. Prerequisite(s): LING 020. Practice in pronouncing and recognizing sounds from many languages. Covers methods of transcribing and analyzing these sounds.

LING 121 Syntax 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): LING 020. Survey of various approaches to syntax, including transformational. Syntactic structures of English and other languages are examined. Applications: English, foreign languages, philosophy, mathematics.

LING 131 Morphology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): LING 020, LING 111 or LING 121. Studies word structure, the lexical component of language, allomorphy, types of morphemes, and inflexional and derivational morphology. Examines various theories of lexical/morphological organization in the brain. Examples are taken from English and other Indo-European languages.

LING 141 Phonology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): LING 111. Introduction to the study of functional sound units in speech, including phonotactics, morphophonemics. Various theories are examined, including generative. Applications: speech correction, speech analysis, English, foreign languages.

LING 151 Semantics 4 Lecture, 3 hours; extra reading, 1 hour; outside research, 1 hour; term paper, 1 hour. Prerequisite(s): LING 121. Introduces the study of meaning and its metalinguistic preliminaries. Explores lexical, sentence, and utterance meaning (including speech acts, text, and discourse). Provides a survey of theories of meaning, such as structural semantics and language as a semiotic system.

LING 160 (E-Z) Topics-Dynamic&Comptrv Lingstcs 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): LING 111; LING 121 or LING 141. Comparative analyses of language groups such as Spanish and Portuguese, Slavic languages, and Native American languages. E. Historical Linguistics; F. Dialectology; G. Language Change; I. Sociolinguistics;

LING 162 Language and the Brain 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): LING 020 or PSYC 110 or PSYC 135 or CBNS 106 or consent of instructor. Interdisciplinary introduction to study of language and the brain, including brain evolution for language, neural bases of speech comprehension, speech production, and reading, aphasia and language recovery, co-development of language and brain, and additional special topics. Cross-listed with PSYC 128.

LING 167 Structural/Descriptive Linguistics 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): LING 020 or consent of instructor. An overview, from the

original sources, of the contribution of major figures and schools in linguistics from Saussure through early Chomsky. Cross-listed with ANTH 167.

LING 190 Special Studies 1 to 5 To be taken with the consent of the chair of the Committee as a means of meeting special curricular problems. Course is repeatable.

LING 192 Tutorial Activities 1 to 2

2 Prerequisite(s): junior or senior standing and nomination by faculty. Enlarging understanding of linguistics through conducting tutorial sessions in introductory courses, under the supervision of faculty members responsible for the courses involved. Graded Satisfactory (S) or No Credit (NC). May be repeated for a maximum of three quarters.

LING 195 Senior Thesis 2 to 4 Thesis, 6 to 12 hours. Prerequisite(s): senior standing or consent of instructor. Independent research and preparation of a thesis completed under the supervision of a faculty member. Course is repeatable to a maximum of 12 units.

LING 195H Senior Honors Thesis 2 to 4 Thesis, 6 to 12 hours. Prerequisite(s): invitation by faculty to pursue honors work in Linguistics; senior standing or consent of instructor. Intensive study, research, and preparation of a thesis in consultation with a faculty member. To be taken during two or three successive quarters; course is repeatable to a maximum of 12 units.

LING 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

RUSSIAN STUDIES

Subject abbreviation: RUSN

Committee in Charge

Vrinda Chidambaram, Ph.D., Chair,
Linguistics/Comparative Literature
Ekaterina Yudina, Ph.D. *Russian*
Milagros Peña Ph.D. *Dean, College of Humanities, Arts, and Social Sciences, ex officio*

Students are encouraged to participate in Education Abroad. This is an excellent opportunity to become deeply familiar with another country and its culture while earning academic units toward graduation. Students should plan well in advance to ensure that the courses taken outside of the U.S. fit in their overall program at UCR. Consult the departmental student affairs officer for assistance. For details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Major

The Russian Studies B.A. has been developed for students who are interested in Russian language and literature, Russian history and civilization.

Individual major programs are dependent upon the students' particular interests. In consultation with the advisor, each student plans a coherent program of courses to meet the requirements for the major. Normally, students' programs are submitted for approval no later than the beginning of their junior year.

1. **Lower-division requirement: CPLT 001 or CPLT 001W, and CPLT 002**
2. **Upper-division requirements**
 - a) Language requirement: 12 units from RUSN 101 (E-Z), RUSN 102 (E-Z), RUSN 120 (E-Z), RUSN 103
 - b) Literature requirement: 12 units from RUSN 109A, RUSN 109B, RUSN 109C
3. **8 units from EUR 111A, EUR 111B, EUR 111C**
4. **CPLT 193 (4 units). (CPLT 196 strongly recommended but not required)**

Total upper-division units: 36.

Minor

The department offers a 24-unit disciplinary

minor in Russian Studies.

The requirements for the minor are as follows:

1. Eight (8) units of RUSN 101 (E-Z), RUSN 102 (E-Z), RUSN 103
2. Sixteen (16) units of Russian Literature and Civilization courses chosen from the following:

RUSN 109A, RUSN 109B, RUSN 109C, RUSN 120 (E-Z)

EUR 111A, EUR 111B, EUR 111C

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

RUSN 001 Elementary Russian 4 Lecture, 4 hours. Prerequisite(s): none. An introduction to the sound system and grammar of Russian, with attention to the development of the four skills of listening, speaking, reading, and writing.

RUSN 002 Elementary Russian 4 Lecture, 4 hours. Prerequisite(s): RUSN 001 with a grade of "C-" or better. An introduction to the sound system and grammar of Russian. Focuses on the development of the four skills of listening, speaking, reading, and writing.

RUSN 003 Elementary Russian 4 Lecture, 4 hours. Prerequisite(s): RUSN 002 with a grade of "C-" or better. An introduction to the sound system and grammar of Russian. Focuses on the development of the four skills of listening, speaking, reading, and writing.

RUSN 004 Intermediate Russian 4 Lecture, 4 hours. Prerequisite(s): RUSN 003 with a grade of "C-" or better. A comprehensive review of the basic grammatical structures of Russian. Includes irregular and idiomatic forms, vocabulary building, and development of conversation and composition skills.

RUSN 027 Russian Conversation 1 Discussion, 1 hour. Prerequisite(s): RUSN 001. Weekly discussion of topics of current interest, intended to develop and maintain basic conversational skills. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit for a total of 6 units.

RUSN 045 Soviet Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. A survey of the Soviet cinema, beginning with the film innovations of the 1920s and continuing with representative films from each of the ensuing periods of Soviet culture. All work done in English. Cross-listed with MCS 043.

RUSN 090 Special Studies 1 to 5 To be taken with the consent of the chair of the department

as a means of meeting special curricular problems. Course is repeatable.

Upper-Division Courses

RUSN 101 (E-Z) Advanced Russian 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): RUSN 004. Students read texts in literature and expository prose, with attention to usage, style, grammar, and interpretation. Emphasis on developing reading and translating skills for adult-level reading competence. G. Readings From Poetry; J. Readings From Soviet Literatur; M. Readings From Drama; N. Readings In History; O. Readings In Social Science; Q. Readings Newspapers&popular Lit; R. Readings Classics Of Russian Lit;

RUSN 102 (E-Z) Advanced Russian:

Grammar 2 Lecture, 2 hours. Prerequisite(s): RUSN 004. Each segment will deal with a specific topic in Russian grammar at an advanced level. Texts or materials vary from quarter to quarter. E. Nominal Declensions; F. Syntax I; G. Phonetics; I. Syntax II; J. Syntax III; K. Vocabulary Building; M. Verb Morphology;

RUSN 103 Advanced Russian Conversation and Composition 2

Lecture, 2 hours. Prerequisite(s): RUSN 004 or consent of instructor. Conversation and short compositions in Russian. Intended to develop and maintain basic conversational and writing skills. Course is repeatable to a maximum of 8 units.

RUSN 109A Survey of Russian Literature in

Translation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to major literary figures and representative masterpieces of the Golden Age (1830-1880). Any course in the RUSN 109A, RUSN 109B, and RUSN 109C sequence may be taken independently.

RUSN 109B Survey of Russian Literature in

Translation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to major literary figures and representative classics of the late nineteenth century and prerevolutionary twentieth century (1880-1917). Any course in the RUSN 109A, RUSN 109B, and RUSN 109C sequence may be taken independently.

RUSN 109C Survey of Russian Literature in

Translation 4 Lecture, 3, hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to major literary figures and representative works of the Soviet period (1917-1991). Any course in the RUSN 109A, RUSN 109B, and RUSN 109C sequence may be taken independently.

RUSN 120 (E-Z) Studies in Russian

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Analysis and discussion of representative works of Russian literature. Readings are in Russian and vary from quarter to quarter. F. Readings In Twentieth Century; G. Readings In Nineteenth Century;

RUSN 190 Special Studies 1 to 5 To be taken with the consent of the chairman of the department as a means of meeting special curricular problems. Course is repeatable.

RUSN 195 Senior Thesis 1 to 4 Research, 3 to 12 hours. Prerequisite(s): senior standing and consent of instructor. The student works independently with a faculty member doing research and preparing a thesis as a final phase of the student's major.

Graduate Courses

CPLT 290 Directed Studies 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RUSN 292 Concurrent Analytical

Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in RUSN 100-series course To be taken on an individual basis. Student will complete a graduate paper based on research related to the RUSN 100-series course. May be repeated with different topic. RUSN 103 may not be used for RUSN 292.

Professional Courses

CPLT 301 Teaching of Foreign Language at the

College Level 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing, or senior standing with consent of instructor. Covers first and second language acquisition; general models of L2 learning; learning different types of grammar; learning other components of language: acquisition of pronunciation, vocabulary, and discourse; multilingual societies and the goals of language teaching; and implications of second language acquisition research for the foreign language classroom. Graded Satisfactory (S) or No Credit (NC).

RUSN 302 Teaching Practicum 1 to

4 Practicum, 3 to 12 hours. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in Supervised teaching in lower-division courses. Required of all teaching assistants in Russian. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOUTHEAST ASIAN MINOR

The Southeast Asian minor provides students with the opportunity to enhance their knowledge of Southeast Asian languages, cultures, and literatures.

1. Lower-division requirements (8 units plus language proficiency)

- Proficiency in one of the Southeast Asian languages (Vietnamese/Indonesian/Tagalog) through the first-year level
- Eight (8) units from lower-division lecture courses on Southeast Asian literature and culture: AST 062/CPLT 062/SEAS 062, AST 063/CPLT 063/SEAS 063, AST 064/MCS 049/SEAS 064/VNM 064, AST 065/SEAS 065

2. Upper-division requirements

Sixteen (16) units in Southeast Asian literature and culture from CPLT 142V/WMST 142V, AST 161/SEAS 161, AST 162/HIST 187/VNM 162, AST 163/CPLT 163/SEAS 163, AST 165 (E-Z)/SEAS 165 (E-Z)/VNM 165 (E-Z)/WMST 165(E-Z), AST 166/CPLT

166/SEAS 166/VNM 166, AST 167/CPLT 167/SEAS 167, AST 168/MUS 168/SEAS 168, or graduate courses in Southeast Asian literature and culture (with consent of instructor) such as CPLT 200/SEAS 200 and CPLT 205/SEAS 205

VIETNAMESE COURSES

Foreign Language Placement Examination A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course may not take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Lower-Division Courses

VNM 001 Elementary Vietnamese 4

Lecture, 4 hours. Prerequisite(s): student must take the Vietnamese placement examination. An introduction to the sound system and grammar of Vietnamese. Focuses on the development of the four skills: comprehension, speaking, reading, and writing. Classes are conducted in Vietnamese as often as possible. Credit is awarded for only one of the following sequences: VNM 001, VNM 002, and VNM 003; VNM 020A and VNM 020B.

VNM 002 Elementary Vietnamese 4

Lecture, 4 hours. Prerequisite(s): VNM 001 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Vietnamese placement examination as determined by the department faculty An introduction to the sound system and grammar of Vietnamese. Focuses on the development of the four skills: comprehension, speaking, reading, and writing. Classes are conducted in Vietnamese as often as possible. Credit is awarded for only one of the following sequences: VNM 001, VNM 002, and VNM 003; VNM 020A and VNM 020B.

VNM 003 Elementary Vietnamese 4

Lecture, 4 hours. Prerequisite(s): VNM 002 with a grade of "C-" or better or equivalent or a sufficiently high test score on the Vietnamese placement examination as determined by the department faculty An introduction to the sound system and grammar of Vietnamese. Focuses on the development of the four skills: comprehension, speaking, reading, and writing. Classes are conducted in Vietnamese as often as possible. Credit is awarded for only one of the following sequences: VNM 001, VNM 002, and VNM 003; VNM 020A and VNM 020B.

VNM 004 Intermediate Vietnamese 4

Lecture, 4 hours. Prerequisite(s): VNM 003 with a grade of "C-" or better or VNM 020B with a grade of "C-" or better or equivalent or a sufficiently high test score on the Vietnamese placement examination as determined by the department faculty. Emphasizes further development of vocabulary, reading, writing, comprehension, and speaking skills. Provides foundation for recognizing,

formulating, and articulating complex ideas.

VNM 005 Intermediate Vietnamese 4 Lecture, 4 hours. Prerequisite(s): VNM 004 or equivalent or a sufficiently high test score on the Vietnamese placement examination as determined by the department faculty. Emphasizes further development of vocabulary, reading, writing, comprehension, and speaking skills. Provides foundation for recognizing, formulating, and articulating complex ideas.

VNM 020A Beginning Vietnamese For Advanced Heritage Learners 4 Lecture, 4 hours. Prerequisite(s): Student must take the Vietnamese placement examination. Structured for the heritage student at the beginning level who has advanced comprehension and some speaking skills. Focuses on developing language skills and improving existing reading and writing skills. Credit is awarded for only one of the following sequences: VNM 001, VNM 002, and VNM 003; VNM 020A and VNM 020B.

VNM 020B Beginning Vietnamese For Advanced Heritage Learners 4 Lecture, 4 hours. Prerequisite(s): VNM 020A with a grade of "C-" or better or equivalent or a sufficiently high test score on the Vietnamese placement examination as determined by the department faculty. Builds upon course work covered in VNM 020A. Includes integrating situational lessons with vocabulary, sentence patterns, grammar, and socio-linguistics used in daily life. Credit is awarded for only one of the following sequences: VNM 001, VNM 002, and VNM 003; VNM 020A and VNM 020B.

VNM 064 Introduction to Vietnamese and Diasporic Film Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Engages in critical viewing strategies and analytical visual critique. Explores the revival of film production in Vietnam following the Vietnam War, with a focus on the means of production, state control, and international distribution. Readings are in translation; classes conducted in English. Cross-listed with AST 064, MCS 049, and SEAS 064.

Upper-Division Courses

VNM 101 Advanced Vietnamese 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): VNM 005 or equivalent or a sufficiently high test score on the Vietnamese placement examination as determined by the department faculty or consent of instructor. Designed to develop fluency in Vietnamese to the level of intellectual conversation. Emphasis is on reading and writing of Vietnamese literature and criticism, visual culture, and discussion of current issues of Vietnamese society.

VNM 162 Vietnamese Literary

History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. A historical analysis of Vietnamese literature from its oral tradition to contemporary fiction. Follows the formation of the nation-state and the subsequent struggles with the Chinese, French, Japanese, and Americans. No knowledge of Vietnamese required. Readings are in translation or bilingual editions. Classes are conducted in English. Cross-listed with AST 162, HIST 187, and SEAS 162.

VNM 164 Vietnamese American

Culture 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the pervasive aspects of Vietnamese American culture. Includes shared histories, acculturation patterns, class diversity, identity struggles, community-building literary and cultural production, youth issues, and cultural survival. Also introduces foundational literature, visual culture, and scholarship in the field. Cross-listed with AST 164, and SEAS 164.

VNM 165 (E-Z) Themes in Vietnamese

Literature: Women and War 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An exploration of Vietnamese literature in translation as seen through the lens of a particular theme or issue. Focuses on the implications of gender and sexuality on nation formation. All materials are read or viewed in English. E. Women And War; Cross-listed with AST 165 (E-Z), GSST 165 (E-Z), and SEAS 165 (E-Z).

VNM 166 Vietnam and the

Philippines 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the comparative national histories of Vietnam and the Philippines by way of great literary works in various genres including poetry, short fiction, and novels. All materials are read in English. Cross-listed with CPLT 166, AST 166, and SEAS 166.

VNM 184 The Vietnam Wars 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with HIST 184, AST 160, and SEAS 184. Credit is awarded for only one of the following: AST 160/HIST 184/SEAS 184/VNM 184 or AST 160S/HIST 184S/SEAS 184S/VNM 184S.

VNM 184S The Vietnam Wars 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with HIST 184S, AST 160S, and SEAS 184S. Credit is awarded for only one of the following: AST 160/HIST 184/SEAS 184/VNM 184 or AST 160S/HIST 184S/SEAS 184S/VNM 184S.

VNM 189 Encountering Vietnam 5 Lecture, 6 hours; tutorial, 6 hours; project, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on literary and historical accounts of Vietnam. Utilizes translated travel writings from different genres and eras. Proficiency in Vietnamese not required. Taught in Vietnam and offered only in summer. Cross-

listed with AST 189, HIST 189, and SEAS 189.

Albert Wang, Ph.D. (Electrical and Computer Engineering)
Daniel Wong, Ph.D. (Electrical and Computer Engineering)

Major

The Computer Engineering major stresses the study of core computer science and electrical engineering topics. It prepares students for careers in the design of complex systems involving computer hardware, computer software, electronics and electrical signals for communications, networking, desktop computing, and embedded computing.

The objective of the Computer Engineering program is to produce graduates who:

- have a mastery of the fundamental areas required for designing and using computers and engineered systems that contain computers
- have an ability to apply principles of engineering, mathematics, science, and statistics to the use, design, and interfacing of computers
- are able to apply modern design methodologies and state-of-the-art tools to design problems common to modern computer engineering practice
- have had extensive, relevant laboratory and hands-on experience to strengthen their understanding of scientific, logical, statistical,

and engineering principles

- have a well-rounded and balanced education through required studies in elected areas of the humanities and social sciences
- are adept at both oral and written communication
- possess the high-quality undergraduate education necessary to progress to the M.S. and Ph.D. level or succeed in a career in industry
- understand the social, cultural, ethical, and environmental context of their work

The Computer Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org. For more details, visit cen.ucr.edu.

The Intersegmental General Education Transfer Curriculum (IGETC) does not meet transfer requirements for Engineering.

All undergraduates in the College of Engineering must see an advisor at least annually. Visit student.engr.ucr.edu for details.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The Computer Engineering major uses the following major requirements toward the satisfaction of some of the college's Natural Science and Mathematics breadth requirements.

1. **MATH 008B or MATH 009A**
2. **PHYS 040A, PHYS 040B, PHYS 040C**

Major Requirements

1. **Lower-division requirements (72 units):**
 - a) ENGR 001G
 - b) CS 010, CS 012, CS 014, CS 061
 - c) CS 011/MATH 011
 - d) EE 001A, EE 01LA, EE 001B, EE 020
 - e) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 046
 - f) PHYS 040A, PHYS 040B, PHYS 040C
 - g) CHEM 001A or ME 010
2. **Upper-division requirements (77 units minimum)**
 - a) ENGR 101G
 - b) CS 100, CS 141, CS 153, CS 161, CS 161L
 - c) CS 120A/ EE 120A, CS 120B/EE 120B; one course from CS 122A or EE 128
 - d) CS 111
 - e) CS 168/EE 168
 - f) ENGR 180W
 - g) EE 100A
 - h) EE 111
 - i) EE 114 or STAT 155
 - j) Six courses (at least 24 units) as technical electives from the following set of upper division courses
CS 122A, CS 122B, CS 130, CS 134, CS 150, CS 152, CS 160, CS 162, CS

164, CS 165, CS 166, CS 169, CS 170, CS 171, CS 172, CS 175, CS 177, CS 179 (E-Z), CS 180, CS 181, CS 182, CS 183, CS 193 EE 100B, EE 105, EE 115, EE 123, EE 128 EE 132, EE 133, EE 135, EE 136, EE 137, EE 141, EE 144, EE 146, EE 147, EE 150, EE 151, EE 152, EE 162, EE 165, EE 175A, EE 175B, ENGR 160

The technical electives selected from h) must include either CS 179 (E-Z) or EE 175A and EE 175B. The technical electives must be distinct from those used to satisfy the upper-division requirements specified in items a) and b) above.

Students may petition for exceptions to the above degree requirements. Exceptions to Computer Science and Electrical Engineering course requirements must be approved by the Computer Engineering undergraduate faculty advisor or chair.

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Graduate Program

The Computer Engineering program offers the B.S. + M.S. program and the M.S. degree in Computer Engineering. Specific requirements for each degree are described below.

Master's Degree

M.S. in Computer Engineering

The college offers an M.S. program in Computer Engineering.

Admission

All applicants to this program must have completed a bachelor's degree or its approved equivalent from an accredited institution and to have attained undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applicants should have at least an undergraduate major in Computer Engineering, Computer Science, Electrical Engineering or a closely related field. Applicants who fail to meet this criterion may sometimes be admitted with course deficiencies. However, no more than three deficiencies will be allowed.

All applicants must submit scores from the Graduate Record Exam, General Test (GRE). The GRE subject test in Computer Science or Electrical Engineering is recommended but not required. Applicants whose first language is not English are required to submit acceptable scores from the TEST of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally each applicant must submit three letters of recommendation, at least two of which must be academic references. All other application requirements are specified in the graduate application.

Prerequisite Material

Competence in the areas defined by the following UCR courses is essential to graduate study in computer engineering:

EE 100A, CS 153, CS 161, CS 120A/EE 120A

A student who is deficient in any of these

competency areas may be asked to pass the corresponding UCR course with a letter grade of at least B, a grade of S if S/NC is an option for the class with the instructors approval, or to pass a challenge examination based on that course's final exam with a grade of at least B. All such remedial work should be completed within the first year of graduate study, and in all cases the deficiency must be corrected BEFORE a student can enroll in any graduate course from the same specialty area. The admission prerequisite courses listed above may not be taken for graduate credit.

Course Requirements

Students must be in residence at least one year and complete a minimum of 44 quarters units of graduate and upper division undergraduate courses in or related to the major subject area. Students who have completed similar courses elsewhere may petition for waiver of a required course or for substitution of an alternative course. For students interested in interdisciplinary research, individual study programs can be approved.

1. **Core Requirement (12 units).** Three courses from the list of core courses below, with no grade lower than B-.
CS 201 or CS 202, CS 203, CS 220, EE 213, CS 217/EE 217
2. **Technical Electives (16 units).** Choose four from Computer Science or Electrical Engineering 200-level courses. Seminar courses (CS 260 and CS 270-level courses, EE 260-level courses), as well as CS 290, CS 297, CS 299 and EE 290, EE 297 and EE 299 may not be used.
3. **Additional Credits (16 units).** This category may be satisfied by a combination of the choices below:
 - Additional graduate technical electives as described under (2.) above;
 - Up to three of the undergraduate technical electives below to satisfy additional credits;
CS 111, CS 120B, CS 122A, CS 122B, CS 130, CS 141, CS 150, CS 152, CS160, CS 161L, CS 162, CS 164, CS 165, CS 166, CS 168, CS 169, CS 170, CS 171, CS 172, CS 177, CS 179 (E-Z), CS 180, CS 181, CS 183, CS 193, EE 100B, EE 105, EE 115, EE 120B, EE 123, EE 128, EE 132, EE 133, EE 135, EE 141, EE 144, EE 146, EE 150, EE 151, EE 152, EE 165, EE 175A, EE 175B, ENGR 160; or
 - Up to two seminar classes (CS260, EE260 or similar classes);
 - With the pre-approval of the graduate advisor, any relevant 200-level courses from other departments in Engineering or outside. If pre-approval is not obtained, there is no guarantee that a class will be deemed relevant.
4. **Professional Development Requirement, Colloquium (1 unit).**

Satisfactory completion of one quarter of CS 287 (Colloquium in Computer Science) or EE 259 (Colloquium in Electrical Engineering) in one distinct quarter.

5. **Capstone Experience**

All students must complete a capstone experience that synthesizes and integrates the knowledge and skills obtained through-

out the master's program, by either passing a comprehensive exam, writing a thesis, or completing a project. The Comprehensive Examination is the default option. If a student chooses the alternative project or thesis option, it is their responsibility to find a faculty member willing to supervise the master's project or thesis, to form the faculty examining committee, and to schedule the oral examination.

a. Comprehensive Examination Option.

In addition to the course requirements above, students must pass a comprehensive examination administered by the Computer Engineering Program.

b. Project Option. Students may replace up to 4 units of courses listed under "Additional Credits" with 4 units of directed research (CS 297, EE 297) and/or directed studies (CS 290, EE 290). Units obtained in graduate research for the thesis or dissertation (CS 299, EE 299) may not be used to satisfy any course requirements under this option. Students must complete a research project under the guidance of a faculty member. The project will be approved by a committee of at least two faculty members, at least one of whom is a faculty member in the Computer Engineering program, and requires a presentation and written report.

c. Thesis Option. Students may replace up to 8 units of courses listed under "Additional Credits" with 8 units of graduate research for the thesis or dissertation (CS 299, EE 299). Units obtained in directed research or directed studies (CS 290, CS 297, EE 290, EE 297) may not be used to satisfy any course requirements under this option. Students must submit a master's thesis in accordance with the general requirements of the university. The thesis is original research work, and it should demonstrate the student's ability to study a research area, identify an open problem and make a research contribution. The thesis requires a presentation and must be approved by a committee of at least three faculty members.

Combined B.S. + M.S. Five-Year Program.

The college offers a combined five year B.S. + M.S. program, designed to allow successful UCR Computer Engineering B.S. graduates to complete the Master of Science degree in Computer Engineering in one year, by allowing up to 12 credits of coursework taken as a UCR undergraduate to be counted towards the elective requirements of the M.S. (The courses that can be double counted are those that are eligible to be counted as technical electives in the B.S. requirements.) A student may apply at the start of their senior year by submitting an application to the Computer Engineering M.S. program, provided that at the end of junior year, the student was a UCR Computer Engineering B.S. student with cumulative GPA at least 3.4 and had completed the following courses with no grade less than a B- and average grade at least 3.2: CS 100, CS 120A, CS 161. The application to the M.S. program must include at least two recommendation letters from UCR Academic Senate faculty members (at least one,

and preferably both, CSE faculty). Submission of GRE scores with the application is recommended but not required. Matriculation into the combined program occurs in the Fall term following senior year, provided: (a) the M.S. application is accepted, (b) throughout senior year, the student is a Computer Engineering B.S. major with cumulative GPA 3.4 or higher, (c) by the end of senior year, the student completes the Computer Engineering B.S. degree requirements.

Incoming students who are applying to the Computer Engineering B.S. program may simultaneously apply for preliminary admission into the combined program provided their high school GPA is at least 3.6, their SAT-I combined score is at least 1950, they satisfy the Entry Level Writing requirement before matriculation, and they have sufficient math preparation to enroll in calculus upon arrival. Preliminary admission status is maintained as long as the student is a Computer Engineering or Computer Science B.S. student in good standing with a cumulative GPA of at least 3.4. Preliminarily admitted students still need to apply for full admission in their senior year as described above.

Five-year programs leading to M.S. degrees in other programs (including Computer Science) are also available. They are described separately in the catalog sections for those programs.

Thomas Stahovich, Ph.D. (Mechanical Engineering)
Sheldon Tan, Ph.D. (Electrical and Computer Engineering)
Daniel Wong, Ph.D. (Electrical and Computer Engineering)

Major

The Department of Computer Science and Engineering offers three majors at the undergraduate level. UCR's offerings of all three majors are unique compared to many schools in the emphasis on theoretical foundations and practical applications.

The **Computer Science** major stresses the study of core and advanced computer science topics. It prepares students for a large variety of careers in computing, including software engineering, networks, databases, graphics, algorithms, security, system analysis, and embedded systems.

The objective of the B.S. degree program in Computer Science is to prepare graduates for professional practice in both the private and public sectors and for life-long learning, including the option for graduate degrees, by providing them with:

- Background: the necessary technical competencies, including knowledge of scientific

principles and skill at rigorous analysis and creative design

- Breadth: a broad education that includes knowledge of current issues and trends in society and technology
- Professionalism: professional attitudes and ethics and skills for clear communication and responsible teamwork
- Learning environment: a learning environment that is rigorous, challenging, open, and supportive

The Computer Science B.S. degree program at UCR is accredited by the Computing Accreditation Commission of ABET, abet.org.

The **Computer Engineering** major stresses the study of core computer science and electrical engineering topics. It prepares students for careers in the design of complex systems involving computer hardware, computer software, electronics and electrical signals for communication, networking, desktop computing, and embedded computing. See Computer Engineering in this catalog.

The Computer Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org.

The **Computer Science with Business Applications** major covers the core of computer science and basic business and management topics. It prepares students for careers in design and management of computer and information systems, system and network administration, and e-commerce. It is also useful for careers that apply information technology to support business processes.

The objective of the B.S. degree program in Computer Science and Business Applications is to prepare graduates for professional practice in both the private and public sectors and for life-long learning, including the option for graduate degrees, by providing them with:

- Background: the necessary technical competencies, including knowledge of scientific principles and skill at rigorous analysis and creative design
- Breadth: a broad education that includes knowledge of current issues and trends in society and technology
- Professionalism: professional attitudes and ethics and skills for clear communication and responsible teamwork
- Learning environment: a learning environment that is rigorous, challenging, open, and supportive

All undergraduates in the College of Engineering must see an advisor at least annually. Visit student.engr.ucr.edu for details.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The **Computer Science** major uses the following major requirements toward the satisfaction of some of the college's Natural Sciences and Mathematics breadth requirements and one of the college's English Composition breadth

requirements.

1. ENGR 180W
2. MATH 008B or MATH 009A
3. PHYS 040A, PHYS 040B, PHYS 040C

The **Computer Science with Business Applications** major uses the following major requirements toward the satisfaction of the college's Social Sciences breadth requirements and one of the College's Natural Science and Mathematics breadth requirements.

1. ECON 002, ECON 003
2. MATH 008B or MATH 009A
3. SOC 150

Major Requirements

Computer Science Major

1. Lower-division requirements (61 units)

- a) ENGR 001-I
- b) CS 010, CS 012, CS 014, CS 061
- c) CS 011/MATH 011
- d) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 031
- e) PHYS 040A, PHYS 040B, PHYS 040C
- f) One course of 4 or more units in an engineering discipline outside the field of computer science to be selected in consultation with a faculty advisor. (Either a lower-division or an upper-division course may be used to satisfy this requirement.)

2. Upper-division requirements (78 units minimum)

- a) ENGR 101-I
- b) CS 100, CS 141, CS 150, CS 152, CS 153, CS 161, CS 179 (E-Z)
- c) CS 120A/EE 120A, CS 120B/EE 120B
- d) CS 111/MATH 111
- e) ENGR 180W
- f) STAT 155
- g) At least 28 units of technical electives to be chosen from an approved list of courses which currently includes CS 105, CS 122A, CS 122B, CS 130, CS 133, CS 134, CS 135, CS 145, CS 160, CS 162, CS 164, CS 165, CS 166, CS 167, CS 168, CS 169, CS 170, CS 171, CS 172, CS 175, CS 177, CS 179 (E-Z) (4 units maximum), CS 180, CS 181, CS 182, CS 183, CS 193 (4 units maximum), MATH 120, MATH 126, MATH 135A, MATH 135B, PHIL 124.

The technical electives selected must be distinct from those used to satisfy the requirements specified in 2.a)–f) above, with at least half of the units selected from Computer Science courses.

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Computer Science with Business Applications Major

1. Lower-division requirements (56 units)

- a) ENGR 001M
- b) BUS 020
- c) CS 010, CS 012 or CS 013, CS 014, CS 061
- d) CS 011/MATH 011
- e) ECON 002, ECON 003
- f) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, and MATH 031

2. Upper-division requirements (85 units)

- a) ENGR 101M
- b) BUS 103, BUS 104/STAT 104, BUS 106/ECON 134
- c) CS 100, CS 141, CS 153, CS 165
- d) At least two courses from CS 164, CS 166, CS 172, CS 180
- e) CS 111/MATH 111
- f) ENGR 180W
- g) SOC 150
- h) STAT 155
- i) Sixteen (16) units of upper-division Computer Science technical electives, which must be distinct from the courses used to satisfy the above major requirements. These 16 units may be chosen from those courses listed as upper-division requirements or technical electives for the Computer Science major. At least four courses must be in the Department of Computer Science and Engineering.
- j) Sixteen (16) units of Business Administration technical electives, including at least 8 units of courses listed in the Information Systems concentration within the Business Administration major. These 16 units must be distinct from the courses used to satisfy the above major requirements and may be chosen from any of the available Business Administration courses, with the following restrictions: no credit will be given for BUS 101, only one of BUS 171 and CS 180 can be taken for credit, only one of BUS 173 and CS 166 can be taken for credit, only one of BUS 175 and CS 164 can be taken for credit, and only one of BUS 125 and CS 177 can be taken for credit.

Students may petition for exceptions to the above degree requirements. Exceptions to Computer Science course requirements must be approved by the Computer Science and Engineering undergraduate advisor or chair.

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Minor in Computer Science

The minor in Computer Science is designed to enhance majors with limited computational theory or practice. As such, students with majors in Computer Engineering, Computer Science, Computer Science and Business Applications, and Mathematics (Computational Mathematics option) are not eligible.

Requirements for the minor in Computer Science are:

1. Lower-division courses: CS 010, CS 012,

CS 014, CS 061, CS 011/MATH 011, MATH 008B or MATH 009A, MATH 009B, MATH 009C

2. Core courses: CS 100, CS 111
3. Three elective courses, each of four or more units, such that:
 - a) Each is an upper-division requirement or a listed technical elective for the Computer Science major, excluding courses numbered 190-199
 - b) No course may be an upper-division requirement of the student's major
 - c) At least two courses must be in the Department of Computer Science and Engineering
4. All courses for the minor must be taken for a letter grade.

Note: Students with a minor in Computer Science must obtain approval from the undergraduate advisor in Computer Science and Engineering for a specific program of electives consistent with their career goals.

Graduate Program

The Department of Computer Science and Engineering offers the M.S. and Ph.D. degrees in Computer Science. General requirements are listed in the Graduate Studies section of this catalog. Specific requirements for each degree are described below.

Students enrolled prior to Fall 2008 can still follow the old Graduate Program.

Admission

All applicants must supply GRE General Test scores. The GRE subject test in Computer Science is recommended but not required. Applicants should have at least an undergraduate degree in computer science or a closely related field, but applicants who fail to meet this criterion may sometimes be admitted with deficiencies.

Prerequisite Material

Competence in the areas defined by the following UCR courses is essential to graduate study in computer science:

CS 141, CS 150, CS 152, CS 153, CS 161

A student who is deficient in any of these competency areas may be asked to complete the corresponding UCR course with a letter grade of at least B+, or to pass a challenge examination based on that course's final exam with a grade of at least B+. All such remedial work should be completed within the first year of graduate study, and in all cases the deficiency must be corrected before a student can enroll in any graduate course from the same specialty area.

Core Areas

Students have considerable flexibility in selecting specialty area(s) within the program. However, the following core areas introduce fundamental concepts and tools of general interest to all students.

1. Hardware design principles: CS 203 or CS 220.
2. Theoretical foundations: CS 215 or CS 218.
3. Software and systems: CS 201 or CS 202.

Major Specialty Areas

The department has active research programs in the following major specialty areas. A list of related graduate courses is provided for each area.

- A. **Algorithms, Bioinformatics, and Theory of Computation:** CS 215, CS 218, CS 234, CS 238
- B. **Computer Architecture, Embedded Systems, and CAD:** CS 203, CS 213, CS 220, CS 223, CS 217/EE 217, EE 213
- C. **Databases, Information Retrieval, Data Mining, and Machine Learning:** CS 205, CS 225, CS 226, CS 227, CS 229, CS 235, CS 236, CS 242
- D. **Operating Systems, Distributed Systems, and High Performance Computing:** CS 202, CS 211, CS 237, CS 253, CS 255
- E. **Computer Networks:** CS 204, CS 208, CS 237, CS 239, CS 240, CS 254, CS 255, CS 257
- F. **Programming Languages, Compilers, and Software Engineering:** CS 201, CS 206, CS 207, CS 246
- G. **Computer Graphics, Science Computing, and Human-Computer Interaction:** CS 210, CS 230, CS 231, CS 233, ME 230, ME 231

Master's Degree

The Department of Computer Science and Engineering offers the M.S. degree in Computer Science, after completion of the following degree requirements.

Course Requirements 48 quarter units of graduate or upper-division undergraduate courses are required. Students who have completed similar courses elsewhere may petition for a waiver of a required course or for substitution of an alternative course. For students interested in interdisciplinary research, individual study programs can be approved. All courses used to satisfy these requirements (with the exception of CS 297 and CS 299) must be taken for a letter grade. No course can be counted towards more than one category.

1. **Core Requirement (8 units).** Choose one course from two of the three Core Areas listed above, with no grade lower than B-.
2. **Breadth Requirement (8 units).** Two approved breadth courses chosen in such a way that together the core and breadth courses cover four different Major Specialty Areas (A to G).
3. **Electives (32 units).** Students have the option of completing their degree by taking a comprehensive exam, writing a thesis, or completing a project. Depending on the option selected, the electives that may be taken are:
 - a. **Comprehensive Examination Option.** For a student pursuing the M.S. degree, comprehensive examination option, the 32 elective units must include at least 16 units of approved graduate lecture courses. The remaining 16 units may include additional approved graduate lecture courses, up to 8 units of graduate seminars in CS 260–269, and up to 12 units of approved undergraduate technical electives. Research units (CS 297 or CS 299) may not be used to satisfy any

course requirements under this option.

- b. **Project Option.** A student pursuing the M.S. degree, project option, may include up to 4 units of Directed Research (CS 297) towards the elective requirement. Of the remaining 28 units, at least 12 units must be approved graduate lecture courses. The remaining 16 units may include additional approved graduate lecture courses, up to 8 units of graduate seminars in CS 260–269, and up to 12 units of approved undergraduate technical electives.
- c. **Thesis Option.** A student pursuing the M.S. degree, thesis option, may include up to 12 units of graduate research (CS 297 or CS 299) towards the elective unit requirement. Of the remaining 20 units, at least 4 units must be approved graduate lecture courses. The remaining 16 units may include additional approved graduate lecture courses, up to 8 units of graduate seminars in CS 260–269, and up to 8 units of approved undergraduate technical electives.

Capstone Experience

All students must complete a capstone experience that synthesizes and integrates the knowledge and skills obtained throughout the master's program, by either passing a comprehensive exam, writing a thesis, or completing a project. The Comprehensive Examination Option is the default option. If a student chooses the project or thesis option, it is the responsibility of the student to find a faculty member willing to supervise the master's project or thesis, to form the faculty examining committee, and to schedule the oral examination.

- a. **Comprehensive Examination Option** Students must pass a comprehensive examination administered by the Department of Computer Science and Engineering.
- b. **Project Option** Students must complete a research project under the guidance of a faculty member. The project will be approved by a committee of at least two faculty members and requires a presentation and written report.
- c. **Thesis Option** Students must submit a master's thesis in accordance with the general requirements of the university. The thesis is original research work, and it should demonstrate the student's ability to study a research area, identify an open problem, and make a research contribution. The thesis requires a presentation and must be approved by a committee of at least three faculty members.

Normative Time to Degree 2 years.

Combined B.S. + M.S. Five-Year Program

The college offers combined five year B.S. + M.S. programs designed to allow successful UCR Computer Science or Computer Engineering B.S. graduates to complete the Master of Science degree in Computer Science in one year, by allowing up to 12 credits of coursework taken as a UCR undergraduate to be counted towards the 32-unit elective requirements of the M.S. (The courses that can be double counted

are those that are eligible to be counted as technical electives in the B.S. requirements.)

A student may apply at the start of their senior year by submitting an application to the Computer Science M.S. program, provided that at the end of junior year, the student was a UCR Computer Science or Computer Engineering B.S. student with cumulative GPA at least 3.4 and had completed the following courses with no grade less than a B- and average grade at least 3.2: CS 100, CS 120A, CS 120B, CS 161. The application to the M.S. program must include at least two recommendation letters from UCR Academic Senate faculty members (at least one, and preferably both, CSE faculty). Submission of GRE scores with the application is recommended but not required. Matriculation into the combined program occurs in the Fall term following senior year, provided: (a) the M.S. application is accepted, (b) throughout senior year, the student is a Computer Science or Computer Engineering B.S. major with cumulative GPA 3.4 or higher, (c) by the end of senior year, the student completes the Computer Science or Computer Engineering B.S. degree requirements.

Incoming students who are applying to the Computer Science or Computer Engineering B.S. programs may simultaneously apply for preliminary admission into the combined program provided their high school GPA is at least 3.6, their SAT-I combined score is at least 1950, they satisfy the Entry Level Writing requirement before matriculation, and they have sufficient math preparation to enroll in calculus upon arrival. Preliminary admission status is maintained as long as the student is a Computer Science or Computer Engineering B.S. student in good standing with a cumulative GPA of at least 3.4. Preliminarily admitted students still need to apply for full admission in their senior year as described above.

Five-year programs leading to M.S. degrees in other programs (including Computer Engineering) are also available. They are described separately in the catalog sections for those programs.

Doctoral Degree

The Department of Computer Science and Engineering offers the Ph.D. degree in Computer Science, after completion of the following degree requirements. It provides a research-oriented education in preparation for a career in research, industry, or academia and exploring both the fundamental aspects of computer science and engineering as well as their applications.

Course Requirements

The course requirements for the Ph.D. degree ensure that Ph.D. students are exposed to fundamental concepts and tools (core requirement), a deep up-to-date view of their research specialty area (depth requirement), and an advanced, up-to-date view of the same topics outside their area (breadth requirement). Students are expected to complete all of these course requirements in the first two years of the program. These requirements consist of 44 quarter units of approved graduate or upper-division undergraduate courses, satisfying all four of the following course work categories. All of these courses must be taken for a letter grade, and no

course can be counted towards more than one category. Students who have completed similar courses elsewhere may petition for a waiver of a required course or for substitution of an alternative course.

Units obtained in CS 270, CS 287, CS 290, CS 297, CS 298, CS 299, CS 301, and CS 302 cannot be counted in any course work category.

1. **Core Requirement (12 units).** Choose three courses from at least two of the three Core Areas described above, with no grade lower than B- and an overall core course GPA of at least 3.2.
2. **Depth Requirement (8 units).** Choose two courses listed above under the same Major Area (A to G). This requirement ensures that Ph.D. students, early on in their careers, acquire some depth of knowledge in a particular research area.
3. **Breadth Requirement (12 units).** Choose three courses from at least two different Major Areas (A to G) outside the student's depth area. No course that is listed in the student's depth area can be used to fulfill the breadth requirement, even if it is cross-listed in another area. Students, with the consent of the major professor, may petition for a non-CSE course to be counted towards the breadth requirement.
4. **Electives (12 units).** The remaining courses can be selected from additional CS graduate lecture courses, up to 8 units of graduate seminars in CS 260-269, and up to 8 units of approved undergraduate technical electives. Students, with the consent of the major professor, may petition for a non-CSE course to be counted as an elective.

Milestones

The Department has established three milestones to mark progress towards the Ph.D. degree in Computer Science: advancement to candidacy, presentation of the dissertation proposal, and final oral examination. A Ph.D. student must also satisfy all applicable Graduate Division requirements for each milestone.

Milestone I: Advancement to Candidacy. A student advances to candidacy after he/she has completed all of the Ph.D. course requirements described above, and passed the combined written and oral qualifying examinations, as described below. These two exams are intended to verify three components of the student's preparation for Ph.D. research: (1) breadth of comprehension sufficient to enable Computer Science research in areas beyond the topic(s) of the research exam and dissertation; (2) ability to perform critical study, analysis and writing in a focused area; and (3) demonstrated research experience or ability to do research.

Written Qualifying Examination

The written qualifying examination consists of a written report summarizing the oral presentation to be given at the oral qualifying examination. This report must be written in proper technical English and in the style of a typical Computer Science conference or journal publication, and must be submitted to the Qualifying Committee for approval at least one week prior to the oral qualifying examination.

Oral Qualifying Examination

The student is expected to demonstrate research aptitude by undertaking a research study on some topic (typically a problem from student's chosen research specialty that may be a promising area in which to conduct the dissertation research), under the guidance of his or her faculty major professor. The research must be presented orally to a Qualifying Committee, which is appointed by the Graduate Division based on nominations from the department. The committee will consist of at least four Senate faculty members, with at least three members whose home department is CSE. The committee evaluates the merits of the work and the student's aptitude for research. The work must represent significant progress towards original and publishable research. The student must complete this requirement in no more than two attempts. The normative time for taking the Oral Qualifying Exam is by the end of the second year.

Dissertation Committee

After advancing to candidacy, the student must form a Doctoral Examination Committee chaired by his or her major professor. The committee will consist of at least four senate faculty members with at least three members belonging to the CSE department (their home department is CSE).

Milestone II: Dissertation Proposal Examination

After advancement to candidacy, the student prepares a dissertation proposal that describes the dissertation topic, summarizes the relevant background literature, and presents a comprehensive research plan for the doctoral dissertation. The Dissertation Proposal Examination evaluates appropriateness of the research topic and the feasibility of the research plan. It also establishes a realistic timeline for the completion of the Dissertation. The Dissertation Committee administers this exam. The normative time for the Dissertation Proposal Exam is by the end of the third year. The Dissertation Proposal exam must be taken at least six months prior to the Final Doctoral Examination.

Milestone III: Final Doctoral Examination

The student is required to write a dissertation in accordance with the Graduate Division requirements and may be required to defend it in a public oral final doctoral examination to the Dissertation Committee. After a satisfactory performance on the final doctoral examination, the Dissertation Committee recommends granting the Ph.D. degree. The student's research and the dissertation must both meet the highest standards of originality and scholarship.

The normative time for the completion of a Ph.D. in Computer Science is five years.

Professional Development Requirement

MS students must satisfactorily complete one of the following courses: one quarter of CS 287, GDIV 301, GDIV 403 or at least one unit of CS 298I. Other professional development courses may be used to satisfy this requirement if approved by the graduate advisor. PhD students must satisfactorily complete six quarters of CS287.

Lower-Division Courses

CS 005 Introduction to Computer

Programming 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. An introduction to computer programming for nonengineering and nonscience majors and for students considering taking CS 010 but needing additional preparation. Topics include the history of computing, basic computer operation, the notion of an algorithm, and programming constructs such as variables, expressions, input/output, branches, loops, functions, parameters, arrays, and strings. Credit is not awarded for CS 005 if it has already been awarded for CS 010.

CS 006 Effective Use of the World Wide

Web 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. A detailed introduction to the Internet. Covers Web tools, e-communities, e-commerce, power searching, and verification of information, privacy, and other legal and societal issues.

CS 008 Introduction to Computing 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. Includes operating system basics (Windows and Unix), word processing, spreadsheets, databases (e.g., Access), e-mail, the Internet, and the World Wide Web. Designed for students not majoring in computer science, engineering, mathematics, or science. Credit is not awarded for CS 008 if it has already been awarded for CS 010.

CS 009 (E-Z) Introduction to

Programming 4 Lecture, 3 hours. Prerequisite(s): MATH 009C. For hours and prerequisites, see segment descriptions. Introduces a variety of programming languages and their supporting libraries, and teaches how to solve problems by writing programs in these languages. Credit is awarded for one of the following CS 009 (E-Z), CS 009P, or CS 010.

CS 009M Introduction to Matlab 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): MATH 009C (may be taken concurrently); consent of instructor if credit has been awarded for CS 010. Examines fundamental programming concepts using the Matlab language including problem decomposition, control structures, elementary data structures, file input/output, graphics, and code libraries. Focuses on applications problems in engineering and science such as numerical equation solvers; matrix operations; searching and sorting; and data analysis. Emphasizes good programming style and computational efficiency. Credit is not awarded for CS 009M if it has already been awarded for CS 009P or CS 010.

CS 009P Introduction to Python Programming With Applications 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): a college mathematics course (may be taken concurrently) or credit for MATH 009A from the Advanced Placement Examination or the Mathematics Advisory Examination. Covers problem solving through structured programming of algorithms on computers using the Python language. Includes variables, expressions, input/output (I/O), branches, loops, functions, strings, lists, and use of common libraries. Also covers software design, testing, and debugging. Credit is not awarded for CS 009P if it has already been awarded for CS 009M or CS 010.

CS 010 Introduction to Computer Science

For Science, Mathematics, and Engineering

I 4 Lecture, 3 hours; Laboratory, 3 hours. Prerequisite(s): MATH 008B, may be taken concurrently or MATH 006B, may be taken concurrently or MATH 007A, may be taken concurrently or MATH 09HA, may be taken concurrently or MATH 008A, may be taken concurrently or MATH 005, may be taken concurrently or MATH 009A, may be taken concurrently; Covers problem solving through structured programming of algorithms on computers using the C++ object-oriented language. Includes variables, expressions, input/output (I/O), branches, loops, functions, parameters, arrays, strings, file I/O, and classes. Also covers software design, testing, and debugging. Credit is awarded for one of the following: CS 010, CS 009M, or CS 009P.

CS 011 Introduction to Discrete

Structures 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009A (or MATH 09HA); CS 010 or MATH 009B (or MATH 09HB). Introduction to basic concepts of discrete mathematics emphasizing applications to computer science. Topics include propositional and predicate calculi, elementary set theory, functions, relations, proof techniques, elements of number theory, enumeration, and discrete probability. Cross-listed with MATH 011.

CS 012 Introduction to Computer Science For Science, Mathematics, and Engineering

II 4 Lecture, 3 hours; Laboratory, 3 hours. Prerequisite(s): CS 010 with a grade of "C" or better; familiarity with C or C++ language. Covers structured and object-oriented programming in C++. Emphasizes good programming principles and development of substantial programs. Topics include recursion, pointers, linked lists, abstract data types, and libraries. Also covers software engineering principles. Credit is awarded for only one of CS 012 or CS 013.

CS 013 Introductory Computer Science

For Engineering Majors 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 010 with a grade of "C" or better; familiarity with C or C++ language. Covers structured and object-oriented programming in C++. Emphasizes good programming principles and development of substantial programs. Topics include recursion, pointers, linked lists, abstract data types, and libraries. Covers software engineering principles. Utilizes examples and assignments specific to engineering disciplines such as numerical data analysis, matrix computations, and dynamic systems. Credit is awarded for only one of CS 012 or CS 013.

CS 014 Introduction to Data Structures and Algorithms 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 012 with a grade of "C" or better; proficiency in C++. Topics include basic data structures such as arrays, lists, stacks, and queues. Covers dictionaries (including binary search trees and hashing) and priority queues (heaps). Offers an introductory analysis of algorithms, sorting algorithms, and object-oriented programming including abstract data types, inheritance, and polymorphism. Explores solving complex problems through structured software development.

CS 061 Machine Organization and Assembly

Language Programming 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 010 with a grade of "C" or better. An introduction to computer organization. Topics include number representation, combinational and sequential logic, computer instructions, memory organization, addressing modes, interrupt, input/output (I/O), assembly language programming, assemblers, and linkers.

Upper-Division Courses

CS 100 Software Construction 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 014 with a grade of "C-" or better. Emphasizes development of software systems. Topics include design and implementation strategies; selection and mastery of programming languages, environment tools, and development processes. Develops skill in programming, testing, debugging, performance evaluation, component integration, maintenance, and documentation. Covers professional and ethical responsibilities and the need to stay current with technology.

CS 105 Data Analysis Methods 4

Lecture, 3 hours; Laboratory, 3 hours. Prerequisite(s): CS 014. An introduction to fundamental concepts and methods in data analysis and visualization essential to a variety of data science tasks. Designed to provide preparation for the data science major (currently under development) and for advanced courses in data analysis and applications of data science.

CS 111 Discrete Structures 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 010; CS 011/MATH 011; MATH 009C (or MATH 09HC). A study of discrete mathematical structures emphasizing applications to computer science. Topics include asymptotic notation, generating functions, recurrence equations, elements of graph theory, trees, algebraic structures, and number theory.

CS 120A Logic Design 5

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CS 061 with a grade of "C-" or better. Covers design of digital systems. Includes Boolean algebra; combinational and sequential logic design; design and use of arithmetic logic units, carry-lookahead adders, multiplexors, decoders, comparators, multipliers, flip-flops, registers, and simple memories; state-machine design; and basic register-transfer level design. Uses hardware description languages, synthesis tools, programmable logic, and significant hardware prototyping. Cross-listed with EE 120A.

CS 120B Introduction to Embedded

Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 120A or CS 120A. Introduction to hardware and software design of digital computing systems embedded in electronic devices (e.g., digital cameras or portable video games). Includes embedded processor programming, custom processor design, standard peripherals, memories, interfacing, and hardware/software trade-offs. Involves use of synthesis tools, programmable logic, microcontrollers, and developing working embedded systems. Cross-listed with EE 120B.

CS 122A Intermediate Embedded and Real-Time Systems 5

Lecture, 3 hours; laboratory, 6 hours. Prerequisite(s): CS 012 or CS 013; CS 120B/EE 120B. Covers software and hardware design of embedded computing systems. Includes hardware and software codesign, advanced programming paradigms (including state machines and concurrent processes), real-time programming and operating systems, basic control systems, and modern chip and design technologies. Laboratories involve use of microcontrollers, embedded microprocessors, programmable logic and advanced simulation, and debug environments.

CS 122B Advanced Embedded and Real-Time Systems 5

Lecture, 3 hours; laboratory, 6 hours. Prerequisite(s): CS 122A. Explores state-of-the-art aspects of building embedded computer systems. Topics include real-time programming, synthesis of coprocessor cores, application-specific processors, hardware and software cosimulation and codesign, low-power design, reconfigurable computing, core-based design, and platform-based methodology.

CS 130 Computer Graphics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100, MATH 031 (MATH 031 may be taken concurrently); or consent of instructor. A study of the fundamentals of computer graphics necessary to design and build graphics applications. Examines raster graphics algorithms including scan-converting graphics primitives, anti-aliasing, and clipping. Also covers geometric transformations, viewing, solid modeling techniques, hidden-surface removal algorithms, color models, illumination, and shading.

CS 133 Computational Geometry 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100, CS 111, MATH 031, or equivalents. An introduction to the design of geometry algorithms. Covers the basic computational geometry concepts and techniques used in graphics, robotics, and engineering design. Topics include polygons and polytopes, convex hulls, and voronoi diagrams.

CS 135 Virtual Reality 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100. Covers the development of virtual reality (VR) worlds, including motion and physics of VR worlds. Includes design practices for immersive experiences, human visual perception, environmental and social interactions. Also includes positional tracking with sensors, augmented and mixed reality, and storage and transmission of virtual reality worlds.

CS 141 Intermediate Data Structures and Algorithms 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 014 with a grade of "C-" or better; CS 111; MATH 009C or MATH 09HC; proficiency in C++. Explores basic algorithm analysis using asymptotic notations, summation and recurrence relations, and algorithms and data structures for discrete structures including trees, strings, and graphs. Also covers general algorithm design techniques including "divide-and-conquer," the greedy method, and dynamic programming. Integrates knowledge of data structures, algorithms, and programming.

CS 145 Combinatorial Optimization

Algorithms 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 141; MATH 031 or MATH 131. The study of efficient algorithm design techniques for combinatorial optimization problems. Topics include shortest paths, minimum spanning trees, network flows, maximum matchings, stable matchings, linear programming, duality, two-person games, algorithmic techniques for integer programming problems, NP-completeness, and approximation algorithms.

CS 147 Graphics Processing Unit Computing and Programming 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 120B or CS 120B. Introduces principles and practices of programming graphics processing units (GPUs) using the parallel programming environment. Covers memory/threading models, common data-parallel programming patterns and libraries needed to develop high-performance parallel computing applications. Examines computational thinking; a broader range of parallel execution models; and parallel programming principles. Cross-listed with EE 147.

CS 150 Automata and Formal Languages 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 014 with a grade of "C-" or better; CS 111; MATH 009C (or MATH 09HC). A study of formal languages. Includes regular and context-free languages; computational models for generating these languages such as finite-state automata, pushdown automata, regular expressions, and context-free grammars; mathematical properties of the languages and models; and equivalence between the models. Also introduces Turing machines and decidability.

CS 152 Compiler Design 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 061, CS 100, CS 111, CS 150. Covers the fundamentals of compiler design. Includes lexical analysis, parsing, semantic analysis, compile-time memory organization, run-time memory organization, code generation, and compiler portability issues.

CS 153 Design of Operating Systems 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 061, CS 100, CS 111, C++ programming proficiency. Covers the principles and practice of operating system design. Includes concurrency, memory management, file systems, protection, security, command languages, scheduling, and system performance.

CS 160 Concurrent Programming and Parallel Systems 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 061, CS 100, CS 111. A study of concurrent and parallel systems. Topics include modular structure and design, interprocess communication, synchronization, failures, persistence, and concurrency control. Also covers atomic transactions, recovery, language support, distributed interprocess communication, and implementation mechanisms. Provides preparation for the study of operating systems, databases, and computer networking.

CS 161 Design and Architecture of Computer Systems 4 Lecture, 3 hours; discussion, 1

hour. Prerequisite(s): CS 120A/EE 120A. A study of the fundamentals of computer design. Topics include the performance evaluation of microprocessors; instruction set design and measurements of use; microprocessor implementation techniques including multicycle and pipelined implementations; computer arithmetic; memory hierarchy; and input/output (I/O) systems.

CS 161L Laboratory in Design and Architecture of Computer Systems 2

Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): CS 161 (may be taken concurrently). Covers the design and simulation of a complete computer system using hardware description language and simulator. Topics include instruction set architecture design; assemblers; datapath and control unit design; arithmetic and logic unit; memory and input/output (I/O) systems; and integration of all parts into a working computer system.

CS 162 Computer Architecture 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 161 with a grade of "C-" or better. The study of advanced processor design. Topics include CPU pipelining, data and control hazards, instruction-level parallelism, branch prediction, and dynamic scheduling of instructions. Also covers Very Long Instruction Word (VLIW) processing, multimedia support, design of network and embedded processors, basic multiprocessor design, shared memory and message passing, and network topologies.

CS 164 Computer Networks 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100, CS 111, CS 153. Covers the fundamentals of computer networks. Topics include layered network architecture, communication protocols, local area networks, UNIX network programming, verification, network security, and performance studies.

CS 165 Computer Security 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 141, CS 153. Examines the ways in which information systems are vulnerable to security breaches. Topics include attacks; security labels, lattices, and policies; safeguards and countermeasures; intrusion detection; authorization and encryption techniques; networks; digital signatures, certificates, and passwords; privacy issues, firewalls, and spoofing; Trojan horses and computer viruses; CERT Coordination Center; and electronic commerce.

CS 166 Database Management Systems 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100, CS 111. Covers architecture of database management systems; relational, network, and hierarchical models; distributed database concepts; query languages; implementation issues; and privacy and security of the database.

CS 167 Introduction to Big-Data Management 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100, CS 111; CS 167 online section: enrollment in the online Master-of-Science in Engineering program. Introduces the architecture of big-data systems and their applications in data management and processing. Describes the common functionality in big-data processing such as distributed

storage, resource management, query processing, fault-tolerance, and programming APIs. Covers the popular big-data technologies such as distributed shared-nothing systems, NoSQL processing model, and semi-structured data management.

CS 168 Introduction to Very Large Scale Integration (vlsi) Design 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 120A/EE 120A or consent of instructor. Studies integrated circuit fabrication, device characterization, and circuit simulation. Introduces basic device physics and physical design rules, MOS logic design, and timing and clock schemes. Covers layout generation, subsystem designs, and circuits for alternative logic styles. Also covers design and simulation using hardware description language and CAD tools. Cross-listed with EE 168.

CS 169 Mobile Wireless Networks 4 Lecture, 3 hours; laboratory, 2 hours; extra reading, 1 hour. Prerequisite(s): CS 153 or consent of instructor. Introduces the fundamentals of wireless and mobile networks. Covers wireless channel models, MAC protocols, and wireless network architectures. Also covers cellular, WLAN and ad hoc networks, and routing in multi-hop wireless networks. Includes wireless security and the impact of wireless links on TCP and other transport layer solutions.

CS 170 Introduction to Artificial Intelligence 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 100 with a grade of "C-" or better, CS 111. An introduction to the field of artificial intelligence. Focuses on discrete-valued problems. Covers heuristic search, problem representation, and classical planning. Also covers constraint satisfaction and logical inference.

CS 171 Introduction to Machine Learning and Data Mining 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 100, MATH 010A or MATH 031. Introduces formalisms and methods in data mining and machine learning. Topics include data representation, supervised learning, and classification. Covers regression and clustering. Also covers rule learning, function approximation, and margin-based methods.

CS 172 Introduction to Information Retrieval 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 100; CS 111; EE 114 or STAT 155. Introduces information retrieval (IR) principles and techniques for indexing and searching document collections. Topics include Web search, text processing, ranking algorithms, search in social networks, and search evaluation. Also studies scalability issues in search engines. Satisfactory (S) or No Credit (NC) grading is not available.

CS 173 Introduction to Natural Language Processing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 150, may be taken concurrently. An overview of modern approaches for natural language processing. Focuses on major algorithms used in NLP for various applications such as part-of-speech tagging, parsing, named entity recognition, coreference resolution, sentiment analysis, and machine translation.

CS 175 Entrepreneurship in Computing 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CS 100, junior or senior standing. Introduces business and technological concepts to create companies based on computer technology. Covers technical aspects of real world IT projects. Includes developing software and services; understanding user requirements; designating usable systems; technological assessment. Also covers market analysis and strategy; legal and intellectual property, ethics and communication business issues; financial analysis.

CS 177 Modeling and Simulation 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100, CS 111, C++ programming proficiency. Covers validation of random number sequences; concepts in modeling and systems analysis; and conceptual models and their mathematical and computer realizations. Examines simulation modeling techniques, including object-oriented modeling and discrete-event modeling. Emphasizes the use of simulation libraries used with programming languages such as C++.

CS 179 (E-Z) Project in Computer Science 4 Prerequisite(s): CS 100 with a grade of C- or better; CS 152 with a grade of C- or better; ENGR 180W. For hours and prerequisites, see segment descriptions. Under the direction of a faculty member, student teams propose, design, build, test, and document software and/or hardware devices or systems. Emphasizes professional and ethical responsibilities and the need to stay current on technology and its global impact on economics, society, and the environment.

CS 179E Project in Computer Science: Compilers 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 100 and CS 152 with grades of "C-" or better; ENGR 180W; 8 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and documentation of a compiler-related system. Incorporates techniques from previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179F Project in Computer Science: Operating Systems 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 153 with a grade of "C-" or better; ENGR 180W; 8 additional upper-division units in Computer Science. CS 160 is recommended. Covers the planning, design, implementation, testing, and documentation of an operating systems-related system. Incorporates techniques from previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179G Project in Computer Science: Database Systems 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 100 and CS 166 with grades of "C-" or better; ENGR 180W; 8 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and

documentation of a database-related system. Incorporates techniques from previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179I Project in Computer Science: Networks 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 100 and CS 164 with grades of "C-" or better; ENGR 180W; 8 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and documentation of a network-related system. Incorporates techniques from previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179J Project in Computer Science: Computer Architecture and Embedded Systems 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 100, CS 111, CS 120B/EE 120B, and CS 161 with grades of "C-" or better or consent of instructor; ENGR 180W; 3 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and documentation of a computer architecture and embedded systems-related system. Incorporates using techniques presented in previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179K Project in Computer Science: Software Engineering 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 180; ENGR 180W; 8 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and documentation of a software engineering-related system. Incorporates techniques presented in previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179M Project in Computer Science: Artificial Intelligence 4 Discussion, 1 hour; laboratory, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CS 100, CS 111, and CS 170 with grades of "C-" or better; ENGR 180W; 8 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and documentation of an artificial intelligence-related system. Incorporates techniques presented in previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 179N Project in Computer Science: Graphics and Electronic Games 4 Discussion, 1 hour; laboratory, 9 hours. Prerequisite(s): CS 130 with a grade of "C-" or better; ENGR 180W; 8 additional upper-division units in Computer Science. Covers the planning, design, implementation, testing, and documentation of a graphics- or electronic game-related system.

Incorporates using techniques presented in previous related courses. Emphasizes professional and ethical responsibilities; the need to stay current on technology; and its global impact on economics, society, and the environment.

CS 180 Introduction to Software

Engineering 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100. A study of software engineering techniques for the development, maintenance, and evolution of large software systems. Topics include requirements and specification; system design and implementation; debugging, testing, and quality assurance; reengineering; project management; software process; tools; and environments.

CS 181 Principles of Programming

Languages 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 061, CS 100, CS 111, CS 150. Covers the principles of programming language design. Includes the study and comparison of several programming languages, their features, and their implementations.

CS 182 Software Testing and

Verification 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 100. A study of modern techniques to assess the quality of software artifacts through functional, performance, and reliability testing. Introduces black box and white box testing techniques. Covers the application of modern testing tools to software units, components, subsystems, and entire systems. Also covers verification as a complementary technique to testing.

CS 183 Unix System Administration 4 Seminar, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 100. Explores the technical aspects of system administration on a Unix system, including advanced Unix. Includes managing system devices, operating system installation, communications, and networking.

CS 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum of 9 units.

CS 191 Seminar in Research Topics in

Computer Science and Engineering 1 Seminar, 1 hour. Prerequisite(s): upper division or graduate standing or consent of instructor. An introduction to the range of research topics and methods in Computer Science and Engineering and to the research opportunities available within the department. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 3 units.

CS 193 Design Project 1 to 4 Laboratory, 1 to 6 hours; scheduled research, 1 to 3 hours; individual study, 1 to 3 hours. Prerequisite(s): CS 141; consent of instructor. Individual hardware or software design project to include establishment of objectives and criteria, synthesis, analysis, implementation, testing, and documentation. Course is repeatable to a maximum of 8 units.

CS 194 Independent Reading 1 to

4 Prerequisite(s): consent of instructor. Independent reading in material not covered in course work. Normally taken in senior year. Total

credit for CS 194 may not exceed 8 units.

CS 198 Individual Internship in Computer Science 1 to 4

Internship, 3 to 12 hours. Prerequisite(s): upper-division standing; at least 12 units in Computer Science courses. An academic internship to provide the student with career experience as a computer scientist in a governmental, industrial, or research unit under the joint supervision of an off-campus sponsor and a faculty member in Computer Science. Each individual program must have the prior approval of both supervisors and the Department chair. A final written report is required. Course is repeatable to a maximum of 8 units.

Graduate Courses

CS 201 Compiler Construction 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 152. Covers theory of parsing and translation. Also addresses compiler construction including lexical analysis, syntax analysis, code generation, and optimization. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 202 Advanced Operating

Systems 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 153. Examines recent developments in operating systems. Also covers multiprogramming, parallel programming, time sharing, scheduling and resource allocation, and selected topics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 203 Advanced Computer

Architecture 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 161. Covers contemporary computer systems architecture including pipelined CPU design, instruction level parallelism (ILP), memory hierarchy, thread level parallelism, introduction to multiprocessing, and evaluation of computer performance. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 204 Advanced Computer

Networks 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 014 with a grade of C- or better, CS 164; graduate standing. Covers advanced topics in computer networks, layering, Integrated Services Digital Networks (ISDN), and high-speed networks. Also covers performance models and analysis, distributed systems and databases, and case studies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 205 Artificial Intelligence 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 170; or equivalent; graduate standing. Examines knowledge representation and automated reasoning and their use in capturing common sense and expert knowledge. Also addresses predicate and nonmonotonic logics; resolution and term rewriting; reasoning under uncertainty; theorem provers; planning systems; and belief networks. Includes topics in natural language processing, perception, logic programming, expert systems, and deductive databases. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 206 Testing and Verification Techniques

in Software Engineering 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): CS 141, CS 150, or equivalents; graduate standing. Introduces techniques to verify that software runtime behavior meets its specifications. Topics include model checking (safety, liveness, temporal logics, and abstraction); static and dynamic analysis (data flow analysis, concept analysis, program slicing, and invariant detection); testing (test generation, prioritization, suite reduction, and regression); and automated debugging (fault location and visualization). May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 207 Advanced Programming

Languages 4 Lecture, 3 hours; research, 1.5 hours; written work, 1.5 hours. Prerequisite(s): CS 152, CS 181, or equivalents. Introduces the techniques for analyzing program semantics and correctness. Covers simply-typed lambda calculus as well as basic and advanced type systems. Presents axiomatic, operational, and denotational semantics. Explores programming-language constructs and tools for specifying, reasoning, and verifying correctness properties. Includes safe memory accesses and safe concurrent programming or security. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 208 Cloud Computing and Cloud

Networking null Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 164, CS 153, or equivalent. Covers cloud computing concepts. Introduces operating system virtualization techniques enabling multi-tenant cloud computing. Study of operating system scheduling concepts, virtualization, cloud resource management, VM migration and security. Overview of data center networking, networking cloud data centers, virtual private clouds, replication, disaster recovery and green computing. Examination of commercial cloud platforms.

CS 210 Scientific Computing 4 Lecture, 4 hours. Prerequisite(s): CS 012, MATH 010A; MATH 031 or equivalent; or consent of instructor. Utilizes scientific computing in a specific computer science research area. Provides a foundation for pursuit of further studies of special topics in scientific computing. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 211 High Performance

Computing 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 161 or consent of instructor. Introduces performance optimization for sequential computer programs. Covers high performance computing on multicore shared memory computers and on distributed memory computing clusters. Also covers high performance scientific libraries and computing application development using pthreads, OpenMP, and Message Passing Interface (MPI) parallel file systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 213 Multiprocessor Architecture and

Programming 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 203 or consent of instructor. Introduces multi-processing, multicore architectures, and CC-NuMA multiprocessors.

Also covers heterogeneous multiprocessors and interconnection networks. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 215 Theory of Computation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 150. Covers phrase structure grammars and languages; Turing machines; relation of languages to automata; solvable and unsolvable problems; and theoretical limitations of computers. Also examines algorithmic complexity theory; polynomial reducibility; the classes P and NP; and correctness proofs. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 217 Gpu Architecture and Parallel Programming 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): CS 160 with a grade of "C-" or better or consent of instructor. Introduces the popular CUDA based parallel programming environments based on Nvidia GPUs. Covers the basic CUDA memory/threading models. Also covers the common data-parallel programming patterns needed to develop a high-performance parallel computing applications. Examines computational thinking; a broader range of parallel execution models; and parallel programming principles. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 217.

CS 218 Design and Analysis of Algorithms 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141. A study of efficient data structures and algorithms for solving problems from a variety of areas such as sorting, searching, selection, linear algebra, graph theory, and computational geometry. Also covers worst-case and average-case analysis using recurrence relations, generating functions, upper and lower bounds, and other methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 220 Synthesis of Digital Systems 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141, CS 161. Covers the synthesis and simulation of digital systems. Topics include synthesis at the system, behavioral, register-transfer, and logic levels; application-specific processors; simulation; and emerging system-on-a-chip design methodologies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 223 Reconfigurable Computing 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): CS 202 or CS 203; consent of instructor. Covers reconfigurable computing, a novel computational model that is fast becoming part of the mainstream in high-performance computing. Addresses architectures, software tools and compilers, programming models, and applications. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 225 Spatial Computing 4 Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduction to the spatial computing technologies and techniques. Covers the fundamentals, the present, and the emerging

use cases of spatial data analysis systems. Topics include spatial data modelling, spatial relationships, storage, indexing, query processing, and recent trends in the field. Includes a research-oriented project and hands-on experience on spatial technologies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 226 Big-Data Management 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): CS 166. Introduction to the architecture and design of big data management systems. Covers the design of distributed file systems and high-throughput databases. Description of popular programming paradigms for big data including MapReduce and Resilient Distributed Datasets. Includes a course project with hands-on experience on open-source big data systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 227 Probabilistic Models For Artificial Intelligence 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): CS 141, STAT 160A. Covers methods for representing and reasoning about probability distributions in complex domains. Focuses on graphical models and their extensions such as Bayesian networks, Markov networks, hidden Markov models, and dynamic Bayesian networks. Topics include algorithms for probabilistic inference, learning models from data, and decision making. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 229 Machine Learning 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 100, STAT 155. CS 229 online section; enrollment in the Online Master-in-Science in Engineering program A study of supervised machine learning that emphasizes discriminative methods. Covers the areas of regression and classification. Topics include linear methods, instance-based learning, neural networks, kernel machines, and additive models. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 230 Computer Graphics 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141 or CS 218; MATH 031 or MATH 131; graduate standing or consent of instructor. Covers advanced topics related to graphics and necessary fundamentals. Includes geometry representations; affine and perspective transforms; rendering with global illumination and other light models; shading and texture mapping; rasterization and anti-aliasing techniques; and hierarchical and keyframe animation. Also includes projects and/or in-depth programming assignments. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 231 Computer Animation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 130 or CS 230. Covers topics in computer animation including motion capture, inverse kinematics, and dynamic simulation. Also examines deformable systems and other natural phenomena, facial animation, high-level behavior control, creature evolution, and procedural techniques. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 233 Pen-Based Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor; computer programming experience Introduces computational techniques for pen-based user interfaces. Covers fundamental issues such as ink segmentation, sketch parsing, and shape recognition. Explores the topic of sketch understanding, including reasoning about context and correcting errors. Also addresses issues related to building practical pen-based systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ME 231.

CS 234 Computational Methods For Biomolecular Data 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 111; CS 141 or CS 218; STAT 155 or STAT 160A. A study of computational and statistical methods aimed at automatically analyzing, clustering, and classifying biomolecular data. Includes combinatorial algorithms for pattern discovery; hidden Markov models for sequence analysis; analysis of expression data; and prediction of the three-dimensional structure of RNA and proteins. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 235 Data Mining Techniques 4 Lecture, 3 hours; term paper, 1.5 hours; project, 1.5 hours. Prerequisite(s): CS 141, CS 166; CS 170 is recommended. CS 235 online section; enrollment in the online Master of Science in Engineering program. Provides students with a broad background in the design and use of data mining algorithms and tools. Includes clustering, classification, association rules mining, time series clustering, and Web mining. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 236 Database Management Systems 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141; CS 153 or equivalent; CS 166; or consent of instructor. Covers principles of file systems; architecture of database management systems; data models; and relational databases. Also examines logical and physical design of databases; hardware and software implementation of database systems; and distributed databases (e.g., query processing, concurrences, recovery). May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 237 Advanced Topics in Modeling and Simulation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 177. Covers formal computer simulation models such as Discrete Event Specified Models and differential equation models. Examines current developments in simulation languages. Also addresses integrated model development and its applications to complex, large-scale problems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 238 Algorithmic Techniques in Computational Biology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141 or CS 218. A study of fundamental algorithms for solving combinatorial or computational problems in molecular biology and genomics. Includes sequence alignment and multiple alignment; bio-database search; gene and regulatory signal

recognition; DNA sequence assembly; physical mapping; and reconstruction of evolutionary trees. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 239 Performance Evaluation of Computer Networks 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 164. Offers models and analytical techniques for evaluating the performance of computer networks. Covers basic and intermediate queuing theory and queuing networks and their application to practical systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 240 Network Routing 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141 or CS 204; CS 164. An in-depth study of routing in computer networks. Examines general principles and specific routing protocols and technologies. Topics include Internet, Asynchronous Transfer Mode (ATM), optical, wireless, and ad hoc networks. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 241 Advanced Topics in Network Measurements and Security 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 164 or equivalent. Introduces measuring and building real network systems. Includes hands-on measurement studies and tools. Covers fundamental mathematical and statistical tools; exposure to implementation studies and techniques; principles of network architectures; and challenges in building testbeds and conducting measurements. Explores measurements and modeling of wireline, ad hoc, sensor, and cellular networks. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 8 units.

CS 242 Information Retrieval and Web Search 4

Lecture, 3 hours; term paper, 1.5, hours; project, 1.5 hours. Prerequisite(s): CS 141, CS 166. CS 242 online section: enrollment in the online Master of Science in Engineering program. Introduces Information Retrieval (IR) principles and techniques for indexing and searching document collections with special emphasis on Web search. Includes text processing, ranking algorithms, search in social networks, search evaluation, and search engines scalability. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 246 Advanced Verification Techniques in Software Engineering 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 111, CS 141, CS 150, or equivalents or consent of instructor. A study of advanced techniques to specify and examine the correctness of complex systems and software. Focuses on concurrent and distributed behavior, formal description languages, temporal logics, model checking and symbolic model checking, partial order reduction, and the use of verification tools. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 253 Distributed Systems 4 Lecture, 3 hours;

research, 3 hours. Prerequisite(s): CS 153. Integrates the theory and practice of distributed systems with a focus on recent developments in distributed systems. Includes middleware architectures; distributed process management and real-time scheduling; dependability; and group communication protocols. Also covers distributed process management; replication; large-scale peer-to-peer systems; Internet content delivery; and Web caching. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 254 Network Security 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 165. Introduces the security problems in the networking domain, attacks and defenses, vulnerabilities in various network protocols. Topics include protocol security of DNS, TCP/IP, SSL/TLS, applied cryptography, network side channel attacks, firewalls, censorship technology, internet measurement. Guides students to conduct small-scale research projects. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable.

CS 255 Computer Security 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 153 or CS 164 or CS 165. Discusses the theoretical and practical issues arising in the context of computer systems security and the principles underlying the design of secure computing environments. Topics include cryptography, security models, authentication protocols, network security, intrusion detection, attacks and their countermeasures, and secure systems design. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 256 Modeling and Synthesis of Cyber-Physical Systems 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Introduces trends and challenges of modern cyber-physical systems. Reviews state-of-the-art design approaches and tools in both academia and industry. Introduces fundamental concepts in functional modeling, real-time embedded architecture, design synthesis and validation. Introduces emerging design principles and their applications in automotive, avionics, smart buildings, and consumer electronics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 258.

CS 257 Wireless Networks and Mobile Computing 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): CS 141; CS 164 or CS 204. Introduces basic and advanced concepts of wireless networks and mobile computing. Covers both wireless cellular and ad hoc networks. Includes protocols for medium access control, resource allocation, and routing, as well as transport layer optimizations for the wireless environment. Also covers standards, Bluetooth, and the IEEE 802.11 for wireless local area networks. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CS 260 Seminar in Computer Science 4

Seminar, 4 hours. Prerequisite(s): consent of instructor. Covers current research topics in computer science. May be taken

Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

CS 267 Seminar in Databases 4

Seminar, 4 hours. Prerequisite(s): CS 236 or consent of instructor. Focuses on recent research and development issues in the database area. Includes object-oriented databases, heterogeneous databases, parallel databases, benchmarks, transaction processing, query optimization, and performance evaluation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

CS 269 Software and Hardware Engineering of Embedded Systems 4

Seminar, 4 hours. Prerequisite(s): CS 120A/EE 120A; consent of instructor. Presents state-of-the-art software and hardware design techniques for embedded computing systems. Topics include specification models, languages, simulation, partitioning algorithms, estimation methods, model refinement, and design methodology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

CS 270 Special Topics in Advanced Computer Science 2

Seminar, 2 hours. Prerequisite(s): consent of instructor. Involves presentations and discussions by faculty and students that focus on new research in computer science. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CS 287 Colloquium in Computer Science 1

Colloquium, 1 hour. Prerequisite(s): graduate standing. Lecture on current research topics in computer science and topics relating to professional development presented by faculty members and visitors. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CS 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): consent of instructor. Special studies in computer science. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

CS 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Directed research on selected projects in computer science under the sponsorship of assigned faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CS 298I Individual Internship 1 to 12 Written Work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): graduate standing; consent of instructor. Individual apprenticeship in computer science. Includes fieldwork with an approved professional individual or organization and academic work under the direction of a faculty member. A final written report is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

CS 299 Research For Thesis Or Dissertation 1 to 12

Research, 3 to 36 hours. Prerequisite(s): graduate standing and consent of instructor. Research in computer science under the direction of a faculty member. To be included as part of the thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is

repeatable.

Professional Courses

CS 302 Apprentice Teaching 1 Activity, 3 hours. Prerequisite(s): enrollment limited to teaching assistants and associates in Computer Science Supervised teaching in upper- and lower-division Computer Science courses. Aids in the learning of effective teaching methods such as the handling of Computer Science discussion sections, preparation and grading of examinations, and student relations. Required each quarter of all Computer Science teaching assistants and associates. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

CONSERVATION BIOLOGY

Subject abbreviation: BLCN
College of Natural and Agricultural Sciences

Program Office, 1223 Pierce Hall
(951) 827-7294; ccb.ucr.edu

The major in Conservation Biology is not currently accepting new students. Students who are interested in this field should see the academic advisors at the CNAS Undergraduate Academic Advising Office, (951) 827-7294.

Upper-Division Courses

BLCN 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor and Program Chair. To be taken as a means of meeting special curricular needs. Course content, style, requirements, and grading basis is selected in consultation with the instructor and Program Chair. Course is repeatable to a maximum of 12 units.

BLCN 197 Research For Undergraduates 1 to 2 Research, 3 to 6 hours. Prerequisite(s): sophomore, junior, or senior standing in Conservation Biology; consent of instructor and Program Chair. An introduction to research providing the opportunity, through reading and preliminary laboratory work, to develop a research project suitable for BLCN 199. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

BLCN 198I Individual Internship in Conservation Biology 2 to 4 Internship, 6 to 12 hours; consultation, 1 hour; outside reading, 2 to 4 hours. Prerequisite(s): upper-division standing in Conservation Biology; consent of instructor and Program Chair. An off-campus practical experience in the public or private sector related to conservation biology that is conducted under the joint supervision of an off-campus sponsor and a faculty mentor from the Conservation Biology Program. A written report on the internship is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

BLCN 199 Senior Research 1 to 4 Laboratory, 3 to 12 hours. Prerequisite(s): junior or senior standing in Conservation Biology; consent of instructor and Program Chair. BLCN 197 is recommended. Research in conservation biology performed under the supervision of a faculty member in the Conservation Biology Program.

A written research report is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

CREATIVE WRITING

Subject abbreviation: CRWT
College of Humanities, Arts, and Social Sciences

Andrew Winer, M.F.A., Chair
Department Office, INTN 3033C
(951) 827-5424; creativewriting.ucr.edu

Professors

Reza Aslan, Ph.D.
Steve Erickson, M.A.
Katie Ford, M.F.A.
Allison Hedge Coke, M.F.A.
Nalo Hopkinson, M.A.
Laila Lalami, Ph.D.
Tom Lutz, Ph.D.
Jane Smiley, Ph.D.
Susan C. Straight, M.F.A.

Professors Emeriti

Mike Davis, C.Phil.
Juan Felipe Herrera, M.F.A.
Eliud Martínez, Ph.D.
Steve Minot, Ph.D.
Maurya Simon, M.F.A.
D. Chuck Whitney, Ph.D.

Associate Professors

Charmaine Craig, M.F.A.
Josh Emmons, M.F.A.
Michael Jayme, M.F.A.
Emily Rapp Black, M.F.A.
Allison Benis White, M.F.A.
Andrew Winer, M.F.A.

**

Lecturers

Sara Borjas, M.F.A.
Rachelle Cruz, M.F.A.
Joshua Hardina, M.F.A.
Goldberry Long, M.F.A.
Andrew Waddell, M.F.A.
Brandon Williams, M.F.A.

Major

The Creative Writing major offers a series of workshop courses in poetry, fiction, and nonfiction as well as reading courses in poetry, fiction, and nonfiction presented from a writer's point of view. They are taught for the most part by poets, fiction and nonfiction writers

The writing courses are taught as workshops, so that the subject matter (the students' stories and poems) is different each time the course is offered

Incoming freshmen and transfer students can apply for a Chancellor's Performance Award, for up to \$4,500. Contact the department office for more information.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in

Creative Writing are as follows:

Prerequisite courses: CRWT 056 or equivalent, and ENGL 001A or equivalent.

1. Lower-division requirements (20 units; five courses)

Two Creative Writing survey courses from CRWT 046S, CRWT 047S, or CRWT 048S, CRWT 046, CRWT 047 or CRWT 048

and

Two Creative Writing introductory courses from CRWT 057A, CRWT 057B, or CRWT 057C

and

One literature survey course from CRWT 012/ CPLT 012, CRWT 040, CRWT 041, CRWT 042, CRWT 043, CRWT 044, CRWT 045, CRWT 076, ENGL 014, ENGL 015, ENGL 017, CRWT 097H

2. Upper-division requirements (36 units)

a) Three workshop courses in primary genre:

Creative Nonfiction

CRWT 130, CRWT 132, CRWT 134

or

Poetry

CRWT 150, CRWT 160, CRWT 170

or

Fiction

CRWT 152, CRWT 162, CRWT 172

b) One workshop in second genre: CRWT 130, CRWT 132, CRWT 134, CRWT 150, CRWT 152, CRWT 160, CRWT 162*, CRWT 170*, CRWT 172*

*These workshops may be repeated; however, only 4 units total can be applied to the major.

c) One workshop in third genre: CRWT 130, CRWT 132, CRWT 134, CRWT 150, CRWT 152, CRWT 160, CRWT 162*, CRWT 170*, CRWT 172*

*These workshops may be repeated; however, only 4 units total can be applied to the major.

d) Three upper-division courses in Creative Writing: CRWT 136, CRWT 143, CRWT 146, CRWT 151, CRWT 155, CRWT 165, CRWT 171, CRWT 173, CRWT 174, CRWT 175, CRWT 176, CRWT 180, CRWT 182, CRWT 185, CRWT 187/CPLT 187, CRWT 191 (may be taken twice but used only once for major credit), CRWT 198I (may be taken only once, for 4 units)

e) Four (4) units of CRWT 195 or CRWT 195H (Senior Honors Thesis) or any upper division course in another subject area outside of Creative Writing

Minor

1. Lower-division requirements (12 units)

a) One introductory writing workshop: CRWT 056

b) One introductory reading course: CRWT 040, CRWT 043, CRWT 046S, CRWT 047S, CRWT 048S, CRWT 046, CRWT 047, or CRWT 048.

c) One introductory workshop course:

CRWT 057, CRWT 057B, CRWT 057C.

2. Upper-division requirements (20 units)

a) Four (4) units from

- (1) CRWT 176 (or)
- (2) Any upper-division course in English, Comparative Literature and Foreign Languages, or Theatre (except ENGL 101, ENGL 103; FREN 100, FREN 101A, FREN 101B, FREN 101C; GER 101, GER 103A, GER 103B; RUSN 103; SPN 101A, SPN 101B, SPN 101C, SPN 105, SPN 106A, SPN 106B)

b) Sixteen (16) units in one of the following emphases:

Nonfiction Emphasis

- (1) CRWT 130, CRWT 132, CRWT 134
- (2) Four (4) units from CRWT 150, CRWT 152, CRWT 164A/THEA 164A, CRWT 165, CRWT 166A/MCS 166A/TFDP 166A, CRWT 171, CRWT 187/CPLT 187

Poetry Emphasis

- (1) CRWT 150, CRWT 160, CRWT 170
- (2) Four (4) units from CRWT 130, CRWT 152, CRWT 164A/THEA 164A, CRWT 165, CRWT 166A/MCS 166A/TFDP 166A, CRWT 171, CRWT 187/CPLT 187

Fiction Emphasis

- (1) CRWT 152, CRWT 162, CRWT 172
- (2) Four (4) units from CRWT 130, CRWT 150, CRWT 164A/THEA 164A, CRWT 165, CRWT 166A/MCS 166A/TFDP 166A, CRWT 187/CPLT 187

Drama Emphasis

- (1) CRWT 164A/TFDP 164A, CRWT 164B/TFDP 164B, CRWT 164C/TFDP 164C

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

See Creative Writing and Writing for the Perform-

ing Arts in this catalog for more information on the M.F.A. in this area.

Lower-Division Courses

CRWT 012 The Writer in Writing 4 Lecture, 3 hours; written work, 2 hours; research, 1 hour. Prerequisite(s): none. Targeted at the fledgling creative writer and apprentice literary critic, surveys the complex legacy surrounding the figure of the writer in world literature. Discussion and weekly writing exercises demonstrate the use of brainstorming in creating and critiquing literature. Cross-listed with CPLT 012.

CRWT 040 Fiction and Film 4 Lecture, 3 hours; screening, 3 hours; practice writing, 1 hour. Prerequisite(s): none. A study of twentieth-century fiction and film from the writer's point of view. Emphasizes narrative elements and literary techniques found in both forms. Explores how novels are translated into film.

CRWT 041 Poetry and Fiction: A Reading Course For Writers 4 Lecture, 3 hours; creative imitation practice, 3 hours. Prerequisite(s): none. Active, analytical reading of contemporary poetry and fiction in order to broaden and deepen students' understanding of the craft of writing. Students analyze and practice poetic and fictional techniques.

CRWT 043 Creative Writing and Ancestry 4 Lecture, 3 hours; outside writing, 3 hours. Prerequisite(s): none. A study of creative writing that explores personal experience and ancestry. Genres studied may include nonfiction, autobiography, fiction, and visual media. Students are required to write in one or more of these genres.

CRWT 044 Ghosts, Gods, and Monsters: Children's Literature For Writers 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. A survey of children's literature, with emphasis on how the craft of tales and fables contributes to their meaning. Explores techniques the beginning writer can learn from children's literature.

CRWT 045 The Prose Poem and "Short-Short" Story 4 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): none. Explores what distinguishes prose poems from "sudden" or "short-short" fiction. Investigates the use of narrative and figurative language and the tapping of the unconscious mind.

CRWT 046 Craft of Writing: Survey in Contemporary Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. A survey of selected works of contemporary fiction and related texts. Emphasizes the craft of fiction and how craft contributes to meaning. Course is repeatable as content changes to a maximum of 8 units. Credit is not awarded for CRWT 046 if it has already been awarded to CRWT 046S if the content or topic is the same.

CRWT 046S Craft of Writing: Survey in Contemporary Fiction 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A survey of selected works of contemporary fiction and related texts. Emphasizes on the craft of fiction and how craft contributes to meaning. Course is repeatable as content changes to a

maximum of 8 units. Credit is not awarded for CRWT 046S if it has already been awarded to CRWT 046 if the content or topic is the same.

CRWT 047 Craft of Writing: Survey in Contemporary Poetry 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): none. A survey of selected works of contemporary fiction and related texts. Emphasizes on the craft of fiction and how craft contributes to meaning. Course is repeatable as content changes to a maximum of 8 units. Credit is not awarded for CRWT 047 if it has already been awarded to CRWT 047S if the content or topic is the same.

CRWT 047S Craft of Writing: Survey in Contemporary Poetry 4 Lecture, 3, hours; discussion, 1 hour. Prerequisite(s): none. A survey of selected works of contemporary fiction and related texts. Emphasizes on the craft of fiction and how craft contributes to meaning. Course is repeatable as content changes to a maximum of 8 units. Credit is not awarded for CRWT 047S if it has already been awarded to CRWT 047 if the content or topic is the same.

CRWT 056 Introduction to Creative Writing 4 Lecture, 1 hour; discussion, 1 hour. An introduction to the craft of creative writing. Focuses on the elements of a number of genres, including poetry, fiction, nonfiction, journalism, drama, and the graphic novel.

CRWT 057A Introduction to Fiction 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): CRWT 056, ENGL 001A. Introduction to the elements and the craft of fiction.

CRWT 057B Introduction to Poetry 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): CRWT 056 ENGL 001A. Introduction to the elements and craft of poetry.

CRWT 057C Introduction to Creative Nonfiction 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): CRWT 056, ENGL 001A. Introduction to the elements and craft of nonfiction.

CRWT 066 Screenwriting: How Movies Work 4 Lecture, 3 hours; discussion, 1 hour; screening, 8 hours per quarter. Prerequisite(s): none. An Introduction to writing for stage and screen. Addresses structure, character, dialogue, theme, and story. Cross-listed with MCS 066, and TFDP 066.

CRWT 076 The Verbal Coliseum: Spoken Word Workshop 5 Workshop, 3 hours; discussion, 1 hour; written work, 1 hour; extra reading, 2 hours. Explores forms and issues in contemporary spoken word poetics, including performance and writing, multimedia and audience, community relations, media culture and power, music and art, and cultural production. Course is repeatable to a maximum of 8 units.

Upper-Division Courses

CRWT 130 Beginning Creative Nonfiction 4 Workshop, 3 hours; extra reading, 3 hours. Prerequisite(s): two of the following courses: CRWT 057A, CRWT 057B, CRWT 057C. Introduction to creative nonfiction. Covers its history and strategies for writing and critically

evaluating creative nonfiction essays. Focuses on writing creative nonfiction essays based on personal experience. Includes readings in current nonfiction. Course is repeatable to a maximum of 8 units.

CRWT 132 Intermediate Creative

Nonfiction 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CRWT 056, CRWT 130; or consent of instructor. Reviews the essential strategies for writing and critically evaluating creative nonfiction essays. Focuses primarily on memoir, personal experience, and nature and science writing. Course is repeatable to a maximum of 8 units.

CRWT 134 Advanced Creative

Nonfiction 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CRWT 056, CRWT 130, CRWT 132; or consent of instructor. Explores strategies for writing and critical evaluating creative nonfiction essays. Focuses primarily on memoir, autobiography, history, and interview writing and how to work toward a sequence of longer work of nonfiction in that mode, as well as the "fact" or "immersion" essay. Course is repeatable to a maximum of 8 units.

CRWT 136 Professional Creative Nonfiction

Workshop 5 Workshop, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CRWT 056, CRWT 130, CRWT 132, CRWT 134; or consent of instructor. A workshop in creative nonfiction writing for students who want to study creative nonfiction at the graduate and professional level. Focuses on producing and polishing work and discusses the professional aspect of writing, such as submitting and publishing.

CRWT 146 Special Topics: Fiction 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): CRWT 056 or consent of instructor. Explores specific topics of style and craft in fiction. Course is repeatable as content changes to a maximum of 8 units.

CRWT 150 Beginning Poetry

Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): two of the following courses: CRWT 057A, CRWT 057B, CRWT 057C. Students write poetry which is analyzed by the class. Requires substantial original work and outside reading.

CRWT 152 Beginning Fiction

Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): two of the following courses: CRWT 057A, CRWT 057B, CRWT 057C. Students discuss and analyze outside texts and original work from the class. Requires substantial original work.

CRWT 155 The Graphic Novel 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): CRWT 046 (or CRWT 046S) or CRWT 047 (or CRWT 047S); CRWT 056; or consent of instructor. Explores the chronological development of the graphic novel. Focuses on theme, style, and artistic presentation. Course is repeatable as content changes to a maximum of 8 units.

CRWT 160 Intermediate Poetry

Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CRWT 056, CRWT 150; or consent of instructor. Students produce and

bring to class for analysis and commentary, a large quantity of original work in poetry. Course is repeatable to a maximum of 8 units.

CRWT 162 Intermediate Fiction

Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CRWT 056, CRWT 152; or consent of instructor. Class work consists of intensive analysis of students' work. Course is repeatable to a maximum of 8 units.

CRWT 164A Beginning Playwriting 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 056 or TFDP 100 or consent of instructor. Seminar in the practice of playwriting centering on the construction of a plot. Cross-listed with TFDP 164A.

CRWT 164B Intermediate

Playwriting 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 164A/TFDP 164A. Seminar in the practice of playwriting. Revisions of works in progress emphasizing character development and techniques for writing dialogue. Cross-listed with TFDP 164B.

CRWT 164C Advanced Playwriting 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 164B/TFDP 164B. Seminar in the practice of playwriting. Includes playwrights' participation in staged readings of their work. With consent of instructor, course is repeatable to a maximum of 8 units. Cross-listed with TFDP 164C.

CRWT 170 Advanced Poetry

Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CRWT 056, CRWT 150, CRWT 160; or consent of instructor. A workshop in poetry writing for students who wish to attempt, with criticism from class members, to fashion a significant long poem or group of poems. Course is repeatable.

CRWT 171 Anatomy of Poetry 4 Lecture, 3 hours; creative writing, 3 hours. Prerequisite(s): CRWT 160 or consent of instructor. An introductory study of poetics, including traditional and contemporary forms. Students write in the various poetic forms studied.

CRWT 172 Advanced Fiction

Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CRWT 056, CRWT 152, CRWT 162; or consent of instructor. A workshop in fiction writing for students who wish to attempt, with criticism from class members, to fashion a collection of stories or a novel. Course is repeatable.

CRWT 173 Prose Poem Workshop 4 Workshop, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores contemporary prose poetry. Studies the history of contemporary essays that define the mechanics and parameters of the prose poem. Requires substantial writing and critiquing. Course is repeatable as content changes to a maximum of 8 units.

CRWT 174 Issues in Journalism 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores issues in contemporary news media, including credibility and bias, press freedom and responsibility, press-government relations, media coverage of

politics, news media economics and influence on content, and race, gender, class, and news media. Course is repeatable to a maximum of 8 units.

CRWT 176 Topics in Craft of Writing 4 Lecture, 3 hours; extra reading, 1 hour; practice writing, 2 to 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers the formal study and practice of the craft of writing, its technical aspects, and development through the contemporary period in the genres of poetry, fiction, and non-fiction. Course is repeatable as content changes to a maximum of 12 units.

CRWT 182 Professional Fiction

Workshop 5 Workshop, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): CRWT 056, CRWT 152, CRWT 162, CRWT 172; or consent of instructor. A workshop in fiction writing for students who want to study fiction at the graduate and professional level. Focuses on producing and polishing work and discusses the professional aspect of writing, such as submitting and publishing.

CRWT 185 Special Topics in

Nonfiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores specific topics in non-fiction. Course is repeatable as content changes to a maximum of 8 units.

CRWT 186A Beginning Book Arts 4 Lecture, 1 hour; consultation, 1 hour; laboratory, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the elements of press operation. Using traditional letterpresses, students learn hands-on typesetting, design, material and text selection, editing, printing, and binding skills, as well as the history of the book and book design.

CRWT 186B Intermediate Book

Arts 4 Workshop, 1 hour; consultation, 1 hour; laboratory, 6 hours. Prerequisite(s): CRWT 186A; upper-division standing or consent of instructor. An expanded discussion of the techniques and styles in press operation. Students build on the techniques acquired in CRWT 186A and demonstrate finished projects.

CRWT 187 Metafiction 4 Lecture, 3 hours; creative writing, take-home midterm, or term paper, 30 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Covers postmodernism, metafiction, and the new novel in Europe and America. Creative writers submit fiction in lieu of a term paper or midterm. Cross-listed with CPLT 187.

CRWT 190 Special Studies 1 to

5 Prerequisite(s): To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable to a maximum of 16 units.

CRWT 195 Senior Thesis 4 Consultation, 1 hour; thesis, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): consent of department chair. Creation of a significant piece of work under faculty supervision. Project composed in the genres of poetry, fiction, or nonfiction.

CRWT 195H Senior Honors

Thesis 4 Consultation, 1 hour; research, 4 hours; extra reading, 3 hours; thesis, 4 hours.

Prerequisite(s): consent of Department Chair
The student works independently with a faculty member to prepare a project. For the Creative Writing major, the project may be a group of poems, a long poem, a group of short stories, a novel, or a part of a novel. For the Journalism minor, the project may be a news feature, an investigative article, or a similar story requiring significant endeavor in reporting and writing and demonstrating an understanding of sound journalistic technique.

CRWT 198I Individual Internship 1 to 12 Field, 2 hours per unit, Prerequisite(s): consent of instructor; upper-division standing. Work with an appropriate professional individual or organization to gain experience and skills in any form of writing which meets with the approval of the Creative Writing Chair (e.g., journalism, radio journalism). Letter grading or Satisfactory (S)/No Credit (NC). Course is repeatable to a maximum of 16 units.

Graduate Program

Master of Fine Arts

The Master of Fine Arts (M.F.A.) degree in Creative Writing and Writing for the Performing Arts (CWPA) offers writers the ability to move fluidly within various arenas of creative writing, including the genres of poetry, fiction, nonfiction, playwriting, and screenwriting, as well as in multimedia studies. The program integrates scholarly studies of narrative, style, voice, structure, and history of these writing disciplines with traditional workshop formats, forming writers who can actively direct the literature of the 21st century.

For students in the Main Campus

Traditional M.F.A. program, financial assistance may include teaching assistantships and fellowships, as well as fellowships for community projects through the Gluck Fellows Program of the Arts.

UCR Palm Desert Center (PDC)

An M.F.A. in Creative Writing and Writing for the Performing Arts is offered at UCR's Palm Desert Center, in the Low Residency program. Students in the Low Residency program can receive limited financial assistance through editorial positions on The Coachella Review, the student run literary journal of the program.

Palm Desert Low Residency Program

Students enroll in a prescribed number of units each term. Requirements are similar to the full-time program at UC Riverside, but courses are modified to fit low residency requirements. Low Residency MFA students come to Rancho Mirage, California for two ten-day sessions in the

Fall and Spring quarters that include lectures, seminars, workshops and readings (please refer to website palmdesertmfa.ucr.edu for specific dates). Students also attend a final thesis or manuscript residency their last quarter to file. Students also enroll in a one unit Professional Development Course during this quarter. During the rest of the academic year, students participate in online workshops and seminars and work individually with faculty. Cross-enrollment between programs is not allowed. Full time enrollment in this program is 8 units per quarter for 7 quarters, and students pay a per unit fee.

Admission

Applicants to either program should demonstrate significant professional skill by submitting in thesis or manuscript form one of the following: 10-15 pages of poetry, a maximum of 25 pages of fiction or nonfiction, or the first act or a maximum of 25 pages of a screen play or play. Applicants must have a B.A. or B.S. degree from an accredited institution and submit 3 letters of recommendation, a self-statement, and original transcripts. Applications for the Main Campus Traditional Program are accepted for Fall quarter only; applications for the Palm Desert Low Residency program are accepted for the Fall and Spring quarters.

Plan I (Thesis or Manuscript) Both M.F.A. programs (Main Campus and PDGC Low Residency)

require completion of a thesis or manuscript, the requirements of which are the same. Each student will decide which title - thesis or manuscript - best suits their work.

Main Campus Traditional Program

Consists of workshops in chosen genres, culminating in a final project (the master's thesis or manuscript) that showcases the writer's cultivated talents, in the form of a poetry collection, novel, memoir, screenplay, or full-length play. The M.F.A. requires students to major in one genre but encourages them to explore the other genres as well, allowing for creative movement within disciplines. Structure and focus in screenwriting and playwriting can also be applied to fiction and nonfiction, and lyricism and metaphor in poetry can also enhance description and dialogue in the other genres, for example. Students can also engage in course work in varied areas of directing and acting, in film history and literature, in literary criticism and translation, with supplemental courses selected from departments such as Comparative Literature and Foreign Languages, English, Hispanic Studies, and Media and Cultural Studies. Students can gain practical aspects of filmmaking from courses in Studio Art and Theatre.

Course Requirements

Minimum requirements consist of 56 units of course work (14 courses) and 8 units of master's thesis or manuscript project. The core curriculum includes the following:

1. Students in the Creative Writing Track (fiction, nonfiction and poetry) are required to take six workshop courses in their chosen genre. (24 units total). Students in the Writing for Performing Arts Track (playwriting and screenwriting) are required to take five workshop courses in

their chosen genre (20 units). Requisite courses include CWP 230 for nonfiction concentration; CWP 262 for fiction concentration; CWP 270 for poetry concentration; CWP 264, 266, 267, 268 or 269 for playwriting and screenwriting concentration.

2. Three graduate seminars from Creative Writing and Writing for the Performing Arts (12 units). Students may select from the following: CWP 200, 210, 214, 227, 231, 246, 250, 251, 252E, 252F, 252G, 252I, 252J, 252K, 253, 255, 256, 257, 260, 265A, 265B, 275, 276, 277, 278, 279, 281, 282, 285
3. One graduate seminar from any department outside of Theatre and Creative Writing. Seminar subject matter should be relevant to student's thesis or manuscript project. Requirement can be met with upper-division courses, with instructor and graduate advisor approval, as an appropriate 292 course (1 units).
4. Creative Writing track students will take four (16 units) electives and Writing for the Performing Arts track students will take five (20 units) electives in workshop, graduate seminar or thesis or manuscript, with the following limitations: Students may take a maximum of six workshops (24 units) within their chosen genre, and a maximum of 16 thesis or manuscript units within the normative time to degree (six terms). Students are encouraged to take seminars or cross-genre workshops, as available; elective thesis or manuscript units beyond the 8 required units must be approved by the student's thesis or manuscript advisor and graduate advisor. Students may select from CWP 200, 210, 214, 227, 230, 231, 246, 250, 252E, 252F, 252G, 252I, 252J, 252K, 253, 255, 256, 257, 260, 262, 264, 265A, 265B, 266, 267, 268, 269, 270, 275, 276, 277, 278, 279, 281, 282, 283, 284, 285, 288, 299 or seminars from departments outside of Theatre, Film, and Digital Production and Creative Writing.
5. The'sis or manuscript (8 units) In the areas of playwriting and screenwriting, the final written project is a full-length play of two or three acts (90-130 pages) or screenplay or teleplay (approximately 130 pages). In the areas of poetry, fiction, and nonfiction, the final written project is a poetry collection, novel, short story collection, or essay collection. Each student is paired with one or two faculty members who serve as thesis advisor(s). Two faculty readers, in addition to the advisor(s), evaluate the thesis work. The length of the final project breaks down as follows: Poetry 40 -65 pages, Fiction 100-150 pages, Creative Non-fiction 100 - 150 pages, screenplay, teleplay or play 90 -130 pages.

Normative Time to Degree Main campus: 6 quarters;

Professional Development Requirement

By completing the required workshops in their chosen genre, as well as thesis research units in CWP 299, students will fulfill professional development training by the end of their 6th quarter. Requisite courses include CWP 230

for nonfiction concentration; CWP 262 for fiction concentration; CWP 270 for poetry concentration; CWP 264, 266, 267, 268 or 269 for playwriting and screenwriting concentration.

Palm Desert Low Residency Program

Consists of workshops in chosen genres and course work culminating in a final project (the master's thesis or manuscript) which showcases the writer's cultivated talents, in the form of a poetry collection, novel, short story collection, essay collection, memoir, full-length work of non-fiction, screenplay, or full-length play. The M.F.A. requires students to write in two genres, allowing for creative movement within disciplines. Structure and focus in screenwriting and playwriting can also be applied to fiction and nonfiction, and lyricism and metaphor in poetry can also enhance description and dialogue in the other genres, for example. Students engage in course work in varied areas of directing and acting, in film history and literature, in literary criticism and translation. Requirements consist of 56 units of course work.

Course Requirements

1. Six low residency genre workshop courses.
2. Six low residency literature, poetry, and film seminars.
3. Six low residency cross genre workshops.
4. Thesis or manuscript. In the areas of playwriting and screenwriting, the final written project is a full-length play of two or three acts (90-120 pages) or screenplay or teleplay (approximately 120 pages). In the areas of poetry, fiction, and nonfiction, the final written project is a poetry collection (approximately 60 pages), novel, short story collection, essay collection, memoir or full-length nonfiction work (between 100-200 pages). Each student is paired with three faculty members who serve as the thesis advisor(s).
5. One unit Professional Fundamentals Course.

Normative Time to Degree 7 quarters

Creative Writing Program

Graduate Courses

CWLR 200 Professional

Fundamentals 1 Colloquium, .5 hours; consultation, .5 hours; practicum, .5 hours. Prerequisite(s): graduate standing. Focuses on professional development. Involves mechanics of industry queries, book proposals, contracts, rights, and agent interviews. Culminates in craft lecture during residency. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 2 units.

CWLR 201 (E-Z) Low Residency Seminar in

Literature, theatre, and Film 4 to 6 Seminar, 21 hours per quarter; activity, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. A study of a period, style, author, or issue in relation to literary, theatrical, or film history. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 202 (E-Z) Low Residency Seminar in

Literature, theatre, and Film 2 to 4 Seminar,

1 hour; extra reading, 3 hours. Prerequisite(s): graduate standing. A study of a period, style, author, or issue in relation to literary, theatrical, or film history. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 211 (E-Z) Low Residency Genre

Workshop 2 to 4 Activity, 3 hours; workshop, 10 hours per quarter. Prerequisite(s): graduate standing. Focuses on the production of original work. Involves study of chosen genre(s), emphasizing technique, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 212 (E-Z) Low Residency Genre

Workshop 4 to 6 Extra reading, 3 hours; workshop, 3 hours. Prerequisite(s): graduate standing. Focuses on the production of original work. Involves study of chosen genre(s), emphasizing techniques, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 221 (E-Z) Low Residency Cross-Genre

Workshop 2 to 4 Activity, 3 hours; workshop, 10 hours per quarter. Prerequisite(s): graduate standing. Focuses on the production of original work. Includes introductory study of chosen cross-genres. Emphasizes technique, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 222 (E-Z) Low Residency Cross-Genre

Workshop 2 to 4 Extra reading, 3 hours; workshop, 1 hour. Prerequisite(s): graduate standing. Focuses on the production of original work. Includes introductory study of chosen cross-genres. Emphasizes technique, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWPA 200 Advanced Play Analysis 4 Seminar, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. An analysis of dramatic structure from a sophisticated perspective. Covers strategies for dealing with openness, ambiguity, and metatheatricality. Also discusses text versus gratuitous elements, archetypes, motifs, and symbolism. Course is repeatable to a maximum of 12 units.

CWPA 201 The Writer's Life: Literary

Strategies and Structures 4 Seminar, 3 hours; extra reading, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores the artistic, practical, and professional aspects of life as a working novelist, poet, playwright, screenwriter, or essayist. Topics include publishing, literary journals, commercial magazines, the film industry, the theatre industry, agents, and overviews of genre and art.

CWPA 210 Literature and Improvisation: the Intersection of Culture and

Performance 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the literary and performative tools needed to construct original, language-based plays. Combines

improvisational performance with storytelling to challenge students to develop and explore the connectivity between cultural history, oral tradition passed on through personal narratives, and public discourse.

CWPA 214 Acting For Writers 4 Lecture, 2 hours; discussion, 2 hours; research, 2 hours. Prerequisite(s): CWPA 264 or CWPA 266. Examines the theory and practice of acting to enable writers to better understand how language reflects character, as well as how actors turn the written word into spoken language. Includes text work and improvisation. Credit is awarded for only one of CWPA 214 or TFDP 114.

CWPA 227 Theories of the Modern Theatre 4 Seminar, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the major theories underlying twentieth-century theatre practice. Emphasizes the wide range of styles in modern theatre, including realism, symbolism, expressionism, surrealism, absurdism, Epic Theatre, and Theatre of Cruelty.

CWPA 230 Creative Nonfiction 4 Workshop, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of program chair is required for students with credit for CWLR 211N, CWLR 212N, CWLR 221N, or CWLR 222N; A formal study of contemporary creative nonfiction. Emphasizes style, structure, and form. Focuses on the production of original work. Course is repeatable to a maximum of 36 units.

CWPA 231 Directing For Writers 4 Seminar, 3 hours; extra reading, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An examination of the theory and practice of directing for the stage. Enables writers to better understand how to produce their own work and to interact more effectively with directors.

CWPA 246 Special Topics in Fiction 4 Seminar, 3 hours; extra reading, 3 hours; term paper, 1 hour. Prerequisite(s): graduate standing. Explores various movements and themes in literature. Course is repeatable to a maximum of 24 units.

CWPA 250 Theory For Writers 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A survey of literary theory designed especially for creative writers. Focuses on aspects of various theories that might be useful for creative work. Involves a close reading of theoretical texts with a strong emphasis on issues of form.

CWPA 251 Hollywood and the Novel: the Transformation of Fiction Into Film 4 Lecture, 3 hours; screening, 1 hour; extra reading, 2 hours; research, 2 hours; written work, 1 hour. Prerequisite(s): graduate standing. Explores the transformation of novels into screenplays and films. Examines four novels and their corresponding screenplays and films. Focuses on differences in style, content, and format. Course is repeatable as content changes to a maximum of 8 units.

CWPA 252 (E-Z) Theory and Craft of Writing 4 Seminar, 3 hours; extra reading, 1 hour; research, 2 hours. Prerequisite(s):

graduate standing. Analyzes writing techniques, structures, and approaches to the craft in traditional, contemporary, and avant-garde literary works. E. James And Roth; F. Poetry; G. Nonfiction; I. Playwriting; J. Screenwriting; K. First Person; Course is repeatable to a maximum of 36 units.

CWPA 253 Stories as Collections 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing in Creative Writing and Writing for the Performing Arts. An analysis of the order, shape, and structure of story collections to aid in an appreciation of characters, conflicts, and themes. Course is repeatable as content changes to a maximum of 8 units..

CWPA 255 The Graphic Novel 4 Seminar, 3 hours ;studio, 3 hours; extra reading, 1.5 hours; research, 1.5 hours. Prerequisite(s): graduate standing. An in-depth consideration of the historical development and craft of graphic novels. Examines the intellectual, literary, and artistic evolution of this narrative form.

CWPA 256 Contemporary Literature of the Middle East 4 Seminar, 3 hours; extra reading, 3 hours; term paper, 1 hour. Prerequisite(s): graduate standing. An overview of contemporary literature from the Middle East. Proposes some of the ways in which the historical and cultural aspects of Islamic literature differ from that of Western culture. Includes English translations of works in Arabic, Persian, Turkish, Dari, and Urdu. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CWPA 257 The Sufis 4 Seminar, 3 hours; term paper, 2 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to sufism through an in-depth reading of the great Sufi poets. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with RLST 257.

CWPA 260 Shakespeare and Film 4 Seminar, 3 hours; research, 1 hour; screening, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the influence of Shakespeare on film from faithful adaptations to broad reinventions of his works. Compares Shakespeare in his period and the present; the wide range of movies that Shakespeare inspired; and how modern filmmakers deal with issues of language and structure.

CWPA 262 Fiction 4 Workshop, 3 hours; extra reading, 4 hours. Prerequisite(s): graduate standing or consent of instructor; consent of program chair is required for students with credit for CWLR 211F, CWLR 212F, CWLR 221F, or CWLR 222F. A formal study of contemporary fiction. Emphasizes style, structure, and form. Focuses on production of original work. Course is repeatable to a maximum of 36 units.

CWPA 263 Fiction Workshop 4 Workshop, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing. A comprehensive introduction to the craft of fiction writing. Develops fiction writing abilities and critiquing skills of the genre. Intended for students whose primary emphasis is not fiction. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CWPA 264 Playwriting 4 Workshop, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Intensive formal study of playwriting with emphasis on plot, character, theme, dialogue, and style. Course is repeatable.

CWPA 265A Four Forms 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Explores similarities and differences of three kinds of creative writing: fiction, playwriting, and screenwriting. Includes participation in live staging and video shoots, translating stories from one form to another to highlight the unique qualities of each form as well as areas of commonality. Course is repeatable.

CWPA 265B Four Forms 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): CWPA 265A; graduate standing. Includes adaption of a one-act play into a screenplay not longer than 15 pages. Demonstrates how to develop work dependent on dialogue into work dependent on visuals and action. Covers shooting, editing, and screening of short films. Course is repeatable.

CWPA 266 Screenwriting 4 Workshop, 3 hours; consultation, 1 hour; screening, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Involves outline and completion of an initial draft of a feature-length screenplay. Also includes a comparison study of two movies in the same genre. Course is repeatable.

CWPA 267 Writing For Television 4 Workshop, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor; consent of program chair is required for students with credit for CWLR 211S, CWLR 212S, CWLR 221S, or CWLR 222S. Provides intensive formal study of writing for television. Emphasizes creating guidelines for a one-hour pilot and a 13-episode series. Course is repeatable to a maximum of 24 units.

CWPA 268 Writing the Half-Hour Television Comedy 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): graduate or professional standing or written consent of instructor. Introduction to the style, form, content, and creation of a half-hour television comedy series. Course is repeatable to a maximum of 8 units.

CWPA 269 Rewriting the Script 4 Workshop, 4 hours. Prerequisite(s): CWPA 264 or CWPA 266 or consent of instructor; consent of instructor is required for students repeating the course. Addresses the processes involved in rewriting a full-length script (screenplay or play). Credit is awarded for only one of CWPA 269 or TFDP 169.

CWPA 270 Poetry Workshop 4 Workshop, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive formal study of contemporary poetry with emphasis on style, structure, and form. Focuses on production of original work. Course is repeatable to a maximum of 36 units.

CWPA 275 Modern American Poetry 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): graduate standing. Focuses on various modern poets. Explores their contributions to the evolution of an American poetic tradition and aesthetic. May be taken Satisfactory (S) or No Credit (NC) with consent

of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 8 units.

CWPA 276 Poetry and Translation 4 Workshop, 3 hours; extra reading, 1.5 hours; research, 1.5 hours. Prerequisite(s): graduate standing; reading proficiency in Spanish. Discusses the efficacy and difficulty of translating poetry from the Spanish language into English. Explores the works of twentieth- and twenty-first century major Spanish language poets. Provides a forum to render and compare translations. Cross-listed with SPN 277.

CWPA 277 Poetry and the Sacred 4 Seminar, 2 hours; extra reading, 2 hours; research, 2 hours; written work, 2 hours. Prerequisite(s): graduate standing. An in-depth introduction to sacred poetic texts from antiquity to the present. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CWPA 278 Contemporary American Poetry 4 Workshop, 3 hours; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): graduate standing. Focuses on influential contemporary American poets. Discusses their styles and the evolution of poetry over the last fifty years. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 8 units.

CWPA 279 The Fire This Time: Twentieth-Century Poetry of Witness 4 Seminar, 3 hours; extra reading, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing. Examines the poetry of crises and witness written by poets in the twentieth and twenty-first centuries from America and around the world. Topics may include war; genocide; religious, ethnic, and political persecution; exile; imprisonment; ecological degradation; and domestic and urban violence in the United States.

CWPA 280 Writers' Colloquium 1 Colloquium, 1 hour. Prerequisite(s): graduate standing. Colloquia featuring writers in fiction, nonfiction, poetry, playwriting, and screenwriting. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 6 units.

CWPA 281 Oscar Wilde and Late Victorian Theatre 4 Seminar, 4 hours. Prerequisite(s): graduate standing or consent of instructor. A study of late Victorian theatre and culture through the works of Oscar Wilde (1854-1900), an Irish, feminist, aesthete, socialist, homosexual Victorian author. Includes readings of Wilde's plays and nondramatic writings as well as plays by contemporaries such as Ibsen and Shaw.

CWPA 282 Film Noir: Stories and Cinema From the Shadows 4 Seminar, 2 hours; screening, 2 hours; research, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the genre of fiction and cinema known as "film noir." Looks at films, writing, and art to understand how "film noir" reshapes the way America looks at itself. Each week examines a different aspect of the genre, combining readings and films to understand its roots and rules.

CWPA 283 Multigenre Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A peer-review workshop for students with ongoing projects in any and all genres. Focuses on student work that can profit from exposure to readings by people working in a number of different genres. Course is repeatable to a maximum of 16 units.

CWPA 284 Intensive Workshop 1 to 2 Workshop, 10 to 12 hours per quarter; discussion, 10 to 12 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. Explores the work of contemporary writers and provides an opportunity for those same writers to respond to the students' work. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

CWPA 285 The Literary Memoir 4 Workshop, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. An in-depth survey of the literary memoir. Explores how memoirists employ craft and memory to create meaning. Addresses what obligation memoirists have to drama and to real lives and places. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

CWPA 288 Thesis/Manuscript Workshop 4 Workshop, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Designed for M.F.A. students working on their thesis or manuscript, usually in the last two quarters of the program. Open to any and all genres. Focuses on student work, emphasizing the completion of thesis and manuscript projects.

CWPA 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Literature studies directed by a faculty member on special topics. Course is repeatable.

CWPA 292 Concurrent Analytical Studies in Creative Writing and Writing For the Performing Arts 1 to 4 Research, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Taken concurrently with a 100-series course but on an individual basis. Devoted to research, criticism, and written work related to the 100-series course. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

CWPA 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Develops a creative writing project with possibility of publication or production, and not specifically intended for thesis, final project manuscript, or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

CWPA 299 Research For the Thesis Or Manuscript 1 to 12 Thesis, 3 to 36 hours. Prerequisite(s): consent of thesis or manuscript director. Research and preparation for the Master of Fine Arts thesis or manuscript. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 24 units.

Professional Courses

CWPA 301 Directed Studies in the Teaching of Creative Writing and Writing For the Performing Arts 4 Lecture, 2 hours; practicum, 1 hour; research, 2 hours; written work, 3 hours. Prerequisite(s): enrollment in the M.F.A. program in Creative Writing and Writing for the Performing Arts. Prepares for teaching introductory undergraduate Creative Writing courses by offering a flexible curriculum of meetings and conferences on effective pedagogical methodology. Includes creating course syllabi and lesson plans and discussing a range of practical teaching issues. Required of all TAs for at least one quarter. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

CWPA 302 Teaching Practicum 1 to 4 Consultation, 1 to 4 hours; practicum, 2 to 8 hours. Prerequisite(s): graduate standing. Supervised teaching in undergraduate Creative Writing courses. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PALM DESERT LOW RESIDENCY PROGRAM

Graduate Courses

See also graduate courses in the Theatre, Film and Digital Production section of this catalog.

CWLR 200 Professional Fundamentals 1 Colloquium, .5 hours; consultation, .5 hours; practicum, .5 hours. Prerequisite(s): graduate standing. Focuses on professional development. Involves mechanics of industry queries, book proposals, contracts, rights, and agent interviews. Culminates in craft lecture during residency. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 2 units.

CWLR 201 (E-Z) Low Residency Seminar in Literature, theatre, and Film 4 to 6 Seminar, 21 hours per quarter; activity, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. A study of a period, style, author, or issue in relation to literary, theatrical, or film history. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 202 (E-Z) Low Residency Seminar in Literature, theatre, and Film 2 to 4 Seminar, 1 hour; extra reading, 3 hours. Prerequisite(s): graduate standing. A study of a period, style, author, or issue in relation to literary, theatrical, or film history. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 211 (E-Z) Low Residency Genre

Workshop 2 to 4 Activity, 3 hours; workshop, 10 hours per quarter. Prerequisite(s): graduate standing. Focuses on the production of original work. Involves study of chosen genre(s), emphasizing technique, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 212 (E-Z) Low Residency Genre

Workshop 4 to 6 Extra reading, 3 hours; workshop, 3 hours. Prerequisite(s): graduate standing. Focuses on the production of original work. Involves study of chosen genre(s), emphasizing techniques, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 221 (E-Z) Low Residency Cross-Genre

Workshop 2 to 4 Activity, 3 hours; workshop, 10 hours per quarter. Prerequisite(s): graduate standing. Focuses on the production of original work. Includes introductory study of chosen cross-genres. Emphasizes technique, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

CWLR 222 (E-Z) Low Residency Cross-Genre

Workshop 2 to 4 Extra reading, 3 hours; workshop, 1 hour. Prerequisite(s): graduate standing. Focuses on the production of original work. Includes introductory study of chosen cross-genres. Emphasizes technique, structure, style, and form. F. Fiction; N. Nonfiction; P. Poetry; S. Screenwriting; T. Playwriting; Course is repeatable.

Marina Magalhaes

Major

The Dance major is distinctive for its outstanding faculty of nationally and internationally recognized artists and scholars who draw from a variety of creative and academic backgrounds, including choreography, visual art, creative writing, literature, African diasporic ritual cultures, Hip Hop and streetdance, Indian diasporic dance, Indigenous studies, performance studies, queer studies and cultural studies.

The B.A. degree in Dance focuses on dance making and the cultivation of cultural and historical perspectives on dance. Movement practice, dance composition, performance, and critical dance studies courses are required. Elective courses are also required. Movement practice courses are offered in a variety of dance/movement forms. Dance majors choose an emphasis in Dance Making or Dance Studies. Majors have the option to participate in "UCR is Dancing," the department's annual annual concert series featuring original choreography and performance projects by students.

In addition, visiting professional dancers, choreographers, and scholars come to UCR frequently to give special workshops, master classes, and lectures.

Opportunities to perform include "UCR is Dancing," MFA students' final projects, and the Gluck Fellows Arts Outreach Touring programs.

Dance majors are eligible for the Chancellor's Performance Award, a scholarship of up to

\$2,000. Student assistantships and other forms of financial aid are also available. Undergraduate majors may apply for research grants and stipends for summer dance studies. Selected students receive \$1,000 Maxwell H. Gluck Fellowships.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The Dance major focuses on two broad areas of study: Dance Making and Dance Studies. After completing a number of shared required courses, Dance majors will choose an emphasis in either Dance Making or Dance Studies and complete a Capstone Research Seminar.

1. Lower-division requirements (8 units): DNCE 014, DNCE 019

2. Dance Making (12 units): Three courses from DNCE 115E, DNCE 115F, DNCE 115G or DNCE 115J

3. Dance Studies: (8 units), 2 courses from the following: DNCE 131/GSST 127, DNCE 132, DNCE 133, DNCE 134, DNCE 135

4. Production: DNCE 140

5. Movement Practice (up to 24 units)

Dance majors must enroll in at least one movement practice course per quarter, and must pursue a concentration in two different dance genres of at least 6 units each. Up to 24 units may be counted towards the major from:

a) DNCE 066A, DNCE 066B (West African Dance)

b) DNCE 067A, DNCE 067B, DNCE 067C (Modern Technique)

c) DNCE 068 (Somatics)

d) DNCE 069A, DNCE 069B (18th Century Dance)

e) DNCE 070A, DNCE 070B, DNCE 070C (Hip Hop Dance)

f) DNCE 071A, DNCE 071B (Ballet)

g) DNCE 073A, DNCE 073B (Jazz Dance)

h) DNCE 074A, DNCE 074B (Yoga for Dancers)

i) DNCE 075A, DNCE 075B (Dance Techniques and Practices)

j) DNCE 081, DNCE 181 (Dance Cultures, Culture in Dance)

Dance Making Emphasis:

1. Eight units from Dance Making/Practice Electives:

DNCE 167, DNCE 168, DNCE 180(E-Z), DNCE 181*, or any DNCE 115(E-Z) not used to fulfill requirement #2 above.

No more than 4 units may be drawn from the following movement practice courses to fulfill this eight unit elective requirement:

DNCE 066A, DNCE 066B, DNCE 067A, DNCE 067B, DNCE 067C, DNCE 068, DNCE 069A, DNCE 069B, DNCE 070A,

DNCE 070B, DNCE 070C, DNCE 071A, DNCE 071B, DNCE 073A, DNCE 073B, DNCE 074A, DNCE 074B, DNCE 075A, DNCE 075B, DNCE 081*

2. Four units from Dance Studies Electives: DNCE 155(E-Z), DNCE 161/MCS 161, DNCE 162/MCS 162, DNCE 171(E-Z)/MCS 151(E-Z), DNCE 172(E-Z), DNCE 173(E-Z), DNCE 181* or any of DNCE 131/GSST 127, DNCE 132, DNCE 133, DNCE 134, DNCE 135, DNCE 136 not used to fulfill requirement #3 above,

*DNCE 081 and 181 may be used to fulfill either the Dance Making or the Dance Studies requirement, but not both.

3. Dance Making Capstone:

a) DNCE 188

b) DNCE 189E

Dance Studies Emphasis:

1. Eight units from Dance Studies Electives: DNCE 155(E-Z), DNCE 161/MCS 161, DNCE 162/MCS 162, DNCE 171(E-Z)/MCS 151(E-Z), DNCE 172(E-Z), DNCE 173(E-Z), DNCE 181* or any of DNCE 131/GSST 127, DNCE 132, DNCE 133, DNCE 134, DNCE 135, DNCE 136 not used to fulfill requirement #3 above,

2. Four units from Dance Making/Practice Electives:

DNCE 066A, DNCE 066B, DNCE 067A, DNCE 067B, DNCE 067C, DNCE 068, DNCE 069A, DNCE 069B, DNCE 070A, DNCE 070B, DNCE 070C, DNCE 071A, DNCE 071B, DNCE 073A, DNCE 073B, DNCE 074A, DNCE 074B, DNCE 075A, DNCE 075B, DNCE 081*, or any DNCE 115(E-Z) not used to fulfill #2 above.

*DNCE 081 and 181 may be used to fulfill either the Dance Making or the Dance Studies requirement, but not both.

3. Dance Studies Capstone: DNCE 189F

Minor

Students who minor in Dance receive introductions to choreography, movement practices, and critical dance studies that enable them to pursue upper-division courses germane to a particular focus in dance.

1. Lower-division preparation (14 units)

a) DNCE 014, DNCE 019

b) Six (6) units from movement practice courses: DNCE 066A, DNCE 066B, DNCE 067A, DNCE 067B, DNCE 067C, DNCE 068, DNCE 069A, DNCE 069B, DNCE 070A, DNCE 070B, DNCE 070C, DNCE 071A, DNCE 071B, DNCE 073A, DNCE 073B, DNCE 074A, DNCE 074B, DNCE 075A, DNCE 075B, DNCE 081

2. Upper-division requirements (16 units):

4 courses from DNCE 114A, DNCE 114B, DNCE 114C, DNCE 115E-Z, DNCE 131/GSST 127, DNCE 132, DNCE 133, DNCE 134, DNCE 135, DNCE 136, DNCE 140, DNCE 155 (E-Z)/MUS 155 (E-Z), DNCE 161/MCS 161, DNCE 162/MCS 162, DNCE 171 (E-Z), DNCE 172 (E-Z), DNCE 173 (E-Z), DNCE 180 (E-Z), DNCE 181

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and

Programs section of this catalog for additional information on minors.

Graduate Program

The Department of Dance offers a Master of Arts (M.A.) in Critical Dance Studies, a Master of Fine Arts (M.F.A.) in Experimental Choreography, and a Ph.D. in Critical Dance Studies.

Master's Degrees

M.A. in Critical Dance Studies

Admission

Students gaining admission to the Ph.D. program in Critical Dance Studies may, after advisement and with the approval of the faculty committee, elect to pursue an M.A. degree in Critical Dance Studies.

Plan I (Thesis)

Students must complete a minimum of 36 quarter units of undergraduate (100 series) and graduate (200 series) courses. At least 24 of these units must be in graduate courses and must include the following UCR courses:

- DNCE 239 (Introduction to Graduate Study of Dance)
- DNCE 254 (Political Approaches to Dance Studies)
- DNCE 255 (Historical Approaches to Dance Studies)
- DNCE 257 (Rhetorical Approaches to Dance Studies)
- DNCE 258 (Cultural Approaches to Dance Studies)

A maximum of 12 units of DNCE 299 (thesis research) can be counted towards the 36-unit minimum. Other courses (to fulfill the 36-unit requirement) should be selected, with the consent of the program graduate advisor, from relevant upper-division and graduate courses. The units must be taken for a letter grade and can include, but are not limited to: DNCE 200-level seminar courses (DNCE 239-244; 254-255; 257-258; 260 (E-Z); 264-265 (E-Z); 267); DNCE 280; an upper-division undergraduate-level course paired with 2 units of 292 (Concurrent Analysis).

Candidates for the degree must prepare and present an acceptable thesis to the Department of Dance.

M.F.A. in Experimental Choreography

The Master of Fine Arts (M.F.A.) program in Experimental Choreography constructs opportunities for highly motivated choreographers and dance artists to conduct both research in dance and an assessment of contemporary issues in dance aesthetics, history, and culture. The focus of this program is the development of experimental choreography that challenges cultural assumptions and is informed by a critical and reflective perspective. Core courses focus on what constitutes an experiment in contemporary dance, improvising choreography, systems of representation used to create choreographic meaning, and the collaborative process. Through close cooperation with the Ph.D. program in Critical Dance Studies, students explore the dynamic relationships between theory, method, and object of study. A final project demonstrates a thorough investigation and committed execution of a defined choreographic problem. Finan-

cial assistance includes teaching assistantships and fellowships for community projects through the Gluck Fellows Program of the Arts.

Admission

Applicants to the program should demonstrate significant professional experience as an active choreographer making and producing work, must have a B.A. or B.F.A. degree from an accredited institution. It is recommended that applicants take the GRE if their GPA is below a 3.0. A video sample of choreography is required. Contact the department for specific details. The program is especially designed for the practicing artist who desires to return to an institutional context for advanced study.

The program seeks applicants who desire to contextualize their aesthetic inquiry through the study of historical, cultural, and political perspectives on dance. Students will be asked to examine their own artistic production from these various perspectives, as they produce new work. They will be involved in a rigorous investigation of contemporary aesthetic issues as formulated in their own research projects.

Course Work

Requirements consist of 40 units of course work (as set out below) and 12-14 units of independent research for a final project. Students' total number of units of graduate and upper-division undergraduate courses must equal at least 54. The core curriculum, normally to be completed in the first two years of residency, shall comprise the following 16 units:

- DNCE 240 (Improvising Choreography: Scores, Structures, and Strategies)
- DNCE 241 (Creating the Experiment: Identifying the New)
- DNCE 242 (Dancing Representation: Figures, Forms, and Frames)
- DNCE 243 (Collaborating in Dance Making: Materials, Methods, and Interactions)

Students must also take 4 units in each of the following:

- DNCE 180R (Dance Practicum: Pedagogy)
- DNCE 239 (Introduction to Graduate Study of Dance)
- DNCE 244 (Special Topics in Dance Making)

In addition, students must complete 8 units from the following Critical Dance Studies courses:

- DNCE 254 (Political Approaches to Dance Studies)
- DNCE 255 (Historical Approaches to Dance Studies)
- DNCE 257 (Rhetorical Approaches to Dance Studies)
- DNCE 258 (Cultural Approaches to Dance Studies)

Students must also take Dance 301, (which does not count toward the total 54 units required for the degree) plus 4-6 graduate-level units of electives either within or outside the Dance Department. These units must be taken for a letter grade and can include, but are not limited to: any of the core PhD courses (DNCE 254, 255, 257 & 258) not previously taken; a Dance 200-level seminar course in critical dance studies (DNCE 260 (E-Z), 264 & 267); DNCE 280 (the

Colloquium); the bundling of an upper-division undergraduate-level course with 2 units of 292 (Concurrent Analysis).

An additional 12-14 units are taken through DNCE 297 or DNCE 299 for work on phases of the final project. During the second year, students form a committee consisting of three faculty members, one of whom may be outside the department. The committee approves the project proposal and supervises the final project. The student's progress through the program culminates in the final project, which reflects a serious investigation of a specific choreographic problem.

Foreign Language Requirement None

Written and/or Oral Qualifying Examination

During the second year, the student writes a 5-15-page proposal for the final project to be approved by the committee.

Final Project

Because of the experimental nature of the program, it is difficult to specify the exact form the project may take. For example, students may 1) undertake to create site-specific dances occurring in different locales over several months, 2) organize opportunities for interactive choreography with distinct groups of performers, or 3) develop a digital media or film project. Whatever its final form, the project must demonstrate a thorough investigation and committed execution of a defined aesthetic concern. The final project includes a written requirement to be completed within one quarter following the performance event. This document, 20-40 pages long, outlines the aesthetic focus of the student's research, reflects on the creative process, and provides a historical and philosophical contextualization for the project.

Normative Time to Degree 9 quarters

Doctoral Program

Ph.D. in Critical Dance Studies

The Ph.D. program in Critical Dance Studies provides an advanced interdisciplinary base for innovative research in the field of cultural, political, and historical studies of dance. The program of study embraces a theoretical consideration of all dimensions of the practice of dance. These dimensions include, but are not limited to, body politics; media and digital cultures; globalization and cultural translation; race, ethnicity, sexuality, and gender; mobilization and class; and corporeal knowledges and choreography. In addition to theoretical and historical concerns, the program promotes the articulation of a variety of methodological approaches to the analysis of bodily performance.

UCR faculty put into motion various modes of production: performance studies, history, ethnography, critical race theory, feminist studies/masculinities & queer studies, Marxism or post-Marxism, and other specific area studies related to, for example, South Asian, Asian Diaspora and Asian American studies, African Diaspora studies, Indigenous studies, Latina/Latin American studies, and Global South studies. The program provides a provocative environment for investigating cutting-edge strategies for original scholarly work in dance.

Admission

Students must meet the general requirements for admission to the Graduate Division as shown in the Graduate Studies section of this catalog. Students may submit a statement of background about experience in dance history and theory, a previously prepared research paper, or the equivalent, demonstrating analytical and interpretive skills, and GRE scores.

Prerequisites include the following:

1. A working knowledge of movement
2. An acquaintance with some system of movement observation and analysis
3. Preparation in general historical and cultural studies

Deficiencies may be corrected with appropriate course work.

Course Work

Core curriculum normally to be completed in the first two years of residency includes the following:

DNCE 239 (Introduction to Graduate Study of Dance)

DNCE 254 (Political Approaches to Dance Studies)

DNCE 255 (Historical Approaches to Dance Studies)

DNCE 257 (Rhetorical Approaches to Dance Studies)

DNCE 258 (Cultural Approaches to Dance Studies)

DNCE 301 (Seminar in Dance Studies Pedagogy and Professional Development)

Two additional graduate-level courses (minimum 8 units) are required from other disciplines (not DNCE) related to the student's research interest. Courses must be taken for a letter grade and can include an upper-division undergraduate-level course paired with 2 units of 292 (Concurrent Analysis).

Four additional graduate-level courses (minimum 16 units) from Dance must be taken for a letter grade and can include, but are not limited to: DNCE 200-level seminar courses (DNCE 260 (E-Z), 264 & 267) in critical dance studies; DNCE 280 only if completed twice; an upper-division undergraduate-level course paired with 2 units of 292 (Concurrent Analysis).

A maximum of one Dance MFA core course (DNCE 240 to 243) may be included as one of the four additional graduate-level dance courses required.

Language Requirement

All students must show competence in at least one language other than English. Further requirements in specific forms of dance or music notation or ancient or contemporary languages may be determined for each student in consultation with relevant faculty and the graduate advisor of the program.

Written Qualifying Examination

Students must prepare one field for examination with each of four members of the committee in whose courses the student has completed degree requirements. The committee is composed of two Dance faculty members, one of whom is chair, and two other members who may be

Dance faculty or "outside members" (not a UCR Dance faculty member or cooperating faculty member). The written qualifying examination may be completed as a "take-home" format (seven-day, open-book) or a "sit-in" format (two-hour exam periods for each field, conducted on site in the department, and completed in one five-day work week).

Qualifying Essay

One quarter after successfully completing the written examination, students complete a rough draft of the qualifying essay, under the direction of the same group of faculty members who monitored the written examination. Students finalize the qualifying essay and sit for the oral examination before the end of the following quarter. The qualifying essay is generally 25 pages in length and demonstrates the student's ability to articulate a viable dissertation research project. It must consist of written work but may include other forms of video or film productions with the approval of the relevant committee and the graduate advisor.

Oral Qualifying Examination

Students must prepare qualifying essay and be examined by a five-person oral qualifying examination committee. The committee, nominated by the department and appointed by the dean of the Graduate Division, consists of all four written examination committee members, plus a fifth member chosen so that the five-person committee would be comprised of no more than two "outside faculty members," and no fewer than one "outside faculty member." All members of the committee must be physically present for the exam. The committee examines the adequacy of the student's preparation to conduct the research proposed in the qualifying essay. Advancement to candidacy for the doctoral degree depends on completing required course work, fulfilling language requirements, and passing the written examination, qualifying essay, and the oral examination.

The Dance department expects students to complete the entire examination process by the end of their tenth quarter in the program (end of the first quarter of their fourth year) to make satisfactory progress toward completing the degree.

Dissertation and Final Oral Examination

A dissertation committee is composed of three members: a chair from Dance, a Dance faculty member, and either a Dance faculty member, or an outside faculty member. The committee directs and approves the research and writing of the dissertation. The dissertation must consist of written work but may include other forms of video or film productions with the approval of the relevant committee and the graduate advisor. It must present original scholarly work and be approved by the dissertation committee before the student takes the final oral examination. Students must have satisfactory performance on a final oral examination, conducted by the dissertation committee and open to all members of the faculty. The examination emphasizes the dissertation and related topics.

Normative Time to Degree 18 quarters

Lower-Division Courses

DNCE 005 Introduction to Dance 4 Seminar, 3

hours; individual study, 1 hour; extra reading, 1 hour; several short essays. Prerequisite(s): none. As a survey of approaches to dancing and dance making, this course introduces students to dance technique, performance, and composition as fundamental components in the art of dance. Students will cultivate the ability to enact and remember patterns of rhythm, effort, and visual design in movement and will become acquainted with various procedures for organizing movement. Especially designed for students with no experience in dance.

DNCE 007 Dance: Cultures and

Contexts 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides historical and cultural context for selected dance forms and practices. Students study dance as an art form, cultural practice, and meaning-making activity, with particular attention to histories of race, gender, sexuality, class, and nation. Intended for non majors. Credit will be awarded for only one of DNCE 007 or DNCE 007W.

DNCE 007W Dance: Cultures and

Contexts 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. Provides historical and cultural context for selected dance forms and practices. Students study dance as an art form, cultural practice, and meaning-making activity, with particular attention to histories of race, gender, sexuality, class, and nation. Intended for non-majors. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of DNCE 007 or DNCE 007W.

DNCE 014 Introduction to

Choreography 4 Lecture, 4.5 hours; individual study, 1.5 hours. Prerequisite(s): a major or minor in Dance or consent of instructor. Analysis of basic problems and issues of choreography. Emphasis is on improvisational methods as an approach to the investigation of space, time, and energy in motion as the fundamental elements of a dance. Course is repeatable to a maximum of 8 units.

DNCE 019 Introduction to Dance

Studies 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): none. Introduces major concepts, approaches, and issues in the study of dance as a cultural, historical, and artistic practice. Uses text, video, studio, demonstration, and performance to expose students to ways of writing, speaking, researching, and thinking clearly and critically about dance.

DNCE 065A Beginning Latin American Social

Dances 2 Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Explores the fundamentals of various Latin American social dances at the beginning level. Outside-of-class assignments may include assigned readings, attending dance events, viewing dance videos, and regular individual practice sessions. Course is repeatable.

DNCE 065B Intermediate Latin American Social

Dances 2 Studio, 3 hours; extra reading, 1

hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Explores the fundamentals of various Latin American social dances at the intermediate level. Outside-of-class assignments may include assigned readings attending dance events, viewing dance videos, and regular individual practice sessions. Course is repeatable.

DNCE 066A Beginning West African

Dance 2 Studio, 3 hours; screening, 1 hour; extra reading, 1 hour; individual study, 1 hour. Prerequisite(s): none. West African dance technique at beginning level. Vigorous class with focus on rhythm, songs, and culture as well as dance choreographies traditionally performed for rites of passage, courtship, coming of age, and storytelling. Emphasizes community building and individual potential. Course is repeatable.

DNCE 066B Intermediate West African

Dance 2 Studio, 3 hours; screening, 1 hour; extra reading, 1 hour; individual study, 1 hour. Prerequisite(s): none. West African dance technique at intermediate level. Vigorous class with focus on rhythm, songs, and culture as well as dance choreographies traditionally performed for rites of passage, courtship, coming of age, and storytelling. Emphasizes community building and individual potential. Course is repeatable.

DNCE 067A Beginning Modern Dance

Technique 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour. Prerequisite(s): none. Modern dance technique at the beginning level. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Recommended for nondancers and dancers. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

DNCE 067B Intermediate Modern Dance

Technique 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour. Prerequisite(s): DNCE 067A recommended. Modern dance technique at the intermediate level. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Course is repeatable.

DNCE 067C Advanced Modern Dance

Technique 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour. Prerequisite(s): DNCE 067B recommended. Modern dance technique at the advanced level. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Course is repeatable.

DNCE 068 Somatic Techniques and Experiential

Anatomy 2 Studio, 3 hours; extra reading, 1 hour; individual study, 2 hours. Prerequisite(s): none. Introduces physical practices and concepts from a variety of somatic techniques. Explores how the body functions through actions and interactions of its structures. Utilizes a possibilities-in-the-field approach to study and embody some of the varied interpretations that can arise from the same set of anatomical facts. Course is repeatable to a maximum of 16 units.

DNCE 069A Beginning Eighteenth-Century

Dance 2 Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Eighteenth-century dance technique at the beginning level. Focuses on movement practices, corporeality, spatial navigation, and relationships with music. Explores dances in historical, cultural, and political frameworks. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Recommended for non-dancers and dancers. Course is repeatable.

DNCE 069B Intermediate Eighteenth-Century

Dance 2 Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Eighteenth-century dance technique at intermediate level. Focuses on movement practices, corporeality, spatial navigation, and relationships with music. Explores dances in historical, cultural, and political frameworks. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Recommended for non-dancers and dancers. Course is repeatable.

DNCE 070A Beginning Hip Hop Dance 2

Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Hip Hop dance technique at beginning level. High-energy class with focus on dance steps, isolation techniques, rhythm, confidence, and bringing style and personality to movements. Stresses Hip Hop dance as fun, diverse, self-expressive, innovative, and transformative. Grounded in histories of Hip Hop as a cultural movement. Course is repeatable.

DNCE 070B Intermediate Hip Hop

Dance 2 Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Hip Hop dance technique at intermediate level. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Recommended for non-dancers and dancers. Course is repeatable.

DNCE 070C Advance Hip Hop Dance 2

Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Hip Hop dance technique at advanced level. Outside-of-class assignments include attending dance concerts, viewing dance videos, and regular individual practice sessions. Course is repeatable.

DNCE 071A Beginning Ballet

Technique 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour; screening, 1 hour. Prerequisite(s): none. Ballet technique at the beginning level. Assignments include attending dance concerts and other dance showings. Recommended for nondancers and dancers. Course is repeatable.

DNCE 071B Intermediate Ballet

Technique 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour; screening, 1 hour. Prerequisite(s): DNCE 071A recommended. Ballet technique at the intermediate level. Assignments include attending dance concerts and other dance showings. Course is repeatable.

DNCE 073A Beginning Jazz Dance 2

Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Jazz dance technique at beginning level. Focuses on rhythms, isolations, syncopation, and performance quality. Students learn a variety of jazz styles from lyrical to funk and classical to musical theater. Outside-of-class assignments include readings, video viewings, and written assignments in historical, cultural, and aesthetic issues pertaining to jazz dancing. Course is repeatable.

DNCE 073B Intermediate Jazz Dance 2

Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Jazz dance technique at intermediate level. Focuses on rhythms, isolations, syncopation, and performance quality. Students learn a variety of jazz styles from lyrical to funk and classical to musical theater. Outside-of-class assignments include readings, video viewings, and written assignments in historical, cultural, and aesthetic issues pertaining to jazz dancing. Course is repeatable.

DNCE 074A Beginning Yoga For

Dancers 2 Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Yoga for dancers at beginning level. Focuses on alignment; understanding how to practice safely; increasing strength, flexibility, and balance; developing focus and bodily awareness; and exploring yoga's relation to dance. Coursework includes reading and discussion of yoga texts, concepts, and philosophy. Recommended for non-dancers and dancers. Course is repeatable.

DNCE 074B Intermediate Yoga For

Dancers 2 Studio, 3 hours; extra reading, 1 hour; individual study, 1 hour; screening, 1 hour. Prerequisite(s): none. Yoga for dancers at intermediate level. Focuses on alignment; understanding how to practice safely; increasing strength, flexibility, and balance; developing focus and bodily awareness; and exploring yoga's relation to dance. Coursework includes reading and discussion of yoga texts, concepts, and philosophy. Recommended for non-dancers and dancers. Course is repeatable.

DNCE 075A Beginning Dance Techniques and

Practices 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour; screening, 1 hour. Prerequisite(s): none. Dance Techniques and Practices at beginning level. Focus varies each quarter. Outside-of-class assignments may include attending dance concerts, writing assignments in historical, cultural and aesthetic issues relating to the quarter's dance form, and regular individual practice sessions. Course is repeatable.

DNCE 075B Intermediate Dance Techniques and

Practices 2 Studio, 3 hours; individual study, 1 hour; extra reading, 1 hour; screening, 1 hour. Prerequisite(s): DNCE 075A recommended. Dance Techniques and Practices at intermediate level. Focus varies each quarter. Outside-of-class assignments may include attending dance concerts, writing assignments in historical, cultural and aesthetic issues relating to the quarter's dance form, and regular individual practice sessions. Course is repeatable.

DNCE 081 Dance Cultures, Culture in

Dance 4 Lecture, 2 hours; studio, 6 hours. Prerequisite(s): none. Explores non-presentational dance forms that are intricately woven into the culture of a particular society. Focuses on performance integrity and cultural memory. Incorporates videos, books, field trips, and guest lectures in addition to studio time.

Upper-Division Courses

DNCE 114A Dance Composition I 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): DNCE 007 or DNCE 007W or DNCE 014 and two quarters of dance technique, or equivalent. Analyzes dance as an art form. Emphasizes space, time, and energy in motion as elements in choreographic style. Course content presented at the beginner's level.

DNCE 114B Dance Composition II 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): DNCE 114A. The continuing analysis of dance as an art form with emphasis on space, time and energy in motion as elements in choreographic style. In DNCE 114B, this is done on the intermediate level.

DNCE 114C Dance Composition III 4 Lecture, 3 hours; studio, 3 hours. Prerequisite(s): DNCE 114B. The continuing analysis of dance as an art form with emphasis on space, time and energy in motion as elements in choreographic style. In 114C, this is done on the advanced level.

DNCE 115 (E-Z) Dance Making 4 Lecture, 3 hours; research, 2 hours; studio, 3 hours. Prerequisite(s): DNCE 014. Advanced analysis of dance-making as an art form with emphasis on storytelling, ritual, political activation, site, media and technology, contact, and materials.

DNCE 115E Dance Making: Dance as Storytelling 4 Lecture, 3 hours; studio, 3 hours; research, 2 hours. Prerequisite(s): DNCE 014, or consent of instructor. Focuses on strategies for telling stories through movement and speaking, specifically gestural movement, sign language, singing, breath control, and expression. Addresses how meaning is made and relates to gender, sexuality, race, class and power.

DNCE 115F Dance Making: Dance as Scores 4 Lecture, 3 hours; studio, 3 hours; research, 2 hours. Prerequisite(s): DNCE 014, or consent of instructor. Advanced analysis of dance-making as an art form with emphasis on storytelling, ritual, political activation, site, media and technology, contact, and materials.

DNCE 115G Dance Making: Dance as Ritual 4 Lecture, 3 hours; studio, 3 hours; research, 2 hours. Prerequisite(s): DNCE 014, or consent of instructor. Advanced analysis of dance-making as an art form with emphasis on storytelling, ritual, political activation, site, media and technology, contact, and materials.

DNCE 115J Dance Making: Dance and Traces Past 4 Lecture, 3 hours; studio, 3 hours; research, 2 hours. Prerequisite(s): DNCE 014, or consent of instructor. Advanced analysis of dance-making as an art form with emphasis on storytelling, ritual, political activation, site, media and technology, contact, and materials.

DNCE 115K Dance Making: Dance as Political Activation 4 Lecture, 3 hours; studio, 3 hours;

research, 2 hours. Prerequisite(s): DNCE 014 or consent of instructor. Advanced analysis of dance-making as an art form with emphasis on storytelling, ritual, political activation, site, media and technology, contact, and materials.

DNCE 115M Dance Making: Dance and Materials 4 Lecture, 3 hours; studio, 3 hours; research, 2 hours. Prerequisite(s): DNCE 014 or consent of instructor. Advanced analysis of dance-making as an art form with emphasis on storytelling, ritual, political activation, site, media and technology, contact, and materials.

DNCE 123 Southeast Asian Performance 4 Lecture, 3 hours; screening, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the roles and genres of expressive culture in Southeast Asia, including dance, music, theater, film, and digital culture. Performance is discussed as both a time-honored and a contemporary medium for cultural production, from the courts to everyday experience. Cross-listed with MUS 123, AST 123, ANTH 126 and SEAS 123

DNCE 127 Music Cultures of Southeast Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in the Philippines, Indonesia, Malaysia, Thailand, Myanmar (Burma), Laos, Cambodia, and Vietnam. Designed for the student interested in the performing arts and cultures of mainland and insular Southeast Asia. No Western music background is required. Cross-listed with ANTH 176, AST 127, ETST 172, MUS 127, and SEAS 127.

DNCE 128 Performing Arts of Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in four major geocultural regions of Asia: Central, East, South and Southeast. No Western music training is required. Course is repeatable to a maximum of 8 units. Cross-listed with ANTH 128, AST 128, and TFDP 176.

DNCE 131 Dance, Gender, Sexuality 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Explores some of the ways that studying dance (an art form whose medium is the body) illuminates feminist, gender, and sexuality studies --- and vice versa. No previous dance experience required. Cross-listed with GSST 127.

DNCE 132 Dance, Citizenship, Location 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Explores interconnections between dancing bodies, their geographical, political, cultural locations, and the ways in which they negotiate inclusion or exclusion within state apparatuses of power such as citizenship.

DNCE 133 Dance, Space, Time 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Explores the flow among non-

presentational and presentational dance forms, state productions and treaties, and design factors that are meant to enable our daily lives such as buildings, parks, and roadways. Students take advantage of video, books, field trips, guest lectures and studio lab time.

DNCE 134 Dance, Genre, Institutions 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Explores how dance and movement genres interact with and articulate, but also query and contest, structures, institutions, and traditions such as theatrical performance and touring shows, rites of passage, political contests, educational enterprises, and territorial campaigns through which societies frame experience.

DNCE 135 Dance, Race, Property 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Explores intersections between dancing bodies, questions of race, and notions of cultural property. Investigates issues of embodied identity and racialization, cultural appropriation and cultural exchange, purity and hybridity, and ownership and copyright.

DNCE 136 Hip Hop Dance, Collectivity, & Change 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently); or consent of instructor. Explores street dance as a lens to consider issues of cultural transmission, ritual practices, gender and sexuality, Western and non-Western aesthetic influences, market forces, and local interests. Familiarizes students with Hip Hop dance scholarship; reconsiders Hip Hop historical narratives through collective enactments; and develops students' critical analysis skills.

DNCE 140 Production Lab 4 Laboratory, 3 hours; workshop, 2 hours; research, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing in Dance; or consent of instructor. An introduction to key dance production and design strategies and practices through hands-on lab and workshop. Coursework culminates in creative design projects and a production portfolio.

DNCE 155 (E-Z) Seminar in Dance and Music 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Introduces relationships and representations between music and dance. Explores musical and choreographic form, compositional strategies, hybridization of style, cultural meanings and registers in which these were made, the agencies such representations enabled, interpretive communities, and cross-cultural interactions. Cross-listed with MUS 155 (E-Z).

DNCE 155E Representations of Spain in Dance and Music, 1700-2000 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces representations of Spain articulated in music and dance of Europe and the Americas from the eighteenth through twentieth centuries. Cross-listed with MUS 155E.

DNCE 155F The Ballets Russes 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how the Diaghilev Ballets Russes' repertoire and collaborative practices challenged the nature of artistic labor; negotiated traditional patronage and new commercial modes; engaged with cultural nationalism, gender role contention, and emerging models of sexuality; and deployed representational strategies that played into period debates about power and social organization. Cross-listed with MUS 155F.

DNCE 161 Choreographing the

Screen 4 Lecture, 3 hours; screening, 2 hours; term paper, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Focuses on choreographing for the camera and the screen. Topics include video art, classic film choreography, music video, and digital dance technologies. Students prepare a choreographic piece for the camera as a final project. Cross-listed with MCS 161.

DNCE 162 Tool, Technology, Technique 4 Lecture, 3 hours; screening, 3 hours; laboratory, 3 hours. Prerequisite(s): DNCE 019 or MCS 019 or consent of instructor. Practicum in video and digital production with an emphasis on capturing and editing the moving body. Students are encouraged to bring their own video or digital recording device. Editing equipment will be available. Cross-listed with MCS 162.

DNCE 167 Dance Production 2 Studio, 6 hours. Prerequisite(s): by audition Study, production, and performance of dances. Course may be repeated for credit.

DNCE 168 Dance Touring Ensemble 4 Studio, 6 hours; research, 3 hours. Prerequisite(s): consent of instructor. Dance Touring Ensemble members work with the instructor to create a lecture-demonstration and create and learn repertory which is performed at various sites within the community. Course is repeatable to a maximum of 16 units.

DNCE 171 (E-Z) Filmic Bodies 4 Prerequisite(s): restricted to class level standing of junior, or senior. For hours and prerequisites, see segment descriptions. Assesses a multiplicity of filmic genres through the portals of the dancing and mobilized body as related to race, gender, class, and other identifiers. Explores the politics of movement on film, the mechanics of making film work, and the political economy of dance on film. Dance experience is usually not required. Course is repeatable to a maximum of units. Cross-listed with MCS 151 (E-Z).

DNCE 171F Ethnographic Representation

of Dance On Film: "... and Then They

Danced 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the juncture between representation and presentation in everyday dance genres on film. Explores race, class, tropes of authenticity, and ownership of cultural production through screenings, lectures, and theoretical writings. No previous dance experience required. Course is repeatable. Cross-listed with MCS 151F.

DNCE 171G Gender, Mechanization, and

Shape 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or

consent of instructor. Utilizes film, video, and texts to examine the relationship among gender, mechanization, and shape during the twentieth century. Focuses on the performing arts, industrial and technological design, and the relationship of visual culture to changing notions of gender. Course is repeatable. Cross-listed with MCS 151G.

DNCE 171J Spectatorship 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature of film studies through the eyes of the audience. Uses film, videos, and texts (in addition to outside viewing of films in cinematic locales) to formulate how viewing film constructs the viewer's subjectivity and a film's cultural context. Course is repeatable. Cross-listed with MCS 151J.

DNCE 171K Attractions, Interruptions, Disruptions: Narrative Film:fight Scenes, Dance Sequences,special Effect 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the way film regulates the movement of bodies on and off screen through narrative and what happens when the movement exceeds that regulations. Utilizes selected films to explore the fight scenes, dance sequences, and computer generated imagery in film. Includes screenings both in class and outside of class. Course is repeatable. Cross-listed with MCS 151K.

DNCE 171M Bollywood 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the vast corpus of films that constitute the genre called Bollywood. Focuses on the genre's music and dance styles. Includes weekly film screenings. No previous dance experience required. Course is repeatable. Cross-listed with MCS 151M.

DNCE 172 (E-Z) Televisual Bodies 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Analyzes choreographic practices within television broadcast and marketing and their relation to popular culture. Also examines situational or tactical use and misuse of satellite, cablecast, and broadcast television by unintentional audiences that subsequently reconstitute themselves as communities via the programming. Focuses on video as an archival and/or choreographic tool. J. Corps&corpttie:comm,cltr,chor; K. Tv As Loctn:the Satellite Feed; M. Music Tv(mtv) & Popular Cultur; Course is repeatable to a maximum of units. Cross-listed with MCS 152 (E-Z).

DNCE 173 (E-Z) Digitized Bodies 4 Lecture, 3 hours; laboratory, 3 hours; screening, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Provides a theoretical approach to digital subjectivities, bodies in motion, products, and realities. Addresses issues of liveness, new media, mediated cultural identities, speed, transfer, telepresence, and coded and encoded sexuality within programming. Focuses primarily on the body-computer interface. J. Digital Games, Violence & Body; K. Virtl Subj:persona,ident,&body; Course is repeatable to a maximum of units. Cross-listed with MCS 153 (E-Z).

DNCE 180 (E-Z) Dance Practicum 4 Studio, 8 hours. An investigation of dance production theories and practices. Provides directed experience in a limited topic, with the name of a guest instructor announced in advance if not being taught by UCR staff. E. Cine Dance; F. Folk Forms; G. Advanced Choreography; H. Intermedia Movement; I. Video Dance; J. So Asian/asian Amr Cultr Shows; K. Reconstruction Of Dances; L. Theory Of Indiv Choreographers; M. Dance For Children; N. Dance In Therapy; O. Improvisation; P. Role Preparation; Q. Dance Notation; R. Pedagogy; Course is repeatable to a maximum of 12 units.

DNCE 181 Dance Cultures, Culture in

Dance 4 Lecture, 2 hours; studio, 2 hours; research, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of the instructor. Focuses on ways dance and other movement practices are intricately woven into culture. Incorporates studio practice time as well as videos, books, field trips, and guest lectures; includes completion and presentation of a paper or project.

DNCE 187 Improvisation Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Presents the emergent field of improvisation studies, moving beyond traditional genre boundaries to explore improvisation as a cultural phenomenon and social practice. Draws from jazz studies, ethnomusicology, music theory, musicology, American studies, and the histories of dance, theatre, and the visual arts.

DNCE 188 Individual Projects in Creative

Activity 2 Studio, 2 hours; research, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing in Dance; or consent of instructor; Description: Facilitates the discovery and design of a capstone artistic project.

DNCE 189 (E-Z) Capstone Research

Seminar 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): DNCE 188; restricted to class level standing of junior, or senior; restricted to major(s) Dance. Capstone course that provides undergraduate students in dance with the experience of synthesizing knowledge and skills gained throughout the dance curriculum. Includes completion and presentation of a paper or project under the guidance of dance faculty.

DNCE 189E Dance Making Project 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): DNCE 188, upper-division standing in Dance; or consent of instructor. Synthesizes the knowledge and skills gained throughout the dance curriculum. Provides dance making emphasis with the opportunity to complete and present an individualized creative research project under the guidance of dance faculty.

DNCE 189F Dance Studies Capstone 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Capstone course that provides a dance studies emphasis. Includes the experience of synthesizing knowledge and skills gained throughout the dance curriculum. Includes completion and presentation of a paper or project under the guidance of dance faculty.

DNCE 190 Special Studies 1 to 5 To be taken

with the consent of the Chair of the Department of Dance to meet special curricular problems. Course is repeatable to a maximum of 12 units.

DNCE 1981 Individual Internship in Dance 1 to 12 Prerequisite(s): 1) upper-division standing; 2) evidence of prior arrangement with the professional(s) involved; and 3) approval of the UCR dance faculty sponsor. Work with an appropriate professional individual or organization to gain experience and skill in the student's chosen dance-related specialty. May be repeated to a total of 16 units.

Graduate Courses

DNCE 239 Introduction to Graduate Study of Dance 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A graduate-level introduction to the field of critical dance studies. Focuses on the foundational works and issues that have shaped the field. Topics include genealogies of dance studies, approaches to embodiment, the influences of cultural studies and critical theory, and the research of Dance Department faculty.

DNCE 240 Improvising Choreography: Scores, Structures, and Strategies 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An evaluation of the use of the score or structure as a predetermining guide to the production of choreography. Students create choreography in ensemble, co-choreographing dances in the moment of performance and assessing immediately the efficacy of a given approach. Course is repeatable to a maximum of 8 units.

DNCE 241 Creating the Experiment: Identifying the New 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An inquiry into what constitutes an experiment in contemporary dance, critically examining how artists bring new dance into existence. Questions the working process in originating movement, sequencing, and images for dance and assesses this process with respect to larger historical and cultural frameworks. Course is repeatable to a maximum of 8 units.

DNCE 242 Dancing Representation: Figures, Forms, and Frames 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of the systems of representation used to create choreographic meaning. Considers the bodily codes and the cultural associations attached to distinct qualities of movement and the conventions of space, time, and narrative through which a dance achieves its meaning. Course is repeatable to a maximum of 8 units.

DNCE 243 Collaborating in Dance Making: Materials, Methods, and Interactions 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of the function of the choreographer as principal director of the dance project. Analysis of various approaches to the making of dance works that involve distinctive forms of collaboration with artists working in allied media. Course is repeatable to a maximum of 8 units.

DNCE 244 Special Topics in Dance Making 4 Lecture, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. Study of emerging issues in embodied practice, dance creation, and/or dance production. Focus varies by quarter. Topics may include intersections between theoretical and practical approaches to dance; dance and digital technologies; cultural specificity and dance making; curatorial practices; concepts or models of dance production; and embodying dances past. Course is repeatable as content changes.

DNCE 254 Political Approaches to Dance Studies 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): reading knowledge of a language other than English; working knowledge of notation; graduate standing or consent of instructor. The study of power relations reflected in and enacted by dance practice and performance. Topics include nation formation, imperialism, race, commodification, globalization, economic and class relations, gender, and political affiliation and resistance.

DNCE 255 Historical Approaches to Dance Studies 4 Seminar, 3 hours; studio, 2 to 3 hours. Prerequisite(s): reading knowledge of a language other than English; working knowledge of notation; graduate standing or consent of instructor. The study of dances past and how dance practices have changed over time. May include study of changing modes for production and reception of dance, shifting constructions of bodies and movement, theories of dance reconstruction, and conceptualizations of historical evidence.

DNCE 257 Rhetorical Approaches to Dance Studies 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): reading knowledge of a language other than English; graduate standing or consent of instructor. The study of dance structure and of the structure of dance study. May include the analysis of narrative or representational structures in dance; narrative structures in dance writing; dance semiotics; dance philosophy; and the accuracy, reliability, and value of critical studies of dance.

DNCE 258 Cultural Approaches to Dance Studies 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): reading knowledge of a language other than English; graduate standing or consent of instructor. The study of dance in and across cultures including cross-cultural studies of dance; multicultural approaches to dance history; ethnological, ethnographic, and cultural studies approaches to dance analysis; and analysis of the different roles and functions dance plays in cultural systems.

DNCE 260 (E-Z) Seminar in Dance History 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing. Studies in E. Historical Periods; F. Historical Styles; G. National Forms; H. Individual Artists; I. Choreographies; J. Dance Aesthetics; K. Dance Literature; L. Dance Notations; Course is repeatable as content or topic changes to a maximum of units.

DNCE 264 Oral History and Ethnographic Methods 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Theory and practice of oral history and ethnography as research techniques. Cultural and political perspectives

on oral history and ethnography; methods for research preparation, interview procedures, transcription, editing, and legal responsibilities. Ethnographic and/or interview project and analytical paper required.

DNCE 267 Choreographies of Writing 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An analysis of the types of relationships that may exist between dance and text. Examines the methods and strategies for translating choreographed action into a written description of that action. Students' writing is a major focus of discussions.

DNCE 280 Colloquium in Current Topics in Dance Research 2 Colloquium, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Presents current research topics in dance, including selected professional development workshops. Conducted by students, faculty, visiting scholars, and artists. Course is repeatable to a maximum of 4 units.

DNCE 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and Department Chair. To be taken to meet special curricular problems. Normally graded Satisfactory (S) or No Credit (NC) only, but students may petition the instructor for a letter grade for specialized topics pursued with close faculty supervision. Course is repeatable.

DNCE 291 Individual Study in Coordinated Areas 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. A program of study designed to advise and assist graduate students who are preparing for written and oral qualifying examinations. Does not count toward the unit requirement for the Ph.D. degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

DNCE 292 Concurrent Analytical Studies in Dance 1 to 4 Research, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. To be taken concurrently with some 100-series course, but on an individual basis. Limited to research, criticism, and written work of a graduate order commensurate with the number of units elected. Normally graded Satisfactory (S) or No Credit (NC) only, but students may petition the instructor for a letter grade for specialized topics pursued with close faculty supervision. Course is repeatable.

DNCE 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor. Individualized studies in specially selected topics in Dance under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

DNCE 2981 Individual Internship 1 to 4 Internship, 3 to 12 hours; term paper, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Individual study or apprenticeship with an appropriate professional individual or organization to gain experience and skill in activities related to dance studies. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12

units.

DNCE 299 Research For the Thesis Or

Dissertation 1 to 12 Research, 3 to 36 hours.

Prerequisite(s): consent of thesis or dissertation director. Research for and preparation of the thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

DNCE 301 Seminar in Dance Studies Pedagogy and Professional Development 4 Seminar, 3

hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Prepares for the teaching of dance studies in an academic setting and for participating in the dance studies profession. Includes creating course syllabi, discussing a range of practical teaching and professionalization issues, and developing skills necessary to succeed in the academic field of dance. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

DNCE 302 Teaching Practicum 1 to 4 Lecture, 1

to 4 hours. Prerequisite(s): graduate standing. Supervised teaching in upper-division Dance History and lower-division Dance courses. Must be taken at least once by all teaching assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EARTH & PLANETARY SCIENCES

Subject abbreviation: GEO

College of Natural and Agricultural Sciences

Michael A. McKibben, Ph.D., Chair
Department Office: 1324A Geology
(951) 827-3182; eps@ucr.edu

John Herring, Graduate Student Services
Advisor
Office: Batchelor Hall, 1140A
(951) 827-2441

CNAS Undergraduate Academic Advising
Center, 1223 Pierce Hall
cnasstudent@ucr.edu

Professors

Mary L. Droser, Ph.D.
Marilyn L. Fogel, Ph.D.
Nigel C. Hughes, Ph.D.
Gordon Love, Ph.D.
Timothy W. Lyons, Ph.D.
Richard A. Minnich, Ph.D.
David D. Oglesby, Ph.D.
Andrew Ridgwell, Ph.D.
Peter M. Sadler, Ph.D.

Professors Emeriti

Shawn Biehler, Ph.D.
Lewis H. Cohen, Ph.D.
James H. Dieterich, Ph.D.
Wilfred A. Elders, Ph.D.
Tien-Chang Lee, Ph.D.
Michael A. Murphy, Ph.D.
Stephen K. Park, Ph.D.
Michael O. Woodburne, Ph.D.

Associate Professors

Robert J. Allen, Ph.D.
Andrey Bekker, Ph.D.

Gareth Funning, Ph.D.
Abhijit Ghosh, Ph.D.
Stephen R. Kane, Ph.D.
Michael A. McKibben, Ph.D.

Assistant Professors

Nicolas Barth, Ph.D.
Maryjo N. Brounce, Ph.D.
Roby Douilly, Ph.D.
Heather Ford, Ph.D.
Sandra Kirtland Turner, Ph.D.

**

Adjunct Professors

Larissa F. Dobrzynetska, Ph.D.
Douglas M. Morton, Ph.D.

Adjunct Assistant Professors

Elizabeth Cochran, Ph.D.
Katherine J. Kendrick, Ph.D.
Thomas A. Scott, Ph.D.

Majors

The Department of Earth and Planetary Sciences offers B.S. degrees in Earth Sciences, Geology and Geophysics. These degree programs are designed for students with a strong interest in acquiring academic understanding and relevant vocational training in the Earth and Planetary Sciences, and for students interested in secondary teaching with a science emphasis. The B.S. programs include fieldwork with field courses, and field trips in all appropriate courses.

Academic Advising

Undergraduate advising in the Department of Earth and Planetary Sciences is designed to allow close professional contact with faculty and staff. Counseling on graduation, departmental requirements and enrollment is handled by the major's professional academic advisors housed in the CNAS Undergraduate Academic Advising Center and the faculty undergraduate advisor for each major.

Faculty undergraduate advisors counsel students on career goals and research opportunities. The department recommends that students meet with their faculty advisor at least once each quarter to clarify career objectives and revise the program of study so it is commensurate with the developing interests and objectives of the student.

Teaching Credential

Teachers in the public schools in California must have a credential approved by the State Commission on Teacher Credentialing. The credential requires an undergraduate major, baccalaureate degree, and completion of a graduate credential program such as that offered by the Graduate School of Education at UCR.

Before admission and student teaching in a graduate credential program, the candidate must pass the California Basic Education Skills Test (CBEST) and demonstrate subject-matter proficiency by passing an examination. All candidates for a multiple subject credential to teach in the elementary grades must pass the Multiple Subjects, California Subject Exam for Teachers (CSET). Students are urged to start early, preferably as freshmen, selecting courses most helpful for this career. Details and counseling on the Prepare to Teach Program, a program for the multiple subject credential, are available in

the Office of Interdisciplinary Programs, 2417 Humanities and Social Sciences, (951) 827-2743. Details and counseling on other programs are available in the Department of Earth and Planetary Sciences or the Graduate School of Education.

UCR does not yet have a state-approved subject matter undergraduate program for earth science majors who wish to teach at the secondary level. The Teaching Credential in Science, geoscience authorization, is required for teachers who want to teach earth science/geoscience in middle school and high school. Students who plan to get this credential must take the CSET exams in Geosciences and should make certain their academic program includes preparatory course work. The examination includes geoscience in depth and general science with introductory, college-level biology, chemistry, physics, and geoscience (geology, meteorology, oceanography, astronomy). CSET test guides are available at cset.nesinc.com.

Further information about courses, requirements, and examinations can be obtained in orientation meetings, the CalTEACH-SMI Office (1104 Pierce Hall) and the Graduate School of Education (1124 Sproul Hall).

Earth Science students interested in a secondary school science teaching career, who intend to obtain a Teaching Credential in Science, geoscience authorization, should pursue both the B.S. in Earth Science or in Geology as well as the teaching credential from the Graduate School of Education. Students who want to have the option to become either a professional geoscientist or to teach earth science in secondary school should pursue the B.S. in Geology as well as the teaching credential from the Graduate School of Education.

Students in CNAS who intend to pursue a Teaching Credential in Science, with authorization in another science, should consider pursuing a Minor in Earth and Planetary Sciences.

Earth Sciences Major

Students who choose Earth Sciences Major study the past, present, and future of our Earth through the interdisciplinary study of its various systems. Earth Sciences majors choose between concentrations in Geosystems, Climate Change, Geophysics, and Geobiology, which are explored from a combination of lab-based, field-based, and computational perspectives.

Geology Major

Students who choose the Geology major study the structure, composition, processes, and history of the Earth. In particular, the Geology major stresses features of the Earth's surface and interactions between its atmosphere, hydrosphere, biosphere, rocky crust, and interior. Through an emphasis on developing important skills, one of the goals of this program is to prepare students for Geology careers in the public, private, and academic sectors.

Geophysics Major

Students who choose the Geophysics major apply the principles and concepts of physics, mathematics, geology, and engineering to the study of the physical characteristics of the earth and other planets. They make measurements of

gravity and magnetic fields, seismic waves, temperatures, and natural electric current. Geophysicists study these topics from the standpoint of the physics of solid bodies, gases, and fluids. Some geophysicists are field oriented, some laboratory oriented, some theoretical, and some combine these areas.

Change of Major and Continuation Criteria

Students wishing to change into or continue in the **Earth and Planetary Sciences** major must be in good academic standing and show potential to graduate without exceeding 216 units.

Freshmen (2nd and 3rd quarter) must demonstrate progress in basic sciences and aptitude for Earth and Planetary Sciences by satisfying the following three criteria by Spring Quarter or Summer Session:

- MATH 007B or MATH 009B eligible (e.g. completion of MATH 007A or MATH 009A with grades of C- or better)
- CHEM 01B eligible (e.g. completion of CHEM 01A with a grade of C- or better)
- One of GEO 001, GEO 002 or GEO 009 or GEO 011, or GEO 003 completed with a grade of C- or better

Sophomores (up to 89.9 cumulative units) sciences and aptitude for geology by satisfying the following three criteria by Spring Quarter or Summer Session:

- CHEM 001B completed with passing grades
- MATH 009C or MATH 046 eligible (e.g. MATH 007B or MATH 009B with grade of C- or better)
- Two of GEO 001, GEO 002 or GEO 009 or
- GEO 011, or GEO 003 completed with no grade below C- after repeats

Juniors (90 – 134.9 units) must demonstrate near completion of basic sciences and aptitude for upper-division Earth and Planetary Sciences by satisfying the following three criteria by Spring Quarter or Summer Session:

- CHEM 001B and MATH 009C or MATH 046 completed with passing grades
- PHYS 040B or PHYS 002B and PHYS 002LB eligible (i.e. completion of one quarter of college physics with C- or better)
- GEO 001, GEO 002 or GEO 009 or GEO 011, GEO 003, GEO 111, and GEO 115 or GEO 157 (and all prerequisites) completed with no grade below C- after repeats

Seniors (135+ units): must have completed all but 1 course of the Earth and Planetary Sciences core requirements by Spring Quarter or Summer Session, as follows:

- CHEM 001B, MATH 009C or MATH 046, PHYS 040B or PHYS 002B and PHYS 02LB completed with passing grades.
- BIOL 002 or BIOL 005A and BIOL 05LA or BIOL 020, and STAT 100A or STAT 155 completed with passing grades.
- GEO 001, GEO 002 or GEO 009 or GEO 011, GEO 003, GEO 004 or GEO 007 or

GEO 008 or GEO 010 or GEO 012, GEO 111, GEO 115, and GEO 157 (and all prerequisites) completed with no grade below C- after repeats.

Students wishing to change into or continue in the **Geology** major must be in good academic standing and show potential to graduate without exceeding 216 units.

Freshmen (2nd and 3rd quarter) must demonstrate progress in basic sciences and aptitude for geology by satisfying the following three criteria by Spring Quarter or Summer Session:

- MATH 009B eligible (e.g. completion of MATH 007A or MATH 009A with grades of C- or better)
- CHEM 001B eligible (e.g. completion of CHEM 01A with a grade of C- or better)
- One of GEO 001, GEO 002, or GEO 003 completed with a grade of C- or better

Sophomores (up to 89.9 cumulative units) must demonstrate sustained progress in basic sciences and aptitude for geology by satisfying the following three criteria by Spring Quarter or Summer Session:

- CHEM 001B completed with passing grades
- MATH 009C or MATH 046 eligible (e.g. MATH 007B or MATH 009B with grade of C- or better)
- Two of GEO 001, GEO 002, or GEO 003 completed with no grade below C- after repeats

Juniors (90 – 134.9 units) must demonstrate near completion of basic sciences and aptitude for upper-division geology by satisfying the following three criteria by Spring Quarter or Summer Session:

- CHEM 001B and MATH 009C or MATH 046 completed with passing grades
- PHYS 040B or PHYS 002B and PHYS 002LB eligible (i.e. completion of one quarter of college physics with C- or better)
- GEO 002, GEO 003, GEO 111, GEO 115 or GEO 122 (and all prerequisites) completed with no grade below C- after repeats

Seniors (135+ units): must have completed all but 1 course of the geology core requirements by Spring Quarter or Summer Session, as follows:

- CHEM 001B, MATH 009C or MATH 046 and PHYS 040B or PHYS 002B and PHYS 02LB completed with passing grades.
- BIOL 002 or BIOL 005A and BIOL 05LA or BIOL 020, and STAT 100A or STAT 155 completed with passing grades.
- GEO 001, GEO 002, GEO 003, GEO 111, GEO 115, GEO 116 and GEO 122 and GEO 101 or GEO 118 (and all prerequisites) completed with no grade below C- after repeats.

Transfer Selection Criteria

Applicants to majors in the College of Natural and Agricultural Sciences are selected on the basis of academic preparation, as assessed by their GPA and the strength of preparation for the intended major. A GPA of at least 2.70 is required. (This is a baseline GPA for consideration and not a guarantee of admission.)

In addition, applicants will need to complete college courses comparable to at least two of the following UCR year-long sequences in order to meet selection criteria for this major. Courses must be completed with "C" grades or better:

MATH 007A or MATH 009A, MATH 007B or MATH 009B, and MATH 009C or MATH 046 (mandatory)

And at least one sequence from:

1. BIOL 005A, BIOL 05LA or BIOL 020 and BIOL 005B (and BIOL 005C, if articulated)
2. CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB
3. PHYS 040A and PHYS 040B or PHYS 002A and PHYS 002B
4. MATH 010A, MATH 010B, and MATH 046

Courses must be completed with a letter grade, with no grade lower than a "C." Students should visit assist.org for updated and comprehensive major preparation requirements.

Any applicant not meeting the above math course requirements may still be considered for possible admission by exception.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements Earth and Planetary Sciences Major

All courses in Geosciences that are prerequisites for other courses in the major must be passed with a grade of "C-" or better before proceeding in the sequence. For example, GEO 001 is a prerequisite for GEO122.

The department offers four concentrations to majors in Earth Science: Geosystems, Climate Change, Geophysics, and Geobiology. All students majoring in Earth and Planetary Sciences are normally required to take the core curriculum.

Geosystems, Climate Change, Geobiology, and Geophysics Concentrations

Core Requirements (61-66 units)

1. Lower division core requirements (48-53 units)

- a) GEO 001
- b) GEO 002 or GEO 009 or GEO 011
- c) GEO 003/BIOL 010
- d) GEO 004 or GEO 007 or GEO 008 or GEO 010 or GEO 012
- e) BIOL 005A and BIOL 005LA or BIOL 020
- f) Either CHEM 001A and CHEM 01LA or CHEM 01HA and CHEM 1HLA, either

CHEM 001B and CHEM 01LB or CHEM 01HB and CHEM 01HLB

- g) MATH 007A or MATH 009A, MATH 007B or MATH 009B, MATH 046
- h) Either PHYS 040A, PHYS 040B or PHYS 002A and PHYS 002LA, PHYS 002B and PHYS 002LB. Students interested in elective classes in Geophysics are recommended to take PHYS 040C or PHYS 002C. Students interested in elective classes in Geochemistry are recommended to take CHEM 001C.

2. Upper division core requirements (13 units)

- a) GEO 111, GEO 115, GEO 157

Geosystems Concentration

1. Upper division requirements (34–40 units)

- a) GEO 101, GEO 118
- b) Three of GEO 100, GEO 116, GEO 122, GEO 132, GEO 151, GEO 152, GEO 162
- c) Three additional classes from GEO 100, GEO 116, GEO 122, GEO 132, GEO 136, GEO 137, GEO 138, GEO 140, GEO 144, GEO 145, GEO 147, GEO 151, GEO 152, GEO 160, GEO 161, GEO 162, GEO 169, STAT 100A, STAT 100B

Students interested in pursuing professional licensure through the California Geologist In Training (GIT) are advised to take the Geology Major.

Climate Change Concentration

1. Lower division requirements (5 units)

- a) CHEM 001C and CHEM 001LC, or CHEM 001HC and CHEM 001HLC

2. Upper division requirements (32–35 units)

- a) GEO 160, GEO 161
- b) Three of GEO 136, GEO 137, GEO 162, ENSC 102
- c) Three additional classes from GEO 100, GEO 101, GEO 116, GEO 118, GEO 122, GEO 132, GEO 136, GEO 137, GEO 140, GEO 144, GEO 145, GEO 147, GEO 151, GEO 152, GEO 162, GEO 169, STAT 100A, STAT 100B

Geobiology Concentration

1. Lower division requirements (8 units)

- a) BIOL 005B, BIOL 005C

2. Upper division requirements (32–35 units)

- a) GEO 151 and GEO 152/BIOL 152
- b) Three of GEO 136, GEO 137, GEO 161, GEO 169, ENTM/BPSC/BIOL 112, BIOL 151
- c) Three additional classes from GEO 100, GEO 101, GEO 116, GEO 118, GEO 122, GEO 132, GEO 136, GEO 137, GEO 140, GEO 144, GEO 145, GEO 147, GEO 160, GEO 161, GEO 162, GEO 169, STAT 100A, STAT 100B

Geophysics Concentration

1. Lower division requirements (5 units)

- a) PHYS 002C and PHYS 002LC, or PHYS 040C

2. Upper division requirements (33–37 units)

- a) GEO 140, GEO 145

- b) Three of GEO 116, GEO 118, GEO 144, GEO 147

- c) Three additional classes from GEO 100, GEO 101, GEO 116, GEO 118, GEO 122, GEO 132, GEO 136, GEO 137, GEO 144, GEO 147, GEO 151, GEO 152, GEO 160, GEO 161, GEO 162,

GEO 169, STAT 100A, STAT 100B

Geology Major

All courses in Geosciences that are prerequisites for other courses in the major must be passed with a grade of "C-" or better before proceeding in the sequence. For example, GEO 001 is a prerequisite for GEO 122.

All students majoring in Geology are normally required to take the core curriculum.

1. Lower-division requirements (43–44 units)

- a) GEO 001, GEO 002 or GEO 009 or GEO 011, GEO 003/BIOL 010
- b) BIOL 002 or BIOL 005A, BIOL 05LA (or BIOL 020)
- c) Either CHEM 001A and CHEM 01LA or CHEM 01HA and CHEM 1HLA, either CHEM 001B and CHEM 01LB or CHEM 01HB and CHEM 01HLB
- d) MATH 007A or MATH 009A or MATH 009HA, MATH 007B or MATH 009B or MATH 009HB, MATH 046
- e) PHYS 040A, PHYS 040B or PHYS 002A and PHYS 02LA, PHYS 002B and PHYS 02LB

Students interested in elective classes in Geophysics are recommended to take PHYS 040C (if they have previously taken PHYS 040A and PHYS 040B), or PHYS 002C and 02LC (if they have previously taken PHYS 002A and PHYS 02LA and PHYS 002B and 02LB). Students interested in elective classes in Geochemistry are recommended to take CHEM 001C and CHEM 01LC.

2. Upper-division requirements (47–49 units)

- a) GEO 100, GEO 101, GEO 102A, GEO 102B, GEO 111, GEO 115, GEO 116, GEO 118, GEO 122
- b) Two of GEO 123, GEO 124, GEO 132, GEO 136, GEO 137, GEO 140, GEO 144, GEO 145, GEO 147, GEO 151, GEO 152, GEO 157, GEO 160, GEO 161, GEO 162, GEO 169, STAT 100A or STAT 155

Students interested in pursuing professional licensure through the California Geologist In Training (GIT) examination should consider taking GEO 132 and GEO 162 as their elective classes

Geophysics Major

The following are major requirements for the B.S. in Geophysics. All students majoring in Geophysics are normally required to take this core curriculum.

1. Lower-division requirements (52–66 units)

- a) GEO 001 and one of GEO 004 or GEO 008
- b) MATH 007A or MATH 009A or MATH 009HA, MATH 007B or MATH 009B or

MATH 009HB, MATH009C, MATH 010A, MATH 031, MATH 046

- c) PHYS 040A, PHYS 040B, PHYS 040C (strongly recommended), or PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, PHYS 02LC

- d) CS 010 or CS 030

CHEM 001A, CHEM 001LA, CHEM 001B, CHEM 001LB, MATH 010B are recommended as prerequisites for upper division electives in geology and geophysics, and for students looking to earn a teaching credential for high school science.

2. Upper-division requirements (46–51 units)

- a) GEO 111, GEO 115, GEO 116, GEO 140, GEO 145
- b) One of GEO 144 or GEO 147
- c) Five of GEO 100, GEO 101, GEO 118, GEO 122, GEO 132, GEO 144 OR GEO 147, GEO 157, PHYS 130A, PHYS 130B, PHYS 132 OR PHYS 134, PHYS 135A, PHYS 135B, PHYS 136, PHYS 139L, PHYS 177, MATH 120, MATH 131, MATH 132, MATH 135A, MATH 135B, MATH 146A, MATH 146B, MATH 146C, MATH 147, MATH 149A OR STAT 160A, MATH 149B or STAT 160B, or STAT 160C, MATH 168, STAT 100A or STAT 155, STAT 100B

Students wishing to continue on to graduate school may wish to earn a Minor in Mathematics, Physics, Statistics, or Computer Science, requiring an additional 24 upper division units of study, and/or completion of a Senior Thesis, which includes up to 9 units of independent research.

Minor

Students who wish to Minor in Geology, Geophysics or Global Climate Change must complete 20–28 units of organized upper division courses in Geosciences. A minimum of 16 of these units must be unique to the minor and cannot be used to satisfy major requirements. To satisfy prerequisites, additional preparatory coursework in Earth and Planetary Sciences and other sciences (Biology, Chemistry, Mathematics, Physics) may be required.

Minor in Geology: GEO 001, GEO 115; plus 15–23 additional upper division Geosciences units.

Minor in Geophysics: GEO 001; GEO 140; plus 16–24 additional units taken from GEO 115, GEO 116, GEO 132, GEO 144, GEO 145, and GEO 190.

Minor in Global Climate Change: GEO 001 or GEO 002; GEO 011; GEO 160; plus 16–24 additional upper division Geoscience units.

Before submitting a petition for a Minor to the college, students interested in pursuing a Minor in Geology or Geophysics or Global Climate Change must consult with the undergraduate faculty advisor in Earth and Planetary Sciences.

Graduate Programs

The Department of Earth and Planetary Sciences offers the M.S. and Ph.D. in Geological Sciences.

Graduate education in the Geological Sciences

emphasizes general geology combined with specialization in fields such as evolutionary paleobiology, invertebrate and vertebrate paleontology, Quaternary geology, neotectonics, applied geophysics, geotectonics, crustal processes, geochemistry, groundwater, mineral deposits, stratigraphy, sedimentology, sedimentary geochemistry, basin analysis, landscape ecology, fire ecology, and natural resource conservation. Integrated field and laboratory studies are encouraged.

Admission

An undergraduate degree in geology or geophysics is the normal preparation for graduate work; however, a degree from a related field of science or engineering is often appropriate. Applicants to graduate status must supply GRE General Test (verbal, quantitative, analytical) scores before admission.

Master's Degree

In addition to the general requirements listed under the Graduate Studies section of this catalog, the requirements for the M.S. degree in Geological Sciences, under the Plan 1 (Thesis), are as follows.

Admission

Students must make up any deficiency in preparation. The background required is course preparation equivalent to the bachelor's degree in Geology or Geophysics at UCR. Courses taken to remedy background deficiencies are not applicable to the graduate degree. Such courses are designated in the letter of admission to the program sent by the dean of the Graduate Division to the student.

Biannual Reviews

All students must undergo biannual reviews by the departmental Graduate Progress Committee. A student's progress is assessed in these reviews, and the committee may recommend changes in a student's plans after these reviews.

Course Work

All students must enroll each quarter in the Graduate Seminar in Geosciences (GEO 250). Students must attend the weekly Hewett Club lecture series.

Students must complete a minimum of 36 units of course work in the major and related subjects and obtain advance approval of a coherent plan of study from the graduate advisor.

A maximum of 12 upper-division units beyond the requirements for the bachelor's degree may be applied to the 36-unit requirement. Students must complete a minimum of 12 units of graduate courses, which must include at least four graduate-level instructional courses taught by four different faculty members as approved by the graduate advisor.

Subject to the approval of the graduate advisor, a limited number of upper-division courses in the major and related sciences, if not required for the bachelor's degree and not taken previously, may be accepted for graduate credit.

Thesis and Final Oral Examination

Before the end of the third quarter of study and before embarking on research, the student must submit a written thesis proposal to the graduate progress committee. After approval of the pro-

posal, the student must submit a thesis based on original work for approval by a thesis committee. A maximum of 12 units of thesis research may be counted toward the 36-unit minimum.

Students present an open research seminar as a final oral examination, which is advertised to all the students and faculty in the Earth and Planetary Sciences Department.

Normative Time to Degree

7 quarters

Global Climate and Environmental Change (GCEC)

The GCEC MS track is a field and laboratory based multidisciplinary program focused on the evidence for and controls of past and present climate change. Candidates must complete the following:

Course Work

Students must complete a minimum of 36 quarter units of graduate and upper-division undergraduate courses, and research credit from 1 and 2 (below). Other upper-division undergraduate and graduate classes outside may be substituted with consent of the Graduate Advisor. 24 of 36 credits must be graduate level.

- 1) Required Core courses: GEO 224 upon entry into the program, GEO 260 and BIOL 212/ENTM 212/GEO 212.
- 2) At least two additional disciplinary courses: GEO 221, GEO 239, GEO 249, GEO 251, GEO 255, GEO 264, GEO 265, GEO 268, GEO 301, OR ENSC 200, ENSC 218, ENSC 224, ENSC 225, ENSC 232.

Thesis Work

Before the end of the third quarter students must nominate a faculty advisor and identify a thesis topic. Before embarking on research the student must submit a thesis proposal based on original work for approval by a thesis committee. A maximum of 8 units of research credit can be counted toward the 36 unit minimum. Students present an open research seminar as a final oral examination.

Doctoral Degree

The Department of Earth and Planetary Sciences offers the Ph.D. in Geological Sciences. In addition to the general university requirements of the Graduate Division as found in the Graduate Studies section of this catalog, the Ph.D. in Geological Sciences normally requires the following.

Biannual Reviews

All students meet with the Graduate Progress Committee during their first week at UCR to discuss general interests, goals, and plans. The committee recommends courses designed to prepare a student for research and to correct deficiencies in background. This committee also reviews a student's progress biannually and may recommend transfer to the master's program if normal progress is not maintained.

Course Work

Students must complete at least four graduate-level instructional courses taught by four different faculty members as approved by the graduate advisor. Up to four 100 level classes can count subject to Graduate Advisor approval. Course work used in satisfaction of the M.S. degree may be accepted with the graduate

advisor's approval. All students must enroll each quarter in the Graduate Seminar in Geosciences (GEO 250). Students are also required to attend the weekly Hewett Club lecture series.

Written and Oral Qualifying Examinations

Students must write two research proposals. The proposal topics must be approved by an examination committee to ensure breadth. The committee reviews the proposals and, if acceptable, recommends proceeding to the oral qualifying examination. An oral examination committee appointed by the dean of the Graduate Division examines the adequacy of the student's preparation to conduct the proposed research. Advancement to candidacy in the Ph.D. program follows successful completion of the oral examination.

All Ph.D. candidates must satisfy the course requirements and have passed their written and oral qualifying exams within two years of entering the program, otherwise they will not be eligible to continue in the Ph.D. track. Exceptions can only be granted by the Graduate Advisor or by the Chair.

Dissertation and Final Oral Examination

A dissertation normally evolves from one of the research proposals. The dissertation must present original scholarly work and be approved by a dissertation committee before the student may take the final oral examination. Students must have satisfactory performance on the final oral examination given by the dissertation committee. Major emphasis in this examination is on the dissertation and related topics.

Normative Time to Degree from the B.S.

17 quarters

Lower-Division Courses

GEO 001 The Earth's Crust and

Interior 4 Lecture, 3 hours; laboratory, 3 hours; one 1-day field trip. Prerequisite(s): none. An introduction to the physical development of the Earth. Emphasis will be on Earth materials (rocks and minerals), processes (weathering, erosion, mountain building), structures (folds and faults), and current theories regarding the Earth's crust and interior.

GEO 002 Earth's Climate Through

Time 4 Lecture, 3 hours; laboratory, 3 hours; one 2-day field trip. Prerequisite(s): none. An introduction to the history of Earth's changing climate and its relationship to the evolution of life on human to geologic time scales. Topics include the interrelationships among short- and long-term carbon cycling; plate tectonics; ocean and atmosphere circulation; and greenhouse gases through time.

GEO 003 Headlines in the History of

Life 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. Evolution of life beginning with precellular life. Topics include the origin of sex, multicellularity, vertebrate classes, morphological specializations, adaptive radiations, extinction dynamics, and the biology of dinosaurs. Cross-listed with BIOL 010.

GEO 004 Natural Hazards and

Disasters 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL 001A or equivalent (may be taken concurrently). Application of basic

principles of climate and geology to recognition of natural hazards and their mitigation. Topics include fires, freezes, floods, winds, landslides, volcanic eruptions, earthquakes and tsunamis. Emphasis is on confronting hazards of concern to home-buyers, planners, and conservationists in the western United States, especially southern California.

GEO 005 Geoscience in Movies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to Earth, Atmospheric and Planetary Sciences using movies as support for visual learning. Topics include: Earth structure and tectonic processes, climate change, impact craters and space exploration. Lectures: Earth science concepts and their portrayal in movies. Weekly assignments: reading from the class textbook, scientific magazines and journals; viewing films.

GEO 007 Minerals and Human Health 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introductory overview of the role of minerals in human life and industrial activities. Topics include the impact of minerals on human health, the role of minerals in modern technologies, asbestos and silica problems, occupational diseases caused by inhalation of mineral dust, and environmental protection in California. May include a field trip.

GEO 008 Earthquake Country 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the study of earthquakes and the problems of living in earthquake country. Why earthquakes occur, how they are recorded, and what the effects are on man and his structures. The scientific and social consequences of earthquake prediction.

GEO 009 Oceanography 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A general introduction to the geological, physical, chemical, and biological processes related to the characteristics and evolution of the ocean system. Explores the role oceans play in regulating climate and the cycling of elements on the Earth's surface. Illustrates how the ocean system has been, and continues to be, one of the most important influences on life. Credit is awarded for only one of GEO 009 or GEO 009H.

GEO 009H Honors Oceanography 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to GEO 009. A general introduction to the geological, physical, chemical, and biological processes related to the characteristics and evolution of the ocean system. Explores the role oceans play in regulating climate and the cycling of elements on the Earth's surface. Illustrates how the ocean system has been, and continues to be, one of the most important influences on life. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of GEO 009 or GEO 009H.

GEO 010 Earth Resources and Sustainability 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the occurrence, availability, marketing, and usage of metals, minerals, fossil fuels, nuclear fuels and other geologic resources, including both historic and recent trends. Addresses

conflicts between modern society's need for increasingly scarce resources and mounting environmental problems. Also covers achieving sustainability through conservation, recycling, and substitution.

GEO 011 Global Climate Change 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides an understanding of Earth's feedback systems that regulate the climate over long- and short-term time scales. Includes oceanic and atmospheric circulation patterns, the major reservoirs and global carbon cycle, and the influence and origin of greenhouse gases. Investigates sustainability, climate change policies, adaptation, and mitigation. Credit is awarded for only one of GEO 011 or GEO 011H.

GEO 011H Honors Global Climate Change 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to GEO 011. Provides an understanding of Earth's feedback systems that regulate the climate over long- and short-term time scales. Includes oceanic and atmospheric circulation patterns, the major reservoirs and global carbon cycle, and the influence and origin of greenhouse gases. Investigates sustainability, climate change policies, adaptation, and mitigation. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of GEO 011 or GEO 011H.

GEO 012 At Home in the Universe 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Considers the place of humans in space and time and the means by which this is discerned. Presents a synopsis of the history of the cosmos, Earth, life, and humanity from a science-based perspective. Discuss the implications of such knowledge for how responsible individuals choose to conduct themselves.

GEO 080 Astrobiology: the Search For Life in the Universe 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. Are we alone in the universe? This basic human question, once solely the domain of philosophy and science fiction, is now a field of considerable scientific research. Lecture and lab topics include the history of life on Earth, habitability in the solar system, and discovery of planets around other stars.

Upper-Division Courses

GEO 100 Igneous and Metamorphic Petrology 5 Lecture, 3 hours; laboratory, 6 hours; four field trips. Prerequisite(s): GEO 115 and GEO 122 with grades of "C-" or better. An introduction to the nomenclature and classification of igneous and metamorphic rocks. Includes identification of the major rock-forming minerals and common rocks in hand samples and thin sections, as well as interpretation of rock fabrics and textures. Explores tectonic setting and the origins of major rock types.

GEO 101 Field Geology 5 Lecture, 2 hours; weekly 1-day field trips. Prerequisite(s): GEO 115 with a grade of "C-" or better or consent of instructor for concurrent enrollment. Introductory course in field geology. Covers methods of mapping igneous, metamorphic, and sedimentary rocks. Includes construction of

planimetric and topographic maps, use of aerial photographs, and instruction in basic surveying techniques.

GEO 102A Summer Field Geology 8 Field, 240 hours per quarter. Prerequisite(s): GEO 100, GEO 101, GEO 116, and GEO 118 with grades of "C-" or better (GEO 100, GEO 101, GEO 116, and GEO 118 may be taken concurrently) or consent of instructor. Intensive field training in the collection, interpretation, and communication of geologic data. Covers advanced geological mapping, sections, and production of professional geological reports through applied, field-based projects. Course series requires multi-week fieldwork in summer. Course materials fee charged. GEO 102B the field component is required.

GEO 102B Summer Field Geology 1 Field, 30 to 240 hours per quarter. Prerequisite(s): GEO 100, GEO 101, GEO 116, and GEO 118 with grades of "C-" or better or consent of instructor. Intensive field training in the collection, interpretation, and communication of geologic data. Covers advanced geological mapping, sections, and production of professional geological reports through applied, field-based projects. Course series requires multi-week fieldwork in summer. Course materials fee charged. Graded In Progress (IP) with GEO 102A.

GEO 111 Numerical Skills in Geoscience 4 Lecture, 3 hours; laboratory, 3 hours; term paper, 1 hour. Prerequisite(s): MATH 009C An introduction to computer programming and numerical modelling. The class will teach the basic principals of how computer programs are written and numerical models constructed, and provide data processing and visualization skills. The class will hence foster an ability to apply numerical techniques to problems in Earth and Environmental Sciences.

GEO 115 Geologic Maps and Landforms 5 Lecture, 2 hours; laboratory, 6 hours; field, 30 hours per quarter. Prerequisite(s): GEO 001, may be taken concurrently; MATH 005 or MATH 006B or MATH 007A or MATH 009A or MATH 09HA. Examines characteristic patterns of bedrock outcrops, surficial deposits, the related landforms, and their representation on maps. Covers unconformities, folds, faults, intrusions, alluvial fans, river terraces, and landforms indicative of glaciers, volcanoes, landslides, and earthquakes. Applies map information to resource and hazard evaluation.

GEO 116 Structural Geology 5 Lecture 2, Laboratory 6, Field Trip 8 To 16, Prerequisite(s): GEO 115 with a grade of "C-" or better; PHYS 002A or PHYS 02HA or PHYS 040A or PHYS 040HA; or consent of instructor. Examines geological structures in the field. Covers the graphical solution of structural problems and laboratory map study, the genesis of rock structures, the physics of rock deformation, and Mohr diagrams and elementary stress analysis.

GEO 118 Sedimentology and Stratigraphy 5 Lecture, 2 hours; laboratory, 6 hours; two 1-day and one 2-day field trips. Prerequisite(s): GEO 115 with a grade of "C-" or better. A study of the principles of sedimentology and the comparative study of the origins of sediments and sedimentary rocks from

various modern and ancient clastic, carbonate, and mixed siliciclastic-carbonate depositional environments. Emphasizes field and stratigraphic relationships, as well as petrographic and hand specimen identification.

GEO 122 Mineralogy 5 Lecture, 3 hours; laboratory, 5 hours; field trip, 8 to 16 hours per quarter. Prerequisite(s): both CHEM 001B and CHEM 01LB or both CHEM 01HB and CHEM 1HLB (CHEM 001B, CHEM 01LB, CHEM 01HB, and CHEM 1HLB may be taken concurrently); GEO 001 with a grade of "C-" or better. Provides an introduction to common and important minerals and their identification using structural, crystallographic, and optical microscopy methods. Stresses distinctive structural and chemical features, diagnostic physical and optical properties, anthropogenic uses, commonly associated minerals, and the growth and development of minerals in various geologic environments.

GEO 123 Analytical Mineralogy 5 Lecture, 3 hours; laboratory, 6 hours. Prerequisite(s): both CHEM 001C and CHEM 01LC or both CHEM 01HC and CHEM 1HLC; GEO 122 with a grade of "C-" or better. Advanced techniques in mineralogy. Covers optical crystallography, with an introduction to X-ray diffraction, electron microscopy, and other analytical techniques.

GEO 124 Advanced Petrogenesis 4 Lecture, 2 hours; laboratory, 6 hours; two 1-day field trips. Prerequisite(s): GEO 100 with a grade of "C-" or better. Explores advanced topics in the petrogenesis of igneous and metamorphic rocks in the Earth's crust and mantle. Examines field and structural relationships of crystalline rocks and how thermodynamics, experimental phase equilibria, and computer modeling are used to study petrogenesis. Each student completes a field and laboratory research project and prepares a written and oral report on the project.

GEO 132 Groundwater Geology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHEM 001B and CHEM 01LB or CHEM 01HB and CHEM 1HLB; MATH 007B or MATH 009B or MATH 09HB; PHYS 002A or PHYS 02HA or PHYS 040A or PHYS 040HA. Covers the character of waters in geologic media; including the chemical nature of groundwater and geothermal fluids; principles of fluid flow in sediments and rocks; chemical reactions between solutes and geologic media; contaminant migration in groundwater; behavior of geothermal fluids; modeling of groundwater and geothermal fluid flow in geologic media.

GEO 136 Introduction to Molecular and Petroleum Geochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): both CHEM 001C and CHEM 01LC or both CHEM 01HC and CHEM 1HLC or equivalents; a grade of "C-" or better in one of the following courses: GEO 001, GEO 002, GEO 009 or GEO 011. Explores the global carbon cycle and the origin and fate of organic carbon molecules throughout Earth's history. Covers production and composition of biogenic matter and microbial, chemical, and thermal processing of sedimentary organic matter, leading to oil, gas, and coal formation. Addresses important applications to the petroleum and environmental sectors.

GEO 137 Geochemistry of Natural

Waters 4 Lecture, 3 hours; laboratory, 30 hours per quarter. Prerequisite(s): both CHEM 001C and CHEM 01LC or both CHEM 01HC and CHEM 1HLC or equivalents; a grade of "C-" or better in one of the following courses: GEO 001, GEO 002, GEO 009 or GEO 011. Examines the chemical principles of geologic processes at and near Earth's surface. Topics include biogeochemical cycles of elements during chemical interactions of the Earth's crust, hydrosphere, and atmosphere; applications of thermodynamics and kinetics to the study of low-temperature geologic systems; and the use of isotopic techniques in tracing geologic processes.

GEO 138 Pedology 4 Lecture, 3 hours; laboratory, 6 hours; field, 24 hours. Prerequisite(s): ENSC 100; GEO 001; or consent of instructor. Covers the study of soils in natural environments. Examines how soils form and their roles within ecosystems and landscapes. Topics include soil variability, soil classification, and soils as indicators of environmental conditions. Field trips emphasize description and interpretation of soils. Requires two 3-hour Laboratory activities and four 6-hour Field Trips. Cross-listed with ENSC 138.

GEO 139 Soils and Landforms of California 1 Term paper, 6 hours; field, 24 hours. Prerequisite(s): ENSC 138, may be taken concurrently or GEO 138, may be taken concurrently; or consent of instructor. Explores the genesis, morphology, and classification of California soils with an emphasis on soil-landform relationships. One three-day field trip focuses on soils and landforms within selected regions of California. Cross-listed with ENSC 139.

GEO 140 Global Geophysics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): GEO 001 with a grade of C- or better; MATH 046; PHYS 002C or PHYS 02HC or PHYS 040C or PHYS 040HC; or consent of instructor. Introduces central concepts of solid earth geophysics as applied at the global or planetary scale. Includes plate tectonics and dynamics of the lithosphere; seismology and earth structure; geothermal behavior and heat flow; and geodynamics and planetary geophysics.

GEO 144 Earthquake Seismology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): MATH 010A, MATH 010B, MATH 046, PHYS 002C or PHYS 02HC or PHYS 040C or PHYS 040HC; or consent of instructor. Introduction to the theories and observations of earthquake seismology. Student utilizes physical principles and mathematical techniques to study the earthquake process, wave propagation, and ground motion. Laboratory emphasizes computer-assisted analysis of various types of seismic data as well as simple modeling techniques.

GEO 145 Applied and Exploration Geophysics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): GEO 001 with a grade of "C-" or better; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC or PHYS 040C or PHYS 040HC; or consent of instructor. Introduces applied geophysical methods used to explore and characterize the shallow subsurface. Topics include gravity,

magnetism, seismic reflection and refraction, electrical resistivity, electromagnetism, and ground penetrating radar. Explores techniques to solve problems related to groundwater, as well as environmental, mineral, and petroleum exploration and engineering issues. Requires a weekend field trip.

GEO 147 Active Tectonics and Remote Sensing 4 Lecture, 2 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): GEO 001, GEO 115; or consent of instructor. A computer-based course that introduces active tectonics and the earthquake cycle and how they are studied using remote sensing data. Explores examples of actively deforming areas from around the world using computer visualization software and freely available data sources (satellite imagery, digital topography, GPS and earthquake data).

GEO 151 Principles of Paleontology 4 Lecture, 3 hours; laboratory, 3 hours; one 1-day field trip. Prerequisite(s): BIOL 010/GEO 003 with a grade of "C-" or better or BIOL 005C. Emphasis is on understanding fossils as living organisms. Topics include fundamentals of evolution and the fossil record, introductory morphometrics and biosystemic theory, functional morphology, and metazoan organization and classification.

GEO 152 Principles of Invertebrate Paleobiology and Paleocology 4 Lecture, 2 hours; laboratory, 3 hours; three 1-day field trips. Prerequisite(s): BIOL 005C with a grade of "C-" or better or BIOL 010/GEO 003 with a grade of "C-" or better. Topics include evolution and the fossil record, paleocology, classification theory; the nature of adaptive radiations, and extinctions. Cross-listed with BIOL 152.

GEO 157 Introduction to Geographical Information Science 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing. Introduces the fundamental theory and application of geographical information science. Topics include geographic information systems, data structures, databases, and spatial data models. Explores various spatial data, including their coordinate systems, data acquisition, and associated errors. Introduces data analysis methods within geographical information systems.

GEO 158 Advanced Geographic Information System (gis) 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): GEO 157 or consent of instructor. Multidisciplinary applications of GIS analysis techniques including vector, grid, image, surface, and network systems. Covers photogrammetry and processing of remotely sensed imagery emphasizing data quality and error assessment. Introduction to graphical programming tool, ModelBuilder, and Python scripting language for automation and customization of tasks. No previous programming experience assumed.

GEO 160 Global Climate Change 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor; PHYS 002B or PHYS 02HB or PHYS 040B or PHYS 040HB recommended. Surveys historical and paleoclimate change using basic principles on gas laws, radiant energy exchange, atmospheric circulation and oceanography, and

proxy data. Topics include variability in modern climate, greenhouse gases, global warming, El Niño, Pacific decadal oscillation, ozone hole, volcanism, ice age climate, and Milankovitch cycles. Also covers stable isotope profiles, plate tectonics, greenhouse climates, paleovegetation, modern species diversity, and snowball Earth.

GEO 161 Cenozoic Climate Change 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): one of the following courses with a grade of "C-" or better; GEO 001 or GEO 002 or GEO 009 or GEO 011. Examines physical, chemical, and biological evidence of climatic and environmental change throughout the Cenozoic Era (last 65 million years) to provide a framework for understanding natural environmental change and for predicting future change. Introduces students to computer-based numerical methods of data analysis for interpreting past records of environmental change.

GEO 162 Geomorphology 4 Lecture, 2 hours; laboratory, 6 hours; one 2-day field trip. Prerequisite(s): ENSC 100 or GEO 115 (ENSC 100 or GEO 115 may be taken concurrently); or consent of instructor. A study of surficial processes related to the development and evolution of landforms and landscapes at the Earth's surface. Examines weathering, erosional, and depositional processes in a variety of landscapes (tectonic, volcanic, arid, karst, fluvial, glacial, coastal, anthropogenic, planetary, etc.). An emphasis is placed on processes and landscapes important to California.

GEO 167 Conservation Biogeography 4 Lecture, 3 hours; laboratory and field, 3 hours. Prerequisite(s): BIOL 005C with a grade of "C-" or better or BIOL 010/GEO 003 with a grade of "C-" or better. Application of biogeographic and ecological theories in the conservation of plants, animals, and wildlands. Topics include biological preserve design, ecological consequences of land development, and wildlife-habitat relationships.

GEO 169 California Vegetation 4 Lecture, 3 hours; laboratory, 3 hours; two 1-day field trips. Prerequisite(s): BIOL 005C with a grade of "C-" or better or BIOL 010/GEO 003 with a grade of "C-" or better. Survey of the flora, distribution, and ecology of California ecosystems, including Mediterranean shrubland, conifer forests, desert scrub, valley forbs, and exotic grasslands. Discusses vegetation in relation to climate, physiography, fire, landscape steady states, biological invasions, paleobotany, and broad-scale change due to land development, invasive species, grazing, and fire suppression.

GEO 180 Exoplanetary Science Detection

Tech 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB; PHYS 040B or PHYS 002B; PHYS 117 or GEO 111; Restricted to class level standing of junior, or senior; or consent of instructor. Covers the rapid expansion of the subject of exoplanets, the discoveries of which now number in the thousands and include planets smaller than Earth. Topics include solar system formation, the history of exoplanetary science, orbital mechanics, detection methods, orbital ephemerides, host stars, and future exoplanet space missions.

GEO 181 Exoplanetary Science

Characterization 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB; PHYS 040B or PHYS 002B; PHYS 117 or GEO 111; GEO 180; Restricted to class level standing of junior, or senior; or consent of instructor. Covers the detailed characterization of exoplanets including new discoveries that are being made from past and present exoplanet missions. Topics include orbital dynamics and architectures, tidal effects, planet formation, circumbinary planets, phase variations, planetary atmospheres, exomoons, and future exoplanet space missions.

GEO 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum of 9 units.

GEO 191 Undergraduate Seminar in Geological Sciences 1 Seminar, 1 hour. Prerequisite(s): open to upper division Geological Sciences majors only. For undergraduate students who desire formal participation in the weekly departmental seminar. In addition to attending the seminar, students must write abstracts describing two of the presentations. May be repeated to a total of 6 units.

GEO 195A Senior Thesis 3 to 5 Hours per week to be established by supervisor. Prerequisite(s): senior status; consent of instructor. Preparation of a thesis based upon supervised field and/or laboratory research and literature review in the geological sciences. The thesis may be undertaken as a one-, two-, or three-quarter sequence. Total credits for GEO 195A, GEO 195B, and GEO 195C may not exceed 9 units.

GEO 195B Senior Thesis 3 to 5 Hours per week to be established by supervisor. Prerequisite(s): senior status; consent of instructor. Preparation of a thesis based upon supervised field and/or laboratory research and literature review in the geological sciences. The thesis may be undertaken as a one-, two-, or three-quarter sequence. Total credits for GEO 195A, GEO 195B, and GEO 195C may not exceed 9 units.

GEO 195C Senior Thesis 3 to 5 Prerequisite(s): senior status; consent of instructor. Preparation of a thesis based upon supervised field and/or laboratory research and literature review in the geological sciences. The thesis may be undertaken as a one-, two-, or three-quarter sequence. In the case of a two- or three-quarter sequence, the final grade will be deferred until completion of the last quarter. Total credits for GEO 195A, GEO 195B, and GEO 195C may not exceed 9 units.

GEO 198I Independent Internship 1 to 12

Field, 3 to 36 hours. Prerequisite(s): consent of instructor, undergraduate advisor, and department chairman. Independent study in a surrogate job condition under non-university supervision. Internships are normally in public or private institutions such as planning departments, research labs, or industry. Position, task, method of reporting completion and accomplishments, and units must have prior agreement among student, instructor, and supervisor. One unit for every three hours per week spent in internship. Graded Satisfactory (S) or No Credit (NC).

Graduate Courses

GEO 201A Research and Proposal

Design 2 Seminar, 1 hour; written work, 3 hours. Prerequisite(s): graduate standing. Teaches the fundamentals of research topic selection and development of hypotheses. Addresses presentation techniques and design of research projects, experiments, and field campaigns. Includes preparation and discussion of small grant proposals, as well as short oral presentations related to applicable areas of study. Graded Satisfactory (S) or No Credit (NC).

GEO 201B Proposal Writing and

Review 2 Seminar, 1 hour; written work, 3 hours. Prerequisite(s): graduate standing, GEO 201A; or consent of instructor. Covers the writing and review processes for major grant proposals. Includes the preparation, review, ranking, and summarizing of full-length federal grant proposals in accordance with federal panel guidelines. Graded Satisfactory (S) or No Credit (NC).

GEO 203 Mineral Equilibria 4 Lecture, 4 hours. Prerequisite(s): GEO 137 or consent of instructor. Applications of thermodynamics and kinetics to evaluating equilibria among minerals and fluids in geological environments. Emphasis placed on equilibria in geothermal systems, ore deposits, metamorphic and igneous rock, and groundwater.

GEO 205 Geohydrology 4 Lecture, 3 hours; laboratory, 3 hours; one 1-day field trip. Prerequisite(s): GEO 132 or ENSC 163. Fluid flow in geologic media; resource evaluation; and relevant geologic hazards and geotechnical problems.

GEO 206A Stratigraphy 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): GEO 118; consent of instructor. Covers rock stratigraphy and time stratigraphy with an emphasis on their principles, history, and methods. Includes reading and analysis of pertinent literature and field trips.

GEO 206B Stratigraphy 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): GEO 118; consent of instructor. Covers time stratigraphy and biostratigraphy with an emphasis on their principles, history, and methods. Includes reading and analysis of pertinent literature and field trips.

GEO 212 Ecological Systems in Space and

Time 4 Lecture, 3 hours; field, 30 hours per quarter. Prerequisite(s): one upper-division undergraduate course in population or community ecology or paleoecology; or consent of instructor. Focuses on how ecological systems are interpreted and reconciled at the community, landscape, and paleontological scales. Addresses the role of extrinsic factors operating at each of these scales. Also examines the historical development of our understanding of ecological systems at various scales. Cross-listed with EEOB 212, and ENTM 212.

GEO 219 Theory of Systematics 4 Lecture, 4 hours. Prerequisite(s): BIOL 112/BPSC 112/ ENTM 112 or equivalent or consent of instructor. Examines topics developed around a series of classical and recent papers on the principles, philosophy, and methodology of modern

systematics and phylogenetic methods. Cross-listed with EEOB 219, and ENTM 219.

GEO 221 Electron Microscopy and

Microanalysis 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to electron microscopy and microanalysis of inorganic solids including minerals and synthetic materials. Students learn the physical principles, strengths, and limitations of the method. Laboratory provides hands-on experience with scanning and transmission electron microscopes and interpretation of images and data.

GEO 223 Seminar in Geobiology 1 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Lectures, discussions and demonstrations by students, faculty and invited scholars on current research topics in Geobiology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEO 224 Sierran Studies: the Paleoclimate Record of the Sierra 4 Field, 90 hours per quarter; term paper, 3 hours. Prerequisite(s): graduate standing. A study of climate change in the Sierra Nevada Mountains, extending from Precambrian glacial sediments to modern glaciers. Utilizes field evidence to access the controls of climate and determine the resolution and limitations of the physical record. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topics change to a maximum of 8 units.

GEO 225A Geology of Carbonate

Rocks 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): GEO 118; consent of instructor. Covers characterization, recognition, and interpretation of carbonate rocks. Laboratory work includes study of polished and thin sections of selected suites of rocks.

GEO 225B Geology of Detrital Rocks 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): GEO 118; consent of instructor. Covers characterization, recognition, and interpretation of detrital rocks. Laboratory work includes study of polished and thin sections of selected suites of rocks.

GEO 240 Seminar in Earthquake Processes and Geophysics 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores selected contemporary topics in the areas of earthquake and fault processes, geophysics, active tectonics, and seismology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

GEO 241 Advanced Field Geophysics 14 Lecture, 10 hours; laboratory, 1 hours; field, 14 hours. Prerequisite(s): GEO 140; proficiency in a word processing, spread sheet, or programming language. Advanced applications of modern geophysical field techniques to the solution of complex geological problems, using seismic refraction and reflection, electrical and electromagnetic, potential field, and well-logging methods.

GEO 242 Numerical Methods and Modeling in the Geosciences 4 Lecture, 3 hours; laboratory, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor.

Covers numerical computing methods and their application to problems of geological and geophysical interest. Methods include linear least-squares, matrix factorization, decomposition and inversion, nonlinear optimization, and Monte Carlo analysis and data visualization and their implementation in the MATLAB language. Applications include time series analysis, seismic tomography, and geodetic data inversion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEO 243A Earthquake Physics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): GEO 144, MATH 010B, PHYS 40C, basic computer programming experience; or consent of instructor. MATH 046 is recommended. An exploration of the physics of the earthquake process. Focuses on processes controlling fault slip and friction mechanics, as well as modeling the space/time characteristics of earthquake occurrence. Utilizes theoretical/analytical tools and numerical models. Includes an independent project in computer modeling.

GEO 243B Earthquake Physics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): GEO 144, MATH 010B, PHYS 040C or PHYS 040HC, basic computer programming experience; or consent of instructor. MATH 046 is recommended. An exploration of the physics of the earthquake process. Focuses on fault dynamics during the earthquake rupture and slip processes and its relationship to ground motion. Utilizes theoretical/analytical tools and numerical models. Includes an independent project in computer modeling.

GEO 244 Space Geodesy 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the study of the shape and deformation of the Earth's surface using satellite data (InSAR and GPS). Includes measuring topography and surface deformation; processing, visualization and interpretation of data; simple analytical and numerical deformation models; and applications of techniques to tectonic, volcanic, and non-tectonic problems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEO 247 Structure, Composition and Evolution of the Solid Earth 4

Lecture, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Combines geophysical and geochemical principles to constrain formation, composition, structure, and dynamics of solid Earth from core to crust. Begins with building Earth from solar system materials. Investigates core formation and continental crust creation. Explores geophysical and geochemical consequences of plate tectonic processes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEO 248 Modern Field & Visualization

Methods 4 Lecture, 3 hours; laboratory, 2 hours; field, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Provides an introduction to state-of-the-art field and 3D visualization techniques with a multidisciplinary emphasis. Teaches digital field mapping methods exportable to geographic information system (GIS) and range imaging techniques to create

3D models. Includes opportunities to utilize student-collected UAV data and a 3D printer. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEO 249 Tectonic Geomorphology and Quaternary Field Techniques 4

Lecture, 2 hours; discussion, 1 hour; four half-day and two 1-day field trips. Prerequisite(s): GEO 101 or GEO 162 or consent of instructor. Examines topics in tectonic geomorphology. Includes paleoseismology, geodesy, geochronology, landscape response, numerical modeling, and terrain analysis. Covers field techniques such as relative and calibrated dating analysis, section measurements, morpho- and lithostratigraphic analysis, and reconstruction of Quaternary events from landforms. Also addresses map constructions in fluvial, lacustrine, glacial, coastal, and eolian environments.

GEO 250 Graduate Seminar in Geological Sciences 1

Seminar, 1 hour. Prerequisite(s): graduate student status. Oral reports by graduate students, faculty, and visiting scholars on current research topics in geological sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEO 251 (E-Z) Advanced Topics in

Paleontology 3 to 5 Seminar, 3 hours; laboratory, 1 hour. Prerequisite(s): graduate standing. Selected advanced topics in paleontology. Content varies from quarter to quarter. After consultation with the instructor, students enroll in only the seminar (3 units) or in both the seminar and laboratory (4-5 units). May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 5 units.

GEO 251I Advanced Topics in Invertebrate

Paleontology 3 to 5 Seminar, 3 hours; laboratory, 0 to 6 hours. Prerequisite(s): consent of instructor. Selected advanced topics in invertebrate paleontology. Content varies from quarter to quarter. After consultation with the instructor, students enroll in only the seminar (3 units) or in both the seminar and laboratory (4-5 units). May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable.

GEO 252 Marine Paleoecology 3 Lecture, 1 hour; discussion, 1 hour; two 1-day field trips. Prerequisite(s): graduate standing. Examines fundamental principles of paleoecology and the measurement of biodiversity, abundance, and biomass from the fossil record. Covers the significance of mass extinctions, diversification events, and environments on the Earth's changing marine ecosystem. Includes taphonomy, ichnology, and field studies. Course is repeatable to a maximum of 6 units.

GEO 253 Advanced Topics in Petrology

and Geochemistry 3 to 5 Seminar, 3 hours; laboratory, 0 to 6 hours. Prerequisite(s): consent of instructor. Selected advanced topics from petrology and geochemistry of igneous, metamorphic, and sedimentary rocks. Course content varies from year to year. Course is repeatable to a maximum of 6 to 10 units.

GEO 254 Topics in Paleobiology 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores selected

contemporary topics in the area of paleobiology including evolutionary radiations, mass extinctions, paleoecology, biotic response to climate change, and the evolution of animals on planet Earth. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

GEO 255 Advanced Topics in Sedimentary

Petrology 4 Seminar, 2 hours; laboratory, 6 hours. Prerequisite(s): GEO 225A, GEO 225B. Selected advanced topics from sedimentary petrology and physical stratigraphy. Course content varies from year to year. Course is repeatable.

GEO 257 (E-Z) Advanced Topics in

Geophysics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Selected advanced topics from geophysics. Course content varies from quarter to quarter. Course is repeatable to a maximum of 12 units.

GEO 257E Geomagnetic Fields 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Covers issues in the study of geomagnetic fields from a geophysical perspective, including fundamentals of magnetohydrodynamics and plasma physics, internal and external sources of geomagnetic fields, structure and variability of the field, dynamo theory, and deep geomagnetic soundings. course is repeatable to a maximum Of 12 units.

GEO 257G Earthquake Prediction 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Reviews past and current efforts to predict earthquakes and the physics underlying those efforts. Covers laboratory experiments on rocks near failure, focused monitoring studies, probabilistic hazards modeling, and earthquake precursors. Course is repeatable to a maximum of 12 units.

GEO 257H Finite Element Methods 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Covers finite element methods to model geophysical phenomena. Topics include wave propagation, numerical fault dynamics, and hydrodynamics. Students complete a final project, which consists of writing a finite element code that solves a geophysical problem. Course is repeatable to a maximum of 12 units.

GEO 257I Inversion Theories 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Presents methods of parameter estimation applied to geophysical systems, with emphasis on underdetermined systems in Earth and Planetary Sciences. Covers applications of network theory to inverse problems, Backus-Gilbert inversion, applications of geological information as constraints, regularization of inverse problems, least squares inversion, maximum likelihood inversion, tomography, and applications of inversion theory to potential fields, seismology, and electromagnetic problems. Course is repeatable to a maximum of 12 units.

GEO 257K Rock Mechanics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Covers the flow and fracture of rocks, including stress and deformation, brittle failure, frictional sliding, and high- and low-temperature flow in the laboratory or field. Course is

repeatable to a maximum of 12 units.

GEO 259 Tectonics of California 4 Lecture, 2 hours; seminar 2, hours. Prerequisite(s): consent of instructor. Geological, geophysical, and paleontological bases of interpreting tectonic development of California, with special emphasis on southern California. Interdisciplinary approach will be emphasized. Weekly reading assignments, active participation in discussions, and appropriate field and library research will be required. Participants will prepare two papers and give presentations.

GEO 260 Global Climate Change 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): PHYS 002C or PHYS 02HC or PHYS 040C or PHYS 040HC ; or consent of instructor. Explores global climate change in historic and geologic time scales. Topics include ocean-atmosphere feedbacks, El Niño, Pacific decadal oscillation, anthropogenic CO₂, volcanism, cosmic rays, polar ozone depletion, global climate modeling, stable isotopes, "ice house" Pleistocene climates, "greenhouse" climates of the Mesozoic and Tertiary, plate tectonics, and the "snowball" Earth.

GEO 261 Atmosphere, Ocean and Climate

Dynamics Seminar 1 Discussion, 1 hour; extra reading, 1 hours. Prerequisite(s): graduate standing or consent of instructor. Explores selected contemporary topics in the areas of atmospheric science, oceanography, climate dynamics, aerosol physics, and climate change through the twentieth and twenty-first centuries. Graded Satisfactory (S) or No Credit (NC).

GEO 263 Organic and Petroleum

Geochemistry 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing; BIOL 010/GEO 003; CHEM 001C or equivalent; or consent of instructor. Explores the geologic fate of organic molecules in the sedimentary record, from fossil DNA to lipids. Addresses current analytical techniques used for detecting molecular fossils and for characterizing sedimentary organic matter. Covers topical applications of organic geochemical tools to archaeology, geobiology, paleoclimatic and paleoenvironmental reconstruction, petroleum exploration, and cosmochemistry research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEO 264 Biogeochemical Cycles Through

Time 3 Lecture, 3 hours; two to three 2-day field trips. Prerequisite(s): BIOL 010/GEO 003; CHEM 001C or equivalent; GEO 001; GEO 002; or consent of instructor. A comprehensive exploration of the major biogeochemical cycles at and near Earth's surface. Emphasis is on microbially mediated cycling of elements and isotopes within diverse sedimentary environments and the cause-and-effect relationships with the ocean and atmosphere. Explores 4 billion years of biospheric evolution in light of these cycles. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEO 265 Special Topics in Earth and

Environmental Sciences 1 to 3 Seminar, 1 to 3 hours. Prerequisite(s): graduate standing. Involves oral presentations and small-group discussions of selected topics in the areas

of biogeochemistry, global climate change, geomicrobiology, earth surface processes, and interplanetary life. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes to a maximum of 10 units. Cross-listed with ENSC 265.

GEO 268 Seminar in Biogeography 4 Seminar, 2 hours; research, 6 hours. Prerequisite(s): graduate standing. Topics include Mediterranean ecosystems, fire ecology, naturalization of exotic species, succession and ecosystem steady state theory, and mapping of vegetation.

GEO 271 Global Seismology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the fundamentals of global earthquake seismology. Covers basic theory and concepts in seismology, seismic waves, and their applications to understand earthquake source and earth structure. Includes concepts and applications of observational seismology, earthquake imaging, foreshocks, aftershocks, and earthquake triggering.

GEO 272 Array Seismology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces fundamentals of array techniques. Covers concepts and design of seismic array, techniques of array data processing, and applications. Includes hands-on training with state-of-the-art seismometers. Emphasizes the array methods and their applications to image earthquake source leading to the understanding of earthquake dynamics and underlying physics

GEO 280 Planetary Habitability 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers terrestrial planet discoveries and studies of what makes a planet habitable. Topics include habitability factors, planetary atmospheres and interiors, the role of magnetic fields, Milankovitch and geological cycles, biosignatures, and a detailed look at what can be learned from solar system bodies.

GEO 290 Directed Studies 1 to 6 Prerequisite(s): consent of instructor. Research and special studies in the geological sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEO 297 Directed Research 1 to

6 Prerequisite(s): consent of instructor. Research for individual graduate students in geological sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEO 299M Research For Master's Thesis 1 to

12 Research, 3 hours per unit. Prerequisite(s): consent of instructor. Thesis research. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEO 299P Research For Dissertation 1 to

12 Research, 3 hours per unit, Prerequisite(s): consent of instructor. Research for dissertation, arranged in consultation with the staff. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

GEO 301 Teaching of Geosciences at the College

Level 1 Seminar, 1 hour. Prerequisite(s): graduate

standing in Geological Sciences. A program of weekly meetings and individual formative evaluation required of new Teaching Assistants for Geosciences courses. Covers instructional methods and classroom/section activities most suitable for teaching Geosciences. Conducted by the Teaching Assistant Development Program. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEO 302 Teaching Practicum 1 to 4 Seminar, 1 to 4 hours; practicum, 2 to 8 hours.

Prerequisite(s): restricted to those graduate students appointed as Teaching Assistants Supervised teaching of upper and lower-division courses in Geosciences. Required of all Teaching Assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable for credit, but units not applicable toward degree unit requirements.

Majors

Economics studies the production and distribution of goods and services, as well as the way in which productive activity helps shape social existence. Economists are concerned with the factors determining national income, inflation, unemployment, output, growth and inequality (macroeconomics), as well as the behavior of individual decision-making units such as households and firms (microeconomics). Economists are also concerned with the role of markets, money and interest rates, the forces affecting international trade, and many other problems of production and distribution.

Economics is the basis for many careers, some of which require only a B.A. degree while others require more advanced work. Possible careers include business, government, education and law.

The B.A. is the most general degree offered in economics. It is appropriate background for a wide variety of purposes, including graduate study and professional schools. However, those planning to attend a graduate program in economics may need more quantitative training than the B.A. requires. Students who are considering attending a graduate program in economics should consult with their undergraduate advisor. The Business Economics B.A. degree provides more specific preparation for careers in business administration or management or for graduate work in business.

Transfer Admissions

Students transferring as juniors or seniors to UCR into any of the Economics majors must have completed a calculus course equivalent to UCR's Math 9A. The effective date of 2018 is proposed to give students the appropriate time to prepare for the proposed changes.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

MATH 009A and MATH 009B may also be used to meet breadth requirements.

Major Requirements

The Economics Department offers B.A. degrees in Economics, Business Economics, Economics/Administrative Studies, and Economics/Law and Society.

Change of Major Criteria for ECON and BSEC:

Students must be in good academic standing

at the time the Change of Major Petition is filed. AP/IB units are excluded from the maximum unit calculation. All courses listed below must be completed with grades of C- or better.

0 – 45 earned units:

MATH 006A or higher

45 – 89 earned units:

ECON 002 or ECON 003 and MATH 006B or MATH 005 or higher

90+ earned units:

ECON 002, ECON 003, and MATH 009A or equivalent

Change of Major Criteria for ECAT:

Students must be in good academic standing at the time the Change of Major Petition is filed. AP/IB units are excluded from the maximum unit calculation.

0 – 45 earned units:

MATH 006A or higher with a grade of C- or better

45 – 89 earned units:

ECON 002 or ECON 003 and MATH 006B or MATH 005 or higher with grades of C- or better

90+ earned units:

ECON 002 and ECON 003 with grades of C- or better, and MATH 009A or equivalent

Change of Major Criteria for ECLW:

Students must be in good academic standing at the time the Change of Major Petition is filed.

ECON 002 and ECON 003 with grades of C- or better, MATH 009A or equivalent, and LWSO 100 with a grade of "C" or better

Economics Major

The major requirements for the B.A. degree in Economics are as follows:

1. Lower-division requirements (4 courses [at least 18 units])
 - a) ECON 002 or ECON 002H, ECON 003 or ECON 003H with grades of C- or better
 - b) MATH 009A or MATH 09HA, MATH 009B or MATH 09HB
2. Upper-division requirements (12 courses [at least 54 units])
 - a) ECON 104A, ECON 104B
 - b) ECON 105A, ECON 105B
 - c) ECON 101, ECON 107
 - d) One four or five unit course with ECON 104B or ECON 105B or ECON 107 as a prerequisite.
 - e) Five additional upper-division courses in Economics worth 4 or 5 units each, including at least three that have either ECON 104A or ECON 105A or ECON 107 as a prerequisite. ECON 102, 103, and 190 cannot be used to meet this requirement.

Note: Up to 4 units of internship credit may be counted toward the upper-division electives in Economics.

Business Economics Major

The major requirements for a B.A. degree in

Business Economics are as follows:

1. Lower-division requirements (five courses [at least 22 units])
 - a) ECON 002 or ECON 002H, ECON 003 or ECON 003H with grades of C- or better
 - b) BUS 020
 - c) MATH 009A or MATH 09HA, MATH 009B or MATH 09HB
2. Upper-division requirements (12 courses [at least 54 units])
 - a) ECON 104A, ECON 104B
 - b) ECON 105A, ECON 105B
 - c) ECON 101, ECON 107
 - d) Five additional upper-division courses in Economics worth 4 or 5 units each, including at least two courses from ECON 108, ECON 130, ECON 135, BUS 153/ECON 153, BUS 160/ECON 160, BUS 162/ECON 162, ECON 163, ECON 102, 103, and 190 cannot be used to meet this requirement.
 - e) One course chosen from POSC 182, PSYC 142, SOC 151

Note: Up to 4 units of internship credit may be counted toward the upper-division electives in Business Economics.

Economics/Administrative Studies Major

In order to receive a B.A. degree in Economics/Administrative Studies students must fulfill the following requirements:

Economics requirements (12 courses, 55 units)

1. ECON 002 or ECON 002H, ECON 003 or ECON 003H with grades of C- or better
2. ECON 104A, ECON 104B, ECON 105A
3. Four additional upper-division courses in Economics worth 4 or 5 units each, including at least two that have either ECON 104A or ECON 105A or ECON 107 as a prerequisite. ECON 102, 103, and 190 cannot be used to meet this requirement.
4. ECON 101, ECON 107
5. One of MATH 009A, MATH 009HA, or equivalent

Note: Up to 4 units of internship credit may be counted toward the upper-division electives in Economics.

Administrative Studies requirements (37 units)

1. **Lower-division courses** (17 units)
 - a) BUS 010, BUS 020
 - b) STAT 048 or equivalent (may be used to satisfy breadth requirements)
 - c) CS 008 (may be used to satisfy breadth requirements)
2. **Upper-division requirements** (20 units)
 - a) Two courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 162/BUS 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151

- (4) POSC 181 or POSC 182 or POSC 183
- (5) ANTH 127 or ANTH 131
These two courses must be outside the discipline of Economics and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents.
- b) A three-course track (12 units) in Business Administration courses from one of the following:
 - (1) Organizations (General): BUS 100, BUS 107, BUS 176/SOC 176, BUS 158/ANTH 105, SOC 150, SOC 151
 - (2) Human Resources Management/Labor Relations: BUS 100, BUS 107, ECON 152, BUS 153/ECON 153, BUS 155, BUS 157, PSYC 142
 - (3) Business and Society: BUS 100, BUS 102, BUS 107, PHIL 116, POSC 182, POSC 186
 - (4) Marketing: BUS 103, and two from BUS 112, BUS 113, BUS 114, BUS 117
 - (5) Managerial Accounting/Taxation: BUS 108, and two from BUS 166, BUS 168A, BUS 168B
 - (6) Financial Accounting: BUS 108, BUS 165A, BUS 165B
 - (7) Finance: BUS 106/ECON 134 and two from BUS 134, BUS 136, BUS 137, BUS 138, BUS 139
 - (8) Management Information Systems: BUS 101, BUS 171, BUS 173
 - (9) Production Management: BUS 104/STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the major students may not count more than two courses toward both parts of their total requirements. (This limitation applies to specified Economics requirements and specified Administrative Studies requirements, but does not apply to the required Mathematics and Statistics courses.)

Economics/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major requirements for the B.A. degree in Economics/Law and Society are as follows:

1. Economics requirements (11 courses [at least 49 units])
 - a) ECON 002 or ECON 002H, ECON 003 or ECON 003H with grades of C- or better
 - b) ECON 119
 - c) ECON 104A, ECON 104B, ECON 105A
 - d) Five additional upper-division courses in Economics worth 4 or 5 units each, including at least two that have either ECON 104A or ECON 105A or ECON 107 as a prerequisite. ECON 107 may be chosen as an advanced elective. ECON 102, 103, and 190 cannot be used to meet this requirement.

Note: Up to 4 units of internship credit may be counted toward the upper-division elective courses in Economics.

2. Law and Society requirements (36 units)
 - a) PHIL 007 or PHIL 007H
 - b) LWSO 100 (with a grade of "C" or better)
 - c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
 - d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
 - e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
 - f) LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements. (This limitation applies to specified Economics requirements and Law and Society requirements.)

Minor

The minor in Economics provides a background in this discipline. Students take basic microeconomic and macroeconomic theory courses, and then are given freedom of choice in pursuing upper-division courses of great interest.

All candidates for the minor in Economics must take

1. Lower-division requirements (14 units):
 - a) ECON 002 or ECON 002H and ECON 003 or ECON 003H with grades of C- or better
 - b) One of MATH 009A, MATH 009HA, or equivalent
2. Upper-division requirements (at least 26 units):
 - a) ECON 102 or ECON 104A, ECON 103 or ECON 105A
 - b) Four additional upper-division courses (at least 16 units) in Economics

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Department of Economics offers the M.A. and Ph.D. degrees in Economics.

The graduate Economics program is designed to prepare students for research and teaching in academic institutions as well as for positions in government, international agencies, and the private sector.

Admission

Students are normally admitted only in the fall quarter. Applicants should apply electronically, at graduate.ucr.edu. Students submit the completed application, GRE scores, three letters of recommendation (from persons familiar with the student's academic work), and transcripts in

duplicate of previous academic work.

Master's Program

Students should have first-year calculus, a course in statistics, and some background in economics before beginning course work. Students who do not meet these requirements may still be admitted but normally must take these courses as prerequisites to the required courses. Applicants to the M.A. program must have the same academic potential as Ph.D. applicants, as reflected by GPA and GRE scores. Admission to the M.A. program does not guarantee later admission to the Ph.D. program.

Doctoral Program

The department encourages applicants from a variety of backgrounds, but a good understanding of intermediate microeconomics, intermediate macroeconomics, multivariate calculus, and elementary linear algebra is necessary to begin taking the core requirements, described below. In addition, two courses in basic probability and statistics or econometrics are required before beginning the core econometrics sequence. Students who do not satisfy the requirements, or who have been out of school for several years, should consider enrolling in the one-year M.A. program.

Master's Degree

The M.A. degree is designed as a preparatory program for those students interested in pursuing the Ph.D. but who are not adequately prepared to enter the Ph.D. program directly (e.g., students who lack the necessary prerequisites in economics or mathematics or students who have been out of school for some time).

Doctoral Degree

The Ph.D. is the primary degree objective of the graduate program. Students first complete a core curriculum in economic theory and quantitative methods. These courses provide training in the fundamental concepts and research methods of the discipline. Following demonstration of professional competence in the core areas, students specialize in theoretical or applied areas of economics. This leads to the development of independent research and the writing of the Ph.D. dissertation.

Core Requirements

1. Economic Theory

Students must complete the following:

- a) ECON 200A, ECON 200B, ECON 200C (Microeconomic Theory)
- b) ECON 201A, ECON 201B, ECON 201C (Macroeconomic Theory)

All students must pass two cumulative examinations: one in microeconomic theory (covering topics encompassed in the course sequence ECON 200A, ECON 200B, and ECON 200C) and one in macroeconomic theory (covering the topics in ECON 201A, ECON 201B, ECON 201C). Both examinations are given at the end of the first year, and at the beginning of the fall quarter. After completing the sequence of courses, students must sit for each examination at each offering until they have passed the requirement. An unexcused failure to sit for a required examination will be regarded as a failure. All students can have two attempts. Only students

who pass at least one of the exams in the first or second attempts can have a third attempt in the other failed exam. No student will be given more than three attempts to achieve a satisfactory grade on each one of the two examinations.

2. Quantitative Methods

Students must complete the following: ECON 205A, ECON 205B, ECON 205C (Econometric Methods I, II, III). To satisfy these course requirements, students must attain a "B" average in the sequences.

Core courses may be waived, based on equivalent graduate work completed elsewhere. The cumulative examinations, however, may not be waived.

Colloquium and Paper Requirement

Students must enroll in at least one offering of ECON 289A (Colloquium in Economics) each quarter of their first year and at least one offering of ECON 289B each quarter of their formal residence from the second year on. In addition, students must write a well-rounded research paper before the beginning of their fourth year. The research paper will be evaluated by members of the oral qualifying examination committee or members of the dissertation committee, if already formed. Students must give a presentation on their thesis research by the end of Spring of their fourth year. Students must also present their job market paper in the Fall or Winter of their fifth year.

Field Requirement

All students must:

- i. complete course work in a major field consisting of three courses.
- and
- ii. take six additional field courses in any of the fields.

Students must pass a comprehensive examination in their field. Comprehensive examinations in each major field are given twice a year. After completing the major field courses, students must take the next scheduled examination. The exams are given by the end of Summer and if necessary, at the end of Fall quarter. All students can have a maximum of two attempts in a given field, and can take field exams in no more than two fields, after completing their respective field courses.

1. Advanced Econometrics

Students must complete the courses a) and b) and one of the courses from c), d), e), or f) listed below.

- a) ECON 285E (Advanced Econometric Methods)
- b) ECON 285F (Topics in Econometrics)
- c) ECON 285G (Applied Econometrics)
- d) ECON 285-I (Macroeconometrics)
- e) ECON 285J (Nonparametric Econometrics)
- f) ECON 285K (Microeconometrics)

2. Advanced Macroeconomic Theory

Students must complete the following:
ECON 282E (Foundations of

Macroeconomics)

ECON 282F (Advanced Monetary Theory)

ECON 282G (Special Topics in Macroeconomic Theory)

3. Advanced Microeconomic Theory

Students must complete three of the following with at most one from ECON 246, 247, and 248:

ECON 246 (Introduction to Public Economics)

ECON 247 (Topics in Public Economics)

ECON 248 (Topics in Political, Comparative, and Institutional Economics)

ECON 283E (Rational Choice Theory)

ECON 283F (Measurement and Aggregation in Economics)

ECON 283G (General Equilibrium)

ECON 283I (Social Choice and Welfare)

ECON 283J (Uncertainty and Information)

ECON 283K (Special Topics in Microeconomic Theory)

ECON 283N (Application of Games and Information Economics)

4. Development Economics

Students must complete three of the following:

ECON 260 (Theories of Economic Development)

ECON 261 (Contemporary Development Strategies)

ECON 262 (Investment, Productivity, and Organizations in Developing Countries)

ECON 263 (Health, Labor and Human Capital in Developing Countries)

ECON 264 (Topics in Economic Development)

ECON 265 (Agricultural and Rural Development)

5. International Trade Theory/ International Finance

Students must complete three of the following:

ECON 234 (International Trade Theory)

ECON 235 (Topics in International Trade Theory)

ECON 236/POSC 215 (Political Economy of International Finance)

ECON 237 (Topics in International Finance)

6. Labor Economics

Students must complete the following two courses:

ECON 240 (Labor Demand)

ECON 241 (Labor Supply)

And one of the following:

ECON 242 (Labor Market Equilibrium)

ECON 243 (Topics in Labor)

ECON 244 (Empirical Research Methods)

7. Money, Credit, and Business Cycles

Students must complete three of the following:

ECON 250 (Money, Credit, and the Macroeconomy)

ECON 251 (Business Cycle Theory)

ECON 254 (Topics in Money, Credit, and Business Cycles)

8. Resource and Environmental Economics

Students must complete three of the following:

ECON 207 (Environmental Economics)

ECON 208 (Models of Nonrenewable Resource Management)

ECON 209 (Models of Renewable Resource Management)

ECON 210 (Topics in Environmental Economics)

9. Public Economics

Students must complete either the following three courses:

ECON 246 (Introduction to Public Economics)

ECON 247 (Topics in Public Economics)

ECON 248 (Topics in Political, Comparative, and Institutional Economics)

or two of the above and any one of the following courses:

ECON 283E (Rational Choice Theory)

ECON 283F (Measurement and Aggregation in Economics)

ECON 283G (General Equilibrium)

ECON 283I (Social Choice and Welfare)

ECON 283J (Uncertainty and Information)

ECON 283K (Special Topics in Microeconomic Theory)

ECON 283N (Applications of Games and Information Economics)

Not all of these fields and courses are offered every year; offerings depend primarily on student demand.

As the department faculty expands, other fields may be added.

Oral Qualifying Examination

Students must pass an oral qualifying examination, which covers a dissertation prospectus and subject matter related to the student's major field and other field courses. It is given by a committee of five faculty members, at least one of whom is not a Department of Economics faculty member. Students who enter the program fully prepared normally take the examination before the beginning of the third year.

Dissertation and Final Examination

The final requirement is the completion of a dissertation, under the direction of a dissertation committee, and passing a final examination defending the dissertation. The dissertation committee is normally composed of three Department of Economics faculty members (including cooperating faculty), usually chosen from the oral qualifying examination committee. Students who enter the program fully prepared

normally complete the dissertation by the end of the fifth year. Students are encouraged to present a dissertation prospectus to a meeting of ECON 289 in their third year.

Master's Degree

Plan II (Comprehensive Examination)

Students must complete a total of 36 units, 24 of which must be at the graduate level. Students must complete the following:

1. ECON 200A (Microeconomic Theory) or ECON 206 (Mathematics for Economists)
2. ECON 204A (Microeconomic Theory for Master's Students) or ECON 200A ECON 200B (Microeconomic Theory)
3. ECON 204B (Macroeconomic Theory for Master's Students) or ECON 201A ECON 201B (Macroeconomic Theory)
4. ECON 205A (Econometric Methods I) and ECON 205B (Econometric Methods II)

Examination Requirements

Students must pass one of the following examinations:

1. Master's examination covering the topics in ECON 204A, ECON 204B
2. Doctoral cumulative examination in either microeconomic theory or macroeconomic theory (graded at the master's level)
3. Doctoral Comprehensive Examination in any of the ten fields described above (graded at the master's level)

Lower-Division Courses

ECON 002 Introduction to

Macroeconomics 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): none. An introduction to the study of the economic system from a macro, or aggregate, perspective. Includes analysis of business cycles, economic growth, unemployment, inflation, and the impact of government policies on the level of economic activity. Credit is only awarded for one of ECON 002 or ECON 002H.

ECON 002H Honors Introduction to

Macroeconomics 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 to 3.5 hours. Prerequisite(s): admission to the University Honors course corresponding to ECON 002. An introduction to the study of the economic system from a macro, or aggregate, perspective. Includes analysis of business cycles, economic growth, unemployment, inflation, and the impact of government policies on the level of economic activity. Satisfactory (S) or No Credit (NC) grading is not available. Credit is only awarded for one of ECON 002 or ECON 002H.

ECON 003 Introduction to

Microeconomics 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): none. An introduction to the study of the economic system from the micro, or individual decision-maker's, perspective. Includes the study of opportunity cost, markets, consumption, production and competition. Credit is only awarded for one of ECON 003 or ECON 003H.

ECON 003H Honors Introduction to

Microeconomics 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 to 3.5 hours.

Prerequisite(s): admission to the University Honors Program or consent of instructor. An introduction to the study of the economic system from a micro, or individual decision-maker's, perspective. Includes the study of opportunity cost, markets, consumption, production and competition. Satisfactory (S) or No Credit (NC) grading is not available. Credit is only awarded for one of ECON 003 or ECON 003H.

ECON 005 Data Analysis For Economics and

Business 5 Lecture, 3 hours; research, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H; or consent of instructor. Introduction to the sources of economic and business data and data analysis using graphs, plots, computers, and descriptive statistics. Also covers index numbers, measures of inequality, and simple regression analysis.

ECON 006 Introduction to Environmental

Economics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the basic principles of economics and their application to problems of environmental quality and natural resource utilization. Emphasis is on the failure of markets as a cause of environmental degradation and the role of government in resolving problems of resource scarcity. Does not satisfy the Natural Science breadth requirement for the College of Humanities, Arts, and Social Sciences. Cross-listed with ENSC 006.

ECON 060 Engineering Economics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009A. Covers economic decisions involving engineering alternatives. Topics include time value of money, annual cost, present worth, rate of return, and benefit-to-cost. Addresses before and after tax replacement economy, organizational financing, break-even analysis, risk analysis, and capital budgeting. Cross-listed with ENGR 060.

Upper-Division Courses

ECON 101 Statistics For Economics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour; individual laboratory, 2 hours. Prerequisite(s): MATH 009A or MATH 09HA or MATH 022 or equivalent. An introduction to the basic statistical methods for economics. Topics include economic data analysis, index numbers, univariate and bivariate probability distributions, correlation and regression, sampling distributions, properties of estimators, and hypothesis testing.

ECON 102 Intermediate

Microeconomics 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 003 or ECON 003H or MATH 009A or MATH 09HA or MATH 022. A comprehensive overview of the competitive market system. Includes the modern utility theory of consumer behavior, firm behavior in product and factor markets, and monopoly. Emphasizes theoretical applications to business enterprises. Intended for students planning to major in Business Administration. Credit is awarded for only one of ECON 102 or ECON 104A.

ECON 103 Intermediate

Macroeconomics 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s):

ECON 002 or ECON 002H. Covers the theory of income, employment, price level and the role of the international economy. Includes fiscal and monetary policy. Intended for students planning to major in Business Administration. Credit is awarded for only one of ECON 103 or ECON 105A.

ECON 104A Intermediate Microeconomic

Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 003 with a grade of C- or better or ECON 003H with a grade of C- or better, MATH 009A or MATH 09HA. A calculus-based course that develops theories of consumers and firms. Provides the foundation for partial equilibrium study of competitive markets. Explores welfare properties of competitive markets. Credit is awarded for one of the following ECON 104A or ECON 102.

ECON 104B Intermediate Microeconomic

Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 102 with a grade of C or better or ECON 104A; MATH 009A or MATH 09HA; or consent of instructor. A continuation that covers monopoly, oligopoly, externalities, and public goods. Develops elementary concepts of game theory. May also cover information economics and economics of uncertainty.

ECON 104C Intermediate Microeconomic

Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 104B with a grade of C- or better, MATH 009A or MATH 09HA; or consent of instructor. Extends the partial equilibrium theories of markets and market failure developed in ECON 104A and ECON 104B to factor markets, other market structures, uncertainty and asymmetric information, and time. Develops general equilibrium analysis of the entire economy, including welfare economics. Many illustrative policy applications.

ECON 105A Intermediate Macroeconomic

Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 002 with a grade of C- or better or ECON 002H with a grade of C- or better. Examines the determination of the equilibrium level of national income and its allocation among households, firms, and government. Develops theoretical models that describe how employment, production, and inflation are determined. Focuses on the impact of government policies, as well as the current developments on these issues. Credit is awarded for one of the following ECON 105A or ECON 103.

ECON 105B Intermediate Macroeconomic

Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 103 with a grade of "C" or better or ECON 105A. ECON 104A is recommended. A continuation of ECON 103 or ECON 105A. Investigates developments in macroeconomic theory and events. Presents models that explain economic growth and business cycle fluctuations. Explores their empirical relevance and policy implications.

ECON 107 Introductory Econometrics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H; ECON 101; or consent of instructor. An introduction to the

basic tools of econometrics. Focuses on the issues relating to the linear regression model, including heteroskedasticity, serial correlation, and multicollinearity.

ECON 108 Introductory Econometrics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): ECON 107; or consent of instructor. A continuation of ECON 107. Covers, at an introductory level, the basic concepts related to logit and probit models, panel data methods, instrumental variables, treatment effects, difference in difference models, and simultaneous equations models, among others. Extensive use of econometrics computer software.

ECON 110 Mathematical Economics 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 104B, MATH 010A, MATH 031. Covers calculus-based and set-theoretic-based mathematical concepts and techniques used in advanced economic analysis, such as optimization theory, probability, expected utility theory, and their applications.

ECON 112 Forecasting in Business and

Economics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour; written work, 2 hours. Prerequisite(s): ECON 002 or ECON 003 or ECON 003H or equivalent; ECON 107; or consent of instructor. Provides a basic knowledge of forecasting and its applications, particularly by using business and economic data. Covers basic methods of forecasting, such as regression methods, exponential smoothing, algorithms, and autoregressive integrated moving average (ARIMA) methods. Also explores how to combine and evaluate various forecasts. Uses computer analysis extensively.

ECON 116 Foundations of Political

Economy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Examines the economic roles of the public sector. Pays particular attention to issues of market failure; government challenges in overcoming market failures; redistributing income; the financing of public sector activities; relationships between federal, state, and local governments; and public choice.

ECON 117 Economics and Philosophy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104B or consent of instructor. Examines issues on the boundary of economics and philosophy. Topics include social choice theory and economic justice; foundations of utility theory, rational choice, and economic welfare; and epistemology and the philosophies of science of Popper, Kuhn, and others. Cross-listed with PHIL 119.

ECON 119 Law and Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 003 or ECON 003H; or consent of instructor. Examines issues at the intersection of law and economics. Presents the tools needed for an economic analysis of law. Applies the tools to understand the economic logic of the law, especially property, contract, tort, and antitrust law.

ECON 123 American Economic

History 4 Lecture, 3 hours; individual study,

3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Examines the economic history of the United States with an emphasis on the incentives and events surrounding the colonization of modern day United States, the American Revolution, economic growth and expansion throughout the 1800's, the American civil war, and other major historical events leading up to the present. Cross-listed with HISA 123.

ECON 124 World Economic History 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Examines economic history with a focus on the innovations, institutions, and events that have helped shape the modern day world.

ECON 125 History of Economic

Thought 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Study of the development of major economic theories, including those of Adam Smith, Karl Marx, and John Maynard Keynes. Focus is on how alternative theories define and address economic problems differently and the policy implications that follow.

ECON 129 Health Economics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ECON 104A. Analyzes the demand and supply of health care. Uses economic models to analyze health care choices of individuals. Covers the market for health insurance and the behavior of for-profit and not-for-profit health care providers regarding price, quantity, and service quality under various market structures.

ECON 130 Introduction to Money, Banking, and

Credit 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ECON 103 or ECON 105A. Covers the basic theories of modern monetary systems. Explores money, credit, and interest rate behavior; financial intermediation and central banking; and methods and objectives of monetary and regulatory policy.

ECON 132 Public Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104A. Considers the economics of current policy debates, including healthcare, social security, tax policy, and private support for public schools. Focuses on government as an institution that corrects market inefficiencies and inequities. Examines government decision making from the perspectives of social choice theory, cost-benefit analysis, and the financing of government expenditures.

ECON 134 Introduction to Financial

Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BUS 020; ECON 003 or ECON 003H; STAT 048 or ECON 101; or equivalent; or consent of instructor. An introduction to financial management and financial institutions. Includes time value of money, stock and bond valuation, risk and return, portfolio theory, capital budgeting, capital structure, dividend policy, and financial databases. Cross-listed with BUS 106.

ECON 135 The Stock Market 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. ECON 103 or ECON 105A is strongly recommended. An analysis of

the history of the stock market and its role in the macroeconomy. Topics include factors governing stock prices, fundamental and technical analysis, the impact of inflation and interest rates, international investing, and the role of social institutions in the determination of stock prices.

ECON 136 Empirical Financial

Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 107 or consent of instructor. Discusses various empirical aspects of financial economics and financial risk management. Addresses both theoretical and applied issues in finance, risk management, and econometrics. Also discusses quantitative analysis, simulation methods, and case studies.

ECON 143 Environmental Economics 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ECON 003 or equivalent, MATH 009A or equivalent; or consent of instructor. An introduction to economic analysis of natural resources, the environment, and environmental quality. Topics include interactions between the environment and the economy, social choice theory, source control costs, damage valuation, efficient pollution control and design of efficient and equitable environmental policy.

ECON 146 Urban Economic Problems 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104A. Applies economic principles to the major problems of the modern urban community such as poverty, discrimination, deterioration of the environment, and housing problems. Explores programs for alleviation of or solution to these issues. Cross-listed with URST 146.

ECON 148 Land and Resource

Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. Explores distinctive qualities of land and its rent, as well as valuation of land as an investment. Addresses assembly, division, and development of land, efficiency of the land market and the effects of taxation. Covers concentrated ownership, separation of ownership and management, rent and taxable surplus, and origins and kinds of tenure.

ECON 151 Economics of Education 4 Lecture, 3 hours; individual study, 6 hours; written work, 3 hours. Prerequisite(s): ECON 003 with a grade of C- or better or ECON 003H with a grade of C- or better; ECON 101 with a grade of C- or better. Focuses on the benefits and costs of education, educational inputs, and educational policy. Applies economic theory to the study of education. Evaluates empirical evidence of issues relating to education. Develops communicating reasoned and informed prescriptions and/or evaluations of education policy.

ECON 153 Labor Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. An analysis of labor demand, labor supply, and the structure of wages. Emphasizes neoclassical, institutional, and radical perspectives. Cross-listed with BUS 153.

ECON 155 Women's Labor and the

Economy 4 Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): ECON 104A. Special-topics labor economics course. Focuses on one important dimension of worker

differences: gender. Covers the topics of human capital, wages and employment, occupational choice, discrimination, family as an economic unit, and public policy. Cross-listed with GSST 155, and PBPL 155.

ECON 157 Labor in the Public Sector 4 Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): ECON 104A. A labor economics course on employment in the public sector. Explores questions of wages and contract structuring, recruitment, training, risk, collective bargaining, licensing, rent-seeking and corruption, and influence in the public sector. Cross-listed with PBPL 157.

ECON 160 Industrial Organization 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104B. A study of the organization and structure of the American industrial system. Emphasizes production and pricing behavior and policies. Also addresses market structure and public policies regulating or influencing market behavior. Cross-listed with BUS 160.

ECON 162 Managerial Economics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 102 or ECON 104A. Examines applications of economic analysis to problems of management, especially of capital. Emphasis is on production economics and cost analysis. Cross-listed with BUS 162.

ECON 163 Introduction to Game

Theory 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 101; ECON 104B. Introduces and develops basic concepts of game theory to study strategic interactions, with examples and applications drawn from Economics and other social sciences.

ECON 164 Behavioral Economics 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 1.5 hours; term paper, .5 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H; ECON 104A. An introduction to core concepts in behavioral economics. Includes choice under uncertainty, choice over time, social preferences, and transaction utility. Outlines the role of lab and field experiments in the discipline. Discusses applications to management, marketing and charitable giving, and the use of behavioral economics in designing policy.

ECON 171 International Finance 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 103 or ECON 105A. Covers international monetary theory and its applications. Topics include balance of payments, exchange rates, open-economy macroeconomics, and international monetary institutions. Addresses selected policy issues.

ECON 173 Global Poverty 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Examines poverty around the world in a comparative perspective. Topics include concepts of poverty, measurement of poverty, and policies intended to reduce poverty. The regions studied include the U.S., other developed countries, and developing countries. Credit is awarded for one of ECON 173 or ECON 173S.

ECON 173S Global Poverty 5 Lecture, 3

hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Examines poverty around the world in a comparative perspective. Topics include concepts of poverty, measurement of poverty, and policies intended to reduce poverty. The regions studied include the U.S., other developed countries, and developing countries. Credit is awarded for only one of ECON 173 or ECON 173S.

ECON 175 Comparative Economics 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the roles of different economic, political, legal, financial, fiscal, and informal institutions in the economy. Topics also include the theoretical traditions of the debate between market and plan and of the boundaries of market and hierarchy.

ECON 178 International Trade 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A. A study of the pure theory of trade, trade policy, and international factor movements. Includes illustrative applications to current issues and problems. Cross-listed with BUS 178.

ECON 181 Economic Development: Theory and Policy 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. A survey of the main theories of economic development and an analysis of the major development strategies and policies.

ECON 182 Trade, Globalization, and

Development 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Explores global development with an emphasis on empirical results regarding the effectiveness of foreign aid, trade, property rights, and other institutions that can influence economic growth. Analyzes the nature and consequences of globalization on individuals, countries, and the world economy.

ECON 183 Population and

Development 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A; ECON 107; or consent of instructor. A study of interactions between population growth and economic development. Covers the history of demographic thought, models for developing countries based on the demographic experience of currently developed countries. Explores household production models, demand for children, mortality, health and nutrition, migration, and human capital. Traces macroeconomic economic-demographic linkages in developing countries.

ECON 185 Economic Development in Latin

America 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 103 or ECON 104A or ECON 105A. A comparative analysis of the major trends in Latin American economies in the twentieth century. Includes historical legacies, primary export economies, the theory and practice of import substitution industrialization, and the debt crisis. Also covers stabilization and structural adjustment, poverty and income distribution, the informal and agricultural sectors,

and the environment. Cross-listed with LNST 185.

ECON 186 Field Experiments in Development Economics 4

Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ECON 002 or ECON 002H, ECON 003 or ECON 003H, ECON 107; or consent of instructor. An overview of randomized impact evaluation as a tool of the causal revolution in development economics. Introduces experimental methods and covers the application of those methods to conducting impact evaluations in a range of development settings, including education, health, labor, and economics of the firm, microfinance, environment, and political economy.

ECON 187 Contemporary Public Policy Challenges in Latin America 4

Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H; consent of instructor. A survey of the wide-sweeping policy reforms since the 1980s and of contemporary public policy challenges in Latin America. Challenges discussed include extremely high levels of poverty and inequality; inadequate educational and healthcare systems; pressures for land reform; problems of trade competitiveness; and recurring currency crises. Cross-listed with LNST 187.

ECON 188 The Chinese Economy 4

Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H or ECON 003 or ECON 003H; Restricted to class level standing of junior, or senior. An introduction to the Chinese economy, with a focus on the economic reform since 1978. Topics include the economic and political logic behind the reform, the lessons learned from the reform, China's evolving role in the world economy, and the challenges that China is currently facing.

ECON 189 Economic Development in Brazil 4

Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A; ECON 103 or ECON 105A. An analysis of the successes and failures of economic development in the largest country in Latin America. Reviews current issues facing Brazilian policy makers. Topics include historical legacies, import substitution and industrialization, poverty and inequality, agriculture and land reform, and the environmental impact of development. Cross-listed with LNST 189.

ECON 190 Special Studies 1 to 5

Activity, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and program chair. A project to be undertaken under faculty supervision. Course is repeatable to a maximum of 12 units.

ECON 193A Senior Seminar 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 101, ECON 104A with a grade of B+ or better or ECON 105A with a grade of B+ or better; or consent of instructor. Advanced research in various fields of faculty interest. Includes completion of a research paper and presentation. Topics vary from year to year.

ECON 193B Senior Seminar 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 193A; or consent of instructor. Advanced research in various fields of faculty interest.

Students complete a research paper and present their results in the seminar. Topics vary from year to year.

ECON 198I Individual Internships in Economics 1 to 12

Internship, 3 to 36 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Active participation in the work of a public or quasi-public agency or business concern in matters relating to general or business economics. Academic requirements set by the instructor. Course is repeatable as content or topic changes to a maximum of 16 units.

ECON 199H Senior Honors Research 1 to 4

Research, 3 to 12 hours. Prerequisite(s): upper-division standing in Economics; admission to the University Honors Program or consent of instructor. Offers the opportunity for directed research at an honors level. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

Graduate Courses

ECON 200A Microeconomic Theory 6

Lecture, 4.5 hours; discussion, 1.5 hours. Prerequisite(s): ECON 104B or equivalent. Focuses on consumer and producer theory under conditions of certainty. Covers required mathematics, including real analysis and static optimization theory. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ECON 200B Microeconomic Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 200A or equivalent. Focuses on decision making under uncertainty, economics of information, applications of game theory, and models of imperfect competition.

ECON 200C Microeconomic Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 200B or equivalent. Focuses on general equilibrium theory, including existence and stability, and on welfare economics and social choice.

ECON 201A Macroeconomic Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 105B or equivalent; ECON 200A (may be taken concurrently). Examines the basic issues and models of macroeconomics.

ECON 201B Macroeconomic Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 201A or equivalent. Covers, but is not limited to, investment and consumption, labor and monetary economics, tax and debt policy, and mathematics for macroeconomists.

ECON 201C Macroeconomic Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 201B or equivalent. Focuses on the phenomena of business cycles, both the empirical characteristics and the theoretical models.

ECON 202 Topics in Economic Theory: Critiques and Alternative Approaches 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Critiques of conventional economic theories and consideration of alternative theories and approaches to issues of aggregate economic growth and instability from Marx to the present.

ECON 205A Econometric Methods I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s):

ECON 104A; ECON 105A; MATH 009A; MATH 009B; STAT 100B; or equivalents.

Examines econometric methods for the analysis of economic data and the construction of econometric models with applications to microeconomics and macroeconomics. Covers the linear regression model and related techniques of matrix algebra. Also addresses statistical estimation and inference.

ECON 205B Econometric Methods II 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 205A or equivalent. Examines econometric methods covering extensions of the basic regression model, nonlinear models, and limited dependent variable models.

ECON 205C Econometric Methods III 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 205B or equivalent. Examines econometric methods for the analysis of economic data and the construction of econometric models with applications to time-series macroeconomics. Covers univariate time-series models, volatility models, simultaneous equation models, and dynamic econometric models.

ECON 207 Environmental Economics 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 200A or equivalent. Covers the theory and methods of environmental economics. Topics include externality theory, bargaining solutions, property rights, and resource allocation mechanisms. Also covers environmental policy under uncertainty and asymmetric information, as well as dynamic and general equilibrium models of environmental quality.

ECON 208 Natural Resource Economics 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 200A or equivalent. Covers dynamic models of nonrenewable resources. Topics include uncertainty, game theory, and the measurement of resource scarcity. Examines empirical models of nonrenewable and renewable resources.

ECON 209 Nonmarket Valuation and Environmental Policy 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 200A; ECON 205A or equivalent. A study of economic valuation of natural resources and the environment. Includes environmental demand theory, travel cost models, random utility models, discrete choice models, the contingent valuation technique, and hedonic wage and pricing models. Also covers theory, empirical methods, and applications.

ECON 210 (E-Z) Environmental Economics 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 207; graduate standing. An in-depth study in selected areas of environmental and natural resource economics. E. Transport & Environmental Quality; F. Political Econ Of Environ Polic; Course is repeatable to a maximum of 8 units.

ECON 212 History of Economic Theory and Methodology 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The origins and contemporary development of alternative

economic theories. Methodological and philosophical debates in economics.

ECON 213 Methods and Themes in Economic History 4

Lecture, 3 hours; term paper, 1.5 hours; extra reading, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys central themes in world economic history to introduce the subject and methodology of economic history. Topics illustrate a wide variety of historical experiences and illuminate the process of economic growth.

ECON 223 American Economic History 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to economic history as an approach to economics. Surveys major issues pertaining to the historical and institutional bases for the distinctive performance of the American economy.

ECON 224 Economic History of the World Economy in the Twentieth Century 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to world economic history as an approach to economics. Surveys major issues pertaining to the historical and institutional bases for the performance of the world economy during the twentieth century.

ECON 234 International Trade Theory 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 200A, ECON 200B, ECON 200C; or consent of instructor. Examines the determinants of trade in goods and services, international flow of labor and capital, and the effects of trade policy on welfare and income distribution.

ECON 235 Topics in International Trade Theory 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): Prerequisite(s) ECON 234 or consent of instructor. An in-depth study in selected areas of international trade theory. Topics include, but are not limited to, trading blocks, trade agreements and strategic interactions, trade and the environment, and the political economy of international trade.

ECON 236 Political Economy of International Finance 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Conducts a broad theoretical and historical survey of the politics and economics of international money and finance. Topics include monetary and exchange rate regimes, foreign direct investment, capital flows, sovereign debt, financial regulation and international macroeconomic coordination, the role of finance in economic development, and international financial crises. Cross-listed with POSC 215.

ECON 237 Topics in International Finance 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores key topics in international finance and open economy macroeconomics using both theoretical and empirical analysis tools. Topics include the understanding of exchange rate determination, current account, international capital flows, currency crisis, foreign exchange intervention, and sovereign debt/risk.

ECON 240 Labor Demand 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor.

Establishes a theoretical foundation for the study of labor demand. Exposes both essential and current research in topics related to labor demand. Begins the process of generating research ideas in labor economics.

ECON 241 Labor Supply 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the quantity and quality of labor supply. Provides a rich understanding of labor supply and human capital theory; develops econometric skill to evaluate empirical evidence of the predictions that theory affords; and discusses the art of connecting theory to empirical analysis.

ECON 242 Labor Market Equilibrium 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Establishes a theoretical foundation for the study of equilibrium in labor markets and builds exposure to essential and current research in the field. Topics may include crime, migration, market structures, and personnel economics.

ECON 243 Topics in Labor 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. In-depth study in selected areas of labor economics. Topics include, but are not limited to, economic demography and race and gender issues.

ECON 244 Empirical Research Methods 4

Lecture, 3 hours; tutorial, 1 hour; written work, 2 hours. Prerequisite(s): ECON 205B or equivalent. Introduction to empirical techniques used in modern applied economics, with a focus on identification strategies. Topics include natural experiments, instrumental variables, regression discontinuity, and panel data. Emphasis is on practical application of techniques and solutions to problems empirical researchers encounter.

ECON 246 Introduction to Public Economics 4

Lecture, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): ECON 200C. An introduction to public economic theory and its applications: Topics include the theory of economic justice, welfare economics, the theory of market failure, the positive theory of taxation, and cost-benefit analysis.

ECON 247 Recent Advances in Public Economics 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): ECON 200C. An in-depth study of selected topics in public economics. Topics include, but are not limited to, applied general equilibrium analysis and optimal government policy, comparative institutional analysis, political economics, social choice, urban and transportation economics, and empirical public economics. Course is repeatable to a maximum of 8 units.

ECON 248 Topics in Political, Comparative, and Institutional Economics 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ECON 200C or consent of instructor. An in-depth study of selected topics in political, comparative, and institutional economics. Topics include general interest politics, special interest politics, and agency models of politics; comparative analysis of coordination, legal, financial, fiscal, and political institutions; economics of culture and economics of political and economic

transitions. Course is repeatable to a maximum of 8 units.

ECON 250 Money, Credit, and the Macroeconomy 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Investigation of the role of money, credit, and financial institutions in influencing growth, distribution, employment, prices, and business cycles in capitalist economies. Fiscal policy, monetary policy, and public investments are addressed from alternative theoretical perspectives.

ECON 251 Business Cycle Theory 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An in-depth treatment of theories of the cycle and empirical data on relations of variables over the cycle.

ECON 254 Topics in Money, Credit, and Business Cycles 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Selected topics in the performance of the macroeconomy, monetary and fiscal theory, and monetary and fiscal policy.

ECON 260 Theories of Economic Development 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A survey of the major theories of development and underdevelopment beginning with the classical model, theories of surplus, and including the models of Lewis, Nurkse, Hirschman, neoclassical schools, structuralist models, and dependency theory.

ECON 261 Contemporary Development Strategies 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A review of the performance of the major strategies of development implemented in the recent past or currently under implementation.

ECON 262 Investment, Productivity, and Organizations in Developing Countries 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers the causes of established inefficiencies in firms and public sector organizations in developing countries as well as emerging solutions to address sub-optimal outcomes. Addresses microcredit, savings, capital, employment, management, personnel economics, technology adoption, markets and firm cooperation, compliance with regulation, and corruption. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ECON 263 Health, Labor and Human Capital in Developing Countries 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Topics include but are not limited to: early life health and human development; education and human capital accumulation; labor market returns to health and human capital; labor supply; discrimination; and economic demography.

ECON 264 Topics in Economic Development 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Selected themes for

advanced study in economic development. Course is repeatable to a maximum of 8 units.

ECON 265 Agricultural and Rural

Development 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. This course is concerned with the economics of agricultural and rural development in developing countries. Topics examined include technical change, sharecropping and interlinked factor markets, migration, poverty and famine, land reform, environmental aspects of rural development, and structural adjustment within agriculture.

ECON 272A Political Economy: Marxian

Economics 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A study of Marxian economic theory, including historical materialism, the role of value, class, exploitation, and accumulation in Marxian economics, and a survey of current debates on these issues.

ECON 272B Political Economy: Efficiency,

Justice, and Power 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the various notions of efficiency used in political economic analysis, as well as their application in historical and comparative institutional contexts. Theories of justice in the distribution of rewards and the extent to which efficiency is separable from justice. Different notions of how power influences economic outcomes.

ECON 275 Health Economics I:

Demand 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews the structure and intuition of economic models used to analyze people's choices about their health and health care. Emphasizes that health is a cumulative process of investment. Also analyzes the market for health insurance.

ECON 282 (E-Z) Advanced Macroeconomic

Theory 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): passing grade on the Macroeconomic Cumulative Examination or consent of the instructor. Covers advanced topics in macroeconomic theory. Students read state-of-the-art research papers and books. Includes presentations by students and faculty. E. Foundations of Macroeconomics; F. Advanced Monetary Theory; G. Special Topics in Macroeconomic Theory. ECON 282G is repeatable to a maximum of 8 units.

ECON 283 (E-Z) Advanced Microeconomic

Theory 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): passing grade on the Microeconomics Cumulative Examination or consent of instructor; for ECON 283M, ECON 283N, ECON 283P, ECON 283Q, ECON 283R: ECON 200C. Covers advanced topics in microeconomic theory. Involves reading current research papers and books, and presentations by students and faculty. E. Rational Choice Theory; F. Measurement and Aggregation in Economics; G. General Equilibrium; I. Social Choice and Welfare; J. Uncertainty and Information; K. Special Topics in Microeconomic Theory; M. The Microtheoretic Bases of Development Economics; N. Applications

of Games and Information Economics; O. Measurement of Productivity and Efficiency; P. Public Economic Theory; Q. Economics of Contract: Theory and Applications; R. Measurement of the Standard of Living, Inequality, and Deprivation. ECON 283K is repeatable to a maximum of 8 units.

ECON 285 (E-Z) Advanced Econometrics 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): ECON 205A, ECON 205B, ECON 205C; or consent of instructor. Advanced topics and recent developments in econometrics. State-of-the-art research papers and books are read, and presentations are made by students as well as faculty. E. Advanced Econometric Methods; F. Topics In Econometrics; G. Applied Econometrics; I. Macroeconometrics; J. Nonparametric Econometrics; K. Microeconometrics. ECON 285F is repeatable to a maximum of 8 units.

ECON 289A Colloquium in Economics 2

Seminar, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing. Lectures and discussion by students, faculty and invited scholars on specially selected topics. Course is repeatable up to a maximum of 8 units.

ECON 289B Colloquium in Economics 2

Seminar, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing. Lectures and discussion by students, faculty and invited scholars on specially selected topics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ECON 290 Directed Studies 1 to

6 Prerequisite(s): graduate standing and consent of instructor. Directed studies of selected problems of economic analysis. Open to graduate students who desire to do special work in a particular field. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ECON 291 Individual Study in Coordinated

Areas 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for examination. Graded Satisfactory (S) or No Credit (NC). Repeatable as follows: (1) a student may take up to 12 units prior to the award of the M.A. (these 12 units do not count toward the required M.A. units); (2) a student may take up to 18 additional units after award of the M.A. but prior to successful completion of the Ph.D. qualifying examination.

ECON 292 Concurrent Analytical Studies 2 to

4 Lecture, 1 to 3 hours; research, 6 to 12 hours. Prerequisite(s): consent of instructor. Each 292 course will be taken concurrently with some 100-series course, but on an individual basis. It will be devoted to completion of a graduate paper based on research or criticism related to the 100-series course. Faculty guidance and evaluation will be provided through the quarter. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ECON 297 Directed Research 1 to

6 Prerequisite(s): graduate standing and consent of instructor. Directed research on selected problems in economics. Designed for graduate students who have not yet passed their qualifying examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ECON 299 Research For Thesis Or Dissertation 1

to 12 Prerequisite(s): graduate standing and consent of instructor. Research in economics under the direction of a staff member to be included as part of the doctoral dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

ECON 302 Teaching Practicum 1 to 4

Practicum, 3 to 11 hours; seminar, 1 hour. Prerequisite(s): limited to department TAs; graduate standing. Supervised teaching in upper- and lower-division courses. Required of all economics teaching assistants. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

Maria C. Simani, Ph.D.

Assistant Professor of Teaching

Cathleen Geraghty, Ph.D. (School Psychology)
Lorena Gutierrez, Ph.D. (Education)
Catherine Lussier, Ph.D. (Education)
Rondy Yu, Ph.D. (School Psychology)

Education, Society and Human Development Major

The Education, Society, and Human Development Major builds a theoretical foundation, presents applied understandings in the study of education, and explores the varied contexts of learning over the life course.

Program faculty bring multiple disciplinary perspectives to their research and courses, including cognitive sciences, developmental psychology, understanding of the exceptional child, applied behavior analysis, the relationship between education, society and culture, educational policy and leadership, measurement and assessment, and issues in higher education.

Students will benefit from completing the major because they will be exposed to critical theories that investigate how education has been used to create, maintain, and reinforce social stratification. In addition, students will develop a historical and contemporary awareness of different learning settings, and gain a strong foundation in human development, assessment and interventions in the education context. Students who are interested in teaching elementary, middle, or high schools should consult an academic advisor in the GSOE Undergraduate Programs Office about combining an appropriate major and minor or completing a double major in order to develop appropriate expertise in the subject they plan to teach.

Education, Society, and Human Development majors are also prepared for other types of instructional, administrative or advocacy positions in programs or organizations such as those focused on early childcare, out-of-school learning, or adult learning. Additionally, students who complete the major are prepared to enter education-related career fields in the private, non-profit, and public sectors including working with special populations, in legal fields, medical environments, and the arts. Students interested in graduate study will be well prepared to pursue advanced degree programs in education or related fields. Undergraduates enrolled in the Education, Society, and Human Development degree are encouraged to complete courses inside and outside of the major to enhance career preparation and pursue personal interests. With advanced planning, students in the major can complete a minor or a second major in another discipline. The B.A. in Education, Society, and Human Development is not a teacher credential program. (See Graduate School of Education section on Teaching Credentials and Masters programs.)

First-Year Freshmen Seminars

The EDUC 093A, EDUC 093B, and EDUC 093C courses are a year-long seminar series designed for first-year freshmen students that meets weekly with several aspirations including community building, orientation to the campus and the major, and academic support. The long-term goal of this seminar series is to not only set the foundation for the major but to build an experience that evolves over the course of students' experience at UCR.

The seminars are for first-time freshmen in the Education, Society, and Human Development major; freshmen are given enrollment priority. Each seminar carries 2 units of academic credit, although units are not applied toward major requirements. The seminar series is recommended, but not required for completion of the degree. The seminars are graded on an "S/NC" basis.

Transfer Student Seminar

The EDUC 094 course is a 2-unit junior seminar (designed for new, incoming transfer students) that meets weekly for the purpose of community building, orientation to the campus and the Education major, and academic support. The long term goal of this seminar is to not only set the foundation for the major, but to build a learning community experience that follows students over the course of their program at UCR. New, incoming transfer students are given enrollment priority into this course which carries 2 units of academic credit. These units are not applied toward major requirements. The seminar is recommended, but not required for completion of the degree. The seminars are graded on an "S/NC" basis.

Transfer Students

Admission is selective and based on all transferable coursework with a minimum GPA of 2.4 (2.8 for non-residents). There is no prerequisite "Major" coursework required. Meeting the minimum eligibility requirements does not guarantee admission.

University Requirements

See Undergraduate Studies section.

College Requirements

See the Graduate School of Education section.

Major Requirements

The major requirements for the B.A. degree in Education, Society, and Human Development, with concentrations in Community Leadership, Policy, and Social Justice and Learning and Behavioral Sciences.

Community Leadership, Policy, and Social Justice Concentration

1. Lower-division requirements (5 courses [at least 20 units])

- (a) EDUC 005
- (b) Any 4 of the following lower-division courses (at least 16 units):
EDUC 001, EDUC 002, EDUC 010, EDUC 019 (E-Z), EDUC 023, EDUC 024, EDUC 032A, EDUC 032B, EDUC 032C, EDUC 041, EDUC 042, EDUC 043, EDUC 050, EDUC 051, EDUC 060, EDUC 061

2. Upper-division requirements (7 courses [at least 28 units])

- (a) Educational Research Methods (1 course [at least 4 units])
(1) EDUC 118
- (b) Concentration courses (4 courses [at least 16 units])
(1) EDUC 122, EDUC 123, EDUC 141, EDUC 142, EDUC 143, EDUC 144, EDUC 146/ETST 146, EDUC 147, EDUC 148, EDUC 150, EDUC 151, EDUC 152, EDUC 153
- (c) Elective courses (2 courses [at least 8 units])
(1) EDUC 112, EDUC 119 (E-Z), EDUC 132, EDUC 133, EDUC 134, EDUC 160, EDUC 161, EDUC 162, EDUC 171 or EDUC 172, EDUC 179A, EDUC 181, EDUC 182, EDUC 183, EDUC 184, EDUC 190

A maximum of 8 units of EDUC 190 may be taken to satisfy elective degree requirements.

3. Practicum Requirement (40 hours total)

- (a) A minimum of 40 hours of field experiences, research, and/or service-learning (activity) in an education setting.
- (1) For a list of suggested field experiences, research, and/or service learning opportunities and how to demonstrate completion of the 40 hours, please consult with an academic advisor in the Undergraduate Programs Office in the Graduate School of Education and/or the Undergraduate programs section of Graduate School of Education's website.

Learning and Behavioral Studies Concentration

1. Lower-division requirements (5 courses [at least 20 units])

- (a) EDUC 005
- (b) Any 4 of the following lower-division courses (at least 16 units):
EDUC 001, EDUC 002, EDUC 010,

EDUC 019 (E-Z), EDUC 023, EDUC 024, EDUC 032A, EDUC 032B, EDUC 032C, EDUC 041, EDUC 042, EDUC 043, EDUC 050, EDUC 051, EDUC 060, EDUC 061

2. Upper-division requirements (7 courses [at least 28 units])

- (a) Developmental courses (2 courses [at least 8 units])
 - (1) EDUC 133, EDUC 160, EDUC 161, EDUC 171 or EDUC 172
- (b) Learning courses (2 courses [at least 8 units])
 - (1) EDUC 132, EDUC 134, EDUC 162, EDUC 179A, EDUC 181, EDUC 182, EDUC 183, EDUC 184
- (c) Educational Research Methods (1 course [at least 4 units])
 - (1) EDUC 118
- (d) Elective courses (2 courses [at least 8 units])
 - (1) EDUC 112, EDUC 119 (E-Z), EDUC 122, EDUC 123, EDUC 141, EDUC 142, EDUC 143, EDUC 144, EDUC 146/ETST 146, EDUC 147, EDUC 148, EDUC 150, EDUC 151, EDUC 152, EDUC 153, EDUC 181, EDUC 182, EDUC 183, EDUC 184, EDUC 190

A maximum of 8 units of EDUC 190 may be taken to satisfy elective degree requirements.

3. Practicum Requirement (40 hours total)

- (a) A minimum of 40 hours of field experiences, research, and/or service-learning (activity) in an education setting.
- (1) For a list of suggested field experiences, research, and/or service learning opportunities and how to demonstrate completion of the 40 hours, please consult with an academic advisor in the Undergraduate Programs Office in the Graduate School of Education and/or the Undergraduate programs section of Graduate School of Education's website.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Education Minor

The Education minor offers to any undergraduate student an introduction to issues and practices of education and research in public schools. Students from any major are invited to pursue a minor in Education.

Students in the Education minor may select from a variety of courses that may focus on a particular interest or may sample across aspects of

the curriculum. Specific areas of interest that are reflected in the course offerings include: Special education, psychology, higher education, policy and leadership, culture and language, issues of classism, racism, sexism, heterosexism, diversity and equity, social justice, curriculum and teaching strategies, qualitative and quantitative methods, and educational research.

The Education minor does not lead to a teaching credential; however, some of the courses will satisfy UCR Teacher Education Program requirements. Students who are interested in pursuing a teaching credential should contact the Teacher Education Program at (951) 827-5225.

Program Requirements

The Education minor consists of the satisfactory completion of 24 units in courses identified for the Education Minor Program. At least 16 units must be completed in upper division courses.

Student petitions require the approval of the program advisor in the Education minor. Students may not petition to take more than 8 units of courses outside of the identified courses for the Education minor. College approval from both the Graduate School of Education and the major college is required. Please see education.ucr.edu for the minor petition process. Minor in Education candidates must maintain a minimum cumulative GPA of 2.0

Course Work

Students will have the opportunity to select from a menu of electives to complete the course work:

EDUC 001, EDUC 002, EDUC 003, EDUC 004, EDUC 010, EDUC 019 (E-Z), EDUC 023, EDUC 024, EDUC 032A, EDUC 032B, EDUC 032C, , EDUC 041, EDUC 042, EDUC 043, EDUC 044, EDUC 050, EDUC 051, EDUC 061, EDUC 100A, EDUC 100B, EDUC 104, EDUC 105, EDUC 112, EDUC 118, EDUC 119 (E-Z), EDUC 122, EDUC 123, EDUC 132, EDUC 133, EDUC 134, EDUC 136, EDUC 139, EDUC 141, EDUC 142, EDUC 143, EDUC 144, EDUC 146/ETST 146, EDUC 147, EDUC 148, EDUC 150, EDUC 151, EDUC 152, EDUC 153, EDUC 160, EDUC 161, EDUC 162, EDUC 171 or EDUC 172, EDUC 177 or EDUC 178, EDUC 179A, EDUC 179B, EDUC 181, EDUC 182, EDUC 183, EDUC 184.

Additional courses may be added to this list by proposals of academic units, or by petitions of students to take a suitable alternative course.

Graduate Programs

The Graduate School of Education offers three degree programs—Doctor of Philosophy, Master of Arts and Master of Education—as well as a variety of teacher credential programs. Each of these programs is described in detail below.

General university requirements, such as residence and unit requirements, are in the Graduate Studies section of this catalog. Policies and Procedures for Graduate Degree Programs may be obtained from the Graduate Programs Office.

Admission

Admission is based upon GPA and letters of recommendation from writers knowledgeable about the candidate's ability to succeed in graduate

study. In addition, M.A. and Ph.D. applicants must submit scores from the GRE General Test (verbal, quantitative, analytical), no more than five years old from the date of their matriculation. Ph.D. applicants must submit a writing sample. The GRE is not required of applicants seeking admission to credential programs or to the M.Ed. program. The Ph.D. program admits students in the Fall quarter only.

Admission for the doctoral degree is based on strong academic preparation at the baccalaureate level. A master's degree in education such as that offered at UCR or a master's degree in an ancillary field is desirable but not required. Doctoral students begin their programs in the fall quarter.

Master of Arts

Candidates enrolled in this program normally have completed an undergraduate major or its equivalent in a subject field other than education.

Specialization

Areas of specialization include Education, Society, and Culture; Educational Psychology; Neuroscience and Education; Research, Evaluation, Measurement and Statistics; Special Education and Autism; and School Psychology (for students working toward the Ph.D.). Only students matriculating in a Graduate School of Education Ph.D. program in School Psychology, may earn a M.A. degree in Education with specialization in School Psychology. Before the end of the first quarter, the student's advisor develops a program plan that specifies the courses the student will take.

The M.A. with specialization in Education, Society, and Culture; Educational Psychology; or Special Education and Autism gives students the option of completing Plan I (Thesis) or Plan II (Comprehensive Examination).

The M.A. with specialization in School Psychology or Neuroscience and Education only allows students to complete the Plan I (Thesis option). The M.A. specialization in Research, Evaluation, Measurement and Statistics only allows students to take Plan II (comprehensive examination option).

Information about each area of specialization is available at education.ucr.edu.

Plan I (Thesis)

Students complete a minimum of 36 upper-division and graduate units. At least 24 of these units are in graduate courses.

A maximum of 12 units may be in graduate research for the thesis.

At the beginning of the second, and generally not later than the third quarter of full-time work, candidates submit a plan for the thesis to their committee. Candidates also list courses to be taken for developing competence in their area of specialization. The plan is reviewed and approved by a committee of three faculty members. The candidate submits the final thesis to the committee for approval. Upon successful completion and approval of the thesis, the student is recommended to the Graduate Division for the M.A. degree.

Plan II (Comprehensive Examination)

Students must complete a minimum of 36 quarter units in upper-division and graduate courses

in Education and related fields as defined in existing programs. At least 18 of the 36 units must be in graduate courses, and none in graduate research for the thesis.

A faculty member from the program area specialization is appointed by the graduate advisor to guide the candidate. A program plan must be filed with the graduate advisor by the end of the first quarter of residency. Upon or near completion of course work, the student applies to take a comprehensive written examination. Upon successful completion of the examination, the candidate is recommended to the Graduate Division for the M.A. degree.

Coursework

Candidates entering the M.A. program take a series of courses based on their area of specialization.

Education, Society, and Culture

Required Courses: Students take at least five courses (20 units) from: EDUC 201A, EDUC 201B, EDUC 203 or EDUC 281, EDUC 210, EDUC 223A, EDUC 226, EDUC 230A, EDUC 230B, EDUC 233, EDUC 238, EDUC 241B, EDUC 245E, EDUC 245G, EDUC 248E, EDUC 248I, EDUC 248P or EDUC 248U, EDUC 257, EDUC 260, EDUC 273, EDUC 275, EDUC 276, EDUC 278, EDUC 279, EDUC 284

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Educational Psychology

Required Courses: EDUC 200, EDUC 211A, EDUC 214A, EDUC 214B, EDUC 214C, EDUC 240, EDUC 241B, EDUC 255B

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Neuroscience and Education

Required Courses: EDUC 200, EDUC 211A, EDUC 214A, EDUC 214B, EDUC 214C, EDUC 240, EDUC 246T, NRSC 200A, NRSC 200B, NRSC 200C, PSYC 251

Elective Courses - two (21 or more courses): EDUC 211B, EDUC 246I, EDUC 246K, EDUC 263, EDUC 269 (E-Z), EDUC 270

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Research, Evaluation, Measurement, and Statistics (REMS)

Required Methodology Courses: EDUC 214A, EDUC 214B, EDUC 214C, EDUC 218, EDUC 223A, EDUC 242A

Elective Methodology

A minimum of one course from the following list of quantitative courses or from courses offered in other departments that are approved by the student's program committee: EDUC 211A, EDUC 211B, EDUC 215A, EDUC 215B, EDUC 241B, EDUC 242B

Internship

Minimum of 5 units of EDUC 298I required.

Professional Development requirement: EDUC 298I

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

School Psychology

Required Methodology Courses:

EDUC 214A, EDUC 214B, EDUC 214C, EDUC 217, EDUC 242B

Psychological Consultation and Intervention

Required courses: EDUC 255A, EDUC 255B, EDUC 255C, EDUC 261

Psychological and Behavior Assessment

Required courses: EDUC 231A, EDUC 254A, EDUC 254B, EDUC 254C

Application of Scientific Psychology

Required courses: EDUC 265A, EDUC 265B, EDUC 265C

History and Systems of Psychology and Basic Content Areas in Scientific Psychology

Required courses: EDUC 211A, EDUC 233 or EDUC 245G or EDUC 276, EDUC 239, EDUC 246K or EDUC 246S, EDUC 264,

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Special Education and Autism

Required Course

EDUC 212

Elective Courses

Students must complete one of the following courses: EDUC 200, EDUC 246J, EDUC 246M

Additional Elective Course Options

students take at least one course from the following group according to their individualized program: EDUC 239, EDUC 242A, EDUC 242B, EDUC 246 (E-Z), EDUC 270

Area elective course options

Students must take at least one course from Area I and Area II:

Area I - Autism Spectrum Disorder and other Cognitive, Behavioral, and Emotional Disabilities: EDUC 239, EDUC 246E, EDUC 246K, EDUC 246L, EDUC 255A, EDUC 255C

Area II - Learning Disabilities: EDUC 211A, EDUC 246I, EDUC 246S, EDUC 255A, EDUC 255B, EDUC 256, EDUC 270

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Normative Time to Degree

6 quarters from admission to the M.A. program

Master of Education

A Master of Education (M.Ed.) degree program is offered that allows students to select from five emphases. The GRE is not required for admission to the M.Ed. program. No thesis or comprehensive examination is required. Instead, students complete an analytical project that builds on course work and links educational theory and research with the dynamics of teaching, learning, and leadership.

Applied Behavior Analysis Emphasis

This M.Ed. emphasis provides intensive instruction in the theoretical basis of Applied Behavior Analysis as well as the clinical and pedagogical application of the theory and principles. The courses are aimed at special educators, school psychologists, and behavioral health providers, and are designed to specifically prepare students to apply for the certification examination of the Behavior Analyst Certification Board, Inc. (BACB).

The emphasis allows students to complete the requirements for the master's degree and to apply for the certification examination of the BACB in four academic quarters.

Admission

Candidates for this program must meet the Graduate School of Education admission requirements. Detailed admission information is available at education.ucr.edu

Course Work

This M.Ed. emphasis requires 60 units.

Students must complete all courses below: EDUC 217, EDUC 231A, EDUC 231B, EDUC 235, EDUC 236A, EDUC 236B, EDUC 236C, EDUC 236D, EDUC 237* EDUC 254C, EDUC 255A, EDUC 255E, EDUC 261

*Students will complete a minimum of 20 units of EDUC 237, concentrated fieldwork.

Analytical Report

Students will be required to complete a portfolio project. The portfolio will consist of applied projects that have been completed as part of coursework requirements. A final version of the portfolio project will be submitted to the Applied Behavior Analysis faculty committee in the Graduate School of Education for review and approval.

Diversity and Equity Emphasis

This M.Ed. emphasis is designed for individuals who are interested in developing a critical lens for engaging educational inequity in careers across the K-16 pipeline and in community-based educational contexts. The emphasis provides students with rigorous theoretical and applied frameworks to support movements of change using social, historical, cultural, linguistic, and race analyses.

The program can also be completed through a collaboration between the Graduate School of

Education and University Extension by completing an approved Extension certificate program that addresses issues of student diversity and equity. Up to 8 units of 400 level Extension certificate courses can be used toward the minimum 36 unit total required for the degree. The student must have completed the approved Extension certificate prior to admission to this program. Please see the Graduate School of Education website at education.ucr.edu for an approved list of Extension certificates that can be used for the collaboration.

Admission

Candidates for this program must meet the Graduate Division and Graduate School of Education admission requirements. Detailed admission information is available at education.ucr.edu.

Course Work

This M.Ed. emphasis requires a minimum of 36 units; Students will be expected to complete the course work in three academic quarters.

Students complete coursework from the following menu: EDUC 201A, EDUC 201B, EDUC 203 or EDUC 281, EDUC 210, EDUC 212, EDUC 225, EDUC 226, EDUC 233, EDUC 238, EDUC 245G, EDUC 248E, EDUC 248I, EDUC 248P or EDUC 248U, EDUC 257, EDUC 260, EDUC 266, EDUC 269I, EDUC 273, EDUC 275, EDUC 276, EDUC 277, EDUC 278, EDUC 279, EDUC 284, EDUC 297

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Analytical Report

Students will complete a final written project that addresses a specific concern or issue regarding diversity and educational equity in classrooms, schools, districts, community or non-profit organizations, or school policy at the state or federal level. A final version of the project will be submitted to the Graduate School of Education and evaluated by faculty in the Education, Society, and Culture area.

General Education Teaching Emphasis

M.Ed. and California Preliminary Teaching Credential in Multiple Subjects or Single Subject

This emphasis allows qualified students to complete requirements for a California Preliminary teaching credential and a master's degree in one academic year and one summer.

Prospective students must submit an application to the Graduate Division.

Concurrent admission into the Multiple Subjects or Single Subject Teaching Credential program is required for this emphasis. Students not admitted to the M.Ed. degree can be considered for credential only program. Those who already possess California teaching credentials are not eligible for this program but may apply for admission to the other graduate degree programs offered by the GSOE.

Admission

In addition to the Graduate Division admission requirements, candidates for this

program must be admitted to the Multiple Subject or Single Subject Teaching Credential program.

Course Work

This M.Ed. emphasis requires up to 72 units, 36 units are in upper division and graduate level courses; at least 18 of the 36 units must be completed in graduate level courses (Plan II). Students must successfully complete their credential requirements to earn the degree. This program requires courses that are taken during summer sessions.

Multiple Subject Teaching Credential

1. Required Courses: EDUC 132, EDUC 147, EDUC 171 or EDUC 172, EDUC 179A, EDUC 280L, EDUC 282A, EDUC 282B
2. Three elective courses from the following list: EDUC 179B*, EDUC 201B, EDUC 202, EDUC 211B, EDUC 212, EDUC 219, EDUC 225, EDUC 226, EDUC 227, EDUC 233, EDUC 238, EDUC 240, EDUC 245G, EDUC 246 (E-Z), EDUC 255B, EDUC 257, EDUC 260, EDUC 266, EDUC 269 (E-Z), EDUC 273, EDUC 275, EDUC 281

*EDUC 179B is for Bilingual candidates only

Other courses may be used to complete this requirement, if approved by the Graduate Advisor.

3. Teaching Experience Courses: EDUC 332, EDUC 336A or EDUC 338A*, EDUC 336B or EDUC 338B*, EDUC 336C or EDUC 338C*; Student teachers enroll in EDUC 336 A-C series.
*Approved intern teachers must enroll in assigned EDUC 338 sections assigned by the Teacher Credential program. For information on intern teacher eligibility requirements, visit: education.ucr.edu.
4. Seminar Courses: EDUC 344A, EDUC 344B, EDUC 344C
5. Teaching Performance Assessment Courses: EDUC 337A, EDUC 337B, EDUC 337C
6. Analytical Project Course: EDUC 283

Single Subject Teaching Credential

1. Required Courses:
 - a. EDUC 132, EDUC 147, EDUC 177 or EDUC 178, EDUC 179A, EDUC 280L
 - b. One from EDUC 285 (E-Z)
2. Four elective courses from the following list: EDUC 179B*, EDUC 201B, EDUC 202, EDUC 211B, EDUC 212, EDUC 219, EDUC 225, EDUC 226, EDUC 227, EDUC 233, EDUC 238, EDUC 240, EDUC 245G, EDUC 246 (E-Z), EDUC 255B, EDUC 257, EDUC 260, EDUC 266, EDUC 269 (E-Z), EDUC 273, EDUC 275, EDUC 281

*EDUC 179B is for Bilingual candidates only

Other courses may be used to complete this requirement, if approved by the Graduate Advisor.

3. Supervised Teaching Experience Courses: EDUC 333, EDUC 376A or EDUC 378A*, EDUC 376B or EDUC 378B*, EDUC 376C or EDUC 378C*
Student teachers enroll in EDUC 376 A-C

series.

*Approved intern teachers must enroll in EDUC 378 section assigned by the Teacher Credential program. For information on intern teacher eligibility requirements, visit: education.ucr.edu.

4. Seminar Courses: EDUC 348A, EDUC 348B, EDUC 348C
5. Teaching Performance Assessment Courses: EDUC 377A, EDUC 377B, EDUC 377C
6. Analytical Project Course: EDUC 283

Analytical Project

The analytical project centers on comprehensive, critical self-analyses of instructional practice in K-12 classrooms.

A final version of the analytical project is submitted to the Graduate School of Education in electronic form for faculty committee review.

Higher Education Administration and Policy Emphasis

This M.Ed. emphasis examines scholarship and research on institutions, policy, systems, and demographic, historical, political, social, and economic contexts. It emphasizes reflective practice and prepares practitioners for careers in higher education institutions so that they can be knowledgeable scholars and expert professionals.

Admission

Candidates for this program must meet the Graduate Division and Graduate School of Education admission requirements. Detailed admission information is available at education.ucr.edu

Course Work

36 units are required. The majority of courses are offered in the Graduate School of Education (GSOE) and focus on higher education, but program plans may substitute up to 12 units of relevant graduate level courses offered in GSOE and other departments.

Required Course: EDUC 248T (4 units)

Elective Courses: Students take at least eight courses (32 units) from: EDUC 248E, EDUC 248F, EDUC 248G, EDUC 248I, EDUC 248J, EDUC 248M, EDUC 248N, EDUC 248O, EDUC 248P, EDUC 248Q, EDUC 248R, EDUC 248S, EDUC 248U, EDUC 248V, EDUC 248W

Analytical Report

After students complete their course work they will complete a case study report that integrates content from higher education courses with practice.

A final version of the report is submitted to the Higher Education faculty committee in the Graduate School of Education for review and approval.

Special Education Teaching Emphasis

M.Ed. and California Education Specialist Credential

This degree emphasis is designed to provide a pathway to earn a California Education Specialist Mild/Moderate and Moderate/Severe disabilities teaching credential and Master of Education

degree. The program goes beyond best practice by preparing students to critically evaluate the literature on current and future practices and can be completed in five quarters.

Admission

In addition to the Graduate Division admission requirement, candidates for this program must be admitted to the Education Specialist Dual Credential program in Mild/Moderate and Moderate/Severe disabilities.

Course Work

The M.Ed. portion of the Special Education emphasis requires 36 units (at least 24 of which must be graduate level courses). Students must successfully complete their credential requirements to earn the degree.

1. Credential courses applicable to the M.Ed.
 - a) The following courses are required for teaching certification and can be applied to the master's degree if the courses were not applied to a previous degree: EDUC 132, EDUC 133, EDUC 179A

California Education Specialist Dual Credential

Mild/Moderate and Moderate/Severe: Student Teaching Only

1. Required Courses:
EDUC 132, EDUC 133, EDUC 136, EDUC 147, EDUC 171 or EDUC 172, EDUC 179A, EDUC 280L, EDUC 282A, EDUC 282B, EDUC 295B, EDUC 295C, EDUC 295D, EDUC 331, EDUC 335A, EDUC 345A, EDUC 345B
2. Three Elective Courses:
 - a. One course from: EDUC 246 (E-Z)
 - b. Two courses from: EDUC 201B, EDUC 202, EDUC 211B, EDUC 212, EDUC 219, EDUC 225, EDUC 226, EDUC 227, EDUC 233, EDUC 238, EDUC 240, EDUC 245G, EDUC 246 (EZ), EDUC 255B, EDUC 257, EDUC 260, EDUC 266, EDUC 269 (E-Z), EDUC 273, EDUC 275, EDUC 281

Other courses may be used to complete this requirement, if approved by the Graduate Advisor.

3. Analytical Project

Analytical Project

Students will complete a final written project that integrates the content of theory and teaching methods courses. A final version of the report will be submitted to the Graduate School of Education and evaluated by faculty in the Special Education area.

Doctoral Degree

The doctoral program in Education is designed to prepare scholars for teaching and research in the area of education. More information about graduate programs in Education is available by contacting the graduate advisor, Graduate School of Education, (951) 827-6362, or visit education.ucr.edu.

Specialization

The Graduate School of Education has six areas of specialization: Education, Society, and Culture; Education Policy Analysis and Leader-

ship; Educational Psychology; Higher Education Administration and Policy; School Psychology; and Special Education. The School Psychology Program is accredited by the American Psychological Association (APA) and approved by the National Association of School Psychologists (NASP). School Psychology Ph.D. students can also obtain a Pupil Personnel Services Credential.

Information about each area of specialization is available at education.ucr.edu.

Following admission to the program, students are assigned a preliminary faculty advisor who guides them during the initial phase of their program. Students work closely with a faculty advisor during their doctoral program. In addition, three faculty committees — a program guidance committee, an oral qualifying examination committee, and a dissertation committee — may be formed at various stages of the program.

Course Work

Candidates entering the Ph.D. program take a series of courses based on their area of specialization. Number of units vary by specialization. The student and his or her program guidance committee identify and document a program plan. Coursework in each specialization consists of sufficient study to allow the student to master the essential concepts and inquiry methods of that field.

Education, Society, and Culture

Required core and methods courses:

EDUC 214A, EDUC 223A, EDUC 223B, EDUC 241B

Theory - complete a minimum of two (2) courses from: EDUC 220A, EDUC 220B, EDUC 230A, EDUC 230B, EDUC 273, EDUC 277, EDUC 278, EDUC 284, EDUC 289

Electives - complete a minimum of five (5) courses from the following list:

EDUC 201A, EDUC 201B, EDUC 203, EDUC 210, EDUC 226, EDUC 233, EDUC 238, EDUC 245E, EDUC 245G, EDUC 248E, EDUC 248I, EDUC 248P or EDUC 248U, EDUC 249, EDUC 257, EDUC 260, EDUC 266, EDUC 269I, EDUC 274, EDUC 275, EDUC 276, EDUC 277, EDUC 279, EDUC 284

Teaching Requirement: EDUC 302

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Education Policy Analysis and Leadership

Required Courses

Core Foundation: EDUC 209/PBPL 260, EDUC 210

Core Methodology: EDUC 214A, EDUC 241B

Research Methodology

A student selects the Quantitative Methods or the Qualitative Methods strand:

Quantitative Methods Strand

Two (2) courses: EDUC 214B, EDUC 214C

Qualitative Methods Strand

Two (2) courses: EDUC 223A, EDUC 223B

Special Policy Topics - minimum of sixteen (16) units or four (4) courses from:

EDUC 205, EDUC 218, EDUC 245G, EDUC 245J, EDUC 269M

Social Science and Methods Electives:

Minimum of eight (8) units or two (2) courses in Economics, Sociology, Social Psychology, Political Science, History, or other social science. Students may also substitute in one advanced research methods courses. Courses must be approved by student's advisory committee.

Teaching Requirement: EDUC 302

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Educational Psychology

This specialization offers two tracks. Track 1 is Cognition, Instruction, and Student Learning; Track 2 is Quantitative Methods. Students choose one track in consultation with faculty advisor.

Required Courses: EDUC 211A, EDUC 214A, EDUC 214B, EDUC 214C, EDUC 240, EDUC 241B, EDUC 242B, EDUC 255B,

Students choose Track 1 or Track 2 and take a minimum of two courses from that Track in consultation with faculty advisor:

Track 1 - Cognition, Instruction, and Student Learning: EDUC 200, EDUC 247, EDUC 251, EDUC 256, EDUC 269E

Track 2 - Quantitative Methods: EDUC 215A, EDUC 215B, EDUC 215C, EDUC 215D, EDUC 215E, EDUC 215F, EDUC 218, EDUC 242C, EDUC 269E

Directed Research: EDUC 297 – A student will engage in pre-dissertation research with at least one faculty member. Directed research lasts three quarters, minimum of four units each quarter, resulting in a research article submitted for presentation or publication.

Teaching Requirement: EDUC 302

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Higher Education Administration and Policy

Research Methodology

In consultation with the faculty advisor, a student selects the Quantitative or the Qualitative Methods Strand to complete, plus one course from the strand they did not select.

Quantitative Methods Strand - three (3) courses: EDUC 214A, EDUC 214B, EDUC 214C

and

One course from: EDUC 241B, EDUC 223A, EDUC 223B

or

Qualitative Methods Strand - three (3)

courses: EDUC 241B, EDUC 223A, EDUC 223B

and

One course from: EDUC 214A, EDUC 214B, EDUC 214C

Higher Education required core courses:

EDUC 248F, EDUC 248I, EDUC 248J, EDUC 248K, EDUC 248N, EDUC 248O, EDUC 248U or EDUC 248P

Specialization and Elective Courses - two (2) or more courses:

EDUC 248E, EDUC 248G, EDUC 248M, EDUC 248Q, EDUC 248R, EDUC 248S, EDUC 248V, EDUC 248W

Teaching Requirement: EDUC 302

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

School Psychology

Research Design and Methodology Courses

Required Courses: EDUC 214A, EDUC 214B, EDUC 214C, EDUC 215C, EDUC 217, EDUC 242B, EDUC 299

Psychological Consultation and Intervention

Required courses: EDUC 255A, EDUC 255B, EDUC 255C, EDUC 255D, EDUC 261

Psychological and Behavior Assessment

Required courses: EDUC 231A, EDUC 254A, EDUC 254B, EDUC 254C

Application of Scientific Psychology

Required courses: EDUC 265A, EDUC 265B, EDUC 265C, EDUC 265D, EDUC 265E, EDUC 265F, EDUC 268A, EDUC 268B, EDUC 268C

History and Systems of Psychology and Basic Content Areas in Scientific Psychology

Required courses: EDUC 211A, EDUC 233 or EDUC 245G or EDUC 276, EDUC 239, EDUC 246K, EDUC 246S, EDUC 246T, EDUC 263, EDUC 264

Internship Preparation: EDUC 401

Internship: Minimum of 12 units of EDUC 298I required. Students must complete and pass the oral qualifying examination before starting the required 1500-hour internship.

Teaching Requirement: EDUC 302

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Special Education

Required Courses: EDUC 211A, EDUC 214A, EDUC 214B, EDUC 214C, EDUC 241B, EDUC 255B

Elective Courses - students must take at least one (1) course in each of the two elective areas:

Area I – Autism Spectrum Disorder and other Cognitive, Behavioral, Emotional

Disabilities: EDUC 239, EDUC 246K, EDUC 246L, EDUC 246N, EDUC 254C, EDUC 255A

Area II – Learning Disabilities: EDUC 246I, EDUC 246S, EDUC 256

Specialization Courses: A student will take a minimum of three (3) additional graduate level courses from GSOE or other academic departments in consultation with their faculty advisor.

Teaching Requirement: EDUC 302

Professional Development requirement: EDUC 259

Other courses may be used to complete degree and elective requirements, in consultation with the Faculty Advisor and approval by the Graduate Advisor.

Written Qualifying Examination

Near completion of the second year of study or after 60 units of graduate level course work, students take the written qualifying examination. The student's faculty advisor, in consultation with faculty associated with the student's area of specialization, coordinates the construction of the written examination. Students must

1. Review critical literature in an assigned field
2. Demonstrate competence in research methodologies, and
3. Demonstrate competence over content in fields of specialization.

The faculty associated with the student's area of specialization evaluate the written qualifying examination to determine the outcome. In the event students do not pass one or more sections, they will have one more opportunity to pass to continue in the program.

Pre-proposal and Oral Qualifying Exam

Following the successful completion of the written examination and before the oral qualifying examination, the Graduate Dean approves an oral qualifying committee nominated by the program. The committee consists of the student's faculty advisor, three additional faculty members from the Graduate School of Education, and one faculty member from outside the school. In preparation for the oral qualifying examination, students develop a pre-proposal, setting forth the direction of their dissertation. Once the faculty advisor determines that the pre-proposal is ready for the oral examination, it is distributed to the oral qualifying committee. The committee uses the pre-proposal as a focus for examining the student, but the questioning may go beyond the pre-proposal. Students pass the oral qualifying examination when the committee is satisfied that 1) the pre-proposal, as well as the student's grasp of the theoretical and empirical issues at its core, leads in a productive direction toward a competent dissertation, and 2) the student has demonstrated competence in areas covered by the written examination that are also addressed in the oral examination.

Proposal

Prior to commencing the dissertation research, students must have a dissertation proposal approved by the dissertation

committee.

Teaching Requirement

EDUC 302 is taken for a minimum of one quarter. Units are determined by supervising course instructor.

Foreign Language Requirement

None

Dissertation

Following the approval of the dissertation proposal, students will complete a dissertation and schedule an oral defense with the approval of the committee chair. The dissertation must be approved by the dissertation committee and submitted to the Graduate Division before the candidate is recommended for the degree.

Professional Development Requirement

All students must enroll in EDUC 259.

Normative Time to Degree 15 quarters from admission to the Ph.D. program

Credential Programs

The Graduate School of Education offers teaching credential programs, and a credential for school psychologists. These programs are accredited by the California Teaching Commission.

Admission to GSOE credential programs is based upon GPA and letters of recommendation from individuals knowledgeable about the candidate's ability to succeed in professional study. Most programs also require an interview. Admission to the teaching credential programs also requires candidates to pass exams in basic skills and subject matter. Course prerequisites depend on the intended program. More information regarding the prerequisites is available on the Prepare to Teach flyer. Admission information and deadlines are available at education.ucr.edu. Contact GSOE at (951) 827-5225 or at creded@ucr.edu. Information can also be obtained at the GSOE Student Services Office, 1124 Sproul Hall.

Programs for the Preparation of Teachers

Post baccalaureate Teaching Credential Programs

The Graduate School of Education offers credential programs that result in teacher certification and do not require admission to a master degree program. The following programs are offered:

- Multiple Subjects Generally for the elementary setting. A bilingual emphasis in Spanish is available to qualified candidates who want to be authorized to deliver instruction in Spanish as well as English.
- Single Subject Generally for the middle school or high school setting. GSOE offers the following single subject areas: English, Languages Other than English, Mathematics, Sciences, and Social Science.
- Education Specialist For those who want to be special education teachers. GSOE offers the following specializations: Mild/Moderate and/or Moderate/Severe Disabilities.

All credential programs offer the option of student or intern teaching. The intern option

requires candidates to have some teaching experience (ex: substitute teaching or instructional aides) and completion of pre-service requirements prior to admission.

Combined teacher credential programs with a Master of Education degree (M.Ed.) are described in the Master of Education section.

Lower-Division Courses

EDUC 001 Imaging Teaching 2 Lecture, 2 hours. Prerequisite(s): none. Considers images of teaching produced in popular culture, professional writing, and personal recollections, and how the images impact and reflect teaching in schools. Designed for lower-division students considering teaching as a career. Credit is awarded for only one of EDUC 001 or EDUC 003.

EDUC 002 Looking in Classrooms 3 Lecture, 2 hours; field, 3 hours. Prerequisite(s): EDUC 001 or EDUC 003. Involves observation in classrooms in local schools identified as having exemplary programs. Students record and interpret their observations and compare them to published studies of classrooms. Credit is awarded for only one of EDUC 002 or EDUC 004.

EDUC 003 Imaging Teaching: Science/Mathematics Emphasis 3 Lecture, 2 hours; field, 3 hours. Prerequisite(s): admission to the California Teach program; and consent of instructor. Considers images of teaching and how they impact teaching in schools. Addresses topics related to teaching mathematics and science in the K-12 classroom. Includes 3 hours per week of classroom observations, some of which takes place in public school classrooms. Credit is awarded for one of the following: EDUC 003 or EDUC 001.

EDUC 004 Looking in Classrooms: Science/Mathematics Emphasis 3 Lecture, 2 hours; field, 3 hours. Prerequisite(s): EDUC 003; admission to the California Teach program; consent of instructor. Involves observation in classrooms in local schools identified as having exemplary programs in mathematics and science. Students record and interpret their observations and compare them to published studies of classrooms. Designed for lower-division students who plan to teach mathematics or science in the public schools. Credit is awarded for only one of EDUC 002 or EDUC 004.

EDUC 005 Introduction to Education Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An overview of the field of education and learning inside and outside of the classroom. Introduces public policy and a critical perspective on the ideological and social construction of schools in the U.S. Interpretations of learning conditions through student observations and experiences in varied educational and learning contexts.

EDUC 010 Principals of Learning Strategies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces attitudes and behaviors associated with successful learning and achievement. Compares research-based learning strategies in school, home, and multimedia with regard to different types of learners and topic areas.

EDUC 019 (E-Z) Topics in Education 4 Lecture, 3 hours; discussion, 1 hour. Explores a topic of current theory, research, and issues in areas of education, society, and human development. Debate and dialog are the distinguishing features of this course. Topics are announced in the Schedule of Classes. E. Educational Psychology; I. Education, Society, & Culture; M. Educ Policy Analysis & Leadership; N. Higher Education; P. School Psychology; S. Special Education; Course is repeatable as content or topic changes to a maximum of 16 units.

EDUC 023 Introduction to Education Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An overview of federal and state policy frameworks governing public education. Explores the political dynamics of policy making. Focuses on centralized policy making authority and on efforts to reform and improve public schools. Explores competing values guiding policy debates and dilemmas of centralized policy control.

EDUC 024 Inequality in Educational Opportunity and Achievement 4 Lecture, 3 hours; discussion, 1 hour. Examines existing theories, research, and policies addressing disparities in educational opportunities and achievement among racial/ethnic, social class, and language groups--a problem now contentiously designated as the "achievement gap." Explores the incidences, consequences, and causes of these gaps and society's interest in eliminating the gaps.

EDUC 032A Introduction to Children With Special Needs 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces variations in the development of children with special needs from birth through pre-adolescence and the resulting impact on families. Includes historical and societal influences, laws relating to children with special needs, and the identification and referral process for special education and related services. Includes field observations.

EDUC 032B Childhood Stress and Trauma 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides a comprehensive overview of concepts and issues related to childhood stress and trauma. Emphasizes the short-and long-term effects that stress and trauma have on the physical, cognitive, language, social, and emotional development of a child. Examines methods that support the child's coping skills and healing process and reviews how parents and practitioners can assist them.

EDUC 032C Children With Challenging Behaviors 4 Lecture, 3 hours; discussion, 1 hour; field, 10 to 12 hours per quarter. Prerequisite(s): none. Provides an overview of the developmental, environmental and cultural factors that impact the behavior of children. Addresses why children misbehave, proactive intervention and techniques to promote appropriate behavior and how to address problem behaviors, including those that are aggressive, antisocial, disruptive, destructive, over-emotional and overly dependent. Outside observations are required.

EDUC 041 Culture, Power, and School Knowledge 4 Lecture, 3 hours; discussion, 1

hour. Prerequisite(s): none. Examines school knowledge as the product of struggles over cultural power and social legitimacy. Provides conceptual tools for developing critical understandings of school knowledge, reviews research addressing the representation, inclusion, and exclusion of diverse groups in school curriculum, and examines public controversies over school curriculum.

EDUC 042 Education For Critical Consciousness 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces critical consciousness from an interdisciplinary perspective as it relates to the role of education in schools and society. Critiques various conventional approaches in education while exploring various transformative approaches, particularly for the purposes of developing critically conscious educators who work for educational equity and transformation in education.

EDUC 043 Education, Society and Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces the history and philosophy of public education in the United States. Focuses on the political economy, dominant ideologies, and existing educational practices that have precedents in various historical eras. Explores the history of education of girls and women, people of color, minority groups, and people of varying socioeconomic classes.

EDUC 044 Principles of Healthful Living 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. Introduction to personal, family, and community health. Discusses the attitudes and behaviors associated with healthful living and the use of health-related scientific information. Explores the effects of alcohol, dangerous drugs, narcotics, degenerative and infectious diseases, and tobacco on the human body and the community resources available to assist in their treatment.

EDUC 050 Intercollegiate Athletics and American Higher Education 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces intercollegiate athletics as an organization including its structure and function. Explores the role of intercollegiate athletics in higher education from historical, sociological, economic, and administrative perspectives. Focuses on contemporary issues including student-athlete experience as well as the roles of faculty, students, coaches, and administrators and the various emerging challenges.

EDUC 051 Introduction to Higher Education: Current Issues and Debates 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces critical issues confronting contemporary U.S. higher education. Focuses on three major themes: debates over the purpose of higher education; the context and main challenges institutions and students currently face; and how the current environment is likely to shape the future of higher education.

EDUC 060 Development of Performance Excellence 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An overview of current issues in the field of performance psychology. Focuses on theoretical issues in

the field of excellence and applied information gathered from interviews with performance experts. Examines specific mental strategies used by elite performers that contributes to the attainment of performance excellence across a variety of domains.

EDUC 061 Introduction to Human

Development 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Discusses the development of physical, social and cognitive processes from infancy to young adulthood. Physical topics include genetics, prenatal and motor development. Cognitive processes include perception, attention, and memory and language development. Social processes include topics such as attachment, moral development, aggression, peer relationships and the family.

EDUC 093A First-Year Seminar: Introduction to the Major and University 2

Seminar, 2 hours. Prerequisite(s): Restricted to class level standing of freshman; Restricted to major(s) Education, Society, Human Dev. Introduces the Education major. Provides opportunities to engage with Education faculty and learn about research. Introduces community learning options. Explores the structure and culture of university environment and the various support systems in place. Learn about student success strategies and consult with advisors for support. Graded Satisfactory (S) or No Credit (NC).

EDUC 093B First-Year Seminar: Exploring Opportunities For Success 2

Workshop, 2 hours. Prerequisite(s): EDUC 093A with a grade of S or better; Restricted to class level standing of freshman; Restricted to major(s) Education, Society, Human Dev. Delves deeper into the support structures and opportunities on campus. Engages in short-and long-term goal setting. Explores student success strategies and building community in the cohort. Continues the opportunities to receive structured support and consultation from advisors. Graded Satisfactory (S) or No Credit (NC).

EDUC 093C First-Year Seminar: Community of

Learners 2 Workshop, 2 hours. Prerequisite(s): EDUC 093B with a grade of S or better; Restricted to class level standing of freshman; Restricted to major(s) Education, Society, Human Dev. Explores learning options during the academic year and summers. Discusses the significance of on- and off-campus research and community engagement opportunities. Continues discussions of student success strategies, building community, and the structured opportunities to receive support and consultation with advisors. Graded Satisfactory (S) or No Credit (NC).

EDUC 094 Transfer Seminar: Exploring the Tools and Opportunities For Student

Success 2 Seminar, 2 hours. Prerequisite(s): Restricted to class level standing of junior; Restricted to major(s) Education, Society, Human Dev; or consent of instructor. Introduces transfer students to the Education major. Provides opportunities for engaging with Education faculty and learn about research. Explores university environment and opportunities for student success. Explores student success strategies and introduces opportunities to consult with advisors for support. Explores opportunities to broaden intellectual and professional

opportunities in education. Graded Satisfactory (S) or No Credit (NC).

Upper-Division Courses

EDUC 100A Tutorial Teaching: Community

Outreach 2 Lecture, 5 hours per quarter; field, 3 hours; research, 15 hours per quarter. Prerequisite(s): upper-division standing. Motivation and teaching of children and adolescents in a tutorial setting in a school or other appropriate community educational center. Graded Satisfactory (S) or No Credit (NC).

EDUC 100B Tutorial Teaching: Professional

Development 2 Lecture, 5 hours per quarter; field, 3 hours; research, 15 hours per quarter. Prerequisite(s): upper-division standing; consent of instructor. Guided and sequenced tutorial experiences with children and adolescents enrolled in local schools having cooperative arrangements with the University. Provides experience in one-on-one teaching and supports the professional development of students planning to teach. Graded Satisfactory (S) or No Credit (NC).

EDUC 101 Academic Disciplines and

Professional Education 1 Lecture, 1 hour. Prerequisite(s): upper-division standing. An introductory study of how academic disciplines relate to pedagogy. Includes developing a personal educational philosophy, discovering ways to communicate knowledge, and reflecting on how a scholar becomes a teacher. Designed for undergraduates considering education as a professional career. Graded Satisfactory (S) or No Credit (NC).

EDUC 102 Democratic Pedagogy: Developing

R'courses 1 Workshop, 1 hour. Prerequisite(s): sophomore, junior or senior standing. Designed to support the R'Course process of student-facilitated, shared, active learning by providing a space for student facilitators to discuss pedagogical theory and prepare meaningful resources to put into practice. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units as topics change.

EDUC 104 Mathematics Education 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing. Examines contemporary instructional strategies relating to mathematics education. Includes thinking skills and problem solving strategies applicable to number theory, logic patterns and functions, statistics, probability, and geometry and algebra.

EDUC 105 Introduction to Science

Pedagogy 4 Lecture, 3 hours; field, 3 hours. Prerequisite(s): sophomore, junior, or senior standing. Introduction to contemporary theoretical pedagogical teaching strategies. Includes the application to teaching science education in the classroom for the twenty-first century. Covers the understanding of required Common Core State Standards (CCSS) and integration with Next Generation Science Standards (NGSS).

EDUC 112 Understanding Assessment in

Education 4 Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Introduces principles of

educational assessment including reliability and validity to help interpret test-based information in educational settings.

EDUC 118 Educational Research

Methods 4 Lecture, 3 hours; laboratory, 2 hours; written work, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Explores preliminary considerations that go into selecting a qualitative, quantitative, and mixed methods research design. Examines educational research from various paradigms.

EDUC 119 (E-Z) Topics in Education 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): restricted to class level standing of junior, or senior. Explores a topic of current theory, research, and issues in areas of education, society, and human development. Debate and dialog are the distinguishing features of this course. Topics are announced in the Schedule of Classes. E. Educational Psychology; I. Chicana/o Edu Hist Perspective; M. Educ Policy Analysis& Leadership; N. Higher Education; P. School Psychology; S. Special Education; Course is repeatable as content or topic changes to a maximum of 16 units.

EDUC 122 Education, Digital Media, and

Democratic Engagement 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines studies of youth civic and political engagement and how such engagement is changing in the digital age. Learn about and evaluate varied ways educators can support more, more equitable, and effective democratic engagement in the digital age.

EDUC 123 School Effectiveness and Educational

Equity 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the research literature on teacher and school factors that impact student achievement and educational equity. Dozens of factors are covered and an effort is made to gauge the relative effect of each.

EDUC 132 The Exceptional Child 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. Explores characteristics of individuals with physical and mental disabilities. Includes emotional disturbance, visual or hearing impairments, gifted and talented students, and children with characteristics of autism. Emphasizes educational programs and considers the effect of gender, socioeconomic, ethnic, and linguistic factors.

EDUC 133 Issues and Trends in Special

Education 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EDUC 132; Restricted to class level standing of junior, senior, credential only, or masters. Includes history and laws influencing treatment, education, and transition to adulthood; issues related to labeling, eligibility, and program placement; changes in educational interventions based on research and law; services to pre-school age children and their families; and trends in instructional approaches. Satisfactory(S) or No Credit(N/C) is not available.

EDUC 134 Abnormal Psychology For

Educators 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of abnormal psychology for educators. Topics include how psychologists categorize and diagnose a variety of disorders in school-aged children, how to support these students in the classroom, and potential difficulties that may be faced in the classroom or educational setting.

EDUC 136 Educational Assessment of Individuals With Disabilities 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 132 with a grade of C- or better; Restricted to class level standing of junior, senior, credential only, or masters; or consent of instructor. Teaches the principles and techniques of assessment and educational planning for children with disabilities. Examines the value and usefulness of a broad range of assessment and record-keeping tools in general and special education.

EDUC 139 Curriculum and Instruction 4 Lecture, 3 hours; laboratory, 2 hours; research, 1 hour. Prerequisite(s): upper-division standing. The study of modern curricula in the elementary and secondary schools, including the effects of performance objectives, diagnostic-prescriptive teaching, individualized instruction, lesson planning, and performance assessment. Content analysis of curriculum areas will be emphasized.

EDUC 141 Historical and Contemporary Perspectives On Lgbtq Students and Faculty 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines historical and cultural meanings of homosexuality, heterosexuality, sex, and gender. Explores the historical experiences of LGBTQ students, teachers, and faculty from the early 20th century to the present. Explores current issues regarding LGBTQ students and teachers, including the California requirement to incorporate LGBTQs into the K-12 curriculum.

EDUC 142 Language and Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the relationships between language and society: the connections between language and cultural values; the intersection between language and social structure; the ways in which power relationships are reflected, reinforced and resisted by language practices; and how language is used to construct social identities.

EDUC 143 Ethnic Studies in K-12 Contexts 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): sophomore, junior or senior standing. Examines a brief historical genealogy of Ethnic Studies as a field of study, provides opportunities to broaden content and pedagogical knowledge of Ethnic Studies approaches in K-12 school settings and reviews the existing empirical research of the inclusion of Ethnic Studies literacies and pedagogies in U.S. public schools.

EDUC 144 Constructing Success and Failure in K-12 Schools 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Reviews theory on the relationship between schooling and social inequality. Examines educational research addressing how structural arrangements and

cultural processes in schools contribute to the academic success and failure of students based on racial, ethnic, class, gender, and linguistic differences.

EDUC 146 Educational Perspectives On the Chicano 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of educational policy issues concerning Chicano students, such as testing and testing procedures, learning styles, socialization, and language acquisition. Other topics will deal with the impact of significant legislative acts related to the education of Chicanos. Cross-listed with ETST 146.

EDUC 147 Education in A Diverse Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. An analysis of the classroom as a microcosm of society. Focuses on issues related to meeting the educational needs of students with diverse backgrounds and characteristics including gender, religion, ability, ethnicity, culture, socioeconomic status, class, exceptionality, and language.

EDUC 148 Critical Race Theory and K-12 Schools 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): EDUC 147 with a grade of C- or better; Restricted to class level standing of junior, or senior; or consent of instructor. Introduces the framework of Critical Race Theory. Guidance through a comprehensive analysis of racism and racial justice in schools and learning to develop racial literacies and research capacities.

EDUC 150 Policy and Legal Issues in Intercollegiate Athletics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines policy and legal issues associated with intercollegiate athletics. Emphasis will be placed on NCAA and member policies and principles as well as ongoing litigations and landmark judicial decisions affecting athletics. Students will approach these issues from the perspective of various stakeholders, including researchers, university leaders, regulatory bodies, and athletes.

EDUC 151 Wo/Men Who Control Our Universities: Leadership, Administration, and Governance in Higher Education 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces students to an overview of the leadership, administration, and governance required for the control of higher education institutions. Provides students with an opportunity to better understand the people in charge of higher education and how they lead.

EDUC 152 Education, Hip-Hop, and Sport 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Draws connections between education, hip-hop culture, and sport. Special emphasis is placed on the ways in which education and sport are inextricably linked to hip-hop culture. Consideration is also given to the complex, interconnected relationships between sport and hip-hop and topics such as

race, inequality, and politics within institutional settings.

EDUC 153 Whiteness, Power, and Privilege 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EDUC 147 with a grade of C- or better; Restricted to class level standing of junior, or senior; or consent of instructor. Explores race, racialization, and racism through the lens of critical whiteness studies and critical race theory. Sheds light on white racial identity development and reveals how racism and white supremacy render us un-whole. Includes a diverse range of topics related to whiteness, power, and privilege.

EDUC 160 Cognitive Development and Education 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Provides an overview of the major themes of cognitive development within the educational context. Major topics include the development of memory, abilities, motivation, language, and math skills. Explores the use of cognitive developmental changes within a variety of educational contexts.

EDUC 161 Social Development in Education 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Discusses the processes involved in the development of social behaviors from birth to young adulthood. Discussion of issues concerning attachment, family systems, peer relationships, aggression, prosocial behavior and self-concept within the educational context. Theories and scientific research are presented in a context of practical application.

EDUC 162 Learning Theory and Psychology in Education 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. Covers the study of stages of intellectual development; principles of learning; the dynamics of human behavior; learner and cultural differences as they relate to modern curricula and instruction; and the role of motivation and self-concept in the learning process.

EDUC 171 Reading and Language Development 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. An introduction to reading and language development. Addresses theoretical models of reading; linguistics and language development; methods and materials; children's and adolescents' literature; reading in the content areas; individual differences; and measurement and evaluation in reading. Includes observation and participation in assigned schools. Credit is awarded for one of the following EDUC 171 or EDUC 172.

EDUC 172 Reading and Language Development 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. An introduction to reading and language development. Addresses theoretical models of reading; linguistics and language development; methods and materials; children's and adolescents' literature; reading in the content areas; individual differences; and

measurement and evaluation in reading. Includes observation and participation in assigned schools. Credit is awarded for one of the following EDUC 172 or EDUC 171.

EDUC 173 Teaching Literature to Children and Adolescents 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing. Explores developmental methods appropriate for teaching literature to children and adolescents. Topics include story telling, story reading, pictorialization, dramatics and body movement, and narrative, poetic, and dramatic writing. Examines literature written for children and adolescents and adult fiction appropriate for children and adolescents.

EDUC 177 Reading and Writing in the Content Areas 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. An examination of reading, writing, academic language, and English language development strategies for teaching at the middle and high school levels. Covers all areas of the curriculum. Includes observation and participation in public schools. Credit is awarded for one of the following EDUC 177 or EDUC 178.

EDUC 178 Reading and Writing in the Content Areas 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. An examination of reading, writing, academic language, and English language development strategies for teaching at the middle and high school levels. Covers all areas of the curriculum. Includes observation and participation in public schools. Credit is awarded for one of the following EDUC 178 or EDUC 177.

EDUC 179A Language Development in Content Areas 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, senior, credential only, or masters. Examines materials, teaching strategies and remedial approaches designed to enhance reading skills and promote English language development of students experiencing difficulties in acquiring reading and language skills. Content area literacy and academic language for special needs population. Focuses on assessments and interventions used in both specialized and general education settings.

EDUC 179B Language Development in Content Areas: Esl Instruction Emphasis 3

Lecture, 2 hours; research, 1 hour; field, 2 hours. Prerequisite(s): EDUC 179A with a grade of C- or better; Restricted to class level standing of junior, senior, credential only, or masters. Analysis, planning, execution, and evaluation of empirical and theoretical foundations of programs and strategies for English-as-a-second-language instruction and English language development in content area instruction. Includes observation and participation in assigned schools. Satisfactory(S) or No Credit(N/C) is not available.

EDUC 181 Introduction to Applied Behavior Analysis 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Introduction to the foundational knowledge and skills in Applied Behavior Analysis. Topics will

include the roots of Applied Behavior Analysis, key concepts in respondent and operant behavior, and their relevance to school and clinical settings. Basic principles of prevention and intervention for mild to severe problem behaviors will be discussed.

EDUC 182 Behavioral Interventions in the Schools 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. An introduction to the professional practice of applied behavior analysis (ABA) in K-12 school settings. Topics include ethical practice, assessment, and intervention. Presents relevant behavior principles and procedures focusing on their incorporation in educational programming for children and adolescents.

EDUC 183 Psychology in the Schools 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines psychological phenomena in schools including the interplay between students, teachers, and schools; the work of school psychologists and other school-based professionals; and special topics such as exceptional children, bullying, crisis intervention, and school violence prevention.

EDUC 184 Social Emotional Learning in the Schools 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An overview of fostering social emotional competence in PK-12 settings. Topics include cultural adaptations, generalization and maintenance, and trauma in the schools.

EDUC 190 Special Studies 1 to 5 Research, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of the Dean of the Graduate School of Education. Independent study and research in education. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

EDUC 198 R'course: Variable Topics 1 Activity, 3 hours. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

EDUC 198G Group Internship 1 to 12

Seminar, 1 hour; internship, 2 to 32 hours; written work, 1 hour. Prerequisite(s): upper-division standing; consent of instructor. On- or off-campus group internship related work in a community organization/district under the joint direction of an on- or off-campus supervisor and an Education faculty member. Requires a report based on the experience. Course is repeatable to a maximum of 16 units.

EDUC 198I Individual Internship 1 to 12

Seminar, 1 hour; internship, 2 to 32 hours; written work, 1 hour. Prerequisite(s): upper-division standing; consent of instructor. On- or

off-campus individual internship related work in a community organization/district under the joint direction of an on- or off-campus supervisor and an Education faculty member. Requires a report based on the experience. Course is repeatable to a maximum of 16 units.

Graduate Courses

EDUC 200 Human Differences 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): EDUC 212 or equivalent. Covers dimensions of individual differences, varieties of group differences, and factors producing differences in development.

EDUC 201A Research in Reading and Writing 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A critical evaluation of linguistic, cognitive, social, and cultural aspects of reading and writing, as gleaned from research, and reading and writing research methods.

EDUC 201B Theories and Issues in Literacy 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): EDUC 201A or consent of instructor. Examination of literacy development in individuals and in society; definitions of literacy; development of structural knowledge; development of communication skills; role of language differences in the problems of learning to read and write; oral language arts; emergent literacy; and writing development.

EDUC 202 Democracy and Education 4

Seminar, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. An introduction to the democratic purposes of education. Focuses on education's role in preparing youth for active, thoughtful, equitable, and effective participation in a democratic society. Highlights the challenges and opportunities associated with societal changes such as the digital revolution, increasing student diversity, and sizable partisan divisions.

EDUC 203 History of American Education 4

Lecture, 3 hours. Prerequisite(s): consent of instructor. A study of American educational history from 1830 to the present.

EDUC 205 Economics of Education 4

Seminar, 3 hours; activity, 3 hours. Prerequisite(s): EDUC 214B or equivalent; consent of instructor. Examines the insights economists have brought to the education policy debate. Covers basic microeconomic theory and its application to private and social returns to education, education production, costs, and financing of education, teachers and teacher labor markets, and education markets, school choice, and incentives.

EDUC 209 Education Policy Analysis 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines major issues and reform movements in public education that are at the forefront of the national policy agenda today. Each educational reform issue will be viewed in light of its connection to four themes driving reform efforts: (1) equity, (2) adequacy, (3) autonomy, and (4) accountability. Cross-listed with PBPL 260.

EDUC 210 Sociology of Education 4

Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s):

graduate standing. Introduces students to key sociological theories and empirical research on schooling and social inequality. This is a diverse subfield of sociology, focusing on how social forces create variation in school practices, and how variation in school practices affects individual student achievement, behavior, and life course outcomes.

EDUC 211A Cognitive Development 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Survey course on theories, issues, applications, and contemporary research related to cognitive development across several major developmental periods, including childhood, adolescence, and early adulthood.

EDUC 211B Social Development 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys social development during childhood and adolescence. Topics include individuality and self, peer relations, adult-child relations, self-system beliefs and attitudes, and achievement motivation. Special attention is paid to issues as they relate to socialization at school.

EDUC 212 Research Methods 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers principles of scientific research including historical, survey, descriptive, correlational, experimental, and quasi-experimental methods, as well as internal and external threats to validity. Credit is awarded for only one of EDUC 212 or EDUC 248T.

EDUC 214A Introduction to Quantitative Methods 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 241A; first-year standing in the Ph.D. program in Education. Introduces quantitative research studies. Covers the design, collection, analysis, and interpretation of quantitative data in educational research.

EDUC 214B Educational Research: Statistical Inference and Hypothesis Testing 5 Lecture, 3 hours; laboratory, 3 hours; research, 3 hours. Prerequisite(s): EDUC 214A or consent of instructor. Covers sampling distributions and their use in tests of significance; ANOVA; planned multiple comparisons; fixed, random, and mixed-effects models; and simple and multiple regression. Examples are from education.

EDUC 214C Educational Research: Experimental Design 5 Lecture, 3 hours; laboratory, 3 hours; research, 3 hours. Prerequisite(s): EDUC 214B or consent of instructor. Focus is on common designs used in education, including higher order factorials, hierarchical designs, and repeated measures. Emphasis is on design application and appropriate statistical analysis for education. Covers ANCOVA.

EDUC 215A Educational Research: Advanced Statistics 5 Lecture, 3 hours; laboratory, 3 hours; research, 3 hours. Prerequisite(s): EDUC 214C or consent of instructor. Study of advanced statistical procedures frequently used in educational research. Topics vary. Covers MANOVA, simple and multiple regression, discriminant function analysis, and factor analysis.

EDUC 215B Factor Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 242A or consent of instructor. Covers theory and practice of factor analysis in educational and psychological measurement. Addresses exploratory and confirmatory factor analytic strategies. Includes application of computers to computation in factor analysis.

EDUC 215C Structural Equation Modeling 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): EDUC 215A or equivalent. Introduction to structural equation modeling (SEM) techniques. Emphasizes theory, application, and interpretation of techniques. Addresses development in the use and interpretation of specialized software. Topics include confirmatory factor analysis, covariance structure analysis, structural regression models, and latent change analysis. Considers model definition and specification, identification, estimation, and testing.

EDUC 215D Multilevel Modeling 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 214C or consent of instructor. Covers the processes involved in conceptualizing, conducting, interpreting, and composing multilevel analyses. Includes ANOVA and ANCOVA with random effects, means-as-outcomes, random-coefficients, intercepts and slopes as outcomes, and growth models. Also addresses model building and assessment, centering, estimation, hypothesis testing, contextual and compositional effects, and other related topics.

EDUC 215E Advanced Applications of Multilevel Modeling 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): EDUC 215D or consent of instructor. Recent developments and advanced applications of multilevel modeling for research in education and the social sciences. Topics include mediation, cross-classified, mixture, multivariate, nonlinear, multiple group, and growth models. Also covers Bayesian estimation, causal inference, and other new or advanced topics related to multilevel modeling. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EDUC 215F Casual Modeling in Education 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): EDUC 214B; graduate standing. Overview of methods for estimating causal effects in social research. Topics include randomized experiments, regression discontinuity, interrupted time series, difference-in-differences, instrumental variables, matching, and fixed effects. Focuses on statistical theory, data requirements, and appropriate applications. Students gain experience applying methods through assignments analyzing real data.

EDUC 217 Single-Case Experimental Design 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program in School Psychology or Special Education; graduate standing; or consent of instructor. Covers methodological considerations for engaging in defensible causal inference using single-case design. Discusses applicable issues in causality, design, measurement, analysis, and synthesis. Emphasizes skills in independently designing and conducting single-case research.

EDUC 218 Problems in Evaluation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. A study of policies and procedures that define program evaluations in education. Topics include evaluation models, formative and summative strategies, evaluation designs and analyses, and ethical issues.

EDUC 219 Classroom and School Assessment 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Survey course in classroom and school assessment. Covers basic principles of measurement including test administration, construction, scaling, norming, reliability, validity, and interpretation of individual and group tests.

EDUC 220A Sociocultural Theory and Education 4 Seminar, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Explores sociocultural perspectives in relation to teaching, learning, students, teachers, and others in schools and other learning environments. Considers issues of knowledge, skills, values, power, and privilege as seen through sociocultural theory and research.

EDUC 220B Sociocultural Theory and Education 4 Seminar, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): EDUC 220A or consent of instructor. Continues the exploration of sociocultural perspectives in relation to teaching, learning, students, teachers, and others in schools and other learning environments. Considers issues of knowledge, skills, values, power, and privilege as seen through sociocultural theory and research.

EDUC 223A Qualitative Research Methodologies in Education 5 Seminar, 3 hours; research, 6 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the theoretical underpinnings of qualitative research methodologies and their use in designing, conducting, and representing research.

EDUC 223B Qualitative Research Methodologies in Education 5 Seminar, 3 hours; research, 6 hours. Prerequisite(s): graduate standing or consent of instructor; EDUC 223A. Focuses on the collection, analysis, and representation of data in interpretive research.

EDUC 225 Chicana/o Curricula K-12: Theory Into Praxis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Overview of academic literatures in critical pedagogy, critical race theory, bilingual, multicultural, and Chicana/o education. Contextualizes theory with K-12 practice. Includes collaborative creation of grade-level standards-aligned curricula focused on Chicana/o communities and engaging critical theories in praxis.

EDUC 226 Ethnic Studies and Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces a brief historical genealogy of Ethnic Studies as an interdisciplinary academic field. Presents content and pedagogical knowledge of Ethnic Studies in K-12 school settings. Reviews the existing research of Ethnic Studies literacies in U.S. public schools.

EDUC 227 Educational Change and Innovation 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The study of change and innovation in the public school. Emphasis is placed on (a) the organizational environment of the school which must accommodate the innovation, (b) specific strategies of change, and (c) contemporary educational innovations.

EDUC 230A Curriculum Theory and Praxis in Education 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Covers analysis of curriculum theories, trends, innovations, and instructional strategies.

EDUC 230B Curriculum Theory and Praxis in Education 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 230A recommended. Covers analysis of curriculum organization, design, and implementation.

EDUC 231A Introduction to Applied Behavior Analysis 4

Lecture, 3 hours; term paper, 1.5 hours; extra reading, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the foundational knowledge and skills in Applied Behavior Analysis. Topics will include the roots of Applied Behavior Analysis, key concepts in respondent and operant behavior, and their relevance to school and clinical settings. Basic principles of prevention and intervention for mild to severe problem behaviors will be discussed.

EDUC 231B Behavioral Interventions in the Schools 4

Lecture, 3 hours; extra reading, 1.5 hours; term paper, 1.5 hours. Prerequisite(s): graduate standing; or consent of instructor. An introduction to the professional practice of applied behavior analysis (ABA) in K-12 school settings. Topics include ethical practice, assessment, and intervention. Students will learn relevant behavior principles and procedures, with a focus on their incorporation in educational programming for children and adolescents.

EDUC 233 Differential Achievement and the School Learning Environment 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing. Explores how racial, ethnic, linguistic, cultural, and socioeconomic differences in educational achievement are a product of the learning environments experienced in schools and classrooms.

EDUC 235 Ethics For Applied Behavior Analysis 4

Lecture, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing. Focuses on the ethical considerations from the field of applied behavior analysis and using behavioral approaches to treat individuals demonstrating problem behaviors. Covers the Behavior Analyst Certification Board's Professional Disciplinary and Ethical Standards and the Guidelines for Responsible Conduct for Behavior Analysts.

EDUC 236A Behavior Analytic Skills

Development: Level 1 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor; concurrent enrollment in EDUC 237. A study of the basic-level professional and ethical practice of behavior-analytic skills. Students will complete supervised fieldwork to apply concepts and skills.

EDUC 236B Behavior Analytic Skills

Development: Level 2 2 Seminar, 2 hours. Prerequisite(s): EDUC 236A; concurrent enrollment in EDUC 237. A study of how to assess behavior. Topics include applying applied analytic methods for collecting indirect and direct observation data.

EDUC 236C Behavior Analytic Skills

Development: Level 3 2 Seminar, 2 hours. Prerequisite(s): EDUC 236B; concurrent enrollment in EDUC 237. A study of intermediate-level professional and ethical practice of behavior-analytic skills. Students will complete supervised fieldwork to apply concepts and skills.

EDUC 236D Behavior Analytic Skills

Development: Level 4 2 Seminar, 2 hours. Prerequisite(s): EDUC 236C; concurrent enrollment in EDUC 237. A study of how to experimentally analyze behavior. Topics include using a range of single case designs to evaluate behavior and use data to interpret intervention results.

EDUC 237 Concentrated Fieldwork in Applied Behavior Analysis 1 to 10

Field, 3 to 30 hours. Prerequisite(s): taken concurrently with EDUC 236A or EDUC 236B or EDUC 236C or EDUC 236D. Concentrated fieldwork in applied behavior analysis will provide students with the supervised experience necessary for the development of their professional and ethical practice of behavior-analytic skills. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 40 units.

EDUC 238 Education and Gender 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the multiple and complex relationships of gender and education in U.S. society. Analyzes theoretical perspectives on gender and schooling. Topics include cultural constructions of identity, male and female experiences of schooling, and concepts of gender neutrality in the curriculum.

EDUC 239 Developmental

Psychopathology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing in Education or Psychology or consent of instructor. Examines the origins of psychopathology from multiple theoretical perspectives with a specific focus on childhood disorders. Topics include biological and environmental contributions to disorder development and treatment paradigms.

EDUC 240 Educational Psychology 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 162; or equivalent; graduate standing; or consent of instructor. Overview of the major empirical and theoretical bases of educational psychology, followed by detailed analysis of the following topics: (a) cognition and metacognition as applied to school learning and instruction; (b) motivation, student perceptions, teacher perceptions, classroom processes; (c) effective teaching; and (d) evaluation.

EDUC 241A Inquiry and Research

Methods 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): first-year standing in the Ph.D. program in Education. Examines the nature of inquiry and research in educational studies,

including the formation of questions.

EDUC 241B Introduction to Qualitative

Methods 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 241A; first-year standing in the Ph.D. program in Education. Introduces qualitative research studies. Covers the design, collection, analysis, and interpretation of qualitative data in educational research.

EDUC 242A Educational and Psychological Measurement and Evaluation 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 214B; consent of instructor. Examines topics in measurement and evaluation including classical test theory and program evaluation design. Focus is on application in educational and psychological settings and critical examination of norm-referenced and criterion-referenced testing.

EDUC 242B Advanced Educational and Psychological Measurement and Evaluation 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 242A or equivalent or consent of instructor. Examines advanced topics in measurement and evaluation including generalizability theory and item response theory. Emphasis is on the statistical basis of these theories and their application in educational and psychological settings.

EDUC 242C Applied Measurement in

Education 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 242B or equivalent or consent of instructor. Examines applications of advanced topics in measurement and evaluation including generalizability theory and item response theory. Emphasizes qualitative and quantitative approaches to examine measurement properties that should be considered when designing instruments for use in educational and psychological settings.

EDUC 245 (E-Z) Review of Research Literature in Education 4

Prerequisite(s): graduate standing. Critical analyses of research in the various areas of education.

EDUC 245E History of Church, State, and

Schooling 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Overview of the historical roles of religion in the origins and development of public schooling in the United States and the establishment of private religious schooling. Examines the historical roots of contemporary issues of schooling, church, and state, including school prayer, creationism and evolution debates, and censorship.

EDUC 245G The Opportunity/Achievement

Gap 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines theoretical and empirical research on the "achievement gap" from a variety of social science disciplines. Explores causes and consequences of racial or ethnic, linguistic, cultural, and socioeconomic differences in educational achievement.

EDUC 245J School Effects 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing. A review of the research literature on effective schools. Covers historical background, practices, resources, structures, student body characteristics, sources of socioeconomic

and racial inequality, and assessing school performance.

EDUC 246 (E-Z) Research On Education of Exceptional Children 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Intensive study of current research on the education of exceptional children. E. Autism Spectrum Disorders In The Classroom; F. Emotional And Behavior Disorders; I. Learning Disabilities; J. Contemporary Issues And Trends; K. Autism Spectrum Disorders; L. Behavioral Phenotypes; M. Multicultural Education; N. Early Intervention; O. Family Influence On Developmnt; R. History Of Special Education; S. Sources And Treatments Of The Reading Difficulties Of Students With Disabilities; T. Brain And Behavior;

EDUC 247 Theoretical Perspectives On Learning 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on how learning occurs according to various theories and what factors may facilitate or impede learning. Theories include behaviorism, social learning theory, constructivism, information processing, social constructivism, sociocultural perspectives, and cultural and linguistic theories.

EDUC 248 (E-Z) Higher Education 4 Prerequisite(s): graduate standing. For hours and prerequisites, see segment descriptions. A selection of courses for studies on higher education.

EDUC 248E Demographics and Diversity in Higher Education 4 Seminar, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An introduction to theoretical perspectives of diversity in U.S. higher education. Explores the implications of demographic shifts on U.S. postsecondary educational practice and policy. Reviews the research literature on the impact of diversity on educational outcomes for college students, faculty, and administrators.

EDUC 248F Financing Higher Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of finance and economics of higher education in the United States. Examines economic theories as they apply to higher education finance and the distributive implications of various financing strategies. Covers main trends and current debates and how to identify political-economic rationales behind financing policy choices in higher education.

EDUC 248G Higher Education Governance 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces students to the organization and governance of higher education. Covers diverse forms of organization and governance in contemporary public and private higher education in the United States. Also addresses alternative theoretical frames through which to view postsecondary governance structures (both internal and external to institutions).

EDUC 248I Critical Issues in Higher

Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines internal and external issues that face higher education institutions.

EDUC 248J Higher Education Policy 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces a range of contemporary higher education policy issues and the conceptual and theoretical frameworks used to understand these issues. Develops fluency in using public policy language in the higher education setting. Addresses critical understanding of policy analysis, economics, and political science papers in higher education.

EDUC 248K The Dissertation and the Proposal in Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Enhances skills in evaluating and critiquing research through written and oral communication. Includes completion of dissertation proposal in the field of education. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable up to a maximum of 12 units.

EDUC 248M The Community College 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Analyzes current literature on community colleges.

EDUC 248N Higher Education Scholarship and Literature Review 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Utilizes scholarship in higher education to review literature on specific topics in the field, as well as develop these topics for research.

EDUC 248O Organization and Administration in Higher Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines theory, research, and literature on higher education organizations and their management.

EDUC 248P Historical Perspectives On Campus Life 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines historical perspectives on campus life in the United States from the view of the students, faculty, administrators, and employees. May address the general environment, curriculum, student activities and clubs, athletics, town-gown relationships, or other aspects.

EDUC 248Q Foundations of Student Services 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the field of student services and student affairs in higher education institutions. Focuses on the historical and philosophical foundations of the field, as well as guiding theories and models of practice. Addresses contemporary challenges for student services practitioners.

EDUC 248R College Student Development 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Addresses student

development in higher education institutions. Focuses on developmental theories applicable to college students. Examines institutional behaviors and actions (including policy) related to student development.

EDUC 248S The College Student 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Analysis of current literature on diverse populations of students in colleges and universities. Examines contextual and personal factors shaping the college experience. Focuses on students' multiple identities and challenges.

EDUC 248T Understanding Research in Higher Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the strengths and limitations of research methods used in higher education research. Explores data collection and research design. Also evaluates scholarly research publications. Credit is awarded for only one of EDUC 212 or EDUC 248T.

EDUC 248U History of Higher Education in the United States 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Overview of the growth and development of institutions of higher learning in the United States, from the colonial colleges to the multipurpose research institutions of today, including academies, community colleges, and professional schools.

EDUC 248V Campus Environments 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the study of how institutions impact students through the environments, cultures, and climates they make available. Topics include organizational and higher education theories of how universities structure environments and campus cultures and the manner in which climates shape experiences, behaviors, and outcomes.

EDUC 248W Whiteness, Power, and Privilege 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Explores race, racialization, and racism through the lens of critical whiteness studies and critical race theory. Sheds light on white racial identity development and reveals how racism and white supremacy render us unwhole. Includes a diverse range of topics related to whiteness, power, and privilege.

EDUC 249 Discourse Analysis For Education 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Analysis of spoken discourse in classrooms and other learning contexts to study social, cognitive, political, and historical aspects of teaching and learning; teacher-student relationships; schooling; and literacy acquisition. Topics include speaker-listener relationships, the social construction of educational roles, and discourse indicators of student development.

EDUC 251 Seminar in Cognitive Development 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): EDUC 211A or equivalent or consent of instructor. Seminar on current issues in cognitive development. Topics include metacognition, Vygotskian theory, and cultural

factors in cognitive development. Special attention will be paid to issues as they relate to the learning and teaching of school subjects.

EDUC 252 (E-Z) Sem in Educational

Psychology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Reviews various topics in educational psychology at the theoretical and empirical levels.

EDUC 254A Cognitive Assessment For School

Psychologists 4 Seminar, 3 hours; practicum, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program in School Psychology; graduate standing; or consent of instructor. Covers the administration, scoring, and interpretation of individual measures of intelligence and academic aptitude. Emphasizes the use of these measures for screening and classification decisions, as well as psychological report writing.

EDUC 254B Academic Assessment 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program in School Psychology or Special Education; graduate standing; or consent of instructor. Covers the administration, scoring, and interpretation of individual norm-referenced measures of academic achievement, perceptual-motor skills, and adaptive behavior. Emphasizes the use of these instruments for screening and classification decisions, as well as psychological report writing.

EDUC 254C Social, Emotional, and Behavioral

Assessment 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program specialization in School Psychology or Special Education; graduate standing; or consent of instructor. Covers procedures and techniques of behavioral assessment, including systematic behavioral observations, curriculum-based assessment, behavior rating scales, behavioral interviews, and self-monitoring. Includes conceptual issues in applying traditional psychometric theories to behavioral assessment data, as well as methods for integrating multimodal behavioral assessment information.

EDUC 255A Principles of Social Behavior

Intervention 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program in School Psychology or Special Education; or consent of instructor. Covers the principles and procedures for developing social competencies in school-age children and youth. Topics include social skills assessment, sociometric assessment, and strategies for promoting acquisition, performance, and maintenance of social skills.

EDUC 255B Principles of Academic Behavior

Intervention 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program in School Psychology or Special Education; or consent of instructor. Covers the principles and procedures for prevention and remediation of academic learning problems and performance. Topics include functional analysis, stimulus control, generalization, and methods for summarizing trends in academic performance.

EDUC 255C Child Behavior Therapy 4 Seminar, 3 hours; field, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program in School

Psychology or Special Education; graduate standing; or consent of instructor. Covers principles derived from neobehavioristic and social learning theories applied to treat children's problems. Discusses professional ethics, practice, and responsibility in clinical child behavior therapy.

EDUC 255D Advanced Child Behavior

Therapy 4 Lecture, 3 hours; extra reading, 9 hours. Prerequisite(s): EDUC 255C or written consent of the instructor. Introduces advanced child behavior therapy techniques for individual, family, and group therapy. Emphasizes different evidence-based therapy approaches in school settings.

EDUC 255E Advanced Topics in Applied

Behavior Analysis 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): EDUC 255A. A study of advanced topics in the applied behavior analysis (ABA), including those related to programming, skills acquisition, severe problem behaviors, and working with special populations.

EDUC 256 Advanced Seminar in Learning

Disabilities 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EDUC 212 or equivalent or consent of instructor. Critical evaluation of theory and research in the field of learning disabilities. Requires a data-based project reflecting original research.

EDUC 257 Language, Culture, and

Education 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines how culture and language influence educational processes and outcomes, by focusing on issues such as testing, gendered pedagogies, cultural adaptations of minority groups, social uses of literacy, Ebonics, bilingual education, and cultural capital.

EDUC 258 (E-Z) Higher Education 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): EDUC 223A; graduate standing. Courses for graduate studies on higher education. See individual segments for course information.

EDUC 258R Qualitative Data Analysis in

Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): EDUC 223A or equivalent; graduate standing or consent of instructor. Prepares students for the conduct of qualitative data analysis in major research projects and dissertation research. Includes the use of students' collected data or data set.

EDUC 259 Research Seminar 2

Seminar, 2 hours. Prerequisite(s): first-year standing in the Ph.D. program in Education or consent of instructor. Introduces opportunities and requirements for successful graduate study. Emphasizes effective strategies for developing and implementing a program of professional development and graduate research. Involves research reports on topics in educational psychology, special education, curriculum and instruction, and/or educational administration. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EDUC 260 History of Curriculum 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): consent of instructor. Investigates the historical construction of schooling in general and specifically the curriculum -- formal, informal,

and hidden. Explores the purposes of schooling, the relation between schooling and U.S. culture, and the sociocultural contexts for changes and continuities in curriculum.

EDUC 261 School Psychological

Consultation 4 Seminar, 3 hours; practicum, 3 hours. Prerequisite(s): admission to Ph.D. specialization in School Psychology or Special Education or M.Ed. emphasis in Applied Behavior Analysis; graduate standing; or consent of instructor. Covers theoretical and applied issues of consultative problem solving conducted in school settings. Addresses principles derived from behavioral systems and organizational theories and how these principles are used in an indirect service-delivery model to facilitate changes in students' behavior.

EDUC 263 Social Psychology: Theories,

Concepts, Applications 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. Provides an advanced overview of major theories and concepts in social psychology and, to a lesser extent, their application to selected issues in school and clinical psychology. Special attention is given to the construct of social influence.

EDUC 264 History and Systems of Psychology: Implications For School

Psychologists 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. Describes various sub-disciplines of psychology, key issues and events in the history of the field, prominent individuals whose contributions have made a significant impact on the development of psychology, and major schools of thought within psychology, as well as issues related to the graduate-level specialty of school psychology.

EDUC 265A Practicum in School Psychology:

Academic Assessment 2 Seminar, 2 hours, Practicum, 6 hours. Prerequisite(s): admission to the Ph.D. in Education, specialization in School Psychology. Introduces the student to school psychology and includes hands-on experience in supervised, school-based setting. Topics include the use, analysis and interpretation of academic assessments, use of screening within a multi-tiered framework, roles and functions of school psychologists, introduction to ethical and legal issues and issues of professional identity. Graded Satisfactory (S) or No Credit (NC).

EDUC 265B Practicum in School Psychology: Academic Intervention and

Consultation 2 Seminar, 2 hours, practicum, 6 hours. Prerequisite(s): EDUC 265A. Explores psychological assessment and consultation and includes hands-on experience in supervised, school-based setting. Topics include choosing and implementing academic interventions, making appropriate adaptations for culturally-linguistically diverse populations, progress monitoring, psychological report writing, ethical standards, and legal requirements and applying consultation skills at a systems and individual level. Graded Satisfactory (S) or No Credit (NC).

EDUC 265C Practicum in School Psychology: Administration and Interpretation of

Cognitive Assessments 2 Seminar, 2 hours, practicum, 6 hours. Prerequisite(s): EDUC 265B. Explores best practices in cognitive assessment and the identification of learning

disabilities. Includes hands-on experience in supervised, school-based setting. Topics include choosing and using cognitive assessments, making appropriate adaptations for culturally-linguistically diverse populations, providing evidence-based recommendations, psychological report writing, ethical standards, and legal requirements associated with use of cognitive assessments. Graded Satisfactory (S) or No Credit (NC).

EDUC 265D Practicum in School Psychology: Behavioral Multi-Tiered Systems of Support 2

Seminar 2, Practicum 6, Prerequisite(s): EDUC 265C, Explores best practices in implementing tiered systems of school-based behavioral supports. Includes hands-on experience in supervised, school-based setting. Topics include interpreting behavioral screening data, making databased decisions, progress monitoring behavioral outcomes and making appropriate adaptations for culturally-linguistically diverse populations. Graded Satisfactory (S) or No Credit (NC).

EDUC 265E Practicum in School Psychology: Mental Health Assessment 2

Seminar, 2 hours; practicum; 6 hours. Prerequisite(s): EDUC 265D. Explores best practices in implementing mental health assessment. Includes hands-on experience in supervised, school-based or clinical setting. Topics include choosing and interpreting mental health data, making databased recommendations, identifying how progress could be monitored, and making appropriate adaptations for culturally-linguistically diverse populations. Graded Satisfactory (S) or No Credit (NC).

EDUC 265F Practicum in School Psychology: Mental Health Intervention 2

Seminar, 2 hours; practicum; 6 hours. Prerequisite(s): EDUC 265E. Explores practices in implementing mental health interventions in school and clinic settings. Includes hands-on experience in supervised, school-based or clinical setting. Topics include using data to choose interventions, therapeutic techniques to increase treatment adherence, monitoring progress, collaborating with wrap around teams, involving families, and making adaptations for culturally-linguistically diverse populations. Graded Satisfactory (S) or No Credit (NC)

EDUC 266 Language, Schooling, and Identity 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the M.A. or Ph.D. program or consent of instructor. Examines how formal and informal educative institutions use language for identity formation and how students/novices respond to those institutional practices.

EDUC 267 Culture of School

Organizations 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the social scientific notion of culture, its use in organizational theory, and its application to the study of schools and school leadership.

EDUC 268A Practicum in School Psychology: Identification of Learning Disabilities and Special Education Law 2

Seminar, 2 hours; practicum; 6 hours. Prerequisite(s): EDUC 265F. Explores best practices in the identification of

learning disabilities and application of special education law. Includes hands-on experience in a supervised school-based setting. Topics also include the application of appropriate legal guidelines and conducting legally defensible assessments. Graded Satisfactory (S) or No Credit (NC).

EDUC 268B Practicum in School Psychology:

Psychological Supervision 2 Seminar, 2 hours; practicum; 6 hours. Prerequisite(s): EDUC 268A. Explores best practices in providing psychological supervision. Includes hands-on experience in a supervised school-based or clinical setting, with a focus on providing supervision. Topics include using best practices in providing supervision, reflecting on supervision outcomes and feedback, and making appropriate adaptations for culturally-linguistically diverse populations. Graded Satisfactory (S) or No Credit (NC).

EDUC 268C Practicum in School Psychology: Consultation and Systems Level

Change 2 Seminar, 2 hours; practicum; 6 hours. Prerequisite(s): EDUC 268B. Explores best practices in systems level change. Includes hands-on experience in a supervised school-based or clinical setting. Topics include using best practices when acting as a change agent, implementation of multi-tiered systems of support, and using consultation skills to positively increase the treatment integrity of indirect services. Graded Satisfactory (S) or No Credit (NC).

EDUC 269 (E-Z) Topics in Education 2

Seminar, 2 hours; research, hour. Prerequisite(s): graduate standing. A critical analysis of current theory and research in special areas of education. Covers a single topic not contained in a regular course. Announcement of each topic will be made when the course is offered and designated as either a 2- or 4-unit course. E. Critique Of Research Practices; I. Education And Ethnic Studies; M. Campus Environ & Instit Culture; P. Internship Preparation; S. Brain And Behavior; Course is repeatable to a maximum of 16 units.

EDUC 270 Reading Development and Intervention 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the findings from national panels on reading development, instruction, and intervention. Topics include practical application of these findings to the development of reading intervention programs for students across grades.

EDUC 273 Critical Pedagogy 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduction to pedagogies that interrogate inequities and promote social transformation. Surveys traditional approaches to critical pedagogy, anticolonial education, and ethnic studies. Topics include examination of theoretical approaches and practices within educational institutions and how they prevent and advance equity and justice.

EDUC 274 Text Analysis 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Analysis of written texts to study social and cognitive aspects of literacy. Topics include the writer-

reader relationship, social construction of genre, text readability, teaching and learning, and textual indicators of student development.

EDUC 275 Race and K-12 Educational

Inequality 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces a multicultural perspective about race and racism and its impact on the U.S. K-12 education system. Situates today's educational inequity in a historical perspective while encouraging a connection between theory, practice, and students' personal educational narratives.

EDUC 276 Diversity and Curriculum 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate or professional standing. Describes and analyzes the controversy surrounding efforts to develop curriculum that addresses diversity in U.S. society. Examines changing theoretical perspectives on multicultural education and key concepts such as race, identity, and culture. Reviews research on multicultural education.

EDUC 277 Theoretical Perspectives On the

Practice of Teaching 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): admission to the Ph.D. program in Education or consent of instructor. Examines a range of theoretical perspectives used in studying the practice of teaching. Covers psychological, historical, anthropological, sociological, and philosophical perspectives.

EDUC 278 Critical Race Theory in

Education 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces students to a multicultural perspective about race, racism and its impact on the United States. K-12 education system. It situates today's educational inequity in a historical perspective, while encouraging a connection between theory, practice and students' personal educational narratives.

EDUC 279 Politics of School

Knowledge 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines how existing power relations and conflicts among social and cultural groups shape the content of curriculum and the production of school knowledge. Topics include the ideological aspects of curriculum, textbook controversies and battles over school curriculum, and representational issues in curriculum and knowledge production.

EDUC 280 (E-Z) Foundations in Education 4

Prerequisite(s): graduate standing. For hours and prerequisites, see segment descriptions. Foundation core courses that introduce students to theory and research in education.

EDUC 280L The Learner 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers learning from psychological, cognitive, and social perspectives. Draws on recent research on the learning process in schools and other contexts. Emphasizes the relationship between teaching and learning.

EDUC 281 History of Educational Policy

and Reform 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate or professional standing. Introduces a historical context for

understanding education policy and reform in the United States. Topics include the ideological forces that shaped the institutional context and character of American education at different periods in the nation's history and how ideas shaped the educational system by institutionalizing certain norms and values.

EDUC 282A Curriculum Theory and Instructional Processes: Mathematics and Science 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): EDUC 171 with a grade of C- or better, may be taken concurrently or EDUC 172 with a grade of C- or better, may be taken concurrently; concurrent enrollment in EDUC 336A or EDUC 338A; graduate standing. Introduces curriculum theory and instructional processes as they relate to mathematics and science in the multiple subjects classroom.

EDUC 282B Curriculum Theory and Instructional Processes: Social Studies, Visual and Performing Arts, and Physi 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): EDUC 171 with a grade of C- or better, EDUC 172 with a grade of C- or better; concurrent enrollment in EDUC 336B or EDUC 338B; graduate standing. Introduces curriculum theory and instructional processes as they relate to social studies, visual and performing arts, and physical education in the multiple subjects classroom.

EDUC 283 Analyzing the Practice of Teaching 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): admission to the M.Ed. program; graduate standing. Focuses on analysis of classroom teaching and examines how curriculum and instruction influence student understanding. Introduces how to conduct comprehensive analyses of K-12 instructional practice.

EDUC 284 Theory and Research On Schooling and Social Inequality 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): admission to the Ph.D. program in Education or consent of instructor. Analyzes the social and cultural organization of schools and the relationship between schooling and social inequality. Draws upon research in sociology, anthropology, and education to examine theoretical perspectives on the relationship between schooling and social stratification, with special attention to the influence of class, race, and ethnicity on academic achievement.

EDUC 285 (E-Z) Curr Thry&Instructnl Processes 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): EDUC 147 with a grade of C- or better; EDUC 162 with a grade of C- or better or EDUC 280L with a grade of C- or better; EDUC 132 with a grade of C- or better; EDUC 171 with a grade of C- or better or EDUC 172 with a grade of C- or better or EDUC 177 with a grade of C- or better or EDUC 178 with a grade of C- or better; graduate standing; or consent of instructor. Introduces curriculum theory and instructional processes as they relate to the single subject classroom. E. Secondary Social Studies; I. Secondary English; L. Secondary Foreign Language; M. Secondary Mathematics; N. Secondary Mathematics And Science; R. Secondary Visual And Performing Arts; S. Secondary Science; T. Portraits Of Teaching;

EDUC 289 Theory and Research Methods

in History of Education 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the central methods and theories of modern historical research. Includes the meaning of historical work and the methodological approaches historians use, as well as the range of approaches that can be utilized.

EDUC 290 Directed Studies 1 to 5

6 Prerequisite(s): graduate status and consent of instructor. Research and special studies in education. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EDUC 291 Individual Studies in Coordinated

Areas 1 to 12 Individual Study, 3 to 36 hours. Prerequisite(s): graduate standing. A program of studies designed to assist students who are preparing for graduate degree examinations that includes dissertation pre-proposal preparation and capstone projects. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EDUC 292 Concurrent Studies in Education 1

to 4 Practicum, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and department. Each EDUC 292 course will be taken concurrently with some 100-series course in Education on an individual basis. It will be devoted to research, criticism, and/or written work of graduate order commensurate with the number of units elected. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

EDUC 294A Introduction to Assessment of Autism Spectrum Disorder 2

Seminar, 1 hour; practicum, 3 hours. Prerequisite(s): graduate standing and consent of instructor. Fundamentals of screening and assessment for autism spectrum disorder, within the context of the neurodiversity movement. Topics include how to recognize the disorder, considerations and requirements of screening, assessment, and diagnosis of autism, and challenges for families, adolescents, and adults with the disorder. Graded Satisfactory (S) or No Credit (NC).

EDUC 294B Assessment of Autism Spectrum

Disorder: Neurodiversity 2 Seminar, 1 hour; practicum, 3 hours. Prerequisite(s): EDUC 294A with a grade S or better; graduate standing; and the consent of instructor. Fundamentals of screening and assessment for autism spectrum disorder within the context of the neurodiversity movement. Topics include how to recognize the disorder; considerations and requirements of screening, assessment, and diagnosis of autism; and challenges for families, adolescents, and adults with the disorder. Graded Satisfactory (S) or No Credit (NC).

EDUC 294C Assessment of Autism Spectrum

Disorder: Family 2 Seminar, 1 hour; practicum, 3 hours. Prerequisite(s): EDUC 294B with a grade S or better; graduate standing; And the consent of instructor; Fundamentals of screening and assessment for autism spectrum disorder within the context of the neurodiversity movement. Topics include how to recognize the disorder; considerations and requirements of screening, assessment, and diagnosis of autism; and challenges for families, adolescents, and adults with the disorder. Graded Satisfactory (S)

or No Credit (NC).

EDUC 295A Instruction of Students With Reading and Language Disabilities 4

Lecture, 3 hours; written work, 3 hours. Prerequisite(s): admission to the Education Specialist Credential program. Examines the materials, strategies, and approaches designed to improve reading and language skills, and discusses their research base; reviews diagnostic and assessment tools, and reading and language interventions; teaches strategies to enhance speaking and writing skills in a socially and linguistically diverse student population; and reviews the challenges of teaching students with disabilities in mainstream settings.

EDUC 295B Adapting Core Curriculum and Standards-Based Instruction (mild-Moderate Disabilities) 4

Lecture, 3 hours; activity, 3 hours. Prerequisite(s): admission to the Education Specialist Credential program. Describes and analyzes the approaches, materials, and practices that enable students with mild/moderate disabilities to gain access to the core curriculum and make progress toward state standards. Emphasizes research-based instructional approaches and discusses ways to support special needs students, including English learners, in mainstream classes. Examines the relationship of IEP goals to state standards.

EDUC 295C Curriculum and Instruction For Students With Severe Disabilities 4

Lecture, 3 hours; activity, 3 hours. Prerequisite(s): admission to the Education Specialist Credential program. Explores the rationale and design of instructional programs for individuals with moderate to severe disabilities. Discusses access to the general curriculum within a functional skills framework and teaching skills in the context of meaningful activities. Analyzes the benefits and limitations of community-based instruction.

EDUC 295D Functional Communication and Self-Advocacy 4

Lecture, 3 hours; activity, 3 hours. Prerequisite(s): admission to Education Specialist Credential program. Analyzes instructional methods used with students with moderate to severe disabilities to enhance their communication skills. Explores access to assistive technology, alternative communication systems, vocational training, and the transition to adult environments. Covers the role of public and private agencies and other structural supports.

EDUC 297 Directed Research 1 to 6

Research, 3 to 18 hours. Prerequisite(s): advanced graduate standing and consent of instructor. Directed research on selected issues in education. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 36 units.

EDUC 298I Individual Internship 1 to 12

Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): graduate student standing; consent of instructor and graduate advisor. Supervised internship with an approved professional individual or organization based on a written plan approved by the field supervisor and internship coordinator and/or faculty member. Includes two hours per week of direct supervision by the field supervisor. Graded

Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

EDUC 299 Research For Thesis Or Dissertation 1 to 12 Directed independent studies, 1-6 hours. Prerequisite(s): advancement to candidacy for the master's or doctoral degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

EDUC 302 College Teaching Practicum 1 to 6 Practicum, 3 to 18 hours. Prerequisite(s): advanced Ph.D. standing and consent of instructor. A minimum of one quarter supervised teaching in college level classes under the supervision of the course instructor. Required of all doctoral candidates in the Graduate School of Education. Fulfills teaching portion of Ph.D. requirements. Graded Satisfactory (S) or No Credit (NC). May be taken for a maximum of three quarters.

EDUC 320A Integrating Technology Into Classroom Practice 1 Lecture, 8 hours per quarter; laboratory, 3 hours per quarter; field, 3 hours per quarter. Prerequisite(s): admission to a teaching credential program Introduction to technology in education. Prepares future teachers to effectively utilize computers and related technology for information management, presentations, and classroom instruction. Topics include software, the Internet, and basic operations of educational technology. Includes field observations in schools. Graded Satisfactory (S) or No Credit (NC).

EDUC 320B Integrating Technology Into Classroom Practice 1 Lecture 8 hours per quarter, laboratory 3 hours per quarter, field 3 hours per quarter, Prerequisite(s): EDUC 320A. Focuses on the application of computer technology to curriculum and instruction. Topics include Internet applications, non-computer technology, and use of technology to enhance problem solving skills. Includes field observations in schools. Graded Satisfactory (S) or No Credit (NC).

EDUC 320C Integrating Technology Into Classroom Practice 1 Lecture, 4 hours per quarter; laboratory, 15 hours per quarter; field, 3 hours per quarter. Prerequisite(s): EDUC 320A, EDUC 320B. Addresses issues related to the use of technology in schools. Using presentation software, the Internet, and other computer-based technology, students develop and teach a curriculum unit appropriate to their teaching subject area and/or grade level. Emphasis is on integrating the use of computer-based applications with instruction. Graded Satisfactory (S) or No Credit (NC).

EDUC 331 Early Supervised Fieldwork and Seminar For Education Specialist 3 Seminar, 20 hours per quarter; field, 42 hours per quarter. Prerequisite(s): admission to the Education Specialist Credential program; graduate standing. Analyzes instructional strategies for working with students with disabilities. Topics include basic curriculum, classroom management, interpersonal relationships, self-evaluation, and professional competencies. Graded Satisfactory (S) or No Credit (NC).

EDUC 332 Early Supervised Fieldwork and

Seminar For Multiple Subjects 3 Seminar, 20 hours per quarter; field, 42 hours per quarter. Prerequisite(s): admission to the Multiple Subject Credential program; graduate standing. Analyzes instructional processes used in multiple subject classrooms. Topics include curriculum planning, classroom management, instructional strategies, oral and written communication skills, interpersonal relationships, self-evaluation, and professional competencies. Graded Satisfactory (S) or No Credit (NC)

EDUC 333 Early Supervised Fieldwork and Seminar For Single Subjects 3 Seminar, 20 hours per quarter; field, 42 hours per quarter. Prerequisite(s): admission to the Single Subject Credential program; graduate standing. Analyzes instructional strategies for the single subject classroom. Topics include curriculum planning, classroom management, oral and written communication skills, interpersonal relationships, self-evaluation, and professional competencies. Graded Satisfactory (S) or No Credit (NC).

EDUC 335A Supervised Teaching in Special Education 4 Seminar, 2 hours; field, 9 hours. Prerequisite(s): EDUC 132 with a grade of C- or better, may be taken concurrently; EDUC 162 with a grade of C- or better, may be taken concurrently or EDUC 280L with a grade of C- or better, may be taken concurrently; EDUC 171 with a grade of C- or better, may be taken concurrently or EDUC 172 with a grade of C- or better, may be taken concurrently; admission to the Education Specialist Credential program; graduate standing. Supervised teaching in special education. Consists of supervised field experience and seminar for special education candidates. Graded Satisfactory (S) or No Credit (NC).

EDUC 335B Supervised Teaching in Special Education 7 Seminar, 2 hours; field, 18 hours. Prerequisite(s): EDUC 335A Supervised teaching in special education. Consists of supervised observation, field experience, and seminar for special education candidates. Graded Satisfactory (S) or No Credit (NC).

EDUC 335C Seminar in Special Education 2 Seminar, 2 hours. Prerequisite(s): EDUC 335B; concurrent enrollment in EDUC 345A or EDUC 345B. Analyzes the instructional processes used in special education settings. Includes assessing students, developing an individualized educational plan (IEP), and collaborating with parents, teachers, and special services personnel. Course is repeatable as content changes to a maximum of 4 units.

EDUC 336A Supervised Teaching in the Elementary School 5 Field, 18 hours. Prerequisite(s): admission to a teaching credential program; concurrent enrollment in EDUC 282A and EDUC 344A; concurrent enrollment in or completion of EDUC 337A. Supervised teaching in the multiple subjects classroom. Required of all candidates for the Multiple Subjects Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 336A or EDUC 338A.

EDUC 336B Supervised Teaching in the Elementary School 5 Field, 18 hours. Prerequisite(s): EDUC 162 with a grade of C- or better or EDUC 280L with a grade of C- or

better, EDUC 336A with a grade of S or better; concurrent enrollment in EDUC 282B and EDUC 344B; concurrent enrollment in or completion of EDUC 337B; graduate standing. Supervised teaching in the multiple subjects classroom. Required of all candidates for the Multiple Subjects Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for one of the following EDUC 336B or EDUC 338B.

EDUC 336C Supervised Teaching in the Elementary School 6 Field, 20 hours. Prerequisite(s): EDUC 336B; concurrent enrollment in EDUC 344C; concurrent enrollment in or completion of EDUC 337C. Supervised teaching in the multiple subjects classroom. Required of all candidates for the Multiple Subjects Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 336C or EDUC 338C.

EDUC 337A Teaching Performance Assessment For Multiple Subjects Candidates 1 Field, 2 hours; written work, 2 hours. Prerequisite(s): admission to a teaching credential program or an intern teaching program; concurrent enrollment in or completion of EDUC 336A or concurrent enrollment in or completion of EDUC 338A. Performance assessment for California teachers. Topics include lesson design, classroom instruction in public schools, and assessment design. Fieldwork hours completed in regular placement as assigned for EDUC 336A or EDUC 338A. Required of all candidates for the Multiple Subjects Credential. Graded Satisfactory (S) or No Credit (NC).

EDUC 337B Teaching Performance Assessment For Multiple Subjects Candidates 1 Field, 2 hours; written work, 2 hours. Prerequisite(s): admission to a teaching credential program or an intern teaching program; concurrent enrollment in or completion of EDUC 336B or concurrent enrollment in or completion of EDUC 338B. Performance assessment for California teachers. Topics include lesson design, classroom instruction in public schools, and assessment design. Fieldwork hours completed in regular placement as assigned for EDUC 336B or EDUC 338B. Required of all candidates for the Multiple Subjects Credential. Graded Satisfactory (S) or No Credit (NC).

EDUC 337C Teaching Performance Assessment For Multiple Subjects Candidates 1 Field, 2 hours; written work, 2 hours. Prerequisite(s): admission to a teaching credential program or an intern teaching program; concurrent enrollment in or completion of EDUC 336C or concurrent enrollment in or completion of EDUC 338C. Performance assessment for California teachers. Topics include lesson design, classroom instruction in public schools, and assessment design. Fieldwork hours completed in regular placement as assigned for EDUC 336C or EDUC 338C. Required of all candidates for the Multiple Subjects Credential. Graded Satisfactory (S) or No Credit (NC).

EDUC 338A Intern Teaching in the Elementary School 9 Field, 30 hours. Prerequisite(s): EDUC 162 with a grade of C- or better, EDUC 171 with a grade of C- or better or EDUC 172 with a grade of C- or better, EDUC 179A with a grade of C- or better; concurrent enrollment in EDUC 282A and EDUC 344A; concurrent enrollment

in or completion of EDUC 337A; graduate standing. Intern teaching in the multiple subjects classroom. Required for the Multiple Subjects Internship Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for one of the following EDUC 338A or EDUC 336A.

EDUC 338B Intern Teaching in the Elementary School 9 Field, 30 hours. Prerequisite(s): EDUC 338A; concurrent enrollment in EDUC 282B and EDUC 344B; concurrent enrollment in or completion of EDUC 337B. Intern teaching in the multiple subjects classroom. Required for the Multiple Subjects Internship Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 336B or EDUC 338B.

EDUC 338C Intern Teaching in the Elementary School 9 Field, 30 hours. Prerequisite(s): EDUC 338B; concurrent enrollment in EDUC 344C; concurrent enrollment in or completion of EDUC 337C. Intern teaching in the multiple subjects classroom. Required for the Multiple Subjects Internship Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 336C or EDUC 338C.

EDUC 344A Multiple Subjects Credential Seminar 2 Seminar, 2 hours. Prerequisite(s): concurrent enrollment in EDUC 336A or EDUC 338A or consent of instructor. Analyzes instructional processes used in multiple subjects classrooms. Topics include classroom management, curriculum planning, instructional strategies, and oral and written communication skills.

EDUC 344B Multiple Subjects Credential Seminar 2 Seminar, 2 hours. Prerequisite(s): EDUC 171 with a grade of C- or better or EDUC 172 with a grade of C- or better; EDUC 344A with a grade of C- or better; concurrent enrollment in EDUC 336B or EDUC 338B; graduate standing. Analyzes instructional processes used in multiple subjects classrooms. Topics include classroom management, curriculum planning and instructional strategies, K-12 academic standards in mathematics related to classroom curriculum and activities, and teaching language arts in the content areas.

EDUC 344C Multiple Subjects Credential Seminar 2 Seminar, 2 hours. Prerequisite(s): EDUC 344B; concurrent enrollment in EDUC 336C or EDUC 338C. Analyzes instructional processes used in multiple subjects classrooms. Topics include classroom management; curriculum planning; instructional strategies; K-12 academic standards in history and the social sciences, the visual and performing arts, health, and physical education; and teaching language arts in the content area.

EDUC 345A Supervised Student Teaching in A Special Class For Individuals With Mild/Moderate Disabilities 12 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to a Education Specialist Credential program. Student teaching in a special education day class for individuals with mild/moderate disabilities. Required for the Education Specialist Instruction Credential in Mild/Moderate Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 345B Supervised Student Teaching in A

Special Class For Individuals With Moderate/Severe Disabilities 12 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to a Education Specialist Credential program. Student teaching in a special education day class for individuals with moderate/severe disabilities. Required for the Education Specialist Instruction Credential in Moderate/Severe Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 346A Supervised Intern Teaching in A Special Class For Individuals With Mild/Moderate Disabilities 9 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to an internship program in mild/moderate disabilities. Intern teaching in a special education day class for individuals with mild/moderate disabilities. Required for the Education Specialist Internship Credential in Mild/Moderate Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 346B Supervised Intern Teaching in A Special Class For Individuals With Mild/Moderate Disabilities 9 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to an internship program in mild/moderate disabilities; EDUC 346A. Intern teaching in a special education day class for individuals with mild/moderate disabilities. Required for the Education Specialist Internship Credential in Mild/Moderate Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 346C Supervised Intern Teaching in A Special Class For Individuals With Mild/Moderate Disabilities 9 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to an internship program in mild/moderate disabilities; EDUC 346B. Consists of intern teaching in a special education day class for individuals with mild/moderate disabilities. Required for the Education Specialist Internship Credential in Mild/Moderate Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 347A Supervised Intern Teaching in A Special Class For Individuals With Moderate/Severe Disabilities 9 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to an internship program in moderate/severe disabilities. Intern teaching in a special education day class for individuals with moderate/severe disabilities. Required for the Education Specialist Internship Credential in Moderate/Severe Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 347B Supervised Intern Teaching in A Special Class For Individuals With Moderate/Severe Disabilities 9 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to an internship program in moderate/severe disabilities; EDUC 347A. Intern teaching in a special education day class for individuals with moderate/severe disabilities. Required for the Education Specialist Internship Credential in Moderate/Severe Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 347C Supervised Intern Teaching in A Special Class For Individuals With Moderate/Severe Disabilities 9 Seminar, 2 hours; field, 30 hours. Prerequisite(s): admission to an internship program in moderate/severe disabilities; EDUC 347B. Intern teaching in a special education day class for individuals with moderate/severe disabilities. Required for the Education Specialist

Internship Credential in Moderate/Severe Disabilities. Graded Satisfactory (S) or No Credit (NC).

EDUC 348A Single Subject Credential Seminar 2 Seminar, 2 hours. Prerequisite(s): EDUC 162 with a grade of C- or better, may be taken concurrently or EDUC 280L with a grade of C- or better, may be taken concurrently, EDUC 177 with a grade of C- or better, may be taken concurrently or EDUC 178 with a grade of C- or better, may be taken concurrently; concurrent enrollment in EDUC 376A or EDUC 378A; graduate standing. Analyzes instructional problems encountered by candidates in the single subject classroom. Topics include basic curriculum, classroom management, interpersonal relationships, self-evaluation, and professional competencies.

EDUC 348B Single Subject Credential Seminar 2 Seminar, 2 hours. Prerequisite(s): EDUC 348A; concurrent enrollment in EDUC 376B or EDUC 378B. Analyzes instructional problems encountered by candidates in the single subject classroom. Topics include basic curriculum, classroom management, interpersonal relationships, self-evaluation, and professional competencies.

EDUC 348C Single Subject Credential Seminar 2 Seminar, 2 hours. Prerequisite(s): EDUC 348B; concurrent enrollment in EDUC 378C or EDUC 378C. Analyzes instructional problems encountered by candidates in the single subject classroom. Topics include basic curriculum, classroom management, interpersonal relationships, self-evaluation, and professional competencies.

EDUC 376A Supervised Teaching in the Secondary School 5 Field, 18 hours. Prerequisite(s): EDUC 162 with a grade of C- or better, may be taken concurrently or EDUC 280L with a grade of C- or better, may be taken concurrently, EDUC 177 with a grade of C- or better, may be taken concurrently or EDUC 178 with a grade of C- or better, may be taken concurrently; concurrent enrollment in EDUC 348A and EDUC 377A; admission to a teaching credential program; graduate standing. Supervised teaching in the single subject classroom. Required of all candidates for the Single Subject Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for one of the following EDUC 376A or EDUC 378A.

EDUC 376B Supervised Teaching in the Secondary School 5 Field, 18 hours. Prerequisite(s): EDUC 376A; concurrent enrollment in or completion of EDUC 377B; concurrent enrollment in EDUC 348B. Supervised teaching in the single subject classroom. Required of all candidates for the Single Subject Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 376B or EDUC 378B.

EDUC 376C Supervised Teaching in the Secondary School 6 Field, 20 hours. Prerequisite(s): EDUC 376B; concurrent enrollment in or completion of EDUC 377C; concurrent enrollment in EDUC 348C. Supervised teaching in the single subject classroom. Required of all candidates for the Single Subject Credential. Graded Satisfactory

(S) or No Credit (NC). Credit is awarded for only one of EDUC 376C or EDUC 378C.

EDUC 377A Teaching Performance Assessment For Single Subject Candidates 1 Field, 2 hours; written work, 2 hours. Prerequisite(s): admission to a teaching credential program or an intern teaching program; concurrent enrollment in or completion of EDUC 376A or concurrent enrollment in or completion of EDUC 378A. Performance assessment for California teachers. Topics include lesson design, classroom instruction in public schools, and assessment design. Fieldwork hours completed in regular placement as assigned for EDUC 376A or EDUC 378A. Required of all candidates for the Single Subject Credential. Graded Satisfactory (S) or No Credit (NC).

EDUC 377B Teaching Performance Assessment For Single Subject Candidates 1 Field, 2 hours; written work, 2 hours. Prerequisite(s): admission to a teaching credential program or an intern teaching program; concurrent enrollment in or completion of EDUC 376B or concurrent enrollment in or completion of EDUC 378B. Performance assessment for California teachers. Topics include lesson design, classroom instruction in public schools, and assessment design. Fieldwork hours completed in regular placement as assigned for EDUC 376B or EDUC 378B. Required of all candidates for the Single Subject Credential. Graded Satisfactory (S) or No Credit (NC).

EDUC 377C Teaching Performance Assessment For Single Subject Candidates 1 Field, 2 hours; written work, 2 hours. Prerequisite(s): admission to a teaching credential program or an intern teaching program; concurrent enrollment in or completion of EDUC 376C or concurrent enrollment in or completion of EDUC 378C. Performance assessment for California teachers. Topics include lesson design, classroom instruction in public schools, and assessment design. Fieldwork hours completed in regular placement as assigned for EDUC 376C or EDUC 378C. Required of all candidates for the Single Subjects Credential. Graded Satisfactory (S) or No Credit (NC).

EDUC 378A Intern Teaching in the Secondary School 9 Field, 30 hours. Prerequisite(s): EDUC 162 with a grade of C- or better or EDUC 280L with a grade of C- or better; EDUC 177 with a grade of C- or better or EDUC 178 with a grade of C- or better; EDUC 179A with a grade of C- or better; concurrent enrollment in or completion of EDUC 377A; concurrent enrollment in EDUC 348A; graduate standing. Intern teaching in the single subject classroom. Required for the Single Subject Internship Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for one of the following EDUC 378A or EDUC 376A.

EDUC 378B Intern Teaching in the Secondary School 9 Field, 30 hours. Prerequisite(s): EDUC 378A; concurrent enrollment in or completion of EDUC 377B; concurrent enrollment in EDUC 348B. Intern teaching in the single subject classroom. Required for the Single Subject Internship Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 376B or EDUC 378B.

EDUC 378C Intern Teaching in the Secondary School 9 Field, 30 hours. Prerequisite(s): EDUC 378B; concurrent enrollment in or completion of EDUC 377C; concurrent enrollment in EDUC 348C. Intern teaching in the single subject classroom. Required for the Single Subject Internship Credential. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of EDUC 376C or EDUC 378C.

EDUC 401 Preparation For A School Psychology Internship 2 Seminar, 1 hour; individual study, 3 hours. Prerequisite(s): successful passage of the School Psychology written comprehensive exam; consent of instructor. Topics will include preparation and development of cover letters, psychoeducational reports, interview skills and description of pre-doctoral fieldwork hours. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

ELECTRICAL AND COMPUTER ENGINEERING

Subject abbreviation: EE
The Marlan and Rosemary Bourns
College of Engineering

Amit Roy-Chowdhury, Ph.D., Chair
Department Office,
Winston Chung Hall, Suite 343
(951) 827-2484; www.ece.ucr.edu

Professors

Nael Abu-Ghazaleh, Ph.D.
Alexander Balandin, Ph.D.,
Distinguished Professor, P.O.E.M. Director
Matthew J. Barth, Ph.D., Director of CE-CERT
Bir Bhanu, Ph.D., *Distinguished Professor*
Amit Roy-Chowdhury, Ph.D., Department
Chair, Bourns Family Faculty Fellow
Ilya Dumer, Ph.D.
Jay A. Farrell, Ph.D., BCOE Associate Dean
Bourns College of Engineering
Yingbo Hua, Ph.D.
Alexander Korotkov, Ph.D.
Roger Lake, Ph.D.
Jianlin Liu, Ph.D.
Mihri Ozkan, Ph.D.
Wei Ren, Ph.D.
Sheldon Tan, Ph.D.
Ertem Tuncel, Ph.D., Department Vice-Chair
Albert Wang, Ph.D.

Professors Emeriti

Gerardo Beni, Ph.D.
Susan Hackwood, Ph.D.
Ping Liang, Ph.D.

Associate Professors

Roman Chomko, Ph.D.
Elaine D. Haberer, Ph.D.
Anastasios I. Mourikis, Ph.D.
Hamed Mohsenian-Rad, Ph.D., Bourns Family
Faculty Fellow

Assistant Professors

Salman Asif, Ph.D.
Xi Chen, Ph.D.
Ran Cheng, Ph.D.
Shane A. Cybart, Ph.D.
Konstantinos Karydis, Ph.D.
Hyoseung Kim, Ph.D.
Ming Liu, Ph.D.
Samet Oymak, Ph.D.
Shaolei Ren, Ph.D.
Hung-Wei Tseng, Ph.D.
Daniel Wong, Ph.D.
Nanpeng Yu, Ph.D.

Adjunct Professors

Hossny El-Sherief, Ph.D.

Associate Adjunct Professors

Gang Chen, Ph.D.
Aleksander Khitun, Ph.D.
Qi Zhu, Ph.D.

Assistant Adjunct Professors

Amrit De, Ph.D.
Fariborz Kargar, Ph.D.
Zak Kassas, Ph.D.
Mahesh R. Neupane, Ph.D.

Cooperating Faculty

Guillermo Aguilar, Ph.D. (Mechanical
Engineering)

Ludwig Bartels, Ph.D. (Chemistry)
 Laxmi Bhuyan, Ph.D. (Computer Science and Engineering)
 Philip L. Brisk, Ph.D. (Computer Science and Engineering)
 Michalis Faloutsos, Ph.D. (Computer Science and Engineering)
 Xiaoping Hu, Ph.D. (Bioengineering)
 Walid Najjar, Ph.D. (Computer Science and Engineering)
 Cengiz Ozkan, Ph.D. (Mechanical Engineering)
 Hyle Park, Ph.D. (Bioengineering)
 Fabio Pasqualetti, Ph.D. (Mechanical Engineering)
 Luat T. Vuong, Ph.D. (Mechanical Engineering)
 Ran Wei, Ph.D. (School of Public Policy)
 Bryan M. Wong, Ph.D. (Chemical and Environmental Engineering)

Affiliated Emeritus

J. Keith Oddson, Ph.D. (Mathematics)

Lecturers

Tofigh Heidarzadeh, Ph.D.
 Timothy Lindsey, Ph.D.
 Thomas Underhill, J.D.

Major

The Department of Electrical and Computer Engineering offers B.S., M.S., and Ph.D. degrees in Electrical Engineering and with the Department of Computer Science and Engineering jointly offers B.S. and M.S. degrees in Computer Engineering. For more information on the Computer Engineering degree programs, see Computer Engineering in this catalog.

Graduates of UCR's BS degree program in Electrical Engineering will meet high professional, ethical, and societal goals as demonstrated by accomplishing, *at least one different item in each of two different categories*:

success in post-graduation studies as evidenced by:

- satisfaction with the decision to further their education
- advanced courses completed or advanced degrees earned
- professional visibility (e.g., publications, presentations, patents, inventions, awards)
- professional responsibilities (e.g. professional mentoring, professional society membership and offices, reviewing and editorial work for professional journals)

success in a chosen profession or vocation as evidenced by:

- career satisfaction
- promotions/raises (e.g. management leadership positions or distinguished technical positions)
- professional visibility (e.g., publications, presentations, patents, inventions, awards)
- professional responsibilities (e.g. professional registration, professional mentoring, professional society membership and offices)
- entrepreneurial activities
- consulting activities

contributions to society and profession as evidenced by:

- leadership roles
- public service
- mentoring / outreach activities
- volunteer service
- establishment and maintenance of professional networks

All undergraduates in the College of Engineering must see an advisor at least annually. Visit student.engr.ucr.edu for details.

The Electrical Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org. For more details see ee.ucr.edu.

Undergraduate Program Focus Areas

The electrical engineering undergraduate program offers the following focus areas:

1. **Communications, Signal Processing and Networking:** Fundamental and state-of-the-art theory and applications of acquisition, processing, and transmission of digital signals and images over wire, wireless (radio frequency), fiber optics, etc. Example applications include speech processing and recognition, mobile communication using smartphones, fiber optical communication, image enhancement and compression.
2. **Control, Robotics and Machine Intelligence:** Theory and design of control of systems and robots, and systems capable of intelligent decisions. Example applications include control systems in automotive, satellite, aircraft, computer hard drive, robotic manufacturing, autonomous robots, cell phone signal tracking, computer vision and intelligent transportation systems.
3. **Embedded Systems and VLSI:** Theory, design and methodologies of embedded system using microcontrollers, very large scale, nanometer integrated circuits. Example applications include smart home appliances, Internet of Things, microprocessors, analog and mixed signal circuits, RF circuits for cell phones and wireless networks, system-on-chip and wireless networks, system-on-chip.
4. **Nanotechnology, Advanced Materials and Devices:** Synthesis and characterization of advanced materials at nanometer scale, theory, design and fabrication of electronic and optoelectronic devices. Example applications include creation of ultra-fast low-power transistors, efficient solar cells for energy generation, high-density memory for smart phones and mobile services, and tiny devices for medical applications.
5. **Power Engineering:** Power electronics, AC and DC power and their conversion, electro-mechanical energy conversion, electric motors, large-scale power generation and transmission systems, long-distance transmission and distribution of

electric power, design of motion control drive circuits for robotic and industrial automation systems, and other related topics.

All undergraduates in the College of Engineering must see an advisor at least annually. For details, visit student.engr.ucr.edu.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The Electrical Engineering major uses the following major requirements to satisfy the college's Natural Sciences and Mathematics breadth requirement.

1. One course in the biological sciences chosen from an approved list
2. CHEM 001A, CHEM 01LA
3. MATH 008B or MATH 009A
4. PHYS 040A, PHYS 040B

Major Requirements

1. Lower-division requirements (73 units)

- a) One course in the biological sciences chosen from an approved list
- b) CHEM 001A, CHEM 01LA
- c) CS 010, CS 013, CS 061
- d) EE 001A, EE 01LA, EE 001B, EE 010, EE 020
- e) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B, MATH 046
- f) PHYS 040A, PHYS 040B, PHYS 040C

2. Upper-division requirements (81 units)

- a) EE 100A, EE 100B, EE 105, EE 110A, EE 110B, EE 114, EE 116, CS 120A/EE 120A, CS 120B/EE 120B, EE 132, EE 133, EE 141, EE 175A, EE 175B
- b) One of EE 128 or EE 155
- c) ENGR 181W
- d) Sixteen (16) units of technical electives chosen from CS 161, CS 168/EE 168; EE 115, EE 117, EE 118, EE 123, EE 128 (if not chosen as a required course in b) above), EE 135, EE 136, EE 137, EE 138, EE 139, EE 142, EE 144, EE 145/ME 145, EE 146, EE 147, EE 150, EE 151, EE 152, EE 153, EE 155 (if not chosen as a required course in b) above), EE 162, EE 165, ENGR 160

To ensure depth, the choice of technical electives must include at least one coherent sequence of at least three (3) electrical engineering courses (lead course plus two additional) in one focus area of electrical engineering, as defined below.

- Communications, Signal Processing and Networking. Lead Course: EE 141. Sequence Courses: EE 115, EE 117, EE 118, EE 128, EE 146, EE 150, EE 152, ENGR 160
- Control, Robotics and Machine Intelligence. Lead Course: EE 132. Sequence Courses:

EE 128, EE 142, EE 144, EE 145/ME 145, EE 146, EE 151, EE 152, ENGR 160

- Embedded Systems and VLSI. Lead Course: EE 128. Sequence Courses: EE 135, EE 147, EE 165, CS 168/EE 168, CS 161, ENGR 160
- Nanotechnology, Advanced Materials and Devices. Lead Course: EE 133. Sequence Courses: EE 117, EE 136, EE 137, EE 138, EE 139, EE 162
- Power Engineering. Lead Course: EE 155. Sequence Courses: EE 117, EE 123, EE 128, EE 153, ENGR 160

Example course sequences are available through the Student Affairs Office in the College of Engineering or student.engr.ucr.edu

Graduate Program

The Department of Electrical and Computer Engineering offers programs leading to M.S. and Ph.D. degrees.

University requirements for the M.S. and Ph.D. degrees in Electrical Engineering are given in the Graduate Studies section of this catalog.

Research focus areas currently include communications, computer vision, control, detection and estimation, distributed systems, electronic materials, error-correcting codes, image processing, information theory, intelligent sensors, intelligent systems, machine learning, modeling and simulation, multimedia, advanced materials, nanostructures and nanodevices, navigation, neural networks, pattern recognition, robotics and automation, signal processing, solid-state devices and circuits, system identification, and transportation systems.

Combined B.S. + M.S. Five-Year Program

The college offers a combined B.S. + M.S. program in Electrical Engineering designed to lead to a Bachelor of Science degree as well as a Master of Science degree in five years. Applicants for this program must have a high school GPA above 3.6, a combined SAT Reasoning score above 1950 (or ACT plus Writing equivalent), complete the Entry Level Writing Requirement before matriculation, and have sufficient mathematics preparation to enroll in calculus in their first quarter as freshmen.

Students in the B.S. + M.S. program are allowed to count up to 12 units of undergraduate technical electives taken as UCR undergraduates towards the 36-unit requirements of the M.S. degree.

Interested students who are entering their junior year should check with their academic advisor for information on eligibility and other details.

Admission

All applicants for the M.S. and Ph.D. programs must submit official scores for the GRE General Test. All applicants whose native language is not English and who do not have a degree from an institution where English is the exclusive language of instruction must complete the Test of English as a Foreign Language (TOEFL) with a minimum score of 550 (paper-based), 220 (computer-based), or 90 (Internet-based).

Applicants must meet the general admission requirements of the Riverside Division of the Ac-

ademic Senate and the UCR Graduate Council as set forth in the UC Riverside Graduate Student Application. In addition, **Master's Degree** Applicants should have completed a program equivalent to UCR's B.S. in Electrical Engineering or demonstrate the required knowledge and proficiency in the following subjects:

1. Mathematics, including calculus, differential equations, and complex variables
2. Circuits and electronics (equivalent of EE 100A and EE 100B)
3. Signals and systems (equivalent of EE 111, or both EE 110A and 110B)
4. Logic design, digital systems, and microcomputers (equivalent of EE 120A and 120B)
5. Control systems (equivalent of EE 132)
6. At least one major high-level programming language and associated programming techniques (equivalent of CS 010)

Students with background in other scientific fields are encouraged to apply. Applicants lacking minimum undergraduate preparation in the above areas may be admitted, but must take the appropriate undergraduate courses as approved by the Graduate Advisor. If admitted, these students must correct all deficiencies within the first year of graduate study. Courses taken for this purpose do not count towards an advanced degree.

Master of Science

The Department of Electrical and Computer Engineering offers the M.S. degree in Electrical Engineering.

General university requirements are listed in the Graduate Studies section of this catalog. Students may obtain an M.S. degree in Electrical Engineering through either Plan I (Thesis) or Plan II (Comprehensive Examination). The normative time for a student to complete the M.S. degree under both Plan I or Plan II is six quarters (two years). Students who are admitted with deficiencies may require up to three additional quarters.

Plan I (Thesis)

Students must complete 36 units of approved graduate work in Electrical Engineering and related areas such as Computer Science and Materials Science and Engineering. At least 24 of these units must be courses numbered between 200 and 279. At least 12 units must be in graduate research (courses numbered 297 or 299). Colloquium units (CS 287, EE 259, MSE 250, MSE 251) and courses numbered 291 are not counted towards the 36 unit requirement.

Students choosing Plan I must submit a master's thesis in accordance with the general requirements of the University. The thesis must be original research work, and demonstrate the student's ability to explore a research area, acquire in-depth knowledge of the chosen research topic, and make a research contribution. The thesis must be approved by a committee of at least three faculty members. The thesis must be defended in a two-hour examination open to the public, beginning with a brief presentation by the candidate, and followed by a question-and-answer session.

Plan II (Comprehensive Examination)

Students must complete 36 units of approved graduate or upper-division undergraduate course work in Electrical Engineering and related areas such as Computer Science and Materials Science and Engineering. At least 24 of these units must be graduate-level courses numbered between 200 and 279. To satisfy the remaining unit requirements, students may use up to 8 units in Directed studies (290) and upper-division undergraduate EE courses numbered 115 and above with the exception of EE 116, 120, and 132. Colloquium units (CS 287, EE 259, MSE 250, and MSE 251) and courses numbered 291 and higher are not counted towards the 36 unit requirement.

In addition to the course requirements of Plan II, students must pass a comprehensive examination administered by the program.

Normative Time to Degree

Six quarters (two years)

Doctoral Degree

The Department of Electrical and Computer Engineering offers the Ph.D. degree in Electrical Engineering.

Admission

Students with backgrounds in Electrical Engineering or other related areas are encouraged to apply. An M.S. degree is not required for admission to the Ph.D. program. Under special circumstances, applicants lacking undergraduate preparation in core Electrical Engineering areas related to their field of research may be admitted, but must take the appropriate undergraduate courses to correct the deficiencies within the first year of graduate study. Courses taken for this purpose do not count towards an advanced degree.

Course Work

Students must complete at least 36 units of approved graduate coursework in Electrical Engineering and related areas such as Computer Science, Materials Science and Engineering, or other approved subject areas. Only courses numbered between 200 and 279, excluding Colloquium courses (CS 287, EE 259, MSE 250, and MSE 251), may be counted towards this requirement. Students who have already taken 36 units of graduate coursework at UCR as part of the M.S. program in Electrical Engineering or Computer Engineering are deemed to have met the minimum-unit requirement for the Ph.D. Students who are admitted with an M.S. degree from a different institution may use up to 16 units of equivalent courses taken during their M.S. study to count towards the requirement.

Students must complete a minimum of six quarters (two years) in residence at UCR with a GPA of 3.00 or better. Students must establish a course plan in coordination with their research advisor or the program Graduate Advisor. The course plan should lend support to the students' research area, while adding breadth to their overall program. Students may need to take considerably more than 36 units to establish breadth and depth of knowledge in their area of research.

Advancement to Candidacy

A student advances to candidacy after he/she has passed the preliminary examination and the

oral qualifying examination, as described below.

Preliminary Examination

The purpose of the preliminary examination is to screen candidates for continuation in the doctoral program. The examination is administered by the graduate program committee. Students must solve problems from five courses in one of the three Exam Areas:

- signals, systems, and machine intelligence
- nano materials and devices, or
- VLSI Circuits and Systems

Three of these problems must be from the “basic” courses and two must be from the “advanced” courses designated for each Exam Area. Students who did not pass at the Ph.D. level in their first trial will be given a second chance. In the second attempt, they will be required to solve problems only from courses they did not pass at the Ph.D. level in their first attempt.

Plan II M.S. candidates who took the M.S. comprehensive examination and successfully passed at the Ph.D. level are given credit for having passed the Ph.D. preliminary examination.

Oral Qualifying Examination

Students are expected to demonstrate that they have a thorough understanding of their research field, and are capable of doing cutting-edge research. For that purpose, students must choose a research topic under the guidance of their faculty major professor and orally present to a Qualifying Committee, which is appointed by the Graduate Division based on nominations from the department.

The presentation must be accompanied by an Oral Exam Report, written in proper technical English and in the style of a typical Electrical Engineering conference or journal publication. This report should clearly describe the proposed problem under study, demonstrate substantial knowledge of the topic and related issues, present the research results the student has obtained, and indicate the plans for future work. Students must demonstrate ability to carry out a program of independent advanced research and to report the results in accordance with standards observed in recognized technical journals.

The Oral Qualifying examination is closed to the public.

The student must complete this requirement in no more than two attempts. The normative time for taking the Oral Qualifying Exam is by the end of the second year.

Dissertation Examination and Defense

After advancement to candidacy, the student must form a Doctoral Dissertation Committee chaired by his or her major professor. The committee will consist of at least three senate faculty members with at least two members from the Electrical and Computer Engineering department.

When the Doctoral Dissertation Committee determines that a suitable draft of the dissertation has been presented, a dissertation examination and defense for the student is scheduled. The defense consists of a public seminar followed by questions from the committee members and the audience.

Normative Time to Degree

12 quarters (15 quarters for students without an M.S. in Electrical Engineering)

Preparation for Careers in Teaching

All doctoral students are recommended to be employed as teaching assistants for at least three quarters during their graduate career. The department is developing special courses to aid in the learning of effective teaching methods, such as handling discussion/lab sessions and preparing and grading examinations.

Contact the Graduate Student Affairs Officer at the Department of Electrical and Computer Engineering, (951) 827-2484, or visit ece.ucr.edu for information on graduate courses.

Professional Development Requirement

All incoming M.S. and Ph.D. students must enroll in the Fall, Winter, and Spring offerings of EE 259, Colloquium in Electrical Engineering.

Additionally, students in the Ph.D. program must submit a Professional Development Report that details the students' efforts in developing their technical writing and presentation skills. This report should be submitted to and approved by the Graduate Committee, as a prerequisite for filing the Oral

Qualifying Committee nomination form. Specific requirements for the Professional Development Report are determined by the Graduate Committee.

Lower-Division Courses

EE 001A Engineering Circuit Analysis

I 3 Lecture, 3 hours. Prerequisite(s): MATH 046, PHYS 040C or PHYS 040HC (MATH 046, PHYS 040C or PHYS 040HC may be taken concurrently); concurrent enrollment in EE 01LA. Ohm's law and Kirchoff's laws; nodal and loop analysis; analysis of linear circuits; network theorems; transients in RLC circuits. Application of SPICE to circuit analysis.

EE 001A Engineering Circuit Analysis I

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): EE 001A (may be taken concurrently) Laboratory experiments closely tied to the lecture material of EE 001A: resistive circuits, attenuation and amplification, network theorems and superposition, operational amplifiers, transient response, application of SPICE to circuit analysis.

EE 001B Engineering Circuit Analysis

II 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 001A and EE 01LA. Sinusoidal steady state analysis, polyphase circuits, magnetically coupled networks, frequency characteristics, Laplace and Fourier transforms, Laplace and Fourier analysis. Application of SPICE to complicated circuit analysis.

EE 003 Electronics, Smartphones and Mobile

Internet 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none Introduces basic concepts and understanding of electronic products, wireless communications, industrial control, and robotics that are important for citizens

and leaders in the information age. Highlights examples including smartphones, mobile Internet, robots etc. as examples. Does not confer credit towards a degree in the Bourns College of Engineering.

EE 004 Nanotechnology: Science, Applications and Future 4

Lecture, 3 hours; discussion, 1 hour. Introduces concepts and understanding of nanotechnologies in electronics, energy, medicine, and environment that are important for citizens and leaders in the technology economy. Discusses applications in cancer treatments, cosmetics, nanorobots, solar energy, and environmental protection. Does not confer credit towards a degree in the Bourns College of Engineering.

EE 005 Circuits and Electronics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 040C or PHYS 040HC. Introduces linear circuits analysis, semiconductor diodes and transistors, analog amplifier circuits, operational amplifiers, and digital circuits. Does not confer credit towards a degree in Electrical Engineering and in Computer Engineering.

EE 010 Introduction to Electrical

Engineering 1 Lecture, 1 hour. Prerequisite(s): none. Introduces electrical engineering applications, career options, and the electrical engineering curriculum. Provides motivation and context for the mathematics and science courses that are prerequisites to most electrical engineering courses. Discusses contemporary engineering issues, social and environmental impact of engineering solutions, professional ethics, and need for life-long learning.

EE 020 Linear Methods For Engineering

Analysis and Design Using Matlab 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 010; MATH 008B or MATH 009A or MATH 09HA. Introduces MATLAB programming and linear methods for engineering analysis and design. Topics include formulating engineering problems as linear systems of equations; methods for finding their solutions; vector and matrix representations of signals and systems; matrices computations; and linear programming for system analysis and design.

Upper-Division Courses

EE 100A Electronic Circuits 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 001B. Electronic systems, linear circuits, operational amplifiers, diodes, nonlinear circuit applications, junction and metal-oxide-semiconductor field-effect transistors, bipolar junction transistors, MOS and bipolar digital circuits. Laboratory experiments are performed in the subject areas and SPICE simulation is used.

EE 100B Electronic Circuits 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 100A. Differential and multistage amplifiers, output stages and power amplifiers, frequency response, feedback, analog integrated circuits, filters, tuned amplifiers, and oscillators. Laboratory experiments are performed in the subject areas and SPICE simulation is used.

EE 105 Modeling and Simulation of Dynamic

Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 001A, EE 020, MATH 046. Introduces the mathematical modeling

of dynamical systems and their methods of solution. Explores advanced techniques and concepts for analytical modeling and study of various electrical, electronic, and electromechanical systems based upon physical laws. Emphasizes formulation of problems via differential equations. Addresses numerical methods for integration and matrix analysis problems.

EE 110A Signals and Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 001B (may be taken concurrently); EE 020; MATH 046. Covers basic signals and types of systems, linear time-invariant (LTI) systems, Fourier analysis, frequency response, and Laplace transforms for LTI systems. Includes laboratory experiments with signals, transforms, harmonic generation, linear digital filtering, and sampling/aliasing.

EE 110B Signals and Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 110A. Fourier analysis for discrete-time signals and systems, filtering, modulation, sampling and interpolation, z-transforms. Laboratory experiments with signals, transforms, harmonic generation, linear digital filtering, and sampling/aliasing.

EE 111 Digital and Analog Signals and Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 001B, EE 020, MATH 046; or consent of instructor. Covers continuous- and discrete-time signals and systems; linear time-invariant (LTI) systems; impulse response; Fourier analysis; frequency response; Laplace and Z-transforms; and sampling theorem and Nyquist rates. Includes laboratory experiments with signals, transforms, linear digital filtering, and sampling/aliasing.

EE 114 Probability, Random Variables, and Random Processes in Electrical Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 110A or EE 111. Covers fundamentals of probability theory, random variables, and random processes with applications to electrical and computer engineering. Includes probability theory, random variables, densities, functions of random variables, expectations and moments, and multivariate distributions. Also addresses random processes, autocorrelation function, spectral analysis of random signals, and linear systems with random inputs.

EE 115 Introduction to Communication Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 110B. Covers spectral density and correlation, modulation theory, amplitude, frequency, phase and analog pulse modulation and demodulation techniques, signal-to-noise ratios, and system performance calculations. Laboratory experiments involve techniques of modulation and demodulation.

EE 116 Engineering Electromagnetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 001B (may be taken concurrently). Transmission lines, fields and field operators, electrostatic and magnetostatic fields, time-varying fields, electrodynamics, electromagnetic waves, plane waves, guided waves, and applications to engineering problems.

EE 117 Electromagnetics II 4 Lecture, 3

hours; discussion, 1 hour. Prerequisite(s): EE 116. Covers applications of Maxwell's equations. Includes skin effect, boundary-value problems, plane waves in lossy media, transverse EM waves, hollow metal waveguides, cavity resonators, microstrips, propagation in dielectrics and optical fibers, optical fibers applications, radiation, and antennas. Covers theoretical and computer modeling exercises in basic electromagnetic technology.

EE 118 Radio Frequency Circuit Design 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 116, EE 100B (EE 116 and EE 100B may be taken concurrently). Studies design and analysis of radio frequency (RF) circuits. Topics include multiport networks, scattering matrix and S-parameters; transmission lines, matching networks; Smith Chart; RF electromagnetic analysis of waveguides, antennas, filters and couplers; RF transistor equivalent modeling, low-noise amplifier design, noise figure, oscillators and mixers, and phase lock loop.

EE 120A Logic Design 5 Lecture, 3 hours; laboratory, 3 hours; individual study, 3 hours. Prerequisite(s): CS 061 with a grade of "C-" or better. Covers design of digital systems. Includes Boolean algebra; combinational and sequential logic design; design and use of arithmetic logic units, carry-lookahead adders, multiplexors, decoders, comparators, multipliers, flip-flops, registers, and simple memories; state-machine design; and basic register-transfer level design. Uses hardware description languages, synthesis tools, programmable logic, and significant hardware prototyping. Cross-listed with CS 120A.

EE 120B Introduction to Embedded Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 120A or CS 120A. Introduction to hardware and software design of digital computing systems embedded in electronic devices (e.g., digital cameras or portable video games). Includes embedded processor programming, custom processor design, standard peripherals, memories, interfacing, and hardware/software trade-offs. Involves use of synthesis tools, programmable logic, microcontrollers, and developing working embedded systems. Cross-listed with CS 120B.

EE 123 Power Electronics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 100B with a grade of "D-" or better. EE 123 online section: enrollment in the Online Master-in-Science in Engineering. Covers the study of power semiconductor devices. Includes magnetic circuits and components; switch mode converters and power supplies; and single, three-phase, pulse width modulation, and resonant pulse inverters. Addresses voltage controllers; direct current and induction motor drives; and design of motion control drive circuits for robotic and industrial automation systems.

EE 128 Data Acquisition, Instrumentation, and Process Control 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 100B, EE 120B/CS 120B (EE 100B and EE 120B/CS 120B may be taken concurrently); or consent of instructor. Covers analog signal transducers, conditioning,

and processing; step motors, DC servo motors, and other actuation devices. Explores analog to digital and digital to analog converters; data acquisition systems; microcomputer interfaces to commonly used sensors and actuators; and design principles for electronic instruments, real time process control, and instrumentation.

EE 132 Automatic Control 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 105 or ME 103 or equivalent; EE 110A or ENGR 118; or consent of instructor. Covers mathematical modeling of linear systems for time and frequency domain analysis. Topics include transfer function and state variable representations for analyzing stability, controllability, and observability; and closed-loop control design techniques by Bode, Nyquist, and root-locus methods. Laboratories involve both simulation and hardware exercises.

EE 133 Solid-State Electronics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 100A. Presents the fundamentals of solid-state electronics. Topics include electronic band structure, Fermi and quasi-Fermi levels; doping; contacts; junctions; field-effect, bipolar, and metal-oxide-semiconductor (MOS) transistors; and charge-coupled devices. Also reviews device fabrication concepts.

EE 135 Analog Integrated Circuit Layout and Design 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 100B or consent of instructor. Covers analog circuit design, layout, and verification of complementary metal oxide semiconductors (CMOSs) with use of computer-aided design tools. Topics covered include analog metal oxide semiconductor field effect transistor (MOSFET) models, current sources, references, amplified design, nonlinear analog circuits, dynamic analog circuits, analog-to-digital converters (ADCs), and digital-to-analog converters (DACs).

EE 136 Semiconductor Device Processing 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 133 or equivalent. Presents device simulations and hands-on experience in integrated-circuit fabrication techniques and device characterization. Using four-mask metal-oxide semiconductor (MOS) technology, students fabricate resistors, junctions, capacitors, and MOS transistors and perform electrical evaluation.

EE 137 Introduction to Semiconductor Optoelectronic Devices 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 133. An introduction to semiconductor optoelectronic devices for optoelectronic communications and signal processing. Topics include basic optical processes in semiconductors, semiconductor light-emitting diode, semiconductor heterojunction lasers, photodetectors, solar cells, optoelectronic modulation, and switching devices.

EE 138 Electrical Properties of Materials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing; PHYS 040C or equivalent. Introduces the electrical properties of materials. Includes the electron as a particle and a wave; hydrogen atom and the periodic table; chemical bonds; free-electron theory of metals; band theory of solids;

semiconductors and dielectrics; measurements of material properties; and growth and preparation of semiconductors.

EE 139 Magnetic Materials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing; PHYS 040C or equivalent. Introduces fundamentals of magnetic materials for the next-generation magnetic, nanomagnetic, and spintronics-related technologies. Includes basics of magnetism, models of the equivalent magnetic charge and current, paramagnetic and diamagnetic materials, soft and hard magnetic materials, equivalent magnetic circuits, and magnetic system design foundations.

EE 141 Digital Signal Processing 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 110B. Transform analysis of Linear Time-Invariant (LTI) systems, discrete Fourier Transform (DFT) and its computation, Fourier analysis of signals using the DFT, filter design techniques, structures for discrete-time systems. Laboratory experiments on DFT, fast Fourier transforms (FFT), infinite impulse response (IIR), and finite impulse response (FIR) filter design, and quantization effects.

EE 142 Pattern Recognition and Analysis of Sensor Data 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 114 or STAT 155 or consent of the instructor. Introduction to pattern recognition for multi-dimensional, multi-modal sensor data such as images, videos, and smart grids. Classification and decision functions, feature extraction, regression, and neural networks. Clustering and dimensionality reduction for unsupervised learning. Dynamic models and tracking. Applications of pattern recognition in computer vision, robotics, smart grids, etc.

EE 144 Introduction to Robotics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 132 Covers basic robot components from encoders to microprocessors. Kinematic and dynamic analysis of manipulators. Addresses open- and closed-loop control strategies, task planning, contact and noncontact sensors, robotic image understanding, and robotic programming languages. Experiments and projects include robot arm programming, robot vision, and mobile robots. Cross-listed with ME 144.

EE 145 Robotic Planning and Kinematics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ME 120 or equivalent; or consent on instructor. Motion planning and kinematics topics with an emphasis in geometric reasoning, programming, and matrix computations. Motion planning includes configuration spaces, sensor-based planning, decomposition and sampling methods, and advanced planning algorithms. Kinematics includes reference frames, rotations and displacements, and kinematic motion models. Cross-listed with ME 145.

EE 146 Computer Vision 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): senior standing in Computer Science or Electrical Engineering, or consent of instructor. Imaging formation, early vision processing, boundary detection, region growing, two-dimensional and three-dimensional object representation and recognition techniques. Experiments for each

topic are carried out.

EE 147 Graphics Processing Unit Computing and Programming 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 120B or CS 120B. Introduces principles and practices of programming graphics processing units (GPUs) using the parallel programming environment. Covers memory/threading models, common data-parallel programming patterns and libraries needed to develop high-performance parallel computing applications. Examines computational thinking; a broader range of parallel execution models; and parallel programming principles. Cross-listed with CS 147.

EE 150 Digital Communications 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 114, EE 115. Topics include modulation, probability and random variables, correlation and power spectra, information theory, errors of transmission, equalization and coding methods, shift and phase keying, and a comparison of digital communication systems.

EE 151 Introduction to Digital Control 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 132, EE 141. Review of continuous-time control systems; review of Z-transform and properties; sampled-data systems; stability analysis and criteria; frequency domain analysis and design; transient and steady-state response; state-space techniques; controllability and observability; pole placement; observer design; Lyapunov stability analysis. Laboratory experiments complementary to these topics include simulations and hardware design.

EE 152 Image Processing 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 110B or EE 111 or consent of instructor. Digital image acquisition, image enhancement and restoration, image compression, computer implementation and testing of image processing techniques. Students gain hands-on experience of complete image processing systems, including image acquisition, processing, and display through laboratory experiments.

EE 153 Electric Drives 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 123 with a grade of "D-" or better, EE 116 with a grade of "D-" or better. EE 153 online section: enrollment in the Online-Master-in-Science in Engineering program. Covers the study of electro-mechanical energy conversion; magnetic circuits and components; electric motors; and direct current, induction, and reluctance motor drives. Also addresses servomechanism analysis and design of feedback controllers; energy efficiency; and drive-by-wire, robotic, and industrial automation systems.

EE 155 Power System Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 001B, EE 116; or consent of instructor. EE 155 online section: enrollment in the Online Master-in-Science in Engineering program. Covers long-distance transmission of electric power. Emphasizes admittance and impedance modeling of components and systems; optimal power flow calculations and applications; symmetrical and asymmetrical fault calculations; economic operation of large-scale generation and transmission systems; and analysis of transmission and distribution networks.

EE 162 Introduction to

Nanoelectronics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): EE 133 or consent of instructor; familiarity with MATLAB or equivalent and with basic matrix algebra is recommended. Presents the basic concepts of nanoelectronics with a focus on current flow through nanostructured devices. Topics include new paradigms of nanoelectronics, an atomistic view of electrical resistance, Schrodinger's equation, Coulomb blockade, basis functions, bandstructure, quantum capacitance, level broadening, and coherent transport.

EE 165 Design For Reliability of Integrated Circuits and Systems 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 100A; senior or graduate standing or consent of instructor. Covers essentials of electrical transient induced failures to integrated circuits (IC) and systems. Addresses basics for different failure and testing models including electrostatic discharge (ESD). Discusses design-for-reliability (DFR) techniques such as ESD protection designs at IC, module, and system levels. Enhances learning with computer aided design (CAD) laboratories.

EE 168 Introduction to Very Large Scale Integration (VLSI) Design 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 120A/EE 120A or consent of instructor. Studies integrated circuit fabrication, device characterization, and circuit simulation. Introduces basic device physics and physical design rules, MOS logic design, and timing and clock schemes. Covers layout generation, subsystem designs, and circuits for alternative logic styles. Also covers design and simulation using hardware description language and CAD tools. Cross-listed with CS 168.

EE 175A Senior Design Project 4 Lecture, 1 hour; laboratory, 3 hours; practicum, 6 hours. Prerequisite(s): EE 120B or CS 120B; restricted to class level standing of senior; restricted to major(s) Electrical Engineering, Electrical Engineering BS + MS; or consent of instructor. Proposal of design of electrical engineering devices or systems under the direction of the instructor. Develops technical specification; considers design constraints and industry standards; emphasizes ethical responsibilities; and promotes staying current on technology and its socioeconomic and environmental impact. Graded In Progress (IP) until EE 175A and EE 175B are completed, at which time, a final letter grade is assigned.

EE 175B Senior Design Project 4 Lecture, 1 hour; laboratory, 3 hours; practicum, 6 hours. Prerequisite(s): EE 175A; senior standing in Electrical Engineering. Builds, tests, and redesigns electrical engineering devices or systems. Develops and carries out test plan according to design specification. Presents a demo of the design. Completes project testing and technical documentation. Presents a demo of the design. Satisfactory (S) or No Credit (NC) grading is not available.

EE 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum of 9 units.

EE 191 (E-Z) Seminar in Electrical

Engineering 1 to 4 Seminar, 2 hours.

Prerequisite(s): EE 001B; restricted to class level standing of junior, or senior. Consideration of current topics in electrical engineering. Offered in summer only. Offered in Summer only.

EE 191E Electric Vehicles 1 Seminar, 2

hours. Prerequisite(s): upper-division standing or consent of instructor; EE 001B. Covers principles of electric vehicle design. The predominant focus is on the principles of electric machine operation: electromechanical energy conversion, rotating machines, direct current (DC) machines, generators, alternate current (AC) machines, and dynamics and control of electric machines. Additional topics include battery technology and vehicle dynamics. Offered in summer only.

EE 194 Independent Reading 1 to 2 Extra

Reading, 3 to 6 hours. Prerequisite(s): upper division standing or consent of instructor. Independent reading in material not covered in course work. Normally taken in senior year. course is repeatable to a maximum of 4 units.

EE 197 Research For Undergraduates 1 to

4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor and Electrical Engineering undergraduate program advisor. Directed research on a topic relevant to electrical engineering. Requires a final written report. Course is repeatable to a maximum of 8 units.

EE 198I Individual Internship in Electrical

Engineering 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): upper-division standing; at least 12 units in Electrical Engineering. Provides the undergraduate student with career experience as an electrical engineer in an industry or a research unit under the joint supervision of an off-campus sponsor and a faculty member in Electrical Engineering. Each individual program must have the prior approval of both supervisors. Requires a final report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units

Graduate Courses

EE 201 Applied Quantum Mechanics 4 Lecture,

3 hours; research, 3 hours. Prerequisite(s): MATH 046, PHYS 040A; or consent of instructor. Covers topics in quantum mechanics including Schrodinger equation; operator formalism; harmonic oscillator; quantum wells; spin, bosons, and fermions; solids; perturbation theory; Wentzel-Kramers-Brillouin approximation; tunneling; tight-binding model; quantum measurements; quantum cryptography; and quantum computing. Cross-listed with MSE 207.

EE 202 Fundamentals of Semiconductors and

Nanostructures 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 133, EE 201/MSE 207; or consent of instructor. Examines principles of semiconductor materials and nanostructures. Topics include periodic structures, electron and phonon transport, defects, optical properties, and radiative recombination. Also covers absorption and emission of radiation in nanostructures and nonlinear optics effects. Emphasizes properties of semiconductor superlattices, quantum wells, wires, and dots. Cross-listed with MSE 217.

EE 203 Solid-State Devices 4 Lecture, 3

hours; research, 3 hours. Prerequisite(s): EE 133 or consent of instructor. Covers electronic devices including p-n junctions, field-effect transistors, heterojunction bipolar transistors, and nanostructure devices. Explores electrical and optical properties of semiconductor heterostructures, superlattices, quantum wires, and dots, as well as devices based on these structures. Cross-listed with MSE 237C.

EE 204 Advanced Electromagnetics 4 Lecture,

3 hours; laboratory, 3 hours. Prerequisite(s): EE 117 or consent of instructor. Presents selected topics in electromagnetic theory and antenna design. Topics include power transmission and attenuation in microstrip transmission lines (TL) and waveguides (WG); transient analysis and applications of TL and WG; radiation of electromagnetic waves; antenna design; electromagnetic interference and compatibility; and numerical methods in electromagnetic theory.

EE 205 Optoelectronics and Photonic

Devices 4 Lecture, 3 hours; research, 3 hours.

Prerequisite(s): EE 203/MSE 237C, EE 204; or consent of instructor. A study of the physical optical and photonic devices and their use in an optical communication system. Covers silica fibers, light-emitting diodes (LEDs), heterojunction lasers, p-i-n photodiodes, and avalanche photodiodes.

EE 206 Nanoscale Characterization

Techniques 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 201 or MSE 207; graduate standing; or consent of instructor. An in-depth study of nanoscale materials and device characterization techniques. Emphasizes atomic force microscopy (AFM) and scanning tunneling microscopy (STM). Includes semiconductor fabrication fundamentals; metrology requirements; in situ monitoring; interconnects and failure analysis; principles of AFM, STM, and scanning electron microscopy; X-ray methods; optical and infrared techniques; and electrical characterization. Cross-listed with MSE 227A.

EE 208 Semiconductor Electronic and Optical

Properties 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221B, may be taken concurrently or EE 202, may be taken concurrently or MSE 217, may be taken concurrently; graduate standing. Introduction to electronic bandstructure. Topics include electronic structure of semiconductors, graphene, localized orbital models, k dot p models, spin-orbit coupling, and optical generation of spin. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 227B.

EE 209 Semiclassical Electron

Transport 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 201/MSE 207, EE 203/MSE 237C, EE 208. Covers the Boltzmann transport equation as applied to semiconductor device modeling. Topics include the physics of carrier scattering in common semiconductors, theoretical treatments of low and high field transport, balance equations, and Monte Carlo solutions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and

graduate advisor.

EE 210 Advanced Digital Signal

Processing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 110B, EE 141. Provides in-depth coverage of advanced techniques for digital filter and power spectral estimation. Topics include digital filter design, discrete random signals, finite-wordlength effects, nonparametric and parametric power spectrum estimation, multirate digital signal processing, least square methods of digital filter design, and digital filter applications.

EE 211 Adaptive Signal Processing 4 Lecture,

3 hours; discussion, 1 hour. Prerequisite(s): EE 215. Provides an in-depth understanding of adaptive signal processing techniques. Covers Wold decomposition; Yule-Walker equations; spectrum estimation; Weiner filters; linear prediction; Kalman filtering; time-varying system tracking; nonlinear adaptive filtering; and performance analysis of adaptive algorithms and their variations including stochastic gradient, least mean square, least squares, and recursive least squares.

EE 212 Quantum Electron Transport 4 Lecture,

3 hours; discussion, 1 hour. Prerequisite(s): EE 208. Covers the theory and methods used to model quantum electron transport in ultrascaled traditional semiconductor devices such as transistors, nanoscaled research semiconductor devices (such as quantum dots), and novel electronic material systems (such as carbon nanotubes and molecular wires.) May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 213 Computer-Aided Electronic Circuit

Simulation 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 001A, EE 001B, EE 133. Introduction to numerical algorithms and computer-aided techniques for the simulation of electronic circuits. Covers theoretical and practical aspects of important analyses. Topics include circuit formulation methods; large-signal nonlinear direct current, small-signal alternating current, and moment-matching transient; sensitivity; and noise. Also discusses recent advances in timing analysis, symbolic analysis, and radio frequency circuit analysis.

EE 214 Quantum Computing 4 Lecture, 3 hours;

discussion, 1 hour. Prerequisite(s): EE 201/MSE 207 or equivalent; graduate standing or consent of instructor. An introduction to quantum computing. Topics include qubits, entanglement, quantum gates, quantum circuit diagrams, simple quantum algorithms, quantum teleportation, quantum cryptography, Shor's factorization algorithm, Grover's search algorithm, and quantum error correction. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with PHYS 220.

EE 215 Stochastic Processes 4 Lecture, 3

hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. A study of probability and stochastic processes. Topics include discrete and continuous random variables; probability densities; characteristic functions; convergence of random sequences; central limit theorem; autocorrelation functions and spectral densities; wide-sense and strict-sense stationarity; Markov chains and

processes; and response of linear time-invariant systems to random signals.

EE 216 Nanoscale Phonon

Engineering 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 202/MSE 217. Studies acoustic and optical phonons that affect electrical, thermal, and optical properties of materials. Focuses on the confinement-induced changes of phonon properties in nanostructures and their implications for performance of electronic, thermoelectric, and optoelectronic devices. Explores phonon theory, Raman spectroscopy and other phonon characterization techniques, thermal conductivity, and related measurements. Cross-listed with MSE 237B.

EE 217 Gpu Architecture and Parallel

Programming 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 160 with a grade of "C-" or better or consent of instructor. Introduces the popular CUDA based parallel programming environments based on Nvidia GPUs. Covers the basic CUDA memory/threading models. Also covers the common data-parallel programming patterns needed to develop a high-performance parallel computing applications. Examines computational thinking; a broader range of parallel execution models; and parallel programming principles. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CS 217.

EE 218 Power System Steady State and

Market Analysis 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): EE 155; EE 132; ENGR 160 or EE 231. EE 218 online section; enrollment in the Online Master-in-Science in Engineering program. Introduces power system steady state and market analysis. Topics include system security criteria and security assessment; state estimation; automatic generation control; contingency screening and security constrained optimal power flow; the electricity market structure; security constrained economic dispatch and unit commitment; financial transmission rights; forward markets; and market power. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 219 Advanced Complementary Metal Oxide Semiconductor (CMOS) Technology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 203/MSE 237C. Introduces advanced complementary metal oxide semiconductor (CMOS) technology. Topics include MOS field effect transistor (MOSFET) scaling; short and narrow channel effects; high field effects; vertical MOSFET transistors; single electron transistors; MOSFET nonvolatile memory devices; and small- and large-signal MOSFET models. Covers CMOS process integration. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 220 Applied Ferromagnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 116; consent of instructor. Introduces fundamentals of ferromagnetism necessary to develop next-generation nanomagnetic and spintronics-related devices. Includes basics of magnetism, magnetic circuits, ferromagnetic resonance (FMR), nuclear magnetic resonance (NMR), spintronics, and analyses of applications.

Cross-listed with MSE 237A.

EE 221 Radio-Frequency Integrated Circuit

Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 100B; senior or graduate standing. Covers the essentials of contemporary radio frequency (RF) complimentary metal oxide semiconductor (CMOS) integrated circuit (IC) analysis and design. Addresses typical RF building blocks in CMOS and bipolar/CMOS (BiCMOS) technologies, including passive IC components, transistors, distributed networks, voltage reference and biasing circuits, power amplifiers, and feedback networks. Also covers RF device modeling, bandwidth estimation, and stability analysis techniques.

EE 222 Advanced Radio-Frequency (RF)

Integrated Circuit Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 100B; senior or graduate standing. Covers analysis techniques for nonlinear effects and noise in RF integrated circuit design. Addresses nonlinear, and distortion behavior, including inter-modulation, cross-modulation, harmonics, gain compression, and desensitization. Also explores noise effects, including thermal, short, flicker, and burst noises. Includes single-stage and multiple-stage networks.

EE 223 Numerical Analysis of Electromagnetic Devices 4

Lecture, 4 hours. Prerequisite(s): EE 117, MATH 151C. Covers in depth the numerical and mathematical foundations of the contemporary computer modeling techniques used in the design and analysis of electromagnetic devices and systems. Provides hands-on experience in modeling systems such as radio frequency devices, magnetic systems, and electromagnetic motors.

EE 224 Digital Communication Theory and

Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 115, MATH 149A, MATH 149B; or equivalents. Provides an overview of basic communication techniques and an introduction to optimum signal detection and correction. Topics include sampling and bandwidth; pulse code modulation; line coding and pulse shaping; delta modulation; stochastic approach to bandwidth and noise corruption; white Gaussian noise; matched filter; optimum signal detection; Shannon theorems; and error correction. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 225 Error-Correcting Codes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 215 or consent of instructor. Provides an overview of basic error-correcting techniques used in data transmission and storage. Topics include groups and Galois fields, error-correction capability and code design of Hamming codes, cyclic codes, Bose-Chaudhuri-Hocquengem (BCH) codes, and Reed-Solomon codes. Also considers concatenated design and decoding techniques.

EE 226 Wireless Communications 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 215, EE 224. Presentation of fundamental cellular concepts and new techniques in wireless communications. Topics include cellular systems and standards, frequency reuse, system capacity, channel allocation, cellular radio propagation, fading channel modeling and

equalization, spread spectrum communications and other multiple access techniques, and wireless networking.

EE 229 Video Processing and

Communication 4 Lecture, 3 hours; laboratory, 1 hours; extra reading, 2 hours. Prerequisite(s): EE 150, EE 210. Covers the fundamental principles and technologies in the compression and transmission of coded video streams over wired and wireless networks, including wireless network protocols, compression standards, digital signal processor architectures, network or traffic management, quality of service, rate control schemes, and error resilience.

EE 230 Mathematical Methods For Electrical Engineers 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers fundamental theoretical concepts and computational tools for Electrical Engineering graduate students. Presents material relevant to electrical engineering applications. Topics include vector spaces; partitioned, unitary, and positive definite matrices; differential calculus with matrices; matrix decompositions; linear system solution; convex optimization; the Lagrangian method; KKT conditions; and nonlinear optimization methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 231 Convex Optimization in Engineering

Applications 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): EE 230. Covers recognizing and solving convex optimization problems that arise in engineering applications. Explores convex sets, functions, and optimization problems. Includes basics of convex analysis, least-squares, linear and quadratic programs, semidefinite programming, minimax, and other problems. Addresses optimality conditions, duality theory, theorems of alternative and applications, interior-point methods, and applications in engineering.

EE 232 Introduction to Smart Grid 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing. EE 232 online section; enrollment in the Online Master-in-Science in Engineering program. An introduction to smart power grid. Covers the basics of power systems; definition and applications of smart grid; demand response and demand side management; renewable power generation and integration; smart grid communications; wide area measurement; smart grid cyber security and privacy; and economics and market issues. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 233 Optimal Control and

Estimation 4 Lecture, 4 hours; term paper, 1 hour. Prerequisite(s): ME 120, ME 121 or equivalent; or consent of instructor. Introduces optimal control and estimation with specific focus on discrete time linear systems. Topics include analysis of discrete Riccati equations; asymptotic properties of optimal controllers; optimal tracking; an introduction to Receding Horizon control; derivation of the Kalman filter; Extended Kalman Filter; and Unscented Kalman filter. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ME 220.

EE 235 Linear System Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 132. Provides a review of linear algebra. Topics include the mathematical description of linear systems; the solution of state-space equations; controllability and observability; canonical and minimal realization; and state feedback, pole placement, observer design, and compensator design. Cross-listed with ME 235.

EE 236 State and Parameter Estimation Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 215 with a grade of C or better; graduate standing. Covers Fisher information, Cramer-Rao lower bound, efficiency, and sufficient statistics. Addresses minimum variance unbiased, best linear unbiased, maximum likelihood, least squares, maximum a posteriori, and mean-squared estimation. Also covers Weiner and Kalman filtering as well as applications in navigation, signal processing, machine learning, and dynamical systems. Cross-listed with ME 236.

EE 237 Nonlinear Systems and Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 235/ME 235. Explores nonlinear systems and control. Topics include nonlinear differential equations, second order nonlinear systems, equilibrium and phase portrait, limit cycle, harmonic analysis and describing function, Lyapunov stability theory, absolute stability, Popov and circle criterion, input-output stability, small gain theorem, averaging methods, and feedback linearization. Cross-listed with ME 237.

EE 238 Linear Multivariable Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 235/ME 235. Investigates multivariable feedback systems, stability, performance, uncertainty, and robustness. Topics include analysis and synthesis via matrix factorization; Q-parameterization and all stabilizing controllers; frequency domain methods; and H(infinity) design and structured singular value analysis. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ME 238.

EE 239 Optimal Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 215, EE 235/ME 235. Presents the theory of stochastic optimal control systems and methods for their design and analysis. Covers principles of optimization; Lagrange's equation; linear-quadratic-Gaussian control; certainty-equivalence; the minimum principle; the Hamilton-Jacobi-Bellman equation; and the algebraic Riccati equation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ME 239.

EE 240 Pattern Recognition 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 141 or consent of instructor. EE 240 online section; enrollment in the Online Master-in-Science in Engineering program. Covers basics of pattern recognition techniques. Topics include hypothesis testing, parametric classifiers, parameter estimation, nonparametric density estimation, nonparametric classifiers, feature selection, discriminant analysis, and clustering.

EE 241 Advanced Digital Image

Processing 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 152 or consent of instructor. Covers advanced topics in digital image processing. Examines image sampling and quantization, image transforms, stochastic image models, image filtering and restoration, and image data compression.

EE 243 Advanced Computer Vision 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 146 or consent of instructor. EE 243 online section; enrollment in the Online Master-in-Science in Engineering program. A study of three-dimensional computer vision. Topics include projective geometry, modeling and calibrating cameras, representing geometric primitives and their uncertainty, stereo vision, motion analysis and tracking, interpolating and approximating three-dimensional data, and recognition of two-dimensional and three-dimensional objects.

EE 244 Computational Learning 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores fundamental computational learning techniques. Topics include elements of learning systems, inductive learning, analytic learning, case-based learning, genetic learning, connectionist learning, reinforcement learning and integrated learning techniques, and comparison of learning paradigms and applications.

EE 245 Advanced Robotics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 236/ME 236; ME 120 or equivalent. Topics include robot navigation; description of robot sensors and their characteristics; sensor data processing; feature extraction; and matching. Also covers representations of space for mapping; map-based localization; simultaneous localization and mapping; image-based motion estimation; and motion planning. Cross-listed with ME 222.

EE 246 Intelligent Transportation Systems 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. EE 115 and EE 132 are recommended. Focuses on the control, communications, and computer aspects of intelligent transportation systems. Topics include traffic flow theory fundamentals, intelligent transportation system user services, travel and traffic management, advanced vehicle safety systems, intelligent transportation system applications, architectures, standards, strategic needs assessment and deployment, and evaluation.

EE 247 Current Topics in Computer Vision and Pattern Recognition 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 240 or EE 243 or consent of instructor. Topics include advanced methods in computer vision and pattern recognition that are evolving and of current interest. May cover novel mathematical tools; analysis of large video databases; machine learning approaches in video computing; camera networks; and biological applications of computer vision. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 249 Power System Dynamics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): EE 218 or EE 232; EE 153 or EE 155. Introduces dynamic phenomena in power

systems following disturbances. Topics include synchronous machines, voltage stability, power system reliability criteria, synchronous machine modeling, power system stability criterion under classical models, and time domain simulation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 250 Information Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): EE 215. An overview of fundamental limitations imposed on communication systems. Topics include Shannon's information measures, weak and strong typicality, lossless data compression, source and channel models and Shannon's coding theorems, channel capacity and the rate-distortion function, Gaussian sources and channels, and limits of communication between multiple terminals.

EE 252 Data Center Architecture 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): CS 161 or consent of instructor. Introduces recent trends and challenges of warehouse-scale computing and data center systems. Topics include virtualization, resource management, data market, power management, sustainable computing, and demand response.

EE 253 Electric Power Distribution Systems 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): EE 155, graduate standing; or consent of instructor. Covers fundamentals of the operation and planning of electric power distribution systems. Topics include electric load modeling, overhead and underground lines, three-phase transformers, voltage regulation, three-phase unbalanced power flow, three-phase optimal power flow, and system protection. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 254 Fundamentals of Lithographic Process Development 4 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A detailed and practical discussion of lithographic process development. Topics include photolithography, mask design, extreme ultraviolet lithography, electron beam lithography, focused ion beam lithography, nanoimprint lithography, and patterning via directed self-assembly. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 255 Real-Time Embedded Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 120B/CS 120B, or equivalent; consent of instructor. Covers the fundamentals and principles of real-time embedded systems. Topics include uniprocessor and multiprocessor real-time scheduling, real-time operating systems, synchronization, resource reservation, memory management, power management, etc. Introduces mathematical techniques for real-time system analysis. Offers hands-on experience with designing, implementing, and evaluating real-time systems on embedded platforms. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 257 Global Navigation Satellite System Signal Processing and Receiver Design 4 Lecture, 3 hours; discussion, 1 hour.

Prerequisite(s): EE 215 or consent of instructor. Develops a comprehensive understanding of Global Navigation Satellite System (GNSS) signal structure, GNSS communication channel, received power, radio frequency (RF) front-end receiver design, sampling, correlation, acquisition techniques, tracking loop theory, noise and bandwidth concepts, generation of GNSS observables, and software-defined radio (SDR) implementation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 258 Modeling and Synthesis of Cyber-Physical Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Introduces trends and challenges of modern cyber-physical systems. Reviews state-of-the-art design approaches and tools in both academia and industry. Introduces fundamental concepts in functional modeling, real-time embedded architecture, design synthesis and validation. Introduces emerging design principles and their applications in automotive, avionics, smart buildings, and consumer electronics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CS 256.

EE 259 Colloquium in Electrical Engineering 1 Colloquium, 1 hour. Prerequisite(s): graduate standing. Lectures on current research topics in electrical engineering relating to professional development presented by faculty members and visiting scientists. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EE 260 Seminar in Electrical Engineering 1 to 4 Seminar, 1 to 4 hours. Prerequisite(s): consent of instructor. Seminar on current research topics in electrical engineering, including areas such as signal processing, image processing, control, robotics, intelligent systems, computer vision, and pattern recognition. Course is repeatable to a maximum of 16 units.

EE 270 Introduction to Video Bioinformatics 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to video bioinformatics. Includes microscopic techniques, live imaging, video computing, structure and function of cells, spatiotemporal dynamics, multi-scale analysis, disk and data storage, indexing and queries, image and video databases, and medical imaging and analysis techniques. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with GEN 270.

EE 271 Video Bioinformatics: Multi-Scale Analysis of Biological Systems 2 Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the significant range for both the time and spatial scales of biological systems. Includes video imaging techniques, as well as how these spatial and time scales are analyzed for a better understanding of biological function. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with BIEN 271, and GEN 271.

EE 272 Introduction to Imaging Bioinstrumentation and Analysis 2 Lecture, 1

hour; laboratory, 3 hours; extra reading, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the instrumentation used to collect video images of cells and the methods used to analyze video data. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with GEN 272.

EE 273 Live Imaging and Analysis of Cellular and Molecular Behaviors 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): EE 272/GEN 272 or consent of instructor. An introduction to video imaging methodologies used to capture the cellular and molecular dynamics and interactions in living cells. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with GEN 273.

EE 274 Introduction to Medical Imaging and Analysis 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to medical imaging. Includes associated computational techniques for x-ray imaging, computed tomography, magnetic resonance imaging, positron emission tomography, ultrasound, radiotherapy, and molecular imaging. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with GEN 274.

EE 275 Project in Video Bioinformatics 2 Lecture, 1 hour; laboratory, 4 hours. Prerequisite(s): graduate standing; consent of instructor. Explores video bioinformatics research techniques. Emphasizes critical thinking and advanced planning and understanding of hypothesis, computational approaches, and experimental tradeoffs. Includes an interdisciplinary video bioinformatics research project. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

EE 276 Colloquium in Video Bioinformatics 1 Colloquium, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers current research topics in video bioinformatics. Includes presentations by faculty members and visiting researchers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EE 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and Graduate Advisor. Individual study, directed by a faculty member, of selected topics in electrical engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

EE 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Research conducted under the supervision of a faculty member on selected problems in electrical engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

EE 298I Individual Internship in Electrical Engineering 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): graduate standing; consent of instructor. Provides the Electrical Engineering graduate student with career experience as an electrical engineer in an industry or a research unit.

Includes fieldwork with an approved professional individual or organization and academic work under the direction of a faculty member. Requires a final report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

EE 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor./ Research in electrical engineering for the M.S. thesis or Ph.D. dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENGINEERING

Subject abbreviation: ENGR
The Marlan and Rosemary Bourns College of Engineering

Advising Office, 1228 Student Services Building (951) 827-ENGR (3647);
student.engr.ucr.edu

Courses in Engineering are a multidisciplinary approach to providing students with training in concepts common to multiple engineering fields. The courses support the undergraduate programs in all disciplines in the Marlan and Rosemary Bourns College of Engineering. Refer to these programs in this section of the catalog for information on course application.

Lower-Division Courses

ENGR 001 (E-Z) Professional Development&Mentoring 1 Activity, 30 hours per quarter. Provides freshmen with involvement in professional development activities. Activities to be performed are program-specific, and may include projects, industry overviews and interactions, involvement with professional societies and clubs, team building, career guidance, and coverage of ethics and lifelong learning issues. E. Bioengineering; F. Chemical Engineering; G. Computer Engineering; I. Computer Science; J. Electrical Engineering; K. Environmental Engineering; M. Cmptr Scnce Business Applctns; N. Mechanical Engineering;

ENGR 002 (E-Z) Professional Development&Mentoring 1 Activity, 30 hours per quarter. Prerequisite(s): restricted to class level standing of sophomore; restricted to major(s) Bioengineering, Bioengineering BS + MS, Chemical Engineering, Chemical Engineering BS + MS, Computer Engineering, Computer Science, Computer Science BS + MS, Electrical Engineering, Electrical Engineering BS + MS, Environmental Engineering, Environmental Engr BS + MS, Materials Science and Engineer, Mechanical Engineering, Mechanical Engineering BS + MS. Provides sophomores with involvement in professional development activities. Activities to be performed are program-specific, and may include projects, industry overviews and interactions, involvement with professional societies and clubs, team building, career guidance, and coverage of ethics and lifelong learning issues. E. Bioengineering; F. Chemical Engineering; G. Computer Engineering; I. Computer Science; J. Electrical Engineering; K. Environmental Engineering; M. Information Systems;

ENGR 010 Introduction to

Engineering 2 Discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): none. Introduction to and experience with common everyday engineering and technology devices. Aims to enrich students' appreciation of technology and the application of simple science and engineering concepts in the design and operation of these devices, and to provide students with an early positive engineering experience and interaction with College of Engineering faculty. Graded Satisfactory (S) or No Credit (NC).

ENGR 060 Engineering Economics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009A. Covers economic decisions involving engineering alternatives. Topics include time value of money, annual cost, present worth, rate of return, and benefit-to-cost. Addresses before and after tax replacement economy, organizational financing, break-even analysis, risk analysis, and capital budgeting. Cross-listed with ECON 060.

ENGR 092 First-Year Seminar in

Engineering 1 Seminar, 10 to 15 hours per quarter. Prerequisite(s): freshman standing; sophomores may enroll on a space-available basis with consent of instructor. Introduction to one of the many areas of study explored by the faculty of the College of Engineering in a small-group, highly interactive format. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 3 units of any combination of ENGR 092, HASS 092, and NASC 092; students may enroll in only 1 unit of ENGR 092, HASS 092, or NASC 092 per quarter.

ENGR 096 Environment and Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): lower-division standing or consent of instructor. Presents major environmental issues facing society from an interdisciplinary perspective. Topics may include water, energy, climate change, and urbanization. Cross-listed with NASC 096, and HASS 096.

Upper-Division Courses

ENGR 101 (E-Z) Professional Developmt

&Mentor 1 Activity, 30 hours per quarter. Prerequisite(s): restricted to class level standing of junior; restricted to major(s) Bioengineering, Bioengineering BS + MS, Chemical Engineering, Chemical Engineering BS + MS, Computer Engineering, Computer Science, Computer Science BS + MS, Electrical Engineering, Electrical Engineering BS + MS, Environmental Engineering, Environmental Engr BS + MS, Materials Science and Engineer, Mechanical Engineering, Mechanical Engineering BS + MS. Provides juniors with involvement in professional development activities. Activities to be performed are program-specific, and may include projects, industry overviews and interactions, involvement with professional societies and clubs, team building, career guidance, and coverage of ethics and lifelong learning issues. E. Bioengineering; F. Chemical Engineering; G. Computer Engineering; I. Computer Science; J. Electrical Engineering; K. Environmental Engineering; M. Cmpttr Scnce Business Applctns; N. Mechanical Engineering;

ENGR 108 Technology in Premodern

Civilizations 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines relations between society, machine, and state in ancient China, Greece, Rome, and medieval Europe. Focuses on key mechanical and civil technologies and the role of the state in differentiating their development between the four historic civilizations. Cross-listed with HIST 108.

ENGR 109 Technology in Modern Europe and

America, 1700-Present 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the emergence of modern Europe through the first and second industrial revolutions in Europe and America. Explores the development of device commodities as the typical form of consumer technology in the nineteenth and twentieth centuries, as well as addresses philosophical issues in understanding technology. Cross-listed with HIST 109.

ENGR 118 Engineering Modeling and

Analysis 5 Lecture, 4 hours; discussion, 1 hour. Prerequisite(s): CHEM 001A or CHEM 01HA; CS 010 or 030; MATH 046; PHYS 040B or PHYS 040HB; or consent of instructor. Covers the formulation of mathematical models for engineering systems. Includes applying mass, momentum, and energy balances to derive governing differential equations; solving equations with the use of spreadsheets and other software packages; and fitting linear and nonlinear models to experimental data. Credit is awarded for only one of ENGR 118 or ME 118.

ENGR 160 Introduction to Engineering

Optimization Techniques 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A; CS 010 or EE 020 or ME 018A and ME 018B. ENGR 160 online section; enrollment in the Master-in-Science in Engineering program. Introduction to formulating and solving optimization problems in engineering. Includes single-variable and multi-variable optimization; linear programming - simplex method; nonlinear unconstrained optimization - gradient, steepest descent, and Newton methods; and nonlinear constrained optimization - gradient projection methods. Addresses applications of optimization in engineering design problems. Solves various engineering optimization examples using MATLAB.

ENGR 170 Technology, Policy, and

Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing. Provides contemporary perspectives on interplays between technology, public policy, and ethics. Covers social, legal, and ethical issues such as liability, as well as environmental, patent, and copyright law. Cross-listed with PBPL 170.

ENGR 171 Globalization 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): junior standing. Covers technological drivers of globalization. Includes social, economic, and political consequences. Explores the cultural aspects of globalization, including barriers and drivers for economic and cultural interdependence and integration, as well as virtual global organizations. Cross-listed with PBPL 171.

ENGR 180W Technical

Communications 4 Lecture, 3 hours; workshop, 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better; upper-division standing in the Bourns College of Engineering or consent of instructor. Develops oral, written, and graphical communication skills. Includes preparing and critiquing reports, proposals, instructions, and business correspondence. Emphasizes professional and ethical responsibilities and the need to stay current on technology and its global impact on economics, society, and the environment. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C.

ENGR 181W Technical Communications and

Documentation 4 Lecture, 3 hours; workshop, 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better; senior standing and completion of one quarter of a senior design project in an engineering discipline. Develops technical communication and documentation skills. Includes writing and critiquing design documentation and technical reports. Uses the capstone design project in an engineering discipline as a case study. Considers professional and ethical responsibilities, contemporary issues in engineering and global impact on economics, society, and the environment. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the students college permits, as alternatives to English 001C.

ENGR 190 Special Studies 1 to 5

Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing or consent of instructor. To be taken with the consent of the chair of the appropriate Engineering program as a means of meeting special curricular problems. Units in this course may not be used to meet requirements for the major unless so designated as a replacement for a requirement not being offered during the student's remaining tenure. Course is repeatable to a maximum of 9 units.

ENGR 191S Seminar in Sacramento 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; admission to the UCR Center at Sacramento Program. Examines aspects of the Sacramento area, including cultural, political, and governmental institutions and the sciences, arts, and media. Requires a substantial research paper or project, the result of guided independent work drawing on the unique aspects of Sacramento. Required of participants in the UCR Center at Sacramento Program. Cross-listed with HASS 191S, and NASC 191S.

ENGR 198I Individual Internship 1 to

12 Internship, 3 to 36 hours. Prerequisite(s): upper-division standing or consent of instructor; consent of off-campus supervisors and appropriate Engineering program chair. Designed to provide experience as a practicing engineer in a governmental, industrial, or research unit. Jointly supervised by an off-campus sponsor and an Engineering faculty member. Requires a written final report. Units may not be used to satisfy major requirements.

Graduate Program

The Bourns College of Engineering (BCOE) offers an online Master of Science (M.S.) degree in Engineering.

Online M.S. Graduate Program Assistant
(951) 827-5196, MSE 313

Kambiz Vafai, Ph.D., Program Director

Online M.S. Committee

Heejung Jung, Ph.D. (Mechanical Engineering)
Bahram Mobasher, Ph.D. (Physics and Astronomy)
Hamed Mohsenian-Rad, Ph.D. (Electrical and Computer Engineering)
Victor Rodgers, Ph.D. (Bioengineering)
Cengiz Ozkan, Ph.D. (Mechanical Engineering)
Evangelos Christidis, Ph.D. (Computer Science)
Bryan Wong, Ph.D. (Chemical and Environmental Engineering)

Online Master's Degree

The online (M.S.) degree program is designed for working professional engineers who wish to advance their knowledge in a field and enhance their value in the workplace. Students in the program receive course materials including lectures, notes, assignments, and announcements over the internet. Exams are given by proctors at regional locations.

The BCOE online master's program combines engineering and professional development classes. Another key component is a significant design experience, incorporating additional readings and knowledge of the courses taken.

Admission

The following criteria are considered during the admission process for the MSOL program:

1. A bachelor's degree in engineering or related field from an accredited institution
2. Official transcripts
3. Grade Point Average (GPA)
4. Graduate Record Examination (GRE)/ Fundamentals of Engineering (FE) scores*
5. TOEFL or IELTS scores (for international applicants)
6. Evidence of significant professional engineering experience
7. Professional certifications
8. Reference letters

*The GRE/FE may be waived by exception with an appeal made by a student with verified and substantial work experience (two years or more) in an Engineering company with a BS in Engineering or Natural Sciences (such as Physics, Mathematics or Chemistry)

Course Requirements

Students must complete 36 units (9 courses), six of which must be at the 200 level, including:

1. Four college-wide core courses from the professional engineering series. ENGR 200: Engineering in the Global Environment, ENGR 201: Technology Innovation and Strategy for Engineers, ENGR 202: Introduction to Systems Engineering, ENGR 203: Principles of Engineering Management

2. Four specialization courses in an engineering concentration area. Listed for each specialization below. If necessary, students may substitute a total of one course from another specialization with approval of the MSOL director.
3. Four units of ENGR296V

MSOL Specializations

Bioengineering

This specialization emphasizes principles and application of bioengineering based on a solid fundamental foundation in biological science and engineering to equip students with diverse communications skills and training in the most quantitative bioengineering research so that they can become leaders in their respective fields. Students can substitute a total of one course from the Environmental Engineering Systems or Mechanical Engineering specializations.

- BIEN 223: Engineering Analysis of Physiological Systems
BIEN 224: Cellular and Molecular Engineering
BIEN 249: Integration of Computational and Experimental Biology
BIEN 264: Biotransport Phenomena
BIEN 270: Transport with Reactions in Biological Systems

Chemical

Chemical engineering applies its unique skills to improve healthcare, energy availability, chemicals and materials, and public safety.

CEE 200: Advanced Engineering Computation

Develops problem-solving techniques for basic engineering systems including heat and mass transfer, coupled reactions, fluid flow potential, and control.

CEE 202: Transport Phenomena

Topics include transport phenomena, potential flow, and boundary layer theories with applications to simultaneous heat, momentum, and mass transfer. Introduces numerical techniques used to solve advanced transport phenomena problems.

CEE 204: Advanced Kinetics and Reaction

Engineering Emphasizes kinetics and mechanisms of heterogeneous reactions in different types of reactors. Specific topics include gas-solid noncatalytic reactions; catalytic surfaces and catalyst characterization; and adsorption, diffusion, reaction, and heat transfer in porous catalysts.

CEE 206: Advanced Chemical Engineering Thermodynamics

Application of the laws of thermodynamics to phase and chemical reaction equilibrium. Introduction to statistical thermodynamics, molecular simulations, and the evaluation of thermodynamic properties from molecular simulations.

Data Science

Any four of the following courses will be sufficient for the specialization course requirements for this specialization. If necessary, students can substitute a total of one course: BIEN 249, ME 230, or MSE 248.

- STAT 206: Statistical Computing
STAT 208: Statistical Data Mining Methods

- CS 229: Machine Learning
CS 230: Computer Graphics
CS 235: Data Mining Techniques
CS 236: Database Management Systems
CS 242: Information Retrieval and Web Search
EE 241: Advanced Image Processing
EE 243: Advanced Computer Vision
PHYS 243: Foundation of Applied Machine Learning
PHYS 244: Application of Visualization in Data Science
PHYS 247: Introduction to Applied Data Science

Electrical Engineering

This specialization emphasizes the principles and common research trends in electric power systems analysis and operation and smart grid applications.

- EE 123: Power Electronics; (or EE153: Electric Drives)
EE 155: Power Systems Analysis
EE 218: Power System Steady State and Market Analysis
EE 232: Introduction to Smart Grid

* A prerequisite for EE 218 is required.
EE 155 and ENGR 160 must be taken first.

The students for EE specialization will also need to take ENGR160 (Introduction to Engineering Optimization Techniques) in addition to the four EE specializations. That is the core professional courses for EE specialization will be ENGR160 plus three of the four regular core professional courses which are ENGR 200: Engineering in the Global Environment; ENGR 201: Technology Innovation and Strategy for Engineers; ENGR 202: Introduction to Systems Engineering and ENGR 203: Principles of Engineering Management.

Environmental Engineering Systems (Water):

Through a series of professional development and technical courses, this specialization will equip students with knowledge and insights that are needed for leadership in a water-related environmental engineering career at a consulting firm, water/wastewater agency, federal/state regulatory agency, or a large company. Students can substitute a total of one course from the Bioengineering or Mechanical Engineering specialization.

- CEE 225: Physical and Chemical Separation Processes
CEE 226: Biological Treatment Processes
CEE 241: Water Chemistry in Natural and Engineered Systems
CEE 243: Advanced Water Treatment Technologies
CEE 249: Integration of Computational and Environmental Engineering

Materials at the Nanoscale

In addition to course work on engineering management, systems, innovation and strategy, and working in a global environment, this program will focus on a broad range of nanoscale processes and applications through courses from

UCR's interdisciplinary Materials Science and Engineering program. Students can substitute a total of one course from the Mechanical Engineering specialization.

MSE 201: Thermodynamic Foundations of Materials

MSE 210: Crystal Structure and Bonding

MSE 238: Introduction to Microelectromechanical Systems

MSE 248: Nanoscale Science and Engineering

Mechanical Engineering

In addition to course work on engineering management, systems, innovation and strategy, and working in a global environment, this program will focus on a broad range of courses in Sustainable Product Design, Fluid Systems, Secure and Reliable Control Systems and Manufacturing and Materials Processing. Students can substitute a total of one course from the Bioengineering or Materials at the Nanoscale specialization.

ME 203: Design and Analysis of Engineering Experiments

ME 210: Sustainable Product Design

ME 223: Secure and Reliable Control Systems

ME 230: Computer-Aided Engineering Design

ME 240A: Fundamentals of Fluid Mechanics

ME 270: Introduction to Microelectromechanical Systems

ME 272: Nanoscale Science and Engineering

ME 274: Plasma-aided Manufacturing and Materials Processing

Specialization courses are offered by the participating departments, whereas core courses are offered at the college level to all students. Specialization courses are taught by BCOE faculty as traditional classes to on-campus M.S. and Ph.D. students while also being delivered to online students. Online students are expected to satisfy the same requirements as on-campus students.

For areas of specialization and further information, see msol.ucr.edu.

Graduate Courses

ENGR 200 Engineering in the Global

Environment 4 Lecture, 4 hours. Prerequisite(s): graduate standing in Engineering. ENGR 200 online section; enrollment in the Online Master-in-Science in Engineering program. Addresses the adaptive challenges facing engineers in a global environment. Covers relevant business dynamics, national and international requirements, and less formal elements beyond the realm of core technical competence. Designed to widen the engineering practice framework to incorporate necessary added skills to succeed in an increasingly global environment.

ENGR 201 Technology Innovation and Strategy

For Engineers 4 Lecture, 4 hours. Prerequisite(s): graduate standing in Engineering. ENGR 201 online section; enrollment in the Online Master-in-Science in Engineering program. Provides coverage of innovation, innovation project management, innovation protection management, organizational structuring and

collaboration, and human resource management of technical professions. Brings together business models, leading academic research, and current organizational concerns in a blended learning environment that explores real companies and their strategies.

ENGR 202 Introduction to Systems

Engineering 4 Lecture, 4 hours. Prerequisite(s): graduate standing in Engineering. ENGR 202 online section; enrollment in the Online Master-in-Science in Engineering program. An introduction to systems, the systems design process, systems analysis and design evaluation, design for operational feasibility, and systems engineering management. Describes subjects such as requirements analysis, concept definition, system synthesis, design analysis, design tradeoffs, risk tradeoffs, interface definition, engineering design, and systems integration.

ENGR 203 Principles of Engineering

Management 4 Lecture, 4 hours. Prerequisite(s): graduate standing in Engineering. ENGR 203 online section; enrollment in the Online Master-in-Science in Engineering program. Covers the essential managerial skills engineers need for managing in today's global economy. Exposes approaches to management that reveal constraints that guide business decisions. Topics include the functions of management: planning, organizing, leading, and controlling. Designed for engineers who manage people, projects, and technical innovation.

ENGR 296 Professional Project Design 1 to

4 Individual Study, 3 to 12 hours; written work, 3 to 12 hours. Prerequisite(s): enrollment in the Online Master in Science in Engineering program and consent of the instructor. A directed specialized professional written design project. The design project will have a literature review, abstract, introduction, discussion and conclusion along with references. The design project topic will be determined between the instructor and student. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units

Major

The English major offers a well-balanced, thought-provoking program for students with a serious interest in the study of literature and culture. Courses emphasize literature and literary theory from a wide range of perspectives. Questions concerning race and ethnicity, gender and sexuality, rhetoric and politics are included in most classes for the major. Non-majors are welcome in English classes, especially at the lower division.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. in English are as follows:

1. English 020A, ENGL 020B, and ENGL 020C (15 units). These courses are normally required of all English majors as a prerequisite to upper-division courses.
2. ENGL 102 (4 units), or 102W (4 units). This course should normally be taken prior to or concurrently with the student's first upper-division English course.

Include at least one course (in bold) that deals with race and ethnicity (within requirements 3 and 4):

3. Four courses (16 units); one course from each of the following areas:

a) English Literature to 1660: ENGL 117A, ENGL 117B, ENGL 117C, ENGL 117T, ENGL 128E, ENGL 128F, ENGL 128G, ENGL 129A, ENGL 147F, ENGL 147S, ENGL 148Q, ENGL 149, ENGL 151A, ENGL 151B, ENGL 151T, ENGL 152, ENGL 153, ENGL 154

b) English Literature 1660-1900: ENGL 125A, ENGL 125B, ENGL 128I, ENGL 128J, ENGL 128K, ENGL 128M, ENGL 128N, ENGL 129B, ENGL 147G, ENGL 147V, ENGL 148P, ENGL 148X, ENGL 148Y, ENGL 148Z, ENGL 161A, ENGL 161B, ENGL 161T, ENGL 166A, ENGL 166B, ENGL 166T, ENGL 172A, ENGL 172B, ENGL 172T

c) American Literature to 1900: **ENGL 120A**, ENGL 126A, ENGL 127A, ENGL 128O, ENGL 128Q, ENGL 130, ENGL 131, ENGL 132, **ENGL 138A**, ENGL 147M, ENGL 148W

d) Literature after 1900: **ENGL 120B**, **ENGL 120T**, ENGL 125C, ENGL 126B, ENGL 127B, ENGL 127C, ENGL 128P, ENGL 128R, ENGL 128S, ENGL 128T, **ENGL 128U**, ENGL 128V, **ENGL 128W**, **ENGL 128X**, ENGL 129C, ENGL 133, ENGL 134, ENGL 135, **ENGL 136**, **ENGL 136T**, **ENGL 138B**, **ENGL 138T**, **ENGL 139**, **ENGL 139T**, ENGL 147I, ENGL 147U, ENGL 148E, ENGL 148G, ENGL 148M, ENGL 148R, ENGL 148S, ENGL 176A, ENGL 176B, ENGL 176C, ENGL 176T

4. One course (4 units) on literature and related fields, including theory, or on a literary theme or genre, postcolonial literature, literature and gender, or literature and sexuality, to be chosen from among the following: ENGL 100 (E-Z), ENGL 101, ENGL 104, **ENGL 121 (E-Z)**, ENGL 122 (E-Z)/LGBS 122 (E-Z), ENGL 124A, ENGL 124B, ENGL 127T, ENGL 140 (E-Z), ENGL 141 (E-Z), ENGL 142 (E-Z), ENGL 143 (E-Z), **ENGL 144 (E-Z)**, ENGL 145 (E-Z)/MCS 145 (E-Z), ENGL 146 (E-Z)/MCS 146 (E-Z), ENGL 179A, ENGL 179B, ENGL 179T

5. English 189: Capstone Research Seminar.

6. Four additional upper-division English courses (16 units). Only 4 units from either ENGL 103 or any upper-division Creative Writing course will be accepted toward the fulfillment of this requirement. Four units of ENGL 190 may be counted toward this requirement. Proposals for ENGL 190 must be approved by a sponsoring faculty member and the department chair. If the student wishes to offer units from ENGL 190 as part of the 16 units, a copy of an approved petition will be placed in the student's file.

Total units in major: 59 units, of which at least 15 units and no more than 20 units must be at the lower-division level.

Students are encouraged to take at least one of the following as a college breadth requirement or as an elective: CLA 027A, CLA 027B, CLA 040; CPLT 017A, CPLT 017B, CPLT 017C; ETST 114, ETST 120, ETST 124, ETST 138, ETST 170/WRLT 170, ETST 183; or any literature

course in a language other than English. Students are also encouraged to take a course in British or American history, such as HIST 017A, HIST 017B, HISE 150, HISE 151, HISE 152.

Each student works with the Undergraduate Academic Advisor and the Faculty Advisor for help in shaping a program and following it through to graduation. Students should see the advisors on a regular basis, normally once per quarter prior to registration. Information about times and meeting places for advisors is posted online and is available in the department office from the undergraduate academic advisor.

Minor

The English minor is designed to provide an overview of English and American literature, an opportunity for the exercise of disciplined literary analysis, and a varied experience of the best literature in English.

1. Lower-division requirements (14 units)

a) Two courses chosen from ENGL 020A, ENGL 020B, ENGL 020C

b) One course chosen from ENGL 012A, ENGL 012B, ENGL 012C, ENGL 012 (E-Z), ENGL 014, ENGL 015, ENGL 017, ENGL 018, ENGL 022, ENGL 033/MCS 033

2. Upper-division requirements (16 units)

a) Four courses of upper-division English. Only four (4) units from ENGL 103 or ENGL 190 will be accepted toward fulfillment of this requirement. Proposals for ENGL 190 must be approved by a sponsoring faculty member and the department chair. If the student wishes to offer units from ENGL 190 as part of the 16 units, a copy of the approved petition will be placed in the student's file.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

University of California Entry-Level Writing Requirement

For regulations governing the University of California Entry-Level Writing Requirement, see Requirements for the Bachelor's Degree in the Undergraduate Studies section of this catalog. Students who have fulfilled the requirement may enroll in ENGL 001A. Students who are held for the requirement must take the University of California Analytical Writing Placement Exam. Results determine which course(s) a student should take to satisfy university requirements. Visit elwr.ucr.edu for more information. You may also contact the University Writing Program at (951) 827-1384.

Teaching Credential Preparation Programs

Students interested in becoming teachers at the elementary or secondary school level may combine the English major with a program of study leading to the multiple subjects (elementary) or single subject (secondary) credential preparation program. Details and counseling on the Prepare to Teach Program, a preparation program for the multiple subjects credential, are available in the Office of Interdisciplinary Programs, 3111 INTS,

(951) 827-1801. Details and counseling on other programs are available in the Department of English or the Graduate School of Education.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of English offers the Ph.D. degree in English.

Admission

All domestic and international applicants must supply GRE General Test scores (quantitative and verbal) earned within the past five years.

Doctoral Degree

The Department of English offers the Ph.D. degree in English.

The doctoral program in English prepares students to become informed teachers and scholar-critics capable of significant original literary scholarship.

Admission

Admission is open to qualified candidates with a B.A. or M.A. degree, preferably in English or a related field. Students with an M.A. in another field may be required to take additional course work.

Course Work

ENGL 200 is required for all new graduate students. Students entering the program without an M.A. must complete (with a grade of "B" or better) a minimum of 54 units of course work, including ENGL200. Prior to taking Qualifying Examination I, students must meet the course work requirement of the M.A. Degree (38 units). Upon successfully passing Qualifying Examination I, students must complete at least an additional four seminars (16 units) in 200-level course work, excluding ENGL 280, ENGL 292, ENGL 297, and ENGL 299. The candidate with an M.A. from another institution must complete a minimum of 36 units of course work in 200-level courses, including ENGL200 and excluding ENGL 280, ENGL 292, ENGL 297, and ENGL 299. All students, in consultation with the graduate advisor, select primary and secondary fields of study and identify a third, more specialized research topic related to a dissertation topic. Once course work requirements are satisfied, all students take the Qualifying Examination II and complete a dissertation.

Language Requirement

All graduate students must demonstrate proficiency in one language other than English before advancement to candidacy. Students entering with an M.A. from institutions that required proficiency in a language other than English for the master's degree must provide

official documentation to show they fulfilled their language requirement. The department recognizes American Sign Language (ASL) as a language. For details consult the graduate advisor or english.ucr.edu.

Qualifying Examinations I and II

At the end of the sixth quarter, students who have entered the program with a B.A. become eligible to receive an M.A. upon completion of the Qualifying Examination I. For this examination, students submit a portfolio of two essays, that have been substantially revised in consultation with the examining committee, and a 1000- to 1500- word metacommentary explaining the aims and achievements of the essays and their contributions to a coherent research agenda. The student is then examined orally for one hour on the portfolio and two distinct fields related to the two essays. Following successful completion of this examination and a review of the entire student file, the graduate committee recommends the awarding of the M.A. degree. (The Qualifying Examination I is waived for students with an M.A. from another institution.) After the completion of all course work, students take the Qualifying Examination II to be advanced to candidacy.

The Qualifying Exam II is an oral exam of up to three hours. The oral examination includes a short presentation by the student followed by questions and comments from the examining committee based on materials the student has submitted and the oral presentation. Following the successful completion of this examination, the student will be advanced to candidacy if all coursework and language requirements are also completed.

Professional Development

The English department is aware of the current challenges facing our graduate students when they apply for academic and non-academic jobs while ABD or right after graduating. We have implemented a professionalization program consisting of information sessions, invited speakers, and seminars/workshops to address these challenges. This program will help make our graduate students more competitive on the academic job market and help them explore career options outside the academy. We wish to highlight ENGL410 Seminar in Professional Development, a 2-unit course designed to help students develop their teaching skills, academic publishing, and job application documents. Graduate students will need to take at least one ENGL410 (2 units) to fulfill their professional development requirement and can take up to 6 units because course content may change each quarter.

Dissertation and Final Defense

The dissertation should be related to the individualized course of study preceding it and should draw out the best research and critical talents of the candidate.

Before the dissertation is given final approval, a public dissertation defense is required. The defense must be advertised to the campus community and is open to all who wish to attend. Following the public defense, the student meets with the dissertation committee on the student's dissertation in accordance with the regulations of the Graduate Division.

For a more detailed description of the requirements for the Ph.D., contact the Graduate Assistant, Department of English.

Normative Time to Degree including UCR M.A. Work

18 quarters (or 15 quarters for students with an M.A. from another institution)

Basic Writing Lower-Division Courses

BSWT 001 Immersive English 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): an appropriate score on the University of California Analytical Writing Placement Examination; concurrent enrollment in BSWT 002 An intensive introduction to oral communication in the academic setting, focusing on academic conversation, dialogue, discussion, group-work, and presentations. Emphasizes active listening and speaking. Designed for students who need immersive instruction in English as a second language before going on to Basic Writing 3 (BSWT 003). Graded Satisfactory (S) or No Credit (NC).

BSWT 002 Oral Communication 2 Lecture, 1.5 hours; extra reading, 1.5 hours. Prerequisite(s): an appropriate score on the University of California Analytical Writing Placement Examination; concurrent enrollment in BSWT 001. Training in oral communication for the sake of improving academic speech, comprehension, and writing in English. Includes reports, talks, academic discussions, and dialogues. For second-language students in need of immersive training. Graded Satisfactory (S) or No Credit (NC).

BSWT 003 Basic Writing For Second-Language Students 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): an appropriate score on the University of California Analytical Writing Placement Exam or a Satisfactory (S) grade in BSWT 001; concurrent enrollment in BSWT 003D or BSWT 003L and BSWT 004. An introductory course designed for students who need instruction in English as a second language. Helps to develop writing proficiency by means of regular written assignments and intensive individual interaction between student and instructor. Students who pass the course with a grade of "S" should enroll in ENGL 004. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Graded Satisfactory (S) or No Credit (NC).

BSWT 003D Basic Writing For Second-Language Students 2 Discussion, 2 hours; activity, 6 hours. Prerequisite(s): concurrent enrollment in BSWT 003. Focuses on reading literature with close attention to grammar and style, organizing essays, honing syntax, and asking and answering academic questions. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Offered in summer only. Graded Satisfactory (S) or No Credit (NC).

BSWT 003L Basic Writing For Second-Language Students 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in BSWT 003 and BSWT 004. Focuses on mastery of principles and

applications of English grammar and idiomatic expression, as well as critical reading, which are pertinent to second-language students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes to a maximum of 3 units.

BSWT 004 Basic Writing Journal

Workshop 1 Activity, 3 hours. Prerequisite(s): concurrent enrollment in BSWT003 and BSWT003L. Instruction in and performance of oral discourse: summaries, analyses, and original arguments. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes to a maximum of 3 units.

Lower-Division Courses

ENGL 001A Beginning Composition 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ENGL 004 with a grade of C or better or ENGL 005 with a grade of C or better; fulfillment of the University of California Entry Level Writing Requirement. Introduces students to the strategies of personal writing in a multicultural context. Students must be formally enrolled prior to the beginning of instruction and must attend the first day to avoid being dropped from the class. Credit is awarded for only one of ENGL 001A or ENGL 01PA.

ENGL 001B Intermediate Composition 4 Lecture, 3 hours; extra writing and rewriting, 3 hours. Prerequisite(s): ENGL 001A with a grade of "C" or better or ENGL 01PA with a grade of "C" or better. Emphasizes the transition from personal to public writing in a multicultural context. Students must be formally enrolled prior to the beginning of instruction and must attend the first day to avoid being dropped from the class.

ENGL 001C Applied Intermediate

Composition 4 Lecture, 3 hours; extra reading, 3 hours; extra writing and rewriting, 3 hours. Prerequisite(s): ENGL 001B with grade of "C" or better. Addresses the function of writing in a range of contemporary situations, including that of the academy, from a critical and theoretical perspective. Students must be formally enrolled prior to the beginning of instruction and must attend the first day to avoid being dropped from the class. Credit is awarded for only one of ENGL 001C, ENGL 01HC, or ENGL 01SC.

ENGL 01HC Honors Applied Intermediate

Composition 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ENGL 001B with grade of "C" or better; admission to the University Honors Program or consent of instructor. Honors course corresponding to ENGL 001C and ENGL 01SC. Covers extended expository prose with emphasis on principles of explanation, interpretation, and argument. Focuses on the theoretical implications of various modes of academic inquiry. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ENGL 001C, ENGL 01HC, or ENGL 01SC.

ENGL 01PA Beginning Composition:

Intensive 4 Lecture, 3 hours; tutorial, 0.5 hour; written work, 3 hours. Prerequisite(s): concurrent enrollment in ENGL 005L; an appropriate score on the University of California Analytical Writing Placement Exam; consent of the Director of the University Writing Program. Introduces students to the strategies of personal writing

in a multicultural context. Students who pass the course with a grade of "C" or better have completed the University of California Entry Level Writing Requirement and are eligible to enroll in ENGL 001B. Credit is awarded for only one of ENGL 001A or ENGL 01PA.

ENGL 01SC Applied Intermediate Composition For Science and Engineering Majors 4 Lecture, 3 hours; extra reading, 3 hours; extra writing and rewriting, 3 hours. Prerequisite(s): ENGL 001B with grade of "C" or better. A course for science and engineering majors corresponding to ENGL 001C and ENGL 01HC. Assists in building the writing skills most relevant to future work in science or engineering fields. Credit is awarded for only one of ENGL 001C, ENGL 01HC, or ENGL 01SC.

ENGL 002 English Study Group 0 Lecture, 4 hours; activity, 4 hours. Prerequisite(s): concurrent enrollment in the Summer Bridge Program, ENGL 004, and ENGL 004D. An introduction to developing thinking and problem-solving skills. Introduces university life through exposure to test-taking techniques, effective note-taking strategies, time management, and university procedures and practices. Carries workload credit equivalent to 2 units but does not count towards graduation units. Offered in summer only. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of ENGL 002 or MATH 002.

ENGL 004 English Writing 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): an appropriate score on the University of California Analytical Writing Placement Exam or a grade of "S" in BSWT 003; concurrent enrollment in ENGL 004L for Fall, Winter, Spring, and Summer for the online section only; concurrent enrollment in ENGL 004D for Summer in-person sections. Covers ground rules of academic inquiry and exchange in English writing. Students who pass the course with a grade of "C" or better have completed the University of California Entry Level Writing Requirement and are eligible to enroll in ENGL 001A. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ENGL 004 or ENGL 004E.

ENGL 004D English Writing 1 Discussion, 1 hour. Prerequisite(s): concurrent enrollment in ENGL 004. Focuses on critical reading of assigned texts, organizing essays, honing syntax, and asking and answering academic questions. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of ENGL 004D, ENGL 004L or ENGL 04DE.

ENGL 04DE English Writing Hybrid 1 Discussion, 1.5 hours; workshop, 1.5 hours. Prerequisite(s): concurrent enrollment in ENGL 004E. Focuses on critical reading of assigned texts, organizing essays, honing syntax, and asking and answering academic questions. Offered in summer only. Graded Satisfactory (S) or No Credit (NC).

ENGL 004E English Writing Hybrid 4 Lecture, 6

hours; extra reading, 3 hours; activity, 3 hours; hard-copy reading journals and online discussion with peers, followed by reporting to the class, 3 hours per week. Prerequisite(s): an appropriate score on the University of California Analytical Writing Placement Exam or a grade of "S" in BSWT 003; concurrent enrollment in ENGL 04DE. Covers ground rules of academic inquiry and exchange in English writing. Fifty percent of the course will be taught online. Requires access to Adobe Flash Player and Broadband connection. Students who pass the course with a grade of "C" or better have completed the UC Entry Level Writing Requirement. Offered in summer only. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ENGL 004 or ENGL 004E.

ENGL 004L English Writing 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in ENGL 004. Focuses on mastery of principles and applications of English grammar and idiomatic expression, as well as critical reading, for students who do not need, or have advanced beyond, second-language instruction. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of ENGL 004D, ENGL 004L, or ENGL 04DE.

ENGL 005 Ideas in Conflict 4 Lecture, 3 hours; extra writing and rewriting, 5 hours. Prerequisite(s): an appropriate score on the University of California Analytical Writing Placement Exam; concurrent enrollment in ENGL 005D or ENGL 005L. Examines elements of academic argument in the context of major, conflicting texts. Particular attention is given to identifying, analyzing, and framing debatable questions and issues; finding and developing appropriate, persuasive arguments; and tapping the syntactic resources of standard English. Includes extensive readings and numerous writing assignments along with formal oral presentations. Students who pass the course with a grade of "C" or better have completed the University of California Entry Level Writing Requirement and are eligible to enroll in ENGL 001A. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Satisfactory (S) or No Credit (NC) grading is not available.

ENGL 005D Ideas in Conflict 1 Discussion, 1 hour. Prerequisite(s): concurrent enrollment in ENGL 005. Focuses on reading assigned texts with close attention to grammar and style, organizing essays, honing syntax, and asking and answering academic questions. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Graded Satisfactory (S) or No Credit (NC).

ENGL 005L English Writing 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in ENGL 005. Focuses on advanced mastery of principles and applications of English grammar and idiomatic expression, as well as critical reading. Graded Satisfactory (S) or No Credit (NC).

ENGL 006D Qualifier Course Adjunct 1 or 2 Discussion, 1 or 2 hours. Prerequisite(s): concurrent enrollment in a qualifier course. Provides individual and group instruction in

support of writing-intensive courses designated as qualifier courses. Focuses on interpreting the qualifier course's assignments; developing topics; preparing, editing, and revising drafts. Qualifier courses are offered by various departments to give eligible students an opportunity to meet the University of California Entry Level Writing Requirement while earning baccalaureate credit. Students may obtain information about qualifier courses by contacting the Writing Resource Center. Students should be formally enrolled prior to the beginning of instruction and should attend the first meeting to avoid being dropped from the class. Graded Satisfactory (S) or No Credit (NC).

ENGL 007 Workshop in Writing Across the Curriculum .5 Workshop, .5 hours. Prerequisite(s): none. Focuses on exploring and practicing strategies for writing assignments in W-courses: close reading of prompts, forming a relevant thesis, and finding, selecting, and organizing evidence. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 2 units.

ENGL 008 Oral Communication 4 Discussion, 3 hours; activity, 3 hours. An introduction to public speaking in genres and for occasions appropriate in the academy and in public forums: classroom and seminar presentations, conference presentations including poster talks and speeches appropriate for public assemblies, debate, and special occasions.

ENGL 012 (E-Z) Introduction to Literature 4 Lecture, 3 hours. A study of topics, themes, or types of literature. The texts may be selected from any one, or from a combination, of several periods of English and/or American literature. Intended primarily for nonmajors.

ENGL 012A Introduction to Poetry 4 Lecture, 3 hours; extra reading, 3 hours. An introductory study of poems selected from various periods, including the modern. Special attention is paid to themes, forms, and kinds. Intended primarily for non-English majors.

ENGL 012B Introduction to Fiction 4 Lecture, 3 hours; extra reading, 3 hours. An introductory study of novels and short stories selected from various periods, including the modern. Special attention is paid to themes, forms, and kinds. Intended primarily for non-English majors.

ENGL 012C Introduction to Drama 4 Lecture, 3 hours; extra reading, 3 hours. An introductory study of plays selected from various periods, including the modern. Special attention is paid to themes, forms, kinds, and relationships of text to theatrical performance. Intended primarily for non-English majors.

ENGL 012D Great American Speeches 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Involves close reading, analysis, imitation, and critique of prominent speeches from the American Revolution to the present.

ENGL 012E The Short Novel 4 Lecture, 3 hours; extra reading, 3 hours. An introductory literature course with readings in the genre of the modern short novel in England and America, with a few continental examples of the form.

ENGL 012F Crime and Atonement 4 Lecture, 3 hours; extra reading, 3 hours. Variations on

a recurring theme in twentieth-century British and American fiction and drama. Study of the patterns of transgression and expiation as they are transformed in religious, political, and mythological symbolizations.

ENGL 012G Urban Literature 4 Lecture, 3 hours; extra reading, 3 hours. Studies the phenomenon of the modern city and the literary forms it generates: the detective novel, the prose poem, open form poetry, the lyric novel, and impressionism.

ENGL 012H America: On the Road 4 Lecture, 3 hours; extra reading, 3 hours. This course will focus on picaresque themes in American literature from the mid-nineteenth century to the present. In it we will discuss why the limits of traditional social structures as family and community are an impossibility for American heroes and what their "lighting out" into the territories suggest about attitudes toward individual and society in American culture. The course will begin with Huckleberry Finn and proceed to writings by Hemmingway, Steinbeck, Faulkner, and Kerouac.

ENGL 012I Science Fiction: Major Themes and Motifs 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to science fiction from the nineteenth century to the present examining the influence of other literary forms (utopian, folklore, medieval, etc.) as well as scientific, historical, social, political, and religious trends on the genre.

ENGL 012J Children's Literature 4 Lecture, 3 hours; extra reading, 3 hours. A study of classic works of children's literature, both poetry and prose fiction, written in English from the mid-eighteenth century to recent years.

ENGL 012K Introduction to Gay and Lesbian Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Examines central texts by gay and lesbian authors from the nineteenth to the present. The primary focus is on exploring the ways in which sexual identity affects the writing of literature.

ENGL 012M Introduction to Asian American Literature 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to the history, social background, culture, and literature of Asian America.

ENGL 012N Modern American Women Poets 4 Lecture, 3 hours; extra reading, 3 hours. Modern American women poets are among the most considerably literary figures in the tradition of modern American poetry, from Emily Dickinson to Sylvia Plath or Adrienne Rich. Examines contemporary American women poets as a part of that tradition as well as in relation to the social and intellectual milieu in which they write. Also examines the question of the feminine sensibility in relation to the tradition. Covers Muriel Rukeyser, Gwendolyn Brooks, Denise Levertov, Anne Sexton, Adrienne Rich, and Nikki Giovanni.

ENGL 012O American Indian Literature 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to the defining themes of American Indian literature. Through traditional stories, autobiography, poetry, and fiction, the class explores the relationships between humans

and nature; the individual and the community; and Indian and American identities.

ENGL 012P Literature as Performance 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to literature based on how our understanding of literary texts is changed by considering their presentation as part of court ritual, religious celebration and community activities. Texts will be drawn from earlier periods of English literature and will include lyrics, epics, and ballads.

ENGL 012Q Introduction to Cyberpunk 4 Lecture, 3 hours; extra reading, 3 hours. Introduction to "Cyberpunk" fiction and culture. Literary works studied include White Noise, Mona Lisa Overdrive, and Islands in the Net; film and video include Wild Palms and Bladerunner.

ENGL 012R Chicana and Chicano Literature 4 Lecture, 3 hours; discussion, 1 hour. An introduction to Chicana and Chicano literature. Explores teatro, poetry, short stories, novels, essays, and other genres particular to Chicana and Chicano literary production. Periods of study include turn-of-the-century to the present.

ENGL 012S War Stories 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to modern war literature for nonmajors.

ENGL 012T Women and Literature 4 Lecture, 3 hours; extra reading, 3 hours. Study of the writing in all genres by women from the medieval period to the present. Special attention is paid to themes, such as race and class, and the political, psychological, and socioeconomic effects of the female experience.

ENGL 012X Crime Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introduction to the themes and implications of crime fiction. Focuses primarily on works from the modern period (20s, 30s, 40s,) but looks back to the origins and forward to contemporary iterations of the genre known as "hardboiled" detective fiction.

ENGL 014 Major American Writers 4 Lecture, 3 hours; extra reading, 3 hours. Explores masterpieces of American literature. Focuses on classic and contemporary works by such writers as Hawthorne, Thoreau, Emily Dickinson, Twain, Hemingway, F. Scott Fitzgerald, Ralph Ellison, and Joyce Carol Oates. Intended primarily for nonmajors.

ENGL 015 Modern Literature 4 Lecture, 3 hours; extra reading, 3 hours. An introductory course designed primarily for nonmajors. Focuses on an important theme or technique in modern and contemporary literature.

ENGL 017 Shakespeare 4 Lecture, 3 hours; consultation/discussion, 1 hour. This course, intended primarily for non-English majors, is designed to provide an understanding of drama as a form of literary art and to encourage a familiarity with Shakespeare's most important works. Plays from each dramatic genre (comedy, history and tragedy) will be included.

ENGL 018 Shakespeare On Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. An examination of cinematic adaptations of Shakespeare's plays. Focus on issues

of cinematic theory, historical adaption, and thematic reconstruction. Credit is awarded for only one of ENGL 018 or TFDP 022.

ENGL 020A Introduction to British Literary Tradition 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 2 hours. Designed for English majors. Introduces British literature from its beginnings. Explores literary forms, genres, and periods, and introduces students to the basics of literary theory and to the literary history of Britain.

ENGL 020B Introduction to American Literary Tradition 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 2 hours. Designed for English majors. Introduces American literature from its beginnings, with attention to historical and cultural contexts.

ENGL 020C Introduction to Alternative Critical Perspectives On Literature and Culture 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 2 hours. Introduces students to work associated with alternative critical traditions, including Chicano, African, African-American, and Caribbean literature, or feminist, Marxist, and postcolonial perspectives on literature and culture.

ENGL 022 Writing Red: Native American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Acquaints students with a range of Native American literatures. Discusses mass-mediated images of Native Americans and how "Indianness" is constructed, contested, and embodied in poetry, film, autobiography, fiction, and photography.

ENGL 023 African American Autobiography 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): fulfillment of the University of California Entry Level Writing Requirement. An introduction to African American literature, focusing on how black literature in the United States has been shaped by self-narrated responses to terror and oppression. Examines autobiographies by Frederick Douglass, Harriet Jacobs, Langston Hughes, Ida Wells-Barnett, and Malcolm X.

ENGL 033 Introduction to Comparative Media Studies 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. An introduction to the study of two or more media, such as film and television or digital media. Explores various critical approaches to the media (e.g., formalism, feminism, Marxism). Focuses on the media of rhetoric, media similarities and differences, and cross-media borrowing.

Upper-Division Courses

ENGL 100 (E-Z) Scriptures, Myths, and Interpretation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Focuses on issues of scriptural and mythical analysis. Explores the impact of scripture and myth on literature written in English; textual development of the Hebrew scripture including the development of the King James version; major authors' uses of scripture and myth; exegesis; scripture and myth in current criticism and theory.

ENGL 100E The King James Bible as Literature 4 Lecture, 3 hours; extra reading, 3

hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Readings from the Old Testament, New Testament, and Apocrypha; literary analysis of historiography, poetry, prophecy, philosophy, proverbs, letters, visions, with some consideration of problems of translation.

ENGL 100F Ancient Scriptures and the

Literature of the African Diaspora 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Focuses on issues of scriptural and mythical analysis. Explores the impact of scripture and myth on literature written in English; the textual development of the Hebrew scripture; major authors' uses of scripture and myth; exegesis; and the place of scripture and myth in current criticism and theory.

ENGL 101 Critical Theory 4 Lecture, 3 hours; consultation, 1 hour. A study of major theoretical issues in representative critical and scholarly works.

ENGL 102 Introduction to Critical

Methods 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): a major in English or consent of instructor. An in-depth analysis of the formal features of several genres, as well as an introduction to theoretical and critical approaches. Credit is awarded for only one of ENGL 102 or ENGL 102W.

ENGL 102W Introduction to Critical

Methods 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): a major in English; ENGL 001B with a grade of "C" or better; one of the following courses: ENGL 020A, ENGL 020B, ENGL 020C. An in-depth analysis of the formal features of several genres, as well as an introduction to theoretical and critical approaches. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of ENGL 102 or ENGL 102W.

ENGL 103 Advanced Composition 4 Lecture, 3 hours; discussion/consultation, 1 hour. Prerequisite(s): ENGL 001C or the equivalent. Principles of expository prose, with intensive practice. Advanced course in composition, not remedial. May be repeated for credit up to a maximum of 12 units.

ENGL 104 Film and Media Theory 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers different types of film and media theory. Addresses formalist, psychoanalytic, Marxist, feminist, and other approaches to the cinema and/or other media. Cross-listed with MCS 104.

ENGL 105 Slow Reading 2 Lecture, 2 hours; extra reading, 2 hours. Prerequisite(s): ENGL 102W or consent of instructor. Focused on the activity and experience of reading literature through sustained attention to a single work and individual reading practices. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

ENGL 112 History of the English

Language 4 Lecture, 3 hours; consultation/discussion, 1 hour. An introductory survey of the history of English, including its Indo-European ancestry, its vocabulary and etymologies, changes in pronunciation, spelling, and grammar, development of dictionaries, and changing attitudes toward the language and usage.

ENGL 114 Rhetorical Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An introduction to and re-understanding of the place of rhetoric and language in culture. Includes topics such as reality and meaning, ethnic/American knowledges and identities, teaching practices, and the revival of historical traditions.

ENGL 117A Shakespeare: History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A close analytical study of plays selected from one of Shakespeare's dramatic genres as they are designated in the First Folio.

ENGL 117B Shakespeare: Comedy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A close analytical study of plays selected from one of Shakespeare's dramatic genres as they are designated in the First Folio.

ENGL 117C Shakespeare: Tragedy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A close analytical study of plays selected from one of Shakespeare's dramatic genres as they are designated in the First Folio.

ENGL 117T Topics in Shakespeare 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A focused study of works by Shakespeare selected from different genres.

ENGL 120A Native American Literature to

1900 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical study of Native American literature from the era of oral narrative to 1900, with special attention to autobiography and fiction, as well as criticism and theory.

ENGL 120B Native American Literature After

1900 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical study of Native American literature from 1900 to the present, with special attention to poetry, visual culture, fiction, and self-life-narration, as well as criticism and theory.

ENGL 120T Studies in Native American

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A focused study of a topic, genre, period, or author in Native American literature. Examples might include visual culture, oral narrative, collaborative autobiography, ethnography, or poetry.

ENGL 121 (E-Z) Postcolonial Literatures of

Asia, Africa, and the Caribbean 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. The analysis of colonial discourse and of the postcolonial condition. The following topics, among others, may be addressed: historiography and subalternity; nationalism, gender, and sexuality; neocolonialism and transnationality; theorizing resistance; postcolonial identity politics and the discourses of tradition and modernity; the postcolonial intellectual; and postcolonial filmmaking and Third Cinema.

ENGL 121E Postcolonial Literatures of the

African Continent 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. The analysis of colonial discourse and of the postcolonial condition. The following topics, among others, may be addressed: historiography and subalternity; nationalism, gender, and sexuality; neocolonialism and transnationality; theorizing resistance; postcolonial identity politics and the discourses of tradition and modernity; the postcolonial intellectual; and postcolonial filmmaking and Third Cinema.

ENGL 121T Postcolonial Literatures in English

From Southeast Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. This course focuses on contemporary literature written in English from Southeast Asia through a postcolonial perspective. It examines anglophone fiction and essays by writers from Malaysia, the Philippines, and Singapore, framed by historical and political contexts of colonialism and decolonization. However, our emphasis is on literary and cultural analysis.

ENGL 122 (E-Z) Queer Texts and

Bodies 4 Lecture, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A study of English and American literature from the perspective of sexuality and sexual identity. Covers issues such as gay and lesbian texts and contexts; sexual ideologies and literature; marginalized writers and texts; and the uses of theories of sexualities in the study of literature. Cross-listed with LGBS 122 (E-Z).

ENGL 122F Gothic Fiction and the History of

Sexuality 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores the literary and cultural implications of "unauthorized sexual behavior" (homosexuality, incest, necrophilia, pedophilia, sadism, masochism) in British Gothic fiction. Cross-listed with LGBS 122F.

ENGL 122G New Queer Brit Lit 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Studies recent lesbian, gay, and bisexual literature from England. Explores novels, poetry, and films. Cross-listed with LGBS 122G.

ENGL 122I British Literature and the History of

Sexuality 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Examines specific literary works implicated in the history of sexuality in eighteenth- and nineteenth-century England. Focuses on the expression of sexual excess in these works. May consider issues of gender, class, race, colonialism, and other topics germane to the history of sexuality. Cross-listed with LGBS 122I.

ENGL 122J Q(ueer) & A(sian): Gay and Lesbian Asian American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An exploration of the writing in and of gay and lesbian Asian America. Examines of the term "queer" and its relationship to gay and lesbian studies and to Asian American studies. Readings include theory, fiction, poetry, and drama. Cross-listed with LGBS 122J.

ENGL 122K Sex and Popular Culture in the Postwar United States 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Surveys American popular culture of the 1950s and 1960s from a sexuality studies perspective. Covers multimedia ranging from pulp novels and comic books to drive-in movies, television sitcoms, rock-and-roll music, and magazine advertisements. Includes relevant historical, critical, and theoretical readings. Cross-listed with LGBS 122K.

ENGL 122N Queer Aesthetics 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Survey of writings on art, aesthetics, and sexuality associated with gay, lesbian, transgender, bisexual, or queer aesthetic movements. Focuses on reflexive, performative, interdisciplinary, or critical strategies exhibited in queer aesthetic writings, which allows queer writing on aesthetics to move beyond contemporary constraints on expression. Cross-listed with LGBS 122N.

ENGL 122O Queer American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores same-sex desires as a topic in American literature. Also offers a strong critique of heteronormative paradigms. Includes major critical works in queer theory and sexuality studies. Cross-listed with LGBS 122O.

ENGL 122Q Literature of Aids: Gay Men Respond to A Crisis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Considers the literary response to the AIDS crisis as it emerged in 1980s and 1990s gay American culture. Examines the literary, political, and cultural effects through memoirs, novels, plays, poetry, and essays. Cross-listed with LGBS 122Q.

ENGL 122R Queer Aztl-n: Chicana/O Queer

Narrative 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Includes a review of Cherrie Moraga's groundbreaking manifesto. Explores the critical force of this work and its impact in shaping a new generation of out, vocal, and activist queer Chicana/o writers and artists who are producing interventionist work across a broad range of genres. Cross-listed with LGBS 122R.

ENGL 124A Female Novelistic Traditions: Eighteenth and Nineteenth Centuries 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of the works of women novelists, writing at different historical moments and in different cultural milieus. Attention is given to the psychological, political, and technical features of the tradition; the connections and contrasts within it; and the problematics of female literary influence.

ENGL 124B Female Novelistic Traditions: Twentieth Century 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of the works of women novelists, writing at different historical moments and in different cultural milieus. Attention is given to the psychological, political, and technical features of the tradition; the connections and contrasts within it; and the problematics of female literary influence.

ENGL 125A The Development of the English Novel: Eighteenth Century 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of British fiction, with some attention to the criticism and theory of the novel.

ENGL 125B The Development of the English Novel: Nineteenth Century 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of British fiction, with some attention to the criticism and theory of the novel.

ENGL 125C The Development of the English Novel: Twentieth Century 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of British fiction, with some attention to the criticism and theory of the novel.

ENGL 126A The American Novel: Nineteenth Century 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of American long fiction in the nineteenth century, with special attention to such modes as romance, realism, and naturalism.

ENGL 126B The American Novel: Since 1900 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of American long fiction since 1900, with special attention to such modes as realism, modernism, and postmodernism.

ENGL 127A American Poetry: Before 1900 4 Lecture, 3 hours; extra reading, 3 hours.

Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical study of American poetry, focusing on the evolutionary and revolutionary aspects of its forms and themes.

ENGL 127B American Poetry From Early to Mid Twentieth Century 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical study of American poetry focusing on the evolutionary and revolutionary aspects of its forms and themes.

ENGL 127C American Poetry: Later Twentieth Century to the Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical study of American poetry focusing on the evolutionary and revolutionary aspects of its forms and themes.

ENGL 127T Studies in American Poetry 4 Lecture, 3 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A focused study of a topic, motif, genre, period, or movement in American poetry. Examples might include political or regional poetry, the epic or lyric, or Beat poetry or Language poetry.

ENGL 128 (E-Z) Major Authors 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive study of a major English or American author. E. Chaucer; F. Spenser; G. Milton; I. Swift; J. Austen; K. Wordsworth; M. Dickens; N. George Eliot; O. Melville; P. Samuel Beckett; Q. Dickinson; R. Woolf; S. Joyce; T. Faulkner; U. Baldwin; V. Salman Rushdie; W. Maya Angelou; X. Toni Morrison;

ENGL 129A English and American Drama: Elizabethan and Jacobean Drama 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of British and American drama. Each segment may be taken independently of the others.

ENGL 129B English and American Drama: Restoration and Eighteenth-Century Drama 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of British and American drama. Each segment may be taken independently of the others.

ENGL 129C English and American Drama: Modern British and American Drama 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of British and American drama. Each segment may be taken independently of the others.

ENGL 130 American Literature, 1620-1830 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Examination of writing in America of the pre-colonial, colonial, and early national periods, including the work of such

writers as Anne Bradstreet, Benjamin Franklin, Susanna Rowson, and Washington Irving.

ENGL 131 American Literature, 1830 to the Civil War 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of innovation and conflict in the American Renaissance, as represented in such writers as Emerson, Hawthorne, Poe, Melville, Stowe, Thoreau, Douglass, and Whitman.

ENGL 132 American Literature From the Civil War to 1914 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. New departures in the American literary consciousness as registered in the works of such writers as Emily Dickinson, Mark Twain, Charles W. Chesnutt, Kate Chopin, Henry James, Henry Adams, and Edith Wharton.

ENGL 133 American Literature, 1914-1945 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Modern perspectives and literary innovations in the work of such writers as William Faulkner, F. Scott Fitzgerald, Zora Neale Hurston, Wallace Stevens, William Carlos Williams, Gertrude Stein, and Eugene O'Neill.

ENGL 134 American Literature, 1945 to the Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of postmodern, contemporary, and multicultural texts by such writers as Toni Morrison, Thomas Pynchon, Maxine Hong Kingston, Robert Lowell, Sylvia Plath, John Ashbery, and Leslie Marmon Silko.

ENGL 135 Modern Irish Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical study of modern Irish literature, set against the background of the political and religious conflicts of Irish history.

ENGL 136 Latina and Latino Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical survey of U.S. Latina/o literature, with particular attention to aesthetic achievements, recurrent forms and themes, and interrelations with other American literatures.

ENGL 136T Studies in Latina and Latino Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A focused study of ideas, forms, or movements in Latina/o literature such as autobiography, growing-up narratives, popular discourses (teatro, the corrido, social movement poets), and the mainstream Latina/o literary "booms."

ENGL 138A African American Literature Through the Harlem Renaissance 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-

division standing or lower-division English course (other than composition) or consent of instructor. A critical survey of African American literature with particular attention to the development of an African American literary tradition and the challenge posed to the traditional canon of American literature.

ENGL 138B African American Literature Since the Harlem Renaissance 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical survey of African American literature with particular attention to the development of an African American literary tradition and the challenge posed to the traditional canon of American literature.

ENGL 138T Studies in African American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A focused study of ideas, forms, or movements in African American literature such as autobiography, conjure, the blues tradition, the Black Aesthetic, and literary vernacular.

ENGL 139 Asian American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical survey of Asian American literature, with particular attention to aesthetic achievements, recurrent forms and themes, and interrelations with other American literatures.

ENGL 139T Studies in Asian American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A focused study of a genre, motif, or topic in Asian American literature such as poetry, autobiography, women's writing, nationalism, mobility narratives, gender, and sexuality.

ENGL 140 (E-Z) Studies in Literary Genres 4 Lecture, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Practical and theoretical study of such literary genres as the lyric, the epic, the romance, tragedy, comedy, and satire.

ENGL 140E Autobiography and Memoir 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower division English course (other than composition) or consent of instructor. A study of autobiography and memoir focusing on autobiography theory, history, tradition, and emergent forms. May include Anglophone and other texts in English translation.

ENGL 140F Poetry 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores the genre of lyric poetry, including forms like the sonnet, free verse, lyric sequences, and ballad, and modes like elegy, meditative and descriptive verse. Based on close reading of a variety of poems and on critical essays about the genre.

ENGL 140I Romance 4 Lecture, 3 hours;

consultation, 1 hour. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of one of the most persistent (and various) European genres; sundered families reunited; heroes in search of love, adventure, and identity; dreams about and the pursuit of truth.

ENGL 140J The Modes of Narrative 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Examines representative texts from among the chief narrative forms (epic, romance, and novel), paying attention to the development of narrative strategies and to the relations between realistic and romantic tendencies in each form.

ENGL 140K Chicana/O Children's Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Focuses on Chicana/o children's literature. Readings cover picture books, juvenile fiction, biography, poetry, novels, and short stories. Some critical questions that guide the course include What does Chicana/o children's literature share with other contemporary American children's literature? and How does Chicana/o children's literature engage with questions of culture, community, individuality, education, and literacy?

ENGL 140M California Literature and Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores California--the idea, the history, the myth, the legend, the reality--through its writing. Discusses issues of mapping, community, and place as they relate to the central themes in California's literary and cultural history, with some focus on Los Angeles.

ENGL 140N Children's Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An advanced literary study of selected works of children's literature, emphasizing historical, psychoanalytic, and reader response approaches.

ENGL 140Q Comedy 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores comedy and the comic form throughout English literature. Studying the Renaissance notion of dramatic comedy, addresses the extent to which the novel became a viable form for comic expression in the eighteenth and nineteenth centuries. Considers twentieth-century comedy.

ENGL 140R Studies in Literary Genres 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of the legend of King Arthur from the Middle Ages to the present, including Malory's *Le Morte D'Arthur*, Spenser's *Faerie Queene*, Tennyson's *Idylls of the King*, Twain's *A Connecticut Yankee in King Arthur's Court*, as

well as operatic and recent cinematic versions of Arthurian legends.

ENGL 140V Studies in Literary Genres 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Studies the effect of the Vietnam War on American narrative through a variety of readings, including histories, novels, memoirs, plays, poems, and films. Focuses on how the war in Vietnam has been represented and considers historicist approaches to narrative.

ENGL 140W War Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A critical study of British, American, and Anglophone war literature. Explores different genres and styles.

ENGL 141 (E-Z) Literature and Related

Fields 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A critical survey of the study of literature in relation to other areas: creativity, myth, iconography, society, science, behavior, and translation.

ENGL 141E Shakespeare and the Pursuit of

Truth 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Focuses on some of Shakespeare's dramatic inquiries into the nature of skepticism, inquiry and belief. Inquires into his role as a philosopher-poet, a poetic lover of wisdom. Focuses on several problematic works: *The Winter's Tale*, *The Tempest*, *Hamlet*, and *King Lear*, and possibly *Measure for Measure*.

ENGL 141I Theory and Practice of Everyday

Life 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Offers a critical perspective on the principles, rules, and symbols that create possibilities of meaning and knowledge in both students' fields of study and their experience of everyday life.

ENGL 141N Holocaust Literature 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An examination of Holocaust diaries, novels, and poetry in light of various literary, ethical and historiographic debates. Topics include racism and genocide, individual versus collective guilt, trauma and memory, the aesthetics and politics of commemoration, and the problem of how to represent the unrepresentable in language, art, and film.

ENGL 141Y Fiction as Social Protest in

America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An examination of the relationships between social and political issues in nineteenth- and twentieth-century America and some related works of fiction. Focuses will be upon questions of literary form, intentionality, reader response, and the relation of art to historical processes.

ENGL 141Z Literature and Sexology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An examination of the relationship between literary representation and the psychological and biological and biological construction of sexuality at selected historical moments. May include topics such as the invention of gynecology in modern England; the Victorian construction of psychoanalysis and the psyche.

ENGL 142 (E-Z) Cultural Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. The formal, historical, and theoretical analysis of culture in its broadest sense, including popular literature, the mass media, and/or the interplay between "low" and "high" or peasant and elite cultural forms. Topics may be drawn from any historical field.

ENGL 142E Witchcraft and Cultural Practice in

Early Modern England 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. The "cultural poetics" of witchcraft and witch-hunting in sixteenth- and early seventeenth-century England, focusing in particular on constructions of the witch in plays, pamphlet literature, and legal documents.

ENGL 142F Problems in Materialism and

Culture: the Victorian Example 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Examines some of the theoretical presuppositions that inform the cultural study of Victorian England. Covers a number of important primary and secondary works pertinent to Victorian studies and several of the main issues involved in current researches of the Victorian period, encourages students to engage critically a variety of theoretical approaches to cultural studies of the period.

ENGL 142G Reading Shopping 4

Prerequisite(s): upper-division standing or lower-division English course number other than composition) or consent of instructor. An overview of literary and visual culture theory through a focus on shopping, read from a variety of critical perspectives (Marxist, feminist, psychoanalytics, etc.). Topics addressed include commodity culture, advertising, taste and identity, fashion, shoplifting, and the Americanization of global popular culture.

ENGL 142I The Holocaust in Contemporary

Culture 4 Lecture, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition). Analysis of the representation of the Holocaust in Anglo-American culture through a study of a wide range of cultural artifacts, including literature, comic books, avant-garde and commercial film, television and stage drama, CD-ROM's and museums.

ENGL 142J Shakespeare and Carnival 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or

consent of instructor. A focused study of Shakespeare's plays in the context of medieval and Renaissance carnival traditions.

ENGL 142K Music and Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An interdisciplinary and multimedia study of intersections of music and various forms and styles of literature. Analysis of these intersections in terms of performance and cultural production and in terms of formal, theoretical, and historical issues. Special emphasis is on identity, nation, gender, sexually. Topics may be drawn from any historical period, cultural field, or aesthetic context.

ENGL 142M Culture of the Dog 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An examination of *canis familiaris*, the domestic dog, as it circulates within dominant discourses of religion, science, psychology, and art in British and American culture. Particular attention is paid to the figure of the dog in British and American modernism. This is an intensive writing course.

ENGL 142N The Politics of Visual

Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Intensive review of critical approaches to the politics of visual representation in art, activism, advertisement, and popular culture. Emphasis is on debates about the ethics of visual representation and on the strategic use of visual images to raise awareness about political issues.

ENGL 142O Cultural Marx 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Examines the writings of Marx, Engels, and others on the relation of art and literature to the broader political and economic issues discussed in their writings. Provides an understanding of the dialectical method of analysis and introduces issues surrounding the material conditions of cultural production.

ENGL 143 (E-Z) Gender,sexuality,visual

Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive formal, historical, and theoretical analysis of gender and sexuality in film, television, and visual culture. E. Feminist Film Theory & practice; F. Film And Gender; G. Screening The Lesbian; K. Queers That Kill; Cross-listed with LGBS 143 (E-Z), and MCS 143 (E-Z).

ENGL 144 (E-Z) Topics in Film 4 Lecture, 3 hours; screening, 3 hours. Intensive formal, historical, and theoretical analysis of race and ethnicity in film, television, and visual culture. Weekly screenings and readings. I. Rac Diff&vis Cltr:postcol Wrld; J. Film, Race,&ideology:vietnam War; K. Decolonizing The Screen;

ENGL 145 (E-Z) Spec Topics:film&Visual

Cultr 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing

of junior, or senior. An intensive formal, historical, and theoretical analysis of a theme or issue in film, media, television, and visual culture. E. Hollywood In The 1960s; F. Television & American Culture; G. Film As Writing & Writing As Film; I. Liberal Hollywood & Social Problems; J. The Horror Film; K. African American Visual Culture; M. Male Nude In Photography & Film; Cross-listed with MCS 145 (E-Z).

ENGL 146 (E-Z) Topics: technology & Digital Media 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Advanced study of theories and practices of reader and audience interaction with technologies of cultural production in general and digital media in particular. Includes praxis-oriented composition or research. E. Identities And Interactions; F. Culture & Technology Of The Visual; G. Cultural Technologies Of The Aural; I. Advanced Composition & Digital Media Author; Cross-listed with MCS 146 (E-Z).

ENGL 147 (E-Z) Studies in A Major Work 4

Lecture, 3 hours; extra reading, 3 hours. Concentrated study of a single major work from the English or American literary tradition, affording an opportunity for thorough explication of the work, exploration of historical backgrounds, and relevant critical approaches.

ENGL 147F King Lear 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Provides an intensive study of Shakespeare's *King Lear* in terms of English renaissance thought and an evaluation of major twentieth-century productions and literary critical approaches. Assesses Nahum Tate's eighteenth-century adaptation, Peter Brook's and Grigori Kozintsev's films, David Wolfitt's stage performance (on record), a cowboy film adaptation, and Edward Bond's *Lear*.

ENGL 147G Gulliver's Travels 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. In-depth treatment of the text and intellectual, historical, and literary backgrounds of *Gulliver's Travels*, particularly the traditions of travel and utopian literature and Swift's theological perspective, as well as recent critical views on relevance to the modern reader.

ENGL 147I Robert Lowell's Life Studies 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An intensive study of Robert Lowell's *Life Studies* (1959), taking into account its relation to literary sources and analogues, psychoanalytical discourse, and contemporary history.

ENGL 147M Moby Dick 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Discusses Herman Melville's 1851 novel in light of authors and events that influenced Melville, from Shakespeare and Carl von Linné to George Walker's *Three Spaniards* and Owen Chase's *The Wreck of the Essex*. Examines pre-Civil War U. S. culture through the eyes of its foremost literary scholar.

ENGL 147S Troilus and Cressida 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An exploration of Shakespeare's *Troilus and Cressida*, taking into account its major sources. Addresses the problem of categorizing the work as a comedy, tragedy, or "problem play" by studying its form and substance in light of the shape and theme of several major sources.

ENGL 147U Ulysses 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An in-depth study of Joyce's modernist masterpiece with attention as well to its Homeric precursor (*The Odyssey*) and its more immediate cultural context.

ENGL 147V Middlemarch 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A textual and contextual study of George Eliot's major novel, *Middlemarch*.

ENGL 148 (E-Z) Studies in Major Authors 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive study of a major author not covered under ENGL 128 (E-Z). Some segments of this course may consider two authors with related concerns.

ENGL 148E Sylvia Plath 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. This course is an intensive examination of the poetry, fiction, and non-fiction prose of Sylvia Plath. Texts will include Plath's *Collected Poems*, *Journals*, *Letters Home*, *The Bell Jar*, and *Johnny Panic and the Bible of Dreams*.

ENGL 148G E.M. Forster 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. An examination of the major works of E.M. Forster and their relationship to national and international politics, the politics of Bloomsbury, theories of political and sexual structure, and the influence of Eastern religions and mysticism.

ENGL 148M C.S. Lewis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. A survey of Lewis' literary criticism, social commentary, autobiography, and literary works for children and adults.

ENGL 148P Shelley 4 Lecture, 3 hours; consultation or discussion, 1 hour. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. A study of the life and works of Percy Bysshe Shelley. The course will cover Shelley's literary production, emphasizing his stylistic development, his philosophic content and his social reference. The poetry will be located in the relevant literary tradition as well as in the social and political

developments of the period.

ENGL 148Q Christopher Marlowe 4 Lecture, 2 hours; discussion, 1 hour; screening, 1.5 hours; extra reading, 1.5 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. A critical assessment of Christopher Marlowe's major works, both dramatic and undramatic, considered within the context of his life as well as the literary, religious, philosophical, and political thought characteristic of Elizabethan England.

ENGL 148R King Arthur 4 Lecture, 3 hours; consultation or discussion, 1 hour. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. A survey of the literary output of an important twentieth-century literary figure, emphasizing his own critical theory about "faery-stories" in relation to his major works: *The Hobbit*, *The Lord of the Rings*, and *The Silmarillion*.

ENGL 148S Gertrude Stein and Ernest Hemingway 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. Examines the canons of Gertrude Stein and Ernest Hemingway, both as separate entities and as mutually influencing ones. Focus is on the ways in which Stein and Hemingway participate in the production of American modernism and the myth of the "lost generation."

ENGL 148W War Literature 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. The course concentrates on major works by Walt Whitman, utilizing a comprehensive edition of *Leaves of Grass*, prefaces, essays, and outside readings in critical and biographical studies. Considerable attention will be devoted to Whitman's influence on later artists and writers, i.e., "the Whitman tradition."

ENGL 148X Oscar Wilde: the Tropes of Authority 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. Extensive reading in the criticism, fiction, poetry, and drama of Oscar Wilde, with particular emphasis on situating Wilde within the historical dynamics of his era and within current critical practice.

ENGL 148Y William Blake 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. A study of the works of William Blake, both visual and verbal. Concentrates on Blake's writings and their visual accompaniments in his illuminated books to circa 1795, with selections from his final epics *Milton* and *Jerusalem*.

ENGL 148Z Charlotte Brontë 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or at least one lower-division English course (other than composition) or consent of instructor. Intensive study of the major works.

ENGL 149 Old English Literature 4 Lecture, 3 hours; extra reading, 3 hours. English literature of the Anglo-Saxon period: such works as Beowulf, "The Seafarer," and "The Wanderer."

ENGL 151A Middle English Literature: 1066-1500 4 Lecture, 3 hours; extra reading, 3 hours. An introduction to major literary genres--romance, dream vision, lyric, devotional prose, and drama.

ENGL 151B Middle English Literature: Later Fourteenth Century 4 Lecture, 3 hours; extra reading, 3 hours. Covers the great works of the later fourteenth century--Chaucer's *Troilus*, *Piers Plowman*, and the poems of the Gawain poet.

ENGL 151T Studies in Medieval Literature 4 Lecture, 3 hours; extra reading, 4 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Analyzes English literature of the Middle Ages, focusing (where pertinent) on its continental backgrounds (the latter read in translation). Examines selected major literary works that illuminate topics such as Christian theology, monasticism, chivalry, and courtly love. Course is repeatable to a maximum of 8 units.

ENGL 152 Renaissance Revolutions 4 Lecture, 3 hours; extra reading, 3 hours. Studies in some of the major ideas and movements of the English Renaissance (1500-1600), such as Christian humanism, neo-Platonism, syncretism, puritanism, rational theology, science, republicanism, centering on such figures as More, Elyot, Castiglione, Ascham, Sidney, Jonson, Bacon, Hobbes, and Milton.

ENGL 153 Studies in Early Renaissance Literature 4 Lecture, 3 hours; extra reading, 3 hours. Studies in some of the major literary works of the period (excluding *The Faerie Queene*). Topics may center on comparisons with other art forms, on genres like the lyric, the pastoral, the romance, etc., or on ideas or topics of importance as they are reflected in the literary forms of the period.

ENGL 154 Studies in Late Renaissance Literature 4 Lecture, 3 hours; extra reading, 3 hours. Studies of some of the major literary figures of the period (excluding Milton). Topics may center on major late English renaissance ideas or themes such as the political, philosophical, or religious questions, or on other ideas or topics of importance, as they are reflected in the literary forms of the period (metaphysical or Cavalier poetry, the character, etc.).

ENGL 161A Restoration and Eighteenth-Century English Literature: 1600-1730 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Emphasizes drama (Wycherley, Congreve, Behn, etc.) and satire (Dryden, Rochester, Pope, Gay, Swift).

ENGL 161B Restoration and Eighteenth-Century English Literature: 1730-1790 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Emphasizes the emerging English

novel (Defoe, Richardson, Fielding, Smollett, Sterne, Burney), mid-century poetry (Thomson, Gray, Goldsmith), and the Age of Johnson (including Boswell, Wollstonecraft, Burke).

ENGL 161T Studies in Eighteenth-Century Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of the relation of Restoration and eighteenth-century literature to its social and intellectual contexts: the rise of the bourgeoisie, the growth of British imperialism, the Industrial Revolution, the triumph of Newtonian science, philosophical empiricism, classicism, primitivism, antiquarianism, etc.

ENGL 166A Literature of the Romantic Period 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Covers writers such as Barbauld, Blake, Coleridge, Helen Williams, Wollstonecraft, and Wordsworth.

ENGL 166B Literature of the Romantic Period 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Covers writers such as Byron, Hazlitt, Keats, Scott, Mary Shelley, and Percy Shelley.

ENGL 166T Studies in English Romanticism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of the relationship between the literature of the period and intellectual interests such as antiquarianism, primitivism, perfectibility, transcendentalism, and organicism.

ENGL 172A Literature of the Early Victorian Period 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Covers Tennyson, Browning, Carlyle, Mill, and Newman.

ENGL 172B Literature of the Late Victorian Period 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Covers Arnold, Ruskin, Swinburne, Pater, and Hopkins; the Pre-Raphaelites, the Aesthetic Movement, and Decadence.

ENGL 172T Studies in Victorian Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A study of such ideas and movements as Romanticism, Utilitarianism, the Search for Standards, Evolution, Aestheticism, the New Naturalism, and Utopian theories, organized by areas or themes, as these ideas are reflected in the literature of the age.

ENGL 176A Twentieth-Century British and American Literature: 1900 to Late 1920s 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than

composition) or consent of instructor. Study of representative literary works: fiction, non-fiction, poetry, and drama.

ENGL 176B Twentieth-Century British and American Literature: 1920s to 1950 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Study of representative literary works: fiction, non-fiction, poetry, and drama.

ENGL 176C Twentieth-Century British and American Literature: 1950 to Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Study of representative literary works: fiction, non-fiction, poetry, and drama.

ENGL 176T Studies in Twentieth-Century British and American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An examination of significant twentieth-century authors and texts in their aesthetic, intellectual, political, and cultural contexts.

ENGL 178 Introduction to Science Fiction 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Introduction to the major themes, works, and approaches in the study of science fiction. Topics include science fiction as a genre and its expression in various media; critical approaches to science fiction; and the contribution of science fiction to cultural study, especially postmodern and posthuman theories.

ENGL 179A History of Science Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A historical survey of science fiction literature from the nineteenth century to the present. Covers major works by H.G. Wells, Arthur C. Clarke, Stanislaw Lem, Ursula K. Le Guin, and William Gibson.

ENGL 179B History of Fantasy and Horror Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. A historical survey of fantasy and horror literature from the nineteenth century to the present. Covers major works by Bram Stoker, H.P. Lovecraft, J.R.R. Tolkien, and Angela Carter.

ENGL 179C Science and Science Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Investigates the relationship between science and science fiction and the role of culture in producing scientific knowledge. Readings include novels and scholarship in the history and sociology of science. Covers work by Nancy Kress, Greg Bear, Greg Egan, Thomas Kuhn, Donna Haraway, and Bruno Latour.

ENGL 179D Science Fiction On Film 4 Lecture, 3 hours; extra reading, 2 hours; screening, 2 hours. Prerequisite(s): upper-division standing

or lower-division English course (other than composition) or consent of instructor. A historical survey of science fiction film and television from the twentieth century to the present. Includes readings in film and television criticism. Covers work by directors and creators such as Robert Wise, Stanley Kubrick, Gene Roddenberry, and David Cronenberg. Course is repeatable to a maximum of 8 units.

ENGL 179T Studies in Science Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Focuses on a specific theme, subgenre, period, movement, or major author within the field of science fiction. Explores topics such as science fiction and social identities, cyberpunk, and H.G. Wells and the scientific romance.

ENGL 189 English Capstone Seminar 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): ENGL 102 or ENGL 102W. Advanced undergraduate study of a specific topic proposed by instructor.

ENGL 190 Special Studies 1 to 5 To be taken with the consent of the Chair of the department as a means of meeting special curricular problems.

ENGL 193A Senior Seminar 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): senior standing or consent of instructor. Advanced undergraduate study of a specific topic proposed by instructor.

ENGL 193B Senior Seminar 2 Seminar, 1 hour; research, 2 hours; term paper, 2 hours. Prerequisite(s): ENGL 193A; senior standing with a major in English. Advanced research and revision methods of continuing and expanding research begun in ENGL 193A.

ENGL 196 Senior Research Paper 1 to 4 Research, 3 to 12 hours. Prerequisites: ENGL 189. A continuation of the research project begun in ENGL 189. Conducted under the supervision of a faculty advisor in the applicable field of study.

ENGL 198 R'course - Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

ENGL 198I Individual Internship in English 1 to 12 Internship, 3 to 36. Prerequisite(s): consent of instructor or upper division standing. Introduces the operations of professional societies, journals, archives, and cooperating agencies related to the study and management of literature and language. Explores the ongoing operations of these organizations. Includes researching and writing analyses and/or histories under faculty supervision. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16

units.

Graduate Courses

ENGL 200 Introduction to Graduate Study in English 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A team-taught introduction to a range of critical and theoretical issues of concern to entering graduate students, including canon formation, field organization, critical and theoretical assumptions behind the establishment of various fields, and the uses of theory.

ENGL 246 Seminar in Digital Media and Technocultural Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the history, theories, and practices of technoculture. Includes studies of computational or combinatorial texts and media. Brings together issues and contexts related to technological innovation, including the industrial production, refraction in aesthetic practices or popular cultural texts and sociopolitical deployment. Course is repeatable as content changes.

ENGL 247 Seminar in Science, Literature and Media 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Combines perspectives from the cultural study of technology and the social study of science with an analysis of the cultural texts. Includes readings from significant primary texts alongside work from the history of science, technology, and medicine. Course is repeatable to a maximum of 16 units.

ENGL 248 Seminar in Science Fiction 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive research in the history and theory of science fiction. Includes readings of significant primary texts and examinations of the genre from various critical perspectives (e.g. structuralist, Marxist, feminist). Course is repeatable to a maximum of 16 units.

ENGL 250 Seminar in Native American Literary and Cultural Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Enlists questions that lie in between literary and visual culture texts and the broader, unwritten discourses surrounding Indigenous representations in film and visual culture. Explores questions of how Indigenous literature and visual culture engage with issues of settler colonialism, gender, race, sexuality, class, and nation. Course is repeatable to a maximum of 16 units.

ENGL 251 Seminar in Black Literary and Cultural Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Analyzes black literary and cultural expression within a framework of interdisciplinary black studies and literary and cultural theory. Examines the ways in which African American literature and/or the literatures of the African diaspora engage the histories of slavery, colonization, and freedom-making in the black Atlantic world. Course is repeatable to a maximum of 16 units.

ENGL 252 Seminar On Latinidades 4 Seminar,

3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on Latinidades shifting the study of Latina/o literature toward comparative, transnational, and situational approaches and theories. Latinidades expands the national, geographical, and political borders of Latina/o literature, allowing the narratives and texts that constitute ethnic-specific structures of the field to be reimagined. Course is repeatable to a maximum of 16 units.

ENGL 253 Seminar in Asian/American Literary and Cultural Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on Asian American literary and cultural production within a framework of Asian American, diasporic, and transpacific theory. Examines how Asian American literature engages dominant models of gender, race, class, sexuality, and nation in conjunction with the specific histories of the several ethnic groups that comprise Asian America and the Asian diaspora. Course is repeatable to a maximum of 16 units.

ENGL 260 Seminar in Medieval Literature 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive research in medieval literature. May focus on major authors, including Chaucer, Langland, or the Gawain -poet; genres, including romance, prose, or the drama; thematic topics, including gender, literacy, or subjectivity; or methodology, including textual study, historicism, or literary theory. Course is repeatable as content changes.

ENGL 262 Seminar in Renaissance Literature 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Studies in Renaissance literature and its literary, cultural, or historical contexts. Intensive readings in a major author, historical subperiod, or special topic. Includes critical and theoretical approaches important to the field. Course is repeatable as content changes.

ENGL 264 Seminar in Restoration and Eighteenth-Century Literature 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive research in particular areas of Restoration and eighteenth-century literature and society such as the "rise" of the novel; women writers and readers; interactions of "high" and "low" cultures; ideologies of gender and sexuality; capitalism, colonialism, and literature; autobiographical and historical representations of self and others. Course is repeatable as content changes.

ENGL 265 Seminar in Romantic Literature 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Research in late eighteenth- and early nineteenth-century literature and its legacy in modern critical configurations of romanticism. Course is repeatable as content changes.

ENGL 267 Seminar in Victorian Literature 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Concentrated research and discussion of topics, issues, and figures in Victorian literature and culture. Rubrics

may include, but are not limited to, theoretical approaches to Victorian studies; questions of race, class, gender, and sexuality in Victorian culture; problems of aesthetics and genre; the politics of Empire; as well as author or text focused offerings. Course is repeatable as content changes.

ENGL 268 Seminar in British Literature Since 1900 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive analysis of figures, genres, movements, and issues in twentieth-century British literature and culture. May include topics such as Bloomsbury and the Politics of art; Joyce and Empire; Modernism, Modernity, and Gay Identities; British Postmodernism; Virginia Woolf and Feminist Theory. Course is repeatable as content changes.

ENGL 269 Seminar in American Literature to 1900 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive research in American literature and culture to 1900. Topics may include nineteenth-century novel; slavery and narrative; gender and colonial literary culture; Whitman and Dickinson; or other historical, gender-centered or theoretical issues. Course is repeatable as content changes.

ENGL 270 Seminar in American Literature Since 1900 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Study of representative literary texts and of current theories about the field. May focus on such topics as Modernism, Postmodernism, regionalism, alternative canons, interrelations among texts, and connections between texts and cultures. Course is repeatable as content changes.

ENGL 272 Seminar in Critical Theory 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Studies in theoretical movements. May emphasize historical or thematic relations among various theoreticians. Course is repeatable as content changes.

ENGL 273 Seminar in Cultural Studies 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive formal, historical, and theoretical research into the history and theory of culture in its broadest sense: popular literature, the mass media, and the interplay between peasant and elite or "low" and "high" cultural forms. Course is repeatable as content changes.

ENGL 274 Seminar in Feminist Discourses 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on theories and histories of gender and sexuality and analyzes the effects, in literary and other discourses, of foregrounding these categories. May involve special emphasis on "women" as writers and theorists and/or on feminist issues. Course is repeatable as content changes.

ENGL 275 Seminar in Film and Visual Cultures 4

Seminar, 3 hours; screening, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Analysis of film, television, and other forms of visually-oriented textuality. Approaches may include cultural criticism; media theory;

structural and poststructural analysis; feminist, gender, gay and lesbian theory; semiotics. Course is repeatable as content changes.

ENGL 276 Seminar in Colonialism and Postcoloniality 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the analysis of colonial discourse and the postcolonial condition. Issues addressed include, among others, historiography and subalternity; nationalism, gender, and sexuality; neocolonialism and transnationality; theorizing resistance; mimicry in colonial discourse; the academy, pedagogy, and the postcolonial intellectual. Course is repeatable as content changes.

ENGL 277 Seminar in Sexualities and Genders 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines representations in a variety of literary, media, and critical genres by or of lesbians, gay men, transgenders, and others marginalized because of their sexuality or gender expression. Topics may include the history of sexuality, camp, posthuman genders and sexualities, queer theory, and lesbian and gay literature and film. Course is repeatable as content changes.

ENGL 278 Seminar in Minority Discourse 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive study and research in cultural traditions formerly excluded from literary history, such as African American, Asian American, Chicano, and Native American. Cross-cultural studies in the representations of such marginalized groups. Topics may include the African American novel; border culture; nineteenth-century Black bodies; oral history and literature. Course is repeatable as content changes.

ENGL 279 Seminar in Rhetorical Studies 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive research and study in rhetoric or composition theory. Topics may include the rhetorical dimensions of literature, literary theory, and civic discourse; the ethics or history of rhetoric; competing conceptions of the writing process; and the relations between rhetorical, literary, and cultural criticisms. Course is repeatable as content changes.

ENGL 280 Colloquium in English and American Literature 2

Seminar, 2 hours. Prerequisite(s): graduate standing. Colloquia of both a formal and informal order on current research topics for students, faculty, and visiting scholars. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENGL 281 Seminar in Comparative Studies 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive study of two or more ostensibly distinct fields, periods, disciplines, or arts. Course is repeatable as content changes.

ENGL 282 Seminar in Bibliography and Textual Criticism 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Advanced research in the history of the book and textual production, including such

topics as analytical bibliography, editorial theory and practice, and the economics of textual dissemination. Course is repeatable as content changes.

ENGL 289 Seminar in Genres 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines individual literary genres (poetry, the novel, drama, etc.) and subgenres (epic, romance, lyric, comedy, etc.) in terms of current or historical genre theories. Course is repeatable as content changes.

ENGL 290 Directed Studies 1 to 4

Consultation, 1 to 3 hours; individual study, 12 hours. Prerequisite(s): consent of instructor and graduate advisor. Advanced research study culminating in written work. course is repeatable.

ENGL 291 Individual Study in Coordinated Areas 1 to 12

Outside research, variable. Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for examinations. Repeatable under the following rules: (1) a student may take up to 12 units prior to the award of the M.A.; (2) a student may take up to 24 additional units after award of the M.A. but prior to successful completion of the Ph.D. qualifying examination. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENGL 292 Concurrent Analytical Studies 1 to 4

Research, 3 to 12 hours. Prerequisite(s): instructor approval, or approval of instructor in the field under whom the work will be carried out. Each 292 course will be taken concurrently with some 100 series course but on an individual basis. It will be devoted to research, criticism, and written work of a graduate order commensurate in amount with the number of units elected. ENGL 101 and ENGL 103 may not be used for this arrangement. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENGL 296 Master's Portfolio 2

Research, 6 hours; consultation, 2 to 3 hours. Prerequisite(s): completion of five quarters of master's study in English; consent of the Graduate Advisor. Students revise, extend, and develop essays written during their master's program in preparation for the master's portfolio examination. Graded Satisfactory (S) or No Credit (NC).

ENGL 297 Directed Research 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing or consent of instructor. Individual research by graduate students directed by a particular faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENGL 299 Research For Thesis Or Dissertation 1 to 12

Thesis, 3 to 36 hours. Prerequisite(s): graduate standing or consent of instructor. Research, under the direction of a faculty member, for preparation of the thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable; students may enroll in a maximum of 12 units per quarter.

Professional Courses

ENGL 301 Introduction to the Teaching of English 1

Individual and group conferences,

1 hour. Prerequisite(s): graduate standing. A flexible program of meetings and workshops specifically devoted to orienting apprentices and transfer TAs to the writing program at UC Riverside. Concentrates on the problem of organizing and teaching ENGL 001A, ENGL 001B, and ENGL 001C or its equivalent. Required of all apprentices and transfer TAs. Students must enroll concurrently in ENGL 302. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit for a maximum of 2 units.

ENGL 302 Teaching Practicum 1 to 4 Seminar, 1 to 4 hours. Prerequisite(s): graduate standing. A flexible program of meetings and conferences on the problems and techniques of writing instruction most pertinent to Basic Writing or to ENGL 001. Required of all TAs for at least five quarters, after which the TA may, with the permission of the Director of ENGL 001, elect to take ENGL 304 instead. Open to all graduate students. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENGL 303 Advanced Teaching Practicum 1 to 2 Discussion, 1 hour; practicum, 1 to 3 hours. Prerequisite(s): graduate standing or consent of instructor. A flexible program of meetings and conferences on the problems and techniques of teaching literature, cultural studies, film studies, and related courses. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENGL 304 Professional Research Preparations 4 Seminar, 3 hours; research, 3 hours; consultation, 5 hours. Prerequisite(s): consent of instructor. Covers the procedures, preparation, and presentation of oral and written research materials, including prospectus, with individual direction from instructor. Graded Satisfactory (S) or No Credit (NC).

ENGL 380 The Teaching of Written Composition 4 Seminar, 8 hours. Prerequisite(s): consent of instructor; participation in the Inland Area Writing Project Summer Workshop. A study of research and practice in the teaching of written composition in the elementary and secondary schools. Offered in summer only. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

ENGL 381 Preparing to Teach Teachers 1 to 4 Seminar, 2 to 8 hours. Prerequisite(s): consent of instructor; concurrent enrollment in ENGL 380. Participation in the Inland Area Writing Project Summer Workshop. Preparation and presentation of inquiry projects. Emphasis on inquiry into pedagogical assumptions and the way they contribute to expert teaching practices. Offered in summer only. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

ENGL 410 Seminar in Professional Development 2 Workshop, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Provides a flexible program of meetings and workshops on the development of skills and practices of the professional literary scholar. Includes conference presentations, academic publishing, pedagogy, grant writing, and other career-building practices. Graded

Satisfactory (S) or No Credit (NC). course is repeatable to a maximum of 6 units.

Major

The Department of Entomology offers undergraduate programs leading to either the B.S. or the B.A. degree. The B.S. degree offers students with a strong interest in the natural sciences an opportunity to emphasize this aspect of their education. The B.A. degree is available to students who wish to obtain a broader background in the humanities and social sciences than is required of students in the B.S. program.

Information on the programs and course requirements is available at CNAS Academic Advising Center, 1223 Pierce Hall. Counseling, course recommendations, and information on education and career goals are provided by the Undergraduate Faculty Advisors, Dr. Dong-Hwan Choe, 382 Entomology and Dr. John Heraty, 138 Entomology.

Transfer Selection Criteria

Applicants to majors in the College of Natural and Agricultural Sciences are selected on the basis of academic preparation, as assessed by their GPA and the strength of preparation for the intended major. A GPA of at least 2.70 is required. (This is a baseline GPA for consideration and not a guarantee of admission.) The GPA cutoff for Transfer admissions will be set each year by the appropriate Divisional Dean in consultation with the Executive Committee and the Chairs, and may differ by program depending on Transfer enrollment capacity.

In addition, applicants will need to complete college courses comparable to at least two of the following UCR year-long sequences in order to meet selection criteria for this major. Courses must be completed with "C" grades or better:

MATH 007A or MATH 009A and MATH 007B or MATH 009B (mandatory)

And at least one sequence from:

1. BIOL 005A, BIOL 05LA or BIOL 020 and BIOL 005B (and BIOL 005C, if articulated)

- CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, and CHEM 01LC
- Organic chemistry (one-year lower-division), each course completed with a grade of "B" or better
- PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, and PHYS 02LC
- PHYS 040A, PHYS 040B, and PHYS 040C
- MATH 009C, MATH 010A, MATH 010B, and MATH 046

Courses must be completed with a letter grade, with no grade lower than a "C."

Students should visit assist.org for updated and comprehensive major preparation requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The major requirements for both the B.A. and the B.S. degrees in Entomology are as follows:

- Lower-division requirements (59 units)
 - BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
 - PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC
 - MATH 007A or MATH 009A, MATH 007B or MATH 009B
 - CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC, CHEM 008A or CHEM 08HA, CHEM 008B or CHEM 08HB, CHEM 008C or CHEM 08HC, CHEM 08LA or CHEM 8HLA, CHEM 08LB or CHEM 8HLB, CHEM 08LC or CHEM 8HLC.
- Upper-division requirements (51 units)
 - ENTM 100/BIOL 100, ENTM 107, ENTM 173/BIOL 173, ENTM 180, and 4 units in any combination of ENTM 190, ENTM 197, ENTM 199, or ENTM 199H
 - Sixteen (16) additional units of entomology electives, which may include up to 2 additional units of ENTM 190, ENTM 197, ENTM 199 or ENTM 199H
 - BCH 100
 - BIOL 102
 - BIOL 107A
 - STAT 100A

BIOL 151 and BIOL 175 are suggested in order to acquire a background in the life sciences appropriate for an Entomology major.

For students intending to specialize at the graduate level in insect toxicology or insect physiology, biochemistry, and molecular biology, it is recommended that the BCH 110A, BCH 110B, and BCH 110C sequence and BCH 102

be substituted in place of an equal number of upper-division course units in life sciences. Due to course content overlap, credit is not awarded for BCH 110A, BCH 110B, or BCH 110C if it has already been awarded for BCH 100.

Sample Program

Freshman Year	Fall	Winter	Spring
BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B		4	4
CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC	4, 1	4, 1	4, 1
ENGL 001A, ENGL 001B,	4	4	
MATH 007A or MATH 009A, MATH 007B or MATH 009B	4	4	
Humanities/Social Sciences	4		4
Total Units	17	17	13
Sophomore Year	Fall	Winter	Spring
BIOL 005C	4		
Biology/Entomology Electives		4	
CHEM 008A and 008LA, CHEM 008B and 008LB, CHEM 008C and 008LC	4	4	4
PHYS 02A, PHYS 02LA, PHYS 02B, PHYS 02LB, PHYS 02C, PHYS 02LC	4, 1	4, 1	4, 1

Humanities/Social Sciences, ENGL 001C	4	4	4
Total Units	14	12	14

Minor

The Department of Entomology offers a minor in Entomology designed to allow the student the freedom to pursue areas of particular interest.

The minor consists of no less than 20 and no more than 28 units of Entomology courses to be selected as follows:

- ENTM 100/BIOL 100
- Select from the following upper-division Entomology courses to complete unit requirement: ENTM 106, ENTM 107, ENTM 109, ENTM 112/BIOL 112/BPSC 112, ENTM 114, ENTM 124, ENTM 125, ENTM 126,

ENTM 127/BIOL 127, ENTM 129, ENTM 129L, ENTM 133, ENTM 154, ENTM 162/BIOL 162, ENTM 173/BIOL 173, ENTM 180, ENTM 190, ENTM 197, ENTM 199, ENTM 199H

3. No more than 4 units of ENTM 190, ENTM 197, ENTM 199, or ENTM 199H, either solely or in combination, may be applied toward the unit requirement.
4. Of the specified upper-division units, a minimum of 16 must be unique to the minor and may not be used to satisfy major requirements.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

Graduate Program The Department of Entomology offers programs leading to the M.S. (thesis plan) and Ph.D. degrees with specialization in, but not restricted to, the following areas of study:

- Arthropod vectors of human, animal, and plant pathogens
- Behavior
- Biochemistry and Physiology
- Chemical Ecology
- Conservation Biology and Global Change
- Endocrinology and Development
- Ecology and Evolution
- Genetics, Genomics, and Molecular Biology
- Insect Pathology
- Integrated Pest Management
- Invasive Species and Biological Control
- Medical and Veterinary Entomology
- Nematology
- Neuroscience
- Plant-Herbivore Interactions
- Social Insects and Pollination Biology
- Systematics
- Urban Entomology

Information on participating faculty and their research specializations may be found at insects.ucr.edu. University requirements for the M.S. and Ph.D. degrees are given in the Graduate Studies section of this catalog.

Admission

Students must have a bachelor's degree with a major in Entomology, a biological science, Chemistry, Biochemistry, or a suitable equivalent. Regardless of undergraduate major, students must have had, or complete soon after entering graduate school, the following:

1. One year of course work each in general biology, general chemistry, and organic chemistry.
2. The equivalent of a one quarter course each in genetics and biochemistry.

3. The equivalent of 30 quarter units of life sciences other than entomology. Students who wish to specialize in insect biochemistry, insect physiology, molecular entomology, neuroscience, or toxicology may substitute additional courses in physical, organic, and biological chemistry; toxicology; and pharmacology for courses in life sciences.

Credit from these courses does not count toward the unit requirement of the M.S. degree.

The department requires GRE General Test scores (verbal, quantitative, and analytical). All applicants whose first language is not English and do not have an undergraduate or graduate degree from an accredited institution where English is the exclusive language of instruction must submit a recent Test of English as a Foreign Language (TOEFL) and obtain a minimum score on the exam of 550 (paper-based), 213 (computer-based), or 80 (internet-based).

Course Work

All students must take ENTM 201, ENTM 202, and ENTM 203 (14 units).

Seminar Requirements

1. All full-time students must enroll in the ENTM 250 seminar during each quarter in which it is offered. (units vary)
2. Students in the second year and beyond must present a seminar or a poster presentation of their research at the Annual Graduate Student Seminar Day.

Professional Development

Entomology students must complete an annual Individual Development Plan along with their annual progress report and present an annual seminar or poster presentation covering their research investigations at the Annual Graduate Student Seminar Day, and complete ENTM 201.

Doctoral Degree

Each student, with the advice of their Ph.D. Guidance Committee, will select courses that complement their research program and help the student prepare for the qualifying examination (units vary).

Students must take at least four Entomology 2-unit seminar courses for a letter grade from the following list: ENTM 249, ENTM 252, ENTM 254, ENTM 255, ENTM 256, ENTM 258, ENTM 262, ENTM 289 (8 units).

Written and Oral Qualifying Examinations

Advancement to candidacy depends on the student passing written and oral qualifying examinations.

Dissertation and Final Oral Examinations

Following completion of their research, students submit a written dissertation and conclude their studies with an oral public defense of the dissertation.

Teaching Requirement

Ph.D. students must fulfill a three quarter teaching requirement.

Normative Time to Ph.D.

17 quarters

Master's Degree

Students should refer to the Graduate Studies

section of the catalog for the minimum master's degree requirements.

Each student, with the advice of their M.S. Guidance Committee, will select courses that complement their research program (units vary).

Students must take at least two Entomology 2-unit seminar courses for a letter grade from the following list: ENTM 249, ENTM 252, ENTM 254, ENTM 255, ENTM 256, ENTM 258, ENTM 262, ENTM 289 (4 Units).

Thesis and Final Oral Examination

Following completion of their research, students submit a written thesis and conclude their studies with an oral public defense of the thesis.

Normative Time to M.S.

6 quarters

Opportunities for Interdisciplinary Graduate Study

Faculty from the Department of Entomology also participate in the following additional graduate programs:

- Biochemistry and Molecular Biology
- Cell, Molecular, and Developmental Biology (CMDB)
- Neuroscience
- Chemistry
- Environmental Toxicology
- Evolution, Ecology, and Organismal Biology (EEOB)
- Genetics, Genomics and Bioinformatics

These interdepartmental programs draw on the strengths of distinguished scientists from several units. For further information concerning work in these areas, see the respective program descriptions in the Programs and Courses section of this catalog or contact the CNAS Graduate Student Affairs Center, at (800) 735-0717.

Lower-Division Courses

ENTM 010 Natural History of Insects 4 Lecture, 3 hours; discussion, 1 hour. A study of the world of insects and their impact on humankind. Designed for non-entomology majors. Utilizes living and preserved insects and other visual aids.

ENTM 020 Bees and Beekeeping 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Fundamentals of keeping honey bees, their fascinating social behavior, and their economic importance as pollinators of agricultural crops and as producers of honey and other products. Demonstrations of bee biology and behavior, with colonies of bees, and of beekeeping techniques, equipment, and extraction of honey.

ENTM 050 The Evidence For Evolution 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Introduces and explores the extensive evidence supporting evolution as the driver of biological diversity. Designed for non-science majors and/or those with limited prior knowledge about biology. Includes the scientific method, paleontology, natural selection, genetics, speciation, and the importance of sex. Addresses the broader need for scientific literacy in society. Cross-listed with BPSC 050.

ENTM 060W Scicomm: Exploring Effective Communication Methods in the Life Sciences 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A with a grade of C- or better, ENGL 001B with a grade of C or better. Teaches the process of analyzing and translating scientific research into popular science stories. Introduces the art of science communication through written narratives. Provides resources and guidance on interpretation of scientific literature, interviewing scientists, and pursuing careers in entomology, the broader life sciences, and science writing. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C.

Upper-Division Courses

ENTM 100 General Entomology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005B, BIOL 005C, or equivalents; or consent of instructor. Introductory study of insects, Earth's most diverse group of animals (75 percent of animal species are insects). Lecture covers the anatomy, physiology, ecology, behavior, and diversity of insects. Laboratory focuses on insect identification. Cross-listed with BIOL 100.

ENTM 106 Insect Evolution 3 Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): BIOL 100/ENTM 100 or consent of instructor. Introduces principles of insect morphology, with emphasis on characters of phylogenetic and adaptive significance and insect evolution. Topics include the comparative anatomy and phylogenetic relationships of extinct and living insect groups. Laboratory emphasizes principles of comparative morphology and evolutionarily important character complexes.

ENTM 107 Insect Biodiversity 4 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): BIOL 100/ENTM 100 or consent of instructor. Introduces the science of insect systematics. Emphasizes the diagnostic characters of the major taxa and insect biodiversity. Laboratories focus on developing skills in insect identification to the family level.

ENTM 109 Field Entomology 4 Laboratory, 4 hours; field, 8 hours. Prerequisite(s): BIOL 100/ENTM 100 or equivalents or consent of instructor. Study and field collection of insects in selected ecological communities from the diversity of life zones comprising Southern California. Students prepare specimens collected to professional standards, identify specimens, and submit their collections for grading and incorporation into the Department of Entomology's teaching and research collections.

ENTM 111 Molecular Biology and Genomics of Human Disease Vectors 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A with a grade of C or better, BIOL 05LA with a grade of C or better. Introduces human diseases transmitted by insects/arthropods (insect vectors) that claim about a million deaths annually and cause enormous suffering globally. Highlights adaptations that have contributed to the evolutionary success of disease vectors as well as biotechnological advances in vector control.

ENTM 112 Systematics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C or equivalent. Principles and philosophy of classification: phylogenetic and phenetic methods, species concepts, taxonomic characters, evolution, hierarchy of categories, and nomenclature. Cross-listed with BIOL 112, and BPSC 112.

ENTM 114 Aquatic Insects 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C; or consent of instructor. Investigates aquatic insects as nutrient cyclers, pollution indicators, disease vectors, and fish food. Involves identification of major orders and families, morphological and physiological adaptations, and life history strategies. Laboratory emphasizes identification (collection) and includes a group field ecology project and two weekend field trips.

ENTM 124 Agricultural Entomology 4 Laboratory, 4 hours; field, 8 hours. Prerequisite(s): BIOL 100/ENTM 100 or equivalent or consent of instructor. Identification, life history, ecology, distribution, and management of key pest and beneficial species learned through field observation, discussions with industry representatives, and laboratory study. Detailed notes and collections from field trips to all major growing regions of Southern California form the basis for laboratory discussion.

ENTM 125 Pesticides, Biological Organisms, and the Environment 3 Lecture, 3 hours. Prerequisite(s): two of the following courses; BIOL 005A; BIOL 005B; BIOL 005C; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC. An introduction to the chemistry, mode of action, and use of insecticides, acaricides, herbicides, and biopesticides from discovery to environmental interactions. Includes genetics of pesticide resistance development and government regulation. Cross-listed with ENTX 125, and PLPA 125.

ENTM 126 Medical and Veterinary Entomology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005B, BIOL 005C; or consent of instructor. Covers biology, ecology, and management of arthropods that affect human and animal health. Considers arthropods as direct pests and vectors of notorious diseases (e.g., malaria, plague). Also addresses disease epidemiology and prevention, as well as control of pests and associated diseases.

ENTM 127 Insect Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C or CHEM 08HC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Introduces principles of insect ecology with examples emphasizing the Arthropoda. Topics include factors governing population growth; ecological and evolutionary interactions with hosts, competitors, and natural enemies; structure of ecological communities; and adaptations to

different environments. Cross-listed with BIOL 127.

ENTM 129 Introduction to Biological

Control 2 Lecture, 2 hours. Prerequisite(s): BIOL 100/ENTM 100 or consent of instructor. Principles and methods of biological control; biology and behavior of entomophagous insects; historical review and critique of important world projects.

ENTM 129L Introduction to Biological Control Laboratory 2 Laboratory, 6 hours. Prerequisite(s): ENTM 129 (it is strongly recommended that ENTM 129L be taken concurrently with ENTM 129). Laboratory identification of entomophagous insects; experiments designed to illustrate various types of parasitism; familiarization with mass rearing and culture techniques for entomophagous insects.

ENTM 130 Invasion Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C with a grade of C- or better, BIOL 102 with a grade of C- or better; or consent of instructor. Explores the introduction, establishment, and impact of non-native, invasive species. Considers how invasions differ across taxonomic groups from pathogens to plants to insects.

ENTM 133 Urban Entomology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 100/ENTM 100 or consent of instructor. Biology and management of arthropod pests of the urban- industrial community with an emphasis on structural, household, and stored product pests. Exercises on the recognition and identification of these pests, their life histories, and strategies for their control.

ENTM 139 The Evolution of Conflict and Cooperation: Cheaters and Altruists 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; or consent of instructor. Explores the evolution of selfish and selfless behavior. An analysis of the evolutionary forces that create either conflict or cooperation among genes, microorganisms and their hosts, and kin. Cross-listed with BIOL 139, and MCBL 139.

ENTM 149 Special Topics in Undergraduate Entomology 1 to 4 Lecture, 1 to 4 hours; laboratory, 0 to 12 hours. Prerequisite(s): BIOL 005C with a grade of C- or better; or consent of instructor. Explores topics in entomology within the area of specialization of the instructor(s). Content emphasizes recent advances in the special topic area and varies accordingly. Course is repeatable as content or topic changes to a maximum of 12 units.

ENTM 154 Forensic Entomology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005C with a grade of C- or better. Introduces the application of entomological principles and collection of entomological data to be used as evidence in courts of law. Explores the basis of using insects to determine time and place of death in criminal cases, including the collection, handling, and identification of insects of forensic importance. Cross-listed with BIOL 154.

ENTM 162 Insect Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C; or BIOL 100 /ENTM 100; or consent of instructor. An analysis of the

mechanisms that cause and control behavioral reactions of insects. Emphasizes ethological and physiological knowledge concerning orientation mechanisms, communication systems, learning, and the role of the nervous system in integrating behavior in insects. Cross-listed with BIOL 162.

ENTM 173 Insect Physiology 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A and BIOL 005B or equivalents; CHEM 008A and 08LA or CHEM 08HA and 08HLA; CHEM 008B and 08LB or CHEM 08HB and 08HLB; CHEM 008C and 08LC or CHEM 08HC and CHEM 08HLC; or equivalents; or consent of instructor. Introduction to principles of insect physiology. Subjects include growth, development and hormones, cuticle, nervous system, circulation, respiration, digestion, nutrition, excretion, reproduction, water balance, and temperature relations. Prior knowledge of insects is not assumed. Cross-listed with BIOL 173.

ENTM 180 Capstone Research Seminar in Entomology 2 Seminar, 1 hour; discussion, 1 hour; Prerequisite(s): ENTM 100, ENTM 107, upper-division standing in Entomology; or consent of instructor; ENTM 173 is recommended. Capstone course that provides undergraduate students majoring in Entomology with the experience of synthesizing and integrating knowledge and skills gained throughout the Entomology program. Satisfactory (S) or No Credit (NC) grading is not available.

ENTM 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): upper-division standing and consent of instructor. Directed studies by a faculty member to address specific curricular needs. A written proposal signed by the supervising faculty member and the undergraduate advisor is required. Course is repeatable as content changes to a maximum of 4 units.

ENTM 197 Research For Undergraduates 1 to 4 Research, 3 to 12 hours. Prerequisite(s): upper-division standing and consent of instructor. Original research conducted under faculty supervision. A written proposal signed by the supervising faculty member and the undergraduate advisor is required. Requires a formal oral presentation, poster project, or a written report. Course is repeatable to a maximum of 6 units.

ENTM 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): senior standing and consent of instructor. Research in entomology performed under supervision of a faculty member. A written proposal signed by the supervising faculty member and the undergraduate advisor is required. Requires a formal written report in the format of a research publication. Course is repeatable to a maximum of 6 units. Credit is awarded for only one of ENTM 199 or ENTM 199H..

ENTM 199H Senior Honors Research 1 to 5 Laboratory, 3 to 15 hours. Prerequisite(s): senior status; consent of instructor; a GPA of 3.5 or better in Entomology courses and 3.2 in all University course work. Honors course corresponding to ENTM 199. Research in entomology under supervision of a faculty member in entomology. A written proposal signed by the supervising faculty member and

the undergraduate advisor is required. The student will submit a written report. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 6 units. Credit is awarded for only one of ENTM 199 or ENTM 199H.

Graduate Courses

ENTM 201 Core Areas of Entomology I:

Subcellular-Cellular Disciplines 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): BCH 100, may be taken concurrently or BCH 110A, may be taken concurrently or BCH 110HA, may be taken concurrently; graduate standing. Introduces principles of molecular biology and insect physiology. Topics include genetic material and mechanisms, genomics, bioinformatics, gene control, genetic manipulations, endocrine and hormonal signaling, ecdysis, reproduction, and the muscle, nervous, and sensory systems.

ENTM 202 Core Areas of Entomology

Ii: Suborganismal-Organismal

Disciplines 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): ENTM 201; graduate standing; or consent of instructor. Introduces principles of insect morphology, insect evolution, and insect behavior. Topics include morphology, systematic theory, evolution, insect identification, and behavior.

ENTM 203 Core Areas of Entomology Iii:

Supraorganismal Disciplines 5 Lecture, 4 hours; laboratory, 3 hours. Prerequisite(s): ENTM 202; undergraduate course in ecology; graduate standing; or consent of instructor. Introduces principles of insect ecology, genetics, evolution, and pest management. Addresses insect population dynamics and community interactions, genetics of geographic variation, insect behavior, and the management and control of pestiferous species. Includes computer simulations and use of molecular tools applied to supraorganismal phenomena.

ENTM 210 Molecular Biology of Human Disease

Vectors 3 Lecture, 2 hours; seminar, 1 hour. Prerequisite(s): consent of instructor. Covers the molecular aspects of vectors transmitting most dangerous human diseases. Involves lectures and student presentations about current issues in molecular biology and genomics of vector insects and pathogens they transmit. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CMDB 210, and MCBL 210.

ENTM 211 Genetic Technologies in Pest

Insects 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the concepts, history, theory, application, and regulatory and societal issues of insect genetic control. Includes laboratory instruction in contemporary insect genetic techniques of CRISPR-mediated gene editing, transposon-mediated insect transgenesis, and site-specific recombination as applied to insect control.

ENTM 212 Ecological Systems in Space and

Time 4 Lecture, 3 hours; field, 30 hours per quarter. Prerequisite(s): one upper-division undergraduate course in population or

community ecology or paleoecology; or consent of instructor. Focuses on how ecological systems are interpreted and reconciled at the community, landscape, and paleontological scales. Addresses the role of extrinsic factors operating at each of these scales. Also examines the historical development of our understanding of ecological systems at various scales. Cross-listed with EEOB 212, and GEO 212.

ENTM 219 Theory of Systematics 4 Lecture, 4 hours. Prerequisite(s): BIOL 112/BPSC 112/ ENTM 112 or equivalent or consent of instructor. Examines topics developed around a series of classical and recent papers on the principles, philosophy, and methodology of modern systematics and phylogenetic methods. Cross-listed with EEOB 219, and GEO 219.

ENTM 230 Entomophagous Insects 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): BIOL 100/ENTM 100 or equivalent, graduate standing; or consent of instructor. Introduces the biology and identification of entomophagous insects. Students collect and rear parasites and prepare specimens according to professional standards. Laboratory identification focuses on the family level for parasitic insects. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ENTM 240 Research Methods in Insect

Chemical Ecology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): consent of instructor. Survey of the methods used in the isolation, identification, and bioassay of biologically active natural products. Topics include bioassay design and execution, and microscale chemical separation and identification techniques. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade.

ENTM 241 Insect-Plant Interactions 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 127/ENTM 127 or consent of instructor. Concepts of the development and maintenance of ecological associations between plants and arthropod herbivores in ecological and evolutionary time; organization of arthropod communities on plants; phytochemical basis for the mediation of plant-arthropod associations; coevolution of plants and herbivorous insects; manipulation of plant-arthropod associations in arthropod pest management programs.

ENTM 242 Development of Hypotheses and

Research Design 3 Lecture, 1 hour; discussion, 1 hour; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Teaches fundamentals of research topic selection, development of hypotheses, and selection of experimental designs. Students prepare full-length federal grant proposals, then review and rank them in grant panel review format.

ENTM 249 Special Topics in Entomology 1

to 6 Lecture, 1 to 6 hours; laboratory, 0 to 15 hours; Prerequisite(s): graduate standing or consent of instructor. Explores topics in entomology within the area of specialization of each faculty member. Content emphasizes recent advances in the special topic area and varies accordingly. Course is repeatable as content changes.

ENTM 250 Seminar in Entomology 1 Seminar, 1 hour. Prerequisite(s): graduating standing. A series of lectures by visiting scientists, staff and advanced graduate students on research topics in entomology and allied fields. Graded Satisfactory (S) or No Credit (NC).

ENTM 251 Seminar in Insect-Plant Interactions 2 Seminar, 2 hours. Prerequisite(s): graduate standing; or consent of instructor. Provides rigorous examinations and interpretation of recent publications in the area of insect-plant interactions. Subject matter varies from year to year. Course is repeatable as content or topic changes.

ENTM 252 Seminar in Insect Behavior 2 Seminar, 2 hours. Prerequisite(s): BIOL 162/ENTM 162 or consent of instructor. An analysis and interpretation of published experimental data dealing with insect behavior, and an attempt to derive general principles underlying behavior. Subject matter varies from year to year. Course is repeatable as content changes.

ENTM 254 Seminar in Biological Control 2 Seminar, 2 hours. Prerequisite(s): BIOL 127/ENTM 127, ENTM 129; or consent of instructor. Addresses concepts, questions, and hypotheses in biological control. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

ENTM 255 Seminar in Medical and Veterinary Entomology 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Rigorous review and analysis of advanced topics in medical and veterinary entomology and related disciplines. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as content changes.

ENTM 256 Seminar in Systematic Entomology 2 Seminar, 2 hours. Prerequisite(s): BIOL 112/BPSC 112/ENTM 112 or consent of instructor. Selected topics in insect systematics. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as content changes.

ENTM 258 Seminar in Insect Pest Management 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Selected topics in insect pest management. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as content changes.

ENTM 261 Seminar in Genetics, Genomics, and Bioinformatics 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BCH 261, BIOL 261, BPSC 261, PLPA 261, and GEN 261.

ENTM 262 Molecular Biology of Arthropod Disease Vectors 2 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Seminar series sponsored

by the Center for Disease-Vector Research at the Institute for Integrative Genome Biology. Provides an opportunity for graduate students to discuss current issues of molecular biology and genomics of vector insects and pathogens they transmit with guest speakers. Course is repeatable to a maximum of 4 units. Cross-listed with MCBL 262.

ENTM 271 Research Seminar in Management of Vegetable Crop Pests 1 Seminar, 1 hour. Prerequisite(s): consent of instructor. Seminar and critical discussion emphasizing current research and advances in management of vegetable crop pests. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 272 Research Seminar in Insect Communication and Behavior 1 Seminar, 1 hour. Prerequisite(s): consent of instructor. Seminar and critical discussion emphasizing current research and advances in insect communication and behavior. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 276 Research Seminar in Medical, Urban, and Veterinary Entomology 1 Seminar, 1 hour. Prerequisite(s): consent of instructor. Seminar and critical discussion emphasizing current research and advances in medical, urban, and veterinary entomology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 277 Research Seminar in Insect Biochemistry and Toxicology 1 Seminar, 1 hour. Prerequisite(s): consent of instructor. Seminar and critical discussion emphasizing current research and advances in insect biochemistry and toxicology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 289 Special Topics in Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with BCH 289, BIOL 289, CHEM 289, NRSC 289, and PSYC 289.

ENTM 290 Directed Studies 1 to 6 Prerequisite(s): graduate standing. Literature studies on special topics under direction of a member of the staff. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 291 Individual Study in Coordinated Areas 1 to 6 Prerequisite(s): graduate standing. Faculty assisted programs of individual study for candidates who are preparing for examinations. The following rules apply: 1) Up to 6 units may be taken prior to award of the Master's degree, such units to be in addition to minimum unit requirements for the degree; 2) Up to 12 additional units may be taken prior to advancement to candidacy for the Ph.D.; 3) The course may be repeated within these limits. Graded Satisfactory (S) or No Credit (NC).

ENTM 297 Directed Research 1 to 6 Prerequisite(s): graduating standing. Exploratory research toward the development of the dissertation problem or other research

not specifically for thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 299 Research For Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing. Original research in an area selected for the advanced degree. Course is repeatable.

Professional Courses

ENTM 301 Teaching Entomology at the College Level 1 Seminar, 1 hours. Prerequisite(s): graduate standing in Entomology. A program of weekly meetings and individual formative evaluation required of new entomology Teaching Assistants. Covers instructional methods and classroom/section activities most suitable for teaching Entomology. Conducted by departmental faculty or the Teaching Assistant Development Program. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 302 College Teaching Practicum 1 to 4 Practicum/consultation, 3 to 12 hours. Prerequisite(s): graduate standing and consent of instructor. Supervised teaching in college level classes under supervision of the course instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENTM 303 Philosophy and Pedagogy of Teaching Undergraduate Life Sciences 3 Lecture, 1 hour; laboratory, 3 hours; workshop, 1 hours. Prerequisite(s): graduate standing in life sciences. Explores the opportunities and challenges associated with developing an undergraduate course in the life sciences. Emphasizes determining how students learn, as well as exploring contemporary instruction methods that foster student engagement in the classroom. Graded Satisfactory (S) or No Credit (NC). Cross-listed with BIOL 303.

Ariel Dinar, Ph.D. (School of Public Policy)
Darrel Jenerette, Ph.D. (Botany and Plant Sciences)
Kurt A. Schwabe, Ph.D. (School of Public Policy)
Haofei Zhang, Ph.D. (Chemistry)

Major

The Department of Environmental Sciences offers B.A. and B.S. degrees in Environmental Sciences. Students are encouraged to concentrate their studies in one of five specialization areas: Soil Sciences, Hydrologic Sciences, Atmospheric Sciences, Environmental Toxicology, and Environmental Management.

Modern human activities related to natural resource development, agriculture, urbanization, industry, and transportation are placing unprecedented pressure on the earth's life support systems. Changes taking place in atmospheric physics and chemistry, land cover, freshwater and marine resources, and

chemical cycling threaten the ability of human society to sustainably meet current and future needs. Science-based solutions are needed to sustainably manage our natural resources and improve public health. To help meet these challenges, our program emphasizes training for students in the biological, chemical, and physical aspects of environmental sciences and health, centered on the major environmental media of air, soil, water, and the biosphere.

The structure of the Environmental Sciences curriculum provides a broad scope of instruction that enables students to explore various disciplines and professions focused on solving environmental problems. All students majoring in Environmental Sciences must complete a set of "core requirements" consisting of courses that provide a basic understanding of the physical, biological, and social sciences and their application to the analysis of environmental processes and management issues. In addition to the core requirements, students must complete 8 units of lower-division and 20 units of upper-division elective courses.

Students have the option to select their electives from different specialization areas or to focus their training in one of the five specialization areas based on their own educational and career objectives. The specialization areas of Soil Sciences, Hydrologic Sciences, or Atmospheric Sciences are suitable for students wishing to maintain a broad range of choices in technically-oriented environmental professions such as pollution control, hazardous materials management, public health, natural resource management, environmental monitoring, and impact analysis. These options also provide the necessary background for graduate study in soil science, water resources, or atmospheric sciences as well as interdisciplinary areas such as ecosystem science and forestry. The Environmental Toxicology specialization area emphasizes the chemistry and biochemistry of toxic substances in the environment, preparing students for careers dealing with the control of contaminants in various environmental media as well as related fields such as public health and industrial hygiene. The Environmental Management specialization area is oriented for the social context of environmental sciences and prepares students for careers dealing with environmental regulation, land-use planning, environmental impact analysis, and administration of environmental protection programs.

Environmental Internship Program

The Environmental Internship Program offers students opportunities to work with government agencies, private firms, and nonprofit organizations involved in environmental affairs. As excursions into professional life, internships provide "hands-on" experience in applying the principles presented in courses. Beyond the highly specialized training associated with on-the-job activities, students can gain insights into their aptitudes, aspirations and work habits that enable them to clarify their academic and career objectives. Professional acquaintances established during internships can continue to serve as important contacts for students after the internship is completed.

Although most internships are part-time (12–15

hours per week) positions in the Riverside area, organizations that host student interns are located throughout the United States and in Washington, D.C. Students working as interns may receive stipends, hourly wages, or serve as volunteers, depending upon the specific appointment. Up to 16 units of credit toward the bachelor's degree may be earned by developing an academic component of the internship in consultation with a faculty supervisor and enrolling in ENSC 198-I.

Undergraduate Research

Students interested in enhancing the status of knowledge about environmental processes or seeking new solutions to environmental problems may gain training and experience as part-time employees in the department's research laboratories and other research facilities, such as the U.S. Salinity Laboratory, located on campus, and the USDA Pacific Southwest Research Station, located on Canyon Crest Drive. Those wishing to conduct their own research under faculty supervision may earn academic credit by enrolling in ENSC 197. Expenses for both laboratory and field experiments are eligible for funding by the campus mini-grant program which supports undergraduate research and creative activity.

California Teach-Science/Mathematics Initiative (CaTEACH-SMI)

California Teach-Science/Mathematics Initiative (CaTEACH-SMI) has a goal of addressing the critical need of highly qualified K-12 science and mathematics teachers in California. With an economy increasingly reliant on science, technology, engineering, and mathematics (STEM) and the anticipated large scale retirement of qualified teachers, this is an essential time to explore and prepare for a career in teaching science or mathematics.

CaTEACH-SMI at UCR offers undergraduate students opportunities to explore STEM teaching as a career option. Through CaTEACH-SMI, students receive advising and mentoring to prepare for entrance into an intern teaching credential program while diligently coordinating with academic advisors to ensure completion of STEM degree requirements. The CaTEACH-SMI Resource Center provides future STEM teachers opportunities to promote planning and professional development towards a science/mathematics education career.

For more information about the CaTEACH-SMI program, please visit smi.ucr.edu, the Resource Center at 1315 Pierce Hall, or on Facebook at facebook.com/ScienceMathInitiativeAtUcr.

Transfer Selection Criteria

Applicants to majors in the College of Natural and Agricultural Sciences are selected on the basis of academic preparation, as assessed by their GPA and the strength of preparation for the intended major. A GPA of at least 2.70 is required. (This is a baseline GPA for consideration and not a guarantee of admission.)

In addition, applicants will need to complete college courses comparable to at least two of the following UCR year-long sequences in order to meet selection criteria for this major. Courses must be completed with "C-" grades or better:

MATH 007A or MATH 009A; MATH 007B or

MATH 009B (mandatory)

And at least one sequence from:

1. BIOL 005A/BIOL 05LA or BIOL 020 and BIOL 005B (and BIOL 005C, if articulated)
2. CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, and CHEM 01LC
3. Organic chemistry (one-year lower-division), each course completed with a grade of "B" or better
4. PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, and PHYS 02LC
5. PHYS 040A, PHYS 040B, and PHYS 040C
6. MATH 009C, MATH 010A, MATH 010B, and MATH 046

Courses must be completed with a letter grade, with no grade lower than a "C-." Students should visit assist.org for updated and comprehensive major preparation requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the College's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The major requirements for both the B.A. and the B.S. degrees in Environmental Sciences are as follows: Students must fulfill MATH 007A or MATH 009A or MATH 09HA; MATH 007B or MATH 009B or MATH 09HB; CHEM 001A or CHEM 01HA, CHEM 001B or CHEM 01HB, CHEM 001C or CHEM 01HC; BIOL 005A; BIOL 005B; BIOL 05LA or BIOL 020; ENSC 001, ENSC 002, ENSC 006, ENSC 100, ENSC 101, and ENSC 102 with a grade point average of 2.0 or better and no grade lower than a C-. If a grade lower than a C- is received in 2 or more core courses required for the major, either in separate courses or repetitions of the same course, the student may be discontinued from the major. Students must, under such circumstances, petition the department to remain in the major. Students in Environmental Sciences are required to demonstrate adequate progress towards earning the degree. Adequate progress is defined as completion of MATH 009B or MATH 09HB or MATH 007B prior to the beginning of the Winter Quarter of the second year of residence or Junior standing (>90 units) and at least one course from ENSC 100, ENSC 101, or ENSC 102 must be completed prior to the end of the third year of residence or senior standing (>135 units).

Note

To gain maximum benefit from participating in the Undergraduate Research and Environmental Internship Programs, students intending to enroll in ENSC 197 and ENSC 198-I should contact their advisor during the quarter prior to enrollment in these courses.

Core Requirements

1. Lower-division requirements (72 or 73 units)

- a) ENSC 001, ENSC 002, ENSC 006 or ECON 006
 - b) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B
 - c) CHEM 001A or CHEM 01HA, CHEM 001B or CHEM 01HB, CHEM 001C or CHEM 01HC, CHEM 01LA or CHEM 1HLA, CHEM 01LB or CHEM 1HLB, CHEM 01LC or CHEM 1HLC
 - d) CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB
 - e) MATH 007A or MATH 009A or MATH 09HA; MATH 007B or MATH 009B or MATH 09HB
 - f) PHYS 002A or PHYS 02HA, PHYS 02LA or PHYS 02HLA, PHYS 002B or PHYS 02HB, PHYS 02LB or PHYS 02HLB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC
 - g) POSC 010
2. Upper-division requirements (24 units):
 - a) ENSC 100, ENSC 101, ENSC 102, ENSC 191
 - b) STAT 100A and STAT 100B

Electives

Students are free to choose from the lists below to fulfill their lower-division and upper-division elective requirements:

1. Lower-division electives (8 units):

At least two electives from BIOL 005C, CHEM 005, CHEM 008C and CHEM 08LC, CHEM 08HC and CHEM 08HLC, MATH 009C or MATH 09HC or MATH 010A, GEO 001 or GEO 002

2. Upper-division electives (20 units):

At least five electives from the following list, with a minimum of four from Environmental Sciences or Environmental Toxicology:

ENTX 101, ENTX 154, ENSC 103/ENTX 103, ENSC 104, ENSC 105, ENSC 107, ENSC 110, ENSC 120/NEM 120, ENSC 127, ENSC 130, ENSC 133/MCBL 133, ENSC 134/BPSC 134, ENSC 135/CHEM 135/ENTX 135, ENSC 136/CHEM 136, ENSC 138/GEO 138, ENSC 140, ENSC 141/MCBL 141, ENSC 144/ENVE 144, ENSC 153, ENSC 163, ENSC 165, ENSC 172, ENSC 174, ENSC 175, ENSC 177, ENSC 197, ENSC 198-I, BCH 100 or both BCH 110A or BCH 110HA and BCH 110B or BCH 110HB; BCH 110C or BCH 110HC or BIOL 107A; BIOL 102 or BIOL 121/MCBL 121; BIOL 116, BIOL 121L/MCBL 121L, BPSC 104/BIOL 104, BPSC 165, BPSC 166, CBNS 150/ENTX 150, CHEM 109, GEO 157, GEO 160

Suggested courses of study are also provided below for specialized areas in environmental sciences to assist students to meet minimum employment requirements for entry-level positions in government agencies, nongovernment organizations (NGO), and environmental consulting firms. Students are strongly encouraged to schedule a meeting with a Faculty in their specialization area of interest for curriculum and career advice. A list of core Faculty in each specialization area is available at envisci.ucr.edu/undergrad.

Soil Sciences:

Recommended to meet lower-division electives: BIOL 005C, GEO 001 or GEO 002, MATH 009C or MATH 09HC or MATH 010A; Recommended to meet upper-division electives: ENSC 104, ENSC 107, ENSC 110, ENSC 120, ENSC 127, ENSC 133/MCBL 133, ENSC 134/ BPSC 134, ENSC 138/GEO 138, ENSC 144, ENSC 175, ENSC 177

Hydrologic Sciences:

Recommended to meet lower-division electives: MATH 009C or MATH 09HC or MATH 010A, GEO 001 or GEO 002; Recommended to meet upper-division electives: ENSC 105, ENSC 107, ENSC 110, ENSC 127, ENSC 136/CHEM 136, ENSC 140, ENSC 163, ENSC 165, ENSC 175, ENSC 177

Atmospheric Sciences:

Recommended to meet lower-division electives: CHEM 005, CHEM 08C and CHEM 08LC, CHEM 08HC and CHEM 08HLC, MATH 009C or MATH 09HC or MATH 010A; Recommended to meet upper-division electives: ENSC 103/ENTX 103, ENSC 110, ENSC 130, ENSC 135/CHEM 135/ENTX 135, ENSC 136/CHEM 136, ENSC 175, ENSC 177, GEO 160

Environmental Toxicology:

Recommended to meet lower-division electives: BIOL 005C, CHEM 005, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC; Recommended to meet upper-division electives: ENTX 101 required + at least 3 electives from ENSC or ENTX: ENSC 103/ENTX 103, ENSC 110, ENSC 135/CHEM 135/ENTX 135, ENSC 136/CHEM 136, ENSC 177, CBNS 150/ENTX 150, ENTX 154, BCH 100 or both BCH 110A or BCH 110HA and BCH 110B or BCH 110HB, BIOL 102 or BIOL 121, BCH 110C or BCH 110HC or BIOL 107A

Environmental Management:

Recommended to meet lower-division electives: BIOL 005C, GEO 001 or GEO 002, MATH 009C or MATH 09HC or MATH 010A; Recommended to meet upper-division electives: ENSC 103/ENTX 103, ENSC 110, ENSC 144, ENSC 153, ENSC 172, ENSC 174, ENSC 175, ENSC 177

Minor

The minor in Environmental Sciences consists of the following.

1. Lower-division requirements (23 units)
 - a) ENSC 002, ENSC 006/ECON 006
 - b) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC
2. Upper-division requirements (20 units)
 - a) ENSC 100, ENSC 101, ENSC 102
 - b) Eight (8) units of additional upper-division courses in Environmental Sciences, no more than 4 units of which are in courses numbered 190-198

Of the specified upper-division units, a minimum of 16 units must be unique to the minor and may not be used to satisfy major requirements.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

Subject abbreviation: ENSC
College of Natural and Agricultural Sciences

Laosheng Wu, Ph.D., Director
James O. Sickman, Ph.D., Graduate Advisor
Antonio Knox, Student Services Advisor
(800)735-0717 or (951)827-6746
envisci@ucr.edu
envisci.ucr.edu

The Environmental Sciences Graduate Program offers the M.S. and Ph.D. degrees in Environmental Sciences.

Advanced training in Environmental Sciences is becoming increasingly necessary to address complex problems involving natural resources and environmental quality. Although this task frequently requires specialized knowledge in various fields of science, it also requires understanding and integration of a wide variety of interacting physical, chemical, biological, and societal influences. This interaction makes graduate study in environmental sciences distinct from many other scientific fields.

We have designed our program to offer advanced training in a number of specialized field areas within environmental sciences, operating within a single graduate degree program administered by the Department of Environmental Sciences. Students trained in the Environmental Sciences Graduate Program can fill many areas of expertise needed in the state and nation. Potential career opportunities exist at regulatory agencies, consulting firms, government and academic research institutions, and industrial research facilities.

Admission

Entry to the program requires completion of a baccalaureate degree in a field appropriate as preparation for graduate study in environmental sciences. Students normally will come to the program from an environmental sciences related discipline such as atmospheric science, aquatic science, earth science, environmental chemistry, hydrology, or soil science; or a basic science such as biology, chemistry, or physics.

Students may conduct research under the supervision of a sponsoring faculty member in any of the following field areas.

In addition to the following requirements, all applicants must meet the general requirements as set forth in this catalog under the Graduate Studies section.

Atmospheric Sciences

The Atmospheric Sciences field area encompasses diverse topics such as atmospheric chemistry and air quality, health effects of air pollution, drivers of radiative forcing and global warming, remote sensing of the atmosphere, and atmosphere-ocean interactions. Students will receive training in observing, modeling, and understanding atmospheric circulation and the fate of atmospheric chemical species. Much of the research being conducted addresses the societal impacts of air pollution and climate change.

Entrance requirements

There are no entrance requirements for the Atmospheric Sciences area beyond the general requirements for admission to the ESGP. It is recommended that students have completed one year of chemistry, as well as courses in general physics, organic chemistry, calculus through integrals, and statistics. Students who have not completed courses required for their research may need to complete additional courses to remedy deficiencies.

Environmental Chemistry and Ecotoxicology

The Environmental Chemistry and Ecotoxicology field area focuses on the sources, physical and chemical transformations, and removal processes of chemicals in soil, water, and air, and their impacts on ecological systems.

Entrance Requirements

There are no entrance requirements for the Environmental Chemistry area beyond the general requirements for admission to the ESGP. For Ecotoxicology, prospective students would be expected to have had courses in General Biology/Zoology and Organic Chemistry. Students who do not have sufficient background to take the core course or specific elective courses may, however, need to first take prerequisite courses.

Environmental Microbiology

The Environmental Microbiology field area encompasses the study of microbial processes in natural and agricultural ecosystems and the effects of microorganisms on environmental processes and environmental quality. Research topics include fundamental research on microbial physiology, genetics, and ecology as related to the environment, applied research on microbial effects on the fate and transport of pollutants, anthropogenic effects on microbial communities, fate and transport of human pathogenic microorganisms in the environment, and the application of microorganisms and microbial assays as indicators of soil and water quality.

Entrance Requirements

Students admitted to the Environmental Microbiology field area are expected to have a baccalaureate degree in biology, microbiology, or closely related field or demonstration of extensive background in biology and microbiology. Recommended prior course work includes

chemistry (general, organic, and biochemistry), biology (general and advanced course work), microbiology (general), and statistics (general). Deficiencies in these areas must be remedied during the first year of graduate school.

Environmental and Natural Resource Economics and Policy

The economics and policy field area is not currently accepting new students. Students seeking advanced training in environmental and natural resource economics and policy should contact the Graduate Advisors in the Department of Economics and the School of Public Policy at UC Riverside for alternative programs of study.

Hydrologic Sciences

The Hydrologic Sciences field area offers comprehensive training in the understanding and quantification of physical and biogeochemical processes that govern movement, storage, and quality of water in the environment. Students can specialize in a variety of areas including catchment hydrology, ecohydrology, vadose zone and groundwater hydrology, hydrologic modeling, irrigation and water management in agricultural fields and urban landscapes, catchment biogeochemistry, contaminant fate and transport, earth surface processes, and related areas.

Entrance requirements

There are no entrance requirements for the Hydrologic Sciences area beyond the general requirements for admission to the ESGP. It is recommended that students have completed one year of general chemistry, general physics, organic chemistry, calculus through differential equations, statistics, and physical geology or physical geography.

Soil and Water Sciences

The Soil and Water Science field area offers comprehensive training in the chemistry, physics, biology, and ecology of soils, surface waters and wetlands. Students can specialize in a variety of areas, including soil and aquatic chemistry, limnology, soil-plant relations, biogeochemistry, bioremediation, geomicrobiology, contaminant fate and transport, water resources management, hillslope processes, soil genesis, soil mineralogy and geomorphology, and related areas.

Entrance Requirements

Admission to the Soil and Water Sciences field area requires a baccalaureate degree with preparation in both physical and life sciences. It is recommended that students have completed one year of general chemistry, as well as courses in general physics, organic chemistry, calculus through integrals, general biology, statistics, and physical geology or physical geography.

Environmental Sciences and Management

The Environmental Sciences and Management field area is not currently accepting new students. Students seeking advanced training in environmental management and policy should contact the Graduate Advisors in the Department of Economics and the School of Public Policy at UC Riverside for alternative programs of study.

Course Work

The Ph.D. and M.S. degree programs both require completion of the following courses.

- Each student must complete ENSC 227.

- Each student must complete either ENSC 200 or ENSC 232.
- Each student must complete at least one additional graduate-level, four-unit elective within or outside of the Department of Environmental Sciences.

Each student may complete additional upper-division undergraduate courses and/or graduate-level courses depending on the student's field area and research focus.

Students with a M.S. objective may need to take additional courses to fulfill the requirements of the **Plan I (Thesis)** or **Plan II (Comprehensive Examination)** options. Upon acceptance to the program, the student will select an Advisory Committee made up of three members of the participating faculty in the ESGP to assist in the planning of the individualized curriculum. Electives are chosen in consultation with the Advisory Committee. Students are encouraged to attend a seminar each quarter (to be chosen in consultation with the major advisor). Students must complete 2 units of ENSC 401 (Professional Development in Environmental Sciences) within their first year of entering the ESGP. There is no foreign language requirement for the program.

Master's Degree

The Department of Environmental Sciences offers the M.S. degree in Environmental Sciences under the Plan I (Thesis) and Plan II (Comprehensive Examination) options. The general requirements for the M.S. degree are found in the Graduate Studies section of the General Catalog. All students are required to give a presentation annually at the Environmental Sciences Graduate Program Student Symposium.

Plan I (Thesis)

Plan I (Thesis) Students must complete a minimum of 36 quarter units of graduate and upper-division undergraduate courses in, or significantly related to, Environmental Sciences. These must include the course requirements given above. At least 24 of the 36 units must be in graduate courses. A maximum of 12 of these units may be in graduate research for the thesis. No more than 4 units of ENSC 290 and 2 units of graduate seminar courses may be applied toward the degree. A thesis must be written and accepted by the M.S. thesis committee members, and a final oral defense of the thesis must be passed.

Plan II (Comprehensive Examination)

Students must complete a minimum of 36 quarter units of graduate and upper-division undergraduate courses in, or significantly related to, Environmental Sciences. These must include the course requirements given above. At least 18 units must be in graduate courses. Students may count no more than 2 units of graduate seminar courses and 6 units of graduate internship courses toward the required 18 units and no units from graduate research for thesis or dissertation.

Students must take a comprehensive written examination that covers fundamental topics in environmental sciences. The written examination, which is three to four hours long, is prepared and evaluated by a committee appointed by the field director. The examination is taken during

the latter part of the final quarter in the M.S. program. Students must wait at least eight weeks before retaking a failed examination. Students failing the examination twice are dismissed from the program.

Normative Time to Degree 2 years

Doctoral Degree

The Department of Environmental Sciences offers the Ph.D. degree in Environmental Sciences. The general requirements for the Ph.D. degree are found in the Graduate Studies section of the General Catalog.

Course Work

Students must complete the course requirements given above. All students are required to give a presentation annually at the Environmental Sciences Graduate Program Student Symposium.

Ph.D. Written Qualifying Examination

Following completion of all course work prescribed by the student's Advisory Committee, a Ph.D. Written Qualifying Examination will be prepared and administered to the student by a Ph.D. Written Qualifying Examination Committee. The Ph.D. Written Qualifying Examination Committee will consist of at least three faculty members with interests in the student's line of research. The purpose of this examination is to determine that the student has gained sufficient knowledge in the chosen field to perform professionally and competently. This exam may be attempted only twice. If this exam is failed twice, the student may be redirected to the M.S. degree if the student does not already hold an M.S. in Environmental Sciences or terminated from the program.

Ph.D. Oral Qualifying Examination

A student who satisfactorily passes the Ph.D. Written Qualifying Examination may proceed with the Ph.D. Oral Qualifying Examination, which will focus on the dissertation proposal. This examination is conducted before the Oral Qualifying Examination Committee, consisting of five faculty members, one of whom must be from outside the ESGP. This examination may be attempted only twice. If this exam is failed twice, the student will be redirected to the M.S. degree if the student does not already hold an M.S. in Environmental Sciences or terminated from the program. The Ph.D. Written and Oral Qualifying Examinations will normally be taken at the end of the second year of graduate study and before the start of the third year.

Dissertation

All Ph.D. students must write a doctoral dissertation, which must be read and accepted by all members of the Doctoral Dissertation Committee, comprised of at least three faculty members from the ESGP. A final oral dissertation defense in front of at least three Doctoral Dissertation Committee members is required.

Relationship between Master's and Doctoral Programs

The M.S. and Ph.D. programs are separate. Students who enter the Ph.D. program do not need to acquire a M.S. degree first, although students may elect to take both.

Normative Time to Degree 5 years

Lower-Division Courses

ENSC 001 Introduction to Environmental Science: Natural Resources 4

Lecture, 3 hours; discussion, 1 hour. An introduction to environmental science, focusing on natural resource description, management, and conservation. Topics covered include ecosystem characteristics and function; material and energy flows; population dynamics and influence of population on the environment; energy resources and conservation; and mineral and soil resources and their management. Credit is awarded for only one of ENSC 001 or ENSC 001H.

ENSC 001H Honors Introduction to Environmental Science: Natural Resources 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ENSC 001. An introduction to environmental science, focusing on natural resource description, management, and conservation. Topics covered include ecosystem characteristics and function; material and energy flows; population dynamics and influence of population on the environment; energy resources and conservation; and mineral and soil resources and their management. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ENSC 001 or ENSC 001H.

ENSC 002 Introduction to Environmental Science: Environmental Quality 4

Lecture, 3 hours; discussion, 1 hour. An introduction to environmental science, focusing on the impact of human development and technology on the quality of natural resources and living organisms. Topics covered include soil, water, and air pollution; water, land, and food resources; wildlife management and species endangerment; toxicology and risk management; and solid and hazardous waste management. Credit is awarded for only one of ENSC 002 or ENSC 002H.

ENSC 002H Honors Introduction to Environmental Science: Environmental Quality 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ENSC 002. An introduction to environmental science, focusing on the impact of human development and technology on the quality of natural resources and living organisms. Topics covered include soil, water, and air pollution; water, land, and food resources; wildlife management and species endangerment; toxicology and risk management; and solid and hazardous waste management. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ENSC 002 or ENSC 002H.

ENSC 003 Contemporary Issues in the Environmental Sciences 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An issue-oriented approach to understanding the scientific principles behind environmental issues. Case studies of environmental issues appearing in the mass media provide the context for assessing the status of scientific knowledge and its role in human decision making. Credit awarded for only one of ENSC 003 or ENSC 003H.

ENSC 003H Honors Contemporary Issues in the Environmental Sciences 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ENSC 003. An issue-oriented approach to understanding the scientific principles behind environmental issues. Case studies of environmental issues appearing in the mass media provide the context for assessing the status of scientific knowledge and its role in human decision making. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ENSC 003 or ENSC 003H.

ENSC 006 Introduction to Environmental Economics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the basic principles of economics and their application to problems of environmental quality and natural resource utilization. Emphasis is on the failure of markets as a cause of environmental degradation and the role of government in resolving problems of resource scarcity. Does not satisfy the Natural Science breadth requirement for the College of Humanities, Arts, and Social Sciences. Cross-listed with ECON 006.

Upper-Division Courses

ENSC 100 Introduction to Soil Science 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHEM 001C, CHEM 01LC or CHEM 01HC, CHEM 01HLC; ENSC 001, may be taken concurrently or ENSC 001H, may be taken concurrently or ENSC 002, may be taken concurrently or ENSC 002H, may be taken concurrently or CEE 010; or consent of instructor. Explores the fundamental principles of soil science and soils as a natural resource. Introduces the morphology, physics, chemistry, microbiology, fertility, classification, development, and management of soils in relation to the environment.

ENSC 101 Water Resources 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHEM 001C, CHEM 01LC or CHEM 01HC, CHEM 01HLC; ENSC 001, may be taken concurrently or ENSC 001H, may be taken concurrently or ENSC 002, may be taken concurrently or ENSC 002H, may be taken concurrently; or consent of instructor. An introduction to the hydrologic cycle. Covers water sources, distribution, and conveyance; physical, chemical, and biological properties of water; water treatment and reuse; and regulatory framework.

ENSC 102 Introductory Atmospheric Science 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CHEM 001C, CHEM 01LC or CHEM 01HC, CHEM 01HLC; ENSC 001, may be taken concurrently or ENSC 001H, may be taken concurrently or ENSC 002, may be taken concurrently or ENSC 002H, may be taken concurrently; or consent of instructor. Covers the structure of the atmosphere and man's impact upon it. Explores the causes and consequences of air pollution. Addresses air quality standards and the stratospheric and tropospheric ozone. Also introduces the chemistry of air pollution and air pollution control strategies.

ENSC 103 Environmental Pollution and Health 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 001, ENSC 002. Focuses on the history, theory, and practice of assessing, understanding, and mitigating impacts of the natural and built environment on human health. Reviews core disciplines that underpin the field of environmental health as well as case studies from industrialized, emerging, and developing countries around the world. Cross-listed with ENTX 103.

ENSC 104 Environmental Soil Chemistry 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 005 or ENSC 100 or consent of instructor. Quantitative study of the chemistry of the solid, liquid, and gas phases in soils and sediments. Topics include solid and solution speciation, mineral solubility, ion exchange and adsorption reactions, oxidation-reduction, and the chemistry of organic contaminants and toxic trace elements in soils.

ENSC 105 Ecohydrology 4 Lecture, 3 hours; discussion, 1 hour; field trip, 4 hours per quarter. Prerequisite(s): ENSC 002 or ENSC 002H. Introduction to the role of water in ecosystems. Explores the movement of water through ecosystems and interactions with biota across a range of climatic and ecological zones. Examines the major human impacts on hydrology and their ecological and environmental implications. Field trips to representative hydrological systems.

ENSC 107 Soil Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB; PHYS 002A or PHYS 02HA; ENSC 100; or consent of instructor. Topics include physical properties of soils and methods of evaluation. Emphasizes movement of water, heat, gases, and chemicals through soil.

ENSC 110 Environmental Statistics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB; STAT 100A or STAT 048. Introduces the use of computers to solve mathematical problems arising in environmental sciences. Applies various computational methods (which include linear regression, optimization, Monte Carlo simulation, and data assimilation) to real climate/environmental examples using MATLAB.

ENSC 120 Soil Ecology 3 Lecture, 3 hours. Prerequisite(s): BIOL 002; or both BIOL 005A and BIOL 05LA; both CHEM 001C and CHEM 01LC (or both CHEM 01HC and CHEM 1HLC); ENSC 100; or consent of instructor. Examination of soil biota and their relationships with plants and the soil environment. Emphasizes soil biotic interactions that influence soil fertility, plant disease, and plant growth. Examines the importance of the different microbial and faunal groups from the rhizosphere to the ecosystem level. Cross-listed with NEM 120.

ENSC 127 Fate and Transport of Contaminants in the Environment 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 100; MATH 007B or MATH 009B or MATH 09HB; or consent of instructor. Topics include interactions of environmental conditions with abiotic and biotic transformation and transport of major organic and inorganic contaminants in the

environment.

ENSC 130 Weather and Climate 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 001 or ENSC 001H; or consent of instructor. Introduces basic principles of atmospheric dynamics on both short and long-term time scales with a focus on current examples and in-class demonstrations. Basic concepts related to atmospheric dynamics such as wind, the radiation budget, precipitation, and natural disasters will be covered, along with core principles of long-term changes.

ENSC 133 Environmental Microbiology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C; or consent of instructor. Introduction to nonpathogenic microorganisms in the environment. Topics include an introduction to microbial biology and microbial and metabolic genetic diversity; methods; symbiotic interactions; biofilms; and geomicrobiology and biogeochemistry. Explores life in extreme environments and the effects of the physical and chemical environment on microbes. Cross-listed with MCBL 133.

ENSC 134 Soil Conditions and Plant Growth 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 104/BPSC 104 or ENSC 100; or consent of instructor. A study of the chemical, physical, and biological properties of soils and their influence on plant growth and development. Topics include soil-plant water relations; fundamentals of plant mineral nutrition; soil nutrient pools and cycles; soil acidity, alkalinity, salinity, and sodicity; root symbioses; and rhizosphere processes. Cross-listed with BPSC 134.

ENSC 135 Atmospheric Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, or consent of instructor; ENSC 102 recommended. Structure of the troposphere and stratosphere; formation of atmospheric ozone; tropospheric NO_x chemistry; methane oxidation cycle; phase distributions of chemicals; wet and dry deposition; chemistry of volatile organic compounds; formation of photochemical air pollution; modeling of air pollution and control strategies; stratospheric ozone depletion and global warming. Cross-listed with CHEM 135, and ENTX 135.

ENSC 136 Chemistry of Natural Waters 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 005 with a grade of "C-" or better or ENSC 101 with a grade of "C-" or better or consent of instructor. Introduction to processes controlling the chemical composition of natural waters. Topics include chemical equilibria, acid-base and coordination chemistry, oxidation-reduction reactions, precipitation-dissolution, air-water exchange, and use of equilibrium and kinetic models for describing marine nutrient, trace metal, and sediment chemistry. Cross-listed with CHEM 136.

ENSC 138 Pedology 4 Lecture, 3 hours; laboratory, 6 hours; field, 24 hours. Prerequisite(s): ENSC 100; GEO 001; or consent of instructor. Covers the study of soils in natural environments. Examines how

soils form and their roles within ecosystems and landscapes. Topics include soil variability, soil classification, and soils as indicators of environmental conditions. Field trips emphasize description and interpretation of soils. Requires two 3-hour Laboratory activities and four 6-hour Field Trips. Cross-listed with GEO 138.

ENSC 139 Soils and Landforms of

California 1 Term paper, 6 hours; field, 24 hours. Prerequisite(s): ENSC 138, may be taken concurrently or GEO 138, may be taken concurrently; or consent of instructor. Explores the genesis, morphology, and classification of California soils with an emphasis on soil-landform relationships. One three-day field trip focuses on soils and landforms within selected regions of California. Cross-listed with GEO 139.

ENSC 140 Limnology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 101; or consent of instructor. A study of surface waters. Considers in detail the physical and chemical processes in surface waters, aquatic biology, ecosystem dynamics, and aspects of surface water quality and modeling.

ENSC 141 Public Health Microbiology 4 Lecture, 4 hours. Prerequisite(s): BIOL 002 or BIOL 005A; BIOL 05LA or BIOL 020; BIOL 003 or BIOL 005B; upper-division standing; or consent of instructor. Introduction to transmission of human pathogenic microorganisms through environmental media, including drinking water, wastewater, food, and air. Topics include characterization of environmentally transmitted pathogens, microbial risk assessment, sampling and detection methods for microorganisms in environmental samples, food and waterborne disease outbreaks, wastewater reuse, and microbial regulations and standards. Cross-listed with MCBL 141.

ENSC 144 Solid Waste Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 002 or BIOL 005A, BIOL 05LA; CHEM 001C, CHEM 01LC or CHEM 01HC, CHEM 01HLC; ENSC 001 or ENSC 001H, ENSC 002 or ENSC 002H or ENVE 171; MATH 007B or MATH 009B or MATH 09HB; or consent of instructor. A study of the characterization, collection, transportation, processing, disposal, recycling, and composting of municipal solid waste. Emphasizes accepted management strategies and design procedures for recovering or disposing solid wastes while protecting public and environmental well-being. Cross-listed with ENVE 144.

ENSC 153 Ecological Economics and

Environmental Valuation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 006/ ENSC 006 or consent of instructor. Survey of environmental valuation and economy-wide, long time-scale issues. Valuation methods covered include hedonic pricing, weak complements, contingent valuation, and ecosystem services. Environmental macroeconomic topics include population growth, biophysical constraints to economic growth, intertemporal welfare and sustainability, and sustainable development.

ENSC 163 Hydrology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 100; ENSC 101; MATH 007B or MATH 009B or MATH 09HB; STAT 100B; or consent of

instructor. Introduction to the scientific study of the hydrologic cycle. Covers the measurement and evaluation of hydrologic phenomena including the use of statistical methods. Explores computer techniques in hydrology with applications to water resource development and water quality problems, particularly those in California.

ENSC 165 Principles of Groundwater

Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001B; ENSC 101; MATH 007B or MATH 009B or MATH 09HB. Covers the fundamental understanding of groundwater resources and aquifer properties. Explores physical principles of fluid flow in sediments and rocks, surface water-groundwater interactions, and contaminant transport. Discusses current issues in groundwater management and sustainability with an emphasis on California water resources. Students present topics related to groundwater science and management.

ENSC 172 Principles of Environmental Impact

Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 006/ENSC 006; two of the following ENSC courses: ENSC 100, ENSC 101, ENSC 102; or consent of instructor. Explores the principles and theories of analyzing environmental interactions. Provides a critical analysis of methodologies for assessing the physical, biological, and social impacts on the environment by human activities. Synthesizes the subject matter through preparation of an environmental impact report.

ENSC 174 Law, Institutions, and the

Environment 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ECON 006/ENSC 006; one of the following ENSC courses: ENSC 100, ENSC 101, ENSC 102; or consent of instructor. Introduction to natural resource ownership, protection, and regulation in the institutional environment of local, state, and federal laws, implementing agencies, and competing interests. Examines decision making in the context of the rights and limits of both private parties and the broad public interest in the use and protection of resources.

ENSC 175 Spatial Analysis and Remote Sensing

For Environmental Sciences 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): STAT 100B or consent of instructor. Explores the principles of spatial data analysis in environmental sciences. Provides comprehensive and systematic understanding of spatial analysis methods; Covers theory of remotely sensed data acquisition from satellites and UAVs, and discusses image analysis techniques. Students will utilize Geographic Information Systems (GIS), statistical and image classification software.

ENSC 177 Environmental Sampling and

Analysis 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): two of the following courses ENSC 100, ENSC 101, ENSC 102; or consent of instructor. Introduces sampling, preparation and quantitative analysis of environmental samples. Topics include environmental sampling design; sampling techniques; quality assurance/quality control (QA/QC); data collection and reporting; sample preparations; extraction and cleanup; chemical separations (chromatography); and instrumental detection methods relevant to quantitative environmental

analysis.

ENSC 190 Special Studies 1 to 5 variable hours. Prerequisite(s): upper-division standing and consent of instructor. Special studies as a means of meeting special curricular problems. Graded Satisfactory (S) or No Credit (NC); however, students may petition the instructor for a letter grade. Course is repeatable.

ENSC 191 Seminar in Professional Development in Environmental Sciences 2

Seminar, 2 hours. Prerequisite(s): upper-division standing in Environmental Sciences or consent of instructor. Lectures and discussions on scientific writing, critical analysis in reading, public speaking, job interview and resume preparation, and professional conduct. Students make both written and oral presentations on topics in Environmental Sciences.

ENSC 197 Research For Undergraduates 1

to 4 Research, 3 to 12 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; and consent of instructor. Individual research on a problem relating to environmental science to be conducted under the guidance of an instructor. Maximum of 4 units (with a letter grade) may count toward the upper-division elective requirement. Course is repeatable to a maximum of 8 units.

ENSC 198I Internship in Environmental

Sciences 1 to 12 Field, 3 to 36 hours. Prerequisite(s): upper-division standing and consent of instructor. An academic internship involving participation in a functional capacity in the enhancement or maintenance of environmental quality. Conducted under the joint supervision of an off-campus sponsor and a faculty member in Environmental Sciences. One unit of credit for every three hours per week spent in internship. Graded Satisfactory (S) or No Credit (NC), but in exceptional cases student may petition for a letter grade. Course is repeatable to a maximum of 16 units.

Graduate Courses

ENSC 200 Fate and Transport of Chemicals in the Environment 4

Lecture, 4 hours. Prerequisite(s): CHEM 109 or CHEM 110B; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08LHC; or consent of instructor. Covers identification of toxicants and their sources in the environment; equilibrium partitioning of chemicals between air, water, soil, sediment, and biota using physico-chemical properties; and the transport and transformations of chemicals in air, water, and soil media. Includes case studies of fate and transport of selected toxic chemicals. Cross-listed with CHEM 246, and ENTX 200.

ENSC 203 Human and Ecological Risk

Assessment 3 Lecture, 3 hours. Prerequisite(s): ENTX 200, ENTX 201. Focuses on history, theory, and practice of predicting, managing, and communicating potential human health and environmental risks of hazardous chemicals. Reviews fundamental components and explores uncertainties, probabilistic approaches, and real-world challenges of risk analysis. Cross-listed with ENTX 203.

ENSC 204 Fluvial Geomorphology 4 Lecture, 4 hours; two four-hour field trips. Prerequisite(s): graduate standing or consent of instructor. Advanced inquiry into the processes that produce fluvial landforms. The topics of erosion, sediment transport and deposition and their roles in the creation and evolution of river channels, wetlands and floodplains are explored from first principles. Field trips to representative fluvial geomorphic systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ENSC 206 Environmental Policy and Law 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing, POSC 010 or POSC 010H or POSC 010W, POSC 020 or POSC 020H; or consent of instructor. An introduction to the process and politics of environmental regulation in the United States and the negotiation and implementation of international environmental accords. Uses social scientific methods of analysis to investigate specific issues such as air quality, energy, and biodiversity. Cross-listed with POSC 206.

ENSC 207 Surface Water Quality Modeling 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to the principles of surface water quality modeling. Explores mathematical representations of surface water systems. Reviews theory and develops analytical and numerical solutions to describe hydrodynamics and mixing in surface waters, surface water quality, eutrophication, and the cycling and fate of contaminants in lake and river ecosystems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ENSC 208 Ecotoxicology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; BIOL 005B; CHEM 008A, CHEM 08LA or CHEM 08HA, CHEM 08HLA; CHEM 008B, CHEM 08LB or CHEM 08HB, CHEM 08HLB; graduate standing; or consent of instructor. Introduction to the impact of chemicals upon ecological systems. Examines the fate and effects of environmental chemicals in various hierarchies of biological organization to learn how to carry out precise and accurate assessments of ecological risk. Cross-listed with ENTX 208.

ENSC 210 Integrated Hydrologic Modeling 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 107; ENSC 163 or ENSC 165; graduate standing; or consent of instructor. Explores the principles of surface and subsurface flow for water resources modeling. Provides comprehensive and systematic understanding of hydrologic modeling process, model implementation, optimization, and evaluation. Emphasizes integrated surface water-subsurface water models and movement of water, heat, gases, and chemicals through soil.

ENSC 217 Vadose Zone Processes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 107; or consent of instructor. Studies physical and mathematical descriptions of transient flow and transport processes in the vadose zone. Emphasizes numerical solutions to equations describing the movement of water, gas, contaminants, and heat including chemical

and biological reactions. Explores mathematical models for direct and inverse solutions, spatial heterogeneity, and determination of soil hydraulic properties.

ENSC 218 Isotopes in Ecology and Environmental Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; both CHEM 001C and CHEM 01LC or both CHEM 01HC and CHEM 1HLC. Explores the principles and techniques of isotope tracer fractionation and mixing commonly used in ecology and environmental science. Introduces isotope notation, mixing models, and kinetic and equilibrium fractionation concepts. Includes case studies involving stable- and radioisotopes of carbon, nitrogen, oxygen, and sulfur. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 4 units.

ENSC 227 Global Change and the Earth System 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor; ENSC 232 is recommended. Examines the fundamental principles of earth system science in the context of global change. Emphasizes contemporary research on the relationship between humans and the Earth's environment. Topics include the earth system prior to human influence; the Anthropocene era (1850 to present); the responses of the Earth's support machinery to human activities; consequences of global change for human well-being; and pathways towards global sustainability. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ENSC 232 Biogeochemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. A study of the biogeochemical cycling and exchange of carbon and important nutrients (N, S, base cations) between the lithosphere, hydrosphere, and atmosphere. Quantitatively describes processes at scales ranging from local to global. Addresses modern concerns about water and atmospheric quality, including global climate change.

ENSC 240 Multiphase Atmospheric Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 135/ENSC 135/ ENTX 135; or consent of instructor. Explores chemical transformation of inorganic and organic trace gases in the atmosphere and multiphase processes leading to production and aging of atmospheric aerosols. Also discusses recent literature in the field of tropospheric chemistry and aerosol formation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ENSC 245 Chemistry and Physics of Aerosols 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 109, CHEM 110B; or consent of instructor. Fundamentals of chemical and physical processes controlling behavior and properties of airborne particles. Topics include particle mechanics; electrical, optical, and thermodynamic properties; nucleation; surface and aqueous-phase chemistry; gas-particle partitioning; sampling; size and chemical analysis; atmospheric aerosols; and environmental effects. Cross-listed with CHEM 245 and ENTX 245.

ENSC 265 Special Topics in Earth and Environmental Sciences 1 to 3 Seminar, 1 to 3 hours. Prerequisite(s): graduate standing. Involves oral presentations and small-group discussions of selected topics in the areas of biogeochemistry, global climate change, geomicrobiology, earth surface processes, and interplanetary life. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes to a maximum of 10 units. Cross-listed with GEO 265.

ENSC 275 Research Seminar in Environmental Sciences 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Involves seminars by faculty, visiting scholars, environmental professionals, and advanced graduate students on current research topics in Environmental Sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENSC 290 Directed Studies 1 to 6 Consultation, 1 to 3 hours; individual study, 1 to 15 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Individual study of selected topics in Environmental Sciences under faculty direction. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENSC 292 Concurrent and Advanced Studies 1 to 4 written work, 1 to 4 hours; individual study, 1 to 4 hours; research, 1 to 4 hours. Prerequisite(s): graduate standing or consent of instructor; Designed to allow graduate students to receive specialized training in fields not covered by current graduate courses. Elected concurrently with 100-series courses in Environmental Sciences, or other upper division courses on an individual basis. Devoted to one or more graduate projects expanding on materials covered in the 100-series course. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

ENSC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Individual research performed under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENSC 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing or consent of instructor. Research in environmental sciences for the M.S. thesis or Ph.D. dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

ENSC 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): graduate standing Supervised teaching in Environmental Sciences or related courses. Required of all teaching assistants in Environmental Sciences. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ENSC 401 Professional Development in Environmental Sciences 2 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Introduces students to strategies for successful graduate study and early career development. Consists of lectures, discussions and presentations

covering research and professional ethics, grant/fellowship writing, and preparation of technical journal articles. Addresses effective job search skills, including preparation of curriculum vitae, networking, effective oral presentations, and job interviews. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

Graduate Program

The program offers the M.S. and Ph.D. degrees in Environmental Toxicology.

The interdepartmental graduate program in Environmental Toxicology has participating faculty from the departments of Biochemistry, Botany and Plant Sciences, Molecular, Cell, and Systems Biology, Chemical and Environmental Engineering, Chemistry, Entomology, Electrical and Computer Engineering, Environmental Sciences, Philosophy, and Microbiology and Plant Pathology

The goal of the program is to train toxicologists capable of directing research in areas of environmental toxicology. Areas of specialization include biochemical toxicology and chemical toxicology. To attain this goal, a three-tiered curriculum has been designed whereby students must complete

1. A core of courses in environmental toxicology: ENSC 200/ENTX 200/CHEM 246, ENTX 201, ENTX 201L, ENTX 202, ENTX 270

2. A selection of elective courses in environmental toxicology and other relevant fields chosen in consultation with the student's major professor and the Guidance Committee to develop depth in particular areas of specialization

3. Research training in specific areas of environmental toxicology

The program stresses the importance of innovative and independent laboratory research as the major component of the student's education.

Admission

Students must have a B.A. or B.S. degree from an accredited institution and an academic record that satisfies the minimum admission standards established by the UCR Graduate Division. In addition, results from the GRE General Test (verbal, quantitative, analytical) must be submitted at the time of application. Although no specific undergraduate degree specialization is required, applicants should have adequate backgrounds in the basic physical sciences such as chemistry, physics, and mathematics as well as in the biological sciences.

Course Work

Normally, students admitted to regular standing have satisfied all prerequisite course work. Under special circumstances, students who have not completed all undergraduate requirements may be admitted provided that these deficiencies are corrected early in their graduate studies. Deficiencies must be corrected by taking the appropriate course work if undergraduate or other previous training has not included the following:

- One year of general biology
- One year of general physics
- One year of calculus
- One year of general chemistry
- One year of organic chemistry
- One upper division course in general biochemistry
- One upper division course in molecular biology
- One upper division course in statistics

Students who meet all the undergraduate entrance requirements should be able to complete the core Environmental Toxicology requirements in the first year and most electives by the end of the second year.

Professional Development

Students receive trainings on writing and oral presentation by completing an annual progress report, and giving an oral presentation on their research at the Annual Student Symposium (part of the ENTX 271 course). They complete Teaching Assistant Training through a workshop offered by Graduate Division. They attend special seminars (part of the ENTX 270) given by speakers from industry, government agencies, or other professions on career and professional development, and other special topics relevant to professional development, including research integrity and lab safety.

Laboratory Rotation

All students participate in laboratory rotation through enrollment in ENTX 201L. Students spend time in one laboratory per quarter familiarizing themselves with research techniques

utilized in the laboratory of an Environmental Toxicology faculty member. Rotation laboratories are chosen in consultation with the graduate advisor and individual faculty members. Students may enroll in up to three quarters of laboratory rotation before declaring a major professor. Students who wish to declare a major professor after one quarter are not required to enroll for additional laboratory rotation. The major professor serves as chair of the student's Guidance and Dissertation committees.

Guidance Committee

Each graduate student establishes a guidance committee which participates in the annual student progress evaluation procedure and advises the student on curriculum and research. The committee consists of the major professor plus at least two other faculty, one of whom must be a member of the Environmental Toxicology Program. Each student, in consultation with the major professor, nominates the members of the guidance committee. The committee must be named by the end of the quarter in which the student selects a major professor. The composition of the guidance committee must be approved by the curriculum and student affairs committee.

Master's Degree

The program offers the M.S. degree in Environmental Toxicology.

Students enrolling in the master's degree program must meet the requirements for the Plan I of the UCR Graduate Council, take core courses as described above, and submit an acceptable thesis.

Plan I (Thesis)

Thirty-six (36) units, of which 24 must be in graduate-level courses, are required. No more than 12 units of ENTX 290, ENTX 297, and ENTX 299 may be used to satisfy the unit requirement. All students must enroll in the Environmental Toxicology seminar (ENTX 270 and ENTX 271) each quarter offered, although no more than 3 units from seminar courses can be accrued towards degree credit. A final draft of the thesis is to be given to the thesis committee two weeks before the final oral examination. A final oral examination consists of an open research seminar, presented by the candidate and advertised to all the students and faculty in the Environmental Toxicology Program. Following the seminar, the student is questioned by the guidance committee on the thesis research and on matters related to the general field of the thesis research.

Normative Time to Degree

6 quarters

Doctoral Degree

The program offers the Ph.D. degree in Environmental Toxicology.

Students must meet general university requirements of the Graduate Division as found in the Graduate Studies section of this catalog.

Course Work

Beyond the required core sequence, all students must enroll in the Environmental Toxicology seminar (ENTX 270 and ENTX 271) each quarter offered, and complete a program of courses to be approved by the guidance committee. All course

work schedules are submitted to the graduate advisor for approval. The Ph.D. degree is awarded when the student passes the preliminary and qualifying examinations and demonstrates an ability to do original research by preparation and submission of an acceptable dissertation.

Preliminary Examination

The preliminary examination is a standardized, written test generally offered once a year prior to the beginning of the fall quarter. Students normally take it following the completion of the core curriculum. The examination must be satisfactorily completed in order to enroll for the seventh academic quarter in the Ph.D. program. The examination consists of questions related to environmental, organismal and suborganismal aspects of toxicology. These questions are designed to test the student's ability to synthesize and integrate concepts in toxicology, rather than merely reiterate the material covered in the Environmental Toxicology core curriculum. The examination is administered by a committee consisting of the faculty members involved in teaching the core curriculum. On the basis of the results of this examination, the committee recommends appointment of a faculty qualifying committee, additional course work in specific area(s) of weakness, transfer to a terminal master's program, or withdrawal from the program. In exceptional circumstances, the preliminary examination can be taken a second time.

Oral Qualifying Examination

The qualifying examination is an oral examination conducted by the qualifying committee. The qualifying committee, appointed by the graduate dean from nominations made by the faculty, is composed of the student's major professor and four additional members, one of whom must be from outside the Graduate Environmental Toxicology group. It covers the student's area of specialization and research field as well as general subjects at the discretion of the qualifying committee. The qualifying examination must be successfully completed by the end of the ninth quarter of full-time enrollment in the Ph.D. program. Under exceptional circumstances, the qualifying examination may be taken a second time. Upon successful completion of the qualifying examination, the student is advanced to candidacy.

Dissertation and Final Oral Examination

A dissertation committee composed of at least three members is appointed by the graduate dean shortly after advancement to candidacy. Students must submit a dissertation based on independent, original research acceptable to all dissertation committee members. A final draft of the dissertation is to be given to the committee two weeks before the dissertation defense seminar.

Before approval of the dissertation, students must present their research orally at a thesis defense seminar. The seminar must be advertised to the campus community and is open to all who wish to attend. Following the seminar, the student is questioned by the dissertation committee on the thesis research and on matters related to the general field of the thesis research.

Teaching Requirement

Ph.D. students must fulfill a two-quarter teaching requirement.

Normative Time to Degree

15 quarters

Upper-Division Courses

ENTX 101 Fundamental Toxicology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; BIOL 005B; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC; or consent of instructor. Fundamental concepts relating to the adverse effects of chemical agents. Topics covered include dose-response relationships, absorption, distribution, metabolism, excretion, mechanisms of toxicity, and the effects of selected environmental toxicants on various organ systems. Characterization and assessment of risks are also covered.

ENTX 103 Environmental Pollution and

Health 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENSC 001, ENSC 002. Focuses on the history, theory, and practice of assessing, understanding, and mitigating impacts of the natural and built environment on human health. Reviews core disciplines that underpin the field of environmental health as well as case studies from industrialized, emerging, and developing countries around the world. Cross-listed with ENSC 103.

ENTX 125 Pesticides, Biological Organisms, and the Environment 3

Lecture, 3 hours. Prerequisite(s): two of the following courses; BIOL 005A; BIOL 005B; BIOL 005C; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC. An introduction to the chemistry, mode of action, and use of insecticides, acaricides, herbicides, and biopesticides from discovery to environmental interactions. Includes genetics of pesticide resistance development and government regulation. Cross-listed with ENTM 125, and PLPA 125.

ENTX 135 Atmospheric Chemistry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, or consent of instructor; ENSC 102 recommended. Structure of the troposphere and stratosphere; formation of atmospheric ozone; tropospheric NO_x chemistry; methane oxidation cycle; phase distributions of chemicals; wet and dry deposition; chemistry of volatile organic compounds; formation of photochemical air pollution; modeling of air pollution and control strategies; stratospheric ozone depletion and global warming. Cross-listed with CHEM 135, and ENSC 135.

ENTX 150 Cancer Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A or CBNS 101 (may be taken concurrently with consent of instructor). Explores the origin, development, and treatment of cancer with emphasis on molecular mechanisms. Covers topics such as oncogenes, tumor suppressors, cell cycle and differentiation, AIDS, and hereditary and environmental factors in the development of cancer. Cross-listed with

CBNS 150.

ENTX 154 Risk Assessment 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENTX 101; STAT 100A or equivalent; or consent of instructor. An introduction to the basic principles and methods by which health risks associated with exposure to chemical and physical agents are determined. Topics include hazard identification, dose response and exposure assessments, as well as risk characterization and management.

Graduate Courses

ENTX 200 Fate and Transport of Chemicals in the Environment 4

Lecture, 4 hours. Prerequisite(s): CHEM 109 or CHEM 110B; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC; or consent of instructor. Covers identification of toxicants and their sources in the environment; equilibrium partitioning of chemicals between air, water, soil, sediment, and biota using physico-chemical properties; and the transport and transformations of chemicals in air, water, and soil media. Includes case studies of fate and transport of selected toxic chemicals. Cross-listed with CHEM 246 and ENSC 200.

ENTX 201 Principles of Toxicology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): BCH 110A or BCH 110HA, BCH 110B or BCH 110HB; or consent of instructor. The structure-activity and dose-response relationships of environmental toxicants; their absorption, distribution, metabolism, and excretion; and evaluation of their toxicity and factors that influence toxicity. Quantitative methods in measuring acute and chronic toxicity.

ENTX 201L Laboratory Rotation 2 Laboratory, 6 hours. Prerequisite(s): graduate standing in Environmental Toxicology. Introduction to research techniques in biochemical and chemical toxicology. Students will spend time in a laboratory to familiarize themselves with research topics and techniques. Graded Satisfactory (S) or No Credit (NC).

ENTX 202 Mechanisms of Toxicity 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; ENTX 201; or consent of instructor. Biochemical and physiology mechanisms underlying the toxicity of environmental toxicants. The interaction of toxicants with subcellular components and macromolecules with emphasis on mechanism of action, in particular neurotoxicity of pesticides, chemical carcinogenesis, mutagenesis, and teratogenicity.

ENTX 203 Human and Ecological Risk

Assessment 3 Lecture, 3 hours. Prerequisite(s): ENTX 200, ENTX 201. Focuses on history, theory, and practice of predicting, managing, and communicating potential human health and environmental risks of hazardous chemicals. Reviews fundamental components and explores uncertainties, probabilistic approaches, and real-world challenges of risk analysis. Cross-listed with ENSC 203.

ENTX 204 Genome Maintenance and

Stability 4 Lecture, 3 hours; discussion, 1 hour.

Prerequisite(s): BCH 110C or BCH110HC or BIOL 107A; BIOL 113 or BIOL 114 or CBNS 101; BIOL 102 is strongly recommended. Emphasizes chromosome-based processes that maintain genome integrity and ensure accurate genome transmission during cell division. Topics are drawn from the primary literature and include chromatin structure and composition, DNA repair and recombination, telomere function and chromosome maintenance, mitotic chromosome segregation, and checkpoint surveillance mechanisms. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CMDB 204, and BCH 204.

ENTX 205 Biotransformation of Organic

Chemicals 4 Lecture, 4 hours. Prerequisite(s): CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; BCH 110A; BCH 110B ; BCH 110C or equivalents; or consent of instructor. Explores the catalytic activities and regulatory pathways of Phase I (e.g., cytochromes P450) and Phase II (e.g., Uridine Diphosphate Glucuronosyl-Transferase) enzymes involved in organic chemical biotransformation. Demonstrates the contribution of biotransformation in toxicology.

ENTX 208 Ecotoxicology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; BIOL 005B; CHEM 008A, CHEM 08LA or CHEM 08HA, CHEM 08HLA; CHEM 008B, CHEM 08LB or CHEM 08HB, CHEM 08HLB; graduate standing; or consent of instructor. Introduction to the impact of chemicals upon ecological systems. Examines the fate and effects of environmental chemicals in various hierarchies of biological organization to learn how to carry out precise and accurate assessments of ecological risk. Cross-listed with ENSC 208.

ENTX 245 Chemistry and Physics of

Aerosols 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 109, CHEM 110B; or consent of instructor. Fundamentals of chemical and physical processes controlling behavior and properties of airborne particles. Topics include particle mechanics; electrical, optical, and thermodynamic properties; nucleation; surface and aqueous-phase chemistry; gas-particle partitioning; sampling; size and chemical analysis; atmospheric aerosols; and environmental effects. Cross-listed with CHEM 245, and ENSC 245.

ENTX 252 Special Topics in Environmental

Toxicology 1 to 3 Seminar, 1 to 3 hours.

Prerequisite(s): graduate standing. Involves oral presentations and intensive small-group discussions of selected topics in the area of special competence of each participant Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 20 units.

ENTX 270 Seminar in Environmental

Toxicology 1 Seminar, 1 hour. Prerequisite(s): graduate status in Environmental Toxicology. Lectures by visiting scholars and staff on current research topics in Environmental Toxicology. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENTX 271 Seminar in Environmental

Toxicology 2 Seminar, 15 hours per quarter;

individual study, 15 to 20 hours per quarter.

Prerequisite(s): graduate standing in Environmental Toxicology. An interdisciplinary seminar consisting of student presentations of original research and discussion of current research topics in environmental toxicology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes to a maximum of 14 units.

ENTX 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate status in Environmental Toxicology. Literature or research topics under direction of the staff. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENTX 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate status in Environmental Toxicology Directed research performed towards the development of a dissertation problem or other research performed under the direction of staff. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

ENTX 299 Research For Thesis Or Dissertation 1

to 12 Research, 3 to 36 hours. Prerequisite(s): graduate status in Environmental Toxicology. Research performed under the direction of a faculty member towards a thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

Majors

Ethnic Studies is the systematic, relational and critical study of the social construction of race, racism, and racial or ethnic subordination, and the history, culture, and contemporary experiences of racial or ethnic groups who have not been fully incorporated into U.S. society. Ethnic Studies is the interdisciplinary social and historical study of how different populations have experienced, survived, and critically engaged the United States nation-building project. We analyze the social dynamics of race, racism, and various forms of institutionalized violence, including land conquest, racist state violence, Spanish and Euroamerican colonialisms, U.S. imperialism, systemic sexual violence, racial genocide, chattel slavery, gendered militarization, legalized discrimination (apartheid and segregation), white supremacy, and the internalized logics of gender/racial domination and assimilation. We are especially engaged with the creative historical work of social movements, cultural and artistic productions, legal and public policy activism, indigenous and liberationist epistemologies, community and identity formation, and radical social and political thought. We examine how these different kinds of resistance, persistence, liberation struggle, and radical knowledge production both confront and transform oppressive conditions and create new possibilities for social change.

Individually and collectively, courses in Ethnic Studies forge strong scholarly and intellectual connections between the related fields of Native American, African American, Chicana/o,

and Asian American Studies. Ethnic Studies is committed to scholarly excellence, intellectual rigor, and making critical contributions to global discourses regarding the meaning of human freedom. As part of our pedagogical philosophy, we strive to provide an empowering literacy that expands students' social and political horizons, as well as the creative, critical thinking skills necessary to participate fully in society and the world.

The Department of Ethnic Studies offers majors leading to a B.A. degree in Ethnic Studies, African American Studies, Asian American Studies, Chicano Studies, and Native American Studies. Students may develop either a general emphasis in Ethnic Studies or a concentration on a specific group. The major enables students to study race and ethnicity in comparative perspective, to gain greater multicultural insight and understanding, and to prepare them to enter the workforce and function effectively and critically as informed citizens in a diverse multicultural society.

With the changing ethnic composition of society is a growing demand for individuals in education, government, and the private sector with knowledge and expertise in race and ethnic relations. An Ethnic Studies major also helps to prepare students for graduate or professional school and careers in a number of areas including education, law, human services, organizing and advocacy, social welfare, urban planning, and state and county government.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The Ethnic Studies Department offers a B.A. degree in Ethnic Studies, African American Studies, Asian American Studies, Chicano Studies, or Native American Studies.

Ethnic Studies Major

The major requirements for the B.A. degree in Ethnic Studies are as follows:

Core courses required of all majors

1. Lower-division requirements (12 units)
 - a) ETST 001
 - b) Two courses chosen from ETST 002, ETST 003, ETST 005, or ETST 007
2. Upper-division requirements (40 units)
 - a) ETST 101A or ETST 101B
 - b) ETST 100 or ETST 131
 - c) ETST 191R
 - d) Three courses chosen from three of the following areas of emphasis:
 - (1) African American Studies
 - (2) Asian American Studies
 - (3) Chicano Studies
 - (4) Native American Studies
 - e) Four courses chosen from Ethnic Studies courses that are comparative in nature

Note:

No internship courses may be counted toward the upper-division electives in Ethnic Studies.

African American Studies Major

The major requirements for the B.A. degree in African American Studies are as follows:

Core courses required of all majors

1. Lower-division requirements (12 units)
 - a) ETST 001
 - b) ETST 003
 - c) One chosen from ETST 002, ETST 005, or ETST 007
2. Upper-division requirements (40 units)
 - a) ETST 101A or ETST 101B
 - b) ETST 100 or ETST 131
 - c) ETST 109-I and ETST 191R
 - d) Sixteen (16) additional upper-division units in Ethnic Studies chosen from courses focusing on the African American experience
 - e) A minimum of one Ethnic Studies course chosen from two of the following four areas of emphasis (8 units)
 - (1) Asian American Studies
 - (2) Chicano Studies
 - (3) Native American Studies
 - (4) Comparative Issues

Note

No internship courses may be counted toward the upper-division electives in Ethnic Studies.

Asian American Studies Major

The major requirements for the B.A. degree in Asian American Studies are as follows:

Core courses required of all majors

1. Lower-division requirements (12 units)
 - a) ETST 001
 - b) ETST 005
 - c) One chosen from ETST 002, ETST 003 or ETST 007
2. Upper-division requirements (40 units)
 - a) ETST 101A or ETST 101B
 - b) ETST 100 or ETST 131
 - c) ETST 106 and ETST 191R
 - d) Sixteen (16) additional upper-division units in Ethnic Studies chosen from courses focusing on the Asian American experience
 - e) A minimum of one Ethnic Studies course chosen from two of the following four areas of emphasis (8 units)
 - (1) African American Studies
 - (2) Chicano Studies
 - (3) Native American Studies
 - (4) Comparative Issues

Note

No internship courses may be counted toward the upper-division electives in Ethnic Studies.

Chicano Studies Major

The major requirements for the B.A. degree in Chicano Studies are as follows:

Core courses required of all majors

1. Lower-division requirements (12 units):
ETST 001, ETST 002 and ETST 004/HIST 004
2. Upper-division requirements (40 units)
 - a) ETST 100A or ETST 101B
 - b) ETST 100 or ETST 131
 - c) ETST 191R
 - d) Four courses selected from two of the following areas of emphasis (16 units):
 - (1) Law
ETST 145/SOC 145, ETST 126, ETST 128/SOC 128, ETST 185, ETST 108-I
 - (2) Politics
ETST 123, ETST 125, ETST 111, ETST 132, ETST 142, ETST 156
 - (3) History and Culture
ETST 155, ETST 108E, ETST 108F, ETST 108-I, ETST 108P, ETST 122, ETST 125, ETST 128/SOC 128, ETST 146/EDUC 146, ETST 153/LNST 153, ETST 154, ETST 161, ETST 166
 - (4) Gender
ETST 124, ETST 114, ETST 127, ETST 175/GSST 175
 - e) One Senior Research Seminar (4 units)
 - f) One Internship course (4 units)
 - g) One additional elective upper-division course in Ethnic Studies

Note

No internship courses may be counted toward the upper-division electives in Ethnic Studies.

Native American Studies Major

The major requirements for the B.A. degree in Native American Studies are as follows:

Core courses required of all majors

1. Lower-division requirements (12 units)
 - a) ETST 001
 - b) ETST 007
 - c) One chosen from ETST 002, ETST 003 or ETST 005
2. Upper-division requirements (40 units)
 - a) ETST 101A or ETST 101B
 - b) ETST 100 or ETST 131
 - c) ETST 157, ETST 158 and ETST 191R
 - d) Sixteen (16) additional upper-division units in Ethnic Studies chosen from courses focusing on the Native American experience
 - e) One Ethnic Studies course chosen from one of the following four areas of emphasis (4 units)
 - (1) African American Studies
 - (2) Asian American Studies
 - (3) Chicano Studies
 - (4) Comparative Issues

Note

No internship courses may be counted toward the upper-division electives in Ethnic Studies.

Minors

The Ethnic Studies minor consists of 4 lower-division units, 20 upper-division units, and appropriate prerequisites as needed.

1. Lower-division requirement (4 units): ETST 001
2. Upper-division requirements (20 units)
 - a) ETST 100, ETST 131
 - b) Twelve (12) additional upper-division units in Ethnic Studies courses that are either comparative in nature or focus on African Americans, Asian Americans, Chicanos, or Native Americans (Courses must be approved by Ethnic Studies advisor.)

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

African American Studies Minor

The African American Studies minor consists of 4 lower-division units, 20 upper-division units, and appropriate prerequisites as needed.

1. Lower-division requirement (4 units): ETST 003
2. Upper-division requirements: 20 additional upper-division units in Ethnic Studies chosen from courses focusing on African Americans

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Asian American Studies Minor

The Asian American Studies minor consists of 4 lower-division units, 20 upper-division units, and appropriate prerequisites as needed.

1. Lower-division requirement (4 units): ETST 005
2. Upper-division requirements: 20 additional upper-division units in Ethnic Studies chosen from courses focusing on Asian Americans

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Chicano Studies Minor

The Chicano Studies minor consists of 4 lower-division units, 20 upper-division units, and appropriate prerequisites as needed.

1. Lower-division requirement (4 units): ETST 002 or ETST 004/HIST 004
2. Upper-division requirements: 20 additional upper-division units in Ethnic Studies chosen from courses focusing on Chicanos

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and

Programs section of this catalog for additional information on minors.

Native American Studies Minor

The Native American Studies minor consists of 4 lower-division units, 20 upper-division units, and appropriate prerequisites as needed.

1. Lower-division requirement (4 units): ETST 007
2. Upper-division requirements: 20 additional upper-division units in Ethnic Studies chosen from courses focusing on Native Americans

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Ethnic Studies offers M.A. and Ph.D. degrees in the interdisciplinary field of Ethnic Studies.

Admission

For the M.A. and Ph.D. degrees, students are admitted for the fall quarter of each academic year only. The basic requirement for admission into the programs is a bachelor's degree or its equivalent from an accredited institution with a major in any subject field.

Admission to the graduate program is based on the following criteria:

1. Prior academic performance, especially in undergraduate or graduate classes in Ethnic Studies or related fields.
2. Performance on the Graduate Record Examination.
3. Letters of recommendation from at least three persons familiar with an applicant's potential for achieving academic excellence. Two of the letters must be from professors in the applicant's major subject.
4. Compatibility between applicant's areas of interest and department's research and teaching emphases.
5. Quality of the writing sample. Applicants must submit a scholarly paper not to exceed 15-double spaced pages, such as a term paper, section of a thesis, or published work.
6. Completed application and materials (including transcripts) required from Graduate Division.

The Ethnic Studies website at ethnicstudies.

ucr.edu provides more details on the Ph.D. program, degree requirements, and application procedures. General Graduate Division university requirements are available on the Graduate Division website at graduatedivision.ucr.edu and in the Graduate Studies section of this catalog.

Master's Degree

The M.A. degree program is designed for students whose goal is to complete the M.A. as their ultimate objective. While completion of the M.A. degree does not lead to automatic admission into the Ph.D. program, successful students may be encouraged to apply to the Ethnic Studies Ph.D. program at UCR or to similar programs at peer campuses. The M.A. program is designed for students who wish to enhance their existing scholarly training and enhance their professional qualifications, or who hope to prepare themselves for admission into a relevant Ph.D. program.

Coursework

All students must complete the M.A. core curriculum. The minimum course unit requirement for completion of the M.A. is 36.

Course Requirements

The core Ethnic Studies M.A. graduate curriculum consists of two theory courses (ETST 200 and 201), and one methodology course (ETST 203). The remainder of each M.A. student's specific curricular program is structured in consultation with his or her assigned faculty mentor. The candidate must complete a minimum of 36 units of course work with a cumulative grade point average of 3.0 or better, which include the three core courses and at least 24 additional units in 200-series courses. At least 12 of these 24 additional units must be in Ethnic Studies. These courses cannot include ETST 297 or ETST 299. Eight (8) units of 100-series courses may be counted toward the unit requirement with the permission of the graduate advisor.

M.A. Completion

Plan II (Comprehensive Examination)

Graduate students are required to successfully complete a Written M.A. Examination by the end of their second year. The exam will test the student's knowledge of the methodological and theoretical foundations of the field of Ethnic Studies and will cover material from the required core courses as well as courses in the student's area(s) of specialization. This exam is evaluated by a faculty committee of the candidate's choosing. If the student passes this exam, the committee will recommend awarding of the M.A. degree in Ethnic Studies.

Normative Time to Degree:

Six quarters.

Doctoral Degree

The Department of Ethnic Studies offers the Ph.D. degree in the interdisciplinary field of Ethnic Studies. Students proceed through the graduate program from coursework to exams to fieldwork and writing the dissertation. The Ph.D. program prepares students for teaching and research careers in the private and public sector.

Coursework

All students, including those who have a master's degree at the time of admission, must

complete the basic core curriculum.

Course Requirements

The core Ethnic Studies graduate curriculum consists of two theory courses (ETST 200 and 201), one methodology course (ETST 203), and a graduate proseminar on professionalization (ETST 405). Where appropriate, students are encouraged to take an additional course in methodology (quantitative or qualitative), in addition to ETST 203. Students are also required to enroll in and attend the Ethnic Studies Colloquium during each quarter of the first two years of graduate work.

During the second year students will begin to select courses that are relevant to one or more of the following areas of specialization:

Area I: Theories of Race and Power

Area II: Cultural Politics and Production

Area III: The State, Law, and Social Transformation

Students are also encouraged to supplement regular curricular offerings by initiating individual or small-group reading courses with appropriate Ethnic Studies faculty (ETST 290's etc.) or with cooperating faculty in other CHASS departments.

First-year core requirements:

ETST 200 (Fall) History of Ideas in Ethnic Studies

ETST 201 (Winter) Contemporary Theories in Ethnic Studies

ETST 203 (Spring) Methodologies in Ethnic Studies

ETST 289 (Fall, Winter, Spring) Departmental Colloquium

Second-year core requirements:

ETST 289 (Fall, Winter, Spring) Departmental Colloquium

ETST 405 (Fall) Graduate Proseminar on Professionalism

Research and Teaching Requirements

A student's program must include at least one academic quarter of supervised research through enrollment in ETST 297 and/or by working as a research assistant. The equivalent of at least one academic quarter of college classroom teaching is also required of all students.

Grades

A student must complete courses in the core curriculum and the specialization areas with a grade of "B" or better in each course.

Ph.D. Written and Oral Qualifying Examinations

Written Qualifying Examination

Graduate students are required to successfully complete a Written Qualifying Examination by the end of the spring quarter of their second year. The exam will test the student's knowledge of the methodological and theoretical foundations of the field of Ethnic Studies and will cover material from the required core courses as well as courses in the student's area(s) of specialization. This exam is evaluated by a faculty committee. If the student passes this exam, the committee will recommend awarding of the M.A. degree in Ethnic Studies. If the M.A. is awarded, or if the

student already has an M.A. in Ethnic Studies, the faculty then votes on whether or not the student should continue in the Ph.D. program.

Oral Qualifying Examination

Students must compose, in consultation with a committee consisting of three to four faculty members, three written field statements that pertain to theoretical, methodological, and substantive foci related to the preparation of their dissertation.

Graduate students are required to successfully complete an Oral Qualifying Examination by the end of the winter quarter of their third year in which the student must display mastery over his/her three fields. If the oral exam is passed, the student will advance to candidacy.

Dissertation Prospectus

The Ph.D. candidate must also submit, no later than the fall quarter of their fourth year, a written prospectus outlining the topic, thesis, methods, resources, and timeline for the completion of the dissertation. The candidate must hold a Prospectus Meeting with Dissertation Committee members for final approval of the dissertation prospectus.

Foreign Language

Requirement There is no formal language requirement. However, in certain research areas a language requirement may be required if it is deemed that the language is germane to the student's research. In those cases where foreign language is required, competency can be established either by presenting evidence of satisfactory completion of the UCR Language Placement Exam, or by means of a translation test administered by the Graduate Affairs Committee.

Dissertation and Presentation

Doctoral students who have advanced to candidacy will research and write a dissertation under the guidance of a Dissertation Committee. The dissertation should focus on a specific aspect of the candidate's fields of study, and must conform to the format prescribed by the Graduate Council. After the Dissertation Committee approves the completed dissertation, the candidate must formally present his/her dissertation as part of the Departmental Colloquium series.

Normative time to degree:

The normative time for completion of the Ph.D. degree is six years.

Lower-Division Courses

ETST 001 Introduction to the Study of Race and Ethnicity 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s); none. ETST 001 will introduce students to major concepts and controversial issues in the study of race and ethnicity and shall provide a general overview of topics to be covered in more specialized Ethnic Studies courses. Credit is awarded for only one of ETST 001 or ETST 001H.

ETST 001H Honors Introduction to the Study of Race and Ethnicity 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ETST 001. Introduces students to major concepts and controversial issues in the study of

race and ethnicity. Provides a general overview of topics covered in more specialized Ethnic Studies courses as well as an introduction to the methodology of scholarly research. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ETST 001 or ETST 001H.

ETST 002 Introduction to Chicano Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides an overview of the Chicano experience from 1848 to the present, comparing and contrasting with the experiences of the dominant society and those of other racial and ethnic groups. Credit is awarded for only one of ETST 002 or ETST 002H.

ETST 002H Honors Introduction to Chicano Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ETST 002. Provides an overview of the Chicano experience from 1848 to the present, comparing and contrasting with the experiences of the dominant society and those of other racial and ethnic groups. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ETST 002 or ETST 002H.

ETST 003 Introduction to African American Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. This course is designed to provide an overview of the African American experience in the United States from antiquity to the present. It employs comparative and interdisciplinary perspectives. Emphasis is placed on examining the African American experience in a world context and comparing the African American experience to the experiences of other racial and ethnic groups.

ETST 004 Introduction to Chicano History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. The historical heritage of the Chicano from Spanish and Indian origins to the Chicano movement, with an emphasis on the period since 1845. Cross-listed with HIST 004.

ETST 005 Introduction to Asian American Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. This course provides an overview of the Asian experience in the United States from the mid-nineteenth century immigration to Hawaii and the U.S. Pacific coast to the present. The Asian experience is compared and contrasted with that of African Americans and Chicanos/Latinos.

ETST 005H Honors Introduction to Asian American Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ETST 005. Introduces students to major concepts and controversial issues in Asian American Studies. Provides a general overview of topics covered in more specialized Ethnic Studies courses as well as an introduction to the methodology of scholarly research. Satisfactory (S) or No Credit

(NC) grading is not available. Credit is awarded for only one of ETST 005 or ETST 005H.

ETST 007 Introduction to Native American Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. This course provides an overview of the Native American experience in the United States from antiquity to the present. The Native American experience is compared and contrasted with the experiences of the dominant society and those of other racial and ethnic groups.

ETST 007H Honors Introduction to Native American Studies in Comparative Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ETST 007. Provides an overview of the Native American experience in the United States from antiquity to the present. Compares and contrasts the Native American experience with the experiences of the dominant society and those of other racial and ethnic groups. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of ETST 007 or ETST 007H.

ETST 008 Introduction to Chicano Cultural Studies 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): none. Identifies the cultural process of the Chicano experience, beginning with the Chicano Movement, and discusses the ideas, beliefs, values, and the forms of consciousness that shaped this process. Introduces literary and cultural works such as essay, film, theatre, music, poetry, and art.

ETST 011 Language and Ethnicity in the Usa 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces the changing demographic, sociopolitical, and ideological issues surrounding language in the United States through an ethnic studies lens. Topics include the history of languages in the United States; language usage patterns; language policy; language and power; language rights; and how language is linked to individual, ethnic, and national identities.

ETST 012 Religious Myths and Rituals 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the meanings, origins, and functions of religion; the roles of myths, rituals, and symbols; and images of transcendence. Examines religious beliefs and expressions from diverse cultural perspectives. Utilizes materials from indigenous Native (North and South) American, African American, and/or Asian American religions. Cross-listed with RLST 012. Credit is awarded for only one of ETST 012/RLST 012 or ETST 012H/RLST 012H.

ETST 012H Honors Religious Myths and Rituals 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ETST 012/RLST 012. An introduction to the meanings, origins, and functions of religion; the roles of myths, rituals, and symbols; images of transcendence; and understanding religious beliefs and expressions from diverse cultural perspectives. Utilizes source materials from indigenous Native (North and South) American, African American, and/or Asian American

religions. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with RLST 012H. Credit is awarded for only one of ETST 012/RLST 012 or ETST 012H/RLST 012H.

ETST 014 Popular Musics of the World 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to issues surrounding popular and urban musics of the world, focusing on three major geocultural areas: Africa, Asia, and the Americas. Emphasizes the relationship between mass-mediated music and issues of cultural hegemony, resistance, and subversion. Analyzes the cultural impact of media technology on music performance and reception. Cross-listed with MUS 014, and URST 014.

ETST 098 Introduction to Arab/Muslim American Studies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides an overview of themes in Arab and Muslim American studies. Includes immigration and racism; family, gender, and sexuality; socio-economic class; religious affiliations; arts and cultures; and politics and political activism. Utilizes with interdisciplinary materials from social media and film to anthropological, historical, sociological, cultural, and literary texts.

Upper-Division Courses

ETST 100 Race and Ethnicity in A Comparative Perspective 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 001. Explores the interrelationships between race, class, ethnicity, and the operation of social processes. Accordingly, readings for this course center on the comparative well-being of African Americans, Hispanics (especially Chicanos), Native Americans, and Asian Americans.

ETST 101A Historical Development of Race and Power 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 001 or ETST 001H; two additional lower-division Ethnic Studies courses; upper-division standing or consent of instructor. First of a two-course interdisciplinary sequence on theories of race and ethnicity. Focuses on a critical historical charting of the political, economic, and cultural development of race and power.

ETST 101B Theories of Race and Power 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 101A or consent of instructor. Second of a two-course interdisciplinary sequence on theories of race and ethnicity. Focuses on specific theories of race, dominance, and resistance. Recognizes the central structuring debates about social formation and social change.

ETST 102 The Political Economy of Race and Class 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. This course explores the interrelationships among race, class, ethnicity, and the operation of market processes. Readings for this course will center on the comparative economic well-being of African Americans, Chicanos, Asian Americans, and Native Americans.

ETST 103 Histories of Chicano/A Education 4 Lecture, 3 hours; research, 1 hour; written work, 1 hour; extra reading, 1 hour.

Prerequisite(s): upper-division standing; ETST 002 is recommended. Examines the prevalence of racial segregation of Mexican origin students in U.S. schools, Americanization programs, and community responses to such endeavors in the first half of the twentieth century. Explores the Chicano/a movement's impact on education throughout the Southwest. Notes the various strategies employed by activists and community members to affect the Chicano/a generation's education.

ETST 105A History of Black Americans: West African Backgrounds to 1877 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The study of the experiences of Black people in the United States with emphasis on the ideas and institutions that have shaped those experiences from the period of slave trading in West Africa to 1877.

ETST 105B History of Black Americans: 1877-1965 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the experiences of Black people in the United States with emphasis on the ideas and institutions that have shaped those experiences from 1877 to 1965.

ETST 106 Theory in Asian American Studies 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines major themes that influenced current theory in Asian American studies: the racist nature of political and legal institutions, labor markets, the popular culture; contemporary feminist theory and politics; criticism of the assimilation paradigm which predicted eventual political and economic integration into mainstream American life. Explores how Asian American communities were viewed as sites for political mobilization, the building of alternative institutions, and the creation of an oppositional culture.

ETST 108 (E-Z) Spec Topics in Chicano Studies 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Selected topics in: E. Culture, ethnicity, social change; F. The Conditions of Educ For Chicanos; I. Mex Immig & The Chicano Comm; L. Labor & legal Hist Of Th Chicano; P. Chicano Poetry And Theatre;

ETST 109 (E-Z) Special Topics in African American Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 003; restricted to class level standing of junior, or senior. Selected topics addressing the issues of the African American experience. Includes reading, research, and discussion on the African American experience.

ETST 109E African Americans in the U.S. Economy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 003, upper-division standing; or consent of instructor. Explores the role of African Americans in the U.S. political economy. Examines the interaction of class, race, the state, and social institutions determining the economic life chances of Americans of African descent.

ETST 109I The Black Diaspora: Cultural, Political, and Historical Connections 4 Lecture,

3 hours; extra reading, 3 hours. Prerequisite(s): ETST 003, upper-division standing; or consent of instructor. Examines the dispersal and evolution of transplanted African populations throughout the world. Emphasis is on the most recent diaspora between 1600 and 1890 when millions of Africans migrated to the Western Hemisphere. The smaller African communities in Asia, Europe, and the Pacific Islands are also examined.

ETST 109J Race, Gender, Power, Knowledge 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 003, upper-division standing; or consent of instructor. Explores race and gender produced and institutionalized in U.S. social arrangements. Emphasizes the social construction of race and gender in science, culture, and law. Surveys a collection of 19th and 20th century scientific and legal texts alongside feminist of color writings that analyze the relationship between knowledge, empowerment, and social justice.

ETST 109K Blackness & Religion 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 003; upper-division standing or consent of instructor. Provides an overview of the theoretical overlaps and intersections of the meanings, origins, and functions of religion in both Africa and the African Diaspora. Topics include the philosophical, theological, and anthropological thought necessary for the concept of religion to cohere as a framework since modernity.

ETST 110 (E-Z) Spec Topics-Asian American Studies 1 to 4 Lecture, 1 hour; term paper, 3 hours. Selected topics addressing the issues of the Asian American experience. Reading, research, and discussion on the Asian American experience. G. Community Resrch:asian Amer Com; K. Foreign Policy&asian Americans;

ETST 111 Ethnic Politics: Practicum in Political Change 4 Lecture, 3 hours; practicum, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Studies theories and practices of comparative ethnic political change. Examines topics intrinsic to the understanding of how to effect political change within the Chicano, African American, Asian American, Native American, and other ethnic communities, as well as the dominant societies.

ETST 112 The Civil Rights Movement, 1950-1970 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The Civil Rights Movement of the 1950s and 1960s. The main focus will be on the "grass roots." African American aspects of "The Movement," as it was popularly known, from school desegregation to voting rights and beyond. Cross-listed with HISA 135.

ETST 113 Black Feminist Theory and Activism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers the writings and collective organizational strategies of African American women intellectuals and activists developed in response to the ways racial, sexual, and economic oppression work interdependently and are institutionalized. Follows black women's agendas for social change from the early women's slave narratives to the present. Cross-listed with HISA 134.

ETST 114 Contemporary Latina Writing in

the U.s 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Critical readings of Chicana, Puerto Rican, and Cuban American authors. Overview of contemporary literature (1970 to present) written by Latinas who reside permanently in the United States. Theatre, poetry, and narrative is closely examined and compared. Focuses on the political, historical, social, and cultural processes that gives rise to this literature.

ETST 115 (E-Z) Topics in Native American Hist 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Selected topics addressing the issues of the Native American. Includes reading, research, and discussion on the Native American experience. F. Early Amer:emrging Interpretns; Cross-listed with HISA 144 (E-Z).

ETST 116 Medicine Ways of Native Americans 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the medical history of Native Americans. Focuses on traditional Native American medicine and how Western diseases, medical practices, health care, and policies influenced American Indian health. Topics include medicine people, rituals, ceremonies, smallpox, measles, influenza, anomie, accidents, diabetes, suicides, mental illness, and murders. Cross-listed with HISA 147.

ETST 117 (E-Z) Themes&Topics in African Hist 4 Lecture, 3 hours; term paper, 3 hours. A thematic and topical approach to the study of African history from the early Nile Valley civilizations to the twentieth century. Examines the temporal and spatial development of African societies--including their social, political, economic, and ideological systems--during the precolonial, colonial, and postcolonial periods. F. West African History To 1800; I. 19th&20thcn Africa&eur Imprlsm; J. Ancient Africa; K. Africa From 1000-1880; M. Twentieth-century Africa;

ETST 118 American Indian Identities 4 Lecture, 3 hours; written work, 2 hours; field, 1 hour. Prerequisite(s): one of the following courses: ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014, ETST 143A/SEAS 143A; or consent of instructor. Provides a multidisciplinary perspective on the development and diversity of contemporary American Indian identities, including the question of who or what counts as "Indian," and why. Topics include historical and contemporary perspectives from political, ethnic, cultural, and legal standpoints, from both American Indian communities and wider United States society.

ETST 120 Contemporary Native American Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Study of representative works of fiction, nonfiction, and poetry from the 1960s to the present. Emphasis upon the works of Louise Erdrich, Joy Harjo, N. Scott Momaday, Simon Ortiz, Leslie Silko, Gerald Vizenor, and James Welch, among others.

ETST 123 Chicano Politics in Comparative

Perspective 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of contemporary Chicano politics, political movements, ideologies, relations with intergovernmental agencies, political attitudes, and participation in the political process. Comparison of the Chicano political experience to that of other racial and ethnic groups in American politics.

ETST 124 The Chicana 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The unique experience of the Chicana viewed from social, intellectual, historical, and artistic perspectives.

ETST 125 Chicano Political History: Nineteenth and Twentieth Centuries 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 002 or ETST 002H or ETST 004/HIST 004; upper-division standing. Surveys the history of Chicano politics in the United States from Mexican independence in 1821 to the present. Assesses the continuity of the Chicano political tradition through a comparison of the Chicano political experience before and after the establishment of American sovereignty.

ETST 126 The Chicano and the Law 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of the relationship of the Chicano to the U.S. legal and judicial system. Topics include traditional sociological and criminological theories; history of the Chicano and the law; the Pachuco image and the Chicano; and police and correctional institutions.

ETST 127 Latino Men and Masculinity 5 Lecture, 3 hours; term paper, 3 hours; written work 3 hours. Prerequisite(s): ETST 001 or ETST 001H or ETST 002 or ETST 002H or ETST 003 or ETST 005 or ETST 005H or ETST 007 or ETST 007H or consent of instructor. Analysis of Chicano/Latino men and masculinity in historical and comparative perspective. Examines social construction and expression of manhood and masculinity in a cross-national context and the range and varieties of masculinities in Latino America. Critically evaluates and deconstructs common myths, stereotypes, and misconceptions about men, machismo, and masculinity.

ETST 128 Chicano Sociology 4 Lecture, 3 hours; individual study, 3. Prerequisite(s): upper-division standing or consent of instructor. Analysis of the Mexican experience in U.S. society. Explores the history as a minority; mass immigration in the twentieth century; relationships with American institutions; present socioeconomic status; variations in social status from region to region; political emergence and variations in values; and social relations and integration with non-Mexicans. Cross-listed with SOC 128. Credit is awarded for only one of ETST 128/SOC 128 or ETST 128S/SOC 128S.

ETST 128S Chicano Sociology 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; individual study, 4 hours; written work, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of the Mexican experience in U.S. society. Explores the history as a minority; mass immigration in the twentieth

century; relationships with American institutions; present socioeconomic status; variations in social status from region to region; political emergence and variations in values; and social relations and integration with non-Mexicans. Cross-listed with SOC 128S. Credit is awarded for only one of ETST 128/SOC 128 or ETST 128S/SOC 128S.

ETST 129 Theories in Chicano Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 001 or ETST 001H; ETST 002 or ETST 002H; ETST 004/HIST 004; upper-division standing or consent of instructor. Analyzes prevailing and emerging theories, paradigms, and perspectives in Chicano Studies. Examines and applies traditional social science theories of race and ethnicity such as the order/pluralistic, assimilationist, and functionalist models, as well as Marxism, internal colonialism, feminism, postmodernism, and critical race theory to the experiences of Chicanos and other Latinos.

ETST 130 History of Public Education in Communities of Color 4 Seminar, 3 hours; term paper, 1 hour; research, 2 hours. Prerequisite(s): upper-division standing; consent of instructor. An introduction to a comparative analysis of public education as it relates to Native Americans, African Americans, Latinas/os, Chicanas/os, and Asian Americans. Focuses on experiences within the United States. Compares and contrasts experiences within these groups, as well as identifies major policy disagreements.

ETST 131 Race, Class, and Gender 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): one of the following courses; ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014, or consent of instructor. Considers the interdependency of race, class, gender, and sexuality in relation to social inequality and oppression. Focuses on the intersection of components, as well as examines the experiences and strategies of resistance of poor, working class women of color and/or queer people of color.

ETST 132 Chicano Contemporary Issues 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides students with demographic and historical overview of the status of Latinos in the United States today, and of the salient issues plaguing them. Utilizing an interdisciplinary approach, analyzes strategies, tactics, and policies that may effectively deal with these issues.

ETST 133 Asian Diaspora: Historical, Contemporary, and Comparative Perspectives 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the dispersal, transplantation, and transformation of Asian populations in selected regions of the world--the Americas, Europe, the Middle East, and Asia Pacific--as viewed from the historical and contemporary experiences of the Chinese, Japanese, Filipinos, Koreans, Vietnamese, and other Asian groups in the contexts of colonization, cultural and political domination, and an emerging global economy.

ETST 136 The Korean American

Experience 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the history of Koreans in the United States to analyze a wide range of contemporary social and identity issues. Students are encouraged to do original research, develop writing and communication skills, and devise research projects that address the immigrant Korean community's needs.

ETST 137 The Vietnamese Americans: the Refugee and Immigrant Experience 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the Vietnamese American experience in contemporary society. Emphasizes the relationship of Vietnamese Americans to the larger society and on intergenerational strains and conflicts. Topics include socioeconomic and educational problems, family, religion, and the relationship between Vietnamese Americans and other ethnic groups. Cross-listed with SEAS 137.

ETST 139 Contemporary Issues in the Asian American Community 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes contemporary issues facing Asian Americans: Asian American identity and images, education, employment, housing, dual oppression, interethnic conflicts, juvenile delinquency, generational conflicts, and anti-Asian violence.

ETST 140 Asian American Feminist Theory and Politics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Addresses the shifting role of Asian American women in the United States as they struggle to define their identities between and within diverse and often opposing cultures. Explores and analyzes the myths and realities of being an Asian American woman through literature, art, documents, films, and first-person accounts.

ETST 141A Black Literature I 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers significant early African American writers and literary movements. Focuses on Diasporan slave narratives, protest literature, and the Harlem Renaissance.

ETST 141B Black Literature II 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 141A Considers significant twentieth- and twenty-first-century African American writers and literary movements. Focuses on the Black Arts Movement, Black Women's Feminist literature, and Diasporan literature.

ETST 142 Organizations, Institutions, and the Chicano 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The study of organizations and institutions, focusing on their effect on the Chicano. Special emphasis will be placed on the processes of participation within institutions and of dealing with complex organizations. Concepts to be studied include conflict, role identity, and socialization.

ETST 143A Critical Filipino(a) Studies: Histories and Legacies of U.S. Conquest, Colonialism, and Empire 4 Lecture, 3 hours; term paper, 3 hours.

Prerequisite(s): one of the following courses: ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014; or consent of instructor. Critically examines and theorizes the historical impact and legacies of U.S. conquest and colonialism in the Philippines. Analyzes the origins of Filipino American civic existence and its links to histories of U.S. racial formation, racialized industrialization, and racialized frontier warfare. Cross-listed with SEAS 143A.

ETST 143B Critical Filipino(a) Studies: Interrogating the Filipino American

Present 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): one of the following courses: ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 012W, ETST 143A/SEAS 143A, upper-division standing; or consent of instructor. Critically analyzes the emergence of Filipino American community and identity in relation to the U.S. emancipation of the Philippines and the complex restructuring of a neocolonial and imperial relation. Examines the theoretical and conceptual premises of Filipino Americanism through counterhegemonic social movements, cultural production, and identity formation. Cross-listed with SEAS 143B.

ETST 144 Race and Indigeneity in

Hawai'i 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ETST 001 (or ETST 001H), ETST 005 (or ETST 005H). A comparative and historical survey of the racial dynamics of Hawaii's multicultural community. Explores the intersections between Hawaii's ethnic groups including the native Hawaiians, the white ("haole") population, and the plantation immigrant groups (Chinese, Japanese, Filipino, and Portuguese). Also addresses the Pacific Islander population in contemporary Hawaii.

ETST 145 Law and Subordination 5 Lecture, 3 hours; field, 6 hours. Prerequisite(s): upper-division standing in Ethnic Studies or Sociology; ETST 128/SOC 128 or ETST 128S/SOC 128. A comparative and historical analysis of subordinated communities and law emphasizing integrating theoretical understanding of racial, class, and gender subordination. Includes field experience working directly with groups that have traditionally lacked equal access to the legal and judicial system. Cross-listed with SOC 145.

ETST 146 Educational Perspectives On the

Chicano 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of educational policy issues concerning Chicano students, such as testing and testing procedures, learning styles, socialization, and language acquisition. Other topics will deal with the impact of significant legislative acts related to the education of Chicanos. Cross-listed with EDUC 146.

ETST 147 History of Black Education 4 Lecture, 3 hours; individual study, 4 hours. Prerequisite(s): upper-division standing. This course examines major themes in Black education: the education

of slave and free Blacks; role of missionaries and philanthropists in Black education; the growth of Black colleges; curricular debates; and the NAACP challenge of the "separate but equal" doctrine.

ETST 148 Caribbean Culture and

Society 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of the Caribbean region from a historical, cultural, and political perspective. Emphasis on contemporary issues affecting the Caribbean, and the struggle of its people to maintain their identities. Cross-listed with ANTH 168, and LNST 168.

ETST 151 Contemporary Asian American

Literature 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of contemporary Asian American literature and culture. Explores identity politics, cultural nationalism, feminism, sexuality, postmodernism, postcolonialism, diaspora, and transnationalism.

ETST 152 Asian American Film and

Video 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): ETST 001 or ETST 001H, upper-division standing; or consent of instructor. Survey and analysis of cinematic works by and/or about Asian Americans. Topics include studies of forms and genres; viewing and interpretive practices; the conditions of production, distribution, and reception; as well as thematic concerns such as history and memory, the politics of identity, community, social justice, gender, and sexuality.

ETST 153 Native American Language

Revitalization 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): ETST 007 or ETST 007H; or consent instructor. Provides an overview of Native American language endangerment and revitalization efforts. Includes the changing social contexts in which they occur, focusing on social and political implications. Topics include methods of revitalization, the changing role of linguists and other specialists, and implications of language efforts for identity.

ETST 154 Chicanos and Popular Music in the Twentieth Century: From Pachuco Boogie to

Latin Jazz 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examination of musical styles and expressive cultures of everyday Mexican Americans in primarily Southern California to understand their social consciousness and cultural politics. Covers the historical evolution of diverse Chicano cultural identities, musical tastes, and communities. Focuses on cultural hybridity, subcultural style, identity formation, class mobility, gender, sexuality, racialization, and assimilation.

ETST 155 Chicana/o California: A Social and

Cultural History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examination of the historical evolution of Mexican and Mexican American social and cultural experience in California from the Spanish colonial period through the late twentieth century. Analysis of the Chicana/o impact on regional culture and American society as a whole.

ETST 156 Politics of the Chicano

Movement 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the various aspects of the politics of the Chicano movement from 1965 to 1974. Focuses on in-depth analysis of the movement's historical genesis, leadership, ideology, organizations, strategy, and tactics, as well as the issues that brought it into being. Also examines the forces that contributed to its demise.

ETST 157 Native American Diaspora 4

Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 007, upper-division standing; or consent of instructor. Analyzes historical Native American migrations. Explores involuntary Native American diaspora throughout America forced by interaction with Spanish, French, Dutch, and English colonists. Examines nineteenth- and twentieth-century reservations and forced and voluntary removals and relocations.

ETST 158 American Indian Intellectual

Traditions 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes selected spiritual beliefs of America's native peoples. Examines sacred beliefs, oral histories, ceremonies, customs, and the historical significance of selected tribes and bands. Explores the conditions and forces which shaped American Indians and influence them today.

ETST 159 Texas Indian History 4

Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): ETST 007 or ETST 007H or HIST 035 or HIST 036 or HIST 037 or consent of instructor. History of the aboriginal peoples of Texas from the earliest times to the present. Examines pre-colonial eras, European invasion, and colonialism under Mexico, the Republic of Texas, and the United States. Discusses the effects of treaties, laws, and federal and state policies on modern Texas Indians. Emphasizes the survival and adaptation of native peoples of Texas.

ETST 160 Community Research and

Advocacy 4 Seminar, 3 hours; written work, 1 hour; field, 8 to 10 hours. Prerequisite(s): ETST 145/SOC 145 or consent of instructor. Covers theoretical, practical, and ethical issues associated with community-based research and advocacy. Course is repeatable to a maximum of 8 units.

ETST 161 U.s. Latinos: Crossing Borders,

Crossing Cultures 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the idea of Latino identity as a way to study heterogeneity of ethnic group identification. Focuses on historical chronology, literary tradition, and other cultural practices. Emphasis is on the experience of diversity and pluralism within the Latino experience.

ETST 162 Learning Native American

Languages 5 Lecture, 3 hours; workshop, 2 hours; individual study, 3 hours; research, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Provides a social situation in which students learn to speak a Native American language of their choice through individual study of reference materials, training in linguistic analysis, and class presentations. Examines the social implications of learning and

speaking these languages. Students must obtain learning materials for their language of study. Course is repeatable to a maximum of 10 units.

ETST 163 (E-Z) Special Topics in Gender, Sexuality, and Race 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Selected topics addressing the issues of gender, sexuality, and race.

ETST 163E Introduction to Queer Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the intersections between the social construction of sexuality and the political economy of capitalism. Focuses on the United States. Includes the legacies of queer social movement and coalition building as well as the role of the contemporary United States where capital circulates and sexual identities are produced, contested, and negotiated.

ETST 164 History of African American Education: 1950-Present 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ETST 147. Introduces the major themes in African American education. Focuses on litigation in public education, politics, policies in circumventing desegregation, and churches and community organizations advancing desegregated education. Also explores poverty and urban schools, social programs, the Afrocentric pedagogy of failure, separate schools for blacks, resegregation, and the achievement promise.

ETST 165 Latinos Asylum and Migrant Detention 4 Seminar, 3 hours; clinic, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Seminar to study the politics of asylum and migrant detention practices in the United States in a global perspective. Students will gain knowledge on asylum and detention regime through both the lens of global political economy, critical race theory, and through practical engagement with refugee and migrant organizations/legal practitioners.

ETST 166 Issues in Bilingual/Bicultural Education 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): bilingual facility and consent of instructor. An intensive analysis of issues involved in developing and implementing bicultural/bilingual programs for Chicano children.

ETST 167 Psychological Development of Black Children 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 002. This course will analyze both the traditional theoretical approaches to the study of Black children and innovative approaches that are currently being developed by Black psychologists. The course will cover topics in the areas of cognitive, social, and personality development. Cross-listed with PSYC 167.

ETST 168 Psychological Aspects of the Black Experience 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 002 This course examines the interdependence between personal characteristics. African American culture, and the social conditions which foster the Black experience. Group membership,

life styles, role factors, and situational settings as social norms will be explored in order to understand the uniqueness of the Black experience. Cross-listed with PSYC 168.

ETST 169 The Politics of Race and Performance 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers the complex practice of dance, music, and performance art by expressive artists of color and asks questions about address, audience, white uses of black performance techniques, dance in relation to self-conscious historical memory, and the politics of authenticity and commodification. Investigates performances from different locations, from explicitly politicized to heavily commercialized.

ETST 170 Third World Literature 4 Lecture, 3 hours; extra reading 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of some major works associated with Third World literature and film. Emphasis on African, Latin American, Caribbean, African American, and Chicano Literature. Cross-listed with WRLT 170.

ETST 171 Black Music 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers black music from Congo Square to blues and jazz and hip hop as key sites for African Diasporic cultural and political formation. Focuses on black musical production and circulation.

ETST 172 Music Cultures of Southeast Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in the Philippines, Indonesia, Malaysia, Thailand, Myanmar (Burma), Laos, Cambodia, and Vietnam. Designed for the student interested in the performing arts and cultures of mainland and insular Southeast Asia. No Western music background is required. Cross-listed with ANTH 176, AST 127, DNCE 127, MUS 127, and SEAS 127.

ETST 173 Black Art in America 4 Lecture, 3 hours; field, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Discusses Black artists in the visual arts from slavery until the end of the Negro Renaissance (mid-1930s).

ETST 174 Race, Law and Education in the United States 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the role legal decisions, judicial policymaking, and race play in education. Studies the impact on schools, their communities, students, teachers, administrators, and disenfranchised groups.

ETST 175 Gender, Ethnicity, and Borders 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 001 or ETST 001H or GSST 010 or GSST 010S or upper-division standing. Examines literary, theatrical, and visual sites where the "in-between" space of border cultures is mapped. Materials include autobiographies, testimonial literature, films, novels, performance scripts, and art. Focuses on the interplay of gender and ethnicity. Cross-listed with GSST 175.

ETST 176 Geographies of Pain: Black Women, Trauma, and Survival 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the relationship between gender and violence. Illustrates ways in which crimes such as incest are not just instances of dysfunction within the black family but are also examples of the roles gender and race play in the historical violence of the nation-state. Examines how integral violence is to the creation of blackness and to the necessity to envision practices of survival.

ETST 177 The U.S. Prison Industrial Complex: Race, Gender, and Citizenship 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one of the following courses; ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014, or consent of instructor. Examines the racialized and gendered information of U.S. jurisprudence, policing, and punishment practices. Explores the connections between prison expansion, corporate investment in prison and policing technology, exploitation of prison labor, and deployment of prison-building initiatives as pork barrels for elected officials. Also analyzes anti-prison, prison reform, and penal abolitionist discourses.

ETST 178 Imprisoned Radical Intellectuals and U.S. Liberation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examination of the work of imprisoned writers of color as well as white intellectuals/activists who have influenced the formation of social movements in the United States since the 1970s as prisons and jails have become primary sites of political and racial conflict. Elaborates how race, gender, and patriarchy are central to the establishment of state regimes of incarceration.

ETST 180 California Indian History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides students with a broad understanding of the rich and varied heritage and history of California Indians from the invasion of the Spanish to the twentieth century. Examines geographically and culturally diverse groups as a means of illustrating the various Euro-American Indian policies that affected native Californians. Course is comparative and thematic. Cross-listed with HISA 140.

ETST 181 Southwestern Indian History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Presents a historical examination of selected Native American groups in the Southwest. Examines the relationship of Southwestern Indians to the Spanish, Mexican, and United States governments. Focuses on Quechans, Tohono O'Odome, Yavapai, Chiricahuas, Navajos, Zunis, Hopis, Comanches, and selected Pueblos along the Rio Grande. Cross-listed with HISA 141.

ETST 182 Northwestern Indian History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines selected aspects of Northwestern Indian History, from

approximately the 1750s to the twentieth century. Deals with several native groups along the Northwest coast from Alaska to Oregon. Compares policies of the Russian, Spanish, English, and United States governments. Particular emphasis on the 1850s when the U.S. negotiated a number of treaties with Native Americans in the Washington and Oregon territories. Cross-listed with HISA 142.

ETST 183 Native American Oral

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 007; upper-division standing or consent of instructor. Comparative examination of Native American oral literature of tribes in the United States, Canada, and Mexico. Enhances the student's understanding of Native American language, literature, drama, geography, geology, biology, history, and culture. Cross-listed with HISA 143.

ETST 184 American Indian Policy in the

Twentieth Century 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. This course will begin with the end of the treaty-making period and the point in time that the United States emerged as a colonial power (1871). The history of the relationship between the United States government and the American Indian tribes from the year 1871 to 1988 will be presented phase by phase. In addition, it will explore the position and role of the American Indian during the last twenty years.

ETST 185 Native American Law 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Emphasis on traditional law, civil and criminal rights, water rights, First Amendment religious freedom, and gaming on reservations.

ETST 186 Policing and the Hegemony of "Law and Order": Race, Gender, Sexuality, Citizenship, and the Politics 4

Lecture, 3 hours; class project, 3 hours per week. Prerequisite(s): one of the following courses; ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014; or consent of instructor. Provides a critical approach to the interdisciplinary study of state violence and militarized policing. Examines ways in which policing technologies and tactics are organized through racialized, gendered, and classed hierarchies.

ETST 187 Anticolonialist Thought 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the political-intellectual work of anticolonialist struggle and independence movements.

ETST 188 Native American Women 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Native American gender systems and the changing roles of women. Examines the cultural productions of indigenous women that make important interventions in our understanding of gender and social justice in contemporary Native America. Materials include testimonial literature, autobiographies, films, novels, and popular culture.

ETST 189 Popular Culture and the Production

of Race 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): ETST 001 or ETST 001H, ETST 100; or consent of instructor. Offers an interdisciplinary and theoretical approach to the study of various popular film and television genres in relation to the production--and contestation--of racial meaning. Concerned with the material significance of film and television as, simultaneously, "entertainment," "pleasure," "mass culture," "(self-)representation," and "cultural resistance or insurgency."

ETST 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing and consent of instructor. Independent study and research by qualified undergraduate students under the supervision of a particular faculty member. Course is repeatable to a maximum of 16 units.

ETST 191 (E-Z) Ethnic Studies

Seminar 4 Seminar, 3 hours; term paper, 3 hours. Selected topics in the ethnohistories and cultures of African American, Asian American, Chicano/Latino, and Native American ethnic groups. E. American Indian History&resrch; F. Asian American Studies; G. Psychology Of Mexican Ameri; K. Chicano Sociology; N. Chicano Lit:a Comparative Appr; R. Research Methodology; S. Black Aesthetics;

ETST 193 Senior Research Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): senior standing or consent of instructor. Advanced research in various fields of faculty interest. Students are required to complete a research paper and present their results in the seminar. Topics vary from year to year. Course is repeatable to a maximum of 8 units.

ETST 198 R'course: Variable Topics 1 Activity, 3 hours. Prerequisite(s): permission needed from department. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

ETST 198G Group Internship 1 to 12 Internship, 2 to 24 hours; research, 1 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor. On- or off-campus internship related to the interests of core ethnic-group students under the joint direction of an on- or off-campus supervisor and an Ethnic Studies faculty member. Course is repeatable to a maximum of 16 units.

ETST 198I Individual Internship 1 to 12 Internship, 2 to 24 hours; research, 1 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor. On- or off-campus internship related to the ethnic community, conducted under the joint direction of an on- or off-campus supervisor and an Ethnic Studies faculty member. Requires a report based on the experience. Course is repeatable to a maximum of 16 units.

Graduate Courses

ETST 200 History of Ideas in Ethnic

Studies 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the foundational ideas critical for understanding the historical evolution of race and ethnic issues in the United States and within international relations. Prepares graduate students to conceptualize multidisciplinary and comparative ethnic studies research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 201 Sociocultural Theories in Ethnic

Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Examines theoretical approaches to the study of race and ethnicity in the United States. Assesses the relative strengths and weaknesses of key theoretical paradigms. Perspectives may include symbolic interaction, phenomenology, class analysis, sovereignty, literary criticism, feminism, psychoanalysis, racial formation, critical race theory, postmodernism, and global or transnational. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 203 Research Methods in Ethnic

Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Examines some of the foundational theories and methods employed in the field of ethnic studies. Provides basic knowledge in designing and implementing a research project utilizing multiple methods. Course is repeatable as content changes to a maximum of 12 units.

ETST 204 Critical Race Perspectives in Latino

Education 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Examines the social, economic, and political factors that impact contemporary Latino/a education. Explores alternative epistemologies that challenge traditional modes of schooling as well as alternative pedagogies - both in and outside public school classrooms - that are rooted in community-based knowledge.

ETST 205 Feminism, Race, and the Politics of Knowledge 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores how race and gender are produced and institutionalized in U.S. social arrangements, emphasizing the social construction of race and gender in science, culture, and the law. Surveys a collection of nineteenth- and twentieth-century scientific and legal texts alongside feminist of color writings that analyze the relationship between knowledge, empowerment, and social justice. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ETST 215 Asylum Policy and Migrant

Detention 4 Seminar, 3 hours; clinic, 3 hours; written work, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers the politics of asylum and migrant detention practices in the United States in a global perspective. Includes knowledge on asylum and detention regime through both the lens of

global political economy, critical race theory, and through practical engagement with refugee and migrant organizations/legal practitioners. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ETST 221 Race, Gender, Law, and Equal

Protection 4 Seminar, 3 hours; field, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Examines the interrelationships among law, race, gender, equal protection doctrine, and the state. Addresses contemporary theoretical challenges to concepts such as critical legal studies, critical race theory, "LatCrit," and feminist jurisprudence. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as content changes to a maximum of 12 units.

ETST 222 Intersectionalities 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines theory of intersectionality in transnational framework and historical perspective. Addresses problematics of social identity construction and the body. Considers analyses in relation to people of color and issues of race, sex, economic oppression, homophobia, transgender possibilities, ageism, militarization, nationalism, and globalization. Focuses on collective strategies of resistance and revolution. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 223 Chicana/O Expressive Culture: Theory and Practice 4

Seminar, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Examines Chicana/o cultural studies theories while tracing the history of diverse communities and expressive cultures from Spanish colonial period through turn of the twenty-first century. Assesses role of popular culture in Mexican American life. Explores the Chicanas/os' impact upon the development of popular culture and academia in American life. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 224 Race and State Violence 4 Seminar, 3 hours; term paper, 2 hours; written work, 1 hour. Prerequisite(s): ETST 201 or consent of instructor. Engages critical social theories of race. Focuses on state-mediated technologies of power and domination. Emphasizes analyses of race, racism, and white supremacy that conceptualize their historical constitution of statecraft and nation-building processes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 225 Imperialism, Colonialism, and Racism: Global Historical Perspectives 4

Seminar, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Charts a critical interdisciplinary genealogy of imperialism, colonialism, and racism within the global context of capitalist modernity. Explores the characteristics of

imperialism, colonialism, and racism, as well as their relation to each other and to nationalism, decolonization, and globalization. Addresses how these complex articulations have been theorized. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 226 Cultural Politics and

Production 4 Seminar, 2 hours; screening, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Considers the discursive and expressive cultural forms produced by racialized subjects. Covers a range of literatures, music, dance, song, and performance forms; the works of individuals and collectives; and social movements. Course is repeatable as content changes to a maximum of 12 units.

ETST 227 Anticolonialism and its

Aftermath 4 Seminar, 3 hours; term paper, 1 hour; written work, 2 hours. Prerequisite(s): ETST 201 or consent of instructor. Examines anticolonialist political thought in the context of contemporaneous and subsequent critical work in interdisciplinary fields. Engages these thoughts through frameworks of critical race studies, feminist thought, queer studies, postcolonial studies, and cultural studies. Discusses relevance of anticolonialist theorizations and insights to contemporary social and political problems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 228 Race, Law, and Educational

Policy 4 Lecture, 3 hours; term paper, 1.5 hours; extra reading, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Explores how law and race shape educational policies, as well as how educational policies and practices shape race and law. Examines how decisions made at the federal, state, and local levels influence public education opportunities and access. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 230 Gramscian Thought & Subaltern

Struggles 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers Antonio Gramsci's primary writings as well as select texts by scholars that have applied his theoretical insights to the study of struggles between subaltern groups and states in multiple contexts. Includes the application of Gramscian theory and methods to advanced projects in the social sciences and humanities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ETST 243 (E-Z) Special Topics in Ethnic

Studies 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): graduate standing. A critical analysis of current theory and research in special areas of Ethnic Studies. Covers a single topic not addressed in a regular course. Topics vary from quarter to quarter. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is

repeatable to a maximum of units.

ETST 243E White Reconstruction 4 Lecture, 3 hours; activity, 3 hours; weekly writing assignments, 2 hours; biweekly presentations; 3 hours. Prerequisite(s): graduate standing and consent of instructor. Examines the political agendas, socio-historical assumptions, and mundane structures of racial violence that constitute the announcement and canonization of a post-civil rights period occurring after the 1960s. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ETST 243F Race, Utopia, the Human in Sci-

Fi 4 Lecture, 3 hours; activity, 3 hours; short paper, weekly presentations, final paper. Prerequisite(s): graduate standing; consent of instructor. Explores through an afrofuturist lens how the concepts of utopia and of human life (collective and individual) have been imagined and practiced in science fiction literature and music. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ETST 243G Racial and Racial-Colonial

Genocide 4 Lecture, 3 hours; activity, 3 hours; weekly writing assignments, 2 hours; biweekly presentations, 3 hours; final paper. Prerequisite(s): graduate standing; consent of instructor. Attempts to generate a radical conceptualization and theorization of racial genocide as a historically continuous, distended apparatus of social determination and systemic violence. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ETST 244 Borders, Borderlands, and Chicana/O

Studies 4 Seminar, 3 hours; research, 3 hours; extra reading, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Examines the borderlands as a site of social and political negotiation over space and within cultural studies. Topics include race, gender, activism, and culture. May be taken Satisfactory (S) or No Credit (NC) by students advanced to candidacy for the Ph.D. Course is repeatable as content changes to a maximum of 12 units.

ETST 245 Theories in Chicana/O

Studies 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the historical development of theoretical paradigms and models in Chicana/o studies. Covers 1960s protest literature, critical race theory, Chicana feminist theory, "LatCrit," and cultural citizenship. Addresses critical evaluation and application of these paradigms in order to understand the experiences of Chicanas/os and other subordinated communities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 246 Chicano Historiography: Identity, Politics, and the Writing of Chicana/O

History 4 Seminar, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Surveys approaches and genres in the field of Chicano history from classic works to cutting-

edge topics. Analyzes methods employed as well as the theoretical underpinnings. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 247 Policy and Politics: Grass Roots

Versus Coercive State 4 Seminar, 3 hours; discussion, 1 hour, written work, 2 hours. Prerequisite(s): graduate standing; consent of instructor. Provides a current examination of the status of Chicana(o)/Latina(o) politics from both a grass roots and coercive state perspective. Examines divergent theoretical approaches within the contexts of liberal capitalism, pluralist versus elite theory, and identity politics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 248 Race and Critical Educational

Policy 4 Seminar, 3 hours; written work, 1 hour; extra reading, 2 hours; Prerequisite(s): graduate standing; consent of instructor. Examines a set of diverse, discipline-based conceptual perspectives and analytic frameworks used to interpret policy purposes, processes, contents, and outcomes. Focuses on the political dimensions of education policy issues. Also explores the conceptual frameworks and skills required in studying politics and exercising leadership in organizational settings. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 249 Race and Critical Educational

Politics 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the political dimensions of education policy issues, processes, and choices pertaining to governmental arrangements, community contexts, and interest group pressure. Provides conceptual frameworks and perspectives that examine political decision making. Utilizes case studies of educational policy making in educational institutions at the local and state levels. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 254 Asian American Cultural Critique

and Theory 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines major critical developments, interventions, and issues in Asian American cultural critique and theory. Charts the historical development of the field of Asian American literary and cultural studies. Interrogates the contexts and constraints of the field's institutional formation and recognition. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

ETST 255 Critical Issues in Asian American

Studies 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Examines and seeks to develop a critical appreciation of research literature on

Asians in America and to develop alternative interpretations of the Asian American experience. Topics include Asian American historic, economic, political, social, and psychological issues. Course is repeatable as content changes to a maximum of 12 units.

ETST 256 Critical Issues in Asian Pacific

American Communities 4 Seminar, 3 hours; practicum, 3 hours. Prerequisite(s): graduate standing. Examines contemporary issues facing Asian Pacific American communities. Students engage in active research in these communities.

ETST 289 Colloquium in Ethnic

Studies 1 Colloquium, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Lectures and discussions by students, faculty, and invited scholars on selected topics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

ETST 290 Directed Studies 1 to 6

Scheduled research, 3-18 hours. Prerequisite(s): graduate status and consent of instructor. Research and special studies in Ethnic Studies. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ETST 291 Individual Study in Coordinated

Areas 1 to 12 Individual Study, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ETST 292 Concurrent Analytical Studies in

Ethnic Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor. Taken concurrently with a 100-series course in Ethnic Studies, but on an individual basis. Devoted to completion of a graduate-level paper based on research or criticism related to the 100-series course. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ETST 293 Research Topics in Ethnic

Studies 2 Seminar, 3 hours. Prerequisite(s): graduate standing; consent of instructor. A series of seminars by guests, faculty, and advanced graduate students that addresses research topics in ethnic studies. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

ETST 297 Directed Research 1 to 2

Research, 3 to 6 hours. Prerequisite(s): graduate standing; consent of instructor. Individualized research in topics outside the dissertation area. Conducted under the sponsorship of specific faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ETST 299 Research For the Dissertation 1 to

12 Research, 3 to 36 hours. Prerequisite(s): satisfactory completion of the Ph.D. qualifying examination. Faculty-directed research for preparation of the dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

ETST 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): limited to teaching assistants; graduate standing. Supervised

teaching in lower- and upper-division courses. Required of all Ethnic Studies teaching assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ETST 405 Proseminar On

Professionalization 2 Seminar, 27 hours per quarter; practicum, 3 hours per quarter. Prerequisite(s): graduate standing; consent of instructor. Covers a broad range of topics related to academic professionalization. Addresses issues pertaining to the dissertation, publishing, professional activity, and the process of getting tenure. Also covers issues related to teaching at the university level. Graded Satisfactory (S) or No Credit (NC).

GENDER AND SEXUALITY STUDIES

(Formerly Women's Studies)

Subject abbreviation: GSST

College of Humanities, Arts, and Social Sciences

Sherine Hafez, Ph.D., Chair

sherine.hafez@ucr.edu

genderandsexualitystudies.ucr.edu

Professors

Alicia Arrizón, Ph.D.

Sherine Hafez, Ph.D.

Anthonia Kalu, Ph.D. (Comparative Literature and Foreign Languages)

Jane Ward, Ph.D.

Professors Emeriti

Marguerite R. Waller, Ph.D. (Comparative Literature and Foreign Languages)

Associate Professors

Julianne Emmons Allison, Ph.D.

Amalia Cabezas, Ph.D.

(Media and Cultural Studies)

Katja M. Guenther, Ph.D.

Tamara Ho, Ph.D.

Jade Sasser Ph.D.

Chikako Takeshita, Ph.D.

Assistant Professors

Crystal Baik, Ph.D.

Brandon Robinson, Ph.D.

Majors

The Department of Gender and Sexuality Studies offers the B.A. in Gender and Sexuality Studies and the B.S. in Sustainability Studies.

Minors

The Department of Gender and Sexuality Studies offers two minors: a minor in Feminist Studies that emphasizes feminist history, theory, and practice, and a minor in Queer Studies (formerly Lesbian, Gay, Bisexual, Intersex, and Transgender Studies) that emphasizes queer history, theory, and practice.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Gender and Sexuality Studies Major

The major in Gender and Sexuality Studies is committed to providing undergraduate students with intersectional feminist perspectives on gender and sexuality and to fostering critical feminist and queer research. The major integrates interdisciplinary and transnational approaches to the theorizing and study of gender and sexuality. The major offers a range of courses that facilitate student learning about the diversity of genders and sexualities in the United States and globally.

Majors learn about the history and contemporary structures of cisheteropatriarchy and white supremacy and engage with strategies for resistance. Students completing the major are exposed to a wide range of feminist theories and epistemologies through required core courses and electives. This major educates students to be global citizens who are prepared for future feminist and queer activism, for graduate-level study in gender and sexuality studies, and/or for careers in education, law, non-profit work, public policy, social justice, social work, health care, and related fields. This major also encourages students to participate in internships with local feminist and queer social justice organizations and/or to enrich and enhance their undergraduate experience and learning through study abroad.

The major requirements for the B.A. degree in Gender and Sexuality Studies are as follows:

Major Requirements

1. Lower-division requirements (three courses [at least 12 units])
 - a) GSST 001 or GSST 001H or GSST 001S
 - b) One of the following: GSST 010, GSST 020, GSST 020H, GSST 020S, GSST 030 or GSST 030H
 - c) One additional lower-division GSST course
2. Upper-division requirements (ten courses [at least 40 units])
 - a) GSST 100
 - b) GSST 191A and GSST 191B
 - c) Seven courses of electives chosen from the list below with the following distribution requirements:
 - (1) One course focusing on African American women, Asian American women, Chicanas/Latinas, or Native

American women in the United States or on women from societies in Latin America, Asia, the Middle East, or Africa

- (2) One course focusing on issues of sexuality, sexual orientation, sexual identification, or masculinity and femininity
- (3) The following courses may only be counted one time towards the major: GSST 190, GSST 195, GSST 198G

Elective Course Work

Upper-division Gender and Sexuality Studies courses or courses in another department that are cross-listed with Gender and Sexuality Studies.

Closely related upper-division courses from other programs or departments may be substituted upon approval.

Sustainability Studies Major

The Sustainability Studies Bachelor of Science degree offered by the Gender and Sexuality Studies Department offers a comparative, interdisciplinary, transnational approach to the theories and practices of building a sustainable future. Major coursework focuses on a range of social and scientific challenges to sustainability including: climate change, air and water pollution, toxic contamination, energy demands, economic growth, agricultural production, and environmental injustices associated with differences in advantages due to race and ethnicity, socio-economic class, gender, sexuality, religion and ability. Courses in gender and sustainability, cultural studies, policy, media, and social sciences, natural and earth sciences, engineering, and health and medicine prepare students to respond to challenges to local, regional, and global sustainability. Students will be trained in feminist paradigms and methodologies associated with intersectionality, dialogue, and relation. Through in-depth, engaged learning experiences, this major educates global citizens who will be prepared for careers in industry, health care, public service, policy advocacy, education, and social activism relevant to sustainability.

Majors are strongly encouraged to complete internships with local environmental organizations, health advocates, and other institutions as well as to broaden their perspectives through the study abroad program. This major may accommodate CNAS transfers who have considerable amounts of training in science, yet desire an interdisciplinary education in sustainability that recognizes environmental change is gendered.

Major Requirements

1. Lower-Division Requirement (4 courses, 14~16 units)
 - a) GSST 001
 - b) GSST 021
 - c) Two courses from the following list of courses in natural, earth, and environmental sciences. (Cannot double count with the CHASS math and science 20 unit requirement): BIOL 003, BIOL 005C, BIOL 040, BPSC 011, BPSC 021, ENTM

010, ENTM 020, ENTM 050/BPSC 050, GEO 002, GEO 004, GEO 009, GEO 010, GEO 011, GEO 012, CEE 010 (2 units), ENGR 096/NASC 096/HASS 096, ENSC 001, ENSC 002, ENSC 006/ECON 006, ME 004, PHYS 007, PHYS 010, PHYS 016, PHYS 024, PHYS 037

2. Quantitative Method Requirement (one course, 4 units)

One of the following courses or sequences OR an additional science course with a lab: SOC 001/SOC 004/SOC 005, STAT 048, STAT 100A, PSYC 011, POSC 114, ECON 101, GEO 157
3. Upper-Division Requirements (9 courses, 36 units)
 - a) GSST 100
 - b) Two GSST courses, of which at least one is from the following courses on gender & sustainability: GSST 131, GSST 161, GSST 171, GSST 173, GSST 181, GSST 183
 - c) Four courses from any of the following lists. (Students may concentrate in one or two areas or take courses from all areas. Up to two courses for this requirement may be replaced by any of the following CNAS courses. Students are responsible for fulfilling the relevant prerequisites: BIOL 100/ENTM 100, BIOL 165/BPSC 165, ECON 143A/ENSC 143A, ENSC 101, ENSC 102, ENSC 141, ENSC 174, ENTM 124, ENTM 125, ENTM 126, GEO 160, GEO 161, GEO 167, GEO 169.)
 - (1) Environmental policy and politics: PBPL 129, POSC 106, POSC 127, POSC 137, POSC 139, POSC 160, POSC 180, POSC 189
 - (2) Health & medicine: ANTH 143/GSST 185, ANTH 158, ANTH 160, ANTH 162, ANTH 166, ETST 116, HIST 107
 - (3) Science, technology, and related topics: ANTH 110, ANTH 132, ANTH 140T, AST 107, ETST 183, HIST 105, HIST 106, HIST 109/ENGR 109, MCS 122, PHIL 117, RLST 164, SOC 137, SOC 161, SOC 184
 - (4) Internship or Honors Thesis focusing on sustainability: GSST 195, GSST 198-I
 - d) Capstone course sequence, required for all seniors: GSST 191A + GSST 191C

Minor

Feminist Studies

The minor in Feminist Studies exposes students to critical feminist and intersectional theory and research. The minor welcomes students engaged in crossdisciplinary learning and offers an outstanding opportunity for students in other majors to develop expertise in the field of feminist studies. Minors are encouraged to participate fully in the activities and offerings in the Department of Gender & Sexuality Studies, including the department's internship program and study abroad.

The minor in Feminist Studies consists of six courses (at least 24 units) distributed as follows:

1. Lower-division requirements (two courses [at least 8 units])

- a) GSST 001 or GSST 001H or GSST 001S
- b) One GSST lower-division course
- 2. Upper-division requirements (four courses [at least 16 units])
 - a) GSST 100
 - b) Three upper-division GSST courses.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Queer Studies (formerly LGBT Studies)

The minor in Queer Studies reflects current critical, theoretical, and methodological developments across several disciplines that focus on lesbian, gay, bisexual, intersex, and transgender issues. The field of queer studies is by nature interdisciplinary, and this minor is meant to encourage new crossdisciplinary research in the field for interested students in the College of Humanities, Arts, and Social Sciences. The curriculum addresses such issues as sexual identity and orientation; queer and trans representation; queer and trans perspectives on the arts; retheorizations of gender; sexuality and cultural diversity; intersections of sexualities and ethnic identities.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Lower-Division Courses

GSST 001 Gender and Sexuality 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): none. An introduction to theories of sex and gender differences, the origins of patriarchy, and variations in sexual behavior and sexual norms. Credit is awarded for only one of the following: GSST 001, GSST 001H, GSST 001S.

GSST 001H Honors Gender and

Sexuality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to GSST 001 and GSST 001S. An introduction to theories of sex and gender differences, the origins of patriarchy, and variations in sexual behavior and sexual norms. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of GSST 001 or GSST 001H or GSST 001S.

GSST 001S Gender and Sexuality 5 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): none. An introduction to theories of sex and gender differences, the origins of patriarchy, and variations in sexual

behavior and sexual norms. Credit is awarded for only one of GSST 001, GSST 001H or GSST 001S.

GSST 010 Women and Culture 5 Lecture, 3 hours; written work, 3 hours; individual study, 1 hour; research, 2 hours. Prerequisite(s): none. Topics include the roles of women in cultural creation and production; the relation of women artists to the societies of their time; and the images of women in the art and literature of the modern world. Themes and periods covered vary. Credit is awarded for only one of GSST 010 or GSST 010S.

GSST 010S Women and Culture 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours; individual study, 1 hour; research, 2 hours. Prerequisite(s): none. Topics include the roles of women in cultural creation and production; the relation of women artists to the societies of their time; and the images of women in the art and literature of the modern world. Themes and periods covered vary. Credit is awarded for only one of GSST 010 or GSST 010S.

GSST 011 Media Imagery of Women and

Class 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines how mass media portray class as a gendered category. Utilizes a comparative and historical approach, integrating social sciences and humanities to analyze images of women portrayed as poor, working class, middle class, or wealthy.

GSST 016 Sexuality and Religion in Global

Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces sexuality studies within the comparative study of religion, rooted in the theoretical frameworks of gender and sexuality studies. Transnationalism and global dynamics of power are central themes. Focus is on critical heterosexuality studies, with some LGBT studies and an underlying queer studies perspective. Cross-listed with RLST 016. Credit awarded for only one of GSST 016/RLST 016 or GSST 016H/RLST 016H.

GSST 016H Honors Sexuality and Religion

in Global Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University's Honors Program or consent of instructor. Honors course corresponding to GSST 016/RLST 016. Introduces sexuality studies within the comparative study of religion, rooted in the theoretical frameworks of gender and sexuality studies. Transnationalism and global dynamics of power are central themes. Focus is on critical heterosexuality studies, with some LGBT studies and an underlying queer studies perspective. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with RLST 016H. Credit awarded for only one of GSST 016/RLST 016 or GSST 016H/RLST 016H.

GSST 020 Women, Feminism, and Society

in A Global Perspective 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): none. An introduction to the social, political, and legal concerns surrounding women's issues and feminist movements worldwide. Examines topics such as abortion, contraception, and sexual violence within a comparative and international framework. Credit is awarded for only one of GSST 020, GSST 020H or GSST 020S.

GSST 020H Honors Women, Feminism, and

Society in A Global Perspective 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to GSST 020 and GSST 020S. An introduction to the social, political, and legal concerns surrounding women's issues and feminist movements worldwide. Examines topics such as abortion, contraception, and sexual violence within a comparative and international framework. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of GSST 020, GSST 020H or GSST 020S.

GSST 020S Women, Feminism, and Society

in A Global Perspective 5 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): none. An introduction to the social, political, and legal concerns surrounding women's issues and feminist movements worldwide. Examines topics such as abortion, contraception, and sexual violence within a comparative and international framework. Credit is awarded for only one of the following: GSST 020, GSST 020H, GSST 020S.

GSST 021 Gender and Sustainability 5

Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours; extra reading, 1 hour; term paper, 2 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): none. Introduction to the relationship between gender and sustainability in global context. Draws on science, political ecology, and feminism as analytical lenses. Topics may include gender mainstreaming, economic development, ethics, ecology, population management, water treatment, sanitation, air quality, renewable energy, agriculture, political participation, community development, global capitalism, and environmental health.

GSST 022A Introduction to World Literature

By Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to world literature by women across many centuries. Covers the creative work of women from ancient to early modern periods, examining both texts and the historical circumstances of the earliest women writers. Emphasizes texts originally written in languages other than English from around the globe. Cross-listed with CPLT 022A.

GSST 022B Introduction to World Literature

By Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the increasingly powerful voices of women writers in modernity and postmodernity. Emphasizes texts originally written in languages other than English from around the globe. Topics include the question of feminine writing and feminist theories about literature by women. Cross-listed with CPLT 022B.

GSST 030 Violence Against Women 4

Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): none. Addresses structural and interpersonal forms of violence against women and girls. Topics include sexual and physical abuse, rape and sexual assault, battering, body mutilation, forced sterilization or reproduction, sex selection, medical "silences," political torture, and gender-specific socialization for victimization and aggression. Also discusses state and economic

policies. Credit is awarded for only one of GSST 030 or GSST 030H or GSST 030S.

GSST 030H Violence Against Women 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to GSST 030. Addresses structural and interpersonal forms of violence against women and girls. Topics include sexual and physical abuse, rape and sexual assault, battering, body mutilation, forced sterilization or reproduction, sex selection, medical “silences,” political torture, and gender-specific socialization for victimization and aggression. Also discusses state and economic policies. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of GSST 030 or GSST 030H or GSST 030S.

GSST 030S Violence Against Women 5 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): none. Addresses structural and interpersonal forms of violence against women and girls. Topics include sexual and physical abuse, rape and sexual assault, battering, body mutilation, forced sterilization or reproduction, sex selection, medical “silences,” political torture, and gender-specific socialization for victimization and aggression. Also discusses state and economic policies. Credit is awarded for only one of GSST 030 or GSST 030H or GSST 030S.

GSST 031H Latina Women in Literature and Culture 4 Seminar, 3 hours; extra reading, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Analyzes the literatures and cultures of Latin American women and U.S. Latinas. Examines the roles prescribed for women and the relationship of those roles to issues of power and authority. Utilizes texts that acknowledge a tradition of feminine or feminist expression. Satisfactory (S) or No Credit (NC) grading is not available.

GSST 040 Women, Aids, and the Global Economy 4 Lecture, 3 hours; research, 2 hours; individual study, 1 hour. Prerequisite(s): none. Examines the relationship between poverty, inequality, gender, and HIV/AIDS. Analyzes gender and other forms of social inequality that place women at higher risk for the virus. Explores how global structural inequalities impact the lives of women in the global south, as well as considers the conditions of marginal groups in the global north.

Upper-Division Courses

GSST 100 Gender Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to cross-cultural and multidisciplinary feminist theory. Explores the construction of gender and sexuality. Emphasizes the “female” and the “Feminine” in a variety of cultural contexts. Credit is awarded for only one of GSST 100 or GSST 100S.

GSST 100S Gender Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A cross-cultural, multidisciplinary course investigating the

development of feminist theory and exploring the construction of gender and sexuality. Emphasizes the “female” and the “feminine” in a variety of cultural contexts. Credit is awarded for only GSST 100 or GSST 100S.

GSST 101 Women, Work, and Capitalism 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): GSST 001 or GSST 001S or GSST 001H or consent of instructor. Examines how class, race, and sexual inequalities impact, contest, and shape gender identities and relations. Analyzes patterns of women's work in the new international division of labor through case studies of export processing zones, reproductive labor, and sex tourism.

GSST 103 Sexualities and Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S; or consent of instructor. Examines the field of sexuality studies using a comparative, cross-cultural approach. Emphasizes the relation between culture, history, and political economy in the emergence of sexual practices and sexualized identities. Examines theories of sexuality and identity focusing on violence, human rights, and political agency. Cross-listed with ANTH 145.

GSST 104 Witches, Magic, and Religion 4 Lecture, 3 hours; activity 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines magic and witchcraft as distinctive forms of epistemology articulated by women throughout history. Traces the position of religion and science versus these intellectual fields led by women in various settings around the world. Investigates how masculinization of the knowledge production process enabled male dominance.

GSST 105 Women, Race, and Violence: Intersectionalist and Transnational Perspectives 4 Lecture, 3 hours; screening, 8 hours per quarter; extra reading, 2 hours written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces the theories of violence against women through intersectionalist feminist perspectives. Involves the analysis of violence simultaneously marked by race, ethnicity, nation, class, and sexual orientation. Compares cross-cultural and transnational perspectives.

GSST 106 Feminist Bioethics 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An exploration of the ways in which feminist theory provides insight on contemporary issues in bioethics. Topics include women in clinical research, cosmetic surgery, abortion, contract gestation, fetal protection policies, and the politics of mental illness. Cross-listed with PHIL 171.

GSST 107 Feminisms, Race, and Antiracisms: Critical Theories and Intersectional Perspectives 4 Seminar, 3 hours; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines how path-breaking scholarship by women of color in the United States and developing countries has been central to rethinking theoretical foundations and developing new ways of knowing,

understanding, and practicing politics. Focuses on scholarship that critiques and analyzes issues concerning race, antiracism, human rights, citizenship, empire, globalization, and social justice.

GSST 108 Philosophical Issues of Race and Gender 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigates philosophical issues concerning race and gender including the role of cultural and biological criteria in defining these concepts; roles of race and gender in personal identity; nature of racism, sexism, and their variants; and policy implications such as affirmative action and the civil status of homosexual relationships. Cross-listed with PHIL 108.

GSST 109 Women, Politics, and Social Movements: Global Perspectives 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to Third World women's politics. Covers women's politics from a global perspective emphasizing South Asia, sub-Saharan Africa, and the Caribbean. Cross-listed with ANTH 109.

GSST 112 History of Queer Cinema 4 Lecture, 3 hours; screening, 3 hours; activity 2 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the aesthetic hallmarks, political impulses, and theoretical responses that distinguish queer cinema as a unique, important tradition within film history. Provides a historical overview of global, independent, Hollywood, and alternative queer production from the 1900s to the present. Cross-listed with MCS 112, and LGBS 112.

GSST 113 Queer Theory 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): GSST 001 or GSST 001S or GSST 001H or LGBS 001. Examines queer theory's origins and relation to gender and sexuality studies. Critically explores queer of color critique and the intersections of race, class, and gender with sexuality. Looks at other interventions into the field of queer theory and key concepts and current debates.

GSST 122 Gender in Southeast Asian Diasporic Literature and Film 5 Lecture, 3 hours; screening, 3; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on former Indochinese refugees who are producing literature and films in the United States and France. Examines how the perception of Indochina has been constructed, particularly how the region has been gendered female in the colonial imaginary. Explores the return of Southeast Asian immigrants to the Western gaze. Cross-listed with MCS 142, and SEAS 172.

GSST 123 Transnational Feminist Film and Media 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers contemporary women's and feminist film and media productions. Connects the forces of globalization and militarization with gender-related experiences of displacement, migration, immigration, diaspora, trafficking, and refugee

status. Focuses on innovative uses of visual language signaling changes in notions of nation, identity, class, race, ethnicity, gender, and sexuality. Cross-listed with CPLT 123.

GSST 124 Asian American Women: Writing the Self in Literature and Film 4 Lecture, 3 hours; screening, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): MCS 010, upper-division standing, or consent of instructor. Analyzes Asian American autobiographies and films written and directed by women. Explores why the genre of autobiography is enabling and contentious within Asian American women's writings. Examines films to see how such women filmmakers contend with memory, gender, and identity. Cross-listed with MCS 123, and SEAS 175.

GSST 125 Gender and Genocide 4 Lecture, 3 hours; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S; or consent of instructor. Examines gendered dimensions of contemporary and historical genocides. Analyzes the ways gender ideologies intersect racialization and ethnic marking. Explores how gender shapes selection, forced labor, torture, and murder. Considers gender ideologies in relation to collective, institutional, and individual responses to genocide and genocidal campaigns. Cross-listed with ANTH 106.

GSST 126 Gender, Sexuality, and Music in Cross-Cultural Perspectives 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of gendered performance genres from a number of cultures. Explores gender-specific music and notions of gender that are often constructed, maintained, transmitted, and transformed through music and performance. Cross-listed with ANTH 177, and MUS 126.

GSST 127 Dance, Gender, Sexuality 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Explores some of the ways that studying dance (an art form whose medium is the body) illuminates feminist, gender, and sexuality studies --- and vice versa. No previous dance experience required. Cross-listed with DNCE 131.

GSST 128 Critical Approaches to Heterosexuality 4 Lecture, 3 hours; extra reading, 2 hours; written work, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S, LGBS 001. Examines the late nineteenth-century origins and twentieth-century evolution of the meaning of heterosexuality in the United States. Includes the medical, psychological, and political history of heterosexuality; the race and gender components of heterosexuality; and the intersections of heterosexuality and queerness. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with LGBS 128.

GSST 130 The Body in Western Art: Antiquity to Present 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; Restricted to major(s) Anthropology, Art History,

Art History/Admin Studies, Art History/Religious Studies, Gender and Sexuality Studies, History, History/Administrative Studies, History/Law and Society; or consent of instructor. Presents further questions and study of the human body and how it was depicted and interpreted in works of art from Roman Antiquity to the present. Explores a broad range of artworks in their specific historical, cultural, medical, social, religious, political, and intellectual contexts. Cross-listed with ANTH 161, GSST 130, and HISE 149. Credit is awarded for one of the following AHS 133, ANTH 161, GSST 130, HISE 149, or AHS 016.

GSST 131 Sustainability, Gender and Development in the Global South 4 Lecture, 3 hours; activity 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021; or consent of instructor. Investigates the intersection of sustainable practices, development pressures, and gender in the Global South. Explores nonwestern concepts of sex/gender and nature as epistemological resources in addressing the impact of climate change on livelihoods and social organization. Asks how sustainability theory and practice can be transnational and socially inclusive.

GSST 132 U.S. Women, Gender, and Sexuality: 1620-1850 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers topics in early American women's lives--work, politics, and sexuality--while charting the developments of gendered systems in the United States. Topics may include masculinity, the rise of the middle class, and the private-public dichotomy. Cross-listed with HISA 132.

GSST 133 Women, Gender, and Sexuality in U.S. History: 1850-Present 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the major themes in the history of U.S. women and gender issues. Drawing upon recent work in the field, explores the relationships between gendered meanings of politics and the politics of gender in the late nineteenth and twentieth centuries in the United States. Cross-listed with HISA 133.

GSST 134 Queer Identities and Movements in the United States 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines important twentieth- and twenty-first century developments in queer culture and activism in the United States. Focuses on the origins of sexual identity; the relationship between sexuality, race, and gender; queer representation in art and media; and central issues in queer theory. Cross-listed with LGBS 134.

GSST 135 Love, Desire, and Lesbian Sexuality 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Expands upon the notion of lesbian identification and sexuality. Emphasizes the influence of feminism on the interdisciplinarity of lesbian studies and the complexity of lesbianism across class, race, ethnic, age, and national and international differences. Cross-listed with LGBS 135.

GSST 136 Women and Grassroots

Organizing 4 Seminar, 3 hours; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S, GSST 020 or GSST 020H or GSST 020S, upper-division standing; or consent of instructor. Examines women's grassroots activism and organizing within the context of political and social structures, culture, and history at the local and global levels. Employs comparative and global perspectives to understand the diversity of women's issues and women's activism.

GSST 137 Critical Queer Politics 4 Lecture, 3 hours; individual study, 2 hours; written work, 1 hour. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S; or consent of instructor. Presents Euro-American configurations of modern sexuality to map queer communities and homosexual presence across time and space. Critically explores the invisibilities, injustices, erasures, distortions, silences, and voices produced as a result of queer mobility, global gay, and global queer liberation. Cross-listed with LGBS 137.

GSST 138 Gender and the Sex Trade 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Addresses structural issues related to sexualized entertainment including pornography, sex work, escort services, sex tourism, erotic dancing, and strip shows. Discusses how gender, race, class, citizenship, and sexuality shape the industry's stratification. Analyzes how issues such as HIV/AIDS, traffic in women, forced prostitution, and child prostitution impact the sex trade.

GSST 139 Coming Out and Sexual Identity 4

Lecture, 3 hours; individual study, 1 hour; extra reading, 2 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S, LGBS 001; or consent of instructor. Examines speech acts, secrecy, and silence to understand the significance of the closet. Explores perspectives on resistance movements and modes of communication related to coming out. Considers coming out stories, biographies, and examinations of the social construction of heterosexual identities and formation of public space. Cross-listed with LGBS 139.

GSST 140 Reproduction: Policies, Politics, and Practices 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines reproductive policies, politics, and practices from a cross-cultural and historical perspective. Discusses political and economic processes and sociocultural dynamics; population control; sex preference; infanticide and neonatal neglect; adoption and foster parenting; abortion; technologically assisted conception; and gestational surrogacy. Cross-listed with ANTH 147.

GSST 141 Ethics and Families 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes ethical issues with regard to families of different kinds such as gender relations in traditional marriages; the ethics of same-sex marriage; the morality of abortion, surrogate

mothering, and cloning; the justice of school vouchers; the grounds for universal health care; and possible gender inequalities in divorce. Cross-listed with PHIL 168.

GSST 142 (E-Z) 4 Seminar, 3 hours; extra reading, 3 hours. Covers comparative histories of feminist literary movements, gender and immigration, autobiography, translation, and subjectivity. Asian literature will be circulated in the original language to students with reading ability (not required).

GSST 143 The Sociology of Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; LGBS 001 or SOC 028. Analyzes the role women have played in society emphasizing modern American society. Considers some of the social determinants of women's positions and the efforts being made to bring about change. Cross-listed with SOC 140.

GSST 145 Intersectionality, Ecology, and Community Design 4 Lecture, 3 hours; extra reading, 2 hours; research, 4 hours. Prerequisite(s): GSST 021; or consent of instructor. Introduces theoretical underpinnings of ecological utopias and ecotopias. Examines practical aspects of designing these intentional communities focused on sustainability. Includes discussion and critique of proposed ecotopias, analysis of egalitarian economic systems, inclusive and participatory political institutions, social mores adopted by existing ecovillages and other sustainable intentional communities.

GSST 146 History of Native American Women 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines selected important aspects of the lives of Native North American women including their political, economic, and religious participation in their societies. Further traces historic changes in Native women's lives as a result of the colonization of the New World and examines the complex imagery of Native women that developed from colonial contact. Cross-listed with HISA 146.

GSST 147 Feminist Animal Studies 4 Lecture, 3 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): GSST 001 or GSST 001S or LGBS 001; one of the following: GSST 010, GSST 010S, GSST 011, GSST 020, GSST 020H, GSST 020S, GSST 021, GSST 022A, GSST 022B, GSST 030, GSST 030H, GSST 030S, GSST 031H, or GSST 040; or consent of instructor. Examines human-animal relationships from a feminist perspective. Explores the use of animals as pets, subjects and objects of scientific research, and food sources. Analyzes how these uses relate to the exploitation of women and to feminist ethics. Considers the connections between sexism and speciesism.

GSST 148 Intersectionality, Ecology, and Design Science 4 Lecture, 3 hours; practicum, 3 hours; extra reading, 2 hours; field, 2 hours; written work, 2 hours. Prerequisite(s): GSST 145 (GSST 145 may be taken concurrently). Introduces regenerative design. Emphasizes stability and resiliency of natural systems and intersectional praxis of environmental justice in agricultural and social design. Recognizes sustainable food, water, and shelter requires understanding

structures of power that shape and maintain discrimination. Includes: agroecology; climate; health; permaculture; intentional communities; social activism; sustainability.

GSST 149 Gender, Kinship, and Social

Change 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S. Examines theories of gender and kinship, the formation of gender hierarchies and their uneven development, and the dynamics of family and gender in stratified social formations. Analyzes the relationship between family forms and political and economic processes. Cross-listed with ANTH 149.

GSST 150 Gender and the State 4 Lecture, 3 hours; extra reading, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the various meanings of gender as it is articulated in, reproduced by, and shaped within the state. Discusses gender-state relations, the engendering of politics, state functions, policy, and politics in various historical, political, cultural, and social contexts. Cross-listed with ANTH 148.

GSST 151 Islam, Women, and the

State 4 Lecture, 3 hours; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the links between women, Islamic practices, and the politics of state formation and nation building. Explores ways women constitute the terrain of struggle between the traditional and modern, colonialism and nationalism, and religion and politics. Cross-listed with ANTH 188.

GSST 152 Theory of Gender Inequality 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001S, GSST 001H. Studies theoretical debates regarding sex and gender differences; the origins and institutionalization of gender inequality; and the intersection of sexism, racism, and heterosexism. Cross-listed with LGBS 152.

GSST 154 Feminist Oral History: Theory,

Methods, Praxis 4 Lecture, 3 hours; extra reading, 1 hour; written work, 1 hour; activity, 1 hour. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S, GSST 100 or GSST 100S or GSST 107 or GSST 123 or GSST 136 or GSST 188 or GSST 191B. Introduces the interdisciplinary methods and theories of feminist oral history. Topics include women of color critique, narration, positionality, listening, affect theory, archival concerns, and sound studies. Examines the relationship between narration, knowledge production, and power through an intersectional lens attentive to race, ethnicity, gender, sexuality, and class.

GSST 155 Women's Labor and the

Economy 4 Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): ECON 104A. Special-topics labor economics course. Focuses on one important dimension of worker differences: gender. Covers the topics of human capital, wages and employment, occupational choice, discrimination, family as an economic unit, and public policy. Cross-listed with ECON 155, and PBPL 155.

GSST 156 Women and Citizenship 4 Lecture,

3 hours; extra reading, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores women's citizenship in light of global movements of people, capital, and social and political rights. Examines what it means to be a citizen and the ways in which women are included or excluded from that category.

GSST 158 Gender and Sexuality in U.s Religious History 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following: one of the following: GSST 001, GSST 001H, GSST 001S, RLST 001, RLST 001H, RLST 002, RLST 003, RLST 005, RLST 005H, RLST 007, RLST 007H, RLST 007W, RLST 010, RLST 012/ETST 012, RLST 012H/ETST 012H, RLST 014, RLST 015, RLST 015H, RLST 024/HIST 034, RLST 044/HIST 044, RLST 044W/HIST 044W; or consent of instructor. Overview and analysis of gender and sexuality in religion from colonial period (including Spanish, French, Russian, and British colonies in what is now the United States) to present day. Combines critical and comparative religious studies approaches with historical methods and the analytical perspectives of intersectional gender, sexuality, and queer studies. Cross-listed with RLST 161.

GSST 159 Queer Religiosities 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following: GSST 001, GSST 001H, GSST 001S, RLST 001, RLST 001H, RLST 002, RLST 003, RLST 005, RLST 005H, RLST 007, RLST 007H, RLST 007W, RLST 009, RLST 010, RLST 012/ETST 012, RLST 012H/ETST 012H, RLST 012W/ETST 012W, RLST 012X/ETST 012X, RLST 013, RLST 014, RLST 015, RLST 015H, RLST 024/HIST 034, RLST 039, RLST 044/HIST 044, RLST 044W/HIST 044W; or consent of instructor. A comparative, thematic exploration of religion in the lives of contemporary same sex attracted and gender variant or gender nonconforming people around the world. Topics may include intersections of religion with: neoliberal economic and political strategies; globalization; global North/South inequities; settler colonialism; racial, economic, and gender inequalities; homonormativity/homonationalism; queer activism. Cross-listed with RLST 159

GSST 160 Religion, Gender and

Sexuality 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of attitudes toward and images of women in diverse religious traditions. Includes issues such as the presence and absence of women in leadership roles; women's spiritual experiences; female founders of religious groups; and recent developments in feminist religious thought. Cross-listed with RLST 160.

GSST 161 Gender and Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021; or consent of instructor. Focuses on the intersections of Western constructions of gender and scientific knowledge since the sixteenth century. Considers the cultural and political roles of the scientist in terms of gender; the structuring of objectivity and objects of study; the status of scientific knowledge; and the emergence of feminist science studies.

GSST 162 Women's Issues in Modern Muslim

Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces complex religious and social issues related to the role of women in modern Islamic societies ranging from North America to Southeast Asia. Examines Muslim writings produced during the past century. Cross-listed with RLST 162.

GSST 163 The Women of Early

Christianity 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the social roles and literary constructs of early Christian women as evidenced in the New Testament, patristic, and Apocryphal writings. Also considers the significance of those textual traditions for later Western ideas about women's social roles including traditional and feminist theories. Cross-listed with RLST 163.

GSST 165 (E-Z) Themes in Vietnamese

Literature: Women and War 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An exploration of Vietnamese literature in translation as seen through the lens of a particular theme or issue. Focuses on the implications of gender and sexuality on nation formation. All materials are read or viewed in English. E. Women And War; Cross-listed with AST 165 (E-Z), SEAS 165 (E-Z), and VNM 165 (E-Z).

GSST 166 Chicana/o Cultural Studies and

Gender Politics 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the field of Chicana/o cultural studies and investigates the gender politics that attest to its intersectional approach. Considers how power and gendered politics have impacted the restructuring of the split subject in Chicana/o cultural studies. Cross-listed with MCS 127.

GSST 167 Women and Gender in Postcolonial

Africa 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores relations between Africa and the Western world. Examines systems of colonialism and globalization, women's issues, gender identity, and representation in postcolonial Africa. Highlights the impact of these issues on African society and the struggle against systematic practices of oppression that persist at the axis of race, gender, and sexuality.

GSST 168 Gender and Power in Muslim

Societies 4 Lecture, 3 hours; extra reading, 1 hour; written work, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the dynamics of gender relations within the context of the Muslim world. Analyzes processes of power which influence concepts of femininity, masculinity, the body, and sexuality. Explores heterogeneity of the Muslim world as well as its unifying cultural and social history. Cross-listed with ANTH 189.

GSST 169 Gendering Revolution: Gender and Sexuality in "The Arab Spring 4

Lecture, 3 hours; activity 3 hours. Prerequisite(s): upper-division standing or consent of instructor.

Addresses the gender politics of The Arab Spring focusing on revolutionary gender activism. Explores a world of dissent, chaos, and violence, but also one of beauty, ethics, and artistic expression as individuals come together to fight for "bread, freedom, and social justice."

GSST 170 Women Artists in Renaissance

Europe, 1400-1600 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Surveys the lives and work of women artists in Renaissance Europe. Considers circumstances under which it was possible for women to become artists; how they evolved from practicing in the cloistered convent to participating in the competitive public market place; what they painted; and who their patrons were. Cross-listed with AHS 165, and HISE 133.

GSST 171 Environmental Health and Social

Justice 4 Lecture, 3 hours; activity 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021; or consent of instructor. Interdisciplinary examination of the relationship between environmental health and social justice emphasizing gender, race, class, and globalization as analytical lenses. Topics include urban pollution, workplace exposure, industrial catastrophe, invisible environmental hazards, community activism, reproductive health, global capitalism, and new health challenges imposed by climate change.

GSST 172 Contemporary Italian Women Writers

in Translation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on works by Italian women writers addressing issues of gender and sexuality in Italian historical and cultural contexts such as Fascism, the cultures of Sicily and Sardinia, and the North/South divide. Explores intersectionalities of region, class, and gender with emphasis on the undoing of fascist and patriarchal aesthetics. Cross-listed with ITAL 162.

GSST 173 Gender and Climate

Change 4 Lecture, 3 hours; activity 3 hours. Prerequisite(s): GSST 001 or GSST 001S or GSST 001H; GSST 020 or GSST 020H or GSST 020S or GSST 021; or consent of instructor. Examines the global social impacts of climate change that are magnified based on existing inequalities. Focuses on the disparity between women and men in their vulnerability and ability to cope with the global phenomenon. Investigates both women as victims of global warming and their positive roles in climate change mitigation.

GSST 175 Gender, Ethnicity, and

Borders 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 001 or ETST 001H or GSST 010 or GSST 010S or upper-division standing. Examines literary, theatrical, and visual sites where the "in-between" space of border cultures is mapped. Materials include autobiographies, testimonial literature, films, novels, performance scripts, and art. Focuses on the interplay of gender and ethnicity. Cross-listed with ETST 175.

GSST 176 Gender, Human Rights, and

Transnationalism 4 Lecture, 3 hours;

individual study, 2 hours, written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores dynamics of gender and power in human rights activism. Examines the history and evolution of human rights discourse, discourses of liberation, and critical responses to the strategy of framing women's rights as human rights in a comparative, transnational framework.

GSST 178 Gender and Archaeology 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): one of the following courses: ANTH 001, ANTH 001H, ANTH 001W, ANTH 005, GSST 001, GSST 001H, GSST 001S; or consent of instructor. Considers gender roles in ancient and historically recent human societies, as well as how gender has shaped archaeological investigation. Cross-listed with ANTH 178.

GSST 179 Gender, Media, and Latin

America 5 Lecture, 3 hours; screening 3 hours; research 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores the way Latin Americans have thought of and represented gender across a variety of media including essays, film, novel, short story, and performance. Compares the possibilities and limitations of these media for representing gender in the Latin American context. Cross-listed with MCS 179, LNST 109, and SPN 179.

GSST 180 Materialist Feminism 4

Lecture, 3 hours; extra reading, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): GSST 100 or GSST 100S or consent of the instructor. An advanced study of Karl Marx's writings as well as feminist and anti-colonial engagement, expansion, and interventions into his texts. Specific focus on how racial and gendered forms of labor are central to the production of global flows of capitalism and anti-capitalist action.

GSST 181 Feminisms and

Environmentalisms 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021; or consent of instructor. Explores women's and feminist involvement in environmental movements. Examines how gender shapes our relationships with and approaches to environmental problems in the United States and globally. Investigates intersections between feminist concerns (health, reproduction, mothering, gender equity, and social justice) and environmental issues (conservation, pollution and global warming, and sustainability).

GSST 183 Feminist Politics of Food 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; GSST 020 or GSST 020H or GSST 020S or GSST 021; or consent of instructor. Explores politics of food using gender, race, class, and globalization as analytical lenses. Examines expressions of gender and sexuality in food consumption. Investigates relationships between diet and structural racism and between feminist politics and food movements. Topics include food and advertisement, industrial and sustainable agriculture, food security, health, and bioengineering.

GSST 185 Gender, Race, and Medicine 4

Lecture, 3 hours; written work, 1 hour; extra reading, 1 hour; individual study, 1 hour. Prerequisite(s):

upper-division standing or consent of instructor. Explores the relationship between Western medicine and women, racial minorities, and non-Western citizens. Investigates how gender ideology, racial inequity, and colonialism shape the medical representation of bodies, sexuality, and pathology. Examines how patients have renegotiated their relationships with medicine through health movements and alternative healing practices. Cross-listed with ANTH 143.

GSST 186 Gender, Power, and Shifting

Identities 4 Lecture, 3 hours; extra reading, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores constructions of various identities (racialized, gendered, sexual, diasporic) in cross-cultural contexts. Examines contemporary issues and theorizations concerning the intersection and politics of race, gender, and identity.

GSST 187 Women, Gender, and

Technology 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S. Introduces historical and sociological studies of gender and technology. Examines how women have been affected by technological developments and how gender ideologies informed the design and implementation of various technologies. Explores the relations among technology, material culture, sustainability, and power. Technologies covered include those in the household, the workplace, and cyberspace.

GSST 188 Gender and Performance 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on theoretical debates that construct and inform relations between the concepts of gender and performance. Considers the ways gendered bodies have been represented in performance. A broad definition of performance is applicable, and texts cover photographs, films, dance, performance art, drama, and current events.

GSST 189 Gender, Technology, and the

Body 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S, LGBS 001. Examines various technologies that alter the body. Investigates how technological interventions in the body reproduce and reshape gender ideologies in contemporary Western culture. Topics include cosmetic, sex-reassignment, and weight loss surgeries; reproductive, contraceptive, and medical technologies; anti-depressants; sex toys; and body piercing.

GSST 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): upper-division standing or consent of instructor. Independent study and research by qualified undergraduate students.

GSST 191A Seminar in Gender and Sexuality Studies: Feminist Epistemologies 4

Seminar, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): GSST 100 or GSST 100S; consent of instructor. Explores what constitutes knowledge in feminist research as well as knowledge production as a process. Examines

the epistemological questions that feminist scholars and activists debate. Subject matter represents interdisciplinary feminist approaches.

GSST 191B Seminar in Gender and Sexuality Studies: Feminist Research Methods 4

Seminar, 3 hours; extra reading, 1; extra research 1 hour; term paper, 1 hour. Prerequisite(s): GSST 100 or GSST 100S; consent of instructor. Explores the development and definitions of feminist research methodologies. Analyzes debates within quantitative and qualitative social science research methods from a feminist perspective. Investigates ethical dilemmas in feminist research. Considers how research and activism are joined.

GSST 191C Seminar in Gender and Sexuality Studies: Research Practicum in Gender and Sustainability 4

Seminar, 3 hours; practicum, 1 hour; research, 1.5 hours; activity, .5 hours. Prerequisite(s): GSST 021, GSST 100 or GSST 100S, GSST 191A, or consent of instructor. Provides interdisciplinary theoretical and practical experience in framing, developing, and implementing projects pertaining to sustainability, gender, and sexuality. Investigates how gender and sexuality shape and are shaped by local, national, and transnational approaches to such issues as climate change, food and water security, species diversity, and renewable resources.

GSST 195 Senior Thesis 4 Thesis 12, Prerequisite(s): GSST 100 or GSST 100S; senior standing; consent of instructor. Thesis composition under the guidance of a faculty member. Course is repeatable to a maximum of 8 units.

GSST 198G 1 to 12 Seminar, 1 hour; written work, 1 hour; internship, 2 to 32 hours. Prerequisite(s): upper-division standing; consent of instructor. Examines gender issues in gender/sexualities advocacy organizations. Addresses methods of, support for, outreach by, and practices of gender advocacy workplaces. Includes supervised experience in community settings such as a women's advocacy organization, a sexualities advocacy organization, or a gender-oriented organization. Course is repeatable to a maximum of 16 units.

GSST 198I Individual Internship in Gender & Sexuality Studies 1 to 12

Seminar, 1 hour; written work, 1 hour; internship, 2 to 32 hours. Prerequisite(s): upper-division standing; consent of instructor. Examines gender issues in gender/sexualities advocacy organizations. Addresses methods of, support for, outreach by, and practices of gender advocacy workplaces. Includes supervised experience in community settings such as a women's advocacy organization, a sexualities advocacy organization, or a gender-oriented organization. Course is repeatable to a maximum of 16 units.

Graduate Courses

GSST 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and department chair. Addresses special curricular problems. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

GSST 292 Concurrent Analytical Studies in Gender and Sexuality Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Taken concurrently with a 100-series course. Focuses on research, criticism, and written work. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

Professional Course

GSST 302 Teaching Practicum 2 to 4 Seminar, 2 hours; research, 1 hour; practicum, 1 to 2 hours; extra reading, 2 to 3 hours. Prerequisite(s): appointment as a teaching assistant in the Department of Gender and Sexuality Studies. Supervised training for teaching in lower- and upper-division Gender and Sexuality Studies courses. Considers feminist pedagogy including gender and dynamics in the classroom; comparative and historical approaches to teaching about gender and sexuality; techniques for discussing sensitive topics; providing resource referrals for students facing gender or sexuality issues; preparation; grading written work; and student relations. Graded Satisfactory (S) or No Credit (NC).

GENETICS, GENOMICS, AND BIOINFORMATICS

Subject abbreviation: GEN

 Naoki Yamanaka, Ph.D. (Entomology)
 Sika Zheng, Ph.D. (Biomedical Sciences)

Graduate Program

The Genetics, Genomics, and Bioinformatics Graduate Program (GGB) administers a program leading to the Ph.D. in Genetics, Genomics, and Bioinformatics. GGB is an interdepartmental program that includes faculty from the departments of Biochemistry, Botany and Plant Sciences, Computer Science and Engineering, Entomology, Environmental Sciences, Molecular, Cell, and Systems Biology, Nematology, Plant Pathology and Microbiology, and Statistics, as well as the Division of Biomedical Sciences.

The program is structured to allow maximum flexibility in the design of an individual student course program and research goals. A primary objective is to allow students to develop a capability in research as rapidly as possible, consistent with the student's initial preparation.

Students are expected to meet all general requirements of the Graduate Division as printed in the Graduate Studies section of this catalog.

Admission

Submission of GRE scores (verbal, quantitative and analytical) is mandatory for admission. Applicants with any B.A. or B.S. degree and an adequate background in the biological and/or computational sciences will be considered. The specific entry requirements include courses in genetics, biology, chemistry, calculus, computer science, and statistics. Please refer to the Program Guidelines for details. GGB evaluates applications on a continual basis from October to May, however, it normally considers applications for teaching and research assistantships at the same time as fellowships; therefore, students are strongly encouraged to complete their applications for admission and support as early as possible. Normally, fellowships are awarded in January, for students entering the following fall quarter.

Doctoral Degree

The program offers the Ph.D. degree in Genetics, Genomics, and Bioinformatics.

Course Work

The course curriculum consists of three core classes and one or more elective classes. The core curriculum is composed of one genetics, one genomics and one bioinformatics course, while one or more elective classes can be chosen from an area of a student's specialization.

Core Classes (breadth requirements)

Students will take one course from each of the following three areas (A-C).

(A) Molecular Genetics

GEN 203 – Advanced Genetic Analysis of Model Organisms or MCBL 221 – Microbial Genetics or BPSC/BCH 231 – Plant Genome

Students may choose other alternatives after approval by their guidance committee and graduate advisor.

(B) Genomics

GEN 241 (former GEN240A) – Advances in Genomics

(C) Bioinformatics

GEN 242 (former GEN240B) – Data Analysis in Genome Biology
 GDIV 403 – Research and Scholarship Ethics; must be taken within one year of advancement to candidacy

Elective Classes

(areas of specialization)

Students must take one or more classes from the following areas. Students can also choose elective courses other than the ones listed below after approval by their guidance committee and graduate advisor.

Genetics

- CMDB 201 – Molecular Biology
- GEN 206 – Gene Silencing
- CMDB/GEN/BCH 209 – Ribonucleic Acid (RNA) Biology
- BPSC/BIOL 148 – Quantitative Genetics
- BPSC/BCH 231 – Plant Genome
- BIOL/MCBL 221 – Microbial Genetics

- EEOB 214 – Evolutionary Genetics
- ENTX 204 – Genome Maintenance and Stability
- EEOB 216 – Theory of Evolution

Computational Biology and Statistics

- BPSC 234 – Statistical Genomics
- CS 141 – Intermediate Data Structures and Algorithms
- CS 100: Software Construction
CS 234: Computational Methods for Biomolecular Data
- CS 238: Algorithmic Techniques in Computational Biology
- GEN 220 – Computational Analysis of High Throughput Biological Data
- STAT 110 – Biostatistical Methods in Life Sciences
- STAT 155 – Probability and Statistics for Science and Engineering
- STAT 201A/B/C – Theory of Probability and Statistics (replaces 160A/B)
- STAT 201A/B/C – Elements of Probability and Statistical Theory
- STAT 160B – Elements of Probability and Statistical Theory
- STAT 161 – Introduction to Probability Models

Seminars

The GEN 261 seminar (Seminar in Genetics, Genomics, and Bioinformatics) must be taken every quarter.

Supplemental Courses

Students may wish to take additional courses to supplement their graduate training. These courses will be tailored to the specific student's needs and decided upon in consultation with their major professors.

Classes that emphasize genetics, genomics, bioinformatics and other related areas are given in the List of Potential Courses in the GGB Graduate Student Handbook.

Students should consider some training in the ethics of use of genetically modified organisms, impact of patents on application of bioinformatics/genomics data, and/or use of databases with bioinformatics/genomics information in a clinical setting.

Additional Units taken to maintain 12-unit course load

Graduate students will register for 12 units per quarter to maintain full-time status. These units will include any lecture and seminar courses taken for the quarter. Typically students will also register for Directed Research (GEN 297) prior to advancement to candidacy or Research for Dissertation (GEN 299) after passing the Qualifying Exam.

The Ph.D. is a research degree, and, accordingly, the goal of the program is to train students in the theoretical and experimental foundations of modern genetics. Students are strongly encouraged to participate in lab rotations, select a major professor and begin research work early in their training (during the first year of residence).

Written and Oral Qualifying Examinations

Students are advanced to candidacy following

successful completion of a written preliminary examination and an oral qualifying examination.

Dissertation and Final Oral Examination

Successful completion of a final oral dissertation defense is also required.

Foreign Language Requirement

None

Teaching Requirement

Each student must have at least two quarters of teaching experience. This requirement may be satisfied by serving as a teaching assistant in a genetics-related course.

Professional Development Training

Ph.D. graduate students fulfill their professional training requirement through enrollment in GEN 261 and GDIV 403.

Normative Time to Degree

15 quarters

Graduate Courses

GEN 203 Advanced Genetic Analysis in Model

Organisms 4 Lecture, 2 hours; discussion, 2 hours. Prerequisite(s): BIOL 102 or equivalent; graduate standing or consent of instructor. Examines essential concepts in modern genetics. Focuses on universal principles of genetic analysis in prokaryotic and eukaryotic model organisms, emphasizing underlying concepts and logic. Develops skills reading primary scientific literature and critical thinking through analysis of landmark papers. Cross-listed with CMDB 203.

GEN 205 Signal Transduction Pathways in

Microbes and Plants 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in the biological sciences, BIOL 107A or BIOL 113 or BIOL 114 or CBNS 101; or consent of instructor. Advanced topics in signal transduction pathways that regulate growth and development in plants and prokaryotic and eukaryotic microbes. Areas covered include two-component regulatory systems; quorum sensing; signaling via small and heterotrimeric G proteins; mitogen-activated protein kinase cascades; cAMP signaling; photoreceptors; plant hormone signaling; responses to low-oxygen stress; calcium signaling; and plant pathogenesis. Cross-listed with CMDB 205, BCH 205, BPSC 205, MCBL 205, and PLPA 205.

GEN 206 Gene Silencing 3

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing, BIOL 107A or CBNS 101; or consent of instructor. An in-depth coverage of mechanisms, functions, and applications of RNAi and related gene regulatory pathways guided by small RNAs such as siRNAs and miRNAs in plants and animals. Cross-listed with CMDB 206, and MCBL 206.

GEN 209 Ribonucleic Acid (rna)

Biology 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 107A or CBNS 101 or equivalent; or consent of instructor. A comprehensive overview of the multiple functions of ribonucleic acid (RNA) in the cell. Topics include mRNA, rRNA, and tRNA function and metabolism; RNA catalysis and the "RNA world"; eukaryotic and bacterial non-coding

RNAs; and bacterial riboswitches. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CMDB 209, and BCH 209.

GEN 220 Computational Analysis of High

Throughput Biological Data 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): graduate students in a life sciences program or consent of the instructors; previous coursework in genetics/genomics, molecular biology, or cell biology. Enables those with no computer science background to handle high throughput biological data. Covers the Perl programming language; program design, implementation, and testing; relational databases; basic data structures and algorithms; and BioPerl. Includes skill building through analysis of real high throughput biological data. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

GEN 230 Molecular Plant-Microbial

Interactions 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 120/ MCBL 120/PLPA 120, or equivalents. A study of the physiology of host-pathogen interactions with emphasis on the metabolism of diseased plants, nature of pathogenicity, and defense mechanisms in plants. Cross-listed with PLPA 230, BPSC 230, and CMDB 230.

GEN 234 Statistical Genomics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 102, STAT 231B; or consent of instructor. Examines statistical methods of genome analysis. Topics include screening for genetic markers, linkage analysis, linkage disequilibrium, and mapping genes for complex diseases and quantitative traits. Covers statistical techniques including analysis of least squares and maximum likelihood, Bayesian analysis, and Markov chain Monte Carlo algorithm. Cross-listed with BPSC 234.

GEN 241 Advances in Bioinformatics and

Genomics 4 Lecture, 4 hours. Prerequisite(s): BCH 110C or BCH 110HC or BIOL 107A; BIOL 102;. Strategies for genomic and bioinformatic studies with focus on the tools of the trade. Topics include the sequencing, assembly, and annotation of genomes, transcriptome analysis, similarity searching, pattern recognition, genome evolution, and phylogenetic analysis. Discusses papers from bacterial, fungal, plant, and metazoan systems.

GEN 242 Data Analysis in Genome

Biology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): GEN 241; graduate standing. Introduction to algorithms and data analysis programming for high-throughput sequencing, phylogenetics, and network biology. Practicals contain programming homeworks and challenge course projects using R language. No prior programming knowledge required.

GEN 261 Seminar in Genetics, Genomics,

and Bioinformatics 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BCH 261, BIOL 261, BPSC 261, ENTM 261, and

PLPA 261.

GEN 270 Introduction to Video

Bioinformatics 3 Lecture, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. An introduction to video bioinformatics. Includes microscopic techniques, live imaging, video computing, structure and function of cells, spatiotemporal dynamics, multi-scale analysis, disk and data storage, indexing and queries, image and video databases, and medical imaging and analysis techniques. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 270.

GEN 271 Video Bioinformatics: Multi-Scale Analysis of Biological Systems 2

Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the significant range for both the time and spatial scales of biological systems. Includes video imaging techniques, as well as how these spatial and time scales are analyzed for a better understanding of biological function. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 271, and BIEN 271.

GEN 272 Introduction to Imaging

Bioinstrumentation and Analysis 2 Lecture, 1 hour; laboratory, 3 hours; extra reading, 2 hours.

Prerequisite(s): graduate standing or consent of instructor. An introduction to the instrumentation used to collect video images of cells and the methods used to analyze video data. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 272.

GEN 273 Live Imaging and Analysis of Cellular and Molecular Behaviors 2

Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): EE 272/GEN 272 or consent of instructor. An introduction to video imaging methodologies used to capture the cellular and molecular dynamics and interactions in living cells. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 273.

GEN 274 Introduction to Medical Imaging and Analysis 2

Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to medical imaging. Includes associated computational techniques for x-ray imaging, computed tomography, magnetic resonance imaging, positron emission tomography, ultrasound, radiotherapy, and molecular imaging. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 274.

GEN 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor and graduate advisor. Faculty-directed individual study on specially selected topics in genetics, genomics, and bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEN 292 Concurrent Studies in Genetics, Genomics, and Bioinformatics 1 to 4 Research 3 To 12. Prerequisite(s): graduate standing; consent of instructor. Explores one or more graduate projects based on content related to an appropriate undergraduate course.

Includes faculty guidance and evaluation. Taken concurrently with the undergraduate course.

GEN 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing. Directed research in genetics, genomics, and bioinformatics. Performed prior to advancement to candidacy in preparation for dissertation projects. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GEN 299 Research For the Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing. Original research in genetics, genomics, and bioinformatics for preparation of the dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

GLOBAL STUDIES

Mariam Beevi Lam (Comp Lit & Lang)
Perry Link (Comp Lit & Lang)
Susan Ossman (Anthropology)
Fariba Zarinebaf (History)
Milagros Peña, Dean, *ex officio*

Major

Global Studies is designed to be a challenging, interdisciplinary, major that provides students with an understanding of processes and problems that transcend national boundaries. Global Studies majors investigate interconnections that have emerged through global historical processes, transnational mobilities and identities, supranational norms, laws, and institutions, as well as the dissemination of ideas, belief systems, literatures, and arts across borders. Global studies majors also investigate global causes and consequences of division, fragmentation, and conflict.

At UCR, Global Studies majors are expected to master general theoretical and historical literatures on global cultural and economic processes, while pursuing tailored expertise on a specific region or thematic area, such as global health and the spread of disease, human rights and the politics of migration, global arts and media, global economic systems of trade and finance, or sustainability and environmental politics.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Global Studies are as follows:

Students will not be admitted into the major until they have completed either GBST 001 or GBST 002 with a "C-" grade or better.

1. Lower-division requirements

(7 courses [at least 24 units] plus foreign language):

- GBST 001, GBST 002
- Two introductory courses (courses numbered 001–099) in each of two different disciplines.
- Proficiency in a foreign language at the sixth-quarter level
- Two courses in world history chosen from HIST 010 or HIST 010W, HIST 015, HIST 020, or HIST 020W

2 Upper-division requirements (45 units)

Students must select eight courses with significant global content in at least two different disciplines and two courses in a single area, and at least one 100-level GBST course.

ANTH 108, ANTH 109/GSST 109, ANTH 119, ANTH 126/AST 123/DNCE 123/MUS 123, ANTH 128/AST 128/DNCE 128/MUS 128/ THEA 176, ANTH 136, ANTH 140G, ANTH 140I, ANTH 140P, ANTH 163, ANTH 164/ LNST 164/ GSST 164, ANTH 168/ETST 148/ LNST 168, ANTH 170/BPSC 170, ANTH 176/ AST 127/DNCE 127/ETST 172/MUS 127 AHS 115/LNST 115, ANTH 143/GSST 185 AST 123/ANTH 126/DNCE 123/MUS 123, AST 127/ANTH 176/DNCE 127/ETST 172/ MUS 127, THEA 176/ANTH 128/AST 128/ DNCE 128/MUS 128, BPSC 170/ANTH 170, BUS 114, BUS 138, BUS 154B, BUS 178/ ECON 178, BUS 185

3. Capstone requirement (4 units)

Students are required to complete their major with a capstone experience. The capstone must examine at least one global issue. Most students will satisfy this requirement by taking the Senior Thesis Seminar (GBST 193). Students may also conduct an individual project with the approval of the chair of Global Studies.

Minor

1. Lower-division requirements (22 units)

- GBST 001, GBST 002
- Proficiency of a foreign language at the sixth quarter level
- One additional course in world history, taken in consecutive sequence with the first world history course (can be used to satisfy college breadth)

2. Upper-division requirements (7 courses, 45 units)

- Seven Upper-division requirements (45 units). Students must select seven (7) courses with significant global content in at least two different disciplines and two (2) courses in a geographic area. Students may focus on the humanities or social science, but no more than seven (7) courses may be exclusively in either humanities or social science.

Lower-Division Courses

GBST 001 Global History, Culture, and

Ideas 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. A survey of the historical and cultural processes that have made the world more interconnected.

GBST 002 Global Socioeconomic and Political

Processes 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): GBST 001 with a grade of "B" or better is recommended for freshmen. A survey of the economic, political, and physical processes that

have made the world more interconnected.

GBST 090 Special Studies 1 to 3 Individual Study, 3 to 9 hours. Prerequisite(s): consent of program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 8 units.

GBST 100 Global Cities 4 Lecture, 3 hours; field, 3 hours. Prerequisite(s): GBST 001 or GBST 002. A study of urban life as it has emerged in various parts of the world through application of theories of space and the city. Considers how colonialism, urban planning, migration, and trade have influenced contemporary urban environments. Projects explore the city as representation and lived experience in Riverside and Southern California.

GBST 101 (E-Z) Special Topics in Global Issues 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Explores current events in relation to Global Studies. Professors, guest speakers, and the topics addressed involve global issues. E. The Arab Spring; Course is repeatable as content or topic changes to a maximum of 8 units.

GBST 103 Food and Globalization 4 Seminar, 3 hours; extra reading, 3 hours; research, 3 hours; written work, 3 hours. Prerequisite(s): GBST 001; GBST 002. Investigates globalization through the lens of food. Topics include world hunger, food security, agribusiness and health, genetically modified foods, sustainability, labor, migration, fast food, and "slow food." Introduces various research methods including analysis of statistics, semiotics, and the study of social interaction.

GBST 104 Global Economic Crisis 4 Seminar, 4 hours; research, 3 hours, written work 3 hours, extra reading, 3 hours. Prerequisite(s): GBST 001. Examines crises associated with neoliberal globalization, global finance, and recession beginning in the 1970s. Topics include the political economy of capitalism; variation in governmental response; political instability and crisis; origins of current global political economic crises affecting developed countries; and proposed remedies.

GBST 110 Global Migrations and

Movements 4 Lecture, 3 hours; field, 3 hours. Prerequisite(s): GBST 001 or GBST 002. Examines migration and mobility (both global and interregional). Also addresses economic development and displacement of populations and issues of identity and subjectivity in the context of recent theories of mobility and globalization to understand how migration is reshaping borders, ideas of self, political and social entities, and transnational issues.

GBST 130 Management of International

Water 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores basic concepts of international water law. Examines how these concepts, as well as conflict definitions, negotiation principles, and cooperation principles, are applied to international waters. Includes analysis of several major international water cases utilizing contemporary literature. Cross-listed with PBPL 130.

GBST 140 Haiti: Past, Present and

Future 4 Lecture, 3 hours; discussion, 1 hour; research, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Focuses on Haitian history, ecology, earthquakes, political economy, and public health issues in world historical perspective. Incorporates presentations from experts and community activists on topics related to Haitian political, economic, and natural, and health history. Examines leadership skills needed in addressing poverty in the Global South.

GBST 169 From the Maghreb to the Middle

East 4 Lecture, 3 hours; written work, 1 hour; individual study, 1 hour; extra reading, 1 hour. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or GBST 001 or GBST 002 or consent of instructor. An introduction to the peoples and societies of North Africa and the Middle East. Follows the travels of Ibn Battutah, Ibn Khaldun, and Rafik al Tahtawi. Topics include religion, migration, gender, political organization, the global Middle East, Orientalism, and cultural production. Cross-listed with ANTH 169.

GBST 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 15 units.

GBST 191 Seminar in Global Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines contemporary issues and topics in global studies that are not part of the regular curricular offerings. Content of the course varies and is announced as the course is offered. Course is repeatable to a maximum of 16 units.

GBST 193 Senior Seminar 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): senior standing or consent of instructor. Senior capstone course for global studies majors. Examines connections between students' academic experience and their plans for the future. Includes a research paper, as well as speakers on issues addressing professional choices in a global context.

GBST 195A Senior Thesis 4 Thesis, 12 hours. Prerequisite(s): senior standing; consent of instructor. Preparation of a substantial paper based on original research. The student works independently with a faculty member. May be undertaken as a one-, two-, or three-quarter course (GBST 195A, GBST 195B, GBST 195C).

GBST 195B Senior Thesis 4 Thesis, 12 hours. Prerequisite(s): GBST 195A. Preparation of a substantial paper based on original research. The student works independently with a faculty member. May be undertaken as a one-, two-, or three-quarter course (GBST 195A, GBST 195B, GBST 195C).

GBST 195C Senior Thesis 4 Thesis, 12 hours. Prerequisite(s): GBST 195B. Preparation of a substantial paper based on original research. The student works independently with a faculty member. May be undertaken as a one-, two-, or three-quarter course (GBST 195A, GBST 195B, GBST 195C).

GBST 198I Individual Internship in Global

Studies 1 to 12 Internship, 2 to 24 hours; term paper, 1 to 12 hours. Prerequisite(s): consent of instructor. Internship in a public or quasi-public agency or business concern in matters relating to global studies. Requires a summary paper. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

Professional Courses

GBST 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): appointment as a teaching assistant; graduate standing. Supervised teaching in undergraduate Global Studies courses. Required of all Global Studies teaching assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

Graduate Division Courses

GDIV 301 Advanced University Level

Pedagogy 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Instruction in advanced university-level pedagogy. Explores teaching and lecturing strategies, effective teaching philosophies, effective evaluation techniques, and university-level teaching as a profession. Graded Satisfactory (S) or No Credit (NC).

GDIV 302 University Level Pedagogy

Practicum 2 Practicum, 6 hours. Prerequisite(s): GDIV 301. Assists in developing and practicing effective teaching strategies on the university level through observation and experience. Graded Satisfactory (S) or No Credit (NC).

GDIV 403 Interdisciplinary Seminar: Research

and Scholarship Ethics 1 Seminar, 2 hours. Prerequisite(s): graduate standing. Introduction to the core areas that influence the responsible conduct of research (RCR). Designed as an option to meet current federal regulations requiring students on specific federal funds to receive training in RCR. Graded Satisfactory (S) or No Credit (NC).

GDIV 498I Individual Internship 1 to

12 Internship, 3 to 36 hours. Prerequisite(s): graduate student standing; consent of instructor and graduate advisor. An internship in a UCR department or an approved academic institution in order to gain practical experience in academic administration or student services. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content changes to a maximum of 16 units.

Foreign Language Placement Examination

A placement examination is required of all freshmen entering the College of Humanities, Arts, and Social Sciences who wish to meet the foreign language requirement with the same language taken in high school. Consult the quarterly Schedule of Classes and placementtest.ucr.edu for date and time. Transfer students who have taken a college-level language course cannot take the placement examination and should consult with their advisors. No college-level credit may be duplicated. See college placement examination policy.

Major

The Department of Hispanic Studies offers a B.A. degree in Spanish. It offers the opportunity to double-major in Spanish and any other discipline; and to pursue a Spanish minor. A student may major in Spanish by completing the requirements in one of three areas of specialization, or options.

The Literature Option (bold "Literature Option") is intended for students who are interested in learning about the literary culture of Latin America and Spain. Students who choose the Literature Option will become versed in the analysis of writing, fiction, poetry, films, essays

and criticism in Spanish, across historical periods and locations. This broad, liberal education prepares majors to pursue advanced graduate study in Latin American or Spanish literature. It prepares them for careers in educational policy, high school teaching, international relations, law, and many other professions.

The Linguistics Option (bold 'Linguistics Option') is designed for students who are interested in bilingualism, Heritage Language or in Hispanic Linguistics. Students follow this option as preparation for advanced study in multiple fields -Hispanic Linguistics, Education, Language Science(s)- as preparation for K-12 teaching, or as a second major in fields where bilingualism or being bilingual is useful such as Ethnic Studies, the medical field(s), Sociology, Psychology or Anthropology, among others. We particularly encourage Heritage Language Speakers of Spanish, from any major, to pursue a specialization in Hispanic Linguistics.

The Cultural Studies Option (bold 'Cultural Studies Option') is intended for students with an interest in the intersections of society, power, and culture. It offers an opportunity to acquire critical interdisciplinary skills in cultural analysis from a Hispanic perspective. It explores numerous forms of Spanish, Latin American and transatlantic cultural practices including film, television, philosophy, music, visual arts, performance, literature, testimonials, essays, and cultural critique. The Cultural Studies Option is relevant for students considering graduate study in Spanish, literature generally, history, international relations, or anthropology. It prepares students for careers in high school teaching, media work, advertising, creative arts, multimedia projects, and international studies.

All three options are suitable for double majors in all disciplines. Spanish majors very often double major in the fields of Anthropology, Classics, Comparative Languages and Literatures, Education, English, History, Latin American Studies, Philosophy, Psychology, Linguistics, Media and Cultural Studies, Music, or Sociology.

Education Abroad

The Department of Hispanic Studies encourages participation in Education Abroad. The Department regularly offers Faculty Led Education Abroad Programs (FLEAP) that offer UCR credit while learning abroad during Summer Sessions. Please consult with the faculty leader. UCEAP is another opportunity to learn abroad within the UC system. Spanish majors who choose to participate in UCEAP typically travel to Spain or Latin America to study in cities such as Madrid, or Barcelona, Buenos Aires, Santiago, Rio, San José, Mexico City, etc. Students should plan well in advance to ensure that the courses they take outside of the U.S. fit in your overall program at UCR. Consult the departmental student affairs officer for assistance. For details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog. Consult the Education Abroad office at UC Riverside for additional information on international opportunities.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Spanish are as follows:

Option Requirements — Choose one option

Cultural Studies Option

Upper-division requirements (11 courses [at least 44 units]):

1. SPN 101A and SPN 101B, or SPN 109A and SPN 109B
2. SPN 110 (prerequisite for all upper-division literature courses)
3. One course from SPN 122A, SPN 122B, SPN 165, SPN 188
4. Two courses from SPN 125 (E-Z)/MCS (E-Z)/LNST 125 (E-Z), SPN 145, SPN 171/MCS 171, SPN 172, SPN 179/MCS 179/LNST 109/GSST 179, SPN 185/MCS 185/LNST 185, SPN 187
5. Four upper-division elective courses (At least three of which must be in Spanish. One may be in a related area.)
6. SPN 193

Linguistics Option

Upper-division requirements (11 courses [at least 44 units])

1. SPN 101A and SPN 101B or SPN 109A and SPN 109B
2. SPN 105, SPN 106, SPN 107
3. SPN 110 (prerequisite for all upper-division literature courses)
4. Four upper-division elective courses (At least two of which must be in Spanish; it is highly recommended that students take LING 111 and LING 141)
5. SPN 193

Literature Option

Upper-division requirements (11 courses [at least 44 units])

1. SPN 101A and SPN 101B or SPN 109A and SPN 109B
2. SPN 110 (prerequisite for all upper-division literature courses)
3. SPN 180A or SPN 180B
4. SPN 181A or SPN 181B
5. Five upper-division elective courses in Spanish
6. SPN 193

The Department of Hispanic Studies recommends, for all three of the above options, the study of one of the other languages (besides Spanish) spoken in Latin America, the Caribbean, or Spain, such as Portuguese (PORT 101A, PORT 101B, PORT 101C) and French. Less commonly taught languages such as Aymara, Catalan, Euskera, Galician, Guarani, Haitian Creole, Mapuche, Maya, Nahuatl, and Quechua, among others, are encouraged.

Minor

Requirements for the minor in Spanish are as follows (24 units):

1. SPN 101A and SPN 101B or SPN 109A and SPN 109B
2. SPN 110
3. Three upper-division courses in Spanish

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Department of Hispanic Studies offers the M.A. and Ph.D. degrees in Spanish.

The graduate program in Spanish prepares scholars for university teaching and research in Spanish and Latin American literature, linguistics, and/or cultural studies. It is organized primarily for students seeking the Ph.D. degree, although the M.A. degree is awarded in the course of a student's progress.

The faculty in Hispanic Studies offers a wide and diverse group of graduate courses in literary, linguistic and cultural studies. Research and teaching interests include all areas of Spanish and Latin American literature from its origins to the present. Faculty also have strong research and teaching profiles in the philosophy and practices of translation; cultural studies, including Latin American film, gender studies, theories of the body, historiography and fiction; psychoanalysis; bilingualism and heritage language studies; Spanish in the US; sociolinguistics; and political philosophy.

Admission

All applicants to the graduate programs must supply GRE scores for the verbal, analytical, and quantitative tests.

Teaching Assistantships

Most students in the program are Teaching Assistants in the Department of Hispanic Studies; their normal workload includes language teaching and taking three graduate courses per quarter. Teaching Assistants receive training in language instruction as part of their graduate study and teaching duties.

Master's Degree

The Department of Hispanic Studies offers the M.A. in Spanish.

The M.A. in Spanish is awarded to students in the PhD program who successfully complete the course- and examination requirements. As part of their preparation in Hispanic literary and cultural studies and/or linguistics, students are introduced to, current debates in cultural studies, literary theory, bilingualism and second language acquisition. Exceptionally, students may seek a terminal MA degree, when they do not intend to pursue the PhD.

Admission

The Department of Hispanic Studies invites highly qualified candidates from any discipline to apply. We welcome applicants with degrees (for example) in linguistics, literature (Hispanophone as well as Comparative or other literatures), philosophy, psychology and art history.

Course Work

Candidates complete a minimum of 48 graduate units in literature, cultural studies and linguistics, with at least five graduate courses in Spanish Peninsular literature and at least five courses in Latin American literature. The Latin American literature courses SPN 257, SPN 273A, SPN 273B, SPN 273C can be substituted for Spanish Literature courses. (In addition to Spanish and Latin American literature, students may fulfill their 48-unit requirement by taking courses approved by the graduate advisor in Linguistics or Comparative Literature.)

M.A. Examination

Near the end of this two-year program, students take a four-hour written examination, followed by a one-hour oral examination administered one or two weeks after the written examination. These M.A. examinations (written and oral) are based on the texts in the M.A. reading list and course work. The M.A. reading list consists of approximately 60 major works of Spanish and Latin American literature.

Foreign Language Requirement

In addition to Spanish and English, the candidate must demonstrate a reading knowledge of one other language. Students who select Portuguese as their third language may fulfill the requirement by departmental examination or by satisfactory completion of one literature class. Proficiency in other languages may be established by completion of coursework in that language, or by departmental examination. The choice of language is to be made in consultation with the graduate advisor, and should be guided by the candidate's research needs and interests.

Doctoral Degree

The Department of Hispanic Studies offers the Ph.D. in Spanish to train students for academic positions as scholars and teachers, and for alternative academic careers in which research, analysis and writing skills at the doctoral level are most useful. (For instance, in editing, publishing, educational policy, foundation governance, arts administration, and so on.)

The program emphasizes advanced coursework and independent research, culminating in the doctoral dissertation. It is designed to provide in-depth coverage of the student's primary area of study, while also ensuring ample coverage of the broad field of Hispanic Studies.

Admission

Students admitted with the M.A. from other institutions must take an examination at the end of the first year for diagnostic purposes. Candidates who hold the M.A. from UCR must be recommended by the faculty to continue for the Ph.D.

Course Work

There is a minimum course requirement of 24 units beyond the M.A. In practice, doctoral students usually find that more than the minimum is advisable for doctoral training. SPN 220 and SPN 301 are required professional development courses.

Long Paper

As part of their preparation in their major area of specialization, students present a paper of 40

to 50 pages in length, representing scholarly research and analysis in their chosen field of study. The long paper forms the basis of the doctoral dissertation.

Written and Oral Qualifying Examinations

Students choose two areas of concentration as examination areas. One area is the field of major emphasis; a second area or topic is selected in consultation with the chair of the guidance committee.

The area of specialization is defined by the long paper and dissertation topic. The doctoral examination consists of a five-hour written examination (three hours in the major field and two hours in the secondary field or topic), followed by an oral examination of approximately two hours. The oral examination deals with the major and secondary examinations and the long paper. The written and oral examinations are conducted by the qualifying committee nominated by the graduate advisor in consultation with the student and appointed by the graduate dean. Upon the successful completion of the written and oral qualifying examinations, the student is recommended to the graduate dean for advancement to candidacy.

Language Requirements

In addition to Spanish and English, the candidate must demonstrate a reading knowledge of one other language. Students who select Portuguese as their third language may fulfill the requirement by departmental examination or by satisfactory completion of one literature class. Proficiency in other languages may be established by completion of coursework in that language, or by departmental examination. The choice of language is to be made in consultation with the graduate advisor, and should be guided by the candidate's research needs and interests.

Dissertation and Final Oral Examination

Students prepare a dissertation presented as prescribed by the Graduate Division under the direction of the candidate's dissertation committee. After completion of the dissertation, the candidate is examined by the dissertation committee. This examination normally takes the form of a public presentation by the candidate followed by questions from the committee.

Normative Time to Degree

9 quarters (15 quarters for students without an M.A.)

Spanish

Lower-Division Courses

SPN 001 Elementary Spanish 4 Lecture 4, Prerequisite(s): Student is required to take Spanish placement examination. An introduction to the sound system and grammar of Spanish, with attention to the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in Spanish insofar as possible. Audio-lingual and computer-based learning materials are available in the language laboratory.

SPN 002 Elementary Spanish 4 Lecture, 4 hours. Prerequisite(s): SPN 001 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of Spanish, with attention to the development of the four skills: understanding, speaking, reading, and

writing. Classes conducted in Spanish insofar as possible. Audio-lingual and computer-based learning materials are available in the language laboratory.

SPN 003 Elementary Spanish 4 Lecture, 4 hours. Prerequisite(s): SPN 002 with a grade of "C-" or better or equivalent. An introduction to the sound system and grammar of Spanish, with attention to the development of the four skills: understanding, speaking, reading, and writing. Classes conducted in Spanish insofar as possible. Audio-lingual and computer-based learning materials are available in the language laboratory.

SPN 004 Intermediate Spanish 4 Lecture, 4 hours. Prerequisite(s): SPN 003 with a grade of "C-" or better or equivalent. A comprehensive review of the basic grammatical structures of Spanish, vocabulary building, development of conversation and composition skills, and readings of literary and social interest. Classes conducted in Spanish.

SPN 005 Intermediate Spanish 4 Lecture, 4 hours. Prerequisite(s): SPN 004 or equivalent. A comprehensive review of the basic grammatical structures of Spanish, vocabulary building, development of conversation and composition skills, and readings of literary and social interest. Classes conducted in Spanish.

SPN 006 Intermediate Spanish 4 Lecture, 4 hours. Prerequisite(s): SPN 005 or equivalent. A comprehensive review of the basic grammatical structures of Spanish, vocabulary building, development of conversation and composition skills, and readings of literary and social interest. Classes conducted in Spanish.

SPN 012 Myths and Cultures of Latin America, the Caribbean, and Spain: Transatlantic Currents 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Examines cultural themes from a transatlantic perspective, through study of literature, film, and visual arts. Topics include chronicles of the conquest, cultures of the baroque, religious traditions and conflicts, the incorporation of popular culture into the literary tradition, contemporary writers, and cinema. Course is conducted in English.

SPN 046 Introduction to Latin American Film 5 Lecture, 3 hours; screening, 3 hours, discussion, 1 hour. Prerequisite(s): none. Provides an historical overview of Latin American film production. Introduces students to film industries, revolutionary cinema, the role of television, and recent international co-productions. Cross-listed with MCS 046.

SPN 090 Special Studies 1 to 3 To be taken with the consent of the Chair of the Department as a means of meeting special curricular problems. Course is repeatable.

Upper-Division Courses

SPN 101A Advanced Oral and Written Composition 4 Lecture, 3 hours; extra reading, 1.5; written work, 1.5 hours. Prerequisite(s): SPN 006. Designed for nonnative speakers to practice speaking and writing in Spanish and to review basic grammar. Emphasis is on composition, editing, and conversation practice. Class is conducted in Spanish. Native speakers

without knowledge of college-level grammar should take SPN 109A. Credit is awarded for only one of SPN 101A or SPN 109A.

SPN 101B Advanced Oral and Written

Composition 4 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): SPN 101A. Designed for nonnative speakers to practice speaking and writing in Spanish and to review basic grammar. Emphasis is on composition, editing, and conversation practice. Class is conducted in Spanish. Native speakers without knowledge of college-level grammar should take SPN 109B. Credit is awarded for only one of SPN 101B or SPN 109B.

SPN 102A Introduction to Spanish

Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 101B or SPN 109B or equivalent. Introduction to Spanish culture and civilization from the Roman times to the present. Readings cover history, art, architecture, literatures, and other aspects of culture and civilization. Provides background for courses on the literature of Spain. Course is taught in Spanish.

SPN 102B Introduction to Latin American

Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 101B or SPN 109B or equivalent. Introduction to Latin American culture and civilization from pre-Columbian times to the present. Emphasis is on the period from postcolonial independence to the present. Readings cover history, art, architecture, literatures, and other aspects of culture and civilization. Provides background for courses on the literature of Latin America. Course is taught in Spanish.

SPN 103 Spanish Culture and Civilization

in Spain 4 Lecture, 60 hours per quarter; discussion, 20 hours per quarter. Prerequisite(s): SPN 101B or SPN 109B; consent of instructor. Provides intensive study of Spain within its European and New-World contexts. Emphasizes expansion and retraction, as well as the roles of religion and authority. Course taught in Spain in Spanish. Offered in summer only.

SPN 105 The Phonology of the Spanish

Language 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): LING 020; either the SPN 101A and SPN 101B sequence or the SPN 109A and SPN 109B sequence. A descriptive and normative analysis of the phonological system of the Spanish language, with attention given to the phonetic characteristics of contemporary peninsular and Hispano American Spanish.

SPN 106 Structure of the Spanish

Language 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): SPN 105. An introduction to descriptive and applied techniques in the morphosyntax of the Spanish language as found in Spain and Spanish America.

SPN 107 Spanish in the United States 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 106. A sociolinguistic study of the Spanish language in the United States.

SPN 109A Spanish For the Native

Speaker 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): a sufficiently high test

score on the Spanish placement examination, as determined by the Hispanic Studies faculty. Designed for the native speaker with little or no experience with Spanish grammar and composition. Emphasis is on basic grammar, written accents, orthography, and composition. The class is conducted in Spanish. Credit is awarded for only one of SPN 101A or SPN 109A.

SPN 109B Spanish For the Native

Speaker 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SPN 109A. Designed for the native speaker with little or no experience with Spanish grammar and composition. Emphasis is on basic grammar, written accents, orthography, and composition. The class is conducted in Spanish. Credit is awarded for only one of SPN 101B or SPN 109B.

SPN 110 Introduction to Literary Criticism and

Analysis 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): the SPN 101A and SPN 101B sequence or the SPN 109A and SPN 109B sequence. An introduction to the methods and techniques of literary analysis. Practice in textual explication, with regular writing assignments.

SPN 111 (E-Z) Hispanic Lit in

Translation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Reading and discussion of works of major Spanish and Spanish American writers. Topic will vary from quarter to quarter. F. Latin American Lit And Film; M. Masterpieces In Span-amer Mdrn; Q. Don Quijote; R. Theatre Of Spanish Golden Age; T. Latin Amr Theatre In Translatn; W. Women In Latin Amer Literature;

SPN 120A Major Topics in Hispanic

Literature 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SPN 110. Reading and analysis of short texts of authors from Spain, Latin America, and the United States.

SPN 120B Major Topics in Hispanic Literature:

Spain 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SPN 110. Reading and analysis of major texts of authors from Spain.

SPN 120C Major Topics in Hispanic Literature:

Latin America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SPN 110. Reading and analysis of major texts of authors from Latin America. Cross-listed with LNST 120.

SPN 122A Introduction to Hispanic Cultural

Studies 4 Lecture, 3 hours; extra reading, 2.5 hours; screening, 6 hours. Prerequisite(s): SPN 110. An introduction to cultural studies in Latin America and Spain. Explores the relation between high and popular culture, mass media and subcultures, stories and history, narrative and memory, representation and gender, and technology and the notion of "alterity."

SPN 122B Transatlantic Cultural

Studies 4 Lecture, 3 hours; extra reading, 2.5 hours; screening, 6 hours. Prerequisite(s): SPN 110. Offers a transatlantic cultural studies perspective that explores the shared histories of Spain, the Caribbean, and Latin America. Examines issues such as the legacies of the conquest of America and the slave trade, the nation-building process, theories of mestizaje and transculturation, and transatlantic exile.

SPN 123 (E-Z) Mexican Literary and Cultural

Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): for SPN 123E: SPN 110; for SPN 123F: SPN 123E; for SPN 123G: SPN 110; or consent of instructor. Introduces a cultural studies approach to Mexican texts and theorists. Covers issues of nation-building, urbanization, modernization, mestizo imaginaries, representations of violence, gender and nation, indigenismo, race and ethnicity, and borders and migration. Involves reading and discussions of cultural criticism, film, visual culture, and literary texts. E. Mexican Modernities; F. Global Mexico; G. Nation Of Women;

SPN 125 (E-Z) Topics: Latn Amer Film &

Media 5 Lecture, 3 hours; extra reading, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive formal, historical, and theoretical analysis of a theme or issue in Latin American film and media. E. Indigenous Video&latin America; Cross-listed with LNST 125 (E-Z), and MCS 125 (E-Z).

SPN 140 (E-Z) Renaissance&Baroque

Literatures 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SPN 110. A concentrated study of a genre, movement, author, or outstanding work of Spanish literature of the sixteenth or seventeenth century. E. Renaissance & Baroque Literatr; H. La Celestina; J. Golden Age Poetry; P. La Novela Picaresca; T. Spanish Theatre Of Golden Age;

SPN 141 Cervantes 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 110. An overview of Cervantes' texts within their time and place; discussion of his importance in the development of the novel; and close reading of Don Quixote.

SPN 142 Continuities of the Spanish Golden Age

in Modern Latin America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 110. Introduces the relationship of key golden age and Spanish colonial texts to modern Latin American narrative and essay. Explores questions of literary genealogy as well as issues of cultural identity and the reclamation of history.

SPN 145 Performative Expression **in Contemporary Latin American**

Culture 4 Lecture, 3 hours; screening, .5 hours; individual study, 2.5 hours. Prerequisite(s): SPN 110. Addresses divisions and continuities between word and action and art and politics in Latin American short stories, films, and Web projects. Explores performative language that questions separations between saying and doing. Considers performance art as the disruption--or reiteration--of frameworks dividing artistic production from reality. Conducted in Spanish.

SPN 155 The Generation of 1898 4 Lecture, 3 hours; individual study 3 hours. Prerequisite(s): SPN 110. A study of the major writers constituting the generation emerging from the national conflict produced in Spain as a consequence of the defeat in the Spanish American War. Readings and discussion of essays, fiction, and poetry of writers such as Unamuno, Baroja, Valle-Incln, Antonio Machado, Azorn, and Benavente.

SPN 160 (E-Z) 20th Century Spanish

Literatre 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 110. A concentrated study of a genre, period, author, or outstanding work of twentieth-century Spanish literature. E. Spanish Poetry; N. Contemporary Novel In Spain; T. Contemporary Theatre In Spain;

SPN 165 Spanish and Latin American Cultural Studies: Violence and Representation 4 Lecture, 3 hours; screening, 1 hour; extra reading 2, hours. Prerequisite(s): SPN 110. Introduces students to a cultural studies approach to Latin American and Spanish texts and theorists. Covers the Southern Cone dictatorships, post-Franco Spain, and emerging urban imaginaries. Involves readings and discussions of cultural criticism, films, urban chronicles, and literary texts.

SPN 170 (E-Z) 19th & 20th C Latin Amer

Lit 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SPN 110. A concentrated study of a genre, movement, author, or outstanding work of Latin American literature. E. Short Story; F. Censorship; L. 19th-centr Latin American Novel; M. 20th-centr Latin American Novel; N. Mexican Novel; P. Poetry; R. Voyages Through Latin America; T. Spanish-american Theatre;

SPN 171 Reel to Real: Latin American Film and Social Change 4 Seminar, 3 hours; screening, 3 hours. Prerequisite(s): SPN 110. Introduces Latin American film as it articulates with contemporary history and current events. Cross-listed with MCS 171.

SPN 172 The Testimonio and Cultural

History 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): SPN 110. Explores the relation between the testimonial genre and the emergence of Latin American cultural studies, subaltern studies, and postcolonial studies. Involves readings and discussions of a representative sample of testimonial literature and criticism.

SPN 179 Gender, Media, and Latin

America 5 Lecture, 3 hours; screening 3 hours; research, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores the way Latin Americans have thought of and represented gender across a variety of media including essays, film, novel, short story, and performance. Compares the possibilities and limitations of these media for representing gender in the Latin American context. Cross-listed with MCS 179, LNST 109, and GSST 179.

SPN 180A Survey of Spanish Literature, Middle

Ages-1699 4 Lecture, 3 hours; individual study 3 hours. Prerequisite(s): SPN 110. Survey of literary movements and trends and major writers of medieval and Golden Age Spanish literature. Covers writers such as Cervantes, Lope de Vega, Tirso de Molina, Quevedo, and Gngora.

SPN 180B Survey of Spanish Literature,

1700-Present 4 Lecture, 3 hours; extra reading 3 hours. Prerequisite(s): SPN 110. Survey of literary movements and trends and major writers of eighteenth-, nineteenth-, and twentieth-century Spanish literature. Readings in fiction, poetry, drama, and essay. Covers writers such as Moratín, Becquer, Galdos, Larra, Azorín, and

Garcla Lorca.

SPN 181A Survey of Spanish American

Literature, Discovery to Modernismo 4 Lecture, 3 hours, extra reading 3. Prerequisite(s): SPN 110. Survey of literary movements and trends and major Spanish American writers from the colonial period to Modernismo. Readings are in fiction, poetry, drama, and essay. Covers writers such as Sor Juana InÈs de la Cruz, Echeverría, Sarmiento, and Martí.

SPN 181B Survey of Spanish American

Literature, Modernismo to the Present 4 Lecture, 3 hours; extra reading 3 hours. Prerequisite(s): SPN 110. Survey of literary movements and trends and major Spanish American writers from Modernismo to the present. Readings are in fiction, poetry, drama, and essay. Covers writers such as Darío, Azuela, Vallejo, Huidobro, Garcla Márquez, Fuentes, Paz, Buenaventura, and Elena Poniatowska.

SPN 185 Imagining the Nation: Film and

Media in Latin America 4 Lecture, 3 hours; screening 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Study of the role of media and film in creating a national imaginary in Latin America. Focus is on one region or nation--such as the Andes, the Caribbean, Mexico, Argentina, or Chile--relating local history to the global context. Course is repeatable as topics change to a maximum of 8 units. Cross-listed with MCS 185, and LNST 105.

SPN 187 Latin American Science

Fiction 4 Lecture, 3 hours; discussion 1 hour. Prerequisite(s): SPN 110. Focuses on intersections between literature and scientific discourse. Considers how popular notions of science inform the production and reading of the literary text. Topics may include the function of power in scientific discourse, the politics of alternative universes, and science and gender. Course is repeatable as content changes to a maximum of 8 units.

SPN 188 Interdisciplinary Studies: the Hispanic

World 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): SPN 110. Includes reading, research, and discussion on particular problems related to Spain and Latin America that lend themselves to interdisciplinary analysis. Course is repeatable as topics change to a maximum of 8 units.

SPN 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): SPN 110; consent of Department Chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable.

SPN 192 Tutorial Activities 2

Activity, 6 hours. Prerequisite(s): SPN 110; senior standing; consent of Department Chair. Under faculty supervision, students conduct discussion sections of elementary Spanish courses. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

SPN 193 Senior Seminar in the Literatures and

Cultures of the Hispanic World 4 Seminar, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): eight upper-division Spanish courses or consent of instructor. Introduction

to research methods and documentation necessary for completion of a long final project. Specific topics vary depending on the instructor. Intended for Spanish majors. Course is repeatable as topics change to a maximum of 8 units.

SPN 199H Senior Honors Research 1 to

5 Course is repeatable.

Graduate Courses

SPN 203 Problems in Spanish

Linguistics 4 Lecture, 3 hours; research 3 hours. Prerequisite(s): graduate standing. An introduction to the historical and theoretical evolution of Spanish linguistics as a scholarly discipline. Major topics will include perennial problems, schools, and history of linguistics.

SPN 207 History of the Spanish

Language 4 Lecture, 3 hours, individual study, 3 hours. Prerequisite(s): graduate standing; SPN 105, SPN 106, SPN 107, or equivalents. The development of the Spanish language from its origins to modern times.

SPN 208 Linguistic Approaches to

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. Presentation and discussion of semantics, speech acts, and speech genres, and discourse analyses in the framework of contemporary linguistic studies. Topics of inquiry include speech act theory, fiction and nonfiction discourse, pragmatics, syntax, frames of reference, and narrative tenses. Other linguistic levels (i.e., phonology, morphology) are also discussed.

SPN 220 Criticism and Critical

Documentation 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. Covers strategies of reading and analysis. Topics may include critical approaches such as formalism, new criticism, structuralism, deconstruction, and new historicism; psychoanalysis; gender studies; performance studies; and cultural studies. Also may include practice in Modern Language Association (MLA) documentation. Course is repeatable.

SPN 251 Seminar in the Literature of the Middle

Ages and Early Renaissance 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Intensive study of selected topics in Spanish literature through the fifteenth century. Topics may vary. May be repeated for credit.

SPN 257 Seminar in Hispanic

Civilization 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Intensive study of special topics in Hispanic civilization. Topics vary. Course is repeatable to a maximum of 12 units.

SPN 258 (E-Z) Genres of Hispanic

Literature 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Close reading, analysis, and discussion of the major Hispanic texts, plays, and poems. E. Hispanic Lit&the Art Of Poetry; S. Satiric Trad In Hispanic Letrs;

SPN 261 (E-Z) Studies: Golden Age

Literatre 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing.

Intensive study of topics in Spanish literature of the sixteenth and seventeenth centuries. G. The Spanish Comedia; I. Spain & The Western Tradition;

SPN 262 Seminar in Don Quijote 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Critical and theoretical perspectives on Cervantes' masterpiece; assumes prior close reading of the text. Emphasis on narratology and genre, pointing toward a deconstructive/reconstructive reading.

SPN 264 Seminar in Spanish Literature of the Nineteenth Century 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Study of a genre, movement, or outstanding author of this period. Topics may vary. May be repeated for credit.

SPN 269 (E-Z) Studies: 20th-Cent Spanish Lit 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Study of authors, movements, or genres from the Generation of '98 to the present. E. Span Lit Of Generation Of '98; F. Spn Poetry:avnt-grde&gen Of'27; P. Postwar Spansh Novel 1940-pres; T. Thtr Pstwar&dem Epoc 1940-2000; Course is repeatable to a maximum of units.

SPN 270 (E-Z) Latin American Literature 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Study of the main authors and schools in Latin American literature. F. Latin American Film; K. The Mexican Novel; O. The Modern Novel In Columbia; Q. Postmodern Novel In Latin Amer; T. Latin Amer Theatre:16th-20th C; X. 20th-centr Spanish Amer Poetry; Y. The Latin American Avant-garde; Course is repeatable to a maximum of units.

SPN 272 Seminar in the Literature of A Specific Latin American Country 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. The in-depth study of the most important literary achievements of a single country such as Mexico, Argentina, Chile, or Peru, varying each time the course is offered. May be repeated for credit.

SPN 273A Literature and Culture of Colonial Latin America: the Colonial Period and its Interpreters 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. A panoramic introduction to colonial literature from pre-Columbian times to the eighteenth century. Explores the major texts in their historical and literary contexts. Approaches specific passages from several theoretical perspectives. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SPN 273B Literature and Culture of Colonial Latin America: Spain and the New World 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Examines the interrelationship between key Golden Age and Spanish colonial texts and modern Latin American narrative and essay. Explores issues of literary genealogy, cultural identity, and the reclamation of history. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SPN 273C Literature and Culture of Colonial

Latin America: Foundational Narratives of Latin America 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Examines how narrative, history, and the formation of collective consciousness intertwine in Latin America. Considers various periods and their respective mythologies, especially creation myths, with an eye towards teasing out the foundational archetypes and master narratives. Also addresses the purposes of such myths and archetypes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SPN 275 Seminar in Literary Criticism 4 Seminar, 3 hours. Prerequisite(s): graduate standing.

SPN 277 Poetry and Translation 4 Workshop, 3 hours; extra reading, 1.5 hours; research, 1.5 hours. Prerequisite(s): graduate standing; reading proficiency in Spanish. Discusses the efficacy and difficulty of translating poetry from the Spanish language into English. Explores the works of twentieth- and twenty-first century major Spanish language poets. Provides a forum to render and compare translations. Cross-listed with CWP 276.

SPN 278 Studies in Latin American Literature and Culture 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores a specific topic in Latin American literary and/or cultural studies. Topics vary. Course is repeatable.

SPN 279 Studies in Spanish Literature and Culture 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores a specific topic in Spanish literary and/or cultural studies. Topics vary. Course is repeatable.

SPN 290 Directed Studies 1 to 6 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SPN 291 Individual Studies in Coordinated Areas 1 to 6 variable hours. Prerequisite(s): graduate standing. A program of studies designed to advise and assist candidates who are preparing for examinations. Open to M.A. and Ph.D. candidates. Does not count toward the unit requirement for the M.A. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SPN 292 Concurrent Analytical Studies 2 Research, 6 hours. Prerequisite(s): consent of instructor; concurrent enrollment in a SPN 100 course series. Completion of a graduate paper based on research related to the SPN 100 course series. Course is repeatable.

SPN 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

SPN 301 Teaching Spanish at the College Level 2 Seminar, 2 hours. Prerequisite(s): graduate standing. Theories of language and language acquisition which underlie modern methods of Spanish language teaching at the college level. Practical experience in grading,

test construction, lesson planning, teaching techniques, effective aspects of teaching, and creativity in teaching. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SPN 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): CPLT 301 or equivalent; graduate standing; employment as a teaching assistant or associate in. Supervised teaching in lower-division courses. Required of all teaching assistants in Spanish. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PORTUGUESE

Lower-Division Courses

PORT 090 Special Studies 1 to 3 Prerequisite(s): To be taken with the consent of the Chair of the Department as a means of meeting special curricular problems.

Upper-Division Courses

PORT 101A Intensive Brazilian Portuguese For Speakers of Spanish 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SPN 101A or SPN 109A or equivalent. An introduction to Brazilian Portuguese for students knowing Spanish. Emphasizes comparing and contrasting grammatical constructions. Provides examples from Brazilian literature.

PORT 101B Intensive Brazilian Portuguese For Speakers of Spanish 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PORT 101A or equivalent. Continuation of PORT 101A. Covers advanced language through conversation, composition, and readings.

PORT 101C Intensive Brazilian Portuguese For Speakers of Spanish 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): PORT 101B or equivalent. Completes the study of structures of oral and written Portuguese, builds vocabulary, and hones the skills necessary to read Brazilian literature, discuss its content and importance, and write short essays explaining its nature.

PORT 162 (E-Z) Survey in Brazilian Fiction 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PORT 101B. Reading and analysis of selected works of major Brazilian prose writers. Topics may vary each time course is offered. E. Jorge Amado & Machado De Assis; F. Ramos,rego,queirz,azevedo,amad; G. Verissimo, Amado;

PORT 190 Special Studies 1 to 5 variable hours. Prerequisite(s): consent of chair of the department.

Graduate Courses

PORT 201 Brazilian Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. A survey of Brazilian literature from the colonial period to present, including chronicles, poetry, the short story, and the novel. Selected works from the several historical literary periods are read and analyzed. All readings and lectures are done in Portuguese; class discussion and examinations may be done in Portuguese, Spanish, or English.

PORT 202 The Brazilian Novel 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. Reading and discussion of selected Brazilian novels from the nineteenth and twentieth centuries, with emphasis on the most important authors (e.g., Joaquin Manuel de Macedo, Alusio Azevedo, Machado de Assis). Reading and lectures are in Portuguese; class discussion is in Portuguese, Spanish, or English.

**

Majors

History plays a central role in general education for all undergraduate students. History stresses an understanding of changes that take place in society over time. It also provides a meaning to the past that has many implications for the future. Through the study of history, we can greatly broaden our learning by understanding the experience of others, removed in time and distant in space from our immediate world. The study of history is as useful as it is fascinating. History majors develop an ability to communicate well, both orally and in writing, and the capacity to think clearly and analytically. Whatever one's goals, history is an important component of any degree program.

History/Administrative Studies Major

The History/Administrative Studies major is designed to combine the discipline of History, with its emphasis on changes in society over time, with the study of administrative behavior, the development of public policy, and the tools of decision making. The addition of an Administrative Studies component provides History majors with analytical administrative skills as well as familiarity with the theories and policies of public administration. The concepts of organizational behavior and decision making, when combined with the perspectives provided through the History major, ought to be of particular value to those planning to enter careers in business; federal, state, or local levels of public or private administration; government work or to those planning to attend a professional school of administration or to those utilizing the major in a variety of positions in the public or private sector. (See also the Public History Program, which outlines public sector careers in History.)

History/Law and Society Major

The History/Law and Society major is designed to offer students the opportunity to combine the study of history, with its emphasis on changes over time in society, politics, the economy, and culture, with the study of legal and law-like relationships and institutions. The coherent series of courses included in this major ought to be of particular value to those intending to study law or to enter other graduate fields as well as to those planning professional careers in government, public administration, business, or other areas where the relationship between history and the law is of significance.

Career Opportunities

Many students planning graduate work find history an excellent preparation for professional schools such as law and business administration. For those planning a legal career, a strong background in Western institutions and values can be obtained in a variety of courses in the department. And, of course, a major in history prepares the student for graduate study in this field as well as a broad range of general careers in business, government work and foreign affairs that ask for written and verbal skills developed in the major.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The History Department offers the B.A. degree in History, History/Administrative Studies, and History/Law and Society. Students seeking deeper engagement in research may choose the 'With Distinction' option described below.

To provide intellectual focus as each student proceeds through the major, the department offers a number of content pathways, geographical and thematic. Each History major is urged to consult regularly with faculty and staff academic advisors for assistance in selecting courses that will conform to one of the pathways.

No later than 2 quarters after earning upper division class standing, each major must receive the Undergraduate Advisor's approval for a Student Pathway Plan through the major, developed in consultation with members of the Undergraduate Advising Committee and with faculty mentors. Individual Student Pathway Plans should identify a primary pathway that the student will focus on, and should also address the diversity of human historical experiences by including courses in at least two historical fields, regions, or eras. While normally based on the pathways offered by the department, individual Student Pathway Plans may be customized to take account of student interests, course availability, and faculty specializations.

Change of Major

Students switching to the History Major must have completed two History courses with a grade of "C" or better. Students switching to the History/Administrative Studies, or the History/Law and Society Major must have completed three History courses with a grade of "C" or better. Advanced Placement units earned can be applied towards one course when determining major change eligibility.

History Major

The B.A. degree in History requires satisfactory completion of 52 units as follows:

1. Lower-division requirements (20 units):

- a) one world history course (4 units)
- b) HIST 99W (with at least a grade of "C") (4 units)
- c) Three lower division elective courses in History (12 units).

2. Upper-division requirements (24 units):

- a) Six upper-division elective courses in History (24 units).
- b) Students are encouraged to include one HIST 197 Research for Undergraduate seminar (4 units) in their courses for the upper-division requirement, in addition to the seminar requirement below.

3. Seminar Requirement (8 units):

- a) Eight (8) units from the following seminar courses: HIST 001 (Historian as Detective), HIST 197 (Research for Undergraduates), HIST 195A/B (Senior Thesis), and HIST 199/199H (taken in connection with a HIST 197 seminar).

- b) In choosing HIST 197 seminars, students should select sections whose theme pertains to upper-division courses they have already taken.

Students who wish to be recognized as completing the B.A. degree with distinction normally complete HIST 195A and HIST 195B, the two-quarter Senior Thesis. Majors who complete HIST 197 followed by a connected HIST 199 or 199H, or who complete HNPG 195 and whose senior thesis is accepted by the University Honors Program are also eligible. The B.A. degree with distinction also requires a minimum 3.5 GPA in the major at the time of graduation.

Lower-division courses taken elsewhere may be counted toward the lower-division requirement; up to four advanced placement units earned in high school may count toward its fulfillment as well. Students may petition to apply up to two relevant upper-division courses (8 units) from other UCR departments towards the upper-division elective requirement. Please consult with the academic advisors for further details.

History/Administrative Studies Major

The major requirements for the B.A. degree in History/Administrative Studies are as follows:

History requirements (52 units):

All requirements for the B.A. in History

Administrative Studies requirements (37 units)

1. Lower-division courses (17 units)
 - a) BUS 010, BUS 020
 - b) STAT 048 or equivalent (may be used to satisfy breadth requirements)
 - c) CS 008 (may be used to satisfy breadth requirements)
2. Upper-division requirements (20 units)
 - a) Two courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 130 or ECON 162/BUS 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151
 - (4) POSC 181 or POSC 182 or POSC 183
 - (5) ANTH 127 or ANTH 131

These two courses must be outside the discipline of History and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents.
 - b) A three-course track (12 units) in Business Administration courses from one of the following:
 - (1) Organizations (General): BUS 100, BUS 107, BUS 176/SOC 176, BUS 158/ANTH 105, SOC 150, SOC 151
 - (2) Human Resources Management/Labor Relations: BUS 100, BUS 107, BUS 152/ECON 152, BUS 153/ECON 153, BUS 155, BUS 157, PSYC 142
 - (3) Business and Society: BUS 100, BUS 102, BUS 107, PHIL 116, POSC 182,

POSC 186

- (4) Marketing: BUS 103, and two from BUS 112, BUS 113, BUS 114, BUS 117
- (5) Managerial Accounting/Taxation: BUS 108, and two from BUS 166, BUS 168A, BUS 168B
- (6) Financial Accounting: BUS 108, BUS 165A, BUS 165B
- (7) Finance: BUS 106/ECON 134 and two from BUS 134, BUS 136, BUS 137, BUS 138, BUS 139
- (8) Management Information Systems: BUS 101, BUS 171, BUS 173
- (9) Production Management: BUS 104/STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note

In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (History requirements and Administrative Studies requirements).

History/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major requirements for the

B.A. degree in History/Law and Society are as follows:

1. **History requirements** (52 units):
All requirements for the B.A. in History
2. **Law and Society requirements** (36 units)
 - a) PHIL 007 or PHIL 007H
 - b) LWSO 100 (with a grade of "C" or better)
 - c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
 - d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
 - e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
 - f) LWSO 193, Senior Seminar

Note

For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (History requirements and Law and Society requirements). The History courses that may fill the dual requirements include HISE 153 (History of the Common Law), and HISA 120A and HISA 120B (The Supreme Court and the Constitution).

Minor

The History Department also offers a minor in History. The History minor requires satisfactory completion of 28 units as follows.

1. 1. At least one World History course (4 units) and at least one other lower-

division course (4 units).

2. At least four upper-division courses (16 units) in History. The department recommends that minors address the diversity of human historical experiences by including courses in at least two historical fields, regions, or eras.
3. One additional History course (4 units).

Lower-division courses taken elsewhere may be counted toward the lower-division requirement; up to four advanced placement units earned in high school may count toward its fulfillment as well. Please consult with the academic advisors for further details.

Students undertaking a minor in History are urged to consult with the academic advisors for quarterly advising and meet with the undergraduate advisor at least once a year. Appointments can be made through the academic advisors.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Recommended Prelaw Courses

The History major has long been considered as an ideal major for students planning to study law since it meets the three goals that law schools recommend for undergraduate applicants:

1. That they achieve an understanding of the development of social, political, and economic institutions
2. That they develop an ability to communicate well, both orally and in writing
3. That they possess the capacity to think clearly and analytically.

The History Department especially recommends the following upper-division courses to prelaw students:

HISE 150 (Ancient/Medieval England)
HISE 153 (History of the Common Law)
HISA 120A, HISA 120B (The Supreme Court and the Constitution)

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of History offers the M.A. and the Ph.D. in History. Students may choose a concentration in Public History in conjunction with the M.A. in History or as a field for the Ph.D. in History.

Admission

The department accepts admissions applica-

tions from students intending to earn each of these degrees. Applicants must have either the B.A. in History or the baccalaureate in another field and be able to demonstrate a satisfactory knowledge of history. Applications for admission to the graduate programs in History are normally accepted for the fall quarter only. Scores for the GRE are required of all applicants, and applicants must submit a writing sample. Students entering the Ph.D. program without an M.A. may also earn the M.A. in History, as described below. Students admitted to the M.A. program may later request admission to the Ph.D. program.

Entering students choose a faculty advisor, who works closely with the graduate advisor in approving the student's course of study.

Detailed rules for each program are contained in the departmental protocols.

Master's Degree

The Department of History offers two courses of study: History and Public History. Students in the History program have the option of completing the degree via Thesis (Plan I) or Comprehensive Exam (Plan II). Students in Public History must complete the thesis.

Students seeking the M.A. degree choose a field of specialization from the list below, and follow one of two plans:

Areas of Specialization (and related courses)

1. United States (HIST 201A, 201B, 201C, 265AB, 272AB, 273AB, 274AB, 275AB, 276AB)
2. Native American (HIST203A, 203B, 203C, 237, 276AB, 265AB, 272AB, 273AB, 274AB, 275AB)
3. Ancient Mediterranean (HIST211, 221, 222, 223, 225AB, 251AB, Tri-Campus Classics or seminars in related departments with approval from Graduate Advisor)
4. European, with concentration in either Early Modern Europe, Modern Europe, Britain, or Russia (HIST 200, 202C-G, 204, 205A, 205B, 209A, 209B, 224, 240E, 240F, 251AB, 253AB, 255AB, 256AB, 258AB)
5. Latin American (206A, 206B, 285AB, 251AB)
6. Southeast Asia (HIST 242 or courses in related departments with approval from Graduate Advisor, 243AB, 251AB)

Plan I (Thesis) Candidates must complete 40 units of required course work beyond the baccalaureate, 36 of which must be at the graduate level. The student's curriculum must include the following:

1. At least one reading seminar in the student's area of specialization (Reading seminars include HIST201A, 201B, 201C, 203A, 203B, 203C, 237, 200, 202C-G, 204, 205A, 205B, 209A, 209B, 206B, 211, 221, 222, 223, 224, 240E, 240F, 242, 250, 254 or courses in related departments with approval from Graduate Advisor)
2. At least one two-quarter research seminar, preferably in the student's area of specialization (Two-quarter research seminars include 265AB, 272AB, 273AB, 274AB, 275AB, 251AB, 253AB, 255AB,

256AB, 258AB, 285AB, 225AB, 243AB or courses in related departments with approval from the Graduate Advisor.

3. At least 4 units in courses outside the student's area of specialization
4. Twelve (12) units of thesis preparation, HIST 299

Students prepare a substantial M.A. thesis. Candidates must pass an oral examination discussing the thesis and future research agenda. The thesis and orals committee consists of three faculty members.

Plan II (Comprehensive Examination)

Candidates must complete 40 units of required course work beyond the baccalaureate, 32 of which must be at the graduate level. The curriculum must include the following:

1. At least one reading seminar in the student's area of specialization (Reading seminars include HIST201A, 201B, 201C, 203A, 203B, 203C, 237, 200, 202C-G, 204, 205A, 205B, 209A, 209B, 206B, 211, 221, 222, 223, 224, 240E, 240F, 242, 250, 254 or courses in related departments with approval from Graduate Advisor)
2. At least one two-quarter research seminar, preferably in the student's area of specialization (Two-quarter research seminars include 265AB, 272AB, 273AB, 274AB, 275AB, 251AB, 253AB, 255AB, 256AB, 258AB, 285AB, 225AB, 243AB or courses in related departments with approval from the Graduate Advisor)
3. At least 16 units in courses outside the student's area of specialization.

Candidates prepare a portfolio selected by the student and advisor, and must pass a comprehensive oral examination based on the submitted material. The examination committee consists of two faculty members.

Language Requirement

Candidates must demonstrate an ability to read one foreign language.

Public History Program

This program provides historical training in academic research and historiography as well as preparation for careers outside of the academy, in archives, historic preservation, museums, oral history and other realms of public engagement with the humanities, including the digital.

Students prepare in two areas:

1. A historical field outside of Public History
2. Public History

Course Work

Candidates must complete a minimum of 40 units of courses as follows:

1. One two-quarter graduate history research seminar. (Two-quarter research seminars include 265AB, 272AB, 273AB, 274AB, 275AB, 251AB, 253AB, 255AB, 256AB, 258AB, 285AB, 225AB, 243AB or courses in related departments with approval from the Graduate Advisor)
2. Two graduate reading seminars in the historical field (selected from Areas of Specialization listed above, Reading seminars

include HIST201A, 201B, 201C, 203A, 203B, 203C, 237, 200, 202C-G, 204, 205A, 205B, 209A, 209B, 206B, 211, 221, 222, 223, 224, 240E, 240F, 242, 250, 254 or courses in related departments with approval from Graduate Advisor)

3. At least one of the following: HIST 260, HIST 262, HIST 263, HIST238 or additional courses with approval of the Public History advisor.
4. At least one practicum from 260L, 262L, 263L, 238L or additional courses approved by the Public History advisor.
5. Four upper-division undergraduate or graduate courses related to Public History. Two should be outside the History department; courses outside the department require approval of the Public History advisor.
6. Four units of thesis preparation HIST299.

All students must also complete HIST 398-I, which does not count toward the 40-unit requirement.

Internship

The candidate must complete a ten-week internship, coincident with an academic quarter or summer session, at a cooperating institution, for training under professional supervision in a field of the candidate's choice. The internship is registered with a History Department faculty advisor as HIST 398-I. The internship culminates in work towards the M.A. thesis.

M.A. Thesis and Oral Examination

Students prepare a substantial M.A. thesis. Candidates must pass a two-part oral examination: one part on the M.A. thesis and a second part on the candidate's field of history and Public History.

Normative Time to Degree

6 quarters. M.A. students who wish to transfer to the Ph.D. program must apply for a sixth-quarter review as described in the Ph.D. program. No student may enroll in these M.A. programs for more than 9 quarters.

Doctoral Degree

The Department of History offers the Ph.D. in History. The Ph.D. program in History prepares graduates for careers as university teachers, public historians, and professional researchers and analysts.

Admission

Students may prepare for entry into the Ph.D. program by earning a B.A. or an M.A. degree in History or by earning a degree in a closely related field that involves significant study of history. Students holding a degree in another field are evaluated by the graduate studies committee on a case-by-case basis to determine the level of the graduate program at which they should commence their studies.

Course Work

Candidates for the Ph.D. degree entering with a baccalaureate degree complete a minimum of 56 units of required course work, 44 of which must be at the graduate level. Students who enter with an M.A. degree complete a minimum of 28 units, 20 of which must be at the graduate level, and may be able to waive certain course requirements listed below. The student's cur-

riculum during the entire graduate career must include the following:

1. At least two two-quarter graduate research seminars. One two-quarter research seminar may be waived by petition for students completing a MA in Public History at UCR.
2. At least six reading seminars or equivalent courses, chosen from the student's fields
3. At least three courses approved by the graduate advisor for the teaching field requirement, of which two must be at the graduate level

All Ph.D. students must also complete HIST 301. This course does not count towards unit requirements.

Courses should be chosen in consultation with the student's faculty advisor and the graduate advisor; suitable courses are described in the departmental protocols. HIST 290 may be used towards the specific requirements above only with the permission of the graduate advisor.

Ph.D. Fields

Students prepare three fields: a research field, a complementary field, and a teaching field. The research fields that the department offers are listed below; complementary and teaching fields may be chosen from among the research fields or from the list of additional fields. In special cases, students may petition to replace the complementary field with a custom field designed by the student in consultation with two faculty members who agree to administer the written examination in the field. Students may not offer three fields that all deal with a single country or region.

Research Fields:

Early America
Nineteenth-Century United States
Twentieth-Century United States
American West
Native American History
Ancient Mediterranean
Early Modern Europe
Modern Europe
Early Modern England
Modern England
Modern Russia
Colonial Latin America
Modern Latin America
Southeast Asia
Public History

Additional Fields

Early Modern World History
Modern World History
Gender History

Sixth-Quarter Review

All Ph.D. students undergo a comprehensive review no later than the sixth quarter of enrollment in the program, based on a portfolio selected by the student and advisor. The graduate studies committee reviews the student's record and makes one of the following recommendations: proceed, hold, or terminate. Students receiving a hold may reapply once, within three quarters. Students receiving a terminate may continue

enrolling for no more than three quarters to complete M.A. requirements.

Only under extraordinary circumstances may a student continue enrolling for more than 9 quarters (including enrollment while an M.A. student at UCR) without permission to proceed to examinations.

M.A. in History degree for Ph.D. Students

Students enrolled in the Ph.D. program may apply for the M.A. degree in History once they have completed the requirements for the degree.

Requirements for completing the Ph.D. degree

Examinations

Students are examined in their research and complementary fields by a single written examination and at the Ph.D. oral examination. To take the Ph.D. oral qualifying examination, the student must submit a preliminary draft of the dissertation proposal. The teaching field is satisfied by course work.

Language Requirement

Students must demonstrate reading proficiency in at least one language other than English. In certain research fields, students may be required to demonstrate a higher level of proficiency or to demonstrate proficiency in additional languages. Consult the departmental protocols for specific requirements.

Candidacy

Students advance to candidacy after completing all examinations, the teaching field, and the language requirement. By the end of the following academic quarter, each student must submit to the graduate study committee a dissertation proposal approved by the student's faculty advisor.

Dissertation

Candidates must submit a dissertation that demonstrates scholarly, original, and independent investigation of a subject in the student's research field chosen with the advice and approval of the dissertation committee.

Normative Time to Degree

17 quarters (including M.A. work).

Lower-Division Courses

The History Department offers these lower-division courses for the benefit of the entire campus, not specifically for History majors. HIST 010, HIST 015, HIST 017A, HIST 017B, and HIST 020 are appropriate preparation for upper-division work in the department.

HIST 001 The Historian as Detective 4 Seminar, 2 hours; lecture, 1 hour; extra reading, 3 hours; term paper, 3 hours. Introduces close reading of the primary sources and secondary literature that historians use to reach conclusions about the past. Provides an opportunity to work creatively with historical materials and become the historian as detective.

HIST 004 Introduction to Chicano

History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. The historical heritage of the Chicano from Spanish and Indian origins to the Chicano movement, with emphasis on the period since 1845. Cross-listed with

ETST 004.

HIST 010 World History: Prehistory to

1500 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A comparative introduction to the development of cultures in Europe, the Americas, Africa, and Asia. Addresses the origins of world civilizations; the ancient and classical periods from a global perspective; and the evolution of complex political systems throughout the post-Classical world. Includes a comparative discussion of Western and Eastern world religions. Credit is awarded for only one of HIST 010, HIST 010H, or HIST 010W.

HIST 010H Honors World History: Prehistory

to 1500 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to HIST 010. A comparative introduction to the development of cultures in Europe, the Americas, Africa, and Asia. Addresses the origins of world civilizations; the ancient and classical periods from a global perspective; and the evolution of complex political systems throughout the post-Classical world. Includes a comparative discussion of Western and Eastern world religions. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of HIST 010, HIST 010H, or HIST 010W.

HIST 010W World History: Prehistory to

1500 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. A writing-intensive introduction to the development of cultures in Eurasia, Africa, and the Americas. Includes the origins of world civilizations; the ancient and classical world from a global perspective; and the evolution of political and trade networks throughout the post-Classical world. Includes a comparative discussion of world religions. Offers training in writing comparable to that of English 001C. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of HIST 010 or HIST 010H or HIST 010W.

HIST 015 World History: 1500 to 1900 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Emphasis on the unique characteristics of world cultures as they entered into a critical period of increasing interaction, a process that led to the shaping of the modern world order. Specific themes include religious, economic, and political revolution; the development of modern science; continuity and change in agrarian societies; industrialism; imperialism; and changes in the patterns of everyday life. Credit is awarded for only one of HIST 015 or HIST 015H.

HIST 015H Honors World History: 1500 to

1900 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to HIST 015. Emphasis on the unique characteristics of world cultures as they entered into a critical period of increasing interaction, a process that led to the shaping of the modern world order. Specific themes include religious, economic, and political revolution; the development of modern science; continuity

and change in agrarian societies; industrialism; imperialism; and changes in the patterns of everyday life. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of HIST 015 or HIST 015H.

HIST 017A Introduction to United States

History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the major themes and issues in the history of the United States from colonialization to the middle of the nineteenth century.

HIST 017B Introduction to United States

History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the major themes and issues in the history of the United States from the middle of the nineteenth century to the present.

HIST 020 World History: Twentieth

Century 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to world cultures, political systems, war, and revolution in the twentieth century. Topics include the rise and fall of the superpowers, colonization and decolonization, boom and bust, fascism and communism, world wars, and contemporary history. Credit is awarded for only one of HIST 020, HIST 020H, HIST 020W.

HIST 020H Honors World History: Twentieth

Century 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to HIST 020. An introduction to world cultures, political systems, war, and revolution in the twentieth century. Topics include the rise and fall of the superpowers, colonization and decolonization, boom and bust, fascism and communism, world wars, and contemporary history. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of HIST 020, HIST 020H, or HIST 020W.

HIST 020W World History: Twentieth

Century 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. A writing-intensive introduction to world cultures, political systems, war, and revolution in the twentieth century. Topics include the rise and fall of the superpowers, colonization and decolonization, boom and bust, fascism and communism, world wars, and contemporary history. Offers training in writing comparable to that of English 001C. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of HIST 020 or HIST 020H or HIST 020W.

HIST 025 The Ancient Mediterranean 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): none. Surveys the political history of the ancient Mediterranean world from the Bronze Age (3000 B.C.) to the beginning of the Common era. Focuses on the Near East (Sumer, Babylonia, Assyria, Egypt, Israel, Persia), Greece, and Rome. Provides a coherent background for advanced study in ancient Near Eastern, biblical, or classical history.

HIST 026 Civilization Before Greece and

Rome 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): none. An introduction to the history of the ancient Near East, focusing on Mesopotamia and Egypt, but also including the Syro-Palestinian, Anatolian, and Aegean regions. Covers the history and culture of the world from circa 3000 to 300 B.C. that formed the backdrop to the Hebrew Bible and the Homeric epic tradition. Provides a background for further study of the ancient Mediterranean, Near Eastern, or biblical worlds.

HIST 027 Rome: the Ancient City 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Traces the development of the city of ancient Rome. By studying the literary and historical evidence alongside the physical remains of the city--its monuments, art, and historical and archaeological remains--this course seeks to introduce students to the Romans and to their importance for later ages. Cross-listed with AHS 030, and CLA 017.

HIST 030 Themes and Personalities in

History 4 Lecture, 3 hours; extra reading 3 hours. Prerequisite(s): none. Enduring themes and great personalities in history selected from Western and non-Western traditions. Concentrates on particular subtopics to be announced in the Schedule of Classes. Course is repeatable as topics change to a maximum of 24 units. Credit is awarded for only one of HIST 041 or HIST 030 with subtitle: HIST: INFORMATION/COMMUNIC TECH" ;

HIST 033 Witchcraft in Colonial

America 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces the history of witchcraft beliefs and witch-hunting in colonial America. Explores witchcraft in its many dimensions: religious, cultural, psychological, political, legal, social, and economic. Students read original documents and study recent scholarly interpretations of early American events and attitudes.

HIST 034 Introduction to Native American

Culture and Religion 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Interdisciplinary study of contemporary and historic Native American efforts to resist colonialism, with a strong emphasis on land matters, identity issues, and religious forms. Promotes critical reflection on historic and contemporary culture and politics. Cross-listed with RLST 024.

HIST 035 History of North American Indians,

1491-1799 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines North American Indian history from 1491 through Handsome Lake's Revitalization Movement, highlighting the experiences of selected Native groups during the colonial era. Special attention is given to the importance of Native American perspectives of historical issues and events.

HIST 036 History of North American Indians,

1800-1899 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines North American Indian history during the nineteenth century from Jefferson's administration to McKinley's administration. Explores government policies, native agency, and the interface of multiple cultures. Emphasizes Native American historical interpretations.

HIST 037 History of North American Indians,

1900-Present 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines North American Indian history during the twentieth century and early twenty-first century. Topics include allotment, the Indian New Deal, World War II, termination, self-determination, and tribal sovereignty. Students read original documents, study new interpretations, and learn about contemporary Native people.

HIST 039 Introduction to Asian American

History 4 Lecture, 3 hours; research, 1 hour; term paper, 2 hours. Prerequisite(s): none. Introduces the history of Asian Americans from the mid-nineteenth century to the present. Explores the migrations and lives of East, South, and Southeast Asian Americans within local, national, and global contexts. Major themes include imperialism, labor, race and racism, citizenship, and resistance.

HIST 040 Literary Response to Disaster and

Repression 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An examination of how literature (e.g., memoir, fiction, and poetry) can be utilized in the recovery from disaster or repression. Analyzes examples from Asia, Africa, and Europe to address the issues of looking squarely, coming to terms, commemoration, and apology. Cross-listed with CPLT 040. Credit is awarded for only one of CPLT 040/HIST 040 or CPLT 040W/HIST 040W.

HIST 040W Literary Response to Disaster and

Repression 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. Examines how literature is utilized in the recovery from major disaster or repression. Analyzes examples from Asia, Africa, and Europe that address the issues of looking squarely, coming to terms, commemoration, and apology. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Cross-listed with CPLT040W. Credit is awarded for only one of CPLT 040/HIST 040 or CPLT 040W/HIST 040W.

HIST 041 The History of Media, Old and

New 4 Lecture, 3 hours; extra reading, 1.5 hours; individual study, 1 hour; written work, 0.5 hours. Prerequisite(s): none. An historical overview of the technologies and institutions which have sustained the production and transmission of knowledge from antiquity to the present. Themes include literacy and its consequences, the book, manuscript production, the printing press, mass media, the computer, and the Internet. Explores literate traditions from across the world. Credit is awarded for only one of HIST 041 or HIST 030 with subtitle: HIST: INFORMATION/COMMUNIC TECH"

HIST 044 Gods, Ghosts, and

Grandparents 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the rich diversity of Chinese beliefs and practices concerning gods, ghosts, and ancestors through primary and secondary sources. Includes oracle bone inscriptions, philosophical arguments on

the existence of spirits, tomb contracts, sutra promoting the goddess Guanyin as Giver of Sons, ghost stories, and eyewitness accounts of funeral rituals. Cross-listed with RLST 044. Credit is awarded for only one of HIST 044/RLST 044 or HIST 044W/RLST 044W.

HIST 044W Gods, Ghosts, and

Grandparents 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL001B with a grade of "C" or better or consent of instructor. Introduction to the rich diversity of Chinese beliefs and practices concerning gods, ghosts, and ancestors through primary and secondary sources. Includes oracle bone inscriptions, philosophical arguments on the existence of spirits, tomb contracts, sutra promoting the goddess Guanyin as Giver of Sons, ghost stories, and eyewitness accounts of funeral rituals. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C. Cross-listed with RLST 044W. Credit is awarded for only one of HIST 044/RLST 044 or HIST 044W/RLST 044W.

HIST 045 (E-Z) Topics in Asian History 4 Lecture, 3 hours; consultation, 1 hour. An introduction to regional histories and cultures of Asia. E. Premodern China And Japan; F. Contemporary China; G. India In The Western Imaginatn; Cross-listed with AST 045 (E-Z).

HIST 046 Introduction to Southeast Asian

History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Introduces major themes and events in Southeast Asian history. Covers from prehistory to contemporary events in the region. Develops basic historical approaches to understanding contemporary trends, such as the spread of world religions, regional differences and connections, trading patterns, cultural forms, and historically important sites.

HIST 047 Dragons and Dynasties: Themes in

Imperial Chinese History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Surveys selected topics in Chinese history (ancient times through the eighteenth century). Introduces basic concepts and facts on China's geography, religions and philosophies, relationship between state and society, socioeconomic roles of women, foreign relations, and science and technology.

HIST 048 From Yam Sauce to Golden Arches:

Chinese Food History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A basic introduction to different roles of food in Chinese history. Topics include regional food cultures, religion, rituals, festivals; food as medicine; food production and land use. Considers the impact of introducing new kinds of food into Chinese society; food as social and cultural markers, and famines. Credit is awarded for only one of AST 188E/HIST 188E or HIST 048.

HIST 051 Europe From Plague to Revolution,

1400-1750 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): none. A survey of European history from the aftermath of the Black Death until the French Revolution. Introduces the geographic, demographic, and economic

conditions underlying early modern European society, and examines cultural, political, and intellectual forms as they changed. Special attention is given to the historical experience of individuals, including commoners and elites.

HIST 052 Europe From the Enlightenment to

1968 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. A survey of European history from the mid-eighteenth century to 1968. Focuses on the political and social revolutions in France and Russia, two world wars, and the consequences of rapid industrialization. Explains the emergence of a large middle class, the transformation of women's roles, and changing perceptions of the outside world.

HIST 060 Years of Protest: America, 1960-

1975 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. A close examination of the intellectual and cultural trends in the period from 1960-1975, with emphasis on the rise of the New Left, the Counterculture and the growing militancy of Blacks, Native Americans, Chicanos, and women.

HIST 075 Introduction to Latin

America 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to 500 years of Latin American history using popular stories and myths to explore source documentation and historical evidence. Analysis of the multiple versions of truth that can constitute the history and collective consciousness of a people. Source material includes written texts, film, and music.

HIST 089 Maps: A History of

Cartography 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Introduces the history of cartography. Explores the importance of maps as tools that shape our understanding of the world, and as useful sources about the past.

HIST 099W The Historian's Workshop 4

Lecture 2, Discussion 2, Prerequisite(s): ENGL 001B with a grade of "C" or better; or consent of instructor. An introduction to the tools in the historian's workshop. Includes historical sources, methods of analysis, and various approaches to historical narrative. Discusses historical research, analysis, and writing through study of historical works and through practice with original historical sources. Prepares for upper-division History and humanities courses. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C

Upper-Division Courses

HIST 104 The Scientific Revolution 4 Lecture, 3 hours; online discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. History of the scientific revolution of the sixteenth and seventeenth centuries from Copernicus through Newton, stressing the cultural interaction of science, philosophy, and religion, with secondary attention to the historical sociology of science.

HIST 105 Science in the Modern

World 4 Lecture, 3 hours; online discussion, 1 hour. Prerequisite(s): upper-division standing

or consent of instructor. History of science in the nineteenth and early twentieth centuries, stressing the rise of the Darwinian world view, the genetic revolution and its social consequences, and the romantic rejection of science.

HIST 106 Science in Triumph and

Crisis 4 Lecture, 3 hours; online discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. History of science in the twentieth century with attention to the revolutions in physics and biology, the role of scientists in the world wars, the social responsibility debate, and the rise of the United States as a scientific power.

HIST 107 Disease and Society 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers a world history of disease and how it relates to massive population change, cultural shocks, and globalization. Evaluates the complex and reciprocal relationship between illness and society. Analyzes how cultures, states, and individuals shape the spread of contagious disease, as well as how disease affects societies.

HIST 108 Technology in Premodern

Civilizations 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines relations between society, machine, and state in ancient China, Greece, Rome, and medieval Europe. Focuses on key mechanical and civil technologies and the role of the state in differentiating their development between the four historic civilizations. Cross-listed with ENGR 108.

HIST 109 Technology in Modern Europe and

America, 1700-Present 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the emergence of modern Europe through the first and second industrial revolutions in Europe and America. Explores the development of device commodities as the typical form of consumer technology in the nineteenth and twentieth centuries, as well as addresses philosophical issues in understanding technology. Cross-listed with ENGR 109.

HIST 110 History of Ancient

Astronomy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the origins and history of ancient astronomy from Mesopotamia to the Greco-Roman world. Topics include the problems of the calendar and planetary motion, and the relation between astronomy and astrology in the ancient world. Focuses on readings from primary texts. Cross-listed with CPAC 134.

HIST 111 Public History and Community

Voices 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the study of public history and the use of oral history, narratives, written sources, photographs, material culture, and other documentary evidence important to presenting historical information and interpretation to a large audience. Analysis of archives, museums,

government agencies, familial sources, and other historical repositories that hold community voices. Students present public history by producing an exhibit, published work, or community project.

HIST 121 Middle Eastern History, 1200 to 1800 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. Explores the history of the Middle East from 1200 to 1800. Includes the Mongol conquests, as well as the rise and expansion of the Ottoman empire.

HIST 122 Modern Middle East History (1800-1935) 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the history of the modern Middle East from 1800 to the aftermath of WWI. Examines rise of colonial empires, imperial rivalries and clashes in the borderlands, and movements of autonomy.

HIST 124 Women in Middle Eastern and Islamic History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. Explores the history of women in the Middle East from the medieval to the modern period. Focuses on the legal status of women, their social and economic position, the rise and development of the feminist movement, and the impact of various Islamist movements.

HIST 125 Islam and Revolution in Iran 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the historical background to the Iranian revolution of 1978-1979. Offers a critical assessment of the existing scholarship. Includes the rise of Shi'ism as Iran's state religion; the relationship between religion, state, and society; and the role of Shi'i Islam versus other ideologies with social movements.

HIST 126 Istanbul in History and Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores urbanization in Middle Eastern and Ottoman history. Includes the history of Istanbul from the Ottoman conquest to the end of that empire. Addresses questions of urban transformation, imperial cities, Islamization, urban institutions, cosmopolitanism, and modernity.

HIST 127 Israel: the Jewish State 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines Zionism and the state of Israel in the period from the first Zionist Congress in 1896 to the present. Addresses religious, social, economic, and political aspects of the Jewish state. Cross-listed with RLST 126.

HIST 128 Iran Through Literature and Cinema 4 Lecture, 3 hours; extra reading, 1 hour; screening, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the history of Iran through its rich literary and film production. Examines the transformation of the country and its revolutionary age through the humanities, arts, and contributions to global cinema.

HIST 130A History of Christianity: Origins to the Reformation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Surveys the history

of Christianity from its origins through the Reformation. Includes the development of Christian beliefs, practices, and institutions in historical contexts. Cross-listed with RLST 135A.

HIST 130B History of Christianity: Modern Era 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Surveys the history of Christianity since 1500. Emphasizes the Christianization of Asia, Africa, and the Americas in the long colonial era. Follows developments in Christian belief, practice, and institutions up to the present. Topics include Reformation, mission, colonialism, empire, conversion, syncretism, modernity, Vatican II, and the rise of evangelical Christianity. Cross-listed with RLST 135B.

HIST 137 (E-Z) Themes&Topics in African History 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A thematic and topical approach to the study of African history from the early Nile Valley civilizations to the twentieth century. Examines the temporal and spatial development of African societies--including their social, political, economic, and ideological systems--during the precolonial, colonial, and postcolonial periods. F. West African History 1800; I. 19th&20thcn Africa&Eur Imprlsm; J. Ancient Africa; K. Africa From 1000-1880; M. Twentieth-century Africa; Cross-listed with ETST 117 (E-Z).

HIST 138 African Cities in Modern History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A history of African cities from 1800 to the present. Examines the range of settlement patterns in Africa's changing landscape. Also explores connections between urban and social change, gender, culture, architecture, colonialism, and the effects of rural-urban migration.

HIST 139 African: Fiction, Film and Science Fiction 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor. Introduces the use of fiction, film and science fiction in the study of African history. Examines themes including gender, colonialism, sexuality, nationalism, urbanization and disease cultures.

HIST 140 Africa and the French Atlantic 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor. Introduces historical debates about French Atlantic expansion from the 17th century through the final French abolition of slavery in 1848 with a special focus on Africa. Explores distinctions between French and other European (especially British) imperial trajectories.

HIST 179 Introduction to Modern Japanese History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical examination of key moments in the history of Japan from the Tokugawa period through the late twentieth century.

HIST 180 Early Traditional China 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s):

upper-division standing or consent of instructor; at least one lower-division history course recommended. The history of China from Neolithic times to the end of the Tang Dynasty (early tenth century, C.E.) with emphasis on social, economic, and political history.

HIST 181 Late Traditional China 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 180 strongly recommended. A survey of Chinese history from the tenth century to the early nineteenth century, covering the Song, Yuan, Ming, and part of the Qing dynasties. Emphasis on social, economic, and political history.

HIST 182 Modern China 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. HIST 180 and HIST 181 are recommended. Examines the history of China from the Opium War to the early Communist period (1842-1960). The emphasis is on reaction to the Western impact and modernization.

HIST 184 The Vietnam Wars 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with AST 160, SEAS 184, and VNM 184. Credit is awarded for only one of the following: AST 160/HIST 184/SEAS 184/VNM 184 or AST 160S/HIST 184S/SEAS 184S/VNM 184S.

HIST 184S The Vietnam Wars 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with AST 160S, SEAS 184S, and VNM 184S. Credit is awarded for only one of the following: AST 160/HIST 184/SEAS 184/VNM 184 or AST 160S/HIST 184S/SEAS 184S/VNM 184S.

HIST 185 Southeast Asia, Prehistory to 1800 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): upper-division standing or consent of instructor. Covers the major Southeast Asian historical periods and cultures. Includes prehistory, classical kingdoms, and early modern trading states. Considers the role of ancient stories, religious systems, technologies, and art forms in forming traditional Southeast Asian identities, as well as the influences on these identities from outside the region. Cross-listed with AST 126, and SEAS 185.

HIST 186 Modern Southeast Asia, 1800 to Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the formation of

modern Southeast Asian nations and cultures since 1800. Compares colonial and postcolonial experiences in the region. Studies the formation of nationalist movements and the relationship of nationalist history with traditional and local histories. Considers the role of the individual, modern media, and global trade in the near-present. Cross-listed with AST 129, and SEAS 186.

HIST 187 Vietnamese Literary History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. A historical analysis of Vietnamese literature from its oral tradition to contemporary fiction. Follows the formation of the nation-state and the subsequent struggles with the Chinese, French, Japanese, and Americans. No knowledge of Vietnamese required. Readings are in translation or bilingual editions. Classes are conducted in English. Cross-listed with AST 162, VNM 162, and SEAS 162.

HIST 188 (E-Z) Topics in Chinese History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): HIST 180 or HIST 181 or HIST 182; restricted to class level standing of junior, or senior. An in-depth look at important topics in Chinese history. E. Chinese Food Culture; F. Four Grt Inventns Imperl China; G. Environmental History Of China; Cross-listed with AST 188 (E-Z).

HIST 189 Encountering Vietnam 5 Lecture, 6 hours; tutorial, 6 hours; project, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on literary and historical accounts of Vietnam. Utilizes translated travel writings from different genres and eras. Proficiency in Vietnamese not required. Taught in Vietnam and offered only in summer. Cross-listed with AST 189, SEAS 189, and VNM 189.

HIST 190 Special Studies 1 to 5 Prerequisite(s): To be taken with the consent of the chair of the department to meet special curricular problems. Course is repeatable to a maximum of 16 units.

HIST 191 (E-Z) Seminar in History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Requires a substantial research paper or project, the result of carefully guided independent work. E. Medieval History; F. Renaissance And Reformation; G. 17th And 18th Century Europe; I. 19th Century Europe; J. 19th And 20th Century England; K. 20th Century Europe; L. Modern Russia; M. European Thought And Culture; N. Mexican Migration To The U.s.; P. Colonial American History; Q. 19th Century American History; R. The American West; S. 20th Century American History; T. American Thought And Culture; U. Colonl&19th Century Latin Amer; V. Recent Latin America; W. Chinese History; X. Mass Media; Y. African History; Z. Ancient History;

HIST 195A Senior Thesis 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): HIST 197; a major in History or History/Law and Society or History/Administrative Studies; consent of instructor. Original research and senior thesis writing under close faculty supervision. Included formulating an individual research question, evaluating competing narratives in both primary and secondary sources, and developing an original argument based on primary and

secondary sources. Graded in Progress (IP) until HIST 195A and HIST 195B are completed, at which time a final grade is assigned. After completing both HIST 195A and HIST 195B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 195B Senior Thesis 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): HIST 195A. Completion of a senior thesis under close faculty supervision. After completing both HIST 195A and HIST 195B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 197 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): HIST 099W; upper-division standing; major in History or History/Law and Society or History/Administrative Studies; or consent of instructor. Introduces advanced historical research on specific topics using primary and secondary source materials. Analyzes historical questions related to the selected topics and develops historical arguments to be explored further. Topics vary based upon the research focus of the instructor. Course is repeatable as topics change to a maximum of 16 units.

HIST 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

HIST 198G Public History Practicum 1 to 12 Seminar, 1 to 2 hours; research, 1 to 6 hours; internship 3 to 24 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides practical experience and project-based research in public history. Work with public history faculty or an appropriate professional organization to gain skills related to museum exhibitions, interpreting historic sites, archives and libraries, oral and digital history projects, historic preservation, and other forms of public history. Course is repeatable to a maximum of 16 units.

HIST 198I Individual Internship in History 1 to 12 Laboratory, 4 to 36 hours. Prerequisite(s): consent of instructor and upper-division standing. Individual interns will learn about the policies and operations, present and past, of cooperating agencies, such as museums, archives, professional associations, clinics, hospitals, churches, businesses. Students will become familiar with the on-going operations of these organizations and will research and write their histories under faculty supervision. Course is repeatable to a maximum of 16 units.

HIST 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): a segment of HIST 191 (E-Z); not open to students in the University Honors Program. The student works individually

with the instructor to continue and expand a research paper or project begun in a HIST 191 (E-Z) segment. Course is repeatable to a maximum of 8 units.

HIST 199H Senior Honors Research 1 to 5 Research, 3 to 15 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Offers the opportunity for directed research at an honors level. Satisfactory (S) or No Credit (NC) grading is not available.

Graduate Courses

Consent of the instructor is required for enrollment in all graduate courses.

HIST 200 Reading Seminar in European History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces advanced study of major themes and areas in British, European, and Russian history. Concentrates on recent scholarship illustrating current methods and questions in European history. Covers all three major geographical areas, although emphasis may vary. Course is repeatable to a maximum of 8 units.

HIST 201A Reading Seminar in American History: Colonial North America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores colonial North American history as presented by primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units.

HIST 201B Reading Seminar in American History: United States, 1789-1877 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores American history from 1789 to 1877 as presented by primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units.

HIST 201C Reading Seminar in American History: United States, 1877 to the Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores American history from 1877 to the present as presented by primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units.

HIST 202A Reading Seminar in European History: Early Modern Europe (1400-1789) 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores European history from 1400 to 1789 as presented through primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units.

HIST 202B Reading Seminar in European History: 1789-Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores European history from 1789 to the present as presented through primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units..

HIST 203A Reading Seminar in Native American History: Early America, Fifteenth

Through Eighteenth Centuries 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the theoretical approaches, central historical problems, and historiographical debates related to the study of Native American history. Covers the fifteenth through the eighteenth centuries. Course is repeatable as content changes to a maximum of 12 units.

HIST 203B Reading Seminar in Native American History: Nineteenth Century 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the theoretical approaches, central historical problems, and historiographical debates related to the study of nineteenth-century Native American history. Course is repeatable as content changes to a maximum of 12 units.

HIST 203C Reading Seminar in Native American History: Twentieth Century 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the theoretical approaches, central historical problems, and historiographical debates related to the study of twentieth-century Native American history. Course is repeatable as content changes to a maximum of 12 units.

HIST 204 Materials For Modern French and Latin European History 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides readings in secondary literature on the history of France since the 1789 revolution. Also explores selected themes related to the histories of Italy and Spain. Course is repeatable as content changes to a maximum of 12 units.

HIST 205A Reading Seminar in English History: 1485-1820 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of selected primary materials related to English history. Also includes assessment of secondary accounts. Course is repeatable as content changes to a maximum of 12 units.

HIST 205B Reading Seminar in English History: 1760 to the Present 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of selected primary materials related to English history. Also includes assessment of secondary accounts. Course is repeatable as content changes to a maximum of 12 units.

HIST 206A Reading Seminar in Latin American History: Colonial Period to 1820 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores colonial Latin American history as presented by primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units.

HIST 206B Reading Seminar in Latin American History: 1820 to the Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores Latin American history from 1820 to the present as presented by primary and secondary sources. Course is repeatable as content changes to a maximum of 12 units.

HIST 207A Reading Seminar in the Early Modern World 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the major concepts, categories, methodological approaches, and historiographical issues in recent scholarship on the early modern world (circa 1400-1750). Focuses on interregional and interdisciplinary analysis. Course is repeatable as content changes to a maximum of 12 units.

HIST 207B Reading Seminar in the Modern World 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the major concepts, categories, methodological approaches, and historiography in recent scholarship on the modern world (circa 1800 to the present). Focuses on interregional and interdisciplinary analysis. Course is repeatable as content changes to a maximum of 12 units.

HIST 209A Reading Seminar in Modern Russia: 1801 to 1917 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the historiography of Russian history. Topics include social development, cultural and religious history, peasants, industrialization, revolutionary movements, Bolshevism, ideology, and the Russian Civil War. Course is repeatable as content changes to a maximum of 12 units.

HIST 209B Reading Seminar in Modern Russia: Soviet History 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the historiography of Russian history. Topics include social development, cultural and religious history, Stalinism, World War II, and the post-Stalinist period. Course is repeatable as content changes to a maximum of 12 units.

HIST 210 Introduction to Economic History 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Analysis of selected problems on economic history with an emphasis on methodological approaches to those issues.

HIST 211 Reading Seminar in the Roman Empire 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the theories and practices of recent research into key issues of the history of Rome. Covers the late Republic and continues into the high empire. Introduces the key historiographic texts as well as the primary ancient sources relevant to key topics in Roman history. Course is repeatable as content changes to a maximum of 12 units.

HIST 212 Greek Historical Texts 2 Seminar, 1 hour; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Reading and translation of Greek historical texts. Authors treated vary by quarter. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 20 units.

HIST 213 Latin Historical Texts 2 Seminar, 1 hour; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Reading and translation of Latin historical texts. Authors treated vary by quarter. May be taken Satisfactory (S) or No Credit (NC) with consent

of instructor and graduate advisor. Course is repeatable to a maximum of 20 units.

HIST 214 Reading Seminar in Archaic and Classical Greek History 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Explores the major concepts, categories, methodological approaches, and historiographical issues in recent scholarship on the Archaic and Classical Greek world (circa 1200-300 BCE). Focuses on interregional and interdisciplinary analysis. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

HIST 215 (E-Z) Topics in American History 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Analysis of selected specific topics in American history. E. Slave Folklore&historical Prcs; F. Cultr&politics In 20th-cen U.s.; G. Transnational Migrations; I. Populsm,progrsv Movmt&new Deal; J. The World Of Little Women; K. Hist Of Wkrs & Wrkrs Org In Us; L. History Of Slavery&race In Us;

HIST 216 (E-Z) Themes in Hist of the Americas 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing. Addresses intranational and international histories of the countries and peoples of the Americas. E. Mex Trnsnatl Labor &organizing; F. Borders And Borderlands;

HIST 217 (E-Z) Topics in Asian History 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. An introduction to a set of major research monographs in Asian history. E. Agrarian China Frm Ming To Prs;

HIST 218 Africa in the Era of the Transatlantic Slave Trade 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the political economies and the social and cultural histories of Atlantic Africa between 1500 and 1800 within the wider framework of the Atlantic world. Emphasis is on methodological and theoretical issues and questions. Readings are based on primary historical sources as well as on recent research in the field.

HIST 220 Reading Seminar in Women's History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An exploration of the major methodological and historiographical issues in women's history. Focuses primarily but not exclusively on women in the United States.

HIST 221 Reading Seminar in Hellenistic History 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Introduces the Hellenistic age as it took shape in the Eastern and Western Mediterranean. Examines how new currents of thought merged with preexisting institutions. Topics include political, social, religious, and intellectual developments. Course is repeatable to a maximum of 12 units.

HIST 222 Reading Seminar in Late Antiquity 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the

central historiographical debates in the field of Late Antiquity. Course is repeatable as content changes to a maximum of 12 units.

HIST 223 Reading Seminar in Early Medieval History 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces advanced scholarship in selected areas of early medieval historiography. Focuses on independent historiographical research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

HIST 224 Research Seminar in Later Medieval History 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces advanced scholarship in selected areas of later medieval historiography. Focuses on independent historiographical research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

HIST 225A Research Seminar in Ancient and Medieval History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines a historical theme or issue in ancient and medieval history. Includes readings in primary sources and analysis of research methods. First of a two-quarter sequence in which work begins on a major research paper. After completing both HIST 225A and HIST 225B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 225B Research Seminar in Ancient and Medieval History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 225A. Examines a historical theme or issue in ancient and medieval history. Includes readings in primary sources and analysis of research methods. Second of a two-quarter sequence in which a major research paper is completed. After completing both HIST 225A and HIST 225B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 226 (E-Z) Spec Topics - Ltn Amer History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): HIST 206A or HIST 206B; graduate standing. Analysis of selected specific topics in Latin American History. E. Latin Amer Soc & Econ History; F. Race & Ethnicity In Latin Amer; G. Women In Latin America; I. Politics&formation-nation State; J. Histy Of The Latin Amr Family; K. Immigratr, Emigratr, & Migratr; M. Mass Media In Latin America; N. U.s.-latin American Relations; O. Natlsm,librlsm,&soclsm-lat Amr; Q. Slavy&slave Soc-19 Cen Lat Am;

HIST 229 The American Other: Apparitions and Appropriations 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Cultural studies of the uncanny in American history in relation to race, gender, and colonialism.

HIST 230 The American Frontier: Ideas and Interpretations 4 Lecture, 3 hours; consultation and extra reading, 3 hours. Prerequisite(s): HISA 137. The broad themes and historical interpretations regarding the frontier as a factor in the American character and in American

institutions.

HIST 237 Reading Seminar in Native American Historical Theory 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of salient theoretical issues raised by Native American history. Critiques theoretical approaches and assumptions currently shaping Native American history and assays the potential contributions to Native American history of theoretical approaches developed in other fields of concentration.

HIST 238 Reading Seminar in Oral History 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to the field of oral history. Explores the theoretical foundations, ethical issues, and new directions in oral history research.

HIST 238L Oral History Practicum 4 Lecture, 2 hours; research, 6 hours. Prerequisite(s): graduate standing or consent of instructor. A study of oral history methods, theory, and practice. Students conduct interviews, transcribe, and produce a paper which utilizes the oral history interviews. Includes discussion of final interviews, transcripts, analysis, and the paper. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

HIST 240 (E-Z) Read Sem:documntry Source Prac 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Introduction to the scholarly handling of texts including inscriptions, manuscripts, archival documents, and electronic material. Instruction in methodologies, tools, sources, and in the editing and use of texts in history. Analysis of archival structure and organization, textual authorship, provenance, paleography, language, internal structure, and variants. E. Russian; F. Early Modern Europe; Course is repeatable to a maximum of 12 units.

HIST 241 Reading Seminar in Asian History 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores major concepts, categories, methodological approaches, and historiographical issues in the study of a region or country in Asia. Course is repeatable to a maximum of 36 units.

HIST 242 Approaches to Southeast Asian History 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces students to central historical problems, historiographical debates, materials, and theoretical approaches in Southeast Asian history. Readings each week focus on a different theme. Course is repeatable to a maximum of 8 units. Cross-listed with SEAS 204.

HIST 243A Research Seminar in Southeast Asian History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses Southeast Asian topics from regional, comparative, and local perspectives. May be taken as a one- or two-quarter course (HIST 243A/SEAS 243A, HIST 243B/SEAS 243B). After completing both

HIST 243A/SEAS 243A and HIST 243B/SEAS 243B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Cross-listed with SEAS 243A.

HIST 243B Research Seminar in Southeast Asian History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 243A/SEAS 243A. Discusses Southeast Asian topics from regional, comparative, and local perspectives. Students produce a substantial research paper that continues their work from HIST 243A/SEAS 243A. May be taken as a one- or two-quarter course (HIST 243A/SEAS 243A, HIST 243B/SEAS 243B). After completing both HIST 243A/SEAS 243A and HIST 243B/SEAS 243B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Cross-listed with SEAS 243B.

HIST 250 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Frontiers of research in major historical periods. Explores emerging theories and innovative methods and considers their relevance to the future of the discipline. Discusses the methods and kinds of research which are most fruitful in the assigned instructor's particular specialty. Course is repeatable as topics change to a maximum of 12 units.

HIST 251A General Research Seminar in History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A general research seminar in history including European, continental European, British, Russian, ancient, and Latin American history. Includes a major research paper based on extensive use of primary source material. Graded In Progress (IP) until HIST 251A and HIST 251B are completed, at which time a final grade is assigned. After completing both HIST 251A and HIST 251B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 251B General Research Seminar in History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): HIST 251A; graduate standing or consent of instructor. A general research seminar in history including European, continental European, British, Russian, ancient, and Latin American history. Includes readings in archival and research methods. Also includes a major research paper based on extensive use of primary source material. After completing both HIST 251A and HIST 251B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 252 Materials Supplement 4 Seminar, 3 hours. Prerequisite(s): any course in 201-206 series. Designed as a supplement to program of readings covered in materials courses; additional works are to be drawn from reading lists for M.A. comprehensive examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

HIST 253A Research Seminar in Renaissance and Reformation History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers primary and secondary literature related to Renaissance

and Reformation history. First of a two-quarter sequence in which students begin work on a research paper. After completing both HIST 253A and HIST 253B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 253B Research Seminar in Renaissance and Reformation History 4 Seminar, 3 hours;

research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 253A. Second of a two-quarter sequence in which students complete a research paper on Renaissance and Reformation history. After completing both HIST 253A and HIST 253B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 254 Reading Seminar in Historical Theory and Methods 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing;

consent of instructor; consent of advisor if repeating the course. Studies the evolution of the discipline of history by exploring theories, philosophies, and methods that are used in historical explanation. Concentrates on how some particular body of theory has influenced the writing of history. Course is repeatable to a maximum of 12 units as topics change.

HIST 255A Research Seminar in Modern Russia 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): UC Riverside graduate standing; consent of one instructor. A research seminar on modern Russian history (1801 to present). Covers appropriate primary sources and secondary literature. Topics include but are not limited to social history, labor, ideology, politics, and revolutions from the Imperial and/or Soviet periods. An intercampus course taught jointly by faculty from UC Riverside, Irvine, San Diego, and Los Angeles. After completing both HIST 255A and HIST 255B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 255B Research Seminar in Modern Russia 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): UC Riverside graduate standing; consent of one instructor; HIST 255A. A research seminar on modern Russian history (1801 to present). Covers completion of research paper begun in HIST 255A. Topics include but are not limited to social history, labor, ideology, politics, and revolutions from the Imperial and/or Soviet periods. An intercampus course taught jointly by faculty from UC Riverside, Irvine, San Diego, and Los Angeles. After completing both HIST 255A and HIST 255B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 256A Research Seminar in English History 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing; HISE 151, HISE 152 or equivalents. A seminar on seventeenth- and eighteenth-century English history emphasizing on the historical literature within the field. Covers appropriate primary sources and secondary literature. After completing both HIST 256A and HIST 256B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 256B Research Seminar in English History 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing; HISE 151, HISE 152 or equivalents; HIST 256A. A seminar on seventeenth- and eighteenth-century English history emphasizing the historical literature within the field. Includes completion of a research paper. After completing both HIST 256A and HIST 256B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 258A Seminar in Modern European History 4 Seminar, 3 hours.

Prerequisite(s): graduate standing. Graded In Progress (IP) until HIST 258B is completed, at which time a final grade is assigned. Course is repeatable to a maximum of 8 units.

HIST 258B Seminar in Modern European History 4 Seminar, 3 hours. Prerequisite(s):

graduate standing. Course is repeatable to a maximum of 8 units.

HIST 260 Historic Preservation 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor.

An introduction to the history, theories, and practices of historic preservation and place-based interpretations of the past. Explores the role of history and memory in the construction of the built and natural environment as well as the socioeconomic, cultural, and political dynamics of preservation.

HIST 260L Preservation Conservation Practicum 4 Seminar, 2 hours; research, 6

hours. Prerequisite(s): HIST 260, and/or HIST 261. Offers hands-on experience in the practice of historic preservation, conservation, and place-based interpretations of the past.

HIST 261 Conservation Science and Historical Objects 4 Seminar, 3 hours; laboratory, 2

hours. Prerequisite(s): graduate standing or consent of instructor. Principles and methods of conservation science related to historical artifacts; introduction to conservation practice in selected categories of objects; seminar and laboratory.

HIST 262 Museum Studies 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s):

graduate standing or consent of instructor. A graduate-level introduction to the history of museums and the field of museum studies. Explores new directions in the theory and practice of museum work and public history.

HIST 262L Museum Studies Practicum 4 Seminar, 2 hours; research, 6

hours. Prerequisite(s): concurrent enrollment in HIST 262. Supervised research and interpretation in a museum setting. Course is repeatable to a maximum of 8 units.

HIST 263 Archival Management 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Theory and practice of archival management; history of archives; professional ethics. See the History department for grading statement.

HIST 263L Archival Management Practicum 3 Research, 3 hours. Prerequisite(s):

HIST 263. Supervised research and administrative experience in an archive; intended

to follow HIST 263.

HIST 264 Reading Seminar in Public History 4 Seminar, 3 hours; individual study,

3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces primary materials for public history and its central historical problems and historiography. Also discusses debates within the field. Course is repeatable as content changes to a maximum of 12 units.

HIST 265A Research Seminar in Public History 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. Focuses on themes affecting the management of archives, museums, cultural resources, and historic preservation. Studies sources and documents and presents findings through an original research paper or museum, archival, or preservation project. First of a two-quarter sequence. Graded In Progress (IP) until HIST 265A and HIST 265B are completed, at which time a final grade is assigned. After completing both HIST 265A and HIST 265B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 265B Research Seminar in Public History 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. Focuses on themes affecting the management of archives, museums, cultural resources, and historic preservation. Studies sources and documents and presents findings through an original research paper or museum, archival, or preservation project. Second of a two-quarter sequence. After completing both HIST 265A and HIST 265B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 272A Seminar in American Colonial and Early National History 4 Seminar, 3 hours.

Prerequisite(s): graduate standing. Graded In Progress (IP) until all terms are completed, when a final grade will be assigned. Course is repeatable to a maximum of 8 units.

HIST 272B Seminar in American Colonial and Early National History 4 Seminar, 3 hours.

Prerequisite(s): graduate standing. Course is repeatable to a maximum of 8 units.

HIST 273A Research Seminar in the American West 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. A research seminar focusing on themes in the study of the American West from the colonial era to the present. Explores migration, expansion, and modern urban development. Includes historical interpretations, readings, discussions, and research. Graded In Progress (IP) until HIST 273A and HIST 273B are completed, at which time a final grade is assigned. Students begin a paper based on archival research, oral history, and material culture. After completing both HIST 273A and HIST 273B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 273B Research Seminar in the American West 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing or consent of instructor; HIST 273A. A research seminar

focusing on themes in the study of the American West from the colonial era to the present. Explores migration, expansion, and modern urban development. Includes historical interpretations, readings, discussions, and research. Students complete a paper based on archival research, oral history, and material culture. After completing both HIST 273A and HIST 273B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 274A Seminar in Nineteenth-Century United States History 4 Seminar, 3 hours. Prerequisite(s): graduate standing. Graded In Progress (IP) until HIST 274A and HIST 274B are completed, at which time a final grade is assigned. Course is repeatable to a maximum of 8 units.

HIST 274B Seminar in Nineteenth-Century United States History 4 Seminar, 3 hours. Prerequisite(s): graduate standing. Course is repeatable to a maximum of 8 units.

HIST 275A Seminar in Twentieth-Century United States History 4 Seminar, 3 hours. Prerequisite(s): graduate standing. Graded In Progress (IP) until HIST 275A and HIST 275B are completed, at which time a final grade is assigned. Course is repeatable to a maximum of 8 units.

HIST 275B Seminar in Twentieth-Century United States History 4 Seminar, 3 hours. Prerequisite(s): graduate standing. Course is repeatable to a maximum of 8 units.

HIST 276A Research Seminar in Native American History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of Native American historical research. Explores philosophy, methodology, historiography, and sources relative to American Indians. Students study a variety of sources and documents, compile an annotated bibliography, conceptualize and design a research project, and begin work on an original historical paper. Graded In Progress (IP) until HIST 276A and HIST 276B are completed, at which time a final grade is assigned. After completing both HIST 276A and HIST 276B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 276B Research Seminar in Native American History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 276A. A continuation of HIST 276A. Students conduct research on the topics selected in HIST 276A. Additional readings may be assigned at the discretion of the instructor. At the term's end, students present their findings through an original historical research paper. Instructors may also assign oral presentations of research findings. After completing both HIST 276A and HIST 276B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 277 Reading Seminar in Early Modern World History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Study of selected historical themes such as labor, gender, migration, cultural

contact, and colonial systems in an early modern context. Focuses on regional studies and issues of global connection in the early modern period. Intensive discussions of current scholarship in the given field. Course is repeatable to a maximum of 12 units with consent of advisor.

HIST 278 Early Modern Empires in the Middle East: the Ottomans and the Safavids 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the history of early modern empires in the Middle East (the Ottomans and Safavids) in a comparative format. Focuses on such issues as Islam and conquest, state formation, confessional empires and toleration, commerce, and culture. Cross-listed with MEIS 278.

HIST 285A Seminar in Latin American History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Graded In Progress (IP) until both terms are completed, when a final letter grade will be assigned. Course is repeatable to a maximum of 8 units.

HIST 285B Seminar in Latin American History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Course is repeatable to a maximum of 8 units.

HIST 287A Research Seminar in Nature, Place, and Space: Environmental and Spatial Approaches to History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys historical literature and methodologies involved in spatial and environmental analyses of the past. Examines technical and methodological issues involved in using spatial documents (maps). Discusses applications of historical research to environmental remediation. Includes work on a research paper. May be taken as a one- or two-quarter course (HIST 287A, HIST 287B). After completing both HIST 287A and HIST 287B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units.

HIST 287B Research Seminar in Nature, Place, and Space: Environmental and Spatial Approaches to History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 287A. Surveys historical literature and methodologies involved in spatial and environmental analyses of the past. Examines technical and methodological issues involved in using spatial documents (maps). Discusses applications of historical research to environmental remediation. Students discuss and critique each other's research. After completing both HIST 287A and HIST 287B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Course is repeatable to a maximum of 8 units.

HIST 290 Directed Studies 1 to 6 Prerequisite(s): consent of the chair of the department. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

HIST 291 Individual Study in History 1 to 12 Prerequisite(s): graduate standing. A program of study designed to advise and assist graduate candidates who are preparing for examinations. Does not count toward the unit requirement for the master's degree. Graded Satisfactory (S) or

No Credit (NC).

HIST 292 Concurrent Analytical Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor. Taken concurrently with some 100-series course, but on an individual basis. Devoted to completion of a graduate paper based on research or criticism related to the 100-series course, the program of study is worked out with the instructor. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

HIST 297 Directed Research 1 to 6 Prerequisite(s): consent of instructor. Individualized graduate student research under the sponsorship of specific faculty members, in topics other than the student's dissertation. Graded Satisfactory (S) or No Credit (NC). May be repeated for up to 8 units.

HIST 298G Public History Group Internship 1 to 12 Seminar, 2 hours; term paper, 1 to 6 hours; research, 1 to 6 hours; internship, 3 to 18 hours. Prerequisite(s): graduate standing or consent of instructor. Provides practical experience and project-based research in public history. Work with public history faculty or appropriate professional organization to gain skills related to the following areas: museum exhibitions, interpreting historic sites, archives and libraries, oral and digital history projects, historic preservation, and other forms of public history. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 16 units.

HIST 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing. Research for thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

HIST 301 The Teaching of History at the College Level 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Normally required of all doctoral candidates and teaching assistants in the department; open to terminal M.A. students with consent of instructor. Credit not applicable to graduate unit requirements. Graded Satisfactory (S) or No Credit (NC).

HIST 302 Teaching Practicum 1 to 4 Seminar, 1 hour; clinic, 1 to 4 hours. Prerequisite(s): limited to departmental teaching assistants; graduate standing. Supervised teaching in upper- and lower-division history courses. Required of all History teaching assistants. Fulfills teaching portion of Ph.D. teaching requirement. Graded Satisfactory (S) or No Credit (NC).

HIST 398I Internship in Public History 8 to 12 Research, 8 to 12 hours; internship, 16 to 24 hours. Prerequisite(s): consent of program coordinator. An internship at a museum, archive, gallery, or other cooperating institution under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC).

HIST 402 Professional Practice For the Public Historian 2 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Case study approach to the practice, professional codes, and ethics of public historians, including problems in conflict of interest, fee services,

political advocacy, expert legal testimony, civil service, conflict with other professions (e.g., architecture), bidding procedures, and proprietary rights.

History of the Americas Upper-Division Courses

HISA 110A Colonial America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An exploration of early American society from settlement through the mid-eighteenth century. Topics include the convergence of Native American, European, and African cultures; the origins of slavery; religious diversity; and the growth and development of the colonies.

HISA 110B Revolutionary America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An analysis of the political, social, and cultural movements that led to the American revolution and the formation of the Republic. Topics include crowd activity, imperial conflict, and the creation of the constitution.

HISA 110C The Early Republic: the United States, 1789-1848 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes social, economic, political, and intellectual forces that transformed the United States from a fledgling preindustrial nation into a sprawling, exuberant, capitalist society. Topics include industrialism, capitalism, Christianity, democratic politics, slavery and racial structures, abolitionism, and American radicalism and nationalism.

HISA 113 Slavery and the Old South 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An investigation of slavery in the antebellum South. Topics include: the emergence of the self-conscious South, the romanticized plantation, American historians and slavery, etc.

HISA 114 The American Civil War 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An analysis of the American Civil War. Topics include slavery as a cause of the war as well as the impact of emancipation and of the war on both North and South. Credit is awarded for only one of HISA 114 or HISA 114S.

HISA 114S The American Civil War 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An analysis of the American Civil War. Topics include slavery as a cause of the war and the impact of emancipation and of the war on both North and South. Credit is awarded for only one of HISA 114 or HISA 114S.

HISA 115 Reconstruction 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Major leaders and events of post-Civil War America, with emphasis upon Reconstruction, racial and political conflict, industrial growth, and other historical developments that helped shape the modern South and the expanding nation.

HISA 116 The United States, 1877-

1914 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An analysis of political, social, economic, and cultural developments in the United States between the end of Reconstruction and the beginning of World War I.

HISA 117A United States, 1914 to 1945 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics include the emergence of the United States as a global power, the second industrial revolution, the development of a consumer culture, and the creation of a regulatory state.

HISA 117B United States, 1945 to the Present 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics include the Cold War, the political and cultural consequences of post-World War II affluence, the social movements of the 1960s, Vietnam, and the conservative resurgence of the 1970s and 1980s.

HISA 119 Modern U.S. Consumer Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the history and culture of mass consumerism in the United States. Includes the shift from mass production to mass consumption; the growth of advertising and product marketing; the rise of the department store and shopping mall; the relationship of race, ethnicity, and gender to the market; globalization; and anticonsumerism. Credit is awarded for only one of HISA 119 or HISA 119S.

HISA 119S Modern U.S. Consumer Culture 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the history and culture of mass consumerism in the United States. Includes the shift from mass production to mass consumption; the growth of advertising and product marketing; the rise of the department store and shopping mall; the relationship of race, ethnicity, and gender to the market; globalization; and anticonsumerism. Credit is awarded for only one of HISA 119 or HISA 119S.

HISA 120A The Supreme Court and the Constitution 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the intellectual and political sources of the Constitution in English, colonial, and revolutionary war history; the Philadelphia convention and the debate over ratification; the formative impact of the Marshall court; and the crisis over slavery and the nature of the Union. Discusses the role of the court in protecting U.S. capitalism and then examines the court's role in legitimizing the New Deal by 1953. The main materials of the course are the actual opinions of the court.

HISA 120B The Supreme Court and the Constitution 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines constitutional history after the New Deal settlement of

issues concerning the powers of the national government. Explores the court's focus after 1953 on the struggle over racial and gender equality and on the expansion and protection of individual liberties contained in the Bill of Rights. The main materials of the course are the major court opinions from the Warren to the Rehnquist courts, 1953-2001.

HISA 122A Religious Cultures in Early America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 017A is recommended. An introduction to religious beliefs and practices during the seventeenth and eighteenth centuries in the colonies that became the United States. Cross-listed with RLST 137A.

HISA 122B Religious Cultures in Modern America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 017B is recommended. An introduction to a variety of religious traditions, movements, and cultures from 1800 to the present in the United States. Cross-listed with RLST 137B.

HISA 123 American Economic History 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H. Examines the economic history of the United States with an emphasis on the incentives and events surrounding the colonization of modern day United States, the American Revolution, economic growth and expansion throughout the 1800's, the American civil war, and other major historical events leading up to the present. Cross-listed with ECON 123.

HISA 124 Labor and Working Class History of the United States 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the history of work, workers and their families, communities, organizations, unions, and workers' organizations in the United States from the mid-nineteenth century to the present. Attention is paid to gender, race, immigration, and diversity of the work force, and role of government, within an economic and international context.

HISA 125 (E-Z) Topics in American Society and Culture 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Focused studies in American social and cultural history. Employs close study of a specific theme from a transnational perspective. E. United States In Global 1960s; F. Ethics&society In Early Americ; G. United States&the Philippines; I. Cultr&poltics On Sn Francsco Ba;

HISA 126 Family Histories and American Culture 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores experiences of family and kinship in the nineteenth-century United States, especially in the context of Indian removal, racial slavery, and settler imperialism. Readings include family history, memoir, and historical monographs. Provides context for recent developments in genealogical research as they relate to American family history.

HISA 127 The United States and the

World 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent from instructor. Examines the role of the United States in global affairs through specific historical themes and topics. Topics may include expansion and intervention in the 19th and 20th centuries; America as an economic, cultural, and diplomatic influence; U.S. immigration policies and patterns; and the influence of foreign nations and peoples. Course is repeatable as topics change to a maximum of 8 units.

HISA 128 American Nature Writing, Thoreau - Present 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Investigates a broad range of ideas about nature and the place of humans in the natural world through a survey of novels, poetry, essays, and polemics written by Americans since the mid-19th century. Topics include conservation, ecology, environmental activism, and the sanctity of the natural world.

HISA 132 U.S. Women, Gender, and Sexuality: 1620-1850 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers topics in early American women's lives--work, politics, and sexuality--while charting the developments of gendered systems in the United States. Topics may include masculinity, the rise of the middle class, and the private-public dichotomy. Cross-listed with GSST 132.

HISA 133 Women, Gender, and Sexuality in U.S. History: 1850-Present 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the major themes in the history of U.S. women and gender issues. Drawing upon recent work in the field, explores the relationships between gendered meanings of politics and the politics of gender in the late nineteenth and twentieth centuries in the United States. Cross-listed with GSST 133.

HISA 134 Black Feminist Theory and Activism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Considers the writings and collective organizational strategies of African American women intellectuals and activists developed in response to the ways racial, sexual, and economic oppression work interdependently and are institutionalized. Follows black women's agendas for social change from the early women's slave narratives to the present. Cross-listed with ETST 113.

HISA 135 The Civil Rights Movement, 1950-1970 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The Civil Rights Movement of the 1950s and 1960s. The main focus will be on the "grass roots." African American aspects of "The Movement," as it was popularly known, from school desegregation to voting rights and beyond. Cross-listed with ETST 112.

HISA 136 Historical Perspectives On Mass Incarceration 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Historical perspectives on U.S. mass incarceration. Explores

historic roots of conquest, colonialism, racial subjugation, capitalism, and labor systems linking current mass incarceration, detentions, and deportations of unauthorized immigrant classes. Examines critical historic turning points and current social, economic, and political dynamics. Course meetings alternate between historic and contemporary issues.

HISA 137 Frontier History of the United States 4 Lecture, 3 hours; journal, 1 hour; term paper, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the frontier in U.S. history, with special attention to the Western frontier and borderlands.

HISA 138 California 4 Lecture, 3 hours; journal, 1 hour; term paper, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. HISA 137 is recommended but not required The history of California from the earliest discoveries to the present.

HISA 139 American Musical Subcultures: A Genealogy of Rock 4 Lecture, 3 hours; extra reading, 0 to 2; listening, 2-3 hours. Prerequisite(s): upper-division standing or consent of instructor. A historical and cultural overview of the genre of American popular music known as "rock." Covers themes ranging from musical form and structure, aesthetics, and audio technology to community and individualism, gender and racial identity, political resistance, and the music industry. Cross-listed with MUS 140.

HISA 140 California Indian History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides students with a broad understanding of the rich and varied heritage and history of California Indians from the invasion of the Spanish to the twentieth century. Examines geographically and culturally diverse groups as a means of illustrating the various Euro-American Indian policies that affected native Californians. Course is comparative and thematic. Cross-listed with ETST 180.

HISA 141 Southwestern Indian History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Presents a historical examination of selected Native American groups in the Southwest. Examines the relationship of Southwestern Indians to the Spanish, Mexican, and United States governments. Focuses on Quechans, Tohono O'odam, Yavapai, Chiracahuas, Navajos, Zunis, Hopis, Comanches, and selected Pueblos along the Rio Grande. Cross-listed with ETST 181.

HISA 142 Northwestern Indian History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines selected aspects of Northwestern Indian History, from approximately the 1750s to the twentieth century. Deals with several native groups along the Northwest coast from Alaska to Oregon. Compares policies of the Russian, Spanish, English, and United States governments. Particular emphasis on the 1850s when the U.S. negotiated a number of treaties with Native Americans in the Washington and Oregon territories. Cross-listed with ETST 182.

HISA 143 Native American Oral Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): ETST 007; upper-division standing or consent of instructor. Comparative examination of Native American oral literature of tribes in the United States, Canada, and Mexico. Enhances the student's understanding of Native American language, literature, drama, geography, geology, biology, history, and culture. Cross-listed with ETST 183.

HISA 144 (E-Z) Topics in Native American Hist 4 Lecture, 3 hours; individual study, 3 hours. Selected topics addressing the issues of the Native American. Includes reading, research, and discussion on the Native American experience. F. Erly Amer:emergi Interpretatns; Cross-listed with ETST 115 (E-Z).

HISA 146 History of Native American Women 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines selected important aspects of the lives of Native North American women including their political, economic, and religious participation in their societies. Further traces historic changes in Native women's lives as a result of the colonization of the New World and examines the complex imagery of Native women that developed from colonial contact. Cross-listed with GSST 146.

HISA 147 Medicine Ways of Native Americans 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the medical history of Native Americans. Focuses on traditional Native American medicine and how Western diseases, medical practices, health care, and policies influenced American Indian health. Topics include medicine people, rituals, ceremonies, smallpox, measles, influenza, anomie, accidents, diabetes, suicides, mental illness, and murders. Cross-listed with ETST 116.

HISA 150 United States Urban History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the broad political, economic, and social forces that have shaped American cities from the nineteenth century through the present. Examines the ways that cities both integrate and segregate diverse populations. Emphasis on the physical spaces in which race, class, and gender identities are constructed and contested.

HISA 160 Colonial Latin America 4 Lecture, 3 hours; extra reading; 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A history of Latin America from pre-Columbian times to independence with an emphasis upon selected themes concerning the social, economic, and cultural aspects of colonialism. Cross-listed with LNST 170.

HISA 161 Nineteenth-Century Latin America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics include the breakdown of political order and the problem of the nation-state, liberalism and conservatism, slavery and abolition, foreign intervention and capital investment, the reemergence of political order in the Age of Liberalism (1860-1900), and

social and cultural change. Cross-listed with LNST 171.

HISA 162 Twentieth-Century Latin

America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics include the Mexican Revolution, the Great Depression, populism, industrialization, revolution, and the emergence of conservative regimes in the age of neoliberalism. Cross-listed with LNST 172.

HISA 163A Colonial Mexico 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. The history of Mexico to independence.

HISA 163B Modern Mexico 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. The history of Mexico since independence.

HISA 164A The United States and Latin America

to 1930 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of United States-Latin American relations from 1776 to the Good Neighbor Policy. Topics include the Monroe Doctrine; United States expansionism and the Latin American response; the United States-Mexican War; and the age of imperialism, 1895-1928.

HISA 164B The United States and Latin America

Since 1930 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of United States-Latin American relations from the Good Neighbor Policy to the present. Topics include United States intervention after 1945; the Cold War and counterrevolution; crises in Guatemala, Cuba, Brazil, Chile, Nicaragua, and El Salvador; and defining the new enemy after the Cold War.

HISA 165 Modern Brazil: State and

Society 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes power and resistance in Brazilian history with emphasis on the social and political movements challenging state power. Topics include slave rebellions, banditry, millenarian uprisings, the industrial working class, the urban poor, social Catholicism, feminism, and "Black Power."

HISA 166 Modern Argentina: Democracy and

Dictatorship 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the major issues in modern Argentine history. Topics include industrialization and trade union politics, Peronism, the rise of the revolutionary left, militarism, state terrorism, political culture and the cultural dimensions of violence, and state and society during the democratic transition.

HISA 167 Environmental History of the

Americas 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the interaction of the natural world with human society from the colonial period through the twentieth century. Focuses on how the environment, human beings, and other species have lived, changed, and generally

influenced one another over time in the Americas.

HISA 168 History of the Church in Latin

America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the history of the church (e.g. Catholic, Protestant) in Latin America. Includes conquest and mission, indigenous responses to Christian conversion, the long colonial period, independence, revolution, and liberation theology movements. Explores the dynamics of church and culture, church and state, and church and social transformation. Cross-listed with RLST 177.

History of Europe Upper-Division Courses

HISE 110 Ancient Historians 4 Lecture, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. The historical development of historiography as evidenced in ancient historical writings from Near Eastern king lists and biblical histories to the narrative histories of Greece and Rome. Focuses on the ideas of history in the various cultures of the ancient Near East and Mediterranean and their relation to modern historical thought. Cross-listed with CLA 100.

HISE 111 Ancient Greece From the Bronze

Age to the Persian Wars 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of the history of Greece from the late Bronze Age to the end of the Persian Wars. Focuses on the Mycenaean civilization; the rise of the polis in Athens and Sparta; the Ionian Enlightenment; and the Persian Wars.

HISE 112 Ancient Greece From Classical Athens

to the Death of Alexander 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of the history of Greece from the Persian Wars to the death of Alexander the Great. Focuses on Athens, its empire and democracy, and on the Macedonian Empire of Philip and Alexander. Special attention is given to the Greek cultural achievement within the context of changing political and social conditions.

HISE 113 Comparative Ancient Historical

Writing 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the literary aspects of historical writing in ancient cultures, with some comparison of the ancient contribution to later authors of the genre. Cross-listed with CPAC 112, and CLA 113.

HISE 114 Ancient Writing and

Literacy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Uses cross-cultural comparison to survey writing and literacy in ancient civilizations and how they are related in the origin and development of selected ancient cultures. Cross-listed with CPAC 133.

HISE 115 The Roman Republic 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the political, economic, institutional,

social, and cultural history of Rome from its foundation until the end of the Roman Republic (27 B.C.). Focuses on prominent figures and moments of crisis as it examines the forces that brought Rome to the forefront of the Mediterranean world.

HISE 116 The Roman Empire 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the political, economic, institutional, social, and cultural history of the Roman Empire from the first Emperor, Augustus, until the first Christian emperor, Constantine. Focuses on notable figures such as the Julio-Claudian emperors, Nero and Claudius, and on significant periods to help students understand the successes and failures of the Roman Empire.

HISE 117 Decline and Fall of the Roman

Empire 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the weaknesses in the Roman Empire that led to its demise, as well as the circumstances in which the new religions and empires came into existence, through a study of the period from the third to the seventh centuries A.D.

HISE 118 Ancient Greece: the Hellenistic

Age From Alexander to Cleopatra, 336-31 B.C. 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Survey of the history of Greece and the Eastern Mediterranean from Alexander the Great to the death of Cleopatra (336-31 B.C.). Explores the dramatic political, social, economic, and cultural changes that took place during the Hellenistic Age until the conquest by Rome.

HISE 119 (E-Z) Topics in Ancient History: War

in the Ancient Greek World 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): HIST 010 or HISE 110 or HISE 111 or HISE 112 or HISE 118; restricted to class level standing of junior, or senior. Focused analysis of selected topics in the history of the Ancient Mediterranean region.

HISE 119E War in the Ancient Greek

World 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing; HIST 010 or HISE 110 or HISE 111 or HISE 112 or HISE 118; or consent of instructor. Examines the relationship between war and society in Greece from the Bronze Age to Alexander the Great. Topics include the organization of Greek states and their military forces, conduct on the battlefield, and the impact of war on Greek communities and their members.

HISE 119F War in the Ancient Roman

World 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing; HIST 010 or HISE 110 or HISE 115 or HISE 116 or HISE 117; or consent of instructor. Examines the relationship between war and society in Rome from the city's founding to the fall of the Roman Empire. Topics include the development of Rome's army in relation to Roman society, struggles to control the military, conduct on the battlefield, and the impact of war on Rome and its neighbors.

HISE 120 Early Middle Ages 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor.

Topics in medieval history, from the end of classical antiquity to the 11th Century, including Christianity, Islam, the Byzantine Empire, and the barbarians.

HISE 121 The High Middle Ages 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics in medieval history, from the 11th to the 14th century, including the development of medieval institutions, the 12th century Renaissance, and the rise of European universities.

HISE 123 Law and Society in Medieval Europe 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Surveys the legal system of Europe from the late crisis of the Roman Empire to the late fourteenth century. Explores the premedieval legal heritage of Europe (Roman law, early canon law, customary laws of various peoples), transformations of that heritage in the central Middle Ages (revival of Roman and canon law, custom and legislation, use and abandonment of the ordeal), and the relationship between the resulting legal systems and royal authority. Primary sources are the central component of the course materials.

HISE 131 The Renaissance 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The history of Western Europe from 1400-1527 with special attention to Italy.

HISE 132 The Reformation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The history of Europe from 1517 to 1618, with special attention to the key events of the continental reformation.

HISE 133 Women Artists in Renaissance Europe, 1400-1600 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Surveys the lives and work of women artists in Renaissance Europe. Considers circumstances under which it was possible for women to become artists; how they evolved from practicing in the cloistered convent to participating in the competitive public market place; what they painted; and who their patrons were. Cross-listed with AHS 165, and GSST 170.

HISE 135 Absolutism and Enlightenment 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. The development of monarchic absolutism in the 17th and 18th centuries and the intellectual Enlightenment.

HISE 140 Nineteenth-Century Europe 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The history of Europe from 1815 to 1914. Topics include the Industrial Revolution, the revolutions of 1848, Bismarck and the unification of Germany, the rise of mass politics, imperialism, and the origins of World War I.

HISE 141 Europe, 1914-1945 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The

history of Europe from 1914 to the end of the Second World War. Topics include World War I, the rise of fascism and communism, the crisis of the Western democracies, the diplomacy of appeasement, World War II, and the Holocaust.

HISE 142 Europe Since 1945 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. The comparative social and political history of Europe from 1945 to the present. Topics include the cold war; decolonialization; the emergence of the neoliberal welfare state; the Common Market; de Gaulle, Communism and detente; technology and new forms of social protest.

HISE 145 World War I 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the origins of the conflict and its development into the world's first war and the first total war. Focuses on the role of technology in the war and on the social consequences of the war. Credit is awarded for only one of HISE 145 or HISE 145S.

HISE 145S World War I 5 Lecture, 3 hours; discussion, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of the origins of the conflict and its development into the world's first war and the first total war. Focuses on the role of technology in the war and on the social consequences of the war. Credit is awarded for only one of HISE 145 or HISE 145S.

HISE 146 The Second World War 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the diplomatic origins of the war; the fighting in Europe, Asia, and Africa; Nazi oppression in conquered Europe and the destruction of the Jews; the social, economic, and technological impact of the conflict; and the origins of the Cold War. Credit is awarded for only one of HISE 146 or HISE 146S.

HISE 146S The Second World War 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the diplomatic origins of the war; the fighting in Europe, Asia, and Africa; Nazi oppression in conquered Europe and the destruction of the Jews; the social, economic, and technological impact of the conflict; and the origins of the Cold War. Credit is awarded for only one of HISE 146 or HISE 146S.

HISE 147 The Holocaust 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the extermination of European Jewry during World War II. Surveys the history of the "Jewish Question"; Jewish-Christian relations; race; the systematic persecution and genocide of the Jews; and world responses to genocide. Addresses religious, philosophical, and political implications of the Holocaust, as well as continuing anti-Semitic trends. Cross-listed with RLST 127.

HISE 148A Women and Gender in Early Modern Europe, 1348-1800 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introductory survey of women and gender relations in early

modern Europe. Topics include women in the Italian Renaissance, the Protestant and Catholic reformations, the witchcraft persecutions, the Enlightenment, and the French Revolution.

HISE 148B Women and Gender in Europe, 1800-Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introductory survey of women and gender in Europe. Topics include changes in gender relations and the roles of women in the family, workplace, and politics; sexuality and science; and the debate over the "woman question."

HISE 149 The Body in Western Art: Antiquity to Present 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; Restricted to major(s) Anthropology, Art History, Art History/Admin Studies, Art History/Religious Studies, Gender and Sexuality Studies, History, History/Administrative Studies, History/Law and Society; or consent of instructor. Presents further questions and study of the human body and how it was depicted and interpreted in works of art from Roman Antiquity to the present. Explores a broad range of artworks in their specific historical, cultural, medical, social, religious, political, and intellectual contexts. Cross-listed with ANTH 161, GSST 130, and HISE 149. Credit is awarded for one of the following AHS 133, ANTH 161, GSST 130, HISE 149, or AHS 016.

HISE 150 Ancient and Medieval England 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A broad but occasionally intensive survey of England from its prehistory to the beginning of the Tudor period (c. 1500). Social and legal developments will be stressed.

HISE 151 England: 1485-1760 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the development of England from the sixteenth century until her emergence as a major power at the accession of George III. An assessment of social, economic, and legal changes as well as important political events.

HISE 152 Modern Britain 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the rise of Great Britain to world domination in the late eighteenth and nineteenth centuries and its subsequent fall from grace in the twentieth century. Special emphasis on major changes in the economy.

HISE 153 History of the Common Law 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the development of the English Common Law beginning with the reign of Henry II and extending into the early eighteenth century. Special attention to the history of the jury.

HISE 154 The History of London 4 Lecture, 3 hours; screening, 2 hours; extra reading, 1 hour. Prerequisite(s): upper division standing or consent of instructor. Examines the growth of London over the past 2000 years. Concentrates on how London became a world city, as well as how residents coped (or failed to cope) with the

social and environmental problems created by the city's enormous size.

HISE 155 Tudor England 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines sixteenth-century England with particular attention to the impact of the Reformation, the "price revolution," and the development of the state.

HISE 156 Stuart Britain: A Century of Revolution, 1603-1714 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the social, religious, and political tensions in seventeenth-century Britain. Particular attention is paid to the revolutions of 1637-1660 and 1688-89.

HISE 157 Eighteenth-Century Britain, 1714-1815 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes Great Britain's emergence as one of the dominant world powers in the eighteenth century. Particular attention is paid to the realm's social and economic transformation and to its often problematic imperial visions.

HISE 160 India and the British Empire 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the trends and consequences of the relationship between Britain and India from initial trading contacts in the seventeenth century, through colonization, and on to political independence and migration flows in the late twentieth century. Focuses on cultural interactions.

HISE 162 Germany From Bismarck to Hitler 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Germany from Bismarck's accession as chancellor in 1862 to Hitler's defeat in 1945, with special attention to the economic underpinnings of the period and the process of social and economic modernization.

HISE 163 Modern German History Through Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores twentieth-century German history through film. Includes World Wars I and II, inflation and polarization of classes, Nazi Germany, representations of the Holocaust, and a divided and reunited Germany. Cross-listed with GER 163, MCS 115, and CPLT 115.

HISE 168 (E-Z) Topics in European History 4 Lecture, 3 hours; extra reading, 3 hours. Selected topics addressing the issues of European history F. As'df ;sadlfm A;s'dlmf; G. Spain As A Wrld Powr, 1469-1821;

HISE 171 Early Russia 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Russia from pre-history to the establishment of the Romanov dynasty. Deals with the Slavic, Norse, and Asian origins of the Kievan state, the impact of the Mongol conquest, the rise of Moscow, and the Time of Troubles in the seventeenth century. Special attention to European vs. Asian influences.

HISE 172 Imperial Russia 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Russia under the Romanov dynasty, 1650-1917. Using the twin themes of absolute monarchy and the rise of revolutionary movements, the course deals with such topics as Peter the Great, autocracy, the nobility, serfdom, the radical intelligentsia, and the origins of the Russian Revolution.

HISE 173 Religion and Nationality in Imperial Russia 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces students to the great religious, national, and ethnic diversity inside the Russian Empire (1552-1917). Topics include colonial expansion and frontiers; attitudes and policies toward non-Russians; discovery and defense of ethnoreligious identities; nation-building and nationalisms; nationality conflicts, violence, and revolution.

HISE 174 Russia Since 1917 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Russia from 1917 to the present, with emphasis on the Russian Revolution, the Communist Party, Stalinism, the Great Purges, World War II, and the Khrushchev, Brezhnev, and Gorbachev years. Revolutionary change in a traditional society will be a central theme.

HISE 175 (E-Z) Topics in Russian History 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): HISE 172 or HISE 174. Selected topics addressing the issues of Russian history. E. The Stalin Period;

HISE 176 Serbia, Bosnia, and Kosovo: the Contemporary Crisis and its Historical Roots 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores historical precedents for the current Yugoslav crisis. Examines the tragic events of the 1990s and South Slavic history from the Ottoman conquest to World War II. Focus is on the national histories and mythologies of Serbs, Bosnians, and Albanians.

Committee in Charge

Carole-Anne Tyler, Chair (English)
John Laursen (Political Science)
Erich Reck (Philosophy)
Milagros Peña, Dean, *ex officio*

Major

The Humanities, Arts, and Social Sciences major is an interdisciplinary major designed for students who have specific interests that cannot be accommodated within any one of the departments in the College of Humanities, Arts, and Social Sciences and who wish to construct a coherent program of their own. The Humanities, Arts, and Social Sciences major is not intended for students whose interests are undecided; students proposing a Humanities, Arts, and Social Sciences major must propose a specifically focused interdisciplinary topic or a two-field area. Such students must have a faculty advisor who is a member of the UCR Academic Senate.

The Humanities, Arts, and Social Sciences major is fulfilled by a course of studies determined in consultation with an advisor and with the full approval of the chair and three members of the committee overseeing the major. The student may construct either an interdisciplinary option or a two-field option for the major as described below.

Admission

Students who wish to select a Humanities, Arts, and Social Sciences major must fill out a form and submit a carefully worded statement of purpose showing meaningful course interrelations. The Humanities, Arts, and Social Sciences Interdisciplinary Committee considers each proposal in the context of the student's topic and statement of purpose.

Students whose proposals are being approved should petition for a change in major only after they have been informed of the committee's approval of their interdisciplinary program. Every subsequent change in the student's initial program must be approved by the advisor; a record of the program and of program changes is kept in the student's files.

Humanities, Arts, and Social Sciences courses are supervised by the committee and are open to major as well as nonmajor students.

Interdisciplinary Option

The interdisciplinary option is built around a central concept in humanities and social sciences. The concept might be a specific culture, country or ethnic group such as Italian civilization and culture; an age or period such as the Renaissance or the industrial revolution; a great social issue or human problem such as war, revolution, communication; or any other topic which receives significant attention from several disciplines.

Two-Field Option

In special circumstances the committee sponsors a two-field option for the major designed to allow students to combine studies in two disciplines. Such majors are approved only if they cannot be accommodated within a dual major or within the Liberal Studies Program.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Humanities, Arts, and Social Sciences are as follows: Students may choose either an interdisciplinary or a two-field option.

Interdisciplinary Option

1. Upper-division requirements (38-unit minimum)
 - a) A minimum of 32 units directly related to the chosen central concept
 - b) At least 6 units (but not more than 8 units) HASS 195 and/or HASS 196
2. The committee may require upper-division courses beyond those indicated above if the topic of study requires specific language, quantitative, or methodological proficiency.

Note

The senior thesis or research paper is the culmination of the major and represents an interdisciplinary approach to the central concept of the major. HASS 195 (Senior Thesis) and HASS 196 (Senior Research Paper) are supervised by a faculty advisor and designed to bring into focus a substantial portion of the major.

The following are sample interdisciplinary programs:

Revolution

ANTH 127, ECON 115A or ECON 115B, HIST 104, HISE 174, POSC 112, PHIL 163, PHIL 153, HASS 195 (8 units).

Renaissance

AHS 161, CPLT 150J, ENGL 153, ENGL 154, HISE 131, MUS 101A, SPN 140 (E-Z), HASS 195 (8 units).

Two-field Option

1. Upper-division requirements (56 units)
Twenty-eight (28) units in each of two fields, supervised by a faculty advisor
2. The committee may require upper-division courses beyond those indicated above if the topic of study requires specific language, quantitative, or methodological proficiency.

Lower-Division Courses

HASS 001 Step-By-Step to College Success For First Year Students 2

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Involves weekly readings, writing assignments, and class discussions dealing with factors relating to academic success. Addresses the social and psychological adjustment to college life. Investigates a wide range of academic disciplines and campus student support services. Graded Satisfactory (S) or No Credit (NC).

HASS 010 Arts and Ideas

Experience 2 Workshop, 2 hours; individual study, 3 hours; written work, 2.5 hours. Prerequisite(s): none. Explores lectures, performances, and visual arts on the UC Riverside campus. Activities include attending at least one university- or faculty-sponsored performance, lecture, exhibition, or concert each week and writing a one-page review. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 24 units.

HASS 082 Major Themes in Contemporary

Research and Thinking 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Presents major themes in contemporary thinking and research in an area of the humanities, arts, or social sciences. Discussion sections focus on study of smaller topics and utilize source materials, selected intensive readings, etc. Emphasizes research and writing skills. Rotates among College of Humanities, Arts, and Social Sciences faculty and departments every year. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable as topics change to a maximum of 10 units.

HASS 090 Special Studies 1 to 3 Individual Study, 3 to 9 hours. Prerequisite(s): consent of the chair of the Humanities, Arts, and Social Sciences Interdisciplinary Program. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 8 units.

HASS 092 First-Year Seminar in the Humanities, Arts, and Social Sciences 1

Seminar, 10 to 15 hours per quarter. Prerequisite(s): freshman standing; sophomores may enroll on a space-available basis with consent of instructor. Introduction to one of the many areas of study explored by the faculty of the College of Humanities, Arts, and Social Sciences in a small-group, highly interactive format. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 3 units of any combination of ENGR 092, HASS 092, and NASC 092; students may enroll in only 1 unit of ENGR 092, HASS 092, or NASC 092 per quarter.

HASS 096 Environment and Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): lower-division standing or consent of instructor. Presents major environmental issues facing society from an interdisciplinary perspective. Topics may include water, energy, climate change, and urbanization. Cross-listed with NASC 096, and ENGR 096.

Upper-Division Courses

HASS 100 Studies in Leadership and Organizational Effectiveness 5

Lecture, 3 hours; consultation, 3 per quarter, practicum, 3 hours; written work 21 hours per quarter. Prerequisite(s): consent of the instructor. Introduces social science literature on leadership studies. Includes planning and producing a campus event or research project and interaction with several California leaders.

HASS 102 The McSweeney-McCauley

Seminar 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): consent of instructor. Presents a topic selected by the current McSweeney-McCauley Chair in Teaching Excellence. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable as topics change to a maximum of 16 units.

HASS 189 Mellon Mays Undergraduate

Fellowship Seminar 1 to 2 Seminar, 1.5 hours; written work, 0 to 1.5 hours; extra reading, 0 to 1 hour. Prerequisite(s): admission into the Mellon Mays Undergraduate Fellowship Program; Restricted to class level standing of junior, or senior. Topics reflect the research, writing, graduate school applications, and

professionalization components of the Mellon Mays Undergraduate Fellowship Program. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as content or topic changes to a maximum of 12 units.

HASS 190 Special Studies 1 to 5 Conference, Prerequisite(s): consent of the Humanities, Arts, and Social Sciences Interdisciplinary Committee. Directed interdisciplinary study.

HASS 191S Seminar in Sacramento 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; admission to the UCR Center at Sacramento Program. Examines aspects of the Sacramento area, including cultural, political, and governmental institutions and the sciences, arts, and media. Requires a substantial research paper or project, the result of guided independent work drawing on the unique aspects of Sacramento. Required of participants in the UCR Center at Sacramento Program. Cross-listed with NASC 191S, and ENGR 191S.

HASS 195 Senior Thesis 1 to 8 Prerequisite(s): enrollment by request of student with approval of the advisor and the Humanities, Arts, and Social Sciences Interdisciplinary Committee. For honors students who may need one or more quarters to complete the research and writing of a senior thesis. Course is repeatable to a maximum of 12 units.

HASS 196 Senior Research Paper 1 to

4 Prerequisite(s): consent of advisor.

HASS 198I Internship 1 to 12 Internship, 10 hours per week for each 4 units, Prerequisite(s): upper-division standing and approval of Committee on Independent Student Projects. A student-defined project, the major portion of which is taken off campus. May be supervised by an off-campus instructor and/or UCR advisor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

INFLAMMATION AND INFECTIOUS DISEASE DESIGNATED EMPHASIS

Subject abbreviation: IID School of Medicine

Monica Carson (Biomedical Sciences),
Co-Director
Emma Wilson (Biomedical Sciences),
Co-Director

monica.carson@ucr.edu;
emma.wilson@ucr.edu

Advisory Committee & Participating Faculty

Monica Carson (Biomedical Sciences)
Djurdjica Coss (Biomedical Sciences)
Nicholas DiPatrizio (Biomedical Sciences)
Iryna Ethell (Biomedical Sciences)
Marcus Kaul (Biomedical Sciences)
David Lo (Biomedical Sciences)
Christian Lytle (Biomedical Sciences)
Declan McCole (Biomedical Sciences)
Meera Nair (Biomedical Sciences)
Tara Nordgren (Biomedical Sciences)
Neal Schiller (Biomedical Sciences)
Andrew Tapper (Biomedical Sciences)
Ameae Walker (Biomedical Sciences)
Emma Wilson (Biomedical Sciences)
Seema Tiwari-Woodruff (Biomedical Sciences)
Sika Zheng (Biomedical Sciences)
Dimitrios Morikis (Bioengineering)

Karine LeRoch (Microbiology)
Huinan Liu (Microbiology)
Wenbo Ma (Microbiology)
Rong Hai (Plant Pathology and Microbiology)
Ansel Hsiao (Plant Pathology and
Microbiology)

Designated Emphasis Requirements

The Designate Emphasis is an interdisciplinary graduate program of study to enhance student training in the field through a focused course-work across at least two departments. The program is optional and the courses used for the DE may not be counted toward MS or PhD requirements.

1. Three (3) courses (12-14 units) with a focus in the basic principles of immunology and infectious disease will be selected from:
MCBL 124 Pathogenic Microbiology
BMSC 236 Foundations of Medicine II *
MCBL 202 Microbial Pathogenesis
MCBL 221 Microbial Genetics
BMSC 223E Inflammation, Autoimmunity and Pathogen Defense

*If taking BMSC 236 (10 units) only two courses are required for completion.

Students must select courses with relevant content as approved by the Designated

Emphasis Advisory Committee comprising of three participating faculty including the student's major professor. Students must select courses from at least two different departments. Undergraduate course taken to fulfill the requirement must be accompanied by a 292 course taken in the same quarter with extra work agreed upon by the professor and student.

2. BMSC 222 (2 units): Special Topics in Biomedical Sciences with emphasis in infectious diseases. The course will address the research pertaining to the student's interest and prepare trainees in applying the knowledge of basic principles of immunology to the pathophysiology of infectious disease. Graded Satisfactory (S) or No Credit (NC)
3. Research Project: students will write a review article on a selected inflammation or infectious disease topic. The review will be evaluated by the Designated Emphasis Advisory Committee. It is the committee's expectation that student will fulfill this component by submitting the review article for the journal publication. Successful completion of this review is required for the Designated Emphasis completion.

All requirements for the Designated Emphasis must be satisfied no later than one calendar year from the quarter in which candidate advances to candidacy in their PhD field; a minimum GPA of 3.0 is required for the Designated Emphasis completion.

INTERDISCIPLINARY STUDIES

College of Humanities, Arts, and Social Sciences

Thomas Cogswell, Ph.D., Chair
thomas.cogswell@ucr.edu

Committee in Charge

Thomas Cogswell, Chair (History)
Christopher Chase-Dunn (Sociology)
Maudemarie Clark (Philosophy)
Ruhi Khan (Media & Cultural Studies)
Deborah Wong (Music)
Milagros Peña, Dean, *ex officio*

The Interdisciplinary Studies major is not currently accepting new students. For more information, contact CHASS Student Academic Affairs, 3400 Humanities and Social Sciences Building, (951) 827-3683.

INTERNATIONAL RELATIONS MINOR

College of Humanities, Arts, and Social Sciences

Jana Grittersova, Ph.D., Chair
Office, 2230 Watkins Hall
(951) 827-5502 or 5312
internationalrelations@ucr.edu

Committee in Charge

Jana Grittersova, Chair (Political Science)
Marcelle Chauvet (Economics)
Thomas Cogswell (History)
Milagros Peña, Dean, *ex officio*

Offered by the department of Political Science, the International Relations minor offers a basic examination of the major approaches, disciplines, and perspectives of international relations. The study of international relations is necessarily interdisciplinary, focusing on economic, geographic, historical, and political issues and questions.

The International Relations minor is helpful in preparing students for the many careers in the international arena.

Requirements for the minor (28 units)

1. Eight (8) units from HISA 117B, HISE 142, HISE 146, HISA 164B, HISE 174, HIST 182
2. Eight (8) units from ECON 171, ECON 175, ECON 178/BUS 178, ECON 181, ECON 182, ECON 185/LNST 185
3. POSC 124 or POSC 124S
4. Eight (8) units from POSC 123, POSC 125, POSC 126 or POSC 126S, POSC 127, POSC 128, POSC 129, POSC 130, POSC 155 or POSC 155S, POSC 160 or POSC 160S

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

JOURNALISM MINOR

College of Humanities, Arts, and Social Sciences

Andrew Winer, M.F.A., Chair
Department Office, ARTS 129 (951) 827-5424;
creativewriting@ucr.edu

Committee in Charge

Mike Davis, M.A. (Creative Writing)
Martin Johnson, Ph.D. (Political Science)
Milagros Peña Ph.D. *Dean, College of Humanities, Arts and Social Sciences, ex officio*

Offered by the Department of Creative Writing, the minor offers basic examination of the theory, practice and ethics of contemporary journalism, with an emphasis on reporting and editing. Coupled with work on student publications and internships, the minor serves as an entryway to professional writing in news media or to graduate study in journalism.

Lower-division requirements (9 Units)

1. ART 003
2. CRWT 057C

Upper-division requirements (20 units)

1. Eight (8) units:
 - a) CRWT 165
 - b) CRWT 175
2. Eight (8) units:
 - a) CRWT 174
 - b) One (1) course either from an approved list of media-related upper-division

courses, or, with the approval of the academic advisor for journalism minors, an upper-division course relevant to an area of journalism specialization.

3. Either CRWT 195: Senior Thesis [4], or CRWT 1981: Internship [4]. Students electing a thesis will complete a series of news features or an investigative article or series requiring significant endeavor in reporting and writing and demonstrating an understanding of sound journalistic principles. CRWT 195 is open to seniors only. Students completing CRWT 1981 must complete 4 units of internship with a journalism organization.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

LABOR STUDIES MINOR

Subject abbreviation: LABR

College of Humanities, Arts, and Social Sciences

Ellen Reese, Ph.D., Chair
Office, 1217 Watkins Hall
(951) 827-2930; ellen.reese@ucr.edu
laborstudies.ucr.edu

Committee in Charge

Ellen Reese, Chair (Sociology)
Michael Bates (Economics)
James Brennan (History)
Marissa Brookes (Political Science)
Amalia Cabezas (Media & Cultural Studies)
Christopher Chase-Dunn (Sociology)
Alessandro Fornazzari (Hispanic Studies)
John N. Medearis (Political Science)
Dylan Rodriguez (Media & Cultural Studies)
Devra A. Weber (History)
Milagros Peña, Dean, *ex officio*

Labor studies is an interdisciplinary minor that focuses on the conditions, activities, and struggles of workers and other members of the working class from an international, contemporary, comparative and historical perspective. Although trade unions are the primary focus, students will also examine other forms of working class organizing, including community organizing, and organizing by women and people of color. Courses focus on work in formal workplaces, including service, industrial, clerical, professional, and managerial work, and may also address other forms of work, such as unpaid housework, prison labor, or work in the informal economy. The minor addresses issues affecting workers, including governmental policies, technological change, globalization, neoliberalism, and alternative models for organizing for social justice. In addition to taking academic courses, students gain hands-on experience through a one-quarter internship with a union or related organization. This minor helps to prepare students for careers in labor and community organizing, labor law, or labor regulatory agencies.

Requirements for labor studies minor are as follows:

1. Five courses (at least 20 units) from the approved list of courses

2. One of the following 'core' courses: LABR 001, HISA 124, ETST 102, SOC 112, SOC 135, GSST 101
3. A labor internship course (at least 4 units or the equivalent) completed through the following course: LABR 198-I
4. One course (at least 4 units) that deals with inequality based on gender, race, and/or sexual orientation: ANTH 109/GSST 109, ANTH 122, ANTH 138, ANTH 139, ANTH 147/GSST 140, ANTH 148/GSST 150, ANTH 149/GSST 149, DNCE 135, ECON 122E, ECON 155/GSST 155, ECON 156, ETST 100, ETST 101A, ETST 101B, ETST 102, ETST 104, ETST 105A, ETST 105B, ETST 106, ETST 107, ETST 108 (E-Z), ETST 109E, ETST 109F, ETST 109G, ETST 109I, ETST 110 (E-Z), ETST 111, ETST 112/HISA 135, ETST 113/HISA 134, ETST 115 (E-Z)/HISA 144 (E-Z), ETST 116/HISA 147, ETST 117 (E-Z)/HISA 137 (E-Z), ETST 122, ETST 123, ETST 124, ETST 125, ETST 126, ETST 127, ETST 128/SOC 128, ETST 129, ETST 131, ETST 132, ETST 133, ETST 134, ETST 135, ETST 136, ETST 137, ETST 139, ETST 140, ETST 142, ETST 143A, ETST 143B, ETST 144, ETST 145/SOC 145, ETST 146/ EDUC 146, ETST 147, ETST 148/ANTH 168/ LNST 168, ETST 149, ETST 150, ETST 155, ETST 156, ETST 157, ETST 158, ETST 159, ETST 161, ETST 166, ETST 167/PSYC 167, ETST 168/PSYC 168, ETST 175/GSST 175, ETST 176, ETST 177, ETST 178, ETST 179, ETST 180/HISA 140, ETST 181/HISA 141, ETST 182/HISA 142, ETST 184, ETST 185, ETST 186, ETST 187, ETST 188, ETST 189, GBST 110, HISA 115, HISA 132/GSST 132, HISA 146/GSST 146, HISE 148B, LGBS 128/ GSST 128, LGBS 134/GSST 134, LGBS 135/GSST 135, LGBS 137/GSST 137, LGBS 139/GSST 139, POSC 108, SOC 129, SOC 130, SOC 131 (E-Z), SOC 132, SOC 136, SOC 140, SOC 141, SOC 153, SOC 154, SOC 155 (E-Z), SOC 162, GSST 100, GSST 101, GSST 103/ANTH 145, GSST 105, GSST 107, GSST 108/PHIL 108, GSST 133/HISA 133, GSST 134/ LGBS 134, GSST 135/LGBS 135, GSST 136, GSST 138, GSST 150/ANTH 148, GSST 151, GSST 156, GSST 161, GSST 162/RLST 162, GSST 163/RLST 163, ANTH 164, GSST 166/MCS 127, GSST 168, GSST 176, GSST 185/ANTH 143, GSST 186, GSST 187, GSST 189

5. Two courses from the following: ANTH 104, ANTH 105/BUS 158, ANTH 109/GSST 109, ANTH 122, ANTH 134, ANTH 138, ANTH 139, ANTH 140T, ANTH 147/GSST 140, ANTH 149/GSST 149, ANTH 160, BUS 152/ECON 152, BUS 153/ECON 153, BUS 160/ECON 160, BUS 176/SOC 176, ECON 115, ECON 116, ECON 118, ECON 122E, ECON 123/HISA 123, ECON 146/ URST 146, ECON 155/GSST 155, ECON 180, ECON 182, ETST 102, ETST 108 (E-Z), ETST 109E, ETST 109F, ETST 131, ETST 145/SOC 145, ETST 177, GBST 100, HISA 110C, HISA 113, HISA 117A, HISA 119, HISA 124, HISA 160/LNST 170, HISA 161/LNST 171, HISA 162/LNST 172, HISA 165, HISE 122, HISE 140, HISE 142, HIST 108/ENGR 108, HIST 109/ENGR

109, HIST 182, PHIL 116, PHIL 153, POSC 116, POSC 116S, POSC 126, POSC 130, POSC 147, POSC 160A, POSC 164, POSC 164S, POSC 182, POSC 186, PSYC 142, SOC 112, SOC 120, SOC 122, SOC 123, SOC 125, SOC 133, SOC 134, SOC 135, SOC 140, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 161, SOC 171, SOC 181, SOC 183 (E-Z), SOC 184, GSST 101, GSST 138, ANTH 164

6. Students can also petition to the chair of the program to count towards the minor an independent study or regular course not listed above that is relevant to labor studies.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Lower-Division Courses

LABR 001 Introduction to Labor

Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Through comparative and historical perspective, examines the social forces shaping labor conditions and workers' struggles for justice. Covers the changing nature of work under capitalism, race and gender discrimination in the labor market, the impact of economic globalization, and unions' successes and limitations.

Upper-Division Courses

LABR 1981 Individual Internship in Labor

Studies 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor. Supervised experience in a labor union or related community organization. Focuses on the issues affecting workers and/or low-income people, as well as the prospects and challenges for achieving social justice for working-class people in the contemporary United States. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

LATIN AMERICAN AND LATINO STUDIES DESIGNATED EMPHASIS

Subject abbreviation: LAS
College of Humanities, Arts, and Social Sciences

Jennifer Scheper Hughes, Chair
Associate Professor Department of History
jhughes@ucr.edu

Curriculum Committee

Adrián Félix, Assistant Professor,
Department of Ethnic Studies
adrian.felix@ucr.edu

Alonso Gonzalez, Associate Professor,
Department of Ethnic Studies,
alfonso.gonzales@ucr.edu

Designated Emphasis Requirements

The Designated Emphasis is a rigorous course of study, requiring students to demonstrate focused coursework and research in the field with three core requirements:

1. Four (4) graduate courses (16 units) with at least one of these courses emphasizing U.S.-Latino experience and at least two with a primary axis of Mexico, Central America, South America, or the Caribbean. These courses must be taken in at least two different departments: AHS 260, ANTH 209, ANTH 218, ANTH 251, ANTH 264, ECON 260, ECON 261, ECON 262, ECON 264, ECON 265, ETST 223, ETST 244, ETST 245, ETST 246, HIST 206A, HIST 206B, HIST 285A, HIST 285B, MUS 271, MUS 263, POSC 278, PORT 201, SOC 243 (E-Z), SOC 261, SOC 265 (E-Z), SOC 282, SPN 257, SPN 258, SPN 270, SPN 272, SPN 273A, SPN 278, SPN 279, SPN 301.
2. Submission of a research portfolio within one year after the quarter in which the student advances to candidacy. The portfolio, to be reviewed by a standing committee of LAS faculty, will demonstrate significant research in the field, include two research papers and syllabi from the four courses accompanied by an introductory self-statement (of no more than 1000 words) articulating the particular research emphasis and its depth and breadth of engagement with the field along with an explanation of specific expertise and emphases.
3. Language certification is required through examination or coursework in a Latin American language: Spanish, Portuguese, Kreyol, or an indigenous language. Evidence of language certification must be included in the research portfolio (passing of a written translation exam, a full length (15pp+) research paper written in the language, or two or more years of language courses at the college or university level).

Major

Latin American Studies is an interdisciplinary, area studies major that allows students to combine insights from many related disciplines. The interdisciplinary focus permits students to study the anthropology, economics, geography, history, sociology, languages and cultures of the region to gain a broad understanding of a complex world area.

The Latin American Studies major provides great flexibility to explore a wide range of subjects of particular interest—from religious cults in the Caribbean to indigenous video in the Andes or the dynamics of agrarian reform in rural Mexico.

The flexibility of the major allows the possibility of completing a double major with other departments such as History, Anthropology, or Political Science.

UCR has a strong faculty in Latin American Studies, with more than 45 members drawn from departments across the campus. More than 125 courses taught at UCR have a significant focus on the region. The strength and breadth of the offerings at UCR permit each student to specialize in the particular country or discipline of greatest interest. Students have many opportunities to get involved in research projects with Latin American Studies professors. Students are encouraged to spend time living and studying in Latin America through, for example, Education Abroad.

Career Opportunities

The Latin American Studies major presents numerous opportunities after graduation. The interdisciplinary nature of the program prepares the student for further study in any number of academic fields at the graduate level, including anthropology, geography, history, sociology, Spanish and Portuguese, law, and journalism.

The B.A. degree itself is valuable preparation for many careers, including the U.S. foreign service, nongovernmental development and aid organizations, international organizations, large overseas corporations, banking, foreign missions, journalism and the media, and teaching.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Latin American Studies fall into three major groups. First, students must take Introduction to Latin American Studies (LNST 001) and satisfy a language requirement in either Spanish or Portuguese. Second, students choose three disciplinary areas in which to focus their upper-division work. They must take a total of 24 required units in these three areas. Finally, students take an additional 12 units of elective courses in Latin American Studies. Latin American Studies students are encouraged to take additional coursework at the lower and upper division levels.

The specific requirements for the major are as follows:

1. Lower-division requirements (5 units)
 - a) Introduction to Latin American Studies (LNST 001) or an equivalent course from the following list of lower-division courses:
LNST 015/ MUS 015, LNST 016/ MUS 016, LNST 017/ MUS 017, LNST 073A/ DNCE 073A, LNST 073B/ DNCE 073B, ANTH 010, ANTH 027/AHS 027, AHS 028, ETST 002, ETST 004/ HIST 004, ETST 008, MCS 025/ENGL 021/TFDP 021, MCS 046/ SPN 046, HASS 022A, GBST 001, GBST 002, HIST 075, POSC 020, RLST 009, RLST 011, SPN 012, GSST 031H, GSST 020

- b) Proficiency in Spanish to the SPN 005 level or in Portuguese to a comparable level

Note Additional course work in Spanish and/or Portuguese recommended for students interested in careers in Latin American fields

2. Upper-division requirements (at least 36 units)
 - a) At least two courses in three of the following groups (at least 24 units total):
 - (1) Anthropology: ANTH 109/ GSST 109, ANTH 111, ANTH 115R, ANTH 115S, ANTH 115U, ANTH 115X, ANTH 117B, ANTH 140J, ANTH 140O, ANTH 161/LNST 161, ANTH 163, ANTH 164/LNST 164/GSST 164, ANTH 168/ETST 148/LNST 168, ANTH 186/LNST 166, ANTH 171
 - (2) Economics and Business: BUS 114, BUS 138, BUS 185, ECON 122E, ECON 178, ECON 181, ECON 182, ECON 185/LNST 185, ECON 187/ LNST 187
 - (3) Education/Language: ETST 146, ETST 165/SOC 165, ETST 166, PORT 101A, PORT 101B, PORT 101C, SPN 101A, SPN 101B, SPN 105, SPN 106A, SPN 106B, SPN 109A, SPN 109B
 - (4) History: ETST 125, HISA 160/LNST 170, HISA 161/LNST 171, HISA 162/ LNST 172, HISA 163A, HISA 163B, HISA 164A, HISA 164B, HISA 165, HISA 166, HIST 191V, SPN 172
 - (5) Literature and Cultural Studies: ENGL 121E, ENGL 136, ENGL 136T, ENGL 137T, ETST 114, ETST 170/ WRLT 170, LNST 120/SPN 120C, LNST

153/ETST 153, SPN 102B, SPN 111F, SPN 111W, SPN 121E, SPN 122A, SPN 145, SPN 165, SPN 170(E-Z), SPN 172, SPN 188(E-Z), PORT 162(E-Z), RLST 138

- (6) Arts, Media, and Performance Studies: AHS 112, AHS 113, AHS 115/ LNST 115, DNCE 130, DNCE 132, DNCE 135, ETST 154, MCS 125(E-Z)/SPN 125(E-Z)/LNST 125(E-Z), MCS 171/SPN 171, LNST 105/MCS 185/SPN 185, LNST 109/MCS 179/ SPN 179/GSST 179, MUS 113, MUS 115, MUS 122, MUS 174, MUS 175

- (7) Politics: ETST 111, ETST 123, ETST 156, POSC 157, POSC 159, POSC 160, LNST 142/POSC 162, LNST 148/POSC 158, SOC 181

- (8) Ethnic Studies and Sociology: ETST 108(E-Z), ETST 109G, ETST 124, ETST 127, ETST 128/SOC 128, ETST 129, ETST 132, ETST 142, ETST 155, ETST 161, ETST 163/ SOC 163, ETST 165/SOC 165, SOC 181

- b) At least twelve (12) units selected from other Latin American Studies courses from the disciplinary areas above or from a list of upper-division courses with significant Latin American content available in the program office.

Minor

Latin American Studies offers a minor consisting of at least 20 upper-division units.

To complete the requirements for the minor, students must select five courses from two of the following groups:

1. Anthropology: ANTH 109/ GSST 109, ANTH 111, ANTH 115R, ANTH 115S, ANTH 115U, ANTH 115X, ANTH 117B, ANTH 140J, ANTH 140O, ANTH 161/LNST 161, ANTH 163, ANTH 164/LNST 164/GSST 164, ANTH 168/ETST 148/LNST 168, ANTH 186/LNST 166, ANTH 171
2. Economics and Business: Economics and Business BUS 114, BUS 138, BUS 185, ECON 122E, ECON 178, ECON 181, ECON 182, ECON 185/LNST 185, ECON 187/ LNST 187
3. Education/Language: ETST 146/EDUC 146, ETST 165/SOC 165, ETST 166, PORT 101A, PORT 101B, PORT 101C, SPN 101A, SPN 101B, SPN 105, SPN 106A, SPN 106B, SPN 109A, SPN 109B
4. History: ETST 125, HISA 160/LNST 170, HISA 161/LNST 171, HISA 162/LNST 172, HISA 163A, HISA 163B, HISA 164A, HISA 164B, HISA 165, HISA 166, HIST 191V, SPN 172
5. Literature and Cultural Studies: ENGL 121E, ENGL 136, ENGL 136T, ENGL 137T, ETST 114, ETST 170/ WRLT 170, LNST 120/SPN 120C, LNST 153/ETST 153, SPN 102B, SPN 111F, SPN 111W, SPN 121E, SPN 122A, SPN 145, SPN 165, SPN 170(E-Z), SPN 172, SPN 188(E-Z), PORT 162(E-Z), RLST 138
6. Arts, Media, and Performance Studies: AHS 112, AHS 113, AHS 115/LNST 115, DNCE 130, DNCE 132, DNCE 135, ETST

154, FVC 125(E-Z)/SPN 125(E-Z)/LNST 125(E-Z), FVC 171/SPN 171, LNST 105/ FVC 185/SPN 185, LNST 109/FVC 179/ SPN 179/GSST 179, MUS 113, MUS 115, MUS 122, MUS 174, MUS 175

7. Politics: ETST 111, ETST 123, ETST 156, POSC 124 or POSC 124S, POSC 126, POSC 157, POSC 159, POSC 160, LNST 142/POSC 162, LNST 148/POSC 158, SOC 181
8. Ethnic Studies and Sociology: ETST 108(E-Z), ETST 109G, ETST 124, ETST 127, ETST 128/SOC 128, ETST 129, ETST 132, ETST 142, ETST 155, ETST 161, ETST 163/SOC 163, ETST 165/SOC 165, SOC 181

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Ph.D. Designated Emphasis (DE) in Latin American Studies fosters communication, collaboration, and exchange with scholars across many departments within the university, and at the national and international levels. Our faculty are active researchers in the social sciences, humanities and natural sciences. Students pursuing the D.E. will benefit from the prominence of the faculty combined with a range of courses and research opportunities.

Requirements

The Designated Emphasis is a rigorous course of study requiring students to demonstrate focused coursework and research in the field with three core requirements:

1. The program requires the completion of 4 graduate courses or 16 units (with at least one of these courses emphasizing U.S.-Latino experience and at least two with a primary axis of Mexico, Central American, South America, or the Caribbean). These courses must be taken in at least two different department and will be selected from the list below. Courses used to satisfy departmental Ph.D. requirements may not be applied to the D.E. (although courses taken within the student's home department not required for the Ph.D. may be applied). The GPA for coursework cannot be below a 3.0.
2. The program also requires the submission of a research portfolio within one year after the quarter in which the student files for candidacy. The portfolio, to be reviewed by a standing committee of LAS faculty, will demonstrate significant research in the field, include two research papers and syllabi from the four courses accompanied by an introductory self-statement (of no more than 1000 words) articulating the particular research emphasis and its depth and breadth of engagement with the field along with an explanation of specific expertise and emphases.
3. Finally, the program requires language certification through examination or coursework in a Latin American language: Spanish, Portuguese, Kreyol, or an indigenous language. Evidence of language certification must be included in the research portfolio

(passing of a written translation exam, a full length (15pp+) research paper written in the language, or two or more years of language courses at the college or university level).

Lower-Division Courses

LNST 001 Introduction to Latin American

Studies 5 Lecture, 3 hours; screening, 1.5 hours; individual study, 3 hours; term paper, 1.5 hours. Introduces key issues in Latin American Studies and how scholars from diverse fields address them. Topics include indigenous cultures; colonial history; poverty; race, gender, and class inequalities; democracy and dictatorship; revolution; and civil war. Integrates film, literature, and music into the course.

LNST 015 Latin American Folk and Popular

Styles 4 Lecture, 2 hours; discussion, 1 hour. assigned listening, 3 hours. Prerequisite(s): none. Introduction to the vast array of folk and popular styles of music in Latin America, with an emphasis on cultural and ethnic interaction and exchange in the context of Latin American history, politics, and society. Cross-listed with MUS 015.

LNST 016 Latin American Classical

Heritage 4 Lecture, 2 hours, discussion, 1 hour. assigned listening, 3 hours. Prerequisite(s): none. Survey of the rich heritage of Latin American classical music from Renaissance sacred polyphony to contemporary styles. Emphasis on the gradual emergence of Latin American music from European domination and the establishment of distinctive national traditions in the post-colonial era. Cross-listed with MUS 016.

LNST 017 Music of Mexico 4 Lecture, 3 hours, discussion, 1 hour; assigned listening, 1 hour. Prerequisite(s): musical training and knowledge of Spanish is useful, but not required. Covers music from 1521 to the present day. Explores the rich musical tradition of Mexico, as well as the relationship between its art and popular music. Cross-listed with MUS 017.

LNST 027 Art of Pre-Columbian

America 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): none. A survey course that provides a background to the ancient art of Mexico, Central America, and the Andean region of western South America. Discusses art of pre-Columbian America according to the three broad cultural regions of Mesoamerica, the lower part of central and northwestern South America, and the Andean area. Cross-listed with AHS 027, and ANTH 027.

LNST 028 Art and Architecture of Latin

America 4 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours. Introduces Latin American art and architecture from the European conquest to the present. Topics include religious and secular art and architecture; hybridization of indigenous and imported styles; national styles after independence; Mexican murals; women artists; Latin American modernismo; and Chicano and Border art. Cross-listed with AHS 028.

LNST 073A Dance of Mexico 2 Studio, 3 hours; extra reading, 1 hour; screening, 1 hour; individual studio, 1 hour. Prerequisite(s): none. Covers the traditional dances of Mexico at the beginning level. Includes attendance at dance

concerts outside of class. Recommended for both nondancers and dancers. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable. Cross-listed with MUS 073A.

LNST 073B Dance of Mexico 2

Studio, 3 hours; extra reading, 1 hour; screening, 1 hour; individual studio, 1 hour. Prerequisite(s): LNST 073A/MUS 073A is recommended. Covers the traditional dances of Mexico at the beginning level. Includes attendance at dance concerts outside of class. Recommended for both nondancers and dancers. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable. Cross-listed with MUS 073B.

Upper-Division Courses

LNST 105 Imagining the Nation: Film and

Media in Latin America 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Study of the role of media and film in creating a national imaginary in Latin America. Focus is on one region or nation--such as the Andes, the Caribbean, Mexico, Argentina, or Chile--relating local history to the global context. Course is repeatable as topics change to a maximum of 8 units. Cross-listed with MCS 185, and SPN 185.

LNST 109 Gender, Media, and Latin

America 5 Lecture, 3 hours; screening 3 hours; research 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores the way Latin Americans have thought of and represented gender across a variety of media including essays, film, novel, short story, and performance. Compares the possibilities and limitations of these media for representing gender in the Latin American context. Cross-listed with MCS 179, SPN 179, and GSST 179.

LNST 112 The Art of the Aztec Empire 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): AHS 027/ANTH 027/LNST 027 or upper-division standing or consent of instructor. An introduction to the art of the Aztec Empire. Studies architecture, sculpture, ceramics, painting, lapidary work, gold work, and feather work. Explores the relationship between art and ritual and art and the imperial state. Cross-listed with AHS 112 and ANTH 151.

LNST 114 History of Brazilian Art &

Architecture 4 Lecture, 3 hours; outside research, 1 hour; term paper, 1 hour; written work, 1 hour. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. The history of Brazilian art and architecture from the nineteenth century to present. Explores visual culture including painting, sculpture, prints, murals, architecture, urbanism, landscape design, and installation art. Studies artworks and buildings through a social historical framework, taking into consideration topics like colonialism, modernization, underdevelopment, race, nationalism, internationalism, and globalism. Cross-listed with AHS 114.

LNST 115 Modern and Contemporary Art of

Latin America 4 Lecture, 3 hours; extra reading,

3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. A study of Latin American art from circa 1900 to the present. Considers national and regional histories and artistic trajectories beginning with the advent of an artistic avant-garde. Investigates the relationships between European and Latin American developments. Cross-listed with AHS 115.

LNST 116 Architecture and Arts of the

Andes 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. An introduction to architecture, urbanism, and related material culture of the Andes from ancient times to the present. Focuses on the diverse and rich architectural heritage of an important building center in the Americas. Addresses architecture's relationship to artistic and material production such as painting, pottery, sculpture, city planning, and textiles. Cross-listed with AHS 116.

LNST 117 Visual Culture of the Incas 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the art, architecture, and urban form of the Inca civilization. Examines how these elements influenced state formation, conquest, and resistance. Includes studies of urban plans, buildings, paintings, textiles, prints, sculpture, metalwork, and ceramics. Cross-listed with ANTH 157, and AHS 117.

LNST 120 Major Topics in Hispanic Literature:

Latin America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SPN 110. Reading and analysis of major texts of authors from Latin America. Cross-listed with SPN 120C.

LNST 124 Conceptual Art in Latin

America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Considers conceptual art made across Latin America, from 1960s to present. Focuses on subversive strategies artists developed to critique military dictatorships then in power, while circumventing legalized censorship. Considers localized versions of conceptual art in Santiago, Buenos Aires, Rio de Janeiro, Havana, Mexico City, and situate them within international movement. Cross-listed with AHS 124.

LNST 125 (E-Z) Topics: Latn Amer Film &

Media 5 Lecture, 3 hours; extra reading, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive formal, historical, and theoretical analysis of a theme or issue in Latin American film and media. E. Indigenous Video&latin America; Cross-listed with MCS 125 (E-Z), and SPN 125 (E-Z).

LNST 138 Colonialism and Religions in

Mexico 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers the survival, revival, and invention of religious traditions in ancient and contemporary Mesoamerica. Examines indigenous and immigrant religions through themes such as myths and rituals of pre-Columbian peoples; sexuality and eroticism in religion; Indian theology and theogony; Counter Reformation Catholicism; and growing religious syncretisms. Cross-listed with RLST 138.

LNST 142 Latin America: the Quest For Development and Democracy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A comparative examination of central issues in and components of Latin American political life. Covers economic development, regimes and alliances, guerrilla wars, the armed forces, human rights, and democratic consolidation. Includes Argentina, Chile, Venezuela, and Peru. Cross-listed with POSC 162. Credit is awarded for only one of LNST 142/POSC 162 or LNST 142S/POSC 162S.

LNST 142S Latin America: the Quest For Development and Democracy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A comparative examination of central issues in and components of Latin American political life. Covers economic development, regimes and alliances, guerrilla wars, the armed forces, human rights, and democratic consolidation. Includes Argentina, Chile, Venezuela, and Peru. Cross-listed with POSC 162S. Credit is awarded for only one of LNST 142/POSC 162 or LNST 142S/POSC 162S.

LNST 148 Politics of Mexico 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A survey of contemporary Mexican politics. Emphasis is on recent economic and social changes and their impact on Mexico's political system. Topics include relations with the United States, the rise of drug trafficking in Mexico, and the recent emergence of opposition politics. Cross-listed with POSC 158.

LNST 168 Caribbean Culture and Society 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of the Caribbean region from a historical, cultural, and political perspective. Emphasis on contemporary issues affecting the Caribbean, and the struggle of its people to maintain their identities. Cross-listed with ANTH 168, and ETST 148.

LNST 170 Colonial Latin America 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A history of Latin America from pre-Columbian times to independence with an emphasis upon selected themes concerning the social, economic, and cultural aspects of colonialism. Cross-listed with HISA 160.

LNST 171 Nineteenth-Century Latin America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics include the breakdown of political order and the problem of the nation-state, liberalism and conservatism, slavery and abolition, foreign intervention and capital investment, the reemergence of political order in the Age of Liberalism (1860-1900), and social and cultural change. Cross-listed with HISA 161.

LNST 172 Twentieth-Century Latin America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing

or consent of instructor. Topics include the Mexican Revolution, the Great Depression, populism, industrialization, revolution, and the emergence of conservative regimes in the age of neoliberalism. Cross-listed with HISA 162.

LNST 185 Economic Development in Latin America 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 103 or ECON 104A or ECON 105A. A comparative analysis of the major trends in Latin American economies in the twentieth century. Includes historical legacies, primary export economies, the theory and practice of import substitution industrialization, and the debt crisis. Also covers stabilization and structural adjustment, poverty and income distribution, the informal and agricultural sectors, and the environment. Cross-listed with ECON 185.

LNST 187 Contemporary Public Policy Challenges in Latin America 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): ECON 002 or ECON 002H; ECON 003 or ECON 003H; or consent of instructor. A survey of the wide-sweeping policy reforms since the 1980s and of contemporary public policy challenges in Latin America. Challenges discussed include extremely high levels of poverty and inequality; inadequate educational and healthcare systems; pressures for land reform; problems of trade competitiveness; and recurring currency crises. Cross-listed with ECON 187.

LNST 188 U.S.-Latin American Relations 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores international relations between the United States and the nations of Latin America. Examines different theories for explaining changes in the conduct of U.S.-Latin American relations over time. Topics include democracy and empire, revolution and counter-insurgency, economic integration and trade, petroleum politics, drug trafficking, and migration flows. Cross-listed with POSC 161.

LNST 189 Economic Development in Brazil 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours. Prerequisite(s): ECON 102 or ECON 104A; ECON 103 or ECON 105A. An analysis of the successes and failures of economic development in the largest country in Latin America. Reviews current issues facing Brazilian policy makers. Topics include historical legacies, import substitution and industrialization, poverty and inequality, agriculture and land reform, and the environmental impact of development. Cross-listed with ECON 189.

LNST 190 Special Studies 1 to 5 Consent of the instructor and the Latin American Studies Committee required.

LAW AND SOCIETY

Subject abbreviation: LWSO
College of Humanities, Arts, and Social Sciences

Piotr Gorecki, Ph.D., Chair
Committee Office, 1604 Humanities and Social Sciences
(951) 827-5208; lawandsociety.ucr.edu

Committee in Charge

Piotr Gorecki, Chair (History)
John Cioffi (Political Science)
Carl Cranor (Philosophy)
David Eastmond (Neuroscience)
Paul Green (Ethnic Studies)
Alexander Haskell (History)
Georgia Warnke (Philosophy)
Fariba Zarinebaf (History)
Milagros Peña, Dean, *ex officio*

Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major offers an interdisciplinary liberal arts approach to the study of legal and law-like relationships and institutions. The program combines the perspectives of various disciplines in the Humanities and Social Sciences. The multidisciplinary approach introduces students to a wider range of views about law than is generally possible within a single department, provides a coherent and rigorous program of courses organized around the theme of law and law-like relationships, and allows students to develop critical thinking about law and social institutions.

For students not planning to pursue graduate studies, this program offers a means of understanding some complex relationships between social institutions. For those who plan to pursue graduate studies, the breadth of course work should provide a sound basis for graduate studies in areas related to law: history, philosophy, political science, and sociology, among others. And for students who choose to pursue the study of law in a professional school of law, the curriculum can offer a sound background.

Students may select Law and Society as a major with the departments of Anthropology, Economics, History, Philosophy, Political Science, Psychology, and Sociology.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Law and Society are as follows:

1. Specified requirements of the cooperating department (See the departments of Anthropology, Economics, History, Philosophy, Political Science, Psychology, or Sociology.)
2. **Law and Society requirements** (36 units)
 - a) PHIL 007 or PHIL 007H
 - b) LWSO 100 (with a grade of "C" or better)

- c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
- d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
- e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
- f) LWSO 193, Senior Seminar

Note

For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (specified departmental requirements and Law and Society requirements).

Minor

The minor in Law and Society has the following requirements.

1. Upper Division (six courses [at least 24 units])
 - a) LWSO 100
 - b) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
 - c) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, PHIL 164, LWSO 175 (E-Z), POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Upper-Division Courses

LWSO 100 Introduction to the Study of Law and Society 4

Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the interdisciplinary study of the role of law and legal institutions in society. Examines the role of criminal, tort, contract, constitutional, or other areas of the law in society from different disciplinary perspectives. Credit is awarded for only one of LWSO 100 or LWSO 100H.

LWSO 100H Honors Introduction to the Study of Law and Society 4

Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Honors course corresponding to LWSO 100. An introduction to the interdisciplinary study of the role of law and legal institutions in society. Examines the role of criminal, tort, contract, constitutional, or other areas of the law in society from different disciplinary perspectives. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of LWSO 100 or LWSO 100H.

LWSO 175 (E-Z) Topics in Law and

Society 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): LWSO 100 or LWSO 100H. Addresses current topics in law and society.

LWSO 175E Convicting the Innocent 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): LWSO 100 or LWSO 100H; upper-division standing. Considers the causes of false convictions.

LWSO 180A Symposium in the Law 1 Seminar, 10 hours per quarter. Prerequisite(s): upper-division standing; consent of instructor in the preceding quarter. A discussion of legal matters of common interest, in conjunction with experts from outside the university. After completing LWSO 180A, LWSO 180B, and LWSO 180C, students may repeat the sequence once for credit; total credit for each course may not exceed 2 units.

LWSO 180B Symposium in the Law 1 Seminar, 10 hours per quarter. Prerequisite(s): LWSO 180A. A discussion of legal matters of common interest, in conjunction with experts from outside the university. After completing LWSO 180A, LWSO 180B, and LWSO 180C, students may repeat the sequence once for credit; total credit for each course may not exceed 2 units.

LWSO 180C Symposium in the Law 1 Seminar, 10 hours per quarter. Prerequisite(s): LWSO 180B. A discussion of legal matters of common interest, in conjunction with experts from outside the university. Graded Satisfactory (S) or No Credit (NC). After completing LWSO 180A, LWSO 180B, and LWSO 180C, students may repeat the sequence once for credit; total credit for each course may not exceed 2 units.

LWSO 192 Science and Law 4 Lecture, 3 hours; extra reading, 1 hour; outside research, 1 hour; term paper, 1 hour. Prerequisite(s): LWSO 100 or LWSO 100H. Discusses the intersection between science and law. Also compares legal and scientific procedures and decision making.

LWSO 193 Senior Seminar in Law and

Society 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): LWSO 100 or LWSO 100H; senior standing in Law and Society/ Anthropology, Law and Society/Economics, Law and Society/History, Law and Society/ Philosophy, Law and Society/Political Science, Law and Society/Psychology, or Law and Society/Sociology. Aims to synthesize multidisciplinary perspectives and knowledge provided by other courses in the Law and Society Program through readings, group discussion, and research on an issue or problem in law and society. Covers topics such as law and morality, law and social change, law and religion, and law and culture. Satisfactory (S) or No Credit (NC) grading is not available.

LWSO 198 Individual Internship in Law and

Society 4 to 8 Consultation, 1 to 2 hours; term paper, 3 to 6 hours; internship, 8 to 16 hours. Prerequisite(s): LWSO 100 or LWSO 100H; consent of instructor and department chair; upper-division standing. An individual internship in the professional legal or policy-making community. Requires a substantive paper relating the internship to the student's area of study.

The minor reflects current critical, theoretical, and methodological developments across several disciplines that focus on lesbian, gay, bisexual, intersex, and transgender issues. The field of queer studies by nature interdisciplinary, and this minor is meant to encourage new cross-disciplinary research in the field for interested students in the College of Humanities, Arts, and Social Sciences. The curriculum addresses such issues as sexual identity and orientation; queer and trans representation; queer and trans perspectives on the arts; retheorizations of gender; sexuality and cultural diversity; intersections of sexualities and ethnic identities.

Requirements for the minor (24 units)

1. Lower-division requirements (4 units) chosen from LGBS 001 or GSST 001
2. Upper-division requirements (5 courses [at least 20 units]) chosen from the approved list of courses:
 - a) Humanities: at least one of the five from ENGL 122 (E-Z)/LGBS 122 (E-Z), ENGL 143 (E-Z)/LGBS 143 (E-Z)/MCS 143 (E-Z), LGBS 105, GSST 139/LGBS 139
 - b) Fine Arts: at least one of the five from DNCE 135, ENGL 143 (E-Z)/LGBS 143 (E-Z)/MCS 143 (E-Z), LGBS 153/MUS 153
 - c) Social Sciences: at least one of the five

from ANTH 145/GSST 103, ETST 175/GSST 175, GSST 128/LGBS 128, GSST 134/LGBS 134, GSST 135/LGBS 135, GSST 137/LGBS 137, GSST 139/LGBS 139, GSST 152/LGBS 152, GSST 100

Students may petition to have a course not on the approved list counted towards the five upper division requirements provided they can demonstrate that LGBT issues play a significant role in the course and that they will focus their own work for the course (amounting to 30% of the final grade) on an LGBT topic.

Students may use 4 units of LGBS 190 and up to 8 units of LGBS 193 to count towards the five upper division requirements.

Note

Students may satisfy an upper-division requirement by completing 4 units of LGBS 198-I (Internship).

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for information on minors.

Lower-Division Courses

LGBS 001 Introduction to Lesbian, Gay, Bisexual, and Transgender Studies 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. Introduces students to basic issues in lesbian, gay, bisexual, and transgender studies. Topics include the history of sexuality, identity politics and community activism, the relation between sexuality and gender, the theories of sexual identity, and the globalization of lesbian, gay, bisexual, intersexual, and transgender issues.

Upper-Division Courses

LGBS 105 Topics in Queer Art, Culture, Or Literature 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to topics of contemporary importance in the field of Lesbian, Gay, Bisexual, Intersex, and Transgender Studies. Emphasizes different areas of study in the humanities, arts, and social sciences. Course is repeatable as topics change to a maximum of 8 units. Credit is awarded for only one of LGBS 105 or LGBS 105W.

LGBS 105W Topics in Queer Art, Culture, and Literature 4

Lecture, 3 hours; written work, 1.5; extra reading, 1.5. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. An introduction to topics of contemporary importance in the field of Lesbian, Gay, Bisexual, Intersex, and Transgender Studies. Emphasizes different areas of study in the humanities, arts and social sciences. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C. Credit is awarded for only one of LGBS 105 or LGBS 105W.

LGBS 112 History of Queer Cinema 4 Lecture, 3 hours; screening, 3 hours; activity 2 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the aesthetic hallmarks, political impulses, and theoretical responses that distinguish queer

cinema as a unique, important tradition within film history. Provides a historical overview of global, independent, Hollywood, and alternative queer production from the 1900s to the present. Cross-listed with MCS 112, and GSST 112.

LGBS 122 (E-Z) Queer Texts and Bodies 4

Lecture, 3 hours. A study of English and American literature from the perspective of sexuality and sexual identity. Covers issues such as gay and lesbian texts and contexts; sexual ideologies and literature; marginalized writers and texts; and the uses of theories of sexualities in the study of literature. Cross-listed with ENGL 122 (E-Z).

LGBS 122F Gothic Fiction and the History of Sexuality 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores the literary and cultural implications of "unauthorized sexual behavior" (homosexuality, incest, necrophilia, pedophilia, sadism, masochism) in British Gothic fiction. Cross-listed with ENGL 122F.

LGBS 122G New Queer Brit Lit 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Studies recent lesbian, gay, and bisexual literature from England. Explores novels, poetry, and films. Cross-listed with ENGL 122G.

LGBS 122I British Literature and the History of Sexuality 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Examines specific literary works implicated in the history of sexuality in eighteenth- and nineteenth-century England. Focuses on the expression of sexual excess in these works. May consider issues of gender, class, race, colonialism, and other topics germane to the history of sexuality. Cross-listed with ENGL 122I.

LGBS 122J Q(ueer) & A(sian): Gay and Lesbian Asian American Literature 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. An exploration of the writing in and of gay and lesbian Asian America. Examines of the term "queer" and its relationship to gay and lesbian studies and to Asian American studies. Readings include theory, fiction, poetry, and drama. Cross-listed with ENGL 122J.

LGBS 122K Sex and Popular Culture in the Postwar United States 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Surveys American popular culture of the 1950s and 1960s from a sexuality studies perspective. Covers multimedia ranging from pulp novels and comic books to drive-in movies, television sitcoms, rock-and-roll music, and magazine advertisements. Includes relevant historical, critical, and theoretical readings. Cross-listed with ENGL 122K.

LGBS 122N Queer Aesthetics 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or lower-division English

course (other than composition) or consent of instructor. Survey of writings on art, aesthetics, and sexuality associated with gay, lesbian, transgender, bisexual, or queer aesthetic movements. Focuses on reflexive, performative, interdisciplinary, or critical strategies exhibited in queer aesthetic writings, which allows queer writing on aesthetics to move beyond contemporary constraints on expression. Cross-listed with ENGL 122N.

LGBS 122O Queer American Literature 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Explores same-sex desires as a topic in American literature. Also offers a strong critique of heteronormative paradigms. Includes major critical works in queer theory and sexuality studies. Cross-listed with ENGL 122O.

LGBS 122Q Literature of Aids: Gay Men Respond to A Crisis 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Considers the literary response to the AIDS crisis as it emerged in 1980s and 1990s gay American culture. Examines the literary, political, and cultural effects through memoirs, novels, plays, poetry, and essays. Cross-listed with ENGL 122Q. Cross-listed with ENGL 122Q.

LGBS 122R Queer Aztli-n: Chicana/O Queer Narrative 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or lower-division English course (other than composition) or consent of instructor. Includes a review of Cherrie Moraga's groundbreaking manifesto. Explores the critical force of this work and its impact in shaping a new generation of out, vocal, and activist queer Chicana/o writers and artists who are producing interventionist work across a broad range of genres. Cross-listed with ENGL 122R.

LGBS 128 Critical Approaches to Heterosexuality 4

Lecture, 3 hours; extra reading, 2 hours; written work, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S, LGBS 001. Examines the late nineteenth-century origins and twentieth-century evolution of the meaning of heterosexuality in the United States. Includes the medical, psychological, and political history of heterosexuality; the race and gender components of heterosexuality; and the intersections of heterosexuality and queerness. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with GSST 128.

LGBS 134 Queer Identities and Movements in the United States 4

Lecture, 3 hours; extra reading, 1 hour; individual study, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines important twentieth- and twenty-first century developments in queer culture and activism in the United States. Focuses on the origins of sexual identity; the relationship between sexuality, race, and gender; queer representation in art and media; and central issues in queer theory. Cross-listed with GSST 134.

LGBS 135 Love, Desire, and Lesbian

Sexuality 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Expands upon the notion of lesbian identification and sexuality. Emphasizes the influence of feminism on the interdisciplinarity of lesbian studies and the complexity of lesbianism across class, race, ethnic, age, and national and international differences. Cross-listed with GSST 135.

LGBS 137 Critical Queer Politics 4 Lecture, 3 hours; individual study, 2 hours, written work, 1 hour. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S; or consent of instructor. Presents Euro-American configurations of modern sexuality to map queer communities and homosexual presence across time and space. Critically explores the invisibilities, injustices, erasures, distortions, silences, and voices produced as a result of queer mobility, global gay, and global queer liberation. Cross-listed with GSST 137.

LGBS 139 Coming Out and Sexual Identity 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 2 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001H, GSST 001S, LGBS 001; or consent of instructor. Examines speech acts, secrecy, and silence to understand the significance of the closet. Explores perspectives on resistance movements and modes of communication related to coming out. Considers coming out stories, biographies, and examinations of the social construction of heterosexual identities and formation of public space. Cross-listed with GSST 139.

LGBS 143 (E-Z) Gender, sexuality, visual Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive formal, historical, and theoretical analysis of gender and sexuality in film, television, and visual culture. E. Feminist Film Theory & practice; F. Film And Gender; G. Screening The Lesbian; K. Queers That Kill; Cross-listed with ENGL 143 (E-Z), and MCS 143 (E-Z).

LGBS 152 Theory of Gender Inequality 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one of the following courses: GSST 001, GSST 001S, GSST 001H. Studies theoretical debates regarding sex and gender differences; the origins and institutionalization of gender inequality; and the intersection of sexism, racism, and heterosexism. Cross-listed with GSST 152.

LGBS 153 Homosexuality and Music 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Uses a topical rather than a chronological approach to investigate homosexuality on the part of composers, performers, critics, theorists, and historians and how this has shaped the history of music in the West. Cross-listed with MUS 153.

LGBS 190 Special Studies 1 to 5 Consultation, 1 hour; individual study, 2 to 14 hours. Prerequisite(s): upper-division standing; consent of instructor and program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 14 units.

LGBS 193 Senior Seminar 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): senior standing or consent of instructor. Current topics in lesbian, gay, bisexual, intersexual, and transgender studies. Students develop and present a research paper on an interdisciplinary theme or problem that has been selected by the instructor.

LGBS 198 Individual Internship 1 to 4 Consultation, 1 hour; term paper, 1 to 3 hours; internship, 2 to 8 hours. Prerequisite(s): upper-division standing or consent of instructor. Internship in a community or campus outreach program related to lesbian, gay, and bisexual studies. The internship is supervised by a faculty member teaching in the Lesbian, Gay, and Bisexual Studies minor and the agency or program coordinator. A final paper is required. Course is repeatable to a maximum of 12 units.

LIBERAL STUDIES

Subject abbreviation: LBST College of Humanities, Arts, and Social Sciences

Thomas Cogswell, Ph.D., Chair
Office: 2005 CHASS INTN
(951) 827-4843; thomas.cogswell@ucr.edu
mdu.ucr.edu

Committee in Charge

Thomas Cogswell, Chair (History)
Heidi Brayman (English)
Marissa Brookes (Political Science)
Goldberry Long (Creative Writing)
J.P. Park (Art History)
Maritza Rodriguez (Education)
Milagros Peña, Dean, *ex officio*

Major

Liberal Studies is the major of choice for students interested in a major with broad interdisciplinary scope. The Liberal Studies major includes a core of lower-division courses designed to provide students with broad subject matter coverage to give them the foundation for a wide variety of careers and advanced degrees in professional schools of education, law, business or medicine or academic programs toward doctoral study in the humanities and social sciences.

For Information about undergraduate requirements, contact the Undergraduate Academic Advising Center for the Office of Interdisciplinary Programs, 3111 Humanities and Social Sciences, mdu.ucr.edu. Information about UCR's credential programs can be found at the Graduate School of Education Web site, education.ucr.edu/teach or at 1124 Sproul Hall.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Liberal Studies are as follows:

1. Lower-division requirements (12 courses

[at least 48 units]). Courses can be used to fulfill college breadth requirements.

- a) Science and Mathematics (4 courses [at least 16 units]) from: BIOL, CHEM, CS, GEO, MATH, or PHYS.
 - b) Humanities and Fine Arts (4 courses [at least 16 units]) from: ART, AHS, CPLT, CRWT, DNCE, ENGL, LING, MUS, PHIL, or TFDP.
 - c) History and Social Science (4 courses [at least 16 units]) from: ANTH, ECON, ETST, GBST, GSST, MCS, POSC, PSYC, RLST, or SOC.
2. Upper-division requirements: 10 courses (at least 40 units).
 - a) One writing course from: ENGL 103 or CRWT 130.
 - b) One course in American/European Literature or Arts, not to include language study, from: ART, AHS, CLA, CPAC, CPLT, DNCE, ENGL, EUR, FREN, GER, ITAL, LATN, LNST, MUS, MCS, PHIL, PORT, RUSN, SPN, or TFDP.
 - c) One course in Nonwestern Literature or Arts or Gender Studies, not to include language study, from: AHS, ART, ARLC, AST, CHN, CPLT, DNCE, ETST, GSST, JPN, KOR, MCS, MUS, PHIL, SEAS, TFDP, or VNM.
 - d) One course in U.S. History or Government/Politics, Economics, or Society from: ANTH, ECON, POSC, or SOC.
 - e) One course in Communications or Technology from: ANTH, AHS, ART, CPLT, CS, ECON, ENGL, ETST, GSST, MCS, PHIL, SOC, or TFDP.
 - f) One course with a Global Perspective from: AHS, ANTH, ECON, ETST, GBST, GSST, LNST, PHIL, POSC, RLST, or SOC.
 - g) Three additional upper-division courses offered in the College of Arts and Social Sciences OR for pre-teaching credential students, three from the following: EDUC 109/S, EDUC 110/S, EDUC 116/S, EDUC 172/S, EDUC 174/S, EDUC 175/S.
 - h) Liberal Studies Capstone Course: LBST 191 or LBST 190
 3. E-exit Portfolio: Students will compile at least three pieces of written work from upper-division courses, one of which must specifically address research methodology, broadly understood and evidence of applied research or work experience – e.g., a fourth paper, journal/report from an internship or experiential learning exercise, or, for pre-teaching credential students, a record of classroom experience.

Upper-Division Courses

LBST 190 Special Studies 1 to 5 Individual Study, 2 to 10 hours; written work, .5 to 2.5 hours; tutorial, .5 to 2.5 hours. Prerequisite(s): upper-division standing or consent of instructor. Includes preparation of a written proposal endorsed by a supervising instructor as a means of meeting individual curricular needs.

LBST 191 Seminar in Liberal Studies 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s):

upper-division standing or consent of instructor. Facilitates student efforts to bring together the knowledge, skills, and interests developed to this point through all aspects of their education. Includes a paper or project and completion of an e-portfolio.

MANAGEMENT

Subject abbreviation: MGT
The A. Gary Anderson
Graduate School of Management

Yunzeng Wang, Ph.D. Dean;
Birenda Mishra, Ph.D., Associate Dean for the Academic Graduate Programs
School Office, 162 Anderson Hall
(951) 827-6329; agsm.ucr.edu

Professors

Subramanian 'Bala' Balachander, Ph.D.
Albert O. Steffey Chair (Marketing)
Y. Peter Chung, Ph.D. (Finance)
Mohsen El-Hafsi, Ph.D. (Operations and Supply Chain Management)
Jerayr 'John' Halebian, Ph.D. *Associate Dean and Department Chair* (Management)
Jean Helwege, Ph.D. (Finance)
Woody M. Liao, Ph.D. (Accounting and Information Systems)
Birendra Mishra, Ph.D. (Accounting and Information Systems)
Theodore Mock, Ph.D. *Distinguished Professor* (Accounting and Information Systems)
Jorge Silva-Risso, Ph.D. (Marketing)
Richard Smith, Ph.D. *Philip L. Boyd Chair* (Finance)
Yunzeng Wang, Ph.D. *Dean's Distinguished Scholar* (Operations and Supply Chain Management)
Rami Zwick, Ph.D. (Marketing)

Professors Emeriti

Bajis M. Dodin, Ph.D. (Operations and Supply Chain Management)
David Mayers, Ph.D. (Finance)
Kathleen Montgomery, Ph.D. *Distinguished Professor* (Management)
Michael Moore, Ph.D. (Accounting and Information Systems)
Amnon Rapoport, Ph.D. *Distinguished Professor* (Management)
Waymond Rodgers, Ph.D. (Accounting and Information Systems)
David Stewart, Ph.D. *Distinguished Professor* (Marketing)

Associate Professors

Long Gao, Ph.D. (Operations and Supply Chain Management)
Elodie Goodman, Ph.D. (Operations and Supply Chain Management)
Michael P. Haselhuhn, Ph.D. (Management)
Yawen Jiao, Ph.D. (Finance)
Thomas Kramer, Ph.D. (Marketing)
Boris Maciejovsky, Ph.D. (Management)
Elaine Wong, Ph.D. (Management)
Associate Professor Emeritus
Lawrence Zahn, Ph.D. (Management and Marketing)

Assistant Professors

Alexander Barinov, Ph.D. (Finance)
Timothy Gubler, Ph.D. (Management)
Hyun 'Shana' Hong, Ph.D. (Accounting and Information Systems)

Ivalina Kalcheva, Ph.D. (Finance)
Kevin Li, Ph.D. (Accounting and Information Systems)
Ye Li, Ph.D. (Management)
Haibo Liu, Ph.D. (Management)
Adem Orsdemir, Ph.D. (Operations and Supply Chain Management)
Marlo Raveendran, Ph.D. (Management)
Ashish Sood, Ph.D. (Marketing)
Y. Charles Zhang, Ph.D. (Marketing)

**

Adjunct Professor

Richard Savich, Ph.D. (Accounting and Information Systems)

Lecturers

Sean Jasso, Ph.D. (Management and Marketing)
Asish Satpathy, Ph.D. (Information Systems and Finance)
Raj Singh, Ph.D. (Management and Marketing)
Craig Weaver, Ph.D. (Accounting and Information Systems)

Graduate Programs

The A. Gary Anderson Graduate School of Management offers a variety of programs leading to the M.B.A. (Master of Business Administration) degree. These include a two-year, full-time M.B.A. program, and a Professional M.B.A. (or PROFESSIONAL M.B.A.) program, which may be completed in 27-33 months. AGSM also offers a Master of Professional Accountancy (M.P.Ac.) program and a Master of Finance (M.Fin.). The Ph.D. Program in Management offers the Doctor of Philosophy Degree (Ph.D.). In limited circumstances, students in the Ph.D. Program may be awarded a degree (the Master of Arts (M.A.) in Management) should they fail to complete their doctoral studies.

Admission

Applications for the traditional M.B.A. program are accepted for fall, winter, and spring entry. The program is open to eligible students from all undergraduate majors. Quantitative methods (business calculus, statistics, and linear algebra) is a prerequisite to the program. Qualified students who have not taken this prerequisite course may be admitted, but must meet this requirement during their first two quarters in residence. Admission to the graduate program is based on several criteria including the quality of previous academic work, scores on the Graduate Management Admission Test (GMAT) or General Record Examination (GRE), letter(s) of recommendation, and managerial experience.

Applications for the M.P.Ac. program are accepted for the Fall quarter. Applications for the M.Fin. program are accepted for the Fall quarter. Applications for the Ph.D. program are accepted for the Fall quarter. Coursework for the M.P.Ac. program is expected to be completed in one academic year.

Applications for the Executive M.B.A. program are no longer accepted. Applications are not accepted for the M.A. in Management degree.

Masters of Business Administration Course Work

The M.B.A. program can be completed in two years on a full-time basis or in three to four years on a part-time basis. In the 80-unit program (20

courses), all students take 36 units in a common body of knowledge that consists of courses in quantitative analysis, managerial economics, financial accounting, finance, operations and management science, information systems, organizational behavior and theory, strategic management, and marketing management. Thereafter, students complete a required internship, 28-36 units selected from electives, a management synthesis course, and a thesis or an industry-based case project (in the management synthesis class MGT 238).

Electives are selected with the assistance of a faculty advisor to meet individual educational and career goals. Electives are offered in areas such as accounting, entrepreneurial management, finance, human resources management, international management, management science, management information systems, marketing, and production and operations management. The program is flexible to meet individual student interests, and students are also encouraged to take courses in related disciplines such as economics, statistics, computer science, and sociology.

Choosing a concentration is optional. Students who chose to specialize in a second concentration has to take 40 units of electives courses. They have to complete additional 4 units beyond the 36 units required for graduation.

Degree Requirements:

1. Prerequisite Requirement: Students without a quantitative background are required to complete an external quantitative review program prior to, or during, their MBA program. AGSM will provide recommendations for review programs at the point of admission

Professional Workshops (2 units)

- a. Full Time MBA Students Only:
MGT 402: Business Career Professional Development Workshop
3. Common Body of Knowledge (36 units)
 - a. MGT 200: Organizational Behavior and Theory
 - b. MGT 201: Quantitative Analysis
 - c. MGT 202: Financial Management
 - d. MGT 203: Economics for Management
 - e. MGT 205: Information Systems
 - f. MGT 207: Operations Management for Competitive Advantage
 - g. MGT 209: Marketing Management
 - h. MGT 211: Financial Accounting
 - i. MGT 235: Strategic Management
4. Fieldwork in Management (4 units) – MGT 298i

5. Concentration and Elective Courses (28-36 units): Choosing a concentration is optional. Students who choose to specialize in a second concentration have to take 40 units of electives courses. They have to complete additional 4 units beyond the 36 units required for graduation. Students may choose to focus their elective courses such that they complete one or more concentrations in Accounting, Finance, Information Systems, Management,

Marketing, or Operations and Supply Chain Management (OSCM). Each concentration consists of five courses as follows:

Accounting:

Choose five courses from the seven courses below:

- MGT 204 - Cost and Management Accounting
- MGT 226 - Fraud and Forensic Auditing
- MGT 240A - Taxation
- MGT 241 - Accounting Systems and Control
- MGT 245 - Financial Statement Analysis
- MGT 277 - Advanced Financial Accounting
- MGT 278C - Internal Auditing

Finance:

The concentration consists of three required courses and two elective courses:

Required Finance Courses:

- MGT 227 - Fixed-Income Securities and Markets
- MGT 231 - Corporate Finance
- MGT 252 - Investments and Portfolio Management

Elective Finance Courses:

- MGT 213 - Trading Strategies and Financial Models
- MGT 232 - Derivatives and Asset Pricing
- MGT 237 - International Financial Management
- MGT 244 - Corporate Risk Management
- MGT 268 - Entrepreneurial Finance and Venture Capital
- MGT 274 - Special Topics in Finance
- MGT 276 - Financial Strategy and Corporate Control
- MGT 295F - Seminars in Finance: Empirical Methods in Finance
- MGT 295G - Seminars in Finance: Corporate Finance

Information Systems:

Choose five courses from the nine courses below:

- MGT 230 - Database for Management
- MGT 239 - Business Modeling and Simulation
- MGT 241 - Accounting Systems and Control
- MGT 256 - Business Analytics for Management
- MGT 264 - Information Systems Resource Management
- MGT 278B - Information Technology Auditing and Assurance
- MGT 280 - Business Issues in Electronic Commerce
- MGT 281 - System Analysis and Design
- MGT 282 - Business Data Communication

Management:

Choose five courses from nine courses below:

- MGT 210 - Human Resources Management
- MGT 212 - Application of Behavioral Economics to Management, Decision-Making, and Policy
- MGT 214 - Corporate Strategy
- MGT 215 - International Comparative Management
- MGT 218 - Ethics in Management
- MGT 220 - Negotiation for Managers
- MGT 222 - Strategic Organization Change
- MGT 246 - Entrepreneurial Management
- MGT 272 - Global Strategy & Management

Marketing:

Choose five courses from eight courses below:

- MGT 228 - Consumer Behavior
- MGT 233 - Marketing Research
- MGT 247 - Advertising Management
- MGT 249 - Pricing Strategy
- MGT 250 - Marketing Channels and Sales Force
- MGT 251 - Market Assessment
- MGT 253 - Internet Marketing
- MGT 257 - Marketing Strategy

OSCM:

Must Complete the five courses below.

- MGT 221 - Decision Making Under Uncertainty
- MGT 239 - Business Modeling and Simulation
- MGT 256 - Business Analytics for Management
- MGT 258 - Logistics and Supply Chain Management
- MGT 266 - Project Management

Normative Time to Degree

7 quarters - M.B.A.; 6 quarters - M.Fin. and M.P.Ac. 15 quarters - Ph.D.

Masters of Business Administration

Candidates for the M.B.A. are required to complete all the general requirements specified in the Graduate Studies section of this catalog.

The program conforms to Plan I or Plan II.

Plan I (Thesis)

For thesis work, a maximum of 8 units of credit is granted. The thesis is a two or more quarter research endeavor to be initiated during a student's final year in the program. It is expected that most students will develop theses related to advanced work in their electives. The format and other details of the thesis must meet the requirements of the Graduate Division of UCR.

Plan II (Comprehensive Examination)

Students who elect Plan II must complete an industry-based group case analysis as part of the management synthesis course. This case serves in lieu of a comprehensive final examination. Students whose case analyses are deemed "not acceptable" are given one additional quarter to revise them to an "acceptable" level.

PROFESSIONAL MBA

The **PROFESSIONAL M.B.A. program** provides an M.B.A. experience tailored according to one's schedule. It allows flexibility and convenience in attaining one of the most sought-after degrees. The PROFESSIONAL M.B.A. is the program of choice for a broad swath of students. Among them might be full-time students who want to earn an M.B.A. on a fast track or who seek to take longer with their studies, international students looking for an M.B.A. at a top university, working professionals seeking a graduate degree without interrupting their careers, or individuals who need to accommodate responsibilities at home and with family as they pursue their academic goals.

Professional Master of Business Administration Program (PROFESSIONAL M.B.A.)

The Professional M.B.A. program (or PROFESSIONAL M.B.A.) provides emerging managers an opportunity to earn an M.B.A. degree with minimal disruption to their professional lives. Students attend classes on weekdays, weeknights, or weekends during the program. The PROFESSIONAL M.B.A. program admits new students for enrollment in fall, winter, or spring.

The program consists of both core courses and electives, allowing students to establish a solid foundation of traditional business skills and then customize their education based on personal interests and goals. The curriculum provides constant interaction between information presented in the classroom and what is being used on the job, reinforcing and enhancing the student's learning experience. In addition to classroom work, students attend three residential sessions. In this concentrated setting, students and faculty have an opportunity to explore in depth a variety of business challenges and how those challenges can best be met using contemporary management tools.

Further information may be obtained by contacting the University of California, Riverside, Professional M.B.A. Program Office.

Admissions

Students interested in pursuing the M.B.A. degree program at UC Riverside's Anderson Graduate School of Management (AGSM) must have earned a BA, or its equivalent, with training comparable to that provided by the University of California. Evaluation of the applicant's file for admission to the PROFESSIONAL M.B.A. degree program is similar to that of the full-time M.B.A. program and will consist of an integrated assessment of all materials (test scores, transcripts of previous academic work, essays, and letter(s) of recommendation).

Applicants are required to submit scores on either the Graduate Management Admission Test (GMAT) or the Graduate Record Examination (GRE). A minimum scholastic average of 3.0 or better is required, in most cases, for course work completed in upper-division or prior graduate study. No specific undergraduate major or course work is required for admission, though preparation in quantitative methods (such as calculus and statistics) is strongly encouraged. Students who do not have adequate quantitative

preparation at the time of admission will need to complete preparatory coursework in mathematics in addition to the courses required for the degree.

The admissions committee assesses professional and organizational experience in terms of scope or level of responsibility, evidence of contribution or success, and evidence of career progression or of growth in responsibility. No specific number of years of work experience is required.

Applicants must submit at least one letter of recommendation from individuals who can attest to their professional and leadership skills and to their potential for business leadership.

Normative time

27-33 months

Executive Master of Business Administration Program (E.M.B.A.)

The E.M.B.A. program is not currently accepting new students. For more information, contact SB's M.B.A. Program Office, 102 Anderson Hall, South; (951) 827-6200.

Master of Finance (M.Fin.)

The Department of Finance and Management Science of the A. Gary Anderson Graduate School of Management offers a Master of Finance (M.Fin.) degree. The degree program consists of a full-time one-academic-year program (or its equivalent on a part-time basis).

Admission

The M.Fin. is offered as a one-year program (48 units) for graduates who hold a baccalaureate degree in a field that provides sufficient quantitative background to enable successful completion of the program. Appropriate undergraduate majors include, but are not limited to, business, engineering, mathematics, statistics, and physics, among others.

All applicants to this program must have completed a bachelor's degree or its approved equivalent from an accredited institution, and have attained an undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applications are accepted for fall term.

All applicants must submit scores from the Graduate Management Admissions Test (GMAT) or Graduate Record Exam, General Test (GRE). Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally each applicant must submit at least one letter of recommendation. All other application requirements are specified in the graduate application or in the General UCR catalog.

Course Work

Required courses

1. MGT 201 Quantitative Analysis
2. MGT 202 Financial Management
3. MGT 211 Financial Accounting
4. MGT 227 Fixed Income Securities and Markets

5. MGT 231 Corporate Finance

Restricted elective courses currently offered to MBA students (2 of the following 3 courses)

1. MGT 244: Corporate Risk Management
2. MGT 252: Investments and Portfolio Management
3. MGT 268: Entrepreneurial Finance and Venture Capital

Required courses offered to Ph.D. and Master of Finance students

1. MGT 295F Seminar in Empirical Methods in Finance
2. MGT 295G Seminar in Corporate Finance

Other Electives

1. Students are expected to choose three electives from an extensive range of graduate courses, such as International Finance, Decision Making Under Uncertainty, and Financial Strategy and Corporate Control. Any elective course within AGSM that is relevant to a student's educational objectives is acceptable. Courses from departments outside AGSM such as statistics and economics are also acceptable, but must be approved by the MFIN program director.

Normative Time to Degree

One year

Master of Professional Accountancy (MPAc)

The Master of Professional Accountancy program provides advanced education in audit and assurance, taxation, accounting information systems and ethics. The MPAc is offered in two tracks. The first track is for graduates of a baccalaureate degree with a concentration or major in accounting and is designed to be completed in 3 quarters. The second track is for graduates of a baccalaureate degree without a concentration or major in accounting and is designed to be completed in 4 quarters.

All applicants to this program must have completed a bachelor's degree or its approved equivalent from an accredited institution and to have attained undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applications are accepted for fall term.

All applicants must submit scores from the Graduate Management Admissions Test (GMAT) or Graduate Record Exam, General Test (GRE). Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction.

Additionally each applicant must submit at least one letter of recommendation from individuals who can attest to their professional and/or academic skills. All other application requirements are specified in the graduate application or in the General UCR catalog.

Candidates in the first track must complete 48 units to earn the degree. Of the 48 units, 20 units are required:

MGT 225. Professional Accounting and Auditing Research

MGT 229. Sustainability and Ethical Control Systems

MGT 240B. Advanced Taxation,

MGT 278A. Auditing and Assurance Services: Theory and Practice,

MGT 278B. Information Technology Auditing and Assurance

The balance of the 28 elective units will include other courses in accounting and auditing, courses offered by AGSM in other graduate programs and by other departments in UCR.

In addition to the above requirements, students who are admitted to the second track of the program must complete the following courses during the first term at the program:

MGT 400A - Financial Accounting Principles and Practices I

MGT 400D - Taxation of Individuals and Business Entities

MGT 400E - Auditing and Assurance Further, students in the second track, based on their own academic and professional background, might be asked to take other preparatory courses that would ensure their success at the program.

Units earn in the MGT400 series are not for degree credit.

Plan I (Thesis) is not an option for the MPAc degree program. Plan II (Comprehensive Examination) Plan II requires that at least 18 units be in graduate-level courses taken at a UC campus. None of these may be in courses numbered 297 or 299. To receive the degree, students must pass a comprehensive examination, the content of which is determined by AGSM faculty. The exam is taken after advancing to candidacy and at the end of all coursework (in the last week of the Spring Quarter). The exam will cover the topics taught throughout the entire program. This exam is designed to ensure that all students receiving the degree have internalized the central knowledge, problem solving and ethical skills necessary if they are to act as overseers of public trust.

Plan II (Comprehensive Examination)

Normative Time to Degree

3 or 4 quarters, depending on the program's track.

Doctoral Degree

The Ph.D. Program in Management offers the Doctor of Philosophy Degree (Ph.D.). See Ph.D. Program in Management in this section of the catalog.

Ph.D. Program in Management

The Ph.D. Program in Management offers the Doctor of Philosophy Degree (Ph.D.). Concentrations are offered in five major field areas:

- Accounting
- Finance
- Marketing
- Operations

- Strategic Management and Organizations (SMO)

The Ph.D. Program in Management trains doctoral students in the design and execution of original research in Management.

Admissions

Applicants will be expected to have completed a bachelor's degree at a four-year accredited college or university and to have attained an undergraduate academic record that satisfies the standards established by the Graduate Division, University of California, Riverside. In addition to the following requirements, all applicants must meet the general requirements as set forth in the Graduate Studies section of the General Catalog.

A prior business degree is not a requirement. However, if a student has no previous business coursework, he/she must consult with the Graduate Advisor about whether any coursework in the major field area will be necessary.

Applicants will be required to submit official GMAT or GRE exam scores. Preference for one exam is not given over the other. All applicants whose first language is not English must also submit an acceptable TOEFL test score prior to admittance. The successful applicant is expected to score at least 560 on the paper exam or 220 on the computer based exam, or 80 on the TOEFL iBT. Applications are accepted for admission for Fall Quarter.

Language Requirement

There is no foreign language requirement, but students who wish to TA must pass an English language proficiency exam. Students are expected to communicate their research findings in English in written and oral presentations.

Plan II (Comprehensive Examination)

The M.A. Degree, Plan II, requires the approval of the Graduate Advisor and is only available to doctoral students who are not continuing in the Ph.D. program. In addition, it requires completion of a minimum of 36 units of approved graduate-level course work and passing the comprehensive examination at least at the M.A. level. The comprehensive examination will be prepared and administered by the Graduate Examination Committee. The comprehensive examination will cover a broad range of topics chosen from the core research, major field, and elective graduate courses taken by the student in their first two years of study. Students must be in residence for 3 quarters.

UCR will not award M.A. degrees to students already possessing an M.A. in Management.

Required/Elective Courses & Required Research

- Required Research Methods Courses
- Required Field Seminars
- Other Research Courses
- Field Colloquium
- First Year Research Paper
- Professional Development Course

Each of these requirements is detailed below according to the area of concentration within the Management program. Each area requires at least 16 courses related to its field of study. In addition, some specializations require a field col-

loquium until the student advances to candidacy.

Required Research Methods Courses Research

methods courses are intended to provide the student with a strong foundation in research methodology. Students who wish to have courses waived must first obtain the approval of the Graduate Advisor and then the Graduate Dean. Each area's required research method courses (between five and seven, depending on the area) are as follows:

1. Accounting

Students are required to take five courses from among ECON205A-C, ECON283E-G, PSYC211-213, PSYC243, PSYC259, SOC201A-B, SOC203A-B, and SOC205.

2. Finance

Complete the six courses in this list: ECON 205A-C and ECON 283E-G.

3. Marketing

Students are required to take five courses from among ECON205A-C, ECON244, PSYC211-213, PSYC243, PSYC259, SOC201A-B, SOC203A-B, SOC205, STAT200A-B, STAT209A-B, STAT220A-B, and STAT230.

4. Operations

Complete the four courses from this list: MATH209A-B, MATH217, and STAT215.

In addition, students are required to take either ECON205A-C or STAT201A-C, for a total of seven research method courses.

5. SMO

Students are required to take five courses from among ECON205A-C, ECON244, PSYC211-213, PSYC243, PSYC259, SOC201A-B, SOC203A-B, SOC205, STAT200A-B, STAT209A-B, STAT220A-B, and STAT230.

Required Field Seminars

Ph.D. students are required to complete field seminars in their major field area. The requirements for each area are as follows:

1. Accounting

Students are required to take three courses from among MGT293E-Z.

2. Finance

Complete the following five courses: MGT295F-G, MGT295I, MGT295K and MGT295M.

3. Marketing

Complete the following four courses: MGT288A-D.

4. Operations

Students are required to complete three courses from among MGT296E-Z.

5. SMO

Complete the following four courses: MGT289A-D.

Other Research Courses

It is important that Ph.D. students develop a deep understanding of a basic discipline related to their major field area. Thus, students are required to complete other graduate-level courses (200 level or higher). The requirements are as follows:

1. Accounting

Students are required to take three other courses from a department outside of SB. This leaves five electives for the students to choose, which typically include finance courses in 295F-M.

2. Finance

Students are required to take ECON200A-C and two electives.

3. Marketing

Students are required to take three courses from a department outside of SB. This leaves four elective courses for students to choose.

4. Operations

Students are required to take ECON200A-B and four additional courses from among ECON 244, ECON 283J, ECON 283N, ECON 283Q, EE231, MATH209C, MATH228, STAT205, STAT207, and STAT210A-B.

5. SMO

Students are required to take three courses from a department outside of SB. This leaves four elective courses for students to choose.

Field Colloquium

It is essential that Ph.D. students actively participate in the intellectual life of the school. In particular, students are expected to attend research presentations of visiting scholars. To facilitate this, field colloquia (MGT 285) will be offered each quarter. Ph.D. students in Marketing and SMO are required to take the field colloquium each quarter for course credit until they advance to Ph.D. candidacy. MGT 285 does not count as an elective in the Other Courses listed above.

First Year Research Paper

Ph.D. students must complete an original research paper at a level consistent with the quality of a rigorous Ph.D. program during their first year. The student works with the area faculty to develop the research topic, set expectations, and provide feedback. A committee consisting of the program faculty evaluates the submitted paper. Students whose paper is deemed sub-standard by the area faculty may be terminated from the Ph.D. program.

Professional Development Course

In order to ensure that doctoral students are prepared to enter future careers as researchers and are able to communicate their work to other researchers, students are required to take a professional development course (MGT402). MGT 402 does not count as an elective in the Other Courses listed above.

Comprehensive Examination

The comprehensive examination serves as both a major field examination, as well as an examination of topics covered in core research courses. Subsequent to the comprehensive examination a committee of the relevant area faculty will issue a grade of passing at the Ph.D. level, passing at the M.A. level, or failing. If, in the first attempt, a student fails the comprehensive examination or passes at the M.A. level, he or she may be allowed to retake the examination. No more than two attempts to pass this exam are allowed. Students who pass only at the M.A. level may be recommended for a Master's Degree (if they do not already hold an M.A. in Management). The comprehensive exam must

be taken no later than the end of the seventh quarter. Additional requirements for each concentration are as follows:.

1. Accounting, Finance and Operations

The comprehensive exam contains two parts. Students first take a written part and receive a grade as outlined above. If they pass at the Ph.D. level, then they are required to take an oral exam. The grading scheme is the same for both parts, as are the rules for retakes. The written exam must be taken by the end of the seventh quarter, while the oral exam must be taken no later than the end of the eighth quarter.

2. Marketing and SMO There are no additional requirements.

Qualifying Examination (Dissertation Proposal Defense)

When all requirements are completed, students take their oral qualifying exam, which is a defense of the dissertation proposal. Conducted by the Ph.D. Qualifying Committee, the exam is based upon the student's dissertation proposal, and includes a broad inquiry into the student's preparedness to conduct research and provides an opportunity to discuss the proposed dissertation. After completing the oral qualifying examination and all course requirements successfully, the student is formally advanced to candidacy.

Final Examination (Dissertation Defense)

A candidate for the degree of Ph.D. may be asked to defend his or her dissertation in a public, oral presentation at a time announced to members of the University community. Upon the candidate's successful defense of the dissertation, the Ph.D. Dissertation Committee will make a recommendation to the Graduate Division that the Ph.D. degree be conferred.

Dissertation

The dissertation culminates the student's academic endeavors. Of substantial magnitude, the dissertation should make a significant contribution to the advancement of knowledge in the chosen field of study. The dissertation must be filed with the Graduate Division according to their formatting requirements.

Normative time to degree

5 years

Graduate Courses

MGT 200 Organizational Behavior and Theory 4

Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): Enhances student understanding of complex organizational life using multiple perspectives at the micro and macro levels. Addresses theories and research pertaining to organizational structure, culture, group dynamics, interpersonal relations, and social psychological factors with the goal of developing students' capabilities for diagnosing organizational problems and identifying appropriate solutions.

MGT 201 Quantitative Analysis 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): may not be taken for degree credit by students in statistics undergraduate or graduate programs; graduate standing; or consent of instructor. Addresses decision-making and solving management problems using data.

Covers the foundation of probability and statistics, as well as statistical inference and interpretation of statistical analysis. Topics include probability, sampling, estimation, confidence intervals, hypothesis testing, and linear regression.

MGT 202 Financial Management 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor; MGT 201 (may be taken previously or concurrently) or equivalents. Provides a foundation in theories of finance. Topics include time value of money, security valuation, financial institutions, theories of risk measurements, managing a firm's investment decisions, capital structure, and sources of financing for a firm.

MGT 203 Economics For Management 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): MGT 403 or equivalent. A study of the use of microeconomics and macroeconomics in managerial decision making. Topics include demand and supply, production and cost functions, competition, labor supply, national income accounting, aggregate output, interest rates, fiscal and monetary policy, inflation, economic growth, and business cycles.

MGT 204 Cost and Management

Accounting 4 Lecture, 3 hours; outside projects, 3 hours. Prerequisite(s): MGT 211 or equivalent. A study of accounting information for managerial planning and control. Topics include managerial applications for product costing, budgeting, and performance evaluation; accounting techniques for modern manufacturing systems; activity-based accounting and cost management; international cost accounting systems; and the behavioral implications of accounting information.

MGT 205 Information Systems 4 Lecture, 3 hours; laboratory, 1 hour; outside projects and extra reading, 2 hours. Prerequisite(s): graduate standing; familiarity with basic computer operations and software packages. Examines the operation and management of information systems as applied to the business environment. Topics include hardware, software, databases, decision support, and systems analysis. Software packages are used to integrate information systems concepts and business applications.

MGT 207 Operations Management For

Competitive Advantage 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): MGT 201, spreadsheet skills. Focuses on managing the activities involved directly in the creation of products and services, such as design, production, and distribution. Provides managers with the skills and tools to analyze, optimize, and improve production processes for competitive advantage. Explores issues through lectures, cases, and videos pertaining to various industries.

MGT 208 Business, Government, and

Society 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing. Provides a managerial perspective on the relationship between business and its external stakeholders. Primary focus is on the impact of public policy on business and the management

of public issues in a global environment. Case studies and teamwork are emphasized.

MGT 209 Marketing Management 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Analyzes the marketing process, the environment within which it operates, institutions involved, and the functions performed. Examines the relationships and trends in a market-based economic system. Develops concepts and terms applied to marketing decisions from the perspective of a manager.

MGT 210 Human Resources

Management 4 Lecture, 3 hours; outside projects and reading, 3 hours. Prerequisite(s): MGT 200. Introduces methods for managing the firm's human resources within the context of regulatory and economic conditions and changing workforce demographics. Topics include recruitment and selection, compensation and reward systems, employee development and appraisal, and information systems for meeting HRM objectives.

MGT 211 Financial Accounting 4 Lecture, 3 hours; outside research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers financial accounting concepts and the analytical tools needed to understand and interpret financial statements. Examines the uses of financial accounting information.

MGT 212 Application of Behavioral Economics to Management, Decision-Making, and Policy 4

Lecture, 3 hours; written work and group presentation, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers behavioral economics and the applications to management, decision making, and policy. Includes social preferences, heuristics and biases, choice effects, emotions and self-control, psychology of money, behavioral finance, dishonesty and revenge, and group decision making.

MGT 213 Trading Strategies and Financial

Models 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 205A, MGT 202, MGT 295F or consent of instructor. Introduces the most well-known empirical deviations from the capital asset pricing model (CAPM) stock market anomalies. Includes ways to predict market strength, profit, and measure the risk and trading costs of performing such trading strategies.

MGT 214 Corporate Strategy 4

Lecture, 3 hours; group presentation, 3 hours. Prerequisite(s): MGT 235 or consent of instructor. Examines the corporate strategies of multi-business organizations, assesses their effectiveness, and develops (better) alternatives. Explores the main challenges large organizations face and contrasts the challenges of multi-business organizations with single-business firms. Focuses on the analysis of real world organizations through case analysis, class discussions, and group projects.

MGT 215 International Comparative

Management 4 Lecture, 3 hours; outside projects and readings, 3 hours. Prerequisite(s): graduate standing Comparative analysis of significant management practices. The impacts of cultural, political, social, and economic factors

on decision making within the international arena are examined.

MGT 218 Ethics in Management 4 Lecture, 3 hours. Prerequisite(s): graduate standing. Examines ethical dilemmas faced by managers and organizations and extends decision analysis to include the ethical dimension present in most policy decisions. Seeks to increase the students' ability to identify and respond to ethical issues in organizations, including such areas as affirmative action, bribery, deception, working conditions, product safety, environmental impact, and international relations.

MGT 219 Spreadsheet Modeling For Decision-Making 4 Lecture, 3 hours; extra reading, 1.5 hours; individual study, 1.5 hours. Prerequisite(s): MGT 207; graduate standing; or consent of instructor. Introduces tools for using data to make informed managerial decisions. Addresses modeling, optimization on a spreadsheet, and analysis of the software outputs. Topics include basic Excel tools, decision analysis via decision trees, and linear and nonlinear optimization using the Excel Solver. Draws applications from operations, finance, marketing, and management fields.

MGT 220 Negotiations For Managers 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Develops student understanding of the theory and processes underlying a broad spectrum of negotiation problems. Students attain competence in negotiations by applying analytic and interpersonal skills learned from readings and lectures to negotiation exercises and debriefings.

MGT 221 Decision Making Under Uncertainty 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): MGT 207 or consent of instructor. Introduces basic tools for using data to make informed managerial decisions under uncertainty. Addresses modeling, performance evaluation, and optimization of systems with uncertain parameters. Topics include Markov chains, Markov decision processes, and probabilistic linear and dynamic programming. Applications are drawn from operations, finance, marketing, and other management fields.

MGT 222 Strategic Organization Change 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): MGT 200, MGT 235; or consent of instructor. Provides a managerial perspective on the process of organization change. Discusses the strategic need for change, surveys possible solutions, and analyzes the difficulties of choosing the "right" strategy. Highlights best practices and common pitfalls of implementation change. Uses case analysis, group exercises, simulation to convey the complexity of organization change.

MGT 224 Managing For Quality Improvement 4 Lecture, 3 hours; outside research, 3 hours. Prerequisite(s): MGT 201 or consent of instructor. Discusses the operational aspects of quality improvement in manufacturing and service organizations. Focuses on the broader issues of total quality management, statistical process control, and the difficulties in implementing quality efforts in organizations.

MGT 225 Professional Accounting and Auditing Research 4 Lecture, 3 hours; outside research, 3 hours. Prerequisite(s): graduate standing. Provides an in-depth examination of the professional accounting and auditing research process. Includes issue identification; location and evaluation of authority using online and electronic accounting, auditing, and tax research databases; developing conclusions and recommendations; and communication of research results.

MGT 226 Fraud and Forensics Auditing 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): MGT 204 or equivalent. Addresses forensic accounting and fraud examination in how it pertains to both civil and criminal matters. Develops a basic understanding of the characteristics of fraud, fraud prevention and detection, investigative techniques, asset recovery, and use of information technology.

MGT 227 Fixed-Income Securities and Markets 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): MGT 201. Covers analytical techniques related to fixed-income securities. Includes basic analytical tools in fixed-income markets. Topics include relative pricing of fixed-income securities, yield-curve estimation, securities with embedded options, and trading strategies. Utilizes interest rate swaps, mortgage-backed securities, and credit derivatives.

MGT 228 Consumer Behavior 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): MGT 209; graduate standing; or consent of instructor. Studies the processes individuals and groups use to select, secure, use, and dispose of products, services, experiences, or ideas to satisfy needs. Explores the impacts that these processes have on the consumer and society. Addresses external and internal influences on consumer behavior.

MGT 229 Accounting Ethics and Professional Responsibilities 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): MGT 204 or equivalent. Examines the ethical and professional responsibilities of accountants and auditors. Focuses on ethics, the American Institute of Certified Public Accountants (AICPA)'s Code of Professional Conduct, Circular 230, the Sarbanes-Oxley Act (SOX), Securities and Exchange Commission (SEC) laws and regulations, Public Company Accounting Oversight Board (PCAOB) standards, state and federal laws relevant to accountants, auditors, and Certified Public Accountants.

MGT 230 Databases For Management 4 Lecture, 3 hours; outside projects and readings, 3 hours. Prerequisite(s): MGT 205. Examines the features and capabilities of database management systems, including database classification, data structures, file organizations, evaluation, and management of database systems.

MGT 231 Corporate Finance 4 Lecture, 3 hours; extra reading, 1.5 hours; outside problem sets, 1.5 hours. Prerequisite(s): MGT 202. An intensive analysis of the effects of corporate

financial policy decisions on firm value. Examines the interrelation of firm value, financing policy, investment decisions, and other considerations. Provides an understanding of the theoretical issues involved in the choice of these policies.

MGT 232 Derivatives and Asset Pricing 4 Seminar, 3 hours; outside research, 3 hours. Prerequisite(s): MGT 202. Explores the pricing of derivatives-based securities. Covers various topics in derivatives markets. Introduces pricing techniques for forwards, futures, options, swaps, and other derivatives. Utilizes empirical data and financial modeling.

MGT 233 Marketing Research 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): MGT 201, MGT 209; or consent of instructor. Examines how marketing-related data is gathered from individuals and organizations. Explores the importance of integrating problem formulation, research design, questionnaire construction, and sampling so as to yield the most valuable information. Also studies the proper use of statistical methods and the use of computers for data analysis.

MGT 234 Brand Management 4 Lecture, 3 hours; activity 2, hours; term paper, 1 hour. Prerequisite(s): MGT 209; graduate standing; or the consent of instructor. Provides an understanding of the activities and responsibilities of a brand or product manager. Discusses brand equity and how to measure and build brand equity. Analyzes brand manager's activities as creating, building, and growing the brand and managing the marketing mix activities as advertising and promotion to achieve desired results.

MGT 235 Strategic Management 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): graduate standing. Studies the formulation, implementation, and evaluation of business unit and corporate strategies and the organizational policies and managerial practices that support them. Applies theory to actual general management problems using cases, group exercises, and other simulations of strategic challenges.

MGT 236 Decision Making Under Certainty 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): MGT 207 or consent of instructor. Introduces basic tools for using data to make informed managerial decisions under certainty. Covers modeling and solution methods in network optimization, integer and nonlinear programming, and multiple criteria decision analysis. Examines applications and case studies in operations, logistics, finance, and marketing.

MGT 237 International Financial Management 4 Lecture, 3 hours; extra reading, 1 hour; outside projects, 2 hours. Prerequisite(s): MGT 202. Focuses on the nature, risks, and management of foreign exchange exposure in a corporate setting. Covers trade and international investment theories. Topics include the international financial systems, balance of payments, foreign exchange markets, measurement of foreign exchange risk, hedging, international asset pricing, and trade financing.

MGT 238 Management Synthesis 4 Lecture, 3 hours; outside projects and extra reading, 3

hours. Prerequisite(s): MGT 200, MGT 201, MGT 202, MGT 203, MGT 205, MGT 207, MGT 209, MGT 211, MGT 235. A team-taught, integrative case course that focuses on managing the complex tasks of the total organization. Examines the interdependence of the functional areas of management. Student teams analyze cases involving several functional areas and recommend actions for improvement.

MGT 239 Simulation For Business 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): MGT 201 or consent of Instructor. Develops ability in business modeling and simulation analysis. Focuses: abstracting and formulating the problems, identifying variables, structuring static or dynamic simulation mechanisms, analyzing outputs, conducting sensitivity analysis, providing recommendations. Covers business models from operations (e.g., supply risk), finance (e.g., asset pricing, financial hedging), marketing (e.g., dynamic pricing, sales force management.)

MGT 240A Taxation 4 Lecture, 3 hours; outside projects and extra reading, 3 hours. Prerequisite(s): MGT 211 or equivalent or consent of instructor. Covers federal income tax laws as they apply to individuals, partnerships, and corporations. Also discusses tax planning, tax policy, and other special tax issues.

MGT 240B Advanced Taxation 4 Lecture, 3 hours; outside case analysis, 3 hours. Prerequisite(s): MGT 240A or equivalent. Articulates advanced topics in federal taxation and tax planning. Explores many facets of the complex body of tax law including tax research, alternative minimum tax, investment losses, employee compensation, corporate distributions, and federal transfer taxes.

MGT 241 Accounting Systems and Control 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): MGT 204 or equivalent. A study of the design and implementation of internal control systems. Emphasizes auditing, accounting information systems, ethical and trust systems, and related issues.

MGT 242 Global Marketing Management 4 Lecture, 3 hours; activity, 2 hours; extra reading, 1 hour. Prerequisite(s): MGT 209; graduate standing; or consent of instructor. Examines the processes and the means by which companies can successfully extend their marketing operations internationally and globally. Provides the frameworks, knowledge, and sensitivities to formulate and effectively implement marketing plans in various countries and regions of the world.

MGT 243 Entrepreneurial Marketing 4 Lecture, 3 hours; activity, 2 hours; individualized study, 1 hour. Prerequisite(s): MGT 209; graduate standing; or the consent of instructor. Addresses the marketing challenges in conceptualizing, launching, and growing an entrepreneurial venture. Provides a conceptual framework and market research tools for evaluating and validating entrepreneurial ideas. Discusses alternative business models and promotion strategies for launching entrepreneurial ventures.

MGT 244 Corporate Risk Management 4 Lecture, 3 hours; written case

analyses and reports, 3 hours. Prerequisite(s): MGT 202. Provides an overview of derivative financial instruments. Focuses on the use of derivatives to manage risk in a corporate setting. Utilizes the case-method to develop strategies and policies for managing the risk exposure of an enterprise, as well as to assess the relations between risk management and value creation.

MGT 245 Financial Statement

Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): MGT 211 or consent of instructor. Explains the role of financial statement analysis in an efficient capital market. Data from financial statements of major corporations is analyzed to develop skills necessary to interpret financial accounting information. Designed for future professionals who will be intensive users of financial accounting reports (e.g., security analysts, credit analysts).

MGT 246 Entrepreneurial

Management 4 Lecture, 3 hours; outside projects, 3 hours. Prerequisite(s): MGT 202, MGT 209; or consent of instructor. Study of the entrepreneurial process, its challenges, and the driving forces behind it--the managerial skills, mental attitudes, and basic knowledge necessary for creating and growing a new venture. Topics include opportunity assessment; building the management team; marshalling capital and other critical resources; and harvest strategies.

MGT 247 Advertising and Sales Promotion

Management 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): MGT 209; graduate standing; or consent of instructor. Examines the role and use of advertising and sales promotion within the marketing function. Topics include setting program objectives with an integrated marketing communication perspective; developing creative approaches; making media decisions; developing sales promotion programs; and budgeting and evaluating advertising and promotion programs.

MGT 249 Pricing Strategy 4

Lecture, 3 hours; consultation or discussion, 1 hour. Prerequisite(s): MGT 209 or consent of instructor. The concepts of competitive pricing, price leadership, price discrimination, price warfare, and the strategic implication of skimming versus penetration strategies with respect to the experience curve will be developed.

MGT 250 Marketing Channels and Sales

Force 4 Lecture, 3 hours; outside project, 3 hours. Prerequisite(s): MGT 209. Examines decisions related to distribution channels and sales force. Discusses how to select the most appropriate marketing channel. Channel management topics include distribution intensity, power, control, and channel conflict. Covers issues in sales-force management, compensation, structure, and size.

MGT 251 Marketing Analytics 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): MGT 209; graduate standing; Or the consent of instructor. Examines advanced topics in marketing with emphasis on utilizing quantitative tools to aid marketing decision making. Topics include demand and market-share forecasting; conjoint analysis; market segmentation

and cluster analysis; brand positioning and competitive market structures; and assessing market response to price; advertising; promotion; distribution; and sales force.

MGT 252 Investments and Portfolio

Management 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MGT 202. Discusses standard asset pricing models, portfolio theory, and empirical uses of securities data. Addresses pricing in the capital markets and empirical issues in testing asset pricing models. Other topics include risk-adjusted portfolio performance, term structure, bond pricing, and bond portfolio management.

MGT 253 Digital Marketing 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MGT 209; graduate standing; or the consent of instructor; Develops an understanding of digital marketing and how it affects and augments the traditional marketing mix. Topics covered include online retailing and the long tail, online pricing, multi-channel and mobile marketing, search engine optimization, display and sponsored search advertising, and social media marketing.

MGT 254 Internet Retailing Project 4 Lecture, 3 hours; extra reading, 1.5 hours; outside projects, 1.5 hours. Prerequisite(s): MGT 209; consent of instructor. A practical examination of the Internet retailing customer chain from a managerial perspective. Involves special-topic lectures, directed readings, active discussion, and student presentations. Culminates in a class-written book comprised of chapters focusing on team-developed solutions to industry problems.

MGT 255 Procurement and Strategic

Sourcing 4 Lecture, 3 hours; term paper, 1 hour; written work, 2 hours. Prerequisite(s): MGT 207 or consent of instructor. Basic concepts and processes in purchasing and sourcing management. Addresses global sourcing techniques and application on various management tools and quality tools in purchasing. Focuses on proactive and planned analysis of supply markets and selection of suppliers with objective of delivering solutions to meet pre-determined and agreed upon organizational needs.

MGT 256 Business Analytics For

Management 4 Lecture, 3 hours; written work, 1 hour; extra reading, 1; practicum, 1 hour. Prerequisite(s): MGT 201 or consent of instructor. Provides the fundamental concepts and tools needed to understand the emerging role of business analytics in organizations and apply basic business analytics tools in a spreadsheet environment. Makes extensive use of data, statistical and quantitative analysis, exploratory and predictive models, and fact-based management to drive decisions and actions.

MGT 257 Marketing Strategy 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MGT 209; graduate standing; or consent of instructor. Presents a framework for an integrated, dynamic analysis of customers and competitors to enable marketing strategy development for long-term success. Uses case studies, lecture-discussions, and a computer-simulated competitive marketing strategy game.

MGT 258 Logistics and Supply Chain

Management 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): MGT 207 or consent of instructor. Studies the integration of value-creating elements in supply, procurement, manufacturing, distribution, and logistics processes, using information technologies as a main enabler. Topics include distribution networks, demand management, sourcing, transportation, pricing, supply chain coordination, information technology, and e-business.

MGT 260 Contemporary Issues in Management 4 Seminar, 30 hours per quarter; individual study, 30 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. Focuses on recent developments and selected topics in contemporary management practices. Discusses innovative practices in areas such as marketing, finance, accounting, information technology, production, and distribution. Includes presentations by students, invited scholars and business professionals. Course is repeatable to a maximum of 8 units.

MGT 261 Contemporary Issues in Entrepreneurship 4 Seminar, 30 hours per quarter; individual study, 30 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. Addresses current issues and innovations in entrepreneurial management to develop a broad understanding of the interrelationship among all functions of management, including marketing, finance, accounting, information technology, production, and distribution. Discusses topics such as family business management, entrepreneurial marketing, managing growth, strategies for innovation, and market entry and exit decision making.

MGT 262 Advanced Topics in Management 4 Seminar, 30 hours per quarter. outside research, 30 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. Intensive study of selected topics in management. Includes readings, discussion, and presentation of research. Requires completion of an analytical research paper based on recent advances in management strategy. Topics include leadership, change, value creation, and innovations in strategies related to the functional areas of management. Course is repeatable to a maximum of 8 units.

MGT 263 Advanced Topics in Entrepreneurship 4 Seminar, 30 hours per quarter. outside research, 30 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. Explores various topics relevant to the development of entrepreneurial skills in a variety of management functions, including marketing, finance, and operations. Includes lectures, case studies, presentations by entrepreneurs, and exercises to provide students with a realistic understanding of entrepreneurial challenges.

MGT 264 Information Systems Resources Management 4 Seminar, 3 hours; outside research, 2 hours; extra reading, 1 hour. Prerequisite(s): MGT 205 or consent of instructor. Provides an understanding of the issues, strategies, and tactics involved in managing information systems in large organizations. Topics include cost allocation, capacity planning, congestion problems, and

distributed information systems. Relies heavily on case studies.

MGT 266 Project Management 4 Seminar, 3 hours; extra reading and project, 3 hours. Prerequisite(s): MGT 207 or equivalent. Addresses issues of project planning and control. Topics include differences between projects and production systems; project selection; project teams; breakdown structures of organization and work; scheduling and budgeting; resources management; project control and evaluation; and current project management software.

MGT 267 Applied Business Forecasting 4 Seminar, 3 hours; outside project, 3 hours. Prerequisite(s): MGT 201 or equivalent. Provides experience in developing forecasting models and applying them to problems in marketing, production, inventory management, business economics, and other fields. Discusses issues in data acquisition, data analysis, modeling of relations between variables, trend analysis, and seasonal forecasting. Uses case studies and applications from a variety of management areas.

MGT 268 Entrepreneurial Finance and Venture Capital 4 Seminar, 3 hours; extra reading, 1 hour; case studies, 2 hours. Prerequisite(s): MGT 202. Covers financing of nonpublic and early-stage venture. Includes financial modeling, cash needs assessment, valuation, deal structure, financing alternatives, and harvesting.

MGT 269 The New Venture and the Business Plan 4 Seminar, 3 hours; outside research, 2 hours; case study preparation, 1 hour. Prerequisite(s): MGT 246 or consent of instructor. Focuses on the entrepreneurial process from conception to birth of a new venture. Explores the process of developing an opportunity assessment, structuring and rewarding the founding management team, and marshalling necessary critical resources through the development of a full-scale business plan.

MGT 271 Quantitative Decision Making and Analysis 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers many approaches to solving business problems from a managerial point of view. Surveys various optimization techniques with an emphasis on the why and how of these types of models. Utilizes spreadsheet solvers to accomplish the mathematical manipulations. Emphasizes input requirements and interpretation of results.

MGT 272 Global Strategy and Management 4 Seminar, 3 hours; outside projects, 3 hours. Prerequisite(s): MGT 200, MGT 202, MGT 209; or consent of instructor. Provides an overview of the strategic issues that multinational firms and managers encounter in a global marketplace. Topics include the globalization of the world economy, mode of entry into markets, analysis of political risk, global strategic alliances, and competing in emerging economies.

MGT 274 Special Topics in Finance 4 Seminar, 3 hours; research 3 hours. Prerequisite(s): MGT 202. Explores the latest developments in theoretical and empirical finance. Topics include asset pricing, performance evaluation, derivative

securities, market microstructure, corporate finance, and corporate control and governance.

MGT 275 Transportation and Logistics Management 4 Lecture, 3 hours; term paper, 1 hours; written work, 2 hours. Prerequisite(s): MGT 207 or consent of instructor. Provides insight into the key functional areas related to transportation and logistics management within supply chain operations. Focuses on the role of transportation systems and the managerial and economic aspects of various transportation modes, transport, storage/handling, and facility location decisions. Presents applications to both domestic and international operations.

MGT 276 Financial Strategy and Corporate Control 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MGT 202. Covers the nexus among finance, strategy, governance, and corporate control. Examines the theory and empirical evidence for models of corporate financial policy and the market for corporate control. Emphasizes critical evaluation of the evidence for different models of corporate financial policy.

MGT 277 Advanced Financial Accounting 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): BUS 165C or equivalent (may be taken concurrently). Covers advanced financial accounting and reporting practices. Emphasizes topics such as consolidated financial statements, branch accounting, foreign transactions, segment reporting, partnership accounting, and accounting for nonprofit organizations.

MGT 278A Foundations of Auditing and Assurance Services 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): admission to the Master of Professional Accountancy (MPAc) program or graduate standing and consent of instructor. Examines the history, demand, and foundations of audit and assurance. Focuses on judgment and fundamentals of evidential reasoning. Topics include risk assessment, internal control, audit evidence, independence and objectivity, measurement theory, suitable criteria, standards and regulation, framing, heuristics and biases, and the role of technology.

MGT 278B Information Technology Auditing and Assurance 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MGT 278A or consent of instructor. Covers basic concepts and techniques used in the provision of information technology audit and assurance services. Topics include information technology security; risk assessment; internal control; nature of audit evidence; independence and objectivity; suitable criteria; the role of standards and technology; and ethical issues.

MGT 278C Internal Auditing 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MGT 278A or consent of instructor. Examines the nature and practices of internal (operational) audit and assurance, the management audit process, and the use of internal auditing by top management and governing boards. Develops skills to understand, analyze, and critically evaluate internal audit research.

MGT 280 Business Issues in Electronic Commerce 4 Seminar, 3 hours; outside project, 3 hours. Prerequisite(s): MGT 205 or consent

of instructor. Provides an understanding of the various business strategies, management issues, and pertinent technologies related to electronic commerce. Explores several of the problems surrounding electronic commerce including security issues, privacy, encryption, safeguarding of intellectual property rights, acceptable use policies, and legal issues.

MGT 281 Systems Analysis and Design 4

Seminar, 3 hours; outside project, 3 hours. Prerequisite(s): MGT 205, MGT 230; or consent of instructor. Provides an understanding of the systems development life cycle with emphasis on the analysis and design phases. Familiarizes students with the tools and processes used by system developers to analyze, design, and construct computer-based systems. Provides experience in analyzing and designing a computer-based system.

MGT 282 Business Data Communications 4

Seminar, 3 hours; outside project, 3 hours. Prerequisite(s): MGT 205. Provides insight into the role of telecommunications in business, with an emphasis on information management. Specific topics include data communications (hardware components, interfaces, and link protocols), architecture and technology (protocols, local area networks, and emerging digital services), and network management (control and security).

MGT 285 Field Colloquium 1

Colloquium 1, Prerequisite(s): graduate standing or consent of instructor. Includes oral reports by visiting scholars, faculty, and students on current research topics in management. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

MGT 288A Behavioral Research in Marketing 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. Examination of the development of consumer behavior research and evaluation from theoretical as well as practical perspectives. Provides insight into the integrative framework for organizing knowledge of consumer behavior and conducting research.

MGT 288B Quantitative Research in Marketing 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. Introduces the fundamentals of modeling in marketing. Studies research issues associated with marketing management decisions. Emphasizes empirical research. Examines of strategic marketing, marketing segmentation, new product development and introduction, pricing strategies, channel policy, promotion decisions, and sales force management.

MGT 288C Special Topics in Marketing-Behavioral 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. An in-depth examination selected topics in consumer behavior. Utilizes journal articles to facilitate exploration of these topics.

MGT 288D Special Topics in Marketing - Quantitative 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. A study of the modeling of consumers and markets. Topics include conjoint

analysis, logit choices models, market structure analysis, consideration sets, variety seeking, and models of purchase timing and purchase quantity. Utilizes journal articles to facilitate exploration of these topics.

MGT 289A Micro Organizational Theory 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. A study of the intersection of individual and group behavior within organizations. Introduces the behavioral science literature relevant to the study of behavior in organizational. Topics include emotions in organizations, motivation, leadership, decision making, interpersonal relations, diversity and identity, culture, and organizational learning and routines.

MGT 289B Macro Organizational Theory 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. A study of theories related to structure of organizations and control systems both within and external to the organization. Emphasizes the interaction of organizations with their environments. Incorporates theoretical and empirical contributions from institutional analysis, resource dependence, population ecology, and transaction costs.

MGT 289C Strategic Management 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. Focuses on the conduct and performance of organizations. Topics in strategy research explain differences in organizations' profitability and survival by relating variance in these performance outcomes to factors at multiple levels. Provides theoretical perspectives from economics, sociology, and psychology to supplement approaches to understanding firm performance and related issues.

MGT 289D Designing Organizational Research 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): doctoral standing or consent of instructor. Provides a survey of the design approaches for non-laboratory study within and across organizations. Covers research strategies appropriate to the study of different organizational questions. Topics include issues of measurement, types of data, and data collection methods (including archival, surveys, interviews, and social network data).

MGT 290 Directed Studies 1 to 6

Research, 3 to 18 hours. Prerequisite(s): consent of instructor. Directed studies and research in selected problems or theories of management for advanced graduate students to pursue special areas of interest. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MGT 292 Concurrent Studies in Management 1 to 4

Research, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor. Explores one or more graduate projects based on content related to an appropriate undergraduate course. Includes faculty guidance and evaluation. Taken concurrently with the undergraduate course.

MGT 293 (E-Z) Seminars in Accounting 4

Seminar, 3 hours; individual study, 1 hour; extra reading, 2 hours. Prerequisite(s): restricted to major(s) Accounting, Auditing &

Assuranc, Finance, Management, Management; graduate standing. Topics include financial accounting; accounting standards; earning quality and management; earning forecasts and financial analyst; valuation; performance evaluations; strategic management accounting; auditor behavior and decision making; tax policy planning; managerial accounting decision-making; accounting information systems, accounting and capital markets, research design methodologies in accounting, accounting information, disclosure game theory.

MGT 293F Capital Markets Research in Accounting 4

Seminar, 3 hours; extra reading, 2 hours; individual study, 1 hour. Prerequisite(s): graduate standing in Management, or consent of the instructor. Includes issues in financial accounting related to the interaction of accounting and capital markets. Focuses on selected classic and current empirical and theoretical research in financial accounting. Provides advanced training in empirical accounting research with an emphasis on securities market effects of accounting policies and practices.

MGT 295 (E-Z) Seminars in Finance 4

Seminar, 3 hours. Prerequisite(s): restricted to major(s) Accounting, Auditing & Assuranc, Finance, Management, Management; graduate standing. Topics include discrete and continuous time asset pricing theory and portfolio choice; empirical research in finance (including recent developments in empirical asset pricing); and advanced topics in corporate finance theory and related empirical research.

MGT 295E Theory of Exchanges Under Uncertainty 4

Seminar, 3 hours; written work, 15 hours per quarter, extra reading, 2 hours. Prerequisite(s): graduate standing in Management; or consent of instructor. An introduction to the theory of financial economics. Covers the implications of no arbitrage, decisions under uncertainty, and various equilibrium models in a world with only one decision period. Extends these concepts to multiple periods in discrete time and continuous time.

MGT 295F Empirical Methods in Finance 4

Seminar, 3 hours; term paper, 10 to 15.5 hours per quarter, problem sets involving statistical analysis of stock returns. Students should spend at least 2 hours a week. Prerequisite(s): MGT 201, MGT 202, graduate standing in Management, or consent of instructor. Covers econometric approaches to analyzing common problems encountered when conducting empirical research. Focuses on hypothesis testing, specification tests, general methods of moments estimation, the capital asset pricing model, multifactor asset pricing models, event studies, operating performance studies, simultaneous equations models, and endogeneity issues. Demonstrates programming in SAS and/or Gauss.

MGT 295G Corporate Finance 4 Seminar, 3 hours; extra reading 2 hours; written work, 2 hours. Prerequisite(s): graduate standing in Management or consent of instructor. Deals with the contemporary issues in corporate finance. Focuses on selected classic and current empirical and theoretical research in corporate finance. Seeks to provide an advanced and

rigorous background in the mainstream issues of modern corporate finance with an emphasis on empirical methodology.

MGT 295I Asset Pricing Theory 4 Seminar, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): MGT 295F, ECON 205A, graduate standing in Management; or consent of the instructor. Covers equilibrium models of stock returns and their relation to utility theory, arbitrage-based pricing models, options, term structure models and limits to arbitrage

MGT 295J Empirical Methods in Finance 4 Seminar, 3 hours, practicum, 1 hour; extra reading, 2 hours. Prerequisite(s): MGT 295I, graduate standing in Management; or consent of instructor. Covers empirical methods in finance research with an emphasis on empirical asset pricing studies. Topics include methods of testing models related to the theory of asset prices, stock market volatility, and stock returns

MGT 295K Corporate Finance Research 4 Seminar, 3 hours; extra reading, 2 hours; written work, 1 hour; individual study, 3 hours. Prerequisite(s): MGT 295G, graduate standing in Management; or consent of instructor. Covers fundamental articles incorporate finance and more recent empirical papers. Topics include agency problems, asymmetric information, governance, capital structure and merges

MGT 295M Research Seminar in Finance 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing in Management; or consent of instructor. Designed for finance Ph.D. students in their second through fifth year. Study finance economics articles and present research papers. Course is repeatable to a maximum of 20 units.

MGT 296 (E-Z) Seminar in Operations 4 Seminar, 3 hours; individual study, 1 hour; extra reading, 2 hours. Prerequisite(s): STAT 215 or MATH 209A, MATH 209B; graduate standing. Topics include revenue optimization; stochastic and deterministic dynamic programming applications in operations; inventory management; supply chain systems; dynamic optimization applications of management, economics and engineering; agency theory; signaling games; actions; behavioral economics pricing management; price discriminations; supply risk; sales force management; operations-marketing interface

MGT 296E Dynamic Optimization 4 Seminar, 3 hours; extra reading, 2 hours; individual study, 1 hour. Prerequisite(s): STAT 215 or MATH 209A, MATH 209B, graduate standing; or consent of instructor. Focuses on basic models and solution techniques for problems of sequential decision making under uncertainty (stochastic control). Considers optimal control of a dynamical system over both a finite and an infinite number of stages. Includes application domains, revenue management and pricing, manufacturing, supply chains, service systems and economics.

MGT 296F Game Theory Models in Operations 4 Seminar, 3 hours; extra reading, 2 hours; individual study, 1 hour. Prerequisite(s): ECON 201A, ECON 201B, graduate standing in Management; or consent of instructor. Focuses

on game theory and industrial organization ideas applied to operations management. Topics include strategic form games, dynamic games, signaling games, agency theory, mechanism design, market design, and their applications in operations management

MGT 296G Pricing and Revenue Management 4 Seminar, 3 hours; extra reading, 2 hours; individual study, 1 hour. Prerequisite(s): MGT 296E, MGT 296F, graduate standing; or consent of instructor. Focuses on pricing and revenue management ideas applied to operations management. Topics include price discrimination, contract theory, auctions, advertisement, and industry applications.

MGT 296H Inventory and Supply Chain Management 4 Seminar, 3 hours; extra reading, 2 hours; individual study, 1 hour. Prerequisite(s): MGT 296E, MGT 296F, graduate standing; or consent of instructor. Focuses on inventory theory and supply chain contracting. Topics include inventory policies, strategic competition, coordination, contracts in supply chain.

MGT 297 Directed Research 1 to 6 Prerequisite(s): consent of instructor. Directed research in selected problems of management for graduate students with special research interests. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MGT 298I Fieldwork in Management 1 to 4 Consultation, 1 hour; field, 3 to 12 hours. Prerequisite(s): consent of instructor. Supervised field experience culminating in a final report or other academic component. May be repeated for up to 8 units of credit toward the degree.

MGT 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): consent of instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

MGT 302 Apprentice Teaching 1 to 4 Seminar, 1 to 4 hours. Prerequisite(s): limited to departmental teaching assistants; graduate standing. Supervised individual instruction in teaching including monitoring of teaching assistant's activities and regular consultation with assistant concerning teaching responsibilities. Graded Satisfactory (S) or No Credit (NC). May be repeated; not for degree credit.

MGT 400A Financial Accounting Principles and Practices I 4 Lecture, 20 hours per quarter; discussion, 20 hours per quarter. Prerequisite(s): graduate standing and consent of instructor or admission to the Master of Professional Accountancy (M.P.Ac.) program. Technical accounting theory and principles necessary for graduate work. Credit toward degree limited to M.P.Ac. students.

MGT 400B Financial Accounting Principles and Practices II 4 Lecture, 20 hours per quarter; discussion, 20 hours per quarter. Prerequisite(s): MGT 400A or consent of instructor. A continuation of technical accounting theory and principles necessary for graduate work. Credit toward degree limited to M.P.Ac. students.

MGT 400C Managerial Accounting/Accounting Information Systems 4 Lecture, 20 hours

per quarter; discussion, 20 hours per quarter. Prerequisite(s): graduate standing and consent of instructor or admission to the Master of Professional Accountancy (M.P.Ac.) program. Managerial accounting and accounting information systems concepts necessary for graduate work.

MGT 400D Taxation of Individuals and Business Entities 4 Lecture, 20 hours per quarter; discussion, 20 hours per quarter. Prerequisite(s): graduate standing and consent of instructor or admission to the Master of Professional Accountancy (M.P.Ac.) program. Taxation rules and regulations for individuals and business entities necessary for graduate work.

MGT 400E Auditing and Assurance 4 Lecture, 20 hours per quarter; discussion, 20 hours per quarter. Prerequisite(s): graduate standing and consent of instructor or admission to the Master of Professional Accountancy (M.P.Ac.) program. Audit and assurance concepts necessary for graduate work.

MGT 402 Business Career Professional Development Workshop 2 Seminar, 1 hour; consultation, 1 hour; individual study, 4 hours. Prerequisite(s): graduate standing in a program in the Anderson Graduate School of Management. Provides skill development and experience to network in person and via social media outlets. Offers a platform for practical implementation of effective job search strategies in various industries. Sets stage for development and presentation of student's ideas clearly at internship and job interviews. Graded Satisfactory (S) or No Credit (NC).

MGT 403 Review of Quantitative Methods For Management 4 Lecture, 3 hours; laboratory, 1 hour; individual study, 2 hours. Prerequisite(s): graduate standing. Reviews quantitative concepts and techniques related to the various functional areas of management. Topics include properties of functions, systems of equations and matrices (linear algebra), differentiation and integration (calculus), and basic probability concepts. Not for degree credit. Satisfactory (S) or No Credit (NC) grading is not available.

MGT 404 Communications, Leadership, Teams, and Ethics 2 Lecture, 7 hours per quarter; workshop, 28 hours per quarter. Prerequisite(s): graduate standing. Uses case discussions, presentations, and theoretically informed readings to develop communication, presentation, and leadership skills; examine the principles of effective teamwork; and introduce representative ethical issues confronting managers. Not for degree credit. Graded Satisfactory (S) or No Credit (NC).

MARXIST STUDIES MINOR

College of Humanities, Arts, and Social Sciences

Sproul 4124
(951) 827-1473; marxiststudies.ucr.edu

Committee in Charge

Christopher Chase-Dunn (Sociology), Chair
Jennifer Doyle (English)

Georgia Warnke (Political Science)
Milagros Peña, Ph.D. Dean,
College of Humanities, Arts, and
Social Sciences, *ex officio*

The Marxist Studies minor integrates courses from various disciplines in order to examine the theory and main applications of Marxism in the social sciences and humanities disciplines.

Requirements for the minor (24 units)

1. Theory, method, and history of thought requirement
 - a) PHIL 153
2. Four courses from the following dealing with applications of Marxist studies in various fields:
 - a) ANTH 131
 - b) CPLT 180X
 - c) ECON 175
 - d) POSC 160
 - e) WRLT 170/ETST 170

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

MATERIALS SCIENCE AND ENGINEERING

Subject abbreviation: MSE

The Marlan and Rosemary Bourns College of Engineering

Suveen Mathaudhu, Ph. D. Chair
Materials Science and Engineering Program
313 Materials Science and Engineering Building;

Program Faculty

Distinguished Professors

Reza Abbaschian, Ph.D.
(Mechanical Engineering)
Alexander Balandin, Ph.D. (Electrical and
Computer Engineering)
Ashok Mulchandani, Ph.D. (Chemical and
Environmental Engineering)
Kambiz Vafai, Ph.D. (Mechanical Engineering)
Michael R. Zachariah, Ph.D. (Chemical and
Environmental Engineering)
Francisco Zaera, Ph.D. (Chemistry)

Professors

Guillermo Aguilar, Ph.D. (Mechanical
Engineering)
Christopher Bardeen, Ph.D. (Chemistry)
Ludwig Bartels, Ph.D. (Chemistry)
Pingyun Feng, Ph.D. (Chemistry)
Cheryl Hayashi, Ph.D. (Biology)
David Kisailus, Ph.D. (Chemical and
Environmental Engineering)
Roger K. Lake, Ph.D. (Electrical and
Computer Engineering)
Jianlin Liu, Ph.D. (Electrical and Computer
Engineering)
Stefano Lonardi, Ph.D. (Computer Science
and Engineering)
Allen Mills, Ph.D. (Physics and Astronomy)
Umar Mohideen, Ph.D. (Physics and
Astronomy)

Leonard Mueller, Ph.D. (Chemistry)
Nosang V. Myung, Ph.D. (Chemical and
Environmental Engineering)
Cengiz Ozkan, Ph.D. (Mechanical
Engineering)
Mihri Ozkan, Ph.D. (Electrical and Computer
Engineering)
Victor Rodgers, Ph.D. (Bioengineering)
Jing Shi, Ph.D. (Physics and Astronomy)
Harry W.K. Tom, Ph.D. (Physics and
Astronomy)
Kathryn Uhrich, Ph.D. (Dean, College of
Natural & Agricultural Sciences)
Jianzhong Wu, Ph.D. (Chemical Engineering)
Guanshui Xu, Ph.D. (Mechanical Engineering)
Jory Yarmoff, Ph.D. (Physics and Astronomy)
Yadong Yin, Ph.D. (Chemistry)

Associate Professors

Boniface P.T. Fokawa, Ph.D. (Chemistry)
Juchen Guo, Ph.D. (Chemical and
Environmental Engineering)
Elaine Haberer, Ph.D. (Electrical and
Computer Engineering)
De-en Jiang, Ph.D. (Chemistry)
Huinan Liu, Ph.D. (Bioengineering)
Lorenzo Mangolini, Ph.D. (Mechanical
Engineering)
Suveen Mathaudhu, Ph.D. (Mechanical
Engineering)
Jin Nam, Ph.D. (Bioengineering)
Masaru Rao, Ph.D. (Mechanical Engineering)
Ming Lee Tang, Ph.D. (Chemistry)
Valentine Vullev, Ph.D. (Bioengineering)
Bryan Wong, Ph.D. (Chemical and
Environmental Engineering)

Assistant Professors

Igor Barsukov, Ph.D. (Physics and Astronomy)
Shane Cybart, Ph.D. (Mechanical Engineering)
Sinisa Coh, Ph.D. (Mechanical Engineering)
Yongtao Cui, Ph.D. (Physics and Astronomy)

Engineering)
Krassimir Bozhilov, Ph.D. (Central Facility for
Advanced Microscopy and Microanalysis)
Alexander Khitun, Ph.D. (Electrical and
Computer Engineering)
Alfredo Martinez-Morales, Ph.D. (Managing
Director of the Southern California Research
Initiative for Solar Energy (SC-RISE))
Aaron Wiest, Ph.D. (Department of Materials
Science at the California Institute of
Technology)

Major

The B.S. degree in Materials Science and Engineering is offered jointly by the five participating departments of The Marlan and Rosemary

Bourns College of Engineering. The program aims to produce students who are effective team players in materials engineering or related engineering, science or managerial positions, who use and improve on their skills in the job; who can enter into graduate or professional degree programs; and who are responsible engineers, professionals or scientists demonstrating ethical and professional responsibility and continuing to learn through a variety of educational experiences.

The Materials Science and Engineering Program Educational Objectives are to prepare our graduates to impact an evolving society by producing materials science and engineering constituents who:

- are successful in both education and industry
- can demonstrate professionalism and leadership in cutting edge interdisciplinary materials science and engineering practices
- can utilize an understanding of the principles of materials science and engineering to improve existing systems and innovate and design next generation technologies
- will contribute effectively as individuals, team members, and/or leaders to achieve personal, group and institutional goals.

The Materials Science and Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The Materials Science and Engineering major uses the following major requirements to satisfy the college's Natural Sciences and Mathematics breadth requirement.

1. One course in the biological sciences chosen from an approved list
2. CHEM 001A, CHEM 001LA
3. MATH 008B or MATH 009A
4. PHYS 040A, PHYS 040B

Major Requirements

1. Lower-division requirements (72 units)
 - a) CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, CHEM 01LC
 - b) CS 009M or CS 009P
 - c) EE 001A, EE 01LA
 - d) MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B, MATH 046
 - e) ME 010
 - f) MSE 001
 - g) PHYS 040A, PHYS 040B, PHYS 040C
 - h) CHEM 008A, CHEM 08LA
2. Upper-division requirements (72 units)
 - a) BIEN 140A/CEE 140A
 - b) CHE 100
 - c) EE 138

- d) ENGR 180W
- e) ME 110, ME 114, ME 156
- f) MSE 134, MSE 135, MSE 160, MSE 161, MSE 175A, MSE 175B
- g) STAT 155
- h) Technical Electives (20 units): chosen from BIEN 110, BIEN/MSE 136, BIEN 137, BIEN 140B/CEE 140B, CEE 147, CHE 105, CHE 161, EE 133, EE 136, EE 137, EE 139, EE 162, ME 153, MSE 155, MSE 197

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Graduate Program

The Department of Materials Science and Engineering offers programs leading to M.S. and Ph.D. degrees. Research focus areas currently include Materials Processing, Semiconductor Materials, Materials Analysis, Nanoscale Materials, Bioinspired Materials, Ceramic Materials, Magnetic Materials and Materials for Spintronics.

Admission

Applicants should have completed a program equivalent to UCR's B.S. in Materials Science and Engineering, obtained a B.S. in a related discipline and demonstrated particular interest/aptitude for Materials Science and Engineering, or demonstrate the required knowledge and proficiency in the following subjects

1. Fundamentals of Materials Science and Engineering (equivalent to MSE 001)
2. Fundamentals of Chemistry (equivalent to Chem 001A & Chem 001B & Chem 001C)
3. Fundamentals of Physics (equivalent to Phys 040A & Phys 040B and Phys 040C)
4. Fundamentals of Materials Synthesis or Processing (for instance, equivalent to Chem 112A)
5. Nanostructure Characterization or Materials Characterization (equivalent to MSE 160 or MSE 161).

Under special circumstances, students who have not completed all preparation course requirements may be admitted provided that the deficiencies are corrected within the first year of graduate study. Deficiencies limited to 12 units maximum. Courses taken for this purpose do not count towards an advanced degree.

All applicants must submit official scores for the GRE General Test. All applicants whose native language is not English and who do not have a degree from an institution where English is the exclusive language of instruction must complete the Test of English as a Foreign Language (TOEFL) with a minimum score of 550 (paper-based), 213 (computer-based), or 80 (Internet-based). Beginning with the Fall 2011 application cycle, UCR will accept scores from the Academic Modules of the International English Language Testing System IELTS, which is jointly managed by the British Council, IDP:IELTS Australia and the University of Cambridge ESOL Examinations. The exam must be taken within two years of the time prior to enrollment at UCR. The minimum acceptable scores are: overall band score of 7 with no individual section score less than 6. Please request an official Test Report Form (TRF) of your IELTS. Remember to order the TRF from

the test center where you took the test and ask the administrator to send the official TRF to:

Graduate Admissions Office Graduate Division

University Office Building
University of California, Riverside
Riverside, CA 92521 USA

For more information about registering for this exam or to locate the office of any test center, consult the IELTS website.

Applicants must meet the general admission requirements of the Riverside Division of the Academic Senate and the UCR Graduate Council as set forth in the UC Riverside Graduate Student Application.

Master of Science

The Program of Materials Science and Engineering offers the M.S. degree in Materials Science and Engineering. Students may obtain an M.S. degree in Materials Science and Engineering through one of two plans: 1) Thesis or 2) Comprehensive Examination.

Plan I (Thesis)

Students must complete 36 units of graduate or upper-division undergraduate course work, of which 24 must be graduate level units. Student must complete at least one course from 3 of the 5 areas of Materials Science and Engineering (MSE 201-209, 210-219, 220-229, 230-239, 240-249) as well as at least one unit of MSE 200 and at least five units of MSE 250. Students must enroll in MSE 200 the first time it is offered during their residency. At least two units of MSE 250-259 must be taken for a letter grade. Students can take a maximum of 12 units in Graduate Research and a maximum 6 units in Directed Studies. The course of study needs to be approved each quarter by the research advisor (when determined) and the MSE graduate advisor. The degree will be awarded when all these requirements are met and the thesis has been submitted successfully.

Plan II (Comprehensive Exam)

All students must complete 36 units of graduate or upper division undergraduate courses, of which 18 units must be graduate level. Student must complete at least one course from each of the 5 areas of Materials Science and Engineering (MSE 201-209, 210-219, 220-229, 230-39, 240-249) as well as at least one unit of MSE 200 and at least four units of MSE 250. At least one unit of MSE 250-259 must be taken for a letter grade. None may be in graduate research (MSE 297 or MSE 299). A maximum of 6 units may be in Directed Studies. Students must enroll in MSE 200 the first time it is offered during their residency. The course of study needs to be approved each quarter by the MSE graduate advisor.

Students will take a written comprehensive examination conducted jointly with the Ph.D. preliminary examination. The examination emphasizes the fundamental knowledge of the study area rather than the specifics covered in individual courses.

Students concurrently enrolled in a Ph.D. program in another department must have their course of study approved by the Graduate Advisor. Coursework used to complete

requirements in a non-MSE Ph.D. program cannot be used towards the Master's degree in MSE. An Oral Comprehensive Examination that measures the student's breadth of knowledge in Materials Science and Engineering will be given after the appropriate course of study has been completed.

Normative Time to Degree

Six quarters (two years)

Doctoral Degree

The Program of Materials Science and Engineering offers the Ph.D. degree in Materials Science and Engineering.

Admission

In addition to the requirements set forth for a M.S. degree, applicants should demonstrate exceptional achievement that clearly indicates their ability to conduct Ph.D. level studies.

Course Work

There is no comprehensive course requirement for the Ph.D. degree; only a few courses are mandatory. The faculty recommends that the student take a minimum of 36 units of graduate or upper-division undergraduate course work covering all five areas of study in Materials Science and Engineering: Thermodynamic Foundation of Materials, Crystal Structure and Bonding, Materials Characterization Techniques, Functional Materials, and Materials Synthesis and Processing (MSE 201-MSE 209, MSE 210-MSE 219, MSE 220-MSE 229, MSE 230-MSE 239, MSE 240-MSE 249). Students must enroll in MSE 200 the first time it is offered during their residency. Students must enroll in MSE 250 during all quarters of residency and must obtain a letter grade in an MSE 250-MSE 259 course once during each academic year of residency except for the first one.

The courses may include graduate course work used for the M.S. degree. The course of study needs to be approved each quarter by the research advisor (when determined) and the MSE graduate advisor. Students may need to take considerably more than the courses indicated above to prepare for and conduct their Ph.D. research.

Preliminary Examination

The purpose of the preliminary examination is to screen candidates for continuation in the doctoral program. The examination is administered by the graduate program committee jointly with the M.S. comprehensive examination. Candidates must solve at least one problem in each of the five areas of study in Material Science and Engineering. Plan II M.S. candidates who took the combined M.S. comprehensive and Ph.D. preliminary examination and successfully passed at the Ph.D. level are given credit for having passed the Ph.D. preliminary examination.

Dissertation Proposal and Oral Qualifying Examination

After passing the preliminary examination at the Ph.D. level, doctoral candidates must prepare and submit a dissertation proposal to their qualifying examination committee at least one month before the qualifying examination. The format of the proposal is flexible, but the proposal should clearly indicate the proposed problem under study, demonstrate substantial knowledge of

the topic and related issues, state the progress made towards a solution, and indicate the work remaining to be done. The new approaches and methods to be used in the research should also be discussed. An extensive bibliography for the problem under study should be attached to the proposal. Within one week after submission, the student is informed whether the proposal meets these standards and the student is permitted to proceed to the oral exam.

The oral qualifying examination focuses on the dissertation problem. It includes considerable depth in the student's area of specialization, as required for a successful completion of the dissertation. The examination is a three-hour session, which begins with the student's presentation of the dissertation topic and is followed with questions and suggestions by the doctoral committee.

Dissertation Examination and Defense

A doctoral dissertation should be an original and substantial contribution to knowledge in the student's major field. The dissertation must demonstrate the student's ability to carry out a program of independent advanced research and to report the results in accordance with standards observed in recognized scientific journals. When the doctoral committee determines that a suitable draft of the dissertation has been presented, a dissertation examination and defense for the student is scheduled. The defense consists of a public seminar followed by questions from the committee members and the audience.

Normative Time to Degree

12 quarters (15 quarters for students without an M.S. in Materials Science and Engineering)

Preparation for Careers in Teaching

All doctoral students are encouraged to serve as teaching assistants for at least three quarters during their graduate career. The program offers a Teaching Practicum in Materials Science and Engineering (MSE 302).

Dissertation Examination and Defense

Contact the Graduate Student Affairs Assistant at the Department of Materials Science and Engineering, (951) 827-3383, or visit mse.ucr.edu for information on graduate courses.

Lower-Division Courses

MSE 001 Fundamentals of Materials Science and Engineering 2

Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour. Prerequisite(s): none. An introduction of properties and applications of different types of materials essential for various areas of engineering. Explores the relationship between structure and properties as well as processing of the materials. Illustrates a wide range of properties required for different types of applications. Graded Satisfactory (S) or No Credit (NC).

MSE 003L General Materials Laboratory

Fall 1 Laboratory, 3 hours. Prerequisite(s): MSE 001 with a grade of C- or better; Restricted to major(s) Materials Science and Engineer; or consent of instructor. The three-course sequence MSE 002L, MSE 003L, and MSE 004L provides students with hands on laboratory experience. Experiments will introduce students to topics related to the structure-composition-

processing-performance relationship of various materials including ceramics, electronic materials, metals, and polymers and their mechanical, electrical, or magnetic properties. Satisfactory(S) or No Credit(N/C) is not available.

Upper-Division Courses

MSE 134 Microstructural Transformations in

Materials 4 Lecture, 3 hours; discussion, 1 hour.

Prerequisite(s): ME 114 or consent of instructor. An introductory study of the fundamentals (thermodynamics and kinetics) controlling microstructural transformations in materials and their application to both liquid-solid and solid-solid transformations. Focuses on the important transformations that ultimately control the microstructures and properties of crystalline solids. Cross-listed with ME 134.

MSE 135 Introduction to Inorganic Material

Synthesis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MSE 001, CHE 100, ME 114, CHEM 008A; or consent of instructor. Introduction to the synthesis methods of modern materials. Topics include solid-state reactions, gas-phase and solution phase synthesis, templating methods, synthesis and modification of inorganic polymers, semiconductor thin-film deposition, and the growth of nanomaterials.

MSE 136 Tissue Engineering 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): BIOL 005A and BIOL 005B, CHEM 001C or CHEM 01HC or equivalents; junior or senior standing or consent of instructor. Covers progress in cellular and molecular biology and engineering. Provides the basis for advancing tissue repair and regeneration with the goal of restoring compromised tissue functions. Presents methods for cell culture, tissue design and development, manipulation of the cell/tissue microenvironment, and current strategies for functional reconstruction of injured tissues. Cross-listed with BIEN 136.

MSE 155 Materials Science of the Solid

State 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 138. Explores at an advanced level the quantum mechanical behavior of electron motion and atom vibration in a periodic solid and their effect on the electronic and thermal properties of matter. The course discusses modern materials science research problems. Credit is awarded for one of the following MSE 155 or MSE 211.

MSE 156 Atomistic Modeling of Solid State

Materials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MSE 155; restricted to class level standing of senior; or consent of instructor. Introduces a basic understanding of computational methods in materials science. Emphasizes the fundamentals of density functional theory and its use in the solid-state context. Includes projects that provide practical hands-on experience using state-of-the-art computational techniques in materials science. Credit is awarded for one of the following MSE 156 or MSE 224.

MSE 160 Nanostructure Characterization

Laboratory 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ME 114. Covers structure of materials at the nanoscale, including semiconductors, ceramics, metals, and carbon nanotubes. Explores relationships

among morphology, properties, and processing. Addresses primary methods of characterization, including scanning electron microscopy, scanning probe microscopy, X-ray diffraction, and transmission electron microscopy. Also covers elementary discussions of X-ray, vibrational, and electron waves in solids and introductory diffraction theory.

MSE 161 Analytical Materials

Characterization 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): MSE 160. Analysis of the surfaces of materials via ion, electron, and photon spectroscopies. Includes Rutherford back scattering; secondary ion mass spectroscopy; electron energy loss spectroscopy; Auger electron spectroscopy; X-ray photoelectron spectroscopy; photoluminescence; extended X-ray absorption fine structure; Fourier transform infrared spectroscopy; and Raman spectroscopy. Also covers sputtering, high-vacuum generation, and focused ion beam milling.

MSE 175A Senior Design 4 Lecture, 2 hours; discussion, 1 hour; practicum, 3 hours.

Prerequisite(s): CHE 116 or ME 116A; EE 139; senior standing in Materials Science and Engineering. Covers preparation of formal engineering reports and statistical analysis on a series of problems illustrating methodology from various branches of applied materials science and engineering. Addresses the entire design process: design problem definition; generation of a design specification; documentation; design review process; prototype fabrication; testing and calibration; cost estimation; and federal guidelines. Requires a term project and oral presentation. Graded In-Progress (IP) until MSE 175A and MSE 175B are completed, at which time a final, letter grades is assigned.

MSE 175B Senior Design 4 Lecture, 3 hours; discussion, 1 hour; practicum, 6 hours.

Prerequisite(s): MSE 175A; senior standing in Materials Science and Engineering. Covers preparation of formal engineering reports and statistical analysis on a series of problems illustrating methodology from various branches of applied materials science and engineering. Addresses the entire design process: design problem definition; generation of a design specification; documentation; design review process; prototype fabrication; testing and calibration; cost estimation; and federal guidelines. Requires a term project and oral presentation. Satisfactory (S) or No Credit (NC) grading is not available.

MSE 197 Research For Undergraduates 1 to

4 Laboratory, 3 to 12 hours. Prerequisite(s): sophomore or junior or senior standing in Materials Science and Engineering or consent of instructor. Research conducted under the supervision of a MSE faculty member on selected problems in materials science and engineering supporting the focus area of the student. Course is repeatable to a maximum of 8 units; maximum of 4 units may count toward the technical elective requirement.

Graduate Courses

MSE 200 Graduate Studies in Materials

Science and Engineering 4 Lecture, 4 hours. Prerequisite(s): Restricted to major(s)

Materials Science and Engineer; graduate standing; or consent of instructor. Introduces the fundamentals of materials science and engineering including materials selection, processing, and manufacturing. Utilizes materials design, selection-based approach, and team activities to enhance learning and presentations. Provides information on how to research and survey literature and make technical presentations.

MSE 201 Thermodynamic Foundations of Materials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Materials Science and Engineering or consent of instructor. MSE 201 online section; enrollment in the Online Master-in-Science in Engineering program. Covers the laws of thermodynamics and fundamental equations for multi-component elastic solids, electromagnetic media, and equilibrium criteria. Describes applications to solution thermodynamics, point defects in solids, elastic effects, phase diagrams, transitions, and interfaces. Includes nucleation theory, kinetics (diffusion of heat, mass, and charge), and coupled flows.

MSE 204 Thermodynamics and Statistical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Covers thermodynamics, statistical mechanics, ideal Bose systems, ideal Fermi systems, and bulk motion. Cross-listed with PHYS 212A.

MSE 205 Advanced Physical Chemistry: Thermodynamics 3 Lecture, 3 hours. Prerequisite(s): CHEM 110A and CHEM 110B with grades of "C" or better. Covers concepts in thermodynamics including fundamental equations, potentials, Maxwell relations, and stability criteria. Cross-listed with CHEM 201D.

MSE 207 Applied Quantum Mechanics 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): MATH 046, PHYS 040A; or consent of instructor. Covers topics in quantum mechanics including Schrodinger equation; operator formalism; harmonic oscillator; quantum wells; spin, bosons, and fermions; solids; perturbation theory; Wentzel-Kramers-Brillouin approximation; tunneling; tight-binding model; quantum measurements; quantum cryptography; and quantum computing. Cross-listed with EE 201.

MSE 208 Mechanics and Physics of Materials 4 Lecture, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the structure and properties of materials; the characterization and modeling of mechanical, thermal, electric, and magnetic properties of materials; and coupling properties. Topics include phase transformations and brittle-to-ductile transitions. Cross-listed with ME 266.

MSE 210 Crystal Structure and Bonding 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Materials Science and Engineering or consent of instructor. MSE 210 online section; enrollment in the Online Master-in-Science in Engineering program. Covers regular and irregular arrays of points and spheres. Includes lattices (direct and reciprocal); crystallographic point and space groups; and atomic structures. Also addresses

bonding in molecules and solids, ionic Pauling rules; and covalent and metallic bonding. Surveys the structure of elements, compounds, minerals, and polymers.

MSE 211 Materials Science of the Solid State 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores at an advanced level the quantum mechanical behavior of electron motion and atom vibration in a periodic solid and their effect on the electronic and thermal properties of matter. The course discusses modern materials science research problems. Credit is awarded for one of the following MSE 211 or MSE 155.

MSE 214 Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221C; graduate standing; or consent of instructor. Topics include classical and quantum theories of the electron gas; crystal and reciprocal lattices; crystal symmetries; electrons in a periodic potential; nearly free electrons; tight binding; band structure; metals, insulators and semiconductors; semiclassical dynamics; and semiclassical transport. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with PHYS 240A.

MSE 217 Fundamentals of Semiconductors and Nanostructures 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 133, EE 201/MSE 207; or consent of instructor. Examines principles of semiconductor materials and nanostructures. Topics include periodic structures, electron and phonon transport, defects, optical properties, and radiative recombination. Also covers absorption and emission of radiation in nanostructures and nonlinear optics effects. Emphasizes properties of semiconductor superlattices, quantum wells, wires, and dots. Cross-listed with EE 202.

MSE 218 Imperfections in Solids 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Chemical and Environmental Engineering or Computer Science or Electrical Engineering or Materials Science and Engineering or Mechanical Engineering. Covers fundamentals of crystal structures and crystal defects, including the generation of point defects; nucleation and propagation of dislocations; perfect and partial dislocations; twins, stacking faults, and transformations; mechanics of semiconductor and metallic thin films and multilayered structures. Cross-listed with ME 278.

MSE 220 Materials Characterization Techniques 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Materials Science and Engineering or consent of instructor. Covers basic principles of techniques used in the characterization of engineering materials by electron microscopy, diffraction, and spectroscopy. Provides analysis of defects responsible for materials properties. Addresses modern electrical, optical, and particle beam techniques for material characterization. Includes Hall Effect and Raman spectroscopy.

MSE 221 Electron Microscopy and Microanalysis 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Materials Science & Engineering or consent of

instructor. Introduces electron microscopy and microanalysis of inorganic solids including synthetic nanomaterials and minerals. Provides the underlying physical principles of electron microscopy and microanalysis; the strengths and limitations of the method; and the potential applications in characterization of morphology, structure, composition, and defects of inorganic materials and nanostructures. Optional, related laboratory courses are available: MSE 222L, MSE 223L.

MSE 222L Laboratory in Transmission Electron Microscopy 1 Laboratory, 2 hours; written work, 1 hour. Prerequisite(s): Concurrent or previous enrollment in MSE 221 or consent of instructor. Provides practical training in transmission electron microscopy and associated techniques including sample preparation.

MSE 223L Laboratory in Scanning Electron Microscopy 1 Laboratory, 2 hours; written work, 1 hour. Prerequisite(s): Concurrent or previous enrollment in MSE 221 or consent of instructor. Provides practical training in scanning electron microscopy and associated techniques including sample preparation.

MSE 224 Atomistic Modeling of Solid State Materials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 138 or MSE 211 or PHYS 150A; graduate standing; or consent of instructor. Introduces computational methods in materials science. Emphasizes fundamentals of density functional theory and its use in the solid-state context. Includes projects that provide practical hands-on experience. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory(S) or No Credit(NC) grade. Credit is awarded for one of the following MSE 224 or MSE 156.

MSE 225A Spectrometry in Organic Structure Analysis 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Utilizes modern spectroscopic techniques such as IR, mass spectrometry, and ¹H and ¹³C NMR to determine the structure of complex organic molecules. Topics include advanced NMR techniques such as 2D NMR, NMR pulse sequences, diffusion NMR, and MRI. Cross-listed with CHEM 211D.

MSE 225B Advanced Analytical Chemistry: Optical Spectroscopy 3 Lecture, 3 hours. Prerequisite(s): CHEM 125W. Provides an overview of modern analytical optical spectroscopic techniques including theory, instrumentation, and applications. Cross-listed with CHEM 221B.

MSE 225C Introduction to Computational Quantum Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 113 or equivalent, graduate standing; or consent of instructor. Introduces computational techniques in quantum chemistry. Includes Hartree-Fock theory, Density Functional Theory, and electron correlation methods. Emphasizes practical applications in a research setting. Cross-listed with CHEM 206A.

MSE 226 Optical Methods in Biology, Chemistry, and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 109 or equivalent; graduate standing; consent of instructor. Covers the origin of fluorescence and other emission

processes that modulate the characteristics of molecular emissions. Presents emission-based analytical and bioanalytical methods and techniques. Reviews state-of-the-art instrumentation, including their applicability, limitations, and source. Also provides interpretation and meaning of the measured signals as applied to biological systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes. Cross-listed with BIEN 245.

MSE 227A Nanoscale Characterization

Techniques 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 201 or MSE 207; graduate standing; or consent of instructor. An in-depth study of nanoscale materials and device characterization techniques. Emphasizes atomic force microscopy (AFM) and scanning tunneling microscopy (STM). Includes semiconductor fabrication fundamentals; metrology requirements; in situ monitoring; interconnects and failure analysis; principles of AFM, STM, and scanning electron microscopy; X-ray methods; optical and infrared techniques; and electrical characterization. Cross-listed with EE 206.

MSE 227B Semiconductor Electronic and Optical Properties 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221B, may be taken concurrently or EE 202, may be taken concurrently or MSE 217, may be taken concurrently; graduate standing. Introduction to electronic bandstructure. Topics include electronic structure of semiconductors, graphene, localized orbital models, k dot p models, spin-orbit coupling, and optical generation of spin. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 208.

MSE 229 Advanced Computation For Materials

Design 4 Lecture, 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Covers both desktop computing and high-performance computing (i.e., supercomputing resources) in the engineering sciences to understand and design materials using computational methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CEE 240.

MSE 230 Functional Materials:

Semiconductors 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing in Materials Science and Engineering or consent of instructor. Covers semiconductor crystal growth techniques; purification; doping; radiation damage; annealing; metal-semiconductor interfaces; defects and impurities; and major electronic and optical methods for the analysis of semiconductors. Includes semiconductor device fabrication issues.

MSE 234A Physics of Nanoscale

Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduction to fundamental quantum physics in nanoscale systems and low dimensional materials. Including synthesis of low-dimensional material systems; physics-based experimental approaches to nanotechnology; mesoscopic quantum transport

of electrons; quantum phenomena involving spin; silicon nanoelectronics and beyond; and future electronics based on topological materials. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with PHYS 234.

MSE 234B Spintronics and Nanoscale

Magnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of contemporary issues in nanoscale magnetism and spin-dependent phenomena in solids, including the fundamentals of magnetism, magnetism in reduced dimensions, novel magnetic materials, spin-polarized transport, spin coherence in semiconductors, magnetization dynamics, and device applications. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with PHYS 235.

MSE 235 Solid State and Materials in Inorganic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 231A/MSE 245B or consent of instructor. Covers the advanced synthesis, structure, bonding, and properties of inorganic materials. Cross-listed with CHEM 231C.

MSE 236 Nanomaterials For Regenerative

Medicine 4 Lecture, 4 hours. Prerequisite(s): BIOL 005C, CHEM 001C (or CHEM 01HC), MSE 001, or equivalents; graduate standing or consent of instructor. Covers recent advances in nanomaterial synthesis, fabrication, and characterization. Focuses on the medical applications of nanomaterials and nanotechnologies. Addresses methods of synthesis of nanomaterials such as nanoparticles, nanotubes, and nanofibers. Includes critical design criteria and assessment methods for properties of nanomaterials to meet medical requirements. Cross-listed with BIEN 236.

MSE 237A Applied Ferromagnetism 4

Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): EE 116; consent of instructor. Introduces fundamentals of ferromagnetism necessary to develop next-generation nanomagnetic and spintronics-related devices. Includes basics of magnetism, magnetic circuits, ferromagnetic resonance (FMR), nuclear magnetic resonance (NMR), spintronics, and analyses of applications. Cross-listed with EE 220.

MSE 237B Nanoscale Phonon

Engineering 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 202/MSE 217. Studies acoustic and optical phonons that affect electrical, thermal, and optical properties of materials. Focuses on the confinement-induced changes of phonon properties in nanostructures and their implications for performance of electronic, thermoelectric, and optoelectronic devices. Explores phonon theory, Raman spectroscopy and other phonon characterization techniques, thermal conductivity, and related measurements. Cross-listed with EE 216.

MSE 237C Solid-State Devices 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): EE 133 or consent of instructor. Covers electronic devices including p-n junctions, field-effect transistors, heterojunction bipolar transistors, and nanostructure devices. Explores electrical

and optical properties of semiconductor heterostructures, superlattices, quantum wires, and dots, as well as devices based on these structures. Cross-listed with EE 203.

MSE 238 Introduction to

Microelectromechanical Systems 4 Lecture, 4 hours. Prerequisite(s): ME 110, ME 114, or equivalents; for MSE 238 online section; enrollment in the Online Master-in-Science in Engineering program. An introduction to the design and fabrication of microelectromechanical systems (MEMS). Topics include micromachining processes; material properties; transduction; applications in mechanical, thermal, optical, radiation, and biological sensors and actuators; microfluidic devices; Bio-MEMS and applications; packaging and reliability concepts; and metrology techniques for MEMS. Cross-listed with ME 270.

MSE 240 Materials Synthesis and

Processing 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers synthesis of functional materials and materials processing. Functional materials include semiconductors, metals, polymers, and nanoscale-materials such as nanotubes and nanoparticles. Focuses on methods of semiconductor fabrication and their physical and chemical foundation.

MSE 245A Advanced Organic

Reactions 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers modern organic reactions and reagents and their mechanistic pathways with emphasis on recent developments and practical organic chemistry. Cross-listed with CHEM 211E.

MSE 245B Structure and Bonding in Inorganic

Chemistry 3 Lecture, 3 hours. Prerequisite(s): CHEM 150A, CHEM 150B. Covers advanced synthesis, structure, and bonding in inorganic, coordination, and organometallic chemistry. Cross-listed with CHEM 231A.

MSE 245C Nanoscience and

Nanotechnology 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry, Physics, Engineering, or a related subject or consent of instructor. Provides a condensed, interdisciplinary overview of selected fields of nanoscience and emerging nanotechnological applications. Focuses on applications relevant for the campus research community that are not based on electronic applications of silicon. Cross-listed with CHEM 203.

MSE 245D Interdisciplinary Overview of Current Issues in Semiconductor Processing 3

Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry, Physics, Engineering, or a related subject or consent of instructor. An interdisciplinary overview of present-day semiconductor processing. Introduces topics such as properties of semiconductors, cleanroom environment, epitaxy, ion implantation, etching, lithography, device architecture, testing, and fault detection. May offer field trips. Cross-listed with CHEM 208, and PHYS 202.

MSE 246 Cellular and Molecular

Engineering 4 Lecture, 2 hours; discussion, 1 hours; practicum, 3 hours. Prerequisite(s): graduate standing or consent of instructor. BIEN

224 online section; enrollment in the Online Master-in-Science in Engineering program. Emphasizes biophysical and engineering concepts intrinsic to specific topics at the cellular and molecular level. Includes receptor-ligand dynamics in cell signaling and function; DNA replication and RNA processing; cellular and protein sorting; control of gene expression; membrane structure, transport and traffic; biological signal transduction; and mechanics of cell division. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with BIEN 224.

MSE 248 Nanoscale Science and Engineering 4

Lecture, 3 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. MSE 248/ME 272 online section; enrollment in the Online Master-in-Science in Engineering program. An overview of the machinery and science of the nanometer scale. Topics include patterning of materials via scanning probe lithography; electron beam lithography; nanoimprinting; self-assembly; mechanical, electrical, magnetic, and chemical properties of nanoparticles, nanotubes, nanowires, and biomolecules (DNA, protein); self-assembled monolayers; and nanocomposites and synthetic macromolecules. Cross-listed with ME 272.

MSE 250 Colloquium in Materials Science and Engineering 1

Colloquium, 1 hour. Prerequisite(s): graduate standing in Materials Science and Engineering or consent of instructor. Presentations on current topics in Materials Science and Engineering presented by invited speakers, UCR faculty, and graduate students. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

MSE 251 Topics in Materials Science and Engineering 1

Seminar, 1 hour. Prerequisite(s): graduate standing in Materials Science & Engineering or consent of instructor. Presentations on current topics in Materials Science and Engineering by special speakers, UCR faculty, and graduate students. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 21 units.

MSE 280 Special Topics in Biomaterials and Tissue Engineering 1 to 2

Seminar, 1 to 2 hours; term paper, 0 to 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on advanced biomaterials and tissue engineering for medical applications. Explores the design, processing, characterization, and evaluation of biomaterials. Examines current development in novel materials and recent advances in their applications in tissue engineering, drug delivery, gene therapy, cell therapy, medical devices, and implants. Students who present a seminar or submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as content changes to a maximum of 30 units. Cross-listed with BIEN 272.

MSE 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor. Individual study

directed by a faculty member on selected topics in Materials Science and Engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units

MSE 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor. Research conducted under the supervision of a faculty member on selected topics in Materials Science and Engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MSE 298I Individual Internship in Materials Science & Engineering 1 to 12

Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): graduate standing; consent of instructor. Provides the Materials Science & Engineering graduate student with career experience as an engineer in an industrial or national lab setting. Includes fieldwork with an approved professional individual or organization and academic work under the direction of a faculty member. Requires a final report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

MSE 299 Research For the Thesis Or Dissertation 1 to 12

Research, 3 to 36 hours. Prerequisite(s): consent of instructor; graduate standing Research in materials science and engineering for the M.S. thesis or Ph.D. dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

MSE 302 Teaching Practicum 1 to 2

Consultation 1 To 2, Prerequisite(s): appointment as a teaching assistant in Materials Science and Engineering; consent of instructor and graduate advisor Topics include effective teaching methods, such as those involved in leading discussion sections and preparing and grading examinations, as well as student-instructor relations in lower- and upper-division Materials Science and Engineering courses. Required each quarter of teaching assistants and associates in Materials Science and Engineering. Graded Satisfactory (S) or No Credit (NC).

MATHEMATICS

Subject abbreviation: MATH College of Natural and Agricultural Sciences

Yat Sun Poon, Ph.D. Chair
Department Office, 202 Skye Hall
(951) 827-3113; mathdept.ucr.edu

Professors

Mark Alber, Ph.D. *Distinguished Professor*
John C. Baez, Ph.D.
Vyjayanthi Chari, Ph.D.
Wee Liang Gan, Ph.D.
Jacob Greenstein, Ph.D.
Michel L. Lapidus, Ph.D.,
Distinguished Professor
F. Burton Jones *Endowed Chair*
Yat Sun Poon, Ph.D.
Ziv Ran, Ph.D.
Reinhard Schultz, Ph.D.
Stefano Vidussi, Ph.D.
Frederick H. Wilhelm, Jr., Ph.D.
Bun Wong, Ph.D.
Feng Xu, Ph.D.
Qi S. Zhang, Ph.D.

Professors Emeriti

Theodore J. Barth, Ph.D.
Richard E. Block, Ph.D.
Mei-Chu Chang, Ph.D.
John E. de Pillis, Ph.D.
Gerhard Gierz, Ph.D.
Zhuang-dan Guan, Ph.D.
Lawrence H. Harper, Ph.D.
Frederic T. Metcalf, Ph.D.
Malempati M. Rao, Ph.D.
Louis J. Ratliff, Jr., Ph.D.
David E. Rush, Ph.D.
James D. Stafney, Ph.D.
Albert R. Stralka, Ph.D.

Associate Professors

Wee Liang Gan, Ph.D.
James Kelliher, Ph.D.

Associate Professor of Teaching

Kevin Costello, Ph.D.

Assistant Professors

Po-Ning Chen, Ph.D.
Weitao Chen, Ph.D.
Yat Tin Chow, Ph.D.
Matthew Durham, Ph.D.
Jose Gonzalez, Ph.D.
Carl Mautner, Ph.D.
Amir Moradifam, Ph.D.
Peter Samuelson, Ph.D.
Qixuan Wang, Ph.D.
Zhenghe Zhang, Ph.D.

Assistant Professors of Teaching

Sara Lapan, Ph.D.
David Weisbart, Ph.D.

Visiting Assistant Professors

Scott Atkinson, Ph.D.
Brian Benson, Ph.D.
Zhanar Berikkyzy, Ph.D.
Bradley Burdick, Ph.D.
Liwei Chen, Ph.D.
Alessandra Costantini, Ph.D.
Neal Livesay, Ph.D.
Mohammad Safdari, Ph.D.
Karl Schmidt, Ph.D.
Zilong Song, Ph.D.

Bin Sun, Ph.D.
Mahesh Sunkula, Ph.D.
Henry Tucker, Ph.D.
Zhixian Zhu, Ph.D.

Lecturers

Michael Curtis

Cooperating Faculty

Bai-Lian "Larry" Li, Ph.D. (Botany and Plant Sciences)

Academic Coordinator

Rob Lam

Major

The Department of Mathematics offers a B.A. and B.S. degree in programs that share a common, solid mathematical foundation but differ in their specializations in the pure and applied areas of mathematics. These programs can provide the basis for careers in mathematics itself or within the many scientific and business fields, which, in today's technological society, depend on a basic knowledge of mathematical methods.

The **B.A. in Mathematics**, following the liberal arts tradition, combines a broad coverage of the humanities and social sciences with a moderate amount of advanced mathematics in the major. It is selected most often either by students who intend to obtain a teaching credential with a specialty in mathematics or by students who wish to pursue graduate work in business or the social sciences.

The **B.S. in Mathematics** is more technical and contains a greater concentration of work in the major field. The Pure Mathematics program is directed toward students who may wish to pursue graduate work in pure mathematics. The General Applied Math option is directed toward students who may wish to pursue graduate work in applied mathematics.

The other Applied Mathematics programs, with options in Biology, Chemistry, Economics, Environmental Sciences, Physics, and Statistics, are designed to provide a rigorous training in mathematics together with a substantial background in the discipline of the option. The Computational Mathematics program is designed to prepare the student for professional work with computers and computer systems and for graduate work in computer science.

The **B.S. in Mathematics for Secondary Teachers** is intended for students planning to pursue a career in secondary education. Its courses cover the high school curriculum from an advanced perspective. Students are required to complete mathematics education and education courses in order to facilitate presence in the classroom early in their undergraduate career and to better prepare them for entry in a credential program.

Academic Advising

Each Mathematics major is assigned a faculty advisor who assists the student in formulating educational goals and monitors the student's subsequent progress in an academic program. Each quarter a study list must be approved by this advisor. Advising for all math majors is conducted by the CNAS Academic Advising Center in 1223 Pierce Hall.

Teaching Credential

Teachers in the public schools in California must have a credential approved by the State Commission on Teacher Credentialing. The credential requires an undergraduate major, baccalaureate degree, and completion of a graduate credential program such as that offered by the Graduate School of Education at UCR (see Education in this catalog). The Bachelor of Science in Mathematics for Secondary Teachers assists students in their preparation to face the challenges of a credentialing program.

Before admission and student teaching in a graduate credential program, the candidate must pass the California Basic Education Skills Test (CBEST) and demonstrate subject-matter proficiency in the fields which the candidate will teach. The candidate can demonstrate proficiency either by passing the commission's subject-matter assessment examination or completing an undergraduate program that is state approved for teacher preparation.

California Teach-Science/Mathematics Initiative (CaTEACH-SMI)

California Teach-Science Mathematics Initiative (CaTEACH-SMI) has a goal of addressing the critical need of highly qualified K-12 science and mathematics teachers in California. With an economy increasingly reliant on science, technology, engineering, and mathematics (STEM) and the anticipated large scale retirement of qualified teachers, this is an essential time to explore and prepare for a career in teaching science or mathematics.

CaTEACH-SMI at UCR offers undergraduate students paid/unpaid opportunities, such as the SMI & Alpha Center Apprentice Programs, to explore STEM teaching as a career option. Through CaTEACH-SMI, students receive advising and mentoring to prepare for entrance into an intern teaching credential program while diligently coordinating with academic advisors to ensure completion of STEM degree requirements. The CaTEACH-SMI Resource Center provides future STEM teachers with material and financial resources which includes the National Science Foundation (NSF) Noyce Scholarship Program, to promote planning and professional development towards a science/mathematics education career.

For more information about the CaTEACH-SMI program, please visit smi.ucr.edu, the Resource Center at 1315 Pierce Hall, or on Facebook at facebook.com/ScienceMathInitiativeAtUcr.

Change of Major Criteria

All courses taken to fulfill major requirements must be completed with grades of C- or better after repeats.

Freshman (0-44.9 units earned)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA).

MATH 007A or MATH009A or MATH 009HA

Sophomores (45-89.9 earned units)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA).

MATH 007A or MATH009A or MATH 009HA
MATH 007B or MATH009B or MATH009HB

MATH 009C or MATH 010A

Juniors & Seniors (90 or more earned units)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA).

MATH 007A or MATH009A or MATH 009HA

MATH 007B or MATH009B or MATH009HB

MATH 009C

MATH 010A

MATH 031

Major change requests are reviewed during the 2nd, 3rd, 4th & 10th weeks of each quarter. Students are required to complete degree programs without exceeding 216 earned units.

Transfer Selection Criteria

Applicants to majors in the College of Natural and Agricultural Sciences are selected on the basis of academic preparation, as assessed by their GPA and the strength of preparation for the intended major. A GPA of at least 2.70 is required. (This is a baseline GPA for consideration and not a guarantee of admission.)

In addition, applicants will need to complete college courses comparable to at least two of the following UCR year-long sequences in order to meet selection criteria for this major. Courses must be completed with "C" grades or better:

MATH 007A or MATH009A, MATH 007B or MATH 009B, and MATH 009C (mandatory)

And at least one sequence from:

1. BIOL 005A/BIOL 05LA and BIOL 005B (and BIOL 005C, if articulated)
2. CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, and CHEM 01LC
3. PHYS 040A, PHYS 040B, and PHYS 040C
4. MATH 010A, MATH 010B, and MATH 046

Courses must be completed with a letter grade, with no grade lower than a "C." Students should visit assist.org for updated and comprehensive major preparation requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Major Requirements for the Bachelor of Arts and Bachelor of Science in Mathematics

To fulfill the Natural Sciences requirement, the Department of Mathematics requires the following:

1. One of the year sequences
 - a) BIOL 002, BIOL 003, BIOL 005C
 - b) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC,
 - c) PHYS 040A, PHYS 040B, PHYS 040C
2. Either one course in the physical sciences listed above if (a) above is completed or one course in the biological sciences if (b) or (c) above is completed

The major requirements for the B.A. and B.S. degrees in Mathematics are as follows:

For the Bachelor of Arts

1. Lower-division requirements: MATH 007A or MATH 009A or MATH 009HA, MATH 007B or MATH 009B or MATH 009HB, MATH 010A, MATH 010B, MATH 031, MATH 046
2. Four (4) units of either CS 010 or one upper-division course in Statistics
3. A minimum of 36 units of upper-division mathematics, excluding courses in the MATH 190–199 series

For the Bachelor of Science

Lower-division requirements for all programs are MATH 007A or MATH 009A or MATH 009HA, MATH 007B or MATH 009B or MATH 009HB, MATH 009C, MATH 010A, MATH 010B, MATH 031, MATH 046, CS 010 (CS 012 is recommended).

1. **Pure Mathematics program** (56 units)
 - a) Thirty-six (36) units of upper-division mathematics to include at least 24 units from MATH 131, MATH 132, MATH 145A, MATH 145B, MATH 151A, MATH 151B, MATH 151C, MATH 171, MATH 172
 - b) At least three courses from (a) above must be from MATH 145A, MATH 145B, MATH 151A, MATH 151B, MATH 151C
 - c) Courses in the MATH 190–199 series are excluded
 - d) Sixteen (16) additional units of upper-division mathematics, upper-division computer science, or other related courses approved by the undergraduate advisor (For students who wish to pursue graduate work, courses in complex variables, differential equations, and probability may be particularly useful.)
2. **Applied Mathematics programs**
MATH 131, MATH 135A and MATH 135B, or MATH 149A and MATH 149B. MATH 146A, MATH 146B, MATH 146C and the courses in one of the following options:
 - a) General Applied Mathematics option
 - (1) MATH 150A or MATH 151A
 - (2) MATH 168
 - (3) Students will select 16 units from MATH 120, MATH 121, MATH 126, MATH 141, MATH 147, MATH 148, MATH 149A, MATH 149B, MATH 149C, MATH 150B, MATH 151B, MATH 165A, MATH 165B
 - b) Biology option
 - (1) BIOL 005A, BIOL 05LA, BIOL 005B, BIOL 005C
 - (2) MATH 149A
 - (3) Two courses from MATH 120, MATH 121, MATH 35A, MATH 135B, MATH 149B, MATH 149C
 - (4) BIOL 102, BIOL 105, BIOL 108
 - (5) Four (4) additional units of upper-division biology
 - c) Chemistry option
 - (1) CHEM 001A, CHEM 001B, CHEM

- 001C, CHEM 011A, CHEM 011B, CHEM 011C
- (2) PHYS 040A, PHYS 040B, PHYS 040C
- (3) Three courses from MATH 120, MATH 135A, MATH 135B, MATH 149A, MATH 149B, MATH 149C, MATH 165A, MATH 165B
- (4) CHEM 110A, CHEM 110B, CHEM 111, CHEM 113
- (5) Four (4) additional units of upper-division chemistry
- d) Economics option
 - (1) MATH 120, MATH 121, MATH 149A, MATH 149B
 - (2) Four upper-division economics courses at least 20 units) to consist of ECON 102A and four courses to be chosen from ECON 102B, ECON 103A, ECON 103B, ECON 107, ECON 108, ECON 110, ECON 134/BUS 106, ECON 135, ECON 143A/ENSC 143A, ECON 143B/ENSC 143B, ECON 143C/ENSC 143C, ECON 156, ECON 206
- e) Environmental Sciences option
 - (1) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 011A, CHEM 011B, CHEM 011C
 - (2) ECON 006/ENSC 006
 - (3) GEO 001 is recommended
 - (4) MATH 149A
 - (5) Two courses from MATH 120, MATH 121, MATH 135A, MATH 135B, MATH 149B, MATH 149C, CS 177, STAT 155
 - (6) ENSC 100/SWSC 100, ENSC 101, ENSC 102
 - (7) Four (4) additional units of upper-division environmental sciences
- f) Physics option
 - (1) MATH 135A, MATH 165A
 - (2) Either MATH 120 or MATH 171
 - (3) PHYS 130A, PHYS 130B
 - (4) Either PHYS 135A, PHYS 135B, PHYS 136 or PHYS 156A, PHYS 156B
3. **Computational Mathematics program**
 - a) MATH 011/CS 011, MATH 131, MATH 120, MATH 132, MATH 135A, MATH 135B
 - b) CS 012, CS 014, CS 141, CS 150
 - c) One additional CS course to be chosen from the list of approved technical elective courses.
 - d) Sixteen (16) units of technical electives to be chosen from
 - (1) CS 111, MATH 121, MATH 126, MATH 146A, MATH 146B, MATH 146C, MATH 149A, MATH 149B, MATH 149C, MATH 171
 - (2) CS 130, CS 166, CS 170, CS 177

Major Requirements for the Bachelor of Science in Mathematics for Secondary

School Teachers

1. Lower-division Mathematics requirements (24 units)
MATH 007A or MATH 009A or MATH-009HA, MATH 007B or MATH 009B or MATH-009HB, MATH 009C, MATH 010A, MATH 010B, MATH 031, MATH 046
2. Upper-division Mathematics requirements (36 units)
 - a) MATH 131, MATH 133, MATH 140, MATH 144, MATH 153
 - b) MATH 150A or MATH 151A
 - c) Three courses from: MATH 132, MATH 136, MATH 137, MATH 138A, MATH 145A, MATH 145B, MATH 149A, MATH 149B, MATH 149C, MATH 150B, MATH 151B, MATH 151C, MATH 171, MATH 172
3. Additional Mathematics and related disciplines requirements (12 units)
 - a) CS 010
 - b) CS 011/MATH 011
 - c) STAT 155
4. Natural Sciences (16–20 units)
 - a) BIOL 002 or BIOL 003 or BIOL 005A and BIOL 05LA
 - b) CHEM 001A and CHEM 011A or CHEM 001HA and CHEM 1HLA
 - c) PHYS 040A
 - d) CHEM 001B and CHEM 011B or CHEM 001HB and CHEM 1HLB or PHYS 040B or an additional laboratory Biological science course
5. Social Sciences (16 units)
 - a) One course in ECON or POSC
 - b) One course in ANTH
 - c) One course in PSYC
 - d) One course in SOC
6. Mathematics Education and Education requirements (18 or 19 units): EDUC 003 or EDUC 004 or EDUC 100B or equivalent, EDUC 104, EDUC 109/EDUC 109S, EDUC 110, EDUC 139
7. Recommended Courses LING 020 or LING 021, EDUC 116, EDUC 174, EDUC 175/ EDUC 175S

Mathematics Honors Program

Candidates for the Honors Program in Mathematics must complete

1. Earn an overall GPA of at least 3.50 in Mathematics.
2. Earn a grade of “B” or better in each of MATH 151A, MATH 151B and MATH 151C.
3. Earn a grade of “B” or better in each of MATH 145B and MATH 171 OR in each of MATH 146A, MATH 146B and MATH 146C OR in each of MATH 149A and MATH 149B.
4. Satisfactorily complete one of the following:
 - i) A research project earning a grade of “A” in MATH 197.
 - ii) Two courses chosen from one of the sequences: MATH 201A, 201B, 201C; MATH 205A, MATH 205B, MATH 205C:

MATH 209A, MATH 209B, MATH 209C; MATH 210A, MATH 210B with a grade of "B" or better in each course.

It is the responsibility of the honors candidates to notify the department of their eligibility.

Minor

The following are the requirements for a minor in Mathematics.

1. Lower-division courses (20 units): MATH 007A or MATH 009A or MATH 009HA, MATH 007B or MATH 009B or MATH 009HB, MATH 009C, MATH 010A, MATH 010B
2. Upper-division requirements: 24 units of upper-division mathematics courses. Of the specified upper-division units, a minimum of 16 must be unique to the minor and may not be used to satisfy major requirements and no more than 4 units in courses numbered 190–199.

Students with a minor in Mathematics should consult with a faculty advisor in Mathematics to construct a specific program consistent with their goals.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Programs

The Department of Mathematics offers the M.A., M.S., and Ph.D. degrees in Mathematics.

Admission

Domestic applicants must supply GRE General Test scores (verbal, quantitative, and analytical).

M.A. or M.S. in Mathematics

General university requirements are listed in the Graduate Studies section of this catalog. Specific requirements are as follows:

1. Completion of two of the following sequences: MATH 201A, MATH 201B, MATH 201C; MATH 205A, MATH 205B, MATH 205C; MATH 206A, MATH 206B, MATH 206C, MATH 209A, MATH 209B, MATH 209C; or MATH 210A, MATH 210B, MATH 210C with a grade of "C" or better in each course and a GPA of 3.00 in each chosen sequence
2. As a substitute for one or more course sequences in (1), passing a Ph.D. qualifying examination fulfills the course requirement of the corresponding sequence
3. Taking 36 units of courses numbered

between MATH 110 and MATH 189, or between MATH 200 and MATH 210. At least 18 must be from courses numbered between MATH 200 and MATH 210.

4. Completion of 2 units of MATH 401, Professional Development in Mathematics.

The requirements of 1 and 2 above constitute the comprehensive final examination requirement for the degree.

M.S. in Mathematics (Applied)

General university requirements are listed in the Graduate Studies section of this catalog. Specific requirements are as follows:

1. Completion of two sequences of courses numbered between MATH 206 and MATH 209 with a grade of "C" or better in each course and a GPA of at least 3.00 in each chosen sequence. A sequence consists of all courses with the same course number except for an alphabetical suffix. Any course without an alphabetical suffix is not part of a sequence.
2. As a substitute for one or more course sequences in (1), passing a Ph.D. qualifying examination fulfills the course requirement of the corresponding sequence.
3. Taking 36 units of courses numbered between MATH 110 and MATH 189, or between MATH 200 and MATH 210. At least 18 units must be from courses numbered between MATH 200 and MATH 210.
4. Completion of 2 units of MATH 401, Professional Development in Mathematics.

The requirements of 1 and 2 above constitute the comprehensive final examination requirement for the degree.

Doctoral Degree

The Department of Mathematics offers the Ph.D. degree in Mathematics.

Specific requirements are as follows:

1. Passing four sequences numbered between MATH 200 and MATH 210. A sequence consists of all courses with the same course number except for an alphabetical suffix. Any course without an alphabetical suffix is not part of a sequence.
2. For two of the four chosen sequences in (1), a qualifying examination must be taken. The qualifying examinations, which are associated with two of the year-long sequences, must be passed with a grade of "A".

A student is allowed to take the qualifying examination at most twice for each sequence.

3. Completing four quarter-courses in mathematics numbered between 211 and 259.
4. Completion of 2 units of MATH 401, Professional Development in Mathematics.

Normative Time to Degree

15 quarters

Lower-Division Courses

Mathematics advisory examinations are scheduled before each quarter. The UCR Mathematics Advisory Exam is a prerequisite for students who wish to enroll in math courses but have not received course equivalence in MATH 005, MATH 007A, MATH 008B, MATH

009A, MATH 009HA, MATH 015, MATH 022, or MATH 023.

MATH 002 Math Support Practicum 0 Lecture 4, Activity 4, Prerequisite(s): enrollment in the Summer Bridge MATH 002 program. Covers understanding course content and developing thinking and problem-solving skills. Introduces university life through exposure to test-taking techniques, effective note-taking strategies, time management, and university procedures and practices. Carries workload credit equivalent to 2 units but does not count towards graduation units. Offered in summer only. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of ENGL 002 or MATH 002.

MATH 004 Introduction to College Mathematics For Business and the Social Sciences 5

Lecture, 3 hours; additional lecture, 2 hours. Prerequisite(s): a sufficiently high score on the Mathematics Advisory Examination, as determined by the Mathematics Department. Not open to students in the Bourns College of Engineering or the College of Natural and Agricultural Sciences or to students majoring in Economics or Business Economics. Covers functions and their graphs including linear and polynomial functions, zeroes, and inverse functions as well as exponential, logarithmic, and trigonometric functions and their inverses. Also includes counting including elementary probability. Involves applications to business and social sciences. Credit is awarded for one of the following MATH 004, MATH 005, MATH 006A, or MATH 006B.

MATH 005 Precalculus 5 Lecture, 5 hours. Prerequisite(s): a score of 2 on the AP Calculus AB Exam or a sufficiently high score on the Mathematics Advisory Examination, as determined by the Mathematics Department. A study of inequalities, absolute value, functions, graphing, logarithms, trigonometry, roots of polynomials, counting, vectors, and other elementary concepts of mathematics. Some sections may be offered online. Credit is awarded for only one of MATH 004, MATH 005 or the MATH 006A and MATH 006B sequence.

MATH 006A Introduction to College Mathematics For the Sciences 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a sufficiently high score on the Mathematics Advisory Examination, as determined by the Mathematics Department. A study of functions and their properties and graphs. Topics include linear, rational, polynomial, composite and inverse functions. Explores applications to the natural sciences and engineering. Credit is awarded for only one of MATH 004, MATH 005, or MATH 006A.

MATH 006B Introduction to College Mathematics For the Sciences 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 006A with a grade of C- or better. A study of functions and their properties and graphs. Topics include exponential, logarithmic, and trigonometric functions. Also covers systems of equations and inequalities as well as sequences and series. Explores applications to the natural sciences and engineering. Credit is awarded for one of the following MATH 006B, MATH 004, or MATH 005. Students who took MATH

004 or MATH 005 cannot get credit for MATH 006B.

MATH 007A Calculus For Life

Sciences 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a sufficiently high score on the placement examination, as determined by the Mathematics Department or MATH 005 with a grade of C- or better or MATH 006B with grade of C- or better or equivalent. Introduction to the differential calculus of functions of one variable for students majoring in Life Sciences. Credit is awarded for only one of MATH 007A, MATH 008B, MATH 009A or MATH 09HA.

MATH 007B Calculus For Life

Sciences 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a score of 3 or higher on the AB Advanced Placement Test in Mathematics or MATH 007A with a grade of C- or better or MATH 008B with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of C- or better or equivalent. Introduction to the integral calculus of functions of one variable for students majoring in Life Sciences. Credit is awarded for only one of MATH 007B, MATH 009B or MATH 09HB.

MATH 008A Introduction to College

Mathematics For the Sciences 5 Lecture, 5 hours. Prerequisite(s): a sufficiently high score on the Mathematics Advisory Examination, as determined by the Mathematics Department. Covers functions and their graphs, including linear and polynomial functions, zeroes, and inverse functions as well as exponential, logarithmic and trigonometric functions and their inverses. Also includes counting, including elementary probability. Involves applications to the natural sciences and engineering. Credit is awarded for only one of MATH 004, MATH 005, MATH 008A or the MATH 006A and MATH 006B sequence.

MATH 008B Introduction to College

Mathematics For the Sciences 5 Lecture, 5 hours. Prerequisite(s): MATH 008A with a grade of "C-" or better or a sufficiently high score on the Mathematics Advisory Examination, as determined by the Mathematics Department. Not intended for students who have been awarded a grade of "C-" or better in MATH 005. Involves further study of trigonometry and analytic geometry. Introduction to the differential calculus of functions of a single variable. Credit is awarded for only one of MATH 007A, MATH 008B, MATH 009A, or MATH 09HA. .

MATH 009A First-Year Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): A sufficiently high score on the Mathematics Advisory Examination, as determined by the Mathematics Department or MATH 005 with a grade of "C-" or better or MATH 006B with a grade of "C-" or better or equivalent. Introduction to the differential calculus of functions of one variable. Credit is awarded for only one of MATH 007A, MATH 008B, MATH 009A, or MATH 09HA.

MATH 009B First-Year Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): A score of 3 or higher on the AB Advanced Placement Test in Mathematics or MATH 007A or MATH 008B or MATH 009A or MATH 09HA with a grade of "C-" or better or equivalent.

Introduction to the integral calculus of functions of one variable. Credit is awarded for only one of MATH 009B or MATH 09HB.

MATH 009C First-Year Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a score of 3 or higher on the Advanced Placement exam for Calculus BC, MATH 007B or MATH 009B or MATH 009HB with a grade of "C-" or better. Further topics from integral calculus, improper integrals, infinite series, Taylor's series, and Taylor's theorem. Credit is awarded for only one of MATH 009C or MATH 09HC.

MATH 09HA First-Year Honors

Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a sufficiently high score on the placement examination, as determined by the Mathematics Department. Honors course corresponding to MATH 009A for students with strong mathematical backgrounds. Introduces the differential calculus of functions of one variable. Emphasis is on theory and rigor. Credit is awarded for only one of MATH 007A, MATH 008B, MATH 009A, or MATH 09HA.

MATH 09HB First-Year Honors

Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a score of 3 or higher on the AB Advanced Placement Test in Mathematics or MATH 09HA with a grade of "B" or better. Honors course corresponding to MATH 009B for students with strong mathematical backgrounds. Introduces the integral calculus of functions of one variable. Emphasis is on theory and rigor. Credit is awarded for only one of MATH 007B, MATH 009B or MATH 09HB.

MATH 09HC First-Year Honors

Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 09HB with a grade of "B" or better. Honors course corresponding to MATH 009C for students with strong mathematical backgrounds. Covers further topics from integral calculus, improper integrals, infinite series, Taylor's series, and Taylor's theorem. Emphasis is on theory and rigor. Credit is awarded for only one of MATH 009C or MATH 09HC.

MATH 010A Calculus of Several

Variables 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB with a "C-" or better or equivalent. Topics include Euclidean geometry, matrices and linear functions, determinants, partial derivatives, directional derivatives, Jacobians, gradients, chain rule, and Taylor's theorem for several variables.

MATH 010B Calculus of Several

Variables 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better or equivalent. Covers vectors; differential calculus, including implicit differentiation and extreme values; multiple integration; line integrals; vector field theory; and theorems of Gauss, Green, and Stokes.

MATH 011 Introduction to Discrete

Structures 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007A or MATH 008B or MATH 009A or MATH 09HA; CS 010 or MATH 007B or MATH 009B or MATH 09HB. Introduction to basic concepts of discrete mathematics emphasizing applications to computer science. Topics include propositional and predicate calculi, elementary set theory,

functions, relations, proof techniques, elements of number theory, enumeration, and discrete probability. Cross-listed with CS 011.

MATH 022 Calculus For Business 5 Lecture, 3 hours; discussion, 2 hours. Prerequisite(s): a sufficiently high score on the placement examination, as determined by the Mathematics Department, or MATH 004 with a grade of "C-" or better or MATH 005 with a grade of "C-" or better or MATH 008A with a grade of "C-" or better or MATH 006B with a grade of "C-" or better. Explores relations and functions (e.g. linear, polynomial, logarithmic, and exponential). Addresses differential calculus of functions of one and two variables, as well as integration (indefinite and definite) with applications to business and economic problems. Credit is not awarded for MATH 022 if a grade of "C-" or better has already been awarded for MATH 007A, MATH 008B, MATH 009A, or MATH 09HA.

MATH 031 Applied Linear Algebra 5 Lecture, 3 hours; discussion, 2 hours. Prerequisite(s): MATH 007A or MATH 008B or MATH 009A or MATH 09HA with a grade "C-" or better and CS 010 or MATH 007B or MATH 009B or MATH 09HB with a grade of "C-" or better. A study of matrices and systems of linear equations, determinants, Gaussian elimination, vector spaces, linear independence and linear transformation, orthogonality, eigenvalues, and eigenvectors. Also examines selected topics and applications.

MATH 046 Introduction to Ordinary Differential Equations 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB with a grade of "C-" or better or equivalent. Introduction to first-order equations, linear second-order equations, and Laplace transforms, with applications to the physical and biological sciences.

Upper-Division Courses

Courses numbered MATH 100–109 do not meet upper-division mathematics requirements.

MATH 120 Optimization 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better; MATH 031 with a grade of "C-" or better. Introduction to classical optimization including unconstrained and constrained problems in several variables, Addresses Jacobian and Lagrangian methods and the Kuhn-Tucker conditions. Covers the basic concepts of linear programming including the simplex method and duality with applications to other subjects.

MATH 121 Game Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better. Examines games in extensive, normal, and characteristic form as models of conflict and/or cooperation. Covers two-person zero-sum games, minimax theorem, and relation to linear programming. Includes non-zero-sum games, Nash equilibrium theorem, bargaining, the core, and the Shapley value. Addresses economic market games.

MATH 126 Combinatorics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 011/CS 011 with a grade of "C-" or better. A study of elements of combinatorics theory. Topics

include chromatic polynomials, enumerating partitions of sets and integers, asymptotic enumeration, Polya theory, and Ramsey theory.

MATH 131 Linear Algebra I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better (may be taken concurrently); MATH 031 with a grade of "C-" or better. An introduction to vector spaces, matrices, and linear transformations.

MATH 132 Linear Algebra II 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 131 with a grade of "C-" or better or equivalent. Further study of topics in linear algebra including eigenvalues. Exploration of Hermitian and unitary matrices, positive definite matrices, and canonical forms.

MATH 133 Geometry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 031 with a grade of "C-" or better, or consent of instructor. Analyzes elementary theory of affine and projective planes, the line at infinity, finite geometries, Euclidean and non-Euclidean geometries, groups of transformations, and other algebraic structures related to geometry.

MATH 135A Introduction to Numerical Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 010 or equivalent with a grade of "C-" or better; MATH 031 with a grade of "C-" or better (may be taken concurrently). A study of numerical methods for determining solutions to nonlinear equations and simultaneous linear equations. Topics also include interpolation, techniques of error analysis, and computer applications.

MATH 135B Introduction to Numerical Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 135A with a grade of "C-" or better. A continuation of MATH 135A. Explores numerical methods, numerical integration, and the numerical solution of ordinary differential equations.

MATH 136 Introduction to the Theory of Numbers 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 031 with a grade of "C-" or better. Covers prime and composite integers, number theoretic functions, diophantine equations, congruences, quadratic reciprocity, and additive arithmetic.

MATH 137 Plane Curves 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 031 with a grade of "C-" or better; MATH 171 and MATH 172 with a grade of "C-" or better are recommended. A study of the complex projective plane, homogeneous polynomials, plane curves, intersection multiplicities, and Bezout's theorem.

MATH 138A Introduction to Differential Geometry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH010A, MATH 031 with a grade of "C-" or better. Examines elementary theory of curves and surfaces. Includes first and second fundamental forms.

MATH 138B Introduction to Differential Geometry 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better, MATH 138A with a grade of "C-" or better. Covers Gaussian curvature, geodesics, and the Gauss-Bonnet Theorem.

MATH 140 Polynomials and Number Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 011/MATH 011 with a grade of "C-" or better; MATH 031 with a grade of "C-" or better. Topics include number systems, elementary number theory, rings, fields, polynomials, congruencies, and applications of finite fields.

MATH 141 Fractal Geometry With Applications 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better, MATH 046 with a grade of "C-" or better, concurrent enrollment or completion of MATH 144 with a grade of "C-" or better; or consent of instructor. Covers classical fractals; fractal dimensions; self-similar fractals; fractal curves and sets; random fractals; chaotic dynamics and fractals; iteration theory; Julia set; and the Mandelbrot set. Explores the beauty of fractals; mathematical description of irregular shapes (clouds, trees, coastlines, mountains, galaxies, lungs, snowflakes); and applications to physics, engineering, biology, and computer graphics.

MATH 144 Introduction to Set Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better. Covers algebra of subsets of a set. Addresses algebra of relations and functions. Explores cardinal and ordinal numbers and their arithmetic operations. Includes the well-ordering theorem, transfinite induction, and Zorn's lemma.

MATH 145A Introduction to Topology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 144 with a grade of "C-" or better. Addresses elementary topology in metric spaces.

MATH 145B Introduction to Topology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 145A with a grade of "C-" or better. Explores geometric topology, algebra associated with finite complexes, and applications.

MATH 146A Ordinary and Partial Differential Equations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C or MATH 09HC with a grade of "C-" or better; MATH 010A with a grade of "C-" or better; MATH 031 (may be taken concurrently) with a grade of "C-" or better or equivalent; MATH 046 with a grade of "C-" or better. Focuses on the theory of linear differential equations and transform methods.

MATH 146B Ordinary and Partial Differential Equations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 146A with a grade of "C-" or better. Further study of the theory of linear differential equations and problems in valuing ordinary differential equations.

MATH 146C Ordinary and Partial Differential Equations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better, MATH 146B with a grade of "C-" or better. Explores boundary value problems for partial differential equations, orthogonal expansions, and separation of variables.

MATH 147 Introduction to Fourier Analysis and its Applications 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C or MATH 09HC with a grade of "C-" or better; MATH 010B with a grade of "C-" or better; MATH 031

with a grade of "C-" or better (may be taken concurrently); MATH 046 or MATH 146A with a grade of "C-" or better. Covers Fourier series expansions of periodic functions, properties, and convergence; the Dirichlet kernel; Fourier integrals and the Fourier transform in one and several variables; the Plancherel theorem; and Fourier inversion. Includes applications of Fourier analysis (e.g., to spectral theory, numerical analysis, ordinary and partial differential equations, and wavelet transform).

MATH 148 Introduction to Chaotic and Complex Dynamical Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better; MATH 031 with a grade of "C-" or better; MATH 046 or MATH 146A with a grade of "C-" or better; or consent of instructor. Explores examples of dynamical systems, quadratic maps, maps of the circle, and higher-dimensional examples. Includes symbolic dynamics, Sarkovskii's theorem, hyperbolicity, and structural stability. Introduces chaotic dynamical systems and the period doubling route to chaos. Also introduces basic notions from complex dynamics. Includes the Julia set and the Mandelbrot set.

MATH 149A Probability and Mathematical Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better, MATH 010B with a "C-" or better, concurrent enrollment in or completion of MATH 046 with a grade of "C-" or better. An introduction to the mathematical theory of probability and discrete and continuous distributions.

MATH 149B Probability and Mathematical Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A with a grade of "C-" or better, MATH 010B with a grade of "C-" or better, MATH 046 with a grade of "C-" or better, MATH 149A with a grade of "C-" or better. A continuation of MATH 149A. Topics include sampling and limit distributions.

MATH 150A Intermediate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C or MATH 09HC with a grade of "C-" or better; MATH 010B with a grade of "C-" or better; MATH 144 with a grade of "C-" or better; or consent of instructor. A study of the concepts and theory of single-variable calculus. Covers sequences through the fundamental theorem of calculus. Introduces sequences and series, continuity, differentiation, and integration. Credit is awarded for only one of MATH 150A or MATH 151A.

MATH 150B Intermediate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 131 with a grade of "C-" or better; MATH 150A or MATH 151A with a grade of "C-" or better. MATH 132 with a grade of "C-" or better is recommended. A study of infinite series and multivariable advanced calculus. Credit is awarded for only one of MATH 150B or MATH 151B.

MATH 151A Advanced Calculus 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better, MATH 046 with a grade of "C-" or better, MATH 145A with a grade of "C-" or better; or consent of instructor. Addresses the development of mathematical analysis. Also covers real and complex numbers,

sequences and series, continuity, differentiation, and the Riemann-Stieltjes integral. Credit is awarded for only one of MATH 150A or MATH 151A.

MATH 151B Advanced Calculus 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 151A with a grade of "C-" or better. A continuation of MATH 151A. Topics include sequences and series of functions, as well as functions of several variables. Credit is awarded for only one of MATH 150B or MATH 151B.

MATH 151C Advanced Calculus 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better; MATH 046 with a grade of "C-" or better; MATH 131 with a grade of "C-" or better; MATH 145A with a grade of "C-" or better; MATH 151B with a grade of "C-" or better. A continuation of MATH 151B. Further study of several variables, integration of differential forms, and Lebesgue integration.

MATH 153 History of Mathematics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 009C with a grade of "C-" or better or consent of instructor. A survey from a historical point of view of various developments in mathematics. Emphasizes the nineteenth and early twentieth centuries.

MATH 165A Introduction to Complex

Variables 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better. An introduction to the theory of analytic functions of a complex variable. Includes mappings by elementary functions and complex integrals, as well as Cauchy's theorem, power series, and Laurent series.

MATH 165B Introduction to Complex

Variables 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of "C-" or better, MATH 165A with a grade of "C-" or better. Topics include the theory of residues, conformal mapping, and applications to physical problems.

MATH 168 Introduction to Mathematical Modeling 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 146A. A detailed study of how mathematical methods are applied to specific problems in the sciences and engineering fields. Utilizes examples taken from the theories of mechanical vibrations, population dynamics, and flow phenomena.

MATH 171 Introduction to Modern

Algebra 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 131 with a grade of "C-" or better, MATH 144 with a grade of "C-" or better. An introduction to the fundamental concepts of modern algebra. Covers groups, subgroups, quotient groups, homomorphisms, symmetry groups, fundamental properties of rings, integral domains, ideals, and quotient rings.

MATH 172 Modern Algebra 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 171 with a grade of "C-" or better. Covers fundamental concepts of modern algebra. Includes groups, fields, polynomials, geometric constructions, algebraic coding, and boolean algebras.

MATH 190 Special Studies 1 to 5 Tutorial, 3

to 15 hours. To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable.

MATH 194 Independent Reading 1 to 2 Tutorial 3 to 6 hours. Independent reading in materials not covered in course work. Normally taken in the senior year. Total credit for MATH 194 may not exceed 4 units.

MATH 197 Research For Undergraduates 1

to 4 Research, 3 to 12 hours. Prerequisite(s): upper-division standing; consent of instructor. Involves a research project on a problem in, or related to, mathematics conducted under the supervision of a Mathematics faculty member. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 8 units.

MATH 198I Internship in Mathematics 1 to

4 variable hours. Prerequisite(s): upper-division standing, with at least 12 units of upper-division credits toward the major. An academic internship to provide the student with career experience as a mathematician in a governmental, industrial, or research unit under the joint supervision of an off-campus sponsor and a faculty member in Mathematics. Each individual program must have the prior approval of both supervisors and the department chair. A final written report is required. Graded Satisfactory (S) or No Credit (NC). May be repeated for a total of 8 units.

Graduate Courses

MATH 201A Algebra 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 171, MATH 172, or equivalents. Topics include basic theory of groups and rings, the Sylow theorems, solvable groups, and the Jordan-Hölder theorem.

MATH 201B Algebra 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201A. Topics include rings, the functors hom and tensor , modules over a principal ideal domain, and applications to matrices.

MATH 201C Algebra 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201B. Topics include algebraic and transcendental extensions of fields and the Galois theory, and the tensor and exterior algebras.

MATH 202 Numerical Linear Algebra 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 132. Covers standard decompositions of matrices and their computational uses, conditioning data, stability of solutions, and effective numerical methods for computing eigenvalues.

MATH 205A Topology 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 145B or equivalent. An introduction to pointset topology.

MATH 205B Topology 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 205A or equivalent. Covers homotopy theory and homology theory.

MATH 205C Topology 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 205A, MATH 205B, or equivalents. Covers differential

topology.

MATH 206A Theory of Probability 4 Lecture, 3 hours; individual study, 2 hours, written work, 4 hours. Prerequisite(s): MATH 149A or equivalent; or consent of instructor. Introduces probability theory from the measure-theoretic perspective. Topics include construction of independent random variables, laws of large numbers, central limit theorems, and concentration of measure of sums of independent variables.

MATH 206B Numerical Analysis 4 Lecture, 3 hours; individual study, 2 hours, written work, 4 hours. Prerequisite(s): MATH 135A or equivalent; or consent of instructor. An introduction to numerical analysis. Topics include numerical solution of nonlinear differential equations, numerical linear algebra, interpolation and extrapolation, numerical differentiation and integration, initial value problems and boundary value problems of ordinary differential equations and approximation theory.

MATH 206C Method of Applied

Mathematics 4 Lecture, 3 hours; individual study, 2 hours, written work, 4 hours. Prerequisite(s): MATH 146A; MATH 150A or MATH 151A; or consent of instructor. Introduction of basic applied to mathematics methods including variational methods with examples from mechanics, ordinary differential equations, bifurcation theory and perturbation methods.

MATH 207A Ordinary Differential

Equations 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 146B, MATH 151B; or consent of instructor. Covers existence, uniqueness, and stability of solutions to ordinary differential equations. Addresses important examples, dynamical flows associated to solutions, stable and unstable manifold phenomena, and boundary value problems. Also includes Lyapunov functions, Poincaré Map, and Sturm-Liouville Boundary Value Problems.

MATH 207B Partial Differential Equations

I 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 010B, MATH 151B; or consent of instructor. Discusses various methods used in the study of partial differential equations (PDEs). Addresses energy estimates, characteristics, similarity solutions, numerics, and fundamental solutions. Focuses on concrete examples of PDEs including conservation laws, the transport equation, the heat equation, the porous media equation, the Navier-Stokes equation, the Laplace equation, and the wave equation.

MATH 207C Partial Differential Equations

II 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 207B; or consent of instructor. A continuation of MATH 207B. Discusses various problems and methods in the study of partial differential equations (PDEs). Topics include Green's functions, boundary value problems, regularity of solutions, eigenvalue problems, energy methods, and variational methods.

MATH 209A Real Analysis 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 151C. Topics include Lebesgue measure, integration, and differentiation.

MATH 209B Real Analysis 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 209A. Topics include representation theorems, Hilbert space, Lebesgue spaces, and Banach spaces.

MATH 209C Real Analysis 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 209B. Topics include complex measures, general measure spaces, integration on product spaces, and Lebesgue spaces.

MATH 210A Complex Analysis 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 151C, MATH 165A. Studies include complex analytic functions, Cauchy's theorem, Cauchy's integral formula and the Laurent series, and the residue theorem.

MATH 210B Complex Analysis 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 210A. Studies include entire and meromorphic functions, normal families and the Riemann mapping theorem, and harmonic functions and the Dirichlet problem.

MATH 210C Complex Analysis (Riemann Surfaces) 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): MATH 210B; graduate standing, or consent of instructor. Studies Riemann surfaces and their origins, analytic and meromorphic functions on Riemann surfaces, the topology of surfaces, and calculus on surfaces. Also covers the Laplace operator and Hodge theory on Riemann surfaces, the Riemann-Roch formula, the uniformization theorem, and other selected topics.

MATH 211A Ordinary Differential Equations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 146B, MATH 151C. Covers the existence and uniqueness of solutions; linear differential equations; singularities of the first and second kind; self-adjoint eigenvalue problems on a finite interval; and singular self-adjoint boundary-value problems for second-order equations.

MATH 211B Ordinary Differential Equations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 211A. Topics include the method of averaging and numerical integration, autonomous systems, the method of Liapounov, and stability for linear systems.

MATH 212 Partial Differential Equations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 151C and MATH 165A. Classical theory of initial and boundary value problems for hyperbolic, parabolic and elliptic partial differential equations.

MATH 216A Combinatorial Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 111. Addresses the solving of combinatorial problems by studying their morphisms (transformations preserving the problem). Covers optimum path problems and their variants. Develops general techniques and the ability to work through the solutions of challenging special cases. Focuses on utilizing symmetry to systematically reduce a problem.

MATH 216B Combinatorial Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 216A. Addresses the solving of combinatorial problems by studying their morphisms

(transformations preserving the problem). Covers optimum flow problems. Develops general techniques and work through the solutions of challenging special cases. Particular focus given to utilizing symmetry to systematically reduce a problem.

MATH 217 Topics of Probability Theory 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 206A. Topics include independence, strong limit theorems including the strong law and the Kolmogorov three-series theorem, weak law and the central limit theorem, the Helley-Bray theorem, and Bochner's theorem on positive definite functions.

MATH 221 Several Complex Variables 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 151A, MATH 151B, MATH 165A, MATH 165B. Hartog's theorems, domains of holomorphy, pseudoconvexity, Levi's problem, coherent analytic sheaves, Cartan's theorems A and B.

MATH 222 Algebraic Groups 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201B, MATH 205A. Introduction to linear algebraic groups, structure, and representation.

MATH 223 Algebraic Number Theory 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201A. Topics include algebraic number theory, principal ideal domains, integral independence, algebraic number fields, classical ideal theory in Dedekind domains, classes of ideals, valuations, and p -adic numbers.

MATH 224 Introduction to Homological Algebra 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201C or consent of instructor. Theory of derived functors and its application to rings and associative algebras.

MATH 225 Commutative Algebra 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201C. Covers basic theory of commutative rings, primary decomposition, integral dependence and valuation rings, and the intersection theorem of Krull.

MATH 226 Algebraic Analysis 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201B, MATH 205A. Introduction to the theory of modules over rings of differential operators. Topics include holonomic D -modules, functorial properties, and applications.

MATH 227A Lie Algebras 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201A, MATH 201B. Studies include basic definitions, solvable and nilpotent Lie algebras, and structure and classification of semisimple Lie algebras.

MATH 227B Lie Algebras 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 227A. Studies include enveloping algebras and representation theory, representations of semisimple Lie algebras, generalization to Kac-Moody Lie algebras, and modular Lie algebras.

MATH 228 Functional Analysis 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 209A, MATH 209B, MATH 209C. Topological linear spaces; function spaces; linear operators; spectral theory; operational calculus; and further selected topics.

MATH 230 Deformation Theory 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201B, MATH 232B. Introduction to deformation quantization. Topics include Hochschild complexes of associative algebras, differential graded Lie algebras, quasi-isomorphisms, Kontsevich's formality theorem, and star-products.

MATH 232A Geometry I (Introduction to Manifolds) 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 131 and MATH 151C. Basic notions and examples; vector fields and flows; tensors and vector bundles; differential forms, integration and deRham's theorem.

MATH 232B Geometry II (Introduction to Differential) 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 232A. Local and global theory of curves. Surfaces in R^3 : the Gauss map, fundamental forms, curvature. Riemannian geometry: the Levi-Civita connection, curvature, geodesics, exponential map, completeness, Gauss-Bonnet theorem for surfaces.

MATH 233 Comparison Geometry 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 232B or consent of instructor. Explores the question of how curvature affects topology.

MATH 241 Mathematical Physics: Classical Mechanics 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 205A, MATH 205B, MATH 205C; or PHYS 205; or consent of instructor. Hamilton's principle of least action. Variational methods and Lagrange's equations. Hamilton's equations. Introduction to symplectic geometry and its applications to classical mechanics. Poisson brackets. Conserved quantities and Noether's theorem. Examples of Hamiltonian and dissipative dynamical systems. Introduction to classical chaos.

MATH 242 Mathematical Physics: Quantum Mechanics 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 209A, MATH 209B, MATH 209C, MATH 228; or consent of instructor. Foundations of quantum theory together with the relevant mathematics. Probabilistic interpretation of quantum mechanics, self-adjoint operators and physical observables, noncommutativity and the uncertainty principle. Spectral theory for (unbounded) self-adjoint operators. Stone's theorem and other topics.

MATH 243A Algebraic Geometry 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 201A, MATH 201B. Topics include algebraic varieties in affine and projective space and their basic attributes such as dimension, degree, tangent space, and singularities; and products, mappings, and correspondences.

MATH 243B Algebraic Geometry 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 243A. Topics include further study of varieties, sheaves, and cohomology and detailed study of curves and special topics.

MATH 245 Analytic Number Theory 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 165B, MATH 209A; or consent of instructor. Explores the key structures of analytic number theory. Addresses the theory of the

Riemann zeta function: functional equation, analytic continuation, and zero-free regions. Illustrates application to the prime number theorem. Considers the Mellin transform and other Dirichlet series, including Dirichlet L-functions.

MATH 246A Algebraic Topology 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 205A; MATH 205B or equivalent. Topics include simplicial and cell complexes, polyhedra, manifolds, homology and cohomology theory, and homotopy theory.

MATH 246B Algebraic Topology 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 246A. Covers topics such as topological indices, Lefschetz fixed point theory, Poincaré duality, vector bundles and characteristic classes, and transformation groups.

MATH 247 Theory of Distributions and Applications 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 146A, MATH 209C; or consent of instructor. Explores approximation of differentiable functions. Addresses theory of distributions, including basic properties, differentiation, and key operations. Covers applications to multivariable calculus and classical equations of mathematical physics. Examines particular spaces of distributions; convolution and Fourier transform; fractional differentiation; Fourier integral operators; and pseudo differential operators.

MATH 248 Harmonic Analysis and Applications 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 146C, MATH 165B, MATH 209C; or consent of instructor. A study of Fourier series. Includes summability methods, kernels, Fourier transform, unitarity, applications to the uncertainty principle, and distributional Fourier transform. Introduces Hardy spaces, singular integral operators, and wavelet theory and its applications. Other topics include interpolation of linear operators and spectral analysis and applications.

MATH 249 Introduction to Dynamical Systems 4 Lecture, 3 hours, outside research, 3 hours. Prerequisite(s): MATH 146B; MATH 151C; MATH 205C or MATH 232A; or consent of instructor. Explores diffeomorphisms and flows, Poincaré maps, and Hamiltonian flows. Includes hyperbolicity, homoclinic points, center manifold theorem, structural stability, and Hopf bifurcations. Explores the Poincaré-Birkhoff theorem, basin of attraction and strange attractors, and Lyapunov exponents and entropy. Introduces chaotic dynamical systems, KAM theory, and complex dynamics.

MATH 260 Seminar 1 to 4 Variable hours. Prerequisite(s): consent of department. Seminar on special topics of mathematics in preparation for individual research. Course is repeatable.

MATH 289 Colloquium in Mathematics 1 Colloquium, 1 hour. Prerequisite(s): graduate standing. Specialized discussions by staff, students and visiting scientists on current research topics in Mathematics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MATH 290 Directed Studies 1 to 6 Tutorial, 3 to 18 hours. Prerequisite(s): consent of instructor.

Research and special studies in mathematics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MATH 291 Individual Study in Coordinated Areas 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing in Mathematics or consent of instructor. Designed to advise and assist candidates with exam preparation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable prior to successful completion of the qualifying examination for M.A. and M.S. students to a maximum of 6 units and for Ph.D. students to a maximum of 12 units.

MATH 297 Directed Research 1 to 6 Research, 3 to 18, hours. Prerequisite(s): consent of department. Directed research in mathematics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable more than once per quarter if studying with two or more faculty members.

MATH 299 Research For Thesis Or Dissertation 1 to 12 Thesis, 3-36 hours. Prerequisite(s): consent of department. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

MATH 302 Apprentice Teaching 2 to 4 Lecture, 0 to 1 hour; seminar, 2 to 4 hours; consultation, 1 to 2, Prerequisite(s): graduate standing. Supervised training for teaching in lower- and upper-division Mathematics courses. Modern trends in mathematical pedagogy at the college level. Covers instructional methods and classroom/section activities most suitable for teaching Mathematics. Designed for new graduate students in the Mathematics Department. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MATH 401 Professional Development in Mathematics 2 Lecture, 1 hour; consultation, 1 hour. Prerequisite(s): graduate standing in Mathematics. Includes professional and research ethics, scientific writing and publications, oral presentation skills, career options in academia, and nonacademic careers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

 Wei Ren, Ph.D. (Electrical and Computer Engineering)

Major

The design and production of machines requires a broad-based education. The Mechanical Engineering degree program has been structured to provide the necessary background in chemistry, physics, and advanced math to achieve success in the advanced engineering subjects. In addition, students are taught the basics of Mechanical Engineering while learning about the latest developments and experimental techniques.

The Mechanical Engineering Program Educational Objectives are to prepare graduates to make a positive impact on society by being successful in:

- careers as mechanical engineers and as engineering leaders
- graduate studies and research
- professional careers besides mechanical engineering
- advocating for the engineering profession and inspiring others to develop a passion for engineering profession.

The Mechanical Engineering B.S. degree program at UCR is accredited by the Engineering Accreditation Commission of ABET, abet.org. For more details see me.ucr.edu.

All undergraduates in the College of Engineering must see an advisor at least annually. Visit student.engr.ucr.edu for details.

University Requirements

See Undergraduate Studies section.

College Requirements

See The Marlan and Rosemary Bourns College of Engineering, Colleges and Programs section.

The Mechanical Engineering major uses the following major requirements to satisfy the college's Natural Sciences and Mathematics breadth requirement.

1. BIOL 005A, BIOL 05LA
2. MATH 008B or MATH 009A
3. PHYS 040A, PHYS 040B, PHYS 040C

Major Requirements

1. **Lower-division requirements** (75 units)
 - a) BIOL 005A, BIOL 05LA
 - b) CHEM 001A, CHEM 001B, CHEM 01LA, CHEM 01LB
 - c) EE 001A, EE 01LA
 - d) MATH 008B or MATH 009A, MATH 009B, MATH 009C, MATH 010A, MATH 010B, MATH 046
 - e) ME 002, ME 009, ME 010, ME 018A, ME 018B
 - f) PHYS 040A, PHYS 040B, PHYS 040C
2. **Upper-division requirements** (77 units)
 - a) ME 100A, ME 103, ME 110, ME 113, ME 114, ME 116A, ME 118, ME 120, ME 135, ME 170A, ME 170B, ME 174, ME 175A, ME 175B, ME 175C
 - b) STAT 100A
 - c) Choose one Focus Area:
 - (1) Materials and Structures
Sixteen (16) units of technical electives chosen from ME100B, ME116B, ME121, ME122, ME134/MSE134, ME153, ME156, ME180, ME197
 - (2) Energy and Environment
Sixteen (16) units of technical electives chosen from ME 100B, ME 116B, ME 117, ME 136, ME 137, ME 138, ME 197
 - (3) Design and Manufacturing
Sixteen (16) units of technical electives chosen from ME 121, ME 122, ME 130, ME 131, ME 133, ME 140, ME 144/EE 144, ME 145, ME 153, ME 156, ME 175D, ME 176, ME 180, ME 197
 - (4) General Mechanical Engineering
Sixteen (16) units of technical electives chosen from the following list, in consultation with an advisor: ME 100B, ME 116B, ME 117, ME 121, ME 122, ME 130, ME 131, ME 133, ME 134/MSE 134, ME 136, ME 137, ME 138, ME 140, ME 144/EE 144, ME 145, ME 153, ME 156, ME 175D, ME 176, ME 180, ME 197

Visit the Student Affairs Office in the College of Engineering or student.engr.ucr.edu for a sample program.

Graduate Program

The Department of Mechanical Engineering offers graduate educational programs leading to M.S. and Ph.D. degrees in Mechanical Engineering. Broad areas of research include

1) mechanics and materials, 2) fluids and thermal sciences and 3) information computation and design. Specific research focus areas include the following:

- Air quality, small and large-scale pollutant dispersion in urban flows, turbulent combustion and wildland fire behavior, engine emissions and nanoparticle science, thermal and electrical properties of nanowires and nanotubes, direct energy conversion, porous media and multiphase transport, bioheat transfer, biomedical optics, and medical laser applications
- Wafer fab processing, thin film mechanics and nanotechnology, bio-inspired materials, mechanical behavior of thin films and other small-featured structures, mechanics of interfaces and surfaces, mechanical properties of carbon nanotubes and ferroelectric/piezoelectric materials, sensing and imaging, mechanics of geophysical materials, advanced material synthesis, composites, MEME, BioMEMS, biomedical devices, and processing of nanocrystalline materials
- Artificial intelligence, computer-aided design or manufacturing, process planning, sensor networks, and distributed computing and control

Visit me.ucr.edu/programs/gradindex.html, for detailed information on the research programs of individual faculty members.

Combined B.S. + M.S. Five-Year Program

The college offers a combined B.S. + M.S. program in Mechanical Engineering designed to lead to a Bachelor of Science degree as well as a Master of Science degree in five years. Applicants for this program must have a high school GPA above 3.6, a combined SAT Reasoning score above 1950 (or ACT plus Writing equivalent), complete the Entry Level Writing Requirement before matriculation, and have sufficient mathematics preparation to enroll in calculus in their first quarter as freshmen. Eight units of technical electives will count in both programs, reducing the total number of units required for the MS degree.

Interested students who are entering their junior year should check with their academic advisor for information on eligibility and other details.

Admission

In addition to the following requirements, all applicants must meet the general requirements of the Riverside Division of the Academic Senate and the UCR Graduate Council as set forth in this catalog under the Graduate Studies section.

Language Requirement

All international students whose first language is not English must demonstrate proficiency in spoken English by securing at least a "conditional pass" score on the TAST or SPEAK test before they can be appointed as a TA. However, to be considered for subsequent TA appointments, they must secure a "clear pass" on the TAST or SPEAK. The fee associated with this test is paid by the department for the first attempt only. The TAST or SPEAK requirement is, however, waived for international students who are appointed as GSRs or are self-supported throughout their studies at UCR.

Master's Degree

The Department of Mechanical Engineering offers the M.S. degree in Mechanical Engineering.

Admission

Applicants should have an undergraduate degree in engineering, physical sciences, or mathematics; a satisfactory GPA for the last two years of their undergraduate studies; and high scores on the GRE General Test. All official transcripts, official GRE reports and three letters of recommendation must be submitted for evaluation. Foreign students and permanent residents whose first language is not English must also submit an acceptable TOEFL test score prior to admittance; the minimum TOEFL exam score is 550 (paper-based), 213 (computer-based), or 80 (Internet-based).

The M.S. degree in Mechanical Engineering can be earned by either completing a thesis (Plan I), which reports a creative investigation of a defined problem, or passing a comprehensive examination (Plan II). A minimum of three quarters of residency is required. Students should enroll in 12 units each quarter unless the graduate advisor grants an exception.

Course work used to satisfy the student's undergraduate degree requirements may not be applied toward the 36-unit M.S. requirement.

Plan I (Thesis)

Requires completion of a minimum of 36 units of upper-division and graduate-level approved course work and submission of an acceptable thesis. At least 24 of these units must be in graduate courses (200-series courses), a minimum of sixteen of these units being Mechanical Engineering graduate courses (ME 200 or higher, excluding ME 250, ME 290, ME 297, ME 298I, and ME 299). The student must take at least 3 units of seminar (ME 250) and at least 7 but no more than 11 units of directed or thesis research credits (ME 297 or ME 299). No more than 8 units of course work may be satisfied with directed studies (ME 290) or individual internship (ME 298I). Students must defend the thesis.

An acceptable M.S. thesis must be submitted. The M.S. thesis may be based on:

1. A research or advanced design project, either analytical, computational or experimental;
2. An extensive report consisting of theoretical, computational or experimental contribution to mechanical engineering.

The student's M.S. Thesis Committee is responsible for approving the thesis. The thesis committee is composed of three members (including the research advisor).

Plan II (Comprehensive Examination)

Requires completion of a minimum of 36 units of upper-division and graduate-level approved course work and successfully passing a comprehensive examination. At least 24 of these units must be in graduate courses (200 series courses), a minimum of sixteen of these units being Mechanical Engineering graduate courses (ME 200 or higher, excluding ME 250, ME 290, ME 297, ME 298I, and ME 299). The student must take 1 unit of seminar (ME 250) and no more than 7 units of directed studies (ME 290) or individual internship (ME 298I). The compre-

hensive examination covers a broad range of topics chosen from upper-division and graduate courses the student has taken. This examination is prepared and administered by the graduate program committee. It is held during the spring quarter of every year.

Normative Time to Degree

Two years

Refer to the department's graduate program guidelines for further details.

Doctoral Degree

The Department of Mechanical Engineering offers the Ph.D. degree in Mechanical Engineering.

Admission

An M.S. or equivalent degree in engineering or physical sciences or mathematics is normally required for admission to the Ph.D. program, although applicants with exceptional undergraduate or research record may be admitted directly into the Ph.D. program without an M.S. degree. Applicants for the Ph.D. degree must also meet the same requirements as for the master's programs. Students in the M.S. program of Mechanical Engineering who desire to pursue the Ph.D. degree must formally apply for admission to the Ph.D. program.

The procedure for satisfying the requirements for the Ph.D. degree in Mechanical Engineering at UCR consists of four principal parts:

1. Successful completion of an approved program of course work below
2. Passing a written and oral preliminary examination
3. Successful oral defense of a written dissertation proposal
4. Defense and approval of the dissertation

Course Work

A course work plan should be formulated by the student and his/her faculty advisor within the first quarter after admission to the Ph.D. program and must be approved by the student's Ph.D. advisor and Ph.D. Examination Committee. It is understood that changes to this may occur as the student's research progresses. These changes should be documented after consultation with the Ph.D. advisor and Ph.D. Examination Committee.

Core Course Work

Before the oral defense of the dissertation proposal at least 24 units of course work must be completed. This is excluding seminar and research credits. Of these a minimum of eight graduate units must be in Mechanical Engineering courses (ME 200 or higher, excluding ME 250, ME 290, ME 297, ME 298-I, and ME 299). To meet this requirement by the end of the first year students must take at least eight units of course work per quarter. Typically students also enroll in ME 250 and ME 297 units their first year. The student may be advised to take additional courses prior to advancement to candidacy.

Seminar Requirement

The student must also complete 6 units of ME 250 (seminar) prior to graduation. One unit of ME 250 is offered each quarter. These units do not have to be completed before the dissertation proposal defense.

Research Units

At least 36 units of directed or thesis research credits (ME 297 or ME 299) must be taken prior to graduation.

Courses taken as part of the Ph.D. requirement in Mechanical Engineering at UCR can be used to satisfy the course requirements for an M.S. in Mechanical Engineering at UCR and vice versa.

Normative Time to Degree

Five years

Refer to the department's graduate program guidelines for further details

Written and Oral Preliminary Examination

The examination aims to screen candidates for pursuing doctoral studies. It is administered by the graduate program committee and is composed of two sessions:

Session 1: Written Examination

Session 2: Oral Examination

Normally, both sessions are completed within a four-week period. The written examination is designed to test understanding of graduate-level mechanical engineering concepts and methods. It covers three subject areas to be selected by the student among the following: materials structure & properties, control systems, engineering analysis, fluid mechanics, heat transfer, thermodynamics, solid mechanics. Students are strongly encouraged to complete the relevant graduate-level course work for the selected subject areas. For details, consult the departmental guidelines. The oral examination assesses the student's ability to conduct independent research. Consult departmental guidelines for details. The preliminary examination is normally offered once every year at the beginning of the summer session.

Dissertation and Final Oral Examination

After successfully completing the preliminary examination, the student, with advice from the advisor, recommends a qualifying committee and prepares a dissertation proposal. The dissertation proposal consists of a written document and an oral presentation or defense. Typically, the student submits a dissertation proposal to the qualifying committee within one year after successfully completing the preliminary examination and completion of the required 24 units of graduate core courses. The qualifying committee chair normally schedules an oral defense within one month of the written proposal submission. The presentation is given only to the qualifying committee members. The student is advanced to candidacy after successfully completing this examination and all coursework.

After completing the dissertation research, a written draft copy of the completed dissertation must be submitted to the dissertation committee for review, evaluation, and determination of whether the draft thesis is ready for oral defense. Once a draft has been approved for defense, an oral defense of the dissertation is scheduled and is open to the entire academic community. This defense consists of a presentation, followed by a question-and-answer period conducted by the dissertation committee and the audience. After successfully defending the dissertation, the candidate must submit final copies of the dissertation that comply with the format requirements

set forth by the Graduate Division. Copies are given to the department and the dissertation advisor, in addition to those required by the Graduate Division.

Consult departmental guidelines for appointments to qualifying and dissertation committees.

Refer to the department's graduate program guidelines for further details.

Lower-Division Courses

ME 002 Introduction to Mechanical

Engineering 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 005 or equivalent.

An introduction to the field of mechanical engineering. Topics include the mechanical engineering profession; machine components; forces in structures and fluids; materials and stresses; thermal and energy systems; machine motion; and machine design.

ME 003 How Things Work: the Principles Behind

Technology 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Introduces the basic physical principles of engineering systems from everyday life such as automobiles, computers, and household appliances. Topics include conservation laws and the physics and chemistry of engineering systems. Does not confer credit towards a degree in the Bourns College of Engineering.

ME 004 Energy and the Environment 4

Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Covers energy conservation, energy sources, market dynamics, and climate change. Addresses cultural, political, and social trends and their impact on the ecosystem. Discusses renewable and nonrenewable energy sources. Technical background not required. Does not confer credit towards a degree in the Bourns College of Engineering.

ME 005 The Science of Mythbusting 4

Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Introduces to the scientific method for non-science majors. Explores the application of scientific concepts to test the validity of myths and events from news stories, movies, and other popular media. Provides critical reasoning skills necessary to interpret advertiser's product claims, critique information on the World Wide Web, and understand new technologies.

ME 009 Engineering Graphics and

Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers graphical concepts and projective geometry relating to spatial visualization and communication in design. Includes technical sketching, computer-aided design with solid modeling, geometric dimensioning and tolerancing, and an introduction to the engineering design process.

ME 010 Statics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 009C, PHYS 040A or PHYS 040HA. Covers equilibrium of coplanar force systems; analysis of frames and trusses; noncoplanar force systems; friction; and distributed loads.

ME 018A Introduction to Engineering

Computation 2 Lecture, 1 hours; laboratory, 3 hours. Prerequisite(s): MATH 009A or equivalent. An introduction to the use of MATLAB in engineering computation. Covers scripts and

functions, programming, input/output, two- and three-dimensional graphics, and elementary numerical analysis.

ME 018B Introduction to Computational Modeling in Mechanical Engineering 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 009B with a grade of "C-" or better; ME 002 with a grade of "C-" or better; ME 018A. Introduces students to concepts of computational modeling in mechanical engineering. Topics include formulation of models to solve problems involving vector analysis, linear algebra, differential and integral calculus. Explores analytical and numerical solutions to problems in mechanical engineering.

Upper-Division Courses

ME 100A Thermodynamics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 010A, ME 018B with a grade of C- or better, PHYS 040B or PHYS 040HB. Introduces basic concepts and applications of thermodynamics relevant to mechanical engineering. Topics include work and energy, the first law of thermodynamics, properties of pure substances, system and control volume analysis, the Carnot cycle, heat and refrigeration cycles, the second law of thermodynamics, entropy, and reversible and irreversible processes. Credit is awarded for only one of CHE 100 or ME 100A.

ME 100B Thermodynamics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 100A. Topics include the second law of thermodynamics, entropy function, entropy production, analysis of cycles, vapor power systems, gas power systems, refrigeration and heat pump systems, equations of state, thermodynamic property relations, ideal gas mixtures and psychrometrics, multicomponent systems, combustion, and reacting mixtures.

ME 103 Dynamics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 046, ME 010 with a grade of "C-" or better, ME 018B with a grade of C- or better. Topics include vector representation of kinematics and kinetics of particles; Newton's laws of motion; force-mass-acceleration, work-energy, and impulse-momentum methods; kinetics of systems of particles; and kinematics and kinetics of rigid bodies.

ME 110 Mechanics of Materials 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): CS 009M or ME 018A; MATH 046, ME 010 with a grade of "C-" or better. Topics include mechanics of deformable bodies subjected to axial, torsional, shear, and bending loads; combined stresses; and their applications to the design of structures.

ME 113 Fluid Mechanics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 046, PHYS 040B or PHYS 040HB, ME 010 with a grade of C- or better, ME 018B with a grade of C- or better. Introduces principles of fluid mechanics relevant to mechanical engineering. Topics include shear stresses and viscosity, fluid statics, pressure, forces on submerged surfaces, Bernoulli and mechanical energy equations, control volume approach, mass conservation, momentum and energy equations, the differential approach, turbulent flow in pipes, and lift and drag. Credit is awarded for only one of CHE 114

or ME 113.

ME 114 Introduction to Materials Science and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001B, PHYS 040C or PHYS 040HC; upper-division standing. Covers materials classification, atomic structure and interatomic bonding, crystal structure of metals, imperfections in solids, diffusion, mechanical properties of engineering materials, strengthening mechanisms, basic concepts of fracture and fatigue, phase diagrams, ceramics, polymers, and composites.

ME 116A Heat Transfer 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 046, ME 113 (ME 113 may be taken concurrently). Introduces the analysis of steady and transient heat conduction, fin and heat generating systems, two-dimensional conduction, internal and external forced convection, natural convection, radiation heat transfer, heat exchangers, and mass transfer. Credit is awarded for only one of CHE 116 or ME 116A.

ME 116B Heat Transfer 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 116A. Covers analytical and numerical methods in heat transfer and fluid mechanics. Topics include heat conduction and convection, gaseous radiation, boiling and condensation, general aspects of phase change, mass transfer principles, multimode heat transfer and the simulation of thermal fields, and the heat transfer process.

ME 117 Combustion and Energy Systems 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 100A, ME 113, ME 116A. Discusses premixed and diffusion flames; fuel-air thermochemistry; combustion-driven engine design and operation; engine cycle analysis; fluid mechanics in engine components; pollutant formation; and gas turbines.

ME 118 Mechanical Engineering Modeling and Analysis 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MATH 046, ME 018B with a grade of C- or better. Introduces data analysis and modeling used in engineering through the software package MATLAB. Numerical methods include descriptive and inferential statistics, sampling and bootstrapping, fitting linear and nonlinear models to observed data, interpolation, numerical differentiation and integration, and solution of systems of ordinary differential equations. Final project involves the development and evaluation of a model for an engineering system. Credit is awarded for only one of ENGR 118 or ME 118.

ME 120 Linear Systems and Controls 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): EE 001A, EE 01LA, ME 018B with a grade of C- or better. Introduces the modeling and analysis of dynamic systems, emphasizing the common features of mechanical, hydraulic, pneumatic, thermal, electrical, and electromechanical systems. Controls are introduced through state equations, equilibrium, linearization, stability, and time and frequency domain analysis.

ME 121 Feedback Control 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 118, ME 120. Introduces students to the analysis and design of feedback control systems using classical control methods. Topics include control system terminology, block diagrams, analysis

and design of control systems in the time and frequency domains, closed-loop stability, root locus, Bode plots, and an introduction to analysis in state-space.

ME 122 Vibrations 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 103. Covers free and forced vibration of discrete systems with and without damping resonance; matrix methods for multiple degree-of-freedom systems; normal modes, coupling, and normal coordinates; and use of energy methods.

ME 130 Kinematic and Dynamic Analysis of Mechanisms 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 009, ME 103. Explores the kinematic analysis of planar mechanisms including linkages, cams, and gear trains. Introduces concepts of multibody dynamics.

ME 131 Design of Mechanisms 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ME 130. Involves design of planar, spherical, and spatial mechanisms using both exact and approximate graphical and analytical techniques. Requires a computer-aided design project.

ME 133 Introduction to Mechatronics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ME 120. Introduces hardware, software, sensors, actuators, physical systems models, and control theory in the context of control system implementation. Covers data acquisition (Labview), sensors, actuators, electric circuits and components, semiconductor electronics, logic circuits, signal processing using analog operational amplifiers, programmable logic controllers, and microcontroller programming and interfacing. Uses MATLAB and Simulink.

ME 134 Microstructural Transformations in Materials 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 114 or consent of instructor. An introductory study of the fundamentals (thermodynamics and kinetics) controlling microstructural transformations in materials and their application to both liquid-solid and solid-solid transformations. Focuses on the important transformations that ultimately control the microstructures and properties of crystalline solids. Cross-listed with MSE 134.

ME 135 Transport Phenomena 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 100A, ME 113, ME 116A. Introduces new concepts of thermodynamics, fluid mechanics, and heat transfer: sychrometry, combustion, one-dimensional compressible flow, and turbomachinery. Integrates the most important concepts of transport of momentum, heat, and mass.

ME 136 Environmental Impacts of Energy Production and Conversion 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): ME 100A, ME 113, ME 116A. Covers thermodynamics, heat transfer, and fluid mechanics as applied to the examination of the environmental impacts of energy production and conversion. Topics include pollution associated with fossil fuel combustion, environmental impacts of energy use, turbulent transport of pollutants, and principles used in the design of pollution control equipment.

ME 137 Environmental Fluid Mechanics 4 Lecture, 3 hours; discussion 1

hour. Prerequisite(s): ME 100A, ME 113. Covers the application of fluid mechanics to flows in the atmosphere and oceans. Topics include hydrostatic balance, Coriolis effects, geostrophic balance, boundary layers, turbulence, tracer and heat transport.

ME 138 Transport Phenomena in Living

Systems 4 Lecture, 3 hours; discussion 1 hour. Prerequisite(s): BIEN 105 or ME 113, MATH 046, PHYS 040B or PHYS 040HB. An introduction to the application of the basic conservation laws of mechanics (mass, linear momentum, and energy) to the modeling of complex biological systems. Emphasizes how these concepts can explain and predict life processes.

ME 140 Ship Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 103, ME 113. Covers ship hull form, static and dynamic stability, ship response to waves, grounding and flooding, numerical integration of complex three-dimensional curved shapes and mathematical modeling of curved surfaces. Explores engineering approximations necessary for applications of fundamental principles to complex engineering systems such as ships.

ME 144 Introduction to Robotics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 132. Covers basic robot components from encoders to microprocessors. Kinematic and dynamic analysis of manipulators. Addresses open- and closed-loop control strategies, task planning, contact and noncontact sensors, robotic image understanding, and robotic programming languages. Experiments and projects include robot arm programming, robot vision, and mobile robots. Cross-listed with EE 144.

ME 145 Robotic Planning and

Kinematics 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ME 120 or equivalent; or consent on instructor. Motion planning and kinematics topics with an emphasis in geometric reasoning, programming, and matrix computations. Motion planning includes configuration spaces, sensor-based planning, decomposition and sampling methods, and advanced planning algorithms. Kinematics includes reference frames, rotations and displacements, and kinematic motion models. Cross-listed with EE 145.

ME 153 Finite Element Methods 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 118. Covers weak form formulation, the Galerkin method and its computational implementation, mesh generation, data visualization, as well as programming finite element codes for practical engineering applications.

ME 156 Mechanical Behavior of

Materials 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): senior standing; ME 110; ME 114. Introduces the theory and experimental techniques for testing the mechanical behavior of materials and structures. Covers the fundamental mechanisms of deformation and failure of metals, ceramics, polymers, composite materials, and electronic materials as well as structural design and materials selection.

ME 170A Experimental Techniques 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): EE 001A, EE 01LA, ME 018B. Covers the principles

and practice of measurement and control, and the design and implementation of experiments. Topics include dimensional analysis, error analysis, signal-to-noise problems, filtering, data acquisition and data reduction, and statistical analysis. Includes experiments on the use of electronic devices and sensors, and practice in technical report writing.

ME 170B Experimental Techniques 4 Laboratory, 6 hours; discussion, 2 hours. Prerequisite(s): ME 103, ME 110, ME 113, ME 116A, ME 170A. Analysis and verification of engineering theory using laboratory measurements in advanced, project-oriented experiments involving fluid flow, heat transfer, structural dynamics, thermodynamic systems, and electromechanical systems.

ME 174 Machine Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 009, ME 103 (can be taken concurrently), ME 110, ME 114. An introduction to the fundamentals of strength-based design. Topics include deflection and stiffness, static failure, and fatigue failure.

ME 175A Professional Topics in

Engineering 2 Lecture, 2 hours. Prerequisite(s): senior standing in Mechanical Engineering major; ME 009. Topics include technical communication, team work, project management, engineering economics, professional ethics, and computer-aided design. Satisfactory (S) or No Credit (NC) grading is not available.

ME 175B Mechanical Engineering

Design 3 Lecture, 2 hours; laboratory, 2 hours. Prerequisite(s): senior standing in Mechanical Engineering. ME 113, ME 116A, ME 170A, ME 174, ME 175A (may be taken concurrently). Outlines the defining of a design problem and the conception and detail of the design solution. Explores design theory, design for safety, reliability, manufacture, and assembly. Graded In Progress (IP) until ME 175B and ME 175C are completed, at which time a final, letter grade is assigned.

ME 175C Mechanical Engineering

Design 3 Lecture, 1 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): senior standing in Mechanical Engineering; ME 175B. Students create, test, and evaluate a prototype based on the project design generated in ME 175B. Lecture topics include prototyping techniques, design verification, and special topics in design. Satisfactory (S) or No Credit (NC) grading is not available.

ME 175D Technological

Entrepreneurship 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): senior standing in Mechanical Engineering. Introduces concepts of business and management required to convert a technology into a viable business. Topics include technological assessment, market analysis, strategy, decision making, legal and intellectual property issues in business, financial analysis, business ethics and communication. Satisfactory (S) or No Credit (NC) grading is not available

ME 176 Sustainable Product Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 103, ME 110, ME 113, ME 116A. Introduces the principles of sustainable product design. Topics include life cycle design; design for

reliability, maintainability, and recycling/reuse/remanufacture; materials selection; and manufacturing processes. Includes project in which students analyze the environmental impact of a product and redesign it to reduce the impact. Credit is awarded for only one of ME 176 or ME 210.

ME 180 Optics and Lasers in

Engineering 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): senior standing; ME 010, ME 110, ME 170A. Focuses on principles of optics and lasers, wave equations, interferometry, diffraction, laser-material interactions. Applications in analytical characterization including confocal microscopy, Raman spectroscopy, mechanical deformation analysis, scanning probe microscopy, ultraviolet-visible spectrophotometry, photoluminescence, optical detectors, and lasers in materials processing.

ME 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor, department chair, and Mechanical Engineering Undergraduate Program Committee chair. Individual study to meet special curricular needs. Requires a final written report. Course is repeatable to a maximum of 9 units.

ME 197 Research For Undergraduates 1 to

4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor and Mechanical Engineering Undergraduate Program Committee chair. Directed research in a particular subject relevant to mechanical engineering. Requires a final written technical report. Course is repeatable to a maximum of 8 units

ME 198 R'course: Variable Topics 1 Activity, 3 hours. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

Graduate Courses

ME 200 Methods of Engineering

Analysis 4 Lecture, 4 hours. Prerequisite(s): graduate standing in engineering or consent of instructor. Topics include linear algebra theory, vector spaces, eigenvalue problems, complex analytic functions, contour integration, integral transforms, and basic methods for solving ordinary and partial differential equations in mechanical engineering applications.

ME 201 Computational Methods in

Engineering 4 Lecture, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Explores numerical methods with computer applications. Topics include solution of nonlinear algebraic equations, solution of systems of linear equations, interpolation, integration, statistical description of data, model fitting, Fast Fourier Transform and applications, and numerical solution of ordinary and partial differential equations.

ME 202 Spectral Computational

Methods 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): ME 200 or equivalent; ME 240A is recommended. Introduces data analysis, including discrete Fourier transforms, sampling theorem, and power spectra. Reviews Sturm-Liouville eigenfunction expansions, Gibbs phenomenon, convergence theorems, and Chebyshev transforms. Additional topics include Galerkin, tau, collocation, and pseudospectral methods, aliasing, time-advancement, and numerical stability. Explores applications to incompressible Navier-Stokes equations, compressible flows, reacting flows, and complex geometries. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable.

ME 203 Design and Analysis of Engineering

Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. ME 203 online section; enrollment in the Online Master-in-Science in Engineering program. Introduces research methods in engineering. Topics include design of experiments, basic statistical tools, data analysis in the time-domain and frequency domain, machine learning and pattern recognition approaches, and computational tools. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 210 Sustainable Product Design 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. ME 210 online section; enrollment in the Online Master-in-Science in Engineering program. Introduces the principles of sustainable product design. Topics include life cycle design; design for reliability, maintainability, and recycling/reuse/remanufacture; materials selection; and manufacturing processes. Includes project in which students analyze the environmental impact of a product and redesign it to reduce the impact. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Credit is awarded for only one of ME 176 or ME 210.

ME 220 Optimal Control and

Estimation 4 Lecture, 4 hour; term paper, 1 hour. Prerequisite(s): ME 120, ME 121 or equivalent; or consent of instructor. Introduces optimal control and estimation with specific focus on discrete time linear systems. Topics include analysis of discrete Riccati equations; asymptotic properties of optimal controllers; optimal tracking; an introduction to Receding Horizon control; derivation of the Kalman filter; Extended Kalman Filter; and Unscented Kalman filter. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 233.

ME 222 Advanced Robotics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 236/ME 236; ME 120 or equivalent. Topics include robot navigation; description of robot sensors and their characteristics; sensor data processing; feature extraction; and matching. Also covers representations of space for mapping; map-based localization; simultaneous localization and mapping; image-based motion estimation; and motion planning. Cross-listed with EE 245.

ME 223 Secure and Reliable Control

Systems 4 Lecture, 4 hours. Prerequisite(s): graduate standing or consent of instructor. ME 223 online section; enrollment in the Online Master-in-Science in Engineering program. An introductory study of fault-tolerant and secure control systems. Topics include models of dynamical systems; linear system theory; detectability of attacks and failures; model-based fault detection; analytical redundancy; unknown-input observers; statistical methods for fault detection; graphical models and structured system theory; and fault-tolerant control. Letter Grade or S/NC; no petition required.

ME 230 Computer-Aided Engineering

Design 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. ME 230 online section; enrollment in the Online Master-in-Science in Engineering program. Introduces fundamentals of interactive computer graphics, three-dimensional representations of curves and surfaces, Bezier parameterizations, and optimization methods. Demonstrates applications of computer graphics and computational geometry to mechanical system simulations, computer-aided design, and engineering design.

ME 231 Pen-Based Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor; computer programming experience. Introduces computational techniques for pen-based user interfaces. Covers fundamental issues such as ink segmentation, sketch parsing, and shape recognition. Explores the topic of sketch understanding, including reasoning about context and correcting errors. Also addresses issues related to building practical pen-based systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CS 233.

ME 232 Computational Design Tools 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An introduction to the theoretical foundations and practical application of computational techniques for engineering design. Topics include geometric modeling, numerical optimization, and artificial intelligence techniques. Includes programming projects in which both symbolic and numerical computational techniques are used to solve engineering problems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 233 Artificial Intelligence For

Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores the application of artificial intelligence to engineering design. Topics include the use of search, knowledge-based systems, machine learning, and qualitative physical reasoning for design automation. Addresses the theory behind these techniques and issues related to their practical application. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes.

ME 235 Linear System Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 132. Provides a review of linear algebra. Topics include the mathematical description of linear

systems; the solution of state-space equations; controllability and observability; canonical and minimal realization; and state feedback, pole placement, observer design, and compensator design. Cross-listed with EE.235.

ME 236 State and Parameter Estimation

Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 215 with a grade of C or better; graduate standing. Covers Fisher information, Cramer-Rao lower bound, efficiency, and sufficient statistics. Addresses minimum variance unbiased, best linear unbiased, maximum likelihood, least squares, maximum a posteriori, and mean-squared estimation. Also covers Weiner and Kalman filtering as well as applications in navigation, signal processing, machine learning, and dynamical systems. Cross-listed with EE 236.

ME 237 Nonlinear Systems and

Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 235/ME 235. Explores nonlinear systems and control. Topics include nonlinear differential equations, second order nonlinear systems, equilibrium and phase portrait, limit cycle, harmonic analysis and describing function, Lyapunov stability theory, absolute stability, Popov and circle criterion, input-output stability, small gain theorem, averaging methods, and feedback linearization. Cross-listed with EE 237.

ME 238 Linear Multivariable Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 235/ME 235. Investigates multivariable feedback systems, stability, performance, uncertainty, and robustness. Topics include analysis and synthesis via matrix factorization; Q-parameterization and all stabilizing controllers; frequency domain methods; and $H(\infty)$ design and structured singular value analysis. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE238.

ME 239 Optimal Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 215, EE 235/ME 235. Presents the theory of stochastic optimal control systems and methods for their design and analysis. Covers principles of optimization; Lagrange's equation; linear-quadratic-Gaussian control; certainty-equivalence; the minimum principle; the Hamilton-Jacobi-Bellman equation; and the algebraic Riccati equation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 239.

ME 240A Fundamentals of Fluid

Mechanics 4 Lecture, 4 hours. Prerequisite(s): graduate standing or consent of instructor. ME 240A online section; enrollment in the Online Master-in-Science in Engineering program. Introduction to fluid mechanics. Explores equations of motion, stress tensor, the Navier-Stokes equations, boundary conditions, exact solutions, vorticity, and boundary layers.

ME 240B Fundamentals of Fluid

Mechanics 4 Lecture, 4 hours. Prerequisite(s): ME 240A or consent of instructor. Covers inviscid flow, the Euler and Bernoulli equations, potential flow, and wing theory and introduces stability theory and turbulence.

ME 241A Fundamentals of Heat and Mass

Transfer 4 Lecture, 4 hours. Prerequisite(s): ME 240A or consent of instructor. Introduces in-depth derivations of equations and principles governing heat and mass transfer with an emphasis on formulation of problems. Topics include equations involved in conduction, convection, radiation, energy, and species conservation and the analytical and numerical solution of transport problems. Mechanical Engineering graduate students receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

ME 241B Transport Through Porous

Media 4 Lecture, 4 hours. Prerequisite(s): graduate standing. Covers current theories on flow, heat, and mass transfer and the mechanisms of multiphase transport in porous media. Mechanical Engineering graduate students receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

ME 241C Electronic Cooling and Thermal

Issues in Microelectronics 4 Lecture, 4 hours. Prerequisite(s): graduate standing. Discusses thermal issues associated with the life cycle of electronic products. Covers passive, active, and hybrid thermal management techniques, computational modeling approaches, and advanced thermal management concepts such as single phase, phase change and heat pipes. Mechanical Engineering graduate students receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

ME 242 Turbulence in Fluids 4 Lecture, 4 hours. Prerequisite(s): ME 240A or consent of instructor. An introduction to the application of fundamental conservation laws of mechanics (mass, momentum, and energy) to the modeling of complex turbulent natural and human-made flows. Covers tensor notation, statistical and spectral analysis, and basic turbulent closure techniques, including understanding of turbulence with intuitive insight into the problems that cannot be rigorously solved. May be taken Satisfactory (S) or No Credit (NC) by students advanced to candidacy for the Ph.D.

ME 243 Advanced Mechanical Engineering

Thermodynamics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 100A or equivalent. Introduces the fundamental statistical foundations of classical thermodynamics. Explores the origins of entropy, temperature, pressure, chemical potential, and the free energies. Applications include chemical equilibrium and reactions, phase equilibrium and transitions including vapor-liquid and solid-solid, fluctuations, and thermodynamics in nanoscale systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 244 Nanoscale Heat Transfer and Energy

Conversion 4 Lecture, 4 hours. Prerequisite(s): at least two of EE 201/MSE 207, EE 202/MSE 217, ME 100A, ME 116A, or equivalents. Explores fundamental processes of energy transport and conversion at short length and time scales. Introduces classical and quantum-mechanical size effects on electrons, phonons, and photons. Topics include modes of energy storage,

coupling between energy carriers, and electrical and thermal transport using the Boltzmann transport equation and/or kinetic theory. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 245 Radiative Heat Transfer 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 116A or ME 116B or equivalent or consent of instructor. Offers in-depth study of topics related to radiative heat transfer. Builds upon curriculum of radiation presented at the undergraduate level. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 246 Computational Fluid Dynamics With

Applications 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ME 240A or consent of instructor. Introduces finite difference, finite volume, and finite element; spectral methods, governing equations for nonreacting and reacting flows; and stability and convergence for steady and unsteady problems. Students use commercial computational fluid dynamics (CFD) software for the course project.

ME 248 Internal Combustion Engines 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ME 100A; graduate standing. Covers engine types and their operation. Also addresses engine design and operating parameters, thermochemistry of fuel-air mixture, engine cycles, spark ignition and compressed ignition engines, and emissions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 250 Seminar in Mechanical Engineering 1

or 2 Seminar, 1 or 2 units. Prerequisite(s): graduate standing. Seminar in selected topics in mechanical engineering presented by graduate students, staff, faculty, and invited speakers. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

ME 255 Transport Processes in the

Atmospheric Boundary Layer 4 Lecture, 4 hours. Prerequisite(s): ME 100A or CHE 100, ME 113 or CHE 114, and ME 116A or CHE 116; or consent of instructor. Examines heat, mass, and momentum transport processes in the atmospheric boundary layer using current understanding of micrometeorology. Topics include surface energy balance, Monin-Obukhov Similarity theory, and dispersion of pollutants in the atmospheric boundary layer. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 261 Theory of Elasticity 4 Lecture, 4 hours. Prerequisite(s): ME 110 or consent of instructor. Introduction to tensors, strain, equations of motion, and constitutive equations. Topics include typical boundary value problems of classical elasticity, problems of plane strain and plane stress, and variational principles.

ME 266 Mechanics and Physics of

Materials 4 Lecture, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the structure and properties of materials; the characterization and modeling of mechanical, thermal, electric, and magnetic properties of materials; and coupling properties. Topics include phase transformations and brittle-

to-ductile transitions. Cross-listed with MSE 208.

ME 267 Finite Element Methods in Solid

Mechanics 4 Lecture, 4 hours. Prerequisite(s): ME 261 or consent of instructor. Covers the formulation and implementation of finite element methods, including the Galerkin and energy methods. Topics include the static and dynamic analysis of mechanical and multiphysical systems and techniques of automatic mesh generation.

ME 270 Introduction to Microelectromechanical

Systems 4 Lecture, 4 hours. Prerequisite(s): ME 110, ME 114, or equivalents, for MSE 238 online section; enrollment in the Online Master-in-Science in Engineering program. An introduction to the design and fabrication of microelectromechanical systems (MEMS). Topics include micromachining processes; material properties; transduction; applications in mechanical, thermal, optical, radiation, and biological sensors and actuators; microfluidic devices; Bio-MEMS and applications; packaging and reliability concepts; and metrology techniques for MEMS. Cross-listed with MSE 238.

ME 271 Therapeutic Biomedical

Microdevices 4 Lecture, 4 hours. Prerequisite(s): ME 270/MSE 238 or equivalent or consent of instructor. An introduction to the application of micro device technology towards biomedical therapeutics. Topics include emerging micro device fabrication techniques, bio compatibility requirements, and applications in areas such as cardiovascular intervention, minimally-invasive drug delivery, neuroprosthetic interfaces, and cellular engineering. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

ME 272 Nanoscale Science and

Engineering 4 Lecture, 3 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. MSE 248/ME 272 online section; enrollment in the Online Master-in-Science in Engineering program. An overview of the machinery and science of the nanometer scale. Topics include patterning of materials via scanning probe lithography; electron beam lithography; nanoimprinting; self-assembly; mechanical, electrical, magnetic, and chemical properties of nanoparticles, nanotubes, nanowires, and biomolecules (DNA, protein); self-assembled monolayers; and nanocomposites and synthetic macromolecules. Cross-listed with MSE 248.

ME 273 Principles and Designs of Micro

Transducers 4 Lecture, 3 hours; term paper, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): ME 270/ MSE 238 or equivalent; or consent of instructor. Emphasizes physical principles and designs of microscopic sensors and actuators. Topics include macroscopic and microscopic physical phenomena and properties; signal processing; mechanical transducers; thermal transducers; electrical transducers; magnetic transducers; optical transducers; chemical and biological transducers; and applications in areas such as lab-on-a-chip, medical diagnosis and power MEMS.

ME 274 Plasma-Aided Manufacturing and

Materials Processing 4 Lecture, 4 hours.

Prerequisite(s): ME 243 or equivalent; or consent of instructor. ME 274 online section; enrollment in the Online Master-in-Science in Engineering program. Covers the fundamentals of gaseous plasmas and the physics of both equilibrium and non-equilibrium discharges. Covers the basic techniques for plasma diagnostics. Discusses the use of plasmas as a materials processing medium for a variety of manufacturing processes. Advanced topics such as the processing of nanostructured materials using plasmas are included.

ME 278 Imperfections in Solids 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Chemical and Environmental Engineering or Computer Science or Electrical Engineering or Materials Science and Engineering or Mechanical Engineering. Covers fundamentals of crystal structures and crystal defects, including the generation of point defects; nucleation and propagation of dislocations; perfect and partial dislocations; twins, stacking faults, and transformations; mechanics of semiconductor and metallic thin films and multilayered structures. Cross-listed with MSE 218.

ME 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Individual study, directed by a faculty member, of selected topics in mechanical engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units.

ME 297 Directed Research 1 to 4 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Research conducted under the supervision of a faculty member on selected problems in mechanical engineering. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

ME 298 Individual Internship 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): graduate standing; consent of graduate advisor. An individual apprenticeship in Mechanical Engineering with an approved professional individual or organization. Includes academic work under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

ME 299 Research For the Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Research in mechanical engineering for the M.S. thesis or Ph.D. dissertation. Graded satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

ME 302 Apprentice Teaching 1 to 4 Seminar, 1 to 4 hours. Prerequisite(s): appointment as a teaching assistant or an associate in Mechanical Engineering. Topics include effective teaching methods, such as those involved in leading discussion sections and preparing and grading examinations, and student-instructor relations in lower- and upper-division Mechanical Engineering courses. Required each quarter of teaching assistants and associates in Mechanical Engineering. Graded Satisfactory

(S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

MECHANISMS OF GENE EXPRESSION AND REGULATION STUDIES DESIGNATED EMPHASIS

Subject abbreviation: GERS School of Medicine

David Lo (Biomedical Sciences), Co-Director
Thomas Girke (Institute for Integrative Genome Biology), Co-Director
david.lo@ucr.edu
thomas.girke@ucr.edu

James Borneman (Microbiology)
Jason Stajich (Microbiology)
Shou-Wei Ding (Microbiology)

Designated Emphasis Requirements

The Designate Emphasis is an interdisciplinary graduate program of study to enhance student training in the field through a focused course-work across at least two departments. The program is optional and the courses used for the DE may not be counted toward MS or PhD requirements.

1. Three (3) courses (12 units) with a focus in basic principles of genetics gene regulation (epigenetics, non coding RNA) and bioinformatics will be selected from:
MCBL 221 - Microbial Genetics
CMDB 201 - Molecular Biology
CMBD 203 - Advanced Genetics
GEN 203 - Advanced Genetic Analysis of Model Organisms
GEN 241 - Advances in Genomics
GEN 242 - Data Analysis in Genome

Biology

GEN 206 - Gene Silencing
GEN 220 - Computational Analysis of High Throughput Biological Data
BPSC/BIOL 148 - Quantitative Genetics
EEOB 214 - Evolutionary Genetics
EEOB 216 - Theory of Evolution
ENTX 204 - Genome Maintenance and Stability
STAT 100A Introduction to Statistics
BPSC 234 - Statistical Genomics
STAT 110 - Biostatistical Methods in Life Sciences
CS234: Computational Methods for Bio-molecular Data

CS238: Algorithmic Techniques in Computational Biology

Students must select courses with relevant content in consultation with the Designated Emphasis Advisory Committee comprising of three participating faculty including student's major professor. Students must select courses from at least two different departments. Undergraduate course taken to fulfill the requirement must be accompanied by a 292 course taken in the same quarter with extra work agreed upon by professor and student.

2. BMSC 222 (2 units): Special Topics in Biomedical Sciences with emphasis in Gene expression and regulation. The course will address the research pertaining to the student's interest and prepare trainees in applying the knowledge of basic principles in regulation of gene expression and bioinformatics data analysis of next generation sequencing approaches. Graded Satisfactory (S) or No Credit (NC)
3. Research Project: students will write a review article on a selected genetics/ bio-informatics/ regulation of gene expression topic. The review will be evaluated by the Designated Emphasis Advisory Committee. It is the committee's expectation that student will fulfill this component by submitting the review article for the journal publication in a pubmed indexed journal. Successful completion of this review is required for the Designated Emphasis completion.

All requirements for the Designated Emphasis must be satisfied no later than one calendar year from the quarter in which candidate advances to candidacy in their PhD field; a minimum GPA of 3.0 is required for the Designated Emphasis completion.

MEDIA AND CULTURAL STUDIES

Assistant Professor

Ilya Brookwell, Ph.D.
Randol Contreras, Ph.D.
Gloria Kim, Ph.D.

Major

The Media and Cultural Studies minor provides an interdisciplinary examination of film, video, television multimedia, visual and digital cultures with a primary emphasis on history and theory, and a secondary focus on creative intervention in media environments through production.

The Media and Cultural Studies focuses an interdisciplinary lens on the analysis of the dynamic relationship between media and society with special emphasis on race, gender, class, sexuality, and ethnicity as well as political economy and globalization. Our students critically engage in major debates about social and environmental justice within both global and local contexts. They also learn through practicing creative interventions in media ecologies, for example, creative, documentary, and ethnographic film; photography; multimedia production; and journalism. Media literacies are essential for the making of engaged global citizens, capable of moving flexibly between the applied and the critical, the professional and the scholarly, the empirical and the theoretical.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

1. Lower-division requirements (5 lower-division courses [at least 20 units]):

a) MCS 001

Students are required to take MCS 001 and must receive a "C-/above" in this course to declare MCS as their major. The department will consider grade petitions on a case-by-case basis.

b) Any 3 of the following 5 courses

ART 004/MCS 004, MCS 005, MCS 010, MCS 020, AHS 020/MCS 023

c) One additional course (at least 4 units) from the following:

ART 006/MCS006, MCS 009/MUS 007, MCS 015, CPLT 021/MCS021, AST 022/JPN 022/ MCS 022, GER 045/ MCS 042, MCS 043/RUSN 045, ITAL 045/MCS 044, FREN 045/MCS 045, MCS 046/SPN 046, AST 047/KOR 047/ MCS 047, AST 064/MCS 049/VNM 064, CRWT 066/MCS 066/TFDP 066

2. Upper-division requirements (minimum 9 upper-division courses [at least 36 units]):

a) 6 upper division MCS courses (strongly recommended to be taken with MCS faculty) chosen from [24 units total]

MCS 102, ANTH 103/MCS 103, ENGL 104/ MCS 104, MCS 105, MCS 106, MCS 107, MCS 110 (E-Z), MCS 111, GSST 112/LGBS 112/MCS 112, CPLT 134/GER 134/JPN 134/MCS 114, MCS 115, GER 118 (E-Z)/MCS 118 (E-Z), MCS 120, MCS 122, GSST 124/MCS 123/SEAS 175, MCS 124, LNST 125 (E-Z)/MCS 125 (E-Z)/SPN 125 (E-Z), CPLT 126/GER 126/MCS 126, GSST 166/ MCS 127, MCS 128, MCS 129, MCS 130, ART 131/MCS 131, MCS 132, MCS 134, ART 135/MCS 135, ART 136/MCS 136, AHS 136/MCS 137, AHS 137/MCS 138, MCS 139/SOC 139, MCS 140, ENGL 144 (E-Z)/MCS 144 (E-Z), ENGL145 (E-Z)/MCS 145 (E-Z), ENGL 146 (E-Z)/MCS 146 (E-Z), MCS 148, ART 150/MCS 150, DNCE 171 (E-Z)/MCS 151 (E-Z), DNCE 171G/ MCS 151G, DNCE 171J/MCS 151J, DNCE 171M/ MCS 151M, DNCE 172 (E-Z)/ MCS 152 (E-Z), DNCE 173 (E-Z)/MCS 153 (E-Z), MCS 154, MCS 156 (E-Z), DNCE 161/MCS 161, DNCE 162/MCS 162, ART 161/MCS 163, MCS 164, MCS 167, MCS 168, MCS169, MCS 171, MCS 172, MCS 173 (E-Z), MCS 174 (E-Z), MCS 177, MCS 178, MCS 179, MCS 180, MCS 181, MCS 184, MCS 185, MCS 186, MCS 188

b) Two additional courses outside of MCS chosen from [8 units total]

AHS 182, AHS 188, ANTH 121, , ANTH 163, ANTH 180A, CPLT 110, CPLT 143/ FREN 143, CRWT 151, CRWT 155, CRWT 174, DNCE 131, DNCE 132, DNCE 134, DNCE 135, ENGL 102, ENGL 121 (E-Z), ENGL 122 (E-Z)/LGBS 122 (E-Z), ENGL 142 (E-Z), ETST 170/ WRLT 170, ETST 175/GSST 175, HIST

191X, LNST 168/ANTH 168/ETST 148, MUS 126/ANTH 177/GSST 126, MUS 140/HISA 139, MUS 153/LGBS 153, PHIL 111, POSC 146, SOC 154, SOC 168, SOC 169, SPN 102A, SPN 102B, TFDP 115, TFDP 122, TFDP 160, TFDP 177, TFDP 191W

c) One production course chosen from [4 units total]

ART 140, ART 145, ART 146 (E-Z), ART 155/MCS 155, ART 167, ART 168, ART 169 (E-Z), ART 175, CS 134, TFDP 101, TFDP 102, TFDP 109, TFDP 132, TFDP 133, TFDP 135, TFDP 138, TFDP 144, TFDP 145, TFDP 155, TFDP 156A, TFDP 156B, TFDP 157, TFDP 166A, TFDP 166B, TFDP 166C, TFDP 167, TFDP 168, TFDP 169

d) No more than four units of MCS 190 or MCS 193 and a total of four units of MCS 198-I may be applied towards the minimum requirement.

No more than four units of MCS 190 and a total of four units of MCS 198I may be applied towards the minimum requirement.

Minor

The Media and Cultural Studies minor provides an interdisciplinary examination of film, video, television, multimedia, visual and digital cultures with a primary emphasis on history and theory and a secondary focus on creative intervention in media environments through production.

A minimum of 24 units (one lower-division course and five upper-division courses) are required.

1. Lower-division requirements (2 lower-division courses [at least 8 units]):

a) MCS 001

Students are required to take MCS 001 and must receive a "C-/above" in this course to declare MCS as their minor. The department will consider grade petitions on a case-by-case basis.

b) 1 lower division course chosen from the following

ART 004/MCS 004, MCS 005, MCS 010, MCS 020, AHS 020/MCS 023

2. Upper-division requirements (a minimum of 4 courses [at least 16 units])

MCS 102, ANTH 103/MCS 103, ENGL 104/ MCS 104, MCS 105, MCS 106, MCS 107, MCS 110 (E-Z), MCS 111, GSST 112/ LGBS 112/MCS 112, CPLT 134/GER 134/ JPN 134/MCS 114, MCS 115, GER 118 (E-Z)/MCS 118 (E-Z), MCS 120, MCS 122, GSST 124/MCS 123/SEAS 175, MCS 124, LNST 125 (E-Z)/MCS 125 (E-Z)/SPN 125 (E-Z), CPLT 126/GER 126/MCS 126, GSST 166/MCS 127, MCS 128, MCS 129, MCS 130, ART 131/MCS 131, MCS 132, MCS 134, ART 135/MCS 135, ART 136/MCS 136, AHS 136/MCS 137, AHS 137/MCS 138, MCS 139/SOC 139, MCS 140, ENGL 144 (E-Z)/MCS 144 (E-Z), ENGL 145 (E-Z)/ MCS 145 (E-Z), ENGL 146 (E-Z)/MCS 146 (E-Z), MCS 148, ART 150/MCS 150, DNCE 171 (E-Z)/MCS 151 (E-Z), DNCE 171G/ MCS 151G, DNCE 171J/MCS 151J, DNCE 171M/MCS 151M, DNCE 172 (E-Z)/MCS

152 (E-Z), DNCE 173 (E-Z)/MCS 153 (E-Z), MCS 154, MCS 156 (E-Z), DNCE 161/MCS 161, DNCE 162/MCS 162, ART 161/MCS 163, MCS 164, MCS 167, MCS 168, MCS 169, MCS 171, MCS 172, MCS 173 (E-Z), MCS 174 (E-Z), MCS 177, MCS 178, MCS 179, MCS 180, MCS 181, MCS 184, MCS 185, MCS 186, MCS 188

b) No more than one media production course (4 units) may be used towards the total of four upper division courses chosen from:

ART 140, ART 145, ART 146 (E-Z), ART 155/MCS 155, ART 167, ART 168, ART 169 (E-Z), ART 175, CS 134, TFDP 101, TFDP 102, TFDP 109, TFDP 132, TFDP 133, TFDP 135, TFDP 138, TFDP 144, TFDP 145, TFDP 155, TFDP 156A, TFDP 156B, TFDP 157, TFDP 166A, TFDP 166B, TFDP 166C, TFDP 167, TFDP 168, TFDP 169

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Lower-Division Courses

MCS 001 Introduction to Media and Cultural Studies 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines media from economic, political, and cultural perspectives. Discusses their relation to U.S. export industries; democratic communication and the parliamentary process; and social trends. Explores how changes in media and associated technologies are akin to a new industrial revolution.

MCS 002 Introduction to Immersive Media 4

Lecture, 3 hours; workshop, 1 hour; individualized study, 2 hours. Prerequisite(s): MCS 001 with a grade of C- or better; or consent of instructor. Focuses on tools for fast prototyping interactive media. Combines contemporary board and pencil and paper game and card design with computer game design, VR, and digital/web production.

MCS 003 Immersive Media Production 4

Lecture, 3 hours; workshop, 1 hour; individualized study, 2 hours. Prerequisite(s): MCS 002 with a grade of B- or better; permission of the instructor (auditioned by portfolio); or consent of instructor. Focuses on creative activity. Students with existing expertise in a design field are brought together for a devised project.

MCS 004 Introduction to Moving Images: Film, Video and New Media 5

Lecture, 3 hours; studio 3; hours; screening, 3 hours. Prerequisite(s): none. Explores issues and skills of video/film/media art based in production, history, and theory of the moving image. Introduces basic production, editing concepts and techniques of live-action production, story boards, image editing, and final authoring. Examines the moving image through installation, documentary, experimental film, video art, sound art, and performance. Cross-listed with ART 004.

MCS 005 Media Studies: Theory and Practice 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces the broad field

of media and communication studies, covers the history and the current state of various media industries, discusses Internet-based technological developments, examines media laws and policies, and explores the relationships among media, culture, society and audiences from different theoretical approaches.

MCS 006 Introduction to Contemporary Critical Issues in Art 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines basic principles and methodologies of theory as applied to the interpretation and creation of works of art. Includes screenings. Cross-listed with ART 006.

MCS 009 Music in Movies and Tv 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An exploration of popular film and TV soundtrack music, emphasizing drama and musical style. Scene study features such films as *The Matrix*, *Casablanca*, *The X-Files*, and *Altered States*. Cross-listed with MUS 007.

MCS 010 Introduction to Cultural Studies 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Investigates culture through the frameworks of feminism, Marxism, and race theories. Analyzes the different methodologies cultural critics use to theorize subcultures, cultural policies, and consumption. Explores ways cultural works are not only produced and received but also distributed and circulated within national and transnational contexts.

MCS 015 Introduction to Television Studies 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the study of television, including its stylistic conventions, primary genres, modes of production, economics, and important critical methodologies.

MCS 020 Introduction to Film Studies 4

Lecture, 3 hours; screening, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the formal and narrative principles of film construction and to various critical approaches to the cinema, such as auteur and genre theory. Provides an overview of world cinemas.

MCS 021 Introduction to Film, Literature, and Culture 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Surveys critical approaches to the cinema such as auteur and genre theory. Studies literature and film, national cinemas, and film movements. Cross-listed with CPLT 021.

MCS 022 Introduction to Japanese Film 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. An introduction to Japan's major directors and to watching and writing about Japanese film. Works studied range from the samurai epics of Kurosawa to recent anime. All films have subtitles. No previous knowledge of Japanese language or culture is required. Cross-listed with AST 022, and JPN 022.

MCS 023 Introduction to Media Art 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the impact of media technology on the visual arts, from photography to the Internet. Addresses mechanical reproduction, perception, gender, sexuality, identity, interactivity, cybernetics, and popular

culture. Cross-listed with AHS 020.

MCS 024 World Cinema 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Introduction to world cinema as a fusion of national and international, culturally specific, and globally universal characteristics. Topics include realism, the role of world wars, Hollywood's global reach, alternative aesthetics of third-world cinemas, cross-fertilization between Europe and Asia, and the function of international film festivals and the international film market. Cross-listed with CPLT 024.

MCS 036 Food in Film 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Explores the representation of food, cooking, and restaurants in films from different national traditions. Includes gender roles; sensuality and sexuality; social class and the economics of food; excess and lack. Cross-listed with CPLT 027.

MCS 038 The Ancient World in Film and Television 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. A study of representations of Greece and Rome in film, television, and other modern media. Introduces these 'visual texts' both as popular art forms on their own and in relation to their ancient and modern literary sources. Cross-listed with CLA 045.

MCS 042 Introduction to German Cinema 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Introduction to the history of German cinema from the advent of the studio system to the present. Covers film in Germany, Switzerland, and Austria. Attention is paid to the work of German-speaking filmmakers living in other parts of the world. Instruction is in English; all films have subtitles. Cross-listed with GER 045.

MCS 043 Soviet Cinema 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. A survey of the Soviet cinema, beginning with the film innovations of the 1920s and continuing with representative films from each of the ensuing periods of Soviet culture. All work done in English. Cross-listed with RUSN 045.

MCS 044 Italian Cinema 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Covers major works of the Italian cinema from Neo-Realism to the present. Emphasizes the historical evolution and representation of major elements of Italian culture. Knowledge of Italian not required. Cross-listed with ITAL 045.

MCS 045 French Cinema 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Covers masterpieces of French cinema. Examines the historical evolution of French cinema as an art form, with emphasis on major themes and directors. Cross-listed with FREN 045.

MCS 046 Introduction to Latin American Film 5

Lecture, 3 hours; screening, 3 hours; discussion, 1 hour. Prerequisite(s): none. Provides an historical overview of Latin American film production. Introduces students to film industries, revolutionary cinema, the role of television, and recent international co-productions. Cross-listed with SPN 046.

MCS 047 Introduction to Korean Film 4

3 hours; screening, 3 hours. Prerequisite(s): none. An introduction to the major directors and films of Korea. Covers the genres and periods of works produced from the 1960s to the present. All films have English subtitles. No previous knowledge of Korean language or culture required. Cross-listed with KOR 047, and AST 047.

MCS 049 Introduction to Vietnamese and Diasporic Film Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Engages in critical viewing strategies and analytical visual critique. Explores the revival of film production in Vietnam following the Vietnam War, with a focus on the means of production, state control, and international distribution. Readings are in translation; classes conducted in English. Cross-listed with VNM 064, AST 064, and SEAS 064.

MCS 066 Screenwriting: How Movies Work 4 Lecture, 3 hours; discussion, 1 hour; screening, 8 hours per quarter. Prerequisite(s): none. An Introduction to writing for stage and screen. Addresses structure, character, dialogue, theme, and story. Cross-listed with CRWT 066, and TFD 066.

Upper-Division Courses

MCS 101 Race, Gender, and the Superhero 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the racialized and gendered construction of superheroes across the genres of comics, television, graphic novels, film, animation, Japanese manga and other digital forms. Content may emphasize themes of sustainability, and the history of superheroes in the US and Japan.

MCS 102 Media/Entertainment Law 4 Lecture, 3 hours; discussion, 1 hour; individual study, 5 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to basic concepts in media/entertainment law with a focus on film and television. Covers copyright/intellectual property, entertainment financing, censorship, entertainment contracts, laws related to guilds, and representing talent. Focuses on both transactional law and case law.

MCS 103 Introduction to Visual Anthropology 4 Seminar, 3 hours; individual study, 3 hours; outside research and projects, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or consent of instructor. An introduction to the field of visual anthropology. Examines the similarities and differences between ethnographic film, critical studies, and written ethnographies. Explores the politics of representing other cultures visually. Cross-listed with ANTH 103.

MCS 104 Film and Media Theory 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers different types of film and media theory. Addresses formalist, psychoanalytic, Marxist, feminist, and other approaches to the cinema and/or other media. Cross-listed with ENGL 104.

MCS 105 Global Communication 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper division standing or consent of instructor.

Introduces a variety of theoretical perspectives that inform global communication and media studies. Compares different world media systems. Surveys global media conglomerates and explores global communication in a digital age.

MCS 106 Disability Culture and Media 4 Lecture, 3 hours; extra reading, 1 hours; written work, 1 hours; activity, 1 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines disability rights politics and activism through cultural production. Explores access to art production, aesthetics and disability, and the role of art in social change. Surveys several genres of art production including dance, theatre, language and visual arts, and film and video.

MCS 107 History of Documentary Film 4 Lecture, 3 hours; screening, 3 hours; written work, 2 hours; individualized study, 3 hours. Prerequisite(s): upper division standing or consent of instructor. Transnational survey of the documentary film from the silent era to the digital age. Topics include how to define nonfiction cinema; the social issue documentary of the 1930s; cinema verité; propaganda; ethnographic media; the essay film; experimental forms; media activism; re-enactment; and the role of changing technologies.

MCS 108 Electric Earth: Media Ecology Theory Culture 4 Seminar, 3 hours; individualized study, 3 hours. Prerequisite(s): MCS 001 with a grade of "C-" or better. Introduces regenerative design. Emphasizes stability and resiliency of natural systems and intersectional praxis of environmental justice in agricultural and social design. Recognizes sustainable food, water, and shelter requires understanding structures of power that shape and maintain discrimination. Includes: agroecology; climate; health; permaculture; intentional communities; social activism; sustainability.

MCS 109 Algorithms and Everyday Life 4 Seminar, 3 hours; individualized study, 3 hours. Prerequisite(s): MCS 005 with a grade C- or better; Examines technologies including artificial intelligence, Tinder, and Uber to examine cultures of algorithms, data, and code. Explores the use of algorithms to shape futures, govern bodies, advance systemic violence, and conceal injustices. Also addresses the use of data to intervene in these unjust data scapes.

MCS 110 (E-Z) Topics in Film & Media History 4 Lecture, 3 hours; screening, 3 hours. Considers topics in the history of film and media with attention to their aesthetic, socio-political, and economic contexts. J. Film & media History After WWII;

MCS 111 History of Media Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper division standing or consent from instructor. Provides a historical trajectory of theories of evolving media effects. Explores methods that serve as reference points for mass communication research.

MCS 112 History of Queer Cinema 4 Lecture, 3 hours; screening, 3 hours; activity 2 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the aesthetic hallmarks, political impulses, and

theoretical responses that distinguish queer cinema as a unique, important tradition within film history. Provides a historical overview of global, independent, Hollywood, and alternative queer production from the 1900s to the present. Cross-listed with LGBS 112, and GSST 112.

MCS 113 Silent Cinema: Practice and Culture 4 Lecture, 3 hours; discussion, 1 hour; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces early modes of cinema production, distribution, and exhibition. Takes an international perspective in the study of the political economy of silent cinema. Examines silent era cinema and industry.

MCS 114 Cinematic War Memory 4 Lecture, 3 hours; screening, 2 hours; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines cinematic confrontations involving World War II in Germany and Japan. Topics include desire between victims and perpetrators, representation of trauma, and ethical responsibility. All screenings have English subtitles. Cross-listed with CPLT 134, GER 134, and JPN 134.

MCS 115 Modern German History Through Film 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores twentieth-century German history through film. Includes World Wars I and II, inflation and polarization of classes, Nazi Germany, representations of the Holocaust, and a divided and reunited Germany. Cross-listed with GER 163, HISE 163, and CPLT 115.

MCS 118 (E-Z) Topics in German Cinema 4 Lecture, 3 hours; screening, 3 hours. Study of selected films, directors, and movements in German film. Films are in German with English subtitles. No knowledge of German is required. Cross-listed with GER 118 (E-Z).

MCS 118E Weimar Cinema and After 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An investigation of the silent and sound films of the Weimar era, focusing on the works of Fritz Lang, G. W. Pabst, and F. W. Murnau and their impact on film directors such as Werner Herzog and Rainer W. Fassbinder. Includes readings in film theory and in the literature and cultural history of the period. Cross-listed with GER 118E.

MCS 118F The Cinema of Fritz Lang 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. In-depth study of the films of the Austrian-born director Fritz Lang (1890-1976), whose work spans the silent era, the Golden Age of Hollywood, and postwar Germany. Explores the evolution of film technique, changes in cinematic paradigms, and Lang's engagement with ideology. Cross-listed with GER 118F.

MCS 118G Film and the Holocaust 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the moral, philosophical, and cultural legacy of the Holocaust in documentary and narrative films. Films and selected theoretical and literary texts involve key issues such as truthfulness, politicization, marginalization,

universalization, trivialization, abstraction, representation of trauma, abstraction, aestheticization, and testimonies. Cross-listed with GER 118G.

MCS 120 Major Figures in Film and Media 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Intensive analysis of the work of a significant figure in film, television, or other media who functions as an "auteur" (e.g. an influential director, star, or producer). Course is repeatable as topics change to a maximum of 8 units.

MCS 122 Sustainability as the Future of Democracy 5

Lecture, 3 hours; screening, 3 hours; activity, 3 hours. Prerequisite(s): upper division standing or consent of instructor. A critical cultural analysis of the discourses underlining and validating the degradation and destruction of our natural environments, engendering vast income inequalities.

MCS 123 Asian American Women: Writing the Self in Literature and Film 4

Lecture, 3 hours; screening, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): MCS 010, upper-division standing, or consent of instructor. Analyzes Asian American autobiographies and films written and directed by women. Explores why the genre of autobiography is enabling and contentious within Asian American women's writings. Examines films to see how such women filmmakers contend with memory, gender, and identity. Cross-listed with GSST 124, and SEAS 175.

MCS 124 Latin America, Democracy, and the Media 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the construct of democracy in Latin America related to various media. Introduces current political and cultural issues in multiple countries. Critically reflects on the concept of democracy and how different social actors understand democracy. Evaluates the role of media in democratic processes.

MCS 125 (E-Z) Topics: Latin Amer Film & Media 5

Lecture, 3 hours; extra reading, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive formal, historical, and theoretical analysis of a theme or issue in Latin American film and media. E. Indigenous Video & Latin America; Cross-listed with LNST 125 (E-Z), and SPN 125 (E-Z).

MCS 126 From Novel to Screen: Film Adaptations of German Literature 4

Lecture, 3 hours; screening, 2 hours; individual study, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to classic works of German literature and their film adaptations. Explores adaptations by film directors such as Welles, Kubrick, Visconti, and Fassbinder. Studies the nexus between literature, film, and theatre. Course conducted in English. Cross-listed with CPLT 126, and GER 126.

MCS 127 Chicana/O Cultural Studies and Gender Politics 4

Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the field of Chicana/o cultural studies and

investigates the gender politics that attest to its intersectional approach. Considers how power and gendered politics have impacted the restructuring of the split subject in Chicana/o cultural studies. Cross-listed with GSST 166.

MCS 128 Queer of Color Cultural Critique 4

Seminar, 3 hours; project, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores emerging themes in queer of color critique. Includes modes of analysis, subjects, political prioritization, and paradigm shifts. Examines theory and seeks to locate theorizing in multiple sites and forms to encourage and imagine real world applications for cultural critique (including its translation to and from arenas of social justice).

MCS 129 Disney: Producing Race, Gender and Sexuality 4

Lecture, 3 hours; extra reading, 1 hour; written work, 1 hour; activity 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates the articulation of race, gender, sexuality, and class in Disney-based productions. Examines how globalization, capitalism and consumption intersect in the production of race, gender, class, disabilities and sexualities. Considers the relation between the Disney Corporation and cultures as commodities and imperialist corporate politics. Credit is awarded for only one of MCS 129 or MCS 129S.

MCS 129S Disney: Producing Race, Gender and Sexuality 5

Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; written work, 1 hour; activity, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates the articulation of race, gender, sexuality, and class in Disney-based productions. Examines how globalization, capitalism and consumption intersect in the production of race, gender, class, disabilities and sexualities. Considers the relation between the Disney Corporation and cultures as commodities and imperialist corporate politics. Credit is awarded for only one of MCS 129 or MCS 129S. See the Student Affairs Office in the College of Humanities, Arts, and Social Sciences for breadth requirement information.

MCS 130 Filipino American Culture 4

Seminar, 3 hours; screening, 3 hours. Prerequisite(s): MCS 001. Explores the politics of a range of Filipino American expressive, performative, and creative forms (e.g., Filipino Culture Night) video, art, fiction, theater, in tandem with the study of theoretical and socio-historical scholarship in the interdisciplinary field of Filipino American Studies. Cross-listed with SEAS 130.

MCS 131 Intermediate Photography and Digital Technology 4

Lecture, 3 hours; laboratory, 4 hours. Prerequisite(s): ART 003 or consent of instructor. Covers the complete cycle of photographic production from scanning to output. Emphasizes developing skill in creating digital photographic imagery for creative and cultural expression. Software and some digital equipment are provided. A 35mm single lens reflex (SLR) or digital cameras and flash drives are required. Course is repeatable to a maximum of 8 units. Cross-listed with ART 131.

MCS 132 Intersections of Media and Popular Culture 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper division standing or consent from instructor Examines the

interconnections of media technologies, modes of audience engagement, and the political and economic contexts of audience formation. Focuses on production sites and distribution and consumption of media. Explores how theoretical frameworks converge in the examination of connections between cultural texts and social contexts and between media and society.

MCS 134 Transmedia: Demonstration Project 4

Lecture, 2 hours; workshop, 1 hour; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces strategies for organizing and presenting materials, ideas, and arguments in various media. Includes visual, written, and audio texts; the spoken word; and performance.

MCS 135 Intermedia: Art, Media, and Culture 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of performance, photography, video, film, television, installation, and other related "intermedias." Focuses on intermedial artworks and how they are constructed, documented, analyzed, and viewed in the larger context of culture. Cross-listed with ART 135.

MCS 136 Installation and Site-Specific Art 4

Lecture, 3 hours; studio, 3 hours. Prerequisite(s): consent of instructor. Focuses on performance, photo installation, computer art, video/film, site-specific installation, sculpture, and/or other intermedia. Concentrates on production and analysis of site-specific art. Course is repeatable to a maximum of 8 units. Cross-listed with ART 136. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

MCS 137 History of Video Art 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Traces the evolution of video art from the invention of the Portapak and early video collectives to the current ubiquity of video installation, single-channel, and multimedia art. Emphasizes video art in the United States. Cross-listed with AHS 136.

MCS 138 History of Experimental Cinema 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. A survey of cinema outside of the economic, institutional, and aesthetic imperatives of mainstream film production. Covers an array of alternative film movements including surrealism and dada, Soviet avant-garde, the Cine 16 Group, French new wave, North American avant-garde, and the artist's film. Cross-listed with AHS 137.

MCS 139 Mass Media and Popular Culture 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. A comparative analysis of the television, radio, record, cinema, and journalism industries as social institutions and a discussion of contemporary developments in mass communications theory. A study of the relationship between the social processes of modern society and the content of popular culture. Cross-listed with SOC 139.

MCS 140 Alternative Media Production and Social Movements 4

Lecture, 3 hours;

screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the history, theory, and practice of alternative forms of media production. Focuses on how various media forms were used to disseminate information in order to motivate audiences to take action for social change. Provides opportunities to learn documentary making, experiment with media forms, and produce alternative media projects. Course is repeatable as topics change to a maximum of 12 units.

MCS 142 Gender in Southeast Asian Diasporic Literature and Film 5

Lecture, 3 hours; screening, 3 hours; written work, 1 hour; extra reading 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on former Indochinese refugees who are producing literature and films in the United States and France. Examines how the perception of Indochina has been constructed, particularly how the region has been gendered female in the colonial imaginary. Explores the return of Southeast Asian immigrants to the Western gaze. Cross-listed with GSST 122, and SEAS 172.

MCS 143 (E-Z) Gender, sexuality, visual Culture 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Intensive formal, historical, and theoretical analysis of gender and sexuality in film, television, and visual culture. E. Feminist Film Theory & Practice; F. Film And Gender; G. Screening The Lesbian; K. Queers That Kill; Cross-listed with ENGL 143 (E-Z), and LGBS 143 (E-Z).

MCS 144 (E-Z) Race, Ethnicity&Visual Cltr 4

Lecture, 3 hours; screening, 3 hours. Intensive formal, historical, and theoretical analysis of race and ethnicity in film, television, and visual culture. Weekly screenings and readings. I. Racial Diff:post-colonial Wrld; J. Film, Race,&ideolgy:vietnm Wa; K. Decolonizing The Screen; Cross-listed with ENGL 144 (E-Z).

MCS 145 (E-Z) Spec Topics:film&Visual Cultr 4

Lecture, 3 hours; screening, 3 hours. An intensive formal, historical, and theoretical analysis of a theme or issue in film, media, television, and visual culture. E. Hollywood In The 1960s; F. Television And American Culture; G. Film As Writng & Writng As Flm; I. Liberal Hollywd & Soc Problems; J. The Horror Film; K. African American Visual Culture; M. Male Nude In Photography & Film; Cross-listed with ENGL 145 (E-Z).

MCS 146 (E-Z) Topics:technocltr&Digtl Media 4

Lecture, 3 hours; screening, 3 hours. Advanced study of theories and practices of reader and audience interaction with technologies of cultural production in general and digital media in particular. Includes praxis-oriented composition or research. E. Identities And Interactions; F. Cltrs&tech Of The Visual; G. Cultrs&technolgies Of Th Aura; I. Adv Comp&rhet-digtl Media Aut; Cross-listed with ENGL 146 (E-Z).

MCS 147 Visual Culture and Afrofuturism 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing

or consent of instructor. An introduction to the cultural production of space called Afrofuturism and the history of the black speculative arts. Includes how the speculative affects representations of race and blackness in literature, visual culture, and music.

MCS 148 Bodies in Motion: Cinema as Choreography 4

Lecture, 3 hours; discussion, 1 hour; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction of cinema as a kind of choreography. Examines how it sets bodies in motion both on and in front of the screen. Considers some of the ways bodily movement was understood philosophically, scientifically, and bureaucratically at the moment cinema emerged.

MCS 149 Between the Panels: Introduction to U.s and Identity in Visual Culture 4

Lecture, 3 hours; extra reading, 2 hours; activity, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the history of the medium of comics in the United States. It will also examine the tensions between the mainstream focus of comics and graphic novels represented via the superhero genre and the alternatively diverse narratives that are afforded through the medium.

MCS 150 Intermediate Moving Images: Film Video and New Media 5

Lecture, 3 hours; studio, 3 hours; screening, 3 hours. Prerequisite(s): ART 004/MCS 004. Examines the moving image through installation, documentary, experimental film, video art, sound art, and performance. Builds upon production and editing concepts introduced in ART 004/MCS 004. Explores issues and skills of video/film/media art based in production, history, and theory of the moving image. Covers editing theory, lighting, and sound editing. Course is repeatable to a maximum of 10 units. Cross-listed with ART 150.

MCS 151 (E-Z) Filmic Bodies 4

For hours and prerequisites, see segment descriptions. Assesses a multiplicity of filmic genres through the portals of the dancing and mobilized body as related to race, gender, class, and other identifiers. Explores the politics of movement on film, the mechanics of making film work, and the political economy of dance on film. Dance experience is usually not required. Course is repeatable to a maximum of units. Cross-listed with DNCE 171 (E-Z).

MCS 151F Ethnographic Representation of Dance On Film: “. . . and Then They Danced 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the juncture between representation and presentation in everyday dance genres on film. Explores race, class, tropes of authenticity, and ownership of cultural production through screenings, lectures, and theoretical writings. No previous dance experience required. Course is repeatable. Cross-listed with DNCE 171F.

MCS 151G Gender, Mechanization, and Shape 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Utilizes film, video, and texts to examine the relationship among gender, mechanization, and shape during the twentieth

century. Focuses on the performing arts, industrial and technological design, and the relationship of visual culture to changing notions of gender. Course is repeatable. Cross-listed with DNCE 171G.

MCS 151J Spectatorship 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature of film studies through the eyes of the audience. Uses film, videos, and texts (in addition to outside viewing of films in cinematic locales) to formulate how viewing film constructs the viewer's subjectivity and a film's cultural context. Course is repeatable. Cross-listed with DNCE 171J.

MCS 151K Attractions, Interruptions, Disruptions: Narrative Film:fight Scenes, Dance Sequences,special Effect 4

Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the way film regulates the movement of bodies on and off screen through narrative and what happens when the movement exceeds that regulations. Utilizes selected films to explore the fight scenes, dance sequences, and computer generated imagery in film. Includes screenings both in class and outside of class. Course is repeatable. Cross-listed with DNCE 171K.

MCS 151M Bollywood 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the vast corpus of films that constitute the genre called Bollywood. Focuses on the genre's music and dance styles. Includes weekly film screenings. No previous dance experience required. Course is repeatable. Cross-listed with DNCE 171M.

MCS 152 (E-Z) Televisual Bodies 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Analyzes choreographic practices within television broadcast and marketing and their relation to popular culture. Also examines situational or tactical use and misuse of satellite, cablecast, and broadcast television by unintentional audiences that subsequently reconstitute themselves as communities via the programming. Focuses on video as an archival and/or choreographic tool. J. Corps&corprties:comm,cltr,cho; K. Tv As Locatr:the Satellit Feed; M. Music Tv (mtv)& Popular Cultur; Course is repeatable to a maximum of units. Cross-listed with DNCE 172 (E-Z).

MCS 153 (E-Z) Digitized Bodies 4

Lecture, 3 hours; laboratory, 3 hours; screening, 1 hour. Prerequisite(s): MCS 020; restricted to class level standing of junior, or senior. Provides a theoretical approach to digital subjectivities, bodies in motion, products, and realities. Addresses issues of liveness, new media, mediated cultural identities, speed, transfer, telepresence, and coded and encoded sexuality within programming. Focuses primarily on the body-computer interface. J. Digital Games, Violence & Body; K. Vrtl Subj:persona,ident,&body; Course is repeatable to a maximum of units. Cross-listed with DNCE 173 (E-Z).

MCS 154 Media, Gender, and Violence 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s):

upper-division standing or consent of instructor. Examines media representations of women and violence. Topics include feminist and queer theory, pornography, sexual violence, state violence, censorship, militarization, policing, and intersections with race, ethnicity, class, sexualities, and citizenship. Analyzes cinema, television, video, gaming, digital, print, and other visual and acoustic media. Course repeatable as topics change to a maximum of 12 units.

MCS 155 Advanced Moving Images: Film, Video and New Media 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): ART 150/MCS 150. Expands on skills introduced in ART 150/MCS 150. Explores issues and skills connected with video/film/media art based on the production, history, and theory of the moving image. Covers recording, editing theory, lighting, and sound mixing. Examines time-based media through installation, documentary, experimental film, video art, sound art, and performance. Course is repeatable to a maximum of 12 units. Cross-listed with ART 155.

MCS 156 (E-Z) South Asian Media and Cultures 4 Lecture, 3 hours; screening, 3 hours. Explores the construction of various South Asian media. Considers confluence of new technologies of production and distribution, as well as the liberalization and globalization of different economies and social structures. E. Bollywood;

MCS 157 Afrofuturism & the Visual Cultures of Horror 4 Lecture, 3 hours; activity, 1 hour; extra reading, 2 hours. Prerequisite(s): MCS 001, may be taken concurrently; or consent of instructor. An introduction to the trope of the grotesque and the myriad societal fears regarding what the monster symbolizes in visual mediations of the horror genre. Analyzes the tensions between the imaginings of the monstrous and how identity is constructed and consumed.

MCS 160 Race, State Violence, and Incarceration in the U.S. 4 Lecture, 3 hours; individual study, 6 hours; research, 1 hour; term paper, 2 hours. Prerequisite(s): MCS 010 with a grade of C- or better; or consent of instructor. Course offers a historical, analytical, and theoretical examination of the cultural formation of criminalization and incarceration in the United States. Contextualizes the US carceral regime's roots in the cultural-political structures of racial chattel slavery, land conquest, settler colonization, and the statecraft of anti-Black violence.

MCS 161 Choreographing the Screen 4 Lecture, 3 hours; screening, 2 hours; term paper, 1 hour. Prerequisite(s): DNCE 019 (may be taken concurrently) or consent of instructor. Focuses on choreographing for the camera and the screen. Topics include video art, classic film choreography, music video, and digital dance technologies. Students prepare a choreographic piece for the camera as a final project. Cross-listed with DNCE 161.

MCS 162 Tool, Technology, Technique 4 Lecture, 3 hours; screening, 3 hours; laboratory, 3 hours. Prerequisite(s): DNCE 019 or MCS 019 or consent of instructor. Practicum in video and digital production with an emphasis on capturing and editing the moving body. Students are

encouraged to bring their own video or digital recording device. Editing equipment will be available. Cross-listed with DNCE 162.

MCS 163 Special Topics in Art Criticism and Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ART 006/MCS 006 and ART 160 with grades of "C-" or better or consent of instructor. Advanced topics in contemporary art theory and criticism. Examines the reception, analysis, and theoretical underpinning of works of art in relation to contemporary and historical issues in the visual arts. Cross-listed with ART 161.

MCS 164 Digital Media and Participatory Citizenship 4 Workshop 3 project, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical analysis of the new media environment. Explores options of operating as producers of culture. Includes design of an innovative intervention for circulation in the evolving digital media environment, as well as evaluation of its contribution and possible impact. Course is repeatable with consent of department or as topics change to a maximum of 12 units.

MCS 165 "The Queer 1980s 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 001. An examination of film, video, print media, music, and other expressive forms from the U.S. and the United Kingdom during the 1980s. Considers how the Reagan/Thatcher era and the emergence of the AIDS pandemic gave rise to various forms of activism leading to the development of queer studies.

MCS 166 Punk and Post-Punk Cultures 4 Lecture, 3 hours; Screening, 3 hours. Prerequisite(s): MCS 010; or the consent of instructor. Examination of the history and politics of punk and post-punk cultures from the United States and Great Britain since the mid-1970s. Assesses the impact and enduring appeal of punk and post-punk attitudes and aesthetics across the Atlantic divide through music, fashion, film, and other expressive forms.

MCS 167 Transnational Vietnamese Cinema 4 Lecture, 3 hours; screening, 3 hour. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores how Vietnamese people and the Vietnamese diaspora seek to imagine a sense of community in the postwar era through contemporary film and video. Examines the thematics of return, longing, and exile. Reviews some of the texts' bold expressions of gender, sexuality, and identity. Cross-listed with AST 187, and SEAS 177.

MCS 168 Hong Kong Cinema: Gender, Genre, and the "New Wave 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Examines contemporary Hong Kong films, specifically the "New Wave" genre. Particular focus is on the sociopolitical conditions of Hong Kong and its relations with Great Britain and China, the linkages of which set the stage for the films and thematic concerns. Cross-listed with AST 186.

MCS 169 New Chinese Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020, upper-division standing or consent of

instructor. A study of representative films from the People's Republic of China, with a focus on those made during the last decade. Conducted in English; most films have English subtitles. Cross-listed with AST 185, and CHN 185.

MCS 171 Reel to Real: Latin American Film and Social Change 4 Seminar, 3 hours; screening, 3 hours. Prerequisite(s): SPN 110. Introduces Latin American film as it articulates with contemporary history and current events. Cross-listed with SPN 171.

MCS 172 Topics in Film and Media Genres 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Topics may include study of a specific film or media genre; comparative genre studies (including a survey of the history and theory of two or more genres); or analysis of the concept of genre in film and media studies. Each segment is repeatable as its content changes to a maximum of 8 units.

MCS 173 (E-Z) International Cinemas 4 Lecture, 3 hours; screening, 3 hours. Considers non-Hollywood cinemas in the national, historical, political, and cultural contexts which produced them. E. Experimental & Avant-garde Film; F. French New Wave; G. New German Cinema; I. Italian Neorealism; T. Third World Cinema; U. Global Perspective Vietnam War; Cross-listed with CPLT 173 (E-Z).

MCS 174 (E-Z) Comparative Studies in Film 4 Lecture, 3 hours; screening, 3 hours. Considers film in the context of the other arts. Compares the treatment of various themes or problems in film and other media. E. Film & Literature Avant-garde; Cross-listed with CPLT 174 (E-Z).

MCS 177 Indigenous Media 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines and compares the strategies indigenous videomakers use to counter the imperial gaze of cinema. Discusses possibilities for turning the art form of capitalism and colonialism into a tool for decolonization.

MCS 178 Berlin Metropolis in Literature, Film, Music, and Art 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. An introduction to the metropolis Berlin as a gateway between the East and West. Explores topography of the city through film, art, music, and literary texts. Considers Berlin's dramatic transformations as a microcosm of Germany and Europe's troubled history in the twentieth century. Course conducted in English. Cross-listed with AHS 120, CPLT 111, EUR 120, and GER 111.

MCS 179 Gender, Media, and Latin America 5 Lecture, 3 hours; screening 3 hours; research 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores the way Latin Americans have thought of and represented gender across a variety of media including essays, film, novel, short story, and performance. Compares the possibilities and limitations of these media for representing gender in the Latin American context. Cross-listed with LNST 109, SPN 179, and GSST 179.

MCS 180 Japanese Documentary 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Studies the history of Japanese documentary cinema. Teaches strategies for reading nonfiction visual narrative. Explores other forms of documentation controversial in modern Japanese history including oral testimony, photography, and internet activism. Topics may include war, war protest, peace activism, environmental activism, nuclear politics, and green energy. Course is repeatable as topics and instructor change to a maximum of 8 units. Cross-listed with JPN 180, and AST 180.

MCS 181 Existentialism in Literature, Film, and Culture 4 Lecture, 3 hours; screening, 2 hours; outside research, .5 hours; term paper, .5 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the Existentialist movement in literature, film, and culture. Texts range from essays, plays, and novels to documentary and fiction film. Topics include choice, subjectivity, and alienation. Cross-listed with FREN 181, and CPLT 181.

MCS 184 Japanese Media and Cultural Studies 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigates Japanese media and culture including film, television, video games, manga (comics), anime, music, and print and digital media. Analyzes the function of media relating to issues of national identity, imperial culture, collective memory, and censorship. Includes transnational circulation of Japanese cultural forms, alternative media, and historical changes in technologies. Cross-listed with AST 184, and JPN 184.

MCS 185 Imagining the Nation: Film and Media in Latin America 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Study of the role of media and film in creating a national imaginary in Latin America. Focus is on one region or nation--such as the Andes, the Caribbean, Mexico, Argentina, or Chile--relating local history to the global context. Course is repeatable as topics change to a maximum of 8 units. Cross-listed with LNST 105, and SPN 185.

MCS 186 Media and Movements: Film, Video, Photography, and the Visual Arts 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on key cultural movements or developments in global arts over the past century. Provides a thematic history of the avant-garde and experimental arts including painting, sculpture, photography, video, film, performance, installation, and new media art. Cross-listed with AHS 186. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

MCS 187 Theorizing New Media 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing, consent of instructor. Approaches new media through its archaeology. Introduces theories of media and mediation, focusing on digital media and networked society. Draws from classic theory and from contemporary activist practice. See the Student Affairs Office in the College of Humanities, Arts,

and Social Sciences for breadth requirement information.

MCS 188 Media & Militarism 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Studies the function and effects of militarism and media. Includes how militarism is represented through various media genres such as cinema, television, advertising, documentary films, video games, digital, and new media. Explores its intersection with gender, race, class, religion, and nation. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

MCS 189 Political Culture of Race and Policing 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour. Prerequisite(s): MCS 010; Or the consent of instructor; Offers a critical historical and theoretical approach to the politics and culture of United States police and policing. Course will focus on how racist state violence articulates through discourses of personal/community safety, peacekeeping, "law and order," and (declared and undeclared) domestic warfare.

MCS 190 Special Studies 1 to 5 Consultation, 1 hour; individual study, 3 to 12 hours; term paper or project, 1-3 hours. Prerequisite(s): upper-division standing; consent of instructor and program chair. Faculty-driven individual study to meet special curricular needs. Requires a final paper or creative project. Course is repeatable to a maximum of 15 units.

MCS 193 Senior Seminar 4 Seminar, 3 hours; project, 3 hours. Prerequisite(s): senior standing or consent of instructor. Advanced research in various fields of faculty interest. Includes completion of a research paper and a class presentation of its contents. Topics vary from year to year. Course is repeatable to a maximum of 8 units. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

MCS 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

MCS 198I Individual Internship in Media and Cultural Studies 1 to 12 Consultation, 1 to 3 hours; internship, 1 to 12 hours; individual study 1 to 6 hours; term paper, 1 to 3 hours; written work, 2 to 6 hours. Prerequisite(s): upper-division standing; consent of instructor and the Media and Cultural Studies Chair. An internship in a professional organization or with an individual to gain skills and experience for a career in visual media. Requires the writing of reports, final paper, or the making of a creative project. Course is repeatable to a maximum of 16 units. Fulfills the Humanities requirement

for the College of Humanities, Arts, and Social Sciences.

Graduate Courses

MCS 201 Racial-Colonial (state)

Violence 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Provides an intensive theoretical engagement with the structural, conceptual, and material regimes of gendered racist violence in the hegemonic modern North American period. Focuses on how state and extra-state violence constitute?and are constituted by?gendered racism as a singular regime of social ordering.

MCS 280 Colloquium in Book, Archive and Manuscript Studies 2

Colloquium, 2 hours. Prerequisite(s): graduate standing. Addresses current research topics pertaining to the program in designated emphasis. Includes events conducted both on and off campus. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

MCS 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and department chair. A directed studies course designed to address special curricular problems. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade if specialized topics are studied. Course is repeatable.

MCS 292 Concurrent Analytical Studies in

Media and Cultural Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. To be taken concurrently with a 100-series course, but on an individual basis. Limited to research, criticism, and written work. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade if specialized topics are studied. Course is repeatable.

Professional Course

MCS 302 Teaching Practicum 1 to 4

Practicum, 3 to 12 hours. Prerequisite(s): appointment as a teaching assistant; graduate standing. Supervised teaching in undergraduate Media and Cultural Studies courses. Required for all Media and Cultural Studies teaching assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 4 units.

MEDICAL AND HEALTH HUMANITIES DESIGNATED EMPHASIS

College of Humanities, Arts, and Social Sciences

Juliet McMullin (Anthropology), Director

Emily Rapp Black (Creative Writing)
Allison Hedge Coke (Creative Writing)
Matthew King (Religious Studies)
Dana Simmons (History)
Sherryl Vint (English and Media and Culture Studies)
Fuson Wang (English)

Designated Emphasis Requirements

The Designated Emphasis is a 16-unit interdisciplinary graduate course of study, requiring students to demonstrate focused coursework and research in the field with two core requirements:

1. Four (4) graduate courses (16 units). Students will only be allowed to take one (1) undergraduate qualified course paired with a 292 in this DE. These courses must be 5 taken in at least two different departments: ANTH 261, ANTH 262, ANTH 265, ANTH 281, CRPA 210, ENGL 247, ENGL 273, ENGL 274, ENGL 278, ETST 201, ETST 221, ETST 222, HIST 220, HIST 238A, HSIT 238B, HIST 265A, PHIL 261, PHIL 283, PSYC 225, PSYC 255, PSYC 262, RLST 222, RLST 224, RLST 239, RLST 236.
2. Submission of a research portfolio within one year after the quarter in which the student advances to candidacy. The portfolio, to be reviewed by a standing committee of the Medical and Health Humanities Faculty, will demonstrate significant research in the field, include two research papers (one research paper must be the product of one of the 4 unit qualifying courses) and syllabi from the four completed courses. The student will also submit a self-statement (of no more than 1000 words) articulating their particular research emphasis and expertise, and one Medical and Health Humanities syllabus created by student.

All requirements for the Designated Emphasis must be satisfied within one year after the quarter in which a student advances to candidacy in their Ph.D. field; a minimum GPA of 3.0 is required for the award of the Designated Emphasis.

MEDICINE

Subject abbreviation: MDCL School of Medicine Division of Biomedical Sciences Division of Clinical Sciences

Deborah Deas, M.D., M.P.H., Vice Chancellor, Health Sciences; the Mark and Pam Rubin Dean, UCR School of Medicine
Emma Simmons, M.D. Senior Associate Dean, Student Affairs
David Lo, M.D. Ph.D. Senior Associate Dean, Research
Maegen Dupper, M.D. Associate Dean, Clinical Medical Education
Kendrick Davis, Ph.D. Associate Dean, Assessment and Evaluation
Iryna Ethell, Ph.D. Associate Dean, Academic Affairs
Christian Lytle, Ph.D. Associate Dean, Pre-Clerkship Curriculum
Sunny Nakae, Ph.D. Associate Dean, Student Affairs
Monica J. Carson, Ph.D. Chair, Division of Biomedical Sciences
Ramdas Pai, M.D. Chair, Division of Clinical Sciences

Student Affairs Office, 1682 SOM Education Bldg., (951) 827-4751; medschool.ucr.edu

Professors

Monica J. Carson, Ph.D. *Neuroimmunology*
Iryna M. Ethell, Ph.D. *Biology, Biochemistry*
Byron Ford, Ph.D. *Stroke and Brain Injury*
Adam Godzik, Ph.D. *Biomedical Sciences*
David Lo, M.D. Ph.D. *Distinguished Professor, Genetics*
Declan McCole, Ph.D. *Physiology, Pharmacology*
Maurizio Pellecchia, Ph.D. *Daniel Hays Endowed Chair in Cancer Research, Drug Discovery*
Seema K. Tiwari-Woodruff, Ph.D. *Neurodegenerative Diseases/Glia Biology*
Ameae M. Walker, Ph.D. *Distinguished Teaching Professor, Microanatomy*
Emma Wilson, Ph.D. *Parasite Immunologist*
ChangCheng Zhou, Ph.D. *Xenobiotics, Cardiovascular and Metabolic Disease*

Professors Emeriti

Scott Allen, M.D. *Internal Medicine*
Mary Ann Baker, Ph.D. *Neurosciences*
Craig V. Byus, Ph.D. *Pharmacology, Biomedical Sciences, Biochemistry*
Kathryn DeFea, Ph.D. *Cell Biology, Biochemistry*
David A. Johnson, Ph.D. *Pharmacology*
Richard A. Luben, Ph.D. *Endocrinology, Biomedical Sciences, Biochemistry*
Anthony W. Norman, Ph.D. *Endocrinology, Biomedical Sciences, Biochemistry*
G. Richard Olds, M.D. *Infectious Diseases, Internal Medicine, Clinical Sciences*
Neal L. Schiller, Ph.D. *Distinguished Teaching Professor, Microbiology, Immunology*
Michael B. Stemerman, M.D. *Biomedical*

Sciences
Daniel S. Straus, Ph.D. *Human Genetics, Biomedical Sciences*

Associate Professors

Brandon Brown, Ph.D. *Social Medicine and Population Health*
Djurdjica Coss, Ph.D. *Endocrinology, Neuroscience*
Martín I. García-Castro, Ph.D. *Neural Crest Cells*
Marcus Kaul, Ph.D. *Neuroscience*
Christian Y. Lytle, Ph.D. *Physiology*
Meera G. Nair, Ph.D. *Infectious Diseases, Mucosal Immunology*

Assistant Professors

Qi Chen, M.D. Ph.D. *Epigenetic Inheritance and Reproductive Biology*
Nicholas DiPatrizio, Ph.D. *Biomedical Sciences*
Erica Heinrich, Ph.D. *Integrative Physiology, Hypoxia and High Altitude Medicine*
Tara Nordgren, Ph.D. *Biomedical Sciences*
Sika Zheng, Ph.D. *Neurobiology/Molecular Genetics*

**

Professor in Residence

Devin Binder, M.D./Ph.D. *Clinical Neuroscience*

Associate Professor in Residence

Devin Binder, M.D./Ph.D. *Clinical Neuroscience*

Assistant Professors in Residence

Ann Cheney, Ph.D. *Social Medicine and Population Health*
Andrew Subica, Ph.D. *Psychiatry*

Clinical Professors

Lawrence Albers, M.D. *Psychiatry*
Geoffrey Block, M.D. *Internal Medicine*
Megan Brenner, M.D. *Surgery*
Yi-Pin Cheng, M.D. *Family Medicine*
Deborah Deas, M.D. M.P.H. *Psychiatry*
Carl Feinstein, M.D. *Psychiatry*
Christopher Fichtner, M.D. *Psychiatry*
Kayla Fisher, M.D. *Psychiatry*
Samer Ghostine, M.D. *Neurology*
Rajesh Gulati, M.D. *Internal Medicine*
Nahidh Hasaniya, M.D. *Internal Medicine*
John Heydt, M.D. *Family Medicine*
Navin Jaipaul, M.D. *Internal Medicine*
Mohammad Kanakriyeh, M.D. *Internal Medicine*
Daniel Kim, M.D. *Internal Medicine*

Community-Based Faculty

To view a list of community-based faculty, visit medschool.ucr.edu/community-based-faculty

UCR School of Medicine

The mission of the UCR School of Medicine is to improve the health of the people of California and, especially, to serve Inland Southern California by training a diverse workforce of physicians and by developing innovative research and health care delivery programs that will improve the health of the medically underserved in the region and become models to be emulated throughout the state and nation.

With its opening in 2013, the UCR School of Medicine became the first new public medical school in California in more than four decades. It is expressly designed to meet the physician workforce needs in Inland Southern California and to improve the health of people living in the region. The school's community-based model provides medical students with clinical experiences in a variety of healthcare settings with diverse patient populations.

The UCR School of Medicine seeks students with diverse intellectual and life experiences. The school values broad academic backgrounds that include humanities, foreign language, social sciences and the arts to help prepare future physicians for interacting with increasingly diverse patient populations, health care professionals and colleagues. Each applicant's complete portfolio will be reviewed carefully in order to select students who are not only academically qualified but who have the breadth of volunteer/community and personal experiences to ensure that they will become physicians well prepared to care for the diverse population in our communities. somsa.ucr.edu

The Thomas Haider Program at the UCR School of Medicine is a special program within the school that provides a unique pathway into medical school for UCR students, with up to 24 seats filled by students who attend UCR for at least six consecutive quarters and complete their bachelor's degree at UCR. somsa.ucr.edu/haider-program

All School of Medicine applicants apply to the UCR School of Medicine through the American Medical College Application Service, at amcas.org/students/applying/amcas, following its guidelines and deadlines. Students may submit their applications at any time during the application period, as early as June (14 months before medical school classes begin in August at UCR) or as late as November 2 (9 months before classes begin). Applications without recent MCAT scores are considered incomplete. Review the application guidelines at somsa.ucr.edu

Program Prerequisites

Pre-medical Education

The School of Medicine expects candidates to be well prepared to engage curriculum in the basic sciences. Applicants are expected to cover foundational areas to demonstrate the ability to succeed in medical school. Lab course hours do NOT count toward total semester hours.

Required Science Core

- Mathematics (8 semester hours) in calculus and/or statistics
- Physics (8 semester hours), labs optional
- General Chemistry, Organic Chemistry, Biochemistry (16 semester hours), labs

optional

- Biology (8 semester hours), labs optional

Recommended Humanities Core

The School of Medicine seeks to develop the whole Student with curriculum that prepares future physicians to meet the needs of underserved communities. To that end, courses that emphasize culture, ethic, public health, spiritual practices, and other aspects of diversity are recommended. The committee appreciates candidates listing their humanities or social science courses in these subject areas.

- English, Writing, Composition, Logic or Critical Thinking (8 semester hours)
- Humanities/Social Science (8 semester hours)
- Spanish (3 semester hours)

Completion of Requirements

Students must complete all premedical requirements before beginning the first year of medical study, although these requirements need not be completed at the time application for admission is filed. AP credit with a score of 4 or 5 (or International Baccalaureate score of 6 or 7) can be used to satisfy all subjects.

Medical College Admission Test (MCAT)

The MCAT must be taken not later than fall of the year preceding admission to the School of Medicine. If more than one MCAT was taken, all the test grades must be included when making an application. The test must be repeated if, at the time of application, more than three years have elapsed since it was taken. Requests for test reports and all other correspondence and requests for information concerning the administration, processing, and scoring of the MCAT should be directed to the MCAT Program Office.

Additional details regarding application requirements and the admissions process can be found at somsa.ucr.edu

Academic Advising

UCR undergraduates receive academic advising from professional staff and faculty of the department or program of their chosen major. Professional staff and peer mentors in the medical school's Health Professions Advising Center are available to guide students in planning pre-health professions course work, gaining health-related experiences, completing service work and can assist with preparing to apply for admission to graduate and professional programs.

Medical/Professional Courses

MDCL 231 Foundations of Medicine

I 10.5 Lecture, 67.5 hours per quarter; discussion, 30 hours per quarter; laboratory, 20.5 hours per quarter; clinical 15 hours per quarter. Prerequisite (s): first year standing in medical school. Covers basic principles of

disease processes, genetics, and molecular, cellular, and development biology. Instruction is driven by cases and accomplished through lectures and discovery in small group discussions, laboratories, and conferences. Also covers aspects of anatomy, doctoring, patient examination, and the longitudinal ambulatory clinical experience. Includes problem-based learning. Graded In Progress (IP) until MDCL 231, MDCL 232, MDCL 233, MDCL 234 and MDCL 235 are completed, at which time a final grade is assigned. Credit is awarded for only one of BMSC 223E or BMSC 229 or BMSC 231 or MDCL 231.

MDCL 232 Cardio, Renal & Resp Sciences

I 17.5 Lecture, 113 hours per quarter; discussion, 45 hours per quarter; laboratory, 28 hours per quarter; clinical 36 hours per quarter. Prerequisite(s): first year standing in medical school. Covers physiology, pathophysiology, physical diagnosis and imaging in the cardiovascular, renal and respiratory sciences. Instruction is driven by cases and accomplished through lectures and discovery in small group discussions, laboratories, and conferences. Also covers aspects of anatomy, doctoring, patient examination and the longitudinal ambulatory clinical experience. Includes problem-based learning. Graded In Progress (IP) until MDCL 231, MDCL 232, MDCL 233, MDCL 234 and MDCL 235 are completed, at which time a final grade is assigned. Credit is awarded for only one of BMSC 223F or BMSC 223G or BMSC 223I or BMSC 232 or MDCL 232

MDCL 233 Gastr, Endocrine & Repro

Hith 14 Lecture, 94 hours per quarter; discussion, 25 hours per quarter; laboratory, 33 hours per quarter; clinical 34 hours per quarter. Prerequisite (s): first year standing in medical school. Covers biochemistry, pathophysiology, physical diagnosis & imaging associated with gastrointestinal endocrine & reproductive health. Instruction is driven by cases & accomplished through lectures and discovery in small group discussions, laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & the longitudinal ambulatory clinical experience. Includes PBL. Graded In Progress (IP) until MDCL 231, MDCL 232, MDCL 233, MDCL 234 and MDCL 235 are completed, at which time a final grade is assigned.

MDCL 234 Musculoskeletal Medicine

I 8 Lecture, 50 hours per quarter; discussion, 14 hours per quarter; laboratory, 37 hours per quarter; clinical 15 hours per quarter. Prerequisite (s): first year standing in medical school. Covers the musculoskeletal system, biology & pathology of the peripheral nervous system & physical diagnosis. Utilizes lectures & case studies to accomplish course objectives. Promotes discovery of learning by small group discussions, laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & the longitudinal ambulatory clinical experience. Includes PBL. Graded In Progress (IP) until MDCL 231, MDCL 232, MDCL 233, MDCL 234 and MDCL 235 are completed, at which time a final grade is assigned.

MDCL 235 Clinical Neurosciences

9 Lecture, 51 hours per quarter; discussion, 24 hours per quarter; laboratory, 33 hours per quarter; clinical 15 hours per quarter. Prerequisite (s): first year

standing in medical school. Covers neurobiology & provides an introduction to neurology & psychiatry, as well as physical diagnosis & imaging of the nervous system. Utilizes lectures & case studies to accomplish course objectives. Promotes discovery of learning by small group discussions, laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & LACE. Includes problem-based learning. Pass/Fail.

MDCL 236 Foundations of Medicine

II 14 Lecture, 97 hours per quarter; discussion, 28 hours per quarter; laboratory, 10 hours per quarter; clinical 42 hours per quarter. Prerequisite (s): second year standing in medical school. Covers the pathophysiology, pharmacology, physical diagnosis & treatment of infectious diseases, clinical hematology, oncology, epidemiology & clinical reasoning skills. Utilizes weekly cases presented through lecture, small group discussions, laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & LACE. Includes problem-based learning. Graded In Progress (IP) until MDCL 236, MDCL 237, MDCL 238, MDCL 239 and MDCL 240 are completed, at which time a final grade is assigned.

MDCL 237 Cardio, Renal & Resp Sciences

II 12 Lecture, 62 hours per quarter; discussion, 44 hours per quarter; laboratory, 36 hours per quarter; clinical 33 hours per quarter. Prerequisite (s): second year standing in medical school. Advanced clinical perspective of anatomy, physiology, pathophysiology, physical diagnosis & imaging in the cardiovascular, renal & respiratory sciences. Utilizes weekly cases presented through lecture, small group discussions, laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & LACE. Includes problem-based learning. Graded In Progress (IP) until MDCL 236, MDCL 237, MDCL 238, MDCL 239 and MDCL 240 are completed, at which time a final grade is assigned.

MDCL 238 Gastro, Endocrine & Repro

Health 13 Lecture, 80 hours per quarter; discussion, 34 hours per quarter; laboratory, 18 hours per quarter; clinical 42 hours per quarter. Prerequisite (s): second year standing in medical school. Advanced clinical perspective of anatomy, biochemistry, pathophysiology, physical diagnosis & imaging associated with gastrointestinal, endocrine & reproductive health. Utilizes weekly cases presented through lecture, small group discussions, laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & LACE. Includes problem-based learning. Graded In Progress (IP) until MDCL 236, MDCL 237, MDCL 238, MDCL 239 and MDCL 240 are completed, at which time a final grade is assigned.

MDCL 239 Clinical Neurosciences II 10 Lecture, 74 hours per quarter; discussion, 20 hours per quarter; laboratory, 6 hours per quarter; clinical 18 hours per quarter. Prerequisite (s): second year standing in medical school. Covers advanced clinical perspective of neurology, neuropathology, psychiatry & neuropharmacology that is coordinated with physical & psychological clinical skills development. Utilizes weekly cases presented through lecture, small group discussions,

laboratories & conferences. Also covers aspects of anatomy, doctoring, patient examination & LACE. Includes problem-based learning. Graded In Progress (IP) until MDCL 236, MDCL 237, MDCL 238, MDCL 239 and MDCL 240 are completed, at which time a final grade is assigned.

MDCL 240 Integrative Human Biology &

Disease 3 Discussion, 30 hours per quarter. Prerequisite (s): second year standing in medical school. Reviews concepts of human biology and disease covered in MDCL 231, MDCL 232, MDCL 233, MDCL 234, MDCL 235, MDCL 236, MDCL 237, MDCL 238 and MDCL 239. Pass/Fail.

MDCL 241A Internal Medicine I 5 Clinical, 160 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Internal Medicine. Part 1 of 2. Graded In Progress (IP) until MDCL 241A and MDCL 241B are completed, at which time a final grade is assigned.

MDCL 241B Internal Medicine II 5 Clinical, 160 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Internal Medicine. Part 2 of 2. Pass/Fail/Honors.

MDCL 242A Surgery I 5 Clinical, 160 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Surgery. Part 1 of 2. Graded In Progress (IP) until MDCL 242A and MDCL 242B are completed, at which time a final grade is assigned.

MDCL 242B Surgery II 5 Clinical, 160 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Surgery. Part 2 of 2. Pass/Fail/Honors.

MDCL 243A Pediatrics I 4 Clinical, 126 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Pediatrics. Part 1 of 2. Graded In Progress (IP) until MDCL 243A and MDCL 243B are completed, at which time a final grade is assigned.

MDCL 243B Pediatrics II 4 Clinical, 126 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Pediatrics. Part 2 of 2. Pass/Fail/Honors.

MDCL 244A Obstetrics/Gynecology I 4 Clinical, 126 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Obstetrics/Gynecology. Part 1 of 2. Graded In Progress (IP) until MDCL 244A and MDCL 244B are completed, at which time a final grade is assigned.

MDCL 244B Obstetrics/Gynecology II 4 Clinical, 126 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Obstetrics/Gynecology. Part 2 of 2. Pass/Fail/Honors.

MDCL 245A Family Medicine I 4 Clinical, 126 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Family Medicine. Part 1 of 2. Graded In Progress (IP) until MDCL 245A and MDCL 245B are completed, at which time a final grade is assigned.

MDCL 245B Family Medicine II 4 Clinical, 126

hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Family Medicine. Part 2 of 2. Pass/Fail/Honors.

MDCL 246A Psychiatry I 1 Clinical, 44 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Psychiatry. Part 1 of 4. Graded In Progress (IP) until MDCL 246A, MDCL 246B, MDCL 246C and MDCL 246D are completed, at which time a final grade is assigned.

MDCL 246B Psychiatry II 1 Clinical, 44 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Psychiatry. Part 2 of 4. Graded In Progress (IP) until MDCL 246A, MDCL 246B, MDCL 246C and MDCL 246D are completed, at which time a final grade is assigned.

MDCL 246C Psychiatry III 1 Clinical, 44 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Psychiatry. Part 3 of 4. Graded In Progress (IP) until MDCL 246A, MDCL 246B, MDCL 246C and MDCL 246D are completed, at which time a final grade is assigned.

MDCL 246D Psychiatry IV 1 Clinical, 44 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Psychiatry. Part 4 of 4. Pass/Fail/Honors.

MDCL 247A Emergency Medicine I 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Emergency Medicine. Part 1 of 4. Graded In Progress (IP) until MDCL 247A, MDCL 247B, MDCL 247C and MDCL 247D are completed, at which time a final grade is assigned.

MDCL 247B Emergency Medicine II 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Emergency Medicine. Part 2 of 4. Graded In Progress (IP) until MDCL 247A, MDCL 247B, MDCL 247C and MDCL 247D are completed, at which time a final grade is assigned.

MDCL 247C Emergency Medicine III 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Emergency Medicine. Part 3 of 4. Graded In Progress (IP) until MDCL 247A, MDCL 247B, MDCL 247C and MDCL 247D are completed, at which time a final grade is assigned.

MDCL 247D Emergency Medicine IV 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Emergency Medicine. Part 4 of 4. Pass/Fail/Honors.

MDCL 248A Longitudinal Ambulatory Care Experience (Iace) I 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Longitudinal Ambulatory Care Experience (LACE). Part 1 of 2. Graded In Progress (IP) until MDCL 248A, MDCL 248B, MDCL 248C and MDCL 248D are completed, at which time a final grade is assigned.

MDCL 248B Longitudinal Ambulatory Care

Experience (lace) li 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Longitudinal Ambulatory Care Experience (LACE). Part 2 of 2. Graded In Progress (IP) until MDCL 248A, MDCL 248B, MDCL 248C and MDCL 248D are completed, at which time a final grade is assigned.

MDCL 248C Longitudinal Ambulatory Care Experience (lace) lii 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Longitudinal Ambulatory Care Experience (LACE). Part 3 of 4. Graded In Progress (IP) until MDCL 248A, MDCL 248B, MDCL 248C and MDCL 248D are completed, at which time a final grade is assigned.

MDCL 248D Longitudinal Ambulatory Care Experience (lace) liv 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Longitudinal Ambulatory Care Experience (LACE). Third year required clerkship in Emergency Medicine. Part 4 of 4. Pass/Fail/Honors.

MDCL 249A Neurology I 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Neurology. Part 1 of 2. Graded In Progress (IP) until MDCL 249A, MDCL 249B, MDCL 249C and MDCL 249D are completed, at which time a final grade is assigned.

MDCL 249B Neurology li .5 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Neurology. Part 2 of 2. Graded In Progress (IP) until MDCL 249A, MDCL 249B, MDCL 249C and MDCL 249D are completed, at which time a final grade is assigned.

MDCL 249C Neurology lii .5 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Medical school. Third year required clerkship in Neurology. Part 3 of 4. Graded In Progress (IP) until MDCL 249A, MDCL 249B, MDCL 249C and MDCL 249D are completed, at which time a final grade is assigned.

MDCL 249D Neurology liv 1 Clinical, 36 hours per quarter. Prerequisite (s): third year standing in Neurology. Third year required clerkship in Emergency Medicine. Part 4 of 4. Pass/Fail/Honors.

MDCL 250 Clinical Sub-Internship 8 Clinical, 240 hours per quarter. Prerequisite (s): fourth year standing in Medical school. Fourth year required sub-internship in one of the following specialties: Family Medicine, Internal Medicine, Pediatrics, Obstetrics/Gynecology, General Surgery, or Psychiatry. Course is repeatable as content/topics change. Pass/Fail/Honors.

MDCL 251 Radiology 8 Clinical, 240 hours per quarter. Prerequisite (s): fourth year standing in medical school. Fourth year required Radiology rotation. Pass/Fail/Honors.

MDCL 252 Critical Care 8 Clinical, 240 hours per quarter. Prerequisite (s): fourth year standing in medical school. Fourth year required Critical Care rotation. Pass/Fail/Honors.

MDCL 253 Back-To-Basics 8 Clinical, 240 hours per quarter. Prerequisite (s): fourth year standing

in medical school. Fourth year required Back-to-Basics rotation. Pass/Fail/Honors

MDCL 254 Fourth Year Clinical

Rotation 8 Clinical, 240 hours per quarter. Prerequisite (s): fourth year standing in medical school. Fourth year required elective rotation. Pass/Fail/Honors.

MDCL 289 Medical Selectives 1 to 3 Lecture, 3 to 9 hours per quarter. Prerequisite(s): first or second year standing in medical school. Seminar course presenting various relevant topics in medicine. Content and instructor(s) may vary each time course is offered. Course is repeatable as topic changes. Pass/Fail.

MDCL 290 Directed Studies 1 to 6 Lecture, 3 to 18 hours per quarter. Prerequisite(s): first or second year standing in medical school. Experimental or literature studies on specifically selected topics under direction of a staff member. Course is repeatable. Pass/Fail.

MDCL 293 Clinical Selectives 1 Clinical, 12 hours per quarter. Prerequisite(s): third year standing in medical school. Third year medical school selective. Course is repeatable as content/topic changes.

MICROBIOLOGY

Subject abbreviation: MCBL College of Natural and Agricultural Sciences

Jason Stajich, Ph.D. Program Director
Graduate Program, 1140 Batchelor Hall

cnasstudent.ucr.edu/majors

Professors

James Adaskaveg, Ph.D. (Microbiology and Plant Pathology)
Katherine A. Borkovich, Ph.D. (Plant Pathology and Microbiology)
James Borneman, Ph.D. (Microbiology and Plant Pathology)
Michael D. Coffey, Ph.D. (Microbiology and Plant Pathology)
Shou-Wei Ding, Ph.D. (Microbiology and Plant Pathology)
Alec Gerry, Ph.D. (Entomology)
Sarjeet S. Gill, Ph.D. (Molecular, Cell and Systems Biology)
Hailing Jin, Ph.D. (Microbiology and Plant Pathology)
Howard S. Judelson, Ph.D. (Microbiology and Plant Pathology)
Isgouhi Kaloshian, Ph.D. (Nematology)
Karine Le Roch, Ph.D. (Molecular, Cell and Systems Biology)
Wenbo Ma, Ph.D. (Microbiology and Plant Pathology)
Ashok Mulchandani, Ph.D. (Chemical and Environmental Engineering)
Leonard Nunney, Ph.D. (Evolution, Ecology and Organismal Biology)
Jessica Purcell, Ph.D. (Entomology)
A.L.N. Rao, Ph.D. (Microbiology and Plant

Pathology)
Philip Roberts, Ph.D. (Nematology)
Joel L. Sachs, Ph.D. (Evolution, Ecology and Organismal Biology)
Jason E. Stajich, Ph.D., (Microbiology and Plant Pathology)
Richard Stouthamer, Ph.D. (Entomology)
Georgios Vidalakis, Ph.D. (Microbiology and Plant Pathology)
Marylynn V. Yates, Ph.D. (Environmental Sciences)

Professors Emeriti

Michael Allen, Ph.D. (Microbiology and Plant Pathology)
Donald A. Cooksey, Ph.D. (Microbiology and Plant Pathology)
David E. Crowley, Ph.D. (Environmental Sciences)
Brian A. Federici, Ph.D. (Entomology)
Dennis D. Focht, Ph.D. (Plant Pathology)
Thomas Miller, Ph.D. (Entomology)
Edward Platzer, Ph.D. (Evolution, Ecology and Organismal Biology and Nematology)
Neal L. Schiller, Ph.D. (School of Medicine)
Michael Stanghellini, Ph.D. (Microbiology and Plant Pathology)

Associate Professors

Huinan Liu, Ph.D. (Biomedical Engineering)
James Ng, Ph.D. (Microbiology and Plant Pathology)
Caroline Roper, Ph.D. (Microbiology and Plant Pathology)
Ian Wheeldon, Ph.D. (Chemical and Environmental Engineering)
Emma Wilson, Ph.D. (School of Medicine)

Assistant Professors

Emma Aronson, Ph.D. (Microbiology and Plant Pathology)
Holly Bik, Ph.D. (Nematology)
Gregor Blaha, Ph.D. (Biochemistry)
Patrick Degnan, Ph.D. (Microbiology and Plant Pathology)
Adler Dillman, Ph.D. (Nematology)
Emma Gachomo, Ph.D. (Microbiology and Plant Pathology)
Xin Ge, Ph.D. (Chemical and Environmental Sciences)
Joseph Genereux, Ph.D. (Chemistry)
Juan Pablo Giraldo Gomez, Ph.D. (Botany and Plant Sciences)
Sydney I. Glassman, Ph.D. (Microbiology and Plant Pathology)
Rong Hai, Ph.D. (Microbiology and Plant Pathology)
Ansel Hsiao, Ph.D. (Microbiology and Plant Pathology)
Robert Jinkerson, Ph.D. (Chemical and Environmental Engineering)
Yanran Li, Ph.D. (Chemical and Environmental Engineering)
Patricia Manosalva, Ph.D. (Microbiology and Plant Pathology)
Quinn McFrederick, Ph.D. (Entomology)
Juliet Morrison, Ph.D. (Microbiology and Plant Pathology)
Meera Nair, Ph.D. (School of Medicine)
Samantha Ying, Ph.D. (Environmental Sciences)

Major

Microorganisms play key roles in ecosystems and human civilization. They can both cause and prevent a wide array of diseases in animals and plants. They are key components in the

manufacturing of bread, cheese, and other food products. Microbes are involved in soil formation, global environmental processes and detoxifying contaminated environments. In addition, they contain a wealth of useful compounds and enzymes for biotechnology.

Students earning a degree will be prepared to continue studies at the graduate level, earn teaching credentials, or enter professional schools in medicine, pharmacy, optometry, dentistry, veterinary medicine, and clinical laboratory science among others. Students will also be trained for technical careers in medicine, agriculture, biotechnology and environmental fields. For information on how to select elective coursework for specific career paths, visit the CNAS Undergraduate Academic Advising Center.

Students in the Microbiology major can obtain either B.A. or B.S. degrees. The B.S. degree offers students with a strong interest in the natural sciences an opportunity to emphasize this aspect of their education. The B.A. degree is available to students who wish to obtain a broader background in the humanities and social sciences than is required of students in the B.S. program.

University Requirements

See the Undergraduate Studies section for requirements that all students must satisfy.

College Requirements

See Degree Requirements, College of Natural and Agricultural Sciences, in the Undergraduate Studies Section, for requirements that students must satisfy.

Major Requirements

Some of the following requirements for the Microbiology major may also fulfill the College's breadth requirements. Consult with an advisor for course planning.

1. Core Curriculum (72-77 units)

Students must complete all required core curriculum courses with a grade of "C-" or better and with a cumulative GPA in the courses of at least 2.0. Grades of "D" or "F" in two required courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.

- BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C
- CHEM001A, CHEM001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC
- CHEM 008A and 08LA or CHEM 08HA and CHEM 8HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC
- PHYS 002A or PHYS 002HA, PHYS 002B or PHYS 002HB, PHYS 002C or PHYS 002HC, PHYS 02LA or PHYS 02HLA, PHYS 02LB or PHYS 02HLB, PHYS 02LC or PHYS 02HLC
- MATH 007A or MATH 009A, MATH 007B or MATH 009B
- STAT 100A
- BCH 100, or BCH 110A or BCH 110HA and BCH 110B or BCH 110HB

2. Upper-Division Requirements (37 units)

- Major Core (19 units): BIOL 102, BIOL 107A, MCBL 121/BIOL 121, MCBL 121L/BIOL 121L, MCBL 125
- Major Electives. A minimum of 18 units from the following to be selected in consultation with a faculty advisor: BIOL 128/CBNS 128, BIOL 157, BIOL 158, CBNS 101, ENSC 120/NEM 120, MCBL 120/BIOL 120/PLPA 120, MCBL 120L/BIOL 120L/PLPA 120L, MCBL 122/BIOL 122, MCBL 123/BIOL 123/PLPA 123, MCBL 124/BIOL 124, MCBL 126, MCBL 141/ENSC 141, MCBL 1902, MCBL 1972, PLPA 134/BIOL 134, PLPA 134L/BIOL 134L

3. Other Requirements

For the Bachelor of Science degree, an additional 16 units in upper-division microbiology courses and/or substantive courses in a field or fields related to the major. Acceptable courses include BCH 162, BIOL 107B, BIOL 109, BIOL 119, ENSC 133/MCBL 133, MCBL 198-I3; a more complete list of acceptable courses is available at the CNAS Undergraduate Academic Advising Center.

For the Bachelor of Arts degree, the foreign language requirement may be fulfilled by completing level-four coursework or by demonstrating the equivalent proficiency in one foreign language.

4. Bachelor of Science Sample Program

Freshman Year	Fall	Winter	Spring
BIOL 005A, BIOL 005LA, or BIOL 020, BIOL 005B		5	4
CHEM 001A, CHEM 001B, CHEM 001C,	4	4	4
CHEM 01LA, CHEM 01LB, CHEM 01LC	1	1	1
ENGL 001A, ENGL 001B	4		4
Humanities/Social Sciences			4
MATH 009A, MATH 009B	4	4	
NASC 093	2		
Total Units	15	14	17
Sophomore Year	Fall	Winter	Spring
STAT 100A			5
BIOL 005C	4		
CHEM 008A and 08LA or CHEM 08HA and CHEM 8HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC	4	4	4
Elective		4	
Humanities/Social Sciences		4	
PHYS 002A or PHYS 002HA, PHYS 002B or PHYS 002HB, PHYS 002C or PHYS 002HC	4	4	4
PHYS 02LA or PHYS 02HLA, PHYS 02LB or PHYS 02HLB, PHYS 02LC or PHYS 02HLC	1	1	1
Total Units	13	17	14
Junior Year	Fall	Winter	Spring
BCH 100	4		
Humanities/Social Sciences	4	4	4
BIOL 102		4	
MCBL 121		4	
MCBL 121L			3
PHIL 009 ¹	4		
Major Electives & Other Reqs			7
Elective	4	4	
Total Units	16	16	14
Senior Year	Fall	Winter	Spring
BIOL 107A	4		
MCBL 125			4
Major Electives & Other Reqs.	8	8	7
MCBL 197	3	3	3
ENGL 001C		4	
Total Units	15	15	14
Notes: ¹ Some students will take courses in summer session to (i) reduce the unit load during the normal academic year (ii) complete the degree requirements in less than four years or (iii) enable the acquisition of a minor or double major in four years. ² No more than 4 units of either MCBL 190 or MCBL 197 can be applied toward the Major Electives unit requirement, unless approved by the Microbiology Steering Committee. ³ No more than 4 units can be applied toward the Other Requirements unit requirement, unless approved by the Microbiology Steering Committee. ⁴ Students are encouraged to take a class in ethics.			

Graduate Program

The Graduate Program in Microbiology is an interdisciplinary program with participating faculty from the departments of Evolution, Ecology and Organismal Biology, Molecular, Cell, and Systems Biology, Chemical and Environmental Engineering, Chemistry, Entomology, Environmental Sciences, Microbiology and Plant Pathology, and the Division of Biomedical Sciences. Faculty research interests are concentrated in several disciplines in the areas of basic and applied microbiology. These disciplines include the following:

- Microbial Pathogenesis
- Environmental Microbiology and Ecology
- Microbial Evolution, Genomics, and Meta-genomics
- Molecular and Cellular Microbiology

Admission

For admission into the graduate program in Microbiology, a student must have a B.A. or B.S. degree from an accredited institution and an academic record that satisfies the minimum admission standards established by the UCR Graduate Division. In addition, all applicants must submit results of the GRE General Test (verbal, quantitative and analytical) at the time of application.

Although no specific undergraduate degree specialization is required, applicants should have an adequate background in the physical and biological sciences, including the following or equivalent courses:

CHEM 001A, CHEM 001B, CHEM 001C (General Chemistry), CHEM 008A and 08LA or CHEM 08HA and CHEM 8HLA, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC (Organic Chemistry), BCH 110A or BCH 110HA, BCH 110B or BCH 110HB (Biochemistry), MATH 007A or MATH 009A, MATH 007B or MATH 009B (Calculus), STAT 100A or STAT 120A (Statistics), BIOL 102 (Genetics), BIOL 121A/MCBL 121A, BIOL 121L/MCBL 121L (Microbiology), BIOL 107A or BCH 110C (Molecular Biology)

This list is intended to represent the minimum background required for students wishing to pursue a graduate degree in Microbiology. Additional course work and laboratory experience in microbiology, biochemistry or genetics is highly desirable. However, upon the recommendation of the graduate advisory committee, occasionally a student may be admitted into the graduate program with one or more course work deficiencies; such students must satisfy these course work deficiencies usually within the first and no later than within the second year of graduate study.

Course work

The program is designed to prepare students for teaching and research careers in colleges and universities, as well as basic and applied research in private, industrial and government laboratories. To attain this goal, a three-tiered curriculum has been designed whereby students are expected to complete the following:

1. A core sequence of classes in microbiology:

ology: MCBL 201 (Functional Diversity of Prokaryotes) or MCBL 202 (Microbial Pathogenesis and Physiology), BIOL 221/MCBL 221 (Microbial Genetics), and MCBL 211 (Microbial Ecology)

2. A selection of elective courses in microbiology and other relevant fields chosen in consultation with the student's major professor and the advisory committee in order to develop depth in particular areas of specialization
3. Research training in specific areas of microbiology

The program stresses the importance of innovative and independent laboratory research as the major component of the student's education.

In addition to the above course work, students must attend one seminar per week each quarter in programs collaborating with Microbiology. Students are also required to present one seminar during their tenure in the program. The seminar can be either on the student's thesis research or related topics and can be presented in any of several program student seminar series.

Upon entering the program, a student advisory committee is appointed for each student to help plan a program of study. The committee consists of the student's major professor, who serves as chair, and two other professors from the program with expertise in the student's area of interest. Graduate students must meet at least annually with their advisory committee to plan their courses; however, students are encouraged to meet with their committee more often. Minutes of the meeting, prepared by the chair, are approved by the rest of the committee and then placed in the student's file. In addition, prior to advancement to candidacy, students present the advisory committee with a written summary of their research progress and plans at the beginning of each academic year.

Master's Degree

M.S. students must fulfill the requirements for Plan I (Thesis) of the Graduate Council. They must complete the core series of courses and three additional graduate level courses chosen in consultation with the student advisory committee. Plan I requires 36 units, of which 24 must be in graduate level courses. No more than 6 units of MCBL 290 level courses may be used to satisfy this unit requirement. The student must also submit an acceptable research thesis. The M.S. thesis committee, consisting of three members, which may be the same as the student advisory committee, is nominated by the graduate advisor after consultation with the student. The committee, once approved by the graduate dean, becomes responsible for the student's academic guidance and evaluation. The master's degree is conferred at the end of the academic quarter in which all requirements have been satisfied.

Normative Time to Degree

6 quarters

Doctoral Degree

Ph.D. students must meet all requirements of the Graduate Council. Students satisfactorily complete the core class requirements and a program of courses approved by the student advisory committee. The Ph.D. degree is awarded

upon passing the preliminary and qualifying examinations and demonstrating an ability to carry out original research by preparing and submitting an acceptable dissertation.

Students enrolled in the Ph.D. program are expected to become actively engaged in a research project no later than the end of their first year, and research progress is monitored by the student's advisory committee until the student advances to candidacy and a dissertation committee is appointed.

Preliminary Examination

The preliminary examination, consisting of a written, comprehensive examination is based on general microbiology and required material in the student's area of specialization. If a student fails this examination, the advisory committee recommends either additional course work in specific areas of weakness, transfer to a terminal M.S. degree program, or withdrawal from the program. The preliminary examination may only be repeated once and must be passed for the student to continue in the Ph.D. program. The preliminary examination is normally taken in the spring quarter of the second year.

Oral Qualifying Examination

After completion of the preliminary examination, the qualifying committee is established, and the oral qualifying examination is normally taken no later than the eighth quarter (year three) of academic work, not counting summer quarters.

A qualifying committee is nominated by the graduate advisory committee and submitted to the graduate dean for approval. Suggestions of potential members of the qualifying committee may be submitted to the advisory committee by the student and the student's major professor. The qualifying committee is composed of five faculty members: three with expertise in the area of specialization in microbiology, one representing a different area from microbiology, and one outside member. The student's major professor may not serve on the qualifying committee. Prior to the oral qualifying examination, the student submits a written dissertation research proposal to the members of the qualifying committee. The oral examination covers the student's area of specialization and research field and must be passed for the student to continue in the program. Upon successful completion of the qualifying examination, the student is advanced to candidacy. The qualifying examination may be repeated only once.

Dissertation and Final Oral Examination

The dissertation committee is nominated by the graduate advisor for approval by the graduate dean (upon successful completion of the qualifying examination) and is composed of the student's major professor and at least two other faculty members suggested by the student and the student's major professor. Before approval of the dissertation, the student is expected to present orally the dissertation research at an announced defense seminar.

Teaching Requirement

Two quarters of teaching experience is required, which may be satisfied by serving as a teaching assistant in any of the microbiology courses listed.

Foreign Language Requirement

None

Normative Time to Degree

15 quarters

Upper-Division Courses

MCBL 120 Introduction to Plant

Pathology 3

Lecture, 3 hours.

Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. An introduction to the study of plant diseases. Topics include diseases and disease-causing agents, host-pathogen interaction during disease development, and strategies for disease management. An optional, separate laboratory is offered. Cross-listed with BIOL 120, and PLPA 120. Credit is not awarded for PLPA 210 if it has already been awarded for BIOL 120/MCBL 120/PLPA 120 and/or BIOL 120L/ MCBL 120L/ PLPA120L

MCBL 120L Introduction to Plant Pathology

Laboratory 1

Laboratory, 4 hours.

Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; MCBL 120, may be taken concurrently or BIOL 120, may be taken concurrently or PLPA 120, may be taken concurrently; STAT 100A, may be taken concurrently; BIOL 121/MCBL 121 and BIOL 124/MCBL 124 recommended; or consent of instructor. Covers fundamentals in the use of laboratory instruments and techniques for the detection, isolation, and identification of representative infectious agents that cause disease in plants. Cross-listed with BIOL 120L, and PLPA 120L. Credit is awarded for one of the following MCBL 120L, BIOL 120L, PLPA 120L, or PLPA 210.

MCBL 121 Introductory Microbiology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA (BCH 100 or BCH 110A or BCH 110HA may be taken concurrently); or consent of instructor. An intensive introduction to the fundamental physiology and molecular biology of bacteria and viruses. Covers evolutionary origins of metabolic diversity, bacterial and viral molecular genetics, and an introduction to microbial pathogenesis. Cross-listed with BIOL 121.

MCBL 121L Microbiology Laboratory 3 Lecture, 1 hour; laboratory, 6 hours. Prerequisite(s): BIOL 121/MCBL 121 with a grade of "C-" or better. Laboratory exercises in diagnostic bacteriology, basic virology, and epidemiology. Includes fundamental quantitative and diagnostic

microbiological procedures, basic mechanisms of microbial genetic exchange, and a project examining bacterial epidemiology. Cross-listed with BIOL 121L.

MCBL 122 Food Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. Covers spoilage and preservation of food; food quality and indicator organisms; the role of microorganisms in the production of dairy goods and fermented beverages; food-borne pathogens and microbiological production of toxins; and classical and modern molecular methods for detection of food microorganisms. Cross-listed with BIOL 122.

MCBL 123 Introduction to Comparative

Virology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Considers viruses as infectious agents of bacteria, plants, and animals (vertebrates and invertebrates). Compares the major groups of viruses to each other with respect to their biological and biochemical properties, molecular and genetic characteristics, and modes of replication. Cross-listed with BIOL 123, and PLPA 123.

MCBL 124 Medical Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A; BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. An intensive introduction to the fundamental physiology and molecular biology of bacteria and viruses. Covers research strategies for examining microbial pathogenic mechanisms. Cross-listed with BIOL 124.

MCBL 125 Experimental Microbiology 4 Lecture, 1.5 hours; workshop, 1 hour; laboratory, 6 hours. Prerequisite(s): upper division standing in Microbiology, BIOL 102, BIOL 107A, BIOL 121/MCBL 121, BIOL 121L/MCBL 121L or consent of instructor. Introduces the process of performing experimental research in a microbiology laboratory. Teaches skills used in formulating hypotheses, designing experiments, performing laboratory experiments, analyzing data, and preparing and presenting research in written and oral formats. Experimental systems utilized vary from quarter to quarter.

MCBL 126 Microbiomes 3 Lecture, 3 hours. Prerequisite(s): BIOL 005A, BIOL 05LA or

BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. Introduces microbiomes, which are the collections of microorganisms that inhabit particular environments or locations and play crucial roles in agriculture, the environment, and human health and disease. Covers fundamental knowledge about microbiomes and experimental strategies to understand and utilize microbiomes to prevent or treat human and plant diseases. Credit is awarded for one of the following MCBL 126 or MCBL 226.

MCBL 127 Microbial Evolution 4 Lecture, 3 hours; workshop, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. Explores essential roles microbes perform in biogeochemical cycles, directly influencing human, plant, and animal health and disease. Provides important platforms for research and biotechnology. Details the evolutionary history and processes that underlie the critical roles of microbes.

MCBL 128 Field Mycology: Ecology, Evolution, and Diversity of Fungi 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 05LA, BIOL 005B, BIOL 005C; or consent of instructor. Overview of fungal diversity, morphology, ecology, and societal impacts. Topics include fungal diversity, mushroom identification, fungal culturing, molecular methods, and bioinformatics. Explores impacts of fungi on ecosystem functions such as decomposition and symbiosis, as well as impacts of fungi on society including art, medicine, poisons, and food.

MCBL 130 Microbial Threats and

Biodefense 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; STAT 100A, may be taken concurrently; or consent of instructor. Explores the historical development, strategies, and current status of major microbial threats and biodefense responses. Addresses the impact of microbes on human, animal, and plant health. Includes natural outbreaks and pandemics, epidemiology, detection technologies, ethics, and biodefense. Considers how these topics relate to plant, animal, and human health.

MCBL 133 Environmental

Microbiology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C; or consent of instructor. Introduction to nonpathogenic

microorganisms in the environment. Topics include an introduction to microbial biology and microbial and metabolic genetic diversity; methods; symbiotic interactions; biofilms; and geomicrobiology and biogeochemistry. Explores life in extreme environments and the effects of the physical and chemical environment on microbes. Cross-listed with ENSC 133.

MCBL 139 The Evolution of Conflict and Cooperation: Cheaters and Altruists 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 005C; or consent of instructor. Explores the evolution of selfish and selfless behavior. An analysis of the evolutionary forces that create either conflict or cooperation among genes, microorganisms and their hosts, and kin. Cross-listed with BIOL 139 and ENTM 139.

MCBL 141 Public Health Microbiology 4 Lecture, 4 hours. Prerequisite(s): BIOL 002 or BIOL 005A; BIOL 05LA or BIOL 020; BIOL 003 or BIOL 005B; upper-division standing; or consent of instructor. Introduction to transmission of human pathogenic microorganisms through environmental media, including drinking water, wastewater, food, and air. Topics include characterization of environmentally transmitted pathogens, microbial risk assessment, sampling and detection methods for microorganisms in environmental samples, food and waterborne disease outbreaks, wastewater reuse, and microbial regulations and standards. Cross-listed with ENSC 141.

MCBL 190 Special Studies 1 to 5 individual study, 3 to 15 hours. Prerequisite(s): permission of instructor and major chairperson. Provides an opportunity to meet specific curricular needs. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. No more than 4 units can be applied toward the degree without permission from the Microbiology Steering Committee.

MCBL 197 Research For Undergraduates 1 to 4 Directed research, 3 to 12 hours. Prerequisite(s): consent of instructor; upper-division standing. Individual research in microbiology performed under the guidance of the staff or faculty. Letter grades are assigned to students presenting a research paper; other students are graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units.

MCBL 198I Individual Internship in Microbiology 1 to 12 Written Work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): BIOL 121/MCBL 121; upper-division standing; consent of instructor. Provides opportunity for career exploration in microbiology. Includes supervision by a faculty member and an off-campus sponsor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

Graduate Courses

MCBL 202 Microbial Pathogenesis and Physiology 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An in-depth examination of microbes that cause human and animal disease. Explores physiology and pathogenesis of bacterial, fungal, protist, and viral pathogens

and their vectors. Includes study of antimicrobial drugs and resistance mechanisms, mode of action for toxins, immunological responses of the host, epidemiological considerations, and development of control practices.

MCBL 205 Signal Transduction Pathways in Microbes and Plants 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in the biological sciences, BIOL 107A or BIOL 113 or BIOL 114 or CBNS 101; or consent of instructor. Advanced topics in signal transduction pathways that regulate growth and development in plants and prokaryotic and eukaryotic microbes. Areas covered include two-component regulatory systems; quorum sensing; signaling via small and heterotrimeric G proteins; mitogen-activated protein kinase cascades; cAMP signaling; photoreceptors; plant hormone signaling; responses to low-oxygen stress; calcium signaling; and plant pathogenesis. Cross-listed with CMDB 205, BCH 205, GEN 205, BPSC 205, and PLPA 205.

MCBL 206 Gene Silencing 3 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing, BIOL 107A or CBNS 101; or consent of instructor. An in-depth coverage of mechanisms, functions, and applications of RNAi and related gene regulatory pathways guided by small RNAs such as siRNAs and miRNAs in plants and animals. Cross-listed with GEN 206, and CMDB 206.

MCBL 210 Molecular Biology of Human Disease Vectors 3 Lecture, 2 hours; seminar, 1 hour. Prerequisite(s): consent of instructor. Covers the molecular aspects of vectors transmitting most dangerous human diseases. Involves lectures and student presentations about current issues in molecular biology and genomics of vector insects and pathogens they transmit. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ENTM 210, and CMDB 210.

MCBL 211 Microbial Ecology 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Application of ecological principles to microbial communities. Emphasizes methods for analysis of diversity and community structure and statistical methods relating genetic and biochemical fingerprints to functional properties. Case studies explore applications for agriculture, disease biocontrol, and bioremediation of environmental contaminants.

MCBL 221 Microbial Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BIOL 107A; BIOL 102. In-depth coverage of the genetics of microbes. Emphasizes the primary data and the foundation of modern techniques using viruses, archae, prokaryotes, and eukaryotes. Includes genome sequences and organization, plasmids and other vectors, and mutation and genetic screens. Also covers transposable elements, recombination, and regulation of gene expression, development, and pathogenesis. Cross-listed with BIOL 221, and PLPA 226.

MCBL 226 Microbiomes 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduces microbiomes, which are the collections of microorganisms that inhabit particular environments or locations, and that play crucial

roles in agriculture, the environment and human health and disease. Covers fundamental knowledge about microbiomes and experimental strategies to understand and utilize microbiomes to prevent or treat human and plant diseases. Credit is awarded for only one of MCBL 126 or MCBL 226.

MCBL 241 Special Topics 2 Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Oral presentations and intensive small-group discussion of selected topics in each faculty member's area of specialization. Course content emphasizes recent advances in the special topic area and varies accordingly. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with PLPA 241.

MCBL 250 Seminar in Microbiology 1 Seminar, 1 hour. Prerequisite(s): graduate standing. Formal seminars by graduate students, faculty, and invited scholars on selected topics in microbiology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MCBL 262 Seminar in Molecular Biology and Genomics of Disease Vectors 2 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Seminar series sponsored by the Center for Disease-Vector Research at the Institute for Integrative Genome Biology. Provides an opportunity for graduate students to discuss current issues of molecular biology and genomics of vector insects and pathogens they transmit with guest speakers. Course is repeatable to a maximum of 4 units. Cross-listed with ENTM 262.

MCBL 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Experimental or literature studies on specifically selected topics conducted under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MCBL 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing. Directed research in microbiology. Performed prior to advancement to candidacy and in preparation for thesis or dissertation projects. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MCBL 299 Research For Thesis Or Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing. Original research in the area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MIDDLE EAST AND ISLAMIC STUDIES

Subject abbreviation: MEIS

College of Humanities, Arts, and Social Sciences

Muhamad Ali, Ph.D. Director
Department Office, INTS 2018
(951)827-5111; muhamad.ali@ucr.edu

Committee in Charge

Muhamad Ali, Chair (Religious Studies)
Reza Aslan (Creative Writing)
Sherine Hafez (Gender & Sexuality Studies)
Erith Jaffe-Berg (Theater, Film, and Digital Production)
Ruhi Khan (Media and Cultural Studies)
Laila Lalami (Creative Writing)
Benjamin Liu (Hispanic Studies)
Susan Ossman (Anthropology)
Fatima Quraishi (Art History)
Jeff Sacks (Comp Lit & For Lang)
Fariba Zarinebaf (History)
Milagros Peña, Dean, *ex officio*

Majors

Administered through the Interdisciplinary Studies Office, the Middle East and Islamic Studies major is designed to provide undergraduate students with a broad understanding of the history, politics and culture of the Middle East and Islamic traditions. The program offers an interdisciplinary approach to the study of the Middle East and Islamic traditions with focuses on gender, history, literature, popular discourses and politics, which canvass from North Africa to Southeast Asia.

The multidisciplinary nature of the program prepares students for a critical understanding of current issues and further study in a number of academic fields at the graduate level. The major is useful to students planning careers in politics and government, business, education, international organizations, journalism, and the art, as well as for those who simply desire a better understanding of the Middle East, Islam and Islamic cultures.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. in Middle East and Islamic Studies are as follows (56 units of required courses):

1. Language requirement: 6 courses (24 units)
Students are required to fulfill the language requirement by taking 6 classes in a language in MEIS (Arabic, Persian, Turkish, Hebrew, Urdu, Malay/ Indonesian) or pass the proficiency requirement by taking a test administered by the department. Currently UCR offers only Arabic, but students can take language classes either abroad (i.e. AUC in Cairo, Bogaziçi University in Istanbul) or in other UC campuses (UCLA,

Irvine) upon the approval of MEIS director.

2. Senior Research (4 units): Students must take MEIS 199 or HIST 197 (taken senior year with the prior approval of the instructor or MEIS director)
3. Required courses: 3 courses (12 units) (at least one should be taken from area I and one from area II)
 - I. Survey courses: ARLC 155/CPLT 155/ MEIS 155/RLST 157, RLST 111, HIST 121, HIST 124
 - II. Specialized courses: ANTH169/GBST 169, GSST 162/ RLST 162, HIST 125, HIST 126
4. Select four from the elective courses (16 units of elective courses):

Arabic Literatures and Cultures

ARLC 120, ARLC 151/CPLT 151/MEIS 151, ARLC 152/CPLT 152, ARLC 154/CPLT 154/PHIL 128, ARLC 156/CPLT 156/ MEIS 156/RLST 156, ARLC 158/CPLT 158/MEIS 158/RLST 158

Anthropology

ANTH 136/SEAS 136, ANTH 140I, ANTH 188/ GSST 151, ANTH 189/ GSST 168, ANTH 109

Asian Studies

AST 167/CPLT 167/SEAS 167

Comparative Ancient Civilizations

CPAC 121/CLA 121/POSC 121

Economics

ECON 170E

Gender and Sexuality Studies

ANTH 109/ GSST 109, ANTH 188/ GSST 151, ANTH 189/ GSST 168, GSST 162/ RLST 162, GSST 169

Global Studies

GBST 191

History

HISE 117, HISE 160, HIST 111, HISE 112, HISE 116, HISE 118, HIST 125, HIST 126, HIST 137

Media and Cultural Studies

MCS 172

Political Science

POSC 107, POSC 120, POSC 133, POSC 152

Religious Studies

RLST 112, RLST 113, RLST 116, RLST 121, RLST 130, RLST 148, RLST 150, RLST 151, GSST 162/ RLST 162

Theatre, Film and Digital Production

TFDP 177

Minor

The minor in Middle East and Islamic Studies offers a broad course of interdisciplinary and theoretically informed study. Students draw upon the range of materials covered in departments including Anthropology, Comparative Literature, Creative Writing, Gender and Sexuality Studies, Hispanic Studies, History, Media and Cultural Studies, Religious Studies, Theatre, Film and Digital Production, and Political Science, as they gain critical knowledge of the texts, practices, institutions, and histories of the Middle East

and Islamic traditions in diverse, multilingual, and global contexts. The study of at least one language, which pertains to students' areas of interest, is strongly encouraged but not required.

1. Select two from the required courses (8 units)
ANTH 168/GSST 168, ANTH 169/GBST 169, ARLC 155/CPLT 155/MEIS 155/RLST 157, HIST 121, HIST 124, HIST 125, HIST 126, RLST 111
2. Select four from the elective courses (16 units)
 - a) Arabic Literatures
ARBC 105
 - b) Arabic Literatures and Cultures
ARLC 120, ARLC 151/CPLT 151/MEIS 151, ARLC 152/CPLT 152, ARLC 154/CPLT 154/PHIL 128, ARLC 156/CPLT 156/MEIS 156/RLST 156
 - c) Anthropology
ANTH 136/SEAS 136, ANTH 140-I
 - d) Asian Studies
AST 167/CPLT 167/SEAS 167
 - e) Comparative Literature
CPLT 153
 - f) Gender and Sexuality Studies
GSST 151/ANTH 188, GSST 162/RLST 162, GSST 169
 - g) History
HISE 117, HISE 160, HISE 112, HISE 116, HISE 118, HIST 125, HIST 126, HIST 137
 - h) Middle East and Islamic Studies

Upper-Division Courses

MEIS 151 Palestine/Algeria 4 Lecture, 3 hours; screening 6 hours per quarter; extra reading, 24 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Considers two distinct and related literary and historical moments: Palestine and Algeria. Topics include the relations between language and context; literature and literary historiography; genre and idiom; violence and the body; and the state and institutional practices of reading. Cross-listed with ARLC 151, and CPLT 151.

MEIS 155 Introduction to Arabic Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic literature that focuses on language and rhetoric.

Considers major issues such as colonialism, secularism, modernity, language, and the state. Utilizes texts from literature, the law, and philosophy. Cross-listed with ARLC 155, CPLT 155, and RLST 157.

MEIS 156 Jews and Arabs 4 Lecture, 3 hours; extra reading, 3 hours Prerequisite(s): upper-division standing or consent of instructor. Traces the formation of the shared and divided history of the Jewish and Arab peoples. Focuses on the literary and institutional dimensions of this history, as well as the formation of related areas of study, such as religion, philosophy, literature, and psychoanalysis. Cross-listed with ARLC 156, CPLT 156, and RLST 156.

MEIS 158 Islam and Psychoanalysis 4 Lecture, 3 hours; extra reading, 3 hours Prerequisite(s): upper-division standing or consent of instructor. Explores contemporary psychoanalytic readings of Islam to consider the relationship between Islam and Orientalism, Orientalism and psychoanalysis, and psychoanalysis and Islam. Cross-listed with ARLC 158, CPLT 158, and RLST 158.

MEIS 199 Senior Research 4 Consultation, 1 hour; extra reading, 6 hours; term paper, 3 hours. Prerequisite(s): senior standing; consent of Middle East and Islamic Studies Steering Committee chair. Directed original research in topics related to the Middle East, Islamic studies, or Islamic cultures. Administered under the direction of members of the Middle East and Islamic Studies Steering Committee or an approved faculty member.

Graduate Course

MEIS 278 Early Modern Empires in the Middle East: the Ottomans and the Safavids 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the history of early modern empires in the Middle East (the Ottomans and Safavids) in a comparative format. Focuses on such issues as Islam and conquest, state formation, confessional empires and toleration, commerce, and culture. Cross-listed with HIST 278.

MIDDLE EAST AND ISLAMIC STUDIES DESIGNATED EMPHASIS

Subject abbreviation: MEIS
College of Humanities, Arts, and Social Sciences

Muhamad Ali (Religious Studies) Director
(951)827-5111; muhamad.ali@ucr.edu

Committee in Charge

Muhamad Ali, Director (Religious Studies)
Reza Aslan (Creative Writing)
Sherine Hafez (Gender and Sexuality Studies)
Erith Jaffe-Berg (Theatre, Film and Digital Production)
Ruhi Khan (Media and Cultural Studies)
Laila Lalami (Creative Writing)
Benjamin Liu (Hispanic Studies)
Susan Ossman (Anthropology)

Jeff Sacks (Comparative Literature)
Milagros Peña Ph.D. *Dean, College of Humanities, Arts, and Social Sciences, ex officio*
Fariba Zarinebaf, (History)

Designated Emphasis Requirements

The DE in Middle East and Islamic Studies offers two tracks, one with a requirement for proficiency in a relevant language (Arabic, Persian, Turkish, Hebrew, Urdu or another language, with the approval of the chair of the DE), and/or a placement test and a second track without a language requirement.

Students may double count two courses with MEIS content between the DE and the Ph.D.

Track One

Twelve (12) units plus language proficiency (4-6 quarters)

Three (3) courses (12 units) selected from the list below, at least one of which must be outside of the student's Ph.D. department, plus the completion of four (4-6) quarters of language study, as described above.

Track Two

Sixteen (16) units

Three (4) courses (16 units) selected from the list below, at least one of which must be outside of the student's Ph.D. department.

In both tracks, the student is required to take a 2 quarter graduate seminar with the prior approval of faculty member in the relevant discipline. It is understood that the second quarter would be devoted to substantial research and writing.

Applicable Courses

Current Graduate Seminars

CWPA 256, CWPA 257, HIST 277, HIST 278, RLST 200, RLST 249, RLST 250, RLST 252

Petitionable Graduate Seminars

CPLT 215B, CPLT 284, RLST 200A, SPN 251, SPN 279

Current Upper Division Undergraduate Courses

ANTH 136/SEAS 136, ANTH 169/GBST 169, ARLC 120, ARLC 151/CPLT 151, ARLC 152/CPLT 152, ARLC 154/CPLT 154/PHIL 154, ARLC 155/RLST 157, ARLC 156/CPLT 156/RLST 156, ARLC 158/CPLT 158/RLST 158, GSST 151, GSST 162, GSST 168, HIST 121, HIST 124, HIST 125, HIST 126, MCS 172, POSC 133, POSC 152, POSC 156, RLST 111, RLST 113, RLST 116, RLST 149, RLST 150, RLST 151, RLST 155/PHIL 155, TFDP 191J

Matthew Wyckoff, *Electric Bass Guitar*

Majors

The Music Department offers undergraduate majors leading to the B.A. in Music and the B.A.

in Music and Culture.

Scholarships

Students have access to student assistantships, work-study, Gluck Fellowships, and scholarships. For further information or a department tour, call the Music Department, (951) 827-7059.

Performance

Throughout each academic year the Department of Music and Cultural Events sponsor more than 50 formal and informal concerts and recitals by campus ensembles, students, members of the performance faculty, and distinguished visiting artists. Most of the Music Department concerts are open to the public.

Facilities

The department's facilities include practice rooms equipped with Yamaha pianos, a Performance Lab, a Chamber Music Studio, and a large lecture/rehearsal hall, as well as smaller classrooms and practice rooms. Practice rooms are available to Music Majors and to students enrolled in an ensemble or in a course with a Voice & Instrument instructor. Students can submit a request for a key to CHASS facilities via the website: <https://chassintranet.ucr.edu/kims>. The student's undergraduate advisor must approve the request.

Lockers for small and medium size instruments are available to students inside Arts 068 (Instrument Storage Room). A limited number of lockers next to the Music Library are reserved for large instruments. The department owns a large collection of early-music instruments, including a large number of keyboard instruments, as well as instruments for use in traditional chamber, orchestral, and wind ensembles. The department also owns the instruments for several Asian ensembles, i.e., Javanese gamelan, Japanese taiko, Philippine rondalla, North Indiana tabla, and Korean drums, as well as for two Latin American ensembles, Andean and Mexican folkloric. The Experimental Acoustic Research Studio (EARS) supports the composition of electronic music and is housed at a location near campus. The department is home to the Center for Iberian and Latin American Music, which sponsors concerts and lectures in addition to maintaining a website and scholarly journal.

The **UCR library** holds strong music-research collections located in three facilities. Approximately 35,000 books about music may be found in the Rivera Library, along with journal back-files and microforms. The Music Library, located in room 054 Arts Building (lower level), provides listening equipment, computers, and houses collections of some 10,000 LPs, more than 7,000 CDs, an authoritative collection of reference works, and over 35,000 music scores. A growing collection of music DVDs is also available in the Music Library. Special Collections, on the 4th floor of the Rivera Library, holds numerous 18th- and 19th-century scores of major German and Austrian composers, as well as the Oswald Jonas and Joaquin Nin-Culmell archives. Located in the CHASS Interdisciplinary Building, the Multimedia Library houses the UCR Libraries' collection of media. The collection includes video tapes (VHS), DVDs, Blu-Ray, laserdiscs, CD-ROMS, 16mm motion pictures and playback equipment. Online access to these collections is provided through the UCR Library's local

online catalog, SCOTTY and MELVYL, the UC system libraries' online catalog. The UCR library homepage, library.ucr.edu, provides access to SCOTTY and MELVYL, as well as links to a wide variety of electronic resources.

Music Major

The Department of Music offers a Bachelor of Arts in music within the context of a liberal arts curriculum. Students acquire practical knowledge of music performance and composition through individual study as well as participation in one or more of the department's several ensembles. Development of the student's vocal and/or instrumental technique is enhanced by the study of musicianship, theory, and history, which impart a deeper understanding of the structure of music and the cultural forces that shape it.

Time to degree

Time to degree is four years. Freshman year: preparatory courses MUS001 and MUS010. Sophomore year: lower division requirements; piano proficiency. Junior year: upper division requirements (130AB, 138, 112ABC), track requirements, and electives. Senior year: upper division track requirements, and electives.

Students declare a Major in Music by the end of their freshman year. Students must pass a diagnostic examination at the beginning of their sophomore year and place into MUS030 and MUS031 or above. It is strongly suggested that MUS001 and MUS010 be taken during the freshman year in preparation for the exam. Transfer students must either take the diagnostic exam or have the equivalent courses articulated.

The Music Major offers three curricular tracks, among which students may choose a concentration:

1. Music - General
2. Music - Composition
3. Music - Performance

Music and Culture Major

The Music and Culture major offers a predominantly scholarly and critical approach to music as culture from the perspective of research, criticism, and interpretation, with an emphasis on historical and ethnographic approaches. It is oriented primarily toward understanding music as a culturally expressive form. Courses in music and/or dance performance are required but are positioned more broadly within the major as a means to explore interrelationships between music and other forms of performance.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

Music Major

The major requirements for the B.A. degree in Music are as follows:

1. Lower-division requirements (6-31 units)

- a) MUS 030A, MUS 030B, MUS 030C (12 units or proficiency)
- b) MUS 031A, MUS 031B, MUS 031C (6 units or proficiency)
- c) MUS 080P (1 unit and piano proficiency)
- d) Participation in a major ensemble each quarter: MUS 160, MUS 161, MUS 162, MUS 163, MUS 164, MUS 165, MUS 166 (E-Z), MUS 168, MUS 169, MUS 170, MUS 171, MUS 172, MUS 174, MUS 175A, MUS 175B, MUS 176, MUS 177 (6-12 units)

2. Upper-division requirements (30-39 units)

- a) MUS 112A, MUS 112B, MUS 112C (12 units)
- b) MUS 130A, MUS 130B (8 units)
- c) MUS 131A, MUS 131B, MUS 131C (3 units or proficiency)
- d) MUS 138 (4 units)
- e) Participation in a major ensemble each quarter: MUS 160, MUS 161, MUS 162, MUS 163, MUS 164, MUS 165, MUS 166 (E-Z), MUS 168, MUS 169, MUS 170, MUS 171, MUS 172, MUS 174, MUS 175A, MUS 175B, MUS 176, MUS 177 (6-12 units)

3. Upper-division track requirements: choose from one of the following tracks

- a) Music - General (24 units)
24 units from the following:
MUS 113, MUS 114, MUS 115, MUS 116, MUS 117, MUS 118, MUS 119, MUS 120, MUS 121, MUS 122, MUS 123, MUS 124, MUS 125, MUS 126, MUS 127, MUS 128, MUS 133, MUS 134, MUS 135, MUS 136, MUS 137, MUS 139, MUS 140, MUS 145A, MUS 145B, MUS 146, MUS 150A, MUS 150B, MUS 150C, MUS 150D, MUS 151, MUS 152, MUS 153, MUS 154 (E-Z), MUS 155 (E-Z), MUS 180 (E-Z), MUS 181 (E-Z), MUS 187, MUS 191 (E-Z) (no more than 6 units)

b) Music - Composition (24 units)

- (1) 12 units from the following:
MUS 133, MUS 134, MUS 135, MUS 136, MUS 137, MUS 139, MUS 145A, MUS 145B, MUS 147
- (2) 12 units from the following:
MUS 113, MUS 114, MUS 115, MUS 116, MUS 117, MUS 118, MUS 119, MUS 120, MUS 121, MUS 122, MUS 123, MUS 124, MUS 125, MUS 126, MUS 127, MUS 128, MUS 140, MUS 146, MUS 150A, MUS 150B, MUS 150C, MUS 150D, MUS 151, MUS 152, MUS 153, MUS 154 (E-Z), MUS 155 (E-Z), MUS 180 (E-Z), MUS 181 (E-Z), MUS 187, MUS 191 (E-Z) (no more than 6 units)

c) Music - Performance (25-26 units)

- (1) 12 units from the following:
MUS 180 (E-Z), MUS 181 (E-Z)
- (2) 12 units from the following:
MUS 113, MUS 114, MUS 115, MUS 116, MUS 117, MUS 118, MUS 119, MUS 120, MUS 121, MUS 122, MUS 123, MUS 124, MUS 125, MUS 126,

MUS 127, MUS 128, MUS 133, MUS 134, MUS 135, MUS 136, MUS 137, MUS 139, MUS 140, MUS 145A, MUS 145B, MUS 146, MUS 150A, MUS 150B, MUS 150C, MUS 150D, MUS 151, MUS 152, MUS 153, MUS 154 (E-Z), MUS 155 (E-Z), MUS 187, MUS 191 (E-Z).

(3) MUS 167 (1 or 2 units)

Note

Students seeking a teaching credential are advised to take MUS 133, MUS 150A, MUS 150B, MUS 150C, MUS 150D, MUS 151, and MUS 152. Consult the Graduate School of Education for credential requirements.

Examinations and Auditions

The ability to play simple piano music is required of all majors. Students lacking keyboard proficiency when the major is declared must enroll in MUS 080P to prepare them for the proficiency examination. This examination should be passed by the junior year. Consult the department for examination requirements.

All students intending to enroll in MUS 030A must take a music theory diagnostic examination, which is given at the beginning of instruction.

MUS 031A, MUS 031B, and MUS 031C are taken until proficiency for admission to MUS 131A is achieved. The completion of MUS 131A, MUS 131B, and MUS 131C is required for graduation.

All students normally participate in a major ensemble each quarter. Admission to any ensemble course is by consent of instructor. All students intending to participate in an ensemble course must audition during registration.

Fees

An additional course fee will be charged at the time of registration for MUS 080 (E-Z), MUS 081 (E-Z), MUS 180 (E-Z), and MUS 181 (E-Z). A limited number of scholarships will be made available.

Music and Culture Major

All majors must enroll in at least one music ensemble each quarter. However, students may enroll in DNCE 067A through DNCE 075B instead of, or in addition to, any of the music ensemble courses.

In addition, the major requirements for the B.A. degree in Music and Culture are as follows:

1. Lower-division requirements (17–19 units)
 - a) MUS 030A, MUS 030B, MUS 030C
 - b) MUS 031A, MUS 031B, MUS 031C
 - c) ANTH 001, SOC 001, DNCE 005, or DNCE 007
2. Upper-division requirements (59 units)
 - a) Music courses (39–49 units)
 - (1) Western Music History: MUS 112A, MUS 112B, MUS 112C, MUS 114, MUS 116, MUS 117, MUS 136, MUS 191 (E-Z)
 - (2) Ethnomusicology: MUS 121, MUS 124/AST 124, MUS 125, MUS 126/ANTH 177/WMST 126, MUS 127/ANTH 176/AST 127/DNCE 127/ETST 172, MUS 128/ANTH 128/AST 128/

DNCE 128/THEA 176, MUS 129/ETST 118, MUS 140/HISA 139

(3) Individual Study: MUS 190, MUS 194, MUS 195, MUS 199H

b) Other upper-division courses (12–24 units)

(1) Dance History (4–8 units): DNCE 130/ANTH 130, DNCE 141, DNCE 142, DNCE 171 (E-Z), DNCE 172 (E-Z), DNCE 173 (E-Z)

(2) Anthropology or Sociology (4–8 units)

(3) English or Media and Cultural Studies (4–8 units)

(4) Other courses in the Social Sciences, Humanities, or Arts could count towards these units if the students petitions and an advisor's permission is granted.

Minor

The minor in Music is designed for students who wish to continue their musical studies while pursuing another major. Within the required 24 upper-division units, the minor provides basic skills in music theory and first-level studies in music history and literature while still offering modest flexibility to pursue individual interests.

1. Lower-division preparation: (16 units)
 - a) MUS 001 or equivalent
 - b) MUS 030A, MUS 030B, MUS 030C
2. Upper-division requirements (24 units)
 - a) Eight (8) units from MUS 112A, MUS 112B, MUS 112C
 - b) Twelve (12) units selected from: MUS 113, MUS 114, MUS 115, MUS 116, MUS 117, MUS 118, MUS 119, MUS 120, MUS 121, MUS 122, MUS 123, MUS 124, MUS 125, MUS 126, MUS 127, MUS 128, MUS 130A, MUS 130B, MUS 133, MUS 134, MUS 135, MUS 136, MUS 137, MUS 138, MUS 139, MUS 140, MUS 145A, MUS 145B, MUS 146, MUS 150A, MUS 150B, MUS 150C, MUS 150D, MUS 151, MUS 152, MUS 153, MUS 154 (E-Z), MUS 155 (E-Z), MUS 180 (E-Z), MUS 181 (E-Z), MUS 187, MUS 191 (E-Z) (no more than 6 units)
 - c) Four (4) additional units in ensemble performance: MUS 160, MUS 161, MUS 162, MUS 163, MUS 164, MUS 165, MUS 166, MUS 168, MUS 169, MUS 170, MUS 171, MUS 172, MUS 174, MUS 175A, MUS 175B, MUS 176, MUS 177

As a freshman or sophomore, the student should complete MUS 030A, MUS 030B, MUS 030C (Harmony). This is a prerequisite for all later studies in the minor. Harmony has a prerequisite of MUS 001 (Introduction to Basic Musical Concepts) or the equivalent.

Two required courses from MUS 112A, MUS 112B, MUS 112C should be completed following MUS 030A, MUS 030B, MUS 030C and not later than the junior year.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Music offers the M.A. and Ph.D. degrees in Music with a specialization in three areas: digital composition, ethnomusicology, and musicology. Students are encouraged to view music in the broad context of culture: communication between the intradisciplinary areas is built into the program, and courses outside the department are either encouraged or required in order to develop an interdisciplinary outlook.

Admission

Students may apply for a terminal M.A. degree. Students intending to pursue a Ph.D. as their final degree objective should apply directly to the Ph.D. program. Students with a B.A. should follow the requirements for the M.A. for the first six quarters.

Students are admitted into the graduate program in the fall quarter only. Though applicants must provide GRE General Test scores, scores for the music subject area are not required. All prospective students must submit an example of their writing.

Composers must also submit musical scores, recordings, or both and include a statement on technical experience. It is required that students entering the graduate program in digital composition have 1) basic computer word-processing and spreadsheet skills, 2) demonstrated proficiency with a computer music notation program, 3) demonstrated proficiency with a sequencer and audio editor, and 4) at least one of the following: programming fluency in a computer language, fluency in a digital audio signal processing prototyping language, hardware experience, analog studio experience, nonlinear video editing experience, music production/studio recording experience, a scientific computing skill, or a multimedia design skill. Composers must also submit recorded evidence of performance ability. This may be either a recording of one or more performances on a preferred instrument or an aspect of the composition portfolio stated above in which the student has a significant performance role in either an acoustic music or digital capacity. Digital composition students may optionally include an additional non-academic writing sample which may be fiction, technical, or business writing.

Musicology and composition students must have an M.A. or undergraduate degree in music, including piano proficiency and musicianship (ear training). Digital composition students must have an M.A. in music or undergraduate degree in music.

Ethnomusicology students must have a back-

ground in music or anthropology. Evidence of superior intellectual ability in another field combined with some demonstrable expertise in any musical tradition is also viewed favorably.

Entering graduate students in digital composition and musicology must take an advisory examination. In musicology, admission to full graduate status is contingent upon the removal of any deficiencies in undergraduate preparation as shown by this advisory examination. In digital composition, deficiencies in undergraduate preparation must be completed by the time of the Comprehensive Examination.

Professional Development Requirements

The Professional Development courses (MUS 301 and MUS 400, taken jointly) satisfy the Professional Development requirement for both the MA and PhD degrees. Topics discussed typically include: course design; pedagogy; flipped classrooms; designing examinations; facilitating discussion; gender and race issues in the classroom; interviewing, writing, and oral presentation skills; publishing; the academic job market and the job application process; and nonacademic careers.

Master's Degree

The M.A. Degree

The Department of Music offers the M.A. degree in Music under Plan I (Thesis).

Requirements

In addition to the coursework indicated below, all students must meet the following requirements.

1. Comprehensive examination

All students must pass a written and oral comprehensive examination testing knowledge over a broad spectrum of their field of study. The ethnomusicology exam covers three broad areas: geocultural area studies, the history of ethnomusicology, and critical issues in ethnography. The digital composition and musicology exams cover three broad areas: music theory, music history and critical issues in theory and/or musicology. Digital composition students must also take a practical examination in basic computing and digital music skills, a composition test, and an entrance audition (instrumental or vocal).

The comprehensive examination can be passed at the M.A. or at the Ph.D. level. Passing the exam at the Ph.D. level is a requirement for students intending to pursue a Ph.D.. Failure to pass the comprehensive examinations after two opportunities constitutes grounds for dismissal from the program.

2. Foreign Language Requirement

Students must demonstrate a reading knowledge of a foreign language, of use in scholarship within their discipline or chosen to support their research and creative interests, with the approval of the department. The requirement can be satisfied either by examination or by enrolling in 4 quarters of a language course with a grade of "B" or better.

3. Additional track requirements

Musicology and ethnomusicology students must present a portfolio containing their CV, and representative seminar and conference

papers. The portfolio offers the student a chance to organize their work in a manner that shows both their past performance and their future potential.

The portfolios will be evaluated by the ethnomusicology or musicology faculty, respectively, coordinated by the graduate advisor.

4. Coursework

Each area requires a minimum of 48 units of graduate (200 series) or upper-division undergraduate courses (100 series), these may include up to 8 units of MUS 299 (Thesis Preparation). Twenty four units must be graduate level. None may be MUS 291, MUS 301 or MUS 400.

Performance courses (MUS 160-181) do not count toward the degree, with the exception of 4 units in world music ensembles required of ethnomusicology students (see requirements below). The courses comprising the remaining required units are disposed differently in each of the three areas as specified below.

1. Digital Composition

a) Core requirements

MUS 200, MUS 201, MUS 206 or MUS 207B, MUS 256, MUS 258 (repeatable), MUS 265, MUS 293 (6 units), MUS 301, MUS 400

b) Three of the following repeatable courses:

MUS 232, MUS 249, MUS 251, MUS 257, MUS 259, MUS 264

2. Ethnomusicology

a) Core courses

MUS 200, MUS 207A, MUS 207B, MUS 255, MUS 301, MUS 400

b) At least two quarters of the following courses:

MUS 270, MUS 271

c) Two of the following courses:

MUS 113, MUS 117, MUS 118, MUS 119, MUS 120, MUS 122, MUS 123, MUS 124, MUS 126, MUS 127, MUS 128, MUS 140, MUS 146, MUS 184

d) One graduate seminar in musicology or composition/theory:

MUS 201, MUS 206, MUS 232, MUS 249, MUS 251, MUS 252, MUS 256, MUS 257, MUS 258, MUS 259, MUS 261, MUS 262, MUS 263, MUS 264, MUS 265, MUS 266, MUS 293

e) Two graduate courses outside the department; may use directed studies (MUS 290) for one.

f) Four units in one of the following ensembles:

MUS 168, MUS 169, MUS 170, MUS 174, MUS 175A, MUS 175B, MUS 176, MUS 177, MUS 178, MUS 179

3. Musicology

a) Core requirements

MUS 200, MUS 201, MUS 206, MUS 207B, MUS 301, MUS 400

b) Six courses in the 260s series:

MUS 261, MUS 262, MUS 263

c) Two graduate courses outside the Music Department; may use directed studies (MUS 290)

d) Two of the following courses:

MUS 118, MUS 155 E-Z, MUS 126, MUS 153, MUS 265, MUS 255, MUS 259, MUS 270

Thesis

Students whose degree objective is a terminal M.A. must write a thesis as part of the requirements for graduation. The M.A. thesis consists of an essay of substantial scope that makes an original contribution to the field. For digital composition students the thesis consists of two parts: a musical composition of substantial scope and a prose essay.

Normative time to degree

6 quarters

Doctoral Program

The Department of Music offers the Ph.D. degree in Music. Students are invited by the faculty to continue toward candidacy for the Ph.D. degree on the basis of performance in courses and seminars, the quality of their portfolios, passing the comprehensive examination at the Ph.D. level, satisfactory completion of the M.A. requirements, and the recommendation of the faculty in their track (digital composition, musicology or ethnomusicology), in consultation with the graduate advisor.

Students with an M.A. degree from other universities are eligible for admission. The process of admission is the same as for students with a B.A.

Requirements

1. Foreign language requirement

Musicology and ethnomusicology students must demonstrate a reading knowledge of a second foreign language, of use in scholarship within their discipline or chosen to support their research and creative interests. Students in these concentrations with an M.A. from other universities, who did not have to meet a foreign language requirement, must demonstrate a reading knowledge of two foreign languages during their residency at UCR. Digital composition students are required to demonstrate a reading knowledge of one foreign language.

2. Coursework

Students continuing toward the Ph.D. must take 36 additional units earned in seminars and in MUS 291 and MUS 299 studies geared toward preparation for the qualifying examinations. None may be MUS 301 or MUS 400.

Students entering with an M.A. from another institution must take a minimum of 48 units earned in seminars and directed studies (MUS 290). These must include the following required courses, although waiver may be granted for specific courses on an individual basis, depending on the student's prior graduate training and pending faculty approval. Students are encouraged to take

additional seminars and MUS 291 and MUS 299 courses geared toward preparation for the qualifying examinations.

Ethnomusicology students must meet the course requirements of the M.A. as stated above.

Digital composition students are required to take:

a) Core requirements

MUS 200, MUS 201, MUS 206 or MUS 207B, MUS 256, MUS 258 (repeatable), MUS 265, MUS 293 (6 units), MUS 301, MUS 400

b) Two of the following repeatable courses:

MUS 232, MUS 249, MUS 251, MUS 257, MUS 259, MUS 264

Musicology students are required to take:

a) Core requirements

MUS 200, MUS 201, MUS 206, MUS 207B or MUS 255, MUS 301, MUS 400

b) Five courses in the 260s series:

MUS 261, MUS 262, MUS 263

3. Qualifying examinations

Students must take the qualifying examinations, both written and oral, supervised by a faculty committee as stipulated in the regulations of the Graduate Division. The qualifying examinations concentrate on testing advanced skills and knowledge of specialized fields. Digital composition students are also expected to pass a test containing ear-training, keyboard, and basic compositional skills. Qualifying examinations are normally taken in the ninth quarter for students entering with a B.A., and in the sixth quarter, for students entering with an M.A.

4. Dissertation prospectus

Students must write a dissertation prospectus as part of the written qualifying examinations.

Advancement to candidacy for the Ph.D. degree

Students advance to candidacy for the Ph.D. degree once they have passed all coursework and the written and oral qualifying examinations.

Dissertation and final oral examination

A dissertation to be presented as prescribed by the Graduate Council is prepared under the direction of the candidate's dissertation committee. After completion of the dissertation, the candidate may be examined in its defense by the dissertation committee.

Normative time to degree

For students in Digital Composition and Musicology: 15 quarters for students entering with a B.A. degree; 12 quarters for students entering with an M.A. degree. For students in Ethnomusicology: 21 quarters for students entering with a B.A. degree; 15 quarters for students entering with an M.A. degree.

The descriptions of many courses listed below carry the phrase "or consent of instructor." This is meant to encourage musically qualified students who are not majors to participate in the

courses and activities of the department. Any nonmajor having interest in a specific course should confer with the instructor about the qualifications for enrollment.

Lower-Division Courses

MUS 001 Basic Musical Concepts 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Fundamentals of music, including notation, rhythm, major and minor scales, intervals, tonality, triads. Includes ear training, sight singing, and elementary analysis. Designed for students who need basic musical literacy. Open to nonmajors and those with no previous musical background.

MUS 002 Introduction to Western

Music 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. A survey of the major styles and genres of Western music. Emphasis on creative and analytical listening without the use of musical notation. Designed for the general student with an interest in music and cultural practice. No previous musical background required.

MUS 003 Introduction to Opera 4

Seminar, 3 hours; assigned listening, 3 hours. Prerequisite(s): none. Explores social, political, gender-related, and moral issues represented in 10 major operas between the seventeenth and twentieth centuries. Introduces dramatic and musical structures of opera, value of performance, and operatic conventions shared by composers, singers, and audience.

MUS 005 Women in Music 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. A survey course designed primarily for nonmajors. Examines representative works by women composers from antiquity to the present.

MUS 006 Introduction to World Music 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. A survey of people, identity, and music making. Includes listening to music from many cultural contexts. Also covers a variety of scholarly topics in world music. Cross-listed with ANTH 006.

MUS 007 Music in Movies and Tv 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. An exploration of popular film and TV soundtrack music, emphasizing drama and musical style. Scene study features such films as *The Matrix*, *Casablanca*, *The X-Files*, and *Altered States*. Cross-listed with MCS 009.

MUS 008 Popular Music Cultures of the United States 4

Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Explores the so-called popular musics and music cultures of the United States and the social history of these cultures to provide students with a sonic understanding of these extremely fractured, ever reconstituted "United States."

MUS 009 Introduction to Digital

Music 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): none. Teaches basic theory and practical skills for understanding digital audio, recording, editing, and processing sound. Students work with audio and MIDI sequencers with the goal of writing musical compositions with computer notation programs.

MUS 010 Advanced Fundamentals 4 Lecture,

3 hours; consultation, 1 hour. Prerequisite(s): MUS 001 or a passing score on an equivalent examination or consent of instructor. A study of advanced musical fundamentals.

MUS 011 Interactive Digital Music and

Multimedia Performance 4 Lecture, 3 hours; individual study, 4 hours. Prerequisite(s): none. An introduction to interactive digital music and multimedia performance. Includes development of individual and collaborative performance projects using sound, video, dance, and interactive technology. Requires a laptop and a license of the software Max/Msp/Jitter. No previous knowledge of music or technology required.

MUS 012 Introduction to Music and

Culture 4 Lecture, 3 hours; extra reading, 2 hours; activity, 1 hour; listening activity, 1 hour. Prerequisite(s): None. Introduces methods and develops skills for understanding music in society. Includes an overview of music's social roles, including personal identity, nationalism, and political movements. Students listen to music of multiple genres and geocultural areas, participate in activities and workshops, and develop writing skills to describe and analyze musical practices.

MUS 013 Popular Music Analysis: Text and

Context 4 Colloquium, 2 hours; seminar, 1 hour; workshop, 1 hour. Prerequisite(s): none. A textual and critical analysis of mass-mediated popular music. Explores theories of popular culture and traditional approaches from Western music theory as applied to the study of creation, interpretation, and reception of popular music.

MUS 014 Popular Musics of the

World 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to issues surrounding popular and urban musics of the world, focusing on three major geocultural areas: Africa, Asia, and the Americas. Emphasizes the relationship between mass-mediated music and issues of cultural hegemony, resistance, and subversion. Analyzes the cultural impact of media technology on music performance and reception. Cross-listed with ETST 014, and URST 014.

MUS 015 Latin American Folk and Popular

Styles 4 Lecture, 2 hours; discussion, 1 hour. assigned listening, 3 hours. Prerequisite(s): none. Introduction to the vast array of folk and popular styles of music in Latin America, with an emphasis on cultural and ethnic interaction and exchange in the context of Latin American history, politics, and society. Cross-listed with LNST 015.

MUS 016 Latin American Classical

Heritage 4 Lecture, 2 hours, discussion, 1 hour. assigned listening, 3 hours. Prerequisite(s): none. Survey of the rich heritage of Latin American classical music from Renaissance sacred polyphony to contemporary styles. Emphasis on the gradual emergence of Latin American music from European domination and the establishment of distinctive national traditions in the post-colonial era. Cross-listed with LNST 016.

MUS 017 Music of Mexico 4 Lecture, 3 hours, discussion, 1 hour; assigned listening, 1 hour. Prerequisite(s): musical training and knowledge

of Spanish is useful, but not required. Covers music from 1521 to the present day. Explores the rich musical tradition of Mexico, as well as the relationship between its art and popular music. Cross-listed with LNST 017.

MUS 018 Music of Spain 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A survey of Spanish music from the Middle Ages to the present. Covers regional folklore and popular styles (especially flamenco) as well as developments in classical music through the major style periods. Examines music in its historical and cultural context. Knowledge of Spanish and music not required.

MUS 019 Music of Brazil 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; activity, 1 hour; listening, 1 hour. Prerequisite(s): none. An exploration of Brazilian music from nineteenth to early twentieth-first centuries with an emphasis on traditional and popular practices and styles. Discusses the music of different regions and periods in their social, political, ethnic, and aesthetic contexts. Credit is awarded for only one of MUS 019 or MUS 113.

MUS 020 Music of Scotland 4 Seminar, 3 hours; term paper, 1 hour; assigned listening, 2 hours. Examines the rich heritage of Scottish music from the Middle Ages to the modern day, including folk, popular, and classical traditions. Emphasis is on the music of the Scottish highlands and the bagpipe. Explores the role of music during war and peace within the context of Scottish history.

MUS 021 Canntaireachd: Scottish Classical Music 4 Lecture, 3 hours; term paper, 1 hour per quarter; practice, 3 hours. Prerequisite(s): none. Examines the Scottish classical music called Canntaireachd. In-depth study of the music, its leading performers and composers, within the context of Scottish history and culture. Special emphasis on the singing of the music as soloists and as a choir.

MUS 023 Audio Recording and Production 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): none. Introduces the fundamentals of audio recording. Includes basic design and uses of a recording studio, digital audio workstations, microphones, and recording, processing, and mixing techniques. Course is repeatable to a maximum of 8 units.

MUS 030A Harmony 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 010 or a passing score on an equivalent examination or consent of instructor; concurrent enrollment in MUS 031A or MUS 031B or MUS 031C or MUS 131A or MUS 131B or MUS 131C. The study of harmony through melodic and rhythmic practices.

MUS 030B Harmony 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 030A or consent of instructor; concurrent enrollment in MUS 031A or MUS 031B or MUS 031C or MUS 131A or MUS 131B or MUS 131C. Diatonic and chromatic harmony of the common practice period.

MUS 030C Harmony 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 030B or consent of instructor; concurrent enrollment in MUS 031A or MUS 031B or MUS 031C or MUS

131A or MUS 131B or MUS 131C. Diatonic and chromatic harmony of the common practice period.

MUS 031A Music Theory and Musicianship

I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MUS 001 or MUS 010 or a passing score on an equivalent examination or consent of instructor. Study and practice of music theory. Includes ear training, sight singing, melodic and harmonic dictation, rhythmic skills, keyboard skills, diatonic and chromatic harmony, and music styles of different periods.

MUS 031B Music Theory and Musicianship

I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MUS 031A or consent of instructor. Study and practice of music theory. Includes ear training, sight singing, melodic and harmonic dictation, rhythmic skills, keyboard skills, diatonic and chromatic harmony, and music styles of different periods.

MUS 031C Music Theory and Musicianship

I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MUS 031B or consent of instructor. Study and practice of music theory. Includes ear training, sight singing, melodic and harmonic dictation, rhythmic skills, keyboard skills, diatonic and chromatic harmony, and music styles of different periods.

MUS 073A Dance of Mexico 2 Studio, 3 hours; extra reading, 1 hour; screening, 1 hour; individual studio, 1 hour. Prerequisite(s): none. Covers the traditional dances of Mexico at the beginning level. Includes attendance at dance concerts outside of class. Recommended for both nondancers and dancers. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable. Cross-listed with LNST 073A.

MUS 073B Dance of Mexico 2 Studio, 3 hours; extra reading, 1 hour; screening, 1 hour; individual studio, 1 hour. Prerequisite(s): LNST 073A/MUS 073A is recommended. Covers the traditional dances of Mexico at the beginning level. Includes attendance at dance concerts outside of class. Recommended for both nondancers and dancers. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable. Cross-listed with LNST 073B.

MUS 080 (E-Z) Priv Instr:voice, Kybrd,

Strng 1 Individual study, 5 hours; studio, 0.5 hour. Consists of a half-hour lesson and practice for 5 to 10 hours each week (see the note regarding fees under the Major Requirements section). Offered as demand indicates. E. Voice; F. Classical Piano; G. Jazz Piano; I. Harpsichord; J. Carillon; K. Jazz Guitar; L. Electric Bass Guitar; M. Lute; N. Classical Guitar; O. Viola Da Gamba; P. Piano Proficiency; Q. Organ; R. Violin; S. Viola; T. Violoncello; U. Double Bass Viol; V. Harp; Course is repeatable to a maximum of units.

MUS 081 (E-Z) Private Instruction: Brass, Woodwinds, Percussion, and Other

Instruments 1 Individual study, 5 hours; studio, 0.5 hour. Consists of a half-hour lesson

and practice for 5 to 10 hours each week (see the note regarding fees under the Major Requirements section). Offered as demand indicates. E. Trumpet; F. Trombone; G. Tuba; I. French Horn; J. Flute; K. Oboe; L. Clarinet; M. Bassoon; N. Saxophone; O. Recorder; P. Percussion/marimba; R. Bagpipe; S. Scottish Snare Drum; Z. Caribbean Steele Pan; Course is repeatable.

Upper-Division Courses

MUS 111 Music Resources and

References 2 Studio, hours; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor and/or successful completion of one or more introductory course(s) in the discipline. Introduces the methods of finding and using music resources and references. Explores the musical resources of the UCR libraries and beyond. Topics include but are not limited to UCR's music collections (print, online, and audio formats) including scores, databases, reference sources, journals, and multimedia.

MUS 112A History of Western Music: Middle

Ages to 1700 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MUS 030A, MUS 030B, MUS 030C; or consent of instructor. An intensive survey of music history and literature from the Middle Ages to 1700. Involves score reading, listening, and analysis of pieces with emphasis on historical characteristics.

MUS 112B History of Western Music: 1700-

1900 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MUS 030A, MUS 030B, MUS 030C; or consent of instructor. An intensive survey of music history and literature from the 1700 to 1900. Involves score reading, listening, and analysis of pieces with emphasis on historical characteristics.

MUS 112C History of Western Music: Twentieth

Century 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MUS 030A, MUS 030B, MUS 030C; or consent of instructor. An intensive survey of music history and literature from 1900 to the present. Involves score reading, listening, and analysis of pieces with emphasis on historical characteristics.

MUS 113 Brazilian Music 4 Lecture, 3 hours; extra reading, 2 hours; assigned listening, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces the music of Brazil, focusing on the history and the current variety of musical languages, styles, and forms of the present. Analyzes the crucial question of national identity in Brazilian culture and society through the study of its music.

MUS 114 Opera 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Study of selected operas from the Western repertory for 1600 to the present.

MUS 115 Renaissance and Baroque Music of Latin Europe and Latin America 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): MUS 112A, MUS 112B, MUS 112C; or upper-division standing and consent of instructor. Study of the sacred and secular musics of Italy, France, the Iberian Peninsula, and Latin America,

1450-1750. Emphasis is on the repertoires, styles, and genres that are relevant to understanding the musical past of the Americas, from (Alta) California to South America.

MUS 117 Music and Ritual 4 Lecture, 3 hours; written work, 1 hour; fieldwork, 20 hours per quarter. Prerequisite(s): upper-division standing or consent of instructor. Examines music cross-culturally in a ritual context. Incorporates readings from ethnomusicology, anthropology, folklore, and performance studies. Addresses how music operates within specific ritual events and how it relates to cosmology. Also examines the role of music in achieving altered states (dreams, meditation, trance, and possession), as well as helping to constitute gendered authority.

MUS 118 Music, Politics, and Social Movements 4 Lecture, 3 hours; extra reading, 2 hours; assigned listening, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the role of music in social and political movements. Emphasis is on understanding the textual and musical features of politically engaged music within its historical, social, and cultural context.

MUS 119 Javanese Music and Culture 4 Lecture, 3 hours; term paper, 1 hour; online discussion and listening, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines Javanese traditional and contemporary music. Focuses on the music of the Javanese gamelan and its relation to larger cosmological themes. Other topics include rural versus court traditions, popular music, mass media, piracy, Hindu roots, modernity, and local practices versus global trends. Cross-listed with AST 119.

MUS 120 Contemporary Native American Music 4 Lecture, 3 hours; extra reading, 2 hours; listening to prepared audio examples of music, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the music of Native American peoples today, the contexts and behaviors with which such music is associated, and the ways these elements are discussed within Native communities. Emphasis is on "Pan Indian" music, including music for pow wows and syncretic religious music, and Native popular music, including folk, country, rock, and hip-hop.

MUS 122 Music and Performance in the Andes 4 Lecture, 3 hours; extra reading, 2 hours; assigned listening, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the musical practices of the central Andean countries, including indigenous, mestizo, Creole, and Afro-Andean traditions. Music is presented as part of a broader realm of performance in the Andes, incorporating dance, ritual, drama, and popular culture, and its relationship with notions of identity, nationalism, modernity, folklore, and politics.

MUS 123 Southeast Asian Performance 4 Lecture, 3 hours; screening, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the roles and genres of expressive culture in Southeast Asia, including dance, music, theater, film, and digital culture. Performance is discussed as both a time-

honored and a contemporary medium for cultural production, from the courts to everyday experience. Cross-listed with AST 123, ANTH 126, DNCE 123, and SEAS 123.

MUS 124 Music of Asian America 4 Lecture, 3 hours; music listening, 1 hour; individual study, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores music as a window on the cultural politics of Asian America. Examines expressive culture as a constitutive site for ethnic identities and emergent political formations. Covers music of Asian immigrants and of subsequent generations, including Asian American jazz and hip-hop. Cross-listed with AST 124.

MUS 125 Music of Central America, Mexico, and the Caribbean 4 Lecture, 3 hours; extra reading and listening to prepared tapes of music, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of different musical traditions from Central America, Mexico, and the Caribbean, with an emphasis on popular music. Examines the impact of intercultural contact on the musical styles of these regions. A background in Western music is not required.

MUS 126 Gender, Sexuality, and Music in Cross-Cultural Perspectives 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An overview of gendered performance genres from a number of cultures. Explores gender-specific music and notions of gender that are often constructed, maintained, transmitted, and transformed through music and performance. Cross-listed with ANTH 177, and GSST 126.

MUS 127 Music Cultures of Southeast Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in the Philippines, Indonesia, Malaysia, Thailand, Myanmar (Burma), Laos, Cambodia, and Vietnam. Designed for the student interested in the performing arts and cultures of mainland and insular Southeast Asia. No Western music background is required. Cross-listed with ANTH 176, AST 127, DNCE 127, ETST 172, and SEAS 127.

MUS 130A Counterpoint 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 138; concurrent enrollment in MUS 031A or MUS 031B or MUS 031C or MUS 131A or MUS 131B or MUS 131C. Study of contrapuntal techniques. Analysis of models centering on the sixteenth century, with exercises to develop manipulative skills in modal counterpoint.

MUS 130B Counterpoint 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): concurrent enrollment in MUS 031A or MUS 031B or MUS 031C or MUS 131A or MUS 131B or MUS 131C; MUS 130A. Study of contrapuntal techniques. Analysis of models centering on the eighteenth century, with exercises to develop manipulative skills in tonal counterpoint.

MUS 131A Music Theory and Musicianship II 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MUS 031C. Study and practice of music theory. Includes advanced ear training, sight singing, melodic and harmonic dictation, rhythmic skills, keyboard skills, twentieth-century harmony, twelve-tone serialism, atonalism, and

electronic and computer music.

MUS 131B Music Theory and Musicianship II 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MUS 131A. Study and practice of music theory. Includes advanced ear training, sight singing, melodic and harmonic dictation, rhythmic skills, keyboard skills, twentieth-century harmony, twelve-tone serialism, atonalism, and electronic and computer music.

MUS 131C Music Theory and Musicianship II 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): MUS 031C. Study and practice of music theory. Includes advanced ear training, sight singing, melodic and harmonic dictation, rhythmic skills, keyboard skills, twentieth-century harmony, twelve-tone serialism, atonalism, and electronic and computer music.

MUS 133 Instrumentation 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 030A, MUS 030B, MUS 030C; or consent of instructor. Investigation of the technical and color possibilities of various instruments, with scoring projects.

MUS 134 Orchestration 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 133 or consent of instructor. Advanced scoring projects with emphasis on stylistic aspects and relationship of orchestral color to form.

MUS 136 Jazz Theory 4 Lecture, 3 hours; extra reading and listening to music tapes, 3 hours. Prerequisite(s): MUS 030A; MUS 031A or MUS 031B or MUS 031C; or consent of instructor. Examines concepts and practices in harmony, melody, rhythm, and form as they relate to jazz and other popular idioms. Provides basic ear training for the recognition of changes in traditional jazz tunes, primary blues forms, modulations, and classic jazz bridges.

MUS 137 Composition Seminar 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): MUS 030A, MUS 030B, MUS 030C; or consent of instructor. Assists in the successful composition of pieces in a variety of genres and media. Includes compositional models and the creation of musical scores. Course is repeatable to a maximum of 12 units.

MUS 138 Form and Analysis in Western Music 4 Lecture, 3 hours; assigned special projects, 3 hours. Prerequisite(s): MUS 030A, MUS 030B, MUS 030C; or consent of instructor. Different approaches to analysis using works in contrasting styles. Study of the dynamic design produced by the musical elements functioning in context.

MUS 140 American Musical Subcultures: A Genealogy of Rock 4 Lecture, 3 hours; extra reading, 0 to 2; listening, 2-3 hours. Prerequisite(s): upper-division standing or consent of instructor. A historical and cultural overview of the genre of American popular music known as "rock." Covers themes ranging from musical form and structure, aesthetics, and audio technology to community and individualism, gender and racial identity, political resistance, and the music industry. Cross-listed with HISA 139.

MUS 144 Introduction to Songwriting 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): MUS

030A, MUS 031A; or consent of instructor. Explores fundamentals of songwriting; from writing lyrics to finding a structure. Focuses on analyzing several songs and techniques from various time periods and creating model exercises. Course concludes with students writing two original and contrasting songs.

MUS 145A Digital Audio and Sound 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. College math is recommended. An introduction to the theory and practice of manipulating digital sound. Provides an understanding of digital audio devices associated with media production and of audio processing in general. Topics include basic psychoacoustics, digital audio theory, and digital audio editing.

MUS 145B Digital Audio and Sound 4 Lecture, 3 hours; laboratory, 4 hours; Prerequisite(s): MUS 145A or theory proficiency and practical experience in digital audio. Advanced theory and practice of manipulating digital sound. Includes sound processing, synthesis, and composition, as well as multimedia and audiovisual composition and interactive media production. Provides an understanding of dedicated software for sound, music, and multimedia, including the programming environment Max/MSP. Course is repeatable to a maximum of 8 units.

MUS 146 Genealogy of Electronica 4 Lecture, 3 hours; term paper, 1 hour; online discussion and listening, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the history of electronica and electronic music. Focuses on particular issues, including youth culture, dance and ecstatic trance, subcultures and club cultures, hallucinogenic drugs and psychedelic aesthetics, globalization, audio piracy, media and audio technologies, music and politics, and gender and sexuality.

MUS 147 Advanced Contemporary Analysis: Music After 1945 4 Lecture, 3 hours; activity, 3 hours. Prerequisite(s): MUS 138 or consent of instructor. A study of the diverse range of styles and movements of Western art music from 1945 through the present. Examines critical repertoire through a historical context including issues of pitch derivation, formal architecture, and compositional aesthetics. Satisfactory (S) or No Credit (NC) grading is not available.

MUS 150A Instrumental Technique: Strings 2 Lecture, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Study of basic techniques of orchestral string instruments.

MUS 150B Instrumental Technique: Woodwinds 2 Lecture, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Study of basic techniques of orchestral woodwind instruments.

MUS 150C Instrumental Technique: Brass 2 Lecture, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Study of basic techniques of orchestral brass instruments.

MUS 150D Instrumental Technique: Percussion 2 Lecture, 2 hours. Prerequisite(s): upper-division standing or consent of instructor.

Study of basic techniques of orchestral percussion instruments.

MUS 150E Instrumental Technique: Voice Studio 2 Studio, 4 hours. Prerequisite(s): MUS 080E and MUS 180E. An introduction to performance that provides singers an opportunity to present and perform the material on which they are currently working. Also reviews the International Phonetic Alphabet and how it may be applied to improve a singer's pronunciation and understandability by an audience. Course is repeatable to a maximum of 4 units.

MUS 151 Orchestral Conducting 4 Lecture, 3 hours; studio, 2 to 3 hours. Prerequisite(s): consent of instructor. Fundamentals of baton technique, score study, transposition, and stylistic analysis as they relate to problems of conducting.

MUS 152 Choral Conducting 4 Lecture, 3 hours; studio, 2 to 3 hours. Prerequisite(s): consent of instructor. Study of choral repertoire, rehearsal methods, voice production, and techniques of conducting.

MUS 153 Homosexuality and Music 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Uses a topical rather than a chronological approach to investigate homosexuality on the part of composers, performers, critics, theorists, and historians and how this has shaped the history of music in the West. Cross-listed with LGBS 153.

MUS 154 (E-Z) Critcl Apprch to Western Canon 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): MUS 112A; MUS 112B; MUS 112C. Critical study of selected repertoires within Western music, and the multiple and potentially problematic aspects of their construction as iconic and paradigmatic. E. Beethoven: The Music & the Myth;

MUS 155 (E-Z) Seminar in Dance and Music 4 Seminar, 3 hours; term paper, 3 hours. Introduces relationships and representations between music and dance. Explores musical and choreographic form, compositional strategies, hybridization of style, cultural meanings and registers in which these were made, the agencies such representations enabled, interpretive communities, and cross-cultural interactions. Cross-listed with DNCE 155 (E-Z).

MUS 155E Seminar in Dance and Music 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces representations of Spain articulated in music and dance of Europe and the Americas from the eighteenth through twentieth centuries. Cross-listed with DNCE 155E.

MUS 155F Seminar in Dance and Music 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how the Diaghilev Ballets Russes' repertoire and collaborative practices challenged the nature of artistic labor; negotiated traditional patronage and new commercial modes; engaged with cultural nationalism, gender role contention, and emerging models of sexuality; and deployed

representational strategies that played into period debates about power and social organization. Cross-listed with DNCE 155F.

MUS 160 Orchestra 1 to 2 Studio, 2 to 6 hours. Prerequisite(s): consent of instructor. Study and performance of standard orchestral literature. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. May be repeated for credit.

MUS 161 Collegium Musicum 1 to 2 Activity, 2 To 6 hours. Prerequisite(s): consent of instructor. Study and performance of Medieval, Renaissance, and Baroque music. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. May be repeated for credit.

MUS 162 Choral Society 1 to 2 Studio, 2 to 6 hours. Prerequisite(s): consent of instructor. Study and performance of standard choral literature. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. May be repeated for credit.

MUS 163 Chamber Singers 1 to 2 Studio, 2 to 6 hours. Prerequisite(s): consent of instructor. Study and performance of works selected from different genres and periods. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

MUS 164 Jazz Ensemble 1 to 2 Studio, 2 To 6 hours. Prerequisite(s): consent of instructor. Study and performance of literature for large jazz ensemble and stage band, and preparation of improvised solos. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

MUS 165 Concert Band 1 to 2 Studio, 2 to 6 hours. Prerequisite(s): consent of instructor. Study and performance of literature for the concert band. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable.

MUS 166 (E-Z) Chamber Music 1 to 2 Studio, 3 hours. Study and performance in varied small ensembles. E. Midi Ensemble; F. Improvisatory Ensemble; G. Chamber Music; Course is repeatable to a maximum of units.

MUS 167 Recital 1 to 2 Rehearsals, 6-12 hours. Prerequisite(s): approval of music faculty; limited to advanced performers only. Preparation and presentation of a formal recital. Graded Satisfactory (S) or No Credit (NC).

MUS 168 Javanese Gamelan Ensemble: Beginning 2 Studio, 6 hours. Prerequisite(s): upper-division standing and consent of instructor. Study and performance of the Central Javanese gamelan, consisting mainly of gongs and gong-chime instruments. Readings and discussions focus on Javanese culture. Course is repeatable. Cross-listed with AST 168 and

MUS 169 Taiko Ensemble 1 Studio, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of Japanese drumming. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable. Cross-listed with AST 169.

MUS 170 Rondalla Ensemble 1 to 2 Studio, 2 to 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of the Filipino rondalla, an ensemble consisting of various sizes of lute-like and guitar-like instruments. Discussions focus on Filipino culture. Cross-listed with AST 170 and SEAS 170. Course is repeatable.

MUS 172 Chamber Orchestra 1 Studio, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Participation in a performance ensemble comprised mainly of strings, with occasional winds and horns as needed. Includes string techniques instruction. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable to a maximum of 4 units.

MUS 174 Latin American Music Ensemble 1 to 2 Studio, 2 to 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of select Latin American folk music traditions, with special emphasis on music of the Andean region. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work. Course is repeatable.

MUS 175A Beginning Mariachi Ensemble 1 to 2 Studio, 3 hours; individual studio, 1-2 hours. Prerequisite(s): upper-division standing or consent of instructor. A study and performance of selections from the Mexican folk music tradition. Emphasizes mariachi and son jarocho. Includes popular corridos and rancheras. Students who participate in a performance and submit a written review receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

MUS 175B Intermediate Mariachi Ensemble 1 to 2 Studio, 3 hours; individual studio, 1-2 hours. Prerequisite(s): MUS 175A or consent of instructor. A study and performance of selections from the Mexican folk music tradition. Emphasizes mariachi and son jarocho. Includes popular corridos and rancheras. Students who participate in a performance receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

MUS 176 Bagpipe Ensemble 1 Studio, 2 hours. Prerequisite(s): consent of instructor. Study and performance of Scottish bagpipe music. Students who participate in a performance receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

MUS 177 Music of North India: Tabla (drums) 1 to 2 Studio, 2 to 4 hours. Prerequisite(s): upper-division standing and consent of instructor.

Explores the tradition of the Hindustani/ North Indian tabla, which are a pair of drums that accompany improvised solos on melody instruments such as the sitar. Considers the tabla as a virtuosic solo instrument. Course is repeatable.

MUS 178 Bluegrass Ensemble 1 Studio, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. The study and performance of bluegrass music (instrumental and vocal) from the Appalachian region. Explores both traditional and contemporary styles. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MUS 179 Music Improvisation Ensemble 1 to 2 Studio, 3 to 6 hours. Prerequisite(s): upper division standing and consent of instructor. Participation in an improvisational ensemble comprised of electronic (preferably laptop computer based) and/or electro-acoustical musical instruments. Rehearsals will cover a range of improvisational techniques from highly structured to free form and from tonality to noise experimentation. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable to a maximum of 24 units.

MUS 180 (E-Z) Priv Inst:voice,keybrd,strng 2 Individual study, 5 hours; studio, 1 hour. Consists of an one-hour lesson and practice for 5 to 10 hours each week (see the note regarding fees under the Major Requirements section). Offered as demand indicates. E. Voice; F. Classical Piano; G. Jazz Piano; I. Harpsichord; J. Carillon; K. Jazz Guitar; L. Electric Bass Guitar; M. Lute; N. Classical Guitar; O. Viola Da Gamba; P. Piano Proficiency; Q. Organ; R. Violin; S. Viola; T. Violoncello; U. Double Bass Viol; V. Harp; Course is repeatable to a maximum of units.

MUS 181 (E-Z) Private Instruction: Brass, Woodwinds, Percussion, and Other Instruments 2 Individual study, 5 hours; studio, 1 hour. Consists of an one-hour lesson and practice for 5 to 10 hours each week (see the note regarding fees under the Major Requirements section). Offered as demand indicates. E. Trumpet; F. Trombone; G. Tuba; I. French Horn; J. Flute; K. Oboe; L. Clarinet; M. Bassoon; N. Saxophone; O. Recorder; P. Drum Set; R. Bagpipe; S. Scottish Drums; Z. Caribbean Steele Pan; Course is repeatable.

MUS 182 Ucr Chorale 1 to 2 Studio, 3 to 6 hours. Prerequisite(s): consent of instructor. Introduces the practice of choral music and singing. Explores a broad variety of repertoire, genres, and styles of choral music from the Renaissance to the contemporary period. Also addresses vocal techniques and musical notation. Course is repeatable as content changes to a maximum of 24 units.

MUS 183 Percussion Ensemble 1 to 2 Studio, 2 to 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of percussion ensemble literature. Course is repeatable.

MUS 184 Genealogy of Hip Hop 4 Lecture, 3 hours; extra reading, 3 hours; listening, 2 hours. Prerequisite(s): upper-division standing

or consent of instructor. Introduces hip hop culture from its origins to its contemporary global spread. Focuses particularly on rap music, addressing themes evoked in hip hop practice, particularly regionalism, feminism, gender identity, racialization, and globalization.

MUS 185 Arts, Managment, and Community 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to business and arts management including the study of film and television production, stage management, and music production. Offers hands-on experience for practicing management skills working in partnership with local organizations and artists of Riverside and the Inland Empire. Cross-listed with TFDP 185. Credit is awarded for only one of MUS 185/TFDP 185 or MUS 185S/TFDP 185S.

MUS 185S Arts, Management, and Community 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to business and arts management including the study of film and television production, stage management, and music production. Offers hands-on experience for practicing management skills working in partnership with local organizations and artists of Riverside and the Inland Empire. Cross-listed with TFDP 185S. Credit is awarded for only one of MUS 185/TFDP 185 or MUS 185S/TFDP 185S.

MUS 190 Special Studies 1 to 5 Prerequisite(s): To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable to a maximum of 12 units.

MUS 191 (E-Z) Seminar in Music 4 Seminar, 3 hours; individual study, 3 hours. Topics dealing with aspects of individual composers and genre studies. F. Music Of Beethoven; H. Constructn Of Early Instrument; I. Performance Practice; J. Music Of Haydn; K. Interpretation Of Symphonic Lit; M. Russian Romantic Music; N. Early American Music; O. Music Of Mozart; R. Survey Of Sonatas-17th-20th Cn; S. Evolution & Practice Of Jazz; U. Music Criticism; V. Studies In 20th-century Music;

MUS 194 Independent Reading 1 to 2 Prerequisite(s): junior standing Independent reading in materials not covered in course work. Normally begun in the junior year. May be repeated for credit. Total credit for course 194 may not exceed 4 units.

MUS 195 Senior Thesis 1 to 4 Required for students who are candidates for honors in music. Open to other music majors by invitation. Total credit may not exceed 6 units.

MUS 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is

repeatable as topics change to a maximum of 8 units.

MUS 198I Individual Internship 1 to 12 variable hours; Prerequisite(s): upper-division standing; evidence of prior arrangements with the professional(s) involved; approval by the department chair after consulting the music faculty. Work with an appropriate professional individual or organization to gain experience and skill in the student's chosen specialty. Graded Satisfactory (S) or No Credit (NC). May be repeated to a total of 16 units.

MUS 199H Senior Honors Research 1 to 5 Research, 3-15 hours.

Graduate Courses

MUS 200 Music Bibliography 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Fundamentals of music bibliography. Emphasizes reference materials and other standard bibliographical tools. Covers research tools and professional writing.

MUS 201 Proseminar in the Analysis of Western Music 4 Seminar, 3 hours; individual guided research, 3 hours. Prerequisite(s): graduate standing. Analysis of selected musical works from various periods exploring different music-theory models.

MUS 206 Proseminar in Musicology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MUS 200. Study of significant issues and recent developments in musicology and criticism. Study and practice of expository writing about music. Covers research methods and professional ethics.

MUS 207A Proseminar in Ethnomusicology: History and Foundations 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Explores the early history of ethnomusicology as a discipline. Includes its foundation in comparative musicology and its connections with folklore.

MUS 207B Proseminar in Ethnomusicology: Current Theoretical Directions 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Explores ethnomusicology as a discipline. Focuses on the relationships between ethnomusicology and musicology and on ethnomusicology as an interdisciplinary field. Draws from performance studies, ethno poetics, postmodernism, translational theories, and postcolonialism. Covers research methods and professional ethics.

MUS 232 Soundtrack Composition 3 Lecture, 3 hours; individual study, 1 hour. Prerequisite(s): MUS 145A or MUS 145B or consent of instructor; graduate standing or both upper-division standing and keyboard proficiency. Concerns musical composition for visual art and entertainment. Covers classic underscoring for dramatic effect, experimentation with music use in film and live-scripted situations, and composition of a musical piece. May be taken Satisfactory (S) or No Credit (NC) by students advanced to candidacy for the Ph.D.

MUS 249 Audiovisual and Multimedia Composition 4 Lecture, 3 hours; individual study, 4 hours. Prerequisite(s): graduate

standing. Explores new fields of artistic creativity emerging from the convergence of sound and image. Focuses on audiovisual and multimedia composition, as well as on the collaboration process embracing research, composition, and performance. Encourages exploration of the links among sound, image space, environment, and digital media. May be taken Satisfactory (S) or No Credit (NC) by students advanced to candidacy for the Ph.D.

MUS 251 Music in Computer Gaming 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces students to the history and theory of music use in computer games, including the development of classical commercial gaming and game design and the related use of dramatic music. Topics cover adventure game history, narrative underscoring, commercial computer game genres, and contemporary issues related to interactivity, performance, and reception.

MUS 252 Notation For Composers 4 Lecture, 3 hours; individual study, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Combines a critical study of notation history and survey of contemporary techniques for the conceptualization and display of visual information with computer-oriented musical applications. Includes common practice computer music notation, graphics software, and the translation of data between music software. Students advanced to candidacy for the Ph.D. receive a Satisfactory (S) or No Credit (NC) grade.

MUS 255 Field Methods in Ethnomusicology 4 Seminar, 3 hours; research, 1 hour; field, 2 hours. Prerequisite(s): graduate standing. A theoretical and practical introduction to fieldwork in music and performance. Each student focuses on a different performance group and documents its activities. Covers interviewing, audiotaping, videotaping, transcribing music and dance, and describing performance events.

MUS 256 Electroacoustic and Computer Music Composition 4 Seminar, 3 hours; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor; MATH 004 or equivalent is recommended. Covers electroacoustic and computer music composition techniques in the context of development of original pieces. Topics include electronic and computer music history and theory, as well as digital audio and sound processing theory (including synthesis techniques and real-time sound processing and instrument design).

MUS 257 Music and Audio Production 4 Lecture, 3 hours; studio, 8 hours per quarter; individual study, 3 hours. Prerequisite(s): MUS 145A; MUS 145B or consent of instructor. Addresses techniques of commercial music production, including recording, editing, sequencing, notation preparation, and sound reinforcement. Combines an examination of the history of commercial sound aesthetics with structured exercises in producing, including software benchmarking, project management, budgeting, audio devices, mastering, and design for sound reinforcement and miking. May be taken Satisfactory (S) or No Credit (NC) by students

advanced to candidacy for the Ph.D.

MUS 258 Composition Seminar 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Individual projects and issues in musical composition. Course is repeatable.

MUS 259 Musical Semiotics: Approaches to Meaning and Form 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Study of musical semiotics focusing on recent theories and related areas such as cybernetics, cognitive science, and theory of systems. Examines questions of meaning and form in the domains of aesthetics, musical theory, analysis, composition, performance, and new approaches of digital media and music.

MUS 261 Seminar in Performance

Practice 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): MUS 200 and MUS 201, or consent of instructor. Investigations into the historically accurate performance styles of music based on information contemporary with the music. Topics and content will vary each quarter depending on student interest. May be repeated for up to 8 units.

MUS 262 Seminar in Western Music

History 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): MUS 206, graduate standing; or consent of instructor. Addresses selected issues in the history of music in the context of the social, political, religious, and intellectual culture of the West. Focuses on historical and analytical literature on particular historical periods. Course is repeatable.

MUS 263 Seminar in Special Topics in

Musicology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): MUS 206, graduate standing; or consent of instructor. Focuses on current scholarship in musicology and related fields with a strong critical content. Addresses particular topics relative to their historical and stylistic periods. Topics include nationalism, gender and sexuality in music, identity in music, individual genres and composers, and exoticism. Course is repeatable.

MUS 264 Music in Fantasy and Science

Fiction 4 SSeminar, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A survey of the use of music in science fiction and fantasy. Covers Tales of Hoffman and Anlara to Star Trek and Solaris. Examines music's textural, sonic, and political roles in terms of traditional functions, as well as those associated with the explication of the synthetic and fantastic.

MUS 265 Electroacoustic Music: History,

Theory, and Aesthetics 4 Lecture, 3 hours; individual study, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on historical, theoretical, and esthetic issues of electroacoustic music from the beginning of the twentieth century to the present. Topics include foundations of electroacoustic music, electronic music studios, analog and digital technology, sound art, and live electronics. Includes listening to and analysis of key works of electroacoustic music.

MUS 266 Seminar in Improvisational

Studies 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on specific musical concepts and processes as well as broader sociocultural issues related to improvisational performance. Designed for graduate and approved upper-level undergraduate students interested in the scholarly study of music improvisation and contemporaneous musicality.

MUS 270 Special Topics in

Ethnomusicology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on current scholarship in ethnomusicology and related fields. Emphasis is usually on theory and methodology or the study of particular regions or performance traditions. Theme varies each quarter. Course is repeatable to a maximum of 8 units.

MUS 271 Area Studies Research in

Music 4 Seminar, 3 hours; extra reading; 2 hours; listening, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Focuses on historical and ethnographic literature of particular geographical areas. Discusses scholarly literature on music (and expressive culture generally, including dance, theater, and ritual) of a particular geocultural region. Course is repeatable as topics change to a maximum of 8 units.

MUS 272 Musics of Southeast Asia 4 Seminar, 3 hours; term paper, 3 hours; Research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on historical and ethnographic literature of Southeast Asia and its diasporas. Discusses scholarly literature on music and expressive culture generally, including dance, theater, and ritual. Cross-listed with SEAS 201.

MUS 290 Directed Studies 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MUS 291 Individual Study in Coordinated

Areas 1 to 6 Individual Study, 6 to 25 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. A program of study designed to assist graduate candidates who are preparing for M.A. comprehensive or Ph.D. qualifying examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MUS 292 Concurrent Analytical Studies in

Music 1 to 4 Prerequisite(s): graduate standing; approval of instructor and graduate advisor. Each 292 course will be taken concurrently with some 100-series course but on an individual basis. It will be devoted to research, criticism, and written work of a graduate order commensurate with the number of units elected. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

MUS 293 Composition Practicum 1 Lecture, 1 hour; practicum, 8 hours per quarter; individual study, 3 hours; Studio, 16 hours per quarter. Prerequisite(s): graduate standing or consent of instructor. A series of performance activities and appreciation for composers. Includes production of a composition concert and attendance at designated presentations in music

and scholarship. Addresses career and job market guidance. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

MUS 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor; graduate advisor. Individual graduate student research under the sponsorship of specific faculty members. Addresses topics and selected problems in theoretical and historical research in music not directly related to student's thesis. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

MUS 299 Research For Thesis Or Dissertation 1 to 12 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

MUS 301 Directed Studies in the Teaching of

Music 3 Seminar, 2 hours; consultation, 1 hour. Prerequisite(s): graduate standing. A program of weekly meetings and individual formative evaluation required of new Music teaching assistants. Covers instructional methods and classroom/section activities. Conducted by department faculty. Graded Satisfactory (S) or No Credit (NC).

MUS 302 Teaching Practicum 1 to 4 Lecture, 2 hours; clinic, 1 hour; practicum, 1 hour. Prerequisite(s): graduate standing. Supervised teaching in undergraduate Music courses. Required of all Music teaching assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to 99 units.

MUS 400 Research and Professional

Development Workshop 1 Workshop, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Addresses recent trends and methods of research. Covers strategies for job placement and public speaking. Organized in conjunction with the Music Graduate Students Association. Topics presented by faculty and guest lecturers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 18 units.

NATURAL AND AGRICULTURAL SCIENCES

Subject abbreviation: NASC
College of Natural and Agricultural Sciences

Lower-Division Courses

NASC 091 Freshman Advising Seminar in the Natural and Agricultural Sciences 1 Seminar, 1 hour. Prerequisite(s): first-year freshman standing in the College of Natural and Agricultural Sciences (CNAS). Introduction to UCR for students in the sciences. Includes selection of majors, curriculum planning, career options and goals in the sciences, opportunities for undergraduate research, development of learning and study skills, ethics in research and education, and an introduction to the faculty in CNAS. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of BCH 095,

NASC 091, or NASC 093.

NASC 092 Lower Division Seminar in the Natural and Agricultural Sciences 1 Seminar, 10 to 15 hours per quarter. Prerequisite(s): freshman or sophomore standing; or consent of instructor. Introduction to one of the many areas of study explored by the faculty and alumni of natural and agricultural sciences in a small-group, highly interactive format. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 3 units of any combination of ENGR 092, HASS 092, and NASC 092; students may enroll in only 1 unit of ENGR 092, HASS 092, or NASC 092 per quarter.

NASC 093 Freshman Advising Seminar in the Natural and Agricultural Sciences 2 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): first-year freshman standing in the College of Natural and Agricultural Sciences (CNAS). Introduction to UCR for students in the sciences. Includes selection of majors, curriculum planning, career options and goals in the sciences, opportunities for undergraduate research, development of learning and study skills, ethics in research and education, and an introduction to the faculty and professional academic advisors in CNAS. Graded Satisfactory (S) or No Credit (NC). Credit is awarded for only one of BCH 095, NASC 091, or NASC 093.

NASC 096 Environment and Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): lower-division standing or consent of instructor. Presents major environmental issues facing society from an interdisciplinary perspective. Topics may include water, energy, climate change, and urbanization. Cross-listed with ENGR 096, and HASS 096.

Upper-Division Courses

NASC 188 Introduction to Oral

Presentations 2 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): enrollment in the MARC-USTAR program. Prepares science majors for oral presentations and formal research talks. Includes student presentations and discussions. Also covers the electronic preparation of figures and tables.

NASC 189 Reading and Analysis of Scientific

Articles 1 Lecture, 1 hours. Prerequisite(s): enrollment in the MARC-USTAR program. Introduces the analysis of biomedically-aimed scientific articles. Includes reading of current research papers, presentation of data, and critiquing of papers.

NASC 191S Seminar in Sacramento 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; admission to the UCR Center at Sacramento Program. Examines aspects of the Sacramento area, including cultural, political, and governmental institutions and the sciences, arts, and media. Requires a substantial research paper or project, the result of guided independent work drawing on the unique aspects of Sacramento. Required of participants in the UCR Center at Sacramento Program. Cross-listed with HASS 191S, and ENGR 191S.

NASC 192 Introduction to Stem

Teaching 1 Seminar, 1 hour. Prerequisite(s): EDUC 003, may be taken concurrently; Restricted to class level standing of sophomore, junior, or senior; and consent of instructor. Covers preparation for a career in mathematics and science teaching in the K-12 classroom. Includes introduction to science/math pedagogy and evaluation of student learning. Designed for students who plan to teach science or mathematics in the public school system.

NASC 192L Introduction to Stem Teaching Laboratory 1 Discussion, 1 hour; laboratory, 2 hours. Prerequisite(s): EDUC 003, may be taken concurrently; Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Covers preparation for a career in mathematics and science teaching in the K-12 classroom. Includes introduction to science/math pedagogy and evaluation of student learning. Laboratory field work includes participation and observation in public school classrooms.

NASC 198 R'course: Variable Topics 1 Activity, 1 to 3 hours. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

NASC 198I Individual Internship in the Natural and Agricultural Sciences 1 to 12 Internship, 2 to 24 hours; written work, 1 to 12 hours. Prerequisite(s): upper-division standing in the College of Natural and Agricultural Sciences (CNAS); consent of instructor. An internship to provide CNAS students with on-the-job experience in government, industry, or clinical laboratories. Each individual project must be approved by the CNAS associate dean and the laboratory director where the internship is to be carried out. Requires a written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

Cooperating Faculty

Morris F. Maduro, Ph.D. (Molecular, Cell, and Systems Biology)

Nematology is the study of roundworms, the most genetically diverse invertebrate phylum that occurs worldwide in virtually every environment. Only about 3 percent of all species have been studied or identified, and these include significant parasites of humans, animals, and plants. A primary mission of the Department of Nematology is to develop environmentally sound approaches to manage nematodes that worldwide cause nearly \$100 billion annual damage to crops. Other objectives are to use nematodes that benefit agriculture and the environment as agents of nutrient cycling and soil fertility and for biological control of some insect pests. Additional objectives focus on nematodes as fundamental models for addressing basic biological questions in genetics, development, and molecular biology. The department offers graduate and postgraduate opportunities in biocontrol, ecology, genetics, molecular biology, physiology, and systematics. It offers specific expertise in applied nematode problems of subtropical and desert agriculture.

A graduate program in Nematology is offered within a broad biological context. Students are enrolled in a more general department or interdepartmental program that provides a core of graduate courses. The general departments may include Botany and Plant Sciences, Entomology, Evolution, Ecology, and Organismal Biology, Microbiology and Plant Pathology, and Environmental Sciences as well as a wide range of interdepartmental programs. Dissertation research opportunities, major research professor, curriculum advisor, and specific courses are provided by the Department of Nematology to complement requirements of the more general department or program.

Upper-Division Courses

NEM 120 Soil Ecology 3 Lecture, 3 hours. Prerequisite(s): BIOL 002; or both BIOL 005A and BIOL 05LA; both CHEM 001C and CHEM 01LC (or both CHEM 01HC and CHEM 1HLC); ENSC 100; or consent of instructor. Examination of soil biota and their relationships with plants and the soil environment. Emphasizes soil biotic interactions that influence soil fertility, plant disease, and plant growth. Examines the importance of the different microbial and faunal groups from the rhizosphere to the ecosystem level. Cross-listed with ENSC 120.

NEM 159 Biology of Nematodes 3 Lecture, 2 hours; discussion and demonstration, 1 hour. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C

or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics. An introduction to the biology of nematodes. Topics include the morphology, physiology, development, genetics, behavior, and ecology of nematodes from parasitic and free-living habitats. In the discussion and demonstration section, students observe the comparative morphology and biology of nematodes and give oral presentations on selected nematode life histories. Cross-listed with BIOL 159.

NEM 190 Special Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor and Department Chair. Individual study, directed by a faculty member, to meet special curricular needs. A written report is required. Course is repeatable.

NEM 197 Research For Undergraduates 1 to 4 Laboratory, 3 to 12 hours. Prerequisite(s): upper-division standing. Research in nematology with the guidance of a Nematology faculty member. A written report is required. Course is repeatable.

NEM 199 Senior Research 2 to 4 Laboratory, 6 to 12 hours. Prerequisite(s): senior standing, a grade of "B+" or better in an upper-division Biology course, a grade of "B+" or better in an upper-division Nematology course; or consent of instructor. Individual research on a problem relating to Nematology. A written proposal signed by the supervising faculty member must be approved by the major advisor and the department chair and a written report filed with the supervising faculty member. Course is repeatable to a maximum of 9 units.

Graduate Courses

NEM 205 Identification of Plant Parasitic Nematodes 1 Lecture, 5 hours; laboratory, 25 hours. Prerequisite(s): graduate standing or consent of instructor. Five-day lecture and laboratory course on morphological identification of economically important plant parasitic nematodes in Tylenchida and Dorylaimida using dissecting and bright field microscopy. Includes preparation of microscope slides, diagnosis of field samples, and use of diagnostic keys. Offered in summer only.

NEM 206 Phytopathogens:

Nematodes 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Recognition, diagnosis, biology, and control of major nematode diseases of plants. Laboratory covers identification techniques, soil sampling and processing techniques, and process of pathogenesis. Cross-listed with PLPA 206.

NEM 250 Seminar in Nematology 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Intensive study of selected topics in nematology. Includes lectures by students, staff, faculty, and invited scholars on related subjects. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

NEM 270 Special Topics in Nematology 1 Seminar, 2 hours. Prerequisite(s):

consent of instructor. Discussion of current literature within special areas of nematology. Graded Satisfactory (S) or No Credit (NC).

NEM 290 Directed Studies 1 to 6 Prerequisite(s): graduate standing. Individual studies on specially selected topics in nematology under the direction of a staff member. Graded Satisfactory (S) or No Credit (NC).

NEM 297 Directed Research 1 to 6 Experimental studies on specially selected topics in nematology under the direction of a staff member. Graded Satisfactory (S) or No Credit (NC).

Major

The Neuroscience major is an intercollege major offered by the colleges of Humanities, Arts, and Social Sciences and Natural and

Agricultural Sciences. It offers upper-division courses that contribute to an academic program emphasizing the functioning of nervous systems at the molecular, cellular, system, behavioral, and cognitive levels. Some of the topics covered include neuroanatomy, neurophysiology, and neurochemistry in humans and other animals; neural mechanisms underlying sensory system function and perception; neural organization of behavior; development of the nervous system; and neural mechanisms of learning and memory.

Both a B.A. and a B.S. degree are offered by each college. When students declare the major, they choose from which college they wish to have their degree awarded. Students whose degrees are awarded by the College of Humanities, Arts, and Social Sciences are advised in and have their records maintained by the Department of Psychology; students whose degrees are awarded by the College of Natural and Agricultural Sciences are advised in and have their records maintained by the CNAS Academic Advising Center. Breadth requirements vary by college; and students must fulfill the breadth requirements of the college they choose.

For information about student advising, contact the CNAS Academic Advising Center, (951) 827-7294, or the Department of Psychology, (951)

827-5386, University of California, Riverside, Riverside, CA 92521.

Change of Major Criteria

Students must be in good academic standing at the time the Change of Major Petition is filed. Students must successfully repeat any outstanding Life Science Core course prior to acceptance into the major.

2nd and 3rd Quarter Freshmen

The following math and science courses must be completed with a grade of C– or better: CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, MATH 007A or MATH 009A

4th Quarter Freshman and Sophomore (up to 89 earned units)

The following math and science courses must be completed with a grade of C– or better: CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, CHEM 01LC BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, MATH 007A or MATH 009A, MATH 007B or MATH 009B

Junior (90 - 134 earned units)

The following math and science courses must be completed with a grade of C– or better. Grades of D– or higher are acceptable for courses marked with an asterisk (*): CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, CHEM 01LC BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C*, MATH 007A or MATH 009A, MATH 007B or MATH 009B and completion of at least one of the following sequences with no grade lower than a C–: CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 8HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC or CHEM 12C * PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C*, PHYS 02LC*

Senior (135 + units)

The following math and science courses must be completed with grade of C– or better. Grades of D– or higher are acceptable for courses marked with an asterisk (*): CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, CHEM 01LC, BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C*, MATH 007A, MATH 009A, MATH 007B or MATH 009B, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 8HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC or CHEM 12C *, PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C*, PHYS 02LC*, PSYC 011* or STAT 040* or STAT 100A*, BCH 100* or BCH 110A*, CBNS 106

GPA in upper division courses applied to the Neuroscience Major (Tier 1, 2, and 3) must be 2.00 or higher.

Transfer Students

Transfer applicants must have a minimum GPA of 2.70 (currently 2.70, but can be adjusted upward for selectivity by the college of Majors). Transfer applicants must further meet two of the curricular preparation requirements below.

1. Math 007A or Math 009A; MATH 007B or MATH 009B or equivalent.

1. Math 007A or Math 009A; MATH 007B or MATH 009B or equivalent.
2. Two semesters of a single lab-based science discipline (e.g. Chemistry or Biology or Physics).
3. The equivalent of Math 009C plus one semester of Vector Calculus or Linear Algebra.

Individual Majors can (and do) set their particular curricular requirements to be more rigorous.

University Requirements

See Undergraduate Studies section.

College Requirements

College breadth requirements vary depending on which college is chosen to award the degree. For details on breadth requirements, see the Colleges and Programs section of this catalog. Students are urged to consult their advisor regarding requirements.

The following restrictions and additions apply to college breadth requirements for the Neuroscience major.

For the College of Humanities, Arts, and Social Sciences

Humanities

Foreign language at level 4 or above for the B.A. may be used to fulfill up to 8 units of the Humanities breadth requirement.

Social Sciences

Psychology courses may not be used as part of the Social Sciences breadth requirement if a Biology course is used to meet any part of the Natural Sciences and Mathematics breadth requirement.

Foreign Language

In fulfilling the Foreign Language breadth requirement for both the B.A. and B.S. degrees, a modern language such as Spanish, Russian, Chinese, German, or French must be used.

Natural Sciences and Mathematics

The Neuroscience Core in the Neuroscience major satisfies the Natural Sciences and Mathematics breadth requirement.

For the College of Natural and Agricultural Sciences

Humanities

For the B.S. degree, 16 units instead of 12 units are required to fulfill the Humanities breadth requirement. PHIL 134 and PHIL 137 are recommended.

Social Sciences

For the B.S. degree, 16 units instead of 12 units are required to fulfill the Social Sciences breadth requirement. Psychology courses not required or approved for the Neuroscience major may be used in meeting the Social Sciences breadth requirement.

Foreign Language

In fulfilling the Foreign Language breadth requirement for the B.A. degree, a modern language such as Spanish, Russian, Chinese, German, or French must be used. Further, fourth-quarter

level proficiency in one foreign language (not level 2 in two languages) is required.

Natural Sciences and Mathematics

The Neuroscience Core in the Neuroscience major satisfies the Natural Sciences and Mathematics breadth requirement.

Major Requirements

1. Neuroscience Core (66-72 units; satisfies the Life Sciences Core required for some majors in the College of Natural and Agricultural Sciences). Up to 12 units of upper-division life sciences courses (for this major, courses from the departments of Biochemistry, Biology, Cell Biology and Neuroscience, and Entomology) not being used to satisfy the core may be taken prior to completion of the core; permission from the program chair or the program chair's designate is required to take upper-division units in excess of these 12 units.

Students must complete all required Life Science Core courses with a grade of "C-" or better and with a cumulative GPA in the courses of at least 2.0. Grades of "D" or "F" in two required courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.

- a) BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C (BIOL 002 and BIOL 003 may be substituted for BIOL 005A, BIOL 05LA, and BIOL 005B with advisor's approval.)
- b) PSYC 011 or STAT 040 or STAT 100A
- c) MATH 007A or MATH 009A or MATH 09HA; MATH 007B or MATH 009B or MATH 09HB
- d) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC (or CHEM 01HA and CHEM 1HLA, CHEM 01HB and CHEM 1HLB, CHEM 01HC and CHEM 1HLC, CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 8HLA or CHEM 12A, CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 8HLB or CHEM 12B, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 8HLC or CHEM 12C
- e) PHYS 002A, PHYS 002B, PHYS 002C, PHYS 02LA, PHYS 02LB, PHYS 02LC; or PHYS 040A, PHYS 040B, PHYS 040C
- f) BCH 100 or BCH 110A

2. Upper-division requirements

Students must complete all required First Tier and Second Tier courses with a grade of "C-" or better and with a cumulative GPA in the courses of at least 2.0. Grades of "D" or "F" in two required courses, either separate courses or repetitions of the same course, are grounds for discontinuation from the major.

- a) First Tier (14 units)
 - (1) CBNS 106
 - (2) CBNS 120/PSYC 120
 - (3) CBNS 120L/PSYC 120L or CBNS 130L
 - (4) CBNS 124/PSYC 124

- b) Second Tier (at least 12 units for the B.A. or at least 20 units for the B.S.)

BIOL 178; CBNS 101, CBNS 116, CBNS 121/PSYC 121, CBNS 125/PSYC 125, CBNS 126/PSYC 126, CBNS 127/PSYC 127; CBNS 129, PSYC 112, PSYC 117, PSYC 129

- c) Third Tier (additional units to reach a total of 36 units for the B.A. or 44 units for the B.S.) Select from upper-division courses listed under Neuroscience Core, Second Tier above not used to satisfy those requirements, and the additional courses listed below. The combined number of units taken under First Tier, Second Tier, and Third Tier must total either 36 if the B.A. is sought or 44 if the B.S. is sought.

BCH 102, BCH 110B, BCH 110C, BCH 120; BIOL 100/ENTM 100, BIOL 102, BIOL 105, BIOL 107A, BIOL 108, BIOL 109, BIOL 110, BIOL 151, BIOL 160, BIOL 161A, BIOL 161B; BIOL 162/ENTM 162; BIOL 171, BIOL 171L, BIOL 173/ENTM 173, BIOL 175, BIOL 185P; CBNS 108, CBNS 150/ENTX 150, CBNS 165, CBNS 169; up to 9 units from CBNS 194, CBNS 197 and/or CBNS 199; CS 170; PHYS 139L; PSYC 115, PSYC 130, PSYC 132, PSYC 134, PSYC 135, ANTH 146/PSYC 146

Note

No courses other than those listed may be used in the major unless specifically approved by the program chair or the program chair's designate.

Minor

A minor in Neuroscience is available. For more information on minor requirements, refer to the discussion of minors in the appropriate college section of the General Catalog.

- First tier (14 units)
 - CBNS 106 with a grade of C- or better
 - CBNS 120/PSYC 120
 - CBNS 120L/PSYC 120L or CBNS 130L
 - CBNS 124/PSYC 124

- Second Tier (6 units)

Select additional units from the list below so that the units from the First Tier combined with the units from the Second Tier equal at least 20.

BIOL 178; CBNS 101, CBNS 116, CBNS 121/PSYC 121, CBNS 123, CBNS 125/PSYC 125, CBNS 126/PSYC 126, CBNS 127/PSYC 127; PSYC 112, PSYC 117, PSYC 129

Descriptions for all courses used in the Neuroscience major and minor may be found in the appropriate department section.

Graduate Program

The multidisciplinary interdepartmental graduate program in Neuroscience offers instruction and research training leading to the Ph.D. degree in Neuroscience. A Thesis Plan (Plan I) or Non-Thesis Plan (Plan II) M.S. degree in Neuroscience is available under special circumstances, when the work leading to the Ph.D. degree cannot be completed. Whether either of these options is appropriate will be decided by the student's Guidance Committee typically either at the end of the first year, or at the time of the qualifying examination. See General University requirements for Plan I and Plan II M.S. degrees: graduate.ucr.edu/masters.html.

The goal of this program is to prepare students for careers in research, teaching and scientific administration. The program is aimed at providing high-quality graduate training for students who come from a variety of undergraduate backgrounds, but share a commitment and an intense interest in nervous system research. Students are expected to learn the fundamentals of neuroscience, starting with the required core sequence, become knowledgeable concerning a range of research methods as taught in neuroscience laboratories and demonstrate capability in original research. Graduate student training reflects the research competence and

specialties of the faculty. That is, the specific research training received by a graduate student is the responsibility of the major professor/mentor in whose laboratory the student carries out the research projects leading to the degree. Students benefit from an interdisciplinary training approach, tailored by the major advisor but enriched by the readily available expertise and laboratory facilities of program faculty with backgrounds ranging from chemistry to psychology.

Current UCR Neuroscience faculty have major appointments in several different departments but have a considerable degree of common interest in research problems and techniques. Furthermore, the three chief levels of analysis at which nervous systems are currently studied (molecular/cellular, systems, and behavioral) are more or less evenly represented by the interests and expertise of the faculty. Some faculty, as may be expected, carry out research programs that combine two or more of these levels of analysis. These levels of analysis, which characterize the faculty's research, indicate the breadth of integrated neuroscience at UCR but do not represent "fields of emphasis" in which students are to be trained.

Areas that faculty investigate include the following:

- Glial-Neuronal Interactions
- Physiological actions of ion channel toxins
- Modulation of ion channels by neurotransmitters and hormones
- Auditory processing
- Synaptic transmission and neural plasticity in mammalian nervous systems
- Signal transduction in excitable cells
- Sensory and perceptual processes
- Molecular biology of ion channel structure and function
- Receptor-channel interactions
- Function of ligand-gated ion channels in neurons
- Influence of specific receptor proteins on function
- Synaptic and non-synaptic mechanisms in neuroendocrine systems
- Plasticity in adult central nervous system
- Regulation of genes specifying neuronal connections in developing and mature nervous systems
- Molecular mechanisms that trigger dendritic spine formation

Areas involving behaviors and diseases include the following:

- Roles of glial cells in neurological disease
- Neural control of eating, locomotory, and social behaviors
- Neuroendocrine regulation of innate and social behaviors
- Neural basis of language and reading
- Neural networks controlling locomotion in the spinal cord and brainstem
- Auditory function in Fragile X Syndrome and age-related hearing loss
- Neurolinguistics
- Individual differences in cortical anatomy

and relation to behavior

- Learning and memory
- Mechanisms of neuronal death in Alzheimer's disease, stroke, and other disorders

Admission

Applicants must meet the general admissions requirements of the Riverside Division of the Academic Senate and the UCR Graduate Council as set forth in the Graduate Studies section of this catalog, including completion of an undergraduate degree (B.S. or B.A.). They should have an adequate background in biological and physical sciences, ideally including courses in the following or equivalent areas: General Biology, Genetics, General Chemistry, Organic Chemistry, Physics, Calculus, and Statistics. Additionally, at least 20 quarter-units of courses distributed among the following areas are required, although applicants may be admitted with limited course work deficiencies and required to make up deficiencies as specified by the admissions committee: Biochemistry; Cell Biology; Molecular Biology; Physiology; Animal Behavior; Learning and Memory; Perception; Computer Science; and Neuroscience, Neurobiology, or Physiological Psychology, with laboratory.

Doctoral Degree

Course Work

Core requirements include:

1. NRSC 200A/PSYC 200A (Cell/Molecular Neuroscience)
 NRSC 200B/PSYC 200B (Systems Neuroscience)
 NRSC 200C/PSYC 200C (Behavioral Neuroscience)
2. One Research Methods course selected from CBNS 120L/PSYC 120L, CHEM 125, CHEM 221A, CHEM 221B, CHEM 221C, CHEM 221D, NRSC 201, PHYS 139L, PSYC 211
3. Two courses or one course sequence selected from the following: BCH 110A or BCH 110HA, BCH 110B or BCH 110HB, BCH 110C or BCH 110HC, BCH 241/ CHEM 241, BIOL 200/CMDB 200, BIOL 201/CMDB 201, BIOL 203, CBNS 120/ PSYC 120, CBNS 127/PSYC 127, ENTM 201, PSYC 203A, PSYC 203B, PSYC 203C

The course option most appropriate to the student's career goals is determined by the student in consultation with his/her guidance committee, which is formed during the first year.

4. During each quarter in academic residence every student enrolls and participates in the Colloquium in Neuroscience (CMDB 257 or NRSC 287/PSYC 287), and, until passing the oral qualifying examination, every student takes at least two seminars, Special Topics in Neuroscience (NRSC 289, 2 units), during each year of academic residence. One seminar per year is required after the qualifying examination is passed.
5. After completing the course requirements and no later than the ninth quarter in residence, the student is given a two-part qualifying examination, one written and one oral.
6. Regardless of whether financial support

comes from fellowships or research assistantships, etc., students must be teaching assistants for at least two quarters in Neuroscience or related-area courses, such as those taught by their mentors.

7. Within three months of advancement to candidacy, the student must submit a written dissertation proposal to the dissertation committee for comments and approval. Before the dissertation is given final approval, the student must present a public lecture on the dissertation research to faculty and students in the program. Following the public lecture, the student meets with the dissertation committee for an oral defense in accordance with the regulations of the Graduate Division.

Normative Time to Degree

16 quarters

Graduate Courses

NRSC 200A Fundamentals of

Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with PSYC 200A.

NRSC 200B Fundamentals of

Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200A/PSYC 200A. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with PSYC 200B.

NRSC 200C Fundamentals of

Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200B/PSYC 200B. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with PSYC 200C.

NRSC 280 Neuromodulation of

Behavior 3 Lecture, 3 hours. Prerequisite(s): concurrent enrollment in; NRSC 200A or PSYC 200A; NRSC 200B or PSYC 200B; graduate standing; or consent of instructor. Explores the roles of specific brain circuits such as neuromodulatory systems and other subcortical areas in modulating animal behavior.

NRSC 287 Colloquium in

Neuroscience 1 Colloquium, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Involves oral presentations on current research topics in neuroscience by visiting scholars, faculty, and students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with PSYC 287.

NRSC 289 Special Topics in

Neuroscience 2 Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. course is repeatable.

Cross-listed with BCH 289, BIOL 289, CHEM 289, ENTM 289, and PSYC 289.

NRSC 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Individual study, directed by a faculty member, of specially selected topics in neuroscience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

NRSC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Research and experimental studies conducted under the supervision of a faculty member on specially selected topics in neuroscience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

NRSC 299 Research For the Thesis Or

Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PEACE AND CONFLICT STUDIES MINOR

Subject abbreviation: PCST
**College of Humanities, Arts,
and Social Sciences**

Juliann Emmons Allison, Ph.D., Co-Chair
(951) 827-5524; juliann.allison@ucr.edu
Erith Jaffe-Berg, Ph.D., Co-Chair
(951) 827-4418; erith.jaffe-berg@ucr.edu
Advising Office, CHASS INTS 3rd Floor
MDU Academic Advising Center Lobby
peaceandconflictstudies.ucr.edu

Committee in Charge

Juliann Allison, Co-Chair (Gender & Sexuality
Studies)
Erith Jaffe-Berg, Co-Chair (Theater, Film and
Digital Production)
Rickerby Hinds (Theater, Film and Digital
Production)
Bronwyn Leebaw (Political Science)
Georgia Warnke (Political Science)
Milagros Peña, Dean, *ex officio*

Administered through the Interdisciplinary
Studies Office, the Peace and Conflict Studies
Minor provides opportunities for undergraduate
students to give sustained attention to the
diverse origins and expressions of conflict, to
models for resolution advised by scholars and
practitioners, to proactive peacemaking through
the investigative and creative strategies fostered
in higher education.

Students must take 5 upper-division courses as
specified in sections 1 and 2 below.

1. Students must take at least one course from each of the following three rubrics plus a fourth course from the list below from any rubric:

- Perspectives from Religion, Philosophy,
Literature and the Arts CLA 141/AST
145/CHN 141/CPAC 141/POSC 140,
CPLT 115/GER 163/HISE 163/MCS 115,
CPLT 132/FREN 132/GER 132, CPLT
134/GER 134/JPN 134/MCS 114, ENGL
135, RLST 116, RLST 174, RLST 175,
RLST 176, THEA 191 (E-Z), VNM 162/
AST 162/HIST 187/SEAS 162
- Social Scientific Perspectives ETST 111,
POSC 123, POSC 124, POSC 124S,
POSC 129, POSC 142L, POSC 150,
POSC 159, POSC 160, POSC 169,
SOC 122
- Historical Perspectives HISA 114, HISA
135/ETST 112, HISA 162/LNST 172,
HISA 165, HISA 166, HISE 145, HISE
146, HIST 184/AST 160/SEAS 184/VNM
184, MCS 173 (E-Z)/CPLT 173 (E-Z),
POSC 125, POSC 162/LNST 142

2. Capstone Course; one of the following: PCST 190, PCST 197, PCST 198-I

See Minors under the College of Humanities,
Arts, and Social Sciences in the Colleges and
Programs section of this catalog for additional
information on minors.

Upper-Division Courses

PCST 190 Special Studies 1 to 5 Consultation,
10 hours per quarter; extra reading, 6 to 9
hours; written work, 3 to 6 hours. Prerequisite(s):
upper-division standing; consent of Peace and
Conflict Studies Committee chair; consent of
faculty advisor is required for students repeating
the course. Individual study in the areas of
conflict resolution and mediation. Examines
theories in depth, as well as case studies
introduced in previous courses.

PCST 197 Research For

Undergraduates 4 Consultation, 10 hours
per quarter; extra reading, 6 hours; written
work, 3 hours. Prerequisite(s): upper-division
standing; consent of Peace and Conflict Studies
Committee chair. Directed original research in
the fields of conflict resolution, mediation, and
peace studies.

PCST 198I Individual Internship in Peace

and Conflict Studies 4 Consultation, 1 hour;
internship, 8 hours; written work, 3 hours.
Prerequisite(s): upper-division standing; consent
of Peace and Conflict Studies Committee
chair; consent of faculty advisor is required
for students repeating the course. Provides
internship opportunities in organizations that
engage in mediation and conflict resolution.
Includes supervision under an assigned faculty
member. Course is repeatable up to 16 units.

PEST MANAGEMENT

Subject Abbreviation: PSMT
**College of Natural and Agricultural
Sciences**

The M.S. program in Pest Management is not
currently accepting new students. For further
information call (800) 735-0717 or (951) 827-5621.

PHILOSOPHY

Subject abbreviation: PHIL
**College of Humanities, Arts,
and Social Sciences**

Coleen Macnamara, Ph.D.
Michael Nelson, Ph.D.
Alexandra Newton, Ph.D.

Assistant Professors

Kim Frost, Ph.D.
Adam Harmer, Ph.D.
Jozef Müller, Ph.D.
Myisha Cherry, Ph.D.

Majors

The Department of Philosophy offers a major
and minor in Philosophy and a major in Philoso-
phy/Law and Society.

The **Philosophy major** is designed to introduce
students to the important issues and arguments
surrounding such subjects as morality, knowl-
edge, the nature of the mind and of the physical
world, science, and language. The program
provides a rigorous background in the history of
Western philosophy, and studies contemporary
approaches (both analytic and Continental) to
philosophical issues. The B.A. degree in Philoso-
phy prepares students for graduate study in
philosophy, and is also excellent preparation for
law school. For students interested in a double
major, philosophy also serves as an excellent
complement to psychology, mathematics, politi-
cal science, and the natural sciences.

The **Philosophy/Law and Society major** is
open to undergraduate students with junior
standing who have completed LWSO 100 with a
grade of "C" or higher. The major offers students
a means of understanding complex relationships
between social institutions and provides a strong
basis for graduate studies in areas related to law
and philosophy. The Philosophy/Law and Soci-
ety curriculum is sound background for students
planning on pursuing the study of law.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social
Sciences, Colleges and Programs section.

Major Requirements

The department offers two majors: the traditional
Philosophy major, and a Philosophy/Law and
Society major.

Philosophy Major

The major requirements for the B.A. degree in
Philosophy are as follows:

Fifty-six (56) units of course work in Philosophy
including at least 36 upper-division units.

- PHIL 007 or PHIL 007H and PHIL 008 or
PHIL 008H**
- PHIL 100 (Sophomore-Junior Seminar)**
- Three courses in the history of philosophy,
at least one of which must be in ancient
Greek or Roman philosophy.** Select courses
from PHIL 030 (E-Z), PHIL 120 (E-Z), PHIL 121
(E-Z), PHIL 122 (E-Z); a specific list is provided
by the Philosophy Department. Not more
than two courses may be from PHIL 030 (E-Z)
- At least two courses in metaphysics,
epistemology, or philosophy of language:**
PHIL 130 through PHIL 152, PHIL 159.

5. **At least one course in moral and political philosophy:** PHIL 108, PHIL 116, PHIL 117, PHIL 119, PHIL 153, PHIL 161 through PHIL 169 (E-Z).

Students are urged to consult the department's undergraduate advisor in preparing their course of study each quarter while at UCR.

Philosophy/Law and Society Major

Major requirements for a B.A. degree in Philosophy/Law and Society are as follows:

1. **Philosophy requirements (36 units)**
 - a) PHIL 007 or PHIL 007H
 - b) Three courses in the history of philosophy (two of which must be upper-division): PHIL 030 (E-Z), PHIL 120 (E-Z), PHIL 121 (E-Z), PHIL 122 (E-Z)
 - c) Five courses in moral and political philosophy: PHIL 108, PHIL 116, PHIL 117, PHIL 119, PHIL 153, and PHIL 161 through PHIL 169 (E-Z)
2. **Law and Society requirements (36 units)**
 - a) PHIL 007 or PHIL 007H
 - b) LWSO 100 (with a grade of "C" or better)
 - c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
 - d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
 - e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
 - f) LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Philosophy Department requirements and Law and Society requirements). The department has its own Philosophy/Law and Society undergraduate advisor, and each student is urged to consult the advisor in preparing a course of study each quarter while at UCR.

Minor

A student may minor (24 units) in Philosophy by taking either PHIL 007, PHIL 007H, PHIL 008 or PHIL 008H, four upper-division philosophy courses, and one other philosophy course at any level.

Students may also choose to do a Philosophy minor with special emphasis, taking their four upper-division courses from one of the areas listed below:

1. **Philosophy, Literature, and History of Philosophy:** PHIL 120 (E-Z), PHIL 121 (E-Z), PHIL 122 (E-Z), PHIL 132, PHIL 151, PHIL 152, PHIL 150, PHIL 159
2. **Philosophy and Cognitive Science:** PHIL 125, PHIL 126, PHIL 130, PHIL 131, PHIL 132, PHIL 133, PHIL 134, PHIL 135
3. **Philosophy and the Natural Sciences:** PHIL 117, PHIL 130, PHIL 134, PHIL 137, PHIL 140, PHIL 151, PHIL 167

4. **Philosophy and Social and Policy Analysis:** PHIL 153, PHIL 161, PHIL 162, PHIL 163, PHIL 164, PHIL 165

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Program

The Department of Philosophy offers the M.A. and Ph.D. degrees in Philosophy.

Admission

All applicants to this program must have completed a bachelor's degree or its approved equivalent from an accredited institution and have attained an undergraduate record that satisfies the standards established by the Graduate Division and University Graduate Council. Applications are accepted for the Fall quarter only. We do not accept terminal MA students. All applicants must submit scores from the Graduate Record Exam, General Test (GRE). Applicants whose first language is not English are required to submit acceptable scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) unless they have a degree from an institution where English is the exclusive language of instruction. Additionally each applicant must submit a writing sample and three letters of recommendation, at least two of which must be academic references. All other application requirements are specified in the graduate application.

Upon entering the program, a student is assigned a faculty mentor who consults with the student each quarter to discuss the student's individual course of study, progress in the program, and recent performance. Students also consult the Graduate Adviser regularly to discuss their course of study and progress in the program. In the first year, students (whether they have entered with an M.A. or a B.A.) take three proseminars for first-year graduate students, two in Metaphysics and Epistemology, and one in Moral Philosophy (PHIL 275A, PHIL 275B, PHIL 275C). The proseminars are designed to acquaint first-year students with the current state of discussion in central areas of contemporary philosophy and to impart the skills needed to conduct their own research.

Master's Degree

The Department of Philosophy offers the M.A. degree in Philosophy under Plan I (Thesis).

Course Work

Students must complete, with a grade of "B" or better, course work totaling 48 units of graduate credit in philosophy. Of these, 12 units must be in the three proseminars for first-year graduate students (PHIL 275A-B-C), and an additional 20 units must be taken from PHIL 272A-B-C, 280-283, 284A-B or 285A-B. Up to 16 units may be drawn from PHIL 125, courses in the PHIL 220-266 series, PHIL 290 or PHIL 292 paired with a 100-level course, depending on the student's interests and background. These courses are to be chosen only in consultation with the student's advisory committee and the graduate advisor.

Courses taken on a Satisfactory (S)/No Credit (NC) basis cannot be used to satisfy course requirements.

Students should note that although they need not complete distributional requirements or a language requirement to acquire the M.A. degree, there are strict distributional and language requirements for the Ph.D. degree, as well as a colloquium and professional development workshop requirement (described below under the Ph.D. requirements). Students who expect to continue on in the Ph.D. program must begin to fulfill these requirements immediately upon entering the program if they expect to acquire the Ph.D. degree within the prescribed period of time.

M.A. Logic Requirement

The logic requirement for the M.A. degree is completion of PHIL 124 with a grade of "B" or better. Students may be excused from this requirement if they show sufficient knowledge of logic upon entering the graduate program, as indicated by an optional diagnostic examination administered at the start of each academic year. Students who are unsure about the adequacy of their background are encouraged to take the test for diagnostic purposes.

M.A. Paper

Students select a paper to submit to the graduate advisor as their M.A. paper no later than the end of the spring quarter of their second year. M.A. papers can be seminar papers, revised seminar papers, or any other paper that the student has written (of 25 pages or less). Further information on what constitutes an acceptable paper is available from the graduate advisor.

Upon the submission of this paper, the graduate advisor selects three faculty members to serve as the M.A. committee, which conducts an oral examination on the paper. Normally the oral examination will be completed before the end of the student's second year, but it may be postponed until the fall quarter of the student's third year. Failure to pass the M.A. oral examination after two opportunities constitutes grounds for dismissal from the program. In addition, completion of the M.A. requirements does not guarantee permission to continue in the Ph.D. program.

Doctoral Degree

The Department of Philosophy offers the Ph.D. degree in Philosophy.

Admission

Students are invited to continue toward candidacy for the Ph.D. degree on the basis of performance in courses and seminars, satisfactory completion of the M.A. requirements, and the recommendation of the graduate advisor. A student's course of study is supervised by the student's faculty mentor, in consultation with the graduate advisor until the student's dissertation committee is appointed. Students with a master's degree in Philosophy from other universities are eligible for admission. These students must enroll in the first-year proseminars.

Course Work

Students must complete 12 more units in philosophy, with a grade of "B" or better, in addition to the 48 units for the M.A. degree. Of the student's 60 graduate units in philosophy, 12 units must be in the area of the history of philosophy, with 4 of these in ancient philosophy, 4 units in addition to the proseminar (PHIL 275A, PHIL 275B) in the area of metaphysics and epistemology, and 8

units in addition to the proseminar (PHIL 275C) in the area of ethics, political philosophy, and aesthetics. Courses taken on a Satisfactory (S)/No Credit (NC) basis cannot be used to satisfy course requirements.

Forty of these 60 units must be seminars and workshops taken from PHIL 272A-B-C, 275A-B-C, 276, 283, 284A-B or 285A-B. (Only 4 graded units of PHIL 276 count towards the PhD course requirement.) Up to 20 units may be drawn from PHIL 125, courses in the PHIL 220-266 series, or PHIL 290-292. Students are required to enroll in PHIL 276 during winter and spring quarters of their third year and winter quarter of their fourth year, for 2 units on an S/NC basis in the winter quarters of their third and fourth years, and for 4 units on a graded basis in the spring quarter of their third year. (Students who have advanced to candidacy are exempted from the fourth year winter quarter requirement.) Seminars from other UC Philosophy Departments via Intercampus Exchange count toward the Ph.D. course and seminar requirements. Graduate seminars in other disciplines (either at UCR or via Intercampus Exchange at another UC campus) may count toward the Ph.D. course and seminar requirements by petition to the Graduate Adviser. Students are in addition expected to take one seminar on an S/NC basis each quarter until they advance to candidacy (taken from PHIL 272A-B-C, 280-283, 284A-B, 285A-B).

Colloquia and Professional Development Workshop Requirement

Students must register for the PHIL 270 (Philosophy Colloquia) during each quarter of their first and second years. Students must register for PHIL 400 (Research and Professional Development Workshop) during each quarter of their second and third years.

Language Requirement

Students must show the competence necessary to work in one of four foreign languages: French, German, Latin, or Greek. Another language may be substituted upon approval of the faculty if it agrees better with the student's area of their research.

Logic Requirement

To satisfy the logic requirement, students must pass PHIL 125 (Intermediate Logic) with a grade of "B" or better.

Proposition Requirement

All Ph.D. students must complete an acceptable proposition normally during their third year in the program.

A proposition is a paper, no more than forty pages in length, devoted to a significant problem in philosophy. It should show the ability to mount a sustained thesis and to work with the relevant primary or secondary literature.

Written and Oral Qualifying Examinations

Students must write a dissertation prospectus and pass a qualifying oral examination before advancing to candidacy. This examination, which is supervised by a faculty committee as stipulated in the regulations of the Graduate Division, concentrates on the students' preparation for writing a dissertation as indicated by the dissertation prospectus. It must be taken after the student has passed the M.A., language, and

proposition requirements and normally occurs within two quarters of the completion of these requirements.

Dissertation and Final Oral Examination

A dissertation to be presented as prescribed by the Graduate Council is prepared under the direction of the candidate's dissertation committee. After completion of the dissertation, the candidate is examined in its defense by the dissertation committee.

Normative Time to Degree 18 quarters

Lower-Division Courses

PHIL 001 Introduction to Philosophy 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. An introductory exploration into the nature of the individual, his/her place in the universe, and the forces that shape his/her destiny. Credit is awarded for only one of PHIL 001 or PHIL 001H.

PHIL 001H Honors Introduction to

Philosophy 4 Lecture, 2 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to PHIL 001. An introductory course designed to explore a small number of classical texts central to philosophy and the liberal arts and sciences. Students examine issues surrounding the nature of knowledge, the foundations of moral philosophy, and the relation of both to the development of the human and natural sciences. Texts may vary from year to year and include works by such authors as Plato, Aristotle, Descartes, Hobbes, Hume, and Kant. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 001 or PHIL 001H.

PHIL 002 Contemporary Moral Issues 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Philosophical analysis of contemporary moral issues such as: abortion, discrimination, sexual morality, punishment, the obligation to obey the law, suicide, euthanasia, war, privacy. Credit is awarded for one only of PHIL 002 or PHIL 002H.

PHIL 002H Honors Contemporary Moral

Issues 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program; or consent of instructor. Honors course corresponding to PHIL 002. A philosophical analysis of contemporary moral issues such as abortion, discrimination, sexual morality, punishment, the obligation to obey the law, suicide, euthanasia, war, and privacy. Credit is awarded for one of the following PHIL 002H or PHIL 002.

PHIL 003 Ethics and the Meaning of

Life 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Approaches one of the basic questions of value: how should one live? Covers classical and contemporary discussions of issues such as the human good, human virtue, the role of pleasure and happiness, egoism and altruism, duty, the relativity and objectivity of value, the meaning of life, death, autonomy, integrity, and conscience. Credit is awarded for only one of PHIL 003 or PHIL 003H or PHIL 003W or PHIL 003X.

PHIL 003H Honors Ethics and the Meaning

of Life 4 Lecture, 3 hours, discussion, 1 hour.

Prerequisite(s): admission to the University

Honors Program or consent of instructor.

Honors course corresponding to PHIL 003.

Approaches one of the basic questions of value:

How should one live? Covers classical and

contemporary discussions of issues such as the

human good, human virtue, the role of pleasure

and happiness, egoism and altruism, duty, the

relativity and objectivity of value, the meaning of

life, death, autonomy, integrity, and conscience.

Satisfactory (S) or No Credit (NC) grading is not

available. Credit is awarded for only one of PHIL

003 or PHIL 003H or PHIL 003W or PHIL 003X.

PHIL 003W Ethics and the Meaning of

Life 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. Approaches one of the basic questions of value: how should one live? Covers classical and contemporary discussions of issues such as the human good, human virtue, the role of pleasure and happiness, egoism and altruism, duty, the relativity and objectivity of value, the meaning of life, death, autonomy, integrity, and conscience. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C. Credit is awarded for only one of PHIL 003 or PHIL 003H or PHIL 003W or PHIL 003X.

PHIL 003X Honors Ethics and the Meaning of

Life 4 Lecture, 3 hours, discussion, 1 hour; extra

reading, 3 hours. Prerequisite(s): admission to

the University Honors Program, ENGL 001B with

a grade of "C" or better or consent of instructor.

Honors course corresponding to PHIL003W.

Approaches one of the basic questions of value:

how should one live? Covers classical and

contemporary discussions of issues such as the

human good, human virtue, the role of pleasure

and happiness, egoism and altruism, duty, the

relativity and objectivity of value, the meaning of

life, death, autonomy, integrity, and conscience.

Fulfills the third-quarter writing requirement for

students who earn a grade of "C" or better for

courses that the Academic Senate designates,

and that the student's college permits, as

alternatives to English 001C. Satisfactory (S) or

No Credit (NC) grading is not available. Credit is

awarded for only one of PHIL003 or PHIL003H

or PHIL003W or PHIL003X.

PHIL 004 Introduction to the Philosophy

of Race 4 Lecture, 3 hours; discussion, 1 hour; Prerequisite(s): none. Introduction to the philosophy of race from classical theorists to contemporary critical race theory. Topics covered include the Enlightenment, discussions of race in the founding of the American Republic, Supreme Court decisions from Dred Scott to recent affirmative action decisions, and the concept of race as a social construction.

PHIL 005 Evil 4 Lecture, 3 hours; discussion, 1

hour; Prerequisite(s): none. An introduction to

the nature of evil, its motivation, and its origins.

Utilizes a variety of sources to examine these

themes, including classical philosophical texts

and contemporary films. Credit is awarded for

only one of PHIL 005 or PHIL 005H.

PHIL 005H Honors Evil 4 Lecture, 3 hours; discussion, 1 hour; Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to PHIL 005. An introduction to the nature of evil, its motivation, and its origins. Utilizes a variety of sources to examine these themes, including classical philosophical texts and contemporary films. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 005 or PHIL 005H.

PHIL 006 Reason, Belief, and Truth 4 Lecture, 3 hours; discussion, 1 hour; Prerequisite(s): none. An introductory examination of the nature of reason, rationality, argument, proof, and persuasion and the nature of theory, belief, faith and conviction, and truth and falsity. Discusses the various bodies of belief and modes of inquiry, such as the natural and social sciences, the humanities, morality, religion, and mathematics.

PHIL 007 Introduction to Critical Thinking 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. A practical examination of reasoning and argument typically illustrated. Credit is awarded for only one of PHIL 007 or PHIL 007H.

PHIL 007H Honors Introduction to Critical Thinking 4 Lecture, 3 hours; discussion, 1 hour; Term Paper, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to PHIL 007. A practical examination of reasoning and argument, typically illustrated. Satisfactory (S) or No Credit (NC) grading is not available. Credit is only awarded for one of PHIL 007 or PHIL 007H.

PHIL 008 Introduction to Logic 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. An introduction to symbolic logic. Teaches how to distinguish, in a precise way, valid deductive arguments from those that are invalid; includes learning to use logical symbolism, truth tables, and formal deductions. Credit is awarded for only one of PHIL 008 or PHIL 008H.

PHIL 008H Honors Introduction to Logic 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to PHIL 008. An introduction to symbolic logic. Teaches how to distinguish, in a precise way, valid deductive arguments from those that are invalid; includes learning symbolism, truth tables, and formal deductions. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 008 or PHIL 008H.

PHIL 009 Biomedical Ethics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Introduces the major camps in ethical theory - utilitarianism, deontology, virtue ethics, and feminist ethics. Applies these theories to critically examine contemporary issues in bioethics. Includes stem-cell research, assisted reproductive technologies, contract gestation, maternal-fetal conflicts, genetic and pharmacological enhancements, access to health care, and physician-assisted suicide. Credit is awarded for only one of PHIL 009 or PHIL 009H.

PHIL 009H Honors Biomedical Ethics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s):

admission to the University Honors Program or consent of instructor. Honors course corresponding to PHIL 009. Introduces the major camps in ethical theory - utilitarianism, deontology, virtue ethics, and feminist ethics. Applies these theories to critically examine contemporary issues in bioethics. Includes stem-cell research, assisted reproductive technologies, contract gestation, maternal-fetal conflicts, genetic and pharmacological enhancements, access to health care, and physician-assisted suicide. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 009 or PHIL 009H.

PHIL 010 Language, Mind, and Reality 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): none. Explores the nature of language, communication, and mentality and their role in shaping our thought and experience of the world. Tackles questions about the innateness of concepts, the social and rational norms governing communication, the nature of speech acts and their connection to hate speech and pornography, and the scope of mentality. Credit is awarded for only one of PHIL 010 or PHIL 010H.

PHIL 010H Honors Language, Mind, and Reality 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to PHIL 010. Explores the nature of language, communication, and mentality and their role in shaping our thought and experience of the world. Tackles questions about the innateness of concepts, the social and rational norms governing communication, the nature of speech acts and their connection to hate speech and pornography, and the scope of mentality. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHIL 010 or PHIL 010H.

PHIL 012 Introductory Seminar in Moral Philosophy 4 Seminar, 3 hours; extra reading, 32 hours. Prerequisite(s): none. An introduction to a small number of central moral issues: Small class size in order to provide for substantial discussion and close supervision of written papers.

PHIL 030 (E-Z) Intro to History of Philosophy 4 Lecture, 3 hours; discussion, 1 hour. Introductory surveys of important periods and subjects in the history of Western philosophy. Topics include E. Hellenic Phil:pre-socratics-arist; F. Hellenistic Phil:epicr,stoic,skep; G. Medieval Philosophy; I. Early Modern Philosophy; J. Late Modern Philosophy; K. Nineteenth-century Philosophy; M. History Of Ethics; N. History Of Political Philosophy;

Upper-Division Courses

PHIL 100 Sophomore-Junior Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): one course in philosophy; sophomore, junior, or senior standing in Philosophy or Philosophy/Law and Society. A writing-intensive seminar designed to introduce students to philosophical analysis and writing through an in-depth focus on a philosophical text or issue. Content varies. Credit is awarded for only one of PHIL 100 or PHIL 101.

PHIL 101 Sophomore-Junior Seminar 4 Seminar,

3 hours; term paper, 3 hours. Prerequisite(s): one course in philosophy; sophomore, junior, or senior standing in Philosophy or Philosophy/Law and Society. A writing-intensive seminar designed to introduce students to philosophical analysis and writing through an in-depth focus on a philosophical text or issue. Content varies. Credit is awarded for only one of PHIL 100 or PHIL 101.

PHIL 107 Languages and Minds 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): one course in philosophy or consent of instructor. An investigation of interrelated issues in the philosophy of mind and language, including the mind-body relation, theories of meaning, how thoughts and language represent states of affairs in the world, and the nature of consciousness.

PHIL 108 Philosophical Issues of Race and Gender 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigates philosophical issues concerning race and gender including the role of cultural and biological criteria in defining these concepts; roles of race and gender in personal identity; nature of racism, sexism, and their variants; and policy implications such as affirmative action and the civil status of homosexual relationships. Cross-listed with GSST 108.

PHIL 109 Philosophy of Technology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. An introduction to philosophical issues concerning technology. Includes the nature of technology; technical artifacts and design; technological knowledge; techno-science; the development of technology; ethical problems concerning technology; technology and gender; socio-technological systems and technocracy; anti-technology; technology and art; and technology and the environment.

PHIL 110 Asian Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of Asian contributions to philosophy focusing on the Indian and Chinese traditions. Examines questions concerning how best to live one's life, what can be known, the relation between mind and body, whether there are minds and bodies, and the nature of the universe. Cross-listed with CHN 112

PHIL 111 Philosophy, Film, and Reflective Popular Culture 4 Lecture, 3 hours; screening, 1 hour; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines a number of philosophical themes as depicted in film and/or other media of reflective popular culture. Four or five films are screened; each is examined for the philosophical issues it raises. Themes may include integrity, love, spirituality, meaning, identity, and morality.

PHIL 112 Mortal Questions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on aspects of our distinctively human capacity to lead a meaningful life, especially investigating aspects of the nature of the mind and human freedom. The nature of death and its place in the context of a meaningful life is

discussed.

PHIL 113 God 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. Topics include examination of the nature of divinity and the nature of evil, the influence of the concept of God upon philosophical history, ideals, and values, and the riddle of an after-life.

PHIL 114 Science and Human

Understanding 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. Discusses how contemporary philosophers have examined human understanding as exemplified in science.

PHIL 115 The Care of the Soul 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A historical and contemporary examination of the role philosophy has played in nurturing the human spirit in the face of other philosophical efforts to demythologize the soul into neural functions or even mere congeries of atoms in motion in the void.

PHIL 116 Business Ethics 4 Lecture, 3 hours, discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An inquiry into some of the moral issues arising from business life, such as conflicts of interest, responsibility to consumers, corporate culture and character, and the morality of competition. Also considers the history of ethics and the history business as an institution.

PHIL 117 Environmental Ethics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. A philosophic consideration of ethical problems that arise from the use and exploitation of the environment. Topics covered include workplace pollution hazards; environmental pollution and protection of collective natural resources; the rights of future generations; the rights of animals; the protection of endangered species.

PHIL 118 Personhood and Personal

Identity 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Develops the basic elements of the concept of personhood, and how persons are alleged to be crucially different from non-human animals. Various theories are considered about what is essential to us as individuals and what makes us the same person over time. Explores the relationship between these metaphysical issues and moral issues, such as euthanasia, animals' rights, and abortion.

PHIL 119 Economics and Philosophy 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): ECON 104B or consent of instructor. Examines issues on the boundary of economics and philosophy. Topics include social choice theory and economic justice; foundations of utility theory, rational choice, and economic welfare; and epistemology and the philosophies of science of Popper, Kuhn, and others. Cross-listed with ECON 117.

PHIL 120 (E-Z) Ancient Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W

or PHIL 003X or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. Each segment covers a major figure in ancient Greek or Roman philosophy. E. Plato; F. Aristotle; G. Plato And Aristotle; I. Cicero; J. Seneca; K. Plutarch;

PHIL 121 (E-Z) Major Philosophers 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 003X or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. Each segment covers a major figure in the history of medieval, early modern, or late modern philosophy. E. Aquinas; F. Descartes; G. Leibniz; I. Spinoza; J. Locke; K. Hume; M. Reid; N. Kant; O. Hegel; Q. Nietzsche; R. Royce; S. Freud; T. Heidegger; V. Wittgenstein; X. Kripke;

PHIL 122 (E-Z) Topics: History of

Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 003X or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N. Topics include E. Ancient Philosophy; F. Medieval Philosophy; I. French Renaissance Philosophy; J. Early Modern Philosophy; M. Moral Theories Of Hume And Kant; N. Nineteenth-century Philosophy; O. Kant&post-kantian Eur Morl Phl; Q. Political Philosophy; R. Origins Of Analytical Philosophy;

PHIL 123 Readings in Classical Chinese

Philosophy 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): CHN 104 or consent of instructor. Introduces selections from key philosophical texts in classical Chinese. Focuses on a combination of Chinese reading and philosophical understanding. Cross-listed with CHN 106.

PHIL 124 Formal Logic 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 011/ MATH 011 or CS 120A/EE 120A or CS 150 or PHIL 008 or PHIL 008H or consent of instructor. An introduction to first-order logic, the core of the logic often used in contemporary philosophy, mathematics, computer science, and linguistics.

PHIL 125 Intermediate Logic 4 Lecture, 3, hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): PHIL 124 or consent of instructor. The basic metatheory of first-order logic; with an emphasis on the precise relation between its syntax (formulas, rules of inference, and proofs) and semantics (interpretations, truth, validity), leading to the soundness and completeness theorems.

PHIL 126 Advanced Logic 4 Lecture, 3, hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): PHIL 125 Advanced metatheory

of first-order logic, leading to a discussion of some of the important incompleteness, undecidability and non-expressability results of twentieth-century logic (Godel, Church, Turing, etc.).

PHIL 127 Advanced Topics in Logic 4 Lecture, 3 hours; extra reading, 1 hour; problem sets, 3 hours. Prerequisite(s): PHIL 124 or PHIL 125. A study of selected non-truth-functional and nonstandard logics. Includes modal logics, tense logics, free logics, paraconsistent logics, and set theory. Course is repeatable.

PHIL 128 Introduction to Arabic

Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic philosophical texts. Provides close and literary reading of texts in philosophy, as well as considers the impact these texts have had or can have on Western cultural formation. Cross-listed with ARLC 154, and CPLT 154.

PHIL 130 Theory of Knowledge 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An inquiry into the nature of human knowledge--its possibility, criteria, scope, and limitations. Credit is awarded for only one of PHIL 130 or PHIL 230.

PHIL 131 Twentieth-Century Analytic

Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. A discussion of some major issues and thinkers in the tradition dominant in twentieth-century British and American philosophy. Philosophers discussed might include Frege, Russell, Carnap, Quine, Kripke, and D. Lewis. Credit is awarded for only one of PHIL 131 or PHIL 231.

PHIL 132 Philosophy of Language 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of some of the traditional issues in the philosophy of language, such as analyticity, theories of reference, truth, speech act theory, and philosophical theories of formal grammars. Credit is awarded for only one of PHIL 132 or PHIL 232.

PHIL 133 Metaphysics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An investigation of some of the traditional problems in Western philosophy that have been labeled metaphysical, such as the existence of God, the relationship between mind and body, the determinism versus free will debate, and the nature of time and space. Credit is awarded for only one of PHIL 133 or PHIL 233.

PHIL 134 Philosophy of Mind 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. A study of several theories of the nature of mind and an analysis of particular issues occasioned by them: the mind-body problem, personal identity, emotions, human action, self-knowledge, knowledge of other minds, and explanations of human behavior. Credit is awarded for only one of PHIL 134 or PHIL 234.

PHIL 135 Philosophy of Psychology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s):

one course in philosophy or consent of instructor. Examines philosophical issues arising in the context of empirical psychology. Topics may include moral development, artificial intelligence and the modeling of cognition, the nature of perception and memory, fallacies in human reasoning, mechanisms of self-understanding, and mental illness and personhood. Credit is awarded for only one of PHIL 135 or PHIL 235.

PHIL 137 Philosophy of Science 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. Topics discussed include understanding scientific objectivity in the light of history and sociology of science; realism and anti-realism about scientific theories; scientific methodology and its logic; and the nature of scientific explanation. Credit is awarded for only one of PHIL 137 or PHIL 237.

PHIL 138 Philosophy of Agency 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An investigation of problems that arise in attempts to understand human agency: the nature and explanation of action, intention, free will and moral responsibility, and weakness of will. Credit is awarded for only one of PHIL 138 or PHIL 238.

PHIL 139 Philosophy of Mathematics 4 Lecture, 3 hours; extra reading, written work, homework problems, 3 hours. Prerequisite(s): PHIL 124 or one mathematics course or consent of instructor. Discusses topics such as the abstract nature of mathematical objects, the sources of mathematical knowledge, the relation between mathematics and logic, and the infinite in mathematics. Considers the development of some selected parts of mathematics (especially arithmetic, geometry, algebra, and set theory) and of various corresponding philosophical positions (platonism, formalism, intuitionism, structuralism). Course is repeatable as content changes. Credit is awarded for only one of PHIL 139 or PHIL 239.

PHIL 140 Topics in Metaphysics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An in-depth discussion of selected issues in contemporary metaphysics, such as abstract objects, essentialism and identity, laws of nature, free will, and determinism. Course is repeatable as content changes.

PHIL 142 Advanced Topics in the Philosophy of Language 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): PHIL 107 or PHIL 132 or consent of instructor. An in-depth study of a particular topic in the philosophy of language. Potential topics include context-sensitivity (how the meaning of a sentence depends upon nonlinguistic facts about context); theories of meaning (e.g., the Frege-Russell account in terms of propositions, the Lewis-Stalnaker possible worlds account, and Davidson's truth theory account). Courses is repeatable as content changes to a maximum of 8 units. Credit is awarded for only one of PHIL 142 or PHIL 242.

PHIL 144 Advanced Topics in Philosophy of Mind 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s):

PHIL 107 or PHIL 134 or consent of instructor. Examines a selected topic in philosophy of mind. Potential topics include consciousness and self-consciousness; intentionality and theories of mental content; mental causation; consciousness and free will; introspection and knowledge of other minds; perception; emotion; imagination; concepts and rationality; artificial minds; and animal minds. Course is repeatable as content changes to a maximum of 8 units. Credit is awarded for only one of PHIL 144 or PHIL 244.

PHIL 150 Philosophy in Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An examination of philosophical issues raised by selected novelists, poets, and playwrights.

PHIL 151 Existentialism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of philosophical and literary works which deal with the significance of some fundamental human experiences: identity crises, choice and commitment, anxiety and death, the experience of meaninglessness, and alienation. Credit is awarded for only one of PHIL 151 or PHIL 251.

PHIL 152 Twentieth-Century Continental Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. Examines the character and consequences of several recent movements in continental philosophy, including hermeneutics, structuralism, deconstruction, and critical theory. Authors discussed include Heidegger, Gadamer, Habermas, Derrida, and Foucault. Credit is awarded for only one of PHIL 152 or PHIL 252.

PHIL 153 Marxist Critique 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the ideas central to the tradition of Western Marxism: ideology, critique, reification, instrumental reason, the domination of nature, and communicative action. Theorists discussed typically include Hegel, Marx, Lukacs, Adorno, Horkheimer, Benjamin, and Habermas. Credit is awarded for only one of PHIL 153 or PHIL 253.

PHIL 154 Phenomenology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the structures and conditions of our lived experience of the world. Explores the major issues, the methodology, and the historical development of the phenomenological tradition in philosophy. Philosophers discussed might include Edmund Husserl, Edith Stein, Martin Heidegger, Max Scheler, Jean-Paul Sartre, Simone de Beauvoir, and Maurice Merleau-Ponty.

PHIL 155 Peace in the Middle East 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the roots of the Middle Eastern crises. Focuses on the Arab-Israeli conflict and possible solutions toward peace. Addresses problems through historical, religious, and political lines of inquiry. Cross-listed with RLST 155.

PHIL 159 Philosophy of Religion 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A historical, critical examination of the concepts and arguments involved in the Judeo-Christian God-hypothesis, and the influence of this world view upon the ideals and values of the Western world. Credit is awarded for only one of PHIL 159 or PHIL 259.

PHIL 161 Ethics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. A study of the major classical moral philosophers in the Western tradition and of some selected problems of metaethics. Credit is awarded for only one of PHIL 161 or PHIL 261.

PHIL 162 Human Nature and Radical Evil 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one course in philosophy or consent of instructor. An advanced study of theories of human nature and evil. Credit is awarded for only one of PHIL 162 or PHIL 262.

PHIL 163 Political Philosophy 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An inquiry into some of the main philosophic issues arising from political life, such as the nature and justification of authority, democracy, natural rights, justice, equality, and civil disobedience. Credit is awarded for only one of PHIL 163 or PHIL 263.

PHIL 164 Justice 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A philosophical analysis of the concept of justice. Credit is awarded for only one of PHIL 164 or PHIL 264.

PHIL 165 Philosophy of Law 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An inquiry into the nature of criminal law, the relation between law and morality, the nature of legal responsibility, and the obligation to obey the law. Credit is awarded for only one of PHIL 165 or PHIL 265.

PHIL 166 Philosophy of Feminism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An analysis of current concepts and debates in feminist philosophy including gender equality, gender difference, and the relation of sex and gender. Situates various approaches to these topics in the history of philosophy. Credit is awarded for only one of PHIL 166 or PHIL 266.

PHIL 167 Biomedical Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A philosophical discussion of newly emerging issues, both ethical and social, in biology and medicine, such as genetic engineering, euthanasia, experimentation with human subjects, abortion, behavior control, and patient's right to know.

PHIL 168 Ethics and Families 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes ethical issues with regard to families of different kinds such as gender relations in traditional marriages; the ethics of same-sex marriage; the morality of abortion, surrogate mothering, and cloning; the justice of school

vouchers; the grounds for universal health care; and possible gender inequalities in divorce. Cross-listed with GSST 141.

PHIL 169 (E-Z) Topics in Value Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PHIL 001 or PHIL 001H or PHIL 002 or PHIL 002H or PHIL 003 or PHIL 003H or PHIL 003W or PHIL 003X or PHIL 004 or PHIL 005 or PHIL 006 or PHIL 007 or PHIL 007H or PHIL 008 or PHIL 008H or PHIL 009 or PHIL 009H or PHIL 010 or PHIL 010H or PHIL 012 or PHIL 030E or PHIL 030F or PHIL 030G or PHIL 030I or PHIL 030J or PHIL 030K or PHIL 030M or PHIL 030N; restricted to class level standing of junior, or senior. Topics include E. Ethics; F. Aesthetics; G. Political Philosophy; I. Social Philosophy; J. Philosophy Of Law;

PHIL 171 Feminist Bioethics 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An exploration of the ways in which feminist theory provides insight on contemporary issues in bioethics. Topics include women in clinical research, cosmetic surgery, abortion, contract gestation, fetal protection policies, and the politics of mental illness. Cross-listed with GSST 106.

PHIL 172 Reading Philosophical German 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): GER 002R or GER 004 or consent of instructor. Develops reading strategies and translation skills for German philosophical texts through a review of grammar and readings in the original language. Prepares for a graduate-level translation exam and independent research in German. Intermediate to advanced German reading proficiency required; familiarity with German philosophical works is recommended but not required. Cross-listed with GER 172.

PHIL 173 Philosophy of Sex and Sexuality 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates philosophical issues relating to human sexual behaviors and identities. Topics include attempts to distinguish sexual from nonsexual activities; the construction and medicalization of sex and sexuality; and historical and contemporary ethical evaluations of various sexual activities and identities (homosexuality, heterosexuality, masturbation, sadomasochism, various fetichisms, polyamory, and other nonmonogamies).

PHIL 174 Philosophy of Art and Aesthetics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Examination of the main topics in the philosophy of art and aesthetics through both historical and contemporary sources. Addresses the following questions: What is art? What is beauty? What is the relation between the beautiful, the true, and the good? Is beauty mind-dependent? Are there objective standards for judging artworks?

PHIL 190 Special Studies 1 to 5 Prerequisite(s): to be taken with the consent of the department chair as a means of meeting special curricular problems. Course is repeatable to a maximum of 16 units.

PHIL 193 Senior Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): two upper-division courses in philosophy; senior standing in Philosophy or Philosophy/Law and Society or consent of instructor. Advanced seminar for Philosophy majors. Course is repeatable as content changes to a maximum of 8 units.

PHIL 195 Senior Thesis 1 to 4 Prerequisite(s): enrollment by request of student with approval of department chair. Course is graded In Progress (IP) until the thesis is completed. Course is repeatable to a maximum of 8 units.

PHIL 198 R'course: Variable Topics 1 Activity hours vary per R'Course proposal. Prerequisite(s): permission needed from department; sophomore standing or better. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty mentor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable as topics change to a maximum of 8 units.

PHIL 198I Individual Internship in Philosophy 2 to 8 Internship, 4 to 16 units; written work, 2 to 8 hours. Prerequisite(s): upper-division standing; consent of instructor. An intern assignment in government, education, science, business, or other field related to philosophy. Students write a substantive philosophical paper pertaining to the work done in the internship. Course is repeatable to a maximum of 8 units.

Graduate Courses

PHIL 220 (E-Z) Ancient Philosophy 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Each segment covers a major figure in ancient Greek or Roman philosophy. E. Plato; F. Aristotle; G. Plato And Aristotle; I. Cicero; J. Seneca; K. Plutarch;

PHIL 221 (E-Z) Major Philosophers 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Each segment covers a major figure in the history of medieval, early modern, or late modern philosophy. E. Aquinas; F. Descartes; G. Leibniz; I. Spinoza; J. Locke; K. Hume; M. Reid; N. Kant; O. Hegel; Q. Nietzsche; R. Royce; S. Freud; T. Heidegger; V. Wittgenstein; X. Kripke;

PHIL 222 (E-Z) Topics: History of Philosophy 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Topics include E. Ancient Philosophy; F. Medieval Philosophy; I. French Renaissance Philosophy; J. Early Modern Philosophy; M. Moral Theories Of Hume & Kant; N. 19th Century Philosophy; O. Kant&post-kantian Eurp Mor Phi; Q. Political Philosophy; R. Origins Of Analyticl Philosophy;

PHIL 230 Theory of Knowledge 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An inquiry into the nature of human knowledge--its possibility, criteria, scope, and limitations. Credit is awarded for only one of PHIL 130 or PHIL 230.

PHIL 231 Twentieth-Century Analytic Philosophy 4 Lecture, 3 hours; seminar, 1

hour. Prerequisite(s): graduate standing. A discussion of some major issues and thinkers in the tradition dominant in twentieth-century British and American philosophy. Philosophers discussed might include Frege, Russell, Carnap, Quine, Kripke, and D. Lewis. Credit is awarded for only one of PHIL 131 or PHIL 231.

PHIL 232 Philosophy of Language 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. A study of some of the traditional issues in the philosophy of language, such as analyticity, theories of reference, truth, speech act theory, and philosophical theories of formal grammars. Credit is awarded for only one of PHIL 132 or PHIL 232.

PHIL 233 Metaphysics 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An investigation of some of the traditional problems in Western philosophy that have been labeled metaphysical, such as the existence of God, the relationship between mind and body, the determinism versus free will debate, and the nature of time and space. Credit is awarded for only one of PHIL 133 or PHIL 233.

PHIL 234 Philosophy of Mind 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. A study of several theories of the nature of mind and an analysis of particular issues occasioned by them: the mind-body problem, personal identity, emotions, human action, self-knowledge, knowledge of other minds, and explanations of human behavior. Credit is awarded for only one of PHIL 134 or PHIL 234.

PHIL 235 Philosophy of Psychology 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Examines philosophical issues arising in the context of empirical psychology. Topics may include moral development, artificial intelligence and the modeling of cognition, the nature of perception and memory, fallacies in human reasoning, mechanisms of self-understanding, and mental illness and personhood. Credit is awarded for only one of PHIL 135 or PHIL 235.

PHIL 237 Philosophy of Science 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Topics discussed include understanding scientific objectivity in the light of the history and sociology of science; realism and antirealism about scientific theories; scientific methodology and its logic; and the nature of scientific explanation. Credit is awarded for only one of PHIL 137 or PHIL 237.

PHIL 238 Philosophy of Agency 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An investigation of problems that arise in attempts to understand human agency, such as the nature and explanation of action, intention, free will and moral responsibility, and weakness of will. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 138 or PHIL 238.

PHIL 239 Philosophy of Mathematics 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Discusses topics such as the abstract nature of mathematical objects, the

sources of mathematical knowledge, the relation between mathematics and logic, and the infinite in mathematics. Considers the development of some selected parts of mathematics (especially arithmetic, geometry, algebra, and set theory) and of various corresponding philosophical positions (platonism, formalism, intuitionism, structuralism). Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Credit is awarded for only one of PHIL 139 or PHIL 239.

PHIL 242 Advanced Topics in the Philosophy of Language 4

Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An in-depth study of a particular topic in the philosophy of language. Potential topics include context-sensitivity (how the meaning of a sentence depends upon nonlinguistic facts about context); theories of meaning (e.g., the Frege-Russell account in terms of propositions, the Lewis-Stalnaker possible worlds account, and Davidson's truth theory account). Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 8 units. Credit is awarded for only one of PHIL 142 or PHIL 242.

PHIL 244 Advanced Topics in Philosophy of Mind 4

Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Examines a selected topic in philosophy of mind. Potential topics include consciousness and self-consciousness; intentionality and theories of mental content; mental causation; consciousness and free will; introspection and knowledge of other minds; perception; emotion; imagination; concepts and rationality; artificial minds; and animal minds. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 8 units. Credit is awarded for only one of PHIL 144 or PHIL 244.

PHIL 251 Existentialism 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An examination of philosophical and literary works which deal with the significance of some fundamental human experiences: identity crises, choice and commitment, anxiety and death, the experience of meaninglessness, and alienation. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 151 or PHIL 251.

PHIL 252 Twentieth-Century Continental Philosophy 4

Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. Examines the character and consequences of several recent movements in continental philosophy, including hermeneutics, structuralism, deconstruction, and critical theory. Authors discussed include Heidegger, Gadamer, Habermas, Derrida, and Foucault. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 152 or PHIL 252.

PHIL 253 Marxist Critique 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An examination of the ideas central to the tradition of Western Marxism: ideology, critique, reification, instrumental reason, the domination of nature, and communicative action. Theorists discussed typically include Hegel, Marx, Lukacs, Adorno, Horkheimer, Benjamin, and Habermas. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 153 or PHIL 253.

PHIL 259 Philosophy of Religion 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. A historical, critical examination of the concepts and arguments involved in the Judeo-Christian God-hypothesis, and the influence of this world view on the ideals and values of the Western world. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 159 or PHIL 259.

PHIL 261 Ethics 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. A study of the major classical moral philosophers in the Western tradition and of some selected problems of metaethics. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 161 or PHIL 261.

PHIL 262 Human Nature and Radical Evil 4

Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An advanced study of theories of human nature and evil. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 162 or PHIL 262.

PHIL 263 Political Philosophy 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An inquiry into some of the main philosophic issues arising from political life, such as the nature and justification of authority, democracy, natural rights, justice, equality, and civil disobedience. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 163 or PHIL 263.

PHIL 264 Justice 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. A philosophical analysis of the concept of justice. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 164 or PHIL 264.

PHIL 265 Philosophy of Law 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An inquiry into the nature of criminal law, the relation between law and morality, the nature of legal responsibility, and the obligation to obey the law. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is

awarded for only one of PHIL 165 or PHIL 265.

PHIL 266 Philosophy of Feminism 4 Lecture, 3 hours; seminar, 1 hour. Prerequisite(s): graduate standing. An analysis of current concepts and debates in feminist philosophy including gender equality, gender difference, and the relation of sex and gender. Situates various approaches to these topics in the history of philosophy. Students who complete all writing assignments, including a term paper, receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Credit is awarded for only one of PHIL 166 or PHIL 266.

PHIL 270 Philosophy Colloquia 1 Colloquium, 1 hour. Prerequisite(s): graduate standing. Visiting scholars give oral reports on current research in philosophy and discuss them with students and faculty. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 272A Workshop in Philosophy 2

to 4 Workshop 2 To 3, Research 1 To 3, Prerequisite(s): graduate standing; consent of instructor. Close reading of a philosophical text or texts on a single topic. May be undertaken as a one-, two-, or three-quarter course (PHIL 272A, PHIL 272B, PHIL 272C). Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. PHIL 272A, PHIL 272B, and PHIL 272C are repeatable to a maximum of 12 units on one topic and to a maximum of 36 units for the three courses.

PHIL 272B Workshop in Philosophy 2

to 4 Workshop 2 To 3, Research 1 To 3, Prerequisite(s): PHIL 272A; consent of instructor. Close reading of a philosophical text or texts on a single topic. May be undertaken as a one-, two-, or three-quarter course (PHIL 272A, PHIL 272B, PHIL 272C). Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. PHIL 272A, PHIL 272B, and PHIL 272C are repeatable to a maximum of 12 units on one topic and to a maximum of 36 units for the three courses.

PHIL 272C Workshop in Philosophy 2

to 4 Workshop 2 To 3, Research 1 To 3, Prerequisite(s): PHIL 272B; consent of instructor. Close reading of a philosophical text or texts on a single topic. May be undertaken as a one-, two-, or three-quarter course (PHIL 272A, PHIL 272B, PHIL 272C). Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. PHIL 272A, PHIL 272B, and PHIL 272C are repeatable to a maximum of 12 units on one topic and to a maximum of 36 units for the three courses.

PHIL 275A Proseminar For First-Year Graduate Students: Metaphysics and Epistemology 4

Seminar, 2 hours; extra reading, 3 hours. Prerequisite(s): first-year standing in the graduate program in Philosophy. One course in a three-term sequence designed to introduce new graduate students to current issues and methods of research in metaphysics and epistemology.

PHIL 275B Proseminar For First-Year Graduate Students: Metaphysics and Epistemology 4

Seminar, 2 hours; extra reading,

3 hours. Prerequisite(s): PHIL 275A; first-year standing in the graduate program in Philosophy. One course in a three-term sequence designed to introduce new graduate students to current issues and methods of research in additional areas of metaphysics and epistemology.

PHIL 275C Proseminar For First-Year Graduate Students: Moral Philosophy 4 Seminar, 2 hours; extra reading, 3 hours. Prerequisite(s): first-year standing in the graduate program in Philosophy. One course in a three-term sequence designed to introduce new graduate students to current issues and methods of research.

PHIL 276 Third and Fourth Year Research Seminar 2 or 4 Seminar, 2 hours; extra reading, 3 hours; research, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Teaches skills needed for professional quality research. Familiarizes students with expectations and demands of producing professional work. Provides a forum for acquiring and applying skills to meet expectations and demands. Offers opportunity to present research in progress. Provides a structured environment to develop and hone relevant time management strategies. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

PHIL 280 Seminar in Philosophical Problems 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers an important philosophical problem. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 281 Philosophical Texts 1 to 4 Seminar, 1 to 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing. Involves focused reading and discussion of common text on research topics in philosophy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 282 Seminar in Individual Philosophers 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers a major figure in the history of philosophy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 283 Seminar in Contemporary Philosophy 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers an aspect of contemporary philosophy. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHIL 284A Problems in the History of Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Focused reading of texts or problems in the history of Philosophy. May be taken as a one quarter course or with PHIL 284B as part of a two quarter sequence. Students taking PHIL 284A as a one quarter course who submit a term paper receive a

letter grade; other students taking it as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 284A as part of a two quarter sequence with PHIL 284B receive In Progress (IP) until PHIL 284B is completed, at which time one final grade is assigned for both courses. Course is repeatable to a maximum of 40 units.

PHIL 284B Problems in the History of Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Focused reading of texts or problems in the history of Philosophy. May be taken as a one quarter course or with PHIL 284A as part of a two quarter sequence. Students taking PHIL 284B as a one quarter course who submit a term paper receive a letter grade; other students taking PHIL 284B as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 284B as part of a two quarter sequence with PHIL 284A who submit a term paper receive one grade for both courses; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 40 units.

PHIL 285A Problems in Contemporary Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Covers a problem or a literature in an area of contemporary philosophy. May be taken as a one quarter course or with PHIL 285B as part of a two quarter sequence. Students taking PHIL 285A as a one quarter course who submit a term paper receive a letter grade; other students taking PHIL 285A as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 285A as part of a two quarter sequence with PHIL 285B receive In Progress (IP) until PHIL 285B is completed, at which time one final grade is assigned for both courses. Course is repeatable to a maximum of 40 units.

PHIL 285B Problems in Contemporary Philosophy 4 Seminar, 3 hours; research, 9 hours. Prerequisite(s): graduate standing or consent of instructor. Covers a problem or a literature in an area of contemporary philosophy. May be taken as a one quarter course or with PHIL 285B as part of a two quarter sequence. Students taking PHIL 285-A as a one quarter course who submit a term paper receive a letter grade; other students taking PHIL 285-A as a one quarter course receive a Satisfactory (S) or No Credit (NC) grade. Students taking PHIL 285-B as part of a two quarter sequence with PHIL 285-B receive In Progress (IP) until PHIL 285-B is completed, at which time one final grade is assigned for both courses. Course is repeatable to a maximum of 40 units.

PHIL 290 Directed Studies 1 to 6 Term Paper, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor. Directed study to meet special curricular needs. Course is repeatable.

PHIL 291 Individual Studies in Coordinated Areas 2 to 4 Prerequisite(s): graduate standing. A program of studies designed to advise and assist candidates who are preparing for the Comprehensive Examinations. Open to M.A. students only; does not count toward the unit requirement for the M.A. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 292 Concurrent Analytical Studies in Philosophy 1 to 4 Prerequisite(s): consent of instructor. Each 292 course will be taken concurrently with some 100-series course, approved by the Graduate Advisor, but on an individual basis. It will be devoted to completion of a graduate paper based on research or criticism related to the 100-series course. Faculty guides and evaluations will be provided throughout the quarter. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

PHIL 297 Directed Research 1 to 6 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

PHIL 301 Directed Studies in the Teaching of Philosophy 1 Seminar, 1 hour. Prerequisite(s): graduate standing. A program of orientation, lectures, and workshops designed to enhance the Teaching Assistant's understanding of teaching methods in philosophy and to provide opportunities to work closely with experts in college teaching in order to improve the quality of instruction. Required of all new Teaching Assistants. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHIL 302 Teaching Practicum 1 to 4 Prerequisite(s): employment as Teaching Assistant or Associate. Supervised teaching in lower-division courses and LWSO 100. Required of all teaching assistants in philosophy. Does not count toward the unit requirement for the M.A. degree. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

PHIL 400 Research and Professional Development Workshop 1 Workshop, 8 hours; extra reading, 8 hours. Prerequisite(s): graduate standing. A series of presentations and workshops focused on a variety of issues in research, professional development, and teaching. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 18 units.

PHYSICAL SCIENCES

College of Natural and Agricultural Sciences

The Physical Sciences major is not accepting new students at this time. For more information, contact the CNAS Undergraduate Academic Advising Center, 1223 Pierce Hall, or call (951) 827-7294.

PHYSICS AND ASTRONOMY

Subject abbreviation: PHYS College of Natural and Agricultural Sciences

Kenneth N. Barish, Ph.D., Chair
Department Office, 3047 Physics

Research Physicists

Mark Bockrath, Ph.D.
Roland Kawakami, Ph.D.
Chun Ning "Jeanie" Lau, Ph.D.

Major

The Department of Physics and Astronomy offers two degrees: the B.A. and B.S. in Physics.

The **B.S. program** is designed for students with a strong interest in the sciences or engineering who wish to emphasize this aspect of their education and training. The B.S. degree provides a strong background for students who wish to continue on to graduate school.

The **B.A. program** follows the liberal arts tradition with a broader coverage of the humanities and social sciences. It is selected often by students who intend to obtain a teaching credential with a specialty in science or to pursue a career combining business management opportunities with a knowledge in science and technology.

The extensive course offerings and modern facilities within the Department of Physics and Astronomy, coupled with close, personal counseling by faculty advisors, provide students with a physics program that is characterized by its breadth and flexibility.

Career Opportunities

Graduates with a bachelor's degree in Physics generally begin their careers in government or industry. Professions include research and development, system modeling and analysis, and sales in a large variety of fields. A Physics degree provides one of the most flexible qualifications with direct applications to materials science, advanced electronics, lasers and microwave devices, computing and communications.

The federal government and national laboratories employ many physicists as do industries in medical and scientific instruments, computers, audio and telecommunications equipment, financial analysis and investments, material science, and engineering.

The bachelor's degree programs in the UCR Department of Physics and Astronomy are well suited for continued education in graduate school and for preparation in technical and professional careers. Colleges or universities, national laboratories, industry, and governmental agencies employ students with graduate training.

Transfer Students

Students transferring to the Physics major must complete courses comparable to the following one-year sequences before they transfer:

1. General physics (calculus-based) equivalent

- to PHYS 040A, PHYS 040B, PHYS 040C
2. First-year calculus, equivalent to MATH 007A or MATH 009A, MATH 007B or MATH 009B, MATH 009C

Students must have a minimum grade point average of 2.70 in transferable college courses. UCR has articulation agreements with most of the California community colleges. These agreements list specific community college courses that have been designated as comparable to UCR courses (see the statewide articulation Web site at www.assist.org). Transfer students will usually find it advantageous to complete most or all sequences before starting at UCR. All prospective transfers should try to complete the sequences they begin rather than divide a sequence between two campuses.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The major requirements consist of a core curriculum and additional requirements for various B.S. degrees. The core requirements for the B.A. and B.S. degrees in Physics are as follows:

1. Lower-division requirements (70 units)

- a) one of the following sequences: PHYS 041A, PHYS 041B, PHYS 041C, or PHYS 040A or PHYS 40HA, PHYS 040B or PHYS 40HB, PHYS 040C or PHYS 40HC, PHYS 040D, PHYS 040E. The first sequence is preferred for the B.S. in Physics.
- b) PHYS 39
- c) MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C, MATH 010A, MATH 010B, MATH 046
- d) CHEM 001A, CHEM 001B, CHEM 001C, CHEM 01LA, CHEM 01LB, CHEM 01LC
- e) CS 010. A higher-level CS course may satisfy the CS 010 requirement with approval.

2. Upper-division requirements (41 to 42 units)

- a) PHYS 130A, PHYS 130B, PHYS 132, PHYS 135A, PHYS 135B, PHYS 156A, PHYS 156B
- b) PHYS 139L (5 units), PHYS 142L (4 units) or PHYS 142W (5 units). Note that PHYS 142W satisfies the ENGL 1C requirement.
- c) 4 units of upper division Physics electives. Upper division math, science of engineering may be substituted with approval.

Physics: Standard Track (B.S. degree)

1. Additional upper-division requirements

(16 to 17 units)

- a) PHYS 136
- b) One additional quarter of either PHYS 142L (4 units) or PHYS 142W (5 units). Approved undergraduate research (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D) in physics or an internship (PHYS 198-I) in physics at a government or industrial laboratory can be used in place of up to 4 units of PHYS 142L.
- c) 8 additional units of upper division Physics electives. PHYS 156C is highly recommended for those planning to go to graduate school in physics.

Physics: Biophysics Track (B.S. degree)

1. Additional lower-division requirements (25 units)

- a) BIOL 005A, BIOL 005B, BIOL 005C, BIOL 05LA or BIOL 020.
- b) CHEM 008A, or CHEM 08HA, CHEM 008B or CHEM 08HB, CHEM 008C or CHEM 08HC, CHEM 08LA or CHEM 08HLA, CHEM 08LB or CHEM 08HLB, CHEM 08LC or CHEM 08HLC

2. Additional upper-division requirements (8 units)

- a) 8 additional upper-division units taken from BCH 110A, BCH 110B, BCH 110C or BIOL 107A (other upper division CHEM/BIOL/BCH may be substituted upon approval)

Physics Education Track (B.S. degree only)

1. Additional lower-division requirements (10 units)

- a) EDUC 003, EDUC 004

2. Additional upper-division requirements (8 units)

- a) Choose two courses from the following list: EDUC 109 or EDUC 109S, EDUC 110 or EDUC 110S, EDUC 116 or EDUC 116S, EDUC 174 or EDUC 174S, EDUC 175 or EDUC 175S

Physics: Applied Physics and Engineering Track (B.S. degree)

1. **16 additional units of approved Engineering electives including a minimum of 8 units at the upper-division level.** A list of approved CS, EE, ME, CEE, CHE, and BIEN courses is available upon request from your physics faculty academic advisor or your advisor in the CNAS Advising Center. Example course plans can be found in the department web pages.

Students continuing on to graduate school are encouraged to take additional upper-division courses in Mathematics, such as MATH 146A, MATH 146B, MATH 146C, MATH 165A, MATH 165B, and MATH 113.

Students may wish to earn a Minor in Mathematics which requires an additional 24 units of upper division math.

To graduate, a minimum grade point average of 2.00 (C) is necessary overall and in the upper-division courses taken for the major (courses listed under 2.).

Bachelor of Arts

For the B.A. degree, additional units are required in Humanities, Social Sciences, and foreign language to meet the breadth requirements.

Minor

The minor in Physics consists of 26 upper-division units in Physics. A minimum of 16 units must be unique to the minor and may not be used to satisfy major requirements.

1. First Tier (16 units)

- a) PHYS 130A
- b) PHYS 132
- c) PHYS 135A
- d) One Upper Division Physics elective from PHYS 111, PHYS 150A, PHYS 151, PHYS 164, PHYS 165, PHYS 166, PHYS 177

2. Second Tier: at least 10 units from any upper-division Physics courses not chosen in the First Tier.

The combined units from the First and Second Tiers should add to at least 26.

3. No more than 4 units of 190-199 courses may be used to fulfill the upper-division units for the minor.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Community College Transfers

The department provides special advisory services to aid community college transfer students in formulating their program and in remedying any deficiencies in required course work. Transfer students who have followed the prescribed program at the community college should be able to continue with the sample program at the junior level.

Graduate Program

The Department of Physics and Astronomy offers the M.S. and Ph.D. degrees in Physics.

Ongoing research in the Department of Physics and Astronomy includes astrophysics and space physics, condensed matter physics, particle physics, heavy ion physics, surface science, laser physics, and environmental physics. Large-scale experiments are carried out at the major U.S. and European accelerator laboratories or observatories.

Admission All applicants must submit scores from the GRE General and Physics subject tests. Questions about requirements for admission should be directed to the graduate advisor at (951) 827-5332.

Master's Degree

A student is recommended for the degree of M.A. or M.S. in Physics upon completion of the following requirements:

1. Satisfactory completion of a minimum of 36 quarter units of approved physics courses taken for a letter grade after admission to graduate study. Of these, at least 24 quarter units must be in the 200 series. Each course must be passed with a grade of "B-" or better. Each student must maintain an average for all courses of "B" or better.

2. Either of the following two plans:

Plan I (Thesis)

Satisfactory completion of a thesis in a field of physics to be chosen in consultation with a faculty supervisor. This thesis is approved by a committee designated by the department.

Plan II (Comprehensive Examination)

Satisfactory performance on the comprehensive examination.

Under either plan all requirements for the master's degree must be completed not later than the end of the sixth quarter.

Normative Time to Degree Six quarters

Doctoral Degree

The Department of Physics and Astronomy offers the Ph.D. degree in Physics.

It is recommended that students in the Ph.D. program become associated with a research advisor by the end of Spring Quarter of their first year.

A student is recommended for advancement to candidacy for the Ph.D. degree in Physics upon completion of requirements (1), (2), and (3) below. The student is recommended for the Ph.D. degree upon completion of requirements (4) and (5) below.

1. Course Work

Each course must be passed with a grade of "B-" or better. Each student must maintain an average of "B" or better for all courses.

1A. Core courses for students pursuing a program in Physics (other than Astronomy):

PHYS 205 (Classical Mechanics)

PHYS 210A, PHYS 210B, PHYS 210C (Electromagnetic Theory)

PHYS 212A, PHYS 212B (Thermodynamics and Statistical Mechanics)

PHYS 221A, PHYS 221B, PHYS 221C (Quantum Mechanics)

PHYS 296 (Summer Research in Physics and Astronomy)

PHYS 401 (Professional Development in Physics and Astronomy)

1B. Core courses for students pursuing a specialization in Astronomy:

PHYS 205 (Classical Mechanics)

PHYS 210A, PHYS 210B, PHYS 210C (Electromagnetic Theory)

PHYS 212A (Thermodynamics and Statistical Mechanics, Part A)

PHYS 214 (Techniques of Observational Astrophysics)

PHYS 215 (Dynamics and Evolution of Galaxies)

PHYS 218 (Fundamentals of Astrophysics)

PHYS 219 (Cosmology and Structure Formation)

PHYS 296 (Summer Research in Physics and Astronomy)

PHYS 401 (Professional Development
in Physics and Astronomy)

In addition, students in both programs must complete at least three additional elective graduate level lecture courses, taken for a letter grade. These courses must be physics or astronomy-related and relevant to the student's dissertation research. The program for each student must be approved by the Graduate Advisor and the student's Research Advisor. Such a program may entail more than the minimum number of courses and may also involve a mixture of courses from different areas.

The elective courses include the following, but other courses may be approved by the Graduate Advisor in consultation with the Graduate Advisory Committee:

a) **Condensed Matter, Surface, Biophysics and Atomic, Molecular and Optical Physics**

PHYS 209A (Quantum Electronics)
PHYS 209B (Nonlinear Optics)
PHYS 209C (Advanced Topics in Quantum Optics)
PHYS 234 (Physics of Nanoscale Systems)
PHYS 235 (Spintronics and Nanoscale Magnetism)
PHYS 240A, PHYS 240B
(Condensed Matter Physics)
PHYS 241A, PHYS 241B, PHYS 241C
(Advanced Statistical Physics and Field Theory)
PHYS 242 (Physics at Surfaces and Interfaces)
PHYS 245 (Atomic and solid-state physics with positrons)
PHYS 246 (Biological physics)
PHYS 260 (Special topics in Condensed Matter Physics)

b) **Nuclear and Particle Physics**

PHYS 224 (Frontiers of Physics and Astrophysics)
PHYS 225A, PHYS 225B (Elementary Particles)
PHYS 230A, PHYS 230B, PHYS 230C
(Advanced Quantum Mechanics and Quantum Theory of Fields)
PHYS 262 (Special topics in High Energy Physics)

c) **Astronomy, Astrophysics, Cosmology and Astroparticle Physics**

PHYS 203 (Statistical Astronomy)
PHYS 204 (Advanced Galaxy Formation and Cosmology)
PHYS 208 (General Relativity)
PHYS 211A (Radiative Processes in Astrophysics)
PHYS 211B (Astrophysical Fluid Dynamics)
PHYS 213 (Astrophysics of the Interstellar Medium)
PHYS 216 (Star Formation)
PHYS 217 (Stellar Structure and Evolution)
PHYS 226 (Cosmology)

PHYS 227 (Particle Astrophysics)

PHYS 229 (Theory of dark matter halos and galaxies)

PHYS 261 (Special topics in Astrophysics)

2. **Written Comprehensive Examinations**

Students must have satisfactory performance on a comprehensive examination, to be taken at the end of the student's first year. In the event of a failure, a make-up exam is offered in the winter quarter of the second year. The comprehensive examination for students pursuing the physics program consists of an exam that covers Mechanics, Statistical and Thermal Physics, Quantum Mechanics, and Electromagnetism. The comprehensive examination for students pursuing the astronomy specialization consists of an exam that covers Mechanics, Statistical and Thermal Physics, Electromagnetism, and Fundamental Astrophysics.

3. **Oral Qualifying Examination in General Area of Proposed Research**

Satisfactory performance on an oral examination in the general area of the student's proposed research. This examination is conducted by a doctoral committee, charged with general supervision of the student's research. It is normally taken during the academic year following that in which the comprehensive examination requirement has been successfully completed. A student who fails this examination on the first attempt may, at the discretion of the committee, be permitted to take it a second time.

4. **Dissertation Examination**

Students must complete a dissertation containing a review of existing knowledge relevant to the area of the candidate's research, and the results of the candidate's original research. This research must be of sufficiently high quality to constitute a contribution to knowledge in the subject area.

5. **Final Oral Examination**

A final oral defense may be required.

Normative Time to Degree

For students pursuing program 1A: 15 quarters for theoretical physics; 18 quarters for experimental physics; 17 quarters for specialization in environmental physics (theory); 20 quarters for specialization in environmental physics (experimental). For students pursuing the astronomy program, 1B: 18 quarters.

Lower-Division Courses

Only one of the following sequences, PHYS 002A, PHYS 002B, PHYS 002C, or PHYS 040A, PHYS 040B, PHYS 040C may be taken for credit.

PHYS 002A General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 008B or MATH 007A or MATH 009A or MATH 09HA with a grade of "C-" or better concurrent enrollment in PHYS 02LA or a grade of "C-" or better in PHYS 02LA. Covers topics in classical mechanics, including Newton's laws of motion in one and two dimensions; work, energy, and conservation of energy; momentum and collisions; rotational motion; and orbital motion. For biological sciences students. Credit is not

awarded for PHYS 002A if it has already been awarded for PHYS 02HA or PHYS 040A or PHYS 040HA or PHYS 041A.

PHYS 002B General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB (may be taken concurrently); PHYS 002A or PHYS 02HA with a grade of "C-" or better; concurrent enrollment in PHYS 02LB or a grade of "C-" or better in PHYS 02LB is required. Covers topics in mechanics, thermodynamics, and electromagnetism. Includes fluid mechanics; temperature and heat; the laws of thermodynamics; kinetic theory of gases; electric fields and potentials; current and DC circuits; capacitance and inductance; magnetism; and Faraday's law. For biological sciences students. Credit is not awarded for PHYS 002B if it has already been awarded for PHYS 02HB; or both PHYS 040B or PHYS 040HB and PHYS 040C or PHYS 040HC; or PHYS 041B.

PHYS 002C General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 002B or PHYS 02HB with a grade of "C-" or better; concurrent enrollment in PHYS 02LC or a grade of "C-" or better in PHYS 02LC. Covers topics in waves and modern physics. Includes harmonic oscillations; mechanical and electromagnetic waves; geometrical optics; reflection, refraction, interference, diffraction, and polarization; and quantum, atomic, and nuclear physics. For biological sciences students. Credit is not awarded for PHYS 002C; if it has already been awarded for PHYS 02HC; or PHYS 041C.

PHYS 02HA Honors General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 007A or MATH 009A or MATH 09HA with a grade of B- or better; concurrent enrollment in PHYS 2HLA or a grade of B- or better in PHYS 02HLA. Honors course corresponding to PHYS 002A. Covers topics in classical mechanics including Newton's laws of motion in one and two dimensions; work, energy, and conservation of energy; momentum and collisions; rotational motion; and orbital motion. For biological sciences students. Satisfactory (S) or No Credit (NC) grading is not available. Credit is not awarded for PHYS 02HA if it has already been awarded for PHYS 002A or PHYS 040A or PHYS 040HA or PHYS 041A.

PHYS 02HB Honors General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Prerequisite(s): PHYS 002A or PHYS 02HA; MATH 007B or MATH 009B or MATH 09HB with a grade of B- or better; concurrent enrollment in PHYS 02HLB or a grade of B- or better in PHYS 02HLB. Honors course corresponding to PHYS 002B. Covers topics in mechanics, thermodynamics, and electromagnetism. Includes fluid mechanics; temperature and heat; the laws of thermodynamics; kinetic theory of gases; electric fields and potentials; current and DC circuits; capacitance and inductance; magnetism; and Faraday's law. For biological sciences students. Satisfactory (S) or No Credit (NC) grading is not available. Credit is not awarded for PHYS 02HB if it is already awarded for PHYS 002B; or both PHYS 040B or PHYS 040HB and PHYS 040C or PHYS 040HC; or PHYS 041B.

PHYS 02HLA Honors General Physics

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PHYS 02HA or a grade of "B-" or better in PHYS 02HA. Honors course corresponding to PHYS 02LA. Illustrates the experimental foundations of physics presented in PHYS 002A. Covers the basic principles of classical mechanics. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHYS 02LA or PHYS 02HLA.

PHYS 02HLB Honors General Physics

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): PHYS 02HA or PHYS 002A with a grade of "B-" or better; PHYS 02HLA or PHYS 02LA with a grade of "B-" or better; concurrent enrollment in PHYS 02HB or a grade of "B-" or better in PHYS 02HB. Honors course corresponding to PHYS 02LB. Illustrates the experimental foundations of physics presented in PHYS 02HB. Covers the basic principles of fluid and rotational mechanics, temperature, heat, and electromagnetism. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHYS 02LB or PHYS 02HLB.

PHYS 02HLC Honors General Physics

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): PHYS 02HB or PHYS 002B with a grade of "B-" or better; PHYS 02HLB or PHYS 02LB with a grade of "B-" or better; concurrent enrollment in PHYS 02HC or a grade of "B-" or better in PHYS 02HC. Honors course corresponding to PHYS 02LC. Illustrates the experimental foundations of physics presented in PHYS 002C. Covers the basic principles of oscillations, waves, optics, and radioactivity. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHYS 02LC or PHYS 02HLC.

PHYS 02LA General Physics

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): concurrent enrollment or a grade of "C-" or better in PHYS 002A or PHYS 02HA. Illustrates the experimental foundations of physics presented in PHYS 002A. Covers the basic principles of classical mechanics. Credit awarded for only PHYS 02LA or PHYS 02HLA.

PHYS 02LB General Physics

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): PHYS 002A and PHYS 02LA or PHYS 02HA and PHYS 02HLA with grades of "C-" or better; concurrent enrollment or a grade of "C-" or better in PHYS 002B or PHYS 02HB. Illustrates the experimental foundations of physics presented in PHYS 002B. Covers the basic principles of fluid and rotational mechanics, temperature, heat, and electromagnetism. Credit is awarded for only one of PHYS 02LB or PHYS 02HLB.

PHYS 02LC General Physics

Laboratory 1 Laboratory, 3 hours. Prerequisite(s): PHYS 002B and PHYS 02LB or PHYS 02HB and PHYS 02HLB with a grade of "C-" or better; concurrent enrollment or a grade of "C-" or better in PHYS 002C or PHYS 02HC. Illustrates the experimental foundations of physics presented in PHYS 002C. Covers the basic principles of oscillations, waves, optics, and radioactivity. Credit is awarded for only one of PHYS 02LC or PHYS 02HLC.

PHYS 005 History of the Universe 4 Lecture,

3 hours; discussion, 1 hour. An introduction to "The Big Bang" model and its observational tests. Topics include dark energy, dark matter, rapid growth of universe at early times, leftover radiation from "The Big Bang", galaxy formation, bending of light by gravity, black holes, extraterrestrial life, and the likely fate of the universe.

PHYS 006 The Violent Universe 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to violent phenomena that power the universe, specifically phenomena that illustrate basic astrophysical principles. Topics include impacts in our planetary system: explosions of stars, bursts of star formation, galaxy collisions, black holes, quasars, cosmic jets, and the "Big Bang."

PHYS 007 Space-Time, Relativity, and

Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A nontechnical presentation of the growth of modern science covering topics from Newton and gravitation, Kepler and the motion of celestial bodies, Einstein and relativity, and Planck and Bohr up to present theories on the origin and evolution of the universe. Explores the philosophical ideas, scientific method, historical settings, and intellectual impacts. Includes demonstrations and visual illustrations.

PHYS 008 Color and Sound: Dimensions in

Communication 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Discusses the interplay between visual and aural sensory experiences and the physical principles of light and sound. Topics include visual perception and pattern recognition; the color spectrum; optical instruments; anatomy of the camera and the eye; lasers and holography; vibrations and sound waves; acoustics; reverberation; and sound production in speech, music, and high-fidelity audio devices. Involves demonstrations and illustrations.

PHYS 010 How Things Work 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Survey of the physical basis of modern technology, with an emphasis on electronics and electrical devices. Topics include electro- and magneto-statics and dynamics (xerographic copiers, magnetic levitation, electrical power distribution), communication (radio, TV, computers, tape recorders, CD players), and imaging (cameras, DVD players, x rays, magnetic resonance imaging).

PHYS 016 Principles of Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 005 is recommended. Topics include classical laws of motion, force, energy, electricity and magnetism, properties of matter, atomic structure, waves, sound, light, heat, the Earth, and the solar system and universe. Includes demonstrations and visual illustrations. Not open to students with credit or concurrent enrollment in PHYS 002A or PHYS 02HA or PHYS 002B or PHYS 02HB or PHYS 002C or PHYS 02HC or PHYS 040A or PHYS 040HA or PHYS 040B or PHYS 040HB or PHYS 040C or PHYS 040HC or PHYS 040D or PHYS 040E.

PHYS 017 Linear Algebra For Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of C- or better, MATH 046 with a grade of C- or better. This course

covers the essential mathematics for quantum mechanics at the upper-division level. It applies linear algebra to finite-dimensional vector spaces. Topics include: matrices, linear equations, bases, eigenvectors and eigenvalues, functions as finite-dimensional vectors, differential operators as matrices, Fourier transforms, and eigenfunctions of common differential operators.

PHYS 018 Energy and the

Environment 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers the physics of energy (thermal, kinetic, potential, chemical, nuclear), its storage and use, primary sources of energy (fossil fuel, nuclear, wind, solar) and their relative effects on the environment. Particular emphasis on determining individual carbon footprints, physical models of global climate change and identifying pathways toward a sustainable infrastructure.

PHYS 020 Exploring the Universe: An Adventure

in Astronomy 4 Lecture, 3 hours; workshop, 3 hours. Prerequisite(s): none. An astronomy course for non-science students. The excitement of an evolving and sometimes violent universe of stars and galaxies is explored in a descriptive manner. Here, the union of modern and ancient observations with astrophysical laws will provide a sophisticated but by no means complete picture of the universe. Special topics such as Astrology and Extraterrestrial Life will be discussed.

PHYS 024 Dna in Your Life: the Physical Basis For Structure, Function, and Control 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to various medical, biological, and commercial aspects of physical DNA science.

PHYS 037 The Origins 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Explores the most fundamental questions in cosmology, physics, and chemical sciences through their origins. Topics include the origin of the Universe, origin of matter, first generation of stars and galaxies, origin of chemical elements, chemistry of life, and astrobiology.

PHYS 039 Adventures in Physics 3

Lecture, 3 hours. Prerequisite(s): none. Covers professional development including career options for physics majors and provides pathways to undergraduate research opportunities. Includes aspects of physics relevant to current social and political issues. Graded Satisfactory (S) or No Credit (NC).

PHYS 040A General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 007A or MATH 009A or MATH 09HA with a grade of "C-" or better; MATH 007B or MATH 009B or MATH 09HB with a grade of "C-" or better (MATH 009B or MATH 09HB may be taken concurrently). Designed for engineering and physical sciences students. Covers topics in classical mechanics including Newton's laws of motion; friction; circular motion; work, energy, and conservation of energy; dynamics of particle systems; collisions; rigid-body motion; torque; and angular momentum. Laboratories provide exercises illustrating experimental foundations of physical principles and selected applications. Credit is not awarded for PHYS 040A if it has already been

awarded for PHYS 002A, PHYS 02HA, PHYS 040HA, or PHYS 041A.

PHYS 040B General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C or MATH 09HC (may be taken concurrently); PHYS 040A or PHYS 040HA with a grade of "C-" or better. Designed for engineering and physical sciences students. Covers topics in mechanics and thermodynamics including elasticity; oscillations; gravitation; fluids; mechanical waves and sound; temperature, heat, and the laws of thermodynamics; and the kinetic theory of gases. Laboratories provide exercises illustrating the experimental foundations of physical principles and selected applications. Credit is awarded for only one of PHYS 040B or PHYS 040HB.

PHYS 040C General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C or MATH 09HC; PHYS 040B or PHYS 040HB with a grade of "C-" or better. Designed for engineering and physical sciences students. Covers topics in electricity and magnetism including electric fields and potential; Gauss' law; capacitance; magnetic fields; Ampere's law; Faraday's law and induction; electromagnetic oscillations; dc and ac current; and circuits. Laboratories provide exercises illustrating the experimental foundations of physical principles and selected applications. Credit is awarded for only one of PHYS 040C, PHYS 040HC, PHYS 002B, PHYS 02HB, or PHYS 041B.

PHYS 040D General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): PHYS 040C or PHYS 040HC with a grade of "C-" or better or consent of instructor. For engineering and physical sciences students. Topics in electromagnetic waves including Maxwell's equations; geometrical optics; optical instruments, cavities, and waveguides; interference, diffraction, and polarization; and special theory of relativity. Laboratories provide exercises illustrating the experimental foundations of physical principles and selected applications. Credit is not awarded for PHYS 040D if it has already been awarded for PHYS 002C or PHYS 041C.

PHYS 040E General Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 046 (may be taken concurrently); PHYS 040D with a grade of "C-" or better. For engineering and physical sciences students. Covers topics in modern physics including the quantum theory of light and particles; quantum mechanics in one and three dimensions; tunneling phenomena; the hydrogen atom; statistical physics; lasers; molecular structure; and solid state, nuclear, and particle physics. Credit is not awarded for PHYS 040E if it has already been awarded for PHYS 002C or PHYS 02HC or PHYS 041C.

PHYS 040HA Honors General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 007A with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 009HA with a grade of C- or better; MATH 007B with a grade of C- or better or MATH 009B with a grade of C- or better, may be taken concurrently or MATH 09HB with a grade of C- or better, may be

taken concurrently; admission to the University Honors Program. Honors course corresponding to PHYS 040. Designed for engineering/physical sciences students. Topics in classical mechanics: Newton's laws of motion; friction; circular motion; work, energy, conservation of energy; dynamics of particle systems; collisions; rigid-body motion; torque; angular momentum. Laboratories provide exercises illustrating experimental foundations of physical principles and selected applications. Satisfactory(S) or No Credit(N/C) is not available. Credit is awarded for one of the following: PHYS 040HA, PHYS 002A, PHYS 02HA, PHYS 040A, or PHYS 041A;

PHYS 040HB Honors General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C or MATH 09HC (may be taken concurrently); PHYS 040HA with a grade of "B-" or better or PHYS 040A with a grade of "B-" or better. Honors course corresponding to PHYS 040B. Designed for engineering and physical sciences students. Covers topics in mechanics and thermodynamics including elasticity; oscillations; gravitation; fluids; mechanical waves and sound; temperature, heat, and the laws of thermodynamics; and the kinetic theory of gases. Laboratories provide exercises illustrating the experimental foundations of physical principles and selected applications. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHYS 040B or PHYS 040HB.

PHYS 040HC Honors General Physics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 009C or MATH 09HC; PHYS 040B or PHYS 040HB with a grade of "C-" or better. Honors courses corresponding to PHYS 040C. Designed for engineering and physical sciences students. Covers topics in electricity and magnetism including electric fields and potential; Gauss' law; capacitance; magnetic fields; Ampere's law; Faraday's law and induction; electromagnetic oscillations; dc and ac current; and circuits. Laboratories provide exercises illustrating the experimental foundations of physical principles and selected applications. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of PHYS 040C, PHYS 040HC, PHYS 002B, PHYS 02HB, or PHYS 041B.

PHYS 041A Introductory Physics For Physics Majors 8 Lecture, 4 hours; discussion, 2 hours; laboratory, 6 hours. Prerequisite(s): MATH 007A or MATH 009A or MATH 09HA with a grade of "C-" or better (MATH 007A or MATH 009A or MATH 09HA may be taken concurrently). Covers topics in classical mechanics, including Newton's laws of motion in one and two dimensions; work, energy, and conservation of energy; momentum and collisions; rotational motion; and orbital motion. Credit is not awarded for PHYS 041A if it has already been awarded for PHYS 040A, PHYS 040HA, PHYS 002A, or PHYS 02HA

PHYS 041B Introductory Physics For Physics Majors 8 Lecture, 4 hours; discussion, 2 hours; laboratory, 6 hours. Prerequisite(s): MATH 007B or MATH 009B or MATH 09HB with a grade of "C-" or better (MATH 007B or MATH 009B or MATH 09HB may be taken concurrently); PHYS

002A with a grade of "B-" or better or PHYS 040A with a grade of "C-" or better or PHYS 041A with a grade of "C-" or better or consent of instructor. Covers relativity oscillations, mechanical waves, fluids, electrostatics, magnetism, and circuits. Credit is not awarded for PHYS 041B if it has already been awarded for PHYS 040C.

PHYS 041C Introductory Physics For Physics Majors 8 Lecture, 4 hours; discussion, 2 hours; laboratory, 6 hours. Prerequisite(s): MATH 009C with a grade of "C-" or better or MATH 09HC with a grade of "C-" or better (MATH 009C or MATH 09HC may be taken concurrently); PHYS 002B or PHYS 02HB with a grade of "B-" or better or PHYS 040C or PHYS 040HC with a grade of "C-" or better or PHYS 041B with a grade of "C-" or better or consent of instructor. Covers electromagnetism, geometric and wave optics, and modern physics. Credit is not awarded for PHYS 041C if it has already been awarded for both PHYS 040D and PHYS 040E.

PHYS 097 Lower-Division Research 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): consent of instructor. Special research projects in physics performed under the supervision of a member of the staff. This course may not be used to satisfy the undergraduate unit requirements in the major. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

Upper-Division Courses

PHYS 111 Astrophysics and Stellar Astronomy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B, MATH 046, or equivalents; one of the following: PHYS 040D with a grade of C- or better, PHYS 041C with a grade of C- or better, PHYS 002C with a grade of B- or better. Covers stellar interiors, radiations, and evolution; the origin of the elements; particle and electromagnetic radiation; pulsars, quasars, and other unusual objects; and galactic structure and cosmology.

PHYS 117 Advanced Mathematical Methods of Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B with a grade of C- or better, MATH 046 with a grade of C- or better. This course covers advanced mathematical for upper division and graduate physics courses. Topics include dimensional analysis, infinite dimensional vector spaces, integral transforms, complex analysis, and the use of Green's functions to solve inhomogeneous differential equations. This course is strongly recommended for students with a focus on theoretical physics.

PHYS 130A Classical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C, MATH 010A (may be taken concurrently); one of the following: PHYS 002A or PHYS 02HA with a grade of B- or better, PHYS 040A or PHYS 040HA with a grade of C- or better, PHYS 041A with a grade of C- or better. Explores vector calculus, single-particle motion, oscillations, Lagrangian and Hamiltonian dynamics, central-forces motion, and celestial mechanics.

PHYS 130B Classical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010A, MATH 010B (may be taken concurrently), PHYS 130A. Topics include dynamics of a

system of particles, motion in non-inertial reference systems, dynamics of rigid bodies, coupled oscillations, and special theory of relativity.

PHYS 132 Thermal Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B; MATH 046 (may be taken concurrently); PHYS 130B. Covers thermodynamics and an introduction to statistical mechanics. Topics include states of a model system; entropy and temperature; the Boltzmann distribution and Helmholtz free energy; thermal radiation and the Planck distribution; chemical potential; the ideal gas; Fermi and Bose gasses; and heat and work.

PHYS 133 Advanced Statistical

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 132 and PHYS 156B. Covers advanced topics in statistical mechanics, ensembles, and classical and quantum statistical mechanics. Explores the connection between statistical mechanics and thermodynamics.

PHYS 135A Electromagnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B; MATH 046; one of the following: PHYS 002B or PHYS 02HB with B- or better, PHYS 040C or PHYS 040HC with a C- or better, PHYS 041B with a C- or better. Topics include vector calculus; Coulomb's law and the electric field; Gauss' law; scalar potential; conductors in electrostatic fields; electrostatic energy; electric multipoles; boundary conditions; electrostatics in the presence of matter; and special methods in electrostatics.

PHYS 135B Electromagnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 135A. Topics include electric currents and circuits, Ampere's law, the magnetic field, the integral form of Ampere's law, the vector potential, Faraday's law of induction, magnetic energy, magnetic multipoles, magnetism in the presence of matter, Maxwell's equations, and plane waves.

PHYS 136 Electromagnetic Waves 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 135B. Covers Maxwell's equations; propagation of electromagnetic waves in wave guides, coaxial lines, and optical fibers; reflection, refraction, and diffraction of waves; dispersion of waves in gases and plasmas; interference and coherence and their role in holography; electromagnetic radiation from charged particles, antennas, masers, and lasers; and relativistic electrodynamics.

PHYS 139L Electronics For Scientists 5 Lecture, 3 hours; laboratory, 6 hours. Prerequisite(s): One of the following: PHYS 002B or PHYS 02HB with B- or better, PHYS 040C or PHYS 040HC with a C- or better, PHYS 041B with a C- or better, or consent of instructor. Introduces basic analog and digital circuit designs that emphasize practical applications. Includes properties of diodes and transistors; operational amplifiers for use as amplifiers, oscillators, and function generators; properties and use of logic gates, counters, and timers; data storage and synchronization; multiplexer and decoder applications; microprocessor functions; and computer interfacing.

PHYS 142L Advanced Physics

Laboratory 4 Laboratory, 12 hours.

Prerequisite(s): one of the following: PHYS 002C or PHYS 02HC with a grade of B- or better, PHYS 040E with a grade of C- or better, PHYS 041C with a grade of C- or better; upper-division standing in Physics; consent of advisor. A capstone experience consisting of experiments chosen from areas in contemporary physics. Course is repeatable to a maximum of 8 units. Credit is awarded to a maximum of 10 units for either or both PHYS 142L and/or PHYS 142W.

PHYS 142W Advanced Physics

Laboratory 5 Laboratory, 11 hours; individual study, 6 hours; workshop, .8 hours. Prerequisite(s): ENGL 001B with a grade of C or better; one of the following: PHYS 002C or PHYS 02HC with a grade of B- or better or PHYS 040E with a grade of C- or better or PHYS 041C with a grade of C- or better; upper-division standing in Physics; consent of advisor. A capstone experience consisting of experiments chosen from areas in contemporary physics. Includes writing instruction with an emphasis on technical communication. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Course is repeatable to a maximum of 10 units. Credit is awarded to a maximum of 10 units for either or both PHYS 142L and/or PHYS 142W.

PHYS 145A Biophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 001C or CHEM 01HC; MATH 010B; MATH 046; one of the following: PHYS 002C or PHYS 02HC with B- or better, PHYS 041C with a C- or better, PHYS 040E with a C- or better. Covers physical modeling of the structure of proteins; protein folding; structure of nucleic acids; electrostatic potential of DNA; dynamics of biomolecules; structure of a biological cell; osmotic pressures of cells; non-equilibrium thermodynamics; and biochemical reactions.

PHYS 145B Biophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 145A; BCH 100 or BCH 110B or BCH 110HB; or consent of instructor. Covers conformation of biopolymers, intermolecular forces, dynamics of biopolymers, Brownian motion, biopolymers as polyelectrolytes, electrolytic solutions, and the Debye-Huckel theory.

PHYS 145C Biophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 145B or consent of instructor. Examines stochastic thermodynamics; the Fluctuation Theorems and the Jarzynski relation; protein and RNA denaturation; tests of the Jarzynski relation; chemical forces and self-assembly; enzymes and molecular machines; survey of molecular devices found in cells; and kinetics of real enzymes and machines.

PHYS 150A Introduction to Condensed Matter

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): One of the following: PHYS 002B with B- or better, PHYS 040E with a C- or better, PHYS 041C with a C- or better; or consent of instructor. Covers properties of systems composed of many atoms arranged in a periodic lattice. Topics include crystal structure, symmetry, and diffraction; crystal cohesion;

lattice dynamics; thermal properties; metallic properties and the Fermi surface; band theory of metals and semiconductors; and collective excitations.

PHYS 150B Introduction to Condensed Matter

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 150A. Covers properties of systems composed of many atoms arranged in a periodic lattice. Topics include superconductivity; magnetism; non-crystalline solids; defects in solids; surface and interface physics; and alloys.

PHYS 151 Topics in Modern Condensed Matter

Research 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): One of the following: PHYS 002B or BCH 110HB with a grade of "B-" or better, PHYS 040E with a C- or better, PHYS 041C with a grade of "C-" or better. Consent of instructor is required for students repeating the course. Introduces cutting-edge physics research being conducted in laboratories and institutes around the world. Focuses on a single research area (e.g., nanoscale physics, biological physics) that may change each quarter. Includes experimental methods and theoretical concepts. Course is repeatable as content changes to a maximum of 12 units.

PHYS 152A Exploring Many-Body Quantum

Physics With Mathematica 2 Lecture, 2 hours. Prerequisite(s): MATH 046; one of the following: PHYS 002C with a B- or better, PHYS 040E with a C- or better, PHYS 041C with a C- or better; or consent of instructor. MATH 031 is recommended. An introduction to numerics and visualization using Mathematica. Topics include random numbers and stochastic processes; time-dependent and stationary equations in matrix form; single-particle tight-binding model; single-spin dynamics; pure and mixed states; spin echo; the direct product of matrices; many-body quantum mechanics; and quantum spin chains.

PHYS 152B Exploring Many-Body Quantum

Physics With Mathematica 2 Lecture, 2 hours. Prerequisite(s): PHYS 152A or consent of instructor. Covers the symmetry of many-body wavefunction, including bosons and fermions; secondary quantization; harmonic oscillators; ladder operators, eigenvalues, and eigenfunctions; interacting many-body systems; mean field approximation; and density matrix of a subsystem and decoherence.

PHYS 156A Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B, MATH 046, PHYS 130B; one of the following: PHYS 002C or PHYS 02HC with a grade of "B-" or better, PHYS 040E with a grade of "C-" or better, PHYS 041C with a grade of "C-" or better. Topics include wave-particle duality, the Schrödinger equation, superposition, the uncertainty principle, and one-dimensional harmonic oscillator.

PHYS 156B Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 156A. Topics include the hydrogen atom, angular momentum and spin representations, many-electron systems, the Pauli exclusion principle, and perturbation theory.

PHYS 156C Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS

156B. Applications in quantum mechanics. Includes perturbation theory and other approximations, scattering, and an introduction to advanced topics such as relativistic quantum mechanics.

PHYS 163 Atomic Physics and

Spectroscopy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CHEM 113 or PHYS 156A with a C- or better, PHYS 135A with a C- or better, or consent of instructor. Covers the role of atomic physics and spectroscopy in the development of quantum mechanics; Bohrs old quantum theory; Heisenbergs matrix mechanics; Schrodingers wave mechanics; Dirac equation; the g-factor; Zeeman effect and the Darwin term; Spin-orbit coupling and Thomas precession; Dirac hydrogen atom; Fine structure; Hyperfine structure; Lamb shift.

PHYS 164 Introduction to Nuclear

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): One of the following: PHYS 002C or PHYS 02HC with a grade of "B-" or better, PHYS 040E with a grade of "C-" or better, PHYS 041C with a grade of "C-" or better. Addresses the basic nuclear properties, as well as the nuclear building blocks and structure. Explores radioactivity, nuclear interactions, the strong force, the confinement and chiral phase transitions, the quantum chromodynamics (QCD) vacuum, and matter at extreme temperatures and densities.

PHYS 165 Introduction to Particle

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 156A. Explores the classification of particles in terms of the Standard Model. Includes methods and techniques for particle acceleration and detection; conservation laws and symmetries; the basic interactions of particles (electromagnetic, strong, weak); and electroweak unification.

PHYS 166 Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 156A. Discusses current topics in astrophysics and cosmology from the perspective of elementary particle physics. Topics include the development and structure of the early universe, dark matter and dark energy, cosmic radiation, and particle physics in the stars.

PHYS 168 Environmental Physics 4 Lecture, 3 hours; discussion, 1. Prerequisite(s): MATH 046; PHYS 040C or PHYS 040HC; one of the following: CHEM 110B, PHYS 002C or PHYS 02HC with a "B-" or better, both PHYS 040D and PHYS 040E both with a grade of "C-" or better, PHYS 041C with a grade of "C-" or better. Covers the application of physics to environmental problems. Includes global climate, energy for human use, transport of pollutants, noise, environmental spectroscopy, and the evaluation of environmental issues in the context of society.

PHYS 177 Computational Methods For Physical

Sciences 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CS 010 or CS 012 or CS 009M; one of the following: PHYS 002C or PHYS 02HC with a grade of "B-" or better, PHYS 040E with a grade of "C-" or better, PHYS 041C with a grade of "C-" or better; or consent of instructor. Covers computer applications for solving problems in physical sciences.

Addresses symbolic manipulation languages such as Mathematica, mathematical operations, plotting, and symbolic and numerical techniques in calculus. Includes numerical methods such as histogramming, the Monte-Carlo method for modeling experiments, statistical analysis, curve fitting, and numerical algorithms.

PHYS 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of department chair Individual study to meet special curricular needs. May not be used to satisfy major requirements unless taken as a replacement for a course not being offered during the student's remaining tenure. Course is repeatable to a maximum of 9 units; a maximum of 5 units may be used to substitute for PHYS 142L.

PHYS 190L Special Studies at Los Alamos

National Laboratory 1 to 8 Individual Study, 3 to 24 hours. Prerequisite(s): admission to the UCR/LANL Educational Internship Program; consent of advisor and department chair. Individual study to meet special curricular needs. Course is repeatable to a maximum of 16 units.

PHYS 195A Senior Thesis 1 to 4 Thesis, 3 to 12 hours; Prerequisite(s): senior standing; consent of instructor. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 195B Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor; PHYS 195A. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 195C Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor; PHYS 195B. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not

exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 195D Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of instructor; PHYS 195C. A thesis written on research conducted under the supervision of a faculty member. May be undertaken as a one-, two-, three-, or four-quarter course (PHYS 195A, PHYS 195B, PHYS 195C, PHYS 195D). Total credit awarded for PHYS 195A plus PHYS 195B plus PHYS 195C plus PHYS 195D may not exceed 8 units; a maximum of 4 units may be used to satisfy the unit requirement for the major, and a maximum of 5 units of any combination of PHYS 195A, PHYS 195B, PHYS 195C, and PHYS 195D may be used to substitute for PHYS 142L. Graded In Progress (IP) until the last quarter is completed, at which time a final grade is assigned; a Satisfactory (S) or No Credit (NC) grade is awarded unless the course is taken to substitute for PHYS 142L.

PHYS 197 Research For Undergraduates 1 to

4 Individual Study, 3 to 12 hours. Prerequisite(s): upper-division standing and consent of instructor. Special research projects in physics performed under the supervision of a member of the staff. This course may not be used to satisfy the undergraduate unit requirement in the major. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

PHYS 198I Individual Internship in Physics 1

to 12 Written Work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): upper-division standing; consent of department chair. Provides experience as a practicing scientist in a government or industrial laboratory. Includes joint supervision by an off-campus sponsor and a Physics faculty member. Course is repeatable to a maximum of 12 units; a maximum of 4 units may be used to satisfy major requirements, and a maximum of 5 units may be used to substitute for PHYS 142L.

Graduate Courses

PHYS 202 Interdisciplinary Overview of Current Issues in Semiconductor Processing 3

Lecture, 3 hours. Prerequisite(s): graduate standing in Chemistry, Physics, Engineering, or a related subject or consent of instructor. An interdisciplinary overview of present-day semiconductor processing. Introduces topics such as properties of semiconductors, cleanroom environment, epitaxy, ion implantation, etching, lithography, device architecture, testing, and fault detection. May offer field trips. Cross-listed with CHEM 208, and MSE 245D.

PHYS 203 Statistical Astronomy 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 218. Introduces statistical methods needed to analyze astronomical data. Provides case examples of problems in observational astronomy and applies statistical techniques to

solve them. Covers probability, correlation and association, hypothesis testing, data modelling, maximum likelihood technique, detection and surveys, sequential data, and surface distribution. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 204 Advanced Galaxy Formation and Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 218; PHYS 219; graduate standing; or the consent of instructor. Covers topics on galaxy formation, star formation in galaxies, intergalactic medium, first generation of stars and galaxies, high redshift Universe, reionization, evolution of galaxies and stellar population, and number counts. Also covers luminosity functions, correlation functions, and clustering. Introduces new techniques and latest data sets and archives used for research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 205 Classical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Physics. Tensors, covariant derivative, the Riemann curvature tensor and Einstein's equation. The Schwarzschild metric and applications to the solar system and black holes. Gravity waves and expanding universe.

PHYS 208 General Relativity 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 205; graduate standing; or consent of instructor. An introduction to general relativity. Covers tensors, covariant derivatives, the Riemann curvature tensor, and Einstein's equation. Explores the Schwarzschild and Kerr black hole metrics and wormholes. Also addresses gravitational waves and their detection. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 209A Quantum Electronics 4 Lecture, 4.5 hours. Prerequisite(s): PHYS 135B, PHYS 156A; or consent of instructor. Quantum theory of light and interaction of light with atoms. Density matrix formulation of atomic susceptibility. Propagation of light in matter and optical waveguides. Optical resonators. Theory and operation of common lasers. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 209B Nonlinear Optics 4 Lecture, 4.5 hours. Prerequisite(s): PHYS 209A or consent of instructor. Wave propagation in nonlinear media. Electro-optic effect, three- and four-wave mixing, high-resolution nonlinear spectroscopies, rare atom and molecule detection, laser manipulation of particles, high-intensity laser physics, laser-plasma interactions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 209C Advanced Topics in Quantum Optics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 209A, PHYS 209B; or consent of instructor. Advanced topics in quantum optics and nonlinear optics. Topics include high resolution spectroscopy, atom trapping and manipulation, transient and time-resolved spectroscopy, coherent spectroscopy, GHz to X-ray sources and spectroscopy and coherent control in atoms, molecules, liquids, solids, surfaces and interfaces. May be taken

Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topics change to a maximum of 12 units.

PHYS 210A Electromagnetic Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Covers topics in electrostatics, including Coulomb potential, boundary value problems, multipoles, and dielectric media. Also addresses Laplace's equation and Green's function in Cartesian, spherical, and cylindrical coordinates.

PHYS 210B Electromagnetic Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 210A; graduate standing; consent of instructor. Covers topics in electromagnetism. Includes magnetostatics, quasistationary electromagnetism, Maxwell's equations, gauge transformations, Maxwell's stress tensor, analyticity of dielectric susceptibility, and electromagnetic waves in uniform media and waveguides.

PHYS 210C Electromagnetic Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 210B or consent of instructor. Covers electromagnetic radiation and scattering; propagation of electromagnetic fields in non-uniform media (geometrical optics, interference, and diffraction); special theory of relativity; Lagrangian formalism; and dynamics of relativistic particles in external fields. Also examines Cherenkov radiation and magnetic monopoles.

PHYS 211A Radiative Processes in Astrophysics 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 135A, PHYS 135B, PHYS 136, PHYS 156A, PHYS 156B. Radiative transfer of continuum and line radiation, Einstein coefficients, photoionization equilibria, radiation by free electrons, bremsstrahlung and synchrotron emission, Compton and inverse Compton scattering, wave propagation through magnetized plasmas, atomic and molecular structure and spectra, atomic fine structure, and molecular hyperfine lines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 211B Astrophysical Fluid Dynamics 4 Lecture, 3; consultation, 1 hour. Prerequisite(s): PHYS 211A. Covers hydrodynamics, sound waves, turbulence, supersonic turbulence, magnetohydrodynamics, Alfvén waves, extragalactic relativistic jets, supersonic jets, galactic spiral structure and density-wave theory, accretion disk theory, Balbus-Hawley instability, and stellar winds. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 212A Thermodynamics and Statistical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Covers thermodynamics, statistical mechanics, ideal Bose systems, ideal Fermi systems, and bulk motion. Cross-listed with MSE 204.

PHYS 212B Thermodynamics and Statistical Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MSE 204/PHYS 212A; graduate standing; consent of instructor. Addresses functional integrals

and approximation techniques. Provides an introduction to phase transitions and the renormalization group.

PHYS 213 Astrophysics of the Interstellar Medium 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. An overview of the interstellar medium and relevant physical processes. Covers the structure and evolution of ionized hydrogen regions associated with massive stars and supernovae. Also addresses the neutral and ionized phases of the interstellar medium, as well as cooling processes. Includes the interpretation of spectral lines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 214 Techniques of Observational Astrophysics 4 Lecture, 2 hours; laboratory, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing. An introduction to the basic tools of observational astronomy. Topics include astronomical telescopes and detectors, observing techniques, calibration, and error analysis. Students whose research is related to astronomy receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

PHYS 215 Dynamics and Evolution of Galaxies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Discusses the structure, stability, and dynamic and cosmologic evolution of galaxies. Interprets observational data on galaxies within a coherent theoretical framework. Topics include potential theory, orbits, collisionless systems, and the structure and evolutionary history of galaxies. Students whose research is related to astronomy receive a letter grade other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

PHYS 216 Star Formation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Discusses the processes involved in the formation of stars: the initial conditions in the interstellar medium that leads to star formation and the formation of planets and planetary systems around young stars. Topics include molecular cloud formation, the properties of young stars, jets and outflows, massive stars, and cosmological star formation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 217 Stellar Structure and Evolution 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Topics include physics of stellar structure and main sequence evolution, and energy production and transport; postmain sequence evolution through the giant stage and the formation of compact objects; supernovae, nucleosynthesis, pulsars, and the role of accretion within the framework of stellar evolution; and the physics of white dwarfs, neutron stars, and black holes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 218 Fundamentals of Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Develops basic astrophysical concepts from fundamental physics. Topics include nucleosynthesis, stellar structure, evolution of stars of different masses,

end-states of stars, and bremsstrahlung and synchrotron radiation. Also covers cross-sections, opacities, hydrogen atom transitions, forbidden lines, and molecular lines. Addresses the ongoing search of life in the Universe. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 219 Cosmology and Structure

Formation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or the consent of instructor. Explores cosmology, models for the universe, galaxy formation scenarios, evolution of galaxies and stellar population, and number counts. Also covers star formation activity in the universe, cosmic background radiation, dark matter, and dark energy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 220 Quantum Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): EE 201/MSE 207 or equivalent; graduate standing or consent of instructor. An introduction to quantum computing. Topics include qubits, entanglement, quantum gates, quantum circuit diagrams, simple quantum algorithms, quantum teleportation, quantum cryptography, Shor's factorization algorithm, Grover's search algorithm, and quantum error correction. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EE 214.

PHYS 221A Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Examines the fundamental concepts of quantum mechanics including wave functions and the uncertainty relations. Also covers time dependence of quantum systems, such as the simple harmonic oscillator and simple two-level systems.

PHYS 221B Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221A; graduate standing; consent of instructor. Covers angular momentum and approximation methods, including perturbation theory.

PHYS 221C Quantum Mechanics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221B; graduate standing; consent of instructor. Covers symmetries in quantum mechanics, identical particles, and scattering theory.

PHYS 224 Frontiers of Physics and

Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers particle physics to cosmology from an experimental perspective. Includes the present status of our understanding of the physics of the universe, the major challenges, and future opportunities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 225A Elementary Particles 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 221A, PHYS 221B, PHYS 221C; or consent of instructor. Provides an overview of particle physics. Topics include Quantum Electrodynamics (QED), the Quark-Parton Model, and Quantum Chromodynamics (QCD). Also discusses experimental techniques for particle detection and energy measurement.

May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 225B Elementary Particles 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 225A or consent of instructor. Covers advanced topics in particle physics such as the Standard model, Charge-Parity (CP) violation and conservation laws, and mixing in the neutral strange and bottom meson systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 226 Cosmology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 208. Discusses advanced topics in cosmology: Friedmann models and the large-scale structure of the universe, Hubble constant and deceleration parameter, and galaxy counting and the physics of the early universe. Also covers vacuum phase transitions, inflation, baryon number generation, fluctuations, topological defects and textures, primordial nucleosynthesis, density fluctuations, dark matter candidates, and the age of the universe. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 227 Particle Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 226. An introduction to current research in particle astrophysics: the very early universe, the origin of matter, primordial perturbations, the origin of structure, the nature of dark matter, vacuum energy, matter-antimatter asymmetry, neutrino astrophysics, gravitational radiation, black holes, the origin of ultrahigh energy cosmic rays, and Hawking radiation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 229 Theory of Dark Matter Halos and Galaxies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. A theory-based study of the properties of dark matter halos and their connection to galaxy properties. Topics include dark matter collapse in the non-linear regime, Press-Schechter, self-similar collapse, acquisition of mass, and angular momentum. Includes the impact of dark matter properties on hosted galaxies, mergers, environmental effects, and scaling relations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 230A Advanced Quantum Mechanics and Quantum Theory of Fields 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 221A, PHYS 221B, PHYS 221C; or consent of instructor. Topics include quantization of fields for particles with spins 0, 1/2, and 1; path integrals; Feynman diagrams; and scattering amplitude and cross sections. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 230B Advanced Quantum Mechanics and Quantum Theory of Fields 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 230A or consent of instructor. Explores renormalization of quantum field theory, gauge invariance, spontaneous breaking of gauge symmetry, Quantum Chromodynamics, and electroweak interactions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and

graduate advisor.

PHYS 230C Advanced Quantum Mechanics and Quantum Theory of Fields 4

Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): PHYS 230B or consent of instructor. A study of current topics in quantum field theory, including solitons and instantons, supersymmetry, and the unification of all forces. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 231 Methods of Theoretical

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. A study of analytic functions, Cauchy's theorem, Taylor series, Laurent series expansions, the residue theorem, and analytic continuation.

PHYS 234 Physics of Nanoscale

Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Introduction to fundamental quantum physics in nanoscale systems and low dimensional materials. Including synthesis of low-dimensional material systems; physics-based experimental approaches to nanotechnology; mesoscopic quantum transport of electrons; quantum phenomena involving spin; silicon nanoelectronics and beyond; and future electronics based on topological materials. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 234A.

PHYS 235 Spintronics and Nanoscale

Magnetism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of contemporary issues in nanoscale magnetism and spin-dependent phenomena in solids, including the fundamentals of magnetism, magnetism in reduced dimensions, novel magnetic materials, spin-polarized transport, spin coherence in semiconductors, magnetization dynamics, and device applications. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 234B.

PHYS 236 Experimental Techniques in

Condensed Matter Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Survey of common experimental techniques used in the field of condensed matter physics. Topics include nanofabrication and characterization, advanced thin film growth methods, vacuum techniques, electrical and magnetic characterization, cryogenic instrumentation, optical measurements, X-ray techniques, data acquisition and analysis, and general lab techniques. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 240A Condensed Matter

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 221C; graduate standing; or consent of instructor. Topics include classical and quantum theories of the electron gas; crystal and reciprocal lattices; crystal symmetries; electrons in a periodic potential; nearly free electrons; tight binding; band structure; metals, insulators and semiconductors; semiclassical

dynamics; and semiclassical transport. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with MSE 214.

PHYS 240B Condensed Matter

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 240A; graduate standing; or consent of instructor. Topics include electron scattering, electron-electron interactions, classical and quantum harmonic crystals, and phonon dispersion relations. Also addresses dielectric properties, magnetism, and superconductivity. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 241A Advanced Statistical Physics and Field Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 212B; PHYS 221C; graduate standing; or consent of instructor. Topics include elementary excitations in many-body systems, critical phenomena and the renormalization group technique, Green's functions and Feynman diagrams, and other field-theory techniques, and advanced topics in condensed matter physics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 241B Advanced Statistical Physics and Field Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 241A. Topics include advanced field-theory techniques applied to many-body systems, exactly soluble classical and quantum models in one and two dimensions, quantum Hall effect, and other advanced topics in condensed matter physics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 241C Advanced Statistical Physics and Field Theory 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; PHYS 241B. Topics include quantum magnetism, unconventional superconductivity, localization, transport phenomena, mesoscopic systems, nonequilibrium phenomena, and advanced field-theory methods, such as methods for treating disorder. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 242 Physics at Surfaces and Interfaces 4

Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Overview of surface science, electronic and geometric structure of clean surfaces, techniques for investigating structure, electron spectroscopy of surfaces, adsorption on surfaces, vibrations on surfaces, and epitaxial growth and applications of surface science. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 243 Foundations of Applied Machine Learning 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. For PHYS 243 online section; enrollment in the Online Master-in-Science in Engineering program. Covers basic principles of machine learning (ML) and introduces deep learning. Topics include ML algorithms, practical examples, and case studies for application of

ML and deep learning to different disciplines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 244 Application of Visualization in Data Science 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. For PHYS 244 online section; enrollment in the Online Master-in-Science in Engineering program. Develops interactive visualization and data mining techniques for massive multidimensional datasets. This includes 3D visualization and interaction, fast data exploration and development of big data solutions for text and binary data-intensive applications. Includes details of advanced data visualization techniques and the tools for handling and visualizing massive datasets.

PHYS 245 Atomic and Solid-State Physics With Positrons 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or the consent of instructor. An overview of the field of antimatter science. Includes beta decay, positron sources, positronium physics, positron annihilation spectroscopy, slow positron physics, solid state physics with slow positrons, atomic physics with slow positrons, and many positron physics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 246 Biological Physics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate or consent of instructor. Introduces topics at the interface of physics and biology: cell physiology, probability and information, diffusion, random walks, electrostatics, elasticity of biopolymers and membranes, DNA topology, friction in fluids, and low Reynolds numbers. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 247 Introduction to Applied Data Science 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PHYS 247 online section; enrollment in the Online-Master-in-Science in Engineering program. PHYS 247 in-person section: graduate standing; or consent of instructor. Designed to provide all the necessary background knowledge to follow other data science courses. Covers basic principles of machine learning (ML) and Python Programming and introduces deep learning. Topics include ML algorithms, practical examples, and case studies for application of ML and deep learning to different disciplines. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PHYS 250 Special Topics Seminar in

Physics and Astronomy 2 Seminar, 2 hours. Prerequisite(s): graduate standing in Physics and Astronomy or consent of instructor. Includes oral presentations and intensive small-group discussion of selected topics in the area of specialization of each faculty member. Emphasizes recent advances in the special topic area; course content varies accordingly. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable.

PHYS 253 (E-Z) Special Topics 3 Seminar, 3 hours. Prerequisite(s): graduate standing. Discusses subjects such as

magnetohydrodynamics, astrophysics, and high-energy physics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of units.

PHYS 253E Heavy-Fermion

Compounds 3 Seminar, 3 hours. Prerequisite(s): consent of instructor. Normal and superconducting properties of heavy-electron actinide and lanthanide intermetallic compounds. Evidence for f bands vs. Kondo scattering, triplet superconductivity, etc. Survey of recent experimental and theoretical literature. Graded Satisfactory (S) or No Credit (NC).

PHYS 253K Current Theoretical

Topics 3 Seminar, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Current theoretical topics, mostly in high-energy physics. Examples are supersymmetry, gravitation and general relativity, string theory, topology, group theory, and model building in high-energy physics. Graded Satisfactory (S) or No Credit (NC).

PHYS 253M Theoretical Topics: Condensed Matter 3

Seminar, 3 hours. Prerequisite(s): graduate standing. Current theoretical topics, mostly in high-energy physics. Examples are supersymmetry, gravitation and general relativity, string theory, topology, group theory, and model building in high-energy physics. Graded Satisfactory (S) or No Credit (NC).

PHYS 253N Ion-Surface Interactions 3

Seminar, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the theory and applications of ion-surface interactions, surface ionization and excitation, the formation of positive and negative ions and excited atoms at a surface, electron emission due to ion-surface interactions, and electronic processes in collision cascades. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 253Q Space and Astrophysics 3

Seminar, 3 hours. Prerequisite(s): graduate standing. Current theoretical topics, mostly in high-energy physics. Examples are supersymmetry, gravitation and general relativity, string theory, topology, group theory, and model building in high-energy physics. Graded Satisfactory (S) or No Credit (NC).

PHYS 256 Advances in Nanoscale Physics 1 or 2

Seminar, 1 hour; individual study, 0 or 3 hours. Prerequisite(s): graduate standing. Seminars on current topics in nanoscale physics and materials science, including nanoelectronic devices, nanoelectromechanical systems, nanoscale biophysics, spintronics, nanoscale magnetism, nanophotonic systems, and advanced characterization techniques. Students who give class presentations receive credit for 2 units; other students receive credit for 1 unit. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 258 Seminar in Surface

Science 1 Seminar, 1 hour. Prerequisite(s): graduate standing in Physics or Chemistry or consent of instructor. Oral presentations by participating visiting scholars, postdoctoral researchers, students, and UCR faculty on current research topics in surface science. Students who present a seminar or submit a term paper receive a letter grade; other students

receive a Satisfactory (S) or No Credit (NC) grade. Cross-listed with CHEM 258.

PHYS 260 Special Topics in Condensed Matter

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores topics in condensed matter physics that emphasize recent advances. Content varies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

PHYS 261 Special Topics in

Astrophysics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores topics in astrophysics that emphasize recent advances. Content varies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

PHYS 262 Special Topics in High Energy

Physics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Explores topics in high energy physics that emphasize recent advances. Content varies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

PHYS 288 Current Research Themes in

Physics 2 Seminar, 1 hour; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduces first-year graduate students to current issues in physics research at UCR. Involves seminars by faculty on their research and interaction with advanced students and postdoctoral researchers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 289 Colloquium in Physics 1

Colloquium, 1 hour. Prerequisite(s): graduate standing; consent of instructor. Specialized discussions by visiting scientists, faculty, and students on current research topics in physics. Graded Satisfactory (S) or No Credit (NC). course is repeatable.

PHYS 290 Directed Studies 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor; consent of advisor or Department Chair. Individual study, directed by a faculty member, of specially selected topics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 291 Individual Study in Coordinated

Areas 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Faculty-assisted programs of individual study for candidates who are preparing for examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable within the following limits: Up to 6 units may be taken prior to award of the Master's degree, such units to be in addition to minimum unit requirements for the degree. Up to 12 additional units may be taken (continued) prior to advancement to candidacy for the Ph.D.

PHYS 296 Summer Research in

Physics 2 Research, 20 hours per quarter. Prerequisite(s): graduate standing; or consent

of instructor. Provides mentoring by faculty on research and interaction with advanced graduate students and postdoctoral researchers. Graded Satisfactory (S) or No Credit (NC).

PHYS 297 Directed Research 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing; consent of instructor. Original research, in an area selected for the advanced degree, performed under the direction of a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 299 Research For Thesis Or Dissertation 1

to 12 Thesis, 3 to 36 hours. Prerequisite(s): graduate standing; consent of instructor. Original research, in an area selected for the advanced degree, performed under the direction of a faculty member. This research is to be included as a part of the dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

PHYS 301 Teaching of Physics at the College

Level 2 Lecture, 2 hours. Prerequisite(s): graduate standing in Physics or consent of instructor. Required of all Teaching Assistants in the Department. Designed to introduce effective methods for teaching physics and to evaluate and improve teaching skills. Topics covered include lecture techniques, effective visual aids, improving laboratory and recitation section learning situations. Credit not applicable toward degree course requirements. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PHYS 302 Teaching Practicum 1 to

4 Consultation, 1 hour; laboratory, 3 to 12 hours; practicum, 3 to 12 hours. Prerequisite(s): Appointment as a departmental Teaching Assistant; graduate standing. Supervised teaching in Physics courses and regular consultation with faculty supervisor(s) regarding teaching responsibilities. Credit not applicable toward degree course requirements. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PHYS 401 Professional Development in Physics

and Astronomy 2 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor; Introduces students to strategies for successful graduate study and early career development. Covers research and professional ethics, scientific writing (proposals, manuscripts, and abstracts), conference presentations, effective job search skills including preparation of curriculum vitae and networking, effective oral presentations, and job interviews. Visiting experts may give lectures on various topics. Graded Satisfactory (S) or No Credit (NC).

PLANT BIOLOGY

MICROBIOLOGY AND PLANT PATHOLOGY

Subject abbreviation: PLPA

College of Natural and Agricultural Sciences

Katherine A. Borkovich, Ph.D., Chair
Department Office, 1234B Genomics
(800) 735-0717 or (951) 827-2753
microplantpath.ucr.edu

Professors

James E. Adaskaveg, Ph.D.
Katherine A. Borkovich, Ph.D.
James Borneman, Ph.D.
Michael D. Coffey, Ph.D.
Shou-Wei Ding, Ph.D.
Hailing Jin, Ph.D.
Howard S. Judelson, Ph.D.
Wenbo Ma, Ph.D.
A. L. N. Rao, Ph.D.
Jason E. Stajich, Ph.D.
Georgios Vidalakis, Ph.D.

Professors Emeriti

Michael F. Allen, Ph.D.
Salomon Bartnicki-Garcia, Ph.D.
Donald A. Cooksey, Ph.D.
J. Allan Dodds, Ph.D.
Dennis D. Focht, Ph.D.
John A. Menge, Ph.D.
Howard Ohr, Ph.D.
Joseph S. Semancik, Ph.D.
Michael E. Stanghellini, Ph.D.
Peter H. Tsao, Ph.D.
Seymour D. Van Gundy, Ph.D. (Plant Pathology and Microbiology/Nematology)

Associate Professors

James Ng, Ph.D.
Caroline Roper, Ph.D.

Assistant Professors

Emma Aronson, Ph.D.
Patrick Degnan, Ph.D.
Emma Gachomo, Ph.D.
Sydney I. Glassman, Ph.D.
Rong Hai, Ph.D.
Ansel Hsiao, Ph.D.
Patricia Manosalva, Ph.D.
Juliet Morrison, Ph.D.

Lecturers

J. Ole Becker, Ph.D. (Nematology)
Alexander Putman, Ph.D.
Antoon T. Ploeg, Ph.D.
Andreas Westphal, Ph.D.

Affiliated Faculty

Xuemei Chen, Ph.D. (Botany and Plant Sciences)
Isgouhi Kaloshian, Ph.D. (Nematology)
Philip Roberts, Ph.D. (Nematology)
Joel Sachs, Ph.D. (Biology)

Undergraduate Curriculum

The Department of Microbiology and Plant Pathology participates in the Microbiology and Botany and Plant Sciences majors leading to the baccalaureate degree. See the Microbiology or Botany and Plant Sciences section of this

catalog.

Graduate Program

The Department of Microbiology and Plant Pathology offers the M.S. and Ph.D. degrees in Plant Pathology.

Admission

In addition to meeting the requirements for admission to the Graduate Division, students typically have a baccalaureate major in a biological science or training equivalent to that given in the Plant Science curriculum of the College of Natural and Agricultural Sciences. Majors in the physical sciences are welcomed, but students must be prepared to augment their undergraduate preparation with courses in the biological sciences. All applicants must provide GRE General Test scores (verbal, quantitative, analytical).

All candidates for the M.S. or the Ph.D. degree should have good basic preparation in chemistry and biology. It is common for students to have completed courses in biochemistry, organic chemistry, cell and molecular biology, calculus, general physics, general botany, microbiology, statistics, genetics, plant physiology, mycology, and plant pathology. If these courses have been completed as an undergraduate, graduate study is facilitated. If students have not completed these courses prior to admission, they may be required to take them early in their graduate career.

Master's Degree

General university requirements are given in the Graduate Studies section of this catalog. The master's degree in Plant Pathology is offered under Plans I or II.

Plan I (Thesis) requires 36 units of upper-division and graduate courses, of which at least 24 must be in the 200 series courses in Plant Pathology or Nematology. A maximum of 12 units may be in graduate research for the thesis.

Plan II (Comprehensive Examination)

requires 36 units of upper-division and graduate courses, of which at least 18 must be in the 200-series courses in Plant Pathology or Nematology, excluding graduate research for a thesis or dissertation, and a comprehensive final examination in the major subject.

The departmental graduate advisory committee, in consultation with the student's major professor or curriculum advisor, is responsible for prescribing the course of study, which requires as a minimum of PLPA 200, PLPA 206/NEM 206, PLPA 207, PLPA 210, PLPA 234, PLPA 250 and PLPA 265.

Doctoral Degree

In accord with the student's preparation and specific interests, the departmental graduate advisory committee, in consultation with the student's major professor or curriculum advisor, prescribes areas where study is required. In addition to selected subjects in plant pathology, related fields in which some degree of competence may be expected is drawn normally from biochemistry, biology, chemistry, cell and molecular biology, entomology, genetics, genomics, mathematics, microbiology, nematology, plant physiology, soils, and statistics.

The departmental graduate advisory committee, in consultation with the student's major professor or curriculum advisor, is responsible for prescribing the course of study.

Course Work

The course of study requires as a minimum PLPA 200, PLPA 206/NEM 206, PLPA 207, PLPA 210, PLPA 234, PLPA 250 and PLPA 265.

Written and Oral Qualifying Examinations

Students must demonstrate to the departmental graduate advisory committee, by written and oral examination, adequate preparation in the fields fundamental to plant pathology and in any area in which students have placed special emphasis in their training. A written dissertation research proposal is to be prepared before the qualifying examination and defended during the oral examination. After successful completion of the qualifying examination and all other formal requirements to the satisfaction of the dean of the Graduate Division, the student is advanced to candidacy for the Ph.D. degree.

Dissertation and Final Oral Examination

A dissertation is required of every candidate. The dissertation must be approved by the dissertation committee before the candidate may take the final oral examination. The final oral examination deals primarily with defense of the dissertation and its relation to the field in which its subject lies.

Professional Development Training

Both M.S. and Ph.D. students fulfill their professional development training by enrolling in PLPA 265, a 3-unit course that covers a range of topics including careers in plant pathology, cv preparation, skills on giving scientific presentations, strategies for success in the candidacy examination and graduate school, data acquisition, management and ownership, policy and regulation, as well as intellectual property.

Normative Time to Degree 18 quarters

Lower-Division Courses

PLPA 010 Microbes and Society: A Window Into the Microbial World Around Us 4

Lecture, 3 hours; extra reading, 3 hours. An introduction to the remarkable diversity and biology of microorganisms. Emphasizes the areas microorganisms impact human affairs, including food production, agriculture, medicine, and history. Includes cheese-, yogurt-, wine-, beer- and bread-making; the Irish potato famine; tulipomania; antibiotics; mushrooms and mushroom lore; food preservation; microbial toxins and food poisoning; and vaccines and useful viruses.

Upper-Division Courses

PLPA 120 Introduction to Plant

Pathology 3 Lecture, 3 hours. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. An introduction to the study of plant diseases.

Topics include diseases and disease-causing agents, host-pathogen interaction during disease development, and strategies for disease management. An optional, separate laboratory is offered. Cross-listed with BIOL 120 and MCBL 120. Credit is not awarded for PLPA 210 if it has already been awarded for BIOL 120/MCBL 120/PLPA 120 and/or BIOL 120L/ MCBL 120L/ PLPA120L.

PLPA 120L Introduction to Plant Pathology

Laboratory 1 Laboratory, 4 hours.

Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020; BIOL 005B; BIOL 005C; CHEM 001C or CHEM 01HC; CHEM 01LC or CHEM 01HLC; CHEM 008C or CHEM 08HC; CHEM 08LC or CHEM 08HLC; MATH 007B or MATH 009B or MATH 09HB; PHYS 002C or PHYS 02HC; PHYS 02LC or PHYS 02HLC; BCH 100 or BCH 110A or BCH 110HA; MCBL 120, may be taken concurrently or BIOL 120, may be taken concurrently or PLPA 120, may be taken concurrently; STAT 100A, may be taken concurrently; BIOL 121/MCBL 121 and BIOL 124/MCBL 124 recommended; or consent of instructor. Covers fundamentals in the use of laboratory instruments and techniques for the detection, isolation, and identification of representative infectious agents that cause disease in plants. Cross-listed with BIOL 120L, and MCBL 120L. Credit is awarded for one of the following MCBL 120L, BIOL 120L, PLPA 120L, or PLPA 210.

PLPA 123 Introduction to Comparative

Virology 4 Lecture, 3 hours; discussion, 1 hour.

Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC, BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Considers viruses as infectious agents of bacteria, plants, and animals (vertebrates and invertebrates). Compares the major groups of viruses to each other with respect to their biological and biochemical properties, molecular and genetic characteristics, and modes of replication. Cross-listed with BIOL 123, and MCBL 123.

PLPA 125 Pesticides, Biological Organisms,

and the Environment 3 Lecture, 3 hours.

Prerequisite(s): two of the following courses; BIOL 005A; BIOL 005B; BIOL 005C; CHEM 008A and CHEM 08LA or CHEM 08HA and CHEM 08HLA; CHEM 008B and CHEM 08LB or CHEM 08HB and CHEM 08HLB; CHEM 008C and CHEM 08LC or CHEM 08HC and CHEM 08HLC. An introduction to the chemistry, mode of action, and use of insecticides, acaricides, herbicides, and biopesticides from discovery to environmental interactions. Includes genetics of pesticide resistance development and government regulation. Cross-listed with ENTM 125 and ENTX 125.

PLPA 134 Introduction to Mycology 3

Lecture, 3 hours. Prerequisite(s): BIOL 005A, BIOL 05LA or BIOL 020, BIOL 005B, BIOL 005C, CHEM 001C or CHEM 01HC, CHEM 008C and CHEM 08LC, or CHEM 08HC and CHEM 08HLC, MATH 007B or MATH 009B or MATH 09HB, PHYS 002C or PHYS 02HC, PHYS 02LC or PHYS 02HLC,

BCH 100 or BCH 110A or BCH 110HA, one course in statistics; or consent of instructor. Introduction to the morphology, taxonomy, genetics, physiology, ecology, and economic importance of the major groups of the fungi. Cross-listed with BIOL134.

PLPA 134L Introduction to Mycology

Laboratory 1

Laboratory, 3 hours. Prerequisite(s): BIOL 005A, BIOL 005B, BIOL 005C, or equivalents; concurrent enrollment in BIOL 134/PLPA 134; or consent of instructor. Introduces fundamentals in the use of laboratory instruments and techniques for the isolation, cultivation, and identification of representatives of the major taxa of fungi. Cross-listed with BIOL134L.

PLPA 190 Special Studies 1 to 5 Prerequisite(s): consent of instructor. To be taken as a means of meeting special curricular problems.

PLPA 197 Research For Undergraduates 1 to 4 Prerequisite(s): consent of instructor. Individual research in plant pathology performed under the guidance of members of the staff.

Graduate Courses

PLPA 200 Fungal Diseases of Plants 3

Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): BIOL 134/PLPA 134 or consent of instructor. A study of important fungal diseases of plants including biology of development of pathogens, host-parasite relations, and survival strategies. Emphasizes disease physiology, epidemiology, etiology, and control measures including breeding for resistance and chemical and biological control.

PLPA 205 Signal Transduction Pathways

in Microbes and Plants 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in the biological sciences, BIOL 107A or BIOL 113 or BIOL 114 or CBNS 101; or consent of instructor. Advanced topics in signal transduction pathways that regulate growth and development in plants and prokaryotic and eukaryotic microbes. Areas covered include two-component regulatory systems; quorum sensing; signaling via small and heterotrimeric G proteins; mitogen-activated protein kinase cascades; cAMP signaling; photoreceptors; plant hormone signaling; responses to low-oxygen stress; calcium signaling; and plant pathogenesis. Cross-listed with CMDB 205, BCH 205, GEN 205, BPSC 205, and MCBL 205.

PLPA 206 Phytopathogens:

Nematodes 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Recognition, diagnosis, biology, and control of major nematode diseases of plants. Laboratory covers identification techniques, soil sampling and processing techniques, and process of pathogenesis. Cross-listed with NEM 206.

PLPA 207 Bacterial and Viral Diseases of

Plants 3 Lecture, 2 hours; laboratory, 3 hours. Prerequisite(s): BIOL 120, MCBL120, or PLPA 120; or consent of instructor. An extensive introduction to bacterial diseases of plants including symptomatology, epidemiology, diagnosis, control, and the physiology and biochemistry of plant-bacterial interactions.

PLPA 210 Introduction to Plant

Pathology 5 Lecture, 3 hours; laboratory, 3 hours; discussion, 1 hour; term paper, 2 hour. Prerequisite(s): graduate standing. Studies the major concepts and principles of plant pathology to become familiar with the group of pathogens causing infectious diseases in plants. Offers an understanding of the most recent approaches to study plant pathogens and the interactions with their host as they may be applied to animal and human research. Credit is not awarded for PLPA 210 if it has already been awarded for BIOL 120/BIOL 120L and/or PLPA 120/PLPA120L and/or MCBL 120/MCBL 120L.

PLPA 219 Molecular Plant Virology 3 Lecture, 3 hours. Prerequisite(s): PLPA 207. Molecular biology of plant, animal, and bacterial viruses and viroids. Emphasizes plant viruses, replication strategies, evolution, genetics, viruses as genetic vectors, and recombination.

PLPA 221 Chemical Control of Plant

Diseases 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. A study of the principles of selective toxicity as applied to the control of plant diseases; the chemistry and mechanism of action of antimicrobial agents.

PLPA 226 Microbial Genetics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BCH 110C or BIOL 107A; BIOL 102. In-depth coverage of the genetics of microbes. Emphasizes the primary data and the foundation of modern techniques using viruses, archae, prokaryotes, and eukaryotes. Includes genome sequences and organization, plasmids and other vectors, and mutation and genetic screens. Also covers transposable elements, recombination, and regulation of gene expression, development, and pathogenesis. Cross-listed with BIOL 221, and MCBL 221.

PLPA 230 Molecular Plant-Microbial

Interactions 3 Lecture, 2 hours; discussion, 1 hour. Prerequisite(s): BCH 100, BIOL 120/MCBL 120/PLPA 120, or equivalents. A study of the physiology of host-pathogen interactions with emphasis on the metabolism of diseased plants, nature of pathogenicity, and defense mechanisms in plants. Cross-listed with BPSC 230, CMDB 230, and GEN 230.

PLPA 234 Introduction to Mycology 5 Lecture, 3 hours; laboratory, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing in Plant Pathology. Introduction to the kingdom fungi and related kingdoms of organisms. Includes overview of major taxonomic groups of fungi and their morphology, physiology, classical genetics, and ecology. Discusses the economic importance of fungi as related to plant pathology. Credit is not awarded for PLPA 234 if it has already been awarded for BIOL 134/PLPA 134 and/or BIOL 134L/PLPA 134L.

PLPA 235 Epidemiology of Plant

Disease 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): BIOL 120/MCBL 120/PLPA 120. An introduction to the study of plant disease epidemics and their management. Topics will include: temporal, spatial, and genetic aspects of disease development in plant populations; assessment and prediction of disease and crop loss; inoculum density-disease relationships; and modeling.

PLPA 240 Field Plant Pathology 1 field trips, Prerequisite(s): consent of instructor. This course will deal with diagnosis of plant disease in the field, collection methods, identification of pathogens, and control methods. Graded Satisfactory (S) or No Credit (NC).

PLPA 241 Special Topics 2

Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Oral presentations and intensive small-group discussion of selected topics in each faculty member's area of specialization. Course content emphasizes recent advances in the special topic area and varies accordingly. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with MCBL 241.

PLPA 245 Field Mycology 1 field trips, Prerequisite(s): BIOL 134/PLPA 134 or consent of instructor. This course will deal with observation, collection and identification of fungi both in the field and the laboratory. Graded Satisfactory (S) or No Credit (NC).

PLPA 246 Diagnosis of Plant Disease 2

Lecture, 3 hours; laboratory, 1 hour; field, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Field trips to observe symptomatology of diseases in nature, identification by laboratory and greenhouse tests, approaches to control, culture practices for major California crops, and influences of crop management on disease development.

PLPA 250 Seminar in Plant

Pathology 1 Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Reports and discussions of selected topics in plant pathology by graduate students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PLPA 260 Current Research in Plant

Pathology 1 Seminar, 1 hour. Prerequisite(s): graduate standing. Topics in plant pathology will be discussed by outstanding workers in the field from this and other campuses and by graduate students. Graded Satisfactory (S) or No Credit (NC).

PLPA 261 Seminar in Genetics, Genomics, and Bioinformatics 1

Seminar, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Oral reports by visiting scholars, faculty, and students on current research topics in Genetics, Genomics, and Bioinformatics. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with BCH 261, BIOL 261, BPSC 261, ENTM 261, and GEN 261.

PLPA 265 A Colloquium On the Principles of Plant Pathology 3

Lecture, 3 hours. Prerequisite(s): advanced standing in the program. Faculty members will rotate as leaders in structured discussions leading to a synthesis of concepts from other courses, the heterogeneity of plant pathology as a scientific discipline, and its unifying principles. Graded Satisfactory (S) or No Credit (NC).

PLPA 290 Research Or Study On Special Topics By Individual Graduate Students 1 to 6

Research, 1 to 6 hours. Prerequisite(s): graduate status. This course is designed to allow graduate students to study an area or areas

not covered by formal course work under a professor who will direct the amount and judge the quality of the work. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PLPA 291 Individual Study in Coordinated

Areas 1 to 6 Research, 1 to 6 hours.

Prerequisite(s): graduate status. A program of study designed to advise and assist candidates who are preparing for examinations. A student may take up to 12 additional units prior to successful completion of the Ph.D. qualifying examination. Graded Satisfactory (S) or No Credit (NC).

PLPA 297 Directed Research 1 to 6 Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PLPA 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): . . Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POLITICAL SCIENCE

Subject abbreviation: POSC
**College of Humanities, Arts,
and Social Sciences**

John Medearis, Ph.D., Chair
Department Office, 2206 Watkins Hall
politicalscience.ucr.edu

Professors

Benjamin Bishin, Ph.D.
Shaun Bowler, Ph.D. *Distinguished Professor*
Paul D'Anieri, Ph.D.
Kevin M. Esterling, Ph.D.
Indridi Indridason, Ph.D.
Kelechi A. Kalu, Ph.D.
John C. Laursen, Ph.D.
John N. Medearis, Ph.D.
Jennifer Merolla, Ph.D.
David S. Pion-Berlin, Ph.D.
S. Karthick Ramakrishnan, Ph.D.
Georgia Warnke, Ph.D. *Distinguished Professor*

Professors Emeriti

Max Neiman, Ph.D.

Associate Professors

Miguel Carreras, Ph.D.
Loren Collingwood, Ph.D.
John W. Cioffi, Ph.D.
Farah Godrej, Ph.D.
Jana Grittersova, Ph.D.
Bronwyn A. Leebaw, Ph.D.
Ronald O. Loveridge, Ph.D.
Benjamin Newman, Ph.D.

Assistant Professors

Daniel Biggers, Ph.D.
Marissa Brookes, Ph.D.
Kim Dionne, Ph.D.
Noel P. Johnston, Ph.D.
Steven Liao, Ph.D.
Francisco I. Pedraza, Ph.D.
Melinda Ritchie, Ph.D.
Ajay Verghese, Ph.D.
Nicholas Weller, Ph.D.

Assistant/Associate Professors of Teaching

Yasemine Irepoglu-Carreras, Ph.D.

Lecturers

Bruce Bordner, Ph.D.
Jeremy Busacca, Ph.D.
Whitney Mannies, Ph.D.
Peter Mort, J.D.
W. Parkes Riley, Ph.D.

Majors

The Political Science Department offers undergraduate majors leading to B.A. degrees in Political Science, Political Science/Administrative Studies, Political Science/International Affairs, Political Science/Law and Society, and Political Science/Public Service. In addition, the department offers minors in Political Science and International Relations.

Counseling

Counseling on graduation and departmental requirements and on enrollment is handled in the department office by the student affairs staff.

For more information about the undergraduate programs, call or write the Department of Political Science, (951) 827-5502 or (951)827-5312.

Political Science Major

The study of political science provides undergraduates with career opportunities in law, government service, education, journalism, and business. Because career goals may vary, the department offers two distinct majors. For students planning careers in such areas as law, journalism, or teaching, the traditional major in Political Science is appropriate. For students considering careers in government service, especially for such positions as program and budget analyst, urban planner, and executive or administrative assistant, the appropriate major is the Political Science/Public Service major.

Further information on the study of law or the legal profession may be obtained from the departmental prelaw counselor.

Political Science/Administrative Studies Major

The Political Science/Administrative Studies major combines the disciplinary interests of political science with a particular focus on administrative behavior, tools of decision making, and politics of public policy. The Administrative Studies component provides an interdisciplinary approach to training in administrative analytical skills and, more importantly, to the study of the policies, politics, and theories of public administration. The Business Administration courses provide a variety of perspectives on these objectives. In addition, they should be of particular value to those planning to either enter directly into public administration (federal, state, or local levels) or attend a professional school of administration.

Political Science/International Affairs Major

The Political Science/International Affairs major offers a challenging opportunity to observe and participate in the dynamics of global interaction. As versatile as it is valuable, a degree in international affairs prepares the student for work in many diverse careers in the private sector, government, and academia. From diplomatic missions to the United Nations to intense debate with a private "think tank," careers in international affairs should appeal to students seeking to understand and influence the world in which we live.

Political Science/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. The major combines the breadth of a political science major with a particular focus on the theme of law and law-like relationships. The major provides a multidisciplinary approach to the study of legal and law-like institutions and relationships and focuses on relationships that have formed the core of political science: the emergence and development of law, the relationship between law and values, and the growth of the power of the state, among others. The courses provide a variety of perspectives on this theme, and the range of courses should be of particular benefit to those who plan to attend law school.

Political Science/Public Service Major

The Political Science/Public Service major introduces students to knowledge and skills associated with managerial career positions in government, without sacrifice of either a broad knowledge of politics or a liberal arts education.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The Political Science Department offers undergraduate majors leading to B.A. degrees in Political Science, Political Science/Administrative Studies, Political Science/International Affairs, Political Science/Law and Society, and Political Science/Public Service.

Political Science Major

The major requirements for the B.A. degree in Political Science are as follows:

1. **Lower-division requirements (four courses [at least 16-20 units]): one course from a, b, c, and d.**

Students in the major must complete two of the four lower-division Political Science courses with a grade of "C" or better in order to take upper-division Political Science courses.

- a) POSC 005 or POSC 005H or POSC 005W or POSC 007
- b) POSC 010 or POSC 010H or POSC 010W
- c) POSC 015 or POSC 015H or POSC 017
- d) POSC 020 or POSC 020H

Upper-division requirements (nine courses [at least 36 units])

- a) One course from each of the following areas:
 - (1) **U.S. Government and Politics:** POSC 100, POSC 101, POSC 104 or 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182, POSC 183, POSC 184 or POSC 184S, POSC 186
 - (2) **Comparative Government and Politics:** POSC 109/RLST 173 POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S
 - (3) **International Relations and Foreign**

Policy: POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127 or POSC 127S, POSC128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S POSC 137 or POSC 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169

- (4) **Political Theory:** POSC 106 or POSC 106S, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, POSC121/CLA 121/CPAC 121 or POSC 121S /CLA 121S/CPAC 121S, POSC 122 or POSC 122S

- b) Five additional courses in Political Science course work (Not more than 2 courses from the 190 series and POSC 142L and POSC 142M are allowed toward the nine-course upper-division requirement.)

A course in statistics is strongly recommended.

Political Science/Administrative Studies Major

The major requirements for the B.A. degree in Political Science/Administrative Studies are as follows. Note that the prerequisite for POSC 198-I is a GPA of 2.70 or better.

Political Science requirements (48 units)

1. Lower-division requirements

Three courses from POSC 005 or POSC 005H or POSC 005W or POSC 007; POSC 010 or POSC 010H or POSC 010W; POSC 015 or POSC 015H or POSC 017; POSC 020 or POSC 020H

Students in the major must complete two of the three lower-division Political Science courses with a grade of "C" or better in order to take upper-division political science courses.

2. Upper-division requirements

- a) Three courses from POSC 181, POSC 182, POSC 183, POSC 186
- b) At least one course from each of the following:
 - (1) **U.S. Government and Politics:** POSC 100, POSC 101, POSC 104 or POSC 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182, POSC 183, POSC 184 or POSC 184S, POSC 186
 - (2) **Comparative Government and Politics:** POSC 109/RLST 173, POSC 120, POSC 151 or POSC

151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

- (3) **International Relations and Foreign**

Policy: POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127 or POSC 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137 or POSC 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 153, POSC 169

- (4) **Political Theory:** POSC 106 or POSC 106S, POSC 107, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, CLA 121/CPAC 121S/POSC 121 or CLA 121S/CPAC 121S/POSC 121S, POSC 122 or POSC 122S

- c) Four (4) units from POSC 198G or POSC 198-I (prerequisite: GPA of 2.70 or better)
- d) Additional four (4) units in any upper-division Political Science course

Administrative Studies requirements (37 units)

1. **Lower-division courses (17 units)**

- a) BUS 010, BUS 020
- b) STAT 048 or equivalent (may be used to satisfy breadth requirements)
- c) CS 008 (may be used to satisfy breadth requirements)

2. **Upper-division requirements (20 units)**

- a) Two courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 130 or ECON 162/BUS 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151
 - (4) POSC 181 or POSC 182 or POSC 183
 - (5) ANTH 127 or ANTH 131

These two courses must be outside the discipline of Political Science and cannot be courses included as part of the three course Business Administration track or their cross-listed equivalents.

- b) A three-course track (12 units) in Business Administration courses from one of the following:
 - (1) **Organizations (General):** BUS 100, BUS 107, BUS176/SOC 176, BUS

158/ANTH 105, SOC 150, SOC 151

- (2) **Human Resources Management/Labor Relations:** BUS 100, BUS 107, BUS 152/ECON 152, BUS 153/ECON 153, BUS 155, BUS 157, PSYC 142
- (3) **Business and Society:** BUS 100, BUS 102, BUS 107, PHIL 116, POSC 182, POSC 186
- (4) **Marketing:** BUS 103, and two from BUS 112, BUS 113, BUS 114, BUS 117
- (5) **Managerial Accounting/Taxation:** BUS 108, and two from BUS 166, BUS 168A, BUS 168B
- (6) **Financial Accounting:** BUS 108, BUS 165A, BUS 165B
- (7) **Finance:** BUS 106/ECON 134 and two from BUS 134, BUS 136, BUS 137, BUS 138, BUS 139
- (8) **Management Information Systems:** BUS 101, BUS 171, BUS 173
- (9) **Production Management:** BUS 104/STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (Political Science requirements and Administrative Studies requirements).

Political Science/International Affairs Major

The major requirements for the B.A. degree in Political Science/International Affairs are as follows:

1. Lower-division requirements (two courses [at least 8-10 units]): One course from a and one course from b:
 - a) POSC 015 or POSC 015H or POSC 017
 - b) POSC 020 or POSC 020H.

Students in the major must complete two lower-division Political Science courses with a grade of "C" or better in order to take upper-division political science courses.

Upper-division requirements (11 courses, 44-55 units):

- a) International Relations (three courses)
POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127 or POSC 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137 or POSC 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169
- b) Comparative Politics (three courses)
POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165

or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

- c) General Political Science (three other political science courses in any subfield).
- d) In addition, students must take two courses from the following:
ANTH109/GSST 109, ANTH 122, ANTH 127 or ANTH 127S, ANTH 136/SEAS 136, ANTH 139, ANTH 161/LNST 161, ANTH 163, ANTH 164/LNST 164/GSST 164, ANTH168/ ETST148/LNST168, ANTH 169/GBST 169, ANTH 182, ANTH 186/LNST 166, ANTH 188/GSST 151 ECON 171, ECON 175, ECON 178/ BUS 178, ECON 181, ECON 182, ECON 185/LNST 185 HISA 117A, HISA 117B, HISA 140, HISA 161, HISA 162, HISA 163B, HISA 164A, HISA 164B, HISA 165, HISA 166, HISE 141, HISE 142, HISE 145 or HISE 145S, HISE 146 or HISE 146S, HISE 147, HISE 152, HISE 162, HISE 174, HIST 124, HIST 125, HIST 127, HIST 182, HIST 184, HIST 186, SOC 135, SOC 137, SOC 161, SOC 181

Students may petition for permission to count a specific course not on this list.

Political Science/International Affairs majors are strongly encouraged to learn a language other than English. The university offers language instruction in Chinese, French, German, Greek, Italian, Japanese, Korean, Latin, Portuguese, Spanish, and Vietnamese.

Political Science/Law and Society Major

The major requirements for the B.A. degree in Political Science/Law and Society are as follows:

1. Political Science requirements (60 units)

All major requirements for the B.A. in Political Science

2. Law and Society requirements (36 units)

- a) PHIL 007 or PHIL 007H
- b) LWSO 100 (with a grade of "C" or better)
- c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
- d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
- e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
- f) LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department in filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Political Science requirements and Law and Society requirements).

Political Science/Public Service Major

The major requirements for the B.A. degree in

Political Science/Public Service are as follows. Note that the prerequisite for POSC 198-I is a GPA of 2.70 or better.

1. Lower-division requirements (five courses [at least 20-25 units])

- a) POSC 010 or POSC 010H or POSC 010W
- b) One course from POSC 005 or POSC 005H or POSC 005W, POSC 007, POSC 015 or POSC 015H or POSC 017, POSC 020 or POSC 020H
- c) ECON 003
- d) SOC 004
- e) SOC 005 or STAT 040

Students in the major must complete two of the lower-division Political Science courses with a grade of "C" or better in order to take upper-division political science courses.

2. Upper-division requirements (11 courses [at least 40-48 units])

- a) Political Science distribution: choose one course from each group

(1) Comparative Government and Politics Group:

POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/ LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S

(2) International Relations and Foreign Policy Group:

POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127 or POSC 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137 or POSC 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169

(3) Political Theory Group:

POSC 106 or POSC 106S, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, POSC 121/CLA 121/CPAC 121 or POSC 121S/CLA 121S/CPAC 121S, POSC 122 or POSC 122S

- b) Public Service requirement

(1) POSC 181, POSC 183

(2) Eight (8) units from POSC 198G and POSC 198-I (prerequisite: GPA of 2.70 or better)

(3) An additional four courses from POSC 170, POSC 171, POSC 182, POSC 186

Minor

The Political Science Department offers a minor in Political Science.

1. **One lower-division course (at least 5 units) in political science**, selected from POSC 005 or POSC 005H or POSC 005W or POSC 007; POSC 010 or POSC 010H or POSC 010W; POSC 015 or POSC 015H or POSC 017; POSC 020 or POSC 020H
2. **Five upper-division courses (at least 20 units) to be selected as follows:**
 - a) One course in each of the following areas (4 courses):
 - (1) **American Politics:** POSC 100, POSC 101, POSC 104 or POSC 104S, POSC 108, POSC 143 or POSC 143S, POSC 144 or POSC 144S, POSC 145, POSC 146, POSC 148 or POSC 148H or POSC 148S, POSC 149, POSC 166, POSC 167, POSC 168, POSC 170, POSC 171, POSC 173 or POSC 173S, POSC 180 or POSC 180S, POSC 181, POSC 182, POSC 183, POSC 184 or POSC 184S, POSC 186
 - (2) **Comparative Politics:** POSC 109/RLST 173, POSC 120, POSC 151 or POSC 151S, POSC 152, POSC 153, POSC 154, POSC 155 or POSC 155S, POSC 156, POSC 157 or POSC 157S, POSC 158/LNST 148, POSC 159 or POSC 159S, POSC 160 or POSC 160S, POSC 161/LNST 188, POSC 162/LNST 142 or POSC 162S/LNST 142S, POSC 163 or POSC 163S, POSC 164 or POSC 164S, POSC 165 or POSC 165S, POSC 178 or POSC 178S, POSC 188 or POSC 188S
 - (3) **International Relations:** POSC 123, POSC 124 or POSC 124S, POSC 125, POSC 126 or POSC 126S, POSC 127 or POSC 127S, POSC 128, POSC 129, POSC 130, POSC 132 or POSC 132S, POSC 134 or POSC 134S, POSC 135, POSC 136 or POSC 136S, POSC 137 or POSC 137S, POSC 138 or POSC 138S, POSC 139 or POSC 139S, POSC 147 or POSC 147S, POSC 150 or POSC 150S, POSC 169
 - (4) **Political Theory:** POSC 106 POSC 106S or POSC 107, POSC 110 or POSC 110S, POSC 111 or POSC 111S, POSC 112 or POSC 112S, POSC 113, POSC 115 or POSC 115S, POSC 116 or POSC 116S, POSC 117 or POSC 117S, POSC 119, POSC 121/CLA 121/CPAC 121 or POSC 121S/CLA 121S/CPAC 121S, POSC 122 or POSC 122S
 - b) One additional course selected by the student from among those listed in (1) through (4) above.

The Political Science Department also offers a minor in **International Relations** (listed elsewhere in this catalog). Also, see Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Honors Program

The Political Science undergraduate Honors Program is designed to provide qualified upper-division Political Science majors with opportunities to engage in upper-division course work in the field in an intensive seminar format and to obtain the necessary training to engage in independent research in the field.

Upon successful completion of the program, students are awarded and have posted on their transcripts, the designation Honors, Department of Political Science Undergraduate Honors Program.

Complete details and an application are available from the Political Science Student Affairs Officer.

Prerequisites for the Honors Program

1. Submission of an application during the last quarter of the sophomore or junior year
2. Junior standing (completion of a minimum of 86 units)
3. Minimum GPA requirements or consent of director
 - a) Cumulative GPA of 3.50
 - b) A GPA of 3.50 in upper-division major courses
4. Statistics or methods course required. One course chosen from POSC 114 or POSC 114S, PSYC 012, SOC 004 (or an equivalent course in research methods)

Requirements for the Honors Program

Twelve (12) units/three courses from the following:

- POSC 175H (Introduction to the Honors Thesis)
- POSC 176H (Seminar on Writing the Honors Thesis)
- POSC 177H (Honors Thesis)
- POSC 199 (Senior Research[Thesis Optional])

Model United Nations (MUN)

The Model United Nations (MUN) program is a campuswide activity that combines academic and social aspects. The academic preparation takes place within the Political Science Department, with one course, POSC 142L. The simulation preparation takes place within the UCRMUN organization, for participation in external conferences. Each year, the UCRMUN organization hosts a two-day MUN conference, which attracts over a thousand high school students. In recent years, the UCRMUN High School MUN has been the third largest in the nation. Planning and running this conference is entirely in the hands of UCR students participating in the UCRMUN program. The program provides training in administration and diplomacy. In the spring, a UCRMUN delegation attends either a local conference or the National Model United Nations Conference in New York City.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Political Science offers the M.A. and Ph.D. degrees in Political Science.

Admission

Admission to both the M.A. and Ph.D. degrees is based on the quality and character of previous academic work, scores on the GRE, and letters of evaluation from previous instructors. Applications are accepted for the Fall quarter only.

Master's Degree

The Department of Political Science offers the M.A. degree in Political Science.

Usually, the department operates under Plan II.

Plan II (Comprehensive Examination)

Students must complete 36 units, of which at least 32 units must be in 200-level Political Science courses, including POSC 201, POSC 202A, and POSC 203. In addition, students must complete at least one course from at least three of the five fields offered by the department (see listing below). Up to 4 units of academic work in related fields may be approved by the graduate advisor as part of the 36 units.

The examination must be passed in one of the following fields:

1. **Comparative Politics**
Students must complete the core course POSC 217 and at least one additional course in the field.
2. **International Relations**
Students must complete the core course POSC 216 and at least one additional course in the field.
3. **American Politics**
Students must complete the core course POSC 249 and at least one additional course in the field.
4. **Mass Political Behavior**
Students must complete a core course, either POSC 255 or POSC 256, and at least one additional course in the field.
5. **Political Theory**
Students must complete the core course POSC 212 and at least one additional course in the field.

Permission to complete the M.A. program under Plan I (Thesis) is restricted to students who can demonstrate a readiness to undertake advanced independent research and who can identify a faculty member willing to supervise preparation of the thesis.

Doctoral Degree

The Department of Political Science offers the Ph.D. degree in Political Science.

The first two years of the program are devoted to course work and preparation for the Ph.D. examination. During this period, students obtain substantive background in the discipline through completion of three graduate courses per quarter. Course work, which will usually continue beyond the second year, includes the following required components:

1. Selecting two major fields of concentration from the five fields listed below.
2. Satisfying course requirements for the major fields, which requires a total of eight graduate courses. (This is the **Major Field Requirement**; see details below.)
3. Taking one course in each of the three fields of study not selected by the student as a major field. (This is the **Distribution Requirement**.)
4. Taking three additional graduate courses in any field of study, according to the student's choice, in consultation with the faculty advisors. With permission of the Graduate Advisor, one or more of these courses may be graduate-level courses outside of Political Science. (This is the **Depth Requirement**.)
5. Students must complete POSC 201, 202A and 203 and at least two additional graduate courses in methods. The two additional courses may include POSC 202B, 204, 205, 207, 225, or other graduate methods courses. One of these may be from outside the Political Science Department, by permission of the Graduate Advisor. (This is the **Methods Requirement**.)
6. Enrollment in POSC 230. Students must be enrolled in the course during their first year in the program, and subsequently during quarters of their choice, until completion of 10 units, to be completed by the end of their fifth year. Exceptions only by permission of Graduate Advisor. (This is the **Professional Development Requirement**.)

The major fields may be chosen from among American Politics, Mass Political Behavior, Comparative Politics, International Relations, and Political Theory.

1. **Comparative Politics**
Students must complete the core course POSC 217 and at least three additional courses in the field.
2. **International Relations**
Students must complete the core course POSC 216 and at least three additional courses in the field.
3. **American Politics**
Students must complete the core course POSC 249 and at least three additional courses in the field.
4. **Mass Political Behavior**
Students must complete a core course, either POSC 255 or POSC 256, and at least three additional courses in the field.
5. **Political Theory**
Students must complete the core course POSC 212 and at least three additional courses in the field.

One POSC 290 course may be accepted in lieu of a seminar. This limit may be exceeded by permission of Graduate Advisor if course staffing or scheduling problems require it. All POSC 290 courses must have prior approval of the graduate advisor. A POSC 290 course should only be taken if the material to be covered is not available in a scheduled course.

Written Qualifying Examination

Students should ordinarily complete major field course requirements during Years One and Two.

In the fall quarter of Year Three, the student continues to enroll in POSC 230, while also enrolling in POSC 291 (Individual Coordinated Study), which is designed to aid preparation for the comprehensive examination. Written examinations in the two major fields are normally taken at the end of the fall quarter of the third year. Postponements to this schedule are allowed in exceptional circumstances; all delays in taking comprehensive examinations must be approved by the Graduate Committee.

Oral Defense of Prospectus

The winter and spring quarters of Year Three and all of Year Four are devoted to Directed Research (POSC 297) to prepare a dissertation prospectus under the direction of the principal advisor; to additional substantive seminars; and to continued participation in POSC 230. The choice of substantive seminars during this time should be made in conjunction with faculty advisors and should usually be applicable either to the distribution or depth requirements, although students may also take courses in excess of these requirements. In the fall quarter of Year 5, students are advanced to candidacy upon successful completion of the oral defense of their dissertation prospectus. Oral exams (or prospectus defense) should be completed no later than quarter 13 or fall of year 5.

Normative time to completion of the program is six years. Additional time is provided if circumstances warrant it. Whether circumstances justify additional time is to be determined by the Graduate Committee, in cooperation with the thesis advisor.

Students who do not complete their degree requirements during this two-year period are closely reviewed on a biannual basis. These reviews are provided by the graduate advisor, after consultation with the dissertation advisor. Until completion of the Ph.D. requirements, each review includes targeted amounts of required progress, to be completed prior to the next review. Students who fail to complete their scheduled work are reviewed by the Graduate Program Committee for a recommendation of termination from the Political Science graduate program.

Normative Time to Degree 18 quarters.

General regulations applying to the dissertation and qualifying examinations are found in the Graduate Studies section of this catalog and in other Graduate Division and department publications.

For further information, contact the graduate advisor, Department of Political Science.

Lower-Division Courses

POSC 005 Political Ideologies 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introductory study of the ideologies of the modern era. Explores selected thinkers and texts representative of liberalism, conservatism, socialism, fascism, nationalism, nonviolence, and feminism, as well as various non-Western ideologies. Credit is awarded for only one of POSC 005, POSC 005H, or POSC 005W.

POSC 005H Honors Political Ideologies 5 Lecture, 3 hours; discussion, 1

hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to POSC 005 and POSC 005W. An introductory study of the ideologies of the modern era. Explores selected thinkers and texts representative of liberalism, conservatism, socialism, fascism, nationalism, nonviolence, and feminism, as well as various non-Western ideologies. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 005, POSC 005H, or POSC 005W.

POSC 005W Political Ideologies 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. An introductory study of the ideologies of the modern era. Explores selected thinkers and texts representative of liberalism, conservatism, socialism, fascism, nationalism, nonviolence, and feminism, as well as various non-Western ideologies. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits as alternatives to English 001C. Credit is awarded for only one of POSC 005 or POSC 005H or POSC 005W.

POSC 007 Introduction to Political

Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introductory exploration of political theory from the ancient world to the present. Covers either Western theorists (from Aristotle to Rawls) or non-Western theorists (from Confucius to Gandhi). Topics include citizenship, community, political change, and human flourishing.

POSC 010 American Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introduction to the principles and practices of government. Focuses on the policy process and selected political issues in the United States. Credit is awarded for only one of POSC 010 or POSC 010H or POSC 010W.

POSC 010H Honors American Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to POSC 010. An introduction to the principles and practices of government. Focuses on the policy process and selected political issues in the United States. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 010 or POSC 010H or POSC 010W.

POSC 010W American Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): ENGL 001B with a grade of "C" or better or consent of instructor. An introduction to the principles and practices of government. Focuses on the policy process and selected political issues in the United States. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternative to English 001C. Credit is awarded for only one of POSC 010 or POSC 010H or POSC

010W.

POSC 015 Comparative Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. A comparative analysis of contemporary political systems, practices, and institutions. Credit is awarded for only one of POSC 015 or POSC 015H.

POSC 015H Honors Comparative

Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to POSC 015. A comparative analysis of contemporary political systems, practices, and institutions. Credit is awarded for only one of POSC 015 or POSC 015H.

POSC 017 Politics of the Underdeveloped

World 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. An introduction to the political processes and problems confronting third-world states. Topics include poverty, violence, dictatorship, civil-military relations, regime transitions, and democracy.

POSC 020 World Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Explores approaches to and models of international relations: theories, the causes of war, international organizations, cooperation and conflict, international political economy, regional economic agreements, and international social issues such as human rights and the environment. Credit is awarded for only one of POSC 020 or POSC 020H.

POSC 020H Honors World Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to POSC 020. Explores approaches to and models of international relations: theories, the causes of war, international organizations, cooperation and conflict, international political economy, regional economic agreements, and international social issues such as human rights and the environment. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 020 or POSC 020H.

POSC 045 Special Seminar in Political

Science 1 Intensive examination of specific political arenas, utilizing the expertise of prominent political practitioners. Will be offered not more than once a quarter; can be repeated up to four times for credit.

Upper-Division Courses

POSC 100 Presidential Politics 4 Lecture, 3 hours; research, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Analyzes modern presidential leadership and power. Topics include the institutional presidency, presidential selection, and the presidency's relationships with the bureaucracy, Congress, interest groups, the press, and the public. Considers what makes presidents popular and what determines the effectiveness of presidential leadership.

POSC 101 The U.S. Congress 4 Lecture, 3

hours; research, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the politics of the contemporary U.S. Congress, with an emphasis on the historical roots of the institution. Topics include representation, elections, parties and leaders, committees, public policy, and the relationships between Congress and the other branches of government.

POSC 104 Special Topics in the Politics of

Race, Immigration, and Ethnicity 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W or consent of instructor. Provides an in-depth examination of the politics of race, immigration, and ethnicity in the United States. Emphasizes the role of political institutions and political behavior. Covers one of the following topics: African American Politics, Asian American Politics, Latino Politics, Native American Politics. Course is repeatable as topics change to a maximum of 12 units. Credit is not awarded to POSC 104 if it has already been awarded to POSC 104S if the content or topic are the same.

POSC 104S Special Topics in the Politics of

Race, Immigration, and Ethnicity 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W or consent of instructor. Provides an in-depth examination of the politics of race, immigration, and ethnicity in the United States. Emphasizes the role of political institutions and political behavior. Covers one of the following topics: African American Politics, Asian American Politics, Latino Politics, Native American Politics. Course is repeatable as topics change to a maximum of 15 units. Credit is not awarded to POSC 104S if it has already been awarded to POSC 104 if the content or topic are the same.

POSC 106 Environmental Political

Thought 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Addresses various philosophical aspects of the human relationship to the environment from social, political, and economic perspectives. Includes debates related to issues such as how should human beings interact with their environment, as well as the relationship of environmental practice to liberalism, democracy, and capitalism. Credit is awarded for only one of POSC 106 or POSC 106S.

POSC 106S Environmental Political

Thought 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Addresses various philosophical aspects of the human relationship to the environment from social, political, and economic perspectives. Includes debates related to issues such as how should human beings interact with their environment, as well as the relationship of environmental practice to liberalism, democracy, and capitalism. Credit is awarded for only one of POSC 106 or POSC 160S.

POSC 107 Non-Western Political

Thought 4 Lecture, 3 hours; extra reading, 3

hours. Prerequisite(s): upper-division standing. Exposes students to some of the key political thinkers and ideas outside the Western canon. Familiarizes students with both the cultural-religious legacies and the political thought endemic to non-Western societies. Follows an overview of key non-Western civilizations and addresses crucial problems in comparative political theory. Provides a more detailed analysis of some regions - from the political thought of Islam to the traditions of India to the Far Eastern political theory.

POSC 108 Politics of Race, Immigration, and Ethnicity in the United States 5

Lecture, 3 hours; discussion, 1 hour; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W or consent of instructor. Examines the politics of race, immigration, and ethnicity in the United States including comparisons between African Americans and Latino, Asian, and European immigrants. Emphasizes the role of institutions in shaping the importance of race to politics in the United States.

POSC 109 Political Religions and Religious

Politics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigation of major themes and issues in the intersection of religion and politics, such as the sacralization of politics, religious nationalisms, sacral kingship, revolutionary asceticism, "throne and altar," civil religion, millennialism, political myth and ritual, integralism, and the conformity of the polity to religious values. Cross-listed with RLST 173.

POSC 110 The Origins of Political

Ideas 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the major schools of political thought of ancient times. Covers political philosophers such as Plato, Aristotle, Confucius, and Ashoka. Credit is awarded for only one of POSC 110 or POSC 110S.

POSC 110S The Origins of Political

Ideas 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the major schools of political thought of ancient times. Covers political philosophers such as Plato, Aristotle, Confucius, and Ashoka. Credit is awarded for only one of POSC 110 or POSC 110S.

POSC 111 Democracy and the Social

Contract 4 Lecture, 3 hours; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the major political philosophers of the social contract and their critics on issues such as individualism versus community; the roles of religion and markets in politics; and the adequacy of contract theory for women and minorities. Credit awarded for only one of POSC 111 or POSC 111S.

POSC 111S Democracy and the Social

Contract 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the major

political philosophers of the social contract and their critics on issues such as individualism versus community; the roles of religion and markets in politics; and the adequacy of contract theory for women and minorities. Credit is awarded for only one of POSC 111 or POSC 111S.

POSC 112 Modern Political Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Critically explores selected works of political theory from the eighteenth century to the present. Concentrates on issues such as freedom, utility, justice, nature, citizenship, toleration, equality and inequality, autonomy, democracy, power, rights, and identity. Credit is awarded for only one of POSC 112 or POSC 112S.

POSC 112S Modern Political Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Critically explores selected works of political theory from the eighteenth century to the present. Concentrates on issues such as freedom, utility, justice, nature, citizenship, toleration, equality and inequality, autonomy, democracy, power, rights, and identity. Credit is awarded for only one of POSC 112 or POSC 112S.

POSC 113 American Political Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of developments in American political thought from the seventeenth century to the present.

POSC 114 Theory and Methodology of Political Science 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Covers the development and scope of political science as a discipline. Addresses selected theoretical and methodological issues in contemporary political and social science. Credit is awarded for only one of POSC 114, POSC 114H, or POSC 114S.

POSC 114H Honors Theory and Methodology of Political Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing, admission to the University Honors Program; or consent of instructor. Honors course corresponding to POSC 114 and POSC 114S. Covers the development and scope of political science as a discipline. Addresses selected theoretical and methodological issues in contemporary political and social science. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 114, POSC 114H, or POSC 114S.

POSC 114S Theory and Methodology of Political Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Covers the development and scope of political science as a discipline. Addresses selected theoretical and methodological issues in contemporary political and social science. Credit is awarded for only one of POSC 114, POSC 114H, or POSC 114S.

POSC 115 Utopia and Dystopia 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing. Examines the political theory of utopian literature from ancient Greece to the present including analysis of utopian and dystopian elements in each work. Authors include Plato, Thomas More, James Harrington, Ernest Callenbach, and Katherine Forrest. Credit is awarded for only one of POSC 115 or POSC 115S.

POSC 115S Utopia and Dystopia 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing. Examines the political theory of utopian literature from ancient Greece to the present including analysis of utopian and dystopian elements in each work. Authors include Plato, Thomas More, James Harrington, Ernest Callenbach, and Katherine Forrest. Credit is awarded for only one of POSC 115 or POSC 115S.

POSC 116 Capitalism, Socialism, and Political Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines debates about economic life. Focuses on issues such as markets and marketization, labor, globalization, freedom, class, corporations, democracy, the welfare state, and power. Credit is awarded for only one of POSC 116 or POSC 116S.

POSC 116S Capitalism, Socialism, and Political Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines debates about economic life. Focuses on issues such as markets and marketization, labor, globalization, freedom, class, corporation, democracy, the welfare state, and power. Credit is awarded for only one of POSC 116 or POSC 116S.

POSC 117 Contemporary Democratic Theory 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A critical survey of the principal approaches to thinking about democracy since the World War II. May cover elite, pluralist, deliberative and participatory theories. Addresses questions about inclusiveness, and the optimal character and scope of democracy. Credit is awarded for only one of POSC 117 or POSC 117S.

POSC 117S Contemporary Democratic Theory 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A critical survey of the principal approaches to thinking about democracy since World War II. May cover elite, pluralist, deliberative, and participatory theories. Addresses questions about inclusiveness and the optimal character and scope of democracy. Credit is awarded for only one of POSC 117 or POSC 117S.

POSC 119 Political Thinkers in Depth 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing. Intensive reading of one or more great political thinkers from around the world, with special attention to contested readings of each figure. Examples might include Plato, Confucius, Machiavelli, Marx and Engels,

John Stuart Mill, or Gandhi.

POSC 120 The Politics of India and Pakistan 4 Lecture, 3 hours; extra reading and term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the domestic and international politics of India and Pakistan, with attention to other South Asian countries. Explores nationalist movements, struggles for development, contrasting experiences with democracy and dictatorship, and internal and external conflicts.

POSC 121 Monarchy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with CPAC121, and CLA121. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

POSC 121S Monarchy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the cross-cultural survey of the institution of monarchy in the ancient world and its role in political, social, economic, and religious life. Cross-listed with CLA 121S, and CPAC 121S. Credit is awarded for only one of CLA 121/CPAC 121/POSC 121 or CLA 121S/CPAC 121S/POSC 121S.

POSC 122 Skepticism and Liberalism 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the origins of the modern way of thinking about politics (i.e., liberalism in a sense that includes both conservatives and liberals) by the ancient and early modern skeptics such as Montaigne, Spinoza, Hume, and Kant. Credit is awarded for only one of POSC 122 or POSC 122S.

POSC 122S Skepticism and Liberalism 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the origins of the modern way of thinking about politics (i.e., liberalism in a sense that includes both conservatives and liberals) by the ancient and early modern skeptics such as Montaigne, Spinoza, Hume, and Kant. Credit is awarded for only one of POSC 122 or POSC 122S.

POSC 123 Conflict Resolution 4 Lecture, 3 hours; extra reading, 1 hour; term paper, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of conflict resolution in international relations and domestic conflict. Topics covered include theories of conflict and conflict resolution, negotiation, the role of external powers, mediation, and peacekeeping.

POSC 124 International Relations 4 Lecture, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): POSC 020. An in-depth consideration of the major theories of contemporary international relations. Focuses on core issues in international security affairs, such as the causes of war and peace, cooperation and conflict, alliances, perception

and misperception, ethnic conflict, and the link between democracy and war. Credit is awarded for only one of POSC 124 or POSC 124S.

POSC 124S International Relations 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): POSC 020; upper-division standing or consent of instructor. An in-depth consideration of the major theories of contemporary international relations. Focuses on core issues in international security affairs, such as the causes of war and peace, cooperation and conflict, alliances, perception and misperception, ethnic conflict, and the link between democracy and war. Credit is awarded for only one of POSC 124 or POSC 124S.

POSC 125 United States Foreign Policy Since World War II 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A survey and evaluation of the major developments in U.S. foreign policy from 1945 to the present. Focuses on relations with the Soviet Union, its successor states, and the Third World, within which the uses of force and diplomacy are emphasized.

POSC 126 The Politics of International Trade, Finance, and Development 4 Lecture, 3 hours; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): POSC 020 or POSC 020H. Studies the interaction between international economics and world politics. Focuses on the evolution of the institutions governing world trade and finance; role of multinational corporations; Third World debt and development; the European Union; economic reform in transitional economies; gender; economics and environment; and role of technology in international political economy. Credit is awarded for only one of POSC 126 or POSC 126S.

POSC 126S The Politics of International Trade, Finance, and Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): POSC 020 or POSC 020H. Studies the interaction between international economics and world politics. Focuses on the evolution of the institutions governing world trade and finance; role of multinational corporations; Third World debt and development; the European Union; economic reform in transitional economies; gender; economics and environment; and role of technology in international political economy. Credit is awarded for only one of POSC 126 or POSC 126S.

POSC 127 Global Environmental Politics 4 Lecture, 3 hours; field, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): POSC 020 or POSC 020H. Introduces the study and practice of global environmental politics. Explores major developments in the evolution of international environmental law and policy. Covers ozone depletion, acid rain, marine pollution and whaling, tropical deforestation, overpopulation, and the impact of environmental degradation. Credit is awarded for only one of POSC 127 or POSC 127S.

POSC 127S Global Environmental

Politics 5 Lecture, 3 hours; discussion, 1 hour; field, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): POSC 020 or POSC 020H. Introduces the study and practice of global environmental politics. Explores the major developments in the evolution of international environmental law and policy. Covers ozone depletion, acid rain, marine pollution and whaling, tropical deforestation, overpopulation, and the impact of environmental degradation. Credit is awarded for only one of POSC 127 or POSC 127S.

POSC 128 Comparative Foreign Policy 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; one term paper. Prerequisite(s): upper-division standing. Compares foreign policies of the United States and the Soviet Union with special attention to the influence of historical, political, ideological, and systemic factors on their international behavior. Close attention paid to their use of military and economic instruments in their relationship with various actors.

POSC 129 The Proliferation of Weapons of Mass Destruction 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing. Introduces students to the politics of weapons of mass destruction, including nuclear, chemical, and biological weapons. Topics covered include why states develop such weapons and whether possession of them increases or decreases the likelihood of war. Also covered are international efforts to stop weapons proliferation, and specific cases of proliferation such as those in India, and Pakistan, North Korea, Iraq, and Iran.

POSC 130 Politics and Economics of the Pacific Rim 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides students with a broad understanding of the politics and economics of countries that border the Pacific Rim, including Japan, South Korea, Singapore, Taiwan, and China, and of their relationship to the United States. The major issues addressed include economic growth, sociopolitical development, trade, and interdependence.

POSC 132 Postconflict Justice and Reconciliation 4 Lecture, 3 hours; term paper, 2 hours; individual study, 1 hour. Prerequisite(s): upper-division standing. Examines a range of strategies for pursuing justice and reconciliation in the aftermath of war and other forms of violent conflict. Topics include the laws of war theory, international criminal justice, truth commissions, and restorative justice. Credit is awarded for only one of POSC 132 or POSC 132S.

POSC 132S Postconflict Justice and Reconciliation 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing. Examines a range of strategies for pursuing justice and reconciliation in the aftermath of war and other forms of violent conflict. Topics include the laws of war, just war theory, international criminal justice, truth commissions, and restorative justice. Credit is awarded for only one of POSC 132 or POSC 132S.

POSC 134 Political Economy of International Finance 4 Lecture, 3 hours; individual study,

1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines historical and contemporary issues in international money finance. Explores how financial globalization shaped policy decisions at the national and the international level. Utilizes examples from developed and developing countries with different political and legal regimes. Credit is awarded for only one of POSC 134 or POSC 134S.

POSC 134S Political Economy of International Finance 5 Lecture, 3 hours; discussion, 1 hour; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines historical and contemporary issues in international money finance. Explores how financial globalization shaped policy decisions at the national and the international level. Utilizes examples from developed and developing countries with different political and legal regimes. Credit is awarded for only one of POSC 134 or POSC 134S.

POSC 135 Ethics and International Politics 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores the ethical dimensions of contemporary debates in international politics. Topics include international justice, humanitarian aid, military intervention, and just war theory. Credit is awarded for only one of POSC 135 or POSC 267.

POSC 136 Political Economy of International Migration 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the political and economic causes and consequences of international migration. Explores the effects of migration in both sending and receiving countries and how policymakers respond to these effects. Focuses on public opinion formation, interest group politics, immigration policy making, brain drain, remittances, diaspora engagement policies, and refugee policy. Credit is awarded for only one of POSC 136 or POSC 136S.

POSC 136S Political Economy of International Migration 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the political and economic causes and consequences of international migration. Explores the effects of migration in both sending and receiving countries and how policymakers respond to these effects. Focuses on public opinion formation, interest group politics, immigration policymaking, brain drain, remittances, diaspora engagement policies, and refugee policy. Credit is awarded for only one of POSC 136 or POSC 136S.

POSC 137 Environmental Justice and Human Rights 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines how notions of justice and human rights have been brought to bear on environmental and sustainability debates. Also

examines the theoretical and historical basis of the environmental justice and human rights movements. Topics include local concerns (including "food desserts") and air pollution, as well as global problems. Credit is awarded for only one of POSC 137 or POSC 137S.

POSC 137S Environmental Justice and Human Rights 5

Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines how notions of justice and human rights have been brought to bear on environmental and sustainability debates. Also examines the theoretical and historical basis of the environmental justice and human rights movements. Topics include local concerns (including "food desserts") and air pollution, as well as global problems. Credit is awarded for only one of POSC 137 or POSC 137S.

POSC 138 Labor and Globalization 4 Lecture, 3 hours; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the relationship between globalization and labor in contemporary context. Focuses on four key political actors who shape workers' fates in the global economy: multi-and transnational corporations, national governments, international organizations, and workers themselves. Credit is awarded for only one of POSC 138 or POSC 138S.

POSC 138S Labor and Globalization 5 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; term paper, 1 hour. Prerequisite(s): upper division standing or consent of instructor. Examines the relationship between globalization and labor in contemporary context. Focuses on four key political actors who shape workers' fates in the global economy: multi transnational corporations, national governments, international organizations, and workers themselves. Credit is awarded for only one of POSC 138 or POSC 138S.

POSC 139 Environment, Sustainability, and Society 4 Lecture, 3 hours; individual study, 2 hours; written work, 1 hour. Prerequisite(s): POSC 017 or POSC 020 (or POSC 020H) or SOC 020; or consent of instructor. Examines the relationship of human society to the natural environment from a multi-disciplinary approach. Considers ways in which values, paradigms, policies, technologies, and their interactions have determined humans' current unsustainable relationship with the earth. Explores challenges inherent in moving society toward a more environmentally sustainable future. Credit is awarded for only one of POSC 139 or POSC 139S.

POSC 139S Environment, Sustainability, and Society 5 Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; written work, 1 hour. Prerequisite(s): POSC 017 or POSC 020 (or POSC 020H) or SOC 020; or consent of instructor. Examines the relationship of human society to the natural environment from a multi-disciplinary approach. Considers the ways in which values, paradigms, policies, technologies, and their interactions have determined humans' current unsustainable relationship with the earth. Explores challenges inherent in moving society

toward a more environmentally sustainable future. Credit is awarded for only one of POSC 139 or POSC 139S.

POSC 140 Militarism and Hegemony in the Ancient World 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): One of the following courses: CHN 030/AST 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 165, CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CLA 143/CPAC 143/CHN 143/RLST 143; or consent of instructor. Comparative study of ancient warfare and hegemony in two or more civilizations of the ancient world. Perspectives may include social and political contexts, gender and war, acquisition of empire, religious wars, and weapons, strategies and tactics in theory and practice. Study of primary source material in texts and visual arts. Cross-listed with CPAC 141, CLA 141, AST 145, and CHN 141.

POSC 142 (E-Z) Simulation Laboratory 2 to 4 Participation in and analysis of laboratory models of complex political systems.

POSC 142L The United Nations 2 Lecture, 2 hours. Prerequisite(s): . Examination of the structure and functioning of the United Nations with major emphasis on the principal organs (Security Council, General Assembly), ECOSOC, the Trusteeship Council and the leading committees. The course will examine theories on the pacific settlement of disputes, collective security and functionalism. The focus will be on the United Nations as a living, contemporary political institution.

POSC 142M Model U.n. - Country Studies (simulation) 2 Simulation, 2 hours, Prerequisite(s): POSC 142L. An intensive study of the foreign policy of two selected countries, normally one developed and one undeveloped country, conducted through lectures, discussion, and simulations of their foreign policies being projected in the arena of the United Nations. Can be repeated twice for a total of 6 units.

POSC 143 Elections and Political

Participation 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of political behavior in the United States with emphasis on political participation and voting behavior. Credit is awarded for only one of POSC 143 or POSC 143S.

POSC 143S Elections and Political

Participation 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of political behavior in the United States with emphasis on political participation and voting behavior. Credit is awarded for only one of POSC 143 or POSC 143S.

POSC 144 Politics Through Film 4 Lecture, 3 hours; screening, .5 hours; extra reading, 1 hour; term paper, 1.5 hours. Prerequisite(s): upper-division standing. Uses film to explore how the

values of democracy inform the operation of government. Topics include collective action, principal-agent problems, equality, liberty, popular sovereignty, and strategic behavior. Credit is awarded for only one of POSC 144 or POSC 144S.

POSC 144S Politics Through Film 5 Lecture, 3 hours; discussion, 1 hour; screening, .5 hours; term paper, 2 hours; extra reading, 1 hour.

Prerequisite(s): upper-division standing. Uses film to explore how the values of democracy influence the operation of government. Topics include collective action, principal-agent problems, equality, liberty, popular sovereignty, and strategic behavior. Credit is awarded for only one of POSC 144 or POSC 144S.

POSC 145 Money in American Politics 4 Lecture, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W or consent of instructor. Analyzes the role of money in federal elections and in formulation of public policy. Examines the role of parties in raising and spending campaign money, the explosion of "soft money" in congressional and presidential elections, and the effect of campaign spending on electoral outcomes. Explores how campaign contributions influence public policy.

POSC 146 Mass Media and Public

Opinion 4 Lecture, 3 hours; term paper and reading, 1 hour. Prerequisite(s): . Analysis of public opinion--character, sources, and functions--and especially its relationship to mass media. Particular attention will be devoted to the role and importance of television in American politics.

POSC 147 Political Theory of

Globalization 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing; PHIL 001 or PHIL 001H or POSC 005 or POSC 005H or POSC 005W. Examines how the phenomenon of globalization has been theorized within the discipline of political philosophy. Covers how the effects of globalization have been addressed by leading political theorists. Focuses on concepts such as cosmopolitanism, nation-states and citizenship, cultural diversity, moral universalism, and international distributive justice. Credit is awarded for only one of POSC 147 or POSC 147S.

POSC 147S Political Theory of

Globalization 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing; PHIL 001 or PHIL 001H or POSC 005 or POSC 005H or POSC 005W. Examines how the phenomenon of globalization has been theorized within the discipline of political philosophy. Covers how the effects of globalization have been addressed by leading political theorists. Focuses on concepts such as cosmopolitanism, nation-states and citizenship, cultural diversity, moral universalism, and international distributive justice. Credit is awarded for only one of POSC 147 or POSC 147S.

POSC 148 Politics of Congressional

Elections 4 Lecture, 3 hours; term paper, 2 hours; individual study, 1 hour. Prerequisite(s): upper-division standing, POSC 010 or POSC 010H or POSC 010W; or consent of instructor.

An introduction to the politics of congressional elections. Topics include campaigning for Congress, strategic behavior in the decision to run for election, incumbency, and money in congressional elections. Credit is awarded for only one of POSC 148, POSC 148H, or POSC 148S.

POSC 148H Honors Politics of Congressional Elections 5 Lecture, 3 hours; discussion, 1 hour; term paper, 2 hours; extra reading, 1 hour. Prerequisite(s): admission to the University Honors Program, upper-division standing, POSC 010 or POSC 010H or POSC 010W; or consent of instructor. Honors course corresponding to POSC 148 and POSC 148S. An introduction to the politics of Congressional elections. Topics include campaigning for congress, strategic behavior in the decision to run for election, incumbency, and money in congressional elections. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of POSC 148, POSC 148H, or POSC 148S.

POSC 148S Politics of Congressional Elections 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): upper-division standing, POSC 010 or POSC 010H or POSC 010W; or consent of instructor. An introduction to the politics of congressional elections. Topics include campaigning for Congress, strategic behavior in the decision to run for election, incumbency, and money in congressional elections. Credit is awarded for only one of POSC 148, POSC 148H, or POSC 148S.

POSC 149 Presidential Elections 4 Lecture, 3 hours; laboratory, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior. Examines the politics of presidential elections. Topics include presidential primaries, the presidential general election, campaigns, the role of parties, candidate behavior, public opinion and voting choice, and the influence of money. May include hands-on exploration of public opinion and demographic data to explore individual-level voter decision making. Credit is awarded for one of the following POSC 149 or POSC 149S.

POSC 149S Presidential Elections 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior. Examines the politics of presidential elections. Topics include presidential primaries, the presidential general election, campaigns, the role of parties, candidate behavior, public opinion and voting choice, and the influence of money. May include hands-on exploration of public opinion and demographic data to explore individual-level voter decision making. Credit is awarded for one of the following POSC 149S or POSC 149.

POSC 150 Human Rights in Theory, Law, and Politics 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the theory, politics, and law of human rights. Examines the emergence of human rights institutions since World War II and ongoing

dilemmas in the field. Topics include cultural relativism, criminal tribunals, truth commissions, and refugees. Credit is awarded for only one of POSC 150 or POSC 150S.

POSC 150S Human Rights in Theory, Law, and Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the theory, politics, and law of human rights. Examines the emergence of human rights institutions since World War II and ongoing dilemmas in the field. Topics include cultural relativism, criminal tribunals, truth commissions, and refugees. Credit is awarded for only one of POSC 150 or POSC 150S.

POSC 151 African Politics 4 Lecture, 3 hours; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): Restricted to class level standing of Junior, or Senior; Or the consent of instructor; Examines politics in African countries, with a focus on the contemporary period. Covers both political institutions and political behavior. Topics include role of the state, democracy vs. dictatorship, political participation, public goods provision, and development. Credit is awarded for only one of POSC 151 or POSC 151S.

POSC 151S African Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; individual study, 1 hour; written work, 1 hour. Prerequisite(s): Restricted to class level standing of Junior, or Senior; or the consent of instructor. Examines politics in African countries, with a focus on the contemporary period. Covers both political institutions and political behavior. Topics include role of the state, democracy vs. dictatorship, political participation, public goods provision, and development. Credit is awarded for only one of POSC 151S or POSC 151.

POSC 152 Politics of the Middle East 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. The domestic policies and international relations of the contemporary states of the Middle East. Includes analysis of the politics of various transnational forces and the policies of external powers as they impinge on the area.

POSC 153 Russian Foreign Policy in Transition 4 Lecture, 3 hours; extra reading and term paper, 3 hours. Prerequisite(s): POSC 020 or POSC 020H; upper-division standing or consent of instructor. Surveys postwar Russian foreign policy with an emphasis on recent changes in relations between the United States and Eastern Europe and the independent states that formerly comprised the USSR. Utilizes various international relations theories and concepts to help students understand these significant changes.

POSC 154 Politics of the European Union 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the formation of the European Union, its institutional structure, and its policy-making processes. Explores its role in Europe and in the world in the face of political and economic challenges.

POSC 155 Government and Politics in Western

Europe 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative study of government and politics in Western Europe and how economic and cultural factors influence their formation. Analyzes how parties, bureaucracy, legislatures, and executives influence the political life of Western Europe. Focuses on the governing bodies in Britain, France, and Germany. Credit is awarded for only one of POSC 155 or POSC 155S.

POSC 155S Government and Politics in Western Europe 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative study of government and politics in Western Europe and how economic and cultural factors influence their formation. Analyzes how parties, bureaucracy, legislatures, and executives influence the political life of Western Europe. Focuses on the governing bodies in Britain, France, and Germany. Credit is awarded for only one of POSC 155 or POSC 155S.

POSC 156 Political Systems Across Muslim Societies 5 Lecture, 3 hours; discussion, 1 hour; term paper, 1 hour; extra reading, 1 hour; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A survey of the different political systems and institutional arrangements regulating the relationship between religion and the state across the Muslim world. Includes the history and main tenets of Islam and case studies such as Iran, Indonesia, Jordan, Pakistan, Nigeria, and the United States.

POSC 157 Modern Dictatorships 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Considers how dictatorships come to power and abuse that power. Also explores the dilemmas dictatorships faced, their successes, and why they met ultimate defeat. Includes study of dictatorships in Argentina, Chile, Haiti, Guatemala and Syria. Credit is awarded for only one of POSC 157 or POSC 157S.

POSC 157S Modern Dictatorships 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Considers how dictatorships come to power and abuse that power. Also explores the dilemmas dictatorships faced, their successes, and why they met ultimate defeat. Includes study of dictatorships in Argentina, Chile, Haiti, Guatemala and Syria. Credit is awarded for only one of POSC 157 or POSC 157S.

POSC 158 Politics of Mexico 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A survey of contemporary Mexican politics. Emphasis is on recent economic and social changes and their impact on Mexico's political system. Topics include relations with the United States, the rise of drug trafficking in Mexico, and the recent emergence of opposition politics. Cross-listed with LNST 148.

POSC 159 The Armed Forces and Politics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing

or consent of instructor. An introduction to the origins, nature, and behavior of the military within political systems. Focuses on the political interaction between the armed forces and civilians. Topics include military intervention, democracy, human rights, missions, defense organizations, and civilian control. Explores case studies of the United States, Russia, and countries from Latin America and Asia. Credit is awarded for only one of POSC 159 or POSC 159S.

POSC 159S The Armed Forces and

Politics 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the origins, nature, and behavior of the military within political systems. Focuses on the interaction between the armed forces and civilians, as well as the origins of military subordination and insubordination. Topics include military intervention, civilian control strategies, military missions, defense organization, civil-military relations in peace and wartime, and human rights. Covers case studies from Latin America, the United States, Russia, and Eastern Europe. Credit is awarded for only one of POSC 159 or POSC 159S.

POSC 160 Globalization and

Underdevelopment 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the political causes and consequences of the spread of the modern state, the competitive market, and political democracy. Examines how these political institutions interact with one another and shape the possibility of development. Credit is awarded for only one of POSC 160 or POSC 160S.

POSC 160S Globalization and

Underdevelopment 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the political causes and consequences of the spread of the modern state, the competitive market, and political democracy. Examines how these political institutions interact with one another and shape the possibility of development. Credit is awarded for only one of POSC 160 or POSC 160S.

POSC 161 U.S.-Latin American

Relations 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Explores international relations between the United States and the nations of Latin America. Examines different theories for explaining changes in the conduct of U.S.-Latin American relations over time. Topics include democracy and empire, revolution and counter-insurgency, economic integration and trade, petroleum politics, drug trafficking, and migration flows. Cross-listed with LNST 188.

POSC 162 Latin America: the Quest For

Development and Democracy 4 Lecture, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A comparative examination of central issues in and components of Latin American political life. Covers economic

development, regimes and alliances, guerrilla wars, the armed forces, human rights, and democratic consolidation. Includes Argentina, Chile, Venezuela, and Peru. Cross-listed with LNST 142. Credit is awarded for only one of LNST 142/POSC 162 or LNST 142S/POSC 162S.

POSC 162S Latin America: the Quest For Development and Democracy 5

Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A comparative examination of central issues in and components of Latin American political life. Covers economic development, regimes and alliances, guerrilla wars, the armed forces, human rights, and democratic consolidation. Includes Argentina, Chile, Venezuela, and Peru. Cross-listed with LNST 142S. Credit is awarded for only one of LNST 142/POSC 162 or LNST 142S/POSC 162S.

POSC 163 Ethnic Politics 4

Lecture, 3 hours; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the politics of ethnicity. Surveys theory and evidence utilizing a wide range of cases from around the world. Credit is awarded for only one of POSC 163 or POSC 163S.

POSC 163S Ethnic Politics 5

Lecture, 3 hours; discussion, 1 hour; individual study, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the politics of ethnicity. Surveys theory and evidence utilizing a wide range of cases from around the world. Credit is awarded for only one of POSC 163 or POSC 163S.

POSC 164 The Nation State and

Capitalism 4 Lecture, 3 hours; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Covers the comparative political economy of advanced industrial countries. Examines forms of capitalism after World War II. Studies political foundations and institutional features and their relation to economic growth, investment, innovation, international trade, employment, and economic quality. Analyzes the impact of globalization on labor relations, social welfare, financial market regulation, and corporate governance. Credit is awarded for only one of POSC 164 or POSC 164S.

POSC 164S The Nation State and

Capitalism 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Covers the comparative political economy of advanced industrial countries. Examines forms of capitalism after World War II. Studies political foundations and institutional features and their relation to economic growth, investment, innovation, international trade, employment, and economic quality. Analyzes the impact of globalization on labor relations, social welfare, financial market regulation, and corporate governance. Credit is awarded for only one of POSC 164 or POSC 164S.

POSC 165 Strategy and Politics 4 Lecture, 3 hours; individual study, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s):

upper-division standing or consent of instructor. An introduction to the formal analysis of politics, the role of strategic behavior, and the importance of political institutions in influencing political outcomes. Covers the basics of social choice and game theory and their applications to strategic voting, bargaining, cooperation, agenda setting, executive vetoes, conflict, and legislative bargaining. Credit is awarded for only one of POSC 165 or POSC 165S.

POSC 165S Strategy and Politics 5

Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the formal analysis of politics, the role of strategic behavior, and the importance of political institutions in influencing political outcomes. Covers the basics of social choice and game theory and their applications to strategic voting, bargaining, cooperation, agenda setting, executive vetoes, conflict, and legislative bargaining. Credit is awarded for only one of POSC 165 or POSC 165S.

POSC 166 Judicial Politics and Policy

Making 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of the characteristics of judicial bodies, emphasizing their interaction with other policy-makers and social and political problems. Investigates the policy roles of local, state, and lower federal courts and the U.S. Supreme Court.

POSC 167 Constitutional Law: Fundamental

Freedom 5 Lecture, 3 hours; discussion, 1 hour; research, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the legal and political context in the U.S. of freedom of expression, the press, and religion; separation of church and state; equal rights for women and minorities; voting rights; and citizenship.

POSC 168 Constitutional Law: Criminal

Justice 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of the rights of criminal defendants; the role of lawyers, police, prosecutors, and judges in the criminal process in the United States; and the function of criminal law.

POSC 169 Terrorism and Political

Violence 4 Lecture, 3 hours; extra reading and term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature and origin of political conflict, violence, and rebellion. Examines political violence as a political pathology and as an instrument of supporters and opponents of regimes. Examines types of political violence: terrorism, ethnic and communal conflict, rebellion, and revolutionary and counter-revolutionary violence.

POSC 170 Local Leadership in

California 4 Lecture, 3 hours; consultation, 1 hour. A survey of the local leadership structure-official and unofficial-in California. An analysis of who decides and influences local policy decisions.

POSC 171 American State Politics 4 Lecture,

3 hours. A critical examination of the activities, structure, and function of the states in the American political system. Concern is with the politics and major policy issues of the 50 states, with a special interest in California.

POSC 173 Government and Politics of

California 4 Lecture, 3 hours; individual study, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the political process of California. Focuses on both the electoral and legislative politics and the contribution they make to democratic governance under conditions of social diversity. Credit is awarded for only one of POSC 173 or POSC 173S.

POSC 173S Government and Politics of

California 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the political process of California. Focuses on both the electoral and legislative politics and the contribution they make to democratic governance under conditions of social diversity. Credit is awarded for only one of POSC 173 or POSC 173S.

POSC 175H Introduction to the Honors

Thesis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Familiarizes students with the procedures and techniques, from theory construction to data collection and analysis, needed to design and conduct original research for an honors thesis. Satisfactory (S) or No Credit (NC) grading is not available.

POSC 176H Seminar On Writing the Honors

Thesis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): POSC 175H; upper-division standing or consent of instructor. Provides guidance for students writing an honors thesis in political science. Topics include bibliographic research, fieldwork, statistics, case study analysis, professional writing, and standards of academic scholarship. Satisfactory (S) or No Credit (NC) grading is not available.

POSC 177H Honors Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): POSC 175H; POSC 176H; upper-division standing or consent of instructor. Independent research and preparation of an honors thesis completed under the supervision of a faculty member. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

POSC 178 Political Consequences of Electoral Institutions 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the structures of the various electoral systems used around the world. Explores how different electoral systems influence the choices made by voters and political candidates. Analyzes how these choices influence factors including representation, accountability, party systems, corruption, and economic growth. Credit is awarded for only one of POSC 178 or POSC 178S.

POSC 178S Political Consequences of Electoral Institutions 5

Lecture, 3 hours; discussion, 1 hour; extra reading, 2 hours; written work, 1

hour. Prerequisite(s): upper-division standing or consent of instructor. An examination of how the wide variety of electoral systems that are used in the world function. Explores how different electoral systems influence the choices made by voters and political candidates. Analyzes how these choices influence factors including representation, accountability, party systems, corruption, and economic growth. Credit is awarded for only one of POSC 178 or POSC 178S.

POSC 180 The Politics of Public

Health 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the social, environmental, and political factors that shape population health. Utilizes public health topics to illustrate the fundamental problems of the politics of regulation and social policy. Credit is awarded for only one of POSC 180 or POSC 180S.

POSC 180S The Politics of Public

Health 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the social, environmental, and political factors that shape population health. Utilizes public health topics to illustrate the fundamental problems of the politics of regulation and social policy. Credit is awarded for only one of POSC 180 or POSC 180S.

POSC 181 Public Policy: Values, Conflict, and

Politics 4 Lecture, 3 hours; research, 1 hour; individual study, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W. Introduces methods and approaches used to describe, explain, and evaluate public policies. Examples include group theories, system approaches, program planning, and budgeting systems.

POSC 182 Politics and Economic

Policy 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the political and administrative processes of economic policy formation, the rationale of government programs, and the mixture of facts, values, and social forces that determine policy. Emphasizes issues of government-economy interaction emerging under the impact of modern technology.

POSC 183 Administrative Politics and

Theory 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): POSC 010 or POSC 010H or POSC 010W; upper-division standing or consent of instructor. An introduction to the politics and theory of public administration. Topics include decision-making processes, leadership, formal and informal organization, and the interrelationships among values, structures, and behavior patterns.

POSC 184 Digital Government 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores extent to which emerging digital communication technologies transform the institutions and practice of democratic government in the United States. Topics include the impact of emerging communication technology on campaigning, legislative

representation, agency rulemaking, and deliberation, as well as the legal, regulatory, and political context of public sector technology. Credit is awarded for only one of POSC 184 or POSC 184S.

POSC 184S Digital Government 5

Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores extent to which emerging digital communication technologies transform the institutions and practice of democratic government in the United States. Topics include the impact of emerging communication technology on campaigning, legislative representation, agency rulemaking, and deliberation, as well as the legal, regulatory, and political context of public sector technology. Credit is awarded for only one of POSC 184 or POSC 184S.

POSC 186 Regulation: A Political

Perspective 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines government regulation from a political perspective, covering both traditional areas of business regulation and the newer social regulation in areas of environment, health and safety, and personal behavior. Evaluates rationales for and against regulation, in theory and through case studies.

POSC 188 Political Violence in Latin

America 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature, origins, and purposes of political violence in Latin America. Examines different forms of violence perpetuated by states, insurgents, military, police, and organized crime. Includes case studies of repression in Argentina, genocide in Guatemala, counter-insurgency in Colombia, and drug-related violence in Mexico, Brazil, and Central America. Credit is awarded for only one of POSC 188 or POSC 188S.

POSC 188S Political Violence in Latin

America 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the nature, origins, and purposes of political violence in Latin America. Examines different forms of violence perpetuated by states, insurgents, military, police, and organized crime. Includes case studies of repression in Argentina, genocide in Guatemala, counter-insurgency in Colombia, and drug-related violence in Mexico, Brazil, and Central America. Credit is awarded for only one of POSC 188 or POSC 188S.

POSC 190 Special Studies 1 to 5

Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor and department chair. Student prepares a written proposal endorsed by a supervising instructor, as a means of meeting individual curricular needs. Course is repeatable to a maximum of 15 units.

POSC 196 Moot Court: Legal Research, Writing, and Advocacy 4

Seminar, 4 hours. Prerequisite(s): senior standing; 3.40 GPA; POSC 167 or POSC 168. Introduction to the judicial process and legal argument. Explores how attorneys devise and make legal arguments, oral presentations, argument skills,

and the basics of legal analysis.

POSC 197 Research For Undergraduates 1 to 4

Research, 1 to 4 hours. Offers opportunity for directed individual research, to result in a substantial paper, when a student wishes to do a deeper study of a topic than is possible in the normal term paper.

POSC 198G Field Work in Political Science 4

Tutorial, hours to be announced; assignments, 8 hours. Prerequisite(s): . Direct evaluation of the local political process through participant observation, combining academic instruction and supervised field work. Students will examine firsthand political behavior and the policy process in one location in local political systems. May be repeated once for credit.

POSC 198I Individual Internship in Political Science 1 to 12

Internship, 2 to 24 hours; reading and writing, 1 to 12 hours. Prerequisite(s): a GPA of 2.70 or better; upper-division standing; consent of instructor. Intern assignments in major political offices. Students participate in and observe substantive theoretical analyses of political behavior and policy processes. Course is repeatable to a maximum of 16 units.

POSC 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): upper-division standing and consent of instructor. Independent work under the direction of members of the staff. The project may be undertaken as a one-, two-, or three-quarter sequence. In the case of a two- or three-quarter sequence, the final grade may be deferred until completion of the last quarter. Course is repeatable to a maximum of 12 units.

Graduate Courses

POSC 201 Introduction to Political Inquiry 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the logic of political inquiry. Problems of theory-building, research design, case selection, and measurement are covered in the context of quantitative and qualitative political research.

POSC 202A Survey of Quantitative Methods 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): POSC 201 or approval of department graduate committee. Introduction to statistical analysis. Topics include descriptive statistics, probability, sampling distributions, parameter estimation, hypothesis testing, correlation, and bivariate regression analysis.

POSC 202B Survey of Quantitative Methods 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): POSC 201 or approval of department graduate committee. Covers data analysis for political science applications. Topics include Statistical Package for the Social Sciences (SPSSX), regression analysis, causal modeling, factor analysis, and cluster analysis in research design context.

POSC 203 Social Science, History, and Qualitative Methodology 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the basic epistemology of qualitative social science. Provides students with a working knowledge of the strengths and weaknesses

of the historical and comparative case study approaches to social science.

POSC 204 Mathematical Modeling in Political Science 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Survey of basic mathematical tools relevant to research in political science and other disciplines of the social sciences, with an emphasis on concepts and applications. Topics include sets, matrix algebra, comparative-static analysis, optimization problems, exponential and logarithmic functions, equality constraints in optimization, and integration.

POSC 205 Advanced Regression Analysis 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): POSC 202B. Introduction to the use of advanced techniques in regression analysis. Topics include model specification, measures of goodness of fit, two-stage least squares, and models with binary dependent variables.

POSC 206 Environmental Policy and Law 4

Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing, POSC 010 or POSC 010H or POSC 010W, POSC 020 or POSC 020H; or consent of instructor. An introduction to the process and politics of environmental regulation in the United States and the negotiation and implementation of international environmental accords. Uses social scientific methods of analysis to investigate specific issues such as air quality, energy, and biodiversity. Cross-listed with ENSC 206.

POSC 207 Advanced Quantitative Analysis 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): MATH 005, POSC 202B; or consent of instructor. Introduction to the use of advanced techniques in quantitative analysis. Topics include maximum likelihood, sample selection bias, simultaneous equations.

POSC 208 Seminar in Representation 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines representation in America. Topics include what it means to represent; the different means of representation; to what degree the elected behave consistently with constituents' preferences; and the accountability of elected officials. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

POSC 212 Political Theory 4

Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A survey of general issues in political theory. Proponents covered may include Plato, Montesquieu, Weber, Arendt, Rawls, Foucault, and others. Debate models covered may include hermeneutics and normativity vs. science; power vs. truth; and democracy vs. liberalism. Course is repeatable to a maximum of 12 units.

POSC 213 Rhetoric and Argument in Ancient China and Greece 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A study of theories and practices of rhetoric, argument, persuasion, and, in some cases, poetics in ancient China and Greece (texts dating from the fifth to the third centuries B.C.), as well as some of their implications for contemporary theory and

practice. Students who submit a seminar paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. This course may also be taken on a Satisfactory (S) or No Credit (NC) basis by students advanced to candidacy for the Ph.D. Cross-listed with CPLT 213.

POSC 214 Political Economy of International Trade 4

Lecture, 3 hours; individual study, 1 hour; research, 1 hour; written work, 1 hour. Prerequisite(s): graduate standing; POSC 216 recommended. Overview of the literature in International Political Economy IPE relevant to the study of trade and globalization. Introduces the relationship between international politics and the world economy. Evaluates theoretical debates relevant to trade politics including economic growth and development, gender, environmental protection, migration, trade in services and intellectual property protection. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Credit is awarded for only one of POSC 214 or POSC 264.

POSC 215 Political Economy of International Finance 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Conducts a broad theoretical and historical survey of the politics and economics of international money and finance. Topics include monetary and exchange rate regimes, foreign direct investment, capital flows, sovereign debt, financial regulation and international macroeconomic coordination, the role of finance in economic development, and international financial crises. Cross-listed with ECON 236.

POSC 216 International Relations 4

Lecture, 3 hours. Prerequisite(s): consent of instructor. Historical development and present range of political thought on relations among nations, origins and implications of the idea of sovereignty, the theory of an international community, theories of imperialism. The analysis of selected contemporary problems--bipolarity, emergent nations, alliance systems in the light of recent contributions to international relations theory.

POSC 217 Comparative Politics 4

Lecture, 3 hours. Survey and introduction to comparative politics with emphasis on major ideas, trends, and issues in the field. Critical assessment of the literature on systems, political culture, development and underdevelopment, and elites.

POSC 220 Politics of Race, Immigration, and Ethnicity 4

Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the politics of race, immigration, and ethnicity in the United States, including comparisons to ethnic politics in other regions of the world. Emphasizes the role of political institutions and processes in making race, immigration, and ethnicity more or less salient in elections, legislation, social movements, and interpersonal and intergroup relations. Course is repeatable to a maximum of 8 units.

POSC 225 Formal Analysis 4

Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the use of formal theory in political science. Covers the basics of game theoretical analysis

and applications to substantive issues in the discipline. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

POSC 227 Seminar in Religion and

Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A critical examination of the relationship between religion and politics from a comparative perspective. Studies politicization of religion in political issues such as secularism, gender rights, minority rights, terrorism, civil conflict, foreign policy, political Islam, and Christian democracy. May be taken Satisfactory(S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

POSC 230 Research Colloquium in Political

Science 1 Colloquium, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides training in full and effective engagement in scholarly inquiry and exchange. Utilizes tiered participation in student and faculty presentations. Includes discussion of current research in the fields of political science such as American politics, comparative politics, international relations, mass politics, and political theory. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 18 units.

POSC 249 American Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys major theoretical approaches to the study of American politics and enduring research questions in the field. Topics vary and could include the politics of race and ethnicity, the historical development of government institutions, political parties, voting behavior, federalism, and the policy-making process in the United States. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 8 units.

POSC 250 Seminar in Politics and the Legal

Order 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Intensive reading and research on selected topics in politics and the legal order, such as law and social change, compliance with judicial decision making, and important areas of constitutional law.

POSC 252 Public Policy 4 Seminar, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores approaches to public policy analysis, emphasizing interaction between substance and process in policy development. Covers both theories and concrete case studies; special attention given to the administrative stage of policy development.

POSC 254 Seminar On the U.S.

Congress 4 Seminar, 3 hours. An examination of major research on the U.S. Congress. Emphasis will be placed upon substantive questions requiring further research and upon methodological techniques appropriate to such research.

POSC 255 Seminar in American Electoral

Behavior 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): graduate standing or consent of instructor. Explores the literature on electoral behavior in the United States. Focuses on the major models of voting behavior developed since 1945. In addition, issues such as voter turnout, economic voting, and presidential primaries are covered.

POSC 256 Seminar in Public Opinion and Mass

Media 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores classic and contemporary research on public opinion and mass media. Topics in public opinion include political socialization, attitude constraint, and theories of attitude change. Topics in mass media include agenda setting and framing effects.

POSC 257 Comparative Political Behavior and

Elections 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines issues in the theoretical literature on voting studies by using examples mainly from outside the U.S.

POSC 258 Congressional Elections 4 Seminar,

3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Congressional elections is a growing field of inquiry in American electoral politics. Much scholarly debate has been generated over a variety of phenomena in this area. This seminar provides an overview of a number of these controversies and offers students the conceptual framework to critically analyze a rather large body of literature.

POSC 259 Women and the American Political

Process 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An examination of the role of women in the American political process. Topics include the women's movement as a social movement and as an interest group, women as voters, candidates and office holders, and women's issues and the public policy process.

POSC 260 Economics and Elections 4 Seminar,

3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the impact of issues and economic conditions on voting behavior in elections, with primary focus on United States presidential elections. The roles of campaigns and information are also covered.

POSC 261 American Political

Institutions 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys the principal theoretical and empirical issues involved in the study of American political institutions. Covers the major U.S. national political institutions, including Congress, the presidency, the judiciary, the bureaucracy, interest groups, and political parties.

POSC 262 War Termination and Conflict

Resolution 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers competing explanations of why and when conflicts come to an end. Focuses on international and civil wars. Addresses questions such as the following: Why do civil wars last longer than international ones? Why are civil wars difficult to settle through negotiation? What impact does domestic politics

have on international war termination?

POSC 263 Seminar On Conflict and

Peace 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers some of the principal problems, issues, and findings in the study of the causes and consequences of war. Focuses on a number of key variables and their links to war under certain conditions and introduces students to standard data sources.

POSC 264 Seminar in International Political

Economy 4 Seminar, 3 hours; consultation, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An examination of major economic institutions, developments, and forces in world politics. Emphasizes contending theoretical approaches, issues in North-South relations, and consequences for regional and national political-economic development. Credit is awarded for only one of POSC 214 or POSC 264.

POSC 266 Political Economy of

Growth 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): POSC 202A, POSC 202B; or consent of instructor. Examination of political and economic aspects of growth using a formal and quantitative approach. Topics include political institutions, social development, economic growth, and democratization. Emphasis is on the interaction and causality between political and economic variables.

POSC 267 Ethics and International

Politics 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Examines ethical debates in the field of international politics. Topics include just war theory, humanitarian aid, military intervention, international justice and human rights, aggression, peacekeeping, and global inequality. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Credit is awarded for only one of POSC 135 or POSC 267.

POSC 268 Human Rights 4 Seminar, 3 hours;

research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of instructor is required for students repeating the course. Surveys the primary theoretical and empirical issues in the study of human rights. Explores major themes and contemporary topics, including, but not limited to, cultural relativism, the evolution of the human rights regime, and the impact of globalization, domestic, and international institutions. Course is repeatable to a maximum of 8 units.

POSC 271 Comparative Political

Economics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Past attempts to address such questions as "What part does government play in the economy?" have been made within the disciplinary boundaries of political science or economics. Such questions, however, cut across the domains of economics and political science, and the new political economy attempts to integrate theories and insights from both disciplines. This course will examine this literature to see how successful it has been in explaining important aspects of

the interrelationship between politicians and the economy.

POSC 272 Parties and Party Systems in Western Europe 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines some of the literature on parties and party systems in Western Europe, with special attention to the role of such systems in modern representative democracies and to debates in the literature on this topic.

POSC 273 Rational Choice in Comparative Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The rational choice approach has begun to gain favor among a number of comparativists working on a variety of questions. This seminar critically reviews and discusses the contribution the rational choice perspective has made as well as the debates it has sparked.

POSC 274 The Armed Forces and Politics 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the role of the armed forces in political society, covering western-democratic, communist, postcommunist, and third world systems. Comparisons of civil-military relations across regions are made, with an emphasis on military political intervention and civilian control strategies.

POSC 276 Democracy and Democratization 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Addresses topics and readings on democracy and democratization within the field of comparative politics. Covers arguments between democracy and democratization across regions and time. Explores the relative impact of economic, social, and political factors in the emergence of democracy and conditions sustained therein.

POSC 278 Seminar in Latin American Politics 4 Seminar, 3 hours. Critical examination of fundamental issues of Latin American politics with attention to varying interpretations and approaches to the study of elites and masses, power and class conflict, development and underdevelopment.

POSC 279 Asian Political Economy in Comparative Perspective 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on the political economy of late development, particularly in East Asia, including rival forms of institutional analysis, case studies versus comparative analysis, and the particular data and methodological challenges of fieldwork-based analysis.

POSC 280 Seminar in Political Theory 4 Seminar, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): consent of instructor. A detailed study at an advanced level of political theories and concepts and the writings of their major theorists. Themes and eras covered vary each quarter. Course is repeatable to a maximum of 12 units.

POSC 281 Seminar in the History of Political Thought 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Advanced study of the methodology

and practice of research in the history of political thought. Course is repeatable to a maximum of 12 units.

POSC 282 Political Theory and Policy Analysis 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of the literature focusing on the analysis of individual behavior within various types of institutional arrangements. Introduces a diversity of work oriented in rational choice theory, broadly defined. Emphasis is placed on applying institutional analysis to legislative, bureaucratic, and so-called informal institutions.

POSC 283 Political Thinkers in Depth 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores in depth one or more great political thinkers from around the world. Focuses on methodologies of research and interpretation. May include works by Plato, Confucius, Machiavelli, Marx and Engels, John Stuart Mill, or Gandhi. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

POSC 285 Professional Research Paper 4 Research, 12 hours. Prerequisite(s): graduate standing or consent of instructor. An independent study course focusing on writing a substantial research paper, emphasizing research design problems. Must be accomplished within two quarters following doctoral qualifying examinations. Course is repeatable.

POSC 290 Directed Studies 1 to 6 Research, 3 to 18 variable hour., Prerequisite(s): consent of instructor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 291 Individual Study in Coordinated Areas 1 to 12 Prerequisite(s): consent of instructor. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Does not count toward the unit requirement for the master's degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 292 Concurrent Analytical Studies in Political Science 2 to 4 Research 8 to 16 hours. Prerequisite(s): consent of instructor. Each 292 course is taken concurrently with a 100-series course but on an individual basis. Students complete a graduate-level paper based on research or criticism related to the 100-series course. Faculty guidance and evaluation is provided throughout the quarter. POSC 114, POSC 114H, POSC 114S, POSC 142 (E-Z), POSC 186, POSC 190, POSC 196, POSC 197, POSC 198G, POSC 198I, and POSC 199 may not be used for this course arrangement. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 293 Research Topics in Political Science 1 Lecture, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Lectures and discussions by invited scholars and faculty on selected research topics in political science. Graded Satisfactory (S) or No

Credit (NC). Course is repeatable.

POSC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing or consent of instructor. Individual research performed under the direction of a faculty advisor. Designed for students preparing their dissertation prospectuses. Students meet in groups by appointment with a faculty advisor to discuss issues of dissertation writing. Emphasis is placed on the development of research design. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

POSC 299 Research For Thesis Or Dissertation 1 to 12 Thesis 3 to 36 hours. Prerequisite(s): graduate standing or consent of instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

POSC 301 Teaching of Political Science at the College Level 2 Seminar, 1 hour; practicum, 3 hours. Prerequisite(s): graduate standing in Political Science. A program of weekly meetings and individual formative evaluation required of new Political Science Teaching Assistants. Covers instructional methods and classroom/section activities most suitable for teaching Political Science. Conducted by departmental faculty or the Teaching Assistant Development Program. Graded Satisfactory (S) or No Credit (NC).

POSC 302 College Teaching Practicum 1 to 4 Practicum, 2 to 8 hours; consultation, 1 to 4 hours. Prerequisite(s): graduate standing and consent of instructor. Required of all teaching assistants in the department. Credit not applicable to graduate unit requirements. Supervised teaching in college level classes under the supervision of the course instructor. Graded Satisfactory (S) or No Credit (NC).

POPULATION BIOLOGY

College of Natural and Agricultural Sciences

The interdepartmental Ph.D. program in Population Biology is not currently accepting new students. For further information call (800) 735-0717 or (951) 827-5621.

Aerika Loyd, Ph.D.
Misaki N. Natsuaki, Ph.D.
Rebekah Richert, Ph.D.
Thomas Sy, Ph.D.
WeiWei Zhang, Ph.D.

Assistant Professors

Ilana Bennett, Ph.D.
Diamond Bravo, Ph.D.
Jimmy Calanchini, Ph.D.
Cecilia Cheung, Ph.D.
John Franchak, Ph.D.
Anubhuti Goel, Ph.D.
Brent L. Hughes, Ph.D.
Kalina J. Michalska, Ph.D.
Megan Robbins, Ph.D.
Rachel Wu, Ph.D.
Edward Zagha, M.D., Ph.D.

Assistant Professor of Teaching

Annie Ditta, Ph.D.

Majors and Career Opportunities

The major in Psychology is designed to give students a broad, general exposure to knowledge in the various areas of psychology and to the methods psychologists use to conduct research. The B.A. degree in Psychology is useful to those students seeking careers in probation and parole, corrections, personnel, industrial relations, mental health work, social work, or positions as trainees in a variety of executive training programs. The degree also prepares students for graduate school in psychology in either M.A. or Ph.D. programs. Such graduate programs prepare students for a variety of career possibilities. Careers include teaching and research positions in community and private colleges and state and other universities as well as career positions such as research psychologist, clinical psychologist, counseling psychologist, and industrial psychologist. For more information, see psych.ucr.edu.

The department offers a minor in Psychology and a major in Psychology/Law and Society.

Transfer Students

Transfer applicants must have a minimum GPA of 2.70. Applicants must also have a minimum of one UC transferable mathematics course equivalent to Math 004 or higher.

Change of Major Criteria

Students switching to the Psychology or Psychology/Law and Society must have completed the following courses with grades of C- or better and have been in good academic standing for two quarters or more.

1. Lower Division requirements

a. PSYC 001, PSYC 002, PSYC 011 and MATH 004 or higher

Transfer students and others entering the major after achieving sophomore standing must complete the requirements within one year by enrolling in applicable courses every quarter until the requirement is met. Students who do not complete the lower-division requirements in this timely fashion and with at least the minimum required grade average will not be permitted to continue in the Psychology major. Students must check course descriptions for prerequisite requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

The lower-division biological, physical sciences, and mathematics requirements for the Psychology major also count toward the college's Natural Sciences and Mathematics breadth requirement. Consult with a departmental advisor.

Major Requirements Psychology Major

Psychology offers B.A. and B.S. degrees. The Psychology major requires completion of the lower-division requirements listed below by the end of the sophomore year, with an average grade of "C" or better with no grade below a "C-", before upper-division Psychology courses are taken. All courses must be taken for a letter grade.

For the Bachelor of Arts

The major requirements for the B.A. degree in Psychology are as follows:

1. Lower-division requirements (at least 39 units)

- One course in Mathematics equivalent to MATH 004 or higher; or a score on the MAE (Math Advisory Exam) sufficient for placement into MATH 022 or higher.
- One 4 unit course in Biological Sciences (Biochemistry, Biology, Botany and Plant Sciences, Entomology, Nematology, or Plant Pathology)
- One 4 unit course in Physical Sciences (Chemistry, Physics, Earth Sciences, excluding cultural Geography courses)
- Two additional 4 unit courses that satisfy the CHASS Natural Sciences and Mathematics breadth requirements.
- PSYC 001, PSYC 002, PSYC 011, PSYC 012

2. Upper-division requirements (37 units)

- PSYC 110 or CBNS 106
- PSYC 140, PSYC 150
- PSYC 132 or PSYC 134
- PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163
- Four additional 4-unit, upper-division Psychology courses. Only one 4- to 5-unit quarter of PSYC 198G, or one 4- to 8-unit quarter of PSYC 198I may be included. No 190- series courses other than PSYC 198G or PSYC 198I may be used

Students planning for graduate school should take into consideration any specific graduate school requirements when choosing these elective Psychology courses.

Note: Students who have taken general or introductory Psychology courses other than PSYC 001 and PSYC 002 must consult with a departmental advisor.

For the Bachelor of Science

The B.S. degree is designed to provide a research-intensive curriculum for students who want a deeper understanding of how knowledge is created through research and for students who may be interested in research-based graduate programs in psychology and the biological sciences.

Psychology courses must be taken for a letter grade. Students must check course descriptions for prerequisite requirements.

Admission

A limited number of students are accepted into the B.S. degree of the Psychology major.

Acceptance is according to overall GPA and acceptable progress towards the Psychology major, including PSYC 001, PSYC 002, PSYC 011 and PSYC 012 with a B- or better. Students must apply when they have completed between 75 and 100 quarter units of college work.

The major requirements for the B.S. degree in Psychology are as follows:

1. Lower-division requirements for the B.S. (at least 39 units)

- One course in Mathematics equivalent to MATH 004 or higher; or a score on the MAE (Math Advisory Exam) sufficient for placement into MATH 022 or higher.
- One 4 unit course in Biological Sciences (Biochemistry, Biology, Botany and Plant Sciences, Entomology, Nematology, or Plant Pathology)
- One 4 unit course in Physical Sciences (Chemistry, Physics, Earth Sciences, excluding cultural Geography courses)
- Two additional 4 unit courses that satisfy the CHASS Natural Sciences and Mathematics breadth requirements.
- PSYC 001, PSYC 002, PSYC 011, PSYC 012 with no grade below a B-

2. Upper-division requirements (37 units)

- PSYC 110 or CBNS 106
- PSYC 140, PSYC 150
- PSYC 132 or PSYC 134
- PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163
- Any three of the following: PSYC 109, PSYC 120L/CBNS 120L, PSYC 180, PSYC 181, PSYC 182 (E- Z), PSYC 195, PSYC 197 (for a total of 4 units, letter grade required), PSYC 199H
- One of the following: PSYC 117, PSYC 136, PSYC 139, PSYC 148, PSYC 169, or PSYC 190 (for a total of 4 units, letter grade required). One of the following graduate seminars may be substituted, with permission of the instructor: PSYC 251, PSYC 255, PSYC 256, PSYC 257, PSYC 258, PSYC 263
- One additional 4-unit, upper-division Psychology course. No 190- series courses other than PSYC 198G or PSYC 198I may be used.

Students planning for graduate school should take into consideration any specific graduate school requirements when choosing these elective Psychology courses.

Psychology/Law and Society Major

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher.

- All requirements for the B.A. in Psychology (39 lower-division units, which includes 16 units that are also used for college breadth requirements; 36 upper-division units)**
- Requirements for Law and Society (36 units)**
 - PHIL 007 or PHIL 007H

- LWSO 100 (with a grade of "C" or better)
- One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
- Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159
- Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180
- LWSO 193, Senior Seminar

Note: For sections 2.d) and 2.e) combined, not more than two courses may be taken from the same department. In fulfilling requirements of two or more majors, students may not count more than two courses toward both parts of their total requirements. For this major, PSYC 012 fulfills a requirement in both Psychology and Law and Society.

Minor

Prerequisites for the minor in Psychology are PSYC 001, PSYC 002, PSYC 011, and PSYC 012, with an average grade of "C" or better, with no grade below a "C-".

Requirements for the Psychology minor are as follows (21 units):

- Twenty-one (21) upper-division Psychology units
 - PSYC 110 or CBNS 106
 - PSYC 132 or PSYC 134
 - PSYC 140 and PSYC 150
 - PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Psychology offers the M.A. and Ph.D. degrees in Psychology; however, applications are not accepted from students wishing to work towards the master's degree only.

Graduate training in Psychology is offered in four major areas: Cognitive, Social/Personality, Developmental, and Behavioral Neuroscience.

Admission

Students are normally expected to have completed the equivalent of an undergraduate major in Psychology at the UC, with background

preparation in basic science and mathematics. Applicants for graduate status must provide scores for the GRE General Test (verbal and quantitative) prior to admission.

The Ph.D. degree is a research degree. Students must demonstrate the ability to complete rigorous empirical research and must be active in research throughout their graduate career. The course requirements in the Ph.D. program are directed toward establishing a foundation for critical evaluation of research literature and designing conceptually important empirical research.

Doctoral Degree

Course Work The courses normally required during the first two years include the following:

- PSYC 211, PSYC 212, PSYC 213 (Behavioral Neuroscience students take two of the three, as directed by the student's advisor.)**

2. The appropriate area core:

Cognitive: PSYC 203A, PSYC 203B, PSYC 203C, PSYC 233

Developmental: PSYC 207A, PSYC 207B, PSYC 207C, PSYC 208

Social/Personality: PSYC 225, PSYC 226, PSYC 227

Neuroscience: NRSC 200A/PSYC 200A, NRSC 200B/PSYC 200B, NRSC 200C/PSYC 200C

3. Five additional courses or seminars selected to provide further study beyond the area core course requirements.

Courses or seminars must be 3- or 4-units, and at least one must be a Departmental core course (listed in 2, above) outside the student's area of specialization. The student's adviser and the department graduate adviser must approve the list of courses used to satisfy this further study requirement. Students who have completed graduate-level course work prior to entering the UCR program may request that specific courses be accepted toward the satisfaction of this requirement. This request will be reviewed using procedures and standards typically applied to the approval of courses to satisfy this requirement.

- PSYC 301:** Required of all graduate students prior to or concurrent with the first teaching assistant appointment unless waived by petition due to previous experience. The Psychology Department requires that each student earn a "B" average in the PSYC 211, PSYC 212, and PSYC 213 sequence and in the student's area core courses, with no grade lower than a "B-".

In addition, students must be enrolled in the appropriate area of Proseminar every quarter until advancement to candidacy:

Cognitive: PSYC 283

Developmental: PSYC 284

Social/Personality: PSYC 285

Neuroscience: PSYC 287 or PSYC 289

Progress in the program is formally evaluated in June of each year and informally on a continuing basis by noting participation in class and in

research.

All students in the graduate program are held to these requirements whether or not they have taken graduate work at, or hold an M.A. from, another institution. The only exception may be for previously-taken graduate-level course work which is thought to be equivalent to one or more of PSYC 211, PSYC 212, or PSYC 213. If a grade of "B" or better was received, and with the approval of the advisor, the student may be tested by a departmental instructor of the course(s) in question. On the basis of the results of the test, the instructor decides if the course can be waived.

Professional Development Requirement

The Professional Development course (PSYC 309B) curriculum satisfies the Professional Development requirement. Topics discussed typically include: interviewing, writing, and oral presentation skills; the academic job market and the job application process; and nonacademic careers

Master's Degree

Although there is not a separate terminal master's program, students may apply for the master's degree at the beginning of the quarter in which they expect to complete the statistical sequence, the appropriate area core, two of the five further study courses, PSYC 301 (see 1, 2, 3, and 4 above), and a minimum of 36 units in graduate status (of which at least 18 must be in graduate course work) and pass an oral comprehensive examination administered by the Psychology Department.

Teaching Experience

Each student must gain experience in a teaching capacity for the equivalent of at least three full quarters. Teaching assistants assist a faculty member in an undergraduate course by preparing and grading examinations, reading papers, lecturing, and conducting discussion and laboratory sections.

Written and Oral Qualifying Examinations

The qualifying examination should be taken during the third year of full-time graduate study. It consists of a written component and an oral examination, and focuses on the subject matter in the student's chosen area of concentration.

A qualifying committee should be nominated early in the third year, and all core and breadth requirements must be completed no later than the quarter in which the qualifying examination is taken.

On the basis of this examination (and completion of the core and breadth requirements), the student may pass and be advanced to candidacy for the Ph.D.; fail, and be permitted one retake; be awarded the M.A. (if not previously awarded) but not be advanced to candidacy for the Ph.D.; or not be awarded the M.A. and not be advanced to candidacy for the Ph.D.

Upon successful completion of 1, 2, 3, and 4, passing the qualifying examination, and nomination of the dissertation committee, the Graduate Division sends the student an application for advancement to candidacy.

Dissertation and Final Oral Examination Students must complete a dissertation on a subject chosen by the candidate, bearing on the principal

area of concentration and showing the student's ability in independent investigation. The dissertation committee guides the student in preparing the dissertation and examines the student during the defense of the dissertation.

Each of the four major areas may have additional requirements. Occasionally, a change in courses used to satisfy specific requirements may be justifiable. For a complete description of the program, visit psych.ucr.edu.

Normative Time to Degree 15 quarters

Minor in Quantitative Psychology

In addition to pursuing a doctoral degree in one of the core areas of psychology, graduate students may qualify, under the direction of the committee in charge of the quantitative minor, for a minor in Quantitative Psychology by completing the following:

1. PSYC 211, PSYC 212, and PSYC 213, with a grade of "A-" or better in each course, or passing an examination covering the three courses
2. Three advanced quantitative courses: PSYC 259 (with different subtitles) or other courses specifically approved by the committee in charge
3. Three quarters of PSYC 270
4. Successful completion of an oral qualifying examination based upon a quantitative methods project completed by the student.

A three-person faculty committee, approved by the chair of the committee in charge, must grant prior approval of the topic of the project and conduct the oral examination. The student and the committee determine the format of the oral exam; a presentation in PSYC 270 based on the project satisfies the oral examination requirement.

Opportunities for Graduate Study in Neuroscience

Faculty from the Department of Psychology participate in a unique graduate specialization in Neuroscience which draws on the strengths of distinguished scientists from several units. For further information concerning work in this area, see Neuroscience Graduate Program in the Programs and Courses section of this catalog.

Lower-Division Courses

PSYC 001 Introductory Psychology 4 Lecture, 3 hours; discussion, 1 hour. An introduction to psychology as an experimental science. Emphasizes topics in cognitive (including learning, memory, sensation, perception), comparative, and physiological psychology.

PSYC 002 Introductory Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Emphasizes topics in developmental psychology, tests and measurements, social psychology, personality, and abnormal behavior.

PSYC 011 Psychological Methods: Statistical Procedures 5 Lecture, 3 hours; discussion, 2 hours. Prerequisite(s): MATH 004 or MATH 005 or MATH 006A or MATH 006B or MATH 022 or MATH 009A or MATH 009B or MATH 09HB or MATH 09HB or MATH 009C or MATH

010A or MATH 010B with a grade of C- or better; or a score on the MAE (Math Advisory Exam) sufficient for placement into MATH 022 or higher; PSYC 001; PSYC 002 with grades of C- or better. Covers descriptive and inferential statistics, measures of central tendency, variability, and correlation. Introduces sampling distributions, statistical inference, and hypothesis testing.

PSYC 012 Psychological Methods: Research

Procedures 6 Lecture, 3 hours; laboratory, 3 hours; research, 3 hours; term paper, 1 hour; extra reading, 2 hours. Prerequisite(s): ENGL 001B with a grade of C or better; PSYC 011 with a grade of C- or better; MATH 004 with a grade of C- or better or MATH 005 with a grade of C- or better or MATH 006A with a grade of C- or better or MATH 006B with a grade of C- or better or MATH 007A with a grade of C- or better or MATH 007B with a grade of C- or better or MATH 009A with a grade of C- or better or MATH 09HA with a grade of C- or better or MATH 009B with a grade of C- or better or MATH 09HB with a grade of C- or better or MATH 009C with a grade of C- or better or MATH 09HC with a grade of C- or better or MATH 010A with a grade of C- or better or MATH 010B with a grade of C- or better or MATH 022 with a grade of C- or better; Or equivalent a score on the MAE (Math Advisory Exam) sufficient for placement into MATH 022 or higher; consent of instructor is required for students repeating the course. A systematic survey of research methodologies in psychology. Laboratory assignments include evaluating and testing psychological theories; assessing methodologies and research designs; designing and implementing research; collecting data and analyzing statistics; writing research reports; and discussing ethical issues in science.

PSYC 013 Skepticism and Pseudoscience in Psychology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a grade of "C-" or better in ENGL 001A or consent of instructor. Studies topics at the borderland of psychology (e.g., extra-sensory perception, repressed memory, pseudoscientific beliefs, parapsychology, psychic phenomena, faith healing, mass hysteria). Explores the relationship among skepticism, cynicism, and "gullibility" and the rhetoric of extraordinary claims. Stresses the development of scientific literacy, critical thinking skills, hypothesis testing, and understanding psychology as an empirical science.

PSYC 049 Topics in Psychology 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Explores a topic of general interest in psychology. Debate and dialog are the distinguishing features of this course. Topics are announced in the Schedule of Classes. Course is repeatable as topics change to a maximum of 16 units.

PSYC 096 Research For Lower-Division

Students 1 to 2 Scheduled research, 3-6 hours. Prerequisite(s): freshman or sophomore standing and consent of instructor. An introduction to research in psychology. Emphasis upon aspects of library and laboratory research within the content of ongoing faculty research programs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

Upper-Division Courses

PSYC 109 Advanced Research

Methods 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012, each with a grade of "B-" or better; or equivalents; or consent of instructor. Advanced theory and practice of planning, conducting, reporting, and evaluating research in the social and behavioral sciences. Students conduct original research that, if desired, can lead to (and become part of) a senior honors thesis or other senior-level research project. Satisfactory (S) or No Credit (NC) grading is not available.

PSYC 110 The Brain and Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of "C-" or better, or equivalents, or consent of instructor. Explores the principles of neuroanatomy and neurophysiology and their relationship to brain function. Topics include sensory and perceptual processes, biological aspects of learning and memory, motivation, emotion, language, and abnormal behavior.

PSYC 112 Neural Mechanisms of Animal Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or PSYC 110 with a grade of "C-" or better or consent of instructor. Studies how the nervous systems of vertebrates and invertebrates contribute to and control their behavior. Focuses on aspects of sensory physiology with a brief orientation to the structure and function of nervous systems. Emphasizes a top-down approach to neurobiology, with specific behaviors providing guidelines for an examination of neural mechanisms.

PSYC 115 Drugs and Behavior 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or PSYC 110 with a grade of "C-" or better or consent of instructor. Describes both legal and illegal drugs. Analyzes drug-nervous system interactions and how the use of various drugs (particularly drugs of abuse) affects behavior and psychological well-being.

PSYC 117 Cognitive Neuroscience of Memory and Consciousness 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): CBNS 106 with a grade of "C-" or better or PSYC 110 with a grade of "C-" or better. Surveys the neural basis of mental processes, focusing on memory and consciousness and their behavioral manifestations. Emphasizes current research literature.

PSYC 120 Cellular Neuroscience: Membrane and Synaptic Phenomena 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or consent of instructor. An examination of cellular and molecular mechanisms of nervous system function using concepts drawn from the study of vertebrates and invertebrates with emphasis on mammalian systems. Cross-listed with CBNS 120.

PSYC 120L Neuroscience Laboratory 2 Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): CBNS 120/PSYC 120 or concurrent enrollment. Laboratory experiments using anatomical, chemical, and physiological research methods

fundamental to understanding neurons and neural systems. Cross-listed with CBNS 120L.

PSYC 121 Developmental

Neuroscience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or consent of instructor. A study of the development of nervous systems. Examines the cellular and molecular mechanisms of neural development and the determinants of cell birth and death, axonal pathfinding, neuronal connections, and development of neural systems underlying behavior. Cross-listed with CBNS 121.

PSYC 122 Human Neuroimaging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 110 or CBNS 106 or consent of instructor. PSYC 122 can be taken without PSYC 122L. An introduction to magnetic resonance imaging in psychological research with an emphasis on the merits and limitations of structural and functional neuroimaging in humans.

PSYC 122L Human Neuroimaging

Laboratory 2 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): concurrent enrollment in PSYC 122; or consent of instructor. Laboratory exercises in the design, acquisition, and analysis of structural and functional magnetic resonance imaging data.

PSYC 123L Computational Neuroscience Laboratory: Introduction to Brain Modeling Techniques 2

Lecture, 1 hour; laboratory, 3 hours. Prerequisite(s): CBNS 120 or PSYC 120; or consent of instructor. Introduces computer modeling techniques used to study neurons and neural systems. Selected topics include biophysical models of single neurons, small neural circuits, synaptic interactions, and larger scale network models. Cross-listed with CBNS 130L.

PSYC 124 Systems Neuroscience 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 with a grade of "C-" or better or consent of instructor. A study of the structure and function of motor and sensory systems in vertebrate and invertebrate nervous systems. Cross-listed with CBNS 124.

PSYC 125 Neuropharmacology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 120/PSYC 120. Examines synaptic neurotransmitter systems, mechanisms, and pharmacological agents and effects, which are fundamental to neural information processing. Cross-listed with CBNS 125.

PSYC 126 Neuroscience of Learning and

Memory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 106 or PSYC 110 or consent of instructor. Covers mechanisms of learning and memory across levels of analysis, including genetic, neuronal, systems and theory. Topics include the multiple memory systems, memory consolidation, working memory, emotional memory, recognition memory, spatial memory, and human amnesia. Cross-listed with CBNS 126.

PSYC 127 Behavioral Control

Systems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CBNS 120/PSYC 120; CBNS 124/PSYC 124 strongly recommended. An analysis of neural mechanisms that underlie behavior, concentrating on motor control.

Topics range from command systems, to central pattern generators, to cortical control of voluntary movement and brain-machine interfaces (neuroprosthetics).

PSYC 128 Language and the Brain 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): LING 020 or PSYC 110 or PSYC 135 or CBNS 106 or consent of instructor. Interdisciplinary introduction to study of language and the brain, including brain evolution for language, neural bases of speech comprehension, speech production, and reading, aphasia and language recovery, co-development of language and brain, and additional special topics. Cross-listed with LING 162.

PSYC 129 Human Neuropsychology 4 Lecture, 3 hours; discussion, 1.5 hours. Prerequisite(s): a grade of "C-" or better in one of the following courses or consent of instructor: CBNS 106, PSYC 110, PSYC 132, PSYC 134, PSYC 135. Surveys how high psychological functions (e.g., perception, memory, language) are organized in the human brain. Special emphasis is on behavioral and cognitive impairments due to brain injury and how they may inform our view of normal cognitive functions.

PSYC 130 Fundamentals of Learning and Conditioning 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. A survey course that includes both historical and current models of human learning, conditioning, and memory. Provides a good foundation for research or future study in learning and memory by covering fundamental theories established by Pavlov and Skinner while incorporating new theories of human behavioral control.

PSYC 131 Computational and Mathematical

Models in Cognitive Science 4 Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): a grade of "C-" or better in PSYC 001, PSYC 002, PSYC 011, PSYC 012 or consent of instructor. Introduces students to the technical and theoretical issues involved in using models to understand behavior. Involves analysis of model predictions and simulation of behavioral data. Course is repeatable to a maximum of 12 units if taken with different instructors.

PSYC 132 Perception 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. An analysis of the role played by sensory mechanisms, experiences, expectations, and needs in recognizing objects in the environment.

PSYC 133 Human Factors 4 Lecture, 3 hours; extra reading, 3 hours; term paper, 1 hour. Prerequisite(s): a grade of "C-" or better in one of the following courses or consent of instructor: PSYC 132 or PSYC 134. Provides an overview of the human capabilities and limitations considered in the design of person-machine systems. Evaluates factors critical to performance in person-machine systems, including attention, decision making, motor performance, and memory.

PSYC 134 Cognitive Processes 4 Lecture,

3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. Empirical and theoretical research in several subareas within contemporary cognitive psychology. These subareas include attention, mental representation, information organization and retrieval from memory, psycholinguistics, problem solving, decision making, thinking, and artificial intelligence and computer simulation of cognitive processes.

PSYC 135 Psycholinguistics 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012. Introduction to psycholinguistics emphasizing the psychological implications of linguistic theory, including the effect of syntactic structure on the comprehension, production, and retention of speech; the course of language acquisition; and models of the adult language user.

PSYC 136 Topics in Cognitive Neuroscience 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): a grade of "C-" or better in one of the following courses or consent of instructor: CBNS 106, PSYC 110, PSYC 129, PSYC 132, PSYC 134, PSYC 135. Intensive study of selected topics in cognitive neuroscience. Stresses the methodology and interpretation of current research topics. Course is repeatable as topics change to a maximum of 12 units.

PSYC 139 Topics in Cognitive Psychology 4 Seminar, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012; PSYC 132 or PSYC 134 or PSYC 135. Intensive study in cognitive psychology. Stresses literature, methodology, and experimental design and analysis. Course is repeatable as topics change to a maximum of 16 units.

PSYC 140 Social Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. The relationship between the individual and the group, including such topics as conformity and deviance, attraction and prejudice, altruism and aggression, and the social nature of attitudes.

PSYC 142 Industrial/Organizational Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 002. Introduction to the field of industrial/organizational psychology covering fundamental theory and research in personnel and organizations. Topics include employee selection and training, performance appraisal, motivation, organizational dynamics, leadership, and job satisfaction.

PSYC 148 Topics in Social Psychology 4 Lecture, 3 hours; extra reading or term paper, 3 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 140. Intensive study of selected topics in social psychology

such as race relations, attitude formation and change, biases of social science researchers, and the application of psychological principles in community organization. Emphasis is on the study of these areas in natural settings. Specific course content varies. Course is repeatable to a maximum of 16 units.

PSYC 149 The Science of Well-Being 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 and PSYC 002. Covers current theory and research in positive psychology and the scientific study of optimal human functioning. Topics include the causes and benefits of happiness; how happiness can be measured and increased; positive emotions; flow; and human strengths and virtues including optimism, love, altruism, forgiveness, and gratitude.

PSYC 150 Personality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. A survey of the principal theories of personality with attention to the experimental methods and findings on which they are based.

PSYC 152 Abnormal Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. An introduction to the research and theories regarding the major types of abnormal behavior, including the neuroses, schizophrenia, psychosomatic disorders, sexual disorders, drug and stress induced states, and organic disorders.

PSYC 153 Introduction to Clinical Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 152. Introduction to the field of clinical psychology. Emphasizes the application and evaluation of techniques of individual and group counseling and therapy. Also addresses the application and evaluation of psychological tests in the assessment of psychological problems.

PSYC 155 Personality Assessment 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): a grade of "C-" or better in the following courses or consent of instructor: PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 150. Covers the assessment of personality through self-report tests, projective tests, and systematic observations. Also entails descriptions of the psychometrics of testing as it applies to the problems in studying personality.

PSYC 160 Life Span Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. Introduces the biological, social, and cognitive processes that influence development from the prenatal period through late adulthood. Topics include development in physical, motor, perceptual, cognitive, emotional, and social areas. Includes discussion of issues related to intellectual functioning, personality, social roles and relationships, coping and adjustment, and aging.

PSYC 161 Socioemotional and Personality Development 5 Lecture, 3 hours; discussion,

1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. A study of the development of human personality from birth through late adolescence. Emphasizes the impact of interpersonal relationships on the acquisition of human traits, emotional reactions, and patterns of adjustment.

PSYC 162 Biological Issues in Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. Examines biological processes that influence behavior and development across the life span. Discusses contemporary theoretical approaches to the study of biological, genetic, and environmental influences on development. Topics include behavioral genetics, developmental neuroscience, and the impact of early environments and stress on adaptation and resilience.

PSYC 163 Cognitive Development 5 Lecture, 3 hours; discussion, 1 hour; term paper, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. An analysis of intellectual development from birth through maturity and into stages of aging. Discusses historical and contemporary theoretical and experimental approaches to studying the mechanisms of intellectual growth and development.

PSYC 164 Emotional and Behavioral Disorders of Childhood 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012, PSYC 152, and PSYC 160 with grades of C- or better; or equivalents; or consent of instructor. Provides an overview of behavioral and emotional disorders affecting children and adolescents within a developmental context. Examines disorders affecting youth in terms of prevalence, developmental course, and theories. Topics include theoretical models of child psychopathology; diagnostic, assessment, and treatment practices; and the descriptive psychopathology of major childhood disorders.

PSYC 165A The Cultural Bases of Human Development 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; or equivalents; or consent of instructor. Examines the social, emotional, and intellectual aspects of human development from a cultural perspective. Covers theory, research, and methods of studying the cultural bases of psychological growth. Topics include socialization practices, parenting, social relations, language and cognition, schooling and academic achievement, acculturation, and ethnicity.

PSYC 165B The Development of Immigrant and Ethnic Minority Youth 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012, and PSYC 160 with grades of "C-" or better; or equivalents; or consent of instructor. Covers current theory and research on the development of immigrant and ethnic minority youth in the

United States. Focuses on the social, cultural, and psychological processes influencing the biological, cognitive, and social development of youth from immigrant and ethnic minority families.

PSYC 166A Infancy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 all with grades of "C-" or better; or consent of instructor. Covers current theory and research on development during the period of infancy. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 166B Childhood 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 all with grades of "C-" or better; or consent of instructor. Covers current theory and research on development during the period of childhood. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 166C Adolescence and Emerging

Adulthood 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001 with a grade of C- or better; PSYC 002 with a grade of C- or better; PSYC 011 with a grade of C- or better; PSYC 012 with a grade of C- or better. Covers current theory and research on development during the period of adolescence and the transition to adulthood. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 166D Adulthood and Aging 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012 all with grades of "C-" or better; or consent of instructor. Covers current theory and research on development during the period of adulthood and the process of aging. Addresses the key biological, cognitive, emotional, and social developments during this period.

PSYC 167 Psychological Development of Black

Children 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 002. This course will analyze both the traditional theoretical approaches to the study of Black children and innovative approaches that are currently being developed by Black psychologists. The course will cover topics in the areas of cognitive, social, and personality development. Cross-listed with ETST 167.

PSYC 168 Psychological Aspects of the Black

Experience 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 002. This course examines the interdependence between personal characteristics, Afro-American culture, and the social conditions which foster the Black experience. Group membership, life styles, role factors, and situational settings as social norms will be explored in order to understand the uniqueness of the Black experience. Cross-listed with ETST 168.

PSYC 169 Topics in Developmental

Psychology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): PSYC 001 with a grade C- or better; PSYC 002 with a grade C- or better; PSYC 011 with a grade C- or better; PSYC 012

with a grade C- or better; PSYC 160 with a grade C- or better or PSYC 161 with a grade C- or better or PSYC 162 with a grade C- or better or PSYC 163 with a grade C- or better. Intensive study in developmental psychology. Stresses literature, methodology, and experimental design and analysis. Specific course content varies. Course is repeatable to a maximum of 16 units as topics change.

PSYC 171 Psychology of Gender 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): PSYC 012 with a grade of "C-" or better or consent of instructor. Examines psychological theory and research on gender, including ethnic and cultural variations in male and female experience. Topics include gender roles, gender development, gender differences and stereotypes, biological influences on gender, gender and health, gender and language, gender and achievement, and men and women in the workplace.

PSYC 175 Psychology and Law 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): LWSO 100 with a grade of "C-" or better or PSYC 001 and PSYC 002 with grades of "C-" or better. A study of psychological theory and empirical research as it relates to the law. Topics include jury decision making, eyewitness memory, child custody, criminal responsibility and intent, competence, rehabilitation and punishment, ethics and legal responsibilities in therapy, and psychological research.

PSYC 178 Health Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): HNPG 042K or PSYC 002 or SOC 001 or SOC 001H An examination of the importance of interpersonal relationships to physical health and effective medical care. Applies social psychological perspectives to such topics as stress-related diseases, placebo effects, doctor-patient interactions, dying, and the hospital environment.

PSYC 179 Health and Behavior

Change 4 Lecture, 3 hours; discussion, 1 hour; term paper, 1 hour. Prerequisite(s): a grade of "C-" or better in one of the following courses: HNPG 042K, PSYC 002, PSYC 178. Examines psychological constructs in health behavior change. Covers theories and research on preventive health behavior; adherence to medical treatment; health lifestyles; substance use and abuse; and anxiety and depression in medical illness. Also examines cognitive and behavioral techniques; helping skills; placebo effect; social support; effective therapeutic communication; medical care delivery; and ethical issues.

PSYC 181 Laboratory in Cognitive

Psychology 4 Lecture, 3 hours; research, 1.5 hours; extra reading, 1.5 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, PSYC 012, and PSYC 134 with grades of "C-" or better Integrates the conceptual and theoretical foundations of cognitive psychology with the mechanics of conducting research. Students develop and design research studies and collect, analyze, and interpret data.

PSYC 182 (E-Z) Laboratory in

Psychology 5 Lecture, 3 hours; research, 3 hours; term paper, 3 hours. Prerequisite(s): for PSYC 182E: PSYC 160 or PSYC 161 or PSYC

162 or PSYC 163 with a grade of C- or better or consent of instructor; for PSYC 182F: PSYC 132 with a grade of C- or better or consent of instructor; for PSYC 182G: PSYC 140 and PSYC 150 with a grade of C- or better or consent of instructor; for PSYC 182I: PSYC 012 with a grade of C- or better or consent of instructor; for PSYC 182J: PSYC 132 or PSYC 134 with a grade of C- or better or consent of instructor; for PSYC 182K: PSYC 012 with a grade of C- or better or consent of instructor; for PSYC 182M: PSYC 134 with a grade of C- or better or consent of instructor; for PSYC 182N: PSYC 160 or PSYC 161 or PSYC 162 or PSYC 163 with a grade of C- or better or consent of instructor. Provides the student hands-on experience in various research approaches in psychology. Involves in-class discussion of research design and methods, as well as outside data collection. E. Child Development; F. Sensation And Perception; G. Social And Personality Psychology; I. Motor Behavior; J. Attention And Memory; K. Design And Implementation Of Experiment; M. Measuring And Training Cognition; N. Adult Development And Aging; Course is repeatable as content or topic changes to a maximum of 15 units.

PSYC 189 Advanced Topics in

Psychology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better, or consent of instructor. Intensive study in psychology. Stresses literature, methodology, and experimental design and analysis. Specific course content varies. Course is repeatable as topics change to a maximum of 16 units.

PSYC 190 Special Studies 1 to 5 Prerequisite(s): upper-division standing with consent of instructor. Individual study under the direction of a faculty member. Course is repeatable to a maximum of 16 units.

PSYC 191A Seminar in Developmental

Psychology Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in developmental psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191B Seminar in Neuroscience

Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in neuroscience. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191C Seminar in Personality Psychology

Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in personality psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191D Seminar in Social Psychology

Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in social psychology.

Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 191E Seminar in Cognitive Psychology

Research 2 Seminar, 2 hours. Prerequisite(s): consent of instructor. Discussion of selected topics of research in cognitive psychology. Some combination of readings, short written assignments, and oral presentation is required. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 194 Independent Reading 1 to

4 Prerequisite(s): upper-division standing with consent of instructor. Individual reading under faculty direction. Course is repeatable to a maximum of 4 units.

PSYC 195 Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing in Psychology; consent of instructor. The student works with a faculty member to prepare a thesis based on independent research. Course is repeatable to a maximum of 12 units.

PSYC 195H Senior Honors Thesis 1 to

4 Term paper, 3 to 12 hours. Prerequisite(s): Restricted to class level standing of senior; Restricted to major(s) Psychology. Honors course corresponding to PSYC 195. The student will work independently with a faculty member preparing a thesis as a final phase of participation in the program. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

PSYC 197 Research For Undergraduates 1

to 4 Individual research, 3 to 12 hours. Prerequisite(s): upper-division standing with consent of instructor. Directed original research. Graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned special projects. Course is repeatable.

PSYC 198 R'course: Variable Topics 1 Activity, 1 to 3 hours. Prerequisite(s): permission needed from department is required. An opportunity for UCR undergraduate students to develop leadership skills, innovate the undergraduate curriculum, and promote democratic, experiential education. Original course topics are variable and unique from other departmental course offerings, designed to highlight the student facilitators' expertise while working closely with a faculty member. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 8 units.

PSYC 198G Group Internship in Psychology 2

to 5 Lecture, 1 hour; internship, 4 to 10 hours; written assignments, 2-4 hours. Prerequisite(s): PSYC 002 or consent of instructor. Supervised clinical experience in community settings such as mental health clinics, hospitals, and group homes. A written assignment such as a short research paper or a weekly journal is required. Enrollment is for 4 units; a rare exception may be made, in writing, by the instructor for 2, 3, or 5 units. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PSYC 198H Junior Honors Research 2 Research, 6 hours. Prerequisite(s): junior standing in Psychology and admission to the Psychology

Department Undergraduate Honors Program. Original research undertaken under the direction of individual faculty members. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 4 units.

PSYC 198I Individual Internship in Psychology 2

to 8 Internship, 4 to 16 hours; consultation, 1 hours; written work, 1 to 4 hours; individual study, 0 to 4 hours. Prerequisite(s): PSYC 001, PSYC 002, PSYC 011, and PSYC 012 with grades of "C-" or better; upper-division standing; consent of instructor. Individual internship in nonclinical psychology fieldwork. The student spends three hours per week in a prescribed combination of academic activities and internship for each unit of credit. Students keep a weekly log and write a summary of the internship experience. Students who complete additional assigned reading and submit a substantive term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 16 units.

PSYC 199H Senior Honors Research 1 to

5 Research, 3 to 15 hours. Prerequisite(s): open to senior Psychology majors by invitation. Original research undertaken, by invitation of faculty, under the direction of individual faculty members. Psychology Department Undergraduate Honors Program participants must enroll for 2 units each quarter of their senior year except for the thesis-writing quarter. Satisfactory (S) or No Credit (NC) grading is not available for Honors Program participants; other students may choose Satisfactory (S) or No Credit (NC) grading. Course is repeatable to a maximum of 16 units.

Graduate Courses

PSYC 200A Fundamentals of

Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with NRSC 200A.

PSYC 200B Fundamentals of

Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200A/PSYC 200A. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with NRSC 200B.

PSYC 200C Fundamentals of

Neuroscience 3 Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor; NRSC 200B/PSYC 200B. The fundamentals of neuroscience in molecular and cellular mechanisms, neural and hormonal systems, and neural control of behavior. Cross-listed with NRSC 200C.

PSYC 203A Experimental Psychology 3 Lecture, 3 hours. Prerequisite(s): graduate standing in Psychology or Neuroscience; or consent of instructor. Focuses on the history and philosophy of cognitive science. Covers the theories and models and gives an empirical overview of perception.

PSYC 203B Experimental Psychology 3 Lecture,

3 hours. Prerequisite(s): graduate standing in Psychology or Neuroscience; or consent of instructor. Covers the theories and models and gives an empirical overview of attention and memory.

PSYC 203C Experimental Psychology 3

Lecture, 3 hours. Prerequisite(s): graduate standing in Psychology or Neuroscience; or consent of instructor. Covers the theories and models and gives an empirical overview of higher level language and memory processes.

PSYC 207A Theories in Developmental

Psychology 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. A consideration of major issues and theories in the area of developmental psychology. Theories to be covered include social learning theory, structural theories, sociobiology, and theories of personality development. Topics include life span models and plasticity of human behavior.

PSYC 207B Social Development 3

Lecture, 3 hours. Prerequisite(s): consent of instructor. Theoretical and empirical consideration of various topics in social development, including attachment, aggression, dependency, cooperation, and competition. Students will also consider methodological issues appropriate to investigations of these phenomena.

PSYC 207C Processes of Cognitive

Development 3 Lecture, 3 hours. Prerequisite(s): consent of instructor. Examines the cognitive changes in humans throughout the life cycle. Topics include Piagetian theory and memory, information processing, attention, and intelligence with a focus on the changes that occur in these skills.

PSYC 208 Research Methods in

Development 3 Lecture, 3 hours. Prerequisite(s): PSYC 211; PSYC 212 or consent of instructor. Develops students' skills in evaluating current research methodologies to answer developmental questions and in critically evaluating a variety of research methodologies currently in use. Topics include measurement of developmental dimensions and methods for assessing interrelations among developmental dimensions.

PSYC 210 Preparing Research Proposals

in Psychology 3 Seminar, 3 hours; written work, 2 hours. Prerequisite(s): second-year standing or above in the Psychology graduate program or consent of instructor. Designed for advanced graduate psychology students planning a research career. Focuses on funding opportunities for predoctoral research support. Topics include sources of grant support, mechanisms of grant support, and essentials of grant writing. Graded Satisfactory (S) or No Credit (NC).

PSYC 211 Statistical Inference 4 Lecture, 3 hour; discussion, 1 hour; laboratory, 2 hours. Prerequisite(s): graduate standing in Psychology or consent of instructor. Examines basic issues related to the application of statistical inference, effect size estimation, and significance tests to various research paradigms in psychology. Discusses aspects of psychological measurement and the appropriateness of particular statistical techniques to different types of psychological data.

PSYC 212 Multiple Regression and Correlation Analysis 4

Lecture, 3 hours; discussion, 1 hour; laboratory, 1 hour. Prerequisite(s): graduate standing in Psychology, PSYC 211; or consent of instructor. Multiple regression, the general linear model, their relationship to analysis of variance, and extensions to multivariate analysis. The use of assorted computer statistical packages.

PSYC 213 Experimental Design and Analysis of Variance 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): PSYC 211; Restricted to major(s) Psychology; graduate standing; or consent of instructor. Covers experimental design and analysis of variance including repeated measures and mixed designs. Focuses on exploratory data analysis, nested designs, interactions, and contrasts.

PSYC 225 Theories and Concepts of Social Psychology 3

Lecture, 3 hours. Prerequisite(s): consent of instructor. Advanced theories and concepts of social psychology. Special attention is given to the history and development of the major concepts of the field. Required of all social-personality graduate students.

PSYC 226 Theories and Concepts of Personality Psychology 3

Lecture, 3 hours. Prerequisite(s): consent of instructor. Advanced critical review of the theories, assessment techniques, and empirical literature in personality psychology. Special attention is given to the interactionist perspective. Required of all social-personality graduate students.

PSYC 227 Research Methods in Social and Personality Psychology 3

Lecture, 3 hours. Prerequisite(s): consent of instructor. Covers laboratory and field research methods, personality and dependent variable measurement, research design, bias and artifacts, and meta-analysis. Also addresses interview and surveys, focus groups, research publication, and ethics.

PSYC 231 Mathematical and Computational Models in Cognitive Science 3

Lecture, 3 hours; extra reading, 1.5 hours; written work, 1.5 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the technical and theoretical issues involved in using models to understand behavior. Emphasis is on hands-on analysis of model predictions and simulation of behavioral data. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 9 units if taken with different instructors.

PSYC 233 Research Methods in Cognitive Science 3

Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Develops skills in research methodologies currently available to cognitive scientists such as eye-tracking, computational modeling, signal detection, neuroimaging, and event-related potential techniques. Emphasis is on critically examining assumptions of methods and current research utilizing each method, and on how each is being utilized to address theoretical and empirical questions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 9 units if taken with different instructors.

PSYC 234 Data Analysis in Cognitive Sciences 3

Lecture, 3 hours. Prerequisite(s): graduate standing in Psychology or consent of instructor. Focuses on the analysis of cognitive psychological data obtained using specialized methodologies particularly relevant to cognitive psychology research including computer simulation, online experimentation, and eye tracking. Topics include real-time data analysis, signal detecting theory, Fourier analysis, and reaction time data. Course is repeatable to a maximum of 9 units if taken with different instructors.

PSYC 243 Multivariate Statistics 3

Lecture, 3 hours; laboratory, 1 hour. Prerequisite(s): PSYC 211, PSYC 212, PSYC 213. Introduces students to multivariate statistical methods, including multivariate analysis of variance, analysis of covariance, repeated measures analysis of variance, cluster analysis, discriminant function analysis, multivariate regression, principal components analysis, exploratory factor analysis, and confirmatory factor analysis. Focuses on the theoretical and practical applications of each method. Graded Satisfactory (S) or No Credit (NC).

PSYC 251 Seminar in Cognitive Neuroscience. 3

Seminar, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Consists of seminars, oral reports, and discussions by students, faculty, and visiting scholars on current trends in cognitive neuroscience. Focuses on a memory phenomenon. Graded Satisfactory (S) or No Credit (NC). Course is repeatable

PSYC 255 Seminar in Social Psychology 3

Seminar, 3 hours. Prerequisite(s): consent of instructor. Selected advanced topics in social psychology. The contents of these courses will vary. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 256 Seminar in Perception 3

Seminar, 3 hours. Prerequisite(s): consent of instructor. Study and discussion of experimental papers in relation to the theory of perceptual processes. Graded Satisfactory (S) or No Credit (NC). May be repeated.

PSYC 257 Seminar in Personality Psychology 3

Seminar, 3 hours. Prerequisite(s): consent of instructor. Selected advanced topics in personality with an emphasis on experimental findings and theoretical interpretations. Graded Satisfactory (S) or No Credit (NC). May be repeated.

PSYC 258 Seminar in Developmental Psychology 3

Seminar, 3 hours. Prerequisite(s): consent of instructor. Selected advanced topics in developmental psychology. Graded Satisfactory (S) or No Credit (NC). May be repeated.

PSYC 259 Topics in Quantitative Methods 3

Lecture, 3 hours. Prerequisite(s): graduate standing in Psychology or consent of instructor. A study of selected advanced topics in quantitative methods specifically for behavioral research, especially multivariate analysis. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 262 Developmental**Biopsychology 3**

Lecture, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers basic processes of brain development and plasticity from conception to adulthood. Emphasis is on relationships between biological and psychological phenomena such as sensation, perception, and learning. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade.

PSYC 263 Seminar in Physiological Psychology 3

Seminar, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Readings, oral reports, and discussions by students, faculty, and visiting scholars of selected areas in physiological psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 36 units.

PSYC 265 Auditory Neuroscience 3

Seminar, 3 hours. Prerequisite(s): NRSC 200C/PSYC 200C or consent of instructor. Studies ways in which the mammalian auditory system is organized and functions. Focuses on aspects of auditory physiology that gives rise to auditory perceptions. Emphasizes the use of the auditory system to understand principles of sensory system organization and to compare and contrast different sensory modalities.

PSYC 270 Current Research in Quantitative Psychology 2

Seminar, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Discussion of selected research topics in quantitative psychology. Emphasis on contemporary research design and quantitative problems relevant to the on-going research areas of graduate students and faculty. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

PSYC 271 Current Issues in Cognition 3

Seminar, 3 hours. Prerequisite(s): consent of instructor. Current issues in memory, learning, and psycholinguistics. Emphasis is on recent and important experimental findings and on theoretical development. Graded Satisfactory (S) or No Credit (NC). May be repeated.

PSYC 283 Proseminar On Current Research in Cognitive Psychology 1

Seminar, 1 hour; written work, 4 hours per quarter; extra reading, 1 to 3 hours. Prerequisite(s): graduate standing or consent of instructor. Presentations by students, departmental faculty, or visiting scholars describing current research in cognitive psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 284 Proseminar On Current Research in Developmental Psychology 1

Seminar, 1 hour; written work, 4 hours; extra reading, 1 to 3 hours. Prerequisite(s): graduate standing or consent of instructor. Presentations by students, departmental faculty, and visiting scholars describing current research in developmental psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 285 Proseminar On Current Research in Social/Personality Psychology 1

Seminar, 1 hour; written work, 4 hours; extra reading, 1 to 3 hours. Prerequisite(s): graduate standing or

consent of instructor. Presentations by students, departmental faculty, and visiting scholars describing current research in social/personality psychology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 15 units.

PSYC 287 Colloquium in

Neuroscience 1 Colloquium, 1 hour.

Prerequisite(s): graduate standing or consent of instructor. Involves oral presentations on current research topics in neuroscience by visiting scholars, faculty, and students. Graded Satisfactory (S) or No Credit (NC). Course is repeatable. Cross-listed with NRSC 287.

PSYC 289 Special Topics in

Neuroscience 2 Seminar, 2 hours.

Prerequisite(s): graduate standing or consent of instructor. An interdisciplinary seminar consisting of student presentations and discussion of selected topics in neuroscience. Content and instructor(s) vary each time course is offered. Students who present a seminar receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable. Cross-listed with BCH 289, BIOL 289, CHEM 289, ENTM 289, and NRSC 289.

PSYC 290 Directed Studies 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 291 Individual Study in Coordinated

Areas 1 to 6 Research, 3 to 18 hours.

Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Graded Satisfactory (S) or No Credit (NC). May be repeated to a total of 18 units; units do not count toward the Master's Degree.

PSYC 292 Concurrent Analytical Studies 1

to 4 Research, 2 to 8 hours. Prerequisite(s): consent of instructor. Each 292 course will be taken concurrently with some 100-series course, but on an individual basis. It will be devoted to specific additional projects related to the 100-series course. Faculty guidance and evaluation will be provided through the quarter. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

PSYC 296 Research Tutorial 3 Scheduled research, 3 hours; outside research, 3 hours; reading (extra), 3 hours; extra writing, 3 hours. Prerequisite(s): graduate standing in Psychology or consent of instructor. Research performed under the supervision of a faculty advisor. Course is repeatable to a maximum of 18 units.

PSYC 297 Directed Research 1 to

6 Prerequisite(s): consent of instructor. Minor research studies or exploratory work toward the development of the dissertation problem. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 299 Research For Thesis Or Dissertation 1

to 12 Thesis, 3 to 36 hours. Prerequisite(s): consent of instructor and department. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

PSYC 301 Teaching Psychology at the College

Level 2 Seminar, 1 hour; practicum, 3 hours.

Prerequisite(s): admission to graduate standing in Psychology Teaching Assistant Development. Program offered by the Teaching Assistant Development Office of the Graduate Division. Required prior to or concurrent with the student's first teaching assistant appointment. May be waived by petition based on previous experience. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PSYC 309A Professional Development and Research Ethics For Early Career Graduate

Students 3 Seminar, 3 hours. Prerequisite(s): graduate standing in Psychology. Designed for beginning graduate students planning an academic or research career in psychology. Includes transition to graduate school, setting career goals, time management, professional and research ethics, scientific writing and publication, preparation of fellowship applications, and oral presentation skills. Graded Satisfactory (S) or No Credit (NC).

PSYC 309B Professional

Development 3 Seminar, 3 hours. Prerequisite(s): graduate standing in Psychology. Designed for advanced graduate students planning a teaching and/or research career in psychology. Covers teaching; conducting research; interviewing, writing, and oral presentation skills; the academic job market and the job application process; and nonacademic careers. Graded Satisfactory (S) or No Credit (NC).

PUBLIC POLICY

Subject abbreviation: **PBPL**
School of Public Policy

School of Public Policy
Kurt Schwabe, Ph.D., Chair & Associate Dean
Anil Deolalikar, Ph.D., Dean

Program Office, INTS 4146
anil.deolalikar@ucr.edu
(951) 827-5663; spp.ucr.edu

Major

Public policy analysis is the use of decision-making theory and evidence-based methods to the study of substantive public policy problems. The objective of public policy analysis is to improve the quality of public policy-making by critically examining the design and relevance of public policies, their implementation and execution, and their impact on households, communities, and the society at large. By its very nature, policy analysis is multidisciplinary. For instance, policies to address health problems in society must draw on developments in philosophy, economics, political science, medicine, and ethics (among other disciplines).

Career Opportunities

A degree in public policy equips students to go into a range of different careers. Examples include working as a policy analyst for local, regional, state, or national government agencies; a governmental or public relations officer for a private sector firm; an employee of a public advocacy group; or as a leader of a community-based, non-profit organization.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Public Policy are as follows:

Students will not be admitted into the major until they have completed PBPL 001 with a "C-" grade or better.

1. Lower-division requirements (five courses [at least 20 units])

- a) PBPL 001
- b) PBPL 002
- c) ECON 003
- d) PBPL 004

e) One course chosen from HIST 017B, HIST 020, SOC 015 or SOC 020

2. Upper-division requirements (12 courses [at least 48 units])

- a) ECON 101, POSC 114 or STAT 100A
- b) PBPL 101

c) 10 courses chosen from two tracks, with no more than seven courses from one track.

Track 1: Health and Population Policy

ANTH 147/GSST 140, ANTH 160, ECON 129, ECON 156, ECON 183, ENSC 141/MCBL 141/SWSC 141, ETST 116/ HISA 147, GSST 140/ ANTH 147, POSC 180, PSYC 178, PSYC 179, SOC 137

Track 2: Social, Cultural, and Family Policy

ANTH 109/GSST 109, ANTH 148/GSST 150, ECON 122E, ECON 155/GSST 155, ECON 159, EDUC 114, EDUC 132/POSC 132, ETST 126, ETST 139, ETST 146/EDUC 146, ETST 156, GSST 109/ANTH 109, GSST 150/ANTH 148, MCS 133/SOC 138 MCS 139/SOC 139, MCS 171/SPN 171, PHIL 168/GSST 141, PHIL 108/ GSST 108, POSC 146, PSYC 167/ETST 167, PSYC 168/ETST 168, SOC 120, SOC 122, SOC 130, SOC 138/MCS 133, SOC 139/MCS 139, SOC 143/URST 143, SOC 144, SOC 160, SOC 161, SOC 183 (E-Z)

Track 3: Economic Policy

ECON 132, ECON 135, ECON 117/PHIL 119, ECON 118, ECON 152, ECON 153/BUS 153, ECON 160/BUS 160, ETST 109F, PHIL 116, POSC 164, POSC 182, POSC 186

Track 4: Urban/Environmental Policy

ECON 121F, ECON 143A/ENSC 143A, ECON 143B/ENSC 143B, ECON 146/URST 146, ENSC 101, ENSC 141/MCBL 141/SWSC 141, ENSC 143C/ECON 143C, LWSO 175 (E-Z), PHIL 117, POSC 127, POSC 172/URST 172, SOC 182/URST 182, SOC 184

Track 5: Policy Institutions and Processes

ANTH 104, ECON 116, ECON 119, HIST 111, HISA 120B, LWSO 100, LWSO 193, PHIL 165, POSC 101, POSC 146, POSC 150, POSC 167, POSC 168, POSC 170, POSC 173, POSC 186, PSYC 175, RLST 174, RLST 175, SOC 150, SOC 151, SOC 159

Track 6: International and Foreign Policy

ECON 187/LNST 187, POSC 120, POSC 125, POSC 126, POSC 127, POSC 129, POSC 154, POSC 158/LNST 148, POSC 159, POSC 160, POSC 162/LNST 142, POSC 169, RLST 173/ POSC 109, SOC 135, SOC 181

3. Public Policy Seminar/Colloquia

During the junior and senior years, students must enroll in PBPL 191 (Seminar in Public Policy), which includes attendance at public lectures to the campus community given by outside speakers — typically policy makers, administrators and researchers — on timely and important policy issues facing the Inland Empire, the state, the nation, and the world.

4. Domestic or International Policy Practicum

In the third or fourth year of the program (or during the summer between the third and fourth years), students must undertake a policy practicum (PBPL 198-I), which consists of an internship (paid or voluntary) on a policy issue or problem with a local, state or federal government agency, nonprofit or for-profit organization, a trade association, a labor/trade union, or a public-affairs firm. The Public Policy Program Committee helps students locate internship opportunities. The internship provides students with an opportunity to gain real-world experience and apply the analytical skills learned in the classroom. Students enrolled in the UC Riverside Washington Academic Program, the UC Center

at Sacramento program or the Education Abroad Program can apply that experience toward the policy practicum requirement, and do not need to undertake a separate internship.

5. Senior Thesis (for Honors candidates only)

Students who have an outstanding academic record in their course work during the first three years of the program can become candidates for Honors in Public Policy during the spring quarter of their junior year. All honors candidates must enroll in a two-quarter senior thesis seminar (PBPL 195H) that will culminate in a written thesis covering a real policy problem of the student's choice. The thesis project could grow out of the practicum experience.

Minor

1. Lower-division requirements (four courses [at least 16 units])

- a) PBPL 001
- b) One course from ECON 005, PSYC 011, SOC 005, STAT 040, STAT 048, HIST 017B, HIST 020
- c) One course from ECON 003, PHIL 002, PHIL 003, POSC 010, POSC 015

2. Upper-division requirements (six courses [at least 24 units] chosen from two tracks:

Track 1: Health and Population Policy
ANTH 147/GSST 140, ANTH 160, ECON 129, ECON 156, ECON 183, ENSC 141/ MCBL 141/SWSC 141, ETST 116/ HISA 147, GSST 140/ANTH 147, POSC 180, PSYC 178, PSYC 179, SOC 137,

Track 2: Social, Cultural, and Family Policy

ANTH 109/GSST 109, ANTH 148/ GSST 150, ECON 122E, ECON 155/ GSST 155, ECON 159, EDUC 114, EDUC 132/POSC 132, ETST 126, ETST 139, ETST 146/ EDUC 146, ETST 156, GSST 109/ANTH 109, GSST 150/ANTH 148, GSST 155/ ECON 155, GSST 164/ANTH 164/LNST 164, MCS 139/SOC 139, MCS 171/SPN 171, PHIL 108/GSST 108, PHIL 168/GSST 141, POSC 146, PSYC 167/ETST 167, PSYC 168/ETST 168, SOC 120, SOC 122, SOC 130, SOC 138/MCS 133, SOC 139/ MCS 139, SOC 143/URST 143, SOC 144, SOC 160, SOC 161, SOC 183 (E-Z)

Track 3: Economic Policy

ECON 132, ECON 135, ECON 117/ PHIL 119, ECON 118, ECON 152, ECON 153/ BUS 153, ECON 160/BUS 160, ETST 109F, PHIL 116, HIST 184, POSC 164, POSC 186

Track 4: Urban/Environmental Policy

ECON 121F, ECON 143A/ENSC 143A, ECON 143B/ENSC 143B, ECON 146/ URST 146, ENSC 101, ENSC 141/MCBL 141/SWSC 141, ENSC 143C/ECON 143C, LWSO 175 (E-Z), PHIL 117, POSC 127, POSC 172/URST 172, SOC 184

Track 5: Policy Institutions and Processes

ECON 116, ECON 119, ANTH 104, HIST 111, HISA 120B, LWSO 100, LWSO 193, PHIL 165, POSC 101, POSC 146, POSC 150, POSC 166, POSC 167, POSC 168, POSC 170, POSC 173, POSC 186, PSYC 175, RLST 174, RLST 175, SOC 150, SOC

159

Track 6: International and Foreign Policy

ECON 187/LNST 187, POSC 120, POSC 125, POSC 126, POSC 127, POSC 129, POSC 154, POSC 155, POSC 158/LNST 148, POSC 159, POSC 160, POSC 169, RLST 173/POSC 109, SOC 135, SOC 181

3. Public Policy Seminar/Colloquia

During the junior and senior years, students must enroll in PBPL 191 (Seminar in Public Policy), which includes attendance at public lectures to the campus community by outside speakers — typically policy makers, administrators and researchers — on timely and important policy issues facing the Inland Empire, the state, the nation, and the world.

Graduate Program

The School of Public Policy offers the Master of Public Policy (MPP) program leading to a Master's degree in public policy.

Admissions Requirements

Applications for the MPP program, which is housed within the UCR School of Public Policy, are accepted for fall entry. Applicants must have completed a bachelor's degree or an approved equivalent from an accredited institution, and must have successfully taken courses in microeconomics, statistics, and an introduction to politics and government, or their equivalent during their undergraduate study. All applicants must also submit scores from the Graduate Record Exam, General Test (GRE). Applicants whose first language is not English are required to submit acceptable scores from the TEST of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Additionally, each applicant must submit three letters of recommendation, at least two of which must be academic references. All other application requirements are specified in the graduate application.

Program of Study

The MPP program consists of 72 units of graduate courses. The curriculum consists of 10 required core courses, a required capstone research project spanning two quarters (which substitutes for a final examination), and a total of six elective courses.

Students entering the MPP program from the Graduate Preparatory Program in Public Policy (GPP-PP) from University Extension will complete 36 units. Of the 36 units, 24 units are required:

- PBPL 202
- PBPL 216
- PBPL 220
- PBPL 289A
- PBPL 289B
- PBPL 298I

The balance of the 12 units will include courses from the elective areas.

1. Core Courses:

- a) **The Policy Process (3 courses):**
PBPL 200, PBPL 202, PBPL 206
- b) **Policy Methods (4 courses):** PBPL 210, PBPL 212, PBPL 214, PBPL 216

c) **Institutional Context (2 courses):**
PBPL 220, PBPL 222

d) **Internship:** PBPL 298I

2. Elective Courses

Students are required to complete 6 courses from the selection below. The elective courses can be chosen from the list of courses in sections A – G.

- a) Environmental and Resource Policy:
PBPL 233, PBPL 240, PBPL 241,
PBPL 242, PBPL 244, PBPL 245
- b) Health Policy: PBPL 230E, PBPL 230F
- c) Education Policy: PBPL 260/EDUC 209,
PBPL 261, PBPL 262
- d) Urban Policy: PBPL 232, PBPL 235,
PBPL 236E, PBPL 273
- e) Inequality and Poverty: PBPL 231,
PBPL 234
- f) Race and Immigration Policy: PBPL 270E,
PBPL 270F, PBPL 271, PBPL 272
- g) Additional Elective Courses: PBPL 204,
PBPL 224, PBPL 280, PBPL 290

3. Capstone Research Project

Students must complete a capstone research project in the second year of the program.

- a) PBPL 289A, PBPL 289B Normative

Normative Time to Degree Two years

Lower-Division Courses

PBPL 001 Introduction to Public Policy

Analysis 4 Lecture, 3 hours; discussion, 1 hour. Introduces the basic concepts and processes underlying policy analysis. Includes application of these concepts to economic and budgetary policy, health care policy, welfare and social security policy, education policy, and environmental and energy policy

PBPL 002 Politics and Public Policy 4 Lecture, 3 hours; discussion, 1 hour; individual study, 3 hours; term paper, 2 hours; written work, 1 hour; extra reading, 1 hour; research, 1 hour. Prerequisite(s): none. An introduction to the political institutions and processes that govern public policy in the United States and the tools and techniques used in public policy analysis. Part I presents policymaking models and methods of policy analysis. Part II applies these concepts to specific policy areas, illustrated by real-world case studies.

PBPL 004 Ethics, Professionalism, and Public

Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PBPL 002. Examines extent to which issues of fairness, social justice, and morality should factor into the choice of public policies. Includes trade-off between social justice and efficiency; actors whose value perspectives often reflect public policy; ethical standards to which policy makers and practitioners are held; and professionalism in public service.

PBPL 010 Introduction to Geographic Information Systems 4

Lecture, 3 hours; discussion, 1 hour. Provides an introduction to the fundamental concepts of Geographic Information Systems (GIS), Geographic Information Science (GIScience), and their application to public policy and social science

research. Also covers the use of geographic data and software in public policy and related practice.

PBPL 090 Special Studies 1 to 3 Individual Study, 3 to 9 hours. Prerequisite(s): consent of program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 8 units.

Upper-Division Courses

PBPL 101 Case Studies in Public

Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): PBPL 002; ECON 003 or ECON 003H with grades of C- or better; one of the following courses: ECON 101, POSC 114, STAT 100A. Explores a contemporary policy issue in depth. Includes health insurance reform, immigration policy, water policies, education reform, anti-poverty programs, crime policy, and social security reform. Explores the political challenges as well as the economic and distributional consequences of the alternative reforms.

PBPL 102 Borderline Immigration Policies and Community Change Process 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces experiences of immigrants in the southwest borderland region of the U.S. Immigration history, trends, and legislation are critical components to the course. Examine immigration policy impact on economic and health indicators as well as the family system. Examine a range of change strategies used to empower the immigrant community.

PBPL 103 Economic Development

Policy 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Provide a broad overview of theories and models of urban growth and economic development, as well as the strategies and practices in implementing different strategies. Identifies the challenges of developing regions, cities and communities that are economically dynamic, socially equitable and environmentally sustainable.

PBPL 129 Understanding

Sustainability 4 Lecture, 2 hour; practicum, 2 hours; extra reading, 2 hours; Screening, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Survey of the concepts, principles and tools from diverse fields that contribute to understanding and responding to problems such as climate change, environmental degradation, and unequal distribution of limited resources. Leads to an appreciation of the social, gendered, political, economic, natural and social scientific principles and theories underlying sustainability.

PBPL 130 Management of International

Water 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores basic concepts of international water law. Examines how these concepts, as well as conflict definitions, negotiation principles, and cooperation principles, are applied to international waters. Includes analysis of several major international water cases utilizing contemporary literature. Cross-listed with GBST 130.

PBPL 155 Women's Labor and the

Economy 4 Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): ECON 104A. Special-topics labor economics course. Focuses on one important dimension of worker differences: gender. Covers the topics of human capital, wages and employment, occupational choice, discrimination, family as an economic unit, and public policy. Cross-listed with GSST 155, and ECON 155.

PBPL 157 Labor in the Public Sector 4

Lecture, 3 hours; individualized study, 3 hours. Prerequisite(s): ECON 104A. A labor economics course on employment in the public sector. Explores questions of wages and contract structuring, recruitment, training, risk, collective bargaining, licensing, rent-seeking and corruption, and influence in the public sector. Cross-listed with PBPL 157.

PBPL 170 Technology, Policy, and

Ethics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing. Provides contemporary perspectives on interplays between technology, public policy, and ethics. Covers social, legal, and ethical issues such as liability, as well as environmental, patent, and copyright law. Cross-listed with ENGR 170.

PBPL 171 Globalization 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): junior standing. Covers technological drivers of globalization. Includes social, economic, and political consequences. Explores the cultural aspects of globalization, including barriers and drivers for economic and cultural interdependence and integration, as well as virtual global organizations. Cross-listed with ENGR 171.

PBPL 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of program chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 15 units.

PBPL 191 Seminar in Public Policy 2 Seminar, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Seminars by faculty, invited policy scholars, and policy makers on timely policy issues facing the region, state, nation, and the world, such as economic and budgetary policy, health care policy, welfare and social security policy, education policy, environmental and energy policy, and foreign policy. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

PBPL 195H Senior Honors Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing in Public Policy; admission to the University Honors Program or consent of instructor. Students complete research in public policy and write a senior honors thesis under the guidance of a faculty member. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

PBPL 197 Research For Undergraduates 1

to 4 Consultation, 1 to 4 hours; research, 1 to 4 hours. Prerequisite(s): BUS 115 or PSYC 011 or SOC 005 or STAT 040 or STAT 048 or STAT 155. Examines community activities and legislative processes in the region and the state. Includes designing and shaping research

to address community needs and objectives; planning and performing applied research using quantitative, qualitative, and mixed methods; and developing writing and oral communication skills. Course is repeatable to a maximum of 8 units.

PBPL 198I Individual Internship in Public

Policy 1 to 12 Written Work, 1 to 12 hours; internship, 2 to 24 hours. Prerequisite(s): junior standing in Public Policy; consent of instructor. Internship in a public or quasi-public agency or business concern in matters relating to public policy. Course is repeatable to a maximum of 16 units.

Graduate Courses

PBPL 200 Introduction to Policy

Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Studies the process by which policy decisions are made. Focuses on the analytical tools (benefit-cost, cost effectiveness, decision tree, and optimization analysis) that are used to choose among competing proposals as well as the analytical motivations for choice. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 202 Policy Institutions and

Processes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores the various institutions in a country that shape, formulate, implement, and enforce policy as well as the manner in which these institutions make or influence policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 204 Regional Policy-Making Across

Administrative Jurisdictions 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to the analytical tools used in regional policy analysis as well as to the processes of policy development, implementation, and evaluation. Includes analysis of case studies of councils of government and other regional bodies that have emerged or been created to provide regional governance. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 206: State Governments as Laboratories of Change 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the politics, institutions, and policy processes of state governments and assesses the extent to which variation in state political institutions shapes politics and policies across states. Substantive topics include health care, education, corrections, economic development, land use planning, environmental protection, and social welfare. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 210 Quantitative Methods For Public

Policy Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides students with the ability to understand and evaluate policy information obtained through quantitative research methods and to employ these methods

in their own research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 212 Qualitative Social Science

Methods 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduces the qualitative methods widely used in the social sciences and their use in analyzing policy formulation, policy implementation, and policy effects. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 214 Applied Microeconomics For Public

Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Shows how economic analysis impacts public policy issues. Identifies the relevant economic analyses to address various public policy problems and to comprehend and assess what professional economists can contribute to the shaping, implementation, and evaluation of public policies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 216 Public Leadership and

Management 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to the basic principles and practices of leadership suitable for local, regional, national, and global/international settings. Also assists in developing the capacity to be a public leader. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 220 Policy Evaluation 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores the interactions between environment and society and the consequent policy implications with an emphasis on internalization of environmental and social externalities. Topics include immigration, land use, biodiversity, traffic congestion, air and water quality, and public health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 222 Ethics, Professionalism, and the

Normative Bases of Public Policies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the normative bases of public policies - in other words, the extent to which issues of fairness, social justice, and morality should factor into the choice of public policies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 224 Global-Local Policy Connections: Case Studies in Poverty, Water, and Sustainable Development 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Discusses commonalities of public policies across the world. Illustrates how the United States can learn from the successful policy experiences of other countries, and vice versa. Explores global experiences in four topical areas including poverty, environment, urbanism, and health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 230 (E-Z) Topics in Health Policy 4

Prerequisite(s): graduate standing. Topics

related to health policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 230E Health Economics 4

Lecture, 3 hours; extra reading, 1 hour; research, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Overview of the U.S. health care system, its components, and the policy challenges created by its organization. Examines the special features of medical care as a commodity with a focus on the functioning of insurance markets and the consequences of the way insurance is provided in the U.S. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 230F Public Policy and Health 4

Seminar, 3 hours; term paper, 1 hour; extra Reading, 1 hour; research, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduces multiple public policy domains - housing, environment, immigration and others - affect the health of populations. It follows that as public policy is the developed the health of populations is influenced. Students learn how public policy initiatives in multiple domains can be leveraged to improve population health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 231 Labor Economics and Labor

Policies 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Labor issues lie at the heart of such important social issues as earnings, poverty, discrimination, and economic mobility. Labor economists seek to understand immigration, the effects of occupational licensing requirement, the value of education, the changing nature of work, the consequences of technological change, and many other interesting topics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 232 Sustainability Policy 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers Sustainability as practice and policy at the local, regional, national and global levels. After grounding ourselves in the history and science behind Sustainability, we will examine the various policies and policy making organizations surrounding Sustainability and Sustainable Development. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 233 Environmental Economics and Policy 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Theory and practice of environmental economics and its application to environmental policymaking. Applies tools of economic theory to problems of managing natural resources and environmental quality, with particular emphasis on externalities, sustainability, pollution control, resource extraction, and environmental valuation. Alternative public policy instruments for environmental management are considered and evaluated. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 234 Poverty in Global

Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or

consent of instructor. Interdisciplinary and international view of the social sciences of poverty. Topics include causes, consequences and potential solutions to poverty. Different social science methodologies and theories will be compared, and relevant social policies will be evaluated and debated. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 235 Economic Development in United States Cities 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. A broad overview of theories and models of urban growth and economic development will be introduced, analyzed and evaluated, as well as the strategies and practices in implementing it. Examines the challenges of developing regions, cities and communities that are economically dynamic, socially equitable and environmentally sustainable. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 236 (E-Z) Urban and Spatial Analyses 4 Prerequisite(s): graduate standing. Topics related to urban and spatial analyses. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 236E U.S. Census Data and Policy Studies 4 Seminar, 3 hours; term paper, 1 hour; research, 1 hour; extra reading, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Addresses in depth the census data as the primary resource for analyzing local and regional changes, especially in urban settings. Substantive topics include, but not limited to, immigration, racial and ethnic change, employment, health, and poverty issues. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 240 Global Environmental Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Case-based introduction to global environmental policy. Structured to familiarize students both with important developments in the evolution of international environmental policy and law, and with central analytical concepts and practical methods of conflict resolution and collective action. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 241 Climate Change Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to Climate Change policy at the local, regional, national and global levels. Examines the various policies and policy making organizations surrounding the issue of Climate Change. Includes channels for disseminating Climate Change Policy, as well as, specific gendered, ethnic, class and racial dynamics of policy creation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 242 Applied Environmental History 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Explores historical research methodologies applied to environmental

policy in four major areas - chemical pollution, conservation, water, and air - emphasis on the use of primary and secondary sources. Introduction to primary sources useful to environmental history analysis including maps and satellite imagery, environmental data, and various document archives. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 244 Water Resource Economics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides a working knowledge of water resource economics for future water managers, planners and students wishing to improve their comprehension of these problems. The course will discuss and consider relevant policy options regarding water use and allocation. Application of empirical methods to water management, especially within a benefit-cost framework. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 245 Comparative Global Water Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Covers issues and problems faced by developing and industrialized countries. Compares and analyzes the debate about efficiency vs. equity and protection of the environment, prices vs. quotas, water as a public good, economic good or social good, and adaptation in the water sector to climate change. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 246 Agricultural and Food Policy 4 Seminar, 3 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Focuses on the application of economic principles and data analysis to analyze current public policy issues affecting U.S. and world food systems and agricultural sectors. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 260 Education Policy Analysis 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines major issues and reform movements in public education that are at the forefront of the national policy agenda today. Each educational reform issue will be viewed in light of its connection to four themes driving reform efforts: (1) equity, (2) adequacy, (3) autonomy, and (4) accountability. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with EDUC 209.

PBPL 261 Higher Education Policy 4 Seminar, 3 hours; extra reading, 2 hours; research, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Provides an advanced introduction to higher education policy and policymaking. Begins with theories of power and how they relate to higher education policy. Examines process models of policy making. Considers five areas of higher education policymaking: science policy, competitiveness policy, student aid policy, access and completion policy, and accountability policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 262 Economics in Higher

Education 4 Seminar, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Examines the economics of higher education from two perspectives. First, it examines the debate on why college costs have escalated, how that affects access, and what might be done. Second, it looks inside universities, where their money comes from, the debate over budgeting systems, and means of managing costs internally. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 270 (E-Z) Topics in Immigration Policy 4 Prerequisite(s): graduate standing. Topics related to immigration policy. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 270E General Perspectives On Immigration Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to a global and comparative perspective on immigration policy, with a special focus as it applies to the United States. Focus on debates over the political rights of immigrants, immigration enforcement, unauthorized migration, economic migration, family migration, refugee flows, citizenship, social integration, and political participation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 270F Borderland Policies and Community Processes 4 Seminar, 3 hours; term paper, 1 hour; research, 2 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the experiences of immigrants in the southwest borderland region of the U.S. Explores immigration history, trends, and legislation. Examines the immigration policy impact on economic and health indicators as well as the family systems and dynamics. Attention to change strategies used to empower the immigrant community. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 271 Racial Inequality in Politics and Policy 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Politics and policy of race and social inequality in the United States. Topics include disparities in health, education, income, wealth and civic engagement. Students gain an understanding of the history of racial inequality, including its changes over time, and the efficacy of contemporary solutions to address ongoing racial disparities. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 272 Policy and Politics in California 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Introduction to politics and policy in California, paying particular attention to the nature of American federalism, institutions of state government, direct democracy, the role of partisanship and demographic diversity, and various problems of governance as they relate to issues at the state and local levels. May be taken Satisfactory (S) or No Credit (NC) with

consent of instructor and graduate advisor.

PBPL 273 Geographic Information Systems (GIS) For Public Policy 4

Lecture, 4 hours.
Prerequisite(s): graduate standing or consent of instructor. Introduction to geographic information systems (GIS), spatial data and applications of spatial analysis in the social sciences and public policy. Theoretical, technical, and policy dimensions of GIS in policy settings. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 280 Special Topics in Public Policy 4

Seminar 4 hours per week.
Prerequisite(s): graduate standing or consent of instructor. Seminars or lectures on current topics in public policy and other related fields presented by faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBPL 289A Capstone Research Project 4

Seminar, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Research and investigate a topic of policy significance and relevance, producing a technical paper of publishable quality. Includes specific topic of investigation designed to foster integration of learning by incorporating knowledge acquired throughout the 2-year program. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Graded In Progress (IP) until PBPL 289A and PBPL 289B are completed, at which time a final grade is assigned.

PBPL 289B Capstone Research Project 4

Seminar, 4 hours. Prerequisite(s): PBPL 289A; consent of instructor. Research and investigate a topic of policy significance and relevance, producing a technical paper of publishable quality. Includes specific topic of investigation designed to foster integration of learning by incorporating knowledge acquired throughout the 2-year program. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

PBPL 290 Directed Studies 1 to 6 Activity, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBPL 291 Individual Study in Coordinated Areas 1 to 12

Activity, 3 to 36 hours.
Prerequisite(s): graduate standing and consent of instructor. A program of study designed to advise and assist candidates who are preparing for masters and/or doctoral examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable

PBPL 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor. Individual research performed under the direction of a faculty advisor. Designed for students preparing their capstone prospectuses. Students meet in groups by appointment with a faculty advisor to discuss issues of capstone writing. Emphasis is placed on the development of research design. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

PBPL 298 Individual Internship 1 to 12

Internship, 2 to 24 hours; written work 1 to 12 hours. Prerequisite(s): graduate standing or consent of instructor. Internship in a public or quasi-public agency concerning matters relating to public policy. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units.

PUBLIC POLICY DESIGNATED EMPHASIS

Subject abbreviation: PBPL School of Public Policy

David Brady (Public Policy)
Qingfang Wang (Public Policy)
Kurt Schwabe (Environmental Economics and Policy)
Cassandra Guarino (Education and Public Policy)
Kevin Esterling (Political Science, Public Policy)
Ben Newman (Political Science, Public Policy)
Ken Baerenklau (Environmental Economics, Public Policy)
Paul D'Anieri (Political Science, Public Policy)
Ronald Loveridge (Political Science)
Steve Brint (Sociology)
David Biggs (History, Public Policy)
Steven Clark (Psychology)

Designated Emphasis Requirements

Students must complete four graduate courses (16 units) in total, of which two should be core courses in the Master of Public Policy program, one course from the list of MPP program elective courses, and one graduate course (from an approved list) offered by a department that is not the student's own department. Note that students cannot apply units taken to fulfill the DE program requirement toward their own graduate program requirements.

- 1. Two (2) required core courses (8 units) offered by the School of Public Policy:** PBPL 200, PBPL 220.
- 2. One (1) required elective course (4 units) offered by the School of Public Policy selected from:** PBPL 206, PBPL 210, PBPL 212, PBPL 214, PBPL 224, PBPL 230E, PBPL 230F, PBPL 232, PBPL 233, PBPL 234, PBPL 241, PBPL 245, PBPL 260/EDUC 209, PBPL 261, PBPL 262, PBPL 270E, PBPL 270F, PBPL 271, PBPL 272.

- 3. One (1) required course from any of the following programs that is not the student's own graduate program:** ECON 236, ECON 237, ECON 240, ECON 241, ECON 243, ECON 250, ECON 254, ECON 260, ECON 261, ECON 264, ECON 265, EDUC 203, EDUC 269M, EDUC 245G, EDUC 269E, CEE 232, ENGR 200, ENGR 201, ENGR 203, ENSC 201, ENSC 206, ENSC 227, GEO 205, GEO 252, GEO 255, GEO 260, POSC 252, POSC 268, POSC 271, POSC 282, SOC 245, SOC 257, SOC 251, SOC 252, SOC 253
- 4. Research Requirement:** Students in the Designated Emphasis are required to demonstrate their research capacity by writing a review paper that will focus on a policy issue/problem and the policy solutions (including design, implementation, and cost-effectiveness) to address the problem. Selection of the policy issue and the structure of the paper are to be agreed upon with a faculty member from the School of Public Policy, who will serve as a mentor, with an option for joint mentorship with a faculty member from another department (including the student's own department). It is expected that the review paper, of about 25-30 pages long, will be at a publishable quality to be completed within 1-2 quarters.

All requirements for the Designated Emphasis must be satisfied within a year of a student advancing to candidacy in their Ph.D. field; a minimum GPA of 3.0 is required for the award of the Designated Emphasis.

RELIGIOUS STUDIES

Subject abbreviation: RLST College of Humanities, Arts, and Social Sciences

Melissa M. Wilcox, Ph.D., Chair
Department Office, 3033C CHASS
Interdisciplinary South

Professor

Pashaura Singh, Ph.D. *Dr. Jasbir Singh Saini
Endowed Chair in Sikh and Punjabi Studies*
Melissa M. Wilcox, Ph.D. *Holstein Family and
Community Chair in Religious Studies*

Professors Emeriti

Vivian-Lee Nyitray, Ph.D.
Ivan A. Strenski, Ph.D.

Associate Professors

Michael Alexander, Ph.D. *Maimonides
Chair in Jewish Studies*
Muhamad Ali, Ph.D.
Ana Bajzelj, Ph.D.
Matthew King, Ph.D.
Amanda Lucia, Ph.D.
Shrimad Rajchandra, Ph.D. *Endowed Chair
in Jain Studies*

Assistant Professors

Paul Chang, Ph.D.

Major

The Department of Religious Studies provides an opportunity for students to interrogate religion, as a subject always entangled with ethnicity,

politics, economics, gender, class, sexuality, and race. With a degree in religion, students examine how religious life is mediated by practice, materiality, language, the senses, embodiment, and culture. The study of religion is interdisciplinary, and students engage in social scientific and historical interpretive methods to study a broad spectrum of the world's religious traditions. Majoring in Religious Studies can be an excellent preparation for a variety of careers, such as law, bioethics, human services, business, medicine, education, social work, writing, and the arts.

Religious Studies at UCR develops students a variety of valuable and transferable skills. These include disciplined attention to the facts (texts, ideas, history, behavior), critical reflection and analysis about claims of meaning and value and about assumptions and methods used in the study of religion, and descriptive and analytical writing about religious history, ideas, motivations, practices, and ethical concerns. A minor in Religious Studies is also a productive way to couple interests in such areas as political science, sociology, medicine, psychology, and law with the ethical and cultural contexts in which such fields are enmeshed. Students are encouraged to consult with the department chair and other faculty about their questions and interests.

The Holstein Family and Community Chair in Religious Studies

The Holstein Family and Community Chair in Religious Studies is an endowed faculty chair, the result of a generous contribution given by the Robert and Loretta Holstein family and by friends of the Holstein family and the university. Dr. Melissa M. Wilcox, the holder of this chair, is a distinguished scholar and teacher whose work focuses on queer and transgender studies in religion, and on religion, power, and social justice more broadly. For more information on programs and events sponsored by the Holstein Chair, please see <http://religiousstudies.ucr.edu/holstein-chair/>

The Dr. Jasbir Singh Saini Endowed Chair in Sikh and Punjabi Studies

The Dr. Jasbir Singh Saini Endowed Chair in Sikh and Punjabi Studies is the result of a generous contribution given by the Saini Foundation, the Sikh Foundation and by a number of individuals and the University. It honors the memory of the late Dr. Jasbir Singh Saini, who was a cardiologist in Phoenix, Arizona. Dr. Pashaura Singh has been appointed to the Chair and is a leading scholar and teacher whose work in the field of Adi Granth studies is internationally acclaimed. For more information on the Endowed Chair, please visit the following website: <http://religiousstudies.ucr.edu/SPS/index.html>

Maimonides Chair in Jewish Studies

The Maimonides Endowed Chair in Jewish Studies was established in 2014 with support from nearly three dozen individuals, foundations and organizations to fund research and other activities aimed at fostering better understanding of the history and heritage of Jewish people. The chair Dr. Michael Alexander is a leading scholar and teacher whose work addresses religion, ethnicity, genocide, and issues of modern Jewish identity. For more information on the Endowed Chair, please visit the following website: <http://jewishstudies.ucr.edu>

Shrimad Rajchandra Endowed Chair in Jain Studies

The Shrimad Rajchandra Endowed Chair in Jain Studies was made possible by generous donations from Dr. Jasvant Modi and Dr. Meera Modi, Mr. Mahesh Wadher and Mrs. Usha Wadher, Mr. Vijay Chheda and Mrs. Madhu Chheda, and other members of the Jain community of Southern California. Established in 2017, commemorating the 150th birth anniversary of the Jain spiritual teacher and reformer Shrimad Rajchandra, the Chair's mission is to pursue critical scholarly research of Jainism and advance its study at UCR. Dr. Ana Bajželj was appointed to the Chair in 2018.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Religious Studies are as follows:

1. **Lower-division requirements (12 units)**
 - a) RLST 005
 - b) RLST 012/ETST 012 or RLST 012W/ETST 012W
 - c) One additional 4-unit course in Religious Studies or equivalent
2. **Upper-division requirements (40 units)**
 - a) At least two courses from each of the following areas:
 - (1) Eastern religions
 - (2) Western religions
 - (3) Themes in religions
 - b) RLST 100 or RLST 102
 - c) RLST 193 (Senior Seminar)
 - d) Eight (8) additional units from Religious Studies courses (closely related courses from other programs or departments may be substituted upon approval)

The programs of all majors should be developed in consultation with their advisors.

Art History/Religious Studies Major

The Art History/Religious Studies Major combines the disciplinary interest in the history of the visual arts with its related religious content and background. Three concentrations are offered. Students must select one family of religions, either Asian or Western, and combine it with the study of the history of the visual arts in the corresponding area of artistic endeavor. Or, students wishing to combine Asian and Western materials to serve a comparative purpose are invited to design their own major in consultation with faculty representatives from both departments. Students are encouraged to include study abroad as part of their major and should plan well in advance to ensure that the courses taken fit with their overall program at UCR. Students in this major will be well prepared for graduate studies in either art history or religious studies.

Major Requirements

The major requirements for the B.A. degree in

Art History/Religious Studies are as follows:

Asian Concentration (52 units)

1. **Lower-division requirements (12 units)**
 - a) Art History (4 units): AHS 015
 - b) Asian Studies (4 units): AST 030/CHN 030
 - c) Religious Studies (4 units): RLST 005
2. **Upper-division requirements (40 units)**
 - a) Art History (16 units): AHS 140, AHS 141, AHS 143, CPLT 141
 - b) Religious Studies (24 units) choose from: RLST 101, RLST 103, RLST 105, RLST 106, RLST 142/AST 142/CHN 142, RLST 144/CPLT 144
3. **Optional 190 level work in either Art History or Religious Studies**

Student-designed Comparative Concentration (52 units)

1. **Lower-division requirements (12 units)**
 - a) Art History, choose at least 4 units: AHS 015, AHS 017A, AHS 017B, AHS 017C, AST 030/CHN 030
 - b) Religious Studies, choose at least 4 units: RLST 005, RLST 007, RLST 010
2. **Upper-division requirements (40 units)**
 - a) Art History, choose at least 12 units: AHS 140, AHS 141, AHS 143, AHS 155, AHS 156, AHS 157, AHS 159, AHS 161, AHS 162, AHS 164, AHS 171, AHS 172, CPLT 141
 - b) Religious Studies, choose at least 12 units: RLST 100, RLST 101, RLST 103, RLST 105, RLST 106, RLST 111, RLST 121, RLST 128 (E-Z), RLST 130, RLST 131, RLST 135/HISE 130, RLST 136, RLST 142/AST 142/CHN 142, RLST 144/CPLT 144
3. **Optional 190 level work in either Art History or Religious Studies**

Western Concentration (52 units)

1. **Lower-division requirements (16 units)**
 - a) Art History (12 units): AHS 017A, AHS 017B, AHS 017C
 - b) Religious Studies (4 units) choose from: RLST 007, RLST 010
2. **Upper-division requirements (36 units)**
 - a) Art History (16 units) choose from: AHS 155, AHS 156, AHS 157, AHS 159, AHS 161, AHS 162, AHS 164, AHS 171, AHS 172
 - b) Religious Studies (20 units) choose from: RLST 100, RLST 111, RLST 121, RLST 128 (E-Z), RLST 130, RLST 131, RLST 135/HISE 130, RLST 136
3. **Optional 190 level work in either Art History or Religious Studies**

Minor

Requirements for a minor in Religious Studies are as follows:

1. **Lower-division requirements (12 units)**
 - a) RLST 005
 - b) RLST 012/ETST 012 or RLST 012W/ETST 012W

- c) One additional 4-unit course in Religious Studies

2. Upper-division requirements (16 units)

- a) Twelve (12) units consisting of one course from each of the following three areas:
 - (1) Eastern religions
 - (2) Western religions
 - (3) Themes in religions
- b) Four (4) upper-division units from those courses approved for the Religious Studies major

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Religious Studies offers the M.A. and Ph.D. degrees in Religious Studies.

The graduate program in Religious Studies instructs students in the critical academic study of religion. The Ph.D. program focuses on preparing students to enter into academia as researchers and university instructors in a specific field of expertise.

Admission

Although an undergraduate major in religious studies is not required for admission into the graduate program, applicants should demonstrate significant interest and background in the critical academic study of religions and the appropriate scholarly approaches to religious studies. Applicants to the M.A. and Ph.D. programs must demonstrate scholarly acuity, as well as interest in the critical questions of the discipline of religious studies. Given the broader scope of the M.A. program, applicants to this degree program do not need to specify a particular field of study or concentration they wish to pursue in the program. Applicants to the Ph.D. program, however, should indicate in their applications the current direction of their interests with regard to a specific Ph.D. concentration and field of study.

Master's Degree (M.A.)

The Department of Religious Studies offers two programs of study leading to the M.A. degree (Plan I and Plan II).

Course work

All M.A. students must complete a minimum of 36 units for the degree, including specific course requirements as follows:

1. RLST 201: Thinking about Religion: Classic Theories in the Study of Religion

2. RLST 202: Contemporary Theories and Theorists in the Study of Religion
3. At least 16 additional units at the 200 level in Religious Studies. With approval from the Director of Graduate Studies, 200-level courses in related departments may also fulfill this requirement.
4. Professional development requirement: All M.A. students are required to take three units of the Colloquium in Religious Studies and one unit of additional 400-level coursework in religious studies.
5. The remaining 12 units may be taken as 200-level courses, or as 100-level courses taken in conjunction with RLST 292: Concurrent Studies in Religious Studies. Any RLST course at these levels may fulfill this requirement, and with approval from the Director of Graduate Studies, courses at these levels in related departments may also fulfill this requirement.

Capstone: M.A. Plan I

In addition to the coursework listed above, Plan I M.A. students must prepare a Master's thesis of publication length (typically 25-30 pages) that presents original research and analysis relevant to the field of religious studies under the supervision of a thesis committee.

Capstone: M.A. Plan II

In addition to the coursework listed above, Plan II M.A. students must successfully complete a final master's project under the supervision of a master's committee. Students have some flexibility in the nature of this project, which may take the form of a single, comprehensive written examination designed by the master's committee in consultation with the student, or an applied project suitable for the student's future career goals.

Students planning to complete the Ph.D. must complete the M.A. Plan I.

Language Requirement

Students must demonstrate reading proficiency in a language other than English that is relevant to their interests in religious studies; the department must approve the choice of language prior to completion of the language requirement. If a language is primarily used in spoken form, then spoken proficiency must be demonstrated instead of written proficiency. If there is no clear choice of language for a student's interests (e.g. in the case of a student whose interests lie primarily with theoretical approaches stemming from Anglophone theorists), then the student should select either French or German. This requirement can be fulfilled through a departmental examination of written and/or spoken proficiency, by passing a designated language course (e.g., FREN 009A, FREN 009B, GERM 002R), or by alternative certification (such as a diploma from a foreign language institute).

Normative Time to Degree 6 quarters.

Doctoral Degree (Ph.D.)

Coursework

The following courses are required for all Ph.D. students:

1. RLST 201: Thinking about Religion: Classic Theories in the Study of Religion
2. RLST 202: Contemporary Theories and

Theorists in the Study of Religion

3. One of the following core courses, as appropriate for the student's chosen concentration:
 - a. RLST 203: Hermeneutics and History
 - b. RLST 204: Analytics of Power
 - c. RLST 205: Transnational Religions
4. One course in research methods relevant to the student's area of interest. The following courses may fulfill this requirement:
 - a. RLST 231: Ethnographic Methodology
 - b. RLST 263: Historiography of Sikh Hermeneutics
 - c. With the approval of the Director of Graduate Studies, methods courses in related departments at the 200-level (or the 100-level accompanied by 292: Concurrent Enrollment)
5. Professional development requirement Six units of 400-level professional development courses in religious studies, including four units of Religious Studies colloquium and two other units from RLST 400 level courses of their choice.

Concentration

Ph.D. students must select one of the following concentrations, and are expected both to take the associated core course and to focus aspects of their doctoral exams and their dissertation on this theme:

Hermeneutics and History
Analytics of Power
Transnational Religions

M.A. in Religious Studies degree for Ph.D. students

Students entering the Ph.D. program without an M.A. in Religious Studies may apply for the M.A. degree after they have completed the requirements for the M.A. Plan I.

Sixth quarter review:

All Ph.D. students will undergo a review of their performance in the program by the end of their sixth quarter. The review, conducted by the Graduate Program Committee in consultation with the faculty members whose areas of specialization most closely match those of the student, will be based on evaluation of a portfolio of writing compiled by the student in consultation with the faculty member(s) with whom the student has worked the most closely. The committee will make one of three recommendations: Proceed, Hold, or Terminate. Students receiving a recommendation of Hold may reapply once, within three quarters, to proceed in the program; those receiving a recommendation of Terminate who have not previously completed an M.A. in Religious Studies may continue enrolling for no more than three quarters to complete the requirements for the M.A. Plan I or the M.A. Plan II.

Written and oral qualifying examinations

Students must complete a round of qualifying written examinations, followed by an oral defense of those examinations, by the end of their third year and following the completion of all coursework. Students complete the three written examinations over a two- to three week period.

The topic and the content of each exam is determined by the student in consultation with the

examination committee, and must be approved by that committee.

After completing the written examinations, students undergo an oral examination by committee. The content of the oral examination is based on the written examination questions and answers.

Both the written and oral examination are composed, administered, and evaluated by a qualifying committee, nominated nine to twelve months before the exam by the student in consultation with the department faculty, and appointed by the graduate dean.

Upon successful completion of the written and oral qualifying examinations, the student is recommended to the graduate dean for advancement to candidacy; at this time, the student also nominates a dissertation committee.

Language requirement

Students must demonstrate reading proficiency in two languages other than English that are relevant to their interests in religious studies; the department must approve the choice of languages prior to completion of the language requirement. If a language is primarily used in spoken form, then spoken proficiency must be demonstrated instead of reading proficiency. If there is no clear choice of language for a student's interests (e.g. in the case of a student whose interests lie primarily with theoretical approaches stemming from Anglophone theorists), then the student should select French and German. This requirement can be fulfilled through a departmental examination of written and/or spoken proficiency, by passing a designated language course (e.g., FREN 009A, FREN 009B, GERM 002R), or by alternative certification (such as a diploma from a foreign language institute).

Dissertation and final defense

Following advancement to candidacy, and working closely with the dissertation committee, doctoral candidates must prepare a dissertation prospectus for approval by that committee. Once all committee members have communicated their approval of the prospectus and all other relevant approvals (e.g., Institutional Review Board) have been obtained, the candidate should begin the process of researching and writing the dissertation, which should be prepared and presented as prescribed by the Graduate Division. When the dissertation is complete and all members of the dissertation committee are satisfied with the written work, the candidate must schedule a dissertation defense. This final, public oral examination consists of a 45-minute keynote-style presentation of the dissertation research, followed by questions from the committee and the public audience.

Normative Time to Degree 18 quarters.

Lower-Division Courses

RLST 001 Sex, Sin, and Scripture 4 Lecture, 3 hours; discussion, 1 hour; individual study, .5 hours; term paper, .5 hours. Prerequisite(s): none. An introduction to the academic study of religion. Engages the study of religion thematically, thinking through taboos and injunctions as they are related to specific social and historical contexts. Examines global religious beliefs and practices from diverse cultural perspectives. Credit is awarded for only one of

RLST 001 or RLST 001H.

RLST 001H Honors Sex, Sin, and

Scripture 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours; individual study, .5 hours; term paper, .5 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor, Honors course corresponding to RLST 001. An introduction to the academic study of religion. Engages the study of religion thematically, thinking through taboos and injunctions as they are related to specific social and historical contexts. Examines global religious beliefs and practices from diverse cultural perspectives. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of RLST 001 or RLST 001H.

RLST 002 Introduction to Comparative

Scripture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to Comparative Scripture; which includes Sikhism, Zoroastrianism, Judaism, Christianity, Islam, Hinduism, Buddhism, Taoism, Confucianism, and a number of modern New Religious Movements.

RLST 003 Is There A Path of Joy? 3 Seminar, 3 hours. Prerequisite(s): none. Explores therapeutic wisdom traditions that make claims about how to reduce suffering and achieve fulfillment and happiness. Considers worldwide literatures and rituals for their therapeutic claims. Also examines the positive psychology movement, which weds academic research to the task of individual self-help.

RLST 004 Religion, Society, and

Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the study of religion through the lenses of sociology and cultural studies. Explores the mutual influence of religion and social institutions, politics, social movements, and popular culture. Topics may include pluralism, new religious movements and "spirituality", popular culture, social power, and politics. Credit is awarded for only one of RLST 004 or RLST 004H.

RLST 004H Honors Religion, Society, and

Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to RLST 004. Introduction to the study of religion through the lenses of sociology and cultural studies. Explores the mutual influence of religion and social institutions, politics, social movements, and popular culture. Topics may include pluralism, new religious movements and "spirituality", popular culture, social power, and politics. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of RLST 004 or RLST 004H.

RLST 005 Introduction to Asian

Religions 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to Asian Religions, which includes Hinduism, Buddhism, Sikhism, Confucianism, Taoism, and Shinto. Credit is awarded for only one of RLST 005 or RLST 005H.

RLST 005H Honors Introduction to Asian

Religions 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent

of instructor. Honors course corresponding to RLST 005. Introduction to Asian Religions, which includes Hinduism, Buddhism, Sikhism, Confucianism, Taoism, and Shinto. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of RLST 005 or RLST 005H.

RLST 006 Jesus 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Examines the figure of Jesus from two main perspectives: historical perspectives on Jesus in his first-century context and representations of Jesus in the United States, primarily in the 19th and 20th centuries. Explains why representations of Jesus remain simultaneously so contested and so influential.

RLST 007 Jews, Christians, and

Muslims 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Surveys the history and contemporary religious institutions and representations of Jews, Christians, and Muslims. Includes distinguishing characteristics, foundational texts, interpretive traditions, rituals, material culture, ethics, political ideologies, and historical interactions. Credit is awarded for one of the following RLST 007 or RLST 007H.

RLST 007H Honors Jews, Christians, and

Muslims 5 Lecture, 3 hours; discussion, 2 hours; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program. Honors course corresponding to RLST 007. Surveys the history and contemporary religious institutions and representations of Jews, Christians, and Muslims. Includes distinguishing characteristics, foundational texts, interpretive traditions, rituals, material culture, ethics, political ideologies, and historical interactions. Credit is awarded for one of the following RLST 007H or RLST 007.

RLST 010 Introduction to the Bible 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. A preparation for informed study of the Bible. Examines contemporary interpretive stances, history, methods, and major themes through the study of significant portions of the Bible.

RLST 012 Religious Myths and

Rituals 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the meanings, origins, and functions of religion; the roles of myths, rituals, and symbols; and images of transcendence. Examines religious beliefs and expressions from diverse cultural perspectives. Utilizes materials from indigenous Native (North and South) American, African American, and/or Asian American religions. Cross-listed with ETST 012. Credit is awarded for only one of ETST 012/RLST 012 or ETST 012H/RLST 012H.

RLST 012H Honors Religious Myths and

Rituals 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to ETST 012/RLST 012. An introduction to the meanings, origins, and functions of religion; the roles of myths, rituals, and symbols; images of transcendence; and understanding religious beliefs and expressions from diverse cultural perspectives. Utilizes source materials from indigenous Native (North and South) American,

African American, and/or Asian American religions. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with ETST 012H. Credit is awarded for only one of ETST 012/RLST 012 or ETST 012H/RLST 012H.

RLST 014 Religion and Science 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Covers major themes in the relation of science and religion. Primary focus is on issues between science and Western religions, with attention to Islam, Buddhism, and Hinduism. Major attention is given to creationism and Darwinian evolution. Explores religious meaning in a scientific cosmos through the study of contemporary science fiction and film.

RLST 015 Death 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Investigates the psychological aspects of facing death and dealing with dying persons; cross-cultural religious and philosophical interpretations of death (as new life, resurrection, rebirth, etc.); and medical, ethical, and legal issues such as physician-assisted suicide and euthanasia. Credit is awarded for only one of RLST 015 or RLST 015H.

RLST 015H Honors Death 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to RLST 015. An examination of three sets of issues pertaining to death and dying: psychological and experiential aspects of facing medical crisis, illness, death, and grief; cross-cultural perspectives on the ways in which death is conceived in selected religions of the world with respect to life and claims about afterlife; public policy issues that involve ethical, legal, and medical concerns regarding euthanasia, physician-assisted suicide, and hospice alternatives. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of RLST 015 or RLST 015H.

RLST 016 Sexuality and Religion in Global Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces sexuality studies within the comparative study of religion, rooted in the theoretical frameworks of gender and sexuality studies. Transnationalism and global dynamics of power are central themes. Focus is on critical heterosexuality studies, with some LGBT studies and an underlying queer studies perspective. Cross-listed with GSST 016. Credit awarded for only one of GSST 016/RLST 016 or GSST 016H/RLST 016H.

RLST 016H Honors Sexuality and Religion in Global Perspective 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University's Honors Program or consent of instructor. Honors course corresponding to GSST 016/RLST 016. Introduces sexuality studies within the comparative study of religion, rooted in the theoretical frameworks of gender and sexuality studies. Transnationalism and global dynamics of power are central themes. Focus is on critical heterosexuality studies, with some LGBT studies and an underlying queer studies perspective. Satisfactory (S) or No Credit (NC) grading is not available. Cross-listed with GSST 016H. Credit awarded for only one of GSST 016/RLST 016 or GSST 016H/RLST

016H.

RLST 024 Introduction to Native American Culture and Religion 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Interdisciplinary study of contemporary and historic Native American efforts to resist colonialism, with a strong emphasis on land matters, identity issues, and religious forms. Promotes critical reflection on historic and contemporary culture and politics. Cross-listed with HIST 034.

RLST 044 Gods, Ghosts, and Grandparents 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to the rich diversity of Chinese beliefs and practices concerning gods, ghosts, and ancestors through primary and secondary sources. Includes oracle bone inscriptions, philosophical arguments on the existence of spirits, tomb contracts, sutra promoting the goddess Guanyin as Giver of Sons, ghost stories, and eyewitness accounts of funeral rituals. Cross-listed with HIST 044. Credit is awarded for only one of HIST 044/RLST 044 or HIST 044W/RLST 044W.

RLST 044W Gods, Ghosts, and Grandparents 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): ENGL001B with a grade of "C" or better or consent of instructor. Introduction to the rich diversity of Chinese beliefs and practices concerning gods, ghosts, and ancestors through primary and secondary sources. Includes oracle bone inscriptions, philosophical arguments on the existence of spirits, tomb contracts, sutra promoting the goddess Guanyin as Giver of Sons, ghost stories, and eyewitness accounts of funeral rituals. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C. Cross-listed with HIST 044W. Credit is awarded for only one of HIST 044/RLST 044 or HIST 044W/RLST 044W.

RLST 098 Religion of Modern China 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines religions of modern China from Ming to the present. Considers religion and its relationship to politics, society, and culture in the imperial, republican, and communist contexts and the American diaspora. Engages with both heterodox and "mainstream" or "officially sanctioned" traditions while evaluating the factors that merit labels.

Upper-Division Courses

RLST 100 The Problem of Religion 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. A survey of critics and defenders of religion who debate meanings and functions of religion in relation to modern challenges such as religious pluralism, secularism, and scientific inquiry. Addresses topics of assigned instructor's expertise

RLST 101 Religions of India 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one lower-division course in Religious Studies or consent of instructor. An examination of the major religious traditions in India with special emphasis on Hinduism and Buddhism.

RLST 102 Contemporary Themes in Religion and Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of contemporary cultural issues which pose challenges to the nature of religion and the way it is studied in the public university. Issues discussed include race, gender, power, colonialism, and religious commitment.

RLST 104 Sikhism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the social and religious evolution of Sikhism over the past five centuries, tracing its formation in North India to traditions beyond the Indian subcontinent; examines the teachings of Guru Nanak and major doctrinal developments under subsequent Gurus.

RLST 106 Buddhism 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Aspects of the history and development of Buddhism in its major forms (Theravada, Mahayana, and Vajrayana). Studies of principal sutras, biographies, ethical treatises, birth narratives, and poetry.

RLST 107 Taoist Traditions 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): AST 030/CHN 030 or upper-division standing or consent of instructor. A survey of the ancient mystical and philosophical aspects of Taoism as well as the living religious tradition, their relationships to each other, and their expression in Chinese culture and civilization. Topics include the Tao Te Ching, the Chuang-tzu, the Taoist Canon, meditation, immortality, alchemy, and ritual. Cross-listed with AST 107, and CHN 107.

RLST 108 Modern Hinduism 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of developments in the Hindu religious tradition during the nineteenth and twentieth centuries, inside and outside of India. Topics covered include the impact of colonialism and nationalism on Hinduism, the rise of neo-Hindu movements, modern Hindu "fundamentalism," and Hinduism in the modern Western world.

RLST 109 New Religious Movements 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analyzes the contexts in which new religions emerge, their relations with dominant religious traditions or normative cultures, and the religious content of such movements. Examines the "cult" versus "religion" debate; apocalyptic, eschatological, and millennial views of the world; the nature of charismatic leadership; regional patterns; and transnational trends.

RLST 110 Yoga: Ancient and Modern 4 Lecture, 3 hours; individual study, 1 hour; research, 1 hour; term paper, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates yoga in its transition from an ancient Indic system of contemplative practice to its modern postural forms. Engages the history of yoga in India and its primary texts and current cultural and religious debates activated through the globalization of modern postural yoga.

RLST 111 Islam 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division

standing or consent of instructor. An overview of Islam from the time of Muhammad (d. 632 A.D.) to the present. Attention is given to its distinctive beliefs and practices, its influence upon societies in which it became dominant, and its interaction with other traditions.

RLST 112 Islam in America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores historical and contemporary dimensions of Islam in America and the way in which Islam shapes and is shaped by American politics and cultures. Introduces analytical tools for understanding Islam and contemporary ideas and practices, including conversion, migration and diaspora, knowledge production, ritual, identity politics, ethics, education, gender, and media.

RLST 113 Topics in Modern Islam 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines key issues facing Islam in the modern world such as Islam's engagement with and reaction to nationalism, feminism, the status of sacred texts in the face of critical historical and philological studies, science, and technology.

RLST 114 Jainism: An Indian Religion of Non-Violence 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Introduces the Indian religion of Jainism. Explores various aspects of Jainism including history, sectarian divisions, texts, doctrines, practices, and its relationship with other Indian traditions.

RLST 116 Religion and Violence 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the capacity of religion to mobilize and legitimate violence. Materials covered include theoretical texts by Rene Girard, Walter Burkert, Jonathan Z. Smith, and others, and case studies dealing with religion and violence in India, Northern Ireland, Egypt, Lebanon, Israel, Palestine, Sri Lanka, and the United States.

RLST 117 Mythology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative study of mythic traditions from several world cultures and religions viewed from a variety of theoretical perspectives. Includes material drawn from epics, religious texts, divine hymns, creation myths, heroic legends, and concepts of the afterlife as reflected in literary and nonliterary sources. Cross-listed with CLA 112, and CPLT 112.

RLST 118 The Problem of Evil: Understanding Evil and its Manifestations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the ways that Western culture and religion have defined evil. Primarily investigates religious discourses, but also considers philosophical, social scientific, and popular ideas of evil. Examines evil from the perspectives of the victim, the perpetrator, and the voyeur, and in a variety of media such as fiction, nonfiction, and film.

RLST 120 Tibetan Buddhism: Dalai Lamas, Tantric Madness, and Mass

Monasticism 4 Lecture, 3 hours; term paper, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Introduces the globally influential Tibetan Buddhist tradition of the Dalai Lamas, Covers the development of its unique history, doctrine, literary heritage, and gendered ritual cosmologies. Cross-listed with AST 120

RLST 121 The Hebrew Bible/Old Testament 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the collection of books usually called the Old Testament by Christians and the Bible by Jews (the acronym T'N'CH is often used by Jews as well). The books are examined in their historical, cultural, and religious contexts, with attention to the methods of modern literary criticism.

RLST 122 Medicine and Asian Religions in Global Circulation 4 Lecture, 3 hours; individualized study, 6 hours; research, 1 hour; term paper, 2 hours. Prerequisite(s): Restricted to class level standing of Sophomore, Junior, or Senior. Considers the relationship between religious cosmologies, the organization of knowledge, and the practices for managing bodily and natural order that underpin three major medical traditions of Asia in premodern and modern periods: Ayurveda, Traditional Chinese Medicine, and Tibet's Four Tantra Tradition.

RLST 123 Global Christianity and Mission 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior; or consent of instructor. Explores how Christianity was indigenized in the cultures of Africa, Asia, and Latin America, where it is growing most rapidly today. Examines the role of the mission including historic dominance of Western Europe and North America. Considers the interactions of Christianity with gender, economics, vernacular language, local and international politics.

RLST 124 (E-Z) Studies in Judaism 4 For hours and prerequisites, see segment descriptions. Exploration of developments in Judaism during this period, such as the collection of the Mishna, the development of the Talmud, Jewish Gnosticism, the medieval philosophers, Hassidism, the Reform, Orthodox and Conservative movements.

RLST 124G Modern Jewish Thought: Classical Sources and Modern 4 Lecture, 3 hours; consultation/reading, 1 hour. Prerequisite(s): none. Major modern thinkers including Buber, Rosenzweig, Kaplan, and Heschel among others will be studied in light of their inspirations from the Talmudic, philosophic, and mystical literatures of the Jewish past and in response to the impact of Christian and secular thought of the present.

RLST 124J The Essentials of Judaism 4 Lecture, 3 hours; outside reading, 3 hours, or consultation, 1 hour. Prerequisite(s): one lower-division course in Religious Studies or consent of instructor. An exploration of major teaching of Judaism. A brief historical background is related to central affirmations. Emphasis is placed on the historical shape of faith and contemporary

dynamics of faith.

RLST 124K Zionism and Holocaust 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): one lower-division course in Religious Studies or consent of instructor. A survey of the religious, historical and ideological background regarding the origins of the Zionist idea and Holocaust.

RLST 126 Israel: the Jewish State 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines Zionism and the state of Israel in the period from the first Zionist Congress in 1896 to the present. Addresses religious, social, economic, and political aspects of the Jewish state. Cross-listed with HIST 127.

RLST 127 The Holocaust 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the extermination of European Jewry during World War II. Surveys the history of the "Jewish Question"; Jewish-Christian relations; race; the systematic persecution and genocide of the Jews; and world responses to genocide. Addresses religious, philosophical, and political implications of the Holocaust, as well as continuing anti-Semitic trends. Cross-listed with HISE 147.

RLST 128 (E-Z) Topics in the Bible 4 Prerequisite(s): restricted to class level standing of junior, or senior. For hours and prerequisites, see segment descriptions. Academic examination of issues relating to the Bible.

RLST 128E Contemporary Views of Jesus 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of contemporary ways in which Jesus has been understood by academically oriented scholarship. Particular attention is given to the question of sources and of the methods used to identify those parts of the preserved tradition that are attributed to Jesus himself.

RLST 128F Biblical Fictions 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): RLST 010; upper-division standing or consent of instructor. Examines artistic rewritings of biblical narratives from antiquity to the present (ancient Jewish and Christian novels, medieval plays and stories, modern films and novels) to explore the intersections of religion, culture, and society.

RLST 130 The Bible: New Testament 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of the literature and history of the early Christian movement. Attention is given to New Testament materials and apocryphal writings.

RLST 132 Black Exodus: the Great Migration and Religious Imagination 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the history of the Great Migration (approximately 1910-1950) and the spiritual, occupational, and cultural diversification that ensued. Explores the impact of dislocation and urbanization on black religious and artistic production. Topics include the religious marketplace; Exodus theme, Stranger and Home; impact of commercial culture on identity; and class and culture

intersections among migrants.

RLST 133 Christian Origins 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor.

A study of the social, religious, and cultural development of Christianity in its first six centuries. Particular attention paid to issues of heresy/orthodoxy, material piety, and the rise of ecclesiastical institutions.

RLST 135A History of Christianity: Origins to the Reformation 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Surveys the history of Christianity from its origins through the Reformation. Includes the development of Christian beliefs, practices, and institutions in historical contexts. Cross-listed with HIST 130A.

RLST 135B History of Christianity: Modern Era 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Surveys the history of Christianity since 1500. Emphasizes the Christianization of Asia, Africa, and the Americas in the long colonial era. Follows developments in Christian belief, practice, and institutions up to the present. Topics include Reformation, mission, colonialism, empire, conversion, syncretism, modernity, Vatican II, and the rise of evangelical Christianity. Cross-listed with HIST 130B.

RLST 136 Augustine and Aquinas 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examination of selected writings by and about Augustine of Hippo (354-450) and Thomas Aquinas (1226-1274), whose works have had a major impact on Western religions, literature, and history. Themes addressed include the search for wisdom, the nature of happiness, what constitutes a good life, the nature of freedom and the source of evil, the existence of God, the relationships between faith and reason, the power and limits of language.

RLST 137A Religious Cultures in Early America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 017A is recommended. An introduction to religious beliefs and practices during the seventeenth and eighteenth centuries in the colonies that became the United States. Cross-listed with HISA 122A.

RLST 137B Religious Cultures in Modern America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; HIST 017B is recommended. An introduction to a variety of religious traditions, movements, and cultures from 1800 to the present in the United States. Cross-listed with HISA 122B.

RLST 138 Colonialism and Religions in Mexico 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Covers the survival, revival, and invention of religious traditions in ancient and contemporary Mesoamerica. Examines indigenous and immigrant religions through themes such as myths and rituals of pre-Columbian peoples; sexuality and eroticism in religion; Indian theology and theogony; Counter

Reformation Catholicism; and growing religious syncretisms. Cross-listed with LNST 138.

RLST 139 Religion and Colonialism 4 Lecture, 3 hours; research, 1 hour; term paper, 1 hour; individual study, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Investigates regional colonial encounters with diverse religious traditions. Engages the religious constructions of travelogues, cartography, missionaries, and colonial administrators. Examines religious discourses and products that were influenced by governing policies of colonial domination and produced through a dialectic between colonizer and colonized.

RLST 142 Zhuangzi 4 Lecture, 3 hours; research, 1 hour; extra reading, 1 hour; term paper, 1 hour. Prerequisite(s): AST 107/CHN 107/RLST 107 or CHN 112 or PHIL 110; or consent of instructor. An examination of chaos, epistemological and linguistic relativism, fate, skill, and the character of the sage in the Chinese Daoist text Zhuangzi. Discusses the structure and style of this literary masterpiece. Students with knowledge of classical Chinese may arrange additional work through special studies. Cross-listed with AST 142, and CHN 142.

RLST 143 Divination and Prediction in China and Greece 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): One of the following courses: CHN 030/AST 030, CHN 104, CHN 105, AST 107/CHN 107/RLST 107, CHN 108, AST 142/CHN 142/RLST 142, AST 148/CHN 148, CLA 010A, CLA 010B, CLA 010C, CLA 040, CLA 050, CLA 100/HISE 110, CLA 112/CPLT 112/RLST 117, CLA 114/CPLT 114, CLA 120 (E-Z), CLA 165, CPAC 102/CLA 102, CPAC 112/CLA 113/HISE 113, CPAC 121/CLA 121/POSC 121, CPAC 132/AST 132/CHN 132/CLA 132, CPAC 133/HISE 114, CPAC 134/HIST 110, CPAC 141/AST 145/CHN 141/CLA 141/POSC 140; or consent of instructor. Comparative study of early divination and prediction in early China, ancient Greece, or two other areas of the ancient world. Perspectives include social and intellectual contexts and institutions, as well as gender and boundaries between science, philosophy, and religion. Utilizes primary source material in texts and visual arts. Cross-listed with CPAC 143, CHN 143, and CLA 143.

RLST 144 Buddhist Literature 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Readings in canonical and non-canonical Buddhist texts. Includes Buddhist-influenced literature written by Asian, European, and American authors. Examines themes of emptiness, impermanence, and no-self. Cross-listed with CPLT 144, and AST 133.

RLST 145 Buddhism in Southeast Asia 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): RLST 106 or consent of instructor. Explores various texts, magical practices, forms of meditation, rituals, and beliefs of ancient and modern Buddhism, focusing on the ways in which they are transformed by nuns, monks, and the laity in Burma, Cambodia, Laos, Thailand, and California. Cross-listed with SEAS 145.

RLST 146 Rhetoric and Discipline in Buddhist Studies 4 Lecture, 3 hours; written work, 2 hours; activity, 2 hours. Prerequisite(s): upper-

division standing or consent of instructor. A study of key works in Buddhist studies in an effort to flesh out a critical history of academic portrayals of Buddhism. Explores the history and boundaries of the field and its relationship to modes of Buddhist and non-Buddhist rhetoric and interpretation in colonial, Orientalist, socialist, and neo-liberal contexts.

RLST 148 Religions of the Silk Road 4 Lecture, 3 hours; individual study, 3 hours; written work, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduction to religious traditions that flourished along the ancient Silk Road. Includes Zoroastrianism, Buddhism, Manichaeism, Nestorian Christianity, Islam, and Judaism. Focuses on the spread, development, and interaction through the medieval period. Considers ways in which the Silk Road period legacy figures in religious and political debates in contemporary Central Asia.

RLST 149 Southeast Asian Religions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Provides contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with SEAS 149.

RLST 150 Islam in Southeast Asia 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the religious, intellectual, and cultural history of Muslim Southeast Asia. Includes Indonesia, Malaysia, and Brunei, as well as minority communities in Singapore, Thailand, Cambodia, and the southern Philippines. Examines a series of contextualized readings in translated primary sources. Approaches texts from historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with SEAS 150.

RLST 151 Reading the Qur'an 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the Qur'an, Islam's primary scripture. Examines the contexts in which the text originated. Offers critical analyses of the Qur'an and discussion of its roles in the cultural histories of Muslim societies.

RLST 152 Religion and Oppression 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following: GSST 001, GSST 001H, GSST 001S, RLST 001, RLST 001H, RLST 002, RLST 003, RLST 005, RLST 005H, RLST 007, RLST 007H, RLST 009, RLST 010, RLST 012/ETST 012, RLST 012H/ETST 012H, RLST 014, RLST 015, RLST 015H, RLST 024/HIST 034, RLST 044/HIST 044, RLST 044W/HIST 044W; or consent of instructor. Analyzes the relationship between religion and oppression, including religion as target of oppression, religion as cause of oppression, and religion as mitigating or exacerbating force in oppression. Religious studies, feminist, critical race, queer, and post/anti-colonial theoretical perspectives undergrid the analysis. May be taken in sequence with RLST 153.

RLST 153 Religion and Social Justice 4 Lecture,

3 hours; individual study, 3 hours. Prerequisite(s): one of the following: GSST 001, GSST 001H, GSST 001S, RLST 001, RLST 001H, RLST 002, RLST 003, RLST 005, RLST 005H, RLST 007, RLST 007H, RLST 010, RLST 012/ETST 012, RLST 012H/ETST 012H, RLST 014, RLST 015, RLST 015H, RLST 024/HIST 034, RLST 044/HIST 044, RLST 044W/HIST 044W; or consent of instructor. Analyzes the roles of religion in revolution, resistance, protest, and social justice movements, including religion as motivation for revolution, religion as target of revolution, and revolution within religions. Religious studies, feminist, critical race, queer, and post/anti-colonial theoretical perspectives undergrid the analysis. May be taken in sequence with RLST 152.

RLST 155 Peace in the Middle East 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the roots of the Middle Eastern crises. Focuses on the Arab-Israeli conflict and possible solutions toward peace. Addresses problems through historical, religious, and political lines of inquiry. Cross-listed with PHIL155.

RLST 156 Jews and Arabs 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Traces the formation of the shared and divided history of the Jewish and Arab peoples. Focuses on the literary and institutional dimensions of this history, as well as the formation of related areas of study, such as religion, philosophy, literature, and psychoanalysis. Cross-listed with ARLC 156, CPLT 156, and MEIS 156.

RLST 157 Introduction to Arabic Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Arabic literature that focuses on language and rhetoric. Considers major issues such as colonialism, secularism, modernity, language, and the state. Utilizes texts from literature, the law, and philosophy. Cross-listed with ARLC 155, CPLT 155, and MEIS 155.

RLST 158 Islam and Psychoanalysis 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores contemporary psychoanalytic readings of Islam to consider the relationship between Islam and Orientalism, Orientalism and psychoanalysis, and psychoanalysis and Islam. Cross-listed with ARLC 158, CPLT 158, and MEIS 158.

RLST 159 Queer Religiosities 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following: GSST 001, GSST 001H, GSST 001S, RLST 001, RLST 001H, RLST 002, RLST 003, RLST 005, RLST 005H, RLST 007, RLST 007H, RLST 007W, RLST 010, RLST 012/ETST 012, RLST 012H/ETST 012H, RLST 014, RLST 015, RLST 015H, RLST 024/HIST 034, RLST 044/HIST 044, RLST 044W/HIST 044W; or consent of instructor. A comparative, thematic exploration of religion in the lives of contemporary same sex attracted and gender variant or gender nonconforming people around the world. Topics may include intersections of religion with: neoliberal economic and political strategies; globalization; global North/South inequities; settler colonialism; racial, economic,

and gender inequalities; homonormativity/homonationalism; queer activism. Cross-listed with GSST 159

RLST 160 Religion, Gender and Sexuality 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of attitudes toward and images of women in diverse religious traditions. Includes issues such as the presence and absence of women in leadership roles; women's spiritual experiences; female founders of religious groups; and recent developments in feminist religious thought. Cross-listed with GSST 160.

RLST 161 Gender and Sexuality in U.s Religious History 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): one of the following: one of the following: GSST 001, GSST 001H, GSST 001S, RLST 001, RLST 001H, RLST 002, RLST 003, RLST 005, RLST 005H, RLST 007, RLST 007H, RLST 007W, RLST 010, RLST 012/ETST 012, RLST 012H/ETST 012H, RLST 014, RLST 015, RLST 015H, RLST 024/HIST 034, RLST 044/HIST 044, RLST 044W/HIST 044W; or consent of instructor. Overview and analysis of gender and sexuality in religion from colonial period (including Spanish, French, Russian, and British colonies in what is now the United States) to present day. Combines critical and comparative religious studies approaches with historical methods and the analytical perspectives of intersectional gender, sexuality, and queer studies. Cross-listed with GSST 158.

RLST 162 Women's Issues in Modern Muslim Thought 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces complex religious and social issues related to the role of women in modern Islamic societies ranging from North America to Southeast Asia. Examines Muslim writings produced during the past century. Cross-listed with GSST 162.

RLST 163 The Women of Early Christianity 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the social roles and literary constructs of early Christian women as evidenced in the New Testament, patristic, and Apocryphal writings. Also considers the significance of those textual traditions for later Western ideas about women's social roles including traditional and feminist theories. Cross-listed with GSST 163.

RLST 166 Evangelical Religion, Media, and Culture in America 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the history of the use of media technologies among evangelicals. Addresses the interconnections between religious productions of meaning, proselytization, and politics. Explores the ways the critical interlace of religion and media both shapes and is shaped by the ways participants understand themselves as racial, gendered and classed subjects.

RLST 169 Religion and Music 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the complex intersection of sound,

religion, religious experience, and culture. Explores how sacred music and varieties of sound-induced or sound-enhanced religious experience enables groups of people to construct religious meaning and understand their world. Focuses on musical forms of practices and embodied experiences of the sacred.

RLST 173 Political Religions and Religious Politics 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Investigation of major themes and issues in the intersection of religion and politics, such as the sacralization of politics, religious nationalisms, sacral kingship, revolutionary asceticism, "throne and altar," civil religion, millennialism, political myth and ritual, integralism, and the conformity of the polity to religious values. Cross-listed with POSC 109.

RLST 175 Religion and Human Rights 4 Lecture, 3 hours; independent research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An examination of selected human rights struggles with particular attention given to the role of religion. Case examples are taken from North and Latin America, South Africa, South Asia, or China, among others.

RLST 176 Peace and War 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of peace and war from diverse religious and ethical perspectives. Addresses nuclear and conventional war and revolutionary wars of liberation as ethical issues requiring social policy and personal decision. Topics include "just war," "holy war," nonviolence, and pacifism.

RLST 177 History of the Church in Latin America 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of the history of the church (e.g. Catholic, Protestant) in Latin America. Includes conquest and mission, indigenous responses to Christian conversion, the long colonial period, independence, revolution, and liberation theology movements. Explores the dynamics of church and culture, church and state, and church and social transformation. Cross-listed with HISA 168.

RLST 178 Religious Biography 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the construction and continuing appropriation of biographical images (textual and visual narratives) in selected religious traditions. Special attention is given to problems of intertextuality and the medium of presentation in the communication of "religious" meaning. Cross-listed with CPLT 178.

RLST 179 Pilgrimage 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of pilgrimage and religious tourism in selected traditions. Includes historical, sociological, anthropological, and ritual analysis of the construction of sacred time and space and of the formation of communal and personal identity.

RLST 180 Saints and Gurus 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how religious virtuosi have shaped religious practice and the teaching of Hinduism,

Buddhism, Jainism, Sikhism, and Islam in South Asia. Examines history, myth, poetry, meditation, yoga, and ritual, with a focus on how the ascetic ideal has shaped global imagination about South Asia.

RLST 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): consent of instructor and department chair. To be taken to meet special curricular problems. Course is repeatable to a maximum of 16 units.

RLST 193 Senior Seminar 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Advanced undergraduate study of specific religious texts, traditions, or key underlying themes as set by the instructor. Topics vary each year.

RLST 195 Senior Thesis 1 to 4 Enrollment by request of student with the approval of the Program faculty, which must be granted no later than the quarter before the course is to be taken. May be taken for four units only in the first or second quarter of the senior year; two more units may be taken in a subsequent quarter. Total credit may not exceed 6 units.

RLST 197 Research For Undergraduates 1 to 2 Individual research, 3 to 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Directed individual research. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination. Course is repeatable to a maximum of 4 units.

RLST 198 Individual Internship 1 to 6 Internship, 2 to 12 hours; reading and writing, 1-6 hours. Prerequisite(s): upper-division standing or consent of instructor; consent of department chair. An individually designed, academically grounded internship that provides an opportunity for advanced majors to apply their knowledge of religion to businesses and organizations outside the university. Prior approval of the instructor and supervisor is required for units, fieldwork, and academic content. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 6 units.

Graduate Courses

RLST 200A Religion, Politics, and Public Discourse 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. Critical examination of the intersections of religious identities and public politics. Topics vary by instructor but may include human rights, "church-state" debates, Islamism, civil religion, and postcolonial religions. Completion of the RLST 200A, RLST 200B, RLST 200C sequence fulfills the Graduate Professional Development Requirement. Course is repeatable to a maximum of 8 units if taken with different instructors.

RLST 200B Representations, Interpretations, and Critical Histories 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students

repeating the course. Examines how religious identity and studies have shaped and been shaped by modes of representation, interpretation, and historical awareness. Topics vary but may include biographies, art and architecture, mass media, and scriptural interpretation. Completion of the RLST 200A, RLST 200B, RLST 200C sequence fulfills the Graduate Professional Development Requirement. Course is repeatable to a maximum of 8 units if taken with different instructors.

RLST 200C Religions in Contact 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. Examines how religions confront each other historically, politically, and metaphorically. Specific topics vary according to instructor but may include syncretism, mission and colonization, religious wars, ecumenism, and "world religion" movements. Completion of the RLST 200A, RLST 200B, RLST 200C sequence fulfills the Graduate Professional Development Requirement. Course is repeatable to a maximum of 8 units if taken with different instructors.

RLST 201 Thinking About Religion: Classic Theories in the Study of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A critical study of classic theories and theorists in the study of religion within their historical contexts. Featured thinkers include Frazer, Eliade, Smart, Spinoza, Durkheim, Freud, and Weber. Considers such intellectual movements as Higher Criticism of the Bible, psychoanalysis, phenomenology, and hermeneutics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 202 Contemporary Theories and Theorists in the Study of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; consent of graduate advisor is required for students repeating the course. A critical consideration of leading contemporary theories and theorists in religious studies. Selection of theories and theorists changes according to the interests of the instructor. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 16 units if taken with different instructors.

RLST 210 Understanding Theories of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers the technique and theory of interpreting theoretical texts of the study of religion within historical contexts. Special attention is paid to Charles Taylor's theory of interpretation in the human sciences and Quentin Skinner's theory of understanding theoretical ideas. Models are drawn from the literature of the theory of myth, religion, and sacrifice. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 212 The Durkheimian Tradition in the Study of Religion 4 Seminar, 3 hours; research,

3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers major figures and themes in the Durkheimian approach to the study of religion. Pays special attention to qualitative methods of analysis. Focuses on the Durkheimian development of major religious themes: gift, magic, religion, sacred time and space, and sacrifice. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 220 Advanced Topics in Method and Theory in the Study of Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An inquiry into the major conceptual issues of the methods and theories employed in the study of religion. Topic varies from quarter to quarter. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 221 The Religious Studies-Theology Debate 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Addresses current debates concerning the relation of theologies to humanistic studies of religion. Covers neoorthodox, liberal, post-liberal and postmodern theologies as alternatives to varieties of the humanistic study of religion in the public university. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 222 Human Rights as A Moral Discourse 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Inquiry into the moral and ethical dimensions of philosophical, religious, legal, and historical traditions of "rights-talk." Attention paid to conceptual, historical, cross-cultural, and case-study source materials. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 224 Comparative Religious Ethics 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Inquiry into a variety of debates about ethics: religious and philosophical, theoretical and applied. Topics may include policy debates about bioethics, moral inquiries into virtue, ethics and minority discourse, violence and nonviolence as means of social change, or fundamental moral problems generated by suffering. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 227 Politics and Religion: From Premodern to Postmodern 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the relation between politics and religion from premodernity through postmodernity. Topics include the divine right of kings; Machiavelli, Locke, and Hobbes; documents of the American, English, French, and Turkish revolutions; Islamism; secularism; the clash of civilizations; the United States as a Christian nation; and fascism and nationalism as religions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 228 Lived Religions and Local Faiths: Cultural Approaches to the Study of

Religion 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Covers ethnographic, anthropological, and other cultural approaches to the study of religion. Traces emergence of the cultural study of religion from colonial encounters to current-day ethnographies of religion. Evaluates risks and promises of ethnography for the study of religion. Includes ethnographic project. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 229 Material Culture of

Religion 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines how material objects complicate oral and textual statements about religious belief and practice. Considers the material dimensions of scripture, ritual objects, and everyday artifacts associated with religion; the agency of objects; and religion and consumer culture. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 230 Theory and Writing On Native

American Religious Traditions 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Theoretical study of Native American religious history, including its research, interpretation, and writing, in relation to colonialism and tribal sovereignty. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 231 Ethnographic Methodology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Assists in the design and implementation of sustained field research while engaging various theoretical approaches to ethnographic practice. Provides preparation for or in service of dissertation research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 234 Popular and Elite Religion 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores complexity within religious traditions. Analyzes scholarly categories of classification such as popular and elite, sectarian and diffuse, or clerical and lay. Examines methods for the study of popular religion despite scarcity of evidence compared with official sources. Emphasizes content relevant to the expertise of the instructor. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 235 Christian Hagiography 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Study of the writing of Christian saints' lives from a cultural perspective. Explores the role of holy men and women in premodern Christianity, with special focus on sanctity, materiality, social formations, and the relation between text and reality. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 236 Gender and Religion 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s):

graduate standing or consent of instructor.

Examines the role of sex and gender in selected religious beliefs and practices. Topics include gender and divinity; conceptions of the body; femininity and masculinity; marriage; sexuality; and sexual renunciation. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 237 Asceticism 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an analysis of the theories and practices associated with bodily renunciation, focused especially on the first Christian centuries. Explores issues such as fasting, sexual abstinence, and social withdrawal from a variety of critical perspectives, with special attention paid to gender, status, and the body in religion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 238 Religious Images 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the use of sacred images in spiritual practice in diverse religious traditions. Examines various methods for the study of religious images, as well as the philosophical, theoretical, and theological issues that arise. Includes issues related to representation, perception/vision, materiality, the power of symbol, and related museographic and curatorial issues. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 239 Ethics and Politics in African

American Religious Life 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the competing ethical and political orientations of representative religious traditions in the African American community. Uses tools of social/critical theory to dissect various religious formations and movements in terms of social formations, ruling ideas, and economic forces of the dominant culture. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 240 Advanced Topics in the Study of

North American Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores major issues in recent scholarship in North American religion. Topics include debates over emerging theories such as narrative and market model approaches; secularism; immigration, race, and ethnicity; religion and national identity formation; religious imagination in regards to border and boundary crossing; and the role of Protestant privilege. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 241 From Text to Scripture: Canon,

Performance, Reception 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focusing on the Sikh sacred text as a primary example, investigates the intellectual and emotional factors underlying the composition, copying, canonization, and transmission of sacred texts, with attention to issues of production and reception in historical communities. May be taken Satisfactory (S) or No Credit (NC) with

consent of instructor and graduate advisor.

RLST 245 Via Mystica 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines religious virtuosos in Islam, Christianity, Hinduism and Buddhism, including Puu Mi Bun, sufis, swamis, saints, and martyrs. Uncovers the close connection between these religions in terms of ritual technology, soteriological goals, meditative practices, and eschatological articulations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 246 Religious Reading Cultures 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines textual communities and interpretative virtuosos in different religious cultures. Explores the means by which religious scripture is composed, transmitted, translated, illuminated, performed, and preserved in Christianity, Judaism, Buddhism, Hinduism, and Islam. Introduces students to the methodologies and approaches of textual anthropology, intertextuality, homiletics, liturgical studies, performance theory, and philology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 249 Public Religious Discourses in

Modern Islam 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces the complexities of contemporary Islam as lived by Muslims in local and global contexts by examining the content and dynamics of modern discussions of religious and social issues in Muslim "public spheres." Involves primary and secondary sources of information. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 250 Approaches to Islam in Religious

Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines various approaches to the study of Islam. Includes textual, ritual-symbolical, historical, anthropological, sociological, and cultural studies. Also explores orientalism and occidentalism, textuality and orality, sacredness and profanity, orthodoxy and heterodoxy, tradition and modernity, conversion, identity, and media. Utilizes primary works on Islamic scriptures, ritual, and societies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 252 Southeast Asian Islam 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to contextualized readings in translated primary source texts in the fourteenth through the twenty-first centuries from Muslim Southeast Asia. Explores the richness of Islamicate culture in the region through discussions of broader issues of Islam, Muslim societies, and the academic study of religion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 253 Southeast Asian Religions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses different and dynamic aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand,

Cambodia, Vietnam, and the Philippines. Explores contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives on this diverse region. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topic changes to a maximum of 8 units. Cross-listed with ANTH 257 and SEAS 202.

RLST 254 Queer and Transgender Studies in Religion 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Advanced study of classic and current works in the subfields of queer and transgender studies in religion. Specific topics may include: queer analysis of sacred texts and religious histories, gender variance in religious traditions, queer/trans religious innovation, and queer feminist, critical race, and anti- and postcolonial studies perspectives on religion. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 257 The Sufis 4 Seminar, 3 hours; term paper, 2 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. An introduction to sufism through an in-depth reading of the great Sufi poets. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with CWPA 257.

RLST 261 Problems in the Study of Buddhism 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines controversies in the field of Buddhist studies. Topics include the rise of asceticism in India, the composition of the earliest Buddhist texts, the process of transmission of texts and translation problems, the rise of sectarian debate, and women's role in Buddhist ecclesia. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 263 Historiography of Sikh Hermeneutics 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the historiography of Sikh hermeneutics, focusing on the historical contexts of various schools of interpretations of the Adi Granth in premodern, modern, and postmodern periods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 270 Topics in Jewish Studies 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines current problems in the field of Jewish studies. Topics address issues related to memory, identity, economy, power, gender, race, genetics, and culture. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 271 The Nietzschean Tradition in the Study of Religion 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Studies major themes and thinkers of the Nietzschean approach to and analysis of religion. Focuses on power, epistemology, phenomenology, metaphysics, role playing, and the genealogy of morals. May be taken Satisfactory (S) or No Credit (NC) with

consent of instructor and graduate advisor.

RLST 272 Jews and the Economy 4 Seminar, 3 hours. research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys facts and fictions about Jews and the economy. Topics include usury, the court Jew, finance, retail and manufacturing, labor movements, organized crime, and culture industries. Addresses select issues of culture and economy, as well as depictions of Jewish money in literature, film, and journalism. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

RLST 290 Directed Studies 1 to 5 Research, 3 to 15 hours. Prerequisite(s): consent of instructor and graduate advisor. Advanced work in a topic or topics appropriate to the student's special interests and needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 12 units.

RLST 291 Individual Study in Coordinated Areas 1 to 12 Individual Study, 3 to 36 hours. Prerequisite(s): consent of instructor; doctoral standing. Program of study designed to advise and assist candidates who are preparing for qualifying examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 292 Concurrent Studies in Religious Studies 1 to 4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor; concurrent enrollment in a RLST-100 level course. Taken concurrently with a 100-level RLST course, but on an individual basis. Devoted to completion of a graduate paper based on research related to the 100-level course. Faculty guidance and evaluation is provided throughout the quarter. RLST 190, RLST 193, RLST 195, RLST 197, and RLST 198-I may not be used for this course arrangement. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor; graduate standing. Individualized research under the sponsorship of specific faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 299 Research For the Dissertation 1 to 12 Research, 3 to 36 hours. Prerequisite(s): satisfactory completion of the Ph.D. qualifying examination. Research, under the direction of a faculty member, for preparation of the thesis or dissertation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Courses

RLST 302 Teaching Practicum 1 to 4 Practicum, 3 to 12 hours. Prerequisite(s): appointment as a Teaching Assistant; graduate standing. Supervised teaching in lower- and upper-division Religious Studies courses. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

RLST 402 Pedagogy 1 Seminar, 1 hour; written work, 0.5 hour; extra reading, 0.5 hour. Prerequisite(s): graduate standing; or consent of instructor. Pedagogical considerations in the teaching of religious studies. Graded Satisfactory (S) or No Credit (NC).

RLST 403 Surviving the Job Market 1 Seminar, 1 hour; written work, 1 hour. Prerequisite(s):

graduate standing; or consent of instructor. Preparation for the traditional academic job market in religious studies. Graded Satisfactory (S) or No Credit (NC).

Related Courses

ANTH 124 Ritual and Religion 4 Lecture, 3 hours. The elements and forms of religious belief and behavior; functions of ritual in society. Cross-cultural comparisons.

AHS 155 Cultures in Conflict: Art at the Fall of the Roman Empire 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers architecture, mosaic, wall painting, manuscript illumination, and sculpture from the origins of Christianity to the final dissolution of the Roman Empire. Stresses the role of art in the co-optation of the Church by the Empire and then in the aftermath of its fall.

AHS 156 Memory of Empire: the Art of Early Medieval Europe 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Covers manuscript illumination, barbarian jewelry, architecture, and sculpture from the fall of the Roman Empire and through the Carolingian Empire up to the tenth century. Stresses the interplay between indigenous Germanic and foreign classical traditions.

ENGL 100 (E-Z) Scriptures, Myths, and Interpretation 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. Focuses on issues of scriptural and mythical analysis. Explores the impact of scripture and myth on literature written in English; textual development of the Hebrew scripture including the development of the King James version; major authors' uses of scripture and myth; exegesis; scripture and myth in current criticism and theory.

Chioun Lee, Ph.D.
Victoria Reyes, Ph.D.

Majors

Sociology is the scientific study of human behavior, interaction and organization. It provides a historical and comparative perspective on human societies and offers a framework for understanding society and the complex social world.

Students majoring in sociology can choose between a B.A. or B.S. degree. The department also offers majors in Sociology/Administrative Studies, and Sociology/Law and Society; as well as a minor in sociology. All students must meet quarterly prior to course enrollment with the stu-

dent affairs officer or the undergraduate advisor to develop a program of studies.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

Sociology Major

The major requirements for the B.A. and B.S. degrees in Sociology are as follows:

For the Bachelor of Arts Sociology Department requirements (14 courses [at least 56 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. Lower-division requirements (5 courses [at least 20 units])

- a) SOC 001 or SOC 001H with a grade of "C-" or better
- b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
- c) One additional lower-division Sociology courses with a grade of "C-" or better

2. Upper-division requirements (9 courses [at least 36 units])

- a) SOC 168 or SOC 169
- b) A minimum of one course each selected from four of the following five areas of emphasis:
 - (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
 - (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
 - (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
 - (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
 - (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
- c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

For the Bachelor of Science Sociology Department requirements (16 courses [at least 64 units])

Students will not be admitted into the major until lower-division requirements are satisfied.

All courses in the major must be taken for a letter grade.

1. Lower-division requirements (5 courses [at least 20 units])

- a) SOC 001 or SOC 001H with a grade of "C-" or better
- b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
- c) One additional lower-division Sociology courses with a grade of "C-" or better

2. Upper-division requirements (11 courses [at least 44 units])

- a) SOC 110, SOC 168, SOC 169
- b) A minimum of one course each selected from four of the following five areas of emphasis:
 - (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
 - (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
 - (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
 - (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
 - (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
- c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Sociology/Administrative Studies Major

The major requirements for the B.A. and B.S. degree in Sociology/Administrative Studies are as follows:

For the Bachelor of Arts Sociology Department requirements (14 courses [at least 56 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

1. Lower-division requirements (5 courses [at least 20 units])

- a) SOC 001 or SOC 001H with a grade of "C-" or better
- b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
- c) One additional lower-division Sociology courses with a grade of "C-" or better

2. Upper-division requirements (9 courses [at least 36 units])

- a) SOC 168 or SOC 169
- b) A minimum of one course each selected from four of the following five areas of emphasis:
 - (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/ BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
 - (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
 - (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
 - (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
 - (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
- c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Administrative Studies requirements (37 units)

- 1. **Lower-division courses (17 units)**
 - a) BUS 010, BUS 020
 - b) STAT 048 or equivalent (may be used to satisfy breadth requirements)
 - c) CS 008 (may be used to satisfy breadth requirements)
- 2. **Upper-division requirements (20 units)**
 - a) Two courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 130 or BUS 162/ECON 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151
 - (4) POSC 181 or POSC 182 or POSC 183
 - (5) ANTH 127 or ANTH 131

These two courses must be outside the discipline of Sociology and cannot be courses included as part of the three-course Business Administration track or their cross-listed equivalents.
 - b) A three-course track (12 units) in Business Administration courses from one of the following:
 - (1) Organizations (General): ANTH 105/ BUS 158, BUS 100, BUS 107, BUS 176/SOC 176, SOC 150, SOC 151
 - (2) Human Resources Management/ Labor Relations: BUS 100, BUS 107, BUS 153/ECON 153, BUS 155, BUS 157, ECON 152, PSYC 142
 - (3) Business and Society: BUS 100, BUS 102, BUS 107, PHIL 116, POSC 182, POSC 186
 - (4) Marketing: BUS 103, and two from

- BUS 112, BUS 113, BUS 114, BUS 117
- (5) Managerial Accounting/Taxation: BUS 108, and two from BUS 166, BUS 168A, BUS 168B
- (6) Financial Accounting: BUS 108, BUS 165A, BUS 165B
- (7) Finance: BUS 106/ECON 134 and two from BUS 134, BUS 136, BUS 137, BUS 138, BUS 139
- (8) Management Information Systems: BUS 101, BUS 171, BUS 173
- (9) Production Management: BUS 104/ STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Administrative Studies requirements).

For the Bachelor of Science Sociology Department requirements (16 courses [at least 64 units])

Students will not be admitted into the major until lower-division requirements are satisfied. All courses in the major must be taken for a letter grade.

- 1. **Lower-division requirements (5 courses [at least 20 units])**
 - a) SOC 001 or SOC 001H with a grade of "C-" or better
 - b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
 - c) One additional lower-division Sociology courses with a grade of "C-" or better
- 2. **Upper-division requirements (11 courses [at least 44 units])**
 - a) SOC 110, SOC 168, SOC 169
 - b) A minimum of one course each selected from four of the following five areas of emphasis:
 - (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/ BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
 - (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
 - (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
 - (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
 - (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
 - c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of

SOC 190, SOC 197, SOC 198-I.)

Administrative Studies requirements (37 units)

- 1. **Lower-division courses (17 units)**
 - a) BUS 010, BUS 020
 - b) STAT 048 or equivalent (may be used to satisfy breadth requirements)
 - c) CS 008 (may be used to satisfy breadth requirements)
- 2. **Upper-division requirements (20 units)**
 - a) Two courses (8 units) from the list below:
 - (1) ECON 102 or ECON 104A or ECON 130 or BUS 162/ECON 162
 - (2) PSYC 140 or PSYC 142
 - (3) SOC 150 or SOC 151
 - (4) POSC 181 or POSC 182 or POSC 183
 - (5) ANTH 127 or ANTH 131

These two courses must be outside the discipline of Sociology and cannot be courses included as part of the three- course Business Administration track or their cross-listed equivalents.

- b) A three-course track (12 units) in Business Administration courses from one of the following:
 - (1) Organizations (General): ANTH 105/ BUS 158, BUS 100, BUS 107, BUS 176/SOC 176, SOC 150, SOC 151
 - (2) Human Resources Management/ Labor Relations: BUS 100, BUS 107, BUS 153/ECON 153, BUS 155, BUS 157, ECON 152, PSYC 142
 - (3) Business and Society: BUS 100, BUS 102, BUS 107, PHIL 116, POSC 182, POSC 186
 - (4) Marketing: BUS 103, and two from BUS 112, BUS 113, BUS 114, BUS 117
 - (5) Managerial Accounting/Taxation: BUS 108, and two from BUS 166, BUS 168A, BUS 168B
 - (6) Financial Accounting: BUS 108, BUS 165A, BUS 165B
 - (7) Finance: BUS 106/ECON 134 and two from BUS 134, BUS 136, BUS 137, BUS 138, BUS 139
 - (8) Management Information Systems: BUS 101, BUS 171, BUS 173
 - (9) Production Management: BUS 104/ STAT 104, and two from BUS 105, BUS 122, BUS 127/STAT 127

Note: In filling the dual requirements of the selected major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Administrative Studies requirements).

Sociology/Law and Society Major

The major requirements for the B.A. and B.S. degrees in Sociology/Law and Society are as follows:

For the Bachelor of Arts

Sociology Department requirements (14 courses [at least 56 units])

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. Students will not be admitted into the major until lower-division SOC requirements are satisfied. All courses in the major must be taken for a letter grade.

1. Lower-division requirements (5 courses [at least 20 units])

- a) SOC 001 or SOC 001H with a grade of "C-" or better
- b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
- c) One additional lower-division Sociology courses with a grade of "C-" or better

2. Upper-division requirements (9 courses [at least 36 units])

- a) SOC 168 or SOC 169
- b) A minimum of one course each selected from four of the following five areas of emphasis:
 - (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 137, SOC 143/URST 143, SOC 150, SOC 151, SOC 156 SOC 160, SOC 176/BUS 176, SOC 179, SOC 181, SOC 182/URST 182, SOC 184
 - (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
 - (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
 - (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
 - (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
- c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Law and Society requirements (36 units)

- a) PHIL 007 or PHIL 007H
- b) LWSO 100 (with a grade of "C" or better)
- c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
- d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159.
- e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180.
- f) LWSO 193, Senior Seminar

Note: For sections d) and e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total

requirements (Sociology requirements and Law and Society requirements).

**For the Bachelor of Science
Sociology Department requirements
(16 courses [at least 64 units])**

The Law and Society major is open to undergraduate students with junior standing who have completed LWSO 100 with a grade of "C" or higher. Students will not be admitted into the major until lower-division SOC requirements are satisfied. All courses in the major must be taken for a letter grade.

**1. Lower-division requirements
(5 courses [at least 20 units])**

- a) SOC 001 or SOC 001H with a grade of "C-" or better
- b) SOC 003, SOC 004, SOC 005 with a grade of "C-" or better in each
- c) One additional lower-division Sociology courses with a grade of "C-" or better

2. Upper-division requirements (11 courses [at least 44 units])

- a) SOC 110, SOC 168, SOC 169
- b) A minimum of one course each selected from four of the following five areas of emphasis:
 - (1) **Social Institutions, Organizations and Change:** SOC 112, SOC 121, SOC 122, SOC 123, SOC 125, SOC 126, SOC 137, SOC 139/MCS 139, SOC 143/URST 143, SOC 150, SOC 151, SOC 156, SOC 160, SOC 176/BUS 176, SOC 179, SOC 182/URST 182, SOC 181, SOC 184
 - (2) **Social Psychology:** SOC 173, SOC 174, SOC 175, SOC 177 E-Z, SOC 178, SOC 186E, SOC 186F, SOC 186G
 - (3) **Social Inequality:** SOC 128, SOC 129, SOC 130, SOC 131 E-Z, SOC 132, SOC 133, SOC 135, SOC 161, SOC 162, SOC 163, SOC 164, SOC 165
 - (4) **Criminology and Deviance:** SOC 134, SOC 144, SOC 145, SOC 147, SOC 149, SOC 159, SOC 180
 - (5) **Family and Gender:** SOC 140, SOC 141, SOC 142, SOC 146, SOC 155 E-Z
- c) An additional four elective courses (at least 16 units) in Sociology (No more than 5 units from any combination of SOC 190, SOC 197, SOC 198-I.)

Law and Society requirements (36 units)

- a) PHIL 007 or PHIL 007H
- b) LWSO 100 (with a grade of "C" or better)
- c) One course chosen from POSC 114, PSYC 012, SOC 004 (or equivalent course in research methods)
- d) Three courses chosen from ANTH 127, ECON 119, HISE 153, PHIL 165, POSC 167, PSYC 175, SOC 159.
- e) Two courses chosen from ENSC 174, HISA 120A, HISA 120B, HISE 123, LWSO 175 (E-Z), PHIL 164, POSC 111, POSC 166, POSC 168, POSC 186, SOC 147, SOC 149, SOC 180.

f) LWSO 193, Senior Seminar

Note: For sections d) and e) combined, not more than two courses may be taken from the same department. In filling the dual requirements of the major, students may not count more than two courses toward both parts of their total requirements (Sociology requirements and Law and Society requirements).

Minor

The requirements for the minor in Sociology are as follows:

1. SOC 001, SOC 004, SOC 005

2. Sixteen (16) upper-division units from

- a) SOC 168 or SOC 169
- b) Any three additional upper-division courses in Sociology with no more than 4 units in any combination of SOC 190, SOC 197, SOC 198-I

There can be no substitution for the courses listed without prior departmental approval.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Sociology Undergraduate Honors Program

Students who meet the departmental requirements for academic excellence are invited at the end of their junior year to participate in the Sociology Undergraduate Honors Program during their senior year. The students enroll in SOC 195 to work on an honors thesis under the supervision of a faculty member, for a total of 12 units distributed over three quarters. Students in the program also participate in SOC 199H, a year-long seminar led by the chair of Undergraduate Affairs Committee, for which they receive a total of 3 additional units of credit.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Sociology offers the M.A. and Ph.D. degrees in Sociology. The graduate program in Sociology is designed to prepare students for research and teaching careers in the discipline of sociology. The graduate program is designed as a full-time course of study for students seeking the Ph.D. degree. The M.A. degree in Sociology is awarded as part of a student's required progress toward admittance into the Ph.D. program in Sociology. The Department of Sociology does not award an M.A. degree to a student who already received an M.A. degree in Sociology from another institution.

Doctoral Degree

Admission

Admission into the graduate program is based on the following criteria:

1. Prior academic performance, especially in undergraduate or graduate Sociology classes
2. Performance on the GRE
3. Letters of reference from persons familiar with an applicant's potential for achieving academic excellence
4. The extent to which an applicant's areas of expressed interest coincide with teaching and research emphases in the department

Applicants to the graduate program in Sociology are encouraged to submit a copy of a professional or term paper with their application for consideration in the admissions process. In general, students are admitted for the fall quarter of each academic year. Applicants to the graduate program for mid-year admissions are not recommended because the sequence of core courses is designed to begin with the fall quarter. The deadline for an application for admission for the fall quarter is December 5, also the deadline for various university fellowship programs. A detailed statement of degree requirements and procedures for the graduate degree is available at sociology.ucr.edu/academic/graduate.html. General university requirements of the Graduate Division are at www.graduate.ucr.edu and in the Graduate Studies section of this catalog.

The graduate program is designed to allow students to proceed through three distinct stages in their pursuit of the Ph.D. degree: the basic core program, the period of specialization, and writing the dissertation.

Basic Core Program

All students must complete the basic core program, regardless of whether they hold a baccalaureate or master's degree at the time of admission. A student is expected to complete the basic core program in not less than three and not more than six academic quarters. The chair of the graduate affairs committee advises students about the core program.

Course Requirements for the Core Program

1. In the core program, the minimum requirement is 44 units of academic work with no grade less than a "B". Work in the basic core courses must be distributed as follows:
 - a) **Core sequence in theory:** SOC 202A, SOC 202B
 - b) **Core course in research design:** SOC 200
 - c) **Core sequence in qualitative methodology:** SOC 204A, SOC 204B
 - d) **Core sequence in statistics:** SOC 203A, SOC 203B
 - e) **Proseminar in Sociology:** SOC 232
 - f) **Research colloquium:** SOC 293 (required in the first year)
 - g) **Thesis writing:** SOC 250
 - h) **A minimum of one course from each of two specialization areas** (excluding all courses in a-g above, as well as SOC

205, SOC 206, SOC 208, SOC 258, SOC 290, SOC 291, SOC 297, SOC 293, SOC 299, SOC 301 and SOC 401).

M.A. Thesis and Oral Examination

Each student must complete a thesis for completion of the master's degree. This paper reflects the student's areas of theoretical and substantive interest since entrance into the program, and it is written in a form, content, and style appropriate for publication. A three-person faculty committee oversees the evaluation of the paper and the oral defense of the thesis. The thesis must be completed and presented to the full department by the end of the student's sixth quarter of enrollment. If a student does not possess a Sociology MA from another institution and wishes to apply for the MA degree at UCR, the thesis must be submitted electronically to the Graduate Division, following the formatting guidelines provided on the Graduate Division web page. The normative time to an MA degree is 2 years.

On the basis of a favorable recommendation from the three-person faculty committee, the faculty votes to recommend the awarding of the M.A. degree in Sociology. If the M.A. is awarded or if the student already has an M.A. in Sociology, the faculty then votes on whether the student should continue in the Ph.D. program. If a student is allowed to continue in the Ph.D. program, the faculty then votes on whether to accept the two areas of specialization in which the student requests to be examined.

Professional Development Training

Each student must complete the following professional training courses: Soc 232 and Soc 293. Normally Soc 232 (Proseminar in Sociology) is completed in the fall of the first year as part of the core program. Soc 293 (Research Topics in Sociology) is required in the first year. In addition, Sociology 301: Directed Studies in the Teaching of Sociology is required prior to or concurrent with the completion of teaching assistantships in the program.

Period of Specialization

After admission to two areas of specialization (see M.A. Thesis and Oral Examination, above), students must complete coursework and qualifying examinations in two (one primary and one secondary) areas of specialization. A student must complete specialization coursework with a grade of "B" or better in each course. The areas of specialization offered in the department, and course requirements in these areas, are as follows:

1. Criminology and Sociolegal Studies
SOC 249. Two (if primary) or one (if secondary) of the following SOC courses: 264F, 268, 278, 279, 280E, 280F, 280G, 280I, 280J, 280K, 280M, 280S.
2. Gender Studies
Two (if primary) or one (if secondary) of the following SOC courses: 240, 256, 262, 264E, 264F, 264G, 264M, 264P, 264T, 268, 285N.
3. Medical Sociology
SOC 284 and SOC 283. If primary, one additional from the following SOC courses: 286, 287, 288.
4. Organizations and Institutions

Either SOC 244 or SOC 245. Two (if primary) or one (if secondary) of the following SOC courses: 242M, 243R, 243S, 252, 253, 255I, 255L, 255M, 255N, 255O, 257E, 257F, 257G, 257J, 258, 263, 280J

5. Political Economy and Global Social Change
SOC 281. Two (if primary) or one (if secondary) of the following SOC courses: 243J, 243K, 243S, 251, 252, 255M, 257E, 255N, 257J, 258, 261, 263, 264M, 264P, 264T, 265J, 272E, 275H and 282. 258 can be taken to fulfill the specialization requirement or the advanced methods requirement, but not both. SOC 259 and SOC 260 are two unit courses that can be combined to substitute for one of the four unit courses listed above.
6. Race and Class Inequality
SOC 246. Two (if primary) or one (if secondary) of the following SOC courses: 265F, 265I, 265J, 265R, 266, 267, 268, 282. ETST 221 and ETST 245 also satisfy this requirement when taught by Dr. Mirandé.
7. Social Psychology
SOC 248. Two (if primary) or one (if secondary) of the following SOC courses: 285E, 285G, 285I, 285J, 285K, 285N, 285S.

A student's program must include at least one academic quarter of classroom teaching experience at the college level. In addition, students must take one course in any area of specialization and at least one course (or the equivalent, 4 units) of advanced methods from within the department (SOC 205, SOC 206, SOC 208, SOC 258) with a grade of "B" or better in each course. Students must also give one additional research presentation (to the presentation of the MA) as part of the department colloquium series at some point in Years 3 through degree completion. All required coursework must be completed by the end of year three (9th quarter).

Examination Sequence

1. Standing committees composed of faculty in each area administer the written qualifying examination in the student's primary and secondary areas of specialization. A student must complete written examinations in each area of specialization before the end of the fourth year of graduate study. Note In lieu of an exam in a secondary specialization, a student may produce, during the student's residence in the program, a soloauthored paper that has been published or accepted for publication as a peer-reviewed article or book chapter that fits the secondary specialization, as determined by the chair of the secondary specialization committee. If the MA thesis for the program is ultimately published, this published piece cannot count as the published paper for the secondary specialization.
2. Upon completion of 1) the two written area examinations, 2) the selection of a dissertation committee approved by the graduate advisor, and

3. a dissertation proposal, the student must complete and pass an oral examination covering the areas of specialization and the dissertation proposal. The oral examination is conducted by a committee of at least five faculty members, including 1) at least one faculty member from each of the two specialization areas, 2) three members of the student's dissertation committee (who may also represent the areas of specialization), and 3) one "outside member" from another department representing the faculty as a whole.

Students who pass the oral examination and all course requirements are advanced to candidacy for the Ph.D. degree.

Dissertation and Final Oral Examination

The dissertation is normally completed within one year after advancement to candidacy. After the dissertation is prepared according to the rules and format of the Graduate Division and signed and approved by a student's dissertation committee, an oral defense of the dissertation is held. The defense may be waived in exceptional circumstances. The dissertation must be filed electronically with the Graduate Division.

Normative Time to Degree for the PhD is 6 years, inclusive.

Lower-Division Courses

SOC 001 Introduction to Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Covers the basic concepts and theories relating to the study of humans as participants in group life, analysis of culture, social institutions, personality development, and processes of social interaction. Credit is only awarded for one of SOC 001 or SOC 001H.

SOC 001H Honors Introduction to Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Honors course corresponding to SOC 001. An in-depth look at concepts and theories relating to the study of humans as participants in group life, analysis of culture, social institutions, personality development, and processes of social interaction. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of SOC 001 or SOC 001H.

SOC 002 (E-Z) Sociological

Foundations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Selected topics which promote critical thinking skills essential for success in upper-division sociology courses. For hours and prerequisites, see segment descriptions.

SOC 002F The City 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. An introductory exploration of urban processes. Examines definition, form, structure, and growth of urban regions as seen from the viewpoints of various disciplines.

SOC 002G Introduction to Global Change and Inequality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Introduces basic concepts and perspectives in the macro-comparative study of social change and inequality at the global level. Explores causes and consequences of globalization

in the arenas of economy, polity, and culture. Emphasizes their impacts upon various forms of inequality worldwide.

SOC 002I Inequality in American

Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Examines inequality in modern American society and how gender, race, ethnicity, and social class maintain inequality.

SOC 002J Juvenile Delinquency 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Analyzes the nature of delinquency and juvenile justice in American society. Emphasizes divergent models for administering justice, including pre-court stages, intake procedures, custody treatment, detention and release, adjudication, disposition, and post-adjudicatory supervision (including institutionalization).

SOC 002M Introduction to

Criminology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Analyzes the nature and patterning of criminality, focusing on theoretical and methodological issues encountered in research. Examines explanations and crime control policies regarding linkages among social conflicts and inequalities, criminal laws and enforcement practices, and social deviance.

SOC 002R Racial and Ethnic Issues in American

Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. Introduces issues and topics associated with racial and ethnic populations in U.S. society. Focuses on social processes that stratify American society by ethnicity and race.

SOC 002S Social Problems 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. The application of major sociological theories, concepts, and perspectives to the study of social problems in contemporary society. Utilizes an analytical approach.

SOC 003 Theoretical Perspectives in

Sociology 4 Lecture, 3 hours; discussion, 1. Prerequisite(s): SOC 001 (or SOC 001H) with a grade of "C-" or better. Introduces the basic concepts and theoretical approaches that sociologists use to understand the social world. Prepares for upper-division sociology courses by examining major issues in sociology through the lens of different theoretical perspectives. Credit is awarded for only one of SOC 003 or SOC 003H.

SOC 003H Honors Theoretical Perspectives

in Sociology 4 Lecture, 3 hours; discussion, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor; SOC 001 or SOC 001H. Honors course corresponding to SOC 003. Introduces the basic concepts and theoretical approaches that sociologists use to understand the social world. Prepares for upper-division sociology courses by examining major issues in sociology through the lens of different theoretical perspectives. Satisfactory (S) or No Credit (NC) grading is not available. Credit is awarded for only one of SOC 003 or SOC 003H.

SOC 004 Methods of Sociological

Inquiry 5 Lecture, 3 hours; discussion, 1 hour;

research, 3 hours. Prerequisite(s): SOC 001 (or SOC 001H) with a grade of "C-" or better. Applies the fundamentals of science to social research. Investigates problems of research design, sampling, measurement of social phenomena, conduct of field studies, and interpretation of qualitative and quantitative social data.

SOC 005 Statistical Analysis 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): SOC 004 with a grade of "C-" or better. Covers logical and procedural aspects of the application of statistical methods for data reduction and hypothesis testing in sociology. Includes distributions, tabulations, central tendency, variability, independence, contrasts, correlation and regression, and nonparametrics.

SOC 010 The Sociological

Imagination 4 Lecture, 3 hours; extra reading, 7 hours; written work, 2 hours. Prerequisite(s): none. Designed to fulfill the breadth requirement for non-sociology majors in the humanities, arts, and social sciences. Introduces the sociological imagination through films and popular readings. Teaches sociological concepts as a means to think analytically about the social world and its diverse populations.

SOC 020 American Society 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): none. Examines the culture and structure of American society. Topics include beliefs, key institutions, community patterns, and systems of inequality.

SOC 028 Introduction to the Sociology of

Gender 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduces gender as a system of inequality that organizes social life and shapes the distribution of resources, power, and privilege in ways that benefit men over women, including the social construction of gender in everyday life and the gendering of organizations and institutions such as the workplace.

SOC 030 Identity and Society 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): none. Studies the nature of the self, one's identities, and their role in social behavior. Examines the processes of self-verification, self-esteem, self-efficacy, and authenticity using social psychological theories. Introduces research methods that allow the study of self and identity processes.

SOC 031 Couples and Families 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Examines the major trends in marriage, families, and intimate relationships. Focuses on how inequality and diversity affect loving and family relations. Discusses the dynamics of gender inequality among families and couples and how family life is shaped by race and ethnicity, social class, divorce, and sexuality.

Upper-Division Courses

SOC 110 Multivariate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with a grade of "C-" or better. Involves computer analysis of social and behavioral data using statistical inference, multiple-regression, simulation, and multivariate nonparametric techniques.

SOC 112 Sociology of the Labor

Movement 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Introduces sociological literature related to the labor movement. Provides a comparative and historical overview of research on unions, workers' centers, and other organizational forms and collective actions through which working-class people have sought to improve their working and living conditions. Credit is awarded for only one of SOC 112 or SOC 112S.

SOC 112S Sociology of the Labor

Movement 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; research, 4 hours; term paper, 4 hours. Prerequisite(s): SOC 001 or SOC 001H. Introduces sociological literature related to the labor movement. Provides a comparative and historical overview of research on unions, workers' centers, and other organizational forms and collective actions through which working-class people have sought to improve their working and living conditions. Credit is awarded for only one of SOC 112 or SOC 112S.

SOC 121 Sociology of the 1960s 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. A sociological approach to the economic, political, and cultural events of the 1960s. Analyzes the impact of such phenomena as civil rights, popular culture, theology, and political participation. Discusses the present-day legacy including personal histories of former activists. Credit is awarded for only one of SOC 121 or SOC 121S.

SOC 121S Sociology of the 1960s 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; research, 4 hours; term paper, 4 hours; written work, 4 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. Introduces sociological literature related to the labor movement. Provides a comparative and historical overview of research on unions, workers' centers, and other organizational forms and collective actions through which working-class people have sought to improve their working and living conditions. Credit is awarded for only one of SOC 121 or SOC 121S.

SOC 122 Social Change 5 Lecture, 3 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 003 with a grade of "C-" or better or consent of instructor. A study of patterns of social change, resistance to change, and change-producing processes and agencies.

SOC 123 Human Societies 4 Lecture, 3 hours; discussion 1 hour. Prerequisite(s): SOC 003 with a grade of "C-" or better or consent of instructor. Analyzes the emergence and development of human societies from hunters and gatherers to horticultural, agrarian, and industrial forms of social organization. Explores social networks, societal change, the transition from food collecting to food producing, early Germanic societies, the rise of the West, and the causes of the Industrial Revolution.

SOC 125 Evolutionary Sociology 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): SOC 003 with "C-" or better or consent of instructor. Examines the objectives and scope of a cross-section of approaches that use evolutionary reasoning to examine such topics

as social evolution, human evolution, our primate heritage, neurobiology, and human nature.

SOC 127 Sociological Determinants of

Health 4 Lecture, 3 hours; discussion, 1 hour; extra reading, 5 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Introduces the role that social factors play in shaping the occurrence and distribution of disease and death in populations with an emphasis on socioeconomic status, racism, social relationships and social stress. A particular emphasis is placed on sociological origins of health inequalities.

SOC 128 Chicano Sociology 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of the Mexican experience in U.S. society. Explores the history as a minority; mass immigration in the twentieth century; relationships with American institutions; present socioeconomic status; variations in social status from region to region; political emergence and variations in values; and social relations and integration with non-Mexicans. Cross-listed with ETST 128. Credit is awarded for only one of ETST 128/SOC 128 or ETST 128S/SOC 128S.

SOC 128S Chicano Sociology 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; individual study, 4 hours; written work, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Analysis of the Mexican experience in U.S. society. Explores the history as a minority; mass immigration in the twentieth century; relationships with American institutions; present socioeconomic status; variations in social status from region to region; political emergence and variations in values; and social relations and integration with non-Mexicans. Cross-listed with ETST 128S. Credit is awarded for only one of ETST 128/SOC 128 or ETST 128S/SOC 128S.

SOC 129 Racism in Western Society 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. An analysis of the origins, character, maintenance, and consequences of racism in Western society focusing on the United States.

SOC 130 Race and Ethnic Relations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with "C-" or better or consent of instructor. A study of underrepresented racial and ethnic groups. Involves a comparative analysis of the dynamics and consequences of discrimination of racial and ethnic groups in the United States.

SOC 131 (E-Z) Selected Ethnic Groups 4 Lecture, 3 hours; extra reading, 3 hours. In-depth studies of particular ethnic groups in the United States. Treats a specific ethnic group for an entire quarter: F. Black Americans; H. Jewish Americans;

SOC 132 Field Research On Internalized

Racism 4 Lecture, 3 hours; field, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; ETST 128/SOC 128 or ETST 128S/SOC 128S or SOC 129 or SOC 130 or a segment of SOC 131 (E-Z) or SOC 133. Studies the dynamics of internalized racism among people and communities of color using advanced research methods and data analysis.

SOC 133 Inequality and Social Class 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. Covers the analysis of theory and research concerning sources of inequality in the distribution of scarce rewards in societies. Addresses the influence of aspects of social class and processes involving the hierarchical allocation of social groups to positions.

SOC 134 Law, Race, Class, Gender, and

Culture 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. An introduction to law, jurisprudence, and legal reasoning focusing on the roles that race, class, gender, culture, and language play in law and jurisprudence. Includes an overview of the development of modern American legal thought and various schools of jurisprudence such as legal realism. Discusses modern challenges to legal formalism by critical legal studies, critical race theory, and feminist jurisprudence. Analyzes the equal protection doctrine and recent legal attacks on affirmative action and immigrants.

SOC 135 Conflict 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Analysis of the sources of social conflict, especially class conflict. Studies social movements arising out of such conflicts, which attempt to bring about fundamental social change. Credit is awarded for only one of SOC 135 or SOC 135S.

SOC 135S Conflict 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 4 hours; research, 4 hours; term paper, 4 hours. Prerequisite(s): SOC 001 or SOC 001H. Analysis of the sources of social conflict, especially class conflict. Studies social movements arising out of such conflicts, which attempt to bring about fundamental social change. Credit is awarded for only one of SOC 135 or SOC 135S.

SOC 137 Population 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. Introduction to the study of human populations including theories, concepts, and measures. Explores the social causes and consequences of population trends. Emphasizes population problems including population growth, fertility, migration, and mortality.

SOC 139 Mass Media and Popular

Culture 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 or SOC 001H. A comparative analysis of the television, radio, record, cinema, and journalism industries as social institutions and a discussion of contemporary developments in mass communications theory. A study of the relationship between the social processes of modern society and the content of popular culture. Cross-listed with MCS 139.

SOC 140 The Sociology of Women 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S; LGBS 001 or SOC 028. Analyzes the role women have played in society emphasizing modern American society. Considers some of the social determinants of women's positions and the efforts being made to bring about change. Cross-listed with GSST 143.

SOC 141 Men and Masculinity 4 Lecture, 3

hours; discussion, 1 hour. Prerequisite(s): SOC 005 with "C-" or better or consent of instructor. A comparative and historical exploration of the social and personal meanings of masculinity focusing on the American experience. Topics include socialization, sports and war, friendship, intimacy, sexuality, fathering, and work. Concentrates on the role of masculinity in systems of gender inequality.

SOC 142 Sociology of the Family 5 Lecture, 3 hours; discussion, 1 hour; field, 3 hours. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. A comparative and historical treatment of the family. Explores major theoretical frameworks developed for conceptualizing the family as a social system within the context of the relation between social structure and family group processes.

SOC 143 Urban Sociology 5 Lecture, 3 hours; extra reading, 3 hours; field, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. A comparative examination of metropolitan and other urban communities, with emphasis on processes of urbanization. Cross-listed with URST 143.

SOC 144 Family Violence 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 (or SOC 001H) and SOC 004 and SOC 005 with grades of "C" or better, or consent of instructor. Addresses causes, identification, and prevention of all types of intrafamily abuse: child, sibling, spouse, and parent. Examines theories and research findings for practical field application. For upper-division students whose careers will bring contact with victims and/or perpetrators of family violence.

SOC 145 Law and Subordination 5 Lecture, 3 hours; field, 6 hours. Prerequisite(s): upper-division standing in Ethnic Studies or Sociology; ETST 128/SOC 128 or ETST 128S/SOC128. A comparative and historical analysis of subordinated communities and law emphasizing integrating theoretical understanding of racial, class, and gender subordination. Includes field experience working directly with groups that have traditionally lacked equal access to the legal and judicial system. Cross-listed with ETST 145.

SOC 146 Gender in Global Perspective 4 Lecture, 3 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): GSST 001 or GSST 001H or GSST 001S or SOC 001 or SOC 001H; SOC 028. Examines gender using global and comparative perspectives. Explores how gender is constructed in different societies. Proves the relationship between gender and globalization. Considers resistance to global processes that create and reinforce gender inequalities.

SOC 147 Corrections 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with a "C-" or better or consent of instructor. Involves a review, analysis, and criticism of the major techniques of resocialization of adult and juvenile offenders. Surveys the history, application, and theory of probation, parole, incarceration, and delinquency prevention programs. Discusses the methods involved in evaluating the effectiveness of correctional programs. May provide opportunities for field work.

SOC 148 Special Topics Discussion in Sociology 2 Discussion, 2 hours; written work, 2 hours; extra reading, 2 hours. Prerequisite(s): upper-division standing in Sociology or consent of instructor. Examines selected topics in Sociology through readings, weekly papers, and active student participation in seminar discussions. Topics and content of the course varies and are announced as the course is offered. Course is repeatable as topics change for a maximum of 8 units.

SOC 149 Organized Crime 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 005 with "C-" or better or consent of instructor. A review of the operations, structures, history, and theories of syndicated crime in the United States. Emphasizes the implications of organized crime on the development of criminological theory, the operation of formal organizations, and American ethnic relations.

SOC 150 The Sociology of Economic Organizations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines how the scope and nature of formal and informal organizations are shaped by sociological processes external to them, such as the influence of governments, institutions, networks, and resources. Illustrates the processes with examples from contemporary United States and from other periods and cultures.

SOC 151 Formal Organizations 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the structures of formal organizations, the forces that shape them, and the impact they have on their participants, their environments, and one another. Surveys the major classical and contemporary theories of human behavior in organizations.

SOC 155 (E-Z) Topics in Sociology of Gender 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; SOC 028. Intensively studies selected topics in the sociology of gender. E. Feminist Movements In The U.s.; G. Queery Theory; Course is repeatable to a maximum of units.

SOC 156 Community 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Involves a historical and comparative treatment of the community as a social system; political and economic forces shaping the sense of community; and influences of urbanization, industrialization, and bureaucratization on local social systems.

SOC 159 Sociology of Law 5 Lecture, 3 hours; discussion, 1 hour; field, 3 hours. Prerequisite(s): SOC 001 with a grade of "C" or better or SOC 001H with a grade of "C" or better; SOC 004 with a grade of "C" or better. Introduction to social scientific perspectives and research on the nature, sources, dimensions, and impact of law. Particular attention is given to the "values question" in defining and studying law as a set of social phenomena; conceptual issues and methodological strategies in establishing and interpreting linkages between legal and other social structures and processes; and analyzing the uses and limits of law in maintaining order and promoting social change.

SOC 160 Sociology of Education 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A comparative analysis of educational institutions in complex societies and their relation to a society's political and economic structure. Examines the school as a societal subsystem consisting of teacher, student, and administrator roles with its own evolving subculture.

SOC 161 Immigration and Society 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Analyzes the origins of immigration and its nature, patterns, and trends in the twentieth century in Western societies, with special emphasis on the United States. Topics include theories of immigration, causes of immigration, sources of immigrants, immigration laws, reactions to immigrants, and the effects of immigration on the host society.

SOC 162 Linguistic Diversity in the United States 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Examines the linguistic diversity that has characterized the socio-historical development of United States society.

SOC 163 Social Forces and the Educational Condition of Chicanas/Os 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Examines the social forces that have shaped the Chicanas'/os' educational condition and evaluates models in the sociology of education that explain their educational situation.

SOC 164 Racial and Ethnic Diversity Issues in Higher Education 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; SOC 160 or SOC 163. Explores the issue of diversity in higher education. Focuses on racial and ethnic minority students and faculty.

SOC 165 Sociolinguistics and the Chicana/O Community 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H. Examines the regional and social variation in language use within the Chicana/o community. Focuses on the maintenance of Spanish language use, private versus public domains of language use, the need for bilingual social services, language as a human right versus language as a constitutional right, and the political economy context of language. Also addresses general sociolinguistic theory and methodology.

SOC 167 Medical Sociology 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s) upper-division standing or consent of instructor. Introduces key concepts and theories in medical sociology and their application to a variety of health issues. Exemplar topics include social construction of health and illness, medicalization, stigma and labeling, patient-provider interaction, sociology of medical professionals, social determinants of health, and political economy of health.

SOC 168 Development of Sociological Theory 5 Lecture, 3 hours; discussion, 1 hour; written work, 3 hours. Prerequisite(s): SOC 003 and SOC 005 with grades of "C-" or better or consent of instructor. Covers the emergence of sociology as a systematic discipline. Provides a critical analysis of sociological theory from

1850 to 1920. Includes the theories of Comte, Tocqueville, Spencer, Marx, Simmel, Weber, Durkheim, and others from this period.

SOC 169 Modern Sociological Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 003 and SOC 005 with grades of "C-" or better or consent of instructor. An analysis and critical evaluation of sociological theory from 1920 to the present. Explores the growth of current sociological theories and recent trends in conceptual formulations.

SOC 173 Social Psychology: Sociological Orientation 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): SOC 003 and SOC 005 with grades of "C-" or better or consent of instructor. A study of the sociological contributions to theory and research in social psychology. Focuses on the relationship between culture and group life to human behavior and personality.

SOC 174 Socialization and Personality 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 003 and SOC 005 with grades of "C-" or better or consent of instructor. Analyzes socialization from various theoretical perspectives with emphasis on the impact of patterns of child rearing on personality development. Provides a historical and cross-cultural treatment focusing on the relation among family structure, social structure, and socialization processes.

SOC 175 Social Roles and Interaction 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 (or SOC 001H) and SOC 004 and SOC 005 with grades of "C-" or better, or consent of instructor. Covers the nature of face-to-face contact between persons in everyday life. Examines the relationship among the social self, social roles, and communication in the day-to-day activities of people in informal groups, closed establishments, and public contacts.

SOC 176 The Sociology of Work in Organizations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. Emphasizes the roles of individuals in organizations. Topics include the effects of jobs on workers, long-term trends in the nature of work, and differences in work among major segments of the labor force. Cross-listed with BUS 176.

SOC 177 (E-Z) Topics Soc Psyc:soc Orientaton 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 001 or SOC 001H; SOC 030. Intensively studies selected topics in social psychology, such as the individual and social change, attribution theory, experimentation in social psychology, exchange and consistency theories in social psychology, and applied social psychology. E. Social Psychology Of Gender; G. Theories Of Interpersnl Behav;

SOC 178 Sociology of Emotions 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): SOC 001 (or SOC 001H) and SOC 004 and SOC 005 with grades of "C-" or better, and SOC 173 or SOC 174 or SOC 175, or consent of instructor. Surveys theory and research on emotions. Focuses on sociological and social psychological theories. Also covers evolutionary, biological, and cognitive theories. Studies a range of emotions such as shame and

embarrassment; guilt, empathy, and sympathy; jealousy and envy; and anger.

SOC 179 Social Movements and Collective Action 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SOC 001 (or SOC 001H) and SOC 004 and SOC 005 with grades of "C-" or better, and SOC 168 or SOC 169, or consent of instructor. Examines the emergence and outcomes of collective action and social movements. Considers the conditions under which social movements develop and why they succeed or fail. Utilizes sociological theories to understand collective action and social movements. Includes analysis of the U.S. civil rights movement, feminist movement, and LGBT movement.

SOC 180 Deviance and Control 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): SOC 001 (or SOC 001H) and SOC 004 and SOC 005 with grades of "C-" or better, or consent of instructor. An introduction to the sociological analysis of deviance as defined by informal and formal processes of social control in varying cultural, legal, and political contexts. Emphasizes the social construction and imposition of standards (norms) by which some personal and collective attributes and actions come to be negatively evaluated and penalized, while others are positively evaluated and rewarded.

SOC 181 World-Systems and Globalization 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better, SOC 005 with a grade of C- or better or ECON 101 with a grade of C- or better or PSYC 011 with a grade of C- or better or STAT 040 with a grade of C- or better or STAT 048 with a grade of C- or better; or consent of instructor. Systematic comparisons of societies and world-systems with emphasis on changes in the logic of social development. Credit is awarded for one of the following SOC 181 or SOC 181S.

SOC 181S World -Systems and Globalization 5 Lecture, 3 hours; discussion, 1 hour; research, 3 hours. Prerequisite(s): SOC 001 with a grade of C- or better, SOC 005 with a grade of C- or better or ECON 101 with a grade of C- or better or PSYC 011 with a grade of C- or better or STAT 040 with a grade of C- or better or STAT 048 with a grade of C- or better; or consent of instructor. Systematic comparisons of societies and world-systems with emphasis on changes in the logic of social development. Credit is awarded for one of the following SOC 181S or SOC 181.

SOC 182 Urban Problems 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An interdisciplinary examination of selected urban problems such as civil disorders, transportation, housing, welfare, and planning. Cross-listed with URST 182.

SOC 183 (E-Z) Special Topics in Sociology 4 Lecture, 3 hours; research, 3 hours. Explores special topics in sociology. H. Aging In America; M. Geographic Info Sys&mapping Soc; P. Sociology Of Disability; W. Social Mobility;

SOC 184 Environmental Sociology 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC

001 (or SOC 001H) and SOC 004 and SOC 005 with grades of "C-" or better, or consent of instructor. A sociological approach to the study of mainstream environmentalism. Addresses societal implications of environmental reform; the nature of distributive impacts (costs and benefits); environmental conflict resolution; land-use decision making; and the placement of noxious facilities in minority, working class, and poor communities.

SOC 186 (E-Z) Topics in Sociology 4 Seminar, 3 hours. Prerequisite(s): SOC 003 with a grade of C- or better, SOC 004 with a grade of C- or better; restricted to class level standing of junior, or senior; restricted to major(s) Sociology. For additional activity hours see individual segments. Academic examination of issues relating to a wide variety of contemporary topics in Sociology. Satisfactory(S) or No Credit(N/C) is not available.

SOC 186E Mind, Brain and Society: Interdisciplinary Issues in Evolutionary Theory and Neurosociology 4 Seminar, 3 hours; term paper, 2 hours; individual study, 6 hours. Prerequisite(s): SOC 003 and SOC 004 with grades of "C-" or better; upper division standing in Sociology; or consent of instructor. Discusses selected topics in evolutionary theory and neurosociology focusing on mind, brain, and society. Satisfactory (S) or No Credit (NC) grading is not available.

SOC 186F Seminar in the Sociology of Morality 4 Seminar, 3 hours; discussion, 2 ours; individual study, 5 hours; written work, 2 hours. Prerequisite(s): SOC 003 and SOC 004 with grades of "C-" or better; upper division standing in Sociology; or consent of instructor. Discusses selected topics in the sociology of morality. Includes student-led discussions for part of each class. Satisfactory (S) or No Credit (NC) grading is not available.

SOC 186G Seminar in Micro Sociology 4 Seminar, 3 hours; individual study, 6 hours; written work, 2 hours; extra reading, 1 hour. Prerequisite(s): SOC 003 and SOC 004 with grades of "C-" or better; upper division standing in Sociology; or consent of instructor. Seminar on the theoretical and empirical work on the dynamics of interpersonal behavior. Includes emotions, motivations, status, roles, social structure, culture, interpersonal demography, and situational ecology. Satisfactory (S) or No Credit (NC) grading is not available.

SOC 187 Capstone Seminar in Sociology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): SOC 003 and SOC 004 with grades of "C-" or better; upper-division standing; a major in sociology. Examines selected topics in Sociology through readings, oral presentations, research and writing, and active student participation in seminar discussions. Course is repeatable as topics change to a maximum of 12 units.

SOC 190 Special Studies 1 to 5 Individual Study, 3 to 15 hours. Prerequisite(s): upper-division standing; consent of instructor and Department Chair. Individual study, directed by a faculty member, to meet special curricular needs. Course is repeatable to a maximum of 15 units.

SOC 195 Senior Thesis 2 to 4 Total credit may not exceed 12 units. Required for all participants

in the department's senior honors program, who must enroll for 4 units per quarter for a total of three quarters. Students wishing to undertake senior thesis projects outside the senior honors program, may enroll in SOC 195 for 2-4 units per quarter for one, two, or three quarters.

SOC 197 Research For Undergraduates 1 to 4 variable hours, Prerequisite(s): upper-division standing with consent of instructor. Directed original research. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 198I Individual Internship in Sociology 1 to 12 Written Work, 1 to 12 hours; internship 2 to 24, Prerequisite(s): senior standing; grades of "C" or better in SOC 001 or SOC 001H, SOC 004, and 12 upper-division units in sociology; consent of instructor. Individual internship in community agencies to observe community processes. Course is repeatable to a maximum of 16 units.

SOC 199H Senior Honors Research 1 Research, 3 hours. Prerequisite(s): senior standing in Sociology. Required seminar for all participants in the department's senior honors program. Must be taken in conjunction with SOC 195, and for a total of three quarters. Course is repeatable.

Graduate Courses

SOC 200 Research Design 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides basic training in research design for sociologists. Begins with strategies for deriving theoretically informed empirical questions. Proceeds with discussion of how to collect and analyze data most appropriate to answer such questions. This course is required for both the M.A. and Ph.D. in Sociology. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 202A History of Sociological Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the development of sociological theory from 1830 to 1930, stressing the major ideas, concepts, and principles developed by early social theorists.

SOC 202B Contemporary Sociological Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 202A or consent of instructor. Examines sociological theory from 1930 to the present, stressing the major ideas, analyses, and principles developed by contemporary theorists.

SOC 203A Quantitative Methods I 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing in Sociology or consent of instructor. Covers principles of partial and joint association, variance, and statistical estimation through the use of the general linear model for normal linear regression with continuous or categorical multiple independent variables. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 203B Quantitative Methods II 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing in Sociology; SOC 203A or equivalent or consent of instructor. Covers generalizations of the general linear model to

limited dependent variables. Also covers mixed models for data arising from nested, time-series, and pooled cross-sectional and time-series designs. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 204A Qualitative Methods I 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. An overview of the uses of qualitative methods in sociology. Topics include epistemological questions, ethnography, interviewing, historical and comparative methods, and research ethics. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 204B Qualitative Methods II 4 Seminar, 3 hours; extra reading, 2 hours; research, 2 hours. Prerequisite(s): SOC 204A, graduate standing or consent of instructor. Designed to develop skills in conducting qualitative research. Emphasizes with the organization, interpretation/analysis, and presentation of textual data. Students who take this course to meet Sociology M.A./Ph.D. requirements receive a letter grade; other students may be graded Satisfactory (S) or No Credit (NC) with consent of the instructor.

SOC 205 Categorical and Survival Data Analysis 4 Seminar, 3 hours; laboratory, 1 hour; extra reading, 2 hours. Prerequisite(s): SOC 203B, graduate standing; or consent of instructor. Introduces the analysis of limited dependent variables in social science and epidemiologic research. Covers in detail survival analysis including recent advances and emerging controversies. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 206 Advanced Methods in Quantitative Sociology 2 or 4 Seminar, 2 or 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Discusses sociological works in the quantitative tradition. Emphasizes developing and refining skills in quantitative methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content or topic changes to a maximum of 12 units.

SOC 208 Advanced Methods in Qualitative Sociology 2 or 4 Seminar, 2 or 4 hours. Prerequisite(s): graduate standing; or consent of instructor. Discusses sociological works in the qualitative tradition. Emphasizes developing and refining skills in qualitative methods. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content or topic changes to a maximum of 12 units.

SOC 210 Citizenship 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Considers theories of citizenship. Focuses on the intersection of politics, economics, and culture, combining theoretical work and applied study. Designed for graduate students interested in social and political theory, cultural studies, and cultural policy studies. Sociology graduate students who are not advanced to candidacy for the Ph.D. receive a letter grade; other students receive a letter grade or petition for a Satisfactory (S) or No Credit (NC) grade.

SOC 222 Evolutionary Sociology 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing. Reviews theory and research within sociology on evolutionary processes. Includes stage models of societal evolution, rise and demise of inter-societal or world systems, and biological bases for human behavior, interaction, and social organization.

SOC 232 Proseminar in Sociology 2 Lecture, 2 hours. Prerequisite(s): admission to the graduate program. An orientation to sociology as a scholarly discipline and empirical science. Includes an overview of ethical standards required of members of the American Sociological Association and training in seeking external fellowships and grants. Required of all first-year graduate students. Graded Satisfactory (S) or No Credit (NC).

SOC 240 Sociology of Gender 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Course will cover a broad variety of issues in the sociology of gender including socialization to gender roles, sexuality and sexual relations, housework, changing patterns of labor force participation, women in politics, and other germane issues. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 242 (E-Z) Sociological Theory 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): SOC 202A or SOC 202B; graduate standing. Advanced study in sociological theory: E. History Of Theory; F. Issues In Contemporary Theory; G. Issues In Theory Construction; M. Macrostructural Analysis;

SOC 243 (E-Z) Special Topics in Sociology 4 Lecture, 3 hours. Prerequisite(s): graduate standing. Critical analysis of current theory and research in special areas of sociology. Covers a single topic not contained in a regular course. Each topic is announced when the course is offered.

SOC 243E Evolutionary Sociology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Examines new theoretical approaches that pursue evolutionary logic in sociology. Considers how these new theoretical insights and perspectives can be incorporated into traditional sociological models. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243F Sociology of Aging 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. A comprehensive review of current theory and research in sociology of aging. Covers theories of adjustment to aging, demography and economics of retirement, family, friendship and community relations, minority aging and issues in social policy. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243G Geographic Information Systems and Mapping in Sociology and Other Social Sciences 4 Lecture, 3 hours; laboratory, 3 hours.

Prerequisite(s): graduate standing; consent of instructor. Introduces principles and techniques of geographic information systems and mapping in relation to sociology and other social science disciplines, such as political science, anthropology, history, and economics. Explores research applications in sociology and related disciplines. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243J Comparative and World Historical Sociology 4 Lecture, 4 hours. Prerequisite(s): graduate standing; consent of instructor. Topics include comparative national development, comparing world-systems, globalization, and social movements. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243K Social Change: Global Perspectives 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Analyzes the globalization of the world from the Paleolithic era to the present, emphasizing the modern period. Gives students a holistic understanding of social change by examining topics grouped under the rubric of globalization today. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243R Religion and Society 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Analysis of the relationship between society and religion. An examination of the social structures of selected Eastern and Western religions and the interplay of religion with other societal institutions from both a historical and comparative perspective. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 243S Social Movements 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing; consent of instructor. Provides an overview of the sociological literature on social movements. Reviews major theoretical debates about the rise, development, and impact of social movements as well as determinants of participation in social movements. Examines classic and contemporary case studies of various kinds of social movements. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 244 Institutional Analysis 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. The comparative and historical analysis of human social institutions, with emphasis on: (a) the emergence and development of the basic institutional systems of economy, polity, kinship, religion, law, and education; (b) the structure and process of these institutions in varying types of societies; (c) the interrelation of these institutions to each other and to other structuring

processes. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 245 Large-Scale Organizations 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A review of the sociological literature on large-scale organizations. Provides an introduction to rational, political, ecological, economic, and institutional models of large-scale organizations. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 246 Race and Class Inequality 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduction to the various theories of racial and class inequality. Areas covered will include social scientific explanations for racial and ethnic inequality; ideological justifications for racial, ethnic, and class inequality; intersection of caste, class, and race in world inequality; and strategies to end inequality. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 248 Core Course On Social Psychology 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A review of the sociological literature on social psychology. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 249 Contemporary Research and Theory in Criminology and Sociological Studies 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Review of basic issues and major contributions in studies of crime, deviance, and law. May be taken Satisfactory (S) or No Credit (NC) with permission of instructor and advisor.

SOC 250 Thesis Preparation 4 Seminar, 3 hours; Research, 3 hours. Prerequisite(s): SOC 200. Imparts the logic, process, and style of professional sociological research as students engage in supervised research integrating theory with data to satisfy the thesis requirements. Includes strategies to complete and communicate a thorough literature review, formulate theoretically driven empirical questions, report analytical results in a style consistent with professional standards. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 251 Current Research in Political Economy and Global Social Change 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Reviews current research in the field of political economy and global social change. Emphasizes new developments and promising new directions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable.

SOC 253 Current Research in Organizations and Institutions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews the latest research and theory on organizations and institutions, focusing on the relationship between

organizations and institutions or between one institutional complex and the organizational systems within it. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 254 Current Research in Social Psychology 4 Seminar, 2 hours; research, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews current theory and research and addresses future directions in social psychology. Graded Satisfactory (S) or No Credit (NC).

SOC 255 (E-Z) Topics: Large Scale Org&Inst 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study of large-scale organizations: I. Organizational Theory; L. Methods Of Organizational Res; M. The Sociology Of Work; N. Economic Organization; O. Social Organization Of Science; May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 256 Current Research in Feminist and Gender Sociology 4 Seminar, 2 hours; extra reading, 3 hours; written work, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Reviews current theory and research in feminist and gender sociology, with particular attention to new developments in the field. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable to a maximum of 12 units.

SOC 257 (E-Z) Topics: Institutional Analysis 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced seminars in institutional analysis: E. Economic Sociology; F. Sociology Of Family And Kinship; G. The Sociology Of Education; J. Political Sociology; May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 258 Quantitative Macro Comparative Methods 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. Imparts methodological skills necessary to advance quantitative-macro comparative social science. Begins with the logic and trans-methodological concerns of macro-comparative analysis. Quantitative methods covered include models for static time-series cross-section and panel data, dynamic panel data, nested data, structural equations, social networks, identification/causality and techniques for testing conditional hypotheses and visualization. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 259 Research Practicum On Transnational Social Movements 2 Lecture, 2 hours; discussion, 1 hour; extra reading, 1 hour; written work, 1 hour; research, 1 hour. Prerequisite(s): graduate standing in Sociology. Examines the history of and current developments in transnational social movements including inter-movement relations and North-South issues within movements, as well as the development of global civil society. Focuses on collaborative research projects, though may also include development of individual projects. Students who submit a term paper receive a letter grade;

other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable for a maximum of 12 units.

SOC 260 Research Practicum On the Evolution of Settlements and Politics 2 Lecture, .5 hours; discussion, .5 hours; practicum, 1 hour; workshop, .5 hours; extra reading, 2.5 hours; individual study, 2.5 hours; research, 2.5 hours; written work, 2.5 hours. Prerequisite(s): graduate standing in Sociology. Focuses on ongoing collective research projects on the evolution of politics and settlements. Studies the growth and decline of human settlements and politics in world historical and evolutionary perspective including those in nomadic and small-scale sedentary societies, early cities and states, and the emergence of empires and contemporary world cities. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

SOC 261 World-Systems Analysis 4 Seminar, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on social evolution, world-systems analysis, and globalization. Students who take the course to meet specialization requirements receive a letter grade; other students receive a letter grade or Satisfactory (S) or No Credit (NC) grade.

SOC 262 Feminist Theory 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Provides an overview of recent debates about theory and method in gender studies. Explores relationships between feminist theory, feminist practice, and social science. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 263 Women and Work in World Historical Perspective 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Examines the role of women as workers in a variety of societies. Considers the role of women in developments and the impact of development on women's economic roles. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 264 (E-Z) Topics in Gender Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study in the sociology of gender. E. Gender And Families; F. Domestic And Sexual Violence; G. The Sociology Of Men; M. Gender In Compартv Perspectives; P. Gender, Politics&public Policy; T. Transnatl Sex,romance&marriage; May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 265 (E-Z) Topics: Social Inequality 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study in race and class inequality. F. Black America; I. Chicano Sociology; J. World Inequality; R. Racial,ethnc,&immgrnt Families; May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 266 Race and Ethnic Relations 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. A

review of sociological literature on race and ethnic minorities, patterns of conflict and ethnic antagonism, and systems of dominance. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 268 Law, Race, Class, and Gender 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Presents an analysis of how issues of race, class, and gender shape legal thought and jurisprudence. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and advisor.

SOC 271 Inequality and Stratification 4 Lecture, 3 hours; seminar, 1 hour; research, 2 hours; term paper, 1 hour; written work 1 hour; individual study, 4 hours. Prerequisite(s): graduate standing or consent of instructor. Survey's the broad sociological literature on inequality and stratification. Key foci include the principle causes of income and earnings inequality in the United States and internationally. After some attention to general theory, weekly topics include causes related to race, class, gender, organizations, structural and socioeconomic changes and institutions. May be taken Satisfactory (S) or No Credit (NC) by students advanced to candidacy for the Ph.D.

SOC 278 Punishment and Correction: Evaluating Theories and Policies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Takes a critical and evaluative approach to the punishment and correctional systems, assessing what "works and doesn't work" in efforts to reduce crime and delinquency. Examines prisons, probation, and other crime control measures from a perspective emphasizing the need for systematic evaluation research. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 280 (E-Z) Topics-Criminol&Sociologl Studies 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced seminars in criminology and sociological studies. E. Ptnrs Of Crimnal& Deviant Behv; F. Ecol Pers Crm & Deliq; G. Biol & Psy Stldies Crime&delinq; I. Conflict & Radical Approaches; J. Sociological Theories Of Law; K. Law, Power, & Social Conflict; M. Political Criminality; S. Substance Use And Crime; May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 281 Political Economy and Global Social Change 4 Lecture, 3 hours; Rresearch, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on classical and contemporary political economy, social movements, and the historical development of social systems. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 282 International Migration 4 Seminar, 4 hours. Prerequisite(s): SOC 203A. A hands-on research course in the concepts, theories, and techniques used in the analysis of international migration. Covers the nature and origins of and patterns and trends in global migration from colonial times to the twenty-first century. Provides an overview of migration theories,

migration policies, and current research on immigration. Course is repeatable.

SOC 284 Medical Sociology Graduate

Seminar 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Survey's key concepts and theories in medical sociology and their application to a variety of health issues. Exemplar topics include social construction of health and illness, medicalization, stigma and labeling, patient-provider interaction, sociology of medical professionals, and social determinants of health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 285 (E-Z) Topics in Social

Psychology 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing. Advanced study in family and social psychology. E. Theory In Social Psychology; G. The Interaction Process; I. Sociolinguistics; J. Social Psychology Of Emotions; K. Small Groups; N. Social Psychology Of Gender; S. Self And Identity; May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 286 Life Course and Health 4 Seminar, 4 hours; term paper, 1 hour. Prerequisite(s): graduate standing; or consent of instructor. Covers sociological theories, interdisciplinary theories and methods for life course approaches to health. Discusses health outcome measurements, study design, and sources on bias. Includes historical influence, structural constraints, human agency, minority health and early origins of adult health and intergenerational influence. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 287 Migration and Health 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): graduate standing; or consent of instructor. Provides a comprehensive overview of the central theoretical debates and empirical work on migration and health. Topics include the theoretical and methodological challenges associated with studying migration and health; the long-term health effects of migration; and emerging areas in migration and health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 288 Social Determinants of

Health 4 Seminar, 4 hours; term paper, 5 hours. Prerequisite(s): recommended that students have basic qualitative and quantitative methods training; graduate standing; or consent of instructor. Focuses on how social factors shape patterns and experiences of health and illness for individuals and populations. Covers the impact on accessing medical care. Includes many other "mechanisms" or "pathways", social environments, personal beliefs, behaviors/ lifestyles, stress, and access to resources, that may promote or harm health. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

SOC 290 Directed Studies 1 to 6 Scheduled research, 3-15 hours; consultation, 1 hour. Prerequisite(s): graduate standing and consent of instructor. This course is designed to provide students with reading and research work under

the tutorial supervision of a faculty member in support of developing their knowledge of specialty areas and/or preparing original research work. With consent of the graduate advisor, this course may be taken for a letter grade to satisfy required seminars in the period of specialization if regular seminars are not available. Otherwise course will be graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 291 Individual Study in Coordinated

Areas 1 to 12 Individual Study, 3 to 36 hours. Prerequisite(s): graduate standing. A program of study designed to advise and assist candidates who are preparing for doctoral examinations. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 293 Research Topics in

Sociology 2 Lecture, 2 hours. Prerequisite(s): graduate standing in Sociology. A series of lectures by guests, faculty, and advanced graduate students on research topics in sociology. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): graduate standing. Individual research performed under the direction of a faculty advisor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOC 299 Research For Thesis Or Dissertation 1 to 12 Prerequisite(s): graduate standing or consent of instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

SOC 301 Directed Studies in the Teaching of

Sociology 2 Consultation, 1 hour; practicum, 3 hours. Prerequisite(s): consent of instructor; prior or concurrent enrollment in the Teaching Assistant Development Program offered by the Graduate Division. Discussion and evaluation of pedagogical techniques and materials used in the teaching of sociology at the college level. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOIL AND WATER SCIENCES

The program in Soil and Water Science is not currently accepting new students. We encourage you to visit the catalog section for Environmental Sciences to meet your graduate study needs.

If you have questions please call (800) 735-0717 or (951) 827-5621.

Professors

Michael A. Anderson, Ph.D. Environmental Chemistry (Environmental Sciences)
David E. Crowley, Ph.D. Soil Microbiology (Environmental Sciences)
Jiangying "Jay" Gan, Ph.D. Environmental Chemistry (Environmental Sciences)
Robert C. Graham, Ph.D. Soil Mineralogy and Pedology (Environmental Sciences)
Daniel Schlenk, Ph.D. Aquatic Ecotoxicology (Environmental Sciences)
James Sickman, Ph.D. Watershed Hydrology

and Biogeochemistry
Jiri Simunek, Ph.D. Hydrology (Environmental Sciences)
Laosheng Wu, Ph.D. Soil Physics (Environmental Sciences)
Marylynn V. Yates, Ph.D. Environmental Microbiology (Environmental Sciences)

Professors Emeriti

Christopher Amrhein, Ph.D. Soil Chemistry (Environmental Sciences)
Andrew C.-S. Chang, Ph.D. Agricultural Engineering (Environmental Sciences)
Walter J. Farmer, Ph.D. Soil Chemistry (Environmental Sciences)
William T. Frankenberger, Jr., Ph.D. Soil Microbiology (Environmental Sciences)
William A. Jury, Ph.D. Soil Physics (Environmental Sciences)
John Letey, Jr., Ph.D. Soil Physics (Environmental Sciences)
Lanny J. Lund, Ph.D. Soil Morphology, Genesis, and Classification (Environmental Sciences)
Albert L. Page, Ph.D. Soil Chemistry (Environmental Sciences)
David R. Parker, Ph.D. Soil Biogeochemistry (Environmental Sciences)
Paul J. Ziemann, Ph.D. Atmospheric Chemistry (Environmental Sciences)

Associate Professors

David M. Crohn, Ph.D. Biosystems Engineering (Environmental Sciences)

The graduate program in Soil and Water Sciences is not currently accepting new students. Students interested in graduate study in soil or water sciences can be accommodated in other graduate programs and are encouraged to contact the Environmental Sciences Student Affairs Offices at (951) 827-6746 for more information on how to apply.

Graduate Program

The graduate program in Soil and Water Sciences is administered by the Department of Environmental Sciences and offers both M.S. and Ph.D. degrees.

Admission

The university requires GRE General Test scores (verbal, quantitative, analytical). As well as fulfilling the university requirements for admission to the Graduate Division, students must satisfy certain program requirements. Admission to the program requires a baccalaureate degree with preparation in both physical and life sciences. Students should have completed one year of general chemistry, as well as courses in general physics, organic chemistry, calculus through integrals, general biology, statistics, and physical geology or physical geography. Students who have not taken these courses are directed by the admissions and review committee and their major advisor to the appropriate curriculum to correct the deficiencies.

Course Work Students, in consultation with their advisory committee and other faculty as appropriate, develop a program of course work to satisfy the degree requirements and the career objective. A study list of required and elective courses must be completed by the end of the second quarter of study and submitted to the admissions and review committee.

Students must complete one course in each of the following four broad categories of soil and water sciences: chemistry, physics, biology, and natural structure and diversity. Students may have completed these prior to admission or they may take them early in their graduate program. Courses at UCR that meet the requirement of each category are listed below.

Chemistry

ENSC 104 (Environmental Soil Chemistry)
CHEM 136/ENSC 136 (Chemistry of Natural Waters)

Physics

ENSC 107 (Soil Physics)
ENSC 163 (Hydrology)

Biology

ENSC 133/MCBL 133 (Environmental Microbiology)
BPSC 134/ENSC 134 (Soil Conditions and Plant Growth)
ENSC 141/MCBL 141 (Public Health Microbiology)

Natural Structure and Diversity

ENSC 138/GEO 138 (Soil Morphology and Classification)
ENSC 140 (Limnology)

Students must present a departmental seminar summarizing results of their thesis or dissertation or internship during the final quarter of matriculation.

For a complete description of the program's requirements, students are referred to the *Guidelines for Graduate Students* available in the Environmental Sciences Student Affairs Office. Other general university requirements for advanced degrees are given in the Graduate Studies section of this catalog.

Master's Degree

The Department of Environmental Sciences offers the M.S. degree in Soil and Water Sciences.

Only seminar courses, directed study, internship, thesis and dissertation hours may be taken on a Satisfactory (S)/No Credit (NC) basis.

Plan I (Thesis)

Students must complete a minimum of 36 quarter units of graduate and upper-division undergraduate courses in, or significantly related to, soil and water sciences. At least 24 of the 36 units must be in graduate courses. A maximum of 12 of these units may be in graduate research for the thesis. No more than 4 units of SWSC 290 and 2 units of SWSC 250 may be applied toward the degree. Students must pass a final oral examination.

Plan II (Comprehensive Examination)

Students must complete a minimum of 36 quarter units of graduate and upper-division undergraduate courses in or significantly related to soil and water sciences. At least 18 units must be in graduate courses. Students may count no more than 2 units of SWSC 250 and 6 units of SWSC 298-I toward the required 18 units and no units from graduate research for thesis or dissertation (SWSC 297 or SWSC 299).

Students take a comprehensive written examination that covers fundamental topics in soil and

water sciences. The written exam, which is three to four hours long, is prepared and evaluated by a committee appointed by the department chair. The exam is taken during the latter part of the final quarter in the M.S. program. Students must wait at least eight weeks before retaking a failed examination. Students failing the examination twice are dismissed from the program.

Doctoral Degree

The Department of Environmental Sciences offers the Ph.D. in Soil and Water Sciences.

The Ph.D. program provides specialized, research-based training in a variety of soil and water sciences fields. In addition to the four core courses enumerated above, the minimum requirements for the Ph.D. degree include the following:

1. Complete all course work with an average GPA of 3.0 or greater
2. Pass both the written and oral qualifying examinations
3. Complete at least 4 units of Teaching Practicum (SWSC 302)
4. Submitting an approved research dissertation

Course Work

Before advancement to candidacy, Students must complete all required course work as approved by their advisory committee with an average GPA of 3.0 or greater.

Written and Oral Qualifying Examinations

Students must pass written qualifying examinations administered by a five-member committee and an oral examination administered by the same committee; the latter includes the defense of an original research proposal. The examining committee must include one member from outside the graduate program. After successfully completing these examinations and complying with university rules, students are advanced to candidacy.

Dissertation

Students must submit a dissertation consisting of original research in the field of soil and water sciences. The dissertation must be accepted by a three-member dissertation committee. Students must then pass a final oral examination, which deals primarily with the dissertation and is conducted by the dissertation committee.

Normative Time to Degree 15 quarters

SOUTHEAST ASIAN STUDIES MINOR

Subject abbreviation: SEAS
College of Humanities, Arts,
and Social Sciences

Christina Schwenkel, Ph.D., Director
Program Office, INTS 3111
(951) 827-5521; seatrip.ucr.edu

The SEATrip Program at the University of California, Riverside—Southeast Asia: Texts, Rituals, Performance—brings together scholars who share an ongoing interest in the arts and humanities and are actively engaged with the languages and expressive cultures of Southeast Asia.

The Southeast Asian Studies minor is an inter-departmental program centered on the study of the arts and cultures of Southeast Asia. The scholars associated with the Program address regionally-specific texts, rituals and performances. They seek to develop better understandings of the forms and practices through which ideas and ideologies are creatively expressed, shaped and communicated within and among different societies of Southeast Asia as well as the Southeast Asian diaspora.

1. Lower-division requirements (8 units)

- a) Four (4) units from lower lower-division lecture courses on Southeast Asian literature and culture:
AST 049/HIST 046/SEAS 047, AST 062/CPLT 062, AST 063/CPLT 063, AST 064/MCS 049/VNM 064, AST 065
- b) Four (4) units chosen from above or from one of the Southeast Asian languages (Vietnamese/Indonesian/Tagalog).

2. Upper-division requirements (16 units):

- a) Sixteen (16) units in Southeast Asian literature and culture chosen from
ANTH 126/AST 123/ DNCE 123/ MUS 123, ANTH 136, ANTH 140I, ANTH 176/AST 127/DNCE 127/ETST 172/MUS 127, AST 126/HIST 125/SEAS 185, AST 129/HIST 186/SEAS 186, AST 160/HIST 184/SEAS 184/VNM 184, AST 161, AST 162/HIST 167/SEAS 162/VNM 162, AST 163/CPLT 163, AST 164/VNM 164, AST 165 (E-Z)/VNM 165 (E- Z)/GSST 165(E-Z), AST 166/CPLT 166/VNM 166, AST 167/CPLT 167, AST 168/MUS 168, AST 170/MUS 170, AST 187/MCS 167, AST 189/HIST 189/SEAS 189/VNM 189, CPLT 142V/GSST 142V, CPLT 173V/MCS 173V, DNCE 180J, ENGL 144J/MCS 144J, ETST 133, ETST 137/SEAS 137, ETST 143A, ETST 143B, MCS 123/GSST 124, MCS 142/GSST 122, RLST 145/SEAS 145, RLST 149, RLST 150
- b) No more than Four (4) units may count from performance ensemble courses.

Graduate Program

The Master's Program in Southeast Asian Studies is an interdepartmental program centered on the study of the arts and cultures of Southeast Asia and its diasporas. To understand Southeast Asia as a region, students need to make sense of and engage with its diverse expressive forms of culture (including visual arts, literature, and performance) which are crucial in building and maintaining individual as well as group identity both within and across national or ethnic boundaries.

This program is designed for students with a strong interest in Southeast Asia, including those already admitted or enrolled in another graduate program. Students can be concurrently enrolled in both the Southeast Asian Studies M.A. program and another graduate degree program. Students may also apply concurrently for the Southeast Asian Studies M.A. - Ph.D. Track in Anthropology, Comparative Literature, Ethnic Studies, History or Music.

Admission

All applicants must fulfill the standard admission requirements as established by the Graduate Division. Additionally, applicants must submit a Statement of Purpose to indicate a serious interest in Southeast Asian Studies (or a specific country or area in this region) as well as a writing sample (such as a past term paper or course essay) to demonstrate basic skills of scholarship.

Foreign Language

Students must acquire (or increase) a distinct level of proficiency in at least one language relevant to Southeast Asian Studies prior to beginning research for the thesis and no later than the fifth quarter in the program. The required proficiency can be demonstrated by way of an exam, by completing one year of course work with a "B" or better, or by alternate certification, including completion of an approved intensive

summer language program. International students from Southeast Asia may use their native language to fulfill this requirement.

Course Work

All students are required to pass the Proseminar in Southeast Asian Studies (ANTH 202/CPLT 200/SEAS 200) with a "B" or better. Additionally, students must pass (with a "B" or better) a graduate level seminar in four of the following six areas (any 100-level course must be paired with SEAS 292):

- 1. Southeast Asian performance**
ANTH 126/AST 123/DNCE 123/MUS 123, ANTH 176/AST 127/DNCE 127/ETST 172/MUS 127, AST 119/MUS 119, AST 124/MUS 124
- 2. Southeast Asian religions**
ANTH 257/ RLST 253/ SEAS 202, RLST 111, RLST 150/SEAS 150, RLST 200B, RLST 252
- 3. Southeast Asian cultures**
SEAS 203/ANTH 203, ANTH 136/SEAS 136, ANTH 140I
- 4. History of Southeast Asia**
SEAS 204/HIST 242, AST 126/HIST 185/SEAS 185, AST 129/HIST 186/SEAS 186, AST 160/HIST 184/SEAS 184/VNM 184
- 5. Literatures of Southeast Asia**
SEAS 205/CPLT 205, AST 163/CPLT 163/SEAS 163, AST 167/CPLT 167/SEAS 167
- 6. Media in Southeast Asia**
SEAS 206, AST 187/MCS 167/SEAS 177, CPLT 173U/MCS 173U

In addition, students can select four other graduate seminars or approved upper division undergraduate courses in accordance with their main field of interest and after approval by the Graduate Advisor and the student's Thesis Committee. A total of 40 units of coursework, including thesis, are required for the degree in Southeast Asian Studies.

Students concurrently enrolled in another graduate program may, when appropriate, include units earned in that program toward the 40 units of the M.A. in Southeast Asian Studies. However, there must be at least 36 units uniquely applied to the Southeast Asian Studies degree.

Plan I (Thesis)

Students enrolled in the Southeast Asian Studies Graduate Program (for the terminal M.A.) must submit an essay (thesis) of 50-70 pages reflecting original research, written under the supervision of a member of the program who also functions as the chair of their Thesis Committee. At the beginning of the second year students should write a research proposal outlining their research project. Approximately ten pages in length this proposal should describe the aims of the research and provide a broader theoretical framework. After this is approved students begin to conduct individual research in the field or in the library. Students must enroll in a minimum of 4 units of Thesis Study (SEAS 299) or Directed Research (SEAS 297) under the supervision of a Southeast Asian Studies faculty. Before filing the thesis with the Graduate Division students must pass a formal oral examination.

Plan II (Comprehensive Exam)

Students concurrently enrolled in another degree program requiring an M.A. thesis may (with the

approval of the Southeast Asian Studies faculty) be awarded the M.A. degree by passing a comprehensive examination.

Concurrent Enrollment

Concurrent Enrollment students are enrolled in both the M.A SEAS program and a Ph.D. program in a cooperating department. These students must complete the following 40 units to earn the degree:

- 20 units of core courses, listed above, unique to SEAS program.
 - SEAS 200
 - 4 courses from the 6 above areas
- 16 elective units can be from the home Ph.D. program with the approval of SEAS faculty.

4 units in either SEAS 297 or 299 toward completing the comprehensive exam or thesis.

M.A. – Ph.D. Track

M.A. – Ph.D. Track students are in the M.A SEAS program and have been preliminarily accepted to a Ph.D. program in a cooperating department. These students must complete the following 40 units to earn the degree:

- 20 units of core courses, listed above, unique to SEAS program.
 - SEAS 200
 - 4 courses from the 6 above areas
- 16 elective units can be from the home Ph.D. program with the approval of SEAS faculty.
- 4 units in SEAS 299 toward completing the thesis.

Continuation in the Ph.D. program is not guaranteed, but subject to review by the cooperating department. After completion of the M.A. in Southeast Asian Studies, M.A. – Ph.D. track students will need to reapply through Graduate Admissions (fee waived) to the cooperating department for approval and official admission into the Ph.D. program.

University Requirements

All master's students must be enrolled for at least three quarters to fulfill the University residency requirement and must hold at least a 3.00 GPA in all upper division and graduate level course work related to the degree. A minimum of 40 units must be completed of which 36 must be graduate level (200 level) or approved upper division undergraduate (100 level) and apply only to the M.A. in Southeast Asian Studies.

Normative Time to Degree Two years

Lower-Division Courses

SEAS 047 Introduction to Southeast Asian

History 4 Lecture, 3 hours. Cross-listed with AST 049.

SEAS 062 Introduction to Southeast Asian

Literature 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introduction to modern and contemporary Southeast Asian literature and culture with a focus on individual national histories. Explores the relationship between aesthetics, politics, and academic scholarship. Readings are in translation; classes conducted in English. Cross-listed with CPLT

062, and AST 062.

SEAS 063 Reading Southeast Asian

Stories 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none. An introduction to the modern short story in Southeast Asia with a focus on literariness and the act of reading. Readings are in translation; classes conducted in English. Course is repeatable as content changes to a maximum of 8 units. Cross-listed with CPLT 063, and AST 063.

SEAS 064 Introduction to Vietnamese and

Diasporic Film Culture 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): none. Engages in critical viewing strategies and analytical visual critique. Explores the revival of film production in Vietnam following the Vietnam War, with a focus on the means of production, state control, and international distribution. Readings are in translation; classes conducted in English. Cross-listed with VNM 064, AST 064, and MCS 049.

Upper-Division Courses

SEAS 123 Southeast Asian

Performance 4 Lecture, 3 hours; screening, 2 hours; extra reading, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduction to the roles and genres of expressive culture in Southeast Asia, including dance, music, theater, film, and digital culture. Performance is discussed as both a time-honored and a contemporary medium for cultural production, from the courts to everyday experience. Cross-listed with ANTH 126, AST 123, DNCE 123, and MUS 123.

SEAS 127 Music Cultures of Southeast

Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in the Philippines, Indonesia, Malaysia, Thailand, Myanmar (Burma), Laos, Cambodia, and Vietnam. Designed for the student interested in the performing arts and cultures of mainland and insular Southeast Asia. No Western music background is required. Cross-listed with ANTH 176, AST 127, DNCE 127, ETST 172, and MUS 127.

SEAS 130 Filipino American Culture 4

Seminar, 3 hours; screening, 3 hours. Prerequisite(s): MCS 001. Explores the politics of a range of Filipino American expressive, performative, and creative forms (e.g., Pilipino Culture Night) video, art, fiction, theater, in tandem with the study of theoretical and socio-historical scholarship in the interdisciplinary field of Filipino American Studies. Cross-listed with MCS 130.

SEAS 136 Anthropological Perspectives On

Gender in Southeast Asia 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or equivalent. Examines the intersections of gender, power, and sexuality in post-colonial Southeast Asia. Revisits early ethnographic claims of gender equality. Addresses current anthropological literature on the effects of colonialism, capitalism, and globalization on gender roles and relations within national and transnational contexts. Cross-listed with ANTH 136. Credit is awarded for only one of ANTH 136/SEAS 136 or ANTH 136S/SEAS 136S.

SEAS 136S Anthropological Perspectives On

Gender in Southeast Asia 5 Lecture, 3 hours; discussion, 1 hour; field, 1 hour; extra reading, 2 hours. Prerequisite(s): ANTH 001 or ANTH 001H or ANTH 001W or equivalent. Examines the intersections of gender, power, and sexuality in post-colonial Southeast Asia. Revisits early ethnographic claims of gender equality. Addresses current anthropological literature on the effects of colonialism, capitalism, and globalization on gender roles and relations within national and transnational contexts. Cross-listed with ANTH 136S. Credit is awarded for only one of ANTH 136/SEAS 136 or ANTH 136S/SEAS 136S.

SEAS 137 The Vietnamese Americans: the

Refugee and Immigrant Experience 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on the Vietnamese American experience in contemporary society. Emphasizes the relationship of Vietnamese Americans to the larger society and on intergenerational strains and conflicts. Topics include socioeconomic and educational problems, family, religion, and the relationship between Vietnamese Americans and other ethnic groups. Cross-listed with ETST 137.

SEAS 143A Critical Filipino(a) Studies: Histories and Legacies of U.S. Conquest, Colonialism, and Empire 4

Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): one of the following courses: ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014; or consent of instructor. Critically examines and theorizes the historical impact and legacies of U.S. conquest and colonialism in the Philippines. Analyzes the origins of Filipino American civic existence and its links to histories of U.S. racial formation, racialized industrialization, and racialized frontier warfare. Cross-listed with ETST 143A.

SEAS 143B Critical Filipino(a) Studies: Interrogating the Filipino American

Present 4 Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): one of the following courses: ETST 001, ETST 001H, ETST 002, ETST 002H, ETST 003, ETST 004/HIST 004, ETST 005, ETST 005H, ETST 007, ETST 007H, ETST 008, ETST 012/RLST 012, ETST 012H/RLST 012H, ETST 014, ETST 143A/SEAS 143A, upper-division standing; or consent of instructor. Critically analyzes the emergence of Filipino American community and identity in relation to the U.S. emancipation of the Philippines and the complex restructuring of a neocolonial and imperial relation. Examines the theoretical and conceptual premises of Filipino Americanism through counterhegemonic social movements, cultural production, and identity formation. Cross-listed with ETST 143B.

SEAS 145 Buddhism in Southeast

Asia 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): RLST 106 or consent of instructor. Explores various texts, magical practices, forms of meditation, rituals, and beliefs of ancient and modern Buddhism, focusing on the ways in which they are transformed by nuns, monks, and the laity in Burma, Cambodia, Laos, Thailand, and California. Cross-listed with RLST

145.

SEAS 149 Southeast Asian Religions 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): one Religious Studies course or upper-division standing or consent of instructor. Introduces aspects of religion in various Southeast Asian countries including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Provides contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with RLST 149.

SEAS 150 Islam in Southeast Asia 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the religious, intellectual, and cultural history of Muslim Southeast Asia. Includes Indonesia, Malaysia, and Brunei, as well as minority communities in Singapore, Thailand, Cambodia, and the southern Philippines. Examines a series of contextualized readings in translated primary sources. Approaches texts from historical, anthropological, literary, and other disciplinary perspectives. Cross-listed with RLST 150.

SEAS 161 Translating Modern Southeast

Asian Texts 4 Lecture, 3 hours; term paper, 1.5 hours; written work, 1.5 hours. Prerequisite(s): upper-division standing; knowledge of one Southeast Asian language is recommended. An introduction to translating modern Southeast Asian texts into English. Presents translations of texts from Vietnam, Indonesia, and the Philippines in a context of theory. Materials are in English. Course is repeatable as content changes to a maximum of 8 units. Cross-listed with AST 161.

SEAS 162 Vietnamese Literary

History 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing. A historical analysis of Vietnamese literature from its oral tradition to contemporary fiction. Follows the formation of the nation-state and the subsequent struggles with the Chinese, French, Japanese, and Americans. No knowledge of Vietnamese required. Readings are in translation or bilingual editions. Classes are conducted in English. Cross-listed with AST 162, VNM 162, and HIST 187.

SEAS 163 Nationalism and the Novel 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the novel and its role within nationalism as a representative summary or mirror of the nation. Cross-listed with CPLT 163, and AST 163.

SEAS 164 Vietnamese American

Culture 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A study of the pervasive aspects of Vietnamese American culture. Includes shared histories, acculturation patterns, class diversity, identity struggles, community-building literary and cultural production, youth issues, and cultural survival. Also introduces foundational literature, visual culture, and scholarship in the field. Cross-listed with VNM 164, and AST 164.

SEAS 165 (E-Z) Themes in Vietnamese

Literature: Women and War 4 Lecture, 3 hours;

extra reading, 3 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An exploration of Vietnamese literature in translation as seen through the lens of a particular theme or issue. Focuses on the implications of gender and sexuality on nation formation. All materials are read or viewed in English. E. Women And War; Cross-listed with AST 165 (E-Z), GSST 165 (E-Z), and VNM 165 (E-Z).

SEAS 166 Vietnam and the

Philippines 4 Lecture, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the comparative national histories of Vietnam and the Philippines by way of great literary works in various genres including poetry, short fiction, and novels. All materials are read in English. Cross-listed with CPLT 166, AST 166, and VNM 166.

SEAS 167 Postcolonial Literature and Criticism in Southeast Asia and South Asia 4

Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores how the theoretical concepts of postcolonial criticism inform and challenge the literature of Southeast Asia and South Asia, as the literature itself pushes the limits of the criticism. Addresses themes of nation, identity, space, gender, home, diaspora, alterity, history, sexuality, transnationalism, neocolonialism, tourism, and education. Cross-listed with CPLT 167, and AST 167.

SEAS 168 Javanese Gamelan Ensemble:

Beginning 2 Studio, 6 hours. Prerequisite(s): upper-division standing and consent of instructor. Study and performance of the Central Javanese gamelan, consisting mainly of gongs and gong-chime instruments. Readings and discussions focus on Javanese culture. Course is repeatable. Cross-listed with AST 168 and MUS 168.

SEAS 170 Rondalla Ensemble 1 to 2

Studio, 2 to 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Study and performance of the Filipino rondalla, an ensemble consisting of various sizes of lute-like and guitar-like instruments. Discussions focus on Filipino culture. Cross-listed with AST 170 and MUS 170. Course is repeatable.

SEAS 172 Gender in Southeast Asian Diasporic Literature and Film 5

Lecture, 3 hours; screening, 3; written work, 1 hour; extra reading, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on former Indochinese refugees who are producing literature and films in the United States and France. Examines how the perception of Indochina has been constructed, particularly how the region has been gendered female in the colonial imaginary. Explores the return of Southeast Asian immigrants to the Western gaze. Cross-listed with GSST 122, and MCS 142.

SEAS 175 Asian American Women: Writing the Self in Literature and Film 4

Lecture, 3 hours; screening, 1 hour; written work, 1 hour; extra reading, 1 hour. Prerequisite(s): MCS 010, upper-division standing, or consent of instructor. Analyzes Asian American autobiographies and films written and directed by women. Explores why the genre of autobiography is enabling and

contentious within Asian American women's writings. Examines films to see how such women filmmakers contend with memory, gender, and identity. Cross-listed with GSST 124, and MCS 123.

SEAS 177 Transnational Vietnamese

Cinema 4 Lecture, 3 hours; screening, 3 hours. Prerequisite(s): MCS 020 or upper-division standing or consent of instructor. Explores how Vietnamese people and the Vietnamese diaspora seek to imagine a sense of community in the postwar era through contemporary film and video. Examines the thematics of return, longing, and exile. Reviews some of the texts' bold expressions of gender, sexuality, and identity. Cross-listed with MCS 167, and AST 187.

SEAS 184 The Vietnam Wars 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with HIST 184, AST 160, and VNM 184. Credit is awarded for only one of the following: AST 160/HIST 184/SEAS 184/VNM 184 or AST 160S/HIST 184S/SEAS 184S/VNM 184S.

SEAS 184S The Vietnam Wars 5 Lecture, 3 hours; discussion, 1 hour; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to Vietnamese history in the twentieth century. Covers the three Indochina wars (1945-1986) from different Vietnamese perspectives. Topics include experiences during French colonial rule; the anticolonial movements; periods of French and American military involvement up to 1975; the postwar society; and the post-doi moi society. Cross-listed with HIST 184S, AST 160S, and VNM 184S. Credit is awarded for only one of the following: AST 160/HIST 184/SEAS 184/VNM 184 or AST 160S/HIST 184S/SEAS 184S/VNM 184S.

SEAS 185 Southeast Asia, Prehistory to

1800 4 Lecture, 3 hours; extra reading, 3. Prerequisite(s): upper-division standing or consent of instructor. Covers the major Southeast Asian historical periods and cultures. Includes prehistory, classical kingdoms, and early modern trading states. Considers the role of ancient stories, religious systems, technologies, and art forms in forming traditional Southeast Asian identities, as well as the influences on these identities from outside the region. Cross-listed with HIST 185 and AST 126.

SEAS 186 Modern Southeast Asia, 1800 to

Present 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the formation of modern Southeast Asian nations and cultures since 1800. Compares colonial and postcolonial experiences in the region. Studies the formation of nationalist movements and the relationship of nationalist history with traditional and local histories. Considers the role of the individual,

modern media, and global trade in the near-present. Cross-listed with HIST 186, and AST 129.

SEAS 189 Encountering Vietnam 5 Lecture, 6 hours; tutorial, 6 hours; project, 6 hours. Prerequisite(s): upper-division standing or consent of instructor. Focuses on literary and historical accounts of Vietnam. Utilizes translated travel writings from different genres and eras. Proficiency in Vietnamese not required. Taught in Vietnam and offered only in summer. Cross-listed with AST 189, HIST 189, and VNM 189.

Graduate Courses

SEAS 200 Topics in Southeast Asian

Studies 4 Seminar, 3 hours; written work, 2 hours; term paper, 1 hour. Prerequisite(s): graduate standing or consent of instructor. An introduction to the world of Southeast Asia and the scholarly discussions about it, with an emphasis on cultural aspects, embedded in their historical context. Materials are in English. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with ANTH 202 and CPLT 200.

SEAS 201 Musics of Southeast Asia 4 Seminar, 3 hours; term paper, 3 hours; Rresearch, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Focuses on historical and ethnographic literature of Southeast Asia and its diasporas. Discusses scholarly literature on music and expressive culture generally, including dance, theater, and ritual. Cross-listed with MUS 272.

SEAS 202 Southeast Asian Religions 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses different and dynamic aspects of religion in various Southeast Asian countries, including Indonesia, Malaysia, Thailand, Cambodia, Vietnam, and the Philippines. Explores contextualized readings featuring historical, anthropological, literary, and other disciplinary perspectives on this diverse region. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as topic changes up to 8 units. Cross-listed with ANTH 257 and RLST 253.

SEAS 203 Southeast Asian Cultures 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Surveys ethnographic literature on Southeast Asian cultures, with an emphasis on contemporary research. Covers anthropological approaches to the study of text, ritual, and performance practices; intercultural dynamics; the impact of colonialism and nationalism on traditional cultures; and globalization. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Cross-listed with ANTH 203.

SEAS 204 Approaches to Southeast Asian

History 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Introduces students to central historical problems, historiographical debates, materials, and theoretical approaches in Southeast Asian history. Readings each week focus on a different theme. Course is repeatable to a maximum of 8 units. Cross-listed with HIST

242.

SEAS 205 Literature of Southeast

Asia 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores themes and theories related to understanding literature and literary culture in Southeast Asia, insisting that the space of literature reaches beyond the text to include all disciplines. Students critically read, engage in, and question discourses of nationhood, identity, loss, mourning, history, and memoir. Course is repeatable as content changes to a maximum of 12 units. Cross-listed with CPLT 205.

SEAS 206 Southeast Asian Diasporic Literature

and Film 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Explores the contemporary works by Southeast Asian immigrants within the United States and France. Emphasizes the concept that the dynamic production of culture is a negotiation of power and an expression of resistance. Provides an interdisciplinary framework by utilizing historical as well as theoretical works to contextualize the cultural productions. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor. Course is repeatable as content changes to a maximum of 12 units.

SEAS 243A Research Seminar in Southeast

Asian History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor. Discusses Southeast Asian topics from regional, comparative, and local perspectives. May be taken as a one- or two-quarter course (HIST 243A/SEAS 243A, HIST 243B/SEAS 243B). After completing both HIST 243A/SEAS 243A and HIST 243B/SEAS 243B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Cross-listed with HIST 243A.

SEAS 243B Research Seminar in Southeast

Asian History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): graduate standing or consent of instructor; HIST 243A/SEAS 243A. Discusses Southeast Asian topics from regional, comparative, and local perspectives. Students produce a substantial research paper that continues their work from HIST 243A/SEAS 243A. May be taken as a one- or two-quarter course (HIST 243A/SEAS 243A, HIST 243B/SEAS 243B). After completing both HIST 243A/SEAS 243A and HIST 243B/SEAS 243B, students may repeat the sequence once for credit; total credit for each course may not exceed 8 units. Cross-listed with HIST 243B.

SEAS 290 Directed Studies 1 to 6 Individual Study, 3 to 18 hours. Prerequisite(s): consent of instructor and graduate advisor. Directed study to meet special curricular needs. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SEAS 292 Concurrent Analytical Studies in

Southeast Asian Studies 1 to 4 Individual Study, 3 to 12 hours. Prerequisite(s): graduate standing; consent of instructor and graduate advisor. Taken concurrently with a 100-series course, but on an individual basis. Devoted to research, criticism, and written work at the graduate level related to the 100-series course. Graded Satisfactory (S) or No Credit (NC). Course is

repeatable.

SEAS 297 Directed Research 1 to 6 Research, 3 to 18 hours. Prerequisite(s): consent of instructor; graduate standing. Individualized research under the sponsorship of specific faculty members. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SEAS 299 Research For the Thesis 1 to 12 Thesis, 3 to 36 hours. Prerequisite(s): consent of thesis director. Research and preparation for the thesis. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

SOUTHEAST ASIAN STUDIES DESIGNATED EMPHASIS

Subject abbreviation: SEAS
College of Humanities, Arts, and Social Sciences

Christina Schwenkel, Ph.D., Director
Program Office, INTS 3111
(951) 827-5521; seatrip.ucr.edu

Committee in Charge

Muhamad Ali, Ph.D. (Religious Studies)
David Biggs, Ph.D. (History)
Charmaine Craig, M.F.A. (Creative Writing)
Weihsin Gui, Ph.D. (English)
Tamara Ho, Ph.D. (Gender and Sexuality Studies)
Mariam Beevi Lam, Ph.D. (Comparative Literature and Foreign Languages)
René T.A. Lysloff, Ph.D. (Music)
Sally A. Ness, Ph.D. (Anthropology)
Victoria Reyes, Ph.D. (Sociology)
Maria Sarita See, Ph.D. (Media & Cultural Studies)
Christina Schwenkel, Ph.D. (Anthropology)
Deborah A. Wong, Ph.D. (Music)

The Designated Emphasis in Southeast Asian Studies, a specialization that includes new methods of inquiry in conjunction with a student's disciplinary field of interest, is awarded in addition to a Ph.D. degree.

A total of 16 units of coursework is required:

1. **12 units of course work in SEAS, from at least two departments**
 - a. 4 units in (required)
ANTH 202/ CPLT 200/SEAS 200
 - b. Choose the additional 8 units from the lists below

Graduate Seminars:

ANTH 257/ RLST 253/ SEAS 202, ANTH 203/ SEAS 203, HIST 242/ SEAS 204, CPLT 205/ SEAS 205, SEAS 206, SEAS 243A, SEAS 243B

Upper Division Undergraduate Courses:

ANTH 136/ SEAS 136, ETST 137/ SEAS 137, ETST 143A/ SEAS 143A, ETST 143B/ SEAS 143B, ANTH 140I, RLST 145/ SEAS 145, RLST 149/ SEAS 149, RLST 150/ SEAS 150, AST 161/ SEAS 161, AST 162/HIST 187/ SEAS 162/ VNM 162, AST 163/ CPLT 163/ SEAS 163, AST 164/ SEAS 164 / VNM 164, AST 165 (E-Z)/ GSST 165 (E-Z)/ SEAS 165 (E-Z) / VNM 165 (E-Z), AST 166/CPLT 166/ SEAS 166/ VNM 166, AST 167/ CPLT 167/ SEAS 167, GSST 122/

MCS 142/ SEAS 172, GSST 124/ MCS123/ SEAS 175, AST 187/ MCS 167/SEAS 177, AST 160/ HIST 184/ SEAS 184/ VNM 184, AST 26/ HIST 185/SEAS 185, AST 129/ HIST 186/ SEAS 186, AST 189/ HIST 189/ SEAS 189/VNM 189, ANTH 176/ AST 127/ DNCE127/ETST 172/ MUS 127

2. 4 units of Thesis Study (SEAS 299) or directed Research (SEAS 297) resulting in a paper supervised by a member of the Southeast Asian Studies Program.

Courses taken for the Designated Emphasis cannot be used toward the Ph.D. Language proficiency is preferable, though not required.

SPECULATIVE FICTION AND CULTURES OF SCIENCE MINOR

Subject abbreviation: SFCS
College of Humanities, Arts, and Social Sciences

Committee in Charge

Sherryl Vint (Media and Cultural Studies; English)
Dana Simmons (History)
Tamara Ho (Gender and Sexuality Studies)

Susan Zieger (English)
Milagros Peña, Ph.D. *Dean, College of Humanities, Arts, and Social Sciences, ex officio*

The minor in Speculative Fiction and Cultures of Science explores intersections among speculative fiction, science and technology studies (STS), and traditions of speculative thought. We study the pervasive role of speculative discourses in public culture, investigating the complex and reciprocal exchanges among futuristic discourses, research agendas, public policy decisions, media texts, and daily life in technologically saturated societies. Using the

combined perspectives of cultural studies and STS helps students develop critical literacy about their media-dominated landscape through which to understand its discourses of science and the future. Bringing speculative fictions and STS into dialogue, our scholars focus on understanding technological change in specific contexts by analyzing the texts and practices that have responded to, critiqued, and build upon the ways science shapes our cultural, material, and economic milieu. Speculative thinking and speculative fictions are central to many of the most compelling contemporary research concerns, such as the Anthropocene, climate change, genetic engineering, and discourses of the posthuman. We examine the histories and cultures of science, technology, and medicine to understand the role culture plays in the production of science and the reciprocal way changes in science and technology shape culture. Our program uniquely emphasizes the role of popular culture and the genres of speculative fiction, in particular, for serving as an imaginative testing ground for technological innovation, articulating hopes and anxieties regarding technological change, and mediating public understandings of science and its applications.

1. Requirements (24 units)

- a) Four (4) units from SFCS 001 or from the approved substitutes ENGL 146(E-Z)/ MCS 146(E-Z) or ENGL 179C or ANTH 162.
- b) Sixteen (16) additional units, selected from the following groups. Students must take at least four (4) units from two of the three groups.

GROUP ONE: Fine Arts; selected from CRWT 162; CRWT 172; MCS 146; MCS 151G; MCS 153 (E-Z); TFDP 166C.

GROUP TWO: Humanities; selected from CPLT 118; CPAC 132; ENGL 179A; ENGL 179B; ENGL 179C; ENGL 179D; ENGL 179T; JPN 184; HIST 105; HIST 107; HISA 147; PHIL 137; PHIL 167.

GROUP THREE: Social Sciences; selected from ANTH 143; ANTH 162; GSST 106; GSST 161; GSST 185; GSST 187; GSST 189.

- c) Four (4) units from SFCS 193 (senior seminar) or CPLT 193 or ENGL 189 or MCS 193 or PHIL 193

All students must take the introductory course (SFCS 001) and the senior seminar or approved equivalents listed above. There is no required order in which elective courses must be taken but credit in SFCS 001 is required for entry into SFCS 193.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for information on minors.

Lower-Division Courses

SFTS 001 Introduction to Science Fiction and

Technoculture Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): none Investigates the relationship between science, technology, and medicine and the genre of science fiction. Emphasizes exchanges between technology and popular culture. Covers fiction by H.G. Wells, Kim Stanley Robinson, and Nancy Kress and critical readings by Steven

Upper-Division Courses

SFTS 193 Senior Seminar in Science Fiction and Technoculture Studies 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): SFTS 001 or consent of instructor. Develops skills in the formulation and investigation of research questions in science fiction and technoculture studies. Synthesizes and integrates knowledge and skills obtained in the minor. Includes a major research project and presentations by guest speakers.

Designated Emphasis Requirements

The Designated Emphasis is a 12-unit interdisciplinary graduate course of study, requiring coursework across at least two departments. Two of the three required courses, if otherwise eligible, may count towards the student's Ph.D. requirements.

1. All students must complete a ENGL 297 graduate course (4 units) with an affiliated faculty member that produces an approximately 25-page research paper. This course will fulfill the research requirement of the Designated Emphasis.
2. Two (2) courses (8 units) selected from ANTH 262, CPLT 272, CPLT 273, CPLT 275, CPLT 276, CWPA 255, ENGL 246, ENGL 247, ENGL 248, ETST 243F, HIST 287A, MUS 251, MUS 264, and PHIL 237. Students may ask to count another course

with relevant content as approved by the Designated Emphasis Director. Students must select courses from at least two different departments or programs, one of which may be their home department. Undergraduate courses taken to fulfill these requirements must be accompanied by a 292 course with extra work mutually agreed upon by professor and student.

All requirements for the Designated Emphasis must be satisfied before a student advances to candidacy in their Ph.D. field; a minimum GPA of 3.0 is required for the award of the Designated Emphasis.

Major

The Department of Statistics is concerned with teaching, research, and statistical consulting. The courses offered present a comprehensive spectrum of statistical and probability theory, in

so far as such theory is necessary for the understanding and analysis of observational data. The applications of the theory delineated in the courses may be made in any field of experience. Laboratory classes in which examples related to the student's actual field of interest are worked out, play an essential part. The department offers both B.A. and B.S. degrees in Statistics as well as a B.S. in Statistics with options in Statistical Computing and Quantitative Management; the M.S. degree in Statistics; and the Ph.D. degree in Applied Statistics.

The courses STAT 040, STAT 048, STAT 100A, STAT 100B, STAT 104/BUS 104, STAT 110, STAT 130, STAT 140, STAT 146, and STAT 155 are intended for students of other departments who wish a knowledge of statistical techniques. Some of them may be taken as electives by statistics majors. The objective of these courses is to acquaint the student with the elements of statistics with only the necessary amount of mathematical training.

STAT 147 and STAT 157 are computer-oriented courses intended for students who would like to learn about computer programming in the most important languages and who would like to learn about statistical computing.

Transfer Students

Students transferring to the Statistics major must complete courses comparable to the following one-year sequence before they transfer:

1. First-year calculus, equivalent to MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, each course completed with a grade of "B-" or better.

Computing Laboratories

The department has two large undergraduate Windows-based teaching laboratories. These laboratories provide users access to a wide variety of statistical software packages including SAS, R, Minitab, and SPSS, and other popular software packages including Mathematica, Adobe Acrobat, and Microsoft Office. The department also houses the Garber Research Computing Laboratory, which is a combination of a UNIX/LINUX-based system with multiple workstations and several Windows-based machines.

Statistical Consulting Center

The Statistical Consulting Collaboratory provides a broad range of analytical and statistical support services, including design of experiments, statistical inference, hypothesis testing, and data modeling for the campus community, and promotes cooperative research between statisticians and other investigators in all fields of the application of statistics. The Collaboratory is staffed by:

Zhiwei Zhang, Ph.D., Faculty Director and Karen Huaying Xu, Ph.D., Associate Director and rotating graduate students.

Change of Major Criteria

All courses taken to fulfill major requirements must be completed with grades of "C-" or better after repeats.

Freshman (0-44.9 units earned)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB

Sophomores (45-89.9 units earned)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC

4 (four) additional units of college-level Mathematics or Statistics (STAT 100A recommended)

Juniors (90-134.9 units earned)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC

12 (twelve) additional units of college level Mathematics or Statistics (MATH 031, STAT 100A and STAT 147 recommended)

Seniors (135 or more units earned)

Completion of the following with grade of "C-" or better and must be in good academic standing. (2.0 quarter and cumulative GPA)

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, MATH 031, STAT 100A (or equivalent), STAT 100B (or equivalent), STAT 147, STAT 157

Major change requests are reviewed during the 2nd, 3rd, 4th & 10th weeks of each quarter.

Transfer Selection Criteria

Applicants to majors in the College of Natural and Agricultural Sciences are selected on the basis of academic preparation, as assessed by their GPA and the strength of preparation for the intended major. A GPA of at least 2.70 is required. (This is a baseline GPA for consideration and not a guarantee of admission.)

In addition, applicants will need to complete college courses comparable to at least two of the following UCR year-long sequences in order to meet selection criteria for this major. Courses must be completed with "C" grades or better:

- MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, and MATH 009C or MATH 09HC (mandatory). A grade of "B-" or better is required in this series.

And at least one sequence from:

1. BIOL 005A, BIOL 05LA or BIOL 020 and BIOL 005B (and BIOL 005C, if articulated)
2. CHEM 001A, CHEM 01LA, CHEM 001B, CHEM 01LB, CHEM 001C, and CHEM 01LC
3. Organic chemistry (one-year lower-division), each course completed with a grade of "B" or better
4. PHYS 002A, PHYS 02LA, PHYS 002B, PHYS 02LB, PHYS 002C, and PHYS 02LC

5. PHYS 040A, PHYS 040B, and PHYS 040C

6. MATH 010A and MATH 010B, or one course in linear algebra.

Courses must be completed with a letter grade, with no grade lower than a "C." Students should visit assist.org for updated and comprehensive major preparation requirements.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Natural and Agricultural Sciences, Colleges and Programs section.

Some of the following requirements for the major may also fulfill some of the college's breadth requirements. Consult with a department advisor for course planning.

Major Requirements

The department offers both a B.A. and a B.S. degree in Statistics as well as a B.S. in Statistics with options in Statistical Computing and Quantitative Management.

The major requirements for the B.A. and the B.S. degrees in Statistics are as follows:

For the Bachelor of Arts

1. Core requirements (24-25 units)

- a) CS 010, MATH 007A or MATH 009A or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, MATH 010A
- b) MATH 031

2. Upper-division requirements

- a) Thirty-six (36) units of upper-division course work to include thirty-two units in (1) and four units in (2)
 - (1) STAT 147, STAT 157, STAT 160A, STAT 160B, STAT 160C, STAT 170A, STAT 170B, STAT 171
 - (2) Four (4) units of STAT 183 taken during senior year

Note: An introductory Statistics class such as STAT 048, or STAT 100A is strongly recommended.

For the Bachelor of Science

1. Core requirements (24-25 units)

- a) CS 010, MATH 007A or MATH 009A, or MATH 09HA, MATH 007B or MATH 009B or MATH 09HB, MATH 009C or MATH 09HC, MATH 010A
- b) MATH 031

2. Upper-division requirements (52 units)

- a) Thirty-six (36) units of upper-division course work to include thirty-two units in (1) and four units in (2)
 - (1) STAT 147, STAT 157, STAT 160A, STAT 160B, STAT 160C, STAT 170A, STAT 170B, STAT 171
 - (2) Four (4) units of STAT 183 taken during senior year
- b) Sixteen (16) units of additional course work chosen from STAT 110, STAT 127/BUS 127, STAT 130, STAT 140, STAT 146, STAT 161, STAT 167 or from related fields with the approval of the major advisor.

Note: An introductory Statistics class such as STAT 048, or STAT 100A is strongly recommended.

Statistical Computing Option

The requirements for this option are in addition to the requirements for the B.S. in Statistics, except that the option requirement takes the place of the 16 units in 2.b) above.

1. Lower-division requirements (8 units): CS 012, CS 014

2. Upper-division requirements (16 units)

- a) STAT 167
- b) Twelve (12) units of coursework selected from
 - (1) CS 141, CS 177
 - (2) MATH 120, MATH 135A, MATH 135B

Quantitative Management Option

The requirements for this option are in addition to the requirements for the B.S. in Statistics, except that the option requirement takes the place of the 16 units in 2.b) above.

1. Lower-division requirements (18 units)

- a) ECON 002, ECON 003 or ECON 03H
- b) BUS 010, BUS 020; BUS 020, BUS 021 for those who choose area (3) Accounting under below 2 b).

2. Upper-division requirements (16 units)

- a) BUS/STAT 104
- b) Three courses from one area:
 - (1) Marketing: BUS 103 and two other courses from BUS 111, BUS 112, BUS 114, BUS 115, BUS 116, BUS 117, BUS 118, BUS 119
 - (2) Finance: BUS 106 and two other courses from BUS 138, BUS 139, BUS 140
 - (3) Accounting: BUS 108, BUS 165A, BUS 165B, BUS 168A, BUS 168B, BUS 169A
 - (4) Management: BUS 143, BUS 144, BUS 145, BUS 149, BUS 150
 - (5) Information Systems: BUS 101 and two other courses from BUS 171, BUS 173, BUS 174, BUS 175
 - (6) Operations & Supply Chain Management: BUS 122, BUS 123, BUS 124, BUS 125, BUS 126, BUS 128, BUS 130

Minor

The minor in Applied Statistics is designed to give students in either the social sciences or the physical sciences a cohesive set of statistics courses to deal with the data analytic aspects of their disciplines and to understand the statistical summaries that are encountered in everyday activities.

The requirements for the minor consist of at least 24 and not more than 28 upper-division units in Statistics to include the following:

1. STAT 100A, STAT 100B, STAT 147
2. Twelve (12) units from STAT 110, STAT 127/BUS 127, STAT 130, STAT 140, STAT 146, STAT 157, STAT 160A, STAT 160B, STAT 160C, STAT 167

Of the specified upper-division units, a minimum

of 16 must be unique to the minor and may not be used to satisfy major requirements.

No more than 4 units may be in courses numbered 190 through 199.

See Minors under the College of Natural and Agricultural Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Graduate Programs

The Department of Statistics offers the M.S. degree in Statistics and the Ph.D. degree in Applied Statistics.

Admission

Domestic and international applicants must supply scores from the GRE general exam. In addition, TOEFL scores must be supplied by applicants whose first language is not English who do not hold a degree from a U.S. institution. The department considers applications for teaching assistantships at the same time as those for fellowships. Normally, Ph.D. eligible admitted students are awarded five year financial assistantship.

Master's Program

The Department of Statistics offers the M.S. degree in Statistics.

Admission

Students entering the Master's program must have completed a bachelor's degree with sufficient training in Mathematics and a strong background in Statistics or have taken STAT 160A, STAT 160B, STAT 160C, STAT 161 and STAT 170A, STAT 170B, STAT 171, covering basic areas of probability and statistics.

Students must also meet the other requirements for admission as specified by the Graduate Division. The program is Plan II (Comprehensive Examination) described in the Graduate Studies section of this catalog. No foreign language is required.

Course Work

Graduate students in Statistics must have taken appropriate courses in Mathematics to give them the proper background for graduate work in Statistics. Important areas include Calculus (at least MATH 009A, MATH 009B, MATH 009C, and MATH 010A) and Linear Algebra (at least MATH 131).

Degree Requirements

Students are required to complete a minimum of 41 units that must include STAT 201A, 201B, 201C, STAT 202A, 202B, 202C, STAT 206, STAT 208, STAT 288, and two consecutive quarters of STAT 293.

Comprehensive Examination

All M.S. students are required to take a written comprehensive examination and pass at the M.S. level, with no more than two attempts allowed to pass. The written qualifying exam is offered two times in each year, the first in Summer and the second in Fall quarter. All students in the program are required to take their first attempt of the exam in Summer. The second exam in Fall can only be taken by the students who fail to pass the exam in their first attempt. Exceptions can be made based on the approval of Graduate Advisor. A program proposal is not required.

Advancement to Candidacy

Advancing to candidacy takes place when students complete all the course requirements and pass the written exam.

Professional Development Requirement:

Two quarters of STAT 293 give students training in (a) the ability to use fundamental statistical techniques to formulate problem and solution in diverse real-world application; (b) the ability to use at least one statistical software package to conduct statistical data analysis; (c) the ability to communicate with researchers in statistical community and other disciplines by using graphical methods to display and interpret information.

Petition to Change Degree Objective

Some students can petition to change their degree objective from the M.S. degree to the Ph.D. program in Applied Statistics depending on their performances in the written comprehensive exam and coursework.

Doctoral Degree

The Department of Statistics offers the Ph.D. degree in Applied Statistics.

The program emphasizes both the theory of statistics and its application to special fields of interest. In addition to courses in statistics, a student would take courses in a substantive field from which a thesis problem requiring a statistical approach should arise. The substantive field may be chosen from areas such as biology, economics, political science, psychology or administration. Specialties might include, for example, population genetics, biological control, hydrology, epidemiology, geology, discrimination in learning, or scales and measurements.

Admission

Students entering the program must have completed either a bachelor's degree or a Master's degree in Statistics, Computer Science, Mathematics, or some other quantitatively based discipline. Students lacking sufficient preparation for some statistics graduate classes must complete some preparatory work in Statistics, Computer Science, or Mathematics depending on their background. Students also have to meet the general requirements listed in the Graduate Studies section of this catalog.

Change Degree Objective

Students with a Bachelor's degree in the Ph.D. program who have satisfied all the requirements for the Master's degree may apply for this degree while completing requirements for the Ph.D. program.

Ph.D. Course Requirements

I. Course Requirements

(A) Core: STAT 202A, STAT 202B, STAT 202C, STAT 206, STAT 207, STAT 208, STAT 210A, STAT 210B, STAT 288, and two consecutive quarters of STAT 293.

(B) 20 units of additional 200 level Statistics courses not graded S/NC, excluding 201A, STAT 201B, STAT 201C, STAT 231A and STAT 231B.

(C) Substantive: Four units (or equivalent) in substantive field with a minimum GPA of 3.00 appropriate to the student's interest. The requirement may be waived if the student already has the background in the substantive area.

(D) Nine units of STAT 251 Statistics Colloquium before graduation.

II. Teaching: At least three quarters of teaching service.

III. Miscellaneous: In preparation for the written qualifying examinations, a student can register for up to 6 units of STAT 291 (Individual Studies in Coordinated Areas) only during quarters that the student actually participates in qualifying examinations.

Foreign Language Requirement None

Written and Oral Qualifying Examination

All Ph.D. students are required to take a written qualifying examination and pass at the Ph.D. level, with no more than two attempts allowed to pass. The written qualifying exam is offered two times in each year, the first in Summer quarter and the second in Fall quarter. The second exam can only be taken by students who fail to pass the exam in their first attempt. Exceptions can be made based on the approval of the Graduate Advisor. After passing the written exam the student will work with advisor to prepare for the oral examination.

Advancement to Candidacy

Oral Qualifying Exam must be completed no later than the end of Year Three of the student's graduate training. Exceptions can be made based on the approval of Graduate Advisor. Advancing to candidacy takes place when students complete all the course requirements and pass the written and oral exams.

Dissertation

The dissertation is pertinent to a problem area specified by the candidate's substantive field and is submitted in accordance with the requirements of the Graduate Division, Riverside.

Teaching Requirement

All students in the program, for at least three quarters, assist with laboratory (practice) sections of undergraduate Statistics courses or individual tutorial (consultative) work with undergraduate students.

Professional Development Requirement:

1. STAT 293 gives students training in

- (a) the ability to use fundamental statistical techniques to formulate problem and solution in diverse real-world application;
- (b) the ability to use at least one statistical software package to conduct statistical data analysis;
- (c) the ability to communicate with researchers in statistical community and other disciplines by using graphical methods to display and interpret information.

2. Professional writing development:

Students are trained to prepare a research proposal on topics relevant to the student's research area as part of their written qualifying exam.

3. **Pedagogy:** Ph.D. students are required to enroll in Teaching Assistant Development Program (TADP) Orientation in order to TA and enroll in STAT302 during the quarter they teach. Three quarters of TA experience required.

Normative Time to Degree 15 quarters

Lower-Division Courses

STAT 040 Elements of Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. A Bayesian introduction to statistics. Advocates that estimates, hypothesis tests, and decisions be made from information developed from a formal combination of current and prior data. Topics include summarizing and displaying data; designing experiments; probability; Bayes' rule; inferences from proportions and normal populations; sampling; and regression analysis. Utilizes Minitab. Credit is not awarded for STAT 040 if it has already been awarded for STAT 048, STAT 100A, or STAT 100B.

STAT 048 Statistics For Business 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): CS 008 or equivalent; MATH 004 or MATH 005 or MATH 006B or MATH 007A or MATH 009A or MATH 09HA or equivalent. An introduction to statistics using business applications. Topics include descriptive statistics, probability, discrete and continuous distributions, Bayes' theorem, random variables, estimation and confidence intervals, hypothesis testing, analysis of variance, and simple linear regression. Credit is awarded for only one of STAT 048 or STAT 100A.

Upper-Division Courses

STAT 100A Introduction to Statistics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): MATH 005 or MATH 006B or MATH 007A or MATH 009A or MATH 09HA or equivalent. A general introduction to descriptive and inferential statistics. Topics include histograms; descriptive statistics; probability; normal, binomial, and Poisson distributions; sampling distributions; hypothesis testing; and confidence intervals. Credit is awarded for only one of STAT 048 or STAT 100A.

STAT 100B Introduction to Statistics 5 Lecture, 3 hours; discussion, 1 hour; laboratory, 3 hours. Prerequisite(s): STAT 100A. "An introduction to statistics" with a grade of C- or better. Topics include linear regression, correlation, analysis of variance, and simple experimental designs.

STAT 104 Decision Analysis and Management Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 008; STAT 048 or STAT 100A; or equivalents; or consent of instructor. A survey of deterministic and probabilistic models for decision making. Topics include linear programming and extensions, networks, dynamic programming, decision trees, queuing models, and simulation. Explores the application of these models in decision making. Cross-listed with BUS 104

STAT 110 Biostatistical Methods in Life Sciences 5 Lecture, 3 hours; discussion, 1 hour. Laboratory, 3 hours. Prerequisite(s): STAT 100B or consent of instructor. Provides undergraduate students majoring or interested in life sciences with statistical tools for analyzing different types of data frequently encountered in life sciences. Emphasizes applications of methodology, including contingency table analysis, linear regression and ANOVA, maximum likelihood method and the estimation-maximization algorithm, logistic regression, Poisson

regression, and survival analysis.

STAT 127 Introduction to Quality Improvements 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 048 or STAT 100A or consent of instructor. Explores Deming's 14 points for management, graphical methods, fishbone diagram, Pareto analysis, control charts for attributes and variables, cusum and moving average charts, process-capability, economic design, acceptance sampling, Taguchi method, parameter design, tolerance design, reliability, hazard rate, censoring, and accelerated life testing. Cross-listed with BUS 127.

STAT 130 Sampling Surveys 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 100B, or equivalent. Covers simple random sampling, addresses stratified sampling, cluster sampling, and ratio and regression estimates. Explores random response, capture-recapture, and jack-knife techniques.

STAT 140 Nonparametric Techniques 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 100B or equivalent. Covers randomization tests, rank tests, methods of association, and distribution-free tests.

STAT 146 Statistical Forecasting Techniques 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A or equivalent. Topics include exponential smoothing, simple and multiple regression analysis, time series, trend analysis, and seasonal analysis.

STAT 147 Introduction to Statistical Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 100A or equivalent. Introduction to computer-assisted data analysis and statistical inference using both the R and SAS packages. Topics include input, output, and editing of data; graphical procedures; descriptive statistics; cross-tabulation; inferential statistical techniques including estimation and testing; and analysis of variance.

STAT 155 Probability and Statistics For Science and Engineering 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C or MATH 09HC (MATH 009C or MATH 09HC may be taken concurrently). Covers sample spaces and probability; random variables and probability distributions; elements of statistical inference; and testing and estimation. Also addresses selected topics in multivariate distributions and introduces stochastic processes.

STAT 156A Mathematical Statistics With Applications For Data Science I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C with a grade of C- or better; or consent of instructor. Introduction to frequentist probability concepts, random variables, and their distributions. Discusses key theorems and inequalities in probability theory. Introduces to frequentist methods of point and interval estimation.

STAT 156B Mathematical Statistics With Applications For Data Science II 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 156A with a grade of C- or better; or consent of instructor. An introduction to Bayesian probability concepts. Includes illustrative application of Frequentist theory to linear regression; logistic regression and ANOVA; analysis of contingency

tables; applications of sequential and statistics; methods for observational studies and for missing data analyses.

STAT 157 Statistical Computer Packages 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 100B with a grade of C- or better, or equivalents; STAT 147 with a grade of C- or better; or consent of instructor. A study of major statistical packages including SAS with the emphasizing advanced SAS programming. Topics include advanced graphical procedures, linear models (regression and analysis of variance), multivariate techniques, and SAS macros.

STAT 160A Elements of Probability and Statistical Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 009C or MATH 09HC (may be taken concurrently). Topics include statistical regularity, probability spaces, fundamental theorems in discrete probability, Bayes' theorem, random variables, densities and distribution functions, and continuous distributions.

STAT 160B Elements of Probability and Statistical Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A with a grade of "C-" or better. Topics include transformations of random variables and central limit theorem, distributions of sample statistics, statistical inference, and estimation.

STAT 160C Elements of Probability and Statistical Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160B with a grade of "C-" or better. Topics include hypothesis testing, chi-square tests, and nonparametric methods.

STAT 161 Introduction to Probability Models 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160B or equivalent with a grade of "C-" or better. Covers Compound distributions, branching processes, and random walk. Explores continuous time models such as Poisson process and queuing models. Examines the Markov property and introduces Markov chains. Also covers simple time series models.

STAT 167 Introduction to Data Science 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 100B with a grade of C- or better or STAT 155 with a grade of C- or better, STAT 147 with a grade of C- or better, CS 010 with a grade of C- or better; or consent of instructor. Introduction to data science using the R programming language. Topics include big data management, visualization and analytical skills, unsupervised and supervised statistical learning methods, and real-world data science application examples.

STAT 170A Regression Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 157; STAT 156B or STAT 160C; or equivalent. Topics include simple and multiple linear regression, scatter-plots, and point and interval estimation. Addresses prediction, testing, calibration, interpretation, and practical applications of multiple regression. Explores simple, partial, and multiple correlation; variable selection methods; diagnostic procedures; and regression for longitudinal data.

STAT 170B Design of Experiments 4 Lecture

3 hours; discussion 1 hour. Prerequisite(s): STAT 170A with a grade of "C-" or better. Topics include principles of design; completely randomized designs; and one-way analysis of variance. Covers complete block designs and two-way analysis of variance; multiple comparisons; and complete factorial experiments. Explores fixed, random, and mixed models; split-plot designs; nested designs; analysis of covariance; sample size determination; and power analysis.

STAT 171 General Statistical Models 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170B. Generalized linear models and least squares. Analysis of covariance, nonlinear regression, nonlinear least squares. Regression methods for discrete data: loglinear models, logistic regression, discriminant analysis. Regression methods for life data. Cox survival model, Kaplan-Meier estimation, Mantel-Haenszel test.

STAT 183 Statistical Consulting 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170B; STAT 171, may be taken concurrently; Restricted to class level standing of senior. Introduces the statistical consulting process. Promotes consulting skills including developing effective communication skills, applying statistical methodology to client projects, and learning how to manage time and resources in a consulting environment. Satisfactory (S) or No Credit (NC) grading is not available. Satisfactory(S) or No Credit(N/C) is not available.

STAT 190 Special Studies 1 to 5 hours to be arranged. To be taken with the consent of the chair of the department as a means of meeting special curricular problems. Course is repeatable to a maximum of 10 units.

STAT 197 Research For Undergraduates 2 to 4 Research, 3 to 6 hours; individual study, 3 to 6 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to research in Statistics. Requires a research project completed under the supervision of a Statistics faculty member or a group of faculty members. Students who make an oral presentation of the research project or submit a written research report receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable as research topic changes to a maximum of 8 units.

STAT 198I Individual Internship in Statistics 1 to 12 Internship, 2 to 24 hours; research, 1 to 12 hours. Prerequisite(s): STAT 100B, consent of instructor, upper-division standing. An internship to provide statistical field experience in governmental, industrial, or research units. Projects must be approved by the Statistics Department and the head of the unit in which the internship is to be carried out. Requires a written report. Graded Satisfactory (S) or No Credit (NC). Course is repeatable to a maximum of 16 units, but total credit toward graduation may not exceed 12 units.

STAT 199H Senior Honors Research 1 to 5 Prerequisite(s): senior standing with major concentration in statistics and with consent of instructor. Senior standing with major concentration in statistics and with consent of instructor. Course is repeatable to a maximum of 10 units.

Graduate Courses

STAT 200B Advanced Design and Analysis of Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170A, STAT 170B, STAT 171, or equivalents; STAT 200A. Topics include factorial experiments; confounding and fractional factorial experiments for symmetrical and asymmetrical factorial experiments; orthogonal and balanced arrays; optimal fractional factorial designs; first and second order response surface designs; rotatability; and blocking of response surface designs; method of steepest ascent; canonical representation; and minimum bias, variance, and mean square error designs.

STAT 201A Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 010B; STAT 160C or equivalent; graduate standing; or consent of instructor. Topics include probability and conditional probability; random variables: univariate and multivariate; distributions; independence; moments; generating functions; transformations, and standard distributions. Also addresses multivariate normal distribution; order statistics; inequalities; convergence concepts; law of large numbers, and the central limit theorem. Credit is not awarded for STAT 201A, if it has already been awarded to STAT 210A if STAT 210A was taken prior to Fall 2013.

STAT 201B Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 201A or equivalent; or consent of instructor. Topics include exponential families; delta method; inference concepts; sufficiency; point estimation; unbiasedness; completeness; and consistency. Also explores relative efficiency; maximum likelihood; method of moments; interval estimation; pivotals; and approximate intervals and regions. Credit is not awarded for STAT 201B if it has already been awarded to STAT 210B if STAT 210B was taken prior to Fall 2013.

STAT 201C Theory of Probability and Statistics 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 201B or equivalent, or consent of instructor. Topics include Bayesian estimation; prior selection; loss functions; admissibility; hypothesis testing; Neyman-Pearson lemma; size; power; UMP tests; likelihood ratio tests; sequential tests; non-parametric tests; and bootstrap. Credit is not awarded to STAT 201C if it has already been awarded to STAT 210C.

STAT 202A Regression, Anova, and Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170A or equivalent, graduate standing; or consent of instructor. Topics include Linear Regression Models, Correlations, Fitting and Prediction, Diagnostics, Transformations, Collinearity, and Influential Observations, Model Selection, Subset Selection, Bayesian Model Selection, Regularization, Shrinkage Methods, Nonparametric and Semi-parametric Regressions.

STAT 202B Regression, Anova, and Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170B, STAT 202A or equivalents, graduate standing; or consent

of instructor. Topics include Fixed Effects Models with or without Interactions, Types 1-4 ANOVA, Multiple Testing, ANCOVA, Mixed Effects Models, ML and REML Estimation Methods, BLUP, Multiple Crossed and Nested Factors, Analysis of Longitudinal Data, General Linear Mixed Models, Parametric Models for Covariance Structure, Bayesian ANOVA.

STAT 202C Regression, Anova, and Design 4 Lecture, 3 hours. discussion, 1 hour. Prerequisite(s): STAT 170B, STAT 202B or equivalents, graduate standing; or consent of instructor. Topics include Basic Principles of Experimentation, Clinical Trials, Completely Randomized Design, Power and Sample Size, Randomized Block Design, Latin Square Design, Factorial Experiments, Response Surface Experiments, Case Control Studies, Matched case-control studies, Choice Experiments, Bayesian Design of Experiments.

STAT 203A Bayesian Statistics I 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160C or equivalent. Subjective probability, Renyi axiom system, Savage axioms, coherence, Bayes theorem, credibility intervals, Lindley paradox, empirical Bayes estimation, natural conjugate priors, de Finetti's theorem, approximation methods, Bayesian bootstrap, Bayesian computer programs.

STAT 203B Bayesian Statistics II 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 203A. Assessing priors, nonparametric density estimation for expert group judgements, Bayesian regression, Bayesian analysis of variance, Bayesian regression with correlated disturbances and heteroscedasticity, Bayesian inference in time series models, Bayesian classification, Bayesian inference in spatial statistics, Bayesian factor analysis, disputed authorship.

STAT 204A Advanced Design and Analysis of Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 202C or equivalent, graduate standing; or consent of instructor. Topics include block, row-column, crossover and repeated measure designs; factorial experiments; confounding; fractional factorials; response surface designs; method of steepest ascent; canonical representation; rotatable, minimum bias, variance, and mean square error designs.

STAT 204B Advanced Design and Analysis of Experiments 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 204A or equivalent, graduate standing; or consent of instructor. Topics include mixture experiments; split-plot; optimum design theory; locally optimal designs; binomial experiments; dose response experiments; group sequential and time sequential design and analysis for failure time end points; adaptive designs.

STAT 205 Discrete Data Analysis 4 Lecture, 3 hours; discussion 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C or equivalents; or consent of instructor. Contingency tables, log-linear models, information theory models, maximum likelihood estimation, goodness of fit, measures of association, computational procedures.

STAT 206 Statistical Computing 4 Lecture, 3

hours; discussion, 1 hour. Prerequisite(s): STAT 160C or consent of instructor. STAT 206 online section; enrollment in the Online-Master-in-Science in Engineering program. Topics include statistical programming, simulation studies, smoothing and density estimation, generating random variables, optimization, Monte Carlo methods, Bootstrap, permutation methods, cross-validation.

STAT 207 Advanced Statistical

Computing 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 201A and STAT 206 or equivalents; or consent of instructor. Topics include computational aspects of optimization; numerical integration; Advanced Monte Carlo methods; expectation maximization (EM) algorithm; Markov chain and Monte Carlo methods; and other current computational methods.

STAT 208 Statistical Data Mining

Methods 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 201A, STAT 201B, STAT 202A or equivalents; or consent of instructor. Covers principle data-mining methodologies and applications. Includes Bayes and LDA classifiers, logistic regression and neural network classifiers, support vector classifiers, classification trees, predictive modeling, ridge and lasso regressions, k-means and Dendrogram clustering methods, business analytics and mining association rules. Features R and SAS programming language.

STAT 209 Software Tools For Big Data

Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 206, STAT 208; graduate standing; or consent of instructor. Introduction to modern software tools for big data analytics and visualization, supervised and unsupervised statistical learning, database management systems, and parallel and distributed computing. Includes hands-on exercises on the aforementioned topics using R, Python, and SQL. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 210A Advanced Theory of Probability and Statistics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 201C or equivalent; or consent of instructor. Topics include measure spaces; measure integration; convergence theorems; absolute continuity; product spaces; Tonelli-Fubini theorems; convolutions and transforms; probability spaces; and existence and extension theorems. Also covers inequalities; independence; conditional probability and expectation; convergence concepts; laws of large numbers; weak convergence; and central limit theorem. Credit is not awarded for STAT 201A if it has already been awarded to STAT 210A if STAT 210A was taken prior to Fall 2013.

STAT 210B Advanced Theory of Probability and Statistics 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 210A. Topics include estimation, decision theory, Bayes and empirical Bayes rules, and efficiency. Credit is not awarded for STAT 201B if it has already been awarded to STAT 210B if STAT 210B was taken prior to Fall 2013.

STAT 215 Stochastic Processes 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT

160A, STAT 160B, STAT 160C, STAT 161. The Markov property; Markov chains; Markov processes and Poisson processes. Birth and death models. Queues. Random walks. Renewal processes. Wiener processes and diffusion.

STAT 216A Time Series Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C, STAT 161, or equivalents. Topics include stationary processes, autoregressive-moving average (ARIMA) processes, trend, seasonality, model building, estimation and forecasting, and spectral analysis and estimation.

STAT 216B Time Series Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 216A or consent of instructor. Topics include spectral analysis and estimation, higher-order spectral analysis, Kalman filtering and prediction, and nonlinear, nonstationary, and non-Gaussian time series.

STAT 217 Mixture Models and Their

Applications 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170A, STAT 171, STAT 201C or equivalent. An introduction of mixture models (also known as latent class models or unsupervised learning models). Includes expectation-maximization (EM) algorithm, mixtures of regression models, and their applications such as clustering and density estimation.

STAT 218 Survival Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170A; graduate standing; or consent of instructor. Introduction to common statistical concepts and methods for analyzing time-to-event data. Topics include survival and hazard functions, censoring and truncation, Kaplan-Meier estimator, log-rank test, Cox proportional hazards model and partial likelihood, variants of Cox model, and alternatives to Cox model. May be taken Satisfactory (S) or No Credit (NC) with consent of instructor and graduate advisor.

STAT 220A Multivariate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C, or equivalents; familiarity with matrix algebra. Topics include algebra and calculus of vectors and matrices, special multivariate distributions (Normal, Wishart, Hotelling's T-squared, multivariate T, multivariate log-normal, etc).

STAT 220B Multivariate Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 220A or consent of instructor. Topics include categorical dependent variable regression, loglinear models, inference in the multivariate normal distribution, multivariate multiple regression, hypothesis testing, likelihood ratio tests, multivariate analysis of variance and covariance, principal components analysis, factor analysis, and classification and discrimination models.

STAT 230 Sampling Theory 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160C. Covers the theory of stratified, ratio, and regression methods of estimation and cluster and double sampling. Includes the concept of sufficiency and its applications from finite populations, nonsampling errors, estimation of response bias and of optimum number of interviewers, and sampling inspection.

STAT 231A Statistics For Biological

Sciences 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 100B or equivalent or consent of instructor; graduate standing in Biochemistry and Molecular Biology; Biomedical Sciences; Botany; Cell, Molecular, and Developmental Biology; Entomology; Environmental Toxicology; Genetics, Genomics, & Bioinformatics; Evolution, Ecology, and Organismal Biology; Microbiology; Nematology; Neuroscience; Plant Biology; Plant Genetics; Plant Pathology; Plant Science. Covers one- and two-sample tests, one- and two-way analysis of variance, multiple comparison, simple and multiple linear regression, nonparametric statistics, and categorical data.

STAT 231B Statistics For Biological

Sciences 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): MATH 031; or equivalent; STAT 231A or consent of instructor; graduate standing in Biochemistry and Molecular Biology; Biomedical Sciences; Botany; Cell, Molecular, and Developmental Biology; Entomology; Environmental Toxicology; Genetics, Genomics, & Bioinformatics; Evolution, Ecology, and Organismal Biology; Microbiology; Nematology; Neuroscience; Plant Biology; Plant Genetics; Plant Pathology; or Plant Science. Covers logistic regression, analysis of covariance, advanced experimental designs, randomization, bootstrapping, jackknifing, and other procedures.

STAT 232 Statistics For Business

Analytics 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): STAT 167; or equivalent; graduate standing; or consent of instructor. Focuses on computing techniques and statistical decision-making approaches related to business analytics. Offers hands-on experience in database operations using SQL; state-of-the-art statistical software R; the interface between SQL and R; data operations and visualization; variable selection (feature mining); regression; and forecasting.

STAT 240 Nonparametric Methods 4 Lecture, 3 hours; consultation, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C. Theory of distribution-free statistics, ranking statistics, rank correlation, U-statistics. Nonparametric point and interval estimation. Empirical distribution function methods. Combinatorial problems; runs, matching, occupancy; limiting distributions.

STAT 251 Statistics Colloquium 1 Colloquium, 1.5 hours. Prerequisite(s): consent of instructor. Presentation of current research in statistics by faculty, advanced graduate students, and guest lecturers. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

STAT 255 (E-Z) Seminar On Topics in Applied

Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170B; graduate standing. Discussions and lectures by graduate students and faculty on topics related to student and faculty research. In some courses students will receive letter grades only. In others students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade; no petition is required, but students must see instructor for grading basis. The department will maintain a listing of all 255 segments and their unit value and grading basis.

STAT 255G Advanced Linear and Generalized Linear Models 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 170B or consent of instructor. Covers linear models; theory of least squares; general prediction theory; testing lack of fit; model assessment and selection; mixed models and variance components; collinearity and alternative estimates; generalized linear models; lasso for linear models and generalized linear models; and Bayesian linear models.

STAT 255I Seminar in Order

Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160C and graduate standing. Basic distribution theory of order statistics. Bounds and approximations for moments of order statistics. Inference using order statistics. Record values, concomitants, and outliers. Asymptotic theory. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is necessary.

STAT 255J Longitudinal Data Analysis 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 171 or equivalent or consent of instructor. Topics include linear mixed effects models; generalized linear models; nonlinear mixed effects models; repeated measures; ANOVA/MANOVA; graphical data exploration; correlation structures; parameter estimation/testing inference; and model selection, diagnostics, and limitations.

STAT 255K Inference For Stochastic

Process 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Maximum likelihood estimation for Markov chains, branching processes, and general stochastic processes; properties of maximum likelihood estimates: likelihood ratio test for Markov chains; and sequential probability ratio tests for some stochastic processes. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

STAT 255M Industrial Statistics 4 Seminar, 3 hour; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT 160B, STAT 160C, STAT 170A, STAT 170B, STAT 170, STAT 171 and graduate standing. Industrial experiments, evolutionary operations, quality assurance, on-line and off-line quality improvement, signal-to-noise ratios, performance criteria, control charts, acceptance sampling, and basic concepts of reliability. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

STAT 255N Seminar in Advanced

Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing. Analysis of data, taking account of spatial variations; optimal selection of sample sites; related design considerations; appropriate estimation techniques; variogram and covariance functions estimation using residuals; and practical illustrations. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

STAT 255Q Reliability and Life Testing

Models 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): STAT 160A, STAT

160B, STAT 160C and graduate standing. Structural properties and reliability of coherent systems; cumulative-damage models; fault tree analysis; renewal theory in replacement models; maintenance and replacement models; availability theory; limit distributions for series and parallel systems; censored sampling.

STAT 255R Statistics For Epidemiological

Studies 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 160C, STAT 171, or equivalents or consent of instructor. An introduction to statistical methods for detecting and monitoring disease outbreaks. Focuses on the methods currently in use and the latest developments in literature. Includes univariate and multivariate temporal methods, as well as spatio-temporal methods. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination.

STAT 255S Advanced Topics in Health

Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 160C, STAT 171 or equivalents; or consent of instructor. Topics in health statistics essential for statisticians in the health field. Includes life tables, survival analysis, introduction to epidemiology and intermediate biostatistics. Students may receive either a letter grade or Satisfactory (S) or No Credit (NC) grade. See instructor for grading basis; no petition is required.

STAT 255T Modern Nonparametric

Statistics 4 Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): graduate standing; STAT 160C or equivalent or consent of instructor. Addresses topics related to modern nonparametric statistics. Includes nonparametric density estimation, nonparametric regression, permutation test, bootstrap, and multivariate nonparametric methods. Normally graded Satisfactory (S) or No Credit (NC), but students may petition the instructor for a letter grade on the basis of assigned extra work or examination.

STAT 288 Literature Seminar 1

Seminar, 1 hour. Students will make oral presentations summarizing important research papers in the statistics literature. All graduate students are encouraged to participate. Topics may vary each term. Graded Satisfactory (S) or No Credit (NC).

STAT 290 Directed Studies 1 to 6

Prerequisite(s): graduate standing and consent of instructor. Individual studies on specially selected topics in statistical applications. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

STAT 291 Individual Studies in Coordinated

Areas 1 to 6 Consultation, 1 to 6 hours. Prerequisite(s): graduate standing. A program of studies designed to assist candidates who are preparing for examinations. Open to M.S. and Ph.D. students; does not count toward the unit requirement for the M.S. degree. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

STAT 292 Concurrent Analytical Studies 1

to 4 Research, 3 to 12 hours. Prerequisite(s): consent of instructor and concurrent enrollment in 100-series course. To be taken on an individual basis. Student will complete a

graduate paper related to the 100-series course. Graded Satisfactory (S) or No Credit (NC). May be repeated for credit.

STAT 293 Methods in Applied

Statistics 4 Lecture, 3 hours; discussion, 1 hours. Prerequisite(s): STAT 201C, STAT 202C or equivalent, or consent of instructor. Illustrates problems in interdisciplinary collaborations. Motivates the study and application of advanced statistical methods in applied statistics. Course is repeatable to a maximum of 8 units

STAT 297 Directed Research 1 to 6

Research, 3 to 18 hours. Prerequisite(s): graduate standing and consent of instructor. Directed research in applications of statistics in biological studies, including computer simulation. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

STAT 299 Research For Thesis Or Dissertation 1

to 12 Research, 3 to 36 hours. Prerequisite(s): graduate standing and consent of instructor. Original research in an area selected for the advanced degree. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

Professional Course

STAT 302 College Teaching Practicum 1 to

4 Practicum, 3 to 12 hours. Prerequisite(s): graduate standing and consent of instructor. Required of all teaching assistants in the department. Credit not applicable to graduate unit requirements. Supervised teaching in college level classes under the supervision of the course instructor. Graded Satisfactory (S) or No Credit (NC). Course is repeatable.

THEATRE, FILM AND DIGITAL PRODUCTION

Subject abbreviation: TFDP College of Humanities, Arts, and Social Sciences

Rickerby Hinds, M.F.A., Chair
Department Office, 124 Arts
(951) 827-5568; theatre.ucr.edu

Professors

Patricia Cardoso, M.F.A.
Charles Evered, M.F.A.
Rickerby Hinds, M.F.A.
Erith Jaffe-Berg, Ph.D.
Stuart Krieger, B.A.
Bella Merlin, Ph.D.
Robin Russin, M.F.A.

Professors Emeriti

D. Eric Barr, M.F.A.
Richard Hornby, Ph.D.
Richard D. Risso, Ph.D.
Haibo Yu, M.F.A.

Associate Professor

Keun-Pyo Park, M.F.A.

Assistant Professors

Donatella Galella, Ph.D.
Kimberly Guerrero, M.F.A.

LPSOE

Annika Speer, Ph.D.

Continuing Lecturers

Kathryn Anger, M.F.A.
Michael Bucklin, M.F.A.
Louis Carazo, M.F.A.

Major

The Department of Theatre, Film and Digital Production offers a B.A. in Theatre, Film and Digital Production. The major focuses on three broad areas of theatre and film: literature, history, and criticism; performance, design, direction, and technology; and the elements of production. Students have the opportunity to write, perform, direct, and design. Four stages are available for rehearsals and performances: the 500-seat proscenium University Theatre, the 150-seat Studio Theatre in the Arts building with state-of-the-moment equipment for facilities, the 120-seat Rehearsal Lab, and the 50-seat Barn Theatre.

Students are able to practice acting in faculty-directed shows, student productions, and class presentations. Special projects and studies are offered for advanced students to produce an original work or to study in more depth acting, directing, scenic design, or playwriting.

As part of the Theatre, Film and Digital Production Department's ongoing goal to provide a comprehensive and world-class program in the performing arts, a **Film Making Track** is offered for students who are primarily interested in pursuing the goal of becoming filmmakers. In addition to taking classes in filmmaking, screenwriting, acting, and technology, students will also take classes in literature and theory as requirements rather than having to fit them in as often unavailable electives.

Student assistantships, work-study, Gluck Fellowships, and scholarships such as the Chancellor's Performance Award are available to students. For further information, call the Theatre, Film and Digital Production Department, (951) 827-5568.

University Requirements

See Undergraduate Studies section.

College Requirements

See College of Humanities, Arts, and Social Sciences, Colleges and Programs section.

Major Requirements

The major requirements for the B.A. degree in Theatre, Film, and Digital Production are as follows:

Lower-division requirements (9 units)

1. TFDP 099
2. TFDP 020
3. Either TFDP 010, TFDP 021, TFDP 022, TFDP 050, TFDP 066, or TFDP 067

Track 1: Literature, History, Criticism and Dramaturgy Upper-division requirements (40/44 units)

1. **Literature, History, Criticism requirement (20 units)**
 - a) **Literature, History, and Criticism emphasis (12 units):** TFDP 100, TFDP 120A, TFDP 120B
 - 1) **Eight (8) additional units from** TFDP 121, TFDP 122, TFDP 123, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 127, TFDP 191 (E-Z)
 - b) **Dramaturgy emphasis (12 units):** TFDP 100, TFDP 120A, TFDP 120B
 - 1) **Eight (8) additional units from** TFDP 121, TFDP 122, TFDP 123, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 127, TFDP 191 (E-Z)
2. **Twelve (12) units from** TFDP 101, TFDP 102, TFDP 109, TFDP 110A, TFDP 115, TFDP 126A, TFDP 126B, TFDP 150A, TFDP 150B, TFDP 165A, TFDP 166A, TFDP 166B, TFDP 166C, TFDP 167, TFDP 169
3. **Production requirement (8/12 units)**
 - a) **Literature, History, and Criticism emphasis:** Eight (8) units from TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175
 - b) **Dramaturgy emphasis:** TFDP 174 (4 units) and eight (8) units from TFDP 170, TFDP 171, TFDP 172, TFDP 173, or TFDP 175

Track 2: Writing for the Performing Arts

Upper-division requirements (44 units)

1. **Literature, History, and Criticism (12 units)**
 - a) **TFDP 120A, TFDP 120B (8 units)**
 - b) **Four (4) units from** TFDP 122, TFDP 123, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 127, TFDP 191 (E-Z)

2. Writing for the Performing Arts (24 units)

- a) TFDP 164A, TFDP 164B, TFDP 164C
- b) TFDP 166A, TFDP 166B, TFDP 166C

3. Four (4) additional units from TFDP 110A, TFDP 110B, TFDP 114, TFDP 115, TFDP 150A, TFDP 150B, TFDP 163, TFDP 167, TFDP 168, TFDP 198-I

4. Production requirement: Four (4) units from TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Track 3: Film Making

Upper-division requirements (40 units)

1. **Film Making (16) units from** TFDP 154, TFDP 155, TFDP 156A, TFDP 156B, or TFDP 157
2. **Screenwriting (8) units from** TFDP 166A and TFDP 166B
3. **Four (4) units from** TFDP 101, TFDP 102, TFDP 109, TFDP 115, TFDP 150A, TFDP 150B, TFDP 163, TFDP 165A, TFDP 165B, TFDP 166C, TFDP 167, TFDP 168, TFDP 198-I
4. **Production requirement (12) units from** TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Track 4: Acting and Directing

Upper-division requirements (52 units)

1. **Acting/Directing (20 units)**
 - a) **Acting emphasis:** TFDP 109, TFDP 110A, TFDP 110B (12 units)
 - 1) **Eight (8) additional units from** TFDP 111A, TFDP 111B, TFDP 111C, TFDP 112 (E-Z), TFDP 113 (E-Z), TFDP 138
 - b) **Directing emphasis:** TFDP 109, TFDP 150A, TFDP 150B (12 units)
 - 1) **Eight (8) additional units from** TFDP 111A, TFDP 111B, TFDP 111C, TFDP 112 (E-Z), TFDP 113 (E-Z), TFDP 138
2. **Literature History and Criticism (16 units)**
 - a) **TFDP 100, TFDP 120A, TFDP 120B (12 units)**
 - b) **Four (4) units from** TFDP 121, TFDP 122, TFDP 123, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 115, TFDP 191 (E-Z)
3. **Electives (4) units from** TFDP 066, TFDP 102, TFDP 110A, TFDP 110B, TFDP 111A, TFDP 111B, TFDP 111C, TFDP 136, TFDP 150A, TFDP 150B, TFDP 161, TFDP 163, TFDP 167, TFDP 168, TFDP 198-I
4. **Production requirement (12) units from** TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Track 5: Production and Design

Upper-division requirements (44 units)

1. **Production and Design (16 units)**
 - a) **TFDP 101 (4 units)**
 - b) **Twelve (12) units from** TFDP 131, TFDP 132, TFDP 133, TFDP 135, TFDP 136, TFDP 142, TFDP 143, TFDP 144,

TFDP 145, TFDP 149, TFDP 180 (E-Z)

2. Literature, History, and Criticism (12 units)

a) TFDP 100 (4 units)

b) Eight (8) units from TFDP 120A, TFDP 120B, TFDP 121, TFDP 122, TFDP 124A, TFDP 124B, TFDP 125 (E-Z), TFDP 191 (E-Z)

3. Four (4 units) from TFDP 109, TFDP 115, TFDP 150A, TFDP 150B, TFDP 163, TFDP 165A, TFDP 165B, TFDP 167, TFDP 168, TFDP 198-I

4. Production requirement (12) units from TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174, or TFDP 175

Minor

The minor in Theatre, Film and Digital Production follows the structure of the major requirements by exposing students to each of the areas that are essential to the creation of theatre, with the opportunity to take an additional course for depth or more exposure. The inclusion of production courses TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174 and TFDP 175 gives the students the opportunity to put course work into the proper context and provides them with a practical understanding of the workings and problems of production. The minor in Theatre, Film and Digital Production provides students with a basic understanding in major areas of study including theatre literature, performance, and design. It also introduces the nonmajor to the discipline, providing breadth for those students majoring in unrelated disciplines.

Requirements for the minor (20 units)

1. TFDP 100, TFDP 101, TFDP 109

2. Four (4) units from TFDP 170, TFDP 171, TFDP 172, TFDP 173, TFDP 174 or TFDP 175

3. One 4-unit upper-division course selected from the department's Literature, History, Criticism area or the Performance, Direction, Playwriting, Screenwriting, Design, and Theatre Technology area.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Education Abroad

Education Abroad is an excellent opportunity to learn more about another country and its culture while taking courses to earn units toward graduation. Students should plan study abroad well in advance to ensure that the courses taken fit with their overall program at UCR. Consult the departmental student affairs officer for assistance. For further details, visit Education Abroad at ea.ucr.edu or call (951) 827-4113.

See Education Abroad in the Educational Opportunities section in the beginning of this catalog.

Graduate Program

The Department of Theatre, Film and Digital Production in conjunction with the Department of Creative Writing offers the M.F.A. degree in Creative Writing and Writing for the Performing

Arts. See Creative Writing and Writing for the Performing Arts in this catalog for more information and program requirements.

Lower-Division Courses

TFDP 010 Introduction to Acting 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to acting in theatre, film, television, and performance art. Through exercises, lectures, videos, and on-site visits, explores the work of actors and their collaborations with other artists in historical and contemporary settings. Recommended for nonmajors.

TFDP 020 Production Techniques For Theatre, Film, and Television 4 Lecture, 3 hours:

laboratory, 3 hours. Prerequisite(s): none. A study of technical production practices, equipment, and architecture for theatre, film, and television design. Explores the application of production practices and principles of stagecraft in relation to scenic, costume, lighting, sound, and projection design.

TFDP 021 Introduction to Latina/o Cultural

Production On Stage and Screen 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to Latino theatre and film from 1965 to the present. Examines the major works of playwrights and important films and videos.

TFDP 022 Shakespeare in

Performance 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): none. A study of contemporary Shakespearean production on stage and film. Considers the problems of adapting the text, creating visual elements, speaking the language, and performing the characters. Explores a wide range of performance styles. Credit is awarded for only one of ENGL 018 or TFDP 022.

TFDP 042 Costume Construction 4 Lecture, 2 hours; laboratory, 6 hours. Prerequisite(s): none.

A theoretical and practical study of theatrical costume production. Topics include draping and flat pattern development, fabric, fitting, and sewing techniques. Costume projects are required. Sewing skills helpful but not essential.

TFDP 044 Makeup For Theatre, Film, and

Television 4 Discussion, 4 hours. Prerequisite(s): none. A study of the theory and practice of makeup for theatre, film, and television. Includes demonstrations by industry professionals.

TFDP 050 Public Speaking 4 Lecture, 3 hours; studio, 3 hours. Covers the principles and practice of effective speech composition and delivery. Provides the communicative skills essential in professional careers and community life. Credit is awarded for only one of TFDP 050 or TFDP 050S.

TFDP 050S Public Speaking 4 Lecture, 3 hours; discussion 1 hour. Covers the principles and practice of effective speech composition and delivery. Provides the communicative skills essential in professional careers and community life. Credit is awarded for only one of TFDP 050 or TFDP 050S.

TFDP 052 Advanced Public Speaking 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): TFDP 050 or TFDP 050S or consent of instructor. An intense practice-based laboratory that builds on Public Speaking

(TFDP 050). Designed to strengthen practical and professional skills in conducting research, writing, and presenting. Includes incorporating visual aids into presentations, participating in debate, preparing for the written work and impromptu speaking one encounters in job interviews.

TFDP 066 Screenwriting: How Movies

Work 4 Lecture, 3 hours; discussion, 1 hour; screening, 8 hours per quarter. Prerequisite(s): none. An Introduction to writing for stage and screen. Addresses structure, character, dialogue, theme, and story. Cross-listed with CRWT 066, and MCS 066.

TFDP 067 Introduction to Playwriting and Screenwriting 4 Workshop, 3 hours; written

work, 3 hours; screening, group activity, 3 hours/quarter; screening, individual activity, 3 hours/quarter. Prerequisite(s): CRWT 066/MCS 066/TFDP 066 with a grade of "C-" or better or consent of instructor. An introduction to writing for stage and screen. Addresses structure, character, dialogue, theme, and story.

TFDP 099 Introduction to the Theatre

Department 1 Lecture, 1 hour. Prerequisite(s): none. An introduction to the faculty and areas of study offered by the Department of Theatre. Promotes a better understanding of undergraduate opportunities, graduate training, and careers in the entertainment industry. Graded Satisfactory (S) or No Credit (NC).

Upper-Division Courses

TFDP 100 Play Analysis 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. In-depth analysis of selected plays. Explores structure, character, and imagery.

TFDP 101 Introduction to Design 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A comprehensive introduction to design for theatre, film, and television. Topics include design principles and practice of set, costume, and lighting; the history of design; and conceptual approaches and research.

TFDP 103 Introduction to

Dramaturgy 4 Seminar, 4 hours. Prerequisite(s): TFDP 100; upper-division standing. Introduction to theatre dramaturgy, script analysis and advising for production. Topics include analyzing a dramatic text, researching production histories, preparing research materials for a production, season planning, lobby display, and working with new work.

TFDP 109 Acting: the Process 4 Lecture, 3 hours; studio, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. A comprehensive introduction to the process of acting. Topics include imagination, communication, and the psychophysical development of the actor's instrument. Explores basic approaches to acting process through monologues and introductory scene study.

TFDP 110A Acting: Fundamentals 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 109 or consent of instructor. A study of the acting fundamentals and the actor's basic toolkit. Topics include text analysis, actions

and activities, problems and objectives, and audition technique. Through audition practice, monologues, and scene study, explores basic approaches to characterization using methods such as Stanislavsky's 'system', the American Method, and/or Meisner Technique.

TFDP 110B Acting: Techniques 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 110A or consent of instructor. An examination of acting techniques from various global practitioners. Topics include advanced psychophysical work, advanced text analysis, the architecture of the stage space, and the actor-audience relationship in dynamic storytelling. Explores analysis and performance of scenes from a range of world dramas.

TFDP 111A Advanced Acting: Shakespeare and the Power of Language 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 110B; or consent of instructor. Advanced scene study in classic theatre to develop the actor's skills with heightened language. Emphasizes works by Shakespeare. Topics include performance styles and working on text, voice, and the power of images.

TFDP 111B Advanced Acting: Acting With Facts and Playing With the Truth 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 111A; or consent of instructor. Advanced scene study in world theatre of the realistic mode to expand the actor's emotional repertoire, character range, and worldview. Includes in text and subtext, performance styles in fact-based and verbatim dramas, and the nature of truth in acting. Explores realism from Anton Chekhov to Anna Deavere Smith.

TFDP 111C Advanced Acting: Acting For the Camera 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 111B; or consent of instructor. A practical exploration of acting for camera. Topics include technicalities of performing for screen, adaptation of interpretative acting tools to performance from stage to screen, and auditioning for camera. Explores analysis of film/television scripts, recorded performance to camera, and analysis of iconic screen performances.

TFDP 111D The Business of Acting 4 Lecture, 2 hours; studio, 4 hours. Prerequisite(s): TFDP 109, TFDP 110A, TFDP 110B; TFDP 111A or TFDP 111B or TFDP 111C. Examines professional strategies of the working actor. Topics include analysis of the casting process, portfolio creation (headshot, resume, reel), audition techniques, and business strategies and protocols.

TFDP 112 (E-Z) 4 Lecture, 2 hours. Study in voice, vocal performance techniques, and theories for actors.

TFDP 112E Dramatic Interpretation 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Vocal presentation of text. Includes the use of various literary forms emphasizing rhythm, tonality, diction, imagery, focus, and phrasing as implements to convey the text, character, actions, and intentions.

TFDP 112F Voice and Diction 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): upper-division standing or consent of instructor.

The study of vocal production for actors. Focuses on breathing, relaxation, articulation, communication, and projection, enabling the actor to fill a theatre with clear, understandable speech. Also examines the International Phonetic Alphabet to assist in pronunciation.

TFDP 113 (E-Z) Movement For Actors & Performers - Stage Combat 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): restricted to class level standing of junior, or senior. A study of movement techniques and theories for actors and performers. F. Stage Combat; M. Mime; N. Nonverbal Theatre;

TFDP 114 Acting For Writers 4 Lecture, 2 hours; discussion, 2 hours; research, 2 hours. Prerequisite(s): CRWT 164C/TFDP 164C or TFDP 166C. Examines the theory and practice of acting to enable writers to better understand how language reflects character, as well as how actors turn the written word into spoken language. Includes text work and improvisation. Credit is awarded for only one of CWP 214 or TFDP 114.

TFDP 115 Hip Hop Theatre 4 Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides tools to create new work by using elements of hip hop culture such as Graffiti Art, Emceeing (rapping), Deejaying and Breakdancing as primary means of storytelling on stage. Explores theoretical aspects of hip hop culture and a working knowledge of playwriting, acting, directing, and design.

TFDP 120A Literature and History of the Theatre: the Classical Period Through the Italian Renaissance 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the literature and history of the theatre from the classical period through the Italian Renaissance. Focuses on analysis of representative plays, theatrical architecture, and production modes.

TFDP 120B Literature and History of the Theatre: the Elizabethan Period Through the Nineteenth Century 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the literature and history of the theatre from the Elizabethan period through the nineteenth century. Focuses on analysis of representative plays, theatrical architecture, and production modes.

TFDP 120C Literature and History of the Modern and Contemporary Theatre 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examines the literature and history of the modern and contemporary theatre. Focuses on analysis of representative plays, theatrical architecture, and production modes.

TFDP 121 Dramaturgy: World of the Play 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of a significant play in the context of the social, intellectual, and artistic movements of its time. Offered simultaneously with the Theatre Department's production of the play. May also consider related works and writings. Course is repeatable as content changes to a maximum of 8 units.

TFDP 122 Theatre For Social Change 4 Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines theatre for social change as created by grassroots theatrical organizations. Focuses on how community-based theatre groups develop works and how theatre in public or private spaces redefines traditional theatre practices.

TFDP 123 Asian/American Theatre: Disorienting the Stage 4 Seminar, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to the histories, theories and texts of Asian/American theatre. Explores themes such as Orientalism, imperialism, and immigration.

TFDP 124A American Theatre, 1900-1945 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of the major American playwrights, theatrical figures, and movements from 1900 through World War II.

TFDP 124B American Theatre, 1945-Present 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Examination of the major American playwrights, theatrical figures, and movements from World War II to the present.

TFDP 125 (E-Z) History of the Theatre 4 Lecture, 4 hours. A study of the plays, playhouses, and players of the following theatrical eras: E. Classical Theatre; F. Medieval Theatre; G. Renaissance Theatre; I. Romantic Theatre; J. Realistic Theatre; K. Contemporary Theatre; M. American Theatre; N. Neo-classic Theatre; P. American Theatre & Drama/grt Dprsn; S. American Musical Theatre; T. Asian Theatre; X. Experimental Theatre In America; Course is repeatable.

TFDP 126A History of Dress 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the psychological, sociological, and economic history of fashion and dress from 4000 B.C. to A.D. 1700.

TFDP 126B History of Dress 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. A study of the psychological, sociological, and economic history of fashion and dress from A.D. 1700 to the present.

TFDP 127 Theories of the Modern Theatre 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the major theories underlying twentieth-century theatre practice. Special attention is paid to the ideas of important theatre artists such as Konstantin Stanislavsky, E. Gordon Craig, Antonin Artaud, and Bertolt Brecht.

TFDP 128 Seminar On the Life and Work of Tomás Rivera 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): consent of instructor. Introduction to the life and work of Tomás Rivera, UCR Chancellor (1979-1984) and foundational Chicana/o author. Explores the breadth of Rivera's writing (novel, poems, short stories, speeches) and his contributions through administrative leadership in higher education as well as personal papers in the UCR Tomás

TFDP 129 History of the Modern Theatre:

Nineteenth Century - Present 4 Lecture, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing. Introduces the main developments in modern theatre from a global perspective. Explores major historical developments in theatre as a response to globalization, colonization, feminism, and other cultural developments. Course is repeatable as content changes to a maximum of 8 units.

TFDP 131 Sound Design For Theatre, Film, and Television 4

Lecture, 2 hours; workshop, 2 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces sound design for theatre, film, and television productions. Covers topics such as critical listening, psycho acoustics, computer editing, sound recording and processing, and copyright laws pertaining to sampling.

TFDP 132 Lighting Design For Theatre, Film, and Television 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 020 or consent of instructor. A study of design, technical production practices, and equipment for lighting in theatre, film, and television. Explores the application of production practices and principles of designing light for entertainment. Develops skills associated with the creation and execution of a lighting design.

TFDP 133 Scene Design For Theatre, Film, and Television 4

Lecture, 4 hours. Prerequisite(s): TFDP 101. An introduction to basic skills and techniques for theatre design and to issues of contemporary design for theatre, film, and television. Topics include sketching, rendering, drafting, and model making.

TFDP 135 Costume Design For Theatre, Film, and Television 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): TFDP 101. A study of theory, principles, and practice of costume design for theatre, film, and television.

TFDP 136 History of Theatre Design 4

Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Explores the development of scenic, costume, lighting, and sound design in theatre. Examines different styles of theatrical aesthetics throughout history focusing on Western culture.

TFDP 138 Art Direction For Film and Television 4

Lecture, 3 hours; individual study, 1.5 hours; screening 1.5 hours. Prerequisite(s): TFDP 101 or consent of instructor. An introduction to the design principles and methods professional art directors use in the entertainment industry. Projects related to feature film and television design explore current methods of presentation and composition for the film and television camera.

TFDP 143 Scene Painting 4

Lecture, 2 hours; studio, 2 hours; individual study, 3 hours. Prerequisite(s): TFDP 099, TFDP 102; or consent of instructor. Explores and applies techniques and materials used to create the various elements of scene design. Includes methods of set preparation, coating, mixing, palette preparation, spraying, transfer, texturing, finishing, and wall papering.

TFDP 145 Computer-Aided Design (cad) For

Theatre, Film, and Television 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 101 or TFDP 020 or consent of instructor. Explores the established computer-aided design (CAD) applications in the design industry: 3RD Studio Max, Adobe Photoshop, and Vectorworks.

TFDP 149 Stage Management 4

Lecture, 4 hours. Prerequisite(s): TFDP 099. Explores the role and function of the stage manager in theatrical production. Provides basic skills to work in the field of stage management emphasizing organization, documentation, and dissemination of information.

TFDP 150A Directing 4

Lecture, 3 hours; discussion 1 hour. Prerequisite(s): Restricted to class level standing of junior, or senior. Introduces directing for theater and film. Includes analyzing texts, preparing a rehearsal schedule, communicating with actors and designers, blocking scenes, utilizing space and lighting, and introducing concepts for directing projects. Also proposes various theories of directing.

TFDP 150B Directing 4

Lecture, 4 hours. Prerequisite(s): TFDP 150A or consent of instructor. An examination of the rehearsal process focusing on combining the elements of text, acting, and design.

TFDP 151 Transition to the Film

Industry 4 Lecture, 3 hours; research, 2 hours; screening, 1 hour; written work, 1 hour. Prerequisite(s): TFDP 155, TFDP 156A; restricted to class level standing of junior, or senior. Involves creating a plan for transition into professional life after college. Determines short and long-term career and academic goals and develops strategies to achieve them. Explores diverse avenues to enter the film industry.

TFDP 154 Introduction to Filmmaking 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces filmmaking, basic elements of film sets, functions and terminology of various roles on a film set, and mechanics of the film industry.

TFDP 155 Introduction to Digital Film

Production 4 Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): CRWT 066/MCS 066/TFDP 066 or upper-division standing or consent of instructor. Introduces the skills needed for making a narrative film. Also includes examining and utilizing scripts, cameras, lighting, sound, and editing. Includes filmmaking projects.

TFDP 156A Digital Film Production 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 155 with a grade of "C" or better or consent of instructor. Examines the techniques of narrative filmmaking and directing for the camera. Emphasizes the working relationship with actors.

TFDP 156B Digital Film Production 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 156A or consent of instructor. Examines the techniques of production and postproduction for narrative filmmaking. Emphasizes sound and editing processes.

TFDP 157 Introduction to Film Editing 4

Lecture, 3 hours; laboratory, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the art and craft of editing the

narrative film. Includes hands-on work in editing a montage, a short documentary, and a narrative fiction scene.

TFDP 158 Storytelling of Witness: Introduction to Documentary Theatre and Film 4

Lecture, 3 hours; screening, 2 hours; research, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. Introduces vocabulary, themes, genres, and methods of documentary storytelling in theater and film. Explores the evolution of documentary storytelling focusing on signature works by noted playwrights and filmmakers. Addresses craft, voice, and legacy of documentary storytelling from strictly recorded (verite, interview) to creatively devised narratives (post-event recreation, hybrid forms).

TFDP 159 Documentary Production 4

Workshop, 3 hours; laboratory, 3 hours. Prerequisite(s): TFDP 158. Creation of independent, low-budget documentaries through hands-on experience in pre- production, production, and post-production. Presents works in progress and finished pieces throughout the quarter, and considers peer feedback.

TFDP 160 The Filmmaker's Life 4

Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An overview of the various jobs (and their requirements) connected to the process of creating products for film and television entities.

TFDP 161 African American Drama 4

Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the major African American plays and playwrights from the 1800s to the present.

TFDP 162 Writing the Half-Hour Television

Comedy 4 Workshop, 3 hours; written work, 3 hours. Prerequisite(s): TFDP 166A or consent of instructor. Introduction to the style, form, content, and creation of a half-hour television comedy series.

TFDP 163 Writing the Short Film 4

Workshop, 3 hours; written work, 3 hours. Prerequisite(s): TFDP 166C or consent of instructor. Addresses the mechanical and creative components of crafting a screenplay for a short film.

TFDP 164A Beginning Playwriting 4

Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 056 or TFDP 100 or consent of instructor. Seminar in the practice of playwriting centering on the construction of a plot. Cross-listed with CRWT 164A.

TFDP 164B Intermediate Playwriting 4

Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 164A/TFDP 164A. Seminar in the practice of playwriting. Revisions of works in progress emphasizing character development and techniques for writing dialogue. Cross-listed with CRWT 164B.

TFDP 164C Advanced Playwriting 4

Seminar, 3 hours; discussion, 1 hour. Prerequisite(s): CRWT 164B/TFDP 164B. Seminar in the practice of playwriting. Includes playwrights' participation in staged readings of their work. With consent of instructor, course is repeatable to a maximum of 8 units. Cross-listed with CRWT 164C.

TFDP 165 Creating the Webseries 4

Workshop, 3 hours; written work, 1 hour. Prerequisite(s):

TFDP 166C. An introduction to the demands and processes of creating and writing a web series. Designed to produce a full season of fifteen to twenty five-minute episodes. Course is repeatable to a maximum of 8 units.

TFDP 166A Screenwriting:

Introduction 4 Lecture, 3 hours; extra reading, 3 hours; extra reading activity: outside reading consists of textbook assignments, film viewing and reading each other's work for comment and discussion. Prerequisite(s): CRWT 066/MCS 066/TFDP 066 or consent of instructor. Explores the fundamentals of screenwriting. Includes story development, plotting, and characterization as they are used in creating a complete script for television or feature film.

TFDP 166B Screenwriting: Outline to First Draft 4

Lecture, 3 hours; extra reading, 3 hours; extra reading activity: outside reading consists of screenplay texts, film viewing and reading each other's work for comment and discussion. Prerequisite(s): TFDP 166A or consent of instructor. Explores the fundamentals of screenwriting. Includes story development, plotting, and characterization as they are used in creating a complete script for television or feature film.

TFDP 166C Screenwriting: Rewrites and Writing For Television 4

Lecture, 3 hours; extra reading, 3 hours; extra reading activity: outside reading consists of screenplay texts, film viewing and reading each other's work for comment and discussion. Prerequisite(s): TFDP 166B or consent of instructor. Explores the fundamentals of screenwriting. Includes story development, plotting, and characterization as they are used in creating a complete script for television or feature film. Course is repeatable to a maximum of 8 units.

TFDP 167 Writing For Television: Creating the One-Hour Series Drama 4

Seminar, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Introduces the craft of writing for television focusing on production of original work. Includes writing a one-hour pilot, creating series guidelines, and formulating work leading to a 13-episode series. Course is repeatable to a maximum of 12 units.

TFDP 168 Writing For the Family

Audience 4 Lecture, 2 hours; discussion, 2 hours. Prerequisite(s): TFDP 166C. An introduction to the demands and challenges of writing film and television projects designed for the family audience.

TFDP 169 Rewriting the Script 4 Workshop, 4 hours. Prerequisite(s): CRWT 164C/TFDP 164C or TFDP 166C; consent of instructor is required for students repeating the course. Covers rewriting a full-length script (screenplay or play). Course is repeatable to a maximum of 8 units. Credit is awarded for only one of CWP 269 or TFDP 169.

TFDP 170 Performance in Production 1 to 4

Studio, 5 to 20 hours. Prerequisite(s): upper-division standing or consent of instructor. Students act in full productions. Students are cast in roles and throughout the rehearsal period are taught by the director how to perform their assigned roles in a professional manner. Course

is repeatable to a maximum of 12 units.

TFDP 171 Technical Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides training to serve in various capacities on theatre or film production crews. Includes work in assigned crew positions on departmental productions during pre-production, rehearsals, performances, and post-production. Course is repeatable to a maximum of 12 units.

TFDP 172 Design in Production 1 to 4 Studio, 5 to 20 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides training to be a designer on theatre or film productions. Includes work with a mentor designer on departmental productions throughout pre-production, production, and post-production. Course is repeatable to a maximum of 12 units.

TFDP 173 Management and Directing in Production 1 to 5

Studio, 5 to 25 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides training to become stage managers, production managers, and directors on theatre and film productions. Includes attending production meetings, rehearsals, and performances of departmental productions. Course is repeatable to a maximum of 12 units.

TFDP 174 Writing/Dramaturgy in Production 1 to 4

Studio, 5 to 20 hours. Prerequisite(s): upper-division standing or consent of instructor. Provides training to write scripts or serve as a dramaturge on theatre and film productions. Includes working with a mentor on departmental productions during the pre-production process and attending some rehearsals and performances. Course is repeatable to a maximum of 12 units.

TFDP 175 Fabrication in Production 1 to 4

Studio, 5 to 20 hours. Prerequisite(s): upper-division standing or consent of instructor. Teaches fabrication while working in the scene shop, costume shop, or the lighting/sound shop during the build process of theatre or film productions. Course is repeatable to a maximum of 8 units.

TFDP 176 Performing Arts of Asia 4 Lecture, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. A survey of music, dance, theatre, and ritual in four major geocultural regions of Asia: Central, East, South and Southeast. No Western music training is required. Course is repeatable to a maximum of 8 units. Cross-listed with ANTH 128, AST 128, and DNCE 128.

TFDP 177 Staging the Middle East 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. Examines the ways in which theatre, performance, and film engage with and critique the representations of peoples and cultures of the Middle East. Includes films and plays from the region as well as the work of Americans representing the Middle East. Credit is awarded for only one of TFDP 177 or TFDP 177S.

TFDP 177S Staging the Middle East 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-

division standing or consent of instructor. Examines the ways in which theatre, performance, and film engage with and critique the representations of peoples and cultures of the Middle East. Includes films and plays from the region as well as the work of Americans representing the Middle East. Credit is awarded for only one of TFDP 177 or TFDP 177S.

TFDP 180 (E-Z) Theatre Practicum 4 Discussion, 4 hours. Prerequisite(s): restricted to class level standing of junior, or senior. An investigation of theatrical production theories and practices. E. Contemporary Mexican Theatre; F. Musical Comedy; M. Arts Management; Q. Plays In Progress; R. New Plays; S. Improvisation;

TFDP 185 Arts, Management, and Community 4

Lecture, 4 hours. Prerequisite(s): upper-division standing or consent of instructor. An introduction to business and arts management including the study of film and television production, stage management, and music production. Offers hands-on experience for practicing management skills working in partnership with local organizations and artists of Riverside and the Inland Empire. Cross-listed with MUS 185. Credit is awarded for only one of MUS 185/TFDP 185 or MUS 185S/TFDP 185S.

TFDP 185S Arts, Management, and Community 4

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): upper-division standing or consent of instructor. An introduction to business and arts management including the study of film and television production, stage management, and music production. Offers hands-on experience for practicing management skills working in partnership with local organizations and artists of Riverside and the Inland Empire. Cross-listed with MUS 185S. Credit is awarded for only one of MUS 185/TFDP 185 or MUS 185S/TFDP 185S.

TFDP 190 Special Studies 1 to 5 Research, 3 to 15 hours. Prerequisite(s): consent of the chair of the department. Independent study and research by qualified undergraduate students under supervision of a faculty member. Course is repeatable to a maximum of 20 units.

TFDP 191 (E-Z) Seminar in Theatre: Hamlet: Who Is Hamlet, and Why Should You Care? 4

Seminar, 3 hours; extra reading, 3 hours. Covers various topics on a rotating basis. Includes playwriting, acting, directing, scenic design, theatre history, and dramatic literature. E. Hamlet; M. Amrcn Frntr In Amrcn Drama; N. Eugene O'Neill; S. Script To Production; T. Women In Theatre;

TFDP 195 Senior Thesis 1 to 4 Thesis, 3 to 12 hours. Prerequisite(s): senior standing; consent of Department Chair. Open by invitation only. Presentation of a significant piece of creative work with faculty supervision. Course is repeatable to a maximum of 8 units.

TFDP 198I Individual Internship in Theatre 1 to 12 Internship, 3 to 36 hours, reading and written work, 1-12 hours. Prerequisite(s): upper-division standing; consent of instructor. An internship in a theatre, television, or film production company. Includes work with directors or designers in one or more areas of professional production such as acting, design, costumes, lighting, and sound. Graded Satisfactory (S) or No Credit

(NC). Course is repeatable to a maximum of 16 units.

TFDP 199 Senior Research 1 to 4 Research, 3 to 12 hours. Prerequisite(s): consent of chair of the department. Research in the practice and/or theory of the theatre. Open to seniors by invitation only.

Committee in Charge

Jennifer Merolla, Acting Chair (Political Science)
Mohsen El-Hafsi (Oper & Supp Chain Mgmt)
Randolph C. Head (History)
Jeanette Kohl (Art History)
S. Karthick Ramakrishnan (Political Science)
Kurt A. Schwabe (Environmental Science)
Milagros Peña, Dean, *ex officio*

The UCR Washington Academic Internship Program provides undergraduate students with a multi-dimensional educational experience in Washington, D.C. Students undertake academic pursuits as well as cultural and social activities. The program combines course work with field research and internship experience. Students also have the opportunity to tour local sites and dialogue with distinguished professionals in the Speaker Series. For more information see UCR Washington Academic Internship Program in the front of this catalog.

Curriculum

The UCDC Program is open to all UCR undergraduate students with upper-division standing and a 3.0 cumulative GPA. All UCDC participants remain UCR students during the program. Students must be accepted into the UCDC program at UCR, be residents of the UC Washington Center, and enroll in an academic internship taking place in the Washington, D.C. region in order to participate in the UCDC curriculum.

During the Fall, Winter, and Spring quarters, students enroll in 12 to 16 units comprising internship units, a seminar, and an optional elective course. For summer enrollments, please consult with the program staff at UCR.

Internship (4-8 units)

The focal point of the academic program is the internship, which is based on the students' interests and major, and it is arranged before the student leaves for Washington, D.C. Students must enroll in a 198I course, which is usually taken in the student's major department. These

courses may be letter graded or S/NC depending on discipline. Visit ucdc.ucr.edu for sample internships.

Seminar in Washington, D.C. (4 units)

UCR students must enroll in a seminar from the UCDC 191 A-M series. Students meet weekly with an instructor and conduct research linked to their internship. Students must take seminars for a letter grade only, and should consult with their major department concerning the applicability of UCDC seminars to major requirements.

Elective (4 units)

Students choosing an elective may select courses from the UCDC 150-159 series. Students may take these courses for a letter grade or for S/NC by petition. Students should consult with their major department about the grading basis and about the applicability of UCDC electives to major requirements.

Further information on the courses available each quarter is available at ucdc.ucr.edu. Students should consult with their departmental advisors and with the program staff before enrolling.

Upper-Division Courses

UCDC 150 Special Topics in Political

Science 4 Lecture, 3 hours; term paper, 2 hours; outside research, 1 hour. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Addresses topics in Political Science from the perspective of politics in Washington, D.C. Topics vary each term and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 151 Special Topics in International

Relations 4 Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Addresses topics in International Relations from the perspective of politics in Washington DC. Topics vary each term and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 152 Special Topics in Social

Science 4 Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Addresses topics in the social sciences from the perspective of Washington DC. Topics vary each term and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 153 Special Topics in Economics and

Business 4 Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Research 1 hour. Prerequisite(s): admission to the UCR Washington Center Program. Addresses topics in business and economics from the perspective of Washington, DC. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 154 Special Topics in Arts 4 Lecture, 3 hours; research, 2 hours; field trip, 1 hour.

Prerequisite(s): admission to the UC Washington Center program. Addresses topics in the arts from the perspective of Washington, DC. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 155 Special Topics in

Humanities 4 Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): admission to the UC Washington Center program. Addresses topics in the humanities from the perspective of Washington, DC. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 156 Special Topics in History 4

Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): admission to the UC Washington Center program. Addresses topics in the humanities from the perspective of Washington, DC. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 157 Special Topics in Media and

Communications 4 Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): admission to the UC Washington Center program. Addresses topics in the media and communications from the perspective of Washington, DC. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 158 Special Topics in Science,

Technology, Engineering and Mathematics 4 Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): admission to the UC Washington Center program. Addresses topics in the natural sciences, technology, engineering and mathematics from the perspective of Washington, DC. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 159 Washington Special Topics 4

Lecture, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): admission to the UC Washington Center program. Addresses topics relevant to Washington DC from an interdisciplinary or non-disciplinary perspective. Topics vary each term, and may be viewed at www.ucdc.edu. Course is repeatable as topics change to a maximum of 8 units.

UCDC 191A Seminar For General

Research 4 Seminar, 3 hours; written work, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Complements the internship experience of participants in the UCDC program by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191B Seminar On Congress 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington

Center program. Explores how Congress works, including representation of constituents, congressional elections, internal rules, the role of parties, relations with the executive branch, and policymaking. Complements the internship experience of participants in the UCDC program who intern on Capitol Hill. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191C Seminar On the Presidency and Executive Branch 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UC Washington Center Program. Examines American presidential leadership, the evolving role of the presidency in American culture. Introduces students to major thematic debates that define presidential politics. Complements the internship experience of participants in the UCDC program who intern in the Executive Branch. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191D Seminar in Environmental Policy 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Covers theoretical perspectives and methodological approaches used in determining the environmental sustainability of various public policies. Complements the internship experience of students whose internships relate to the environment by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191E Seminar in International Policy 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Investigates the complex policy community-including governmental, non-governmental, and intergovernmental actors-that engages in forging international policy. Complements the internship experience of students whose internships relate to foreign policy by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191F Seminar On the Washington Media 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Explores the rapidly changing relationship between the news media, political communication and governing. Complements the internship experience of students whose internship relates to the media by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191G Seminar On the Arts in Washington 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. How do the Arts function in American institutions and society? How can we improve this constantly shifting interface? Complements the internship experience of students with internships in the arts by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191H Seminar in Health Policy 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Examines the shape of the US health care system, and the trail of public health care policies. Complements the internship experience of students whose internships related to health care by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191I Seminar On the United States Supreme Court 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of the instructor; admission to the UCR Washington Center program. Introduces the Supreme Court of the United States as a legal, political and cultural institution. Complements the internship experience of students whose internship relates to law and the courts by connecting their internship experience to a focused research project. Guides students through the process of conducting focused and detailed research. Satisfactory (S) or No Credit (NC) grading is not available.

UCDC 191M Seminar in Washington, D.C. 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): upper-division standing or consent of instructor; admission to the UCR Washington Center Program. Examines aspects of the Washington, D.C., area, including cultural, political, and governmental institutions as well as the sciences, arts, and media. Requires a substantial research paper or project, the result of guided independent work drawing on the unique aspects of Washington, D.C. Satisfactory (S) or No Credit (NC) grading is not available.

UNIVERSITY HONORS

Subject abbreviation: HNPB
College of Humanities, Arts, and Social Sciences

Richard A. Cardullo, Ph.D.,
Howard H Hays, Jr. Endowed Chair and
Faculty Director, University Honors;
381 Skye Hall
(951) 827-5323; honors@ucr.edu
honors.ucr.edu

Outstanding students from all majors can participate in University Honors. University Honors challenges students to take an active role in shaping their education through a variety of curricular, co-curricular, extra-curricular, and service-learning opportunities. Students benefit from University Honors staff support, in the areas of academic counseling, professional development, and guidance on applying for internships, fellowships, awards, and graduate or professional school. A study room, student lounge, and printing privileges are available to University Honors students.

First-Year Experience

Admission to the first-year cohort in University Honors is based on high school grade point average and the successful completion of a University Honors admission application. During the first-year, students take required University Honors courses, participate in University Honors programs and events, and receive guidance from University Honors Counselors. First-year courses expose students to innovative teaching methods, interdisciplinary thinking, and increased depth of course content. One goal of University Honors courses is to expose students to methods of conceptualizing issues and framing questions that promote scholarship, engagement, and student success.

Second-Year Experience

The second-year cohort in University Honors is designed to expose students to the concept of civic engagement, and to introduce them to the abundance of opportunities available to undergraduate students at UC Riverside. During the second-year, students engage in scholarly experiences that will allow them to interact with faculty members and begin considering topics for their eventual capstone projects. The second-year cohort consists of continuing first-year University Honors students, as well as high-achieving UCR students who did not have the opportunity to participate in the first-year cohort. Admission to the second-year cohort is based on a specified UCR cumulative grade point average and the successful completion of a University Honors admission application.

Upper-Division Experience

The upper-division curriculum provides students with the framework to produce a capstone project, resulting from faculty-mentored, undergraduate research. This structure is adaptable to almost any major and allows each student the flexibility to work with a faculty-mentor to shape a research program to meet the ambitions of the project. We have excellent student-faculty research and leadership opportunities for juniors and seniors participating in University Honors.

Continuing UCR students with an excellent academic record may apply to participate in University Honors. Students who transfer to UCR as juniors with excellent academic records may also apply to University Honors. During the junior year, students narrow their research focus, select a faculty-mentor, and prepare to undertake the capstone project. The program provides support in all phases of this planning. The capstone project is usually undertaken by the beginning of the senior year and is completed well before graduation. The completed capstone project is submitted to the student's faculty-mentor for approval. Completion of an approved capstone project, and satisfaction of all other University Honors requirements, will qualify a student for graduation with University Honors distinction, which is noted on the official transcript.

Lower-Division Courses

HNPG 001A Transition to UCR and Success in Honors 2

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Provides challenges to the current perceptions of success in college and guidance on how to become an expert learner in college. Presents an "inside-out" approach to taking a proactive role in one's education. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 001B Motivation of a University Honors Student 2

Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Investigates what motivates people to act like they do. Refers to experiments in human behavior to challenge societal norms and enable questioning of personal beliefs as related to motivation. Provides challenges to how one views education and the world. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 002W Principles of Civic

Engagement 4 Lecture, 3 hours; workshop, 1 hour. Prerequisite(s): ENGL 001B with a grade of C or better; admission to the University Honors Program. Aims to cultivate, enhance, and facilitate interest in social change. Bridges the academic and personal life by providing knowledge and tools for civic engagement. Fulfills the third-quarter writing requirement for students who earn a grade of "C" or better for courses that the Academic Senate designates, and that the student's college permits, as alternatives to English 001C. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 003 Implementing Civic Engagement

I 1 Workshop, 1 hour. Prerequisite(s): HNPG 002W with a grade of B or better; admission to the University Honors Program. Guides through the initiation, planning, research, and implementation of a civic engagement plan. Applies the principles of civic engagement towards creating social change on campus and in the community. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 004 Implementing Civic Engagement

II 1 Workshop, 1 hour. Prerequisite(s): HNPG 003 with a grade of B or better; admission to the University Honors Program. Continues the process of working on the research,

implementation, assessment, and presentation of a selected civic engagement project initiated in HNPG 003.

HNPG 009 Honors Workshop 2 Workshop, 1 hour; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores civic engagement and its role in liberal arts education. Includes opportunity for dialogue, clarification of values and beliefs, and deeper exploration of topics that develop critical thinking and communication. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 010 First-Year Colloquium 1 Colloquium, 1 hour. Prerequisite(s): open only to students in the University Honors Program who are freshmen or first-year transfer students. Introduces students to academic research conducted by UCR faculty. Presentations are multidisciplinary and cover the sciences, humanities, and social sciences. Graded Satisfactory (S) or No Credit (NC).

HNPG 012 Global Health, Agriculture, and

Economic Development 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Focuses on human health and agriculture in developing countries and their relationship to global poverty, economic development, and technology. Emphasizes developing solutions using an interdisciplinary focus. Provides potential leadership skills in addressing worldwide poverty. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 015 Ignition Seminar in

Honors 4 Seminar, 3 hours; term paper, 1 hour; activity, 2 hours. Prerequisite(s): admission to the University Honors Program. Addresses interdisciplinary topics drawn from the arts, business, engineering, humanities, natural sciences, or social sciences. Provides opportunities to explore what the university has to offer. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 016 Ignition Seminar in

Humanities 4 Seminar, 3 hours; activity, 3 hours. Prerequisite(s): admission to the University Honors Program. Addresses interdisciplinary topics drawn from the humanities. Topics vary from quarter to quarter. Satisfactory(S) or No Credit(N/C) is not available. Fulfills the Humanities requirement for the College of Humanities, Arts, and Social Sciences.

HNPG 017 Ignition Seminar in Social

Sciences 4 Seminar, 3 hours; activity, 3 hours. Prerequisite(s): admission to the University Honors Program. Addresses interdisciplinary topics drawn from the Social Sciences. Topics vary from quarter to quarter. Satisfactory(S) or No Credit(N/C) is not available. Fulfills the Social Sciences requirement for the College of Humanities, Arts, and Social Sciences.

HNPG 018 Ignition Seminar in Interdisciplinary

Studies 4 Seminar, 3 hours; activity, 3 hours. Prerequisite(s): admission to the University Honors Program. Addresses interdisciplinary topics drawn from the humanities and social sciences. Topics vary from quarter to quarter. Satisfactory(S) or No Credit(N/C) is not available. Fulfills either the Humanities or Social Sciences

requirement for the College of Humanities, Arts, and Social Sciences, but not both.

HNPG 025 (E-Z) Honors Sem - Physical

Sciences 4 Seminar, 3 hours. Introduces research and methods at the frontiers of one or more of the Physical Sciences. Topics and instructors vary from year to year and are chosen by the Honors Program Executive Committee in consultation with departments. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 025G Testament of Time 4 Seminar, 3 hours; field trip, 20 hours per quarter, term paper, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Considers the relationship between individuals and the history of Earth by exploring the means through which knowledge of Earth's history is acquired. Topics include the development of religious, philosophical, and scientific world views, as well as the relevance of these views in a time of global change. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 031 (E-Z) Honors Seminar in the Fine

Arts 4 Seminar, 3 hours. Introduces research and methods at the frontiers of one or more of the Fine Arts. Topics and instructors vary from year to year and are chosen by the Honors Program Executive Committee in consultation with departments. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 031E Art History: Artists in Traditional

China 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Investigates how artists lived and worked in traditional Chinese society. Focusing on artists active in late imperial China, examines their education and aesthetic values, their social and economic lives, and the production, exchange, and consumption of their work. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 031F Art History: the Home in Modern

Architecture and Art 4 Seminar, 3 hours; term paper, 2 hours; written work, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Examines women's roles in the creation and production of domestic space, feminist critiques of the "feminine mystique," the "woman's place" in the home, and current alternative models of domestic space and domesticity, as formed and performed in artistic and architectural production. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 031J Art History: History and Ideology

of the Museum 4 Seminar, 3 hours; research, 3 hours; extra reading, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores the history and function of museums, the culture of displays, and the ideology of collecting. Analyzes the historical circumstances, political ideologies, and display strategies of princely and public collections. Students study how artifacts function in the construction of cultural and national identity. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 031M Music: Music and Everyday

Life 4 Seminar, 3 hours; research, 3 hours.

Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores the importance of music in everyday life and helps students construct a set of critical tools for considering how and why people use music in their daily lives. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 031Q Theatre: Who Is Hamlet, and Why Should You Care? 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores interpretations of the text of Hamlet. Addresses the artistic, social, religious, political, and psychological aspects of the text, as well as how it continues to maintain contemporary relevance. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036 (E-Z) Honors Seminar in History 4 Seminar, 3 hours. Introduces research and methods at the frontiers of history. Topics and instructors vary and are chosen by the Honors Program Executive Committee in consultation with departments. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 036F History: Africans in Medieval Europe--Rulers, Saints, Warriors, and Servants 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Examines the political, economic, religious, and cultural dimensions of the historical societies of Sudanic Africa. Also explores European religious and secular imagery of Africans and the representations of Africans in different written sources such as epics and Crusaders' chronicles. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036I History: the Silk Road--Commerce in Culture and Religion 4 Seminar, 3 hours; ; term paper, 2 hours; extra reading, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores human culture and civilization along the 4,000-mile Silk Road through physical and human geographies and considers the major civilizations that developed in East and Central Asia. Discusses the clash and blending of different cultures by surveying economic and cultural commerce, the spread of three major religions, and art in the eastern sections. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036J History: the Arts and History--From Slavery to the Jazz Age 4 Seminar, 3 hours; extra reading, 2 hours; term paper, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Discusses human feeling as a factor in shaping the past. For example, the uses of folk dance and music in New York's Pinkster festival (1750-1840) are considered and related to political developments in the larger society. The works of Herman Melville Benito Cereno, Arna Bontemps Black Thunder, Mark Twain Huckleberry Finn, and Paule Marshall Praise Song for the Widow are read for what they reveal of the historical process. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036K History: History and the Grand Canyon 4 Seminar, 3 hours; field trip, 35 hours

per quarter. Prerequisite(s): admission to the University Honors Program or consent of instructor. An exploration of the role of place in science. Introduces the natural history and human history of the Grand Canyon and the Colorado Plateau, with particular focus on geological, archaeological, and biological investigations of the nineteenth and twentieth centuries. Students participate in a field trip to the canyon and vicinity. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036M Honors Seminar in History 4 Seminar, 3 hours; research, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Examines Imperial Russia (1762-1917) through the prism of women's lives. Seminar sessions are devoted to the careful analysis and discussion of historical sources. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036N History: Gender and Sexuality in Ancient Rome 4 Seminar, 3 hours; term paper, 1 hour; research, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Examines the roles of gender and sexuality as depicted in Roman literature and historical materials by analyzing marginal groups represented in ancient texts. Focuses on the late republic and principate periods, particularly the transition from the Republic to the Empire. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036P History: the Bosnian Genocide in Historical Perspective 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores the historical contexts of the Yugoslav crisis, beginning with an examination of the tragic events of the 1990s. Continues with an in-depth study of south Slavic history from Ottoman times to the devastation of World War II. Includes discussion of the histories and national mythologies of Croatia, Bosnia, Macedonia, Albania, and Serbia. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036R History: Nazi Germany 4 Seminar, 3 hours; extra reading, 2 hours; term paper, 1 hour; research, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Covers Nazi Germany between 1933 and 1945. Discusses Hitler, women, art and culture, society, the economy, and everyday life, as well as World War II and the Holocaust. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036S History: Water Worlds and Water Wars--A History of Water 4 Seminar, 3 hours; research, 2 hours; term paper, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores local and global implications of water issues, current challenges in environmental research for water management, and cultural and historical connotations of water. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036T History: Human Rights in Latin America 4 Seminar, 3 hours; term paper, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. An introduction to recent human rights

issues in Latin America. Addresses potential causes and the societal response to these issues. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 036V Hunger and Famine in the Modern World 4 Seminar, 3 hours; term paper, 1.5 hours; written work, 1.5 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Examines the analytical frameworks available to understand hunger and famine and applications of specific moments of penury in Europe, Southeast Asia, and Africa. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 038 (E-Z) Honors Seminar in Philosophy 4 Seminar, 3 hours. Introduces research and methods at the frontiers of philosophy. Topics and instructors vary and are chosen by the Honors Program Executive Committee in consultation with departments. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 038J Philosophy: the Primal Crime of Southern California 4 Seminar, 3 hours; research, 1 hour; extra reading, 1 hour; term paper 1 hour; screening, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. An examination of Southern California history and values focusing primarily on the literature of crime and murder concerning the Southland, in particular the works of Raymond Chandler, Ross McDonald, and Robert Mosley. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 038K Philosophy: Poetry 4 Seminar, 3 hours; term paper, 2 hours; research, 1 hour. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores the distinctiveness of poetic language, poetic articulation of philosophic ideas and systems, and the relevance of philosophic articulation of poetry. Discusses "Three Philosophical Poets", by George Santayana, and the works of several contemporary poets. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 038M Philosophy: the Infinite 4 Seminar, 3 hours; extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Examines the notion and the theories of the infinite, as they have played a role in physics (cosmology, microphysics), mathematics (the calculus, Cantor's set theory), art (Escher, Borges), and philosophy (from the ancient Greeks to the twentieth century). Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 042 (E-Z) Honors Sem - Anth, Psyc, & Soc 4 Seminar, 3 hours. Introduces research and methods at the frontiers of one or more of the following areas: Anthropology, Psychology, and Sociology. Topics and instructors vary from year to year and are chosen by the Honors Program Executive Committee in consultation with departments. Satisfactory(S) or No Credit(N/C) is not available.

HNPG 042K Psychology: the Doctor-Patient Relationship in the Changing Health Care Environment 4 Seminar, 3 hours; written work and extra reading, 3 hours. Prerequisite(s): admission to the University Honors Program or

consent of instructor. Introduces psychological theory and research on the physician-patient relationship, focusing on communication, patient adherence, and the outcomes of care. Explores how recent changes in health care delivery and financing affect trust in the therapeutic relationship. Considers issues of medical ethics. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 042M Psychology: Nonverbal Communication and Personal Charisma 4

Seminar, 3 hours; research, 3 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Introduces social scientific thinking about nonverbal communication, with an emphasis on research methods for studying face-to-face interaction. Students learn how to frame questions about social issues and to collect data to answer these questions. Focus is on the ways quantifiable expressive elements of personal charisma communicate status and solidarity in social interaction. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 042N Psychology: Applied Principles of Health and Wellness 4

Seminar, 3 hours; written work, 1 hour; research, 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Explores health, wellness, and lifestyle issues in contemporary life. Examines personal and societal attitudes along with methods for improving quality of life through behavior modification. Topics include the mind-body connection, physical health and functioning, stress management and emotional well-being, relationships and communication skills, sexuality, spirituality, and career choices. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 090 Special Studies 2 to 4 Consultation, 1 hour; research, 6 to 12 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor; a written proposal approved by the program chair. Structured to meet specific educational needs. Addresses course content, style, and requirements determined in collaboration with the instructor. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 4 units.

HNPG 096A Foundations of Leadership:

Leadership Success Strategies 4 Seminar, 3 hours; term paper, 2 hours; written work, 2 hours. Prerequisite(s): admission to the University Honors Program (UHP) or consent of instructor; consent of the Director of the UHP. An introduction to leadership theory, ideology, language, and skills development. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 096B Ethical Leadership in Practice:

Philosophy of Leadership 4 Seminar, 3 hours; term paper, 2 hours; extra reading, 2 hours. Prerequisite(s): admission to the University Honors Program (UHP) or consent of instructor; consent of the Director of the UHP; HNPG 096A. An introduction to the nature, styles, skills, and concepts of ethical leadership that utilizes historic and contemporary models and emphasizes moral roots of responsible leadership. Examines an array of leadership styles and ethical considerations for leaders.

Students apply what they are learning through campus and community involvement. Satisfactory (S) or No Credit (NC) grading is not available.

HNPG 096C Mentors in Action: Student

Leadership and Communities 4 Seminar, hours; extra reading, 2 hours; practicum, 6 hours. Prerequisite(s): admission to the University Honors Program (UHP) or consent of instructor; consent of the Director of the UHP; HNPG 096A. Provides leadership experiences and the opportunity to develop leadership skills through the planning and implementing of student activities and services. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 8 units.

HNPG 097 Honors Lower-Division Research 2

to 4 Consultation, 1 to 4 hours; research, 2 to 4 hours; term paper, 2 to 4 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor; consent of the University Honors Program. Independent research or projects completed in consultation with a faculty member. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 4 units.

HNPG 098I Honors Individual Internship 2

to 4 Consultation, 1 to 2 hours; internship, 4 to 8 hours; written work, 1 to 2 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor. Internship placement on or off campus that provides opportunities to acquire skills and experience for future endeavors. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 4 units.

Upper-Division Courses

HNPG 150 Research and Creative Activity

Across the Disciplines 4 Lecture, 1 hour; discussion, 1 hour; research, 4 hours; written work, 2 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; admission to the University Honors Program. Addresses the questions "What is knowledge?" and "What is research?". Illustrates how researchers select a significant issue, review what is already known about it, and pose a research question whose answer promises to advance knowledge. Explores ways in which these processes differ across the humanities, social sciences, and natural sciences. Satisfactory (S) or No Credit (N/C) is not available.

HNPG 151 Individual Projects in Research Or

Creative Activity 2 Lecture, 1 hour; research, 3 hours. Prerequisite(s): HNPG 150 with a grade of S or better; Restricted to class level standing of junior, or senior; admission to the University Honors Program. Under the direction of University Honors Faculty Fellows, facilitates the discovery, design, and development of a capstone project to be pursued during the senior year. Graded Satisfactory (S) or No Credit (NC).

HNPG 190 Special Studies 1 to 4

Consultation, 1 hour; research, 3 to 12. Prerequisite(s): good standing; admission to the upper-division University Honors Program or consent of instructor; a written proposal approved by the program chair. Structured to meet

specific educational needs. Addresses course content, style, and requirements determined in collaboration with the instructor. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

HNPG 195H Senior Honors Thesis 1 to 4

Thesis, 3 to 12 hours. Prerequisite(s): admission to the University Honors Program; senior standing. Students complete research and write and present a senior honors thesis under the guidance of a faculty member of the University Honors Program. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

HNPG 197H Honors Research For

Undergraduates 1 to 4 Research, 3 to 6 hours; individual study, 3 to 6 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor; upper-division standing. An introduction to research under the supervision of University Honors Program faculty. Requires a research project. Satisfactory (S) or No Credit (NC) grading is not available. Course is repeatable to a maximum of 12 units.

HNPG 198I Honors Individual Internship 1

to 4 Consultation, 1 hour; internship, 3 to 12 hours; written work, 1 to 4 hours. Prerequisite(s): admission to the University Honors Program or consent of instructor; upper-division standing. Internship placement on or off campus that provides opportunities to acquire skills and experience for future endeavors. Students who submit a term paper receive a letter grade; other students receive a Satisfactory (S) or No Credit (NC) grade. Course is repeatable to a maximum of 12 units.

HNPG 199H Senior Honors Research 1 to

5 Research, 2 to 10 hours; term paper, 1 to 5 hours. Prerequisite(s): HNPG 150; admission to the University Honors Program. Research in support of the University Honors capstone project under supervision of a faculty mentor. Graded In Progress (IP) until the final quarter is completed, at which time a final grade is awarded. Course is repeatable to a maximum of 12 units.

Elective Discipline-Specific Honors Courses

A number of approved honors courses are offered by many departments. These courses are given an "H" designation. See departmental listings for details.

URBAN STUDIES MINOR

Subject abbreviation: URST
College of Humanities, Arts,
and Social Sciences

Patricia Morton, Ph.D., Chair
Office, 221 Arts Building
(951) 827-2698; urbanstudies.ucr.edu

Committee in Charge

Richard Arnott, Chair (Economics)
John Ganim (English)
Pat Morton (Art History)
Milagros Peña, Dean, *ex officio*

The Urban Studies minor is an adaptation of a well-developed interdisciplinary focus on urban concepts, issues, and problems in order to offer the chance for increased understanding of urban processes. The minor also provides preparation leading to increased employment opportunities at the municipal, state, or federal level, or to graduate work in one of several areas related to urban studies.

Requirements for the minor (24 units)

1. SOC 002F
2. URST 143/SOC 143
3. URST 146/ECON 146
4. URST 172/POSC 172
5. URST 182/SOC 182
6. URST 184/AHS 184

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.

Lower-Division Courses

URST 014 Popular Musics of the

World 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. Introduction to issues surrounding popular and urban musics of the world, focusing on three major geocultural areas: Africa, Asia, and the Americas. Emphasizes the relationship between mass-mediated music and issues of cultural hegemony, resistance, and subversion. Analyzes the cultural impact of media technology on music performance and reception. Cross-listed with ETST 014, and MUS 014.

URST 021 Introduction to Architecture and

Urbanism 4 Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): none. An introduction to the built environment including buildings, gardens, and cities, examined in terms of historical, cultural, social, technological, and political factors. Emphasis is on examples from Southern California. Cross-listed with AHS 021.

URST 143 Urban Sociology 5

Lecture, 3 hours; extra reading, 3 hours; field, 3 hours. Prerequisite(s): SOC 001 or SOC 001H or consent of instructor. A comparative examination of metropolitan and other urban communities, with emphasis on processes of urbanization. Cross-listed with SOC 143.

URST 146 Urban Economic Problems 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s):

ECON 104A. Applies economic principles to the major problems of the modern urban community such as poverty, discrimination, deterioration of the environment, and housing problems. Explores programs for alleviation of or solution to these issues. Cross-listed with ECON 146.

URST 172 Urban Politics and Policies 4

Lecture, 3 hours; term paper and extra reading 3 hours. Prerequisite(s): upper-division standing; POSC 010 or POSC 010H or POSC 010W. A general analysis of urban politics in the United States. Topics include theories of urban politics, structure of political competition, leading political roles, and major policy problems. Cross-listed with POSC 172.

URST 178 The Modern City 4

Lecture, 3 hours; research, 3 hours. Prerequisite(s): Restricted to class level standing of sophomore, junior, or senior; or consent of instructor. Examines the modern metropolis from the Industrial Revolution to the present. Explores the history and theory of modern urbanism through case studies of metropolitan areas with a rich urban culture, architecture, and morphologic features. Investigates approaches to the problems of the large urban agglomeration in the context of social Cross-listed with AHS 178.

URST 182 Urban Problems 4

Lecture, 3 hours; term paper, 3 hours. Prerequisite(s): upper-division standing or consent of instructor. An interdisciplinary examination of selected urban problems such as civil disorders, transportation, housing, welfare, and planning. Cross-listed with SOC 182.

URST 184 Modern Architecture 4

Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. Explores modern architecture and its sources from 1800 to the present. Cross-listed with AHS 184.

URST 185 Architectural Theory From Vitruvius

to Venturi 4 Lecture, 3 hours; individual study, 3 hours. Prerequisite(s): sophomore, junior, or senior standing; or consent of instructor. History of architectural thought from Vitruvius to the present, emphasizing the modern period. Surveys the major themes of architectural theory and investigates the relationships between ideas about architecture and architectural production. Cross-listed with AHS 185.

Committee in Charge

Cliff Trafzer, Chair (History)
Rebecca Kugel (History)

Michelle Raheja (English)
Jason Weems (History of Art)
Milagros Peña, Dean, *ex officio*

The Western American Studies minor is intended to provide the student with a basic understanding of the history and institutional development of the Western United States — the Great Plains, the Southwest, and California — including the geographical and cultural factors that have shaped their history.

Requirements for the Western American Studies minor are 20 units distributed as follows:

1. HISA 137, HISA 138
2. One course from each of the following groups:
 - a) ETST 004/HIST 004, ETST 180/HISA 140, ETST 181/HISA 141, ETST 182/HISA 142, ETST 183/HISA 143
 - b) ANTH 115E, ANTH 140F, ETST 110M
 - c) ETST 108-I, ETST 108L, ETST 110K

History majors are not allowed to count HISA 137 or HISA 138 toward both their major and a minor in Western American Studies. If HISA 137 or HISA 138 is counted toward the major, then for the minor and additional course from (a) and an additional course from (b) are required.

See Minors under the College of Humanities, Arts, and Social Sciences in the Colleges and Programs section of this catalog for additional information on minors.
